

PROGRAM OVERVIEW

The only program of its kind in the Rocky Mountain region, CU Denver offers an accredited music bachelor's degree that prepares undergraduates to work as audio engineers with acoustic recording and editing. Students learn from expert faculty and from each other, completing 6-7 semesters of audio production course work and developing a professional-level portfolio. Recording Arts covers technical fundamentals and then moves beyond the basics to explore theories supporting advanced problem-solving and technique, as well as creative music mixing strategies.

We offer more than a technical training program – we study the theories behind the practice and thereby promote an advanced understanding of the field. Moreover, CU Denver Recording Arts students are also music students, complementing their recording arts preparation with courses in music business, musicianship, and performance. Through this well-rounded education, our undergraduates develop their understanding of music, hone their critical listening skills, and are more competitive in the professional world.

ACADEMIC ADVISING

Freshmen with fewer than 30 credits and/or CAM students who are Undeclared are assigned to the Center for Undergraduate Exploration and Advising (CUE&A). All other College of Arts & Media (CAM) students with more than 30 credits who have declared CAM majors are assigned to the CAM Office of Advising and Student Services.

Students can connect with the internal CAM admissions team to learn more about the program, additional admission requirements, spaces, equipment and technology.

Students with a declared CAM major that have more than 30 credits are encouraged to meet with a CAM advisor every semester prior to registration.

Freshmen with fewer than 30 credits and/or CAM students that are Undeclared students are assigned to the Center for Undergraduate Exploration and Advising. These students are required to meet with an advisor every semester prior to registration.
