Polices – Alcohol & Other Drugs

As an academic community, **The University of Colorado Denver** is committed to providing an environment in which learning and scholarship can flourish. The possession or use of illegal drugs, or the abuse of those which may otherwise be legally possessed, seriously affects the University environment, as well as the individual potential of our students and employees. The University enforces state laws and related University policies, including those prohibiting the following activities on campus:

- A. Providing alcoholic beverages to individuals under 21 or possession or consumption of alcoholic beverages by individuals under 21.
- B. Distribution, possession, or use of illegal drugs or controlled substances.
- C. Unauthorized possession of firearms or other dangerous or illegal weapons.

The abuse of alcohol and other drugs by students, regardless of age and of location (on-campus or off-campus), is prohibited by the Student Code of Conduct and Ethics and Professionalism codes of the University of Colorado Denver. This includes on- or off-campus activities sponsored by the University, such as officially sanctioned field trips, student-sponsored social activities, club sports travel, as well as activities of a student organization recognized by the institution. Professional meetings attended by employees and institution-sponsored activities abroad also fall under this code of conduct. The University can, and will, impose disciplinary sanctions for violations. Students are also subject to city ordinances and state and federal laws. A separate policy addresses violations by University staff and faculty members.

The University strongly encourages students, staff and faculty to voluntarily obtain assistance for a dependency or abuse problem before such behavior results in an arrest and/or disciplinary referral, which might result in their separation from the institution.

The use of, or addiction to, alcohol, marijuana, or controlled substances is not considered an excuse for violations of the Student Code of Conduct or staff and faculty expectations, and will not be a mitigating factor in the application of appropriate disciplinary sanctions for such violations.

Help is available both on campus and within the community for students, staff and faculty who are dependent on, or who abuse the use of alcohol or other drugs. Services are available at the Student and Community Counseling Center (303-315-7270) for students, and the Colorado State Employee Assistance Program: CSEAP (303-866-4314) for University staff and faculty. These resources as well as other professional agencies will maintain the confidentiality of persons seeking help for personal dependency and will not report them to institutional or state authorities. The CU Denver Health Promotion and Engagement Coordinator (303-315-4009) provides educational and awareness programming, information, and assistance for CU Denver students.

Student Sanctions

Underage students confronted by the institution for the consumption of alcohol will face disciplinary sanctions including, but not limited to, a warning, bystander class, online class, face-to-face class, reflection paper, personal success plan, counseling referral, alcohol assessment, disciplinary probation, disciplinary probation with loss of good standing, suspension, and expulsion.

Students whose use of alcohol or drugs results in harm or the threat of harm to themselves or others, or to property, regardless of the location of the incident, may face disciplinary action by the University up to and including expulsion.

CU Denver

Testing for the presences of illegal substances may be a condition of any probationary status imposed by the University for Violations of drug-related provisions of this policy. CU Denver students sanctioned for testing does require the student to find and pay for the testing outside of the campus community as the campus does not have the resources to conduct the testing on campus. Any student with a positive result, as described above, may face disciplinary action by the University up to and including expulsion.

Commonly Imposed Disciplinary Sanctions for On-Campus Policy Violations for Denver students:

Policy Violation	Other Typical Sanctions - 1st Offense	Typical Sanctions – 2nd Offense

Conveying marijuana or a controlled substance to another person	Drug assessment, possible suspension, or expulsion.	Suspension or expulsion.
Possession of firearms or other dangerous weapons (not concealed carry permit holder).	Suspension or expulsion.	Suspension or expulsion.

Employee Sanctions

The University prohibits the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance (illicit drugs and alcohol). These prohibitions cover any individual's actions which are part of University activities, including those occurring while on University owned or leased property or in the conduct of University business away from the campus.

It is a violation of University policy for any member of the faculty, staff, or student body to jeopardize the operation or interests of the University of Colorado through the use of alcohol or drugs. Sanctions that will be imposed by the University of Colorado for employees who are found to be in violation of this policy may include expulsion and/or termination of employment. Compliance with this policy is a condition of employment for all employees.

Colorado Marijuana Laws

Persons must be at least 21 years of age to buy, possess or use retail marijuana. It is illegal to give or sell retail marijuana to minors. Adults 21 and older can purchase and possess up to 1 ounce of retail marijuana at a time.

Medical marijuana requires a state Medical Marijuana Registry Card, which can only be obtained by Colorado residents with a recommendation from a physician (MD or DO) that a patient suffers from a debilitating medical condition that may benefit from medical marijuana. Medical marijuana patients can obtain marijuana from a licensed center, a primary caregiver or self-grow.

Retail marijuana is intended for private, personal use. Such use is only legal in certain locations not open or accessible to the public. Marijuana may not be consumed openly or publicly. This includes but is not limited to areas accessible to the public such as transportation facilities, schools, amusement/sporting/music venues, parks, playgrounds, sidewalks and roads and outdoor and rooftop cafes. It is also illegal to smoke at indoor-but-public locations like bars, restaurants, and common areas in buildings.

It is illegal to drive under the influence of marijuana and it can result in a DUI, just like alcohol. Anyone with 5 nanograms or more of delta 9-tetrahydrocannabinol (known as THC) per milliliter in whole blood (CRS 42-4-1301) while driving can be arrested for DUI. The consequences of DUI are dependent on the driver but they can include fines, jail time and a revoked license.

Local Drug Laws

Denver Marijuana Laws

Sec. 38-175. - Possession or consumption of marijuana.

(a) It shall be unlawful for any person under the age of twenty-one (21) to possess one (1) ounce or less of marijuana.

(b) It shall be unlawful for any person to openly and publicly display or consume one (1) ounce or less of marijuana.

(1) The term "openly" means occurring or existing in a manner that is unconcealed, undisguised, or obvious.

(2) The term "publicly" means:

- a. Occurring or existing in a public place; or
- b. Occurring or existing in any outdoor location where the consumption of marijuana is clearly observable from a public place.

(3) The term "public place" means a place to which the public or a substantial number of the public have access, and includes, but is not limited to, streets and highways, transportation facilities, schools, places of amusement, parks, playgrounds, and the common areas of public and private buildings or facilities.

(c) It shall be unlawful for any person within one thousand (1,000) feet of the perimeter of any public or private elementary school, middle school, junior high school, or high school to display, transfer, distribute, sell, or grow marijuana upon any city-owned street or sidewalk or upon any other property owned by the city.

(d) For the purposes of this section, section 38-175.5, and section 39-10, the term "marijuana" shall mean and include all parts of the plant of the genus cannabis whether growing or not, the seeds thereof, the resin extracted from any part of the plant, and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or its resin, including marijuana concentrate. "Marijuana" does not include industrial hemp, nor does it include fiber produced from the stalks, oil, or cake made from the seeds of the plant, sterilized seed of the plant which is incapable of germination, or the weight of any other ingredient combined with marijuana to prepare topical or oral administrations, food, drink, or other product.

(e) It shall not be an offense under subsection (b) of this section if the consumption of marijuana is occurring on private residential property and the person consuming the marijuana is:

- (1) An owner of the property; or
- (2) A person who has a leasehold interest in the property; or
- (3) Any other person who has been granted express or implied permission to consume marijuana on the property by the owner or the lessee of the property.

(f) Any violation of this section is hereby declared to be a non-criminal violation and, upon an admission or finding or judgment of guilt or liability by default or otherwise, the violator shall be subject to the following maximum penalties:

- (1) First violation: One hundred and fifty dollars (\$150.00).
- (2) Second violation: Five hundred dollars (\$500.00).
- (3) Third and each subsequent violation: Nine hundred and ninety-nine dollars (\$999.00).

If the violator is under the age of eighteen (18) years of age at the time of the offense, any fine imposed may be supplanted by treatment as required by the court.

Federal Drug Laws

The possession, use, or distribution of illicit drugs is prohibited by federal law. Strict penalties are enforced for drug convictions, including mandatory prison terms for many offenses. The following information, although not complete, is an overview of federal penalties for first convictions. All penalties are doubled for any subsequent drug conviction.

Denial of Federal Aid (20 USC 1091)

Under the Higher Education Act of 1998, students convicted under federal or state law for the sale or possession of drugs will have their federal financial aid eligibility suspended. This includes all federal grants, loans, federal work-study programs, and more. Students convicted of drug possession will be ineligible for one year from the date of the conviction of the first offense, two years for the second offense, and indefinitely for the third offense. Students convicted of selling drugs will be ineligible for two years from the date of the first conviction, and indefinitely for the second offense. Those who lose eligibility can regain eligibility by successfully completing an approved drug rehabilitation program.

Forfeiture of Personal Property and Real Estate (21 USC 853)

Any person convicted of a federal drug offense punishable by more than one year in prison shall forfeit to the United States any personal or real property related to the violation, including houses, cars, and other personal belongings. A warrant of seizure is issued and property is seized at the time an individual is arrested on charges that may result in forfeiture.

Federal Drug Trafficking Penalties (21 USC 841)

Penalties for federal drug trafficking convictions vary according to the quantity of the controlled substance involved in the transaction. The following list is a sample of the range and severity of federal penalties imposed for first convictions. Penalties for subsequent convictions are twice as severe.

If death or serious bodily injury result from the use of a controlled substance which has been illegally distributed, the person convicted on federal charges of distributing the substance faces mandatory life sentence and fines ranging up to \$8 million.

Persons convicted on federal charges of drug trafficking within 1,000 feet of a University (21 USC 845a) face penalties of prison terms and fines which are twice as high as the regular penalties for the offense, with a mandatory prison sentence of at least 1 year.

Prevention and Education

The Office of Health Promotions offers prevention and education programming on alcohol and drug use at CU Denver. Additional programming and education is offered through the Auraria Health Center and the Student and Community Counseling Center. As mandated by the Drug-Free Schools and Communities Act, this DAAPP report is distributed to all students, staff and faculty on an annual basis; and during every even year, a biennial review of the comprehensive alcohol and other drug program is conducted. For more information concerning current programs, interventions and policies, contact:
