The principal areas of study in finance are financial management in small and large businesses, investments, financial institutions, and international finance. The study of finance is intended to provide an understanding of fundamental theory and practice pertaining to finance; to make sound financial decisions. Students are taught to think logically about financial problems, so that they can formulate and implement value maximizing decisions and policies for the business. For this purpose, it is necessary to understand the importance of finance in the economy and the functions and purposes of monetary systems, credit, prices, money markets, and financial institutions. Emphasis is placed on financial policy, management, control, analysis, and decision making.

The finance major provides students with the skills to succeed in all areas of finance. Numerous job opportunities exist in the field of business finance and with financial institutions, mutual funds, securities firms, personal wealth management firms, and financial planning firms including positions involving an understanding and sale of securities.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major in the College of Liberal Arts & Sciences. Click here (p. 132) to go to information about declaring a major in the Business School.

These degree requirements are subject to periodic revision by the academic department, and the Business School and College of Liberal Arts and Sciences reserve the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, students should consult regularly with their major advisors and CLAS advisor to confirm the best plans of study before finalizing them.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- Business School Graduation Requirements (p. 130)

- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 62 credit hours from approved major courses.
2. Students must complete a minimum of 18 upper division (3000-level and above) ECON credit hours, with a minimum of 12 at the 4000-level.
3. Students must earn a minimum grade of C-(1.7) in all ECON and FNCE courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. Courses taken on a P+/P/F or S/U basis will not count toward the major. Students must meet all minimum grade and GPA requirements for Business School Core courses and prerequisites as well.
4. Students must complete a minimum of 18 ECON credit hours including ECON 4811 Introduction to Econometrics, with CU Denver faculty. Once a student has enrolled at CU Denver, no more courses in the major can be taken outside the CU Denver Economics Department. This includes courses offered at Metropolitan State University. The department reserves the right to require a demonstration of competence for any core courses not taken from CU Denver faculty. Students must meet all minimum residency requirements for Business School courses and must complete MGMT 4500 Business Policy and Strategic Management with CU Denver faculty, as well.

Program Restrictions, Allowances and Recommendations

1. Students who carefully follow the recommended curriculum will be able to double count several courses, which will allow them to complete both degrees in 129 credit hours.
2. A minimum of 12 of the 18 upper division credit hours required must be completed with 4000 level and above courses.

Code	Title	Hours
<i>Business School Requirements</i>		
COMM 2050	Professional Presentations (Satisfies Business School and CLAS Communicative Skills graduation req.)	3
ECON 2012	Principles of Economics: Macroeconomics (Satisfies CU Denver Social Science Core and Business School Graduation Requirement)	3
ECON 2022	Principles of Economics: Microeconomics (Satisfies CLAS Social Science Graduation Requirement and Business School Graduation Requirement)	3
ENGL 3170	Business Writing (Satisfies Business School and CLAS Humanities graduation reqs)	3
MATH 1110	College Algebra (or higher level MATH course, Satisfies CU Denver Core Mathematics and Business School Graduation Requirement))	4

Other Business School Core Requirements can be found in the Business School catalog (see link below). Check with BUSN Advisor for more information

business school catalog/ (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/economics/graduationrequirements/text/>)

Business School Core

BLAW 3050	Business Law and Ethics (Satisfies Business School and CLAS Behavioral Science graduation req.)	3
ECON 3811	Statistics with Computer Applications (Satisfies BANA 2010 Business School Graduation Requirement)	4
<i>Complete the following Finance course requirements ¹</i>		18
FNCE 3500	Management of Business Capital (Complete the following Finance course requirements)	
FNCE 3600	Financial Markets and Institutions	
FNCE 3700	Investment and Portfolio Management	
FNCE 4370	International Financial Management (Satisfies the Business School International Studies graduation requirement)	
FNCE 4500	Corporate Financial Decisions	
<i>Complete three credits from 3000 or 4000-level FNCE courses. ²</i>		
<i>Complete the following Economics course requirements ³</i>		21
ECON 3801	Introduction to Mathematical Economics ³	
ECON 4071	Intermediate Microeconomic Theory	
ECON 4081	Intermediate Macroeconomic Theory	
ECON 4811	Introduction to Econometrics	
<i>Complete nine credit hours from 4000-level ECON courses. ²</i>		
Total Hours		62

¹ A grade of C or higher must be earned in all Business courses that are used as prerequisites.

² Economics internships and independent studies require approval of the Economics department chair in order to be given credit as an economics course.
A maximum of six credit hours of independent study may be applied towards the Finance degree requirements. Finance independent study request form must be signed by the student, the instructor, the program director and the Assistant Dean in order to be given credit as a finance course.

³ MATH 2411 Calculus II or MATH 2421 Calculus III with a grade of B or higher will satisfy the ECON 3801 Introduction to Mathematical Economics requirement. If a student completes ECON 3801 Introduction to Mathematical Economics, and then subsequently or concurrently completes MATH 2411 Calculus II, with a grade of B or higher, ECON 3801 Introduction to Mathematical Economics will be counted as an Economics 3000-level elective but will not be used as an elective for evaluation of Honors. However, if a student has already completed MATH 2411 Calculus II with a B or better, then ECON 3801 Introduction to Mathematical Economics taken subsequently cannot be counted as an elective.

To learn more about the Economics BA Student Learning Outcomes, please visit our website (<https://clas.ucdenver.edu/economics/programs/bachelor-arts/>).

To learn more about the Finance BS in Business Administration Student Learning Outcomes, please visit

our website (https://business.ucdenver.edu/bsba/finance/#careers_and_learning_outcomes-835).

To review the Degree Map for this program, please refer to the sequencing below or visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/business-school/>). Each student will have unique circumstances and needs, so everyone should consult with their advisors frequently to determine the best schedule each term and to stay on track.

Students are encouraged to take courses during summer terms, to balance their workload across each semester. Students who place into a MATH course lower than MATH 1110 and those who must complete one or two semesters of language should consult with their advisor to develop a more customized degree map.

To review a list of courses will fulfill CU Denver Core Arts, Behavioral Science, Humanities and Natural and Physical Sciences with and without a lab, please check the CU Denver Core Curriculum. (p. 120)

Course	Title	Hours
Year 1		
Semester 1

Economics, BA

Introduction

Please click here (p. 440) to see Economics department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 40 credit hours from approved major courses.
2. Students must complete a minimum of 18 upper division (3000-level and above) ECON credit hours, with a minimum of 12 at the 4000 level.
3. Students must earn a minimum grade of C-(1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. Courses taken on a P+/P/F or S/U basis will not count towards the major.
4. Students must complete a minimum of 18 ECON credit hours including ECON 4811 Introduction to Econometrics, with CU Denver faculty. Once a student has enrolled at CU Denver, no more courses in the major can be taken outside the CU Denver Economics Department. This includes courses offered at Metropolitan State University. The department reserves the right to require a demonstration of competence for any core courses not taken from CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. A minimum of 12 of the 18 upper division credit hours required must be completed with 4000 level and above courses.
2. MATH 2411 Calculus II or MATH 2421 Calculus III with a grade of B or higher will satisfy the ECON 3801 Introduction to Mathematical Economics requirement. If a student completes ECON 3801 Introduction to Mathematical Economics, and then subsequently or concurrently completes MATH 2411 Calculus II, with a grade of B or higher, ECON 3801 Introduction to Mathematical Economics will be counted as an Economics 3000-level elective but will not be used as

an elective for evaluation of Honors. However, if a student has already completed MATH 2411 Calculus II with a B or better, then ECON 3801 Introduction to Mathematical Economics taken subsequently cannot be counted as an elective.

Code	Title	Hours
<i>Complete all of the following required courses:</i>		22
ECON 2012	Principles of Economics: Macroeconomics	
ECON 2022	Principles of Economics: Microeconomics	
ECON 3801	Introduction to Mathematical Economics ¹	
ECON 3811	Statistics with Computer Applications	
ECON 4071	Intermediate Microeconomic Theory	
ECON 4081	Intermediate Macroeconomic Theory	
ECON 4811	Introduction to Econometrics	
<i>Complete six additional three-credit-hour courses in economics at the 3000-level or 4000-level; a minimum of 12 credits must be at the 4000-level. ²</i>		18
Total Hours		40

¹ MATH 2411 Calculus II or MATH 2421 Calculus III with a grade of B or higher will satisfy the ECON 3801 Introduction to Mathematical Economics requirement. If a student completes ECON 3801 Introduction to Mathematical Economics, and then subsequently or concurrently completes MATH 2411 Calculus II, with a grade of B or higher, ECON 3801 Introduction to Mathematical Economics will be counted as an Economics 3000-level elective but will not be used as an elective for evaluation of Honors. However, if a student has already completed MATH 2411 Calculus II with a B or better, then ECON 3801 Introduction to Mathematical Economics taken subsequently cannot be counted as an elective.

² Internships and independent studies require approval of the department chair in order to be given credit as an economics course.

Economics Minor

Introduction

Please click here (p. 440) to see Economics department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ECON credit hours.
2. Students must complete a minimum of nine upper division (3000-level and above) ECON credit hours.
3. Students must earn a minimum grade of C-(1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine ECON credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. At least two of the upper division courses must not overlap with courses for the student's major program.
2. All courses other than ECON 2012 Principles of Economics: Macroeconomics and ECON 2022 Principles of Economics: Microeconomics require written department approval to be transferred in as satisfying minor requirements.

Code	Title	Hours
<i>Complete the following required courses:</i>		6
ECON 2012	Principles of Economics: Macroeconomics	
ECON 2022	Principles of Economics: Microeconomics	
<i>Complete nine credit hours from upper-division (3000 level or higher) ECON electives.</i>		9
Total Hours		15

Health and Development Economics Undergraduate Certificate

Introduction

Please click here (p. 440) to see Economics department information.

There is an increasing need for individuals who understand health related issues and policies, particularly those affecting developing countries, and have the quantitative skills that enable them to analyze and present real-world data to support effective decision-making. The purpose of the Certificate in Health & Development Economics is to provide students with a strong foundation in economic concepts, data analysis, and policy issues pertaining to healthcare and economic development. Students will learn how to use data to develop and evaluate programs and policies using modern statistical methods. The certificate gives students the applied skills and institutional knowledge increasing in demand in the health research sector, enhancing the student's career and professional development. The certificate can also provide a springboard towards pursuing a graduate degree in Health Economics.

Program Delivery

- This is an on-campus and online program.

Declaring This Certificate

Admission Requirements

- Be a current CU Denver undergraduate or graduate student in any discipline, or a CU Denver non-degree seeking student with a Bachelor's degree.
- Have a GPA of 2.0 or higher
- Have completed intermediate microeconomics and introduction to econometrics, or equivalent coursework or professional experience.
- Please contact the certificate faculty advisor.

For questions about the Health & Development Economics certificate program contact Debbie Evercloud (debbie.evercloud@ucdenver.edu) or W. James Smith (jim.smith@ucdenver.edu).

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Health & Development Economics advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlines below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 ECON credit hours.
2. Students must complete a minimum of 12 upper division (3000-level and above) ECON credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative

certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.

4. Students must complete all certificate credit hours with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. Students are expected to meet all course prerequisites or have the program director's approval.
2. CU Denver undergraduate students may complete the certificate concurrently with their major and/or minor degree program, counting the credits towards both the certificate and their B.A. or B.S. major/minor degrees. However, courses that have already been counted towards any degree already awarded may not be counted towards the certificate retroactively.
3. Undergraduate students are encouraged to use the certificate program as a bridge to a graduate degree. Qualified students in their senior year may substitute the graduate level ECON 5030 Data Analysis with SAS for ECON 4030 Data Analysis with SAS, ECON 7661 Health Economics I for ECON 4660 Health Economics., and/or ECON 7662 Health Economics II for ECON 4770 Development Economics. Undergraduate students, non-degree seeking students, and graduate students outside the economics department must meet the prerequisite requirements or **have the graduate advisor's approval** prior to taking any graduate level econ course.
4. No course may be taken more than twice.

Code	Title	Hours
<i>Complete the following courses:</i>		12
ECON 4030	Data Analysis with SAS	
ECON 4660	Health Economics.	
ECON 4770	Development Economics	
ECON 4812	Advanced Econometric Methods	
Total Hours		12

English

Chair: Wayne Miller

Associate Chair: Rodney Herring

Program Coordinator: Francine Olivas-Zarate

Program Assistant: Emilio Marquez

Office: 1015 9th Street Park

Telephone: 303-315-7830

Fax: 303-315-7826

Website: clas.ucdenver.edu/english/ (<http://clas.ucdenver.edu/english/>)

Overview

English majors learn to acquire and synthesize information and to present their ideas and opinions skillfully. They find employment in fields in which the sophisticated use of language is necessary for achievement and advancement. Many graduates go on to postgraduate study, not only in writing, film studies and literature, but to schools of medicine, law, journalism and business.

Undergraduate Information

English

Undergraduates wishing to major in English (ENGL) or English Writing, Rhetoric and Technology (ENWT) must declare the major by the time they have completed 60 semester hours. The English major allows a student to choose from one of two options: Literature & Film or Creative Writing. Students interested in a double major must choose one option in English or the English Writing, Rhetoric and Technology major and are required to complete 21 different courses (63 hours).

Click here (p. 476) to learn more about the English Writing, Rhetoric, and Technology Major.

Click here (p. 471) to learn more about the English Major–Creative Writing option.

Click here (p. 473) to learn more about the English Major–Literature & Film option.

BA in English With Secondary Teacher Licensure Endorsement

Students seeking secondary English teacher licensure may pursue a BA in English with Secondary Teacher Licensure Endorsement. This enables them to complete their English major as well as fulfill requirements for licensure at the undergraduate level.

Click here (p. 478) to learn more about the English, BA with Secondary Teacher Licensure Endorsement.

Departmental Honors

Latin honors may be earned by participating in the department's honors program. Students with a 3.5 GPA in English are encouraged to begin the program in their junior year. The program requires additional course work (3 hours) and affords students the opportunity to work individually with the professor of their choice. Detailed information is available in the English department office.

Minors

The Department of English also offers four separate minors. No courses taken for a minor may be counted toward an English major.

- Creative Writing Minor (p. 480)
- English Writing, Rhetoric, and Technology Minor (p. 482)

- Film Studies Minor (p. 484)
- Literature Minor (p. 485)

Additional Information

For additional information on majors, options, minors and certificates call the Department of English office at 303-315-7830.

Graduate Information

Please go to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/english/>) catalog to read about our graduate programs.

English (ENGL)

ENGL 1000 - Special Topics (3 Credits)

This topics course at the 1000 level is designed to offer flexibility for the English department for lower division offerings. Students may enroll up to 3 times to total no more than 9 credits but the topics must differ for each course. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

ENGL 1010 - Writing Workshop (3 Credits)

Focuses on the abilities and skills needed to write effective expository prose. Emphasizes frequent writing, both in and out of class, with special attention to writing short essays well. Writers learn to write confidently at the sentence and paragraph levels, and to develop their grammatical and mechanical skills. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall, Spring, Summer.

ENGL 1020 - Core Composition I (3 Credits)

Provides opportunities to write for different purposes and audiences, with an emphasis on learning how to respond to various rhetorical situations; improving critical thinking, reading, and writing abilities; understanding various writing processes; and gaining a deeper knowledge of language conventions. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-C01.

Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, English Composition; GT courses GT Pathways, GT-C01, Communication.
Typically Offered: Fall, Spring, Summer.

ENGL 1021 - Core Composition Workshop (1 Credit)

Prepares students for college-level reading and writing. Students receive one-on-one and small-group instruction on analytical and argumentative writing. Max hours: 1 Credit.

Grading Basis: Letter Grade

ENGL 1050 - Vocabulary for Professionals (3 Credits)

Studies English words derived from Latin and Greek by analyzing their component parts (prefixes, stems, and suffixes). Cross-listed with LATN 1050. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Restriction: Restricted to Freshman level students
Typically Offered: Fall.

ENGL 1200 - Introduction to Fiction (3 Credits)

Introduces class members to the works of famous authors as well as to major themes, elements, and techniques of fiction in both short stories and novels. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1400 - Literary Studies (3 Credits)

Helps students develop a sense of literary techniques and issues so they can bring an improved critical sensibility to their reading and writing. Note: Designed for students who are seriously interested in literature.

Note: this course assumes that students have completed or are currently taking ENGL 1020. Max hours: 3 Credits.
Grading Basis: Letter Grade

ENGL 1601 - Storytelling: Literature, Film, and Television (3 Credits)

Asks students to explore how stories determine who we are. Everything people do fits into a narrative pattern, evident everywhere from TV news to memory to daily schedules. We tell ourselves stories about ourselves and others—how do these stories shape who we are as cultural beings? Note: this course assumes that students have completed or are currently taking ENGL 1020. Term offered: fall, spring. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH2, Arts Hum: Lit Humanities.

Typically Offered: Fall, Spring.

ENGL 2030 - Core Composition II (3 Credits)

Focuses on academic and other types of research-based writing and builds on the work completed in ENGL 1020. Focuses on critical thinking, reading and writing as well as working with primary and secondary source material to produce a variety of research-based essays. Emphasis on using both print-based and electronic-based information. Prereq: ENGL 1020 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-C02.

Grading Basis: Letter Grade

Prereq: ENGL 1020 with a C- or higher.

Additional Information: Denver Core Requirement, English Composition; GT courses GT Pathways, GT-C02, Communication.

Typically Offered: Fall, Spring, Summer.

ENGL 2060 - Introduction to Writing & Digital Studies (3 Credits)

Introduces students to the topics of study in the English Writing major. Topics include writing studies (literacy, genre, research, and multimodality), rhetoric (history and theory), and the teaching of writing (pedagogy and practice). Prereq: ENGL 1020. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 1020

Typically Offered: Fall, Spring.

ENGL 2070 - Grammar, Rhetoric and Style (3 Credits)

Teaches the basics of English grammar in order to develop a rhetorical and stylistic confidence in reading and writing, using an approach that is more descriptive than prescriptive. Teaches students how to evaluate the grammatical choices of established writers and how to develop flexibility in the grammatical choices they make in their own writing. Note: this course assumes that students have completed ENGL 1020. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

ENGL 2156 - Introduction to Creative Writing (3 Credits)

Reading, discussing, writing short fiction and poetry in a workshop setting. Note: this course assumes that students have completed ENGL 1020. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

Typically Offered: Fall, Spring, Summer.

ENGL 2250 - Introduction to Film (3 Credits)

Introduces students to the critical study of cinema as an art form and a cultural phenomenon. Topics include cinematography, editing, mise-en-scene and sound; the connections between cinema and related art forms; film genres; the social dimensions of film production and reception; and films by such key filmmakers as Alfred Hitchcock, Maya Deren and Spike Lee. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Summer.

ENGL 2300 - Topics in Literature and Film (3 Credits)

Courses supplement the regular program of the department, offering such topics as: literary perceptions of motherhood, Asian-American literature, literary classics of science, and contemporary women writers.

Note: Can be taken more than once if topics vary. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with RLST 2700. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENGL 2600 - Greatest Hits (3 Credits)

Offers a cultural history of the best-seller over several hundred years, ranging from blockbuster films to popular novels, viral videos, and musical "hits." We will explore popular works in a range of different media, asking how they achieved the status of a best-seller in different cultural settings. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH2, Arts Hum: Lit Humanities.

Typically Offered: Fall, Spring.

ENGL 2840 - Independent Study: ENGL (1-3 Credits)

Term offered: fall, spring. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring.

ENGL 3001 - Critical Writing (3 Credits)

Introduces literary theory to provide extensive practice in writing about literature. Note: Required of English majors and minors with a literature option and education English majors. Prereq: ENGL 2450 with a C- or higher. Restriction: Restricted to English majors only (all ENGL subplans) and Education and Human Development majors with the English (7-12) subplan. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 2450 with a C- or higher. Restriction: Restricted to English majors only (all ENGL subplans) and Education and Human Development majors with the English (7-12) subplan.

Typically Offered: Fall, Spring.

ENGL 3020 - Poetry Workshop (3 Credits)

Practical workshop for developing poetic craft, focusing on writing process and specialized topics. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ENGL 3050 - Fiction Workshop (3 Credits)

Beginning workshop for defining and developing narrative craft, focusing on writing process and specialized topics. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

ENGL 3070 - Studies in Film History (3 Credits)

Examines the history of cinema from a variety of national perspectives. Topics rotate and may include Silent Era Cinema, Classical Hollywood Film, New Hollywood, French New Wave, German Expressionism, etc. Note: May be taken more than once when topics vary. Prereq: Sophomore standing. Cross-listed with HIST 3070. Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3075 - Film Genres (3 Credits)

An intensive study of films of one or more significant genres, such as comedy, film noir, science fiction. Prereq: Sophomore standing. Note: May be taken more than once when genres vary. Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3080 - Global Cinema (3 Credits)

Studies topics in international cinema, with particular attention to native production in Latin America, Africa, the Middle East, and Asia. Note: May be taken more than once when topics vary. Prereq: Sophomore standing. Repeatable. Term offered: fall, spring. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3084 - Digital Writing and Storytelling (3 Credits)

Offers students opportunities to examine and compose texts where language is integrated with other media, such as video, still images, music, etc. Includes basic instruction in digital multimedia composition and design tools. ENGL 2070 recommended. Prereq: Junior standing or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring, Summer.

ENGL 3085 - Film Directors (3 Credits)

An intensive study of the films of one or more major directors, such as Chaplin, Keaton, Hitchcock, Welles, Coen Brothers. Prereq: Sophomore standing. Note: May be taken more than once when directors vary. Term offered: fall, spring. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3106 - Writing for Print Media (3 Credits)

Interested in writing for newspapers, magazines, or new media? Get real-world and practical experience with this introduction to working in modern journalism. Students will work closely with the CU Denver student newspaper "The Sentry", have the chance to get their writing published, and get involved with student media. It's the best way to start writing professionally: with hands-on training. No previous experience necessary—just a passion for journalism and a desire to see your work in print! Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENGL 3154 - Technical Writing (3 Credits)

Introduces students to technical writing through study of and hands-on practice writing texts that communicate complex information, solve problems, and complete tasks. Students write proposals, reports, instructions, memos, documentation, white papers, data visualizations, and web content. Students practice content management, project management, audience engagement, and usability testing. Often, students work with industry and community partners on a technical writing project. ENGL 2070 recommended. Prereq: Sophomore standing. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3160 - Language Theory (3 Credits)

Provides a basic introduction to linguistics and language theory, including phonetics, grammar, semantics, pragmatics, sociolinguistics, cognitive processing, and language acquisition. Includes practical applications of the theories and methodologies presented. ENGL 2070 recommended. Prereq: Sophomore standing. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3170 - Business Writing (3 Credits)

Focuses on the strategies and techniques of business writing, with emphasis on reader, message and form. ENGL 2070 recommended. Prereq: Sophomore standing. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

ENGL 3180 - Writing in the Social Sciences (3 Credits)

Teaches students to analyze and produce types of writing common to the sub-disciplines of the social sciences. Emphasizes the dialogic nature of academic writing, and thus foregrounds the importance of understanding, evaluating, and responding to existing scholarship. Prereq: ENGL 2030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 2030

ENGL 3190 - Writing Center Theory & Practice (3 Credits)

An introduction to writing centers and to theories of composition, education, and writing pedagogy with a focus on collaborative learning practices and the dynamics of the consulting relationship. Students will have opportunities to research, observe, and engage in the teaching practices of the Writing Center at CU Denver. Prereq: ENGL 2030 with a B or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 2030 with a B or higher

ENGL 3200 - From Literature to Film (3 Credits)

Explores the relationship between literature and cinema; the process of adapting and transforming a novel into a feature-length film; and the historical, cultural, and commercial influences that shaped the creation of each novel and film studied. Prereq: Sophomore standing. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Summer.

ENGL 3300 - Topics in Film (3 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Prereq: Sophomore standing. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Term offered: spring, fall. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3301 - Topics in Film: Lit and Film History (3-9 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Focus on general film history. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3302 - Topics in Film: Gender in Lit and Film (3-9 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Focus on gender. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3303 - Topics in Film: Genre and Global Culture (3-9 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Focus on genre and/or global culture. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Prereq: Sophomore standing or higher. Repeatable. Term offered: spring, fall. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3304 - Topics in Film: American Identities (3 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Focus on American identities. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Restriction: Sophomore standing or higher. Repeatable. Term offered: spring, fall. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3330 - Topics in Literature (3 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Restriction: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3331 - Topics in Literature: Lit and Film History (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Focus on general literature and film history. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3332 - Topics in Literature: Gender in Lit and Film (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Focus on gender. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3333 - Topics in Literature: Genre and Global Culture (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Focus on genre and/or global culture. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3334 - Topics in Literature: American Identities (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Focus on American identities. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3405 - Topics in Writing (3 Credits)

Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

ENGL 3415 - Screenwriting Workshop (3 Credits)

Continues and expands ENGL 2415. The course combines analytical discussion of film screenplays with a writing workshop format. By the end of ENGL 3415, students have completed the first two acts of a feature-length screenplay. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ENGL 3416 - Magazine Writing (3 Credits)

An intensive, practical course in writing non-fiction with an emphasis on journalistic approaches for daily, weekly, and monthly publications. Prereq or Coreq: ENGL 2030. Term offered: spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ENGL 2030

Typically Offered: Spring, Summer.

ENGL 3417 - Writing for the Mass Media (3 Credits)

Students will examine public relations writing techniques and journalistic style, public relations theory and ethics, and practical client work. Note: this course assumes that students have completed ENGL 1020. Max hours: 3 Credits.

Grading Basis: Letter Grade

Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

ENGL 3840 - Independent Study: ENGL (1-3 Credits)

Prereq: Sophomore standing. Department consent required. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3939 - Internship (1-6 Credits)

Employment situations designed and supervised by members of the faculty; concepts and skills developed in the classroom are used in business and public service contexts. Prereq: Junior standing or higher. Before enrolling, students should contact the Career Center. Note: Up to six hours may be counted toward the major. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

ENGL 4000 - Studies of Major Authors and Directors (3 Credits)

An intensive study of works of one major author or director in British, American, or world literature. Examples: Dickens, Eliot, Hitchcock. Prereq: Sophomore standing. Cross-listed with ENGL 5000. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 4001 - Major Authors and Directors: Lit and Film History (3-15 Credits)

An intensive study of works of one major author or director in British, American, or world literature. Focus on historical influence. Examples: Cather and American Modernism, Chaplin and Keaton. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 4002 - Major Authors and Directors: Gender in Lit and Film (3-15 Credits)

An intensive study of works of one major British or American author, before 1650, e.g., Gawain-poet. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 15.
Restriction: Sophomore standing or higher.
Typically Offered: Fall, Spring.

ENGL 4003 - Major Authors and Directors: Genre and Global Culture (3-15 Credits)

An intensive study of works of one major author or director in British, American, or world literature. Focus on genre and/or global culture. Examples: Nobel Authors, Global Shakespeare, Kurosawa, the Western. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 15.
Restriction: Sophomore standing or higher.
Typically Offered: Fall, Spring.

ENGL 4004 - Major Authors and Directors: American Identities (1-15 Credits)

An intensive study of works of one major author or director in British, American, or world literature. Focus on American identities. Examples: Morrison, Coppola, Peele. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 15.
Restriction: Sophomore standing or higher.
Typically Offered: Fall, Spring.

ENGL 4025 - Advanced Poetry Workshop (3 Credits)

Advanced poetic craft, including exercises in mode, genre and advanced revision. Prereq: ENGL 3020. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ENGL 3020
Typically Offered: Spring.

ENGL 4055 - Advanced Fiction Workshop (3 Credits)

Advanced workshop for developing and deepening narrative craft, focusing on writing process and specialized topics. Prereq: ENGL 3050, English major and minor only; all others must obtain permission of instructor. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ENGL 3050. Restriction: English majors and minors only.
Typically Offered: Fall, Spring.

ENGL 4088 - Literary Editing: Copper Nickel (3 Credits)

Literary editing in theory and practice, using UCD's nationally recognized journal "Copper Nickel." Topics may include evaluating fiction, poetry and nonfiction; design and aesthetics; line editing; the business of literary journals. Prereq: ENGL 3020 or 3050. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ENGL 3020 or ENGL 3050
Typically Offered: Spring.

ENGL 4160 - Poetics (3 Credits)

"Mechanics" of poetry in English, including meter, rhythm, rhyme, line, and other systems of measurement and logic. Emphasis is on historical development of poetic art in English. Note: this course assumes that students have completed ENGL 2450. Cross-listed with ENGL 5160. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

ENGL 4166 - History of American Poetry (3 Credits)

Examines major American poets and poetic trends from the colonial period to the present, with attention to cultural contexts and to development of distinctively American practices. Prereq: Sophomore standing. Cross-listed with ENGL 5166. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Restriction: Sophomore standing or higher.
Typically Offered: Fall, Spring.

ENGL 4175 - Writing in the Sciences (3 Credits)

Provides rhetorical analyses of scientific discourse and student practice in writing research reports and proposals. Prereq: Sophomore or higher standing and ENGL 2030 with a C- or higher. Cross-listed with ENGL 5175. Students will not receive credit for this class if they have already received credit for ENGL 3175. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ENGL 2030 with a C- or higher Restriction: Restricted to sophomore or higher standing
Typically Offered: Fall, Spring.

ENGL 4177 - Technical Editing (3 Credits)

Provides instruction in the conventions of editing in the genre of technical communication. Students develop skills they can use to edit a variety of technical documents. Prereq: ENGL 2030 with a C- or better. Cross-listed with ENGL 5177. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ENGL 2030 with a C- or higher
Typically Offered: Spring.

ENGL 4180 - Argumentation and Logic (3 Credits)

Explores the history of logic and its role in argumentation, studies various types of logical structures, and analyzes current uses of argumentation, with attention to writing arguments on current public issues. ENGL 3084 recommended. Prereq: Students must have junior standing/60 units of credit completed. Term offered: fall, spring, summer. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall, Spring, Summer.

ENGL 4190 - Advanced Topics in Writing, Rhetoric, & Linguistics (3 Credits)

Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Overview of the English novel from mid-19th century to World War II, emphasizing the important developments which the form underwent in the hands of notable novelists, including Charles Dickens, the Brontes, George Eliot, Henry James, Joseph Conrad, D.H. Lawrence and Virginia Woolf. Prereq: Sophomore standing. Cross-listed with ENGL 5210. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

ENGL 4220 - African-American Literature (3 Credits)

Surveys African-American literature with special emphasis on post-Civil War writing. Prereq: Sophomore standing. Cross-listed with ENGL 5220, ETST 4220 and ETST 5220. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4230 - The American Novel (3 Credits)

Surveys major developments in the American novel from the 18th century to the 21st century. Prereq: Sophomore standing. Cross-listed with ENGL 5230. Term offered: spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring, Summer.

ENGL 4235 - Faulkner (3 Credits)

Studies the works of Faulkner's high period with special attention to southern themes and Faulkner's experimentation with narrative form. Prereq: Sophomore standing. Cross-listed with ENGL 5235. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4236 - The American Short Story (3 Credits)

Traces the development of the short story in the United States, from its beginnings in colonial tales to its contemporary renaissance as a dominant literary form. Prereq: Sophomore standing. Cross-listed with ENGL 5236. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4240 - Topics in Contemporary American Literature (3 Credits)

Seminar focusing on a segment of contemporary American literature. Prereq: Sophomore standing. Cross-listed with ENGL 5240. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4250 - Twentieth Century Fiction (3 Credits)

Deals with novels originating in a variety of countries in an effort to see the similarities and differences that varying nationalities bring to the genre. Prereq: Sophomore standing. Cross-listed with ENGL 5250. Term offered: spring. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4280 - Proposal and Grant Writing (3 Credits)

Students learn how to find funding sources, write proposals, and manage grants for nonprofit, research, and industry contexts. Students practice the entire process of proposal and grant writing: 1) describing the problem in context; 2) identifying sponsors, building relationships, and finding a match; 3) designing, writing, revising, and completing all proposal components; 4) conceptualizing and using persuasive visual and design elements; 5) responding to sponsors and managing grant funds. Often, students work with academic, industry, and community partners on a grant writing project. ENGL 3084 recommended. Prereq: Students must have junior standing/60 units of credit completed. Cross-listed with ENGL 5280. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

ENGL 4290 - Rhetoric and the Body (3 Credits)

Investigates the relationship between rhetoric and the body, with attention to theoretical and practical implications. Welcomes interdisciplinary perspectives, and often considers rhetorical topics from historical, medical, disability studies, economic, and/or gendered perspectives. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 4300 - History of British Drama (3 Credits)

Intended as a survey of British drama from the miracle plays of the medieval period, through the Renaissance and Restoration, to the "kitchen sink" realists of the 1960s. Prereq: Sophomore standing. Cross-listed with ENGL 5300. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4306 - Survey of Feminist Thought (3 Credits)

Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 5306, HIST 4306, 5306, WGST 4306, 5306. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ENGL 4308 - Contemporary Feminist Thought (3 Credits)

This course explores contemporary feminist thought in philosophy and literature in the 20th and 21st centuries. Topics include lesbianism, black feminism, Chicana feminism, transgender identity, women and work and others. Cross-listed with ENGL 5308, PHIL 4308, PHIL 5308, WGST 4308, WGST 5308. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENGL 4400 - Old English I (3 Credits)

Instruction in the Old English language. Note: this course assumes that students have completed ENGL 2070 or one year of college level coursework in a foreign language. Prereq: Sophomore standing. One year of college foreign language or ENGL 2070 recommended. Cross-listed with ENGL 5400. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

ENGL 4410 - Old English II: Beowulf (3 Credits)

Continuing training in the reading of Old English and intensive reading of Beowulf. Cross-listed with ENGL 5410. Note: this course assumes that students have completed ENGL 4400 or 5400. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 4420 - Film Theory and Criticism (3 Credits)

(1) Familiarizes students with some of the central concepts and debates in film theory and criticism, both classic and contemporary, (2) enables students to develop advanced analytic and interpretive skills, and (3) guides students toward discovering and articulating original critical and theoretical perspectives. Note: this course assumes that students have completed ENGL 2250, ENGL 3070, ENGL 3080. Cross-listed with ENGL 5420. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENGL 4460 - Contemporary World Literature (3 Credits)

Surveys literature written by world writers since World War II. Prereq: Sophomore standing. Note: Texts read in English. Cross-listed with ENGL 5460. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4500 - Medieval Literature (3 Credits)

Introduces representative writers from the Norman Conquest to about 1550. Emphasis on a variety of genres, including religious poetry, Arthurian romance, dream vision and drama. Prereq: Sophomore standing. Cross-listed with ENGL 5500. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4510 - Whores and Saints: Medieval Women (3 Credits)

Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Note: this course assumes that students have completed at least 9 hours of literature coursework. Cross-listed with ENGL 5510, RLST 4730/5730, WGST 4510/5510. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ENGL 4520 - English Renaissance (3 Credits)

Introduces some of the important writers in this major period of English literature (1500-1660). Special attention to the works of Sidney, Milton, Spenser, Shakespeare, Donne, Herbert and Johnson. Prereq: Sophomore standing. Cross-listed with ENGL 5520. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4530 - Milton (3 Credits)

Extensive reading in John Milton's poetry (Lycidas, Paradise Lost, Paradise Regained, Samson Agonistes) as well as his political, social and theological writings. Prereq: Sophomore standing. Cross-listed with ENGL 5530. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4540 - Restoration and the 18th Century (3 Credits)

Introduces some of the important writers of the "Age of Reason." Emphasis on such figures as Bunyan, Burke, Dryden, Johnson, Pope and Swift. Prereq: Sophomore standing. Cross-listed with ENGL 5540. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4560 - English Romanticism (3 Credits)

Studies major works of the chief English writers of the first part of the 19th century, with emphasis on such representative figures as Wollstonecraft, Godwin, Blake, Wordsworth, Coleridge, Hazlitt, Byron, Keats and Shelley. Prereq: Sophomore standing. Cross-listed with ENGL 5560. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4580 - The Victorian Age (3 Credits)

Examines the main currents of Victorian thought in prose and poetry from about 1830 to the end of the century, including such writers as Browning, Carlyle, Mill, Newman, Ruskin, Swinburne and Tennyson. Prereq: Sophomore standing. Cross-listed with ENGL 5580. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4600 - Modernism (3 Credits)

Modernist literature from the beginning of the 20th century through World War II, including such writers as Eliot, Joyce, Forester, Ford, Yeats, Woolf and Barnes. Examines the social-political influences as well as the aesthetic and stylistic elements which define modernist writing. Prereq: Sophomore standing. Cross-listed with ENGL 5600. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4601 - Teaching English Language Learners: Theory and Practice (3 Credits)

Overview of basic principles and practices in the learning and teaching of English as a second language. ENGL 3160 recommended. Prereq: Students must have junior standing/60 units of credit completed. Cross-listed with ENGL 5601. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

ENGL 4610 - Narrative: Form and Theory (3 Credits)

A critical and theoretical exploration of the elements of narrative -e.g., plot, character, dialogue, discourse-in literature and film. This course is especially useful for fiction-writing students in the Creative Writing Track. Prereq: ENGL 2450. Cross-listed with ENGL 5610. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 2450

Typically Offered: Fall.

ENGL 4651 - TESOL Writing & Assessment (3 Credits)

Topics include: similarities between first & second language writing, the processes of composition & revision, teacher response to student writing, student processing of feedback, writing assessment, and the reading/writing connection. ENGL 3160 recommended. Prereq: Students must have junior standing/60 units of credit completed. Cross-listed with ENGL 5651. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

ENGL 4701 - Multimedia in the Community (3 Credits)

Produce dossier-quality multimedia shorts by researching and writing digital compositions for selected community organizations. Topics for research range across numerous social issues and involve all disciplines. Prereq: ENGL 2030, 3154, and 3170 with a C- or higher or permission of instructor. Cross-listed with ENGL 5701. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 2030, 3154, and 3170 with a C- or higher.

ENGL 4720 - Honors in English (3 Credits)

Designed for students taking departmental honors in English. Prereq: Students must have written permission from the honors advisor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ENGL 4730 - Chaucer (3 Credits)

Extensive reading in Chaucer's works in Middle English, including his lyrics, dream visions, Troilus and Criseyde, and the Canterbury Tales. Examines sources, historical and ideological factors influencing the texts.

Prereq: Sophomore standing. Cross-listed with ENGL 5730. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4740 - Honors in Writing (3 Credits)

Designed for students taking departmental honors in English writing.

Prereq: Student must have written permission from honors director and faculty advisor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ENGL 4745 - Humanistic Writing About Medicine and Biology (3 Credits)

Investigates medical and biological writing over the last two centuries with an emphasis on reception, ethical issues, and the differences between professional and popular writing. Prereq: Sophomore standing. Cross-listed with ENGL 5745. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

ENGL 4750 - Legal Reasoning and Writing (3 Credits)

Introduces students to the fundamentals of legal reasoning and legal argumentation, through intensive class discussion, formal debate, and writing. Particular focus is given to the relationship between case and statutory law, and their application in trial courts and appeal courts in the United States. Prereq: ENGL 1020, 2030, plus one other 3000-level 00 English/writing course. Cross-listed with COMM 4750, COMM 5750, PSCI 4757 and PSCI 5747.

Grading Basis: Conversion

ENGL 4755 - Illness & Disability Narrative (3 Credits)

Narratives of mental, chronic or terminal illness, and disability have become common over the past decades. There are a number of ways in which these stories are told by those reflecting on their experiences: individuals choosing to tell such stories must consider how their stories will be received and what they are revealing about themselves in dealing with their conditions. Many issues arise when looking at the production and reception of these narratives, including acceptance and assimilation, stigmatization, access and quality of treatment, discrimination, accommodation, pity and stereotyping responses. These narratives are consumed, usurped, and reacted to by clinicians, communities and society at large with their own agendas, expectations, fears and judgments of the stories and of the individuals telling their stories. This course is about the issues and concerns of producing an illness or disability narrative and the consumption/reception of those narratives by health professionals, communities, and society at large. Prereq: ENGL 1020 and 2030 with a C or higher. In addition, English majors are required to have taken ENGL 3001, 3084, or 4701, and HEHM minors using this as their capstone are required to have taken HEHM 3100 with a C or higher. Cross-listed with ENGL 5755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req ENGL 1020 and 2030 with a C or higher. In addition, English majors are required to have taken ENGL 3001, 3084, or 4701, and HEHM minors using this as their capstone are required to have taken HEHM 3100 with a C or higher.

ENGL 4770 - Topics in English: Film and Literature (3 Credits)

May look at specific genres, aesthetic approaches to literature and film, ideological or socio-political agendas, or other special topics in literature and/or film. Prereq: Sophomore standing. Cross-listed with ENGL 5770. Repeatable. Term offered: spring, fall. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 4771 - Topics in English Film and Lit: Lit and Film History (3 Credits)

May look at specific genres, aesthetic approaches, ideological or socio-political agendas, or other special topics in literature and/or film. Focus on lit and film history. Prereq: Sophomore standing or higher. Repeatable. Term offered: spring, fall. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 4772 - Topics in English Film and Lit: Gender in Lit and Film (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Focus on gender in lit and film. Prereq: Sophomore standing or higher. Term offered: fall. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4773 - Topics in English Film and Lit: Genre and Global Culture (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Focus on genre and global culture. Prereq: Sophomore standing or higher. Term offered: fall. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4774 - Topics in English Film and Lit: American Identities (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Focus on American identities. Prereq: Sophomore standing or higher. Term offered: fall. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4775 - Topics in English Film and Lit: 1650-1900 (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film from 1650-1900. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 4776 - Topics in English: Film and Lit: After 1900 (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film after 1900, e.g., Philosophy and Lit., Mental Health in Lit., Environmental Lit. Prereq: Sophomore standing or higher. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

ENGL 4800 - Special Topics in Creative Writing (3 Credits)

Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics may include projects in a specialized genre, such as science fiction or noir writing, or in a field of professional endeavor related to creative writing, such as the editing and production of a literary journal. Note: this course assumes that students have completed ENGL 2154. Term offered: fall. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

ENGL 4801 - Special Topics in Creative Writing: Poetry (3 Credits)

Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics will include projects in poetry. Note: this course assumes that students have completed ENGL 2156. Term offered: fall. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

ENGL 4802 - Special Topics in Creative Writing: Fiction (3 Credits)

Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics will include projects in fiction. Note: this course assumes that students have completed ENGL 2154. Term offered: fall. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

ENGL 4810 - Literary Editing Practicum (3 Credits)

Practicum for students interested in editing in a literary field, e.g., literary magazines, book manuscripts, anthology projects. Each semester the parameter of the practicum will be set by the instructor. Prereq: English majors and minors. All other students must have instructor's permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ENGL majors or minors

ENGL 4820 - Senior Poetry Workshop (3 Credits)

Capstone workshop for students within the Creative Writing major track or Creative Writing minor. Emphasis on a single, sustained project developed by the student. Prereq: ENGL 4025. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 4025

Typically Offered: Spring.

ENGL 4840 - Independent Study: ENGL (1-3 Credits)

Department consent required. Term offered: fall, spring. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring.

ENGL 4850 - Senior Fiction Workshop (3 Credits)

Capstone workshop designed to deepen the understanding of narrative, and consciously apply the strategies of narrative craft to modern markets. Course will focus on the writing and publishing processes, culminating in a classroom narrative defense and submission to professional outlets. Prereq: ENGL 4055. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 4055

Typically Offered: Spring.

ENGL 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

ENGL 4920 - Directed Readings (3-6 Credits)

Explores an area of English literature not covered in regular course work. Note: May be taken as a precursor to honors essay, in which case student should consult with the honors advisor. Prereq: Senior standing. Department consent required. Max hours: 6 Credits.
Grading Basis: Letter Grade
Restrictions: Restricted to Senior standing.

ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies (3 Credits)

Individual writing project consisting of a creative manuscript or critical study. Manuscript must be 30 pages of high quality text. Note: Available only to students in the creative writing and film tracks. Prereq: Senior standing. Department consent required. Term offered: fall, spring.
Repeatable. Max hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Restrictions: Restricted to Senior standing.
Typically Offered: Fall, Spring.

ENGL 4995 - Senior Writing Project (3 Credits)

Individual writing project in any genre and any discipline upon approval of faculty advisor. Manuscript must be 30 pages of high quality text. Prereq: Senior standing. Department consent required. Term offered: fall, spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restrictions: Restricted to Senior standing.
Typically Offered: Fall, Spring.

English - Creative Writing Option, BA

Introduction

Please click here (p. 459) to see English department information.

The course of study offered by the Department of English is designed to develop a student's ability to read literature responsibly and imaginatively, to foster an understanding and appreciation of our literary inheritance, and to provide the historical perspective from which to evaluate contemporary writing and to produce it. Students who complete the program in English are expected to have mastered the ability to express their ideas in creative work.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- Students planning to major in English must consult with an advisor as soon as possible.
- Students may choose only one of the three options in the English major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 39 ENGL credit hours.
2. Students must complete a minimum of 27 upper division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 15 ENGL upper-division (3000-level and above) credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. ENGL 1010 Writing Workshop, ENGL 1020 Core Composition I and ENGL 2030 Core Composition II do not apply to the major.
2. Internship/cooperative education courses may be counted toward the major for students who have completed over 60 credit hours.
3. Double majors in English and English Writing must complete 63 hours total for both majors.
4. The English Department also offers minors in Film Studies, Literature, and English Writing, Rhetoric, and Technology. Courses counted in a minor cannot be counted toward the major.
5. Latin Honors may be earned by participating in the department's Honors Program. You are encouraged to begin the program in your junior year. The program requires additional coursework and affords you the opportunity to work individually with the professor of your choice. Handouts are available in the English office.

English - Literature and Film Option, BA

Introduction

Please click here (p. 459) to see English department information.

The Literature & Film Option of the English BA is designed to develop a student's ability to read literature and view film critically and imaginatively, to foster an understanding and appreciation of our literary inheritance, to provide the historical perspective from which to evaluate contemporary culture, and to prepare students for a range of professional careers in areas such as film criticism, literary and video production, and the teaching of film and literature. Careful study of literature, visual media, and popular culture also should help a student to think critically about politics, the media, and the wider world. Students who complete the bachelor's degree in English - Literature & Film are expected to have mastered the ability to express their ideas clearly and persuasively.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- Students planning to major in English must consult with an advisor as soon as possible.
- Students may choose only one of the two options (Creative Writing OR Literature & Film) in the English major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)

English Writing, Rhetoric, and Technology, BA

Introduction

Please click here (p. 459) to see English department information.

The English Writing, Rhetoric and Technology major asks students to take one of two introductory courses, a multi-media course (two course options), a language theory/sociolinguistics course (three course option), and two advanced topics courses (with a range of options). The remainder of the degree is seven courses chosen from a long list, which can include two courses outside the English Writing focus (such as creative writing workshops, film courses, or courses in related majors). For all the details, please review the advising sheets for the English Writing, Rhetoric, and Technology major. Especially designed for future writers, the major offers a wide range of intensive writing experiences, combining such areas as rhetoric, and professional, general, and creative writing.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program offers courses both on-campus and online. You can take the English Writing, Rhetoric, and Technology Major fully online or fully on campus. Most of our students, however, end up taking a mix of online and on-campus courses in order to juggle changing work schedules and busy lives. You can decide what's best for you.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- Students planning to major in English Writing, Rhetoric, and Technology must consult with an advisor as soon as possible.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 36 ENGL credit hours toward the major.
2. Students must complete a minimum of 27 upper division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.

4. Students must complete a minimum of 15 ENGL upper division (3000-level and above) credits hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. ENGL 1010 Writing Workshop, ENGL 1020 Core Composition I and ENGL 2030 Core Composition II do not count toward the major, nor does CLEP or AP credit.
2. Double majors in English Writing, Rhetoric and Technology and English are required to complete a minimum of 63 ENGL credit hours.
3. A maximum of six credit hours of Internship/cooperative education courses may be counted toward the major for students who have completed 60 or more credit hours. Internships count as upper-division electives.
4. The English Department also offers minors in Creative Writing, Film Studies, and Literature. Courses counted in a minor cannot be counted toward the major.
5. Latin Honors may be earned by participating in the department's Honors Program. You are encouraged to begin the program in your junior year. The program requires additional coursework and affords you the opportunity to work individually with the professor of your choice. Handouts are available in the English office.
6. Courses may not be used more than once between the Required Course Area and Electives.

Code	Title	Hours
<i>Complete the following required foundations courses:</i>		9
ENGL 2060	Introduction to Writing & Digital Studies	
ENGL 2070	Grammar, Rhetoric and Style	
ENGL 3084	Digital Writing and Storytelling	
<i>Complete one of the following language study courses:</i>		3
ENGL 3160	Language Theory	
ENGL 4601	Teaching English Language Learners: Theory and Practice (with instructor's permission)	
ENGL 4651	TESOL Writing & Assessment (with instructor's permission)	
<i>Complete six credits of advanced writing experience courses, with different topics:</i>		6
ENGL 4190	Advanced Topics in Writing, Rhetoric, & Linguistics	
<i>Complete a minimum of six of the following Writing, Rhetoric, and Technology elective courses—we highly recommend students pursue a certificate as they fulfill electives:</i> [†]		18
*Courses with an asterisk can be taken more than once, if the topic/title differs.		
ENGL 2060	Introduction to Writing & Digital Studies	
ENGL 2070	Grammar, Rhetoric and Style	
ENGL 3084	Digital Writing and Storytelling	
ENGL 3154	Technical Writing	
ENGL 3160	Language Theory	
ENGL 3170	Business Writing	
ENGL 3405	Topics in Writing	
ENGL 3415	Screenwriting Workshop	
ENGL 3416	Magazine Writing	
ENGL 3939	Internship	

ENGL 4175	Writing in the Sciences
ENGL 4177	Technical Editing
ENGL 4180	Argumentation and Logic
ENGL 4190	Advanced Topics in Writing, Rhetoric, & Linguistics
ENGL 4280	Proposal and Grant Writing
ENGL 4601	Teaching English Language Learners: Theory and Practice (by instructor's permission)
ENGL 4651	TESOL Writing & Assessment (by instructor's permission)
ENGL 4701	Multimedia in the Community
ENGL 4740	Honors in Writing
ENGL 4995	Senior Writing Project

Total Hours **36**

¹ A course applied as a required course will not also apply as an elective. Each course will only apply to one area, except for ENGL 4190 Advanced Topics in Writing, Rhetoric, & Linguistics. The topic for each section of ENGL 4190 Advanced Topics in Writing, Rhetoric, & Linguistics must be different, in order for repeat credits to apply. Six credits of ENGL 4190 Advanced Topics in Writing, Rhetoric, & Linguistics are required and three additional elective credits can be taken and applied, for a maximum of nine credits that can apply to the degree.

Students may complete up to four ENGL courses that are either 3000- or 4000-level that are not on this list (such as creative writing workshops, film courses, or literature courses), or up to two writing courses in other departments (prior approval from an advisor required for courses outside of English), toward the 18 elective credits.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/english/english-writing-rhetoric-technology-major/>).

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>).

English, BA with Secondary Teaching Licensure Endorsement

Introduction

Please click here (p. 459) to see English department information.

The secondary licensure program is a partnership program between the College of Liberal Arts and Sciences (CLAS) and the School of Education & Human Development (SEHD). Secondary Education Licensure students choose a major within CLAS and complete all CORE, CLAS, major, and initial teacher education admission requirements before completing a final professional year of licensure coursework through the SEHD.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor, CLAS advisor and SEHD advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 42 ENGL credit hours. Up to 15 of those credit hours can also be counted toward the CU Denver Core and CLAS Graduation Requirements.
- Students must complete a minimum of 27 upper division (3000-level and above) ENGL credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
- Students must complete a minimum of 15 ENGL upper-division (3000-level and above) credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

Students are responsible for meeting with the advisor in the SEHD to confirm teacher education and licensure requirements. In addition to completing all minimum program requirements above, SEHD secondary education students must complete the following minimum SEHD licensure (p. 950) requirements:

- Complete the Education Declaration form and all subsequent processes and requirements, including a background check, prior to April 1st (for students intending to complete their clinical field experience in fall) or November 1st (for students intending to complete their clinical field experience in spring). Students must meet with the SEHD advisor for detailed information.
- Student pursuing secondary education licensure must complete the following requirements to be admitted to the Professional (final) Year:
 - a minimum cumulative CU GPA of 3.0 or higher. Students with a lower GPA may be considered under certain conditions.
 - all CU Denver Core, CLAS, major, electives, and initial teacher education coursework requirements prior to the start of the Professional Year
 - the official application and interview process
 - Deadlines for Professional Year application are February 15th (for students intending to begin Professional Year in fall) or October 1st (for students intending to begin Professional Year in spring).
- Students must complete all initial teacher education and professional (final) year coursework with a minimum grade of B- or higher.
- ENGL 1010, 1020, and 2030 are not included in the major.

Code	Title	Hours
<i>Complete the following required courses:</i>		<i>21</i>
ENGL 2070	Grammar, Rhetoric and Style

Creative Writing Minor

Introduction

Please click here (p. 459) to see English department information.

Students who have an interest in writing poetry or fiction may enroll in the creative writing minor. The creative writing minor gives students the opportunity to complement their area of major study with experience writing and reading poetry or fiction.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of six upper-division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine ENGL credit hours with CU Denver faculty.

Program Allowances or Restrictions

1. Courses counted in a minor cannot be counted toward any English Major or English Writing, Rhetoric, and Technology Major.

Code	Title	Hours
<i>Complete the following required courses:</i>		9
ENGL 2156	Introduction to Creative Writing	
ENGL 2450	Introduction to Literature and Film	
ENGL 3020 or ENGL 3050	Poetry Workshop Fiction Workshop	
<i>Complete one of the following elective courses: ¹</i>		3
ENGL 3020 or ENGL 3050	Poetry Workshop Fiction Workshop	
ENGL 4025	Advanced Poetry Workshop	
ENGL 4055	Advanced Fiction Workshop	
<i>Complete one additional Poetry or Fiction elective course. ²</i>		3
<i>Students who have completed ENGL 3020, complete one of the following Poetry courses:</i>		
ENGL 4160	Poetics	
ENGL 4166	History of American Poetry	
ENGL 4800 or ENGL 4801	Special Topics in Creative Writing Special Topics in Creative Writing: Poetry	
<i>Students who have completed ENGL 3050, complete one of the following Fiction courses:</i>		
ENGL 4200	Survey of the English Novel to 1900	
ENGL 4230	The American Novel	
ENGL 4236	The American Short Story	

ENGL 4800	Special Topics in Creative Writing
or ENGL 4802	Special Topics in Creative Writing: Fiction

Total Hours**15**

- ¹ Students may complete both ENGL 3020 Poetry Workshop and ENGL 3050 Fiction Workshop. One will apply as a required course and one will apply as an elective.
- ² Students who complete both ENGL 3020 Poetry Workshop and ENGL 3050 Fiction Workshop can choose an additional Poetry or Fiction elective course.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/english/creative-writing-minor/>).

English Writing, Rhetoric, and Technology Minor

Introduction

Film Studies Minor

Introduction

Please click here (p. 459) to see English department information.

The film studies minor offers students the opportunity to gain an informed understanding of the sophisticated medium of film, its language and history. Courses cover critical writing about cinema, creative screenwriting, the evolution of Hollywood movies, international cinema, and film in its cultural context. The film studies minor makes a valuable complement to a range of undergraduate majors.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours for the film studies minor.
2. Students must complete a minimum of six upper-division (3000-level and above) ENGL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine ENGL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students are strongly advised to take ENGL 2450 Introduction to Literature and Film before taking other film courses.
2. Students are advised to fulfill the liberal arts and sciences core curriculum writing requirements (ENGL 1020 Core Composition I & ENGL 2030 Core Composition II) before enrolling in upper-division topics in film courses.
3. No more than two online film studies courses can be counted toward the minor.

4. Courses in a minor cannot be counted toward the English major or English Writing, Rhetoric and Technology major; consult an English advisor for substitutions.

Literature Minor

Introduction

Please click [here](#) (p. 459) to see English department information.

This program is designed for students who are interested in the study of English literature but who have elected to major in another area. The recommended series of courses allows students to become acquainted with some of the methods of literary study and with a number of the most important literary works. The literature minor allows students to complement their area of major study with systematic experience in literature.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and their CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.
- Click [here](#) (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of nine upper-division (3000-level and above) ENGL credit hours at CU Denver.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.

Program Restrictions, Allowances and Recommendations

1. Courses in a minor cannot be counted toward the English major or English Writing, Rhetoric and Technology major.
2. Course requirements may not be met by independent study.

Note: Students are advised to fulfill the liberal arts and sciences core curriculum writing requirements (ENGL 1020 Core Composition I & ENGL 2030 Core Composition II) before enrolling in upper-division literature courses.

Proposal and Grant Writing Undergraduate Certificate

Introduction

The Proposal and Grant Writing certificate program is an opportunity for students to pursue formal study of grant development and proposal writing and to gain professional experience writing proposals and managing grants (through an internship pipeline and experiential/client-partnered courses). Students learn about and gain experience in all stages of the grant development process, including researching funding opportunities, building relationships with funders, managing complex grant proposals and teams, writing and designing proposals, and managing grant funds, work plans, outcomes assessments, and relationships.

Grant writing professionals are in demand and possess a specific set of skills—these factors make proposal and grant writing particularly amenable to certificate programming. Students who earn this certificate will gain a specific set of discrete and hands-on skills that translate into a range of workplace roles and skills.

Program Delivery

- The certificate can be completed through online, in-person, or hybrid courses.

Declaring This Certificate

- Please contact the certificate advisor.

For questions about the Proposal and Grant Writing certificate program, contact Kari Campeau (kari.campeau@ucdenver.edu).

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Proposal and Grant Writing advisor to confirm the best plans of study before finalizing them.

Certificate Requirements

- Students must complete a minimum of 12 ENGL credit hours.
- Students must complete a minimum of nine upper-division (3000-level or higher) credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
- All credits for the certificate must be completed with CU Denver faculty.

Code	Title	Hours
<i>Complete the following foundational course:</i>		
ENGL 4280	Proposal and Grant Writing	3
<i>Complete three credit hours from the following professional writing elective courses. All professional writing elective courses include content and assignments that address different aspects of proposal and grant writing.</i>		
ENGL 3170	Business Writing	

This course is most useful to students with career interests in business and nonprofits.

ENGL 3939 Internship

This elective is broadly applicable, as it provides the most direct experience in grant writing. It should appeal especially to students interested in working in research careers as well as students who want to pursue grant writing as a career path.

Students work on faculty members' grant writing teams and with ORS to build a grant repository for CU Denver.

ENGL 4088 Literary Editing: Copper Nickel

This course is most useful to students with career interests in the creative arts and publishing. Students who take Literary Editing and complete the Proposal and Grant Writing certificate will gain professional experience editing a national literary journal and composing and writing competitive grant proposals.

ENGL 4175 Writing in the Sciences

This course is most useful to students pursuing the certificate with career interests in academia, science, medicine, and/or healthcare.

Complete six elective credits approved by the certificate director. 6

Electives may be drawn from the professional electives or from courses selected in consultation with the certificate advisor. Electives should support students to gain experience in the fields that they want to pursue. For example, students who are interested in writing scientific research proposals might take courses in related science disciplines. Students who are interested in using grant writing skills in a nonprofit context would be encouraged to take courses in nonprofit and business management

Total Hours 12

By completing this certificate, students will be able to:

- Identify fundable problems in specific contexts
- Research funding opportunities and find funding matches for specific projects
- Understand the importance of building funding relationships
- Design, write, revise, and complete a grant proposal
- Conceptualize and use persuasive visual and design elements when composing a proposal
- Respond to sponsors and manage grant funds
- Conceptualize and explain the role that proposal and grant writing will fit in their careers

Teaching English Language Learners Undergraduate Certificate (CTELL)

Introduction

Please click here (p. 459) to see English department information.

The Certificate in Teaching English Language Learners (CTELL) is designed to help you gain the skills necessary to teach English Language Learners at a variety of levels. It is built to serve those who want to teach in multilingual public and private schools in America as well as those who plan to teach English overseas. This certificate also serves the needs of international students wanting to teach English in their home country or other countries.

The program, which can be completed through CU Online, is designed to build the necessary skills to teach adults English as a second language. It is primarily aimed at native speakers of English who want to teach overseas but may serve the needs of international students wanting to teach English in their home country or other countries. Opportunities exist for internships at CU Denver's ESL Academy, International College of Beijing (ICB) and other language schools.

When can I start?

You may begin in any semester. There is no fixed deadline for application for admission.

Program Delivery

- This is an online program.

Declaring This Certificate

- Please contact the certificate faculty advisor.

For questions about the Teaching English Language Learners (CTELL) certificate advisor Joanne Addison (joanne.addison@ucdenver.edu).

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Teaching English Language Learners (CTELL) advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outline below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 15 ENGL credit hours.
2. Students must complete a minimum of 12 upper-division (3000- level or higher) credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.

4. All credits for the certificate must be completed with CU Denver faculty.

Certificate Allowances or Restrictions

1. The same courses counted toward a minor or degree at CU Denver may also be used toward the requirements for a certificate.

Code	Title	Hours
<i>Complete all of the following required courses:</i>		9
ENGL 3160	Language Theory	
ENGL 4601	Teaching English Language Learners: Theory and Practice	
ENGL 4651	TESOL Writing & Assessment	
<i>Complete six elective credits from the following courses:</i>		6
ENGL 3939	Internship	
ENGL 4190	Advanced Topics in Writing, Rhetoric, & Linguistics	
ENGL 5093	Teaching of Writing	
LING 3100	Language in Society	
Alternative elective approved by program advisor.		
Total Hours		15

Upon successful completion of the program, CTELL graduates will be able to:

- discuss the theoretical basis of English language instruction
- demonstrate a variety of effective English language teaching techniques
- explain, in pedagogically relevant ways, the linguistic structures of the English language

Technical and Professional Writing Undergraduate Certificate

Introduction

Technical writers analyze audiences, visualize data, manage content, write reports, design apps and user interfaces, compose web pages, and communicate science to the public. Technical and professional writing is everywhere. It's a dynamic field and industry that is constantly changing to keep pace with new technologies, emerging problems, and audience needs. The Technical and Professional Writing Certificate prepares students to become innovative, collaborative, and technically proficient writers who can work across a range of fields, including business, health, nonprofits, technology, science, publishing, environment, and law.

Program Delivery

- The certificate can be completed through online, in-person, or hybrid courses.

Declaring This Certificate

- Please contact the certificate advisor.

For questions about the Technical and Professional Writing certificate program, contact Kari Campeau (kari.campeau@ucdenver.edu).

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Technical and Professional Writing advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

- Students must complete a minimum of 12 ENGL credit hours.
- Students must complete a minimum of nine upper-division (3000- level or higher) credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
- All credits for the certificate must be completed with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

- Students must include an internship or a course (at least three credits) taken outside of the English department.
- Students must attend at least three Career Center (<http://www.ucdenver.edu/life/services/careercenter/Pages/default.aspx>) activities, which can include events, workshops, or 1-on-1 appointments.

Code	Title	Hours
<i>Complete one of the following technical and scientific writing courses:</i>		3
These foundational courses introduce students to technical or scientific writing. Students can expect to gain an academic grounding as well as hands-on experience in technical or scientific writing.		
ENGL 3154	Technical Writing	
ENGL 4175	Writing in the Sciences	
<i>Complete one of the following professional writing courses:</i>		3
These courses offer students an opportunity to develop their TPW skills in a specific field or industry. Courses focus on the unique TPW skills and situations called for when writing for business, nonprofit, community, journalistic, or grant-writing contexts.		
ENGL 3170	Business Writing	
ENGL 4280	Proposal and Grant Writing	
ENGL 4701	Multimedia in the Community	
<i>Complete one of the following rhetorical approaches courses:</i>		3
These courses ground students' TPW skills in rhetorical approaches to writing. Rhetorical approaches are anchored to audience, context, purpose and are attuned to the social and cultural contexts of communication.		
ENGL 2060	Introduction to Writing & Digital Studies	
ENGL 2070	Grammar, Rhetoric and Style	
ENGL 4190	Advanced Topics in Writing, Rhetoric, & Linguistics (in approved topics)	
<i>Complete one of the following interdisciplinary learning courses:</i>		3
Technical and professional communicators often collaborate with experts and contributors from a range of fields and backgrounds. This outside course requirement situates students to gain subject-matter expertise in a related field or internship.		
BIOL 3763	Biostatistics	
COMM 3660	Social Media for Social Change	
COMM 4282	Environmental Communication	
ENGL 3939	Internship	
IWKS 3200	Data Science for Innovators	
IWKS 3620	Mobile App Development	
PBHL 3030	Health Policy	
Any upper-division course or internship deemed to be central to the student's writing goals in consultation with the certificate Director		
Total Hours		12

Ethnic Studies

Chair: Rachel Harding

Business Operation Coordinator: Alexandria Joo

Office: Plaza Building, Ste. 102

Telephone: 303-315-7205

Fax: 303-315-7206

Overview

Ethnic Studies programs are designed to help students majoring in the liberal arts and sciences develop a sophisticated and broad understanding of ethnicity and its role in contemporary American society. They provide students with the theories and concepts needed to comprehend and interpret relations between and among ethnic groups in the United States. Students are better prepared to live and work in a diverse society when educational institutions foster a positive learning environment in which differences contained within various U.S. communities can be studied not as a social problem, as is often the case, but for their history of struggles and contributions.

The interdisciplinary nature of the ethnic studies program curriculum provides students the opportunity, through academic investigation, to develop a greater understanding of the cultural diversity of the present-day United States and to acquire skills needed in professional and social service fields. This multidisciplinary, comparative approach to contemporary and historical research methodologies provides the basis for students to analyze the diverse social, economic, political and cultural facets of ethnic groups in the United States. Special emphasis is given to new perspectives that recover the history, creative expression of underrepresented groups.

Programs and courses reflect prevailing thought in ethnic studies, draw parallels between various groups in the United States and link the studies of their ancestral origins with current and historical research on race and ethnic relations in the United States. They reflect critical analysis of the dominant perspectives through which ethnic groups have been described and perceived. Also investigated are the intersections of ethnicity with structures of political, educational, gender, business and economic, social and cultural power, all of which are emphasized through the study of materials and works by and about previously excluded groups. The cultural processes through which ethnic groups have sustained or altered their cultural identities are emphasized, as well as the pressures faced by members of various ethnic groups to maintain traditional values and conform to mainstream U.S. society.

Students may earn Latin Honors in the following way:

Cum Laude

Students must achieve a GPA of 3.3 in ALL CU Denver courses and a GPA of 3.5 in all ETST course

Magna Cum Laude

Students must achieve a GPA of 3.5 in ALL CU Denver courses and a GPA of 3.7 in all ETST courses

Summa Cum Laude

Students must achieve a GPA of 3.7 in ALL CU Denver courses and a GPA of 3.85 in all ETST courses.

Ethnic Studies (ETST)

ETST 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

ETST 2000 - Introduction to Ethnic Studies (3 Credits)

Multi-disciplinary survey of contemporary and historical research analyses of the diverse social, economic, political, and cultural facets of African American, American Indian, Asian American, and Latino communities and cultures. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring.

ETST 2024 - Race and Ethnic Relations (3 Credits)

Surveys race and ethnicity, facts and myths about great populations, and the social and cultural sources of bias and discrimination. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 2108 - Introduction to Chicana and Latina Studies (3 Credits)

This course introduces students to the broad range of the interdisciplinary fields of Chicana and Latina Studies by examining the Chicana and Latina experience including history, identity, politics, immigration, labor, literature, and popular culture. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Spring.

ETST 2155 - African American History (3 Credits)

Surveys the history of African Americans. Study interpretations, and analysis of major problems, issues, and trends affecting the African American population from pre-slavery to the present. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-H11.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-H11, History.

Typically Offered: Fall, Spring.

ETST 2357 - Asian American & Pacific Islander Cultures (3 Credits)

This is an introductory course that will examine how Asian Americans and Pacific Islanders have been represented in American popular culture and how Asian Americans and Pacific Islanders have sought to challenge and complicate those dominant cultural images to define themselves and their diverse experiences. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities.

ETST 2400 - Issues in Chicano/a Education (3 Credits)

Historical overview of segregation, landmark court cases and immigration policy in the education of Chicano/as in Colorado and nationally from 1920 to the present. The intersection of these issues in the education of undocumented students is also examined. Cross-listed with TCED 2400.

Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 3002 - Ethnicity, Health and Social Justice (3 Credits)

Surveys core issues contributing to racial or ethnic minority differences in health status. Historical and contemporary U.S. health and social policy, including the areas of environmental health, sexual and reproductive health, children and immigrants, are examined. Cross-listed with PBHL 3002. Term offered: fall. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

ETST 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"-our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with HIST 3003, INTS 3003, PHIL 3003, RLST 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ETST 3036 - American Indian Cultural Images (3 Credits)

Analysis of images and perceptions of American Indians in American culture, as seen in politics, education, film, photography, advertising, art, literature and the media. Note: Students may not earn credit for this course if they have earned credit for ETST 2036. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Summer.

ETST 3060 - AAPI Communities and Health (3 Credits)

Surveys core issues shaping health experiences and health status of Asian American and Pacific Islander communities in the United States. Historical and contemporary U.S. health and social policies that have directly impacted AAPI health and well-being in the United States are examined. Students will also engage with community leaders and partners committed to AAPI communities. Cross-listed with PBHL 3060. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 3108 - Chicano/a and Latino/a History (3 Credits)

An historical analysis of person's descendant from Mexico and Latin America. Areas of focus include ethnohistorical backgrounds, current interrelations, and social movements in both rural and urban groups. Other topics include: cultural patterns, identity maintenance, social reforms and problems of national incorporation. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 3110 - Indigenous Studies (3 Credits)

Examines how communities in diverse world regions preserve tradition, share knowledge, and respond to influences both within and outside of their immediate environments. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

ETST 3125 - Multiracial Families and Communities (3 Credits)

Examines specific issues related to multiracial, multicultural and mixed heritage families in the U.S., including historical, sociocultural, economic and political factors involved. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 3129 - Contemporary Latin American Literature (3 Credits)

The best of contemporary Latin American novels. Examines how U.S. policies in Latin America affect literary creation. Note: Taught in English. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 3155 - The African Diaspora (3 Credits)

This course examines historical and contemporary experiences of Africans and people of African descent in various parts of the world – with a special focus on African immigrants in the US, Black Americans with generational roots in the USA, Blacks in Europe and Afro-Latin Americans. The course incorporates perspectives from history, literature, religious studies, visual art, political science, sociology and anthropology in an effort to provide a range of materials that address the diversity and complexity of the experiences of Africans and people of African descent. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3211 - Hip Hop Music & Culture (3 Credits)

Covers the historical trajectory of hip hop music and culture from inception, aims to restructure stereotypes and offer a deeper perspective into how hip hop defines the identities of individuals as well as the consciousness of the masses within society. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3230 - African American Family (3 Credits)

Exploration of the African American family social institution. Emphasis on historical roots and African influence is still enmeshed in the functioning of the family in modern society. Factors responsible for the ability of the family to meet the challenging society. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3272 - Global Media (3 Credits)

Introduction to leading issues in the study of transnational media. The course will focus on the global media environment in the early 21st century, diverse countries, a variety of media, and social issues. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

ETST 3274 - Power, Poverty, Culture (3 Credits)

Studies the process that has rendered certain groups poor for generations. Studies African Americans, Whites, Chicanos/as and Latinos/as, and other ethnic groups that have lived in this society in a state of poverty. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 3297 - Social History of Asian Americans (3 Credits)

Introductory-level course surveys the social history of Asian American groups from the mid-19th century to the present. Examines immigration patterns, the development of communities, social and economic problems, and anti-Asian movements and activities. Cross-listed with HIST 3297. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3350 - Colonial Latin America (3 Credits)

Surveys the creation of colonial empires by Spain and Portugal, 1492-1808. Topics include Native American responses to European incursions, women in colonial society, and slavery in Latin America. Cross-listed with HIST 5350 and HIST 3350. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 3396 - History of the American Indian (3 Credits)

Indigenous nations in North America comprise hundreds of diverse cultures. This course examines U.S. Indian policy and how indigenous nations responded; how they creatively adapted, and resisted cultural change; and how they continue to persist culturally, socially, and politically. Cross-listed with HIST 3396. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3574 - Topics in Ethnic Studies (3 Credits)

Topics vary from term to term, based upon interest and availability of instructors in specialized areas. Term offered: spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Spring.

ETST 3697 - Contemporary Asian American Experience (3 Credits)

Examines the contemporary Asian American experience, including the adaptation of new immigrants or refugees, economic and educational problems, ethnic identity, intermarriage, anti-Asian discrimination and other civil rights issues, and recent political activism. Cross-listed with SOCY 3697. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3704 - Culture, Racism and Alienation (3 Credits)

The effects of racism on the personality of participants in racist cultures.
Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.
Typically Offered: Fall, Spring, Summer.

ETST 3840 - Independent Study: ETST (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

ETST 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Department consent required. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA
Typically Offered: Fall, Spring, Summer.

ETST 3995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.
Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

ETST 4000 - Research Methods in Ethnic Studies (3 Credits)

Emphasizes the acquisition of a variety of data or information collection and analytic skills, especially those applicable to historical and social inquiry in ethnic studies. Cross-listed with ETST 5000. Term offered: fall.
Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with HIST 4002, CHIN 4002, INTS 4002, RLST 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ETST 4020 - Race, Culture and Immigration (3 Credits)

In this course, we will consider the social and legal construction of race and immigration. We will also explore how immigrants have been racialized both historically and in the current moment. In addition, we will consider the role of culture in shaping the immigrant experience and immigrant outcomes. Restriction: Junior standing or higher or instructor permission. Cross-listed with SOCY 4020, SOCY 5020 and ETST 5020.
Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

ETST 4030 - Race, Religion and Belonging in the United States (3 Credits)

Race/ethnicity and religion are conconstitutive social and cultural formations that have played a fundamental part in determining the boundaries of belonging of the United States. In this course, students will interrogate when, why and how race/ethnicity and religion have been used to delineate borders, determine citizenship, navigate legal classifications, dictate social mobility, and regulate economic possibilities. We will analyze both primary sources #such as sermons, reality TV shows, court cases and graphic images#as well as scholarly writing to explore how formations of race and religion have shaped notions of belonging in the US nation#state, thereby constructing the boundaries of the state itself. Cross-listed with ETST 5030, RLST 4030, RLST 5030, HIST 4209 and HIST 5029. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4144 - Indigenous Political Systems (3 Credits)

Surveys political theory and practice in indigenous societies in the Americas. Examines the impact of indigenous political thought on Euro-American politics, especially the U.S. Constitution, and explores the contemporary impact of indigenous people on current politics. Cross-listed with PSCI 4144. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4146 - Indigenous Politics (3 Credits)

Surveys the status of the world's native peoples and nations, and the role of law and politics in the future of indigenous peoples in the global arena. Examines questions of human rights, economic development, and international law and politics. Cross-listed with PSCI 4146, 5145. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4156 - The Arab-Israeli Peace Process (3 Credits)

Critical analysis of Arab and Israeli perspectives on the on-going peace negotiations in the Middle East. Historical background and religious-cultural aspects of current problems. Prereq: Upper division standing. Cross-listed with PSCI 4156. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ETST 4165 - Cultural Diversity Awareness in the Workplace (3 Credits)

This course will analyze the impact and effectiveness of cultural diversity awareness in a variety of workplace settings including educational institutions, businesses, health care organizations, and non-profit organizations. Students will learn how implicit biases and structural inequality impact workplace culture, a work place's productivity, and a work place's ability to fulfill their mission. By the end of the course, students will acquire the skills to advocate for and implement inclusive work place policies. Cross-listed with ETST 5165. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4220 - African-American Literature (3 Credits)

Surveys African-American literature with special emphasis on post-Civil War writing. Cross-listed with ETST 5220, ENGL 4220 and 5220. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 4297 - Theorizing the Transpacific (3 Credits)

What is the transpacific? Though this term is most associated with global trade and economic interests, this course will examine the migratory and cultural precedents for this term. What do other perspectives from Oceania and from pacific rim countries offer us to theorize the meaning of the transpacific(s). How might a social and cultural understanding of the transpacific engage with the political and economic understandings of the transpacific undergirded by trade relations? Note: Recommended that ETST 3297- Social History of Asian Americans be completed first. Term offered: spring. Cross-listed with ETST 5297. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4305 - Women of Color Feminisms (3 Credits)

This course is an overview of women of color feminist theorizing (thinking) and praxis (practice) in the U.S. We will explore these feminisms through the writing, art, and organizing efforts of women and trans, femme, and non-binary people of color with a focus on key themes and concepts including identity, difference, oppression, intersectionality, representation, violence, resistance, empowerment, solidarity, and coalition. Texts for the course highlight key issues in the feminist theorizing and praxis of Black, Latina/x, Chicana/x, Asian (American), Pacific Islander, Indigenous, and Arab (American) women and trans, femme, and non-binary people of color, especially the politics of identity and representation; structural oppressions and violences; and practices of survival, resistance, and activism. Not only will we examine how these feminists have critiqued oppression(s) based on race, class, gender, sexuality, nationality, and religion, (as well as how these systems of domination intersect), but what kinds of approaches, strategies, and changes these thinkers and activists have organized for and promoted. Cross-listed with ETST 5305, WGST 4305 and WGST 5305. Max hours: 3 Credits

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4411 - Modern Mexico (3 Credits)

Designed to familiarize students with the critical issues of Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 4411, 5411. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4457 - American Political Thought (3 Credits)

Critical examination of American political life at the intersections of social categories such as race, class, gender, sexuality, disability, and Indigeneity. Exploration of key and marginal thinkers through a variety of texts and genres. Cross-listed with PSCI 4457, PSCI 5457, and ETST 5457. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4574 - Special Topics (3 Credits)

Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4722 - Communicating Latinx Cultures (3 Credits)

Communicating Latina/o/x Cultures centers historical and contemporary vernacular and institutional discourse and narratives about, by, and for Latina/o/x people and communities. Drawing on theories, methods, and practices to understand the complexities of Latina/o/x cultures and lives, we will investigate how different actors and activists express and experience borders, migration, dispossession, citizenship, colonialism/coloniality, colorism, white supremacy, environmental racism(including anti-Blackness), mono- and multilingualism, self-determination struggles, power, representation, resistance, and mutual support networks for alternative worldmaking. To situate these concepts and concerns, we will explore contexts and places ranging from Colorado to the Caribbean. Term Typically Offered: Spring. Cross-listed with COMM 4722, COMM 5722, and ETST 5722. Max hours: 3 credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4768 - Chicano/Chicana Narrative and Social History (3 Credits)

Provides a general, chronological, and thematic introduction to short stories and novels written by U.S. citizens of Mexican descent. Begins with early 20th century narratives by women, continues with the corrido and Post-World War II male writers, and ends with more recent publications by contemporary women writers. Social, historical, and political backgrounds are also emphasized, along with an analysis of the literary techniques and motifs. Cross-listed with ENGL 4768. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4840 - Independent Study: ETST (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

ETST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

ETST 4960 - Capstone in Ethnic Studies (3 Credits)

Provides a broad overview of social research methods pertinent to the study of race, ethnicity, gender, and culture. Explores theories concerning "ethnicity and race" as both social construct and constituent feature of people's identities and lived experiences. Ethnic Studies is an interdisciplinary major where students make connections across diverse fields of inquiry; this course provides a structure for integrating an interdisciplinary examination of the intellectual, cultural, and social dimensions of racial and ethnic groups. Cross-listed with ETST 5960. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Ethnic Studies, BA

Introduction

Please click here (p. 490) to see Ethnic Studies department information.

The Ethnic Studies BA curriculum trains students to transform society and engage in real-world problem solving through a vibrant interaction with the intersectional histories and contributions of Black, Indigenous, and other People of Color (BIPOC). Ethnic Studies graduates cultivate cultural competency skills that are highly valued by employers, who serve increasingly diverse clientele. Our students find employment in a variety of fields including: law, teaching, journalism, marketing, community organizing and social work.

Program Delivery

- This is an on-campus and online program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 33 credits in ETST coursework.
2. Students must complete a minimum of 16 upper division (3000-level and above) ETST credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete 15 ETST credit hours with CU Denver faculty.

Code	Title	Hours
<i>Complete all of the following required Ethnic Studies courses:</i>		21
ETST 2000	Introduction to Ethnic Studies	
ETST 2155	African American History	
ETST 3108	Chicano/a and Latino/a History	
ETST/HIST 3297	Social History of Asian Americans	
ETST/HIST 3396	History of the American Indian	
ETST 4000	Research Methods in Ethnic Studies	

ETST 4960 Capstone in Ethnic Studies

Complete four additional upper-division (3000 or above) Ethnic Studies elective courses. 12

Total Hours 33

Upon completion of the Ethnic Studies BA, students will be able to

- Explain theories and histories of marginalization and discrimination. Discuss the implications of biased treatment on contemporary events
- Identify diverse social positions. Analyze how social position affects access
- Describe the evolution and social construction of collective identities
- Be aware of one's own attitudes and identities in the context of cultural diversity. Recognize the connection between one's own attitudes and identities and personal and professional interactions
- Summarize the contributions and impact by diverse groups to institutions and society

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>).

Ethnic Studies Minor

Introduction

Please click here (p. 490) to see Ethnic Studies department information.

Ethnic Studies minors develop cultural competency skills that prepare them to live and work in a diverse, multicultural society. These skills are highly valued by employers, who serve increasingly diverse clientele. Ethnic studies minors find employment in a variety of fields including: law, teaching, journalism, marketing, community organizing and social work.

Program Delivery

- This is an on-campus and online program.

Declaring This Minor

- Click here (p. 377) to go to information about declaring a major/minor.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor, in addition to their individual minor requirements.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 18 ETST credit hours (6 courses).
- Students must complete a minimum of nine upper-division (3000-level and above) ETST credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete all ETST course requirements for the Ethnic Studies minor with CU Denver faculty. Transfer courses do not apply.

African American Studies Undergraduate Certificate

Introduction

Please click here (p. 490) to see the Ethnic Studies department information.

African American Studies is a multidisciplinary and interdisciplinary field examining the histories, cultures, and political and social engagements of people of African descent in the United States. Courses offered through the African American Studies certificate program encourage students to explore a broad range of historical and contemporary issues impacting native-born African Americans as well as African, Caribbean, and Afro-Latin American immigrants to the USA. Our courses address transformations in the social, political, gender, sexual, religious, and ethnic identities of people of African descent; meanings of race and family; social justice movements and activism; literature and cultural expression; and the nature of diaspora in the Black experience.

African American studies is the cornerstone discipline of Ethnic Studies, both in the history of our university and in the larger movement for inclusive educational frameworks in the United States. As a field, it has developed a tradition that weds incisive critical thinking, creative problem solving and a commitment to applied approaches that benefit the larger society beyond the walls of the university.

An African American Studies certificate prepares students to work with racially and ethnically diverse communities in the United States or abroad in a wide variety of careers, including teaching, higher education administration, community organizing, community and government service, journalism and the media, environmental science, non-profit administration, global economics, health care, legal services, library science, music, publishing, and research.

Additional information about the undergraduate certificate in African American studies may be obtained from the Ethnic Studies department at 303-315-7205 or email: ethnic_studies@ucdenver.edu

Additional information about the African American Studies certificate may be obtained from Ethnic Studies, Plaza Building, Suite 102

American Indian Studies Undergraduate Certificate

Introduction

Please click here (p. 490) to see Ethnic Studies department information.

A 12-credit online program with opportunities in American Indian related internships.

This certificate is designed to appeal to undergraduate students with a background in any major. The certificate is also targeted to nondegree-seeking professionals. Courses will examine historical and contemporary tribal experiences. Students will be encouraged to think critically about the stereotypes of American Indians and tribal governments. A certificate in American Indian Studies offers students an enduring intellectual base to understand both the foundations of America and diversity among tribes with different languages, histories, and cultures. The courses provide students the opportunity to encounter theories posited by a rich history of American Indian intellectuals.

Additional information about the undergraduate certificate in American Indian Studies may be obtained from ethnic studies Plaza Building, Suite 102

Phone: 303.315.7205

Asian American Pacific Islanders Studies Undergraduate Certificate

Introduction

AAPI studies integrates the study of Asian American and Pacific Islander communities in the United States with analysis of the histories, politics, cultures, and societies of countries in Asia and the Pacific and Asian and Pacific Islander diasporic communities. AAPI Studies certificate courses deal with changing political, social, economic and cultural realities, including US imperialism, US military interventions, settler colonialism, migration, and transnational communities; gender, racial, sexual, and ethnic identities; social movements; diverse forms of cultural expression; ongoing political and economic restructuring in Asia and the Pacific Islands; and the challenges of cultural, political, and economic empowerment for AAPI communities in the United States.

Training and Application

An AAPI studies certificate prepares students to work with Asian American and Pacific Islander communities in Denver, elsewhere in the United States or abroad in a wide variety of careers, including teaching, higher education administration, community organizing, community and government service, journalism and the media, environmental science, global business, health care, legal services, library science, music, publishing, and research. Students will be encouraged to intern in local organizations working with the AAPI population.

Please click [here](#) (p. 490) to see Ethnic Studies department information

Additional information about the AAPI certificate may be obtained from Ethnic Studies

Plaza Building, Suite 102
Phone: 303.315.7205

Program Delivery

- This is an on campus program with some courses available online.

Declaring This Certificate

- Please contact the certificate faculty advisor, Faye Caronan.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Asian American Pacific Islander Studies advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click [here](#) (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from the approved courses below.
2. Students must complete a minimum of nine upper-division (3000-level and above) credit hours taken from among the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all credit hours applying to the certificate with CU Denver faculty.

Code	Title	Hours
<i>Complete the following required Asian American Pacific Islanders Studies courses:</i>		
ETST 2357	Asian American & Pacific Islander Cultures	3
ETST 3297	Social History of Asian Americans	3
<i>Complete two of the following Asian American Pacific Islanders Studies elective courses:</i>		
ETST 3060	AAPI Communities and Health	
ETST 3697	Contemporary Asian American Experience	
ETST 4297	Theorizing the Transpacific	
ETST 3939	Internship	
HIST 3470	Intro to East Asia: Since 1800	
HIST/CHIN 4421	Modern China	
Total Hours		12

By the end of a certificate in AAPI Studies students should be able to:

1. Summarize the contributions that Asian and Pacific Islander individuals and populations have made in US history, culture, and society.
2. Recognize differences in national origin, mode of immigration, citizenship, skin color, gender and sexuality among Asian American and Pacific Islander individuals and populations and how these shape their experiences.
3. Articulate how US economic, political, and military occupation and interventions in Asia and the Pacific and the changing roles of U.S. - Asia relations impact Asian American and Pacific Islander experiences.
4. Analyze Asian American and Pacific Islander communities within cultural, social, political, and historical contexts.

Cultural Diversity Studies Undergraduate Certificate

Introduction

Please click here (p. 490) to see Ethnic Studies department information.

The undergraduate certificate in cultural diversity studies is designed to appeal to undergraduate students with a background in any major. It will allow students to demonstrate to potential employers that they possess the multicultural skills and knowledge necessary to succeed in the workplace. Students will enroll in department courses that focus on the historical context in which race and culture have emerged in the United States.

This certificate is also targeted to non-degree-seeking professionals who seek to acquire multicultural knowledge and the skills necessary to ensure their success in professional environments. Students will be encouraged to think critically about race and race relations. Their expanded understandings of the implications of race and culture in work environments will ensure employers that they offer the highest quality employees opportunities in employment or advancement.

Additional information about the undergraduate certificate in cultural diversity studies may be obtained from the Ethnic Studies

Plaza Building, Suite 102

Phone: 303.315.7205

1. Students must complete a minimum of 12 credit hours from the approved courses below.
2. Students must complete a minimum of nine upper-division (3000-level and above) credit hours taken from the approved courses.

3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.

4. Students must complete all credit hours applying to the certificate with CU Denver faculty.

Code	Title	Hours
<i>Complete the following required course:</i>		3
ETST 2108	Introduction to Chicanx and Latinx Studies	3
<i>Complete three Latinx Studies elective courses:</i>		9
ANTH 4300	Immigrant Health	3
COMM 4722	Communicating Latinx Cultures	3
ETST 3108	Chicano/a and Latino/a History	3
ETST 3574	Topics in Ethnic Studies	3
GEOG 3130	Central America and the Caribbean	3
GEOG 3140	Geography of South America	3
HDFR 3020	Black and Latino Children in Families and Schools	3
HDFR 4040	Latino Families in School and Communities	3
HDFR 4045	Abuelos (Grandparents) Latino Families	3
HIST 3460	Modern Latin American History	3
HIST 4412	Mexico and the United States: People and Politics on the Border	3
LDFS 3000	Undocumented Mexican Immigration	3
PSCI 4545	Immigration Politics	3
SPAN 3025	Writing for Latinos	3
SPAN 3270	Bilingual Communities: Spanish as a Language of Contact ¹	3
SPAN 4030	The Learning and Teaching of Heritage Speakers ¹	3
SPAN 4076	Spanish in Colorado ¹	3
SPAN 4080	Spanish in the United States ¹	3
Total Hours		69

¹ Indicates courses that have prerequisites and require fluency in Spanish.

Geography and Environmental Sciences

Chair: Peter Anthamatten, PhD, MPH

Program Assistant: Angela Carrington

Office: North Classroom, 3016

Telephone: 303-315-7525

Fax: 303-315-7526

Overview

Undergraduate Information

Geography is a discipline that focuses on the spatial analysis of human/physical patterns and processes. Geographers explore factors affecting the distribution of people and their activities on the surface of the earth to seek meaningful solutions to contemporary problems faced by societies. This discipline is an ideal major for liberal arts students seeking a broad, holistic approach to the study of modern questions centered around human interactions with the environment, providing exposure to the concepts and techniques utilized in investigating the physical sciences, environmental and sustainability, socioeconomic problems and planning policies.

The major offers 4 degree options:

1. General Geography
2. Environmental Science
3. Environment, Society & Sustainability
4. Urban Studies & Planning

The program offers a distinctive curriculum that combines a broad and integrative scientific education with state-of-the-art training in geospatial analysis (e.g., computer mapping, GIS, remote sensing). The program is designed to provide the student interested in physical, social or environmental geography with the background necessary for obtaining a rewarding career in government (federal, state, local) or private industry, as well as preparing students for graduate study.

Departmental Honors

Departmental honors is a privilege for students who demonstrate exceptional academic performance and promise at CU Denver. The minimum criteria for honors in GES are an overall GPA of 3.3 in all courses at CU Denver (minimum of 30 semester hours for transfer students) and a GPA of 3.75 for all courses taken in the Department of Geography and Environmental Sciences (regardless of the BA option that students are pursuing). A student who meets these criteria shall work with a GES faculty sponsor who agrees to guide an honors thesis. Students must successfully complete and defend an honors thesis that demonstrates independent research, written and presentation skills. Additionally, students are required to sign up for and successfully complete 3 honors thesis credits the semester that they are graduating with honors. Departmental honors will be awarded based on successful completion and defense of the honors thesis, subject to faculty sponsor and committee approval. For more information, please contact the GES undergraduate advisor and/or chair.

Graduate Information

Please go to the [Graduate](#) catalog to read about our graduate programs.

Programs

- Climate Change Studies - Natural Sciences Track, BS (p. 516)
- Climate Change Studies - Policy Track, BA (p. 519)
- Climate Change Studies - Society Track, BA (p. 521)
- Geography, BA (p. 524)
- Geography - Environment, Society and Sustainability Option, BA (p. 527)
- Geography - Environmental Science Option, BA (p. 529)
- Geography - Urban Studies and Planning, BA (p. 533)
- Environmental Sciences Minor (p. 535)
- Geography Minor (p. 538)
- Urban Studies and Planning Minor (p. 539)
- Geographic Information Science Undergraduate Certificate (p. 540)
- Free and Open Source Software for Geospatial Applications Undergraduate Certificate (p. 542)
- Sustainable Urban Agriculture Undergraduate Certificate (p. 544)

Faculty

Professors:

Anne Chin, PhD, Arizona State University

Pamela Jansma, PhD, Northwestern University (CLAS Dean)

Rafael Moreno-Sanchez, PhD, Colorado State University

Gregory Simon, PhD, University of Washington

Professors Emeriti:

Rudi Hartmann, PhD, Technical University of Munich

Wesley E. LeMasurier, PhD, Stanford University

Martin Lockley, PhD, University of Birmingham, England

John W. Wyckoff, PhD, University of Utah

Associate Professors:

Peter Anthamatten, PhD, University of Minnesota

Christy Briles, PhD, University of Oregon

Frederick B. Chambers, PhD, Arizona State University

Brian Page, PhD, University of California, Berkeley

Bryan S. Wee, PhD, Purdue University

Assistant Professors:

Benjamin Crawford, PhD, University of British Columbia, Vancouver

Katharine Kelsey, PhD, University of Colorado Boulder

Lisa Kelley, PhD, University of California Berkeley

Assistant Professors Clinical Teaching Track:

Yi-Chia Chen, PhD, Louisiana State University

Thomas Duster, PhD, University of Notre Dame

Senior Instructors:

Amanda Weaver, PhD, University of Denver

Instructors:

Kirsten Christensen, MSS, MURP, University of Colorado Denver

Lecturers:

Richard Ashmore

Jonathan Burton

Hope Dalton

Amy DePierre

Ricardo Oliveira
Mandy Rees

Geography (GEOG)

GEOG 1102 - World Regions Global Context (3 Credits)

Analyzes world regions and their global interconnectedness, including the dynamic and complex relationships between people and the world they inhabit. Demographic and cultural (political, economic, and historic) issues are examined as well as interactions between human societies and natural environments. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS2, Soc Behav Sci: Geography.

Typically Offered: Fall, Spring, Summer.

GEOG 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

GEOG 1202 - Introduction to Physical Geography (3 Credits)

The science that studies the processes, forms, and spatial or geographic structures of natural systems operating at or near the earth's surface, including weather, climate, and landform processes. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - No Lab; GT courses GT Pathways, GT-SC2, Nat Phy Sci: Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

GEOG 1302 - Introduction to Human Geography (3 Credits)

Systematic introduction to basic concepts and approaches in human geographic analysis. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Fall, Spring.

GEOG 1602 - Urban Studies and Planning (3 Credits)

Surveys the process of urbanization, emphasizing the development of American cities, using Denver as an example. Topics covered include: evolution of metropolitan form/land use patterns, cultural landscape formation, city planning and architectural design, and urban social and policy issues. Note: This course is a prerequisite for GEOG 4680 Urban Sustainability: Perspectives and Practice AND GEOG 4640 Urban Geography Denver and the US. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS2, Soc Behav Sci: Geography.

Typically Offered: Fall, Spring.

GEOG 2080 - Introduction to Mapping and Map Analysis (3 Credits)

Studies major elements in the preparation of thematic maps, including sources of data collection and manipulation of data, and cartographic techniques for display of data. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

GEOG 2202 - Hazards to Disasters: Perception and Management (3 Credits)

Surveys those physical phenomena that often cause substantial damage when they occur in areas of human settlement. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS2.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-SS2, Soc Behav Sci: Geography.

Typically Offered: Fall, Spring, Summer.

GEOG 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: sophomore standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

GEOG 3100 - Geography of Colorado (3 Credits)

An analysis of the physical environment, history of settlement, and resource base of Colorado in relation to present economic patterns of the state. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3110 - Geography of North America (3 Credits)

Systematic study of the physical, cultural, economic, and political relationships that shape the landscape of the United States, Canada, Greenland, and the U.S.-Mexico Borderlands. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3120 - Geography of Europe (3 Credits)

An analysis of the physical environment, resource utilization, economic development and cooperation in Europe. A cultural and political geography which focuses on continuity and change in Eastern and Western Europe. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3130 - Central America and the Caribbean (3 Credits)

Surveys the physical environment and cultural development of Central America and the Caribbean Islands. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3140 - Geography of South America (3 Credits)

The physical environment, cultural development, and political instability within the area are analyzed. Influence of the landscape and climate, as well as Iberian cultural and land tenure patterns on historic settlement and modern growth are discussed. Problems associated with population, economics, politics, education, and geography are emphasized. Term offered: spring. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 3150 - Middle East (3 Credits)

Physical, cultural, and economic approach to the arid lands of the Middle East, including Arab land of the Sahara. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3160 - Geography of China (3 Credits)

Geographic survey of the physical, cultural, and economic features characterizing the geography of China. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3232 - Weather and Climate (3 Credits)

Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher. Cross-listed with ENVS 3232.

Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

GEOG 3240 - Colorado Climates (3 Credits)

Provides a broad overview of the various weather and climate patterns that are found within the state of Colorado. To accomplish this, the state of Colorado will be divided into regions which (hopefully) have a large degree of homogeneity in terms of weather and climate controls.

Note: Taught in a seminar style with students giving presentations and reports on their findings about a given region. Prereq: GEOG 3232 with a C- or higher, or instructor permission. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 3232 with a C- or higher.

Typically Offered: Spring.

GEOG 3380 - Anthropocene Futures (3 Credits)

We are living in the "Anthropocene"—an era of rapid environmental and societal changes, and of decline and loss resulting from accelerating human interactions with Earth systems. Warming climates, wildfires, floods, water and food insecurity, novel ecosystems, and even pandemics such as COVID-19, are phenomena of the Anthropocene. With a still growing human population and a finite planet, understanding and overcoming such challenges is more pressing than ever, if people are to co-evolve with Earth toward a sustainable future. This interdisciplinary seminar course tells the scientific story of humanity's intensifying interactions with the planet and explores possible future paths. Through presentations, readings and discussion, students will examine topics that include the origin and significance of Anthropocene in Earth's evolutionary history, the debates and evidences for a new geologic epoch, large-scale trajectories of environmental change, a safe operating space, and planting seeds for a "good" Anthropocene. In doing so, students will acquire skills and experiences in critical thinking and analytical reasoning to grapple with many uncertainties and tensions of the Anthropocene. Cross-listed with GEOG 5380, ENVS 3380, and ENVS 5380. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3401 - Geography of Food and Agriculture (3 Credits)

An overview of food systems and agriculture as they impact an increasingly urbanized planet. We will survey historical food production and preservation, food justice and insecurity, land-use and preservation, as well as local and global systems of distribution and consumption. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 3412 - Globalization and Regional Development (3 Credits)

Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Students will not earn credit for GEOG 3412 if they have already earned credit for GEOG 3411. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

GEOG 3430 - Geography of Tourism (3 Credits)

Geographic analysis of trends in recreation, travel, and tourism, and their economic, social, and environmental impacts. Examines growth and change in resorts and tourist destination areas. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: this course assumes that students have completed GEOG 1302 or GEOG 3411. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3501 - Geography of Health (3 Credits)

Offers a critical geographic perspective to human health issues, examining disease distributions, how changing relationships between people and their environments (natural, built, and social environments) influence health, and different approaches to the study of health in geography. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3840 - Independent Study: GEOG (1-3 Credits)

Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOG 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

GEOG 3990 - Special Topics (3 Credits)

Investigation of current topics in geography such as analysis of issues (crime, public transportation), techniques (socioeconomic impact analysis), or areas of specialization (climatology). Note: specific necessary prior coursework varies with each topic; students are expected to have completed at least six hours in relevant social or physical science coursework. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

GEOG 4010 - Landscape Biogeochemistry (3 Credits)

A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological, and ecological timeframes, together with anthropogenic activities. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher, or instructor permission. Cross-listed with GEOL 4010/ENVS 5010. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Spring.

GEOG 4020 - Earth Environments and Human Impacts (3 Credits)

This course examines the multitude of impacts that humans have exerted on Earth's biomes and physical environment in a systems context, including vegetation, animals, soils, water, landforms and the atmosphere. It considers the ways in which climate changes and modifications in land cover have altered the environment, and how such changes will still accelerate in coming decades. The course also explores emergent topics such as rewilding, novel and no analogue ecosystems, and ecosystem services. Additionally, it assesses the future impact of a growing human population on the planet within a context of the "anthropocene," an era dominated by human activity. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher. Cross-listed with ENVS 5020, GEOL 4020. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher.

Typically Offered: Fall.

GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing (3 Credits)

An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 2080 with a grade of C or better. Cross-listed with GEOG 5060. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 2080 with a grade of C or better

Typically Offered: Fall, Spring, Summer.

GEOG 4070 - Remote Sensing II: Advanced Remote Sensing (3 Credits)

Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4060/5060 with a grade of C or better, or permission of instructor. Cross-listed with GEOG 5070. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4060 or GEOG 5060 or GEOL 4060 or GEOL 5060, with a grade of C or better

Typically Offered: Spring.

GEOG 4080 - Introduction to GIS (3 Credits)

Introduces Geographic Information Systems (GIS), including justification, hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data. Includes hands-on use of a GIS workstation. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 2080 or LDAR 4432/5532 with a C or higher. Cross-listed with GEOG 5080. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 2080 or LDAR 4432/5532 with a C or higher.

Typically Offered: Fall, Spring, Summer.

GEOG 4081 - Cartography (3 Credits)

Provides an introduction to the art and science of cartography (map making). Students will learn about design principles, tools and techniques of map production, culminating in the creation of a high-quality map through hands-on exercises. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or GEOG 5080 or CVEN 5381 with a grade of C or better. Cross-listed with GEOG 5081. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better

Typically Offered: Fall, Spring.

GEOG 4085 - GIS Applications for the Urban Environment (3 Credits)

Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or GEOG 5080 or CVEN 5381 with a grade of C or better, or permission of instructor. Cross-listed with GEOG 5085. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better

Typically Offered: Spring.

GEOG 4086 - FOSS4G Systems Integration (3 Credits)

Focuses on the integration of different FOSS4G (Free and Open Source Software for Geospatial Applications) software and technologies to create geospatial information systems that access data from different sources, storage structures, and formats to provide information to support decision making processes. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4091 or 5091, and GEOG 4092 or 5092 with a C or higher. Cross-listed with GEOG 5086. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4091 or 5091, and GEOG 4092 or 5092 with a C or higher.

GEOG 4090 - Environmental Modeling with Geographic Information Systems (3 Credits)

Applies raster spatial analysis and modeling to study processes and spatial relationships to support decision making in natural and built environments. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or GEOG 5080 or CVEN 5381 with a grade of C or better, or permission of instructor. Cross-listed with GEOG 5090. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better

Typically Offered: Fall.

GEOG 4091 - Open Source Software for Geospatial Applications (3 Credits)

Students will master the individual use and integration of a stack of the most powerful Free and Open Source Software for Geospatial Applications (FOSS4G) to analyze spatial problems and create Spatial Data Infrastructures in different technological, socio-economic and organizational settings. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better, or permission of the instructor. Cross-listed with GEOG 5091. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better

Typically Offered: Spring.

GEOG 4092 - GIS Programming and Automation (3 Credits)

Students will learn the most commonly used programming language to automate GIS geoprocessing tasks and workflows in the latest versions of the most popular GIS systems. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Cross-listed with GEOG 5092. Prereq: grade of B- or higher in GEOG 4080 or 5080 or similar course. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: grade of B- or higher in GEOG 4080 or 5080 or similar course

Typically Offered: Fall.

GEOG 4095 - Deploying GIS Functionality on the Web (3 Credits)

Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or GEOG 5080 or CVEN 5381 with a grade of C or better, computer science background, or permission of instructor. Cross-listed with GEOG 5095. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better

Typically Offered: Spring.

GEOG 4220 - Environmental Impact Assessment (3 Credits)

The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Cross-listed with GEOG 5220, URPL 6549. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 4230 - Hazard Mitigation and Vulnerability Assessment (3 Credits)

Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Cross-listed with GEOG 5230. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4235 - GIS Applications in the Health Sciences (3 Credits)

Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Note: this course assumes that students have completed GEOG 4080 or GEOG 5080 and/or have a background in public health. Cross-listed with GEOG 5235, HBSC 7235. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 4240 - Applied Geomorphology (3 Credits)

Uses hands-on tasks and field trips to investigate processes behind Earth's changing landforms in a variety of physical landscapes (aeolian, volcanic, coastal, fluvial, karst, glacial and periglacial) as related to rock decay, soils and climatic forcings. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher. Cross-listed with GEOL 4240, 5240 and GEOG 5240. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOG 4251 - Fluvial Geomorphology (3 Credits)

Examines interactions between Earth's surface and flowing water across spatial and temporal scales. Considers structure and function of the major components of fluvial systems, with particular attention to the variety of fluvial systems to hydrologic, geologic and anthropogenic controls. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher. GEOG 3232 is strongly recommended, though not required. Cross-listed with GEOG 5251, GEOL 4251 and GEOL 5251. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOG 4260 - Energy and Natural Resource Planning (3 Credits)

This course provides an overview of the issues associated with energy and natural resource planning. Topics include: energy policy; alternative energy development; water resources; extraction/mining; natural resource protection and regulation; resource management, policies, politics, and technologies. Cross-listed with URPL 6510. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 4265 - Sustainability in Resources Management (3 Credits)

Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information.

Prereq: ENVS 1044 and ENVS 1045 or ENVS 1042 with a C- or higher.

Cross-listed with GEOG 5265. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: ENVS 1044 and ENVS 1045 or ENVS 1042 with a C- or higher.

GEOG 4270 - Glacial Geomorphology (3 Credits)

Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Note: this course assumes that students have completed GEOG 1202 or GEOL 1072. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher. Cross-listed with GEOG 5270, GEOL 4270 and GEOL 5270. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOG 4280 - Environmental Hydrology (4 Credits)

Examination of hydrologic processes in relation to climate, soils, vegetation, land-use practices, and human interactions. Natural scientific perspectives emphasized; field and laboratory included. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher. Cross-listed with GEOL 4280 and ENVS 5280. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and

GEOG 3232 or ENVS 3232 with a C- or higher.

GEOG 4301 - Population, Culture, and Resources (3 Credits)

World populations are examined in the context of local, regional and global resources. Opposing viewpoints are studied, and students are required to complete a case study of self-selected country. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Students may not receive credit for this course if they have already received credit for GEOG 3301. Prereq: GEOG 1302 or ENVS 1342 with a C- or higher or instructor consent. Cross-listed with GEOG 5301. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 1302 or ENVS 1342 with a C- or higher or instructor consent.

Typically Offered: Fall, Spring.

GEOG 4305 - Water Quality and Resources (3 Credits)

Introduces water resources aimed at students with little or no background in the field. This is a broad course covering topics ranging from the physical aspects of water to water politics and international law. While the course is largely a lecture format, discussion of current issues is a significant part of the class. Cross-listed with ENVS 5305.

Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4335 - Climate Change & Society (3 Credits)

Our focus in this class is to critically examine and engage with important and ongoing environmental issues, with particular emphasis on those related to climate change. Together we will explore issues ranging from deforestation and sea level rise to climate justice, paying attention not only to their societal drivers and impacts, but to the dynamics of power and authority that affect how these issues come to be studied, represented, addressed, and experienced. The goal of this course is less to build topical expertise in any single domain than it is to broaden and deepen your capacity to engage with, participate in, and critically dissect climate-society relations. Cross-listed with GEOG 5335. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4350 - Environment and Society in the American Past (3 Credits)

Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 5350. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4420 - The Politics of Nature (3 Credits)

Examines how economic systems, scientific discovery, institutional policies, and environmental knowledge converge to shape the environment and mediate the way societies understand, manage and respond to environmental changes in both the United States and the developing world. Cross-listed with GEOG 5420. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4440 - Science, Policy and the Environment (3 Credits)

Examines the social, economic and political forces shaping scientific discovery and the development and enforcement of environmental policy. Students will examine perspectives on issues such as risk, expertise, uncertainty and objectivity that influence the problem-defining, standard-setting and policy-making process. Cross-listed with GEOG 5440. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4450 - Urban Food and Agriculture: Perspectives and Research (3 Credits)

Provides an overview of research & practices in urban farming. Critically reviews emergent models of local food production/distribution.

Compares new practices to traditional agribusiness. Assesses the prospects for solving sustainability problems within the modern agro-food system. Cross-listed with ENVS 5450. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4460 - Sustainable Urban Agriculture Field Study I (3 Credits)

Provides a field-based overview of urban farm planning & management.

Topics: range/land conservation, native/invasive species, water distribution, animal husbandry, government interaction, local markets, community relations, conservation easements and issues pertaining to urban farming. Note: this course assumes that students have completed GEOG 4450. Cross-listed with ENVS 5460. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4470 - Sustainable Urban Agriculture Field Study II (3 Credits)

Provides a field-based overview of current practices in local agricultural production. Emphasis will be placed on sustainable practices and their most efficient situation. Special consideration will be given to plausible solutions for food insecure communities both local and global. Note: this course assumes that students have completed GEOG 4450 and 4460.

Cross-listed with ENVS 5470. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4625 - Urban America (3 Credits)

This course will explore how Americans experienced their rapidly growing and changing cities during the past two hundred years. This course will cover a wide range of urban themes, including segregation and gentrification, self-invention and policing, ethnic gangs and race riots, skyscrapers and suburbia, and commercial sex and Hollywood. The course will ultimately chart how a range of Americans - including immigrants, teenagers, laborers, women, LGBTQ+ people, and people of color - all fought for their own "right to the city". Cross-listed with HIST 4225, HIST 5225, WGST 4225, WGST 5225, GEOG 4625. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 4640 - Urban Geography: Denver and the U.S. (3 Credits)

Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 5640. Prereq: GEOG 1602 with a grade of C- or higher or permission from instructor. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 1602 with a grade of C- or higher.

Typically Offered: Spring.

GEOG 4680 - Urban Sustainability and Resiliency: Perspectives and Practice (3 Credits)

Society is facing an uncertain future. Our cities are growing, and anthropogenic climate change is upon us, and cities are a significant contributors towards this "wicked problem". We cannot turn back the clock, but our cities can become more resilient and, as a result, more sustainable. The course will focus on the techniques used to address resiliency and sustainability through planning, greening and eco-city, physical, ecological, social, environmental justices, and management approaches. Cross-listed with GEOG 5680. Prereq: ENVS 1342 or GEOG 1602 with a grade of C- or higher or permission from instructor. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1342 or GEOG 1602 with a grade of C- or higher.

Typically Offered: Fall.

GEOG 4710 - Disasters, Climate Change, and Health (3 Credits)

Provides a review of the impacts of disasters and climate change on human health, using a broad framework of preparedness, mitigation, response, recovery, and adaptation. Note: this course assumes that students have completed GEOG 3501. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4720 - Climate Change: Causes, Impacts and Solutions (3 Credits)

Examines science behind past, present & future climate change & environmental, social & political implications & solutions. Explores recent scientific research, syntheses & mainstream literature advancing knowledge about causes & consequences of natural & anthropogenic climate change. Prereq: GEOG 3232 with a C- or higher. Cross-listed with GEOG 5720/ ENVS 4720/ ENVS 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 3232 with a C- or higher.

GEOG 4731 - Mountain Biogeography (4 Credits)

This hands-on research course will focus on the current and past distribution of plants and changes in disturbance regimes in the mountains using environmental proxy data preserved in lake sediment cores. A field trip will occur early in the semester. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher. Cross-listed with ENVS 5731. Term offered: fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher.

Typically Offered: Fall.

GEOG 4740 - Soil Science and Geography (3 Credits)

Reviews chemical and physical properties of soils, soil development, and geographic distributions of soil types in the context of the role that soils play in natural and human-altered ecosystems. Cross-listed with GEOG 5740, ENVS 4740, ENVS 5740. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4750 - Beeography: Geography of Bees (4 Credits)

Beeography is an introduction to the bee world and the amazing diversity in Colorado and beyond. The course will examine the distribution of bees and the pressures they face in different environmental and cultural contexts. It will examine different methods to support and increase bee populations and pollination services, especially in populated environments, including backyard beekeeping of honeybee and native bee populations. Field and lab activities will include beekeeping, native bee collection and identification, bee dissections, pollen processing and identification, and trips to area bee museum collections and apiaries.

Prereq: ENVS 1044 and 1045 or BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) or BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with GEOG 5750, ENVS 4750, and ENVS 5750. Term offered: summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) or BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Summer.

GEOG 4757 - Urban Climate and Air Quality (3 Credits)

Explores how people alter climates on micro- to regional scales, and how this in turn affects human health and society. Focusses on recent scientific research, physical processes within cities, and the role of urbanization in global climate change. Cross-listed with GEOG 4757, GEOG 5757, ENVS 4757, and ENVS 5757. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4840 - Independent Study: GEOG (1-3 Credits)

Independent research primarily for undergraduate majors. Prereq: Permission of department. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

GEOG 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOG 4950 - Honors Thesis (3 Credits)

A capstone course designed to promote critical thinking, research methodology, and writing/oral presentation skills. Students design and develop a research project under the supervision of a faculty advisor. Each student gives an oral presentation or defense of his or her thesis at the end of the semester in which they enroll. Prereq: Junior standing or higher. Department consent required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Additional Information: Report as Full Time.

GEOG 4990 - Special Topics (1-6 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

GEOG 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with ENVS 4995, ENVS 5995, and GEOG 5995. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Additional Information: Global Education Study Abroad.

Geology (GEOL)

GEOL 1073 - Physical Geology: Surface Processes (3 Credits)

This survey course develops a basic understanding of surface processes and landforms in geology. It includes one all-day field trip. Students must also take the accompanying laboratory GEOL 1074. No co-credit with GEOL 1072. Prereq or Coreq: GEOL 1074. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Co-req: GEOL 1074

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

GEOL 1074 - Physical Geology: Surface Processes Laboratory (1 Credit)

Introduces the basic scientific approach through investigations, observations, and experiments in surface processes and landforms in geology. Students must also take the accompanying lecture GEOL 1073. Prereq or Coreq: GEOL 1073. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or co-req: GEOL 1073

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

GEOL 1083 - Physical Geology: Internal Processes (3 Credits)

This survey course develops a basic understanding of physical geology emphasizing the earth's interior, covering internal processes and properties, with plate tectonics as the underlying theme, Includes one all-day field trip. Students must also take the accompanying laboratory GEOL 1084. No co-credit with GEOL 1082. Prereq or Coreq: GEOL 1084. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or co-req: GEOL 1084

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

GEOL 1084 - Physical Geology: Internal Processes Laboratory (1 Credit)

Introduces the basic scientific approach through investigations, observations, and experiments in internal geologic processes and properties of the earth's interior with plate tectonics as the underlying theme. Prereq or Coreq: GEOL 1083. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or co-req: GEOL 1083

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

GEOL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

GEOL 1202 - Introduction to Oceanography (3 Credits)

Surveys modern scientific knowledge of the world's oceans. Intended for non-science students, the course offers a non-quantitative introduction to the major facts and principles of physical, chemical, biological, and geological oceanography. The impact of natural and anthropic events on the marine environment are included. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOL 1840 - Independent Study: GEOL (1-3 Credits)

Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

GEOL 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: 15 hours of 2.75 GPA. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

GEOL 3032 - Geology of Colorado (3 Credits)

Introductory course focused on the geology of Colorado. The course is divided into two parts: the first half covers general principles of geology, and the second is devoted to the observation of rock types, structures, and geologic relationships in the field. Discussion of plate tectonics, rock formation, construction and interpretation of geologic maps, the geologic time scale, geologic provinces of Colorado, evolution of major landforms, formation and development of mineral resources of Colorado, and current topics in environmental geology. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOL 3840 - Independent Study: GEOL (1-3 Credits)

Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOL 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Department consent required. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

GEOL 4010 - Landscape Biogeochemistry (3 Credits)

A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological, and ecological timeframes, together with anthropogenic activities. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher, or instructor permission. Cross-listed with GEOG 4010 and ENVS 5010. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Spring.

GEOL 4020 - Earth Environments and Human Impacts (3 Credits)

This course examines the multitude of impacts that humans have exerted on Earth's biomes and physical environment in a systems context, including vegetation, animals, soils, water, landforms and the atmosphere. It considers the ways in which climate changes and modifications in land cover have altered the environment, and how such changes will still accelerate in coming decades. The course also explores emergent topics such as rewilding, novel and no analogue ecosystems, and ecosystem services. Additionally, it assesses the future impact of a growing human population on the planet within a context of the "anthropocene," an era dominated by human activity. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher. Cross-listed with ENVS 5020, GEOG 4020. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher.

Typically Offered: Fall.

GEOL 4240 - Applied Geomorphology (3 Credits)

Uses hands-on tasks and field trips to investigate processes behind Earth's changing landforms in a variety of physical landscapes (aeolian, volcanic, coastal, fluvial, karst, glacial and periglacial) as related to rock decay, soils and climatic forcings. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher. Cross-listed with GEOG 4240, 5240 and GEOL 5240. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOL 4251 - Fluvial Geomorphology (3 Credits)

Examines interactions between Earth's surface and flowing water across spatial and temporal scales. Considers structure and function of the major components of fluvial systems, with particular attention to the variety of fluvial systems to hydrologic, geologic and anthropogenic controls. Cross-listed with GEOG 4251, GEOG 5251 and GEOL 5251. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

GEOG 3232 is strongly recommended, though not required. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOL 4270 - Glacial Geomorphology (3 Credits)

Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOL 1073 and 1074 or GEOL 1072 with a C- or better. Cross-listed with GEOG 4270, GEOG 5270 and GEOL 5270. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOL 4840 - Independent Study: GEOL (1-3 Credits)

Department consent required. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

GEOL 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOL 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 and GEOL 1083 and GEOL 1084 or GEOL 1082 with a C or higher and instructor permission. Cross-listed with GEOL 5995. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 and GEOL 1083 and GEOL 1084 or GEOL 1082 with a C or higher and instructor permission.

GEOL 5001 - RM-MSMSP Earth Processes I (4 Credits)

Systematic study of geological concepts, rock and mineral formation, plate tectonics, volcanism and earthquakes, landforms and weathering, historical environmental interpretation. Includes a field component. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Note: students should obtain permission of project director prior to enrolling in this course. Prereq: Graduate standing. Max hours: 4 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

GEOL 5002 - RM-MSMSP Earth Sciences II - Sedimentology and Paleontology (4 Credits)

Field and lecture course building on Earth Sciences I, which covers internal earth processes. Students learn about erosional processes and how sedimentary rocks are deposited and may be preserved; the different ways fossils are preserved; describing rocks in the field; and collecting, preparing and describing fossils. Provides an overview of the geology of the area so that students can place the detailed studies in context.

This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: GEOL 5001 with a B- or higher. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 5001 with a B- or higher.

GEOL 5003 - RM-MSMSP Earth Science in Context (4 Credits)

Designed for teachers in the RM-MSMSP program. Topics include global climate change, glaciers, coastal geology, volcanism, and their effects on culture. Monuments such as Florissant Fossil Beds, Ice Core, Cave of the Winds and a quarry will be visited. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: Graduate standing. Max hours: 4 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

GEOL 5004 - RM-MSMSP Research Experience for Teachers - Geology Cohort (1-6 Credits)

A five-week research exploration in which RM-MSMSP teachers will raise their level of relevant scientific understanding by engaging in a "hands-on" workshop, transforming what they have learned into new curricular materials that will improve the scientific abilities of their students and hopefully stimulate them to consider a STEM career. Note: credit may not apply toward any CLAS degree. Prereq: Graduate standing. Department consent required. Max hours: 6 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

GEOL 5240 - Applied Geomorphology (3 Credits)

Uses hands-on tasks and field trips to investigate processes behind Earth's changing landforms in a variety of physical landscapes (aeolian, volcanic, coastal, fluvial, karst, glacial and periglacial) as related to rock decay, soils and climatic forcings. Note: this course assumes that students have completed GEOG 1202 or GEOL 1072 and GEOG 3232.

Prereq: Graduate standing. Cross-listed with GEOG 4240, 5240 and GEOL 4240. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

Typically Offered: Fall.

GEOL 5251 - Fluvial Geomorphology (3 Credits)

Examines interactions between Earth's surface and flowing water across spatial and temporal scales. Considers structure and function of the major components of fluvial systems, with particular attention to the variety of fluvial systems to hydrologic, geologic and anthropogenic controls. Cross-listed with GEOG 4251, GEOG 5251 and GEOL 4251.

Restriction: Restricted to Graduate and Graduate Non-Degree students. GEOG 3232 is strongly recommended, though not required. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

Typically Offered: Fall.

GEOL 5270 - Glacial Geomorphology (3 Credits)

Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Note: this course assumes that students have completed GEOG 1202 or GEOL 1072. Prereq: Graduate standing. Cross-listed with GEOG 4270, GEOG 5270 and GEOL 4270. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

GEOL 5880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS Graduate Academic Services Coordinator for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOL 5939 - Internship (1-6 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS Graduate Academic Services Coordinator for approval. Prereq: Graduate standing. Department consent required. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

GEOL 5950 - Master's Thesis (1-8 Credits)

Department consent required. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS Graduate Academic Services Coordinator for approval. Prereq: Graduate standing. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade with IP

Repeatable. Max Credits: 8.

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

Additional Information: Report as Full Time.

GEOL 5995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Prereq: Graduate standing. Cross-listed with GEOL 4995. Repeatable. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

GEOL 6840 - Independent Study: GEOL (1-3 Credits)

Department consent required. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS Graduate Academic Services Coordinator for approval. Prereq: Graduate standing. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

GEOL 6950 - Master's Thesis (1-8 Credits)

Department consent required. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS Graduate Academic Services Coordinator for approval. Prereq: Graduate standing. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade with IP

Repeatable. Max Credits: 8.

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

Additional Information: Report as Full Time.

GEOL 6960 - Master's Project (1-8 Credits)

Department consent required. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS Graduate Academic Services Coordinator for approval. Prereq: Graduate standing. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade with IP

Repeatable. Max Credits: 8.

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

Additional Information: Report as Full Time.

Environmental Sciences (ENVS)

ENVS 1044 - Introduction to Environmental Sciences (3 Credits)

This survey course develops a basic understanding of ecological relationships and environmental systems. Issues such as the effects of human activities on earth's environment, extinction or diversity, greenhouse effect, hazardous or toxic wastes and human population growth are discussed. Students must also take the accompanying laboratory ENVS 1045. No co-credit with ENVS 1042. Prereq or Coreq: ENVS 1045. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or co-req: ENVS 1045

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

Typically Offered: Fall, Spring, Summer.

ENVS 1045 - Introduction to Environmental Sciences Laboratory (1 Credit)

Introduces the basic scientific approach through investigations, observations, and experiments in environmental science. Students must also take the accompanying lecture ENVS 1044. No co-credit with ENVS 1042. Prereq or Coreq: ENVS 1044. Term offered: fall, spring, summer. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or co-req: ENVS 1044

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall, Spring, Summer.

ENVS 1342 - Environment, Society and Sustainability (3 Credits)

Overview of perspectives on environmental issues within the context of sustainable development and taking a systems approach. The focus is on social science approaches to explore the human footprint on the earth, environmentalism, scientific uncertainty, policy creation and social change. Note: This course is a prerequisite for GEOG 4680 Urban Sustainability: Perspectives and Practice. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS2, Soc Behav Sci: Geography.

Typically Offered: Fall, Spring, Summer.

ENVS 2939 - Internship (3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: sophomore standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

ENVS 3082 - Energy and the Environment (3 Credits)

For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote a sustainable society.

Note: One college-level science course and MATH 1110 or equivalent are strongly recommended as preparation for optimal student success.

Cross-listed with PHYS 3082. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENVS 3232 - Weather and Climate (3 Credits)

Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher. Cross-listed with GEOG 3232. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

ENVS 3380 - Anthropocene Futures (3 Credits)

We are living in the “Anthropocene”—an era of rapid environmental and societal changes, and of decline and loss resulting from accelerating human interactions with Earth systems. Warming climates, wildfires, floods, water and food insecurity, novel ecosystems, and even pandemics such as COVID-19, are phenomena of the Anthropocene. With a still growing human population and a finite planet, understanding and overcoming such challenges is more pressing than ever, if people are to co-evolve with Earth toward a sustainable future. This interdisciplinary seminar course tells the scientific story of humanity’s intensifying interactions with the planet and explores possible future paths. Through presentations, readings and discussion, students will examine topics that include the origin and significance of Anthropocene in Earth’s evolutionary history, the debates and evidences for a new geologic epoch, large-scale trajectories of environmental change, a safe operating space, and planting seeds for a “good” Anthropocene. In doing so, students will acquire skills and experiences in critical thinking and analytical reasoning to grapple with many uncertainties and tensions of the Anthropocene. Cross-listed with GEOG 3380, GEOG 5380, and ENVS 5380. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENVS 3500 - Topics in Environmental Sciences (1-6 Credits)

Note: Topics may vary from one offering to the next. Repeatable.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENVS 4500 - Topics In Environmental Sciences (1-6 Credits)

Note: Topics may vary from one offering to the next. Note: Necessary prior coursework varies according to the topic. Students should consult with the instructor. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENVS 4650 - Environmental Education (3 Credits)

This course links the theory and practice of environmental education to inform curricular development and pedagogical knowledge. Cross-listed with ENVS 5650 and SCED 5650. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENVS 4720 - Climate Change: Causes, Impacts and Solutions (3 Credits)

Examines science behind past, present & future climate change & environmental, social & political implications & solutions. Explores recent scientific research, syntheses & mainstream literature advancing knowledge about causes & consequences of natural & anthropogenic climate change. Prereq: GEOG 3232 with a C- or higher. Cross-listed with GEOG 4720/ GEOG 5720/ ENVS 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 3232 with a C- or higher.

ENVS 4740 - Soil Science and Geography (3 Credits)

Reviews chemical and physical properties of soils, soil development, and geographic distributions of soil types in the context of the role that soils play in natural and human-altered ecosystems. Cross-listed with GEOG 4740, GEOG 5740, ENVS 5740. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENVS 4750 - Beeography: Geography of Bees (4 Credits)

Beeography is an introduction to the bee world and the amazing diversity in Colorado and beyond. The course will examine the distribution of bees and the pressures they face in different environmental and cultural contexts. It will examine different methods to support and increase bee populations and pollination services, especially in populated environments, including backyard beekeeping of honeybee and native bee populations. Field and lab activities will include beekeeping, native bee collection and identification, bee dissections, pollen processing and identification, and trips to area bee museum collections and apiaries. Prereq: ENVS 1044 and 1045 or BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) or BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with GEOG 4750, GEOG 5750, and ENVS 5750. Term offered: summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) or BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Summer.

ENVS 4757 - Urban Climate and Air Quality (3 Credits)

Explores how people alter climates on micro- to regional scales, and how this in turn affects human health and society. Focusses on recent scientific research, physical processes within cities, and the role of urbanization in global climate change. Cross-listed with GEOG 4757, GEOG 5757, ENVS 4757, and ENVS 5757. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ENVS 4780 - Aquatic Ecology (3 Credits)

This course explores the physical, chemical, and biological (including human) properties of aquatic ecosystems, and how the interrelationships between these properties define and influence advanced ecological processes. Special focus is given to lakes, reservoirs, wetlands, streams, rivers, and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and data exercises, and periodic (often virtual) field excursions. Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) with a C- or higher. Cross-listed with ENVS 5780, BIOL 4780, and BIOL 5780. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) with a C- or higher.

ENVS 4840 - Independent Study: ENVS (1-3 Credits)

Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENVS 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENVS 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Additional Information: Global Education Study Abroad.

Climate Change Studies - Natural Sciences Track, BS

Introduction

Please click here (<https://clas.ucdenver.edu/academic-programs/climate-change-studies/>) to see Climate Change Studies program information.

The Climate Change Studies program offers BS and BA degrees, and three tracks (e.g., natural science, society and policy) that includes a range of courses across multiple departments, colleges, and schools at CU Denver.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum 51 credit hours and of those 18 must be upper division credit hours from the approved courses.
2. A minimum of 30 credit hours must be completed in courses taught by faculty in the College of Liberal Arts and Sciences, at CU Denver.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.

Program Restrictions, Allowances and Recommendations

1. Only three credits of Travel Study may be counted toward graduation requirements.
2. Undergraduate students may count up to 6 credit hours of independent study or internship (any combination of CCST 3840 Independent Study: CCST 4840 Independent Study: CCST 4880 Directed Research, or CCST 3939 Internship) towards elective credit in the major as approved by the undergraduate coordinator. Students may not receive more than three credit hours per independent study section. No more than three credit hours of independent study may be taken with the same instructor or in the same term.
3. CCST 3939 Internship: Community/Professional Experience optional, but highly recommended.

Code	Title	Hours
Complete the following required courses:		
CCST 1001	Climate Change Seminar	1
CCST 4001	Climate Change Capstone	3-4
Complete the following climate literacy courses:		
ENVS 1044 & ENVS 1045 or GEOG 1202	Introduction to Environmental Sciences and Introduction to Environmental Sciences Laboratory Introduction to Physical Geography	3-4
GEOG/ENVS 3232	Weather and Climate	3

Geography, BA

Introduction

Please click here (p. 503) to see Geography and Environmental Sciences department information.

The Geography program (within the Department of Geography and Environmental Sciences) offers a BA degree that includes a full range of courses in the fundamentals of geography taught mainly by full-time faculty.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 33 credit hours from GEOG, GEOL and ENVS courses.
2. Students must complete a minimum of 24 upper division (3000-level and above) credit hours from GEOG, GEOL and ENVS courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to program requirements.
4. Students must complete a minimum of 15 credit hours of GEOG, GEOL and ENVS coursework with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Only three credits of Travel Study may be counted toward graduation requirements.
2. Undergraduate students may count up to 6 credit hours of independent study or internship (any combination of GEOG 3840 Independent Study; GEOG, GEOG 4840 Independent Study; GEOG, GEOG 4880 Directed Research, or GEOG 3939 Internship) towards elective credit in the major as approved by the undergraduate coordinator. Students may not receive more than three credit hours per independent study section. No more than three credit hours of independent study may be taken with the same instructor or in the same term.
3. GEOG 3939 Internship: Community/Professional Experience optional, but highly recommended.

Code	Title	Hours	
<i>Complete all of the following required courses:</i>			
ENVS 1044 & ENVS 1045 or GEOG 1202	Introduction to Environmental Sciences and Introduction to Environmental Sciences Laboratory Introduction to Physical Geography	15-16	
GEOG 1102 or GEOG 1302	World Regions Global Context Introduction to Human Geography		
GEOG 2080	Introduction to Mapping and Map Analysis		
GEOG/ENVS 3232	Weather and Climate		
GEOG 3412	Globalization and Regional Development		
<i>Complete a minimum of one course from each of the following focus areas:</i>			
Environment, Society, and Sustainability (p. 525)			
Human Geography (p. 525)			
Physical Geography (p. 525)			
Techniques of Geographical Analysis (p. 526)			

Complete six additional GEOG elective credits. Students can choose additional courses from the approved focus areas lists or may choose other GEOG electives of interest. 6

Total Hours 33-34

Environment, Society, and Sustainability

Code	Title	Hours
<i>Complete one of the following Environment, Society, and Sustainability courses.</i>		3
ENVS 1342	Environment, Society and Sustainability

Geography - Urban Studies and Planning, BA

Introduction

Please click here (p. 503) to see Geography and Environmental Sciences department information.

The Geography program (within the Department of Geography and Environmental Sciences) offers a BA degree that includes a full range of courses in the fundamentals of geography taught mainly by full-time faculty.

Geography and urban planning share a common concern for the spatial configuration of the places we inhabit and enjoy. In recognition of this close association, there is currently an articulation agreement between the Department of Geography and Environmental Sciences and the College of Architecture and Planning that provides students with a mechanism for acceleration through the Master of Urban and Regional Planning (MURP) degree program, if accepted into that graduate program. Those students completing the requirements for an undergraduate planning minor may also be eligible to pursue an accelerated MURP degree. If interested in this option, the student should work closely with the option advisor in selecting coursework. (Please see the Graduate Catalog for more information on this graduate program.)

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 39 credit hours from GEOG, GEOL and ENVS courses.
2. Students must complete a minimum of 24 upper division (3000-level and above) credit hours from GEOG, GEOL and ENVS courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to program requirements.
4. Students must complete a minimum of 15 GEOG, GEOL or ENVS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Only three credits of Travel Study may be counted toward graduation requirements.
2. Undergraduate students may count up to 6 credit hours of independent study or internship (any combination of GEOG 3840 Independent Study; GEOG, GEOG 4840 Independent Study; GEOG, GEOG 4880 Directed Research, or GEOG 3939 Internship) towards elective credit in the major as approved by the undergraduate coordinator. Students may not receive more than three credit hours per independent study section. No more than three credit hours of independent study may be taken with the same instructor or in the same term.
3. This option has an articulation agreement with the Masters in Urban and Regional Planning. If interested, students should check with the option advisor early in the program.
4. GEOG 3939 Internship: Community/Professional Experience optional, but highly recommended.

Code	Title	Hours
<i>Complete all of the following required courses:</i>		
ENVS 1044 & ENVS 1045 or GEOG 1202	Introduction to Environmental Sciences and Introduction to Environmental Sciences Laboratory Introduction to Physical Geography	24-25
GEOG 1102 or GEOG 1302	World Regions Global Context Introduction to Human Geography	

GEOG 1602	Urban Studies and Planning	
GEOG 2080	Introduction to Mapping and Map Analysis	
GEOG 3232	Weather and Climate	
GEOG 3412	Globalization and Regional Development	
GEOG 4640	Urban Geography: Denver and the U.S.	
GEOG 4680	Urban Sustainability and Resiliency: Perspectives and Practice	
<i>Complete four of the following Urban Studies or Planning elective courses:</i>		12
GEOG/ENVS 3380	Anthropocene Futures	
GEOG 3501	Geography of Health	
GEOG 4230	Hazard Mitigation and Vulnerability Assessment	
GEOG 4265	Sustainability in Resources Management	
GEOG 4450	Urban Food and Agriculture: Perspectives and Research	
GEOG 4460	Sustainable Urban Agriculture Field Study I	
GEOG 4470	Sustainable Urban Agriculture Field Study II	
GEOG 4757	Urban Climate and Air Quality	
<i>Students can select up to three of the four elective courses from the following:</i> ³		
URPL 3000	Planning the Built Environment	
URPL 4000/5000	Planning History and Theory	
URPL 4010/5010	Planning Methods	
URPL 4550	Transportation, Planning and Policy	
URPL 4555/6555	Transportation, Land Use and the Environment	
URPL 4600/6600	Regional Growth and Equity	
<i>Complete one of the following Techniques for Urban Analysis courses:</i>		3
GEOG 4060	Remote Sensing I: Introduction to Environmental Remote Sensing ¹	
GEOG 4080	Introduction to GIS ²	
GEOG 4085	GIS Applications for the Urban Environment	
GEOG 4091	Open Source Software for Geospatial Applications	
GEOG 4095	Deploying GIS Functionality on the Web	
Total Hours		39-40

¹ pre-req for Remote Sensing II

² pre-req to most of the advanced GISci courses

³ Students who desire to take URPL 4000-level courses need a 3.0 GPA or higher, be in their senior year, and have permission from the instructor and CAP to register. Students should meet with the GES department advisor before registering for courses.

Environmental Sciences Minor

Introduction

Please click here (p. 503) to see Geography and Environmental Sciences department information.

The environmental sciences minor offers students exposure to the breadth of environmental issues. Students emphasize the natural/physical sciences, and may strategically incorporate the social sciences and humanities.

These program and degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 17 credit hours from GEOG, GEOL and ENVS courses.
2. Students must complete a minimum of nine upper-division (3000-level and above) credit hours from GEOG, GEOL and ENVS courses.
3. Students must earn a minimum grade of C- (1.7) in all courses applied to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine credit hours with CU Denver faculty from GEOG, GEOL and ENVS courses.

Program Restrictions, Allowances and Recommendations

1. Many of the upper-division courses have prerequisites; the student must check the catalog for prerequisite requirements for these courses.
2. The four upper-division elective courses for the Environmental Sciences minor cannot be from the student's major discipline, even if the particular course is not counted toward the major.
3. Undergraduate students may count up to three credit hours of independent study (any combination of ENVS 4840 Independent Study; ENVS and ENVS 4880 Directed Research) towards elective credit in the minor as approved by the undergraduate coordinator.
4. The lecture/laboratory sequence can be part of the requirements for the major, but not in the student's major department (i.e., a biology major cannot use the general biology sequence, but could use the general chemistry sequence, which is also required for the biology major).

Code	Title	Hours
<i>Complete two of the following lecture/laboratory combinations:</i> ¹		8
Students can mix and match honors or majors specific lectures and labs as long as they are in the same sequence.		
BIOL 2010 & BIOL 2011	Organisms to Ecosystems (Gen Bio) and Organisms to Ecosystems Lab (Gen Bio)	
BIOL 2020 & BIOL 2021	Molecules to Cells (Gen Bio) and Molecules to Cells Lab (Gen Bio)	
BIOL 2030 & BIOL 2031	Honors Organisms to Ecosystems (Gen Bio) and Honors Organisms to Ecosystems Lab (Gen Bio)	
BIOL 2040 & BIOL 2041	Honors Molecules to Cells (Gen Bio) and Honors Molecules to Cells Lab (Gen Bio)	
CHEM 2031 & CHEM 2038 or CHEM 2039 or CHEM 2088	General Chemistry I and General Chemistry Laboratory I Majors General Chemistry I Laboratory Honors General Chemistry I Laboratory	

CHEM 2061 & CHEM 2068 or CHEM 2069 or CHEM 2098	General Chemistry II and General Chemistry Laboratory II Majors General Chemistry II Laboratory Honors General Chemistry II Laboratory
CHEM 2081 & CHEM 2038 or CHEM 2039 or CHEM 2088	Honors General Chemistry I and General Chemistry Laboratory I Majors General Chemistry I Laboratory Honors General Chemistry I Laboratory
CHEM 2091 & CHEM 2068 or CHEM 2069 or CHEM 2098	Honors General Chemistry II Lecture and General Chemistry Laboratory II Majors General Chemistry II Laboratory Honors General Chemistry II Laboratory
ENVS 1044 & ENVS 1045	Introduction to Environmental Sciences and Introduction to Environmental Sciences Laboratory
GEOL 1073 & GEOL 1074	Physical Geology: Surface Processes and Physical Geology: Surface Processes Laboratory
GEOL 1083 & GEOL 1084	Physical Geology: Internal Processes and Physical Geology: Internal Processes Laboratory
PHYS 2010 & PHYS 2321	College Physics I and Intro Experimental Phys Lab I
PHYS 2020 & PHYS 2341	College Physics II and Intro Experimental Phys Lab II
<i>Take a minimum of nine additional elective credits from the following courses, outside of the student's major discipline</i> ²	
BIOL 3411	Principles of Ecology
CHEM 4700	Environmental Chemistry
ECON 4540	Environmental Economics
ENVS/GEOG 4720	Climate Change: Causes, Impacts and Solutions
GEOG/ENVS 3232	Weather and Climate
GEOG 3240	Colorado Climates
GEOG 4020	Earth Environments and Human Impacts
GEOG 4060	Remote Sensing I: Introduction to Environmental Remote Sensing
GEOG 4090	Environmental Modeling with Geographic Information Systems
GEOG 4230	Hazard Mitigation and Vulnerability Assessment
GEOG/GEOL 4240	Applied Geomorphology
GEOG 4265	Sustainability in Resources Management
GEOG/GEOL 4270	Glacial Geomorphology
GEOG 4280	Environmental Hydrology
GEOG 4335	Climate Change & Society
GEOG 4350	Environment and Society in the American Past
GEOG 4420	The Politics of Nature
GEOG 4440	Science, Policy and the Environment
GEOG 4731	Mountain Biogeography
GEOG/ENVS 4740	Soil Science and Geography
PSCI 4354	Environmental Politics

Total Hours**17**

¹ The lecture/laboratory sequence can be part of the requirements for the major, but not in the student's major department (i.e., a biology major cannot use the general biology sequence, but could use the general chemistry sequence, which is also required for the biology major).

² The four upper-division elective courses for the Environmental Sciences minor cannot be from the student's major discipline, even if the particular course is not counted toward the major.

Geography Minor

Introduction

Please click here (p. 503) to see Geography and Environmental Sciences department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus or online program.

Declaring This Minor

- Please see your advisor.
- Please click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 GEOG, GEOL, or ENVIS credit hours.
2. Students must complete a minimum of nine upper-division (3000-level and above) GEOG, GEOL, or ENVIS credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine GEOG, GEOL, or ENVIS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. The minor is flexible and does not have core requirements. A student can elect to take any GEOG courses as long as they are not being used to fulfill requirements in another degree program in the department.
2. Undergraduate students may count up to three credit hours of independent study (GEOG 3840 Independent Study: GEOG, GEOG 4840 Independent Study: GEOG, GEOG 4880 Directed Research/GEOL 3840 Independent Study: GEOL, GEOG 4840 Independent Study: GEOG, GEOG 4880 Directed Research) towards elective credit in the minor as approved by the undergraduate advisor.
3. Students may not double-count courses for the Geography minor and another degree program in the department, the Sustainability Minor, or the GISci Certificate.

Code	Title	Hours
	Take any 15 credit hours of GEOG, GEOL, or ENVIS courses as long as they are not being used to fulfill requirements in another degree program in the department.	15
A minimum of nine credit hours must be 3000 or 4000 level.		

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/ges/programs/minors/minor-geography/>).

Urban Studies and Planning Minor

Introduction

Please click here (p. 503) to see Geography and Environmental Sciences Department information.

The urban studies and planning minor in the Department of Geography and Environmental Sciences provide non-geography undergraduate students the opportunity to pursue studies in the professional field of planning. Geography majors can pursue the urban studies option, so this minor would not be available to these majors.

Geography and urban and regional planning share a common concern for the spatial configuration of the places we inhabit and enjoy. In recognition of this close association, there is currently an articulation agreement between the Department of Geography and Environmental Sciences and the College of Architecture and Planning that provides students with a mechanism for acceleration through the Master of Urban and Regional Planning (MURP) degree program, if accepted into that graduate program. Those students completing the requirements for an undergraduate planning minor may also be eligible to pursue an accelerated MURP degree. If interested in this option, the student should work closely with the minor advisor in selecting coursework. (Please see the Graduate Catalog for more information on this graduate program.)

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor, and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.
- Please click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 credit hours from approved courses.
2. Students must complete a minimum of 12 upper-division (3000- level and above) credit hours from approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to program requirements.
4. Students must complete a minimum of nine credit hours of approved coursework with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Although the three core courses may be taken in any order, it is advisable to begin with GEOG 1602 Urban Studies and Planning, since this course familiarize students with many key concepts used in other classes.
2. All undergraduate students, except geography majors, are eligible for this minor.
3. Students interested in applying for the articulated MURP degree program must achieve a grade of B (3.0) or higher in required courses.

Code	Title	Hours
<i>Complete the following required courses:</i>		9
GEOG 1602	Urban Studies and Planning	
GEOG 4640	Urban Geography: Denver and the U.S.	
GEOG 4680	Urban Sustainability and Resiliency: Perspectives and Practice	
<i>Complete two of the following elective courses:</i>		6
GEOG 4085	GIS Applications for the Urban Environment	
GEOG 4230	Hazard Mitigation and Vulnerability Assessment	
GEOG 4235	GIS Applications in the Health Sciences	
GEOG 4450	Urban Food and Agriculture: Perspectives and Research	
GEOG 4460	Sustainable Urban Agriculture Field Study I	
GEOG 4710	Disasters, Climate Change, and Health	
URPL 5000	Planning History and Theory	
URPL 5010	Planning Methods	
Total Hours		15

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/ges/programs/minors/minor-urban-studies-and-regional-planning/>).

Geographic Information Science Undergraduate Certificate

Introduction

Please click here (p. 503) to see Geography and Environmental Sciences department information.

GISci Certificate Advisors: Peter Anthamatten and Rafael Moreno-Sanchez

E-mail: Peter.Anthamatten@ucdenver.edu and Rafael.Moreno@ucdenver.edu

The Geographic Information Science (GISci) Certificate in the Department of Geography and Environmental Sciences is designed to provide CU Denver undergraduates and graduates, as well as non-degree seeking students interested in professional development, with proficiency in the application of spatial thinking, geographic information science, and geo-technologies in the social and physical sciences, spanning the natural, built and human environments and emphasizing human-environment interconnections. The GISci Certificate core establishes a broad foundation in spatial technologies and methodologies, including geographic information systems, remote sensing, cartography, spatial extensions to database management systems, and statistics. From this base, students can delve into various specialization areas depending on their interests.

Upon successful completion of the certificate, students will be able to:

- articulate and apply basic theoretical underpinnings of spatial analytical principles, methodologies, and techniques;
- effectively utilize at least three different types of software used for spatial analysis;
- apply geospatial thinking, geographic information science, and geo-technologies appropriately; and
- analyze diverse real-world problems that have a spatial dimension and develop alternative solutions to them.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- CU Denver undergraduate students in any discipline or major may be admitted to the program.
- Of the four core requirements, only the statistics class has prerequisites, including algebra and introductory calculus. Because of the technical nature of the GIS and remote sensing course work, however, some mathematical experience is desirable prior to beginning the program.
- Students may begin the program in any semester or during the summer by making arrangements with the GISci certificate coordinator, and completing and signing the Application for GISci Certificate. This application is required to be formally registered in the GISci Certificate program, and must be completed no later than the semester prior to the scheduled completion of the certificate.

Procedure to request the issuing of GIS Certificate

When you have completed all the courses required for the Graduate or Undergraduate GISci Certificate with a grade of B- or above, send the following information to the GIS coordinators (**Rafael Moreno (rafael.moreno@ucdenver.edu)** and **Peter Anthamatten (peter.anthamatten@ucdenver.edu)**). Students must complete the certificate and submit a notification of completion to the GIS coordinator(s) before graduation.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Geographic Information Science undergraduate certificate advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 18 credit hours from the approved courses.
2. Students must complete a minimum of 12 upper division (3000-level and above) credit hours from the approved courses.
3. Students must earn a minimum grade of B- (2.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all credit hours with CU Denver faculty. Students who completed a statistics course at another institution may apply that transferred course with certificate advisor approval, and must complete all remaining courses with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. The certificate will be awarded when the student graduates with the bachelor's degree.
2. Although the five core courses may be taken in any order, it is advisable to begin with GEOG 2080 Introduction to Mapping and Map Analysis followed by GEOG 4080 Introduction to GIS, since these courses familiarize students with many key concepts used in the other classes.
3. All core courses are offered on a yearly basis. Any alterations to the program **must** be approved by the GISci certificate advisor. Any changes to the standard curriculum program must be approved in writing by the GISci Certificate advisor and filed with the GISci Certificate Application Form.
4. Because a certificate is a CU Denver certification of a students' specialized knowledge in an advanced subject matter, all courses in a certificate program are expected to be taken in residency at CU Denver. Only in rare circumstances will exceptions be made regarding

this policy. Courses taken within the GISci Certificate Program may be used towards one other degree requirement.

5. Please pay attention to prerequisites for specific courses.

Code	Title	Hours
<i>Complete the following required courses:</i>		12
GEOG 2080	Introduction to Mapping and Map Analysis	
GEOG 4060	Remote Sensing I: Introduction to Environmental Remote Sensing	
GEOG 4080	Introduction to GIS	
GEOG 4081	Cartography	
<i>Complete one of the following statistics courses, or one approved by GIS Certificate advisor.²</i>		3
ANTH 4050	Quantitative Methods in Anthropology	
BANA 2010	Business Statistics	
CVEN 3611	Engineering Statistics	
ECON 3811	Statistics with Computer Applications	
MATH 2830	Introductory Statistics	
PSYC 2090	Statistics and Research Methods	
SOCY 3119	Qualitative Methods	
<i>Complete one of the following elective courses:</i>		3
GEOG 4070	Remote Sensing II: Advanced Remote Sensing	
GEOG 4085	GIS Applications for the Urban Environment	
GEOG 4090	Environmental Modeling with Geographic Information Systems	
GEOG 4091	Open Source Software for Geospatial Applications	
GEOG 4092	GIS Programming and Automation	
GEOG 4095	Deploying GIS Functionality on the Web	
GEOG 4235	GIS Applications in the Health Sciences	
CVEN 5382	Geospatial Data Development	
CVEN 5385	GIS Relational Database Systems (or an elective approved by the GISci Certificate Coordinator)	
Or an elective course approved by GIS Certificate Coordinator. ¹		
Total Hours		18

¹ Although only one elective is required to complete the Undergraduate GISci Certificate, it is strongly recommended that additional elective courses are taken to broaden the experience and knowledge of the student in GIS analysis and applications. A three-credit hour internship with a geospatial faculty sponsor is highly recommended.

² Approved statistics courses may have prerequisites, and some are 4 credit hours.

To learn more about the Student Learning Outcomes for this program, please visit our website (https://clas.ucdenver.edu/ges/programs/certificates/gis-certificate/#learning_outcomes-280).

Free and Open Source Software for Geospatial Applications Undergraduate Certificate

Introduction

Please click here (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/geography-environmental-sciences/>) to see Geography and Environmental Sciences department information.

Certificate Advisor: Rafael Moreno
E-mail: rafael.moreno@ucdenver.edu

Students receiving the certificate will be able to design and develop FOSS4G exclusive or hybrid (using FOSS4G and proprietary software) geospatial information infrastructures and applications capable of better addressing specific socioeconomic, technological, institutional, and financial contexts where GISc&T is used to support planning and decision making.

Certificate Objectives

1. Provide students and working geospatial professionals with the knowledge and skills for the effective use and development of FOSS4G solutions in diverse application contexts. This complements and enhances the knowledge and skills they have in the use of geospatial proprietary software solutions.
2. Students will be exposed to several FOSS4G alternatives to address the needs of a geospatial information infrastructure from desktop, database management systems, systems automation/customization, all the way to Web/Cloud-based applications and enterprise level solutions.
3. Students will acquire the necessary knowledge and skills to effectively use the most advanced FOSS4G alternatives to develop solutions for each of levels of a geospatial information infrastructure previously mentioned.
4. Students will have the knowledge and hands-on skills that will enable them to design and develop hybrid geospatial information infrastructures that make use of proprietary software and FOSS4G incorporating each them in a combination that maximizes efficiency of the end infrastructure.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- CU Denver undergraduate students in any discipline or major may be admitted to the program.
- A student may begin the program in any semester or during the summer by making arrangements with the FOSS4G Certificate Advisor. This should be done as soon as you have decided to pursue the certificate, and no later than the semester previous to completion of all the courses required to obtain the certificate.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Free and Open Source Software

for Geospatial Application advisor to confirm the best plans of study before finalizing them.

General Requirements

- Click here (p. 107) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 12 credit hours.
2. Students must complete a minimum of 12 upper division (3000 or above) credit hours.
3. Students must earn a minimum grade of B (3.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all coursework with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. The students will have the option to take other courses above and beyond the core requirements for the certificate.

Code	Title	Hours
<i>Complete the following courses:</i>		12
CVEN 5385	GIS Relational Database Systems	
Students learn the principles and techniques to design a spatial database and perform multiple analyses and functions in a FOSS4G spatial database management system.		
GEOG 4086	FOSS4G Systems Integration	
This course functions as the capstone for the certificate. It concentrates on applying all the knowledge and skills previously obtained and adding more in the area of integration of geospatial information infrastructures based on FOSS4G. Students work on integrating systems from desktop to Web/Cloud-based applications.		
GEOG 4091	Open Source Software for Geospatial Applications	
This course exposes students to the diversity of FOSS4G solutions that exist for each of the elements of geospatial information infrastructure. They acquire the necessary hands-on skills to effectively use one FOSS4G to address the needs of each of the levels of a geospatial information infrastructure.		
GEOG 4092	GIS Programming and Automation	
Students learn programming principles and techniques to automate processes and customize a geographic information system (GIS), and to integrate and coordinate the functions of diverse geospatial software (e.g. a database management system with a GIS).		

Total Hours 12

Optional Courses

Students can choose to complete the following course that can complement their formation in specific topics. However, this course is not required as part of the certificate program.

Code	Title	Hours
BIOL 3763	Biostatistics	
This course uses the open source software R for environmental data analysis including spatial statistics and geostatistics.		

GEOG 5050 Applied Spatial Statistics

This course is offered annually as part of the GES offerings. It also uses R for data analysis including spatial statistics and geostatistics.

GEOG 4095 Deploying GIS Functionality on the Web

This course uses FOSS4G for database analysis and creation of Web-based GIS systems.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/ges/programs/certificates/sustainable-urban-agriculture-certificate/>).

Sustainable Urban Agriculture Undergraduate Certificate

Introduction

Please click here (p. 503) to see Geography and Environmental Sciences department information.

Certificate Advisor: Amanda Weaver
Email: amanda.weaver@ucdenver.edu

The goal of the certificate program is to provide GES students advanced training in sustainable urban agriculture through the integration of university classroom study and field-based practicum conducted at the department's field research station. Requirements for the certificate are therefore divided between on-campus courses and field courses.

Upon successful completion of the certificate, students will:

- Have knowledge of the history of urban farming
- Understand the modern agro-food system
- Participate in sustainable urban agricultural practices

Program Delivery

- This is both an on-campus and field-based program.

Declaring This Certificate

- Please contact the certificate faculty advisor.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Sustainable Urban Agriculture advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credit hours taken from approved courses.
2. Students must complete all 12 credit hours at the upper division level (3000-level and above).
3. Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all 12 credit hours with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. The certificate will be awarded when the student graduates with the bachelor's degree.
2. All core courses are offered on a yearly basis. Any alterations to the program **must** be approved by the certificate advisor.

3. Courses taken within the Sustainable Urban Agriculture Certificate Program may be used towards one other degree requirement.
4. Any changes to the standard curriculum program must be approved in writing by the certificate advisor.
5. Because a certificate is a CU Denver certification of a students' specialized knowledge in an advanced subject matter, all courses in a certificate program are expected to be taken in residency at CU Denver. Only in rare circumstances will exceptions be made regarding this policy
6. Please pay close attention to prerequisites for specific courses.

Code	Title	Hours
<i>Complete the following required courses:</i>		6
GEOG 4450	Urban Food and Agriculture: Perspectives and Research	
GEOG 4460	Sustainable Urban Agriculture Field Study I	
<i>Complete two of the following elective courses:</i>		6
GEOG 3939	Internship ¹	
GEOG 4060	Remote Sensing I: Introduction to Environmental Remote Sensing	
GEOG 4085	GIS Applications for the Urban Environment	
GEOG 4265	Sustainability in Resources Management	
GEOG 4335	Climate Change & Society	
GEOG 4470	Sustainable Urban Agriculture Field Study II	
GEOG 4640	Urban Geography: Denver and the U.S.	
GEOG 4680	Urban Sustainability and Resiliency: Perspectives and Practice	
Total Hours		12

¹ A sustainable agriculture internship with a local food/urban agriculture community organization.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/ges/programs/certificates/sustainable-urban-agriculture-certificate/>).

Health and Behavioral Sciences

Chair: David Tracer

Undergraduate Program Director: Hyeyoung Oh Nelson

Program Assistant: Maria Rase

Office: North Classroom 3018

Telephone: 303-315-7157

E-mail: hyeyoung.nelson@ucdenver.edu

Mailing Address:

Program in Health and Behavioral Sciences
Campus Box 188, P.O. Box 173364
Denver, CO 80217-3364

Overview

Public health is working to protect the environment, identifying sources of illness in population groups, controlling disease outbreaks, evaluating the economic impacts of changing demographics, developing interventions to promote healthy behavior, and producing health policy legislation. Public health draws from a broad array of disciplines, such as the social and behavioral sciences, medicine, nursing, pharmacy, physical therapy, business, economics, statistics, epidemiology, law and biology, and each provides unique insights for the diverse set of activities involved in public health practice.

Undergraduate Information

In response to the tremendous career and research opportunities in public health, the Department of Health and Behavioral Sciences in the College of Liberal Arts and Sciences (CLAS), in collaboration with the Colorado School of Public Health (CSPH), created an undergraduate major in public health. Most core classes for the public health major are team taught with one faculty member from the downtown campus (CLAS) and the other from the Anschutz campus (CSPH).

The mission of the Undergraduate Program in Public Health (BA/BS) is to prepare students with concepts, theories, and skills from social science, natural science, and public health disciplines to advance population health. We embrace a multidisciplinary approach, equip students with the capacity to respond to current and emerging issues in public health, and promote health equity, inclusivity, diversity, and social justice.

This degree is designed to accommodate as many student interests as possible. At CU Denver, we are committed to helping students develop their own individualized educational path; we strive to serve the needs of both the student who wishes to specialize in communication strategies for effective public health education campaigns, as well as the student who wants to hasten the translation of the latest bench science technologies into public health practice. To this end, the major consists of both BA and BS tracks.

Two options are available for the undergraduate major in public health: Bachelor of Arts (BA) or Bachelor of Science (BS). After completion of the program, students will have a broad background to serve as the foundation for a variety of career paths, such as immediate entry into public health positions, background training for a professional school (including but not limited to medical, dental, nursing, pharmacy or law school), or the pursuit of an advanced degree such as a master's or Ph.D. in a range of social, behavioral or natural sciences.

Honors

Public Health majors can receive Latin honors if they register for a honors section of PBHL 4099 (Capstone Experience in Public Health), successfully complete the honors requirements of the course, and maintain a 3.5 overall CU GPA and 3.7 or higher PBHL major GPA at the time of graduation. Honors distinctions are awarded as follows for the degree, based on CU and major GPAs at the time of graduation:

- Cum Laude: PBHL GPA 3.70-3.79
- Magna Cum Laude: PBHL GPA 3.80-3.89
- Summa Cum Laude: PBHL GPA 3.90-4.0

Graduate Information

Please go to the **Graduate** (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/health-behavioral-sciences/>) catalog to read about our graduate programs.

Programs

- Public Health, BA (p. 550)
- Public Health, BS (p. 553)
- Public Health, 5 year BA or BS/ Master in Public Health, MPH (p. 556)
- Public Health Demography Minor (p. 558)
- Public Health Minor (p. 560)

Public Health (PBHL)

PBHL 1001 - Race, Gender, Class, & Health (3 Credits)

Course focuses on the principles, tools, and population approach of social epidemiology as it relates health to race, gender, and class. Contemporary topics in public health will be used as case studies to illuminate principles and tools both in lecture and in recitation sections. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade. Additional Information: Denver Core Requirement, Social Sciences. Typically Offered: Fall, Spring.

PBHL 1020 - Public Health Biology (3 Credits)

This course is designed to introduce students to the application of the biological sciences to the field of public health – that is, health promotion and disease prevention at the population level. The course will provide an introduction to the field of public health biology largely through a discussion of pathologies of public health relevance, including infectious and transmissible disease, genetic disease and chronic disorders. Max hours: 3 Credits. Grading Basis: Letter Grade. Typically Offered: Spring.

PBHL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max Hours: 6 Credits. Grading Basis: Letter Grade. Restriction: Restricted to Freshman level students

PBHL 2001 - Introduction to Public Health (4 Credits)

An overview of the discipline and practice of public health. Includes the history of the field, its population perspective, emphasis on prevention, tools and techniques. General principles of the field are illustrated through contemporary public health case studies. Term offered: fall, spring. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3. Grading Basis: Letter Grade. Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul. Typically Offered: Fall, Spring.

PBHL 2052 - Global Demography and Health (3 Credits)

This course examines current issues in population growth, fertility, mortality and migration throughout the globe; introduces basic demographic tools; encourages critical thinking about the causes and consequences of population change. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade. Additional Information: Denver Core Requirement, International Perspectives. Typically Offered: Fall, Spring.

PBHL 2990 - Topics in Public Health (3 Credits)

An in-depth study of selected social science perspectives/theories and their applications to population health. Topics will vary from semester to semester, with a particular emphasis on current, salient population health problems. Repeatable. Max Hours: 6 Credits. Grading Basis: Letter Grade. Repeatable. Max Credits: 6.

PBHL 3001 - Introduction to Epidemiology (4 Credits)

Introduces the basic concepts of public health and epidemiology, including assessment of disease in the community, the study of causation and association of disease with lifestyle and environmental risk factors, as well as related special topics. We recommend coursework in college algebra or higher as preparation for this class. We have found that students who take this class before completing their math requirements are at a distinct disadvantage in this course, which is math-intensive. Therefore a grade of C or higher in MATH 1110 or equivalent is strongly recommended. Term offered: fall, spring. Max hours: 4 Credits. Grading Basis: Letter Grade. Typically Offered: Fall, Spring.

PBHL 3002 - Ethnicity, Health and Social Justice (3 Credits)

Surveys core issues contributing to racial or ethnic minority differences in health status. Historical and contemporary U.S. health and social policy, including the areas of environmental health, sexual and reproductive health, children and immigrants, are examined. Cross-listed with ETST 3002. Term offered: fall. Max Hours: 3 Credits. Grading Basis: Letter Grade. Typically Offered: Fall.

PBHL 3010 - Human Sexuality and Public Health (3 Credits)

The focus of this course is on human sexuality using a public health lens, examining a number of sexual health issues and their relationship to individual, familial, organizational, and social-level influences. Additionally, we will focus on identifying both primary prevention and intervention approaches to reducing sexual risk factors and increasing healthy behaviors. Max hours: 3 Credits. Grading Basis: Letter Grade

PBHL 3020 - Introduction to Environmental Health (3 Credits)

This introductory survey course focuses on the human health implications of environmental exposures. Topics include pathways of exposure, toxicology, risk assessment, regulations, and policy development. Additionally, environmental equity, ethics, globalization, international perspectives, climate change, sustainability, and activism are considered. Note: Students will not earn credit for this course if they have already earned credit for PBHL 2020. Max hours: 3 Credits. Grading Basis: Letter Grade

PBHL 3021 - Fundamentals of Health Promotion (3 Credits)

Provides an overview of the field of health promotion, including an introduction to key theories and methods, as well as exposure to the breadth of programs and diversity of settings through several case studies. Includes attention to health behaviors as contributors to current public health problems and community-based approaches to health promotion in addressing them. Max Hours: 3 Credits. Grading Basis: Letter Grade

PBHL 3030 - Health Policy (3 Credits)

Health policies may have a profound effect on quality of life. Accessibility, cost, quality of health care; safety of food, water, and environment; the right to make decisions about our health; these issues are vitally tied to health policies. This course provides a framework for understanding the social, political and economic dimensions of health policy. Prereq: PBHL 2000 or 2001 with a C- or higher. Max hours: 3 Credits. Grading Basis: Letter Grade. Prereq: PBHL 2000 or PBHL 2001 with a C- or higher

PBHL 3031 - Health, Human Biology and Behavior (3 Credits)

Introduces the multi-factorial nature of human health and well-being. Considers the influences of biology (genetics), behavior, environment, culture and social determinants, and health policy on the nature of disease and health problems from an integrated perspective. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PBHL 3041 - Health, Culture and Society (3 Credits)

Examines health and illness for individuals, families, and societies from multiple international perspectives, focused on topics such as traditional vs. Western medicine, characteristics of healers and therapeutic relationships, and stigmatized segments of society and their health status. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3050 - Decision Making (3 Credits)

This course discusses current research on decision making/behavioral economics, as well as its application to individual well-being and public policy. You will gain insights on how and why people can be irrational in their daily decisions. Cross-listed with ECON 3050 and PSYC 3050. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3051 - Mental Illness and Society (3 Credits)

This course takes a social and public health—as opposed to medical, biological or psychiatric—approach to understanding mental disorder and society. Course addresses historical definitions of mental illness, social patterns of mental disorder and treatment and experience of mental illness patients, focusing on the U.S. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3060 - AAPI Communities and Health (3 Credits)

Surveys core issues shaping health experiences and health status of Asian American and Pacific Islander communities in the United States. Historical and contemporary U.S. health and social policies that have directly impacted AAPI health and well-being in the United States are examined. Students will also engage with community leaders and partners committed to AAPI communities. Cross-listed with ETST 3060. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3070 - Perspectives in Global Health (3 Credits)

This course examines public health approaches to analyzing health issues and identifying evidence-based and culturally appropriate interventions to reduce health inequities and improve global health. Focuses on challenges to global health such as under-resourced health systems, lack of effective global governance, aging populations, rising chronic diseases, and climate change. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PBHL 3071 - Global Topics In Sexual and Reproductive Health (3 Credits)

Surveys trends and determinants of sexual and reproductive health around the globe and in the United States. Examines the social and behavioral determinants of sexual and reproductive health and the influence of policy. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3081 - Health in the City: Urban Health (3 Credits)

This course introduces students to urban health and the various factors of the physical, social and health environments that affect well-being and vulnerability of communities and neighborhoods in cities. Note: This course will include a weekly collaborative assignment, a high-impact educational practice, that foster student engagement with active and problem-based learning. Although not required, it would be helpful for students to have completed a 2000-level course from the undergraduate program in Public Health. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3091 - Live Long and Prosper: Public Health & Aging (3 Credits)

This course provides a broad overview of the interdisciplinary field of public health aging, ranging from individual attitudes and beliefs about aging to policies that aim to maximize health and well-being among older adults. A key focus is on the diversity that exists among older adults and the promotion of healthy aging for all by examining changes to social, behavioral, and biological functioning with age. Note: Although not required, it would be helpful for students to have taken a 2000-level course in public health. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3200 - Human Migration: Nomads, Sojourners, and Settlers (3 Credits)

Explores the relationship between human migration, voluntary and forced, and social organization and culture in the modern world. Case studies include pastoralists, foragers, refugees, immigrants, sojourners, and settlers and their impact on health, culture, identity, ethnicity, tradition and nationality. Cross-listed with ANTH 3200. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3440 - Medical Sociology (3 Credits)

This course covers key issues in population health and emphasizes how sociological perspectives both challenge and augment biomedical perspectives on health and health care. We also discuss the social causes and consequences of race/ethnic, sex, and socioeconomic disparities in health. Cross-listed with SOCY 3440. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3500 - Climate Justice (3 Credits)

This inter- and multidisciplinary course will introduce students to the many facets of climate change and climate justice, including ethical, epistemic, and community implications, root causes, and how to advance solutions. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PBHL 3939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.00 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.00 cumulative GPA

Typically Offered: Fall, Spring, Summer.

PBHL 3999 - Special Topics in Public Health (1-4 Credits)
 Explores topics in public health. Topics will vary from semester to semester, with a particular emphasis on current topics. Prereq: Junior or senior standing or permission of instructor. Max Hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Prereq: junior standing or higher

PBHL 4020 - Global Health: Comparative Public Health Systems (3 Credits)
 Within a limited period of time, middle and low income countries have experienced dramatic changes that affect the length and quality of peoples' lives. The health indicators for each country reflect a rich and meaningful context within interacting systems of economic, social, cultural patterns, and environmental and social justice. Analysis and contrast of public health indicators such as the millennium development goals develop an understanding of the complexity against a background of change. Prereq: Junior or Senior standing or permission from instructor. Cross-listed with URPL 6349. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: junior standing or higher

PBHL 4021 - Community Health Assessment (3 Credits)
 Introduces applied methods of public health, including: analyzing community-level assessment data, developing a casual model for selected health outcomes, maximizing community participation in the assessment process, developing assessments as a team, and setting the stage for effective intervention and evaluation. Prereq: Upper division standing, a course in statistics, and an introductory course in epidemiology (HBSC 4001, 5001). Cross-listed with HBSC 5021. Max hours: 3 Credits.
 Grading Basis: Letter Grade

PBHL 4031 - Ethnographic Research In Public Health (3 Credits)
 Qualitative, ethnographic tools for practical applications in public health, including methods of direct observation, informant interviews, focus groups, structured ethnographic methods, rapid assessment and participatory action research. Basic analytic strategies, including review of computer software, coding and data display techniques. Max hours: 3 Credits.
 Grading Basis: Letter Grade

PBHL 4040 - Social Determinants of Health (3 Credits)
 This course explores social inequalities in physical and mental health, the illness experience, the healing professions, health policy, relations between providers and patients, and the structure, access to, and financing of health care organizations, with some cross-national discussions. Prereq: PBHL 2000 or 2001 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: PBHL 2000 or PBHL 2001 with a C- or higher
 Typically Offered: Fall, Spring.

PBHL 4070 - Health Disparities (3 Credits)
 The purpose of this seminar is to provide students with an understanding of how historical, psychosocial, environmental, and to some degree, biological and genetic factors contribute to inequality in health and health care. Prereq: PBHL 4040, PBHL 3001, PBHL 2051 with a grade of C- or better. Repeatable. Max hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Prereq: PBHL 2051, 3001, and 4040 with a grade of C- or better

PBHL 4080 - Global Health Practice (3 Credits)
 A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: Junior or Senior standing or permission from instructor. Cross-listed with ANTH 4080/5080. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: junior standing or higher

PBHL 4090 - Psychedelic Anthropology (3 Credits)
 Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures of health and wellness, and the plant medicine, spiritual, social, political and economic issues that surround their production, use and misuse. Course activities focus on ethnographic research strategies and arts-based approaches to public scholarship. Prereq: Junior or Senior standing or permission from instructor. Cross-listed with ANTH 4090/5090. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: junior standing or higher

PBHL 4099 - Capstone Experience in Public Health (3 Credits)
 Offers students the opportunity to integrate, synthesize and apply concepts learned throughout the core curriculum of the public health major to real-world issues. The course involves extensive writing and small group presentations on the epidemiological, global, social, environmental, and policy dimensions of current problems in public health. Prereq or Coreq: PBHL 2000 or 2001 and all or all but one of PBHL 2020 or 3020, PBHL 3001, PBHL 3030, PBHL 3070, PBHL 4040 with a C- or better. Students must enroll in that remaining course concurrently with PBHL 4099. Term offered: fall, spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq/Co-req: PBHL 2000 or 2001 and all or all but one of PBHL 2020 or 3020, PBHL 3001, PBHL 3030, PBHL 3070, PBHL 4040 with a C- or better, and take that remaining course concurrently with PBHL 4099.
 Typically Offered: Fall, Spring.

PBHL 4110 - Public Health Perspectives On Family Violence (3 Credits)
 Public health views family violence from a prevention perspective. Our exploration of child abuse, intimate partner violence, and other forms of family violence will complement other disciplinary approaches by focusing heavily on the community and social factors that contribute to abusive relationships. Theories of power and coercion and approaches to researching these issues will be analyzed and discussed through our exploration of the various forms of family violence. Prereq: Junior or Senior standing or permission from instructor. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: junior standing or higher

PBHL 4200 - The Global HIV/AIDS Epidemic (3 Credits)
 Provides a foundation for a critical analysis of HIV/AIDS in global context, concerning topics such as disease, the body, ethnicity/race, gender, sexuality, risk, addiction, power, and culture together with a set of ethnographic texts that explore the epidemic's impact. Cross-listed with HBSC 4200. Term offered: summer. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Typically Offered: Summer.

PBHL 4620 - Health Risk Communication (3 Credits)

We are bombarded all day with communication expressing a sense of risk, of danger, of threats to our individual and communal well-being. This class acquaints students with contemporary theory, research, and practice in health risk communication across a variety of threats both real and imagined. Cross-listed with COMM 5620, COMM 4620, and ENVS 5620. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 4840 - Independent Study (1-4 Credits)

This course requires active independent learning based upon a written curricular outline and agreement with faculty in Public Health who supervise the student's work throughout the semester. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Typically Offered: Fall, Spring, Summer.

PBHL 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

PBHL 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Prereq: Upper division undergraduate standing and permission of instructor.

Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

PBHL 4999 - Topics in Public Health (4 Credits)

An in-depth study of selected social science perspectives/theories and their applications to population health. Topics will vary from semester to semester, with a particular emphasis on current, salient population health problems. Prereq: Junior or senior standing or permission of instructor. Cross-listed with HBSC 5999. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: junior standing or higher

Introduction

Please click here (p. 545) to see Health and Behavioral Sciences department information.

The College of Liberal Arts and Sciences (CLAS) and the Colorado School of Public Health (CSPH) together created the undergraduate Public Health program. Public health professionals work to protect the environment, identify sources of illness in population groups, control disease outbreaks, evaluate the economic ramifications of changing demographics, develop interventions to promote healthy behavior and produce health policy legislation. Public health draws from a broad array of disciplines, including a range of social, behavioral, and natural sciences, each provides unique insights for the diverse set of activities involved in public health practice.

Students in the BA program develop a specialty in the social sciences and public health. Graduates with a BA in Public Health will be prepared for pursuit of graduate degrees in a broad range of fields, including the social and behavioral sciences, public health, law, social work, business administration, and health services research. The program is especially appropriate for students intending to pursue careers in public health, as well as health policy and administration.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 43 credit hours from approved courses.
2. Students must complete a minimum of 16 upper-division (3000-level and above) credit hours from approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 26 PBHL credit hours with CU Denver faculty, including a minimum of 5 of the following PBHL 2001 Introduction to Public Health, PBHL 3001 Introduction to Epidemiology, PBHL 3020 Introduction to Environmental Health, PBHL 3030 Health Policy, PBHL 3070 Perspectives in Global Health, PBHL 4040 Social Determinants of Health or PBHL 4099 Capstone Experience in Public Health.

Code	Title	Hours
Complete the following program requirements:		43
<i>Complete all of the following required courses:</i>		<i>23</i>
A minimum of five must be taken at the University of Colorado Denver.		
PBHL 2001	Introduction to Public Health	
PBHL 3001	Introduction to Epidemiology	
PBHL 3020	Introduction to Environmental Health	
PBHL 3030	Health Policy	

PBHL 3070	Perspectives in Global Health	
PBHL 4040	Social Determinants of Health	
PBHL 4099	Capstone Experience in Public Health	
<i>Complete one of the following Quantitative Methods courses, or another statistics course that has been approved by the undergraduate program director/advisor in advance:</i>		3
ANTH 4050	Quantitative Methods in Anthropology	
BIOL 3763	Biostatistics	
MATH 2830	Introductory Statistics	
MATH 4830	Applied Statistics	
PSYC 2090	Statistics and Research Methods	
<i>Complete six credits (2 courses) of PBHL electives.</i>		6
<i>Complete one of the following Biological Sciences Options:</i>		8
Biological Sciences Option 1 (p. 551)		
Biological Sciences Option 2 (p. 552)		
<i>Complete three additional PBHL elective credits, or choose one of the following pre-approved electives from another department, or another course that has been approved by the undergraduate program director/advisor in advance:</i>		3
ANTH 4010	Medical Anthropology: Global Health	
ANTH 4080	Global Health Practice	
ANTH/PBHL 4090	Psychedelic Anthropology

Introduction

Please click [here](#) (p. 545) to see Health and Behavioral Sciences department information.

The College of Liberal Arts and Sciences (CLAS) and the Colorado School of Public Health (CSPH) together created the undergraduate Public Health program. Public health professionals work to protect the environment, identify sources of illness in population groups, control disease outbreaks, evaluate the economic ramifications of changing demographics, develop interventions to promote healthy behavior and produce health policy legislation. Public health draws from a broad array of disciplines, including a range of social, behavioral, and natural sciences, each provides unique insights for the diverse set of activities involved in public health practice.

Students in the BS program develop a specialty in the natural sciences and public health. Graduates with a BS in Public Health will be prepared for pursuit of graduate degrees in a broad range of fields, including the natural, social, and behavioral sciences, public health, law, medicine, dentistry, pharmacy, nursing, business administration, and health services research. The program is especially appropriate for students intending to pursue careers in public health, as well as primary care specialties in medicine, nursing, or health policy and administration.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Degree Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences General Degree Requirements (p. 373)
- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 73 credit hours from approved courses.
2. Students must complete a minimum of 16 upper-division (3000-level and above) credit hours from approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 26 PBHL credit hours with CU Denver faculty, including a minimum of 5 of the following PBHL 2001 Introduction to Public Health, PBHL 3001 Introduction to Epidemiology, PBHL 3020 Introduction to Environmental Health, PBHL 3030 Health Policy, PBHL 3070 Perspectives in Global Health, PBHL 4040 Social Determinants of Health or PBHL 4099 Capstone Experience in Public Health.

Program Restrictions, Allowances and Recommendations

1. PHYS 2321 Intro Experimental Phys Lab I and PHYS 2341 Intro Experimental Phys Lab II are specifically designed for students in non-Physics majors and can be paired with either PHYS 2010 College Physics I and PHYS 2020 College Physics II or PHYS 2311 General Physics I: Calculus-Based and PHYS 2331 General Physics II: Calculus-Based lectures. Students pursuing a second major in Physics should complete PHYS 2311 General Physics I: Calculus-Based and PHYS 2331 General Physics II: Calculus-Based and PHYS 2351 Applied Physics Lab I and PHYS 2361 Applied Physics Lab II.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

This 5-year degree program combines the Bachelors of Art/Bachelor of Science (BA/BS) of Public Health (PBHL) and the Master of Public Health (MPH). These degrees are offered, respectively, at the University of Colorado Denver by the Department of Health and Behavioral Sciences in the College of Liberal Arts and Sciences on the downtown campus, and the Colorado School of Public Health, a joint venture of the University of Colorado, Colorado State University and the University of Northern Colorado. Students will receive both degrees in the program simultaneously at the end of the program.

BA/BS-MPH students may choose any of the MPH concentration areas available across the three campuses. Concentration areas include the five core areas of public health (Biostatistics; Community and Behavioral Health; Environmental and Occupational Health; Epidemiology; and Health Systems, Management and Policy) as well as several other areas such as Maternal and Child Health, Health Communications, Community Health Education, and others.

- To be eligible, students must be declared PBHL majors (BA or BS).
- Ideal candidates will have a GPA of 3.5 or higher, and will have completed a minimum of 12 credit hours toward their undergraduate PBHL degree including:

Code	Title	Hours
Completed with a B+ or higher		
PBHL 2001	Introduction to Public Health	4
BIOL 2010 & BIOL 2011	Organisms to Ecosystems (Gen Bio) and Organisms to Ecosystems Lab (Gen Bio)	4
BIOL 2020 & BIOL 2021	Molecules to Cells (Gen Bio) and Molecules to Cells Lab (Gen Bio)	4

- Complete an application via SOPHAS EXPRESS (**Note:** GREs are not required). Students should apply by the January preferred deadline in their Sophomore or Junior year.
- Upon application, declare a provisional MPH concentration (**Note:** some concentrations may establish additional eligibility criteria).

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Undergraduate degree requirements follow either the BA (found here (p. 550)) or BS (found here (p. 553)).
- Students in this program will be conferred both degrees (BA or BS, and MPH) simultaneously upon completion of all requirements.
- Each class must be completed with a grade of C- or higher to count towards the major, and students must maintain a minimum 3.5 GPA in the undergraduate major and MPH courses.
- To facilitate timely completion of the program, students are expected to take six credits in each of two summers.
- If students apply late to this program, (including having already completed additional PBHL core requirements), they may not be able to benefit from all of the substitution-based time savings, and therefore may not be able to complete the program in 5 years.
- The following are exceptions and/or substitutions that are applicable to the BA/BS requirements for students in the BA/BS - MPH program:

Code	Title	Hours
The following courses serve dual purpose for the PBHL-BA/BS and MPH degrees.		
<i>Complete nine credits of graduate level MPH coursework during the undergraduate career.</i> ²		9
BIOS 6601	Applied Biostatistics I (replaces MATH 4830/5830 Applied Statistics)	3
EPID 6630	Epidemiology (replaces PBHL 3001 Intro to Epidemiology)	3
EHOH 6614	Occupational and Environmental Health (replaces PBHL 3020 Intro to Environmental Health)	3

² Three graduate-level Public Health courses will fulfill the undergraduate matched required courses and fulfill the requirements for MPH program.

Students need to complete PBHL 4099 Capstone Experience in Public Health prior to enrolling in the MPH program. These three graduate-level Public Health courses can apply as substitutes towards satisfying the pre-requisite for PBHL 4099.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/hbsc/degree-programs/5-year-public-health-ba-bs-mph/>).

Public Health Demography Minor

Introduction

Please click here (p. 545) to see Health and Behavioral Sciences department information.

The undergraduate minor in Public Health Demography will introduce students to population-based approaches to health and wellbeing. Both demography and public health draw on theories and methods from across the social and behavioral sciences, to understand population level outcomes. Collectively, the courses in the minor will strengthen skills in analytical thinking, critical thinking, and quantitative reasoning, as related to topics including fertility, mortality, migration, maternal and child health, health disparities, and population health.

The minor in Public Health Demography will help to prepare students for graduate training in public health, demography, epidemiology, or biostatistics. Further, the minor will help to prepare students for jobs that require an understanding of population dynamics. Demographic skills are useful in fields including actuarial studies, marketing, consulting, non-profits, and various agencies in the local, state, and federal government.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 17 credits drawn from the approved course lists.
2. Students must complete a minimum of six upper-division PBHL (3000-level and above) credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine PBHL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Due to substantial overlap in coursework, students who complete the major in Public Health shall not also be awarded the minor in Public Health Demography.

Required Courses

Note: Students should check for prerequisites when enrolling in courses.

Code	Title	Hours
Complete the following program requirements:		
<i>General Public Health</i>		8
PBHL 2001	Introduction to Public Health	
PBHL 3001	Introduction to Epidemiology	
<i>Core Demography</i>		6
PBHL 2052	Global Demography and Health

Public Health Minor

Introduction

Please click here (p. 545) to see Health and Behavioral Sciences department information.

The undergraduate minor in Public Health is designed to provide students with a basic understanding of the social, cultural, and biological dimensions of health. The minor curriculum provides students with the intellectual and methodological tools needed to understand the joint bio-cultural determinants and contexts of health, health care and public health.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 24 credit hours from the approved courses.
2. Students must complete a minimum of 12 upper-division (3000-level and above) PBHL credit hours from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of 12 PBHL credit hours with CU Denver faculty from the approved courses.

Program Restrictions, Allowances and Recommendations

1. No more than six credit hours may be counted toward a major or minor in another department and counted toward the minor in Public Health.
2. Due to substantial overlap in coursework, students who complete the major in Public Health cannot also be awarded the minor in Public Health.
3. Students must complete a minimum of 12 upper-division level credit hours with CU Denver faculty.

Code	Title	Hours
Complete the following program requirements:		
<i>Complete the following General Public Health courses:</i>		8
PBHL 2001	Introduction to Public Health	
PBHL 3001	Introduction to Epidemiology	
<i>Complete a minimum of two of the following Public Health Focused courses:¹</i>		6
PBHL 3020	Introduction to Environmental Health	
PBHL 3030	Health Policy	
PBHL 3070	Perspectives in Global Health	
PBHL 4040	Social Determinants of Health	
<i>Complete one of the following Biological Background lab courses:</i>		4
ANTH 1303	Introduction to Biological Anthropology	
BIOL 1550	Basic Biology: Ecology and the Diversity of Life	
BIOL 1560	Basic Biology: From Cells to Organisms

SOCY 3570	Death & Dying: Social & Medical Perspectives
SOCY 4110	Sociology of Health Care
SOCY 4220	Population Change and Analysis
SOCY 4290	Aging, Society and Social Policy

Total Hours**24**

¹ Students may elect to take all four of these courses in lieu of taking two elective courses listed below.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/hbsc/degree-programs/minors/>).

Health Humanities

Advisor: Marjorie Levine-Clark

Telephone: 303-315-7010

E-mail: Marjorie.Levine-Clark@ucdenver.edu

Overview

Health Humanities is an undergraduate interdisciplinary minor that highlights humanities and related social science approaches to medicine and health. The health humanities offer insight into the human condition as it pertains to the arts and sciences of healing and deepens understanding of disease and wellness, pain and suffering, personhood, the nature of death and dying, embodied experience, and the limits of technological knowledge. Attention to literature, history, philosophy, rhetoric, and the arts reveals the ethical, cultural, and social contexts of health and medicine.

Who is this minor for?

- **Everyone!** Humanistic studies of health provide an excellent addition to science-based curricula and also a stand-alone program that addresses many current issues and interests.
- **Premed students:** Medical school admissions committees actively seek students with strong humanities and liberal arts backgrounds.

Key Learning Outcomes:

- Students will utilize humanistic perspectives to analyze approaches and practices related to health and medicine.
- Students will critically analyze historical and contemporary connections among health, medicine, and society.
- Students will demonstrate understanding of the historical, cultural, and political contexts of theories and practices related to health and medicine.

Health Humanities (HEHM)

HEHM 3100 - Foundations of Health Humanities (3 Credits)

This course introduces students to the rich field of the health humanities.

It examines the ways a variety of disciplines analyze the relationships among health, medicine, and society, and what the health humanities can teach us about biomedical theory and health care training and practice. It explores how a variety of media represent health, illness, suffering, disability and death. Focusing on people, clients, health-care professionals, and communities, students will develop historical, literary, philosophical, and rhetorical understandings of medicine and health, paying particular attention to power relationships and categories of difference. Restriction: Restricted to undergraduate students with sophomore standing or higher. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students with sophomore standing or higher.

Typically Offered: Fall.

HEHM 3570 - Death & Dying: Social & Medical Perspectives (3 Credits)

Focusing on death, dying and bereavement using medical and social perspectives, this course explores how illness, prolonged dying and sudden death impact care providers, families and communities.

Discussion, film, readings and music address the connection of social and medical issues. Cross-listed with SOCY 3570. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

HEHM 3840 - Independent Study (1-6 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

HEHM 4840 - Independent Study (1-6 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of instructor. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

HEHM 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Health Humanities Minor

Introduction

Please click here (p. 563) to see Health Humanities department information.

The Health Humanities minor critically analyzes historical and contemporary connections among health, medicine, and society. The minor deepens understandings of disease and wellness, pain and suffering, personhood, the nature of death and dying, embodied experience, and the limits of technological knowledge. Studying literature, history, philosophy, rhetoric, the arts, and related social science fields, HEHM students explore the human dimensions of medical practice and how they interact with lived experience, revealing the ethical, cultural, and social contexts of health and medicine.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor. Students declaring a minor in HEHM must have at least a 2.5 over GPA.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 credit hours taken from the approved courses.
2. Students must complete a minimum of six upper-division (3000-level and above) credit hours in the minor taken from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine credit hours with CU Denver faculty taken from the approved courses.

Program Restrictions, Allowances and Recommendations

1. Students may only count **one** relevant transfer course toward their elective requirements for the minor.
2. Students may double count no more than two courses from their major toward the minor elective requirements.

3. Students may take any of the courses from the capstone list as upper division electives.
4. Upper division level electives may carry prerequisites that must be completed before enrolling.

Code	Title	Hours

Total Hours		15

¹ The Upper Division (3000-level and above) elective list is not exhaustive and continues to be updated. One elective course can be a service learning course or independent study approved by an HEHM advisor. **Students may take any of the courses from the capstone list as upper division electives.**

² These courses incorporate substantial original writing or research projects designed to promote broad reflection about the role of culture, society, and ethics in medicine. Students should choose these courses at the culmination of their minor course work.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/health-humanities/>).

History

Chair: Ryan Crewe

Program Assistant: Tabitha Fitzpatrick

Undergraduate Advisor: William Wagner

Graduate Advisor: Peter Kopp

Office: Student Commons Building, 1201 Larimer St., Room 3102

Telephone: 303-315-1776

Fax: 303-315-1780

Overview

The special responsibility of historical studies is understanding the past. History courses integrate many branches of knowledge, cutting across the lines of the social sciences and the humanities, and even the natural sciences. Identifying forces of stability and processes of change, history students develop their research, writing and analytical skills, which serve them well beyond their university years.

Undergraduate Information

Please click here (p. 577) for more information about the requirements for the Major in History.

Please click here (p. 586) for more information about the requirements for the Minor/Online Minor in History.

Please click here (p. 589) for more information about the requirements for the Immigration Studies Certificate.

Please click here (p. 591) for more information about the requirements for the Latin American Studies Certificate.

Internships

Students may qualify for internships to earn credit and experience. Students may pursue internships in public policy, law, social work, community organizing, journalism, teaching, and a variety of other job fields. Students interested in pursuing an internship in their chosen job field should speak with the Undergraduate Advisor. Students interested in working in historical institutions can apply for positions with the Center for Colorado and the West, Colorado State Historical Society, Historic Denver, Denver Museum of Nature and Science, the Colorado Railroad Museum, and the National Park Service.

Honors Program

Students with a cumulative GPA of 3.5 or higher in their upper-division history classes are encouraged to submit their HIST 4839 History Seminar thesis papers to achieve a degree awarded with Latin honors: *cum laude*, *magna cum laude* or *summa cum laude*. Eligible students will submit their thesis papers to the Undergraduate Advisor for review by the Undergraduate Honors Committee.

Historical Studies Journal

Since 1983, CU Denver students in history have published this illustrated journal showcasing the most outstanding original research done each year by history students.

History (HIST)

HIST 1016 - World History to 1500 (3 Credits)

Surveys the rise of civilizations and their interactions from prehistoric to modern times. The emphasis is on the understanding of the various styles or characteristics of civilizations within a global context. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 1026 - World History Since 1500 (3 Credits)

Surveys the interactions of the world's civilizations in modern times. The emphasis is on understanding the concept of modernization within a global context. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

HIST 1211 - Western Civilization I (3 Credits)

Introduces ancient Mediterranean civilization and the birth of Europe.

Covers topics on economics and society, political organization, intellectual history, and art from 3000 B.C. to A.D. 1500. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 1212 - Western Civilization II (3 Credits)

Introduces modern European civilization and its spread over the world. Covers topics on economics and society, political organization, intellectual history, and art from A.D. 1500 to the 20th century. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 1361 - U.S. History to 1876 (3 Credits)

Provides an introduction to the major forces, events and individuals that shaped the historical development of American society, beginning with the European settlement of America and concluding with the Civil War, reconstruction and the early growth of an industrial order. Term offered: fall, spring. Max Hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-HI1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.

Typically Offered: Fall, Spring.

HIST 1362 - U.S. History Since 1876 (3 Credits)

Provides an introduction to the major forces, events, and individuals that shaped the historical development of American society from the Civil War to the present. Term offered: fall, spring, summer. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-HI1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.

Typically Offered: Fall, Spring, Summer.

HIST 1381 - The History of Now (3 Credits)

Examines several topics of profound interest to historians world wide: nature and technology, secular and religious faiths, and concepts of political union. The experience of the U.S. as it relates to the experiences of other periods and cultures. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-HI1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.

Typically Offered: Fall, Spring.

HIST 1400 - Controversies in History (3 Credits)

Examines a variety of cases where historians have significant disagreement or diverse interpretations regarding "what happened" and "why," to come to an understanding of what historians do and how they do it. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.

Typically Offered: Fall, Spring, Summer.

HIST 2001 - The Uses and Misuses of History (3 Credits)

This course examines the uses and misuses of historical interpretation in the public sphere, focusing on how history has been employed over time to persuade or influence public debates. Term offered: spring, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have completed 15 hours of HIST courses with a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Term offered: spring, summer, fall. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: 15 hours of HIST courses with a 2.75 GPA in HIST courses

Typically Offered: Fall, Spring, Summer.

HIST 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"-our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with ETST 3003, INTS 3003, PHIL 3003, RLST 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 3031 - Theory and Practice of History: An Introduction to the Major (3 Credits)

Introduces history majors to the discipline at the outset of their course work. Covers historiographical trends and methodologies, and familiarizes students with the various types of research and writing they are likely to encounter in their classes. Note: This course should be taken as early as possible, and must be taken before HIST 4839. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 3070 - Studies in Film History (3 Credits)

Examines the history of cinema from a variety of national perspectives. Topics rotate and may include Silent Era Cinema, Classical Hollywood Film, New Hollywood, French New Wave, German Expressionism, etc. Note: May be taken more than once when topics vary. Cross-listed with ENGL 3070. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

HIST 3121 - The World at War, 1914-1945 (3 Credits)

Examines World Wars I and II as episodes in a protracted conflict among the nations of the capitalist West, the emerging states of Asia and the colonial world, and the USSR. Studies the causes and consequences of the wars. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

HIST 3230 - The American Presidency (3 Credits)

Explores the presidency in U.S. History. Topics include: ideological and constitutional foundations; expansion of presidential power in domestic politics and international relations; evolution of presidential campaigns; and dimensions of presidential leadership in politics, society and culture. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3231 - Famous U.S. Trials (3 Credits)

Interested in Law School? . . . This introduction to the history of the U.S. trial court system contextualizes significant trials in historic and cultural moments. The course explores the roles of legal communication and mass communication in contemporary representations of trials. Cross-listed with COMM 3231. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3232 - The American Colonies to 1750 (3 Credits)

The maturation of the American colonies within the British Empire, the development of commercial and intellectual centers, the creation of uniquely American politics, and the unfolding of critical differences between North and South. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3235 - U.S. Labor History, 1800 to the Present (3 Credits)

Explores the experiences, contributions, and struggles of working-class Americans from the Civil War to the present. Areas of focus include pre-industrial and post-industrial labor, slavery, agricultural labor, gender and working class culture outside of the work place. Particular attention is paid to immigration, ethnicity, race and gender, as they relate to the history of America's laboring class. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3260 - Introduction to Digital Studies (3 Credits)

Develop marketable skills such as building websites, making interactive maps, recording podcasts, and analyzing data while also studying the cultural and ethical dimensions of these technologies. Cross-listed with HIST 5260, COMM 3081, and COMM 5081. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3297 - Social History of Asian Americans (3 Credits)

Introductory-level course surveys the social history of Asian American groups from the mid-19th century to the present. We will examine immigration patterns, the development of communities, social and economic problems, and anti-Asian movements and activities. Cross-listed with ETST 3297. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3343 - Women & Gender in US History (3 Credits)

This course will explore women and gender as drivers of US history. From politics to popular culture, jobs to sexual empowerment, civil rights to economic restructuring, we will use gender as a lens to re-envision familiar stories about American history. Cross-listed with WGST 3343, WGST 5343, and HIST 5343. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 3345 - Immigration and Ethnicity in American History (3 Credits)

Explores the personal and collective experience of immigrants to America. Discusses problems of assimilation, urban and rural experiences, and implications for politics, the economy and social attitudes. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

HIST 3347 - African-American History, 1619-Present (3 Credits)

Explores the African-American experience, including definitions of citizenship, strategies for protest and resistance, models of leadership, religious life and cultural expression, divisions of class, color and gender. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3348 - The African-American Protest Tradition, 1865 - Present (3 Credits)

Examines a series of influential African-American activists and considers such themes as intra-racial divisions, Pan-Africanism, black nationalism, the use of the courts and legal efforts, and black conservatism. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3349 - Social Movements in 20th Century America (3 Credits)

By surveying the major American social movements of the twentieth century, this course will explore how Americans have created categories of race, ethnicity, culture, and sexuality and how elite and marginalized citizens have deployed these categories in politics. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

HIST 3350 - Colonial Latin America (3 Credits)

Surveys the creation of colonial empires by Spain and Portugal, 1492-1808. Topics include Native American responses to European incursions, women in colonial society, and slavery in Latin America. Cross-listed with ETST 3350 and HIST 5350. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3360 - Denver History (3 Credits)

Introduces the social, political, economic, and cultural life of this mile high metropolis. Founded in the 1858 gold rush, Denver has grown into a five-county metropolis of over two million. Explore this boom and bust history in lectures, slide shows and walking tours. This course offers students a chance to do their own primary source research project, as well as exams and book reports. Note: Open to all students. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3364 - Native Americans and Spaniards in North America (3 Credits)

Examines the interactions between Native Americans and Spanish invaders beginning in the 16th century. The course explores the impact of colonialism in what is today the American Southwest. Focuses on Native American adaptation and resistance to the European presence. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3365 - Aztlan in the United States: Chicano History from 1821 (3 Credits)

Explores the impact of U.S. rule on the Southwest, paying particular attention to legal, economic, and social changes that created new political and cultural identities in the Southwest. Cross-listed with ETST 3365. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3366 - Nature and Power in American History (3 Credits)

This course explores the relationships between human societies and environmental change in the history of North America. Cross-listed with HIST 5366. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3396 - History of the American Indian (3 Credits)

Indigenous nations in North America comprise hundreds of diverse cultures. This course examines U.S. Indian policy and how indigenous nations responded; how they creatively adapted, and resisted cultural change; and how they continue to persist culturally, socially, and politically. Cross-listed with ETST 3396. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3451 - Introduction to African History (3 Credits)

By looking at specific examples of the cultural, political, and economic experience of African society, this course attempts to introduce and make comprehensive the diverse history of the people of Africa. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3460 - Modern Latin American History (3 Credits)

Surveys the historical development of the modern Latin American countries, beginning with the independence movements of the early 19th century. Emphasizes the 20th century issues and problems that have characterized these countries and affected their relations with the United States. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5460. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3469 - Intro to East Asia: To 1800 (3 Credits)

This course introduces the history of China, Japan and Korea to 1800 focusing on political, economic and social changes. It is designed for lower division undergraduates with no background in Asian history. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3470 - Intro to East Asia: Since 1800 (3 Credits)

This course introduces the history of China, Japan and Korea from 1800 to the present, focusing on political, economic and social changes. It is designed for lower division undergraduates with no background in Asian history. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 3480 - Introduction to European History (3 Credits)

This course examines the major events and influences that have shaped modern Europe, including monarchies, the Enlightenment, the Industrial Revolution, the rise of political ideologies, the French and Russian Revolutions, capitalism, imperialism, and two World Wars in the twentieth century. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: spring, summer, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

HIST 3481 - Ancient Greece (3 Credits)

A history of the Greek-speaking world, from the Bronze Age depicted in Homer's epics to Alexander the Great and the Hellenistic Kingdoms. The course addresses the political, intellectual, socioeconomic, and military history of the eastern Mediterranean, with an emphasis on Greece. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3482 - Rome: City and Empire (3 Credits)

Pagan Rome from its earliest beginnings to the rise of Christianity. Emphasis is on the military, socio-economic, and political history of Rome, its empire in Italy, and its domination of the Mediterranean World (ca. 800 B.C. to A.D. 300). Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3484 - British Isles to 1714 (3 Credits)

A sampler of the rich, diverse, and dramatic history of the peoples of the British Isles. State formation, economic and social change and cultural values are several of the themes threaded through this survey course. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3485 - British Isles Since 1714 (3 Credits)

This course examines the dramatic rise of the British industrial, commercial, and political empire during the 18th and 19th centuries and its equally dramatic decline in the 20th century. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3486 - Renaissance and Reformation (3 Credits)

Explores the late 13th through middle 17th centuries when European art and culture changed dramatically, and when Europe was torn by explosive ideological conflicts and religious upheaval. Cross-listed with RLST 3486. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3487 - Medieval Europe (3 Credits)

Surveys the general history of Europe from the fall of Rome to the opening of modern Europe. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 3488 - Tudor-Stuart England (3 Credits)

England's rise from obscurity in 1487 to the dawn of her age of European and world dominance in the early 18th century. Family life and popular culture as well as Henry VIII, Queen Elizabeth, Parliament, and Cromwell. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3500 - African History in Novels and Films (3 Credits)

Introduces modern Africa through the eyes of creative artists. Various topics, such as childhood, religion, and colonialism, are presented from various points of view--African and non-African. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3601 - Colorado History (3 Credits)

Presents the story of the people, society, and culture of Colorado from the earliest Native Americans, through the Spanish influx, the fur traders and mountain men, the gold rush, railroad builders, the cattlemen and farmers, the silver boom, the tourists, and the modern twentieth-century state. Term offered: spring, fall, summer. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

HIST 3606 - Science, Technology, and Society in the Modern World (3 Credits)

Examines the relationships among science, technology, and society from the early 19th century to the present. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3616 - Global History of Energy (3 Credits)

Explores the history of human energy use on local, national, and international scales, examining its social, political, and economic effects, and its implications for the environment. Cross-listed with HIST 5616.

Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3706 - Age of Revolution (3 Credits)

Examines revolutions in selected societies around the world during the period from 1750 to 1950. The specific revolutions chosen may vary, but representative upheavals in both the Western and non-Western worlds are examined. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3810 - Topics (3 Credits)

Topics in history with varying subtitles reflecting course content.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

HIST 3840 - Independent Study: History (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

HIST 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have 15 hours of HIST courses completed with 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: spring, summer, fall. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: 15 hours of HIST courses with a 2.75 GPA in HIST courses

Typically Offered: Fall, Spring, Summer.

HIST 3995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

HIST 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with CHIN 4002, ETST 4002, INTS 4002, RLST 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 4027 - Enlightenment and Revolution (3 Credits)

In this course students explore the relationship of ideas and events in Europe during the 17th and 18th centuries. Modernizing trends in the European economy, religion, science, states and international affairs leading up to the French Revolution. Cross-listed with HIST 5027. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4028 - Nations and Classes: 19th Century Europe (3 Credits)

Focuses on material and ideological changes in 19th century Europe, exploring social, cultural, political, economic, and intellectual developments. Cross-listed with HIST 5028. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4029 - Age of Anxiety in Europe (3 Credits)

Looks at Europe at the end of the nineteenth century in an effort to determine if there is any relation between the peculiarities in culture at the time and the horrors in politics that followed. Cross-listed with HIST 5029. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4030 - Europe During the World Wars (3 Credits)

Covers the history of the two world wars and their origins, political and social upheaval during the interwar economic crisis, the rise of communism, Italian fascism and Nazism, with an emphasis on cultural production and intellectual life. Cross-listed with HIST 5030. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4031 - Contemporary Europe (3 Credits)

History of Europe since 1945. Students study the economic, social, and political history of Europe since World War II, with a special emphasis on the Cold War and intellectual currents. Cross-listed with HIST 5031. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4032 - Globalization in World History Since 1945 (3 Credits)

An interdisciplinary course on contemporary world history and globalization. While the course is historically structured, economic, political, and sociological matters are explored. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5032. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

HIST 4034 - Core Themes in European History (3 Credits)

Core themes in modern Europe, 1750 to the present. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4035 - Crisis and Transformation: Europe's 20th Century (3 Credits)

This course examines 20th century European history focusing on themes of crisis and transformation. We will explore how devastating wars, economic depression, stark ideological divisions, and revolutionary social, political and cultural movements dramatically changed Europe over the course of the century. Cross-listed with HIST 5035. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4046 - Victorians and Victorianism (3 Credits)

Taking an interdisciplinary perspective, this course examines English people and English life during the reign of Queen Victoria, 1837-1901. What were the defining features of the Victorian age? What did it mean to be "Victorian?" When and why did the Victorian paradigm break down? Cross-listed with HIST 5046. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4051 - Britain and The Empire (3 Credits)

Examines 19th and 20th century British history, addressing social, cultural, and political themes. Explores industrialization, state growth, and imperialism; relationships between race, gender, and class; and the ways in which colonizers and the colonized experienced empire. Cross-listed with HIST 5051. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4055 - The Atlantic Slave Trade: Africa, Caribbean and U.S. (3 Credits)

Presents a broad overview of the slave trade in the Atlantic World, including discussion of the slave plantation, the creation of Caribbean societies and the consequences of independence from Britain. Cross-listed with HIST 5055. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4062 - Modern France, 1789 to the Present (3 Credits)

Considers the shaping of modern France from the 18th century Bourbon Monarchy and aristocratic society to today's liberal democracy, in which multiculturalism, globalization and supranational institutions call into question the very nature of French identity. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5062. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4071 - Modern Germany (3 Credits)

Surveys the major political, institutional, social, economic, and cultural developments that have occurred in Germany since the late 18th century. Cross-listed with HIST 5071. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4074 - Post-War Germany (3 Credits)

Historical survey of Germany since the second world war, with an emphasis on culture and society. Cross-listed with HIST 5074. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4075 - Travel Stories and Origins of Cultural Anthropology (3 Credits)

Examines the early history of cultural anthropology by means of classic travel literature. Cross-listed with HIST 5075. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4076 - History of Modern Science (3 Credits)

Surveys the history of science from the 18th century to the present. Treats all disciplines, from physics to physiology, in an attempt to understand how the natural world came to dominate our sense of ourselves. Cross-listed with HIST 5076. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4083 - Russia Since 1917 (3 Credits)

Studies the development of the Soviet Union from its formation in the October Revolution, through the Civil War, the new economic policy, industrialization, collectivism, the Stalinist purges, up to the present. Cross-listed with HIST 5083. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4086 - Eastern Europe (3 Credits)

Studies the countries of Eastern Europe from their origins in the Middle Ages to the present. Cross-listed with HIST 5086. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4133 - Management of Material Culture and Museum Collections (3 Credits)

This course provides in-depth knowledge of the rudiments of material culture documentation, preservation and management. While we have designed this class for those interested in working in history museums, this is also appropriate for those students who want to learn the place of artifacts in studying history. Cross-listed with HIST 5133. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4201 - Core Themes in U.S. History (3 Credits)

This course surveys major themes in U.S. history. Cross-listed with HIST 5201. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4209 - Race, Religion, and Belonging (3 Credits)

Race/ethnicity and religion are conconstitutive social and cultural formations that have played a fundamental part in determining the boundaries of belonging of the United States. In this course, students will interrogate when, why and how race/ethnicity and religion have been used to delineate borders, determine citizenship, navigate legal classifications, dictate social mobility, and regulate economic possibilities. We will analyze both primary sources such as sermons, reality TV shows, court cases and graphic images as well as scholarly writing to explore how formations of race and religion have shaped notions of belonging in the US nation-state, thereby constructing the boundaries of the state itself. Cross-listed with ETST 4030, ETST 5030, RLST 4030, RLST 5030 and HIST 5209. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4210 - The American Revolution (3 Credits)

The crisis of the British Empire in North America from the end of the French and Indian War to the ratification of the American Constitution. Topics include the emerging economy, constitutional arguments against Britain, the conduct of the war, and the definition of a republic. Cross-listed with HIST 5210. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4212 - Civil War and Reconstruction (3 Credits)

Begins with the causes and outbreak of the American Civil War, describes the military conflict and the social aspects of the war, examines the federal efforts to reconstruct the southern states, and protect the rights of Black citizens after 1865. Cross-listed with HIST 5212. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4213 - The Gilded Age and Early 20th Century Challenges: U.S. History, 1865-1932 (3 Credits)

Topical study of major events in America, including Reconstruction; the rise of industry and the workers' response; westward expansion and the plight of Native Americans; urbanization and immigration; agrarian upheaval; Progressivism; World War I; the challenges of the 1920s and the onset of the Great Depression. Cross-listed with HIST 5213. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4216 - History of American Popular Culture (3 Credits)

Explores American popular culture from the early 1800s to the present. By tracing the development of various entertainment media, including theater, music, movies, and television sitcoms, this course probes how popular culture both reflected and shaped American values and behavior. Cross-listed with HIST 5216. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4217 - Consumer Culture (3 Credits)

This interdisciplinary course examines the dynamics of the consumer culture in the context of social, economic, and technological history. The analysis begins with 17th century European origins, and continues through recent world developments, emphasizing the U.S. since 1800. Note: Open to all students. Cross-listed with HIST 5217. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4219 - Depression, Affluence and Anxiety: U.S. History, 1929 to the Present (3 Credits)

Examines major developments, focusing on the causes of the Depression and efforts to combat it; World War II and postwar readjustments; the Cold War and challenges of world leadership; unparalleled prosperity; Civil Rights movement; the Vietnam War; and economic uncertainties amidst general prosperity. Cross-listed with HIST 5219. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4220 - U.S. Foreign Policy Since 1912 (3 Credits)

The main thrust is the emergence of the U.S. from isolation toward full-scale participation in the affairs of Europe and other areas. Special attention is given to U.S. intervention in two world wars, the Cold War, and the over extension of U.S. commitments since 1960. Cross-listed with HIST 5220. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4222 - U.S. Society and Thought to 1860 (3 Credits)

Major topics include the evolution of Protestantism from Puritans to Transcendentalists; humanitarian reforms such as abolition, temperance, and women's rights; European influences on American thought; the effect of industrialization on the development of class society; and American nostalgia for agrarian life. Cross-listed with HIST 5222. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4223 - U.S. Society and Thought Since 1860 (3 Credits)

Topical survey of the main currents of American thought and their impact upon society. Topics include American philosophy, literature (extensively), art, music, immigration and urbanization, technology, extremism of both left and right, and education. Cross-listed with HIST 5223. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4225 - Urban America (3 Credits)

This course will explore how Americans experienced their rapidly growing and changing cities during the past two hundred years. This course will cover a wide range of urban themes, including segregation and gentrification, self-invention and policing, ethnic gangs and race riots, skyscrapers and suburbia, and commercial sex and Hollywood. The course will ultimately chart how a range of Americans - including immigrants, teenagers, laborers, women, LGBTQ+ people, and people of color - all fought for their own "right to the city". Cross-listed with HIST 5225, WGST 4225, WGST 5225, GEOG 4625. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4226 - Capitalism in America (3 Credits)

Explores the social, cultural, and political history of American capitalism from colonial times. Topics include entrepreneurship, labor, territorial and trading expansion, industrialization, the rise of corporations, economic cycles, technological developments, and the role of the state, all within global contexts. Cross-listed with HIST 5226. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4227 - American West (3 Credits)

Introduces the diverse peoples, places, and approaches to the development of the trans-Missouri West from prehistoric times to the present. Cross-listed with HIST 5227. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4228 - Western Art and Architecture (3 Credits)

Introduces art and architecture of the American West, emphasizing their historical context. Students are required to do book reports and a research paper. Course includes walking tours and museum visits. Cross-listed with HIST 5228. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4229 - Colorado Historic Places (3 Credits)

Introduces community architecture, folklore, and history for all students. Students learn how to survey, describe, and designate significant historical structures and districts. Cross-listed with HIST 5229. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4230 - Women in the West (3 Credits)

Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the Western states. Cross-listed with HIST 5230 and WGST 4230/5230. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4231 - History in Museums (3 Credits)

This core course for the museum studies area of public history introduces students to the theory and practice of museum operations. It covers the basics of museum administration, museum collection and preservation, and museum interpretation from both theoretical and practical points of view. Cross-listed with HIST 5231. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4232 - Historic Preservation (3 Credits)

Introduces the history, methodology, and goals of historic preservation. Guest speakers, field trips, research projects, and book reports. Cross-listed with HIST 5232. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4234 - History at Work: Public and Community History (3 Credits)

An overview of history outside the academic setting. Students have the opportunity to learn about jobs through on-site visits and presentations made by people engaged in a wide variety of occupations in history other than teaching. Cross-listed with HIST 5234. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4236 - Colorado Mining and Railroads (3 Credits)

Focuses on the transportation network that shaped the inland West, and its key role in the extractive industry that gave Colorado its start and nourished the highest state through adolescence. Cross-listed with HIST 5236. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4238 - U.S. History Through Fiction (3 Credits)

Explores American history through novels, based on the idea that fiction offers a superb "window" through which to view the past, especially to understand the texture of American society. Cross-listed with HIST 5238. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4240 - National Parks History (3 Credits)

Introduces how the National Park Service uses history to identify, designate, preserve, and interpret America's most outstanding historic and natural history sites. After tours of NPS sites, students select from a wide range of projects. Note: Open to all students. Cross-listed with HIST 5240. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4242 - Oral History (3 Credits)

Trains public history students in the collection of oral history interviews. Students master core readings on the theory, practice, and ethics of oral history. Cross-listed with HIST 5242. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4243 - Public History Administration (3 Credits)

Introduces students to the skills, practice, and ethics of public history administration. Cross-listed with HIST 5243. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4244 - Interpretation of History in Museums: Exhibits and Education (3 Credits)

This course allows students to gain in-depth knowledge of historical interpretation through exhibits and education in a museum setting. This class is designed for those preparing to work in history museums but is also appropriate for teachers and others who want to learn how museum programs interpret history with artifacts and other historical materials. Cross-listed with HIST 5244. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4245 - Heritage Tourism (3 Credits)

History and historic sites have become big business in 21st century tourism. The heritage tourism industry is explored in this introductory course for all interested students focusing on how academic history and historians can partner with tourism and recreation interests. Cross-listed with HIST 5245. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4261 - Working With Data (3 Credits)

Teaches the technical skills of data collection, processing, analysis, and visualization, along with the history and ethics of how societies, corporations, and governments have used and abused data over time. Cross-listed with HIST 5261. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4303 - Sex and Gender in Modern Britain (3 Credits)

Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 5303 and WGST 4303/5303. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4306 - Survey of Feminist Thought (3 Credits)

Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 5306, WGST 4306, 5306. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4307 - History of Sexuality (3 Credits)

Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with HIST 5307 and WGST 4307/5307. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4308 - Crime, Policing, and Justice in American History (3 Credits)

Focuses on changing legal and cultural definitions of crime, the role of the police, the evolution of punishment in theory and practice, and the role of mass culture in shaping the social history of crime and justice. Cross-listed with HIST 5308. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4345 - Gender, Science, and Medicine: 1600 to the Present (3 Credits)

Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 5345 and WGST 4345/5345. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4347 - History of Biology (3 Credits)

Examines the development of modern biology from the mid-18th century to the present. Students will look at intellectual, methodological, institutional and social contexts in an attempt to answer the question of how biology became the "pre-eminent" science. Cross-listed with HIST 5347. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4348 - Mind and Malady: A History of Mental Illness (3 Credits)

Examines the history of mental illness from the mid-18th century to the present, focusing on the institutionalization of the mentally ill, the origin of psychiatry, the development of models of mental illness and the evolution of clinical treatment. Cross-listed with HIST 5348. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4411 - Modern Mexico (3 Credits)

Designed to familiarize students with the critical issues in Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 5411, ETST 4411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4412 - Mexico and the United States: People and Politics on the Border (3 Credits)

Examines the convoluted relations between these two republics, focusing on diplomatic, cultural, and social interactions. Cross-listed with HIST 5412. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4414 - Nationalism and State Building in Latin America, 1750-1850 (3 Credits)

Explores the problems of nationalism and post-colonial state building by examining the late colonial and early national periods of Latin American history. The course discusses the impact of the enlightenment, the events of the Wars of Independence, and the quandaries faced by the new nations. Cross-listed with HIST 5414. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4415 - Social Revolutions in Latin America (3 Credits)

A theoretical framework and an empirical basis for understanding the large-scale social movements that have influenced the course of Latin American nations. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5415. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4416 - The Age of Imperialism (3 Credits)

Examines causes, character, and consequences of imperialism in the industrial era (ca. 1840-1975). Through intense study of selected cases, students gain an understanding of the different dynamics and varieties of imperialist control. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4417 - Commodities and Globalization (3 Credits)

Trading raw material & processed goods internationally has greatly affected world cultures & geopolitics. Tracing commodity chains since 1500 for food, fuel, industrial material & products, & intellectual property, this course will conclude with the effects of current regulations, marketing & environmental concerns. Cross-listed with HIST 5417. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4418 - Trade and Premodern World History (3 Credits)

Explores the interconnections that shaped premodern world history, considering the ways that the production, exchange, and consumption of cloth were tied to specific forms of political power, social and religious organization, and long distance economic relationships. Cross-listed with HIST 5418. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4420 - Traditional China: China to 1600 (3 Credits)

A general introduction to the history of China from the advent of historic civilization to the point of the great encounter with the West. Cross-listed with HIST 5420. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4421 - Modern China (3 Credits)

Surveys Chinese history in the modern era. Includes examination of Western domination of China; revolution and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST 5421 and CHIN 4421. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4422 - Living through Mao's China: Life, Mat. Cult, Movies, 1949-76 (3 Credits)

Introduces students to ordinary people's daily life in Mao's China (1949-1976) through an exploration of material culture, movies and scholarship. This course pays particular attention to the ways people's everyday living intertwined with politics. Cross-listed with HIST 5422. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4423 - China in the World (3 Credits)

China does not exist apart from the world, and never has. This course approaches Chinese history by asking: how has the world shaped China's history, and how has China shaped the history of the world? Rather than explain what went on in China, we focus on exploring what went on outside-among China's immediate neighbors in East Asia, the entire Eurasian region, the African continent, and the so-called "West." The course moves chronologically from ancient times to the present, and is organized around the themes as conquest, trade, international relations, climate change, environmental stress, and the circulation of ideas. Cross-listed with HIST 5423 and CHIN 4423. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4431 - Modern Japan (3 Credits)

Course of Japanese history since the Perry expedition. Covers Japanese Westernization and industrialization, the expansion of empire and defeat in World War II, the occupation, and the amazing technological and social transformation since the occupation years. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5431. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4451 - Southern Africa (3 Credits)

An in-depth history of the clash of peoples and cultures in Africa south of the Zambezi River. African and Afrikaner political, economic and cultural development in a single land and the consequences of several competing nationalisms existing side by side are examined. Apartheid and African opposition to it are analyzed. Cross-listed with HIST 5451. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4455 - African Struggle for Independence (3 Credits)

An assessment of African leadership from the colonial era to the present. Cross-listed with HIST 5455. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4461 - The Modern Middle East (3 Credits)

Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5461.

Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4462 - Islam in Modern History (3 Credits)

This course studies Islamic thought and practice over the last two centuries in terms of major historical processes that have operated at local, national, and global scales. Cross-listed with HIST 5462, RLST 4462, RLST 5462. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4471 - The Second World War (3 Credits)

The War in its totality: causes, military strategies (equal treatment to European and Pacific theaters), campaigns, impact of technology and weapons, political and social upheaval. Cross-listed with HIST 5471. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4472 - The 1950s: Korean War, the Cold War and Social Transformation (3 Credits)

A critical and methodical exploration of several of the social, cultural, and political events of the 1950s. Investigates the complex interaction between politics and culture during this decade, paying close attention to anti-Communist thought and the Korean War. Cross-listed with HIST 5472. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4475 - The Vietnam War (3 Credits)

Covers the conflict in Vietnam, with roots in the period prior to World War II. Main topics include the rise of nationalism in French Indochina, the war against the French, the Northern move to unify Vietnam, American intervention, and eventual victory of the Northern regime. Cross-listed with HIST 5475. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4490 - Weapons of Mass Destruction (3 Credits)

Weapons of mass destruction have affected politics, health, and environments around the globe. This course will examine the development, use, and consequences of these modern technologies of war and terror. Cross-listed with HIST 5490. Term offered: summer, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Summer.

HIST 4491 - United States History, 1865-1919 (3 Credits)

Surveys the major intersections of politics, culture, and society in American history between 1865 and 1919. The course will be attentive to the diversity of American experiences and will explore domestic and international themes in United States history. Cross-listed with HIST 5491. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4492 - United States History, 1919-1945 (3 Credits)

Surveys the major intersections of politics, culture, and society in American history between 1919 and 1945. The course will be attentive to the diversity of American experiences and will explore both domestic and international themes in United States history. Cross-listed with HIST 5492. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4493 - United States History, 1945-1973 (3 Credits)

Surveys the major intersections of politics, culture, and society in American history between 1945 and 1973. The course will be attentive to the diversity of American experiences and will explore both domestic and international themes in United States history. Cross-listed with HIST 5493. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4494 - Red and Blue America: U.S. History, 1973-Present (3 Credits)

This course explores American history during a period of immense cultural and political polarization. After 1973, the United States experienced the rise of the New Right, changing attitudes towards sexual "permissiveness," and rapid advancements in technology. Both "law-and-order" politics and the rights campaigns led by immigrants, women, people of color, and LGBTQ+ peoples all reshaped democracy. These developments in the United States, meanwhile, influenced and were shaped by the nation's "hot" and "cold" conflicts in Europe, Latin America, the Middle East, and the rest of the globe. Cross-listed with HIST 5494, WGST 4494, and WGST 5494. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4503 - Topics in History of Science (3 Credits)

Themes vary from year to year. Possible topics: Darwinism, Nature of Memory, Time and Space, Origins. Cross-listed with HIST 5503. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4504 - Animals in U.S. History (3 Credits)

Human-animal relationships offer powerful and unexpected perspectives on the American past. An eclectic range of readings and viewings, written assignments and contemplative experiences will contextualize contemporary practices, beliefs, and ethics – vegetarianism, hunting, pet-keeping, and many others – in historical context. Cross-listed with HIST 5504. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4621 - Explorers and Exploration (3 Credits)

Examines the history of travel and exploration from the 13th century to the present. Readings draw primarily from first-person accounts to understand why people voyage, what they hope to discover, and what happens to them along the way. Cross-listed with HIST 5621. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4622 - Oceans In History (3 Credits)

Explores transoceanic exchanges, relations, and transformations in modern world history. Examines how historians analyze and conceptualize global interactions. Topics include voluntary and forced migrations, resistance and revolution, transoceanic economic relations, piracy, and environmental change. Cross-listed with HIST 5622. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4645 - Archival Management (3 Credits)

This course studies theory and principles pertaining to the management of current and non-current records, public and private archival materials, as well as the administration of archival manuscript depositories for housing records of historical value. Cross-listed with HIST 5645. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4810 - Special Topics (1-3 Credits)

Cross-listed with HIST 5810. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

HIST 4839 - History Seminar (3 Credits)

Covers the use of documentary sources and historical criticism, with students utilizing these skills in a historical research paper. Note: Required for history majors. Preferably taken in the senior year. Prereq: HIST 3031 with a grade of C or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: HIST 3031 with a grade of C or higher

Typically Offered: Fall, Spring.

HIST 4840 - Independent Study: HIST (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

HIST 4849 - Independent Study History Honors Research Paper (3 Credits)

Students competing for history honors must take this course to prepare their honors paper. The course requires students to produce a finished research paper of professional quality under the direction of a history faculty member. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Open to advanced history majors only. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4850 - History in the Community: History Day Mentoring (1-3 Credits)

Directed by CU Denver History faculty, students participate in and judge National History Day in Colorado. They gain teaching experience mentoring students preparing social-studies and literacy-based projects. Their papers are based on scholarly readings and analyses of their experiences in middle and high schools. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of department chair. Department consent required. Term offered: spring. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Spring.

HIST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

History, BA

Introduction

Please click here (p. 566) to see History department information.

The bachelor's degree in history provides students with a firm grounding for advanced studies in education, librarianship, law, business and public service, as well as graduate work in the humanities and social sciences broadly. History is an all-inclusive discipline, making it an excellent choice for students with a wide variety of career goals.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This major can be complete on campus or with a combination of on-campus and online courses. Many core and upper-division courses are offered online.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 36 HIST credit hours.
2. Students must complete a minimum of 18 upper-division (3000-level and above) HIST credit hours, with a minimum of 15 credit hours at 4000-level or higher.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 18 HIST credit hours with CU Denver faculty.

Program Allowances or Restrictions

1. 15 of the 18 upper division level credit hours must be taken at the 4000 level, including HIST 4839 History Seminar.

Code	Title	Hours
<i>Complete the following required courses:</i>		
HIST 3031	Theory and Practice of History: An Introduction to the Major ¹	6
HIST 4839	History Seminar ¹	

Complete a minimum of six credit hours from each of the following distribution areas. A minimum of three credit hours in each distribution area must be upper-division (3000 and 4000 level). 18

United States Distribution (p. 577)

Europe Distribution (p. 578)

World Distribution (p. 578)

Complete a minimum of 12 additional credit hours of HIST electives, not taken already. ² 12

Total Hours 36

¹ Students must complete HIST 3031 Theory and Practice of History: An Introduction to the Major with a grade of C or better before enrolling in HIST 4839 History Seminar.

² Can be satisfied by a combination of additional history courses, history internships, or history honors independent study for eligible students. **Note:** Any courses listed above may be used to fulfill the elective requirements once the area distributions have been met.

United States Distribution

Code	Title	Hours
<i>Complete a minimum of six credit hours from the following United States distribution area. A minimum of three credit hours must be upper-division (3000 and 4000 level).</i> 6

History, BA with Secondary Teaching Licensure Endorsement

Introduction

Please click here (p. 566) to see History department information.

The special responsibility of historical studies is to help individuals and communities understand the past. History courses integrate many branches of knowledge, cutting across the lines of the social sciences and the humanities, and even the natural sciences. Identifying forces of stability and processes of change, history students develop research, writing and analytical skills, which serve them well beyond their university years.

By comparing the human conditions over decades or centuries, history students identify fundamental social trends and analyze critical causal factors. The study of history builds confidence for making judgments in many fields of human endeavor and provides insight into current social, political, economic and cultural issues. History is an all-inclusive discipline, making it an excellent choice for students with a wide variety of career goals. The Department of History trains students to be critical thinkers, capable researchers, and careful writers.

The secondary licensure program is a partnership program between the College of Liberal Arts and Sciences (CLAS) and the School of Education & Human Development (SEHD). Secondary Education Licensure students choose a major within CLAS and complete all CORE, CLAS, major, and initial teacher education admission requirements before completing a final professional year of licensure coursework through the SEHD.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor, CLAS advisor and SEHD advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This major can be complete on campus or with a combination of on-campus and online courses. Many core and upper-division courses are offered online.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 36 HIST credit hours.
2. Students must complete a minimum of 18 upper-division (3000-level and above) HIST credit hours, with a minimum of 15 credit hours at 4000-level or higher.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 18 HIST credit hours with CU Denver faculty.

Program Allowances, Restrictions and Recommendations

Students are responsible for meeting with the advisor in the SEHD to confirm teacher education and licensure requirements. In addition to completing all minimum program requirements above, SEHD secondary education students must complete the following minimum SEHD licensure (p. 950) requirements:

1. Complete the Education Declaration form and all subsequent processes and requirements, including a background check, prior to April 1st (for students intending to complete their clinical field experience in fall) or November 1st (for students intending to complete their clinical field experience in spring). Students must meet with the SEHD advisor for detailed information.
2. Student pursuing secondary education licensure must complete the following requirements to be admitted to the Professional (final) Year:
 - a. a minimum cumulative CU GPA of 3.0 or higher. Students with a lower GPA may be considered under certain conditions.
 - b. all CU Denver Core, CLAS, major, electives, and initial teacher education coursework requirements prior to the start of the Professional Year
 - c. the official application and interview process

d. Deadlines for Professional Year application are February 15th (for students intending to begin Professional Year in fall) or October 1st (for students intending to begin Professional Year in spring).

3. Students must complete all initial teacher education and professional (final) year coursework with a minimum grade of B- or higher.

Code	Title	Hours
Complete the following History degree requirements:		
<i>Complete the following required courses:</i>		6
HIST 3031	Theory and Practice of History: An Introduction to the Major	
HIST 4839	History Seminar ¹	
<i>Complete a minimum of six credit hours from each of the following distribution areas. A minimum of three credit hours in each distribution area must be upper-division (3000 and 4000 level).</i>		18
United States Distribution (p. 581)		
Europe Distribution (p. 582)		
World Distribution (p. 583)		
<i>Complete a minimum of 12 additional credit hours of HIST electives, not taken already. ²</i>		12
<i>Recommended Courses for Social Studies Licensure</i>		
Secondary Social Studies Recommended Courses (p. 584)		
<i>SEHD Licensure Coursework Requirements:</i>		
SEHD Licensure Coursework Requirements (p. 585)		
Total Hours		36

¹ Students must complete HIST 3031 Theory and Practice of History: An Introduction to the Major with a grade of C or better before enrolling in HIST 4839 History Seminar.

² Can be satisfied by a combination of additional history courses, history internships, or history honors independent study for eligible students. **Note:** Any HIST courses may be used to fulfill the elective requirements once the area distributions have been met.

Secondary Social Studies Recommended Courses

Code	Title	Hours
------	-------	-------

In order to prepare for the Social Studies licensure, students should complete all of the following courses:

These courses will also count toward History, CU Denver and CLAS graduation requirements, as identified.

Anthropology

Code	Title	Hours
ANTH 1303	Introduction to Biological Anthropology	4
ANTH 2102	Culture and the Human Experience	3

* *ANTH 1303 Introduction to Biological Anthropology Will count as CU Denver Core Nat/Phys Science with lab. ANTH 2102 Culture and the Human Experience will count toward either CU Denver Behavioral Science or CLAS Behavioral Science.*

Economics

Code	Title	Hours
ECON 2012	Principles of Economics: Macroeconomics	3

* *Will count as CU Denver Core Social Sciences or CLAS Social Science.*

Geography

Code	Title	Hours
GEOG 1102	World Regions Global Context	3
GEOG 1202	Introduction to Physical Geography	3

* *GEOG 1202 Introduction to Physical Geography will count as CLAS Nat/Phys Science without lab and GEOG 1102 World Regions Global Context will count as CU Denver Core Social Science or CLAS Social Science.*

History

Code	Title	Hours
HIST 1361	U.S. History to 1876	3
or HIST 1362	U.S. History Since 1876	
HIST 3345	Immigration and Ethnicity in American History	3
or HIST 3349	Social Movements in 20th Century America	

¹ *HIST 1361 U.S. History to 1876 or HIST 1362 U.S. History Since 1876 will the CU Denver Core Humanities and one U.S. Distribution Course.*

² *HIST 3345 Immigration and Ethnicity in American History or HIST 3349 Social Movements in 20th Century America will fulfill CLAS Humanities and one U.S. Distribution Course.*

Political Science

Code	Title	Hours
PSCI 1101	American Political System	3
PSCI 3022	Political Systems of the World	3
or PSCI 3042	World Politics	

* *PSCI 1101 American Political System is highly recommended and will count as a lower-division level elective credit, toward the overall 120 credit hours required to graduate.*

PSCI 3022 Political Systems of the World or PSCI 3042 World Politics will count as CU Denver Core International Perspectives.

Psychology

Code	Title	Hours
PSYC 1005	Introduction to Psychology II	3

* Will count toward either CU Denver Behavioral Science or CLAS Behavioral Science.

Sociology

Code	Title	Hours
SOCY 3020	Race and Ethnicity in the U.S.	3

* Will count as CU Denver Cultural Diversity.

SEHD Licensure Coursework Requirements

Students must complete SEHD licensure requirements located here (p. 950).

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/history/bachelor-arts-history/>).

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>).

History Minor

Introduction

Please click here (p. 566) to see History department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program and an online program. Students can complete the minor with all on-campus courses, all online courses, or a mix of on-campus and online courses.

Declaring This Minor

- To declare this minor, contact CLAS advising at CLAS_Advising@ucdenver.edu or visit the CLAS advising office in NC 1030. Students must be in a degree-seeking undergraduate program before they can declare this minor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 18 HIST credit hours.
- Students must complete a minimum of nine upper-division (3000-level and above) HIST credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of 12 HIST credit hours with CU Denver faculty.

Immigration Studies Undergraduate Certificate

Introduction

Please click here (p. 566) to see History department information.

Issues of immigration are at the center of modern policy and political debates and are thus a core concern for social scientists, policy makers, civic leaders, community organizations, and citizens. The objective of the History Department's Undergraduate Immigration Studies Certificate is to offer both traditional academic training through coursework and research and also practical experience working with immigrant and refugee communities through an internship. The Immigration Studies Certificate will ultimately prepare students to conduct immigration research, influence immigration public policy, and inform immigrant-related government decisions.

Upon successful completion of the certificate, students will:

- Understand the theoretical explanations for immigration flows, immigrant assimilation and exclusion, and ethnic formation
- Possess a fundamental understanding of the legal and political institutions responsible for immigration policy
- Be familiar with current trends in immigration studies thought, research, and activism
- Be able to apply the content and methodological skills to engage in original research projects involving immigration topics
- Be able to apply the theories and examples from coursework to conduct immigration-focused internships in the workforce

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- **Eligibility:** While housed in the History Department, Immigration Studies is a multidisciplinary field that draws from Ethnic Studies, Anthropology, Political Science, Education, and Sociology. Thus, CU Denver undergraduate students in any discipline can enroll in the program.
- This certificate is open to all CU Denver Undergraduates. Students may apply for the Immigration Studies Certificate at any point in their studies and maintain a grade point average of at least 3.0 within the certificate courses. To apply, students should print and attach a completed Immigration Studies Certificate Application (http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/history/immigration-studies-certificate/immigration_studies_certificate_application.docx) to an unofficial transcript. These documents should be submitted to the Immigration Studies Certificate Administrator, Dr. Kariann Yokota (kariann.yokota@ucdenver.edu). Once the application is approved, students will be contacted about their acceptance into the program.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Immigration Studies advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from the approved courses.
2. Students must complete a minimum of six upper division (3000-level and above) credit hours from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all certificate credit hours with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. If departments offer additional courses that fit within the themes of the Immigration Studies Certificate, those courses can be counted for credit with the Immigration Certificate Administrator's approval
2. The certificate will be awarded when the student graduates with the bachelor's degree.

Required Courses

Code	Title	Hours
<i>Complete both of the following required courses:</i>		6
HIST 3345	Immigration and Ethnicity in American History ¹	3
HIST 3939	Internship ²	1-3

¹ Students must take HIST 3345 Immigration and Ethnicity in American History **prior** to enrolling in an internship.

² Students will work with the Immigration Studies Certificate Administrator and the Experiential Learning Center to secure an immigration- or refugee-related Internship.

Electives

Code	Title	Hours
<i>Complete two related electives from the following list of courses:</i>		6
ANTH 4300	Immigrant Health	
ANTH 4350	Anthropology of Globalization	
ETST 3108	Chicano/a and Latino/a History	
ETST 3297	Social History of Asian Americans	
ETST 3697	Contemporary Asian American Experience	
ETST 3704	Culture, Racism and Alienation	
HIST 4412	Mexico and the United States: People and Politics on the Border	
LDFS 3000	Undocumented Mexican Immigration	
PSCI 4545	Immigration Politics

Latin American Studies Undergraduate Certificate

Introduction

Please click here (p. 566) to see History department information.

This country is deeply connected to Latin America in a myriad of ways, and a good part of its history is rooted in Latin American experience. Peoples originating in cultures that we now define as 'Latin America' resided in what is now the US - and in the place we now call Colorado - long before the country came into existence and, in all their diversity, peoples with ties to the region have been co-constructors of the nation ever since. To further our collective understanding of the hemisphere we inhabit, then, it is essential to support the study of the cultural, political, economic, and historical richness of this region. This certificate focuses on societies from Mexico to Patagonia. It makes the case that the study of Latin American lives in all their diversity, both past and present, has much to offer students in their efforts to comprehend the world and their own communities. This certificate will cater to students who wish to examine the histories, arts, literatures, philosophies, politics, and communications of this dynamic region, and it does so by offering a pathway to study Latin America through a bilingual lens as well.

Upon successful completion of the certificate, students will be able to:

1. Recognize the diverse societies, cultures, polities, discourses, and histories that have come to constitute present-day Latin America,
2. Connect Latin American societies to global processes,
3. Compare different methodological and disciplinary approaches that are used to study Latin America,
4. Identify the contributions of Latin American peoples to the construction of the Western Hemisphere and to global society.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- **Eligibility:** While housed in the History Department, Latin American Studies is a multidisciplinary field that draws from Geography, Spanish, Philosophy, Ethnic Studies, Anthropology, Political Science, and Education. Thus, CU Denver undergraduate students in any discipline are encouraged enroll in the program.
- This certificate is open to all CU Denver Undergraduates. Students may apply for the Latin American Studies Certificate at any point in their studies. To apply, students should contact Dr. Ryan Crewe [ryan.crewe@ucdenver.edu] and indicate their student ID number, their major(s), and expected graduation.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with the Latin American Studies advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from the approved courses.
2. Students must complete a minimum of six upper division (3000-level and above) credit hours from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all certificate credit hours with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. The Latin American Studies Certificate advisor can approve additional courses that fit within the themes of the certificate.
2. The certificate will be awarded when the student graduates with the bachelor's degree.

Humanities

Director: Margaret L. Woodhull, PhD

Program Assistant: Angela Beale

Office: Student Commons 3203

Telephone: 303-315-3565

E-mail: masterhs@ucdenver.edu

Website: <https://clas.ucdenver.edu/mhmss/humanities-minor> (<https://clas.ucdenver.edu/mhmss/humanities-minor/>)

Overview

The Humanities Minor is an interdisciplinary studies program. Students take courses in a range of disciplines with a variety of faculty.

Undergraduate Information

The Humanities Minor is a 15-credit hour undergraduate interdisciplinary minor available through CU-Denver's College of Liberal Arts and Sciences (CLAS). The study of Humanities offers students ideas and concepts for being ethical, creative citizens equipped with tools for critical thinking in a global, multinational world. Taking an interdisciplinary approach, the Humanities Minor cultivates humanistic concepts through historically grounded texts and traditions. It teaches critical engagement with society's most pressing issues by developing a human-oriented perspective in which creativity and critical, theoretical thinking frame ethical being in the world. Comprising Humanities-based coursework, students gain important foundations in personal and community values by pursuing a concentration in one of three interdisciplinary pathways:

Story-telling and Meaning: comprised of Humanities electives focused on how humans make ethical decisions and meaning in life through literature, philosophy, history, and religion.

Picturing Humanity: comprising Humanities courses emphasizing the aesthetic role of art, history, film, and visual studies in the constitution of diverse cultural and social perspectives.

Theorizing Humanity: comprised of coursework focusing on the public role of social theory, philosophy, ethnic studies, and social justice in the formation of culture and society

Student Learning Goals

A Humanities Minor offers valuable skills demanded by today's competitive global market. Students who study Humanities have strong writing and communication skills that make them successful in a wide range of careers, like teaching, non-profits leadership, advertising, law, and medicine. Humanities Minor pathways tailor coursework within humanistic traditions and ideas that offer meaningful exploration of issues in contemporary life and society. Students learn analytic thinking and reasoning demanded by careers, like law, technology, marketing, and politics. Humanities study provides knowledge that transcends the limitations of individual disciplinary majors and minors. Pathways within the interdisciplinary Humanities Minor offer students the opportunity to bring together content and themes from diverse, but related disciplines within the framework of humanistic inquiry and critical analysis. Students pursue course work in disciplines, such as Art History, Ethnic Studies, Film Theory, History, Literature, Philosophy, Religious Studies, Social Justice, and Women and Gender Studies

Click here (p. 595) to learn about the requirements for the Humanities Minor.

Programs

- Humanities Minor (p. 595)

Humanities (HUMN)

HUMN 1012 - The Humanistic Tradition: Modes of Expression (3 Credits)

Familiarizes students with humanistic modes of expression through the study of history, literature, philosophy, music, and the visual and dramatic arts. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HUMN 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall, Spring.

HUMN 4251 - Introduction to Legal Studies (3 Credits)

A survey of the United States legal system, including lawmaking powers, jurisdiction, court procedures, professional ethics and major principles of business law, contracts, estates and probate, family law, property and torts. Cross-listed with HUMN 5251/SSCI 4251/SSCI 5251. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HUMN 4325 - First Amendment: Theory and Context (3 Credits)

First Amendment jurisprudence including free speech/responsibility, sedition/seditious libel/dissent, prior restraints, time/place/manner restrictions, hate/intimidating speech, defamation, privacy/security tensions, intellectual property/public good, advertising, corporate speech, sexual expression, and public status of religion. Cross-listed with HUMN 5325, SSCI 4325, SSCI 5325, PSCI 4325 and PSCI 5325. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HUMN 4660 - Visual Arts: Its Past, Present, and Interpretations (3 Credits)

Provides graduate-level interdisciplinary study in the historiography, methodologies, and theories used to understand how visual arts, including painting, sculpture, photography, film and performance art influence the making of culture. Students gain critical skills for analyzing a variety of visual and aesthetic products of culture. Cross-listed with HUMN 5660, IDST 4660, IDST 5660. Max hours: 3 Credits.

Grading Basis: Letter Grade

HUMN 4720 - Sex, Gender, and Visual Representation (3 Credits)

Studies sexuality, gender and identity representation from classical antiquity through the present in the visual arts. Uses the literature of visibility, feminism, race and queer theory. Explores representations of femininity, masculinity and androgyny and their reinforcement and challenge to gender-identity norms. Cross-listed with HUMN 5720, IDST 4720, IDST 5720, WGST 4720, WGST 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HUMN 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with HUMN 5770, IDST 4770, IDST 5770, SSCI 4770, SSCI 5770, WGST 5770, WGST 4770, SJUS 4770, SJUS 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HUMN 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

HUMN 4984 - Topics: Interdisciplinary Humanities (1-3 Credits)

Concerned with specialized aspects of the humanities from various theoretical and research perspectives. These courses are interdisciplinary and serve as a forum for discussion of individual projects and theses.

Term offered: fall, spring. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

Humanities Minor

Introduction

Please click here (p. 593) to see Humanities program information.

The Humanities Minor cultivates humanistic exploration through historically grounded texts and traditions. It teaches critical engagement with society's most pressing issues by developing a human-oriented perspective in which creativity and critical, theoretical thinking frame ethical being in the world.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.
- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 credit hours from approved coursework.
2. Students must complete a minimum of six upper-division (3000-level and above) credit hours from approved coursework.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of 12 credit hours of approved courses with CU Denver faculty.

Program Allowances and Restrictions

1. Coursework must be approved by a Humanities Minor advisor.
2. Of the four elective courses, at least one course must be taken at 3000-level and at least one must be at the 4000-level.
3. If a student wants to deviate from these lists, they must have advisor approval prior to completing the substitute coursework.

Code	Title	Hours
<i>Complete the following introductory course</i>		3
HUMN 1012	The Humanistic Tradition: Modes of Expression ¹	
<i>Complete 12 elective credit hours in Humanities and Humanities-related disciplines. Choose coursework from any of these interdisciplinary pathways:</i>		12
<i>A minimum of one elective course must be taken at 3000-level and a minimum of one must be at the 4000-level.</i>		

Picturing Humanity (p. 595)

Story-telling and Meaning (p. 595)

Theorizing Humanity (p. 596)

Total Hours 15

¹ Students may opt to complete or transfer in a comparable HUMN 1000- or 2000-level course with prior advisor approval.

Individually Designed Major

Director: Associate Dean Marjorie Levine-Clark

Faculty advisor: Brandon Mills

Overview

The Individually Designed Major (IDM) allows students to be creative with their educational experiences by going beyond the boundaries of traditional disciplines. Students can choose from two different options that best suit their needs. The Interdisciplinary Studies Option allows students to combine coursework from two, three, or even more academic units to explore a particular theme. Students who pursue Interdisciplinary Studies tend to have a focused interest they seek to investigate. The Integrated Health Studies Option is designed for students who are interested in health from the perspective of the liberal arts and sciences and who seek interdisciplinary training focused around particular health topics. The IDM provides students with the opportunity to explore their academic interests with intention and imagination.

Honors

Liberal arts students interested in graduating with Latin honors in the Individually Designed Major program should confirm with their CLAS advisor and IDM Faculty Advisor that they meet eligibility requirements. Students who successfully complete the IDM honors program will have the appropriate Latin honor designation placed on the University of Colorado diploma and transcript.

- To participate in the IDM honors program, CLAS students must meet each of the following eligibility requirements:
 - have a declared IDM major with an approved option and course contract
 - possess a minimum 3.2 cumulative University of Colorado GPA
 - possess a minimum 3.5 GPA on all completed University of Colorado course work in the IDM contract
- Eligible IDM students must complete submit their capstone research project to the IDM Faculty Advisor. The level of Latin honors awarded is determined by the IDM Faculty in consultation with other relevant faculty. Upon submission of the written research project report to the honors committee, the level of Latin honors will be determined by the following criteria:
 - cum laude-awarded upon completion of project report
 - magna cum laude-awarded by honors committee based on successful project report
 - summa cum laude-awarded by honors committee based on excellence in project report

Interdisciplinary Studies Option Course Contracts:

In order to declare the Interdisciplinary Studies Option, students are required to submit a course contract. Interdisciplinary Studies students must also submit a proposal form which describes the major they propose to design. Copies of completed Interdisciplinary Studies course contracts must be filed with the Individually Designed Major Faculty Advisor and with your CLAS Academic Advisor.

- The Interdisciplinary Studies course contract must include:
 - A list of the courses in your chosen clusters as well as potential alternate courses. You should work closely with the Individually

Designed Major Faculty Advisor and faculty advisors in your chosen clusters to create your course contract.

- Signatures from your Individually Designed Major Faculty Advisor, from any Faculty Advisors from minors used in your contract, and from your CLAS Academic Advisor.
- The Interdisciplinary Studies proposal form must include:
 - a name for the theme of your major.
 - a 400-word description of the major you propose to construct.
 - a description of the major theme which explains the disciplinary or interdisciplinary clusters you will be including in your course of study, how they relate to each other, and how they form a coherent body of knowledge.
 - approval from your Individually Designed Major Faculty Advisor.
- **Integrated Health Studies does not require a proposal form or course contract.**

Individually Designed Major (IDMA)

IDMA 1500 - Introduction to Interdisciplinary Learning (3 Credits)

This course introduces the theories, methodologies, and practices of interdisciplinary studies through a specific theme that will focus on how to learn in an online environment and how interdisciplinary scholars combine the theories and methods of a variety of fields. Students who have earned credit for ISMA 1500 will not earn credit for IDMA 1500. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

IDMA 2840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Students who have earned credit for ISMA 2840 will not earn credit for IDMA 2840. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

IDMA 3000 - Special Topics (1-3 Credits)

Special classes for faculty-directed experiences examining issues and problems not generally covered in the curriculum. Students who have earned credit for ISMA 3000 will not earn credit for IDMA 3000. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

IDMA 3100 - Learning Across Disciplines (3 Credits)

Examining a compelling issue, students will learn what kinds of questions require thinking beyond a single discipline, how interdisciplinary scholars combine a variety of fields, and how to approach the challenges of interdisciplinary writing. Students who have earned credit for ISMA 3100 will not earn credit for IDMA 3100. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

IDMA 3500 - Interdisciplinary Experiential Learning (3 Credits)

In this course, students will use the knowledge from their chosen clusters to bear on an experiential opportunity. Choosing an internship, community-based project, or job extension, students will collaborate with peers to design projects in this highly student-driven course. Prereq: IDMA 1500 with a C- or higher. Students who have earned credit for ISMA 3500 will not earn credit for IDMA 3500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: IDMA 1500 with a C- or higher

IDMA 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Students who have earned credit for ISMA 3840 will not earn credit for IDMA 3840. Term offered: fall, spring, summer. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

IDMA 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Students who have earned credit for ISMA 3939 will not earn credit for IDMA 3939. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

IDMA 4500 - Interdisciplinary Learning Capstone (3 Credits)

This course brings together students who have been working on individualized majors to share a capstone experience. The goal is for students to integrate knowledge from their cluster and apply it to a project relevant to their field of interest. Prereq: IDMA 3500 with a C- or higher. Students who have earned credit for ISMA 4500 will not earn credit for IDMA 4500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: IDMA 3500 with a C- or higher.

IDMA 4840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Students who have earned credit for ISMA 4840 will not earn credit for IDMA 4840. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

IDMA 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Students who have earned credit for ISMA 4880 will not earn credit for IDMA 4880. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

IDMA 4900 - Interdisciplinary Studies Capstone (3 Credits)

Students will be guided through the research process as they complete interdisciplinary capstone projects. They will receive feedback during each stage of the project's development and consultation from discipline specific faculty advisors. Prereq: COMM 2500 or HEHM 3100 or IDMA 3100 or PBHL 2001 or SOCY 3440 with a C- or higher. Students who have earned credit for ISMA 4900 will not earn credit for IDMA 4900. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 2500 or HEHM 3100 or IDMA 3100 or PBHL 2001 or SOCY 3440 with a C- or higher.

Integrated Health Studies Option, BA - Individually Designed Major

Introduction

Please click here (p. 597) to see Individually Designed Major department information.

The College of Liberal Arts and Sciences (CLAS) Integrated Health Studies Option provides students with the opportunity to design an individualized major that meets their unique needs, and which results in a B.A.

Integrated Health Studies is designed for students who are interested in health from the perspective of the liberal arts and sciences and who seek interdisciplinary training focused around particular health topics. An interdisciplinary approach to health through the liberal arts and sciences seeks to create broadly-educated citizens who can apply critical thinking, information literacy, analysis, and independent problem solving to a wide variety of situations. Students can choose from a selection of health-focused minors and certificates that they combine with interdisciplinary clusters, which permits deeper understanding of a focused health topic. The track supports students seeking positions in:

- Health education
- Health administration
- Community health
- Non-profit health organizations
- Environmental health
- Community organizing
- Social work
- Occupational health
- Health policy
- Gerontology
- And more

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individually designed requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

The IDM program plan must comply with the following policies:

1. Students must complete a minimum of 39 credit hours from the approved courses.
2. Students must complete a minimum of nine upper-division (3000-level and above) credit hours in the approved cluster area and must complete all of the upper-division requirements for the minor or certificate they choose to pair with the cluster.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 15 credit hours with CU Denver faculty from the approved cluster area and must complete all of the residency requirements for the minor or certificate they choose to pair with the cluster.

Program Restrictions, Allowances and Recommendations

1. Students combine **one** of the identified CLAS minors or certificates with **one** of the topical clusters to make up their **major areas**. Students will earn the minor/ certificate they use to form a cluster for their major, as long as they have completed all of the requirements for that program.
2. Students can double-count a maximum of one course across their areas (in addition to an introductory course).
3. Students must take courses from at least **two** different disciplines in their topical cluster.
4. Students are required to take **two** courses as an introduction to their major. If an introductory course is also part of a student's topical cluster, a student may count one introductory course as part of that area's credits.
5. **Note:** Some courses in each cluster require prerequisites that must be met making them a 21 credit cluster. Please see course descriptions.

Code	Title	Hours
Complete the following program requirements:		39
<i>Complete two of the following courses:</i> ¹		6
COMM 2500	Introduction to Health Communication	
HEHM 3100	Foundations of Health Humanities	
PBHL 2001	Introduction to Public Health	
SOCY 3440	Medical Sociology	
<i>Complete one approved CLAS minor or certificate:</i>		15
Public Health Minor (p. 600)		
Health Humanities Minor (p. 600)		
Health Communication Undergraduate Certificate (p. 600)		
Community Health and Medicine Undergraduate Certificate (p. 600)		
<i>Complete a minimum of 15 credit hours, with nine at the upper division level, in at least one approved topical cluster:</i>		15

Aging and End of Life Cluster (p. 600)

Biology and Society Cluster (p. 600)

Environmental Health Cluster (p. 600)

Drugs and Addiction Cluster (p. 601)

Family Health Issues Cluster (p. 601)

Food and Nutrition Cluster (p. 601)

Sexuality and Reproduction Cluster (p. 601)

*Complete the Interdisciplinary Studies Capstone Course.*² 3

IDMA 4900 Interdisciplinary Studies Capstone

¹ If an introductory course is also part of a student's chosen area, a student may count one introductory course as part of that area's credits.

² Taken toward the end of your career (junior/senior year.)

Public Health Minor (p. 560)

The undergraduate minor in Public Health is designed to provide students with a basic understanding of the social, cultural, and biological dimensions of health. The minor curriculum provides students with the intellectual and methodological tools needed to understand the joint bio-cultural determinants and contexts of health, health care and public health.

Health Humanities Minor (p. 564)

The Health Humanities minor critically analyzes historical and contemporary connections among health, medicine, and society. The minor deepens understandings of disease and wellness, pain and suffering, personhood, the nature of death and dying, embodied experience, and the limits of technological knowledge. Students explore the human dimensions of medical practice and how they interact with lived experience.

Health Communication Undergraduate Certificate (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/communication/health-communication-certificate/>)

The Health Communication Undergraduate Certificate seeks to impart the knowledge and skills necessary for creating, analyzing, and assessing health communications in a diverse and global world, where health occupies an increasingly prominent portion of our public life. This certificate provides students with a theoretically rich and practically relevant education in how health messages are generated, negotiated, and understood.

Community Health and Medicine Undergraduate Certificate (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/sociology/sociology-health-medicine-certificate/>)

The Community Health and Medicine Undergraduate Certificate provides training in the core research methodologies and theories of medical sociology, examining individual experience, institutional structures, laws and policies that affect health, and broader systems of inequality that lead to unequal rates of illness and access to care.

Aging and End of Life Cluster

The Aging and End of Life Cluster is designed for students to learn about the range of human experiences with aging and dying, and to understand how the medical considerations of aging and the end of life intersect with social, ethical, policy, and religious questions.

Code	Title	Hours
ANTH 3666	Anthropology of Death	
HDFR 4300	Families in Later Life	
IWKS 4520	Design for Healthful Human Longevity	
PBHL 3091	Live Long and Prosper: Public Health & Aging	
PHIL 3550	Philosophy of Death and Dying	
PSYC 2205	Lifespan Developmental Psychology for Health Majors	
PSYC 3822	Aging, Brain and Behavior	
RLST 4460	Death and Concepts of Afterlife	
SOCY 3570	Death & Dying: Social & Medical Perspectives	
SOCY 4290	Aging, Society and Social Policy	
SOCY 4650	Sociology of Adulthood and Aging	

Biology and Society Cluster

This area examines the ways biology interacts with everyday life. Students will learn about the reciprocal relationships between biology and society, including themes of health and disease, the environment, evolution, ethics, and behavioral choices about health.

Code	Title	Hours
ANTH 4600	Medical Anthropology	
BIOL 3104	Behavioral Genetics	
PHIL 4242	Medicine, Health Care, and Justice: Bioethics	
PSYC 2220	Biological Basis of Behavior	
PSYC 3262	Health Psychology	
PSYC 3263	Hormones and Behavior	
PSYC 3724	Developmental Neuroscience	
PSYC 3810	Neuropsychology	
SOCY 4220	Population Change and Analysis	

Note: If students choose multiple upper division PSYC courses, they will need to add the introductory prerequisites, for a total for 21 credits for the cluster.

Environmental Health Cluster

This area focuses on the relationships between people and their environments. Students will learn about how both natural and built environments impact human health and disease, and how ecological balances are important to maintaining human health.

Code	Title	Hours
ANTH 3316	History of Human Environmental Impacts	
BIOL 3650 & BIOL 3651	General Microbiology and General Microbiology Lab	
BIOL 4053	Infectious Disease Ecology	
BIOL 4154	Conservation Biology	
BIOL 4415	Applied Microbial Ecology	
BIOL 4460	Environmental Toxicology	
ENVS 1342	Environment, Society and Sustainability	
ENVS 4720	Climate Change: Causes, Impacts and Solutions	

GEOG 3401	Geography of Food and Agriculture
GEOG 3501	Geography of Health
GEOG 4020	Earth Environments and Human Impacts
GEOG 4350	Environment and Society in the American Past
GEOG 4710	Disasters, Climate Change, and Health
PBHL 3020	Introduction to Environmental Health

Note: If students choose multiple upper division BIOL courses, they will need to add the introductory prerequisites, for a total for 21 credits for the cluster.

Drugs and Addiction Cluster

This area considers the characteristics of addiction and how drugs work. Students will have the opportunity to study drugs and addiction from a variety of perspectives to better understand how individuals experience addiction and how society approaches policies and treatments regarding drugs and addiction.

Code	Title	Hours
ANTH 3045	Cannabis Culture	
ANTH/PBHL 4090	Psychedelic Anthropology	
ECON 3400	Economics of Sex and Drugs	
PSYC 3265	Drugs, Brain and Behavior	
SOCY 3040	Drugs, Alcohol & Society	

Family Health Issues Cluster

This area explores families as locations of health and well-being, on the one hand, and sources of health problems and crises, on the other. Students will learn about the relationships between family health and community health, as well as individual health and family health.

Code	Title	Hours
COMM 3275	Family Communication	
HDFR 3400	Love, Couples and Family	
PBHL 3051	Mental Illness and Society	
PBHL 4110	Public Health Perspectives On Family Violence	
PSYC 3405	Family Psychology	
PSYC 3611	Psychology of Women	
SOCY 3010	Sociology of Human Sexuality	
SOCY 3700	Families and Society	
SOCY 4270	Social Meanings of Reproduction	
SOCY 4290	Aging, Society and Social Policy	
SOCY 4640	Sociology of Childhood and Adolescence	
SOCY 4650	Sociology of Adulthood and Aging	
SOCY 4780	Violence in Relationships	

Note: If students choose multiple PSYC courses, they will need to add the introductory prerequisites, for a total for 21 credits for the cluster.

Food and Nutrition Cluster

This area considers relationships between nutrition and overall health and well-being. Students will connect food to issues of sustainability and communication, understand obstacles to healthy eating, and learn about global issues of nutrition.

Code	Title	Hours
CHEM 2300	Nutritional Chemistry	
COMM 4601	You Are What You Eat: Food as Communication	
GEOG 3401	Geography of Food and Agriculture	
GEOG 4460	Sustainable Urban Agriculture Field Study I	
GEOG 4470	Sustainable Urban Agriculture Field Study II	
LDFS 4000	Food Justice in City & Schools	

Sexuality and Reproduction Cluster

This area examines sexuality and reproduction at both micro and macro levels, from the anatomy of the human body and the psychology of mind to the history of multiple societies and clusters. Students will learn how assumptions about gender and sex inform the science of sexuality and reproduction, and health impacts that derive from these relationships.

Code	Title	Hours
ANTH 4260	Human Reproductive Ecology	
BIOL 3074	Human Reproductive Biology	
HIST 4307	History of Sexuality

Interdisciplinary Studies, BA - Individually Designed Major

Introduction

Please click here (p. 597) to see Individually Designed Major department information.

The College of Liberal Arts and Sciences Interdisciplinary Studies Option provides students with the opportunity to design an individualized major that meets their unique needs and interests, and which results in a B.A. This flexible program allows students to follow academic pursuits that transcend traditional department or college boundaries, combining coursework from two, three, or even more academic units to explore a particular theme. Interdisciplinary Studies tends to be more focused than traditional majors and should not be considered a default major for students uncertain about their course of study.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- In order to declare the Interdisciplinary Studies Option, students are required to submit a course contract. Interdisciplinary Studies students must also submit a proposal form which describes the major they propose to design. Copies of completed Interdisciplinary Studies course contracts must be filed with the Individually Designed Major Faculty Advisor and with your CLAS Academic Advisor.
 - The Interdisciplinary Studies course contract must include:
 - A list of the courses in your chosen clusters as well as potential alternate courses. You should work closely with the Individually Designed Major Faculty Advisor and faculty advisors in your chosen clusters to create your course contract.
 - Signatures from your Individually Designed Major Faculty Advisor, from any Faculty Advisors from minors used in your contract, and from your CLAS Academic Advisor.
 - The Interdisciplinary Studies proposal form must include:
 - a name for the theme of your major.
 - a 400-word description of the major you propose to construct.
 - a description of the major theme which explains the disciplinary or interdisciplinary clusters you will be including in your course of study, how they relate to each other, and how they form a coherent body of knowledge.
 - approval from your Individually Designed Major Faculty Advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Requirements (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

The Interdisciplinary Studies program plan requires course work over two or three disciplinary or interdisciplinary clusters. The Interdisciplinary Studies program plan must comply with the following policies:

1. Students must complete a minimum of 42 credits from approved coursework.
2. Students must complete a minimum of 18 upper division (3000 level and above) credit hours with a minimum of nine upper division level credit hours in Clusters I and II.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. A minimum of nine credits in Clusters I and II, in addition to IDMA 3100 Learning Across Disciplines and IDMA 4900 Interdisciplinary Studies Capstone (24 total credit hours) must be completed with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Once the Interdisciplinary Studies course contract is filed, any changes to coursework must be approved by the student's Individually Designed Major Faculty Advisor
2. A minimum of 30 credit hours must be completed in liberal arts and sciences course work.
3. A maximum of one disciplinary cluster may be outside CLAS.
4. One cluster can be based on a pre-formed thematic cluster with an already-approved group of classes provided by the major on the website.
5. A third optional cluster may be a mixture of course work, excluding courses from the first and second clusters.
6. An Interdisciplinary Studies title must be consistent with the academic theme and clusters in the program plan.
7. Students may petition the IDM Faculty Advisor to fulfill their introduction and capstone outside of IDMA 3100 Learning Across Disciplines and IDMA 4900 Interdisciplinary Studies Capstone .
8. The Interdisciplinary Studies proposal should be approved before students have taken one-third of the classes listed in their course contracts.

Roles and Responsibilities

Student

- Creates the Interdisciplinary Studies course contract and proposals in collaboration with the Individually Designed Major Faculty Advisor
- Meets regularly with IDM Faculty Advisor to assess progress
- Fulfills requirements of Interdisciplinary Studies course contract

IDM Faculty advisor

- Approves Interdisciplinary Studies course contract
- Approves student proposals for Interdisciplinary Studies

- Meets with Interdisciplinary Studies advisees to monitor progress
- Maintains records of Interdisciplinary Studies applications
- Oversees advisees' capstone projects
- Certifies graduation

CLAS Academic Advisor

- Reviews overall course contract
- Maintains records of Interdisciplinary Studies contracts

Code	Title	Hours
Complete the following program requirements:		42
<i>Complete the following required courses:</i>		6
IDMA 3100	Learning Across Disciplines ¹	
IDMA 4900	Interdisciplinary Studies Capstone ²	
<i>Complete a minimum of 15 credit hours in each of two approved interdisciplinary clusters. At least one cluster must be within a single discipline. The second cluster can be drawn from the following approved interdisciplinary thematic clusters.</i>		36
Aging and End of Life Cluster (p. 603)		
Art and Visual Culture Cluster (p. 603)		
Biology and Society Cluster (p. 604)		
Cities, Spaces, and Society Cluster (p. 604)		
Drugs and Addiction Cluster (p. 604)

Integrated Studies

Director: Associate Dean Marjorie Levine-Clark

Faculty advisor: Brandon Mills

Overview

The Integrated Studies major allows students to be creative with their educational experiences by going beyond the boundaries of traditional disciplines and awarding a BA or a BS, depending on the the courses that students take.

With this major, students will gain the foundation of a liberal arts education that includes critical thinking, effective communication, cultural diversity, data analysis, quantitative and digital literacy, integration of information and ideas across different contexts, and problem solving. They also will learn to tackle complex issues from several perspectives.

For example, a student may create a cluster focused on climate change by selecting courses from environmental science, economics, statistics, and history and then pair the cluster with a minor in Geography for the B.A. The B.S. would require the student to substitute a minor in Statistics or Computer Science for the minor in Geography. Another example for either the B.A. or B.S. would be data analysis as it pertains to a specific discipline. The capstone project will cement their skills in recognizing a problem, formulating a holistic methodology to address the fundamental issues, and devising solutions from multiple approaches.

Having students design their degrees will leverage their knowledge, inspire confidence and resilience, empower their decisions, and generate deeper participation in their learning processes. As stated above, the goal is to provide maximum flexibility and multiple pathways through the curriculum tailored to each individual such that, when they return to school, they can switch gears if necessary, re-engage, and complete their degrees.

Honors

Liberal arts students interested in graduating with Latin honors in the Integrated Studies Major program should confirm with their CLAS advisor and Integrated Studies Faculty Advisor that they meet eligibility requirements. Students who successfully complete the \ honors program will have the appropriate Latin honor designation placed on the University of Colorado diploma and transcript.

To participate in the honors program, CLAS students must meet each of the following eligibility requirements:

- have a declared Integrated Studies major
- possess a minimum 3.2 cumulative University of Colorado GPA
- possess a minimum 3.5 GPA on all completed University of Colorado coursework that applies to the major requirements

Eligible students must complete submit their capstone research project to the Integrated Studies Faculty Advisor. The level of Latin honors awarded is determined by the Integrated Studies Faculty Advisor in consultation with other relevant faculty. Upon submission of the written research project report to the honors committee, the level of Latin honors will be determined by the following criteria:

- cum laude-awarded upon completion of project report
- magna cum laude-awarded by honors committee based on successful project report

- summa cum laude-awarded by honors committee based on excellence in project report

 - Integrated Studies, BS (p. 613)

Integrated Studies, BA

Introduction

Please click here (p. 607) to see Integrated Studies Major information.

The Integrated Studies, BA provides students with maximum flexibility and multiple pathways through the curriculum, to complete a degree through the combination of two course clusters.

One cluster must be based on a CLAS minor or certificate in the CU Denver catalog. The cluster must be at least 15 credits, and students can add additional courses (up to 21 credits total in one discipline) to either meet this 15-credit minimum or fulfill the minor or certificate's requirements if they exceed 15 credits.

- The second cluster must also be at least 15 credits. This cluster is more flexible and can be constructed in one of three ways:
 - 1) it can be based on a minor or certificate in the catalog (within CLAS or another school or college)
 - 2) it can be constructed by the student using a group of courses from a variety of disciplines that form a coherent body of knowledge (an interdisciplinary cluster)
 - 3) it can be based on a pre-formed thematic cluster with an already-approved group of classes.
- Students also complete an introductory and capstone course bringing together the learning from their two clusters.

This degree is also designed to help students integrate previously completed coursework to design a novel major. It is especially helpful for students who have switched majors, colleges or institutions, and are looking for a meaningful way to complete their degree.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is both an on-campus and online program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- Students are required to submit a program plan that includes a course contract and a proposal, if they plan to use any constructed clusters. Copies of completed Integrated Studies course contracts must be filed with the Integrated Studies Faculty Advisor and with the student's CLAS Academic Advisor.
- The Integrated Studies course contract must include:
 - A list of the courses in your chosen clusters as well as potential alternate courses. You should work closely with the Integrated Studies Faculty Advisor and faculty advisors in your chosen clusters to create your course contract.

- Signatures from your Integrated Studies Faculty Advisor, from any faculty advisors from minors used in your contract, and from your CLAS Academic Advisor

- The Integrated Studies constructed cluster proposal form must include:
 - a title for the cluster.
 - a list of proposed courses (including alternates).
 - a one-paragraph explanation of how the cluster constitutes a coherent body of knowledge.
 - approval from your Faculty Advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

Students are responsible for meeting with the major/faculty advisor in the program to confirm major requirements. In addition to completing all CU Denver Core and CLAS requirements, students completing the Integrated Studies B.A. Degree are required to complete the following minimum program requirements:

1. Students must complete a minimum of 36 credits from approved coursework.
2. Students must complete a minimum of 18 upper division (3000 level and above) credit hours including a minimum of six upper division level credit hours in each cluster and six upper division hours in the required courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. A minimum of 18 credits in the major, including six credits in each course cluster, in addition to IDMA 3100 Learning Across Disciplines and IDMA 4900 Interdisciplinary Studies Capstone must be completed with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. At least half of all credits in the Integrated Studies option must be from CLAS departments.
2. Each course cluster in the major option must consist of at least 15 credit hours and one cluster must be based on a CLAS minor or certificate in the CU Denver catalog.
3. If students choose to use minors or certificates to form clusters for their major, they will earn those credentials in addition to the major, as long as they have completed all of the requirements for the minor or certificate and are certified by the designated faculty advisor.
4. Students can apply credits they earned before declaring the Integrated Studies major.
5. Students must submit a course contract which includes a list of all the courses they have already taken or intend to take for the major.

The Integrated Studies Faculty Advisor must approve the contract to confirm that it meets the requirements of any minors, certificates, or constructed clusters used for the major.

6. Once the Integrated Studies option course contract is filed, any changes to coursework must be resubmitted to the Integrated Studies Faculty Advisor for approval and then approved by the student's CLAS Academic Advisor.
7. Students may petition the Integrated Studies Faculty Advisor to fulfill their introduction and capstone outside of IDMA 3100 Learning Across Disciplines and IDMA 4900 Interdisciplinary Studies Capstone.

Roles and Responsibilities

Student

- Creates the Integrated Studies course contract and constructed cluster proposal in collaboration with the Integrated Studies Faculty Advisor
- Meets regularly with Integrated Studies Faculty Advisor to assess progress through their degree
- Fulfills requirements of Integrated Studies course contract

Integrated Studies Faculty Advisor

- Approves Integrated Studies course contract
- Approves student proposals for constructed clusters
- Meets with Integrated Studies advisees to monitor progress
- Maintains records of Integrated Studies applications
- Oversees advisees' capstone projects
- Certifies graduation

Other Faculty Advisors

- Approve minor and certificate requirements included within the course contract
- Helps with capstone projects when needed

CLAS Academic Advisor

- Reviews overall course contract
- Maintains records of Integrated Studies contracts

Integrated Studies, BS

Introduction

Please click here (p. 607) to see Integrated Studies Major information.

The Integrated Studies, BS provides students with maximum flexibility and multiple pathways through the curriculum, to complete a degree through the combination of two course clusters.

- One cluster must be based on a CLAS minor or certificate in the CU Denver catalog. The cluster must be at least 15 credits, and students can add additional courses (up to 21 credits total in one discipline) to either meet this 15-credit minimum or fulfill the minor or certificate's requirements if they exceed 15 credits.
- The second cluster must also be at least 15 credits. This cluster is more flexible and can be constructed in one of three ways:
 - 1) it can be based on a minor or certificate in the catalog (within CLAS or another school or college)
 - 2) it can be constructed by the student using a group of courses from a variety of disciplines that form a coherent body of knowledge (an interdisciplinary cluster)
 - 3) it can be based on a pre-formed thematic cluster with an already-approved group of classes.
- One of the two clusters must be composed of courses from Biology, Chemistry, Physics, Environmental Sciences, Mathematics, Statistics, Computer Science, Economics or Engineering. The cluster may be a minor or certificate in one of the areas mentioned previously. An additional six credits outside the clusters must also be in one of the above-defined areas.
- Students also complete an introductory and capstone course bringing together the learning from their two clusters. The required courses will give students the skills they need to describe the purpose, relevance, rigor, and innovation of their degree to potential employers.

This degree is also designed to help students integrate previously completed coursework to design a novel major. It is especially helpful for students who have switched majors, colleges or institutions, and are looking for a meaningful way to complete their degree.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is both an on-campus and online program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- Students are required to submit a program plan that includes a course contract and a proposal, if they plan to use any constructed clusters. Copies of completed Integrated Studies course contracts

must be filed with the Integrated Studies Faculty Advisor and with the student's CLAS Academic Advisor.

- The Integrated Studies course contract must include:
 - A list of the courses in your chosen clusters as well as potential alternate courses. You should work closely with the Integrated Studies Faculty Advisor and faculty advisors in your chosen clusters to create your course contract.
 - Signatures from your Integrated Studies Faculty Advisor, from any faculty advisors from minors used in your contract, and from your CLAS Academic Advisor.
- The Integrated Studies constructed cluster proposal form must include:
 - a title for the cluster.
 - a list of proposed courses (including alternates).
 - a one-paragraph explanation of how the cluster constitutes a coherent body of knowledge.
 - approval from your Faculty Advisor.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

Students are responsible for meeting with the major/faculty advisor in the program to confirm major requirements. In addition to completing all CU Denver Core and CLAS requirements, students completing the Integrated Studies, B.S. Degree are required to complete the following minimum program requirements:

1. Students must complete a minimum of 36 credits from approved coursework.
2. Students must complete a minimum of 18 upper division (3000 level and above) credit hours including a minimum of six upper division level credit hours in each cluster and six upper division hours in the required courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. A minimum of 18 credits in the major, including six credits in each course cluster, in addition to IDMA 3100 Learning Across Disciplines and IDMA 4900 Interdisciplinary Studies Capstone, must be completed with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. At least half of all credits in the Integrated Studies, BS must be from CLAS departments.
2. Each course cluster in the major option must consist of at least 15 credit hours and one cluster must be based on a CLAS minor or

certificate in the CU Denver catalog from Biology, Chemistry, Physics, Environmental Sciences, Mathematics, Statistics, or Economics.

3. If students choose to use minors or certificates to form clusters for their major, they will earn those credentials in addition to the major, as long as they have completed all of the requirements for the minor or certificate and are certified by the designated faculty advisor.
4. Students can apply credits they earned before declaring the Integrated Studies major.
5. Students must submit a course contract which includes a list of all the courses they have already taken or intend to take for the major. The Integrated Studies Faculty Advisor must approve the contract to confirm that it meets the requirements of any minors, certificates, or constructed clusters used for the major.
6. Once the Integrated Studies option course contract is filed, any changes to coursework must be resubmitted to the Integrated Studies Faculty Advisor for approval and then approved by the student's CLAS Academic Advisor.
7. Students may petition the Integrated Studies Faculty Advisor to fulfill their introduction and capstone outside of IDMA 3100 Learning Across Disciplines and IDMA 4900 Interdisciplinary Studies Capstone.

Complete a minimum of 15 credit hours from a second science-based CU Denver minor or certificate, by taking nine credits from one of the following approved Thematic Clusters and a minimum of six credits from Biology, Chemistry, Physics, Environmental Sciences, Mathematics, Statistics, Computer Science, Economics or Engineering, or by designing your own cluster, composed of a minimum of six credits from Biology, Chemistry, Physics, Environmental Sciences, Mathematics, Statistics, Computer Science, Economics or Engineering.⁵

Aging and End of Life Cluster (p. 614)

Art and Visual Culture Cluster (p. 615)

Biology and Society Cluster (p. 615)

Cities, Spaces, and Society Cluster (p. 615)

Drugs and Addiction Cluster (p. 616)

Food and Nutrition Cluster (p. 616)

Media Cluster (p. 616)

Organizations and Leadership Cluster (p. 616)

Policy and Security Cluster (p. 616)

Sexuality Cluster (p. 617)

Violence and Conflict Cluster (p. 617)

Roles and Responsibilities

Student

- Creates the Integrated Studies course contract and constructed cluster proposal in collaboration with the Integrated Studies Faculty Advisor
- Meets regularly with Integrated Studies Faculty Advisor to assess progress through their degree
- Fulfills requirements of Integrated Studies course contract

Integrated Studies Faculty Advisor

- Approves Integrated Studies course contract
- Approves student proposals for constructed clusters
- Meets with Integrated Studies advisees to monitor progress
- Maintains records of Integrated Studies applications
- Oversees advisees' capstone projects
- Certifies graduation

Other Faculty Advisors

- Approve minor and certificate requirements included within the course contract
- Helps with capstone projects when needed

CLAS Academic Advisor

- Reviews overall course contract
- Maintains records of Integrated Studies contracts

Code	Title	Hours
Complete the following program requirements:		36
<i>Complete the following required courses:</i>		<i>6</i>
IDMA 3100	Learning Across Disciplines ¹	
IDMA 4900	Interdisciplinary Studies Capstone ²	
<i>Complete two course clusters:</i> ³		<i>30</i>
Complete a minimum of 15 credit hours from a science-based CLAS minor or certificate ⁴		

¹ Should be taken early in the academic career (i.e. sophomore year.)

² Should be taken toward then end of the academic career (i.e. senior year.)

³ Each cluster must consist of at least 15 credit hours. Students can add additional courses (up to 21 credits total in one discipline) to either meet this 15 credit minimum or fulfill the minor or certificate's requirements if they exceed 15 credits. Students should consult regularly with their Integrated Studies Faculty Advisor to learn about new minors and certificates that may apply.

⁴ Approved CLAS science-based minors and certificates: Applied Statistics Undergraduate Certificate (p. 705), Astrophysics Minor (p. 781), Biochemistry Minor (p. 413), Biology Minor (p. 645), Biochemistry Minor (p. 413), Biophysics Minor (p. 783), Biotechnology Undergraduate Certificate (p. 647), Chemistry Minor (p. 415), Data Sciences Minor (p. 702), Data Science Undergraduate Certificate (p. 707), Economics Minor (p. 457), Environmental Sciences Minor (p. 535), Health and Development Economics Undergraduate Certificate (p. 458), Mathematics Minor (p. 704), Physics Minor (p. 785).

⁵ Approved CU Denver minors and certificates from other schools and colleges: Computer Science minor (p. 347), Cybersecurity and Secure Computing certificate (p. 350), Computer Engineering minor (p. 360), Electrical Engineering minor (p. 361).

Integrative Biology

Chair: Michael J. Greene

Program Assistants: Barbara Schmidt, Barbara McClure

Administrative Assistant: Jacki Craig

Undergraduate BS Program Director: Kimberly F. Regier

Graduate Program Director: Michael Wunder

Lab Coordinator: James Salmen, Munira Lantz, Kristen Baird, Sladjana Subotic

Office: Science, 2071

Telephone: 303-315-7600

Fax: 303-315-7601

Overview

Integrative Biology is the study of living organisms at different levels of organization, from molecular biology to biosphere ecology. Our undergraduate curriculum is designed to offer a firm foundation for understanding life processes, and a variety of biology electives to accommodate individual interests. Our courses prepare students to enter a wide variety of biological careers including health care, ecology, and bioengineering. Our graduates have the tools needed to think critically and to make informed decisions as citizens sharing the responsibility to take care of society and of Earth.

Departmental Honors

Departmental honors is only eligible for students who take classes for letter grades, with associated GPA values. Departmental honors is awarded to students based on their GPA in CU classes. The following minimum GPA must be met both for all overall CU GPA and for biology courses alone (biology GPA) to receive the following honors levels: *cum laude*, 3.500; *magna cum laude*, 3.700; *summa cum laude*, 3.900.

Biology Research Scholars

The biology faculty encourages students to pursue research as part of their undergraduate education. Students who excel in both course work and research will be recognized as CU Denver Biology Research Scholars or Research Associates.

To qualify for the **Research Scholars Program**, you must:

- achieve a minimum grade point average of 3.500 in all courses taken from CU Denver faculty, as well as in all CU Denver biology courses
- participate in a research project, consisting of a minimum of six credit hours of independent study (BIOL 2840 Independent Study, BIOL 3840 Independent Study, or BIOL 4840 Independent Study), taken over at least two semesters
- write a scientific paper describing the research
- present an oral or poster presentation summarizing your research

To qualify for the **Research Associates Program**, you must:

- achieve a minimum grade point average of 2.500 in all courses taken from CU Denver faculty, as well as in all CU Denver biology courses
- participate in a research project, consisting of a minimum of three credit hours of independent study (BIOL 2840 Independent Study, BIOL 3840 Independent Study, BIOL 4840 Independent Study or BIOL 4880 Directed Research), taken over at least two semesters
- write a scientific paper describing the research or present an oral or poster presentation summarizing your research

Students who wish to become involved in research should contact Dr. Christopher Phiel no later than their junior year, and preferably sooner.

Graduate Information

Please go to the **Graduate** (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/integrative-biology/>) catalog to read about our graduate programs.

Programs

- Biology - Biotechnology Track, BS (p. 630)
- Biology - Human Biology Track, BS (p. 633)
- Biology - Integrative Biology Track, BS (p. 636)
- Biology - Microbiology Track, BS (p. 638)
- Biology - Organisms and Ecosystems Track, BS (p. 641)
- Biology Minor (p. 645)
- Biotechnology Undergraduate Certificate (p. 647)
- Environmental Stewardship of Indigenous Lands Undergraduate Certificate (p. 649)

Faculty

Professors:

Michael J. Greene, PhD, Oregon State University

John G. Swallow, PhD, University of Wisconsin Madison

Diana F. Tomback, PhD, University of California, Santa Barbara

Associate Professors:

Laurel Hartley, PhD, Colorado State University

Christopher S. Miller, PhD, University of California Los Angeles

Annika Mosier, PhD, Stanford University

Christopher J. Phiel, PhD, Thomas Jefferson University

Gregory Ragland, PhD, University of North Carolina Chapel Hill

Timberley M. Roane, PhD, University of Arizona

Alan Vajda, PhD, University of Colorado Boulder

Michael Wunder, PhD, Colorado State University

Assistant Professors:

Sara Branco, PhD, University of Chicago

Carlos Infante, PhD, Harvard University

Michael Moore, PhD, Case Western Reserve University

Senior Instructors:

Hannah Anchordoquy, PhD, University of Colorado Boulder

Laurel Beck, PhD, Michigan State University

Gene Brooks, DDS, University of Missouri

Erin Kelso, PhD, Indiana University

David Knochel, PhD, University of Colorado Boulder

Paul Le, PhD, University of Colorado Denver

Lisa Johansen, PhD, University of Alabama

Molly Nepokroeff, PhD, University of Wisconsin Madison

Kimberly F. Regier, EdD, University of Colorado Denver

Research Associate Professor:

Brian Buma, PhD, University of Colorado Boulder

Emeritus Faculty:

Gerald Audesirk, PhD, California Institute of Technology

Teresa E. Audesirk, PhD, University of Southern California

Leo P. Bruederle, PhD, Rutgers, the State University of New Jersey

Amanda Charlesworth, PhD, University College, London
Linda K. Dixon, PhD, University of Illinois
John H. Freed, PhD, Stanford University
Charles A. Ferguson, PhD, University of Colorado Boulder
Cheri A. Jones, PhD, University of Florida
Bradley J. Stith, PhD, Washington State University

Biology (BIOL)

BIOL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

BIOL 1135 - Human Biology (3 Credits)

Topics include: basic human body chemistry, healthy internal body balance, new disease treatments, human inheritance and human beings as part of Earth's living systems. Note: For students who are not majoring in biology. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

BIOL 1137 - Human Biology Laboratory (1 Credit)

Lab activities will investigate the function of the human body while emphasizing the use of the scientific method. Intended for non-science majors. Students may not receive credit for this course if they have already received credit for BIOL2011(2081) or 2021(2071). No co-credit with BIOL 1560. Prereq or Coreq: BIOL 1135. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: BIOL 1135.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Spring.

BIOL 1400 - Biology for All (3 Credits)

The course will focus on how biology impacts our lives. Foundational concepts (DNA, evolution, and ecology) will be applied to current events. Note: For students who are not majoring in science. Students may not receive credit for this course if they have already received credit for BIOL 2010(2051) or BIOL 2020(2061). No co-credit with BIOL 1550. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

Typically Offered: Fall.

BIOL 1401 - Biology for All Laboratory (1 Credit)

Lab activities will investigate DNA, ecology and evolution while emphasizing the use of the scientific method. Intended for non-science majors. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. Students may not receive credit for this course if they have already received credit for BIOL2011(2081) or 2021(2071). No co-credit with BIOL 1550. Prereq or coreq: BIOL 1400. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq/Coreq: BIOL 1400.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall.

BIOL 1550 - Basic Biology: Ecology and the Diversity of Life (4 Credits)

Introduces the process of science, gene expression, biological diversity, evolution, and ecology. Highlights applications to contemporary issues.

Lecture and lab course. Note: For students who are not majoring in biology. Biology and health career majors should not take this course.

Students may not receive credit for this course if they have already received credit for BIOL 2010(2051) and BIOL 2020(2061). Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab;

GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 1560 - Basic Biology: From Cells to Organisms (4 Credits)

Introduces the process of science, cell structure and function, survey of representative human and plant systems, and genetics. Highlights applications to contemporary issues. Lecture and lab course. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. Students may not receive credit for this course if they have already received credit for BIOL 2010(2051) and BIOL 2020(2061). Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab;

GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2010 - Organisms to Ecosystems (Gen Bio) (3 Credits)

Introduces four major areas of study: (1) evolution,(2) animal structure and function, (3) plant structure and function and (4) ecology. Note: This class is intended for students planning to take upper division biology courses and for biology majors. Biology majors and pre-health career students must also take the accompanying laboratory BIOL 2011. No co-credit with BIOL 2030(2097) or BIOL 2061. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2011 - Organisms to Ecosystems Lab (Gen Bio) (1 Credit)

Investigations, observations, and experiments in evolution, bioinformatics, ecology, and animal behavior, anatomy, and physiology; requires off-campus field work. Note: This class is intended for students planning to take upper division biology courses and for biology majors. Students are strongly encouraged to take BIOL 2010 concurrently or before they take this course. No co-credit with BIOL 2031(2098) or BIOL 2081. Term offered: fall, spring, summer. Max hours: 1 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2020 - Molecules to Cells (Gen Bio) (3 Credits)

Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: This class is intended for students planning to take upper division biology courses and for biology majors. Biology majors and pre-health career students must also take the accompanying laboratory BIOL 2021. Prereq: BIOL 2010 (2061) or BIOL 2030 (2097) with a C- or higher. No co-credit with BIOL 2040(2095) or BIOL 2051. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (2061) or BIOL 2030 (2097) with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2021 - Molecules to Cells Lab (Gen Bio) (1 Credit)

Introduces the basic scientific approach through investigations, observations, and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: This class is intended for students planning to take upper division biology courses and for biology majors. Prereq: BIOL 2011 (2081) or BIOL 2031 (2098) with a C- or higher. No co-credit with BIOL 2041(2096) or BIOL 2071. Term offered: fall, spring, summer. Max hours: 1 Credit. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Prereq: BIOL 2011 (2081) or BIOL 2031 (2098) with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2030 - Honors Organisms to Ecosystems (Gen Bio) (3 Credits)

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. Introduces four major areas of study: evolution, animal structure/function, plant structure/function, and ecology. Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences. Instructor permission required. No co-credit with BIOL 2010(2061) or BIOL 2097. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences

Typically Offered: Fall.

BIOL 2031 - Honors Organisms to Ecosystems Lab (Gen Bio) (1 Credit)

Honors level course limited to students in the BA/BS/MD, Denver Bound and UHL programs. Advanced study of evolution, plant and animal anatomy, developmental biology and includes two off-campus ecology field trips. Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences. No co-credit with BIOL 2011(2081) or BIOL 2098. Term offered: fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences

Typically Offered: Fall.

BIOL 2040 - Honors Molecules to Cells (Gen Bio) (3 Credits)

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. Four major topics covered: the chemistry of biological systems, the structure/function of the cell, cellular energy transformations and genetics. Prereq: BIOL 2010 (2061) or BIOL 2030 (2097) with a C- or higher. Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01). Instructor permission required. No co-credit with BIOL 2020(2051) or BIOL 2095. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: BIOL 2010 (2061) or BIOL 2030 (2097) with a grade of C- or higher Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01)

Typically Offered: Spring.

BIOL 2041 - Honors Molecules to Cells Lab (Gen Bio) (1 Credit)

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biomedical techniques, genetics, molecular genetics and applications of biotechnology. Instructor permission required. Prereq: BIOL 2011(2081) or BIOL 2031 (2098) with a grade of C- or higher. Restriction: restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01). No co-credit with BIOL 2021(2071) or BIOL 2096. Term offered: spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prerequisite: BIOL 2011 (2081) or BIOL 2031 (2098) with a grade of C- or higher Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01)

Typically Offered: Spring.

BIOL 2750 - Introduction to Molecular Research Techniques (2 Credits)

Designed to give background knowledge and hands-on experience for a person wanting to work in a molecular-research laboratory. Introduction to basic molecular techniques including micropipetting, making media, DNA and RNA isolation, restriction digest, RT-PCR, and gel electrophoresis. Max hours: 2 Credits.

Grading Basis: Letter Grade

BIOL 2840 - Independent Study (1-3 Credits)

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Note: registration by special processing form only. Prereq: Students must have completed one year of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have completed 15 hours of BIOL courses with a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: 15 hours of BIOL courses with a 2.75 GPA in BIOL courses

Typically Offered: Fall, Spring, Summer.

BIOL 3010 - Biology Career and Professional Development Seminar (1 Credit)

Open to all science majors. This course develops a student's understanding of the breadth of biology careers, such as biotechnology, field research, and bench research. This course will also work to develop a student's resume and cover letter writing skills as well as interviewing and job searching skills. Guest speakers and UCD alumni from various biology fields and careers will share their insight. Meets weekly. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) and BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall.

BIOL 3020 - Practical Laboratory Skills (1 Credit)

Designed for Students who are interested in working in a professional biology laboratory. Covers improvement of manual dexterity skills, understanding common laboratory apparatus and handling biological macromolecules and living cells. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2081), CHEM 2038(or 2088), CHEM 2061(or 2091) and 2068(or 2098) with a C- or higher. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2032/2081), and CHEM 2038(or 2039/2088) with a C- or higher.

BIOL 3074 - Human Reproductive Biology (3 Credits)

Comprehensive study of anatomy and physiology of human reproduction. Embryogenesis of male and female reproductive systems and detailed analysis of contraception, world population growth, population control and implications of population growth are also covered. Note: Students will not receive credit for this class if they have already received credit for BIOL 4074. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3104 - Behavioral Genetics (3 Credits)

Interdisciplinary course on relationships between behavior and heredity, with emphasis on human behavioral genetics. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with PSYC 3104. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3124 - Introduction to Molecular Biology (3 Credits)

Provides an understanding of the structure and function of genetic material, with respect to the regulation of gene expression and protein synthesis. Emphasizes eukaryotic systems and understanding the significance of contemporary laboratory-based research. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall.

BIOL 3134 - Advanced Topics (1-8 Credits)

Periodic examination of current topics in the field of biology. (See Schedule Planner for current topics). Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3137 - Advanced Special Topics with Lab (1-15 Credits)

Periodic examination of current topics in the field of biology. (See Schedule Planner for current topics). Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) and BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) and BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3226 - Human Physiology (3 Credits)

Human physiology is the study of how systems within the human organism operate, interact and are regulated in order to maintain a state of homeostasis. Upon completion of the course, a student should expect to have mastery of content material related to organ systems, for example the nervous system, skeletal muscle system, and reproductive system. Also upon completion of the course, a student should expect to improve professional competencies including their ability to apply systems and scientific thinking and communication related to physiology. No co-credit with BIOL 3225. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2061 (or 2062/2091) with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2061 (or 2062/2091) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3227 - Human Physiology Lab (1 Credit)

The focus of this laboratory course is on acquainting students with the practical aspects of physiological experimentation. Emphasis on data interpretation and experimental design. Students often collect non-invasive data on themselves as part of the class. Complements the Human Physiology Lecture course. No co-credit with BIOL 3225. Prereq or coreq: BIOL 3226 (or BIOL 3225) with a C- or higher. Term offered: fall, spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or coreq: BIOL 3226 (or BIOL 3225) with C- or higher.

Typically Offered: Fall, Spring.

BIOL 3240 - Human Anatomy Lecture (3 Credits)

Introduces the structural aspects of the human body, from proteins and organelles to tissues to organs and organ systems. No co-credit with BIOL 3244. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3241 - Human Anatomy Cadaver Lab (2 Credits)

Introduces the structural aspects of the human body, from proteins and organelles to tissues to organs and organ systems utilizing models, images, videos, and human cadavers. No co-credit for BIOL 3242 or BIOL 3244. Prereq or coreq: BIOL 3240. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Coreq or prereq: BIOL 3240.

Typically Offered: Fall, Spring.

BIOL 3242 - Virtual Human Anatomy Lab (2 Credits)

Introduces the structural aspects of the human body. Images of models, cadavers, videos, microscopic slides, and Visible Body software will be used as materials to become familiar with the structures of the human body. Note: This virtual lab may not be accepted by professional health programs. No co-credit for BIOL 3241 or BIOL 3244. Prereq or coreq: BIOL 3240. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Coreq or prereq: BIOL 3240.

Typically Offered: Fall, Spring.

BIOL 3330 - Plant Diversity (3 Credits)

Surveys all major plant groups using evolutionary and ecological principles to interpret patterns of diversity in form and function. Topics include reproduction and life cycles, adaptations and ecological interactions, paleobotany and biogeography, classification and taxonomy and evolution. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3350 - Diversity of Life (3 Credits)

This course surveys the history and diversity of life. The origins of life are discussed, and fundamental processes that govern all life will be used to organize the diversity of life. While prokaryotes and eukaryotes are represented, there is an emphasis on the evolution, classification and taxonomy, structure and function, and ecology of the major eukaryotic groups: protists, fungi, plants, and animals. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3411 - Principles of Ecology (3 Credits)

A lecture course that examines the interrelationships between organisms and their environments. Subject matter includes organism, population and ecosystem levels of study and application to current environmental issues. The emphasis is on the underlying principles of ecology that involve all types of organisms. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective.

No co-credit with BIOL 3412. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3413 - Ecology Laboratory (2 Credits)

Provides hands-on experiences in ecology and appreciation for using research tools to study ecological systems. Students will learn a wide range of techniques and concepts related to population, community, ecosystem, urban, and physiological ecology. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, or be concurrently enrolled in BIOL 3411 in order to enroll in this course. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq or Co-req: BIOL 3411 with a C- or higher

BIOL 3445 - Introduction to Evolution (3 Credits)

Introduction to the processes and patterns of evolution. Topics include: history of evolutionary thought, origin of life, evidence for evolution, phylogenetics, evolutionary genetics, natural selection and other evolutionary forces, speciation and biodiversity, evolution of sexual reproduction and social organization. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3521 - Vertebrate Biology (3 Credits)

The Subphylum Vertebrata consists of fish, amphibians, reptiles, birds and mammals—some of the most fascinating and most threatened species on earth. This course covers the evolution, taxonomy, anatomy, physiology, ecology and conservation of these organisms. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3525 - Parasitology (3 Credits)

This course is designed to provide a foundation in parasitology and to improve skills in scientific writing to students interested in biodiversity, veterinarian medicine, public health, & health care. Prokaryotes are addressed briefly; the focus of this course is the natural history of 'traditional' eukaryotic parasites. Topics include evolutionary associations of parasites with plants and animals (including humans), modes of transmission, and general life cycles. Subject matter includes basic anatomy, epidemiology, and physiology, with a brief introduction to immunology. Note: may be used as an upper-division biology elective. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3611 - General Cell Biology (3 Credits)

Covers the structure and function of the cell including bioenergetics, membranes, secretion, respiration and the cell cycle. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2081), CHEM 2038 (or 2039/2088), CHEM 2061 (or 2091) and 2068 (or 2069/2098) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2038 (or 2039/2088) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3612 - Cell Biology Laboratory (3 Credits)

Laboratory course covering topics in cell and molecular biology, such as protein folding, membrane potential, organelle function, cell signaling and fertilization; as well as associated methods, including microscopy, cell culture and PCR. Basic skills are emphasized in recitation and laboratory. Prereq: General cell biology with a grade of "C-" or higher or permission of instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 3621 - Introduction to Immunology (3 Credits)

Provides an introduction to the basic concepts of immunology, including development of the immune system, innate immunity, aspects of the adaptive immune system, and the role of the immune system in disease, as well as allergies and autoimmunity. Prereq: BIOL 3124 OR BIOL 3832 and 3611 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 OR BIOL 3832 and 3611 with a grade of C- or higher.

BIOL 3640 - Mammalogy (4 Credits)

Lecture, laboratory, and required field trips. This course provides a general overview of the biology of mammals, including their diversity, distribution, economic importance, and other characteristics that make them of special interest to humans. Coverage will be worldwide, with special emphasis placed on the mammals of Colorado. Note: Students will not receive credit for this class if they have already received credit for BIOL 4640. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3650 - General Microbiology (3 Credits)

Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other organisms and the environment (ecology). No co-credit with BIOL 3654. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2038 (or 2039/2088) with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2038 (or 2039/2088) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3651 - General Microbiology Lab (2 Credits)

Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other organisms and the environment (ecology). The objective is to provide students with a thorough introduction to microbiology including basic micro-biological laboratory techniques. No co-credit with BIOL 3654. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2038 (or 2039/2088) with a C- or higher. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2038 (or 2039/2088) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3763 - Biostatistics (4 Credits)

Introduces statistical thinking in biology. Emphasizes data exploration and probability-based inference methods including estimation, testing, and confronting models with data. Concepts and examples for general and applied biology, including ecology and the health sciences. Includes exposure to statistical software. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) and MATH 1109, or MATH 1110, or MATH 1120, or 1130, or 1401, or 2411, or 2421 or 2830 with a C- or higher. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) and MATH 1109 or MATH 1110 or MATH 1120, or 1130, or 1401, or 2411, or 2421 or 2830 with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3804 - Developmental Biology (3 Credits)

Covers gamete development, fertilization, and embryo development including establishing body axes, tissue differentiation and organ formation. Note: Students will not earn credit for BIOL 3804 if they have earned credit for BIOL 4054 and will not earn credit for BIOL 4054 if they have earned credit for BIOL 3804. Prereq: General cell biology with a grade of "C-" or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 3832 - General Genetics (3 Credits)

Introduces molecular, classical, developmental and population genetics. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3840 - Independent Study (1-3 Credits)

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Prereq: Students must have completed one year of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3939 - Internship (1-3 Credits)

Approved internships will provide opportunities to apply classroom knowledge in a professional environment and expand the student's knowledge of biology. Associated coursework includes scientific reading/writing and presentation(s). Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND have a cumulative 2.0 GPA or higher AND be a declared Biology Major or Minor. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND have a cumulative 2.0 GPA or higher AND be a declared Biology Major or Minor.

Typically Offered: Fall, Spring, Summer.

BIOL 4024 - Introduction to Biotechnology (3 Credits)

Introduces aspects of biotechnology within a historical context, including medical, forensic, agricultural and microbial biotechnology. Addresses principles behind state-of-the-field techniques in recombinant DNA technology, bioinformatics, proteomics and genomics. Biotechnology regulations and ethics will also be discussed. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Cross-listed with BIOL 5024. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4050 - Advanced Biology Topics (1-8 Credits)

Examines current topics in the field of biology. Topics vary from term to term. See Schedule Planner for current topics. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with BIOL 5050. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4052 - Advanced Ecology (3 Credits)

This combination seminar and lecture course focuses on state-of-field knowledge, current theories and recent models in selected areas of ecology, such as theoretical ecology, evolutionary ecology, population biology and ecosystems ecology. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5052. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4053 - Infectious Disease Ecology (3 Credits)

The study of the underlying principles that influence the spatio-temporal patterns of infectious disease in environments. Students will apply ecological theories about concepts such as biodiversity, trophic interactions, landscape structure, and nutrient cycling to the study of disease. Pre-req: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with BIOL 5053. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4055 - Virology (3 Credits)

This is an upper level undergraduate/graduate class providing an in-depth study of the history of virology, different types of viruses, viral disease, research to combat viral infections, and different uses of viruses in biotechnology. Note: Students will not earn credit for this course if they have already earned credit for BIOL 4051 or BIOL 5051. Prereq: BIOL 3611 with a grade of C- or higher. Cross-listed with BIOL 5055. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 4064 - Cell Biology of Disease (3 Credits)

Builds on the foundations laid in the prerequisite courses. How alterations in membrane transport, autophagy, mitochondria, lysosomes, cilia, unfolded protein response and autophagy lead to major human diseases. A major emphasis is the control and integration of cellular activities. Prereq: General cell biology with a C- or higher. One semester of Biochemistry is strongly recommended for optimal student success. Cross-listed with BIOL 5064. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 4125 - Molecular Biology Laboratory (3 Credits)

Provides hands-on experiences in molecular biology and an appreciation for using the tools of molecular biology to study biological systems. Emphasis is placed on DNA cloning, PCR, mRNA and protein detection in the context of gene editing. Experimental design and the theories underlying the techniques are also discussed. Prereq: BIOL 3124 with a C- or higher or Coreq: BIOL 3124. Cross-listed with BIOL 5125. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 with a C- or higher or Coreq: BIOL 3124

Typically Offered: Spring.

BIOL 4126 - Molecular Genetics (3 Credits)

Examines molecular techniques and their application to experimental genetics, specifically organization and mapping of genomes, application and model systems in defining hereditary components of disease, and mechanisms of identifying mutations and their implications for disease. Also addresses application of recombinant DNA technology. Completion of Introduction to Molecular Biology with a C- or higher is required in order for students to enroll in this course. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Cross-listed with BIOL 5126. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4128 - Topics in Molecular Biology (3 Credits)

Literature-based course examining the regulation of gene expression in eukaryotic systems, as well as contemporary recombinant DNA technology and applications of molecular cloning techniques. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Cross-listed with BIOL 5128. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4134 - Human Genetics (3 Credits)

Advanced survey of the current status of the field. Emphasis on understanding, diagnosis and treatment of genetic disease and on the impact of molecular biology on human genetics. Cross-listed with 5134. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4144 - Medical Microbiology (3 Credits)

Provides an understanding of the relationship between pathogenic organisms and their host. Emphasis is placed on the area of medical bacteriology, with attention given to mechanisms of pathogenesis, genetics of disease, serology and treatment. Prereq: BIOL 3650 (or BIOL 3654) with a grade of C- or higher. Cross-listed with BIOL 5144. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3650 (or BIOL 3654) with a grade of C- or higher.

BIOL 4154 - Conservation Biology (3 Credits)

Basic concepts and theories in ecology, population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5154. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4165 - Neurobiology (3 Credits)

Overview of neuroscience, covering the cellular basis of neuronal activity, sensory structures and the structure and function of the human brain. Prereq: BIOL 3611 and PSYC 2220 with a C- or higher OR BIOL 3226 (or 3225) with a C- or higher. Cross-listed with BIOL 5165. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 and PSYC 2220 with a C- or higher OR BIOL 3226 (or 3225) with a C- or higher.

BIOL 4225 - Genomics and Bioinformatics (3 Credits)

Explores how genome-wide data are collected and analyzed. Example applications include human disease, microbial evolution, ecological genomics, and parasite drug resistance. Students implement projects based on real DNA sequencing data. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Cross-listed with BIOL 5225. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4250 - Mechanisms of Animal Behavior (3 Credits)

The proximate and ultimate mechanisms of animal behavior are analyzed using comparative animal examples from the scientific literature.

Proximate mechanisms include genetic and physiological processes.

Ultimate mechanisms include the role of natural and sexual selection in the evolution of behavior. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Genetics and human physiology are recommended. Cross-listed with BIOL 5250. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4274 - Environmental Physiology. (3 Credits)

Lecture. A look at the physiological mechanisms used by animals and plants in adapting to changes in such natural environmental parameters as temperature, light, and water availability. The intent is to lay the groundwork for approaching the study of the effects of changing environments on organisms. Prereq: one year of chemistry and one course in either plant or animal physiology. Max hours: 3 Credits.

Grading Basis: Letter Grade

BIOL 4335 - Plant Structure and Development (4 Credits)

Inclusive and in-depth study of functional anatomy and biology of vascular plants. Topics include: plant biochemistry, biology of the plant cell, simple and complex tissues, secretory structures, functional anatomy, primary and secondary growth, angiosperm reproduction and life cycles, development and additional topics. Responsibilities include lectures, lab, and potential field trips. Course must be taken with both lecture and lab together. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND junior or higher status. Cross-listed with BIOL 5335. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND junior or higher status.

Typically Offered: Spring.

BIOL 4345 - Flora of Colorado (4 Credits)

Inclusive and in-depth study of functional anatomy and biology of vascular plants. Topics include: plant biochemistry, biology of the plant cell, simple and complex tissues, secretory structures, functional anatomy, primary and secondary growth, angiosperm reproduction and life cycles, development and additional topics. Responsibilities include lectures, lab, and potential field trips. Course must be taken with both lecture and lab together. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5345. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4410 - Microbial Genomics (3 Credits)

Microbial genomics is being used to address many current medical and environmental challenges (e.g., COVID-19 pandemic, bioremediation of contaminated water). In this class, you will learn how to investigate microbial genomes and predict microbial function (e.g., metabolism, motility) through gene/protein analyses. We will predict microbial responses to environmental conditions such as viral infection (e.g., CRISPR signatures) and antibiotic exposure (e.g., resistance genes). We will apply our knowledge to analyze real microbial genome sequence data and synthesize our findings in a written manuscript format. We will communicate our science to non-scientists in order to deepen our own learning and to make an impact on our communities. Prereq: BIOL3654 or BIOL3650/3651 with a C- or higher. Cross-listed with BIOL 5410. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3650 and BIOL 3651 (or BIOL 3654) with a grade of C- or higher.

BIOL 4415 - Applied Microbial Ecology (3 Credits)

An in-depth study of ecology as it relates to microorganisms; abiotic and biotic interactions within microbial populations in macro- and microhabitats; and the role of microorganisms in influencing and responding to environmental conditions in natural and anthropogenic ecosystems. Emphasis is placed on how the ecology of microorganisms impacts how we engage with our environment. Prereq: BIOL 3650 and BIOL 3651 (or BIOL 3654) with a grade of C- or higher. Cross-listed with BIOL 5415. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3650 and BIOL 3651 (or BIOL 3654) with a grade of C- or higher.

Typically Offered: Fall, Spring.

BIOL 4425 - Biogeography (3 Credits)

An in-depth study of biological populations through analysis of geographic distribution patterns in space and time. Emphasis on how biogeography informs studies of evolution and ecology and on applied studies in conservation, sustainability, epidemiology, and disease dynamics. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5425. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4430 - Introduction to Spatial Ecology (3 Credits)

Focuses on patterns of life and ecological interactions in space. Emphasis on drivers of patterns, practical application of spatial ecology software, programming, and introductory spatial statistics on the quantification of patterns. Main topics: Scale and scaling, pattern development, detecting and characterizing patterns, temporal dynamics, and implications of spatial structure to conservation biology, resilience, and ecosystem functioning. Cross-listed with BIOL 5430. Prereq: BIOL 3411 with C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4440 - Ethnobotany: Medicine, Human Health and the Ecosystem Services of Plants (3 Credits)

This course explores various aspects of ethnobotany. One emphasis will be on the utilization of plants in various aspects of life including human health, fiber, nutrition, and shelter, beginning with a consideration of indigenous wisdom and traditions in native cultures, in primarily north, central, and south America. A second major emphasis will be on plant secondary metabolites and their utilization in traditional and modern medications and medical breakthroughs. A third major course emphasis will survey and explore several case-studies on the roles of plants in applied ecological contexts, global economies, and ecosystem services, highlighting case studies in conservation and sustainability. Note: Recommended completion of at least one upper division BIOL course. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND junior standing. Cross-listed with BIOL 5440. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND junior or higher status.

Typically Offered: Fall.

BIOL 4460 - Environmental Toxicology (3 Credits)

Text and literature-based course provides students with background knowledge concerning environmental toxins, the nature and extent of environmental contamination, and toxicant effects on individual organisms and populations. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with BIOL 5460. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4463 - Exercise Physiology (4 Credits)

Examines how the systems of the body function to support increased and sometimes extreme energy expenditure associated with exercise. Laboratory component provides the opportunity to learn about the techniques and measurements associated with the assessment of fitness. Prereq: BIOL 3226 and BIOL 3227 (or BIOL 3225) with a grade of C- or higher. Cross-listed with BIOL 5463. Term offered: fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3226 and BIOL 3227 (or BIOL 3225) with a grade of C- or higher.

Typically Offered: Fall.

BIOL 4475 - Mechanisms of Human Pathology (3 Credits)

Studies physiological, cellular and biochemical processes in human diseases. Mechanisms of inflammatory diseases, infectious diseases, neoplastic diseases, and others will be examined. Prereq: BIOL 3226 and BIOL 3227 (or BIOL 3225) or BIOL 3240 and BIOL 3242 (or BIOL 3244) with a grade of C- or higher. Cross-listed with BIOL 5475. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3226 and BIOL 3227 (or BIOL 3225) or BIOL 3240 and BIOL 3242 (or BIOL 3244) with a grade of C- or higher.

BIOL 4494 - Population and Evolutionary Genetics (3 Credits)

Introduces the genetic processes underlying evolutionary change in microbial, plant and animal populations. Topics include: sources of variation, Hardy-Weinberg equilibrium, population genetic structure, natural selection and other evolutionary forces, quantitative genetics and molecular phylogenetics. Emphasis on experimental data. Prereq: BIOL 3124 or BIOL 3832 and BIOL 3445 with a C- or higher. Cross-listed with BIOL 5494. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 and BIOL 3445 with a C- or higher.

BIOL 4550 - Cell Signaling (3 Credits)

Lecture by faculty and student presentations cover mechanism of hormones and regulation of various cellular processes through second messenger systems. Prereq: General cell biology with a grade of "C-" or higher; one semester of biochemistry recommended. Cross-listed with BIOL 5550. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 4622 - Topics in Immunology (3 Credits)

An in-depth study of immunological concepts. Topics will vary from semester to semester and may range from specifics of immune cell responses to tolerance and autoimmunity. Delivery will include lecture, student presentations, and discussion. Prereq: BIOL 3621 with a C- or higher. Cross-listed with BIOL 5622. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3621 with a C- or higher

BIOL 4634 - Biology of Cancer (3 Credits)

Cancer is the second leading cause of death in the United States. This course offers an overview of recent research into the causes, treatments and possible prevention of cancer. Includes a detailed look at the mechanisms of action of various oncogenes. Prereq: BIOL3124 OR BIOL 3832, AND BIOL 3611 with a C- or higher. Cross-listed with BIOL 5634. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL3124 OR BIOL 3832, AND BIOL 3611 with a C- or higher.

BIOL 4644 - Advanced Human Anatomy Laboratory (2 Credits)

Advanced laboratory course in human anatomy. In-depth look at the structural aspects of the human body, emphasizing function. Models, microscope slides, and visual media will supplement cadaver-based dissections. Prereq or coreq: BIOL3240 and 3241 or BIOL3240 and 3242 (or BIOL 3244) with a C- or higher. Cross-listed with BIOL 5644. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq or coreq: BIOL3240 and 3241 or BIOL3240 and 3242 (or BIOL 3244) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 4674 - Endocrinology (3 Credits)

This systematic survey of the endocrine system looks at the cellular basis and biochemical characteristics of individual endocrine tissues. Their function in the regulation of other endocrinological, physiological, and behavioral events is analyzed. The course emphasizes the human system and complements studies in physiology, behavior and neurobiology. Prereq: BIOL 3611 with a grade of C- or higher. Students will not earn credit for this course if they have already earned credit for BIOL 4674. Cross-listed with BIOL 5674. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 4780 - Aquatic Ecology (3 Credits)

This course explores the physical, chemical, and biological (including human) properties of aquatic ecosystems, and how the interrelationships between these properties define and influence advanced ecological processes. Special focus is given to lakes, reservoirs, wetlands, streams, rivers, and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and data exercises, and periodic (often virtual) field excursions. Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) with a C- or higher. Cross-listed with BIOL 5780, ENVS 4780, and ENVS 5780. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) with a C- or higher.

BIOL 4815 - Structural Biology of Neurodegenerative Diseases (3 Credits)

Advanced course in Biochemistry/Biophysics. Principles of Protein Folding, Structure-Function Relationship, and spectroscopic techniques related to characterization of these processes as applied to neurodegenerative diseases such as Parkinson's and Alzheimer's. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Coreq: PHYS 2020 or PHYS 2331. Cross-listed with CHEM 4815, CHEM 5815, and BIOL 5815. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Coreq: PHYS 2020 or PHYS 2331

BIOL 4825 - Biochemistry of Metabolic Disease (3 Credits)

Advanced course in biochemistry. An expanded study of selected topics in metabolism and how they relate to diseases, including inflammation, diabetes, obesity, and rare genetic disorders. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Cross-listed with CHEM 4825, CHEM 5825, and BIOL 5825. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher.

BIOL 4835 - Biochemistry of Gene Regulation and Cancer (3 Credits)

Explores the biochemical and molecular aspects of cancer biology. Topics include DNA mutations and repair, gene regulation, oncogenes and tumor suppressors, stem cells and differentiation, and cancer drug development. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Cross-listed with CHEM 4835, CHEM 5835, and BIOL 5835. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher.

BIOL 4840 - Independent Study (1-6 Credits)

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Note: Registration by special processing form only. Prereq: Students must have completed one year of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 4880 - Directed Research (1-6 Credits)

A student designed lab or field-based investigation that involves data collection, and that makes an original intellectual or creative contribution to the discipline. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

BIOL 4910 - Field Studies (3 Credits)

Field studies of individuals, populations and communities comprising a specified ecosystem. Emphasis on field identification of vascular plants and vertebrate animals. Topics include the physical environment, biotic and abiotic interactions, life history, ecological adaptations and biogeography. Note: Lectures and a week-long field trip. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with BIOL 5910. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4974 - Advanced Evolution (3 Credits)

A capstone course that draws upon concepts from all fields of biology. Topics include the fossil record, mass extinctions, the historical development of the modern synthesis, principles and mechanisms of evolution, current viewpoints and controversies. Prereq: BIOL 3445 and 3832 with a C- or higher. Cross-listed with BIOL 5974. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3445 and 3832 with a grade of C- or higher

BIOL 4990 - Undergraduate Research Seminar (1 Credit)

Introduces research in the biological sciences. Students read current scientific literature, attend related seminars and participate in discussions. This course offers students a chance to interact with visiting scientists, who will present state-of-the-field biological research in a seminar setting. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), BIOL 3411, BIOL 3445, BIOL 3611 and BIOL 3832 with a C- or higher. Restriction: Restricted to Senior standing or higher with an overall GPA of 3.0 or higher. Cross-listed with BIOL 6655. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq:BIOL 2010(or 2061/2097/2030), BIOL 2011(or 2081/2098/2031), BIOL 2020(or 2051/2095/2040), BIOL 2021(or 2071/2096/2041), BIOL 3411,3445,3611 and BIOL 3832 with a C- or higher. Restriction: Senior standing or higher with GPA of 3.0 or higher.

Biology - Biotechnology Track, BS

Introduction

The Biotechnology Track will allow students to master skills used within areas such as biotechnology, medicine, agriculture, and response to climate change. Students in this track will practice employable laboratory and research skills. Example employers for this track include biotechnology companies, Centers for Disease Control and Prevention, hospital laboratories, pharmaceutical research labs, and food science labs.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 36 BIOL credit hours.
2. Students must complete a minimum of 18 credit hours in ancillary coursework.
3. Students must complete a minimum of 18 upper division (3000- level and above) BIOL credit hours.
4. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in the major GPA. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
5. Students must complete a minimum of 18 upper division (3000-level and above) BIOL credit hours with CU Denver faculty and at least 6 credits must be at 4000-level or higher.

Program Restrictions, Allowances and Recommendations

1. All upper division biology courses applied to the undergraduate biology major must be completed within 10 years of graduation.
2. Undergraduate students may count up to six credit hours of independent study or internship (any combination of BIOL 3840 Independent Study, BIOL 3939 Internship, BIOL 4840 Independent Study, BIOL 4880 Directed Research) toward the upper-division Biology electives requirement in the major.

Code	Title	Hours
Complete the following required biology courses:		20
BIOL 2010 or BIOL 2030	Organisms to Ecosystems (Gen Bio) Honors Organisms to Ecosystems (Gen Bio)	
BIOL 2011 or BIOL 2031	Organisms to Ecosystems Lab (Gen Bio) Honors Organisms to Ecosystems Lab (Gen Bio)	
BIOL 2020 or BIOL 2040	Molecules to Cells (Gen Bio) Honors Molecules to Cells (Gen Bio)	
BIOL 2021 or BIOL 2041	Molecules to Cells Lab (Gen Bio) Honors Molecules to Cells Lab (Gen Bio)	
BIOL 3124	Introduction to Molecular Biology	
BIOL 3611	General Cell Biology	
BIOL 4024	Introduction to Biotechnology	
BIOL 4125	Molecular Biology Laboratory	
Choose at least one lab class from the following list:		2-3
BIOL 3612	Cell Biology Laboratory	
BIOL 3651	General Microbiology Lab	

CHEM 4828	Biochemistry Lab	
Complete the following required ancillary classes:		8
CHEM 2031 or CHEM 2081	General Chemistry I Honors General Chemistry I	
CHEM 2038 or CHEM 2039 or CHEM 2088	General Chemistry Laboratory I Majors General Chemistry I Laboratory Honors General Chemistry I Laboratory	
CHEM 2061 or CHEM 2091	General Chemistry II Honors General Chemistry II Lecture	
CHEM 2068 or CHEM 2069 or CHEM 2098	General Chemistry Laboratory II Majors General Chemistry II Laboratory Honors General Chemistry II Laboratory	
Choose one biochemistry class from this list (Organic Chemistry I is a prereq):		3-4
CHEM 3810	Biochemistry	
CHEM 4820	General Biochemistry II	
Choose one quantitative class from this list:		3-4
BIOL 3763	Biostatistics	
MATH 1401	Calculus I	
MATH 4830	Applied Statistics	
IWKS 2300	Fundamentals of Computational Innovation	
Choose one writing intensive class from this list:		3
ENGL 3154	Technical Writing (also satisfies CLAS Communicative Skills requirement)	
ENGL 4175	Writing in the Sciences (also satisfies CLAS Communicative Skills requirement)	
ENGL 4180	Argumentation and Logic (also satisfies CLAS Humanities requirement)	
ENGL 4280	Proposal and Grant Writing (also satisfies CLAS Humanities requirement)	
COMM 4550	Rhetorics of Medicine & Health	
Choose at least two upper division BIOL 4000 level classes from this list, must be from UCD faculty:		6
BIOL 4055	Virology	
BIOL 4064	Cell Biology of Disease	
BIOL 4126	Molecular Genetics	
BIOL 4128	Topics in Molecular Biology	
BIOL 4134	Human Genetics	
BIOL 4144	Medical Microbiology	
BIOL 4225	Genomics and Bioinformatics	
BIOL 4335	Plant Structure and Development	
BIOL 4415	Applied Microbial Ecology	
BIOL 4475	Mechanisms of Human Pathology	
BIOL 4550	Cell Signaling	
BIOL 4634	Biology of Cancer	
BIOL 4674	Endocrinology	
BIOL 4815	Structural Biology of Neurodegenerative Diseases	
BIOL 4825	Biochemistry of Metabolic Disease	
BIOL 4835	Biochemistry of Gene Regulation and Cancer	
Choose at least two from the following list that have not already been used anywhere above (be sure to reach 36 credits in BIOL):		
Internship, Directed Research, or Independent Study is highly recommended		
BIOL 3010	Biology Career and Professional Development Seminar	
BIOL 3134	Advanced Topics	
BIOL 3137	Advanced Special Topics with Lab	
BIOL 3445	Introduction to Evolution	
BIOL 3611	General Cell Biology	
BIOL 3621	Introduction to Immunology	
BIOL 3650	General Microbiology	

BIOL 3612	Cell Biology Laboratory
BIOL 3804	Developmental Biology
BIOL 3832	General Genetics
BIOL 3840	Independent Study
BIOL 3939	Internship
BIOL 4050	Advanced Biology Topics
BIOL 4055	Virology
BIOL 4064	Cell Biology of Disease
BIOL 4126	Molecular Genetics
BIOL 4128	Topics in Molecular Biology
BIOL 4134	Human Genetics
BIOL 4144	Medical Microbiology
BIOL 4225	Genomics and Bioinformatics
BIOL 4335	Plant Structure and Development
BIOL 4415	Applied Microbial Ecology
BIOL 4475	Mechanisms of Human Pathology
BIOL 4550	Cell Signaling
BIOL 4634	Biology of Cancer
BIOL 4674	Endocrinology
BIOL 4815	Structural Biology of Neurodegenerative Diseases
BIOL 4825	Biochemistry of Metabolic Disease
BIOL 4835	Biochemistry of Gene Regulation and Cancer
BIOL 4840	Independent Study
BIOL 4880	Directed Research
CHEM 4121	Instrumental Analysis
CHEM 4128	Instrumental Analysis Laboratory
CHEM 4221	Practical Applications of Spectroscopy
CHEM 4388	Nucleic Acid Technologies I
CHEM 4411	Bioconjugate Techniques and Theranostic Nanomedicine
CHEM 4580	Molecular Informatics
CHEM 4630	Programming for Data Analysis in the Physical Sciences
CHEM 4845	Molecular Modeling and Drug Design
CHEM 4860	Bioinorganic Chemistry: Bioinorganic compounds in medicine

Total Hours**45-48**

Biology - Human Biology Track, BS

Introduction

This track is for students interested in the human body and how it works. Students in this track may pursue careers such as health professionals, research laboratories, public health.

Program Delivery

- This is an on-campus program.

Declaring This Major

- [Click here \(p. 377\)](#) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- [Click here \(p. 107\)](#) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 36 BIOL credit hours.
2. Students must complete a minimum of 18 credit hours in ancillary coursework.
3. Students must complete a minimum of 18 upper division (3000- level and above) BIOL credit hours.
4. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
5. Students must complete a minimum of 18 upper division (3000-level and above) BIOL credit hours with CU Denver faculty and at least 6 credits must be at 4000-level or higher.

Program Restrictions, Allowances and Recommendations

1. Courses more than ten years old will not count automatically, but can be evaluated individually for their current relevance to the degree program through a petition process with the Department of Integrative Biology Curriculum Committee. Approval for courses older than ten years is not guaranteed so students may be required to update their knowledge by taking additional courses when past courses are outdated.
2. Undergraduate students may count up to six credit hours of independent study or internship (any combination of BIOL 3840 Independent Study, BIOL 3939 Internship, BIOL 4840 Independent Study, BIOL 4880 Directed Research) toward the upper-division Biology electives requirement in the major.

Code	Title	Hours
Complete the following required biology courses:		
BIOL 2010 or BIOL 2030	Organisms to Ecosystems (Gen Bio) Honors Organisms to Ecosystems (Gen Bio)	3
BIOL 2011 or BIOL 2031	Organisms to Ecosystems Lab (Gen Bio) Honors Organisms to Ecosystems Lab (Gen Bio)	1
BIOL 2020 or BIOL 2040	Molecules to Cells (Gen Bio) Honors Molecules to Cells (Gen Bio)	3
BIOL 2021 or BIOL 2041	Molecules to Cells Lab (Gen Bio) Honors Molecules to Cells Lab (Gen Bio)	1
BIOL 3226	Human Physiology	3
BIOL 3227	Human Physiology Lab	1
BIOL 3832 or BIOL 3124	General Genetics Introduction to Molecular Biology	3
BIOL 3240	Human Anatomy Lecture	3
BIOL 3241 or BIOL 3242	Human Anatomy Cadaver Lab Virtual Human Anatomy Lab	2

Complete the following required ancillary classes:

CHEM 2031 or CHEM 2081	General Chemistry I Honors General Chemistry I	3
CHEM 2038 or CHEM 2039 or CHEM 2088	General Chemistry Laboratory I Majors General Chemistry I Laboratory Honors General Chemistry I Laboratory	1
CHEM 2061 or CHEM 2091	General Chemistry II Honors General Chemistry II Lecture	3
CHEM 2068 or CHEM 2069 or CHEM 2098	General Chemistry Laboratory II Majors General Chemistry II Laboratory Honors General Chemistry II Laboratory	2

Choose one advanced chemistry class (Organic Chemistry I is a prereq): 3-4

CHEM 3421 or CHEM 3491	Organic Chemistry II Majors Organic Chemistry II	
CHEM 3810	Biochemistry	
CHEM 4820	General Biochemistry II	

Choose one quantitative class from this list (prereqs required): 3-4

BIOL 3763	Biostatistics	
MATH 1401	Calculus I	
MATH 4830	Applied Statistics	

Choose one writing intensive class from this list: 3

COMM 4550	Rhetorics of Medicine & Health	
ENGL 3154	Technical Writing (also satisfies CLAS Communicative Skills requirement)	
ENGL 4175	Writing in the Sciences (also satisfies CLAS Communicative Skills requirement)	
ENGL 4180	Argumentation and Logic (also satisfies CLAS Humanities requirement)	
ENGL 4280	Proposal and Grant Writing (also satisfies CLAS Humanities requirement)	

Choose at least two upper division BIOL 4000 level classes from this list, must be from UCD faculty: 6

BIOL 4024	Introduction to Biotechnology	
BIOL 4053	Infectious Disease Ecology	
BIOL 4055	Virology	
BIOL 4064	Cell Biology of Disease	
BIOL 4126	Molecular Genetics	
BIOL 4134	Human Genetics	
BIOL 4144	Medical Microbiology	
BIOL 4165	Neurobiology	
BIOL 4225	Genomics and Bioinformatics	
BIOL 4250	Mechanisms of Animal Behavior	
BIOL 4274	Environmental Physiology.	
BIOL 4410	Microbial Genomics	
BIOL 4415	Applied Microbial Ecology	
BIOL 4460	Environmental Toxicology	
BIOL 4463	Exercise Physiology	
BIOL 4550	Cell Signaling	
BIOL 4475	Mechanisms of Human Pathology	
BIOL 4634	Biology of Cancer	
BIOL 4674	Endocrinology	
BIOL 4815	Structural Biology of Neurodegenerative Diseases	
BIOL 4825	Biochemistry of Metabolic Disease	
BIOL 4835	Biochemistry of Gene Regulation and Cancer	

Choose at least 10 BIOL credits from the following list that have not been used anywhere above to reach 36 total credits in BIOL (recommended BIOL 3611, Cell Biology, as it is pre-req for many other elective options):

BIOL 3010	Biology Career and Professional Development Seminar	
-----------	---	--

BIOL 3020	Practical Laboratory Skills
BIOL 3074	Human Reproductive Biology
BIOL 3104	Behavioral Genetics
BIOL 3124	Introduction to Molecular Biology
BIOL 3134	Advanced Topics
BIOL 3137	Advanced Special Topics with Lab
BIOL 3411	Principles of Ecology
BIOL 3445	Introduction to Evolution
BIOL 3521	Vertebrate Biology
BIOL 3525	Parasitology
BIOL 3611	General Cell Biology
BIOL 3612	Cell Biology Laboratory
BIOL 3621	Introduction to Immunology
BIOL 3650	General Microbiology
BIOL 3651	General Microbiology Lab
BIOL 3804	Developmental Biology
BIOL 3832	General Genetics
BIOL 3840	Independent Study
BIOL 3939	Internship
BIOL 4024	Introduction to Biotechnology
BIOL 4050	Advanced Biology Topics
BIOL 4053	Infectious Disease Ecology
BIOL 4055	Virology
BIOL 4064	Cell Biology of Disease
BIOL 4125	Molecular Biology Laboratory
BIOL 4126	Molecular Genetics
BIOL 4134	Human Genetics
BIOL 4144	Medical Microbiology
BIOL 4165	Neurobiology
BIOL 4225	Genomics and Bioinformatics
BIOL 4250	Mechanisms of Animal Behavior
BIOL 4274	Environmental Physiology.
BIOL 4410	Microbial Genomics
BIOL 4415	Applied Microbial Ecology
BIOL 4460	Environmental Toxicology
BIOL 4463	Exercise Physiology
BIOL 4475	Mechanisms of Human Pathology
BIOL 4550	Cell Signaling
BIOL 4634	Biology of Cancer
BIOL 4644	Advanced Human Anatomy Laboratory
BIOL 4815	Structural Biology of Neurodegenerative Diseases
BIOL 4825	Biochemistry of Metabolic Disease
BIOL 4835	Biochemistry of Gene Regulation and Cancer
BIOL 4840	Independent Study
BIOL 4880	Directed Research
CHEM 3810	Biochemistry
CHEM 4820	General Biochemistry II

Total Hours**44-46**

Biology - Integrative Biology Track, BS

Introduction

The Integrative Biology Track is very flexible and offers students with diverse interests an opportunity to fully explore the field of biology. This Track is also great for students interested in becoming K12 Teachers because it allows them to take a diverse set of courses, so they are prepared to teach all aspects of biology.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 36 BIOL credit hours.
2. Students must complete a minimum of 15 credit hours in ancillary coursework.
3. Students must complete a minimum of 18 upper division (3000- level and above) BIOL credit hours.
4. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
5. Students must complete a minimum of 18 upper division (3000-level and above) BIOL credit hours with CU Denver faculty and at least 6 credits must be at 4000-level or higher.

Program Restrictions, Allowances and Recommendations

1. Courses more than ten years old will not count automatically, but can be evaluated individually for their current relevance to the degree program through a petition process with the Department of Integrative Biology Curriculum Committee. Approval for courses older than ten years is not guaranteed so students may be required to update their knowledge by taking additional courses when past courses are outdated.
2. Undergraduate students may count up to six credit hours of independent study or internship (any combination of BIOL 3840 Independent Study, BIOL 3939 Internship, BIOL 4840 Independent Study, BIOL 4880 Directed Research) toward the upper-division Biology electives requirement in the major.

Code	Title	Hours	
Complete the following required biology courses:			
BIOL 2010 or BIOL 2030	Organisms to Ecosystems (Gen Bio) Honors Organisms to Ecosystems (Gen Bio)	20	
BIOL 2011 or BIOL 2031	Organisms to Ecosystems Lab (Gen Bio) Honors Organisms to Ecosystems Lab (Gen Bio)		
BIOL 2020 or BIOL 2040	Molecules to Cells (Gen Bio) Honors Molecules to Cells (Gen Bio)		
BIOL 2021 or BIOL 2041	Molecules to Cells Lab (Gen Bio) Honors Molecules to Cells Lab (Gen Bio)		
BIOL 3411	Principles of Ecology		
BIOL 3445	Introduction to Evolution		
BIOL 3611	General Cell Biology		
BIOL 3832 or BIOL 3124	General Genetics Introduction to Molecular Biology		
Complete the following required ancillary classes:			
			9

CHEM 2031 or CHEM 2081	General Chemistry I Honors General Chemistry I	
CHEM 2038 or CHEM 2039 or CHEM 2088	General Chemistry Laboratory I Majors General Chemistry I Laboratory Honors General Chemistry I Laboratory	
CHEM 2061 or CHEM 2091	General Chemistry II Honors General Chemistry II Lecture	
CHEM 2068 or CHEM 2069 or CHEM 2098	General Chemistry Laboratory II Majors General Chemistry II Laboratory Honors General Chemistry II Laboratory	
Choose one quantitative class from this list:		3-4
BIOL 3763	Biostatistics	
MATH 1401	Calculus I	
MATH 4830	Applied Statistics	
Choose one writing intensive class from this list:		3
COMM 4550	Rhetorics of Medicine & Health	
ENGL 3154	Technical Writing (also satisfies CLAS Communicative Skills requirement)	
ENGL 4175	Writing in the Sciences (also satisfies CLAS Communicative Skills requirement)	
ENGL 4180	Argumentation and Logic (also satisfies CLAS Humanities requirement)	
ENGL 4280	Proposal and Grant Writing (also satisfies CLAS Humanities requirement)	
Choose at least one upper division BIOL lab class.		3
Choose at least two three credit hour 4000 level BIOL classes (must be taken from a UCD faculty) Excludes, BIOL 4840, BIOL 4880 and BIOL 4125.		6
Choose any BIOL credits that have not been used anywhere else above to reach 36 total credits in BIOL (courses for non-science majors excluded).		
Total Hours		44-45

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>).

Biology - Microbiology Track, BS

Introduction

The Microbiology Track studies organisms that, for the most part, are not easily visible with the naked eye, including algae, archaea, bacteria, fungi, protozoa, and viruses. Microbes are notorious for causing disease, but microbes also play critical roles in maintaining human health and supporting life on Earth. In the Microbiology track, you will explore microbes in the context of medicine, molecular biology, cell biology, genetics, immunology, biotechnology, ecology, and evolution. The Microbiology track prepares students for careers in many fields including medicine, agriculture, public health, government, environmental science, basic research, education, industrial microbiology, food microbiology, and pharmaceuticals.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

ENGL 4180	Argumentation and Logic (also satisfies CLAS Humanities requirement)	
ENGL 4280	Proposal and Grant Writing (also satisfies CLAS Humanities requirement)	
Choose at least nine credits of upper division microbiology courses from the following list (must include at least one BIOL 4000 level class taught by UCD faculty):		9
BIOL 3525	Parasitology	
BIOL 3621	Introduction to Immunology	
BIOL 4055	Virology	
BIOL 4144	Medical Microbiology	
BIOL 4410	Microbial Genomics	
BIOL 4415	Applied Microbial Ecology	
Choose at least 11 credits of other BIOL electives from the following list (not already taken anywhere above) to reach 36 credits in BIOL:		11
BIOL 3010	Biology Career and Professional Development Seminar	
BIOL 3020	Practical Laboratory Skills	
BIOL 3124	Introduction to Molecular Biology	
BIOL 3134	Advanced Topics	
BIOL 3137	Advanced Special Topics with Lab	
BIOL 3411	Principles of Ecology	
BIOL 3445	Introduction to Evolution	
BIOL 3525	Parasitology	
BIOL 3611	General Cell Biology	
BIOL 3612	Cell Biology Laboratory	
BIOL 3621	Introduction to Immunology	
BIOL 3832	General Genetics	
BIOL 3939	Internship (Project must have a microbiology component)	
BIOL 3840	Independent Study (Project must have a microbiology component)	
BIOL 4024	Introduction to Biotechnology	
BIOL 4050	Advanced Biology Topics	
BIOL 4053	Infectious Disease Ecology	
BIOL 4055	Virology	
BIOL 4064	Cell Biology of Disease	
BIOL 4125	Molecular Biology Laboratory	
BIOL 4126	Molecular Genetics	
BIOL 4225	Genomics and Bioinformatics	
BIOL 4128	Topics in Molecular Biology	

BIOL 4144	Medical Microbiology
BIOL 4410	Microbial Genomics
BIOL 4415	Applied Microbial Ecology
BIOL 4460	Environmental Toxicology
BIOL 4622	Topics in Immunology
BIOL 4840	Independent Study (Project must have a microbiology component)
BIOL 4880	Directed Research (Project must have a microbiology component)

Total Hours**51-52**

Biology - Organisms and Ecosystems Track, BS

Introduction

The Organisms to Ecosystems Track caters to students interested in pursuing careers in conservation biology, wildlife biology, ecology, evolution and organismal biology. Students in this track may pursue careers at state and federal land agencies (NPS, USFS, BLM, etc.), natural history museums and botanical gardens, zoos and aquariums, the veterinary field, organismal and ecology research, environmental education, environmental consulting, nonprofit advocacy and law, and graduate programs. Consider pairing this major with the Geographic Information Science Certificate.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 36 BIOL credit hours.
2. Students must complete a minimum of 15 credit hours in ancillary coursework.
3. Students must complete a minimum of 18 upper division (3000- level and above) BIOL credit hours.
4. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
5. Students must complete a minimum of 18 upper division (3000-level and above) BIOL credit hours with CU Denver faculty and at least 6 credits must be at 4000-level or higher.

Program Restrictions, Allowances and Recommendations

1. Upper division BIOL courses more than ten years old will not count automatically to the Major, but can be evaluated individually for their current relevance to the degree program through a petition process with the Department of Integrative Biology Curriculum Committee. Approval for courses older than ten years is not guaranteed so students may be required to update their knowledge by taking additional courses when past courses are outdated.
2. Undergraduate students may count up to six credit hours of independent study or internship (any combination of BIOL 3840 Independent Study, BIOL 3939 Internship, BIOL 4840 Independent Study, BIOL 4880 Directed Research) toward the upper-division Biology electives requirement in the major.

Code	Title	Hours
Complete the following required biology courses:		
BIOL 2010 or BIOL 2030	Organisms to Ecosystems (Gen Bio) Honors Organisms to Ecosystems (Gen Bio)	3
BIOL 2011 or BIOL 2031	Organisms to Ecosystems Lab (Gen Bio) Honors Organisms to Ecosystems Lab (Gen Bio)	1
BIOL 2020 or BIOL 2040	Molecules to Cells (Gen Bio) Honors Molecules to Cells (Gen Bio)	3
BIOL 2021 or BIOL 2041	Molecules to Cells Lab (Gen Bio) Honors Molecules to Cells Lab (Gen Bio)	1
BIOL 3350	Diversity of Life	3
BIOL 3411	Principles of Ecology	3
BIOL 3445	Introduction to Evolution	3
BIOL 3832 or BIOL 3124	General Genetics Introduction to Molecular Biology	3

Choose at least two lab classes from the following list, or one lab class and one experiential class (minimum two credit hours):

BIOL 3413	Ecology Laboratory
BIOL 3640	Mammalogy
BIOL 3651	General Microbiology Lab
BIOL 4125	Molecular Biology Laboratory
BIOL 4335	Plant Structure and Development
BIOL 4345	Flora of Colorado
BIOL 4910	Field Studies
GEOG 4060	Remote Sensing I: Introduction to Environmental Remote Sensing
GEOG 4080	Introduction to GIS
GEOG 4731	Mountain Biogeography
GEOG 4750	Beeography: Geography of Bees

Experiential classes (Consider taking a class at the CU Boulder Mountain Research Station and transferring it (speak with your advisor):

BIOL 3840	Independent Study (Must have an organismal/ecosystem component)
BIOL 3939	Internship (Must have an organismal/ecosystem component)
BIOL 4880	Directed Research (Must have an organismal/ecosystem component)

Complete the following required ancillary classes:

CHEM 2031	General Chemistry I	3
or CHEM 2081	Honors General Chemistry I	
CHEM 2038	General Chemistry Laboratory I	1
or CHEM 2039	Majors General Chemistry I Laboratory	
or CHEM 2088	Honors General Chemistry I Laboratory	
CHEM 2061	General Chemistry II	3
or CHEM 2091	Honors General Chemistry II Lecture	
CHEM 2068	General Chemistry Laboratory II	2
or CHEM 2069	Majors General Chemistry II Laboratory	
or CHEM 2098	Honors General Chemistry II Laboratory	

Choose one quantitative class from this list (certain biology careers may require more math, speak with your advisor): 3-4

BIOL 3763	Biostatistics
MATH 1401	Calculus I
MATH 4830	Applied Statistics

Choose one writing intensive class from this list: 3

COMM 4550	Rhetorics of Medicine & Health
ENGL 3154	Technical Writing (also satisfies CLAS Communicative Skills requirement)
ENGL 4175	Writing in the Sciences (also satisfies CLAS Communicative Skills requirement)
ENGL 4180	Argumentation and Logic (also satisfies CLAS Humanities requirement)
ENGL 4280	Proposal and Grant Writing (also satisfies CLAS Humanities requirement)

Choose at least two upper division BIOL 4000 level classes from this list, that have not already been taken above, must be from UCD faculty: 6

BIOL 4024	Introduction to Biotechnology
BIOL 4052	Advanced Ecology
BIOL 4053	Infectious Disease Ecology
BIOL 4055	Virology
BIOL 4125	Molecular Biology Laboratory
BIOL 4126	Molecular Genetics
BIOL 4128	Topics in Molecular Biology
BIOL 4154	Conservation Biology
BIOL 4225	Genomics and Bioinformatics
BIOL 4250	Mechanisms of Animal Behavior
BIOL 4335	Plant Structure and Development
BIOL 4345	Flora of Colorado
BIOL 4415	Applied Microbial Ecology
BIOL 4425	Biogeography

BIOL 4460	Environmental Toxicology
BIOL 4494	Population and Evolutionary Genetics
BIOL 4780	Aquatic Ecology
Choose at least two classes from the following list that have not already been taken above (be sure to reach 36 credits in BIOL):	
BIOL 3010	Biology Career and Professional Development Seminar
BIOL 3104	Behavioral Genetics
BIOL 3124	Introduction to Molecular Biology
BIOL 3134	Advanced Topics
BIOL 3137	Advanced Special Topics with Lab
BIOL 3330	Plant Diversity
BIOL 3413	Ecology Laboratory
BIOL 3521	Vertebrate Biology
BIOL 3525	Parasitology
BIOL 3611	General Cell Biology
BIOL 3612	Cell Biology Laboratory
BIOL 3640	Mammalogy
BIOL 3650	General Microbiology
BIOL 3651	General Microbiology Lab
BIOL 3804	Developmental Biology
BIOL 3832	General Genetics
BIOL 3840	Independent Study
BIOL 3939	Internship
BIOL 4024	Introduction to Biotechnology
BIOL 4050	Advanced Biology Topics
BIOL 4052	Advanced Ecology
BIOL 4053	Infectious Disease Ecology
BIOL 4055	Virology
BIOL 4125	Molecular Biology Laboratory
BIOL 4126	Molecular Genetics
BIOL 4128	Topics in Molecular Biology
BIOL 4154	Conservation Biology
BIOL 4225	Genomics and Bioinformatics
BIOL 4250	Mechanisms of Animal Behavior
BIOL 4274	Environmental Physiology.
BIOL 4335	Plant Structure and Development
BIOL 4345	Flora of Colorado
BIOL 4415	Applied Microbial Ecology
BIOL 4425	Biogeography
BIOL 4460	Environmental Toxicology
BIOL 4494	Population and Evolutionary Genetics
BIOL 4780	Aquatic Ecology
BIOL 4880	Directed Research
CHEM 4700	Environmental Chemistry
GEOG 4010	Landscape Biogeochemistry
GEOG 4060	Remote Sensing I: Introduction to Environmental Remote Sensing
GEOG 4080	Introduction to GIS
GEOG 4265	Sustainability in Resources Management
GEOG 4720	Climate Change: Causes, Impacts and Solutions
GEOG 4731	Mountain Biogeography
GEOG 4750	Beeography: Geography of Bees

To learn more about the Student Learning Outcomes for this program, please visit our website. (https://clas.ucdenver.edu/integrative-biology/academics/undergraduate-programs/#biology_major-73)

Biology Minor

Introduction

Please click here (p. 618) to see Integrative Biology department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 27 credit hours, including a minimum of 18 BIOL credit hours and nine credit hours in approved ancillary coursework.
2. Students must complete a minimum of nine upper-division (3000-level and above) BIOL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Students cannot complete minor or ancillary course requirements using P+/P/F or S/U grading.
4. Students must complete a minimum of nine upper division level BIOL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Upper division BIOL courses more than ten years old will not count automatically to the Minor, but can be evaluated individually for their current relevance to the degree program through a petition process with the Department of Integrative Biology Curriculum Committee. Approval for courses older than ten years is not guaranteed so students may be required to update their knowledge by taking additional courses when past courses are outdated.

Code	Title	Hours
<i>Complete the following required courses:</i>		8
BIOL 2010 or BIOL 2030	Organisms to Ecosystems (Gen Bio) Honors Organisms to Ecosystems (Gen Bio)	
BIOL 2011 or BIOL 2031	Organisms to Ecosystems Lab (Gen Bio) Honors Organisms to Ecosystems Lab (Gen Bio)	
BIOL 2020 or BIOL 2040	Molecules to Cells (Gen Bio) Honors Molecules to Cells (Gen Bio)	
BIOL 2021 or BIOL 2041	Molecules to Cells Lab (Gen Bio) Honors Molecules to Cells Lab (Gen Bio)	
<i>Complete a minimum of six credits from the following upper division level BIOL courses:</i>		6
BIOL 3411	Principles of Ecology	
BIOL 3445	Introduction to Evolution	
BIOL 3611	General Cell Biology	
BIOL 3832	General Genetics	
<i>Complete a minimum of four credits from at least two upper division (3000 level or higher) BIOL elective courses. At least one of the courses must be from the following approved list: ¹</i>		4
BIOL 3137	Advanced Special Topics with Lab	
BIOL 3226	Human Physiology	
BIOL 3240	Human Anatomy Lecture	

BIOL 3413	Ecology Laboratory	
BIOL 3612	Cell Biology Laboratory	
BIOL 3640	Mammalogy	
BIOL 3651	General Microbiology Lab	
BIOL 4125	Molecular Biology Laboratory	
BIOL 4335	Plant Structure and Development	
BIOL 4345	Flora of Colorado	
BIOL 4644	Advanced Human Anatomy Laboratory	
BIOL 4910	Field Studies	
<i>Complete all of the following ancillary course requirements:</i>		9
CHEM 2031	General Chemistry I	
or CHEM 2081	Honors General Chemistry I	
CHEM 2038	General Chemistry Laboratory I	
or CHEM 2039	Majors General Chemistry I Laboratory	
or CHEM 2088	Honors General Chemistry I Laboratory	
CHEM 2061	General Chemistry II	
or CHEM 2091	Honors General Chemistry II Lecture	
CHEM 2068	General Chemistry Laboratory II	
or CHEM 2069	Majors General Chemistry II Laboratory	
or CHEM 2098	Honors General Chemistry II Laboratory	

Total Hours**27**

¹ Note: BIOL 3020 Practical Laboratory Skills will not satisfy the upper division level elective requirement.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/integrative-biology/academics/bs-integrative-biology/>).

Biotechnology Undergraduate Certificate

Introduction

Please click here (p. 618) to see Integrative Biology department information.

Biotechnology is a rapidly growing field in Colorado and nationally that encompasses many disciplines. Agriculture, biofuels, biomedical biotechnology, pharmaceuticals, microbiology, and medical device development are all well-represented areas of biotechnology in Colorado. The Department of Integrative Biology offers a Certificate program in Biotechnology that allows students to acquire foundational knowledge and specialized skills relevant to these research areas. The certificate is designed to provide a strong background in biochemistry and molecular biology, with an emphasis on applied training via lab work and research experiences. Upon completion of the requirements, students obtain recognition in the form of a Certificate and official designation on their transcript.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

Students may earn the certificate while working on their Bachelors Degree# or, the courses may be taken through non#degree admission. All admissions questions should be directed to the Admission's office. All questions regarding tuition and fees should be directed to the Bursar's office.

Students interested in completing the Biotechnology certificate should contact the Department of Integrative Biology. (https://clas.ucdenver.edu/integrative-biology/academics/certificates/#biotechnology_certificate-93) A certificate will be issued and noted on your transcript upon proof of satisfactory completion of the course work. You must contact the Biotechnology Certificate faculty advisor no later than the start of the semester of graduation in order for the certificate recognition to appear on your transcripts.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Biotechnology advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 17 credits from approved courses.
2. Students must complete a minimum of 17 upper division (3000-level and above) credit hours from approved courses.
3. Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. All courses used to satisfy the requirements for the Certificate must be completed at CU Denver.

Certificate Restrictions, Allowances and Recommendations

1. Individual courses used to earn the Biotechnology Certificate carry prerequisites that must be met before enrolling.
2. All courses used to satisfy the requirements for the Certificate must be completed within a five-year period.
3. You must contact the Biotechnology Certificate faculty advisor (Dr. Chris Miller (chris.miller@ucdenver.edu)) no later than the start of the semester of graduation in order for the certificate recognition to appear on your transcripts.

Code	Title	Hours
<i>Complete all of the following required courses courses:</i>		15
BIOL 3124	Introduction to Molecular Biology	
BIOL 4024	Introduction to Biotechnology	
BIOL 4125	Molecular Biology Laboratory	
BIOL 3939	Internship	
or BIOL 4880	Directed Research	
CHEM 3810	Biochemistry	
or CHEM 4820	General Biochemistry II	
<i>Complete one elective from among those listed below, or a course pre-approved by the Biotechnology Certificate faculty advisor:</i>		2
BIOL 3612	Cell Biology Laboratory	

BIOL 3763	Biostatistics
BIOL 4055	Virology
BIOL 4064	Cell Biology of Disease
BIOL 4134	Human Genetics
BIOL 4144	Medical Microbiology
BIOL 4225	Genomics and Bioinformatics
BIOL 4622	Topics in Immunology
BIOL 4634	Biology of Cancer
CHEM 3111	Analytical Chemistry
CHEM 4121	Instrumental Analysis
CHEM 4828	Biochemistry Lab
CHEM/BIOL 4835	Biochemistry of Gene Regulation and Cancer

Total Hours**17**

To learn more about the Student Learning Outcomes for this program, please visit our website (https://clas.ucdenver.edu/integrative-biology/academics/certificates/#biotechnology_certificate-93).

Environmental Stewardship of Indigenous Lands Undergraduate Certificate

Introduction

The Environmental Stewardship of Indigenous Lands (ESIL) certificate is an exciting educational opportunity at the University of Colorado Denver (CU Denver), where Indigenous comprises the terms Native American, American Indian, Alaskan Native, and Hawaiian Native. The ESIL certificate provides a unique training opportunity for students to combine a passion for protecting natural resources with a desire to communicate across diverse cultures and schools of thought. This unique program provides training, internships, and job placement for students interested in environmental issues involving tribal and non-tribal entities.

This certificate is available to full-time and part-time undergraduate students; post-baccalaureate students; and transfer students. Students from CU Denver and other institutions are invited to participate. While the certificate is open to students from all educational backgrounds, ESIL targets students majoring in science, technology, engineering, and mathematics (STEM).

Additionally, the ESIL certificate incorporates professional training through extracurricular activities and internships. The extracurricular activities provide students with culturally relevant exposure to topics such as tribal independence, environmental law, trans-cultural competency, and traditional ecological knowledge (TEK). Both the STEM curriculum and culturally relevant knowledge are applied during internships in which students practice facilitation as tribal liaisons with partner organizations.

The ESIL program is offered at the undergraduate level.

ESIL Academic Advisors

- Dr. David Mays (David.Mays@ucdenver.edu) in the Department of Civil Engineering
- Dr. Rafael Moreno-Sanchez (Rafael.Moreno@ucdenver.edu) in the Department of Geography and Environmental Sciences
- Dr. Timberley Roane (Timberley.Roane@ucdenver.edu) in the Department of Integrative Biology

Program Delivery

- This program is available with on-campus, online, and off-campus components. More information on delivery opportunities can be obtained from one of the ESIL certificate advisors.

Declaring This Certificate

Admission Requirements:

Students must officially declare their interest in enrolling in the ESIL certificate program following the link at <https://clas.ucdenver.edu/esil/>.

Upon enrollment in the ESIL certificate program, students participate in the ESIL program activities, complete at least one ESIL internship, and take the ESIL coursework. In addition to the certificate requirements, students are also required to complete any STEM courses identified by the ESIL program director.

Eligibility:

Students in any discipline are eligible for admission in the certificate. Students from a non-STEM background may have to complete STEM coursework to meet the STEM expectations of the certificate.

These program requirements are subject to periodic revision by the ESIL certificate advisors. Exceptions and substitutions for individual cases will be made by ESIL advisors only. Students in the ESIL program are required to meet with their assigned advisor before the start of each semester to confirm best plans of study.

General Requirements

Students must satisfy all requirements as outlined below.

- Click here (p. 107) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 12 credit hours of approved courses.
2. Students must complete a minimum of six upper division level (3000-level and above) credits from approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete a minimum of 12 credit hours of approved coursework with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. It is expected that students have a STEM background for completion of the certificate. For most STEM students, the STEM degree serves as the background needed. For non-STEM students, additional certificate related STEM coursework may be required. For the certificate recognition to appear on the student's transcript, students must meet all curricular and co-curricular requirements and meet with an ESIL advisor no later than the start of the semester of graduation.
2. Students must be enrolled in one course per year to maintain active status in the certificate program.
3. Participation is required in ESIL workshops and seminars.
4. ESIL internships are designed to expose students to the professional practice of facilitation and offer important connections and networking opportunities directly with agencies who hire tribal liaisons. Assignment and completion of the internship must be pre-approved by an ESIL advisor. The ESIL certificate requires a written report and presentation to demonstrate proficiency for each internship. The ESIL certificate requires at least one internship through the ESIL program. All students must work with their ESIL advisor for the placement in the required ESIL internship. Some majors may allow students to earn and apply internship credit toward their degree.
5. The ESIL certificate requires the courses listed below. Each course applied to the ESIL certificate may carry prerequisites that must be met prior to course enrollment.

Required courses

Code	Title	Hours
<i>Complete one of the following courses with guidance from an ESIL advisor:</i>		3
BIOL 3763	Biostatistics	
CVEN 3611	Engineering Statistics	
CVEN 5381	Introduction to Geographic Information Systems	
GEOG 4080	Introduction to GIS	
MATH 2830	Introductory Statistics	
MATH 4830	Applied Statistics	
<i>All students must complete an ESIL approved internship or equivalent coursework.¹</i>		3
BIOL 3939	Internship	
GEOG 3939	Internship	
<i>Complete two of the following elective courses:</i>		6
COMM 3271	Communication and Diversity ²	
ETST 3036	American Indian Cultural Images ²	
ETST 3110	Indigenous Studies	
MGMT 4100	Leveraging Diversity and Inclusion in Business ²	
PSCI/ETST 4144	Indigenous Political Systems	
PSCI/ETST 4146	Indigenous Politics	
Total Hours		12

¹ Students must work in advance with their ESIL advisor to have their internship and other coursework approved.

² These courses fulfill the core curriculum requirement for cultural diversity.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/esil/learning-outcomes/>).

Interdisciplinary Programs

Overview

Interdisciplinary programs encourage students to synthesize the theories, methods and analytical perspectives of diverse disciplines to bring new ways of understanding to particular themes or problems. Interdisciplinary studies foster research and teaching collaboration among faculty and students, who cross traditional academic specialties. Interdisciplinary programs also place a high value on reaching beyond the university into our local, national and global communities, providing students with real-world experiences through internships and experiential learning.

The college also has several established interdisciplinary programs leading to full undergraduate degrees, minors, certificates and graduate degrees. A brief description of each program follows, with a link to its respective program section.

Information

- Health is one of the fastest growing industries in the US and the Bureau of Labor Statistics has projected increasing demand and labor shortages for at least the next ten years. The CU Denver (p. 887) **Post-Baccalaureate Allied and Professional Health Sciences Certificate** was developed as an opportunity for the many students who already have a bachelor's degree and want to shift their career into this large and fast growing industry to improve employment opportunities and potential earnings.
- The increasing prominence of China in world affairs has made knowledge of Chinese language and cultures an asset in numerous fields. The innovative **Minor in Chinese Studies (p. 740)** offers a specialized study of China through coursework in the related disciplines of language, anthropology, history, geography, literature and political science.
- The **Civics, Public Policy and Equity (p. 893)** is designed to help students from any disciplinary major develop competencies and skills regarding United States civics from diverse perspectives. The certificate provides students with many course options to complete introductory and advanced coursework tailored to their individual interests. This certificate promotes civic engagement and participation in the political process.
- The explosive growth in data collection over the past 10 years is unlikely to slow any time soon. This has created a dramatic increase in demand for individuals who can understand how to make decisions and predictions in the context of uncertainty through use of experimental design, statistical methods, and programming, especially in the context of large data sets. This need spans many fields such as environmental applications of climate modeling over space and time, medical and genomic applications that use electronic medical records to correlate demographics, genetic data, and clinical outcomes over millions of individuals, national security applications (including real-time monitoring of internet trends), and manufacturing with real-time monitoring of features over a variety of processes to both troubleshoot and optimize manufacturing. Graduates of the **BS in Data Science (p. 653)** will be well-positioned to meet this need.
- From social media and mobile phones to the algorithms in self-driving cars, digital and information technologies are everywhere. The **Digital Studies Certificate** (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/cas-iinterdisciplinary-certificates/digital-studies-certificate/>) provides students with the opportunity to investigate the relationships between new communication technologies and society and to develop skills creating digital media messages and products.
- The (p. 950) **K-12 Teacher Licensure Programs**, in collaboration with the School of Education & Human Development, enable students to add educational training to their liberal arts and sciences discipline studies. Students can also pursue a BA/BS to MA in Teaching.
- The **Minor in Environmental Sciences (p. 535)** allows students to choose courses from the social sciences, physical sciences, engineering, humanities and statistics to create a unique program of study.
- The **Ethnic Studies BA (p. 496)** and the **Minor in Ethnic Studies (p. 497)** provide students the opportunity, through academic investigation, to develop a greater understanding of the cultural pluralism of the present day United States and to acquire skills needed in professional and social service fields.
- The **Individually Designed Major (IDMA) (p. 597)** gives students an opportunity to design a major that meet their unique needs and interests. Students pursue studies that combine coursework from two, three, or even more academic units to explore a particular theme. The IDM challenges students to ask questions that require thinking beyond a single discipline. Students may choose either an **Interdisciplinary Studies** or an **Integrated Health Studies (p. 602)** option for this degree.
- The **Integrated Studies (p. 607) BA (p. 608)** and **BS (p. 613)** provide students with maximum flexibility and multiple pathways through the curriculum, to complete a degree, through the combination of two course clusters. These degrees are designed to help students integrate coursework from different programs, to design a novel major. They are especially helpful for students who have switched majors, colleges or institutions, and are looking for a meaningful way to complete their degree. Students may complete these degrees fully online, if they choose.
- In a world where global commerce and politics have emerged as driving forces, the **International Studies Major (p. 663)** and the **International Studies Minor (p. 674)** provide students with innovative perspectives on changes that affect all of us. INTS is designed to provide students a thorough education in international issues while preparing them for global careers. These programs offer students the opportunity to develop a deeper understanding of complex international issues and the forces that are shaping our world.
- The **Minor in Health Humanities (p. 564)** explores the ethical, cultural, social and political contexts of health and medicine, providing an excellent addition to science-based curricula serving as a stand-alone program that addresses many current issues of interest to the humanities and social sciences.
- The **Humanities Minor (p. 595)** cultivates humanistic exploration through historically grounded texts and traditions. It teaches critical engagement with society's most pressing issues by developing a human-oriented perspective in which creativity and critical, theoretical thinking frame ethical being in the world.
- The **Minor in Law Studies** is intended to help students become intelligent and critical scholars of legal and political discourse. While the minor may be useful for students contemplating law school, it is also intended to appeal to a wider group of students interested in issues relating to law and society and careers in public policy related fields.
- The **Professional Skills Certificate (p. 897)** certificate is designed for undergraduate students seeking to acquire and enhance diverse workplace skills that are highly valued by today's employers. Students

will learn to communicate effectively, write persuasively, and develop proficiency in digital and media literacy or data literacy.

- The **Public Health Majors** enable students to get either a BA or BS degree in public health, depending on their focus. They may choose from over 100 electives in 14 academic departments, in addition to specific public health core courses.
- Religion involves the worldview of a culture, its social norms, ethics, and politics. In the private realm, religious experiences are among the most profound an individual can have. The (p. 844)**Minor in Religious Studies** fosters a nuanced understanding of religion, and cultivates critical skills evaluating religious phenomena.
- The **Minor in Social Justice** encourages students to recognize how democracy, education, consumerism, media, race, class and gender intersect. The minor fosters the many ways that our students are already engaged as citizens, the desirable possibilities that remain unrealized and their power to effect that actualization.
- Holistic approaches to sustainability practices in our daily living require a workforce that understands the various perspectives that address a broad optimistic framework. Students who complete the **Minor in Sustainability** will demonstrate a command of the language, structure and skills of multiple, relevant disciplines, and will be better prepared to take leadership in this complex, challenging field.
- The (p. 881)**Minor in Women's and Gender Studies** focuses students' attention on the centrality of gender and sexuality to understanding our past and present worlds. Students and faculty probe assumptions about men and women, and question structures of inequality as they play out in local and global contexts.

Graduate Information

Please go to the **Graduate** catalog to read about our graduate programs

Programs

- Liberal Arts and Sciences BA/BS, 4+1/ Teaching MA (p. 657)

Data Science, BS

Introduction

Please click here (p. 128) to see Business School information.

Please click here (p. 370) to see College of Liberal Arts and Sciences information.

Please click here (p. 298) to see College of Engineering, Design and Computing information.

The explosive growth in data collection over the past 10 years is unlikely to slow any time soon. This has created a dramatic increase in demand for individuals who can understand how to make decisions and predictions in the context of uncertainty through use of experimental design, statistical methods, and programming, especially in the context of large data sets. This need spans many fields such as environmental applications of climate modeling over space and time, medical and genomic applications that use electronic medical records to correlate demographics, genetic data, and clinical outcomes over millions of individuals, national security applications (including real-time monitoring of internet trends), and manufacturing with real-time monitoring of features over a variety of processes to both troubleshoot and optimize manufacturing. Graduates of the BS in Data Science will be well-positioned to meet this need.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 87 major credit hours, from approved courses.
2. Students must complete at least 30 upper-division (3000-level and above) credit hours in the major.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.25. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 15 upper-division level credit hours with CU Denver faculty.

Code	Title	Hours
<i>Complete the following BUSN courses:</i> ¹		15
BMIN 1000	Introduction to Business	
BMIN 2200	Career and Professional Development	
ISMG 3100	Data Governance and Ethics	
BANA 4110	Business Analytics Processes	
BANA 4120	Forecasting Techniques	
<i>Complete the following CSCI courses:</i> ¹		27
CSCI 2400	Data Structures and Program Design for Data Science	
CSCI 2800	Special Topics (Data Science Thinking)	
CSCI 3400	Databases for Data Science	
CSCI 3450	Algorithms for Data Science	
CSCI 4455	Data Mining	
CSCI 4580	Data Science	
CSCI 4930	Machine Learning	
CSCI 4931	Deep Learning	
CSCI 4951	Big Data Systems	
<i>Complete the following MATH courses:</i> ¹		36
MATH 1376	Programming for Data Science	
MATH 1401	Calculus I	
MATH 2411	Calculus II	
MATH 2421	Calculus III	
MATH 2700	Data Analysis with R and Other Tools	
MATH 2830	Introductory Statistics	
MATH 3191	Applied Linear Algebra	
MATH 3376	Data Wrangling & Visualization	
MATH 3382	Statistical Theory	
MATH 3810	Introduction to Probability	
MATH 4387	Applied Regression Analysis	
<i>Complete nine credits of 4000-level application domain electives</i>		9
Total Hours		87

¹ Courses are under development and may be subject to change. Students should meet with their advisor to check and confirm course registration.

The program's student learning goals that define what the students should know and be able to do by the time of graduation are to:

- *Math & Programming Skills:* Apply the math and programming skills necessary for the work of data science.
- *Data Cycle:* Explore technical and practical data science by applying the data cycle to transform data into knowledge.
- *Data Preparation:* Assess and improve the quality of data relative to analytical needs.
- *Data Management:* Address data challenges of volume, variety, and velocity to enable efficient and effective data analysis.
- *Data Analysis:* Apply techniques, methodologies, and technologies for various forms of data analysis such as data modeling and data mining.
- *Data Visualization:* Create visualizations of complex data and results for delivery to diverse audiences.
- *Data Storytelling:* Explain data and results in writing and verbally, equipping stakeholders to make data-informed decisions.

- *Data Ethics*: Assess ethical implications in data science, such as privacy and bias.
- *Application Domains*: Apply data science in a variety of domains, such as healthcare, social sciences, natural sciences, physical science, business, education, and public administration.
- *Interprofessional Collaboration & Teamwork*: Exhibit the qualities of an effective interprofessional collaborator as part of a data science team and within organizations with diverse roles.

Graduates will be able to demonstrate these capabilities in a broad range of data science activities. The degree will prepare students for careers as data analysts, data scientists, data strategist and many other diverse careers that rely on data, which is essentially every corner of the job market today.

The following plans of study are examples of pathways that students can follow, depending on their entry level MATH placement.

To review a list of courses will fulfill CU Denver Core Arts, Behavioral Science, Humanities and Natural and Physical Sciences with and without a lab, please check the CU Denver Core Curriculum. (p. 120)

Liberal Arts and Sciences BA/BS, 4+1/ Teaching MA

Introduction

Are you planning on teaching after graduation? The College of Liberal Arts and Sciences (CLAS) has partnered with the School of Education & Human Development (SEHD) to enable CU Denver undergraduates to get a jumpstart on their teaching careers. When you join the minor in Teacher Education (p. 977), you gain access to a 4+1 program that helps you earn your CLAS degree (p. 371), a Master's in Teaching (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/school-education-human-development/teacher-education/teaching-ma/#text>), (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/school-education-human-development/teacher-education/teaching-ma/#degreerequirementstext>) and would qualify for a Colorado Teaching License in five years.

The School of Education & Human Development (p. 898) at the University of Colorado Denver attracts students who are passionate about education and mental health. We match their passion with an education that is rooted in diversity, technology, proven approaches and real-world practice. That's why our graduates are prepared to make immediate and life-long impacts on people, communities and the world.

The minor in Teacher Education purposefully integrates fieldwork and coursework. It is designed to grow your teaching skills and knowledge to serve all students' learning.

This minor pairs nicely with a range of CLAS majors including Biology, Communication, English, Environmental Science, Ethnic Studies, Geography, History, Mathematics, Political Science, Psychology, Sociology, and Spanish.

The content of your bachelor's degree must match the teacher licensure area you want to pursue in the master's degree (e.g., a science-related degree for teaching secondary science).

Program Delivery

- This is a blended program with courses offered online, on campus, hybrid, and remote.

Declaring This Program

- Click [here](#) (p. 377) to go to information about declaring a major.
- Please meet with an undergraduate advisor in SEHD early on to ensure your major is aligned to the teaching license you are seeking.
 - Please contact [academic advisor Danielle Peralta](mailto:academicadvisor@ucdenver.edu) (Danielle.Peralta@ucdenver.edu). For more information, email academicservices@ucdenver.edu or call 303.315.6300.
- Students may sign up for the minor as early as sophomore year. Declare the minor by contacting the SEHD Academic Advisor Danielle Peralta (Danielle.Peralta@ucdenver.edu).

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. To earn this degree, students must satisfy all requirements for their chosen CLAS Bachelor's degree, (p. 371) complete the Teacher Education minor (p. 977) and fulfill the individual requirements for your their Master of Arts in Teaching (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/school-education-human-development/teacher-education/teaching-ma/>) (MAT)
2. Up to nine credits of the Teacher Education minor will be taken at the graduate level and apply to both the minor and the chosen MAT.
3. Students will complete an additional 27- 39 credits to finish the MAT degree.
4. Students must select and apply to their chosen MAT during the semester stated in the requirements below.
5. The process includes an essay, letters of recommendation, and an interview.
6. A 3.0 GPA and good standing in the program are required for admission.
7. Students must maintain a minimum 3.0 cumulative grade point average and receive a B- or better in all coursework.

Complete a CLAS major and the following Teacher Education Minor requirements:

General Requirements

The Teacher Education Minor is combined with an existing non-SEHD major and degree. Students must satisfy all requirements as outlined below, and those of the School of Education & Human Development applicable to the minor.

In this 4+1 pathway, students will be required to

- Minor in Teacher Education with the required courses taken during their undergraduate program
- Apply into the Master of Arts in Teaching (<https://education.ucdenver.edu/academics/graduate/teaching/#MAT>) SEHD program during semester two of the minor
- Graduate with their undergraduate degree
- Complete the one-year Masters of Teaching program which will also make them eligible for the appropriate Colorado teaching license

Click here (p. 900) for information about the School of Education & Human Development Academic Policies.

Program Requirements

Students must complete the 15 credits below in the order established with a minimum grade B- or better. An overall minimum of 3.0 is required for this minor. (Consult with a SEHD advisor for timing and specific requirements of this minor.)

Please contact Undergraduate Advising in the School of Education & Human Development at 303-315-6300 or academicsservices@ucdenver.edu for an appointment to discuss and plan your route through the Teacher Education Minor. The sequence of the courses required might vary depending on licensure.

Code	Title	Hours
<i>Semester One (of the Minor) Courses:</i>		6
EDFN 4010	Social Foundations and Cultural Diversity in Urban Education	
EDHD 2930	Learning & Development Field Experience & Seminar	
<i>Semester Two (of the Minor) Course:</i>		3
CLDE 5020	Responsive Classroom Communities	
Apply to the Masters of Teaching Program		
<i>Semester Three (of the Minor): Choose One General Course Applicable to Licensure</i>		6
Math, Science, Social Studies, English, Spanish, French, Special Education		
SPED 5030	Understanding (dis)Ability in Contemporary Classrooms	
Elementary		
LCRT 5710	Inclusive Early Literacy Development and Instruction	
<i>AND Choose One Content Course Applicable to Licensure</i>		
Math-		
MTED 5621	A World of (Different) Numbers: Quantity and Operation	
MTED 5622	Expanding Conceptions of Algebra	
MTED 5623	Geometrical Ways Of Reasoning	
Science-		
SCED 5500	The Nature of Science	
or SCED 5350	Issues and Trends in Science Education	
Social Studies, English, Spanish, French-

MTED 5400	Mathematics for Elementary Teachers	
Total Hours		15

Pathway Layout

- Complete an undergraduate major in CLAS.
 - To review Degree Maps for CLAS majors, please visit our website. (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>)
- Minor in Teacher Education with the required courses taken during your undergraduate program

- Apply into the Master of Arts in Teaching (<https://education.ucdenver.edu/academics/graduate/teaching/#MAT>) SEHD program during semester two of the minor
- Graduate with your CLAS undergraduate degree
- Complete the one-year Masters of Teaching program which will also make you eligible for the appropriate Colorado teaching license

International Studies

Overview

In a world where the forces of politics, commerce, culture, and technology are multifaceted and interconnected, the International Studies (INTS) major provides students with a much-needed global perspective. INTS is an interdisciplinary liberal arts degree that prepares students for international careers and graduate study. The INTS major offers students a deep understanding of complex international issues and the underlying drivers that are shaping our world. Employers seek the qualities of INTS graduates: historical knowledge, research ability, cross-cultural competence, teamwork and leadership experience, and the ability to analyze, model, and solve real-world problems. According to the National Association of Colleges and Employers (NACE), International Studies graduates earn higher starting salaries than any other social science major, except Economics. The INTS major provides students with the methodological tools necessary to analyze various regions of the world and global issues from different academic disciplines. Students take courses from departments including Anthropology, Business, Communication, Economics, Geography, History, Modern Languages, Political Science, and Religious Studies, among others. This combination of coursework, flexibility, and customization provides INTS majors a distinctive and valuable degree for today's world.

Undergraduate Information

Click here (p. 663) for information about the requirements for the Major in International Studies.

Click here (p. 674) for information about the requirements for the Minor in International Studies.

Joint BA/MA Programs

Highly-motivated students with strong GPAs in the INTS major may qualify for admission to a combined BA/MA program, with the BA in International Studies and MA in Political Science (PSCI) or Humanities or Social Science (MHMSS). This condensed graduate degree program allows students to double-count 5 graduate-level courses toward the BA and MA simultaneously and to complete the MA degree with only one extra year of coursework. Interested students should contact advisors in both the INTS program and Political Science or the Masters in Humanities or Masters in Social Science program to learn more about specific course plans and requirements. Note: Students who are approved to begin a joint BA/MA program must still apply to and be accepted by their chosen graduate program.

Click here (p. 672) for information about the requirements for the 4+1 BA in International Studies to MH or MSS.

Click here (p. 670) for information about the requirements for the 4+1 BA in International Studies to PSCI MA.

The International Studies program is an interdisciplinary major with faculty drawn from several independent academic departments. Check the program website for more details.

The international studies program is an interdisciplinary major with 100+ courses drawn from multiple academic departments. Below are only courses that have a distinct International Studies program (INTS) course subject code.

International Studies (INTS)

INTS 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

INTS 2020 - Foundations of International Studies (3 Credits)

Through a combination of lecture, discussion, and hands-on learning activities, students will develop skills and abilities necessary for academic and professional success in the international studies arena, especially critical thinking, connection building, conceptual understanding, and cultural awareness. The course is structured in three phases: (1) core interdisciplinary concepts; (2) regional foci; and (3) global issues. Note: Students may not receive credit for INTS 2020, if they have already received credit for INTS 2000. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

INTS 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"—our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with ETST 3003, HIST 3003, PHIL 3003, RLST 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

INTS 3939 - Internship (1-6 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

INTS 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with HIST 4002, CHIN 4002, ETST 4002, RLST 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

INTS 4152 - Religion & Communication (3 Credits)

This course focuses on the dynamics between religion, culture, and communication and how these have led to intercultural peace, centuries of war, and/or different visions of belonging. This class addresses these dynamics to improve intercultural dialogue and conflict resolution processes, foregrounding the search for justice. Cross-listed with COMM 4152, RLST 4152, COMM 5152, INTS 5152, and RLST 5152. Max hours: 3 Credits.

Grading Basis: Letter Grade

INTS 4611 - Rhetoric of Global Food Policy (3 Credits)

This course examines stakeholder relations, agendas, and debates about global food policy using rhetorical concepts and analysis. Topics include the framing of debates about agriculture, hunger and obesity, the greening of food governance, sustainable food systems, and more. This course fulfills the communication department's pathway course requirement. Cross-listed with COMM 4611. Prereq: Junior standing or higher. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

INTS 4700 - Special Topics (3 Credits)

Note: May be taken more than once for credit when topics vary. Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

INTS 4840 - Independent Study (1-3 Credits)

Directed study based on a specific subfield of international studies.

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

INTS 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

INTS 4990 - International Studies Capstone (3 Credits)

A capstone course for students in the International Studies major, the class is designed to facilitate independent student research in the field of international studies and assist students in developing advanced writing and communication skills. Prereq: Students in the course must be declared international studies majors in their final year of coursework (senior status is recommended preparation). Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to International Studies Majors only

Typically Offered: Fall.

INTS 4995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with INTS 5995. Term offered: Fall, Spring, Summer. Repeatable.

Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Fall, Spring, Summer.

International Studies, BA

Introduction

Please click here (p. 660) to see International Studies department information.

In a world where the forces of politics, commerce, culture, and technology are multifaceted and interconnected, the International Studies major provides students with a much-needed global perspective. International Studies is an interdisciplinary liberal arts degree that prepares students for international careers and graduate study. The International Studies major offers students a deep understanding of complex international issues and the underlying drivers that are shaping our world. Employers seek the qualities of International Studies graduates: historical knowledge, research ability, cross-cultural competence, teamwork and leadership experience, and the ability to analyze, model, and solve real-world problems. The INTS major provides students with the methodological tools necessary to analyze various regions of the world and global issues from different academic disciplines. Students can take courses from departments including Anthropology, Business, Communication, Economics, Ethnic Studies, Geography, History, Modern Languages, Political Science, and Religious Studies, among others. This combination of coursework, flexibility, and customization provides International Studies majors a distinctive and valuable degree for today's world.

Degree requirements are subject to periodic revision by the academic program, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 48 credit hours from the approved courses.
2. Students must complete a minimum of 24 upper-division (3000-level and above) credit hours in the major from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 24 credit hours with CU Denver faculty from the approved courses.

Program Restrictions, Allowances and Recommendations

1. Program Honors = 3.5 GPA within the major.
2. Students may use up to six internship credits toward international studies graduation requirements.
3. Students may use up to six credits of independent study toward international studies graduation requirements.
4. Up to two 2000 level or above Modern Language courses, not taught in English, may be counted as electives.
5. Students are strongly encouraged to reach proficiency in a second language, beyond the CLAS second language proficiency requirement. Students may take proficiency tests in languages to document existing language skills. Non-native English speakers may use English for their language proficiency.
6. Students are strongly encouraged to complete a High Impact Practice course, INTS 3939 Internship, INTS 4840 Independent Study, INTS 4880 Directed Research or any travel study or study abroad experience.
7. Students majoring in International Studies may choose MATH 1010 Mathematics for the Liberal Arts or MATH 2830 Introductory Statistics to complete their general education math requirement.

Code	Title	Hours
<i>Complete the following introductory courses:</i>		12
ANTH 2102 or COMM 4720	Culture and the Human Experience Dynamics of Global Communication	
ECON 2012 or INTB 3000	Principles of Economics: Macroeconomics Global Perspectives	
INTS 2020	Foundations of International Studies	
PSCI 3022 or PSCI 3042	Political Systems of the World World Politics	
<i>Complete one of the following regional History courses:</i>		3
HIST/ETST 3350	Colonial Latin America	
HIST 3451	Introduction to African History	
HIST 3460	Modern Latin American History	
HIST 3470	Intro to East Asia: Since 1800	
HIST 3480	Introduction to European History	
HIST 3500	African History in Novels and Films	
HIST 4083	Russia Since 1917	
HIST 4086	Eastern Europe	
HIST/CHIN 4421	Modern China	
HIST 4431	Modern Japan	
HIST 4461	The Modern Middle East	
<i>Complete the International Studies Capstone in the final year of the program.</i>		3
INTS 4990	International Studies Capstone ¹	
<i>Complete 30 elective credit hours drawn from internationally themed courses. A minimum of 24 credits must be upper-division (3000 or 4000 level). Students must take courses in at least two different disciplines (subject codes). ²</i>		30
<i>Students may complete any two courses from Modern Languages at 2000 level or above that are not taught in English.</i>		
<i>The list below is representative of courses that will apply to the major. Various Global Education/Study Abroad courses may not appear on the approved list of courses. Please consult with an International Studies advisor for current offerings.</i>		
ANTH 3000	Globalization, Migration and Transnationalism	
ANTH 3121	Language, Culture, and Communication	
ANTH 3142	Cultural Diversity in the Modern World	
ANTH/PBHL 3200	Human Migration: Nomads, Sojourners, and Settlers	
ANTH 4010	Medical Anthropology: Global Health	
ANTH/PBHL 4080	Global Health Practice	
ANTH/PBHL 4090	Psychedelic Anthropology	
ANTH 4200	Gender in Cross-Cultural Perspective	
ANTH 4230	Fieldwork Methods	
ANTH 4300	Immigrant Health	
ANTH 4320	Archaeology of Mexico and Central America	
ANTH 4350	Anthropology of Globalization	
CHIN 2970	Contemporary Chinese Cinema	
CHIN 3200	Contemporary Chinese Society and Culture	
CHIN 3300	Special Topics on Chinese Film	
CHIN 3840	Independent Study: CHIN	
CHIN 3995	Global Study Topics	
CHIN 4880	Directed Research	
COMM 3230	Chinese Communication & Culture in Context	
COMM 3271	Communication and Diversity

Total Hours**48**

- ¹ Students who are unable to complete INTS 4990 as the Capstone should consult with their major advisor and gain approval for an alternative option. Options to consider include: taking and completing HUMN/SSCI 5013 - Interdisciplinary Methods and Practice with a C- or higher; (b) completing an approved competitive internship with a C- or higher; (c) earning program honors with directed research; (d) participating in the United Nations summer course.
- ² Courses on international and global topics may come from Anthropology, Communication, Economics, Ethnic Studies, Geography, History, Political Science, or other departments. Pre-approved courses have been clustered by department to guide student selection. Other courses may be approved with permission of an International Studies program advisor. More recent course updates and thematic groupings of course may be found on the International Studies program website.

International Studies, 4 + 1 BA/ Political Science, MA

Introduction

The 4+1 accelerated Master's program in Political Science is an expedited program of study that allows students to complete a Bachelor's degree in International Studies and a Master's degree in Political Science in as few as 5 years. Students will follow the undergraduate curriculum for International Studies and work closely with their faculty advisor to begin taking Political Science graduate level coursework as they complete their undergraduate degree. They will complete no more than 15 credits as an undergraduate that will apply to both their undergraduate and graduate degrees. Students may officially declare their intent to complete this program in either their junior or senior year, and may apply to the graduate program during their senior year. Application requirements may differ from the traditional 2-year MA, which is why students need to work closely with faculty advisors and the political science graduate program director for more information and to ensure they are following the best track to complete coursework so that they only have one year after completing the undergraduate degree, to complete the graduate requirements.

Please click here (p. 660) to see International Studies program information.

Please click here (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/political-science/>) to see Political Science department information.

Program Delivery

- This is an on-campus program.

Declaring this Program

Click here (p. 377) to go to information about declaring a major.

The INTS 4+1 BA/MA program is open to any INTS major who has reached junior-level status (completed 60-credit hours of coursework) with a GPA greater than 3.0. Students eligible to declare the INTS BA/MA degree program must be active CU Denver students who have competed at least one semester in residence at CU Denver, including at least two CU Denver PSCI courses.

In order to declare the INTS 4+1 BA/MA program prior to completion of the BA degree, interested students should consult with both the INTS undergraduate and PSCI graduate advisors. Students must complete a 4+1 BA/MA degree intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary. Completed 4+1 degree declaration forms are submitted to CLAS Advising for processing.

All students who have declared the 4+1 degree program option as undergraduates must submit a formal application through the CU Denver Graduate Admission's online application system during their final semester of undergraduate coursework. The department's preferred application deadlines are April 1 (summer term), May 1 (fall term), and November 1 (spring term).

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged

necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major and graduate advisors and CLAS advisor to confirm the best plans of study before finalizing them.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students will follow the undergraduate curriculum for International Studies (p. 663) and work closely with their faculty advisor to begin taking Political Science graduate level coursework as they complete their undergraduate degree.
2. A minimum of 48 undergraduate credit hours in the International Studies program and 33 graduate credits hours in Political Science must be completed to earn both an undergraduate and a graduate degree through this 4+1 program.
3. Up to 15 graduate level credit hours in Political Science may be taken by International Studies undergraduates accepted to the 4+1 program, and these credits will count both towards completion of the International Studies undergraduate degree, and the graduate degree in political science, if the student is later accepted into the graduate program. No more than 15 credit hours may "double-count" for the M.A.. Elective courses must be in accordance with Graduate Education Policies, therefore, meeting with an advisor regularly is recommended.
4. Students must complete a minimum of 24 upper-division (3000-level and above) credit hours and all graduate level credits with CU Denver faculty.
5. Students should officially declare their intent to complete this program by their junior year and apply to the graduate program during the semester they intend to graduate with their BA.
6. Students must earn a minimum grade of C- (1.7) in all undergraduate major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.5.
7. Students must earn a minimum grade of B- (2.7) in any graduate level course for it to later be counted towards graduate degree requirements.
8. No course taken as P+/P/F or S/U may be counted.
9. To secure admission to the Political Science graduate program, submit formal graduate application during the senior year.
10. Application requirements may differ from the traditional 2-year MA, which is why students need to work closely with faculty advisors and the political science graduate program director for more information and to ensure they are following the best track to complete coursework so that they only have one year after completing the undergraduate degree, to complete the graduate requirements for Political Science (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/political-science/political-science-ma/>).

To learn more about the learning outcomes for the International Studies undergraduate program, please visit our website. (<https://clas.ucdenver.edu/international-studies-learning-outcomes/>)

To learn more about the learning outcomes for the Political Science graduate program, please visit our website (<https://clas.ucdenver.edu/polisci/graduate/>).

International Studies, 4 + 1 BA/ Humanities, MH or Social Sciences, MSS

Introduction

The International Studies BA/MHMSS (Master of Humanities/Master of Social Science Program) in the College of Liberal Arts and Sciences provides an expedited interdisciplinary program of study that allows participating students to complete an interdisciplinary Bachelor degree in International Studies and an interdisciplinary Master degree in Humanities or Social Science through the MHMSS program in five years. INTS students interested in participating in the combined degree apply no earlier than their first semester of junior-year standing as an undergraduate. Students may further choose to concentrate in one of the MH or MSS tracks. (For track information, see descriptions of the MH and MSS degree programs in the graduate catalog.) Upon acceptance, students take a maximum of 15 credit hours of graduate-level courses beginning the second semester of their junior year (or its equivalent) and through the whole of their senior year. Because these classes "double count," they fulfill requirements for both the BA major and the Master degree in Humanities or Social Science. Students then apply for admission to the MH or MSS program to continue graduate studies exclusively in the chosen degree plan, either MH or MSS, to complete their master degree by the end of their fifth year in CLAS at CU Denver.

All students who have declared the 4+1 degree program option as undergraduates must submit a formal application through the CU Denver Graduate Admission's online application system during their final semester of undergraduate coursework. The department's preferred application deadlines are April 1 (summer term), May 1 (fall term), and November 1 (spring term).

Please click here (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/humanities/>) to see more information about the Humanities department.

Please click here (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/social-science/>) to see more information about the Social Science department.

Please click here (p. 660) to see International Studies program information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major and graduate advisors and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Admissions Requirements and Process

- Interested students should contact their INTS advisor and the MH or MSS advisor as early as possible to ensure proper planning for the five year degree.
- Student and faculty will work together to submit an intent to complete the program form to CLAS Advising.
- To qualify, students must have a 3.0 or higher GPA in CLAS. All courses taken at the 4000- and 5000-level must be completed with at least a B or higher.
- To secure admission to the Master's in Humanities or Master's in Social Science graduate program, students must apply to the graduate program during the semester in which they will successfully complete their degree, and should have most of their general education and major requirements completed by this time.
- Application requirements may differ from the traditional 2 year MH/MSS, which is why students must work closely with faculty advisors and the Humanities or Social Sciences graduate program directors for more information and to ensure they are following the best track to complete coursework so that they may complete Humanities or Social Sciences master degree requirements one year after completing the undergraduate degree.

Program Requirements

1. Students in the 5-year INTS BA/MHMSS Program must satisfy all existing requirements for both an undergraduate degree in CLAS with a major in International Studies (p. 663) and a Master of Humanities (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/humanities/humanities-mh/>) or Social Science (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/social-science/social-science-mss/>) degree. These requirements can be fulfilled through multiple possible paths through the department's curriculum.
2. A minimum of 48 undergraduate credit hours in the International Studies program and 36 graduate credits hours in Humanities or Social Sciences must be completed to earn both an undergraduate and a graduate degree through this 4+1 program.
3. Up to 15 graduate level credit hours in Humanities or Social Sciences coursework may be taken by International Studies undergraduates accepted to the 4+1 program, and these credits will count both towards completion of the International Studies undergraduate degree, and the graduate degree, if the student is later accepted into the graduate program. No more than 15 credit hours may "double-count" for the MH/ MSS. Elective courses must be in accordance

with Graduate Education Policies, therefore, meeting with an advisor regularly is recommended.

4. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.5. Students cannot complete major or ancillary course requirements as P+/P/F or S/U.
5. Students must earn a minimum grade of B- (2.7) in any graduate level course for it to later be counted towards graduate degree requirements.
6. Students must complete a minimum of 24 upper-division (3000-level and above) credit hours and all graduate level credits with CU Denver faculty.

Program Options

BA/MHMSS students may choose to do a general MH or MSS degree or select a track concentration within the degree plan, including Social Justice, Philosophy and Theory, Visual Studies, Women's and Gender Studies, Ethnic Studies, International Studies, Community Health, and Society and Environment.

To learn more about the learning outcomes for the International Studies undergraduate program, please visit our website. (<https://clas.ucdenver.edu/international-studies-learning-outcomes/>)

To learn more about the learning outcomes for the Master of Humanities and Master of Social Science graduate degrees, please visit our website. (<https://clas.ucdenver.edu/mhmss/mhmss-degree-information/>)

International Studies Minor

Introduction

Please click here (p. 660) to see International Studies program information.

As the globe becomes increasingly connected, students gravitate towards classes that provide the interdisciplinary skills and international awareness required for success in the 21st century. The International Studies minor at CU Denver offers students a unique opportunity to create an individually tailored and relevant minor based upon a spectrum of international Liberal Arts classes.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor, and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus and online program, available to students at the Denver campus and International College of Beijing.

Declaring This Minor

- Denver students: please see your CLAS advisor.
- ICB students: please see the International Studies advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 18 credit hours from the approved courses.
2. Students must complete a minimum of 15 upper-division (3000-level and above) credit hours in the minor from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine credit hours with CU Denver faculty from the approved courses.

Program Restrictions, Allowances and Recommendations

1. Students cannot take more than two upper-division courses from the same department for the minor, including the introductory course.
2. The maximum amount of credit hours a student could receive through independent study courses is six.
3. Students may be able to complete all 18 credits via online courses.
4. Additional courses may be considered by individual request. Please contact Alison.Shah@ucdenver.edu

Code	Title	Hours
<i>Complete one of the following introductory courses:</i>		3
INTS 2020	Foundations of International Studies ¹	
PSCI 3022	Political Systems of the World	
PSCI 3042	World Politics

¹ Students who do not select INTS 2020 (<https://catalog.ucdenver.edu/search/?P=INTS%202020>) Foundations of International Studies for their introductory course are permitted to take that course to fulfill one of the five upper division elective courses.

² Students are encouraged to select a 3000- or 4000-level seminar in a discipline other than their major to ensure that high level work in another field is being performed.

Courses on international and global topics may come from Anthropology, Communication, Economics, Ethnic Studies, Geography, History, Political Science, or other departments. Pre-approved courses have been clustered by department to guide student selection. Other courses may be approved with permission of an International Studies program advisor. More recent course updates and thematic groupings of course may be found on the International Studies program website.

To learn more about the Student Learning Outcomes for this program, please visit our website. (<https://clas.ucdenver.edu/international-studies-learning-outcomes/>)

Law Studies

Coordinator: Omar Swartz (MHMSS), JD, Duke University; PhD, Purdue University

Telephone: 303-315-3567

E-mail: Omar.Swartz@ucdenver.edu

Overview

The law studies minor at CU Denver is an interdisciplinary course of studies intended to help students become intelligent and critical scholars of legal and political discourse. While the minor may be useful for students contemplating law school, it is also intended to appeal to a wider group interested in issues relating to law and society and careers in public policy-related fields. The minor is designed to achieve the following three interrelated goals:

- to introduce students to the major areas of law that affect life in the United States and important legal issues that influence current events;
- to enable students to become familiar and fluent with a legal vocabulary and legal reasoning; and
- to better prepare students with the analytical and conceptual tools to be critical citizens in our constitutional democracy.

In addition to these goals, students who complete the minor with the intention of attending law school may find themselves more prepared than they otherwise would be for the often mystifying and rigorous first year of law school. To help these students, the program contains an advising component which assists students who are contemplating law school to provide them with a realistic appraisal of law school and of the legal profession. The counselors will aid students with the law school application process.

Click here (p. 680) for more information about the Minor in Law Studies.

Programs

- Law Studies Minor (p. 680)

Social Sciences (SSCI)

SSCI 3939 - Internship (1-12 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

SSCI 4025 - Legal Advocacy/Engagement (3 Credits)

This course is an introduction to litigation practice skills in the context of cutting-edge litigation to create social change. Students will participate in mock litigation activities including conducting legal research, writing briefs, deposing witnesses, and making oral argument. The course will assist students in understanding basic legal advocacy while exploring the ways in which the legal system facilitates or stymies social change. The class is designed to be highly interactive, with a strong emphasis on learning-by-doing and collaborative problem-solving. It is intended for students with a strong interest in attending law school who are committed to preparing themselves for that experience by working with material that maybe initially unfamiliar or daunting. If students undertake that challenge, they can expect to leave the class better prepared for law school and knowledgeable about how law is used to achieve social change. Note: Law Studies students should take this course as one of the last courses for the minor. Max hours: 3 Credits.

Grading Basis: Letter Grade

SSCI 4050 - Special Topics in Law Studies (3-6 Credits)

These topics courses are concerned with specialized aspects of the study of law within the social sciences from various theoretical and research perspectives. These courses are interdisciplinary and serve as a forum for discussion specific to students interested in law studies. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

SSCI 4060 - Topics in Law Studies: Constitutional Thought (3-6 Credits)

These topics courses are concerned with specialized aspects of the study of constitutional thought as related to law studies. These courses are interdisciplinary and serve as a forum for discussion specific to students interested in law studies. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

SSCI 4070 - Topics in Law Studies: Social Context of Law (3-6 Credits)

These topics courses are concerned with specialized aspects of the study of the social context of law. These courses are interdisciplinary and serve as a forum for discussion specific to students interested in law studies. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

SSCI 4251 - Introduction to Legal Studies (3 Credits)

A survey of the United States legal system, including lawmaking powers, jurisdiction, court procedures, professional ethics and major principles of business law, contracts, estates and probate, family law, property and torts. Cross-listed with HUMN 4251/HUMN 5251/SSCI 5251. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SSCI 4325 - First Amendment: Theory and Context (3 Credits)

First Amendment jurisprudence including free speech/responsibility, sedition/seditious libel/dissent, prior restraints, time/place/manner restrictions, hate/intimidating speech, defamation, privacy/security tensions, intellectual property/public good, advertising, corporate speech, sexual expression, and public status of religion. Cross-listed with HUMN 4325, HUMN 5325, SSCI 5325, PSCI 4325 and PSCI 5325. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SSCI 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with HUMN 4770, HUMN 5770, IDST 5770, IDST 4770, SSCI 5770, WGST 5770, WGST 4770, SJUS 4770, SJUS 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SSCI 4840 - Independent Study (1-3 Credits)

Directed study based on a specific subfield of social sciences. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer.

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

SSCI 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

Law Studies Minor

Introduction

Please click here (p. 678) to see Law Studies department information.

The Minor in Law Studies at the University of Colorado Denver (CU Denver) is an interdisciplinary course of studies intended to help students become intelligent and critical scholars of legal and political discourse. While the minor may be useful for students contemplating law school, it is also intended to appeal to a wider group of students interested in issues relating to law and society and careers in public policy related fields. The minor is designed to achieve the following three interrelated goals.

First, to introduce students the major areas of law that affect life in the United States and important legal issues that influence current events. **Second**, to enable students to become familiar and fluent with a legal vocabulary and legal reasoning. **Third**, to better prepare students with the analytical and conceptual tools to be critical citizens in our constitutional democracy. In addition to these goals, students who complete the minor and who intend to attend law school may find themselves more prepared than they otherwise would be for the often mystifying and rigorous first year of law school. To help these students, the program contains a strong advising component which assists students who are contemplating law school to provide them with a realistic appraisal of law school and of the legal profession. The counselors will aid students with the law school application process.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- To apply for this minor, students must complete and submit a major/minor change declaration form to the CLAS Advising Office in North Classroom, 1030.
- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 18 credit hours in the minor from the approved courses.
- Students must complete a minimum of 18 upper division (3000-level and above) credit hours.
- Students must earn a minimum grade of C (2.0) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.

- Students must complete a minimum of 12 credit hours for the minor with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- At least 12 credits must be taken in residence at CU Denver from CU Denver faculty. Students may transfer up to 6 credits at the discretion of the director.
- Courses taken for a student's major cannot be used to fulfill any requirements for the minor unless prior permission is granted by the minor coordinator.
- Every course used to complete minor requirements must be upper-division (3000-level and above).

Code	Title	Hours
Complete the following program requirements:		
<i>Complete the following Foundations courses:</i>		6
HUMN 4251	Introduction to Legal Studies	
SSCI 4025	Legal Advocacy/Engagement	
<i>Complete two of the following Constitutional Thought courses:</i>		6
PSCI 4477	Constitutional Law I	
PSCI 4487	Constitutional Law II	
SSCI 4060	Topics in Law Studies: Constitutional Thought	
SSCI 4325	First Amendment: Theory and Context	
<i>Complete two of the following Social Context of Law courses:¹</i>		6
BLAW 3050	Business Law and Ethics	
COMM 3231	Famous U.S. Trials	
CRJU 4430	Law and Society	
PHIL 4260	Why Obey the Law? Introduction to Philosophy of Law	
PSCI 4827	Women and the Law	
PSYC 3505	Psychology and the Law	
SOCY 4700	Sociology of Law	
SSCI 4070	Topics in Law Studies: Social Context of Law	
Total Hours		18

¹ Students may substitute one Constitutional Thought course for one of the Social Context of the Law courses.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/mhmss/undergraduate-law-studies-minor/>).

Mathematical and Statistical Sciences

Chair: Julien Langou

Associate Chair: Stephen Hartke

Administrative Assistant III: Kayla Spencer

Office: Student Commons Building, 4th Floor

Telephone: 303-315-1700 (department)

Fax: 303-315-1704

Website: www.math.ucdenver.edu (<http://www.math.ucdenver.edu>)

Department Email: mathstats-staff@ucdenver.edu

Overview

The Department of Mathematical and Statistical Sciences at the University of Colorado Denver offers degrees and certificates at the undergraduate and graduate levels in mathematics, applied mathematics, data science, and statistics through coursework, research and industrial collaboration. Traditional courses such as calculus, linear algebra, probability, statistics and discrete mathematics are offered regularly by the department. In addition, contemporary subjects such as high-performance computing; numerical analysis, optimization, statistical methods, and operations research are also well represented by course offerings and faculty interests. In all of its activities, the department embodies the outlook that mathematics, statistics, computing and data science are powerful tool that can be used to solve problems of immediate and practical importance.

Apart from the specialized mathematical and statistical skills acquired through course work, the degrees and certificates also provide general skills that are valued by many employers. These skills include problem solving, critical thinking, analysis, facility with data, the ability to process quantitative information, and perhaps most important of all, the ability to learn new skills and concepts quickly.

Center for Computational Mathematics

Director: Jan Mandel

Website: <http://ccm.ucdenver.edu/>

The Center for Computational Mathematics is composed of faculty members who have an interest in computational mathematics, the study of solving mathematical problems with computers. The center resides in the Department of Mathematical and Statistical Sciences and includes faculty members from various other departments. The primary goal of the center is to foster research in computational mathematics and to maintain a strong educational program at all levels. It has extensive ties with industry along the Front Range and with government laboratories throughout the nation. It offers students an excellent opportunity to receive training and experience in this exciting new field. The center operates several supercomputing clusters.

Math Clinic

Website: <https://clas.ucdenver.edu/mathematical-and-statistical-sciences/math-clinic> (<https://clas.ucdenver.edu/mathematical-and-statistical-sciences/math-clinic/>)

Each semester, the mathematical and statistical sciences department conducts math clinics that are open to both undergraduate and graduate students. Each clinic is sponsored by a business, government agency or research organization. The clinic sponsor provides a specific project on which students work with the supervision of a faculty member and a sponsor representative. Every clinic produces a final report to the

sponsor and provides participating students with an opportunity to apply mathematics to relevant problems. Recent math clinic sponsors include Raytheon, Lockheed Martin, Xenometrix, Budget Truck Rental and United Launch Alliance.

Statistical Consulting Service

The Department of Mathematical and Statistical Sciences regularly offers a graduate course in statistical consulting in which students work on problems provided by researchers and clients at CU Denver and in the Denver metropolitan area. Potential clients should contact the department at 303-315-1700.

Undergraduate Information

Director: Adam Spiegler

The Department of Mathematical and Statistical Sciences offers a BS program that provides broad training in mathematics with the option of specializing in one of four areas of special emphasis, or simply satisfying the requirements without specifying an area. The four areas of emphasis are: applied mathematics, probability and statistics, data science, and economics.

To determine which math course a student should take first, see the Department of Mathematical and Statistical Sciences webpage (www.math.ucdenver.edu (<http://www.math.ucdenver.edu>)).

Students with potential transfer credit that was not automatically accepted upon admission should request the course be evaluated by following the Transfer Course Evaluation Process (p. 377) as outlined in the College of Liberal Arts Policy section of this catalog. Questions about the transfer evaluation process should be directed to clas.transfer@ucdenver.edu.

Click here (p. 377) to go to information about declaring a major. Once a major is declared, students should contact the Department of Mathematical and Statistical Sciences to meet with a math advisor, and continue to do so at least once per semester. All mathematics majors should visit the CLAS Advising Office (p. 115) to have graduation requirements checked at a minimum the semester prior to graduation.

Please click here (<https://clas.ucdenver.edu/mathematical-and-statistical-sciences/undergraduate-programs/>) to learn more about the MATH programs on their website.

Graduation With Honors

The mathematical and statistical sciences department recognizes students who complete the undergraduate program with distinction.

To be eligible for graduation with honors at the *cum laude* level a student must graduate with an overall GPA of 3.2 or better for the last 60 credit hours taken at University of Colorado Denver and either:

- Option 1: Have a GPA of 3.7 or better in upper-division math courses taken at CU Denver, **or**
- Option 2: Have a GPA of 3.5 or better in upper-division math courses taken at CU Denver and must complete an honors project.

To be eligible for graduation with honors at the *magna cum laude* level a student must graduate with an overall GPA of 3.2 or better for the last 60 credit hours taken at University of Colorado Denver and either:

- Option 1: Have a GPA of 3.85 or better in upper-division math courses taken at CU Denver, **or**

- Option 2: Have a GPA of 3.7 or better in upper-division math courses taken at CU Denver and must complete an honors project.

To be eligible for graduation with honors at the *summa cum laude* level a student must graduate with an overall GPA of 3.2 or better for the last 60 credit hours taken at University of Colorado Denver and satisfy **all** of the following:

- Have a GPA of 3.7 or better in upper-division math courses taken at CU Denver and must complete an honors project.
- When a recommendation for Honors at the Summa Cum Laude level is brought to the department as a motion, a vote will be taken and such a motion must be passed by a two-thirds majority of those voting at the meeting.
- Considerations such as overall quality of the candidate's honors project, outreach, community, other extra-curricular activities relating to mathematics.

Undergraduate Applied Statistics Certificate

Director: Daniel Klie

Email: Daniel.Klie@ucdenver.edu (Joshua.French@ucdenver.edu)

There is a growing need for qualified statistical analysts of the ever-increasing amounts of data collected in business, industry, and government. The certificate in applied statistics program is designed to give students a strong background in statistical methodology and data analysis in preparation for opportunities in the workforce or for graduate studies. The Department of Mathematical and Statistical Sciences offers certificates in applied statistics at both the undergraduate and graduate levels.

Click here (p. 705) to learn about the Undergraduate Applied Statistics Certificate.

Undergraduate Certificate in Data Science Essentials

Director: Adam Spiegler

Email: math.advising@ucdenver.edu

Data scientists will have essential competencies in several areas related to analysis of data. In particular, a data scientist should: have strong programming ability in a language popular in data science (e.g., Python, R, Julia); be able to extract, manipulate, and visualize data; have an understanding of probability and statistics in order to quantify uncertainty; be able to build complex models for finding patterns and explaining data. This certificate should provide students with essential skills for introductory data science.

Click here (p. 707) to learn about the Undergraduate Certificate in Data Science Essentials

Graduate Information

Please go to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/mathematical-statistical-sciences/>) catalog to read about our graduate programs.

Daniel Klie, MS, University of Colorado Denver

International College of Beijing Faculty:

Thomas Dunn, PhD, North Dakota State University

Joseph Quarcoo, PhD, University of South Florida

Research Faculty:

Aime Fournier, PhD, Yale University

Emeritus Faculty:

William Briggs, Professor Emeritus, PhD, Harvard University

William E. Cherowitzo, Professor Emeritus, PhD, Columbia University

Kathryn L. Fraughnaugh, Professor Emeritus, PhD, University of Houston

Michael S. Jacobson, Professor Emeritus, PhD, Emory University

Andrew Knyazev, Professor Emeritus, PhD, Russian Academy of Sciences

Lance Lana, Instructor Emeritus, MS, University of Colorado Denver
Weldon A. Lodwick, Professor Emeritus, PhD, Oregon State University
J. Richard Lundgren, Professor Emeritus, PhD, Ohio State University
Stanley E. Payne, Professor Emeritus, PhD, Florida State University

Mathematics Courses

MATH 1010 - Mathematics for the Liberal Arts (3 Credits)

Designed to give liberal arts students the skills required to understand and interpret quantitative information that they encounter in the news and in their studies, and to make quantitatively-based decisions in their lives. Topics include a survey of logic and analysis of arguments, identifying fallacies in reasoning, working with numbers and units, linear and exponential relations and essentials of probability and statistics. The emphasis is on applications with case studies in economics, finance, environmental sciences, health, music and science. Note: This course assumes that students have knowledge equivalent to three years of high school mathematics (two years of algebra). Requisite: In order to promote student success, any student who has an ACT MATH score less than 19 (or equivalently an SAT MATH score less than 520) AND a H.S. GPA of less than 3.25 will be required to enroll in the one credit hour co-requisite workshop MATH 1011. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1
 Grading Basis: Letter Grade

In order to promote student success, any student who has an ACT MATH score less than 19 (or equivalently an SAT MATH score less than 520) AND a H.S. GPA of less than 3.25 will be required to enroll in the one credit hour co-requisite workshop MATH 1011.
 Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.
 Typically Offered: Fall, Spring, Summer.

MATH 1011 - Math for Liberal Arts Workshop (1 Credit)

Prepares students for college-level mathematics. Students receive one-on-one and small-group instruction on mathematics topics related to college level mathematics success. Coreq: MATH 1010. Term offered: fall, spring. Max hours: 1 Credit.
 Grading Basis: Letter Grade
 Coreq: MATH 1010
 Typically Offered: Fall, Spring.

MATH 1060 - Finite Mathematics (3 Credits)

This course is designed to introduce students to mathematics topics commonly encountered by business students. This course meets the universities CORE mathematics requirement. The topics include linear equations and inequalities, linear, quadratic, exponential and logarithmic functions, simple, compound and continuous interest, future and present value annuities, amortization, systems of equations, linear programming, logic, sets and probability. Graphing technology is used extensively and business applications are emphasized throughout. Terms offered: Fall and Spring. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Additional Information: Denver Core Requirement, Mathematics.

MATH 1070 - College Algebra for Business (3 Credits)

Covers the same mathematical topics as College Algebra, MATH 1110, but with business applications. Note: Graphics calculator required. Note: Students may not receive credit for this course if they have already received credit for MATH 1110 or MATH 1130. Note: 24 on ACT-Math, 560 on SAT-Math or above average performance in intermediate algebra, algebraic literacy or integrated math are strongly recommended as preparation for this course. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-MA1, Mathematics.

MATH 1080 - Calculus for Social Sciences and Business (3 Credits)

A one-semester course in single-variable calculus. Topics include limits, derivatives, differentiation rules, integration and integration rules. Emphasis is on applications to business and social sciences. Note: No knowledge of trigonometry is required. Those planning to take more than one semester of calculus should take MATH 1401 instead of MATH 1080. Prereq: MATH 1070 or MATH 1110 with a C- or higher is required for students to register for this course. No co-credit with MATH 1401. Max hours: 3 Credits.

Grading Basis: Letter Grade

MATH 1070 or MATH 1110 with a C- or higher

MATH 1108 - Stretch College Algebra-Part 1 (3 Credits)

This course is the first half of a two-semester sequence (consisting of MATH 1108 followed by MATH 1109). The two-semester course sequence is equivalent to MATH 1110 (College Algebra). The topics in algebra are designed for students who intend to take the calculus sequence. An in-depth study of functions, linear and quadratic equations, circles, inequalities, domain & range, piecewise and transformation of functions, mathematical modeling and select other topics are explored. Desmos graphing technology is used extensively and students will review algebraic skills such as factoring and completing the square, graphing techniques and function properties where needed. Applications are emphasized. Note: No co-credit with MATH 1070, MATH 1110 or MATH 1130. Max hours: 3 Credits.
 Grading Basis: Letter Grade

MATH 1109 - Stretch College Algebra-Part 2 (3 Credits)

This course is the second half of a two-semester sequence (consisting of MATH 1108 followed by MATH 1109). The two semester course sequence is equivalent to MATH 1110 (College Algebra). The topics in algebra are designed for students who intend to take the calculus sequence. Data scatter plots and curve fitting, solving equations, polynomial functions, rational functions, exponential and logarithmic functions and selected other topics are explored. Desmos graphing technology is used extensively and students enrolled in MATH 1109 will review algebraic skills such as solving linear and quadratic equations, factoring and completing the square, graphing techniques and function properties where needed. Applications are emphasized. Note: No co-credit with MATH 1070, MATH 1110 or MATH 1130. Prereq: MATH 1108 with a C- or higher. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Pre: MATH 1108 with C- or higher.
 Additional Information: Denver Core Requirement, Mathematics.

MATH 1110 - College Algebra (4 Credits)

Topics in algebra designed for students who intend to take the calculus sequence. Functions, domains, ranges, graphs, data scatter plots and curve fitting, solving equations and systems of equations, polynomial, rational, exponential and logarithmic functions and other topics.

Applications are emphasized. Note: Students may not receive credit for this course if they have already received credit for MATH 1070 or MATH 1130. Prereq: MATH 1109 or MATH 1070 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA10 or MA30 or MA01 Student Group OR ALEKS PPL score 46-100. If you have any questions or concerns about this requisite, please notify MATH.Placement@ucdenver.edu. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

MATH 1109 or MATH 1070 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA10 or MA30 or MA01 Student Group OR ALEKS PPL score 46-100.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: Fall.

Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

MATH 1120 - College Trigonometry (3 Credits)

Topics in trigonometry, analytic geometry, and elementary functions designed for students who intend to take the calculus sequence. Angles and trigonometry functions of acute angles, analytic trigonometry, fundamental trigonometric functions and identities including hyperbolic trigonometry, parametric equations, and polar coordinate system. Graphic calculators and/or computer algebra systems are used extensively.

Applications are emphasized. Prereq: MATH 1109 or MATH 1070 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100. If you have any questions or concerns about this requisite, please notify MATH.Placement@ucdenver.edu. Students with a grade of B- or better in MATH 1110 or MATH 1070 pass the course at a much higher rate. No co-credit with MATH 1130. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

MATH 1109 or MATH 1070 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 1130 - Precalculus Mathematics (4 Credits)

Condensed treatment of the topics in MATH 1110 and 1120. Prereq: : MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100. If you have any questions or concerns about this requisite, please notify MATH.Placement@ucdenver.edu. No co-credit with MATH 1070, 1110 or 1120. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 1376 - Programming for Data Science (3 Credits)

The course introduces scientific computing using Python. Topics will include programming skills such as assignment, control statements, loops, and functions. Applications will focus on mathematical and data science topics. Prereq: MATH 1109 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 or MATH 2830 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100. Max hours: 3 Credits.

Grading Basis: Letter Grade

MATH 1109 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 or MATH 2830 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100.

MATH 1401 - Calculus I (4 Credits)

First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: No co-credit with MATH 1080. Prereq: MATH 1109 or MATH 1070 or MATH 1110 with a C- or higher and MATH 1120 with a C- or higher or MATH 1130 with a C- or higher or MATH 1401 with a C- or higher OR entry into the MA01 Student Group OR ALEKS PPL score 76-100. If you have any questions or concerns about this requisite, please notify MATH.Placement@ucdenver.edu. Max Hours: 4 Credits.

Grading Basis: Letter Grade

MATH 1109 or MATH 1070 or MATH 1110 with a C- or higher and MATH 1120 with a C- or higher or MATH 1130 with a C- or higher or MATH 1401 with a C- or higher OR entry into the MA01 Student Group OR ALEKS PPL score 76-100.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

MATH 1840 - Independent Study. (1-3 Credits)

Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

MATH 2411 - Calculus II (4 Credits)

The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: C- or better in MATH 1401.

Note: Students with a grade of B- or better in MATH 1401 pass this course at a much higher rate. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

Prereq: C- or better in MATH 1401

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 2421 - Calculus III (4 Credits)

The third of a three-semester sequence in Calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus.

Prereq: C- or better in MATH 2411. Note: Students with a grade of B- or better in MATH 2411 pass this course at a much higher rate. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1

Grading Basis: Letter Grade

Prereq: C- or better in MATH 2411

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 2810 - Topics (1-3 Credits)

Topics in mathematics with various subtitles reflecting course content.

Prereq: permission of instructor. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MATH 2830 - Introductory Statistics (3 Credits)

Basic statistical concepts, summarizing data, probability concepts, distributions, confidence intervals, hypothesis testing. Note: This course assumes that students have knowledge equivalent to three years of high school mathematics (two years of algebra), intermediate algebra, or Algebraic Literacy at a Colorado Community College at the start of class.

Students who have a grade of B- or better in one of these courses pass at a much higher rate. Term offered: fall, spring, summer. Requisite: In order to promote student success, any student who has an ACT MATH score less than 19 (or equivalently an SAT MATH score less than 520) AND a H.S. GPA of less than 3.25 will be required to enroll in the one credit hour co-requisite workshop MATH 2831. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

In order to promote student success, any student who has an ACT MATH score less than 19 (or equivalently an SAT MATH score less than 520) AND a H.S. GPA of less than 3.25 will be required to enroll in the one credit hour co-requisite workshop MATH 2831.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 2831 - Introductory Statistics Workshop (1 Credit)

Prepares students for college-level mathematics. Students receive one-on-one and small-group instruction on mathematics topics related to college level mathematics success. Coreq: MATH 2830. Term offered: fall, spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Co-requisite: MATH 2830

Typically Offered: Fall, Spring.

MATH 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: 15 hours of 2.75 GPA. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

MATH 3000 - Introduction to Abstract Mathematics (3 Credits)

Students learn to prove and critique proofs of theorems by studying elementary topics in abstract mathematics, including logic, sets, functions, equivalence relations and elementary combinatorics. Coreq: MATH 2421 or MATH 3191. Note: This course assumes that students have taken MATH 2411 or equivalent. Students who have a grade of B- or better in MATH 2411 pass at a much higher rate. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: MATH 2421 or MATH 3191

MATH 3041 - Fundamental Mathematics: Algebra, Probability and Data Analysis (3 Credits)

This course is particularly pertinent to prospective elementary teachers, involving algebra, probability and data analysis from a modern approach. Its primary emphasis is asking and answering questions intelligently about our world through the use of algebra, probability, and data analysis. Explorations focus on representing, analyzing, generalizing, formalizing, and communicating patterns and the chances of future events. Mathematics content will be presented in a problem solving and exploratory context, using appropriate instructional tools. This course will not satisfy the requirements for a major in Mathematics. Prereq: MTED 3040 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MTED 3040 with a C- or higher.

Additional Information: Denver Core Requirement, Mathematics.

MATH 3191 - Applied Linear Algebra (3 Credits)

Linear algebra is the mathematics of vectors and matrices and is fundamental for the representation and manipulation of data. List of topics covered: Definition and use of vectors and matrices, Matrix algebra, Systems of linear equations, Reduced Row Echelon Form, Trace and determinant, Linear independence and span, Basis and dimension, Null space and range, Rank theorem, Vector spaces and linear transformations, Eigenvalues and Eigenvectors, Diagonalization, Inner products, Orthogonal projections, Gram-Schmidt algorithm, Diagonalization of symmetric matrices, Singular value decomposition. Applications such as computer graphics, machine learning, Markov chains, and data reduction are considered. Note: No co-credit with MATH 3195. Prereq: MATH 1401 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 with a C- or higher

MATH 3195 - Linear Algebra and Differential Equations (4 Credits)

Presents the essential ideas and methods of linear algebra and differential equations, emphasizing the connections between and the applications of both subjects. The course is designed for students in the sciences and engineering. This course will not satisfy the requirements for a major in Mathematics. Note: No co-credit with MATH 3200 and MATH 3191. Prereq: MATH 2411 with a C- or higher. Max hours: 4 Credits. Grading Basis: Letter Grade
Prereq: C- or better in MATH 2411

MATH 3200 - Elementary Differential Equations (3 Credits)

First and second order differential equations, Laplace transforms, systems of equations, with an emphasis on modeling and applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411 with a C- or higher. Coreq: MATH 3191. Max hours: 3 Credits. Grading Basis: Letter Grade
Prerequisite: MATH 2411 with a C- or higher, Co-requisite MATH 3191.

MATH 3301 - Introduction to Optimization (3 Credits)

Introduces a mathematical approach for decision-making in practice based on optimization. Students will learn to model, analyze and solve a variety of problems from deterministic operations using both continuous and discrete mathematical programming algorithms and software. Note: this course assumes that students have taken MATH 3191 or MATH 3195 or equivalent. Students who have received a grade of B- or better in MATH 3191 or 3195 pass this course at a much higher rate. Max hours: 3 Credits. Grading Basis: Letter Grade

MATH 3310 - Introduction to Real Analysis I (3 Credits)

This is a proof-based course that rigorously covers fundamental topics involving the real number system, sequences of real numbers, and functions of real numbers. Prereq: Grade of C- or better in MATH 2411 OR Grade of A- or better in MATH 1401. Coreq: MATH 2411. Cross-listed with MCKE 5310. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: Grade of C- or better in MATH 2411 OR Grade of A- or better in MATH 1401. Coreq: MATH 2411.

MATH 3376 - Data Wrangling & Visualization (3 Credits)

The course provides an introduction to obtaining, restructuring, and visualizing complex data sets. Students will learn to manipulate many data types, store data in a variety of structures, and construct static and dynamic plots in a variety of contexts. Students earning a B- or better in Math 1376 or 4387 are more likely to be successful in this course than students earning lower grades. Prereq: MATH 1376 or MATH 4387 or CSCI 1410/1411 with a C- or higher and MATH 2830 or MATH 3382 with a C- or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: MATH 1376 or MATH 4387 or CSCI 1410/1411 with a C- or higher and MATH 2830 or MATH 3382 with a C- or higher

MATH 3382 - Statistical Theory (3 Credits)

Probability, random variables, properties of distributions, bootstrap methods, maximum likelihood and method of moments estimation, properties of estimators, classical methods for confidence intervals and hypothesis testing. Prereq: MATH 2421 with a C- or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: MATH 2421 with a C- or higher.

MATH 3440 - Introduction to Symbolic Logic (3 Credits)

Covers truth functional and quantificational logic through polyadic first order predicate calculus and theory of identity. Attention is given to such problems in metatheory as proofs of the completeness and consistency of systems of logic. Cross-listed with PHIL 3440. Max hours: 3 Credits. Grading Basis: Letter Grade

MATH 3800 - Probability and Statistics for Engineers (3 Credits)

Basic probability theory, discrete and continuous random variables, point and interval estimation, test of hypotheses, and simple linear regression. Note: no co-credit with MATH 3810. This course will not satisfy the requirement for a major in Mathematics. Note: This course assumes that students have taken MATH 2411 and have either previously taken MATH 2421 or are taking MATH 2421 the same semester as MATH 3800. Students who have a grade of B- or better in MATH 2411 pass this course at a much higher rate. Max hours: 3 Credits. Grading Basis: Letter Grade

MATH 3810 - Introduction to Probability (3 Credits)

Fundamentals of probability theory with connection to practical application through simulation. Topics include: Axioms of probability, conditional probability, independence, law of total probability, Bayes theorem, random variables, probability distributions, expected value and variance. Important distributions such as binomial, normal, exponential, and Poisson distributions. Joint and conditional distributions, conditional expectation and variance, functions of random variables. Laws of large numbers (weak and strong), Central Limit Theorem. An emphasis will be placed on using simulation to solve problems. Note: No co-credit with MATH 3800. Coreq: MATH 2421. Max hours: 3 Credits. Grading Basis: Letter Grade
Coreq: MATH 2421.

MATH 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max Hours: 9 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Prereq: junior standing or higher

MATH 4010 - History of Mathematics (3 Credits)

A history of the development of mathematical techniques and ideas from early civilization to the present, including the inter-relationships of mathematics and sciences. Prereq: MATH 2411 with a C- or higher. Coreq: MATH 3000 or 3191. Cross-listed with MATH 5010. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: MATH 2411 with a C- or higher Coreq: MATH 3000 or 3191

MATH 4027 - Topics in Mathematics (3 Credits)

Special topics in mathematics will be covered; consult 'Schedule Planner' for current topics and prerequisites. Repeatable. Max hours: 12 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

MATH 4110 - Theory of Numbers (3 Credits)

Every other year. Topics include divisibility, prime numbers, congruencies, number theoretic functions, quadratic reciprocity, and special diophantine equations, with applications in engineering. Prereq: Grade of C- or better in MATH 3000. Note: Students who have a grade of B- or better in MATH 3000 pass this course at a much higher rate. Cross-listed with MATH 5110. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: Grade of C- or better in MATH 3000

MATH 4140 - Introduction to Modern Algebra (3 Credits)

Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields and polynomials. Note: This course assumes that students have taken MATH 3000 or equivalent and either MATH 3191 or MATH 3195. Students who have a grade of B- or better in these courses pass at a much higher rate. Cross-listed with MCKE 5140. Prereq: MATH 3000 with a C- or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: MATH 3000 with a C- or higher.

MATH 4320 - Introduction to Real Analysis II (3 Credits)

Convergence, uniform convergence; Taylor's theorem; calculus of several variables including continuity, differentiation and integration; Picard's theorem in ordinary differential equations and Fourier series. Prereq: MATH 3310 with a C- or higher. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MATH 3310 with a C- or higher.

MATH 4337 - Intro to Statistical and Machine Learning (3 Credits)

This is an applied, hands-on course in statistical and machine learning. This course will introduce students to the general framework, best practices, model training, and assessment for machine learning methods from the viewpoint of statistics. Both supervised and unsupervised methods are covered including penalized regression, k-nearest neighbors, clustering, and neural networks. Additional machine learning topics such as random forests and support vector machines are included as time permits. Ultimately, students will learn how and why to use a particular method, how to validate and explain the results, and apply the methods to real data. Note: It is recommended that students are comfortable learning a statistical computing language such as R or Python as these will be taught alongside the course material. Students with minimal programming experience should expect to spend more time learning the programming language throughout the course. Prereq: MATH 4387 or MATH 5387 or MATH 4830 or MATH 5830 or BIOL 3763 with a C- or higher. Students who have completed a different statistics course that contains regression and computing may seek instructor permission to enroll. Cross-listed with MATH 5337. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MATH 4387 or MATH 5387 or MATH 4830 or MATH 5830 or BIOL 3763 with a C- or higher.

MATH 4387 - Applied Regression Analysis (3 Credits)

Topics include simple and multiple linear regression, model diagnostics and remediation, and model selection. Emphasis is on practical aspects and applications of linear models to the analysis of data in business, engineering and behavioral, biological and physical sciences. Prereq: Grade of C- (1.7) or better in MATH 3191 and in MATH 3800 or 4820 or 3382. Note: Students who have a grade of B- or better in MATH 3191, an A in MATH 3800 or a B- or better in MATH 4820 pass this course at a much higher rate. Cross-listed with MATH 5387. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- (1.7) or better in MATH 3191 and in MATH 3800 or 4820 or 3382

MATH 4388 - Machine Learning Methods (3 Credits)

Regression, neural networks, clustering, support vector machines, random forests, and other prediction/classification techniques will be used to solve supervised and unsupervised learning problems. This course will connect each topic with the underlying mathematical foundation such as optimization methods and statistical inference. A key focus is deriving the methods and their properties to guide proper application. Students will learn how to apply methods using standard libraries from Python, R, or Matlab. Prereq: MATH 1376 or MATH 3250 and MATH 3382 or MATH 3800 and MATH 3191 or MATH 3195, all with a C- or higher. Cross-listed with MATH 5388. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MATH 1376 or MATH 3250 and MATH 3382 or MATH 3800 and MATH 3191 or MATH 3195, all with a C- or higher.

MATH 4390 - Game Theory (3 Credits)

Zero-sum and non-zero-sum games; Nash equilibrium and the principle of indifference; Shapley value and other concepts of fair division; Evolutionary game theory, ESS, and evolutionary population dynamics. Applications in economics, business, and biology. Note: This course assumes that students have programming experience (e.g. MATLAB), and have taken MATH 2421, 3191 and 3200 or MATH 3195, MATH 3800 or 3810, or equivalent. Students who have a grade of B- or better in these courses pass this course at a much higher rate. Cross-listed with MATH 5390. Max hours: 3 Credits.
Grading Basis: Letter Grade

MATH 4408 - Applied Graph Theory (3 Credits)

Introduces discrete structures and applications of graph theory to computer science, engineering, operations research, social science, and biology. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits, matching and covering problems, shortest route and network flows. Prereq: MATH 2511 or CSCI 2511 or MATH 3000 with a C- or higher. Note: This course assumes that students have taken MATH/CSCI 2511 or MATH 3000. Students who have a grade of B- or better in MATH/CSCI 2511 or MATH 3000 pass this course at a much higher rate. Cross-listed with CSCI 4408 and MCKE 5408. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MATH 2511 or CSCI 2511 or MATH 3000 with a C- or higher.

MATH 4409 - Applied Combinatorics (3 Credits)

Every other year. Major emphasis is on applied combinatorics and combinatorial algorithms, with applications in computer science and operations. Topics include general counting methods, generating functions, recurrence relations, inclusion-exclusion, and block designs. Prereq: MATH 3000 with a C- or higher. Note: This course assumes that students have taken MATH 3000. Students who have a grade of B- or better in MATH 3000 pass this course at a much higher rate. Cross-listed with MCKE 5409. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prerequisite: MATH 3000 with a C- or higher.

MATH 4450 - Complex Variables (3 Credits)

Infrequent. Topics include complex algebra, Cauchy-Riemann equations, Laurent expansions, theory of residues, complex integration, and introduction to conformal mapping. Note: This course assumes that students have taken MATH 2421 and MATH 3000. Students who have a grade of B- or better in MATH 2421 and MATH 3000 pass this course at a much higher rate. Max hours: 3 Credits.
Grading Basis: Letter Grade

MATH 4650 - Numerical Analysis I (3 Credits)

A first semester course in numerical methods and analysis fundamental to many algorithms encountered in scientific computing, data science, machine learning, and computational models in science and engineering. Rounding errors and numerical stability of algorithms; solution of linear and nonlinear equations; data modeling with interpolation and least-squares; and optimization methods. This course assumes that students have the equivalent of differential and integral calculus (e.g., MATH 2411), linear algebra (e.g., MATH 3191 or 3195), and computer programming (e.g., MATH 1376 or CSCI 1410). Prereq: MATH 3191 or MATH 3195 with a C- or higher. Cross-listed with CSCI 4650, 5660, and MATH 5660. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3191 or MATH 3195 with a C- or higher.

MATH 4660 - Numerical Analysis II (3 Credits)

A second semester course in numerical methods and analysis fundamental to many algorithms encountered in scientific computing, data science, machine learning, and computational models in science and engineering. Numerical differentiation and integration; random numbers and stochastic modeling; Fast Fourier Transform; data compression; eigenvalues and singular value decompositions with application to regression and dimension reduction. This course assumes that students have the equivalent of differential and integral calculus (e.g., MATH 2411), linear algebra (e.g., MATH 3191 or 3195), and computer programming (e.g., MATH 1376 or CS 1410). Prereq: MATH 3191 and MATH 3200 with a C- or higher or MATH 3195 with a C- or higher. Cross-listed with MATH 5661, CSCI 4660 and 5661. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3191 and MATH 3200 with a C- or higher or MATH 3195 with a C- or higher.

MATH 4733 - Partial Differential Equations (3 Credits)

Initial/Boundary value problems for first-order, wave, heat and Laplace equations; maximum principles; Fourier series and applications. Note: It is recommended that students have either taken MATH 3000 or have experience with partial differential equations in engineering or physics. Students who have a grade of B- or better in MATH 2421 and MATH 3200 pass this course at a much higher rate. Prereq: MATH 2421 AND either MATH 3191 and MATH 3200 OR MATH 3195 with a C- or higher. Cross-listed with MATH 5733. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2421 AND either MATH 3191 and MATH 3200 OR MATH 3195 with a C- or higher.

MATH 4779 - Math Clinic (3 Credits)

The clinic is intended to illustrate the applicability and utility of mathematical concepts. Research problems investigated originate from a variety of sources—industry, government agencies, educational institutions, or nonprofit organizations. Prereq: MATH 3191, either MATH 1376 or CSCI 1410/1411, and 6 additional credit hours in upper-division MATH courses, all with C- or higher. Cross-listed with MATH 5779. Repeatable. Max Hours: 99 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 99.

Prereq: MATH 3191, either MATH 1376 or CSCI 1410/1411, and 6 additional credit hours in upper-division MATH courses, all with C- or higher.

MATH 4792 - Probabilistic Modeling (3 Credits)

Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Note: This course assumes that students have taken MATH 3810 or 5310 and have some programming experience. Students who have a grade of B- or better in MATH 3810 or 5310 pass this course at a much higher rate. Cross-listed with MATH 5792. Max hours: 3 Credits.

Grading Basis: Letter Grade

MATH 4830 - Applied Statistics (3 Credits)

Review of estimation, confidence intervals and hypothesis testing; Anova; categorical data analysis; non-parametric tests; linear and logistic regression. No co-credit with MATH 4387 or 5387. This course will not satisfy the requirements for a major in Mathematics. Cross-listed with MATH 5830. Prereq: MATH 2830 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2830 with a C- or higher.

MATH 4840 - Independent Study (1-3 Credits)

Variable credit depending on the student's needs. Offered for the advanced student who desires to pursue a specific topic in considerable depth. Note: Supervision by a full-time faculty member is necessary, and the dean's office must concur. Students may register for this course more than once with departmental approval. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

MATH 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Mathematics, BS

Introduction

Please click here (p. 681) to see Mathematical and Statistical Sciences department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 45 credit hours, including a minimum of 42 MATH credit hours.
2. Students must complete at least 30 upper-division (3000-level and above) credit hours in the major.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.25. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 15 upper-division level MATH credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students must complete at least 15 of their upper-division level MATH credits with CU Denver faculty.
2. Students may not use any of the following MATH courses to count toward major requirements:
 - MATH 3195 Linear Algebra and Differential Equations
 - MATH 3800 Probability and Statistics for Engineers
 - MATH 4830 Applied Statistics

Code	Title	Hours
Complete the following program requirements:		
<i>Complete one of the following programming options:</i>		3-4
MATH 1376	Programming for Data Science	
CSCI 1410 & CSCI 1411	Fundamentals of Computing and Fundamentals of Computing Laboratory	
<i>Complete all of the following required Mathematics courses:</i>		27
MATH 1401	Calculus I	
MATH 2411	Calculus II	
MATH 2421	Calculus III	
MATH 3000	Introduction to Abstract Mathematics	
MATH 3191	Applied Linear Algebra	
MATH 3310	Introduction to Real Analysis I	
MATH 3382	Statistical Theory	
MATH 4779	Math Clinic	
or MATH 6330	Workshop in Statistical Consulting	

Complete five MATH elective courses (at least 15 credit hours) above the 3000 level, excluding MATH 3041, MATH 3195, MATH 3511, MATH 3800, MATH 4015, and MATH 4830. 15

Total Hours 45-46

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/mathematical-and-statistical-sciences/undergraduate-goals-and-objectives/>).

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>).

Mathematics - Applied Option, BS

Introduction

Please click here (p. 681) to see Mathematical and Statistical Sciences department information.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

Mathematics, 4+1 BS/ Applied Mathematics, MS

Introduction

Please click here (p. 681) to see Mathematical and Statistical Sciences department information.

This is a unique program where a student can obtain both a BS in Mathematics and MS in Applied Mathematics in five years through a specialized course sequence. The program requires 12 fewer credits than if both degrees were earned separately.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major and graduate advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

This is an on-campus program.

Declaring This Major

Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

While students are completing a BS degree in Mathematics, (p. 689) they may also complete some of the requirements for an MS degree in Applied Mathematics (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/mathematical-statistical-sciences/applied-mathematics-ms/>) by participating in the BS/MS program using the following guidelines:

1. The student must apply and be accepted for participation in the BS/MS program prior to completion of the BS degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
2. Students should declare their intent to complete this program in their junior or senior year to the Director of the Program in Applied Mathematics after completing MATH 1401 Calculus I, MATH 2411 Calculus II, MATH 2421 Calculus III, MATH 3000 Introduction to Abstract Mathematics, MATH 3191 Applied Linear Algebra, MATH 4310 Introduction to Real Analysis I. A 3.0 grade point average (GPA) is required over all mathematics courses.
3. Students must complete a total of 45 credit hours, including a minimum of 42 MATH credit hours.

4. Students must complete at least 30 upper-division (3000-level and above) credit hours in the major.
5. Students must earn a minimum grade of C- (1.7) in all undergraduate courses that apply to the major and must achieve a minimum cumulative undergraduate major GPA of 2.25. Students must earn a minimum grade of B- (2.7) in all graduate courses and must achieve a minimum cumulative major GPA of 3.0, for all courses that will apply to the MS. Courses taken using P+/P/F or S/U grading cannot apply to major and graduate requirements.
6. Students must complete a minimum of 15 upper-division level MATH credit hours and all graduate level credit hours with CU Denver faculty.
7. Students must complete a 4+1 intent form (http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/physics/physics-bs/BMA_form_1_1_.pdf) to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary. Students must apply and be accepted to the Applied Mathematics, MS during the last semester of their undergraduate career. A maximum of 12 credit hours of graduate level courses that are applied to the undergraduate degree will apply to the graduate degree.
8. Students will be advised to take MATH 4320 Introduction to Real Analysis II as an elective for the B.S.
9. In the semester in which the student intends to complete their BS, students must apply for admission into MS degree in Applied Mathematics (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/mathematical-statistical-sciences/applied-mathematics-ms/>). Students must complete either the requirements for the M.S. degree without concentration area or specific coursework requirements in one of the following areas: Applied Probability, Applied Statistics, Discrete Mathematics, Mathematics of Engineering and Science, Numerical Analysis, or Operations Research.
10. The following MATH courses will **not** count toward a graduate degree: MCKE 5000 Algebraic Patterns and Functions I-MCKE 5009 Math Modeling—Using and Applying Math; MATH 5010 History of Mathematics, MATH 5012 An Advanced Perspective on Number and Operation-MATH 5015 Capstone Course for Secondary Teachers, MATH 5017 Topics in Mathematics for Teachers, MATH 5198 Mathematics for Bioscientists; and MATH 5830 Applied Statistics.

Mathematics, BS Course Requirements Programming Requirements

Code	Title	Hours
<i>Complete one of the following programming requirements:</i>		<i>3-4</i>
MATH 1376	Programming for Data Science	
CSCI 1410 & CSCI 1411	Fundamentals of Computing and Fundamentals of Computing Laboratory	

Mathematics Courses

MATH 5593	Linear Programming

Mathematics, 4+1 Year BS/ Statistics, MS

Introduction

Please click here (p. 681) to see Mathematical and Statistical Sciences department information.

This is a unique program where a student can obtain both a BS in Mathematics and MS in Statistics in five years through a specialized course sequence. The program requires 12 fewer credits than if both degrees were earned separately.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major and graduate advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

While students are completing a BS degree in Mathematics (p. 689), they may also complete some of the requirements for an MS degree in Statistics (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/mathematical-statistical-sciences/statistics-ms/#degreerequirementstext>) by participating in the BS/MS program using the following guidelines:

- The student must apply and be accepted for participation in the BS/MS program prior to completion of the BS degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
- Students should declare their intent to complete this program in their junior or senior year to the Director of the Program in Statistics after completing MATH 1401 Calculus I, MATH 2411 Calculus II, MATH 2421 Calculus III, MATH 3000 Introduction to Abstract Mathematics, MATH 3191 Applied Linear Algebra, MATH 3382 Statistical Theory. A 3.0 grade point average (GPA) is required over all mathematics courses.
- Students must complete a total of 45 credit hours, including a minimum of 42 MATH credit hours.
- Students must complete at least 30 upper-division (3000-level and above) credit hours in the major.
- Students must earn a minimum grade of C- (1.7) in all undergraduate courses that apply to the major and must achieve a minimum cumulative undergraduate major GPA of 2.25. Students must earn a minimum grade of B- (2.7) in all graduate courses and must achieve a minimum cumulative major GPA of 3.0, for all courses that will apply to the MS. Courses taken using P+/P/F or S/U grading cannot apply to major and graduate requirements.
- Students must complete a minimum of 15 upper-division level MATH credit hours and all graduate level credit hours with CU Denver faculty.
- Up to 12 semester hours of graduate-level course work may be taken as an undergraduate and applied toward the MS degree in Statistics (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/mathematical-statistical-sciences/statistics-ms/#degreerequirementstext>).
- In the semester in which the student intends to complete their BS, students must apply for admission into MS degree in Statistics (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/mathematical-statistical-sciences/statistics-ms/#degreerequirementstext>).
- Students must complete a 4+1 intent form (http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/physics/physics-bs/BMA_form_1_1_.pdf) to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary. Students must apply and be accepted to the Statistics, MS during the last semester of their undergraduate career. A maximum of 12 credit hours of graduate level courses that are applied to the undergraduate degree will apply to the graduate degree.

Data Sciences Minor

Introduction

Please click here (p. 681) to see Mathematical and Statistical department information.

The demand for employees trained in data science has grown considerably in recent years. This minor will serve students by offering them specific training in data science.

Data science training should include components related to statistics, computing, and preferably, a specific field of application (e.g., business, biology, health, etc.). The minor is flexible in that it allows a student to get core training in data science programming and statistics, while allowing students to develop additional data science-related skills from other disciplines, or to focus on specific skills within data science.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your CLAS advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 18 credit hours, including a minimum of 9 MATH credit hours.
2. Students must complete a minimum of 12 upper-division (3000-level and above) credit hours, including a minimum of six upper-division MATH credits. Most upper-division courses have lower-division pre-requisites.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of six upper-division level MATH credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Be aware of no co-credit policies. Here is a non-exclusive list of our most common no co-credit policies: no co-credit between:
 - MATH 3800 Probability and Statistics for Engineers and MATH 3810 Introduction to Probability,
 - MATH 3195 Linear Algebra and Differential Equations and MATH 3200 Elementary Differential Equations,
 - MATH 3191 Applied Linear Algebra and MATH 3195 Linear Algebra and Differential Equations,
 - MATH 4387 Applied Regression Analysis and MATH 4830 Applied Statistics.

Code	Title	Hours
<i>Complete the following required courses:</i>		12
MATH 1376 or CSCI 1410 & CSCI 1411 or ISMG 4400	Programming for Data Science Fundamentals of Computing and Fundamentals of Computing Laboratory Programming Fundamentals with Python	
MATH 2830 or MATH 3382 or MATH 3800	Introductory Statistics Statistical Theory Probability and Statistics for Engineers	
MATH 3376	Data Wrangling & Visualization	
MATH 4830 or MATH 4387	Applied Statistics Applied Regression Analysis	

Complete six credit hours of electives from the following list of approved courses:

6

MATH 3191	Applied Linear Algebra
MATH 3195	Linear Algebra and Differential Equations
MATH 3200	Elementary Differential Equations
MATH 3301	Introduction to Optimization
MATH 3810	Introduction to Probability
MATH 4337	Intro to Statistical and Machine Learning
MATH 4388	Machine Learning Methods
MATH 4390	Game Theory
MATH 4408	Applied Graph Theory
MATH 4650	Numerical Analysis I
MATH 4660	Numerical Analysis II
MATH 4733	Partial Differential Equations
MATH 4792	Probabilistic Modeling
MATH 6330	Workshop in Statistical Consulting
ECON 4030	Data Analysis with SAS
ECON 4811	Introduction to Econometrics
CHEM 4521	Physical Chemistry: Quantum and Spectroscopy

Mathematics Minor

Introduction

Please click here (p. 681) to see Mathematical and Statistical Sciences department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 21 MATH credit hours.
2. Students must complete a minimum of nine upper-division (3000-level and above) MATH credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum six MATH upper-division level credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Be aware of no co-credit policies. Here is a non-exclusive list of our most common no co-credit policies: no co-credit between
 - MATH 3800 Probability and Statistics for Engineers and MATH 3810 Introduction to Probability,
 - MATH 3195 Linear Algebra and Differential Equations and MATH 3200 Elementary Differential Equations,
 - MATH 3191 Applied Linear Algebra and MATH 3195 Linear Algebra and Differential Equations,
 - MATH 4387 Applied Regression Analysis and MATH 4830 Applied Statistics.
2. For slash-listed courses:
 - MATH 3440 Introduction to Symbolic Logic/PHIL 3440 Introduction to Symbolic Logic.
 - MATH 4408 Applied Graph Theory/CSCI 4408 Applied Graph Theory,

- MATH 4650 Numerical Analysis I/CSCI 4650 Numerical Analysis I, and
- MATH 4660 Numerical Analysis II/CSCI 4660 Numerical Analysis II, one can take either the MATH section or the slash-listed section of the course. Either one count towards the minor in MATH.

Code	Title	Hours
Complete the following program requirements:		
<i>Complete all of the following required courses:</i>		12
MATH 1401	Calculus I	
MATH 2411	Calculus II	
MATH 2421	Calculus III	
<i>Complete three upper-division level (3000 level or higher) MATH courses worth three or more credit hours each.</i>		9
Total Hours		21

Applied Statistics Undergraduate Certificate

Introduction

Please click [here](#) (p. 681) to see Mathematical and Statistical Sciences department information.

There is a growing need for qualified statistical analysts of the ever-increasing amounts of data collected in business, industry, and government. The Certificate in Applied Statistics program is designed to give students a strong background in statistical methodology and data analysis in preparation for opportunities in the workforce or for graduate studies.

Students will gain competence in such topics as descriptive statistics, estimation, confidence intervals, probability and inferential techniques, simple and multiple regression, analysis of variance, and more advanced topics. Students can focus on a particular application area such as economics, psychology, sociology, geology or environmental science through the choice of an elective course and the data analysis project.

Programs are offered at the undergraduate and graduate level.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- Admission requirements: Completion of calculus I, II and III as well as linear algebra, each at a B- or above. Students enrolled in the certificate program will be expected to utilize concepts from calculus and linear algebra without the use of technology, e.g., evaluation of limits, derivatives and integrals.

- The certificate can be declared by contacting the Director of Statistical Programs.

Coordinator: Daniel Klie

E-mail: daniel.klie@ucdenver.edu (Joshua.French@ucdenver.edu)

Web site: <https://clas.ucdenver.edu/mathematical-and-statistical-sciences/undergraduate-certificate-applied-statistics> (<https://clas.ucdenver.edu/mathematical-and-statistical-sciences/undergraduate-certificate-applied-statistics/>)

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Applied Statistics advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click [here](#) (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credits hours.
2. All credits for the certificate must be taken at the upper division level (3000-level and above).
3. Students must earn a minimum grade of B-(2.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Since a certificate is a University of Colorado Denver certification of a student's specialized knowledge in an advanced subject area, all courses in the certificate program are expected to be taken in residency at the University of Colorado Denver.

Certificate Restrictions, Allowances and Recommendations

1. Students must be enrolled in one course per year to maintain their status in the certificate program.
2. Certificates must be completed within three years from matriculation.

Code	Title	Hours
<i>Complete the following required courses:</i>		9
Fundamental course in probability		
MATH 3810	Introduction to Probability (recommended)	
or MATH 3800	Probability and Statistics for Engineers	
Fundamental course in mathematical statistics		
MATH 3382	Statistical Theory	
Advanced applications course		

MATH 4387 Applied Regression Analysis

Complete three credits from the following elective courses: 3

Any statistics course in the Department of Mathematical and Statistical Sciences at the 4000 level or higher, pre-approved by the Director of Statistical Programs.¹

ECON 4030 Data Analysis with SAS

ECON 4150 Economic Forecasting

ECON 4811 Introduction to Econometrics

Total Hours

12

¹ MATH 4830 Applied Statistics cannot apply toward the certificate.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/mathematical-and-statistical-sciences/undergraduate-certificate-applied-statistics/>).

Data Science Undergraduate Certificate

Please click here (p. 681) to see Mathematical and Statistical Sciences department information.

Introduction

Data scientists will have essential competencies in several areas related to analysis of data. In particular, a data scientist should: have strong programming ability in a language popular in data science (e.g., Python, R, Julia); be able to extract, manipulate, and visualize data; have an understanding of probability and statistics in order to quantify uncertainty; be able to build complex models for finding patterns and explaining data. This certificate should provide students with essential skills for introductory data science.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- See the program advisor for an application form.

Coordinator: Joshua French Ph.D.

Telephone: 303-315-1700

E-mail: data.science.advising@ucdenver.edu

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Data Science advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from approved courses.
2. Students must complete a minimum of six upper division (3000-level and above) credit hours with CU Denver faculty.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.25. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.

Code	Title	Hours
	<i>In order to ensure adequate programming skills for data science, students complete one of the following courses that develops strong programming skills in a programming language popular in data science (e.g., Python, R, Julia).</i>	3
MATH 1376	Programming for Data Science	
CSCI 1410 & CSCI 1411	Fundamentals of Computing and Fundamentals of Computing Laboratory	
MATH 4650	Numerical Analysis I	

ISMG 4400 Programming Fundamentals with Python

In order to ensure that students can accurately quantify the likelihood of various outcomes and quantify uncertainty related to estimation and prediction, students complete one of the following courses that covers basic probability and statistics.

MATH 2830 Introductory Statistics

MATH 3382 Statistical Theory

MATH 3800 Probability and Statistics for Engineers

In order to ensure that students are able to comfortably work with and visualize data, students complete the following course, developing skills related to obtaining, manipulating, and visualizing data.

MATH 3376 Data Wrangling & Visualization

In order to ensure that students are able to build reasonably complex models for explaining or identifying patterns in data, students take one of the following courses that largely focuses on describing the behavior of data (whether synthetic or observed) via tools like simulation, direct model building, association, or a complementary approach.

MATH 3301 Introduction to Optimization

MATH 4387 Applied Regression Analysis

MATH 4830 Applied Statistics

Total Hours **12**

Modern Languages

Chair: Devin Jenkins

Program Assistant: Niki Mott

Office: Plaza Building, Room 118

Mailing Address:

Campus Box 178

P.O. Box 173364

Denver, CO 80217-3364

Telephone: 303-315-7234

Overview

General Information

The Department of Modern Languages includes Arabic, Chinese, French, German, Latin and Spanish. Major is available in Spanish, and minors are available in Chinese Studies, French, Linguistics, and Spanish. Certificates are available in Chinese for International Business, Spanish for International Business, and Spanish for the Healthcare Professions. Students must declare a major prior to their final semester of coursework. The department recommends that majors and minors include some study abroad while they are fulfilling their degree requirements at CU Denver. Please see a departmental advisor about study abroad opportunities. Credit earned abroad will normally count toward satisfaction of the major and minor requirements at CU Denver, but to assure full transfer of credit, students must see an advisor in the department before enrolling in programs abroad. Courses taken abroad and designated as upper division in Chinese, French, German or Spanish are subject to study abroad and transfer credit policies.

Departmental Honors

Students who meet certain criteria and have been invited by the faculty of the appropriate language are encouraged to participate in the Department of Modern Languages honors program. Successful completion of this program by students majoring in Spanish leads to graduation with the distinction of *cum laude*, *magna cum laude* or *summa cum laude*.

Honors in Spanish

Students who complete all the requirements for Spanish Language, Literature and Culture, BA (p. 733), Spanish Language, Literature and Culture, BA with Secondary Teaching Licensure Endorsement (p. 735) or Spanish, International Language and Culture for the Professions Option, BA (p. 737), meet the following criteria and have been invited by the Spanish faculty are encouraged to participate in the honors program. Successful completion of this program by students majoring in Spanish leads to graduation with the distinction of *cum laude*, *magna cum laude* or *summa cum laude*.

CUM LAUDE:

1. Overall CU GPA of 3.5 or better and Spanish GPA of 3.8 or better
OR
2. Overall CU GPA or 3.2 or better and Spanish GPA of 3.5 or better and

Three credit hours of SPAN 4840 Independent Study: SPAN . The candidate must present the independent study topic for approval by the faculty honors committee by the end of the semester that precedes commencement of the project. At the end of the independent study project, and at least one month before the end of the semester, the candidate shall deliver an **oral presentation** based on the project to the faculty honors committee.

MAGNA CUM LAUDE AND SUMMA CUM LAUDE:

1. Overall CU GPA of 3.5 or better and Spanish GPA of 3.8 or better
AND
2. **Six credit hours of SPAN 4840 Independent Study: SPAN** , spread over two semesters. The candidate must present the independent study topic for approval by the faculty honors committee by the end of the semester that precedes commencement of the project. At the end of the independent study project, and at least one month before the end of the semester, the candidate shall submit a **written thesis** to the faculty honors committee.
3. The designation of magna or summa will be the decision of the faculty honors committee.

Relevance to Other Programs

In addition to fulfilling major and minor requirements, courses in the Department of Modern Languages prepare students in the language, literature and civilization of the countries and peoples they are studying. Certain courses may apply to the fulfillment of core curriculum requirements in the College of Liberal Arts and Sciences.

Second Language Requirement

All students with majors in the College of Liberal Arts and Sciences must demonstrate proficiency in a second language at the second semester level. This is accomplished through course work, credit by examination or by completion of second-year high school credit. Students must receive a grade of C- (1.7) or higher in the final semester of the second-year course in high school or the second-semester college-level course in order to fulfill the second language requirement. The prerequisite for the second-semester college course is a grade of C- (1.7) or better in the first-semester course. A course used to satisfy the second language requirement cannot be completing using pass/fail grading. Visit the CLAS Second Language Proficiency (p. 373) section of this catalog for additional information for satisfying the requirement.

For information on fulfilling part of the second language requirement through study abroad, please visit the Office of Global Education: Study Abroad website (<https://www.ucdenver.edu/students/study-abroad/>).

Department of Modern Languages Policy on Student Placement in Lower-Division Courses

A student may not enroll in a lower-division (1000/2000) language course that is below his/her level of language proficiency. Students wishing to enroll in a lower-division language course that does not directly follow their last completed course in the regular sequence must consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment. Students who have achieved some proficiency in a foreign language through other means than academic courses must also consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment. Call 303-315-7234 for further information.

Departmental Advising

Upon declaring a major or minor in modern languages, each student will be assigned to a faculty advisor with whom the student should consult at least once per semester thereafter. It is especially important that modern language majors have their transcripts reviewed by a departmental advisor before enrolling in their final 30 semester hours at CU Denver. Failure to do so may result in delay of graduation. Students presenting four years of high school foreign language (Level IV) for admission must see a departmental advisor before enrolling in courses for the major or minor. Students with CLEP credits or advanced placement

credits from high school should see a departmental advisor about course equivalencies.

Before enrolling in their final semester, seniors demonstrate advanced oral and written proficiency in the language that they are studying through an oral proficiency interview and a written outcomes assessment exam. Students must see a departmental advisor to schedule proficiency tests in their language.

Residency Requirement

A minimum of 18 semester hours of course work leading to a major in French or Spanish must be taken from modern languages faculty at CU Denver. For a minor in Chinese, French, Linguistics or Spanish, 9 semester hours must be taken from Modern Languages faculty at CU Denver. Courses taken at other institutions while a student is enrolled at CU Denver may be applied to the major or minor only with departmental approval before enrollment in those courses.

Arabic (ARAB)

ARAB 1000 - Introduction to Cultures of the Arabic-Speaking World (3 Credits)

Introduces students to the Arabicspeaking cultures of North Africa, some Asian countries, and the Gulf States, with a focus on politics, culture, economics, literature and the arts. Taught in English. Term offered: spring, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities.

Typically Offered: Fall, Spring.

ARAB 1010 - Beginning Arabic I (5 Credits)

Beginning course in Modern Standard Arabic (MSA) designed for students who have not had any experience with the language. Term offered: spring, fall. Max Hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ARAB 1020 - Beginning Arabic II (5 Credits)

Beginning course in Modern Standard Arabic (MSA) designed for students who have not had any experience with the language. Note: This course assumes that students have passed ARAB 1010 or equivalent, or have taken one year of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 1010 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ARAB 2110 - Intermediate Arabic I (3 Credits)

Third-semester course in Modern Standard Arabic (MSA) designed for students who have had two semesters or comparable proficiency in the language. Note: This course assumes that students have passed ARAB 1020 or equivalent, or have taken two years of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 1020 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ARAB 2120 - Intermediate Arabic II (3 Credits)

Fourth-semester course in Modern Standard Arabic (MSA) designed for students who have had three semesters or comparable proficiency in the language. Note: This course assumes that students have passed ARAB 2110 or equivalent, or have taken three years of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 2110 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ARAB 2840 - Independent Study (1-3 Credits)

Independent study for students wishing to pursue nonoffered studies in Arabic language and culture. Department consent required. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

ARAB 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Chinese (CHIN)**CHIN 1000 - China and the Chinese (3 Credits)**

A multidisciplinary introduction to Chinese society both past and present. Prehistory, birth of imperial China, literature, philosophy, religion, nationalism, revolution, modernization, contemporary life, social structure, gender, food, family life, population policy, ethnicity, popular culture, economics and politics. Note: This course is taught in English.

Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH4.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH4, Arts Hum: Foreign Languages.

Typically Offered: Fall, Spring.

CHIN 1010 - Beginning Mandarin Chinese I (5 Credits)

Explore the basics of Mandarin Chinese in this introductory course, designed to develop essential communicative skills through a task-based curriculum. Engage in real-world exercises to build proficiency in pronunciation, listening, speaking, reading, and writing, while learning key phrases and over 300 characters. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. No previous study of Chinese is required.

Term Offered: Fall. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 1020 - Beginning Mandarin Chinese II (5 Credits)

Progress in Mandarin Chinese is the focus of this second-semester course, designed to expand upon the essential communicative skills established in CHIN 1010. Students will engage in advanced real-world exercises to further their proficiency in pronunciation, listening, speaking, reading, and writing. The course aims to deepen students' knowledge of Mandarin by increasing their vocabulary, teaching them to create more complex sentences, and introducing an additional 300-400 characters. Note: This course assumes that students have passed CHIN 1010 or possess equivalent proficiency. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. A grade of C- or higher in CHIN 1010 is recommended for success in this course. Term Offered: Spring. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 1071 - Beginning Mandarin Chinese for International Business (3 Credits)

This course aims to equip students with the linguistic abilities and cultural insights necessary for engaging in business interactions with Chinese counterparts. Through structured thematic units centered around business scenarios and simulations, students will cultivate basic communication skills, understand cultural nuances, and learn business protocols. Note: Chinese 1071 cannot be taken to fulfill language requirements; nor can it be used to substitute for Chinese 1010. The class materials are primarily presented in Pinyin and no prior background in Chinese characters is required. Term Typically Offered: Fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

CHIN 2110 - Intermediate Mandarin Chinese I (3 Credits)

Building on the foundation of beginning Chinese courses, this course advances the students' abilities in practical Chinese, emphasizing active skills in listening, speaking, reading, and writing. The curriculum balances contemporary language use with an exploration of classical Chinese, including the study of proverbs, to enrich students' cultural and linguistic understanding. This course serves as an intermediate step, following CHIN 1020, to further language proficiency in real-world contexts. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. This course assumes that students have passed CHIN 1020 or equivalent, or have taken two years of high school Chinese, or possess equivalent proficiency. A grade of C- or higher in CHIN 1020 is recommended for success in this course. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 2120 - Intermediate Mandarin Chinese II (3 Credits)

CHIN 2120, the fourth-semester Chinese course, further refines the Mandarin skills honed in previous courses. It builds upon the practical knowledge of listening, speaking, reading, and writing, while integrating an appreciation for both contemporary and classical Chinese through the study of proverbs and historical texts. This course, which follows CHIN 2110, is designed to advance students' linguistic abilities in real-world contexts and deepen their cultural literacy. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed CHIN 2110 or equivalent, or have taken three years of high school Chinese, or possess equivalent proficiency. A grade of C- or higher in CHIN 2110 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 2840 - Independent Study (1-3 Credits)

Term offered: fall, spring. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring.

CHIN 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Sophomore standing. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

CHIN 2970 - Contemporary Chinese Cinema (3 Credits)

Introduces students to Chinese cinema, one of the most powerful and often controversial modes of representing society, culture, history and politics in China. Note: Taught in English. All films have English subtitles. No previous study of Chinese language or culture is required. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 3010 - Advanced Intermediate Chinese (3 Credits)

This course capitalizes on students' already acquired knowledge to further develop language skills in Mandarin Chinese. Students learn to make a transition from reading pedagogically prepared materials to more authentic ones. Note: this course assumes that students have passed CHIN 2120 or equivalent, or possess equivalent proficiency. A grade of C- or higher in CHIN 2120 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 3071 - Intermediate Mandarin Chinese for International Business (3 Credits)

This course is a Language for Specific Purposes (LSP) course designed for students who have completed CHIN1071 or the equivalents. The primary goal is to provide students with an opportunity to be more familiar with Chinese business operations in Chinese-speaking communities such as Mainland China, Hong Kong, Singapore, and Taiwan. The course also emphasizes the business usage and jargon in modern Chinese as well as the business-related sociocultural awareness. Through reading, discussing, and analyzing the actual cases from real foreign enterprises, students will gain in-depth knowledge about the macro and microeconomic situations in the Chinese-speaking world.

Note: The class materials are primarily presented in Pinyin and no prior background in Chinese characters is required. Prereq: CHIN1071 with a C- or higher, or the equivalents. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHIN 1071 with a C- or higher, or the equivalents.

Typically Offered: Spring.

CHIN 3130 - Special Topics in Chinese (3 Credits)

Varying topics in Chinese language, literature and culture appropriate to the 3000 level, not otherwise covered by regular courses. Note: This course assumes that students have passed CHIN 2120 or equivalent, or possess equivalent language proficiency. Note: May be taken more than once, provided that the topic is different each time. Term offered: spring, fall. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

CHIN 3200 - Contemporary Chinese Society and Culture (3 Credits)

Provides students with an overview of the systems in modern China (such as educational, political and economical), its family and interpersonal constructs and the elements of modern China found in popular cultures. It also exposes students to rudimentary and practical use of the Chinese language. Note: This course is taught in English. Max hours: 3 Credits.

Grading Basis: Letter Grade

CHIN 3300 - Special Topics on Chinese Film (3 Credits)

Studies the cultural, social and historical conditions that have shaped Chinese cinema. May focus on one Chinese speaking country or more than one (including but not limited to China, Taiwan and Hong Kong). May focus on a particular period (pre-Cultural revolution, for example) or a particular theme (urban cinema or martial arts films, for example). Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 3840 - Independent Study: CHIN (1-3 Credits)

Term offered: fall, spring. Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

CHIN 3939 - Internship - CHIN (1-3 Credits)

Department consent required. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CHIN 3995 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

CHIN 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with HIST 4002, ETST 4002, INTS 4002, RLST 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

CHIN 4421 - Modern China (3 Credits)

Surveys Chinese history in the modern era. Includes examination of Western domination of China; revolution and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST 4421, and HIST 5421. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 4423 - China in the World (3 Credits)

China does not exist apart from the world, and never has. This course approaches Chinese history by asking: how has the world shaped China's history, and how has China shaped the history of the world? Rather than explain what went on in China, we focus on exploring what went on outside-among China's immediate neighbors in East Asia, the entire Eurasian region, the African continent, and the so-called "West." The course moves chronologically from ancient times to the present, and is organized around the themes as conquest, trade, international relations, climate change, environmental stress, and the circulation of ideas. Cross-listed with HIST 4423 and HIST 5423. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 4690 - Methods of Teaching Modern Languages (3 Credits)

Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, LING 4690, SPAN 5690, FREN 4690, FREN 5690, GRMN 4690, GRMN 5690, SPAN 4690, CHIN 5690. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, MLNG 4691, MLNG 5691, SPAN 5691, FREN 4691, FREN 5691, GRMN 4691, GRMN 5691, SPAN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690

Typically Offered: Spring.

CHIN 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

French (FREN)**FREN 1000 - Introduction to Cultures of the French-Speaking World (3 Credits)**

Introduces students to the many cultures of the French-speaking world. Taught in English for accessibility to students from different colleges at the University. The countries studied are: France, its overseas departments (Guadeloupe and Martinique) and territories (Tahiti); Quebec; Senegal; and other African countries. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH4.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH4, Arts Hum: Foreign Languages.

Typically Offered: Fall, Spring.

FREN 1001 - French Language I (4 Credits)

Introductory course in French language skills, in which basic grammatical structures are introduced, together with elementary vocabulary and cultural items that allow the student to carry on simple conversations in French. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. No previous study of French is required. No co-credit with FREN 1010. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FREN 1002 - French Language II (4 Credits)

Second semester of elementary French language skills continuation of French Language I (FREN 1001). More complex grammatical structures are introduced together with appropriate vocabulary and cultural and literary readings that allow students to carry on more complex conversations. Note: This course assumes that students have passed FREN 1001 or 1010 or equivalent, or have taken one year of high school French, or possess equivalent proficiency. A grade of C- or higher in the previous French course is recommended for success in this course. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. This course is not intended for native speakers. No co-credit with FREN 1020. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FREN 2001 - Second-Year French (3 Credits)

FREN 2001 Third semester of French language skills- continuation of French Language II (FREN 1002). Further introduction to beginning & intermediate level grammatical structures with appropriate vocabulary and cultural & literary readings that allow students to understand oral & written French and to speak & write in French in everyday situations. Note: This course assumes that students have passed FREN 1002 or 1020 or equivalent, or have taken two years of high school French, or possess equivalent proficiency. A grade of C- or higher in the previous French course is recommended for success in this course. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. This course is not intended for native speakers. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 3010 - French Phonetics and Pronunciation (3 Credits)

Helps students acquire speech habits through knowledge of phonetics. Topics include the function of the speech organs, accurate production and recognition of sound, and the use of phonetic symbols. Note: Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: spring term of even years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FREN 3020 - Conversation through Film (3 Credits)

Conversation course focusing on the exploration of the diversity of French and Francophone cultures through film. Oral practice methodologies will include small group discussions, short oral presentations and debates. Note: Students with native or near-native-level proficiency will not be allowed to take FREN 3020. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: spring term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FREN 3050 - Advanced Grammar and Composition (3 Credits)

Rigorous review of grammar (including past and future tenses, conditional mood and nominal phrase), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, syntax and grammar. Note: May be taken before or after FREN 3060. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: fall term of even years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 3060 - Advanced French Language Skills (3 Credits)

Rigorous review of grammar (including subjunctive, interrogative, verbal phrase and passive voice), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, and grammar. Note: May be taken before or after FREN 3050. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: fall term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 3112 - Survey of French Literature I (3 Credits)

Introduces survey of the major literary trends and prominent writers of French literature from 842 A.D. to the end of the 18th century. Note: May be taken before or after FREN 3122. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: fall term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 3122 - Survey of French Literature II (3 Credits)

Introduces survey of the major literary trends (romanticism, realism and existentialism) and writers of the 19th and 20th centuries. Students become acquainted with prominent writers of the period such as Beauvoir, Chateaubriand, Hugo, Balzac, Flaubert, Proust, Camus and Sartre. Note: May be taken before or after FREN 3112. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: spring term of even years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FREN 3130 - Current Topics of the French-Speaking World (3 Credits)

Combines discussion and writing on political, economic, and social conditions in contemporary France and the Francophone world. Articles from current French newspapers, news magazines, television broadcasts, and the World Wide Web are analyzed for a better understanding of modern French culture. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: fall term of even years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 3140 - Contemporary Francophone Cultures (3 Credits)

Through the reading of short stories and cultural texts, engages students in the exploration of cultures of the Francophone world. Addresses political, economic and geographic status of each region as well as societal identity, immigration, the individual and cultural identity. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: spring term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FREN 3200 - The Francophone World in the Post-Colonial Era (3 Credits)

Focuses on the many Francophone regions of the world, including (but not limited to) France, North and West Africa, Southeast Asia, and the Caribbean, and surveys a wide span of subject matter as it pertains to the post-colonial situations in these regions. Taught in English. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Prereq: Sophomore standing or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

FREN 3840 - Independent Study: FREN (1-3 Credits)

Term offered: fall, spring, summer. Department consent required.

Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

FREN 3939 - Internship (1-3 Credits)

Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Department consent required. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

FREN 3970 - Special Topics (3 Credits)

Varying topics in French and Francophone language, literature and culture appropriate to the 3000 level, not otherwise covered by regular courses. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Note: May be taken more than once, provided that the topic is different each time. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FREN 3995 - Global Study Topics (3-6 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

FREN 4010 - Advanced Composition: Stylistics (3 Credits)

Focuses on improvement of writing skills and development of the student's ability to compose logically and convincingly. The writing styles to be studied include: narration, description, portrait, persuasive essay and report. Note: This course assumes that students have passed FREN 3050 or 3060 or an equivalent course, plus one other 3000 level course in French. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4082 - Introduction to Translation (3 Credits)

Introduces the methodology and practice of written translation from English to French/French to English. Students will learn techniques on how to avoid word by word translation, faulty sentence structure and anglicisms by focusing on grammar, syntax and vocabulary. Note: Students must demonstrate third-year competence and advanced writing skills in English. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course assumes that students have passed FREN 3050 or 3060 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5082. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4200 - French Civilization Through the Nineteenth Century (3 Credits)

Development of French culture and civilization from a historical perspective, beginning with the origins of France and continuing through the 19th century. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Note: May be taken before or after FREN 4210. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed two 3000 level courses in French. Term offered: spring term of even years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FREN 4210 - French Civilization - Twentieth and Twenty-First Centuries (3 Credits)

(Continuation of FREN 4200) The development of French culture and civilization in a historical perspective from the beginning of the 20th century to the present. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Note: May be taken before or after FREN 4200. Note: This course assumes that students have passed two 3000 level courses in French. Term offered: fall term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 4310 - Seventeenth Century Literature (3 Credits)

An in-depth study of the century considered to be the pinnacle of French theatre. Includes plays by Racine, Moliere and Corneille, as well as poetry by Lafontaine and Boileau. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4360 - Eighteenth Century Novel, Theater and Poetry (3 Credits)

Studies several novels and plays characteristic of the 18th century as well as some of the more famous poems. Includes Diderot, Rousseau, Voltaire, Marivaux and Laclos. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4430 - Nineteenth Century French Novel (3 Credits)

Development of the French novel during the 19th century. Includes such writers as Stendhal, Hugo, Balzac, George Sand, Flaubert, Maupassant and Zola. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5430. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 4480 - Twentieth Century French Novel (3 Credits)

Represents novels of the 20th century, a period of great innovation in the French novel. Authors generally treated are Camus, Giono, Ernaux and Duras. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5480. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FREN 4490 - Twentieth Century French Theater (3 Credits)

Surveys the major movements in French literature of the 20th century as represented in the theater arts. Such authors as Jarry, Artaud, Apollinaire, Giraudoux, Sartre, and Beckett are discussed. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4510 - French Women Writers (3 Credits)

Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5510 and WGST 4511/5511. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FREN 4520 - Voices of Haiti and the Caribbean (3 Credits)

This course explores the literary production of contemporary Haitian and Caribbean writers within varied cultural and gender contexts. It focuses on historical, societal and post-quake issues confronting both men and women writers of the French Caribbean. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5520. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FREN 4600 - History of the French Language (3 Credits)

Studies phonological, morphological, and syntactic changes in the language of Gaul from Latin to modern French. Note: This course assumes that students have passed FREN 3010 and FREN 3050 or 3060 or equivalent courses. Cross-listed with FREN 5600. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4690 - Methods of Teaching Modern Languages (3 Credits)

Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, LING 4690,

SPAN 5690, SPAN 4690, FREN 5690, GRMN 4690, GRMN 5690, CHIN 4690, CHIN 5690. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, MLNG 4691, MLNG 5691, SPAN 5691, SPAN 4691, FREN 5691, GRMN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690

Typically Offered: Spring.

FREN 4840 - Independent Study: FREN (1-3 Credits)

Department consent required. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FREN 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

FREN 4970 - Special Topics (3 Credits)

Varying topics in French and Francophone language, literature and culture appropriate to the 4000 level, not otherwise covered by regular courses. Note: This course assumes that students have passed two 3000 level courses in French. Note: May be taken more than once, provided that the topic is different each time. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FREN 4995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

German (GRMN)

GRMN 1000 - Germany and the Germans (3 Credits)

Introduces the ways in which the various aspects of German culture help define German life and national identity. By examining art, music and media, primarily of the 20th century, students explore what it means to be German. Note: Taught in English. Term offered: spring, fall. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH4.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-AH4, Arts Hum:

Foreign Languages.

Typically Offered: Fall, Spring.

GRMN 1010 - Beginning German I (5 Credits)

Introduces basic grammar, sentence structure and speech patterns. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course.

Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Term offered: fall.

Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GRMN 1020 - Beginning German II (5 Credits)

(Continuation of GRMN 1010.) Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed GRMN 1010 or equivalent, or have taken one year of high school German, or possess equivalent proficiency. A grade of C- or higher in GRMN 1010 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GRMN 3200 - Current German Society and Culture (3 Credits)

Provides students with a detailed overview of the systems in modern, united Germany such as social, educational, and political. Examines how Germany sees itself as a vital member of the EU. Exposes students to rudimentary use of the German language. Prereq: Sophomore standing. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

GRMN 3995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: spring, summer, fall. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Typically Offered: Fall, Spring, Summer.

GRMN 4690 - Methods of Teaching Modern Languages (3 Credits)

Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning:

vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, LING 4690, SPAN 5690, FREN 4690, FREN 5690, SPAN 4690, GRMN 5690, CHIN 4690, CHIN 5690. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GRMN 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, MLNG 4691, MLNG 5691, SPAN 5691, FREN 4691, FREN 5691, SPAN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690

Typically Offered: Spring.

Greek (GREK)**GREK 1010 - Greek I: Biblical (5 Credits)**

Intended for students of languages, religious studies, and philosophy. Introduces the forms and syntax of Greek so that in the 13th week students will be able to read about 85% of the New Testament in the original language. Cross-listed with RLST 1010. Max hours: 5 Credits. Grading Basis: Letter Grade

GREK 1020 - Greek II: Biblical (5 Credits)

A continuation of 1st-semester Biblical and Classical Greek. Covers the remaining forms and syntax of the textbook, with an emphasis on sight-reading passages from the New Testament. At the end of the course we will read, translate and study short fragments and lines written by some Pre-Socratic philosophers such as Thales, Anaxagoras, Anaximander, Heraclitus, and Parmenides. Prereq: GREK 1010. Max hours: 5 Credits. Grading Basis: Letter Grade
Prereq: GREK 1010.

GREK 2110 - Greek III: Classical (3 Credits)

Introduction to classical Greek, followed by reading of Plato's "Apology" with selections from "Pre-Socratic philosophers" (e.g. Xenophanes of Colophon, Zeno of Elea, Pythagoras) and Aristotle. Prereq: GREK 1020. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GREK 1020.

GREK 2840 - Independent Study - GREK (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Max hours: 3 Credits.

Grading Basis: Letter Grade

GREK 4840 - Independent Study - GREK (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

GREK 5840 - Independent Study - GREK (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS Graduate Academic Services Coordinator for approval. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Latin (LATN)**LATN 1010 - Elementary Latin I (5 Credits)**

Introduces grammar, syntax, and vocabulary of Classical Latin, with an emphasis on preparing students to read Latin while improving English grammar and vocabulary skills. Two semesters of Latin may be used to fulfill the CLAS language competency requirement. Term offered: fall. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

LATN 1020 - Beginning Latin II (5 Credits)

Completes the presentation of basic Latin grammar, syntax and vocabulary. Introduces students to Latin literature through readings in select authors adapted to meet the needs of beginning students. Note: This course assumes that students have passed LATN 1010 or equivalent, or have taken one year of high school Latin, or possess equivalent proficiency. A grade of C- or higher in LATN 1010 is recommended for success in this course. Term offered: spring. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

LATN 1050 - Vocabulary for Professionals (3 Credits)

Studies English words derived from Latin and Greek by analyzing their component parts (prefixes, stems, and suffixes). Cross-listed with ENGL 1050. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

LATN 2010 - Intermediate Latin I (3 Credits)

Introduces advanced Latin grammar, vocabulary, syntax, and stylistics of Latin prose via readings in Caesar, Cicero and Livy. Includes review of basic Latin grammar, plus introduction to Latin prose composition and Latin rhetoric. Emphasis on historical, cultural, social context of authors and works. Note: This course assumes that students have passed LATN 1020 or equivalent, or have taken two years of high school Latin, or possess equivalent proficiency. A grade of C- or higher in LATN 1020 is recommended for success in this course. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

LATN 2020 - Intermediate Latin II (3 Credits)

(Continuation of LATN 2010.) Completes the presentation of advanced Latin grammar, vocabulary, syntax, and stylistics of Latin prose. Continues the study of Latin prose composition and Latin rhetoric with emphasis on historical, cultural, and social context of authors and works. Note: This course assumes that students have passed LATN 2010 or equivalent, or have taken three years of high school Latin, or possess equivalent proficiency. A grade of C- or higher in LATN 2010 is recommended for success in this course. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

LATN 2840 - Independent Study (1-3 Credits)

Department consent required. Repeatable. Max hours: 3 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

LATN 3000 - Medical Terminology (3 Credits)

The course enables students to understand medical terms by learning the Greek and Latin word elements that form these terms. Term offered: summer. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Summer.

LATN 3840 - Independent Study (1-3 Credits)

Department consent required. Repeatable. Max hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

LATN 4840 - Independent Study (1-3 Credits)

Department consent required. Repeatable. Max hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

Linguistics (LING)

LING 2000 - Foundations of Linguistics (3 Credits)

Provides students with the foundations of the scientific study of language. Examines core areas within theoretical linguistics, sociolinguistics, historical linguistics, language acquisition, and writing systems, using a variety of languages. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences.
Typically Offered: Fall, Spring.

LING 3100 - Language in Society (3 Credits)

Introduces students to language use in the context of American society. Examines the interaction between language and age, gender, race, ethnicity, education, income, social class, language attitudes, policy and politics. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.
Typically Offered: Fall, Spring.

LING 4690 - Methods of Teaching Modern Languages (3 Credits)

Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, SPAN 4690, SPAN 5690, FREN 4690, FREN 5690, GRMN 4690, GRMN 5690, CHIN 4690, CHIN 5690. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

LING 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with MLNG 4691, MLNG 5691, SPAN 4691, SPAN 5691, FREN 4691, FREN 5691, GRMN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690

Typically Offered: Spring.

Spanish (SPAN)

SPAN 1000 - Introduction to Cultures of the Spanish Speaking World (3 Credits)

Introduces students to the Spanish-speaking cultures of Spain, Latin America, and the United States through a historical overview and a focus on contemporary politics and culture. Note: Taught in English. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH4

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH4, Arts Hum: Foreign Languages.

Typically Offered: Fall, Spring, Summer.

SPAN 1010 - Beginning Spanish I (5 Credits)

Introduces basic Spanish pronunciation and grammar, useful vocabulary and idioms. Readings and class discussions relating to the Hispanic world. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Term offered: fall, spring, summer. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SPAN 1011 - Intensive Spanish (5 Credits)

SPAN 1011/1021 combines both semesters of the first year, and meets the needs of highly motivated students of the language and culture. Note: Students who have studied Spanish previously should not enroll in SPAN 1011/1021 without first consulting a department advisor. Cross-listed with SPAN 1021. Term offered: summer. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

SPAN 1020 - Beginning Spanish II (5 Credits)

(Continuation of SPAN 1010.) Further development of listening, speaking, reading and writing skills. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed SPAN 1010 or equivalent, or have taken one year of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 1010 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall, spring, summer. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SPAN 1021 - Intensive Spanish (5 Credits)

SPAN 1011/1021 combines both semesters of the first year, and meets the needs of highly motivated students of the language and culture.

Note: Students who have studied Spanish previously should not enroll in SPAN 1011/1021 without first consulting a department advisor. Cross-listed with SPAN 1011. Term offered: summer. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

SPAN 1070 - Spanish Medical Conversation for Beginners (3 Credits)

SPAN 1070 is a beginner's Spanish class designed to help a variety of medical personnel and students, who don't have a previous knowledge of the Spanish language, to improve their communication with their Spanish speaking patients or clients. It involves learning and practicing basic and essential conversation such as greetings, asking information during medical visits or emergency care, giving recommendations, speaking about medical records and other health related issues. The class requires weekly practice of fundamental medical interviews in Spanish, while improving general fluency and cultural competence

Grading Basis: Letter Grade

SPAN 1071 - Spanish Medical Conversation for Beginners II (3 Credits)

This course seeks to enhance the communication between healthcare professionals and their Spanish speaking patients or clients. It entails practice of the medical interview, while improving linguistic and cultural competence. The objectives of this course are to enhance competency in speaking, reading, listening and writing; and to develop a broad knowledge of Hispanic culture, all within the field of Healthcare Studies. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

SPAN 1995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

SPAN 2110 - Second Year Spanish I (3 Credits)

Continues the development of skills acquired in 1010 and 1020. Readings deal with Hispanic culture and current topics from Spain and Latin America. Development of informal oral and written expression. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed SPAN 1020 or equivalent, or have taken two years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 1020 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SPAN 2120 - Second Year Spanish II (3 Credits)

Continues the development of skills acquired in SPAN 1010, 1020 and 2110, together with a review of grammar. Readings deal with Hispanic culture and literature. Development of informal oral and written expression. SPAN 2120 satisfies the fourth-semester language requirement at most graduate schools. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed SPAN 2110 or equivalent, or have taken three years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2110 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPAN 2130 - Current Topics in the Spanish-Speaking World (3 Credits)

A fourth-semester course (parallel to 2120) designed for students majoring or minoring in international affairs, but open to anyone wishing to continue the study of Spanish beyond 2110. Along with development of language skills and grammar review, class work involves contemporary topics in cultural, political, economic and social affairs. Note: This course assumes that students have passed SPAN 2110 or equivalent, or have taken three years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2110 is recommended for success in this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Sophomore standing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SPAN 2995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

SPAN 3010 - Spanish Composition I (3 Credits)

Expansion and reinforcement of oral and written skills in Spanish at an advanced level, in a broad cultural context. Oral activities are individual and in groups. Topics are introduced through oral activities, and are then used for written assignments. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SPAN 3020 - Spanish Composition II (3 Credits)

(Continuation of SPAN 3010.) Development of oral and written skills in Spanish in preparation for taking other advanced courses. Topics of increasing complexity are selected from current publications in Spanish. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3025 - Writing for Latinos (3 Credits)

Writing class for students who grew up speaking Spanish, especially those who grew up in the United States. Focuses on different types of formal writing, spelling, difficult grammar points and writing as a process. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3026 - Writing for Latinos II (3 Credits)

This course is a continuation of SPAN 3025 (Writing for Latinos) designed for heritage speakers of Spanish, that is, for students who grew up in the United States and have learned Spanish at home. The goal for this course is to continue the development of the student's bilingual range to achieve communicative, linguistic and sociolinguistic competence in speaking, listening, reading and writing Spanish. Special emphasis will be given to grammar, appropriate vocabulary for formal registers, and academic writing of increased complexity. Students' work involves reading, composing, writing and proof reading different type of essays on topics related to students' cultural background, the Spanish speaking world, and Spanish for academic purposes. A multi-faceted approach to the language will help the student continue to gain a solid grasp of the Spanish language and all of its varieties and awareness of the diversity of the Hispanic communities both here in the US as well as in the Spanish speaking world. Recommended preparation: Completion of SPAN 2120 with a C or higher or consultation with an advisor in the CU Denver Department of Modern Languages or the instructor of record, for placement. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 3030 - Spanish Oral Proficiency (3 Credits)

This course is designed to help students acquire an "Intermediate High" level of proficiency in speaking and understanding spoken Spanish. The course uses real-world topics to help students improve their fluency and confidence in spoken Spanish, through content-based discussions in small groups and a focus on in-context vocabulary, pronunciation, and grammar. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. This course is not intended for native speakers of Spanish. Heritage Spanish speakers must meet with the instructor to determine eligibility for this course. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Restriction: Restricted to SPAN-BA or SPAN-MIN students within the College of Liberal Arts and Sciences. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to SPAN-BA or SPAN-MIN students within the College of Liberal Arts and Sciences

Typically Offered: Fall.

SPAN 3050 - Advanced Spanish Grammar (3 Credits)

A close study of the structure of the language and practice in its written use. Note: Recommended for those intending to teach Spanish at the secondary level. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 3060 - Spanish Phonetics and Pronunciation (3 Credits)

Explores the phonetics of spoken Spanish including the classification of Spanish sounds and variation throughout the Spanish-speaking world. Provides techniques and strategies for English speakers learning to pronounce Spanish and for Spanish learners, heritage and native speakers interested in teaching Spanish. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3101 - Introduction to the Study of Literature (3 Credits)

The basic terms and skills needed to analyze both the themes and form of literary works, together with an introduction to research skills. All literary examples come from Hispanic literature. Note: SPAN 3252 is a prerequisite (previous or concurrent) to all other literature courses taught in Spanish. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. This course is a prerequisite/corequisite for all other literature courses taught in Spanish. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3199 - Topics in Spanish Literature (3 Credits)

Varying topics in Hispanic literature appropriate the 3000 level, not otherwise covered by regular courses. Note: Taught in Spanish for major and minor credit. May be taken more than once, provided that the topic is different each time. Prereq or Coreq: SPAN 3101. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq or Coreq: SPAN 3101

SPAN 3212 - Spanish American Culture and Civilization (3 Credits)

Surveys the social, political, economic, religious, literary, and artistic life of Spanish America from the conquest to the present. Note: Taught in Spanish for major and minor credit. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 3213 - Contemporary Latin American Culture and Institutions (3 Credits)

Introduction to contemporary Latin American culture and institutions, with emphasis on the social, economic and political institutions of Spanish-speaking countries. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course.

Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPAN 3221 - Culture and Civilization of Spain I (3 Credits)

From prehistoric times through Phoenician, Greek, Roman, and Visigothic eras to the Moorish invasion in 711; the Arab period; the Reconquest; the Catholic Kings; the Imperial Period; and the Inquisition. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 3222 - Culture and Civilization of Spain II (3 Credits)

(Continuation of 3221.) Studies the social, intellectual, and artistic development of Spain from the time of the Bourbons (18th century) through the civil war of 1936, and the Franco regime to the restoration of democracy under Juan Carlos I and the present day. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 3223 - Contemporary Spanish Culture and Institutions (3 Credits)

A study of contemporary Iberian culture, including an emphasis on modern business institutions and practices. This course can be applied to any Spanish major track but is specifically required for the International Language and Culture for the Professions track. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPAN 3225 - Special Topics In Hispanic Culture (3 Credits)

Variable topics in advanced studies in Spanish and Latin American culture. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. Term offered: spring, fall. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

SPAN 3230 - Ibero-American Cultures through Film (3 Credits)

A study of the Ibero-American cultures through their most representative films. Films will be windows to access the complexities and the contradictions lived in Ibero-American countries regarding a set of contemporary issues, such as violence, linguistic diversity, religious beliefs, sexuality, politics, history, social class, and globalization. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPAN 3240 - Food Metaphors: Ibero-American Cuisine and Culture (3 Credits)

Intermediate/advanced Spanish students study interactions between Ibero-American cuisine and cultures. While improving Spanish skills, students learn how to cook Hispanic meals, study scholarly materials on food and cultures, watch films featuring meals as protagonists and read literary works of fiction and poetry. Taught in Spanish. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPAN 3270 - Bilingual Communities: Spanish as a Language of Contact (3 Credits)

Explores bilingualism by tracing the series of linguistic and ethnic contacts that converted Castilian from a Latin dialect to the language of the Spanish empire, the primary language of Latin America, and a fast-growing language in the United States. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPAN 3400 - Survey of Spanish Literature I (3 Credits)

The most important works in the literature of Spain from the early Hispano-Arabic lyric poems through the golden age of the 17th century. Prereq or coreq: SPAN 3101. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

SPAN 3410 - Survey of Spanish Literature II (3 Credits)

The most important works in the literature of Spain from the 18th century to the present. Prereq or coreq: SPAN 3101. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

SPAN 3510 - Survey of Spanish American Literature II (3 Credits)

The most important works in the literature of Spanish America from the late 19th century to the present. Prereq or Coreq: SPAN 3101 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101 with a C- or higher.

SPAN 3550 - Spanish American Short Story (3 Credits)

The Spanish American short story from its beginnings in the romantic period of the 19th century to the present. Prereq or Coreq: SPAN 3101. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

SPAN 3700 - Spanish for International Business I (3 Credits)

Development of proficiency in oral and written Spanish as used in business and industry throughout the Hispanic world, together with an increased awareness of social, economic, and political conditions affecting business transactions, particularly in long-term operations. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3710 - Spanish for International Business II (3 Credits)

(Continuation of SPAN 3700.) Further development of oral and written language proficiency, together with further examination of pertinent social, economic, and political conditions of the Hispanic world.

Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. SPAN 3700 desirable. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3730 - Special Topics in Spanish for the Professions (3 Credits)

Variable topics in Spanish for the Professions not otherwise covered in regular course offerings. Note: May be taken more than once, provided that the topic is different each time. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: spring, fall. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Typically Offered: Fall, Spring.

SPAN 3740 - Spanish for the Healthcare Professions I (3 Credits)

This course seeks to enhance the communication between healthcare professionals and their Spanish speaking patients or clients. It entails practice of the medical interview while improving linguistic and intercultural competence. Cross-listed with SPAN 5740. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3750 - Spanish for the Healthcare Professions II (3 Credits)

SPAN 3750 is a continuation of SPAN 3740. Students will continue to enhance the communication between healthcare professionals and their Spanish speaking patients or clients. It entails practice of the medical interview while improving linguistic and intercultural competence. Cross-listed with SPAN 5750. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3782 - Introduction to Translation I (3 Credits)

The first course in a two-semester sequence that introduces the methodology and practice of written translation. Thorough analysis of source texts precedes translation into target language. Students must demonstrate third-year competence in Spanish and advanced writing skills in English. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3792 - Introduction to Translation II (3 Credits)

Second course in a two-semester sequence (see SPAN 3782). Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3840 - Independent Study: SPAN (1-3 Credits)

Repeatable. Department consent required. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

SPAN 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

SPAN 3995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

SPAN 4010 - History of the Spanish Language (3 Credits)

Studies the history of the Spanish language, both internal and external, from the language's Latin roots to the present. Historical phonetics are emphasized, though all features of the language are discussed. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5010. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4020 - Spanish Sociolinguistics (3 Credits)

Studies the Spanish language in its social context. In addition to specific regional linguistic features, social factors such as geography, social class, politics, race, gender, economics, education and history are discussed as determiners of the linguistic landscape. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5020. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4030 - The Learning and Teaching of Heritage Speakers (3 Credits)

Studies Spanish heritage speakers (those who grew up in the US speaking Spanish at home), including characteristics of how they learn and best practices for teaching heritage speakers. Topics include definitions of heritage speakers, their strengths and weaknesses in learning Spanish, attitudes of and toward heritage speakers and other issues of social justice and equity for heritage speakers in the classroom. Practical component of materials analysis and development. Prereq: Students must have completed ANY 3000-level course in SPAN with a C or higher. Cross-listed with SPAN 5030. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Student must have completed ANY 3000-level course in SPAN with a C or higher.

Typically Offered: Fall, Spring.

SPAN 4040 - Spanish Classroom Methods and Practice (3 Credits)

Focuses on the second language learning and teaching of Spanish in a classroom context. Looks at topics including second language vocabulary, pronunciation, grammar, and types of feed back. Practical component of activity design and learning/teaching strategies. Prereq: Students must have completed ANY 3000-level course in SPAN with a C or higher. Cross-listed with SPAN 5040. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Student must have completed ANY 3000-level course in SPAN with a C or higher.

Typically Offered: Spring.

SPAN 4060 - Dialects of the Spanish-Speaking World (3 Credits)

Studies the geography of the Spanish language in those countries where it is spoken as a primary language. Includes a comparison of dialect features and a study of factors that contribute to the diversity of the Spanish language. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5060. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4070 - Spanish Second Language Acquisition (3 Credits)

Introduces the three main domains of language acquisition: vocabulary, grammar and pronunciation, along with the major second language acquisition theories. Students see the teaching and learning of these three domains in action through discussions of the findings and pedagogical implications of research. Practical component includes discussion of activities in the Spanish second language classroom and strategies for teaching and learning a second language. Prereq: Students must have completed ANY 3000-level course in SPAN with a C or higher. Cross-listed with SPAN 5070. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Student must have completed ANY 3000-level course in SPAN with a C or higher.

Typically Offered: Fall, Spring.

SPAN 4076 - Spanish in Colorado (3 Credits)

A study of the Spanish language in its social context in Colorado and New Mexico. We will study historical factors as well as current social factors that contribute to the use of the Spanish language in this region. Prereq: Students must have completed ANY 3000-level course in SPAN with a C or higher. Cross-listed with SPAN 5076. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Summer.

SPAN 4080 - Spanish in the United States (3 Credits)

A study of the Spanish language in its social context as a language of the United States. In addition to studying bilingualism and language traits, factors such as race, gender, class, education, nationality, age, generation and language attitudes are considered. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5080. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4099 - Special Topics in Linguistics (3 Credits)

Varying topics in Hispanic language and literature not otherwise covered by regular courses. Note: May be taken more than once provided that the topics are different each time. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5099.

Term offered: spring, fall. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4110 - Contemporary Spanish Literature (3 Credits)

Major works published since the Spanish Civil War, which ended in 1939.

Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5110. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4130 - Medieval Spanish Literature (3 Credits)

Examines Spanish literature from the jarchas and the *Cid* through the *Celestina* in the context of the reconquest. Considers the construction of the Christian knight as a hero and the corresponding representations of women, Jews and Muslims. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5130. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4150 - Masterpieces of Spanish Literature (3 Credits)

The most enduring works in the literature of Spain across the centuries.

Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5150. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4170 - Golden Age Drama (3 Credits)

Spanish drama of the 16th and 17th centuries, the period of greatest dramatic productivity in the nation's history. Readings include selections from Lope de Vega, Tirso de Molina, Calderon de La Barca, and others.

Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5170. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4180 - Modernism (3 Credits)

Examines the first real flowering of Spanish American literature, from about 1880 to 1910. The dominant genres of the period were the short story, the essay and lyric poetry. Readings come from Darío, José Enrique Rodó, Manuel Gutiérrez Najera, Manuel Díaz Rodríguez and others. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5180. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

SPAN 4190 - Nineteenth-Century Spanish Novel (3 Credits)

The Spanish novel in one of its most productive periods, beginning with romanticism and carrying through the realist and naturalist movements. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5190. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

SPAN 4300 - Generation of 1898 (3 Credits)

Spanish literature from around the turn of the century through the first third of the 20th century, reflecting the deep intellectual and cultural ferment occasioned in part by Spain's loss of the Spanish-American War of 1898. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5300. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

SPAN 4320 - Interculturalism and Transnationalism in Modern Spain (3 Credits)

Students will examine experiences of Spaniards living in different parts of the world and the circumstances of either foreigners or migrants living in Spain, through their visual and literary texts, film, photographs, documentaries and other products of current popular culture, such as contemporary television. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5320. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4330 - Modern Culture of Spain through Film and Narrative (3 Credits)

Culture of modern Spain studied through Spanish film. The death of military dictator Francisco Franco opened the process for the recuperation of a usurped democratic, representational system that has become the basis of a cultural and economic resurgence. Taught in Spanish. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5330. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4340 - Race, Class, and Gender in Spanish Golden Age Literature (3 Credits)

Explores works of various genres in relation to their social and political contexts in 16th and 17th century Spain, emphasizing the cultural attitudes toward race, class, and gender that inform them. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5340 and WGST 4540/5540. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4350 - Don Quijote (3 Credits)

The complete *Don Quijote* in Spanish, focusing on its historical, social, and philosophic context, and its role in the emergence of the modern novel. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5350. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4360 - Women and the Spanish Civil War (3 Credits)

Focuses on the role of Spanish women during the Second Republic, the Civil War, the dark & starving postwar, & the inescapable exile that was a consequence of the conflict. Discusses several texts & films that portray this silenced odyssey, as well as historical, ideological & cultural documents of critical value & significance. Cross-listed with SPAN 5360. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPAN 4380 - Romanticism in Spain (3 Credits)

The romantic movement in 19th century Spain through plays, poems, essays. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5380. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

SPAN 4399 - Special Topics: Spanish Peninsular Literature (3 Credits)

Varying topics in Spanish Peninsular Literature not otherwise covered by regular courses. Note: May be taken more than once, provided that the topic is different each time. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Prereq or Coreq: SPAN 3101. Term offered: spring, fall. Repeatable. Max Hours: 6 hours.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4401 - Survey of Spanish-American Literature I: Pre-1898 (3 Credits)

The most important works in the literature of Spanish America from the Colonial Period to the Late 19th Century. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5401. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

SPAN 4411 - Contemporary Spanish-American Novel (3 Credits)

The novel in Spanish America since the Second World War, the period in which the greatest number and quality of works has been produced.

Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5411. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4450 - Masterpieces of Spanish-American Literature (3 Credits)

Focuses on a limited number of outstanding works in Spanish-American literature across the centuries. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5450. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4501 - Borges: An Introduction to His Labyrinths (3 Credits)

The works of Jorge Luis Borges (short stories, essays, poetry, translations, essays anthologies, lectures) will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5501. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4512 - Contemporary Argentine Short Stories (3 Credits)

The short stories by extraordinary Argentine writers, such as Jorge Luis Borges, Silvina Ocampo, Julio Cortazar, Griselda Gambaro, Adolfo Bioy Casares, and Manuel Muica Laineza, among others, will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5512. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4521 - Mexican Literature I: pre-Columbian and Colonial (3 Credits)

Survey of Mexican literature and culture from pre-Columbian times to the colonial era. Prereq or Coreq: SPAN 3101. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with SPAN 5521. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4522 - Mexican Literature II: 19th to 21st Centuries (3 Credits)

Survey of Mexican literature and culture from the early modern to contemporary literature. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5522. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4525 - Orientalisms In The Hispanic Tradition (3 Credits)

Advanced studies of orientalism in the Hispanic tradition: the Hispano-Arabic cultural heritage in Early Medieval Spain and in contemporary Hispanic cultures, as well as the influence of other eastern religions and cultures, such as Judaism or Buddhism. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5525. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4541 - Unexpected Lives: Ibero-American Queer Cinema (3 Credits)

Provocative films, by courageous Ibero-American filmmakers, on controversial topics (homosexuality, Lesbianism, bisexuality, transgender individuals, feminism, etc.) will be studied to teach students to think globally as well as critically about LGBTQ individuals in the context of Ibero-American cultures. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5541. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4550 - Garcia Marquez: Words of Magic (3 Credits)

The works of Gabriel Garcia Marquez (stories, short novels, novels, newspaper articles, interviews, lectures) will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5550. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4590 - Ibero-American Thought (3 Credits)

The course examines philosophical works by essayists, literary critics, and cultural thinkers from Spanish-American countries and the Iberian Peninsula. Besides reading philosophical works in their original form, students will read scholarly commentaries to deepen their understanding of those works. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5590. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4599 - Special Topics: Latin American Literature (3 Credits)
Varying topics in Latin American literature not otherwise covered by regular courses. Note: May be taken more than once, provided that the topic is different each time. Prereq or Coreq: SPAN 3101. Term offered: spring, fall. Repeatable. Max Hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Prereq or Coreq: SPAN 3101
Typically Offered: Fall, Spring.

SPAN 4600 - Seminar in Spanish Creative Writing: Poetry and Short Fiction (3 Credits)
A capstone writing course. Semester writing project will be collected poems and short stories. Prereq: junior standing or higher. Cross-listed with SPAN 5600. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

SPAN 4690 - Methods of Teaching Modern Languages (3 Credits)
Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, LING 4690, SPAN 5690, FREN 4690, FREN 5690, GRMN 4690, GRMN 5690, CHIN 4690, CHIN 5690. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

SPAN 4691 - Methods of Teaching Modern Languages II (3 Credits)
A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, MLNG 4691, MLNG 5691, SPAN 5691, FREN 4691, FREN 5691, GRMN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690
Typically Offered: Spring.

SPAN 4840 - Independent Study: SPAN (1-3 Credits)
Repeatable. Department consent required. Max hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

SPAN 4880 - Directed Research (1-6 Credits)
Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

SPAN 4970 - Special Topics in Literature (3 Credits)
Varying topics in Hispanic literature not otherwise covered by regular courses. Note: May be taken more than once, provided that the topic is different each time. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5970. Term offered: spring, fall. Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Prereq or Coreq: SPAN 3101
Typically Offered: Fall, Spring.

Spanish, 4 + 1 BA/ MA

Introduction

Please click here (p. 708) to see Modern Languages department information.

The combined BA/MA (4+1) program in Spanish provides a coherent cumulative educational experience that prepares students for either immediate entry into a Master's level career or continued study in a PhD program. The BA/MA application process is competitive, as the program is designed for highly qualified students who have the scholarly and linguistic competencies necessary for an expedited program.

Students study the language, linguistics, literature, culture and civilization of Spain, Spanish America and the Spanish-speaking areas of the United States in their undergraduate coursework. Students choose from two options for completion of their Master's degree: either they complete their coursework and take a comprehensive written and oral exam in their last semester, or they complete a six credit thesis under the direction of Spanish faculty. The program offers a comparatively high degree of flexibility for students to focus their studies in one or more of the following fields of Hispanic studies: Spanish linguistics, methods of teaching Spanish as a foreign language, Spanish and Spanish American literature and cultural studies, including film.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Spanish faculty advisors and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- Students should officially declare their intent to complete this program in their junior year and apply to the graduate program during their senior year. Applicants should have completed all CLAS and Core requirements by the end of their 3rd year.
 - Student must demonstrate promise or ability to pursue advanced study and research, as shown by previous scholastic records.
 - Demonstrate Spanish oral and written proficiency at the Advanced level, as defined by the American Council on the Teaching of Foreign Languages.
 - If a native speaker, must be proficient with the English language and able to speak, read and write at a graduate school level.
- To be admitted to the combined BA/MA in Spanish program, students must earn an overall GPA of B (3.0) or higher in their undergraduate coursework, but also an average GPA of B+ (3.5) or higher in their upper-division Spanish coursework (3000-4000 level). For any graduate course to be counted toward the master's degree, the student must earn a minimum grade of B- (2.7). All graduate coursework must be completed with an overall grade point average of B (3.0) or higher. Students cannot complete major, graduate, or ancillary course requirements as pass/fail.
 - Students must complete a 4+1 intent form (http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/modern-languages/spanish-4-1-ba-ma/BMA_form_1_1_.pdf) to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary. Students must apply and be accepted to the Spanish, MA during the last semester of their undergraduate career. A maximum of 12 credit hours of graduate-level courses that are applied to the undergraduate degree will apply to the graduate degree.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements Graduation Requirements (p. 370)
- Click here (p. 107) for information about Academic Policies

Admissions Requirements and Process

- Interested students should contact their SPAN undergraduate and graduate advisors as early as possible to ensure proper planning for the five year degree.
- Student and faculty will work together to submit an intent to complete the program form to CLAS Advising.
- To qualify, students must have a 3.0 or higher GPA in CLAS. All courses taken at the 4000- and 5000-level must be completed with at least a B or higher.
- Students may apply to the graduate program during the semester in which they will successfully complete their degree, and should have most of their general education and major requirements completed by this time.

Program Requirements

1. Students must complete a minimum of 36 major credit hours with a minimum of 30 SPAN credit hours.
2. Students must complete a minimum of 30 upper division (3000-level and above) SPAN credit hours, with at least 12 SPAN credit hours at the 4000 level and nine credits of 5000-level Spanish elective courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.5. Students must earn a minimum grade of B- (2.7) in all courses that apply to the graduate degree and must achieve a minimum cumulative major GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to major or graduate requirements.
4. Students must complete a minimum of 18 SPAN undergraduate level credit hours with CU Denver faculty. All graduate level credit hours must be completed with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students must satisfy all existing requirements for both an undergraduate degree in CLAS with a Spanish Language, Literature and Culture major (p. 733) and a Master of Arts in Spanish (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/modern-languages/spanish-ma/>) degree. These requirements can be fulfilled through multiple possible paths through the department's [curriculum](#).
2. A maximum of 12 graduate credit hours may be used to fulfill both the undergraduate and graduate degree requirements.

Spanish Language, Literature and Culture, BA

Introduction

Please click here (p. 708) to see Modern Languages department information.

The Spanish program studies the language, linguistics, literature, culture and civilization of Spain, Spanish America and the Spanish-speaking areas of the United States.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- To be admitted to major status in Spanish, students must have an overall GPA of C+ (2.3).

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 36 credit hours with a minimum of 30 SPAN credit hours.
- Students may have 6 credits (two courses) of SPAN at the 2000 level apply to the major, and must complete 24 total hours of SPAN courses at the upper division (3000-level and higher). At least 12 SPAN credit hours must be completed at the 4000 level or higher.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
- Students must complete a minimum of 18 SPAN credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- Courses taken at other institutions while a student is enrolled at CU Denver may be applied to the major only with departmental approval before enrollment in those courses.
- Before enrolling in their final semester in the language, Spanish majors must be evaluated by the faculty in oral and written skills. Students must see their Spanish advisor for specific information.
- Up to six credit hours of the 36 upper division level credit hours may be taken in related fields.

Code	Title	Hours
<i>Complete the following required courses:</i>		12

Spanish Language, Literature and Culture BA with Secondary Teaching Licensure Endorsement

Introduction

Please click [here](#) (p. 708) to see Modern Languages department information.

This course of study is for undergraduate students who are seeking their license to teach Spanish Foreign Language in middle and high school. The program is a joint effort between the College of Liberal Arts and Sciences and the School of Education & Human Development. Students earn a Bachelor of Arts degree through the College of Liberal Arts and Sciences in Spanish Language, Literature and Culture and a teaching license through the School of Education & Human Development.

- Student pursuing this path must major in the Spanish Language, Literature and Culture option (p. 733) and complete the teaching licensure pathway for World Languages. (p. 950)

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click [here](#) (p. 377) to go to information about declaring a major.
- To be admitted to major status in Spanish, students must have an overall GPA of C+ (2.3).
- Students planning to pursue this path must consult with an advisor as soon as possible.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- School of Education Secondary Teacher Education Licensure Program Requirements (p. 950)
- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 33 credit hours in SPAN.
2. Students may apply up to 6 credits (two courses) of SPAN 2000-level electives to the major; all other SPAN courses must be completed at

the upper division (3000-level and higher). At least 12 SPAN credit hours must be completed at the 4000 level or higher.

3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 18 SPAN credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Courses taken at other institutions while a student is enrolled at CU Denver may be applied to the major only with departmental approval before enrollment in those courses.
2. Before enrolling in their final semester in the language, Spanish majors must be evaluated by the faculty in oral and written skills. Students must see their Spanish advisor for specific information.
3. Up to six credit hours of the 36 upper division level credit hours may be taken in related fields.
4. **Students are responsible for meeting with the advisor in the SEHD to confirm teacher education and licensure requirements.** In addition to completing all minimum program requirements above, SEHD secondary education students must complete the following minimum SEHD licensure (p. 950) requirements:
 - a. Complete the Education Declaration form and all subsequent processes and requirements, including a background check, prior to April 1st (for students intending to complete their clinical field experience in fall) or November 1st (for students intending to complete their clinical field experience in spring). Students must meet with the SEHD advisor for detailed information.
 - b. Student pursuing secondary education licensure must complete the following requirements to be admitted to the Professional (final) Year:
 - i. a minimum cumulative CU GPA of 3.0 or higher. Students with a lower GPA may be considered under certain conditions.
 - ii. all CU Denver Core, CLAS, major, electives, and initial teacher education coursework requirements prior to the start of the Professional Year
 - iii. the official application and interview process
 - iv. Deadlines for Professional Year application are February 15th (for students intending to begin Professional Year in fall) or October 1st (for students intending to begin Professional Year in spring).
 - c. Students must complete all initial teacher education and professional (final) year coursework with a minimum grade of B- or higher.

Code	Title	Hours
Complete the following required courses:		12
SPAN 3060	Spanish Phonetics and Pronunciation	3
SPAN 3101	Introduction to the Study of Literature	3
Any SPAN 32XX course		3
SPAN 4690	Methods of Teaching Modern Languages	3
Complete a minimum of 12 SPAN credit hours at the 4000 level		

Complete three courses (minimum 9 credit hours) of electives.

These may be any SPAN course at the 2000 (up to 6 credit hours), 3000 or 4000 level.

Complete all of the following Urban Community Teacher Education 27-31 requirements

EDFN 4010	Social Foundations and Cultural Diversity in Urban Education	3
CLDE 4020	Responsive Classroom Communities	3
EDHD 3930	Diverse Learners Field Experience & Seminar	3
SPED 4030	Understanding (dis)Ability in Contemporary Classrooms	3
CLDE 5030	Language Development of Multilingual Learners: Advanced	3
or CLDE 5070	Understanding Language in the Classroom	
or CLDE 5140	Language, Culture & Educational Equity	
LCRT 4100	Secondary Literacy Instruction and Assessment	3
or CLDE 5070	Understanding Language in the Classroom	
or CLDE 5140	Language, Culture & Educational Equity	
UEDU 4931	Internship & Lrng Comm I	2
UEDU 4932	Internship & Lrng Comm II	2
UEDU 4933	Internship & Lrng Comm III	2-6
UEDU 4040	Planning for Learning	3

In addition to the Spanish Language, Literature and Culture major requirements, must complete licensure requirements as outlined by the School of Education and Human Development.

SEHD Licensure Requirements (p. 736)

¹ The School of Education may develop undergraduate level cross-lists for CLDE 5030 Language Development of Multilingual Learners: Advanced and CLDE 5820 Teaching Multilingual Learners, Advanced.

CLDE 4020 Responsive Classroom Communities, CLDE 5030 Language Development of Multilingual Learners: Advanced and MLNG 4690 Methods of Teaching Modern Languages apply toward the Spanish elective requirements and the Secondary Teaching Licensure requirements. Double counting these three courses can save time and money as students complete the program.

Teaching Licensure Requirements

Students must complete the Secondary Education Licensure Requirements established by the School of Education and Human Development. (p. 950)

Spanish, International Language and Culture for the Professions Option, BA

Introduction

Please click here (p. 708) to see Modern Languages department information.

This option in the Spanish major offers career possibilities, both in government and private industry, at home and abroad. Languages are useful in business, industry, commerce, civil service, law, library science, media, science, economics, health and social sciences. Students who follow this course of study could also qualify as teachers of general business subjects in bilingual as well as traditional school systems. (However, students who wish to be certified to teach Spanish in the public schools should consult the department for information concerning the undergraduate language licensure program.)

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- International Spanish for the Professions is a controlled-enrollment major that takes two years to complete. Interested students should contact the Spanish advisor in the Department of Modern Languages to declare the major. This should be done as early as possible in the student's academic career, but not later than the second semester of the sophomore year.
- To be admitted to major status in Spanish, students must have an overall GPA of C+ (2.3).
- Prerequisites: *(These courses do not count toward the major total of 45 semester hours)*

Code	Title	Hours
ECON 2012	Principles of Economics: Macroeconomics	3
ECON 2022	Principles of Economics: Microeconomics	3
MATH 1070 or MATH 1110	College Algebra for Business College Algebra	3
SPAN 2110 or SPAN 2120	Second Year Spanish I Second Year Spanish II	3

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 45 credit hours, including a minimum of 30 SPAN credit hours and 15 credit hours in ancillary coursework.
2. Students must complete a minimum of 30 upper division (3000-level and above) credit hours and minimum of six SPAN credit hours at the 4000 level or higher, in the major.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 18 SPAN credit hours with CU Denver faculty.

Program Allowances and Restrictions

1. Spanish majors are advised to take MATH 1010 Mathematics for the Liberal Arts or MATH 2830 Introductory Statistics for their CU Denver Core Curriculum Mathematics requirement.
2. Courses taken at other institutions while a student is enrolled at CU Denver may be applied to the major only with departmental approval before enrollment in those courses.
3. Before enrolling in their final semester in the language, Spanish majors must be evaluated by the faculty in oral and written skills. Students must see their Spanish advisor for specific information.
4. Students must complete least six SPAN credit hours at the 4000 level.
5. Students must complete a minimum of 30 credit hours in courses taught in Spanish.

Code	Title	Hours

Chinese Studies Minor

Introduction

Please click here (p. 708) to see Modern Languages department information.

The Minor Program in Chinese Studies is an interdisciplinary program offering a specialized study of China through coursework in the related disciplines of language, anthropology, history, geography, philosophy, and political science. China's economic and political presence is increasingly prominent in the United States. CU Denver is uniquely positioned to make use of its location as the cultural, economic and political center of the Rocky Mountain region and of its diverse, well-trained and highly qualified faculty to offer a course of interdisciplinary studies related to China. Students may choose to focus either on General Chinese Studies or *Chinese Language and Culture*. On the one hand, *General Chinese Studies* encourages an interdisciplinary approach of accepting courses from various departments that focus on history, political science, art, philosophy, and more from China, Taiwan, Hong Kong, and Singapore. On the other hand, *Chinese Language and Culture* further develops students' linguistic competence and cultural awareness. The minor program offers a wide variety and levels of Mandarin Chinese language and culture courses that not only improve students' communication skills but also give a deeper look into different aspects of Chinese culture.

The program in Chinese studies offers a host of study abroad opportunities throughout the academic year and every summer. CU Denver has on-going programs at the China Agricultural University in Beijing, and programs in Taipei, as well as an association with Yunnan University in Kunming. Study abroad programs of five weeks to one year in length may be arranged, and program faculty can help students enroll in intensive Chinese language programs in Taiwan or on the mainland. Students pursuing the minor in Chinese language and area studies are encouraged to complete the program with a period of residence and study in China.

Program Director: Dr. I-hao Victor Woo

Advisor: Dr. I-hao Victor Woo

Email: i-hao.woo@ucdenver.edu

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 17 credit hours from the approved courses.
2. Students must complete a minimum of six upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.
3. Students must earn a minimum grade of C- (1.7) in all minor courses taken at CU Denver and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U cannot complete minor or ancillary course requirements.
4. Students must complete a minimum of nine credit hours with CU Denver faculty chosen from the approved courses below.

Program Restrictions, Allowances and Recommendations

1. Courses taken at other institutions may be applied to the minor but only with approval of a Chinese faculty advisor in the Department of Modern Languages.

Code	Title	Hours
<i>Complete the following required courses:</i>		8
CHIN 1000	China and the Chinese	
CHIN 1020	Beginning Mandarin Chinese II (or higher level Chinese Language course)	
<i>Complete nine credits from the following elective courses: ¹</i>		9
ANTH 4000	Special Topics in Anthropology

Total Hours	17

¹ The Chinese Studies Program Director may approve additional courses. Students are encouraged to work with the director to devise a plan of study.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/modLang/programs/minors/>).

French Minor

Introduction

Please click here (p. 708) to see Modern Languages department information.

The French program offers courses in advanced language, linguistics, literature, civilization, culture and business, all taught exclusively in French. Students benefit from a state-of-the-art language lab with Internet access and multimedia software programs, as well as technologically "smart" classrooms.

French minors are strongly encouraged to participate in one of UC Denver's Study Abroad Programs. Please see a faculty member in French for information about opportunities to include study abroad as part of your minor.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 377) to go to information about declaring a minor.
- Students may declare a minor in the CLAS advising office, and should see the French advisor to discuss course selections.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 15 FREN credit hours.
- Students must complete a minimum of 15 upper-division (3000-level and above) FREN credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of nine FREN credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- The minor in French must include at least one language skills class, chosen from the classes listed below.

- FREN 3200 The Francophone World in the Post-Colonial Era is taught in English, and does not count toward the minor.
- All upper-division level (3000-level and above) courses must be taught in French.

Code	Title	Hours
<i>Complete one of the following required courses:</i>		3
FREN 3010	French Phonetics and Pronunciation	
FREN 3020	Conversation through Film	
FREN 3050	Advanced Grammar and Composition	
FREN 3060	Advanced French Language Skills	
<i>Complete four additional upper-division (3000-level or higher) FREN elective courses.</i>		12
<i>All courses must be taught in French.</i>		
FREN 3010	French Phonetics and Pronunciation	
FREN 3020	Conversation through Film	
FREN 3050	Advanced Grammar and Composition	
FREN 3060	Advanced French Language Skills	
FREN 3112	Survey of French Literature I	
FREN 3122	Survey of French Literature II	
FREN 3130	Current Topics of the French-Speaking World (must be taught in French)	
FREN 3140	Contemporary Francophone Cultures	
FREN 3970	Special Topics (must be taught in French)	
FREN 4010	Advanced Composition: Stylistics	
FREN 4082	Introduction to Translation	
FREN 4200	French Civilization Through the Nineteenth Century	
FREN 4210	French Civilization - Twentieth and Twenty-First Centuries	
FREN 4310	Seventeenth Century Literature	
FREN 4360	Eighteenth Century Novel, Theater and Poetry	
FREN 4430	Nineteenth Century French Novel	
FREN 4480	Twentieth Century French Novel	
FREN 4490	Twentieth Century French Theater	
FREN 4510/ WGST 4511	French Women Writers	
FREN 4520	Voices of Haiti and the Caribbean	
FREN 4600	History of the French Language	
FREN 4970	Special Topics (must be taught in French)	
Total Hours		15

Linguistics Minor

Introduction

Please click here (p. 708) to see information about the Department of Modern Languages.

The minor in Linguistics is an interdisciplinary program awarded through the Department of Modern Languages. The minor is designed to guide students through an exact and structured discipline that examines various aspects of the nature of human language. A Linguistics minor may be of particular interest to students majoring in a Foreign Language, as well as majors in fields such as Anthropology, English, Communication, Education, Philosophy, and Sociology. The Linguistics minor is open to all undergraduate students at CU Denver.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on campus program.

Declaring This Minor

- Please see your advisor. To be admitted to minor status in Linguistics, students must have an overall GPA of C+ (2.3).
- Click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 15 credit hours from approved courses.
- Students must complete a minimum of six upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of nine credit hours with CU Denver faculty chosen from the approved courses below.

Program Restrictions, Allowances and Recommendations

- Upon declaring a minor in Linguistics, each student will be assigned to a faculty advisor with whom the student should consult at least

once per semester thereafter. It is especially important that students have their transcripts reviewed by their advisor before enrolling in their final 30 credit hours at CU Denver. Failure to do so may result in delay of graduation.

- Courses taken at other institutions may be applied to the minor, but only with approval of a Linguistics faculty advisor in the Department of Modern Languages.

Spanish Minor

Introduction

Please click here (p. 708) to see information about the Department of Modern Languages.

Getting a minor can help build your skills in your field of study when correctly applied to a complementing major.

A minor can also be beneficial when you know what type of career you want to get into after graduation. In many cases what you major in does not necessarily reflect what kind of career you will go into. But if you see yourself leaning toward a certain career, you can pair this somewhat unrelated major to a minor that correlates between the two.

Minor in a language can be a great way to help you stand out from your competition in the job market.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 377) to go to information about declaring a major/minor.
- Please see your faculty advisor to develop a plan of study.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 SPAN credit hours.
2. Students must complete a minimum of 15 upper-division (3000-level and above) SPAN credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine SPAN credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students may count up to three credit hours of Independent Study or Internship courses toward the minor.

2. Students must declare this minor prior to their final semester of coursework.
3. All course work must be taught in Spanish.

Code	Title	Hours
<i>Complete at least one of the following required courses:</i>		3
SPAN 3212	Spanish American Culture and Civilization	
SPAN 3213	Contemporary Latin American Culture and Institutions	
SPAN 3221	Culture and Civilization of Spain I	
SPAN 3222	Culture and Civilization of Spain II

Medical Spanish for Beginners Undergraduate Certificate

Introduction

Please click [here](#) (p. 708) to see Modern Languages department information.

This certificate is available to all students across the University, as well as non-degree-seeking professionals with a prior degree who are seeking to increase their skill set.

Program Delivery

- This program can be completed entirely online, or it can combine online and on-campus and/or Study Abroad classes approved by the certificate advisor.

Declaring This Certificate

- You must complete the **Application for the Certificate (available on the Department webpage)**. This requires an unofficial transcript from CU Denver showing that you are a current undergraduate student, or a copy of former transcripts indicating an undergraduate degree has been previously granted. This must be completed **prior** to completing the coursework (and applying for graduation, if you are a degree-seeking student) for the certificate.
- If you are a non-degree seeking student, you can apply by downloading and completing the Application for Non-Degree Admission online. After your application for admission has been approved, you will be able to enroll for certificate courses.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Spanish for the Health Professions advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click [here](#) (p. 107) for information about Academic Policies

Note: This certificate is for beginning Spanish speakers. More advanced speakers should pursue the Undergraduate Certificate in Spanish for Health Professions.

Certificate Requirements

- Students must complete a minimum of 12 credit hours from approved courses.
- Students must complete six upper division (3000-level and above) credit hours.
- Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative

certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.

- Students must complete a minimum of nine credit hours from approved courses with a minimum of six SPAN credit hours, with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- If you have questions about your level of proficiency, please see the certificate advisor for guidance regarding placement.
- Electives with a health communication focus may be approved in consultation with certificate advisor.

Code	Title	Hours
Complete the following courses from the list: ¹		
SPAN 1070	Spanish Medical Conversation for Beginners	3
SPAN 1071	Spanish Medical Conversation for Beginners II	3
Complete two electives from the following list of courses: ²		
ANTH 4300	Immigrant Health	6
ETST 3002	Ethnicity, Health and Social Justice	
ETST 3108	Chicano/a and Latino/a History	
ETST 3704	Culture, Racism and Alienation	
HDFR 4040	Latino Families in School and Communities	
HDFR 4045	Abuelos (Grandparents) Latino Families	
PSYC 4485	Psychology of Cultural Diversity	
SOCY 3440	Medical Sociology	
SOCY 4050	Health Disparities	
SOCY 4110	Sociology of Health Care	
Total Hours		12

¹ SPAN 1070 Spanish Medical Conversation for Beginners and SPAN 1071 Spanish Medical Conversation for Beginners II should be consecutive. All other classes are more flexible.

² Some courses may have prerequisites that apply.

Other electives may be approved for the Certificate in consultation with the advisor.

Learning Spanish requires constant practice of the five skills involved in second language acquisition: speaking and listening, writing, reading, and cultural knowledge. All coursework, assessments and learning outcomes designed for this program align seamlessly with the steady improvement of these five skills.

At the end of the program, students will be able to:

- Communicate with their patients in Spanish in a culturally sensitive way.
- Write in Spanish, using the learned medical vocabulary in appropriate contexts. Write questions, instructions, prescriptions, diagnoses, etc., in Spanish.
- Read and comprehend Spanish articles related to the Healthcare field.

4. Express an understanding of the cultural beliefs and social structures that affect men's and women's health in Latin America and the USA.

Spanish for the Health Professions Undergraduate Certificate

Introduction

Please click here (p. 708) to see Modern Languages department information.

The Undergraduate Certificate in Spanish for the Healthcare Professions seeks to facilitate effective communication between healthcare professionals and their Spanish speaking patients and clients. To enhance mutual understanding, which is of critical importance within a healthcare setting, students will learn to speak, comprehend, read, and write in Spanish, with a focus on specialized vocabulary and medical communication, and will acquire intercultural competence.

This certificate is available to all students across the University, as well as non-degree-seeking professionals with a prior degree who are seeking to increase their skill set.

Program Delivery

- This program can be completed entirely online, or it can combine online and on-campus and/or Study Abroad classes approved by the certificate advisor.

Declaring This Certificate

- You must complete the **Application for the Certificate (available on the Department webpage)**. This requires an unofficial transcript from CU Denver showing that you are a current undergraduate student, or a copy of former transcripts indicating an undergraduate degree has been previously granted. This must be completed **prior** to completing the coursework (and applying for graduation, if you are a degree-seeking student) for the certificate.
- If you are a non-degree seeking student, you can apply by downloading and completing the Application for Non-Degree Admission online. After your application for admission has been approved, you will be able to enroll for certificate courses.
- For questions about the Spanish for the Health Professions certificate program contact Dr. Marisa Fernández (maria.fernandezmartinez@ucdenver.edu).

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Spanish for the Health Professions advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credit hours from approved courses.
2. Students must complete six SPAN upper division (3000-level and above) credit hours.
3. Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.

Spanish for International Business Undergraduate Certificate

Introduction

Please click here (p. 708) to see Modern Languages department information.

The Department of Modern Languages offers an undergraduate Certificate in Spanish for International Business for students seeking an academic credential showing that they are prepared to meet the challenges of doing business in the Spanish-speaking world.

This certificate is available to all students across the University, as well as non-degree-seeking business professionals seeking to increase their skill set and value in the international market.

Program Delivery

- This certificate can be fulfilled entirely online, or through a combination of online and on-campus courses

Declaring This Certificate

- You must complete the **Application for the Certificate** (https://clas.ucdenver.edu/modLang/sites/default/files/attached-files/application_for_certificate_in_spanish_int_business3.pdf) (available on the Department webpage). This requires an unofficial transcript from CU Denver showing that you are a current undergraduate student, or a copy of former transcripts indicating an undergraduate degree has been previously granted. This must be completed **prior** to completing the coursework (and applying for graduation, if you are a degree-seeking student) for the certificate.
- To begin coursework, non-degree-seeking students will need to apply to the University as a non-degree seeking student. Once accepted, you will be able to enroll in all of the appropriate classes. The following is a link to that information: <https://www.ucdenver.edu/admissions/non-degree-admissions> (<https://www.ucdenver.edu/admissions/non-degree-admissions/>).
- For questions about the Spanish for the Health Professions certificate program contact Dr. Gabriela DeRobles (gabriela.derobles@ucdenver.edu).

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Spanish for International Business advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

- Students must complete a minimum of 12 SPAN credit hours.
- Students must complete all 12 SPAN credit hours at the upper division level (3000-level and above).
- Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
- All 12 SPAN credits for the certificate must be earned at the University of Colorado Denver.

Certificate Restrictions, Allowances and Recommendations

- SPAN 2120 Second Year Spanish II (or equivalent proficiency) is a prerequisite for a majority of upper division level (3000 level and higher) SPAN courses.

Code	Title	Hours
<i>Complete the following required courses:</i>		6
SPAN 3700	Spanish for International Business I	
SPAN 3710	Spanish for International Business II	
<i>Complete two of the following elective courses:¹</i>		6
SPAN 2130	Current Topics in the Spanish-Speaking World (topic must be applicable to Spanish for International Business)	
SPAN 3213	Contemporary Latin American Culture and Institutions	
SPAN 3223	Contemporary Spanish Culture and Institutions	
SPAN 3225	Special Topics In Hispanic Culture (topic must be applicable to Spanish for International Business)	
SPAN 3782	Introduction to Translation I	
SPAN 3792	Introduction to Translation II	
Total Hours		12

¹ SPAN 2130 Current Topics in the Spanish-Speaking World and SPAN 3225 Special Topics In Hispanic Culture can be applied to the certificate with advisor approval.

Chinese for International Business Undergraduate Certificate

Information

Please click here (p. 708) to see Modern Languages department information.

This certificate is available to all students across the University, as well as non-degree-seeking business professionals seeking to increase their skill set and value in the international market.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Chinese for International Business advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

- Students must complete a minimum of 12 credit hours from approved courses.
- Students must complete six CHIN upper division (3000-level and above) credit hours.
- Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
- Students must complete a minimum of nine credit hours from approved courses with a minimum of six CHIN credit hours, with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

- If you have questions about your level of proficiency, please see the certificate advisor for guidance regarding placement.
- Additional electives may be approved in consultation with certificate advisor.

Code	Title	Hours
Complete the following program requirements, according to your entering Chinese proficiency level: ¹		
A. If your level of Chinese proficiency is elementary/beginner: ²		

Complete the following three courses:

CHIN 1071	Beginning Mandarin Chinese for International Business
CHIN 3071	Intermediate Mandarin Chinese for International Business
CHIN 3130	Special Topics in Chinese

B. If your level of Chinese proficiency is intermediate or higher:

Complete both of the following required Chinese courses:

CHIN 3071	Intermediate Mandarin Chinese for International Business
CHIN 3130	Special Topics in Chinese (topic must be related to international business)

Complete three-six credits from the following elective courses—one course for beginning level students and two courses for intermediate level students:³

CHIN 1000	China and the Chinese
CHIN 3130	Special Topics in Chinese (topics for elective credit can be related to anything)
CHIN 3200	Contemporary Chinese Society and Culture
COMM 4430	Communication, China, and the US
ENTP 6826	International Entrepreneurship
FINE 4750	Arts of China
GEOG 3160	Geography of China
HIST/CHIN 4421	Modern China
INTB/ENTP 4028	Global Study Topics (topics must be related to China)
INTB/MGMT 4400	Environments of International Business
PHIL 3981/RLST 3660	Chinese Philosophy and Culture
PSCI 4615	Politics and Government of China
PSCI 4186	East Asia in World Affairs

Total Hours **12**

¹ If you haven't taken any classes here at CU Denver, take the placement test. You will take it in our Modern Languages Language Lab (Plaza 115). Just walk in and ask to take the test. The test results will show which level you have tested into.

The certificate program aims to give students a solid foundation in business vocabulary words, basic business and cultural concepts, and intensive situational practice that will prepare them to function competently in today's Chinese-speaking world. The specialized course content will benefit students in their pursuit of individual and professional career objectives in the global marketplace. After successfully completing the requirements for the program, students will:

- Develop geographic literacy and cultural understanding of the Chinese-speaking world.
- Become competent with basic vocabulary and structures required to communicate and be able to discuss and translate texts and documents related to business in Chinese.
- Reach the level of Intermediate Low of ACTFL's proficiency test.

- a. Speakers at the Intermediate Low sublevel are able to handle successfully a limited number of uncomplicated communicative tasks by creating with the language in straightforward social situations. Conversation is restricted to some of the concrete exchanges and predictable topics necessary for survival in the target-language culture. These topics relate to basic personal information; for example, self and family, some daily activities and personal preferences, and some immediate needs, such as ordering food and making simple purchases.
- b. At the Intermediate Low sublevel, speakers are primarily reactive and struggle to answer direct questions or requests for information. They are also able to ask a few appropriate questions. Intermediate Low speakers manage to sustain the functions of the Intermediate level, although just barely. Intermediate Low speakers express personal meaning by combining and recombining what they know and what they hear from their interlocutors into short statements and discrete sentences.
- c. Their responses are often filled with hesitancy and inaccuracies as they search for appropriate linguistic forms and vocabulary while attempting to give form to the message. Their speech is characterized by frequent pauses, ineffective reformulations and self-corrections. Their pronunciation, vocabulary, and syntax are strongly influenced by their first language.
- d. In spite of frequent misunderstandings that may require repetition or rephrasing, Intermediate Low speakers can generally be understood by sympathetic interlocutors, particularly by those accustomed to dealing with non-natives

Philosophy

Chair: Sarah K. Tyson, PhD

Program Assistant: Sulastri Carr

Department Advisor: Mark Tanzer, PhD

Office: Plaza Building, M 108

Telephone: 303-315-7223

Overview

The philosophy program offers a rigorous liberal arts education. It trains students to speak and write carefully, think and reason critically, and seek out creative connections between ideas of all kinds. Philosophy is an excellent preparation for almost any professional field. Philosophical inquiries can cover a wide range of subject matters including ethics and politics, art and literature, history and religion, technology, and the sciences. The benefits of a philosophy degree last a lifetime, setting students on a path toward self-development, intellectual sophistication, and the enrichment that comes from living a more reflective life.

Undergraduate Information

The philosophy program involves the study of three major periods: ancient, modern, and contemporary philosophy.

Click here (p. 761) to learn about the requirements for the Major in Philosophy.

Click here (p. 767) to learn about the requirements for the Minor in Philosophy.

Click here (p. 765) to learn about the requirements for the Minor in Ethics.

Click here (p. 768) to learn about the requirements for the Minor in Philosophy of Science.

Honors Program

Requirements for honors are the following:

1. Course Performance
 - a. *Cum laude*, 3.4 GPA within the major, 3.3 overall GPA
 - b. *Magna cum laude*, 3.6 GPA within the major, 3.5 overall GPA
 - c. *Summa cum laude*, 3.8 GPA within the major, 3.7 overall GPA
2. Thesis

Majors desiring to graduate with honors in philosophy must enroll in PHIL 4950 Honors Thesis for 6 hours (note that these hours are in addition to the 36 hours required for the philosophy major) and complete research that culminates in a thesis and oral examination. Majors must work with two faculty members during the project. Written proposals must be submitted and approved by the faculty committee prior to the beginning of the project. If the completed thesis and oral exam are deemed worthy of honors, the student will be awarded the honors consistent with his or her GPA. However, to receive the highest honors (*summa cum laude*), the faculty committee must designate the performance for both the written thesis and the oral defense as worthy of graduation with the highest honors. If the faculty committee makes no such designation, students will graduate *magna cum laude*.

Graduate Information

Please click here (p. 763) for more information about the 4+1 Philosophy to Master of Humanities well as the graduate program philosophy through the CU Denver Masters of Humanities Program's Philosophy and Theory Track. (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/humanities/humanities-mh/#degreerequirementstext>)

For admissions to the 4+1 Philosophy to Master of Humanities, the deadlines to apply to the program are as follows:

November 1 (for entering the spring semester)

April 1 (for entering the summer semester)

May 1 (for entering the fall semester)

Programs Offered

- Philosophy, BA (p. 761)
- Philosophy, 4 + 1 BA/ Humanities, MH (p. 763)
- Ethics Minor (p. 765)
- Philosophy Minor (p. 767)
- Philosophy of Science Minor (p. 768)

Faculty

Professors:

David L. Hildebrand, PhD, University of Texas, Austin

Robert Metcalf, PhD, Pennsylvania State University

Candice Shelby, PhD, Rice University

Mark Tanzer, PhD, Stony Brook University

Associate Professors:

Sarah K. Tyson, PhD, Vanderbilt University

Gabriel Zamosc-Regueros, PhD, University of Michigan

Assistant Professors:

Boram Jeong, PhD, Duquesne University

Clinical Teaching Track:

Jeffrey Golub, PhD, The New School for Social Research

Senior Instructors:

Brian Lisle, PhD, Loyola University of Chicago

William (Darryl) Mehring, PhD, University of Colorado

Philosophy (PHIL)

PHIL 1012 - Truth, Reality, and the Good Life: Introduction to Philosophy (3 Credits)

We're commonly told to "do the right thing," and everybody seems to agree that we should. But what is right? What is wrong? How can we see and know the difference? This course helps students examine and analyze the ethical concepts, situations, and problems raised by these fundamental questions. Specific problems will vary with contemporary concerns, e.g., poverty, war, injustice, famine, abortion, punishment, and environmental sustainability. The course goal is to help students sharpen their ethical reasoning skills so they can better navigate and contribute to the ethical, social, and political arenas in which they will live their lives. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking.

Typically Offered: Fall, Spring, Summer.

PHIL 1020 - Right, Wrong, and Seeing the Difference: Introduction to Ethics (3 Credits)

We're commonly told to "do the right thing," and everybody seems to agree that we should. But what is right? What is wrong? How can we see and know the difference? This course helps students examine and analyze the ethical concepts, situations, and problems raised by these fundamental questions. Specific problems will vary with contemporary concerns, e.g., poverty, war, injustice, famine, abortion, punishment, and environmental sustainability. The course goal is to help students sharpen their ethical reasoning skills so they can better navigate and contribute to the ethical, social, and political arenas in which they will live their lives. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking.

Typically Offered: Fall, Spring, Summer.

PHIL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

PHIL 1700 - Philosophy and the Arts (3 Credits)

Considers philosophical questions involved in the analysis and assessment of artistic expressions and of the objects with which the arts, including the literary arts, are concerned. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 2441 - Logic, Language and Scientific Reasoning (3 Credits)

Intro course in argumentation, critical thinking and scientific reasoning.

Covers rules of logical inference, informal fallacies, problem solving, and probabilistic reasoning. Enhances analytical and critical thinking skills tested on LSAT and MCAT, central to advancement in sciences, and broadly desired by employers. Max Hours: 3 Credits. Term offered: spring, summer, fall. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT

courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking.

Typically Offered: Fall, Spring, Summer.

PHIL 2510 - Philosophy of Nature (3 Credits)

Critical comparison of different views of nature presupposed in science, art, religion, and environmental policy. Concepts of "natural" are examined in relation to such issues as animal rights, wilderness preservation, synthetic landscape, technology, pollution, and population control. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Department consent required. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

PHIL 3002 - Ancient Greek Philosophy (3 Credits)

What is philosophy? What is the nature of reality? What is the difference between knowledge and opinion? What is the best kind of life for a human being to lead? Ancient Greece was the birthplace of Western philosophy, and this course traces the history of ancient Greek thought, from Homer and Hesiod through the pre-Socratic thinkers (e.g. such figures as Thales, Pythagoras, Heraclitus, Parmenides, Zeno of Elea, Empedocles, Anaxagoras and Democritus) to Plato, Aristotle and later Hellenistic thought. Cross-listed with PHIL 5002. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PHIL 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"—our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with ETST 3003, HIST 3003, INTS 3003, RLST 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PHIL 3010 - Medieval Philosophy (3 Credits)

History of philosophy from Augustine through Scotus and Ockham, the 5th through the 14th centuries. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3022 - Knowledge, Perception, and the Search for Objectivity: Modern Philosophy (3 Credits)

How does physical matter relate to minds and the mental realm? How does objective reality related to what seems subjective — human knowledge, perception, and feeling, etc.? What is the role of logical thinking in connecting the objective and subjective areas of reality? Can philosophy ground knowledge so that scientific inquiry is safe from the challenges of skepticism? These are just a few of the problems posed by the "modern" period in philosophy, from roughly the end of the 16th century to the end of the 18th century. This course examines such epistemological questions and surveys key metaphysical themes that modern thinkers inherited from ancient and medieval philosophy. Figures typically include Descartes, Leibniz, Spinoza, Locke, Hume, and Kant, among others. Cross-listed with PHIL 5022. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 3032 - Twentieth Century Analytic Philosophy (3 Credits)

Surveys representative philosophers, methods, and problems in the 20th century analytic tradition. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3050 - Propaganda: Truth, Lies, and Freedom (3 Credits)

All who live in this world must choose what to do. Some of those choices can rely on first-hand experience, but most rely on information, facts, and descriptions from external sources. As every programmer will tell you, "Garbage in, garbage out." Thus, getting "good" information is critical to our ability to live freely, autonomously, and ethically. It is typical for philosophy classes to teach logic and reasoning — and those are important. But reasoning is useless if its content (or information) is deceptive, misleading, or incoherent. What's more, since democratic countries are premised upon knowledgeable citizens, the short-circuiting of reasoning by propaganda may be the greatest danger democracy has. The question becomes: what is propaganda? How do we define it? How do we locate it? And finally, how do we spell out what's (possibly) wrong with it? Accordingly, this course is an inquiry into the epistemic, technological, and ethical dimensions of propaganda. It will define propaganda, identify how it works, and seek to understand the variety of agents and motives who use propaganda to achieve their ends. (It is not assumed that propaganda is always good or always bad, by the way.) In addition to understanding the logical and epistemic nature of propaganda, this course will examine how it is disseminated. How do technologies (text, video, social media, algorithms, etc.) influence and foment misinformation? The overarching goal will be to become more aware and critical of propaganda we encounter so we can avoid "garbage" information which can manipulate us and prevent us from reasoning logically and ethically. Cross-listed with PHIL 5050. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 3150 - History of Ethics (3 Credits)

Surveys the ethical thought of major figures in the history of philosophy, beginning with Plato and ending with the 19th century. Examples: Aristotle, Hume, Kant and Mill. (Class readings of primary philosophical texts.) Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3200 - Justice, Freedom, and Power: Social and Political Philosophy (3 Credits)

What is justice? What justifies a government as moral? Why should individuals obey the state's laws? Can anarchism work? Is private property necessary to a free society? Is social justice? What is freedom — and what is oppression? Is gender, ethnic, and religious diversity necessary for a just society? Why? This course will raise these kinds of questions as it examines basic issues in social and political philosophy (e.g. justice, freedom, individuality, power and community). Cross-listed with PHIL 5200. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 3250 - Business, Society, and Moral Responsibility (3 Credits)

Is business ethics an oxymoron? Of course not. But everyone in business, from the CEO to the new assistant, truly succeeds if they can address ethical problems with empathy and imagination. This course teaches students to deploy philosophical tools — logic and moral theory — to size up and solve contemporary moral issues in business. Topics may include corporate responsibility, advertising and manipulation, privacy and surveillance, equity and inclusion, and the tension between profit maximization and the duty to our fellow human beings. The larger meaning and purposes of work may also be addressed. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3280 - War and Morality (3 Credits)

Attempts to identify and analyze some of the major moral issues of war. When is a war just, when is it not? What are morally acceptable rules of engagement? What, if anything, justifies violating them? How does one evaluate terrorism and war against terrorism? What are moral alternatives to the violence of war? Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 3300 - Special Topics in Philosophy (1-3 Credits)

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHIL 3333 - Happiness and the Good Life (3 Credits)

Happiness is something we all want, but what is it? Happiness can be difficult to define, let alone to achieve. Is it a state? A feeling? An illusion? Is happiness something we can even control? Is it related to morality and ethics? This course will consider various philosophers' writings on happiness and the good life, and may include comparisons that range across time, culture, and other disciplines (such as economics and positive psychology). Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities.

Typically Offered: Fall, Spring, Summer.

PHIL 3340 - Investigating Nature: Introduction to the Philosophy of Science (3 Credits)

This course is designed to introduce students to the Philosophy of Science. (No background in philosophy is required.) Philosophy of Science is concerned with how best to use observation and experiment to learn about the world, whether we are investigating fundamental physical structures, the complex operations of biological organisms, or the social dynamics of human groups. Drawing on both historical and contemporary works, we will seek to understand, among other topics, what makes scientific inquiry distinct from other forms of human learning, what accounts for the credibility and objectivity of scientific claims, the influence of psycho-social biases on observation and theory formation, as well as whether accepting a scientific theory, explanation or hypothesis means that we think it is true. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 3350 - Metaphysics (3 Credits)

Studies major theories of reality, including topics such as the nature of substance, space and time, and universals and particulars. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3360 - Epistemology (3 Credits)

Study of major theories of knowledge, including such problems as perception and the distinction between belief and knowledge. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3410 - Asian Philosophies and Religions (3 Credits)

We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with RLST 3410. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

PHIL 3430 - How to think green: Environmental Ethics (3 Credits)

Is it wrong to extinguish a species? What makes cruelty to animals wrong? Do trees have rights? Is the earth a resource we can use any way we want? Is vegetarianism a more ethical way to live – or just another lifestyle choice? As citizens of the world, we are bombarded by such questions. Understanding what is fundamental clarifies thinking and coordinates action. This course introduces ethical theories relevant to problems such as animal and species welfare, deforestation, pollution, climate change, and the sustainability of the planet. By examining multiple perspectives, students gain confidence judging which issues and data are significant and deciding what kind of world we should create with our actions and inactions. Cross-listed with PHIL 5430, HUMN 5430 and SSCI 5430. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3440 - Introduction to Symbolic Logic (3 Credits)

Covers truth functional and quantificational logic through polyadic first order predicate calculus and theory of identity. Attention is given to such problems in metatheory as proofs of the completeness and consistency of systems of logic. Prereq: A passing grade in PHIL 2441 or MATH 3000 or permission from the instructor is required in order for students to enroll in this course. Cross-listed with MATH 3440. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHIL 2441 or MATH 3000

Typically Offered: Spring.

PHIL 3441 - Philosophical Reasoning Skills (3 Credits)

This course provides Philosophy majors and other philosophically interested students with the skills and tools necessary for effectively navigating philosophical discussions. In this course we will cover issues such as validity and soundness, as well as several systems useful for demonstrating validity. The course will in addition address important issues in the philosophy of language, including the very important question of definitions, as well as the use of thought experiments and avoidance of informal fallacies. Finally, since philosophical reasoning increasingly involves knowledge of the methods of scientific reasoning, those skills will also be included in the course. Cross-listed with PHIL 5441. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 3500 - Ideology and Culture: Racism and Sexism (3 Credits)

What is "racism" or "sexism"? What is oppression? How do these ideas become invisible so that they structure ways people think, act? How do they inform policies, laws, and institutions? And what modifies or overturns such ideas? By answering such questions, this course helps students reflect on the formation of their own lives, practices, beliefs, and values. Topics may include ideology theory, naturalism, the equal protection clause, recent scientific discussions, socio-legal history, and social constructionism. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

PHIL 3550 - Philosophy of Death and Dying (3 Credits)

Historical overview of the metaphysical question of whether there is life after bodily death, beginning with classical arguments through the current debate over such phenomena as near death experiences and deathbed visions. Also focuses on ethical controversies such as suicide, euthanasia, and capital punishment, and the efficacy of philosophical consolations for grief. Strongly Recommended: Three hours of philosophy; preferably PHIL 1012 but if the student does not have coursework, consulting with the instructor prior to registration is strongly recommended. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 3656 - Contemporary Religious Ethics: Jewish and Christian Traditions (3 Credits)

Historical and thematic introduction to ethics in Judaism, Roman Catholicism and Protestantism. A study of selected ethical issues: bio-medical, social justice, sexuality, economic justice, business and personal ethics. Strongly Recommended: English Composition, Intro to Philosophy, World Religions, World History or junior status. If the student does not have coursework or standing, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3760 - Kant: Freedom, Reality, and the Mind (3 Credits)

Why do motives matter in ethics? What is an ethical duty? How do sensations and ideas combine to make reality unified and coherent? Kant's philosophy answers these questions by providing a profound synthesis of the philosophers before him. Kant's work still influences ethics, politics, metaphysics, epistemology, and science today. This course involves students in close study of Kant's revolutionary thought as it appears in several of his major works. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5830. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 3833 - Existentialism (3 Credits)

Examines one of the most influential movements in recent European thought, beginning with existentialism's 19th century roots, and continuing on to the existentialist philosophers of the 20th century. Figures covered may include Dostoyevsky, Kierkegaard, Nietzsche, Heidegger, Sartre and de Beauvoir. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5833, HUMN 5833, and SSCI 5833. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHIL 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

PHIL 3981 - Chinese Philosophy and Culture (3 Credits)

China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalis, Chinese "logic," and the later schools of schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with RLST 3660. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3995 - Global Study Topics (1-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Department consent required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

PHIL 4000 - 19th and 20th Century Continental Philosophy (3 Credits)

A seminar on key problems and thinkers in the nineteenth & twentieth century continental philosophical traditions and their contemporary significance. Cross-listed with PHIL 5000, HUMN 5000 and SSCI 5000. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4040 - Skepticism (3 Credits)

Considers various forms of skepticism in the history of philosophy, as well as the ways that philosophers have responded to skepticism, especially in theories of belief. Note: PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5040. Max Hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4101 - Pragmatism: Classical American Philosophy (3 Credits)

The most significant philosophical tradition born in the United States is pragmatism. Examines several of the most important classical works of this tradition, the influence of thinkers who have helped to shape pragmatism, and the contemporary relevance of this tradition. Figures who may be included are: Emerson, Pierce, Royce, James, Dewey, Mead and Rorty. PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5101, HUMN 5101, SSCI 5101. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4150 - Twentieth Century Ethics (3 Credits)

Surveys representative philosophers, methods, and/or problems in 20th century ethics. PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4200 - Philosophical Problems and Contemporary Culture (3 Credits)

Issues and controversies in contemporary culture, their relation to modern theories of society, and their manifestations in the arts, science and technology, education, religion and ethics. PHIL 3002 or 3022, and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4220 - Art, Beauty, and Aesthetic Criticism: Philosophy of Art (3 Credits)

What makes something a work of "art"? How should art be interpreted or evaluated? Can we really debate about "taste" or beauty? Why do we call some people "artists" or some experiences "aesthetic"? Where does creativity come from? This course investigates such questions, offering a range of historical and contemporary answers, and examines the social, political, and philosophical roles of art in contemporary society. Methods of engaging these questions may include multimedia technologies as well as individual and group field trips to local art venues. Cross-listed with PHIL 5220 and HUMN 5220. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4230 - Postmodernism (3 Credits)

Traces the history of a set of ideas collectively known as postmodern. Disrupting traditional frameworks of knowledge, these concepts have had an enormous impact on the social sciences, the humanities, and the arts. Course readings expose students to the cross-disciplinary impact of postmodernism on theory, content, and method. Upper division standing, PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4242 - Medicine, Health Care, and Justice: Bioethics (3 Credits)

Anyone entering a medical profession must confront tough ethical issues and dilemmas. These often arise suddenly, so practitioners best preparation is to think ahead about what will likely occur. This course introduces students to a variety cases and philosophical theories useful to healthcare careers. For example, What is "health" and who determines it? Is there a right to health care? How should medical scarcity (vital organs, vaccines, supplies, etc.) be addressed? What duties are owed to patients by healthcare providers, and why? On what grounds may medical treatment be demanded — or refused? The goal of the class is to train students to be nimble and imaginative in how they reason about the difficult cases they will face in their career. Suggested prerequisite one or two previous courses in philosophy, and a minimum grade of C in each course are strongly recommended; if the student lacks this coursework, consult with the professor prior to registration. Cross-listed with PHIL 5242, SSCI 5242, HUMN 5242. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4260 - Why Obey the Law? Introduction to Philosophy of Law (3 Credits)

What is a legal "law"? What justifies its ability to force our compliance? How is law distinct from morality? What makes some laws immoral? Is ignorance of the law ever a valid excuse? We all find ourselves entangled with the law at some point. Sometimes we're the victim and sometimes we stand accused; even beyond those special circumstances, we all have to live with the law and the many ways it regulates (or controls) our conduct. While this course is recommended for pre-law students, this course will every students to be intellectually critical of what law is, how it can and is justified, and how to assess it on grounds that reach beyond to law, such as logic or ethics. Both historical and contemporary sources will be used to survey theoretical positions on the nature of law. Figures may include (among others): Plato, Aristotle, Aquinas, Locke, Kant, Holmes, Mackinnon, Dworkin, Hart, Devlin, as well as more contemporary Supreme Court justices and case law. Suggested prerequisite one or two previous courses in philosophy, and a minimum grade of C in each course are strongly recommended; if the student lacks this coursework, consult with the professor prior to registration. Cross-listed with PHIL 5260. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4270 - Philosophy of History (3 Credits)

Examines critical and speculative theories of history, including the problems of methodology, explanation, values, and the relationship between history and social philosophy. PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4300 - Mind, Body, and Consciousness: Philosophy of Mind (3 Credits)

Consideration of the problems in the philosophy of mind, such as the mind-body problem, the problem of our knowledge of other minds, the compatibility of free will and determinism, and discussion of such concepts as action, intention, motive, desire, enjoyment, memory, imagination, dreaming and self-knowledge. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5300. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4308 - Contemporary Feminist Thought (3 Credits)

This course explores contemporary feminist thought in philosophy and literature in the 20th and 21st centuries. Topics include lesbianism, black feminism, Chicana feminism, transgender identity, women and work and others. Cross-listed with ENGL 4308, ENGL 5308, PHIL 5308, WGST 4308, WGST 5308. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4341 - Latin American Philosophy (3 Credits)

This course introduces students to Latin American Philosophy by exploring its indigenous roots, its recurring themes of struggle against colonial domination, and the way this tradition works with and against European and Anglo-American philosophical ideas. Students will also learn about how questions of identity, especially those of ethnicity, have developed within this area of philosophy. Cross-listed with PHIL 5341. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PHIL 4350 - Philosophy of Science (3 Credits)

This course examines some of the central philosophical questions concerning the nature of scientific investigation, such as the logical relation of evidence to hypothesis, the objective adjudication of competing hypotheses, the logical function of modeling in empirical inquiry, the criterion for a classificatory system to underwrite induction and explanation, the explanatory relationships between the differing sciences, as well as the theoretical and pragmatic function of scientific law and its relationship to explanation. Cross-listed with PHIL 5350. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4360 - American Legal Process (3 Credits)

Introduces students to basic issues in American jurisprudence as well as to the elements and dynamics of the modern American legal system. Cross-listed with PHIL 5360. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4450 - Punishment and Social Justice (3 Credits)

We will use the critical tools of philosophy to think about how contemporary practices of punishment are justified, how they shape the world we live in and what alternative normative frameworks might be. Cross-listed with PHIL 5450. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4460 - Theories of Human Nature (3 Credits)

Consideration of such problems as the changeability and definability of human nature, and the possibility of a science of human nature. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4470 - Concepts of the Soul (3 Credits)

Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with PHIL 5470 and RLST 4440, 5440. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4480 - Perspectives on Good and Evil (3 Credits)

Examines "problem of evil" as formulated in the philosophical tradition. Presents classical formulation of the problem, traditional solutions & classical critiques of each answer. Considers perspectives of various religious orientations, which deal differently with the question of suffering. Cross-listed with PHIL 5480, RLST 4480/5480. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4500 - Feminist Philosophy (3 Credits)

Seminar on key debates & figures in historical & contemporary feminist philosophy. Topics may include: rights, embodiment, gender, sexuality, race, reason, & violence. Figures may include: Wollstonecraft, Stanton, Beauvoir, Judith Butler, and bell hooks. Cross-listed with PHIL 5500, WGST 4500 & 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4600 - Questioning Religious Belief and Practice: Introduction to Philosophy of Religion (3 Credits)

Does God exist? Can the existence of God be proved? When is believing on faith acceptable? How or why is there a "problem of evil"? What are the attributes of a "god" and how can they be known, if at all? What is the relation of God to the world we experience? How does morality relate to religious belief and practice? The goal of the course is to broaden and deepen our understanding of key philosophical debates within religious traditions as we study prominent thinkers in the history of philosophy. Cross-listed with HUMN 5600, PHIL 5600, RLST 4060, RLST 5060, and SSCI 5600. Term offered: summer. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

PHIL 4700 - Seminar in a Major Philosopher (3 Credits)

The major philosophical texts of one philosopher is studied in this course. Philosophers to be studied are major figures in the history of philosophy such as Plato, Aristotle, Kant and Hume. Note: May be taken for credit more than once. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Repeatable. Max hours: 15 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 15.

PHIL 4720 - Eastern Religious Thought (3 Credits)

Parallels the course in Western religious thought. The great religious traditions of the East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of key philosophical representatives of each tradition. Cross-listed with RLST 4080. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4730 - Philosophy and Literature (3 Credits)

Considers the philosophical dimensions of literature. Strongly Recommended: PHIL 3002 or 3022, and a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5730, ENGL 4735 and 5735. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4735 - Rationalism (3 Credits)

Addresses the fundamental questions of truth and reality through natural reason. Topics vary and may include metaphysics and the rise of modern science; women and the enlightenment; historical problems and linguistic analysis. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5735. Max Hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4740 - Empiricism (3 Credits)

Considers the nature and importance of experience. Focuses on British Empiricism, but additional themes which vary may include: American pragmatism, logical positivism, scientific empiricism, phenomenology of experience. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5740. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4750 - Introduction to Phenomenology (3 Credits)

Examines the contribution of phenomenology to selected topics in the theory of meaning, philosophy of mind, ontology, and epistemology, through a study of such philosophers as Husserl, Heidegger, Sartre and Merleau-Ponty. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5750. Max Hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4755 - Philosophical Psychology (3 Credits)

Explores debates about psyche and body, mind and world, self and others, and consciousness and nature. Examines the philosophical questions related to those debates that arise within theories of perception, affect and cognition offered by influential psychological models. Cross-listed with HUMN 5750, SSCI 5750 and PHIL 5755. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4770 - Hegel (3 Credits)

A systematic study of the thought of G.W.F. Hegel through his most important and influential works: *The Phenomenology of Spirit*; *The Encyclopedia of Philosophical Sciences*; *The Science of Logic*; *Lectures on the Philosophy of History*; and his lectures on the history of philosophy, art and religion. Focus of the course varies. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5770. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4780 - Heidegger (3 Credits)

Studies the thought of Martin Heidegger, one of the most important philosophers of the 20th century. Includes texts from both Heidegger's early and later periods, and focuses on his analyses of human subjectivity and being. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5780. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4790 - Nietzsche (3 Credits)

A close study of Nietzsche's philosophical writings, with attention to his significance for philosophy in the 20th century and beyond. Cross-listed with PHIL 5790. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Spring.

PHIL 4795 - Marx and Marxism (3 Credits)

A close study of the most influential works of Karl Marx and subsequent theorists who provide either an influential interpretation of the works of Marx or contribute to an innovative application or elaboration of the basic tenets of Marxism. Cross-listed with PHIL 5795. Max Hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4800 - Plato (3 Credits)

A careful study of Plato's writings, emphasizing the dialogue form, and discussion of Plato's significance for the history of ethics, political theory, psychology, metaphysics and epistemology. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5800. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Spring.

PHIL 4810 - Aristotle (3 Credits)

Examines Aristotle's systematic philosophy and discusses its contributions to logic, epistemology, physics, psychology, metaphysics, ethics and political theory. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5810. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4812 - Special Topics in Philosophy (3 Credits)

Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

PHIL 4820 - Hume (3 Credits)

Considers the work of eighteenth century philosopher David Hume. Emphasis on unity of Hume's thought. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5820. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4840 - Independent Study: PHIL (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

PHIL 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHIL 4900 - John Dewey (3 Credits)

John Dewey was one of the most important of the American philosophers and public intellectuals of the twentieth century. Topics may include Dewey's philosophical naturalism, pragmatist epistemology, process metaphysics and philosophies of experience, aesthetics, religion, technology and democracy. Cross-listed with PHIL 5900. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4920 - Philosophy of Media and Technology (3 Credits)

A philosophical examination of interrelationships between contemporary media, technology, and their impacts upon character of contemporary life and values. Topics may include ethics, epistemology, democracy, advertising, media literacy and criticism. Cross-listed with PHIL 5920, HUMN 5920, SSCI 5920. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4933 - Philosophy of Eros (3 Credits)

What does it mean to understand philosophy as an erotic activity? This question will be examined, first by studying Plato's dialogues-such as Lysis, Symposium and Republic-and then by reading texts from Sigmund Freud, Michael Foucault and others. Cross-listed with PHIL 5933, WGST 4933/5933, SSCI 5933 and HUMN 5933. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4950 - Honors Thesis (3-6 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Additional Information: Report as Full Time.

PHIL 4980 - Special Topics in Philosophy (1-3 Credits)

Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Introduction

Please click here (p. 752) to see the Philosophy department information.

The philosophy program offers a rigorous liberal arts education. It trains students to speak and write carefully, think and reason critically, and to seek out creative connections between ideas of all kinds. Philosophy is an excellent undergraduate preparation for almost any professional field. Philosophical inquiries can cover a wide range of subject matters including ethics and politics, art and literature, history and religion, technology, and the sciences. The benefits of a philosophy degree last a lifetime, setting students on a path toward self-development, intellectual sophistication, and the enrichment that comes from living a more reflective life.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- Contact department advisor Mark Tanzer (mark.tanzer@ucdenver.edu) for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Degree Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 36 PHIL credit hours.
- Students must complete a minimum of 16 upper-division (3000-level and above) PHIL credit hours.

- Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
- Students must complete a minimum of 18 PHIL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- Courses taken at other institutions must either be transferred as direct equivalent to a CU Denver course or be approved by an advisor in the Philosophy Department for application towards the major.
- For those students who both major in philosophy and minor in ethics, philosophy or philosophy of science, up to two courses can satisfy the requirements for both.
- For those students who qualify for and fulfill the requirements of graduation with Honors, a minimum of 42 PHIL credit hours is required.
- Though certain courses may satisfy different requirements, no single course may count for more than one requirement towards the Philosophy Major.
- Courses not specifically listed here but offered by the University may count toward the degree upon the approval of the Department Undergraduate Advisor.
- Students should work with their Department Undergraduate Advisor to determine a course plan that follows one of the listed pathways:
 - Ethics and Values
 - Philosophical Traditions
 - Mind and Consciousness
 - Science, Technology, and Knowledge
 - Social Justice, Politics, and Diversity

Code	Title	Hours
PHIL 2441	Logic, Language and Scientific Reasoning	3
PHIL 3002	Ancient Greek Philosophy	3
PHIL 3010	Medieval Philosophy	3
PHIL 3022	Knowledge, Perception, and the Search for Objectivity: Modern Philosophy	3
PHIL 3032	Twentieth Century Analytic Philosophy	3
PHIL 3050	Propaganda: Truth, Lies, and Freedom	3
PHIL 3150	History of Ethics	3
PHIL 3200	Justice, Freedom, and Power: Social and Political Philosophy	3
PHIL 3250	Business, Society, and Moral Responsibility	3
PHIL 3280	War and Morality	3
PHIL 3333	Happiness and the Good Life	3
PHIL 3350	Metaphysics	3
PHIL 3360	Epistemology	3
PHIL 3430	How to think green: Environmental Ethics	3

PHIL 3440	Introduction to Symbolic Logic	3
PHIL 3441	Philosophical Reasoning Skills	3
PHIL 3500	Ideology and Culture: Racism and Sexism	3
PHIL 3550	Philosophy of Death and Dying	3
PHIL 3550	Philosophy of Death and Dying	3
PHIL 3760	Kant: Freedom, Reality, and the Mind	3
PHIL 3833	Existentialism	3
PHIL 4000	19th and 20th Century Continental Philosophy	3
PHIL 4040	Skepticism	3
PHIL 4101	Pragmatism: Classical American Philosophy	3
PHIL 4150	Twentieth Century Ethics	3
PHIL 4220	Art, Beauty, and Aesthetic Criticism: Philosophy of Art	3
PHIL 4230	Postmodernism	3
PHIL 4242	Medicine, Health Care, and Justice: Bioethics	3
PHIL 4260	Why Obey the Law? Introduction to Philosophy of Law	3
PHIL 4300	Mind, Body, and Consciousness: Philosophy of Mind	3
PHIL 4350	Philosophy of Science	3
PHIL 4450	Punishment and Social Justice	3
PHIL 4500	Feminist Philosophy	3
PHIL 4600	Questioning Religious Belief and Practice: Introduction to Philosophy of Religion	3
PHIL 4735	Rationalism	3
PHIL 4740	Empiricism	3
PHIL 4770	Hegel	3
PHIL 4780	Heidegger	3
PHIL 4790	Nietzsche	3
PHIL 4795	Marx and Marxism	3
PHIL 4800	Plato	3
PHIL 4810	Aristotle	3
PHIL 4820	Hume	3
PHIL 4900	John Dewey	3
PHIL 4920	Philosophy of Media and Technology	3

For questions and answers, please reach out to Mark Tanzer (mark.tanzer@ucdenver.edu) for further details.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/philosophy/programs/bachelor-arts-major-philosophy/>).

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/#CLAS>).

Student Learning in the B.A. in Philosophy focuses on the following:

- Recognize and comprehend the salient elements of philosophy's significant historical figures, periods, and areas.
- Understand how philosophical frameworks and theories expand the meanings and implications of existing cultural areas (e.g. those found in science technology, the arts, politics, medicine, and social justice).

More specifically, the above includes training (most typically in writing) about how to:

- Interpret texts by careful reading and synthesis of meanings.
- Identify and criticize philosophical arguments.
- Develop original arguments supported by texts and logical reasoning.
- Outline major philosophical frameworks.

Philosophy, 4 + 1 BA/ Humanities, MH

Introduction

Please click here (p. 752) to see Philosophy department information.

The 4+1 accelerated Master's program in Philosophy is an expedited program of study that allows students to complete a Bachelor's degree in Philosophy and a Master's degree in Humanities in as few as 5 years.

Upon acceptance, students are allowed to take some graduate-level courses during their remaining semesters of undergraduate study. Up to defined limits, such classes may count both towards satisfying the requirements of the BA major and the MH Masters in Humanities. Ideally arranged, a student could take 5 dual-counted courses so that by the time of BA completion they are approximately halfway done with their graduate degree. This program is intended for outstanding undergraduate Philosophy majors who have demonstrated graduate-level academic skills and can do graduate-quality work as undergraduates.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

Application deadlines are as followed:

- November 1 – Spring Semester admission
- April 1 – Summer Semester admission
- May 1 – Fall Semester admission

Contact department advisor Mark Tanzer (mark.tanzer@ucdenver.edu) for more information.

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

While students are completing a BA degree in Philosophy, they may also complete some of the requirements for an Master's in Humanities program by participating in the BA/ MH program using the following guidelines:

1. The student must apply and be accepted for participation in the program prior to completion of the BA degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
2. Students will follow the undergraduate curriculum for the Philosophy BA (p. 761) and work closely with their faculty advisor to begin taking Philosophy graduate level coursework as they complete their undergraduate degree.
3. Students must complete a minimum of 36 PHIL credit hours applied to the BA.
4. Students must complete a minimum of 16 upper-division (3000-level and above) PHIL credit hours and no more than 15 graduate (5000-level and above) credit hours.
5. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements. Courses completed with grades below the letter grade of B- (GPA 2.7) may not be applied toward fulfillment of the requirements for any graduate degree within Graduate Education.
6. Students must complete a minimum of 18 undergraduate PHIL credit hours with CU Denver faculty and all graduate-level coursework with CU Denver faculty.
7. Students may complete a maximum of 15 credits as an undergraduate that will apply to both their undergraduate and graduate degrees. These courses must be 4000 or 5000 level and should be selected in consultation with undergraduate and graduate advisors.
8. Students should officially declare their intent to complete this program by their junior year and apply to the graduate program during the semester in which they intend to complete their BA.
9. Application requirements may differ from the traditional 2 year MH, which is why students need to work closely with faculty advisors and the philosophy departmental advisor for more information and to ensure they are following the best track to complete coursework so that they only have one year after completing the undergraduate degree, to complete the graduate requirements.

Student Learning Outcomes for the Undergraduate Student

Philosophy is a discipline that teaches students skills for thinking critically, systematically, and imaginatively about fundamental issues that arise both in everyday life and through other disciplines. Philosophy develops these skills in students through their application to a variety of subject matters and relevant issues. The subject matters range both historically (from ancient to contemporary periods) and topically (including ethics, the arts, social and political issues, religion, metaphysics, epistemology, science, and technology, among others). The educational outcome of applying philosophy's skills to the rich range of subject matters is one of the most rigorous intellectual preparations possible in undergraduate education. Such preparation orients and strengthens students for future careers in communication, law, medicine, business, government, teaching, and social services.

To learn more about the undergraduate Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/philosophy/programs/bachelor-arts-major-philosophy/>).

Student Learning Outcomes for the Graduate Student

When students complete either the MH or MSS degree we want them to have the ability to demonstrate the “capacity to integrate knowledge and modes of thinking drawn from two or more disciplines to produce a cognitive advancement...in ways that would have been unlikely through single disciplinary means.” **Fundamentally we want students to demonstrate foundational knowledge of critical theories and concepts within the Humanities or Social Sciences depending on the degree sought. Student proficiency in either the Humanities or Social Science is demonstrated through writing with the following benchmarks in mind:**

- “Interdisciplinary grounding” - student selects appropriate disciplines to solve unique problems; concepts are used in accurate but nuanced ways befitting multiple perspectives
- “Integrative leverage” - student calls attention to a novel concept or problem, interpretation, or relationship
- “Critical stance” - student identifies the significance of the integrated stance and ways to reconcile diverse or conflicting views that emerge from interdisciplinary thinking.
- To critically analyze and synthesize information from different kinds of literature and disciplines
- To demonstrate relevant information pertaining to particular areas of focus
- To write effective, grammatically correct, well-organized, scholarly papers
- To demonstrate the ability to read critically a range of scholarly literature in a range of disciplines
- To demonstrate skills to apply knowledge to the particular field of work

To learn more about the graduate Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/mhmss/mhmss-degree-information/>).

Ethics Minor

Introduction

Please click here (p. 752) to see the Philosophy department information.

Ethical concerns have become a major theme both with respect to our community life and with respect to the professions. Often the demand for more ethics education is met with brief introductory courses or highly specific professional ethics seminars, yet ethics has become such a complex field that a genuine understanding of ethical choices and action requires a more thorough education in both general ethics and professional ethics. In response to the need for better ethics education, the Philosophy Department at the University of Colorado Denver offers a carefully planned program, including courses in the foundation and history of Ethical Theory, as well as in the application of such theories.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

For those students who major in Philosophy and Minor in Ethics, two courses can satisfy the requirement for both.

- Please see or email the departmental advisor: Mark Tanzer (mark.tanzer@ucdenver.edu)
- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 15 credit hours approved for the minor.
- Students must complete a minimum of six upper-division (3000-level and above) PHIL credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of nine PHIL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- For those students who major in philosophy, up to two courses can satisfy the requirements for both programs.
- Religious Studies courses cannot be used to fulfill the requirements for the minor.
- Courses taken at other institutions must either be transferred as a direct equivalent to a CU Denver course or be approved by an advisor in the Philosophy Department for application towards the minor.
- Courses not specifically listed here but offered by the Department may count toward the degree upon the approval of the Department Undergraduate Advisor.

Code	Title	Hours
<i>Complete the following required course:</i>		3
PHIL 1020	Right, Wrong, and Seeing the Difference: Introduction to Ethics	
<i>Complete any four of the following Ethics elective courses:</i>		12
PHIL 3200	Justice, Freedom, and Power: Social and Political Philosophy	
PHIL 3150	History of Ethics	
PHIL 3250	Business, Society, and Moral Responsibility	
PHIL 3280	War and Morality	
PHIL 3333	Happiness and the Good Life	
PHIL 3340	Investigating Nature: Introduction to the Philosophy of Science	
PHIL 3430	How to think green: Environmental Ethics	
PHIL 3500	Ideology and Culture: Racism and Sexism	
PHIL 3550	Philosophy of Death and Dying	
PHIL 4150	Twentieth Century Ethics	
PHIL 4220	Art, Beauty, and Aesthetic Criticism: Philosophy of Art	
PHIL 4242	Medicine, Health Care, and Justice: Bioethics	
PHIL 4260	Why Obey the Law? Introduction to Philosophy of Law	
PHIL 4600	Questioning Religious Belief and Practice: Introduction to Philosophy of Religion	

Total Hours **15**

Learning Outcomes for an Ethics minor:

- Recognize and comprehend the salient elements of philosophy's significant historical figures, periods, and areas.
- Understand how philosophical frameworks and theories expand the meanings and implications of existing cultural areas (e.g. those found in science technology, the arts, politics, medicine, and social justice).

More specifically, the above includes training (most typically in writing) about how to:

- Interpret texts by careful reading and synthesis of meanings.
- Identify and criticize philosophical arguments.

- Develop original arguments supported by texts and logical reasoning.
- Outline major philosophical frameworks.

More information about our Ethics minor can be found on our website (<https://clas.ucdenver.edu/philosophy/programs/program-minors/>).

Philosophy Minor

Introduction

Please click here (p. 752) to see the Philosophy department information.

Philosophy cultivates thoughtful and respectful exchanges about life's most important issues and values. Philosophy provides arguably the best education an undergraduate can receive in careful reasoning, writing, verbal discussion, and debate. These intellectual skills last a lifetime and launch students toward greater self-development, cultural awareness, and the kind of happiness only possible through reflective habits.

Alone and combined with other degrees, philosophy provides indispensable preparation for any professional field.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor, and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see or contact department advisor Mark Tanzer (mark.tanzer@ucdenver.edu) for more information.
- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 PHIL credit hours.
2. Students must complete a minimum of nine upper-division (3000-level and above) PHIL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine PHIL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. For those students who major in philosophy, up to two courses can satisfy the requirements for both programs.

2. Religious Studies courses cannot be used to fulfill the requirements for the minor.
3. Courses taken at other institutions must either be transferred as a direct equivalent to a CU Denver course or be approved by an advisor in the Philosophy Department for application towards the minor.
4. Courses not specifically listed here but offered by the Department may count toward the degree upon the approval of the Department's Undergraduate Advisor.

Code	Title	Hours
<i>Complete the following required courses:</i>		9
PHIL 1012	Truth, Reality, and the Good Life: Introduction to Philosophy	
PHIL 3002	Ancient Greek Philosophy	
PHIL 3022	Knowledge, Perception, and the Search for Objectivity: Modern Philosophy ¹	
<i>Complete six additional PHIL credits, three of which must be at the upper division level (3000 or above).</i>		6
Total Hours		15

¹ It is recommended but not required that PHIL 3002 Ancient Greek Philosophy be taken before PHIL 3022 Knowledge, Perception, and the Search for Objectivity: Modern Philosophy.

Learning Outcomes for a Philosophy minor:

- Recognize and comprehend the salient elements of philosophy's significant historical figures, periods, and areas.
- Understand how philosophical frameworks and theories expand the meanings and implications of existing cultural areas (e.g. those found in science technology, the arts, politics, medicine, social justice).

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/philosophy/programs/program-minors/>).

Philosophy of Science Minor

Introduction

Please click here (p. 752) to see the Philosophy department information.

Philosophy of Science concerns the logic of scientific inquiry, raising questions such as:

- What is the best way to use observational evidence to learn about the natural world?
- How can findings be justified as objectively credible reasons to accept a hypothesis or a theory?
- How can we spot biases and procedural errors—and then control them to enhance the quality of investigation?
- What justifies classifying and grouping observational phenomena when the world does not come pre-labeled?
- What criteria should we use when forming hypotheses, and are there 'established' truths we must accept in order to begin hypothesizing?

The scientific method is a creation of human beings—an ongoing project to devise the most logical and rational means to extract information about the natural world. It is that project that is the centerpiece of Philosophy of Science.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see or contact department advisor Mark Tanzer (mark.tanzer@ucdenver.edu) for more information
- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 PHIL credit hours.
2. Students must complete a minimum of nine upper-division (3000-level and above) PHIL credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.

4. Students must complete a minimum of nine PHIL credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. For those students who major in philosophy, up to two courses can satisfy the requirements for both programs.
2. Religious Studies courses cannot be used to fulfill the requirements for the minor.
3. For a particular PHIL 4812 Special Topics in Philosophy/PHIL 4980 Special Topics in Philosophy course to serve as an elective, the course material must be relevant to the minor and advisor approval to use the course as an elective is required.
4. It is possible to use PHIL courses not listed below to fulfill elective requirements but requires advisor approval.
5. Courses taken at other institutions must either be transferred as direct equivalent to a CU Denver course or be approved by an advisor in the Philosophy Department for application towards the minor.
6. Courses not specifically listed here but offered by the Department may count toward the degree upon the approval of the Department Undergraduate Advisor.

Minor Requirements

Code	Title	Hours
<i>Complete the following required courses:</i>		6
PHIL 2441	Logic, Language and Scientific Reasoning	
PHIL 3340	Investigating Nature: Introduction to the Philosophy of Science	
	or PHIL 4350 Philosophy of Science	
<i>Complete nine additional credit hours from the following list of elective courses:</i>		9
PHIL 3032	Twentieth Century Analytic Philosophy	
PHIL 3350	Metaphysics	
PHIL 3360	Epistemology	
PHIL 3430	How to think green: Environmental Ethics	
PHIL 3440	Introduction to Symbolic Logic	
PHIL 3441	Philosophical Reasoning Skills	
PHIL 4101	Pragmatism: Classical American Philosophy	
PHIL 4242	Medicine, Health Care, and Justice: Bioethics	
PHIL 4300	Mind, Body, and Consciousness: Philosophy of Mind	
PHIL 4740	Empiricism	
PHIL 4920	Philosophy of Media and Technology	
Total Hours		15

Learning Outcomes for a Philosophy of Science minor:

- Recognize and comprehend the salient elements of philosophy's significant historical figures, periods, and areas.
- Understand how philosophical frameworks and theories expand the meanings and implications of existing cultural areas (e.g. those found in science technology, the arts, politics, medicine, social justice).

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/philosophy/programs/program-minors/>).

Physics

Chair: Michael "Bodhi" Rogers

Department Administrator: JoAnna Ramirez-Darnell

Lower Division Laboratory Coordinator: Sami Pettus

Upper Division Laboratory Coordinator: Evan Privet

Office: North Classroom, 3123

Telephone: 303-315-7390

Email: physics.chair@ucdenver.edu

Undergraduate Information

Physics, as the most fundamental of the sciences, is the foundation upon which many other disciplines are built. Therefore, other programs often require knowledge of the fundamentals of physics, and a physics degree is an outstanding platform for employment and advanced study in many technical disciplines. The department offers both a course of study fulfilling the bachelor of science degree and a wide range of service courses for students majoring in disciplines other than physics. Students intending to major in physics should have a high school background that includes trigonometry, advanced algebra, chemistry and physics, as well as a good preparation in the arts and humanities. Students have an option during their freshman year to overcome any deficiencies in these areas.

The Department of Physics offers a track in Pure and Applied Physics which is intended for students preparing for graduate school, teaching careers, or careers in industry or government labs. Students preparing for employment in an interdisciplinary area (such as environmental, geophysical or, energy study) can choose to add an appropriate minor or arrange a specific major program on an individual basis.

Students majoring in other disciplines have the option of choosing a minor in physics, in astrophysics, or in biophysics.

To enhance the employment and postgraduate study options of physics majors, the department is committed to providing students with opportunities for experimental, computational, and theoretical research. On-campus opportunities are available through the faculty research programs. Questions regarding physics courses or the physics curriculum should be directed to a departmental advisor. Appointments should be made through the physics office.

Departmental Honors

Qualified students are encouraged to participate in the physics honors program. For these students, a physics capstone thesis is required. This work will be conducted under the supervision of a faculty advisor. The topic and scope of this work will be chosen by the student in consultation with the thesis advisor. The student has the option of registering for up to 3 semester hours of directed research or independent study for the thesis project; regardless of registered semester hours, the student must commit the effort of a minimum of 135 hours toward completion of the thesis, which is equivalent to a 3-semester-hour course. The levels of passing scores are satisfactory, meritorious, and excellent.

Within this framework, three levels of honors are awarded by CU Denver in conjunction with the physics major:

1. *Cum laude*: The student must have a cumulative GPA of 3.25 both in physics and overall at the University of Colorado. The student's physics capstone thesis and presentation must be judged to be meritorious by the committee.

2. *Magna cum laude*: The student must have a cumulative GPA of 3.50 both in physics and overall at the University of Colorado. The student's physics capstone thesis and presentation must be judged to be meritorious by the committee.
3. *Summa cum laude*: The student must have a cumulative GPA of 3.75 both in physics and overall at the University of Colorado. The student's physics capstone thesis and presentation must be judged to be excellent by the committee.

Physics Major

Programs Offered

- Physics, BS (p. 778)
- Astrophysics Minor (p. 781)
- Biophysics Minor (p. 783)
- Physics Minor (p. 785)
- Quantum Information Technology Undergraduate Certificate (p. 787)

Faculty

Professors:

Martin E. Huber, PhD, Stanford University

Michael "Bodhi" Rogers, PhD, RPA, Oregon State University

Alberto C. Sadun, PhD, Massachusetts Institute of Technology

Associate Professor:

Randall P. Tagg, PhD, Massachusetts Institute of Technology

Assistant Professors:

Amy L. Roberts, PhD, University of Notre Dame

Anthony N. Villano, PhD, Rensselaer Polytechnic Institute

Kathryn Hamilton, PhD, Queen's University Belfast

Teaching Professor:

Masoud Asadi-Zeydabadi, PhD, University of Colorado Boulder

Assistant Teaching Professor:

Ramesh Dhungana, PhD, University of North Dakota, Grand Forks

Research Professor:

Glen S. Mattioli, PhD, Northwestern University

Research Associate Professor:

Michael J. Friedel, PhD, University of Minnesota

Senior Instructors:

John Carlson, PhD, University of Michigan, Ann Arbor

Julian Gifford, PhD, University of Colorado Boulder

Emeritus Professors:

Martin M. Maltempo, PhD, Columbia University

Clyde S. Zaidins, PhD, California Institute of Technology

Physics (PHYS)

PHYS 1052 - General Astronomy I (4 Credits)

The history of astronomy is studied from early civilizations to the present.

The basic motions of the earth, moon, sun, and planets are discussed both qualitatively and quantitatively, using elementary principles of physics. Properties of our solar system are discussed in detail, including results from unmanned space probes. Note: An additional 30 hours of laboratory work (at times to be arranged), plus appropriate report preparation time, are required to complete laboratory component of the course. Note: High school algebra or equivalent are strongly recommended preparation for this course. Term offered: spring, fall. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring.

PHYS 1100 - Foundations of Physics (4 Credits)

One-semester non-lab survey course especially designed for non-science majors. Acquaints students with some of the major principles and methods of physics. Includes applications of physics to everyday life and some discussion of the historical development of physics. Note: this course assumes that students have a good working knowledge of elementary algebra. Term offered: spring, summer, fall. Max Hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - No Lab; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Offered irregularly.

Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

PHYS 1300 - Contemporary Topics in Physics. (2 Credits)

Covers various current topics in physics at a qualitative level. Designed primarily for students intending to major in physics, engineering, and chemistry. Max hours: 2 Credits.

Grading Basis: Letter Grade

PHYS 1450 - Professional Development I (1 Credit)

Introduction to the physics program for all beginning physics majors or those considering the major. Discussions about career opportunities, the various physics undergraduate and graduate degree paths, research being conducted within the physics department, and strategies for being a successful and engaged physics major. Term offered: fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHYS 1840 - Independent Study: PHYS (1-3 Credits)

Students must check with a faculty member before taking this course.

Repeatable. Term offered: spring, summer, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

PHYS 2010 - College Physics I (4 Credits)

This is an algebra based physics course covering mechanics, heat

and sound. Note: College algebra and trigonometry are strongly recommended preparation for optimal student success. Term offered: spring, summer, fall. Max Hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 2020 - College Physics II (4 Credits)

This is an algebra based physics course covering electricity, magnetism, light and modern physics. Prereq: PHYS 2010 or PHYS 2311 with a C- or higher. Term offered: spring, summer, fall. Max hours: 4 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Prerequisite: PHYS 2010 or PHYS 2311 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 2311 - General Physics I: Calculus-Based (4 Credits)

This is a calculus based physics course covering vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Prereq: MATH 1401 with a C- or higher. Term offered: spring, summer, fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prerequisite: MATH 1401 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

Typically Offered: Fall, Spring, Summer.

PHYS 2321 - Intro Experimental Phys Lab I (1 Credit)

This introductory experimental physics laboratory introduces students to the methods of science through a series of experiments and exercises focused on how objects move. Students working in teams use mathematical and computational approaches to acquire data, examine data, and make conclusions about how well these data support hypotheses and models. Students will use different types of scientific communication, including graphs and other forms of data visualization and cogent written and oral evaluation of experimental findings. Term offered: spring, summer, fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 2331 - General Physics II: Calculus-Based (4 Credits)

This is a calculus based physics course covering electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311 and MATH 2411 with a C- or higher. Term offered: spring, summer, fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prerequisite: PHYS 2311 and MATH 2411 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

Typically Offered: Fall, Spring, Summer.

PHYS 2341 - Intro Experimental Phys Lab II (1 Credit)

This introductory experimental physics laboratory introduces students to the methods of science through a series of experiments and exercises focused on electricity and magnetism. Students working in teams use mathematical and computational approaches to acquire data, examine data, and make conclusions about how well these data support hypotheses and models. Students will use different types of scientific communication, including graphs and other forms of data visualization and cogent written and oral evaluation of experimental findings. Prereq: PHYS 2321 or PHYS 2030 with a C- or higher. Term offered: spring, summer, fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 2321 or PHYS 2030 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 2351 - Applied Physics Lab I (1 Credit)

Introduces physics majors to several ways that fundamental concepts in mechanics intersect with useful technologies, resulting in documented technical competencies useful in research and industry. Term offered: fall, spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall, Spring.

PHYS 2361 - Applied Physics Lab II (1 Credit)

Introduces physics majors to several ways that fundamental concepts in electrodynamics and optics intersect with useful technologies, resulting in documented technical competencies useful in research and industry. Prereq: PHYS 2351 with a C- or higher. Term offered: spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 2351 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Spring.

PHYS 2711 - Vibrations and Waves (3 Credits)

Introduces vibrations and waves associated with physical phenomena. Analytic and numerical methods in physical contexts. Topics include harmonic oscillators, resonance, coupled oscillators, nonlinear oscillators, waves in elastic media, sound waves, pulses and dispersion. Prereq: PHYS 2331 and MATH 2411 with a C- or higher. Term offered: typically offered spring only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: PHYS 2331 and MATH 2411 with a C- or higher.

Typically Offered: Spring.

PHYS 2811 - Modern Physics I (3 Credits)

Presents a study of the events and discoveries that occurred during the latter part of the 19th and the first part of the 20th centuries which led to the discovery of quantum mechanics; namely, special relativity, particle nature of radiation, wave properties of particles, models of the atom, and the introduction of quantum mechanics. Prereq: PHYS 2331 and MATH 2411 with a C- or higher. Term offered: typically offered in spring only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: PHYS 2331 and MATH 2411 with a C- or higher.

Typically Offered: Spring.

PHYS 2840 - Independent Study: PHYS (1-3 Credits)

Students must check with a faculty member before taking this course. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

PHYS 2880 - Directed Research (1-3 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PHYS 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: 15 hours of 2.75 GPA. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

PHYS 3050 - General Astronomy II (3 Credits)

Evolution of our sun and other stars is studied, as well as the methods used to gain the information. Discussion includes objects such as neutron stars, novae and supernovae, and black holes. Large-scale structures, including clusters and galaxies, are studied. Prereq: PHYS 1052 or PHYS 2010 or PHYS 2311. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 1052 or PHYS 2010 or PHYS 2311

Typically Offered: Fall.

PHYS 3070 - Physical Cosmology (3 Credits)

Designed for science and engineering maj. stud. in quantitative fields/ w req math skills interested in physical universe. Covers large-scale structure of universe & its evolution from birth well into future. Gravitational concepts, neutron stars, black holes, big bang univ, cosmological tests, dark matter & energy. Problem solving emphasized. Prereq: PHYS 1052 or PHYS 2010 or PHYS 2311 or permission. Note: This course assumes that students have completed PHYS 2010 or PHYS 2311 prior to taking this course. Note: Routine knowledge of algebra, geometry and trigonometry is assumed. Knowledge of trig and calculus also useful. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 1052 or PHYS 2010 or PHYS 2311

Typically Offered: Spring.

PHYS 3082 - Energy and the Environment (3 Credits)

For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote sustainable society. Note: One college-level science course and MATH 1110 or equivalent are strongly recommended as preparation for optimal student success. Cross-listed with ENVS 3082. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Fall.

PHYS 3120 - Methods of Mathematical Physics (3 Credits)

Typically covers calculus of variations, special functions, partial differential equations, integral transforms, linear vector spaces, and tensor analysis. Prereq: MATH 2421 and either MATH 3195 or MATH 3191 and MATH 3200 with a C-or higher. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Pre: MATH 2421 and either MATH 3195 or MATH 3191 and MATH 3200 with a C-or higher.
Typically Offered: Fall.

PHYS 3151 - Biophysics Outlook I (1 Credit)

Designed as a companion to General Biology I (but can take stand-alone), this course explores how biophysics concepts and experimental methods add to the knowledge of life's processes at the molecular and cellular level. Note: PHYS 2010 and 2020 strongly recommended for optimal student success. Term offered: fall. Max Hours: 1 Credit. Grading Basis: Letter Grade
Typically Offered: Fall.

PHYS 3161 - Biophysics Outlook II (1 Credit)

Designed as a companion to General Biology I (but can take stand-alone), this course explores how biophysics concepts and experimental methods contribute to the understanding of the structure and function of plants, animals & ecological systems. Note: PHYS 2010 and PHYS 2020 strongly recommended for optimal student success. Term offered: spring. Max Hours: 1 Credit. Grading Basis: Letter Grade
Typically Offered: Spring.

PHYS 3211 - Analytical Mechanics (4 Credits)

Topics include the Lagrange and Hamiltonian formulations, the two-body problem, rigid body motion, and small oscillations. Prereq: PHYS 2711, MATH 2421 and either MATH 3195 or MATH 3191 and MATH 3200 with a C-or higher. Coreq: PHYS 3120. Term offered: fall. Max hours: 4 Credits. Grading Basis: Letter Grade
Pre-req: PHYS 2711, MATH 2421 and either MATH 3195 or MATH 3191 and MATH 3200 with a C-or higher. Co-req PHYS 3120.
Typically Offered: Fall.

PHYS 3251 - Biophysics of the Body (4 Credits)

Fundamental ideas of anatomy, physiology, and biomechanics from the viewpoint of physics. Biological topics covered include: skeletal systems, muscular systems, circulatory systems, and human motion. Analytical mechanics topics include: Newtonian mechanics, harmonic motion, energy conservation, and introductory fluid dynamics. Prereq: PHYS 2711, 3161, MATH 2421 and 3195 or equivalent or permission of instructor. Term offered: infrequent. Max Hours: 4 Credits. Grading Basis: Letter Grade
Prereq: PHYS 2711, 3161, MATH 2421 and 3195

PHYS 3252 - Biophysics of the Body NM (4 Credits)

Fundamental ideas of anatomy, physiology, and biomechanics from the viewpoint of physics. Biological topics covered include: skeletal systems, muscular systems, circulatory systems, and human motion. Analytical mechanics topics include: newtonian mechanics, harmonic motion, energy conservation, and introductory fluid dynamics. Prereq: PHYS 2010 and PHYS 2020. Term offered: infrequently. Max Hours: 4 Credits. Grading Basis: Letter Grade
Prereq: PHYS 2010 and PHYS 2020

PHYS 3411 - Thermal Physics (3 Credits)

Covers the basic concepts of the three related disciplines of thermodynamics, statistical mechanics, and kinetic theory. Prereq: PHYS 2331, PHYS 2811 and MATH 2421 with a C- or higher; Prereq or Coreq: MATH 3195 or MATH 3191 and MATH 3200 with a C- or higher if completed prior to PHYS 3411. Term offered: spring. Max Hours: 3 Credits. Grading Basis: Letter Grade
Prereq: Prereq: PHYS 2331, 2811 and MATH 2421 with a C- or higher; Pre or Coreq: MATH 3195 or (MATH 3191 and MATH 3200) with a C- or higher.
Typically Offered: Spring.

PHYS 3450 - Professional Development II (1 Credit)

Continuation of professional preparation for careers and graduate school. Students will conduct career-related research and engage in classroom discussions. Students will also examine their resume and transcript to create individualize action plans to bridge the gap between their current skills and those desired by employers and graduate schools. Term offered: fall. Max hours: 1 Credit. Grading Basis: Letter Grade
Typically Offered: Fall.

PHYS 3451 - Biophysics of the Cell (4 Credits)

Fundamentals of cellular biology from the viewpoint of physics. Biological topics covered include: the central dogma of molecular biology, cellular signaling, genetic regulation, molecular crowding, and ion channels. Statistical and thermal physics topics include: statistics, probability, thermodynamics, heat, and entropy. Prereq: PHYS 2811, 3151 and MATH 2421 or permission of instructor. Coreq: MATH 3195. Term offered: on demand. Max Hours: 4 Credits. Grading Basis: Letter Grade
Prereq: PHYS 2811, 3151 and MATH 2421 Coreq: MATH 3195

PHYS 3452 - Biophysics of the Cell NM (4 Credits)

Fundamentals of cellular biology from the viewpoint of physics. Biological topics covered include: the central dogma of molecular biology, cellular signaling, genetic regulation, molecular crowding, and ion channels. Statistical and thermal physics topics include: statistics, probability, thermodynamics, heat, and entropy. Prereq: PHYS 2020, 2040 and 3151 or permission of instructor. Term offered: infrequent. Max Hours: 4 Credits. Grading Basis: Letter Grade
Prereq: PHYS 2020, 2040 and 3151

PHYS 3513 - Optical Systems Design (1 Credit)

Lenses, mirrors, prisms, polarizers, optical fibers, and other optical elements are placed in appropriately designed mechanical mounts to develop useful optical instruments. Light sources of many types are selected for particular applications. Repeatable. Max hours: 3 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 3.

PHYS 3514 - Optoelectronics (1 Credit)

Solid state sources, lasers, modulators, and detectors are combined into optoelectronic systems for scientific apparatus and technological devices. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PHYS 3515 - Imaging Systems. (1 Credit)

Photographic, analog electronic, and digital imaging systems are applied to the acquisition of data in conventional and in unusual image formats to aid in scientific experiments. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PHYS 3620 - Sound and Music (3 Credits)

Considers the basic nature of sound waves, the ear and hearing, and musical instruments. Although this course is mainly descriptive, some high school algebra will be used. Term offered: typically offered fall only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHYS 3711 - Advanced Experimental Physics Laboratory (2 Credits)

An advanced lab in which students select and explore the ideas and laboratory methods of major professional areas of physics: classical mechanics & nonlinear dynamics, electrodynamics, thermal physics, fundamental quantum behavior, nuclear and elementary particle physics, atomic and molecular physics, optics and photonics, condensed matter physics, fluid dynamics, acoustics, plasma physics, and astrophysics as well as interdisciplinary topics. Note: Must be taken twice by students majoring in physics. Prereq: PHYS 2711 or 2811 with a C- or higher or permission of instructor. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Prereq: PHYS 2711 or PHYS 2811 with a grade of C- or better.

Typically Offered: Fall, Spring.

PHYS 3751 - Physics Capstone Proposal (1 Credit)

Provides opportunity for physics majors to prepare a written proposal in preparation for senior thesis research or a senior project. Emphasis placed on describing the problem, methodology, equipment, and data analysis needed to successfully complete the research or project.

Completed proposals are submitted to each student's potential research or project advisor for review and approval. Note: Required for all students majoring in physics. Prereq: PHYS 2711 or PHYS 2811 with a grade of C- or better. Term offered: spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 2711 or PHYS 2811 with a grade of C- or better.

Typically Offered: Fall, Spring.

PHYS 3840 - Independent Study: PHYS (1-3 Credits)

Note: Students must check with a faculty member before taking this course. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

PHYS 3880 - Directed Research (1-3 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PHYS 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher and at least a 2.75 cumulative GPA. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

PHYS 4211 - Quantum Mechanics (3 Credits)

A course in which both wave and matrix mechanics are developed and applied to selected problems in atomic physics. Prereq: PHYS 2811 and 3211 with a C- or higher. Co-req: PHYS 4212. Term Typically Offered: Fall. Cross-listed with PHYS 5211. Max hours: 3 credits

Grading Basis: Letter Grade

Prereq: PHYS 2811 and 3211 with a C- or higher. Coreq: PHYS 4212.

Typically Offered: Fall.

PHYS 4212 - Quantum Mechanics Seminar (1 Credit)

This course involves supplemental discussion and guided extension of course content presented in PHYS4211 Quantum Mechanics through the use of one or more of the following: Interactive Tutorials, Collaborative Problem Solving, Computation, and Hands-on Activities. Co-req: PHYS 4211. Term Typically Offered: Fall. Max hours: 3 credits

Grading Basis: Letter Grade

Co-req: PHYS 4211

Typically Offered: Fall.

PHYS 4251 - Physical Fluid Dynamics (3 Credits)

Fundamental concepts and methods in fluid dynamics are developed through basic laws, the Navier-Stokes equation, viscous fluid flow, dimensional analysis, vorticity, boundary layers, linear stability and turbulent flow. Cross-listed with PHYS 5251. Prereq: Restricted to students who have completed PHYS 2311, PHYS 2331 and PHYS 3120 with a C- or higher or with instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restricted to students who have completed PHYS 2311, PHYS 2331 and PHYS 3120 with a C- or higher or with instructor permission.

PHYS 4311 - Electricity & Magnetism (3 Credits)

Elements of mathematical theory of electricity and magnetism, including electrostatics, magnetostatics, polarized media, direct and alternating current theory, and introduction to electromagnetic fields and waves. Prereq: PHYS 2331 and PHYS 3120 with a C- or higher. Co-req: PHYS 4312. Term Typically Offered: Spring. Cross-listed with PHYS 5311. Max hours: 3 credits.

Grading Basis: Letter Grade

Pre-req: PHYS 2331 and PHYS 3120 with a C- or higher. Co-req:

PHYS 4312.

Typically Offered: Spring.

PHYS 4312 - Electricity & Magnetism Seminar (1 Credit)

This course involves supplemental discussion and guided extension of course content presented in PHYS 4311 Electricity & Magnetism through the use of one or more of the following: Interactive Tutorials, Collaborative Problem Solving, Computation, and Hands-on Activities. Co-req: PHYS 4311. Term Typically Offered: Spring. Max hours: 1 credit

Grading Basis: Letter Grade

Co-req of PHYS 4311

Typically Offered: Spring.

PHYS 4351 - Bioelectromagnetism (4 Credits)

The fundamental theory of electric and magnetic fields is developed and applied to problems of biology and medicine. Examples in medical diagnostics and treatment are built upon rigorous application of Maxwell's equations and constitutive models of electromagnetic properties of biomaterials. Prereq: PHYS 2331 and 3120 or permission of instructor. Cross-listed with PHYS 5351. Term offered: spring infrequently. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2331 and 3120

Typically Offered: Spring.

PHYS 4352 - Bioelectromagnetism NM (4 Credits)

This course is the non-majors' companion to PHYS 4351/5351 (taught simultaneously) using modeling approaches accessible to the general science student. Prereq: PHYS 2010, 2020 and MATH 1401 or permission of instructor. Cross-listed with PHYS 5352. Term offered: spring. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2010, 2020 and MATH 1401

Typically Offered: Spring.

PHYS 4400 - Scientific Instrumentation (3 Credits)

Conceptual and practical knowledge needed to design scientific instruments, develop technical products, and use special laboratory procedures to research. Topics include materials, mechanisms, electronics, and optics. Note: Two semesters of 2000-level introductory physics strongly recommended for optimal student success. Cross-listed with PHYS 5400. Repeatable. Term offered: infrequent. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHYS 4401 - Special Topics (1-3 Credits)

Repeatable. Infrequently Offered. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PHYS 4450 - Professional Development III (1 Credit)

Continuation of professional preparation for careers and graduate school. This seminar provides opportunities for students to reflect upon connections between the physics major, the core curriculum, and other learning experiences while a student. Students will develop a written reflection on their undergraduate experiences. Students will also learn how to locate and apply to open job positions and graduate school programs. Prereq: PHYS 3450 with a C- or higher. Term offered: fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 3450 with a C- or higher.

Typically Offered: Fall.

PHYS 4510 - Optics (3 Credits)

Presents a contemporary treatment of selected topics in optics, such as matrix methods in geometrical optics, the Fourier analysis approach to physical optics, and interaction of light with matter. Prereq: PHYS 2331, 2811 and 3120 with a C- or higher. Infrequently Offered. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2331, 2811 and 3120 with a C- or higher.

Typically Offered: Spring.

PHYS 4550 - Astrophysics (3 Credits)

Covers stellar astrophysics, solar physics, star formations, stellar evolution, processes in the interstellar medium, galactic dynamics and evolution, formation of galaxies and cosmology. Note: MATH 3195; PHYS 2821 and 3050 are strongly recommended preparation for optimal student success. Infrequently Offered. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PHYS 4611 - Computational Physics (3 Credits)

Designed to provide an understanding of the role of the computer in modern theoretical physics by studying the simulation of physical phenomena in various fields of physics. Prereq: PHYS 3120. Note: Students will not earn credit for PHYS 4611, if they have already earned credit for PHYS 4610. Infrequently Offered. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: PHYS 3120

PHYS 4620 - Computational Physics II (2 Credits)

Assigns the student to an individual, advanced-level project modeling a physical phenomenon on the computer. Prereq: PHYS 4611 with a C- or higher. Infrequently Offered. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 4611 with a C- or higher.

PHYS 4650 - Solid State Physics (3 Credits)

Covers the basic thermal and electrical properties of solids which are explained in terms of the Brillouin zone structures of phonons and electrons. Infrequently Offered. Prereq: PHYS 3411, PHYS 3811, and PHYS 4211 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3411, PHYS 3811, and PHYS 4211 with a C- or higher.

PHYS 4678 - Quantum Computing (3 Credits)

The course teaches students the principles, the algorithms and the programming methods of quantum computing, and also discusses the associated physics and mathematics background required. Other related topics such as quantum communication and quantum entanglement will also be discussed. Prereq: PHYS 2811 with a C- or higher or Permission of Instructor. Cross-listed with PHYS 5678, ELEC 4678, and ELEC 5678. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2811 with a C- or higher.

Typically Offered: Spring.

PHYS 4679 - Quantum Computing Algorithms (3 Credits)

The course discusses several seminal quantum algorithms, including the quantum Fourier transforms, Grover's and Shor's algorithms, followed by explaining several advanced quantum computing algorithms, including quantum error correction, sparse linear systems, and variational eigensolver. Google Cirq quantum programming library will be used for actual quantum programming implementations of the algorithms discussed. Prereq: PHYS 3120 or PHYS 3211 or PHYS 3411 with a C- or higher or Permission of Instructor. Cross-listed with PHYS 5679, ELEC 4679, and ELEC 5679. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3120 or PHYS 3211 or PHYS 3411 with a C- or higher.

Typically Offered: Fall.

PHYS 4680 - Quantum Computing Technology (3 Credits)

Students will explore some of the concepts and experimental practices for realizing quantum computers. They will engage in laboratory practice of relevant skills including high-performance analog electronics; optics-based quantum encryption and eraser implementations; RF electronics; and vacuum and cryogenic techniques. Prereq: PHYS 3711 with a C- or higher or Permission of Instructor. Cross-listed with PHYS 5680, ELEC 4680, and ELEC 5680. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3711 with a C- or higher.

PHYS 4681 - Quantum Technology Systems (3 Credits)

Students will explore a systems approach toward experimental practices for realizing quantum information science and engineering (QISE), with a focus on vacuum and cryogenic techniques and integration of electronics subsystems into a "dry" cryostat. They will engage in laboratory practice of relevant skills including creation and measurement of high vacuum, methods for reaching ultra-low temperatures, concerns in the design and construction of cryogenic apparatuses, and operation of a "dry" cryogenic system at 4 K, including measurements on superconducting quantum interference devices. Prereq: PHYS 4680 OR PHYS 5680 OR ELEC 4680 OR ELEC 5680 with a C- or higher. Cross-listed with PHYS 5681, ELEC 4681 and ELEC 5681. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 4680 OR PHYS 5680 OR ELEC 4680 OR ELEC 5680 with a C- or higher.

PHYS 4711 - Physics Capstone Project (2 Credits)

A one-semester intensive physics capstone project in experimental or computational physics. Projects may include (A) development of a new or enhanced experiment for PHYS 3711, (B) further independent investigation in one of the fundamental areas of physics, or (C) development of a technical innovation for society and industry. Prereq: PHYS 3751 with a C- or higher or permission of instructor. Term offered: spring, fall. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3751 with a C- or higher.

Typically Offered: Fall, Spring.

PHYS 4751 - Physics Capstone Thesis (1 Credit)

A two semester capstone experience in which students prepare, summarize, present their own research in physics in a formal written thesis. Must be taken twice by physics majors who choose this option. Students must also complete a minimum of 135 hours of research through completion of 3 credits of PHYS 4880 Directed Research or a research internship or other documented evidence of research efforts. Prereq: PHYS 3751 with a C- or higher or permission of instructor. Repeatable. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: PHYS 3751 with a C- or higher.

Typically Offered: Fall, Spring.

PHYS 4810 - Atomic and Molecular Structure (3 Credits)

A course in which quantum mechanical methods are applied to problems in atomic and molecular physics, such as the one-electron atom, atomic and molecular spectra, and particle scattering. Infrequently Offered. Prereq: PHYS 3811 and PHYS 4211 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3811 and PHYS 4211 with a C- or higher.

PHYS 4820 - Subatomic Physics (3 Credits)

Introductory treatment of the various concepts and models used to describe nuclear and high energy particle phenomena. Prereq: PHYS 2811 with a C- or higher. Term offered: spring, infrequent. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2811 with a C- or higher.

Typically Offered: Spring.

PHYS 4840 - Independent Study: PHYS (1-3 Credits)

Note: Students must check with a faculty member before taking this course. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

PHYS 4850 - Physics for Design and Innovation I (3 Credits)

A service-learning project using fundamental physical principles to design a prototype scientific instrument, technical device, or technical process for a real-world client. Includes instruction on project management, intellectual property, and market analysis. Cross-listed with PHYS 5850. Repeatable. Term offered: infrequent. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHYS 4852 - Physics for Design and Innovation II (3 Credits)

A capstone project using fundamental physical principles to prototype a scientific instrument, technical device or technical process. The focus is on the student's own product idea. Includes online guided readings on the wider context of product development. Students should consult with instructor on necessary physics and mathematics preparation for the project. Prereq: PHYS 4850 with a grade of C- or higher. Cross-listed with PHYS 5852. Repeatable. Term offered: infrequent. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: PHYS 4850 with a C- or higher.

PHYS 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Term offered: spring, summer, fall. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

PHYS 4920 - Advanced Undergraduate Seminar (1 Credit)

Studies a focused topic such as: size and age of the universe, critical phenomena, non-linear optics, energy, fiber-optic communications, among others. Students research these topics and give a seminar outlining their findings. Prereq: PHYS 2811 with a C- or higher. Infrequently Offered. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 2811 with a C- or higher.

PHYS 4921 - Senior Seminar (1 Credit)

Grading Basis: Letter Grade

PHYS 4939 - Internship (1-3 Credits)

Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Term offered: spring, summer, fall infrequently. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

PHYS 4950 - General Relativity (3 Credits)

This course will introduce classical general relativity, a generalized theory of gravity that reduces to Newtonian gravity in the weak gravity limit.

This course covers the basic principles of Einstein's general theory of relativity, differential geometry, experimental tests of general relativity, black holes, and cosmology. Since this course will emphasize both analytic calculation and physical understanding of classical gravity and is a 3 credit hour senior-level physics course, it can be very challenging, especially if taken with other physics courses. A good rule of thumb for a college course of this type is to expect to spend a minimum of 2 to 4 times the amount of time outside of class as you do in class. For this course, that means a minimum of 6 to 12 hours per week outside of class. Term offered: infrequent. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PHYS 4980 - Advanced Physics Topics (1-3 Credits)

Covers a particular topic, as announced in the 'Schedule Planner.' Note:

May be taken more than once for credit in different topics. Prereq:

PHYS 2811 with a C- or higher. Repeatable. Term offered: spring, fall. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: PHYS 2811 with a C- or higher.

Typically Offered: Fall, Spring.

Physics, BS

Introduction

Please click here (p. 770) to see Physics department information.

The department of Physics at the University of Colorado Denver enriches understanding of how the world works by incorporating physics in every aspect of life. Good intuition about how things work has been, since the time of Galileo, a hallmark of physicists.

CU Denver's faculty is committed to providing substantive applied research experiences for our undergraduate students by incorporating aspects of every day life into their classrooms and research. A major in physics is one of the few academic degree programs that prepares its students for an amazing array of careers including computer analyst, engineer, technical writer, industrial marketer, doctor, and lawyer.

Our faculty is committed to provide students with opportunities for laboratory experience in a research environment. Students work elbow-to-elbow with their professor mentors on such projects as:

- Applying chaos and complex systems theory to problems ranging from the onset of turbulence in fluid flows to the erratic motions of loads hanging from cranes aboard ships at sea
- Study of quasar jets and other associated dynamical properties, supernovae and nucleosynthesis
- Superconducting Quantum Interference Devices (SQUIDs) specifically the fabrication of microelectronic SQUIDs
- Applying non-linear dynamics and stochastic modeling to biological systems to understand how variations in genotype can lead to unique behavior
- Developing detection techniques in the search for the Dark Matter component of our Universe
- Applying physics to archaeology and historic preservation
- Developing ways to help students learn physics better

Those students intending to major in physics should have a high school background that includes trigonometry, advanced algebra, chemistry and physics, as well as a good preparation in the arts and humanities. Students have an option during their freshman year to overcome some deficiencies in these areas. Students preparing for employment in an interdisciplinary area (such as environmental, geophysical or energy study) can choose to add an appropriate minor or arrange a specific major program on an individual basis. Students interested in teaching physics in high school are encouraged to consider the CLAS educational studies minor in addition to their physics major.

Students are strongly encouraged to consult with the Physics advisor, meet physics faculty engaged in research, attend departmental seminars, and explore ways that Physics relates to research undertaken by faculty in other disciplines.

For more information, contact:

Michael "Bodhi" Rogers (Physics advisor)

Email: physics.chair@ucdenver.edu

Office: North Classroom 3123B

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.
- Students pursuing the 4+1 track must apply and be accepted for participation in the BS/MIS program prior to completion of the BS degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form (http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/physics/physics-bs/BMA_form_1_1_.pdf) to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary. Students must apply and be accepted to the Integrated Sciences, MIS during the last semester of their undergraduate career. A maximum of 12 credit hours of graduate level courses that are applied to the undergraduate degree will apply to the graduate degree.
- If you are planning on teaching after graduation, the College of Liberal Arts and Sciences (CLAS) has partnered with the School of Education & Human Development (SEHD) to enable CU Denver undergraduates to get a jumpstart on their teaching careers. When you join the minor in Teacher

Education, you gain access to a 4+1 program that helps you earn your CLAS degree, a Master's in Teaching, and would qualify for a Colorado Teaching License in five years. Click here (p. 657) for more information.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 61 credits, including a minimum of 39 PHYS credit hours and a minimum of 16 credit hours in ancillary coursework.
2. Students must complete a minimum of 16 PHYS upper-division (3000-level and above) credit hours in the major.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 12 PHYS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Students must declare their intention to major in Physics by the time they have completed 60 semester hours.
2. Students pursuing the 4+1 track must apply and be accepted for participation in the BS/MIS program prior to completion of the BS degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form (http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/physics/physics-bs/BMA_form_1_1_.pdf) to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
 - a. A maximum of 12 credit hours of graduate level courses that are applied to the undergraduate degree will apply to the graduate degree. Students must also earn a B- or higher in graduate level coursework, for it to apply to the Integrated Science, MIS.
3. The introductory labs, PHYS 2351 Applied Physics Lab I and PHYS 2361 Applied Physics Lab II, are required for all physics majors. If the department is unable to offer one or both of these labs then PHYS 2321 Intro Experimental Phys Lab I may be substituted for PHYS 2351 Applied Physics Lab I and PHYS 2341 Intro Experimental Phys Lab II may be substituted for PHYS 2361 Applied Physics Lab II, upon prior advisor approval.
4. Students earning a Physics major cannot earn a Physics minor.
5. All physics majors must complete a capstone thesis or capstone project. Writing and defending a thesis is required for all students wishing to graduate with departmental honors.
6. The physics faculty also encourage all physics majors to enroll in PHYS 1450, 3450, and 4450 Professional Development I, II, and III seminar courses.

Code	Title	Hours
<i>Complete all of the following required courses:</i>		
PHYS 2311	General Physics I: Calculus-Based	30
PHYS 2351	Applied Physics Lab I	
PHYS 2331	General Physics II: Calculus-Based	
PHYS 2361	Applied Physics Lab II	
PHYS 2711	Vibrations and Waves	
PHYS 2811	Modern Physics I	
PHYS 3120	Methods of Mathematical Physics	
PHYS 3211	Analytical Mechanics	
PHYS 3411	Thermal Physics	

PHYS 3711	Advanced Experimental Physics Laboratory (must be taken twice for a total of four credit hours)	
<i>Complete courses for one of the following tracks:</i>		12-14
<i>Students following the Pure and Applied Physics track complete a minimum of 14 credit hours from the following courses:</i>		
PHYS 4211	Quantum Mechanics	
PHYS 4212	Quantum Mechanics Seminar	
PHYS 4311	Electricity & Magnetism	
PHYS 4312	Electricity & Magnetism Seminar	
Complete a minimum of six 3000-level or above PHYS credit hours (maximum of up to three semester hours of directed research or independent study can count towards this requirement). ²		
<i>Students following the Physics, BS 4+1, Masters of Integrated Science track complete 12 credit hours from the following courses. These courses will also apply to the MIS:</i>		
MINS 5200	Research Methods in Interdisciplinary Science	
PHYS 5211	Quantum Mechanics	
PHYS 5311	Electricity & Magnetism	
One graduate level STEM (MATH, PHYS, ELEC, BIOL, etc.) course chosen to meet the student's MIS Program Goals, in consultation with the MIS Program Director.		
<i>Complete one of the following options:</i>		3
<i>Option 1</i>		
PHYS 3751	Physics Capstone Proposal	
PHYS 4751	Physics Capstone Thesis (must take twice and complete two credit hours) ¹	
<i>Option 2</i>		
PHYS 3751	Physics Capstone Proposal	
PHYS 4711	Physics Capstone Project	
<i>Complete all of the following required ancillary courses:</i>		16-18
MATH 1401	Calculus I	
MATH 2411	Calculus II	
MATH 2421	Calculus III	
MATH 3191 & MATH 3200 or MATH 3195	Applied Linear Algebra and Elementary Differential Equations Linear Algebra and Differential Equations	
Total Hours		61-65

¹ PHYS 4751 Physics Capstone Thesis must be taken twice by physics majors who must also complete a minimum of 135 hours of research through completion of three credits of PHYS 4880 Directed Research or a research internship or other documented evidence of research efforts.

² Electives with a prefix other than PHYS may be considered in consultation with your departmental academic advisor and with approval of the physics department chair.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/physics/academics/program-learning-goals/>).

To review the Degree Map for this program, please visit our website. (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>)

Astrophysics Minor

Introduction

Please click [here](#) (p. 770) to see Physics department information.

Astrophysics is an important and well-represented subdiscipline of physics. It includes the study of the solar system, galactic and extragalactic astrophysics, as well as cosmology. A minor in this field combines a theoretical approach with observational analysis. There is also the opportunity to do research in this field.

The physics department offers minors in physics, biophysics, and astrophysics. However, it is not possible to receive a minor in more than one of these fields. Also, physics majors may elect to receive the astrophysics or biophysics minor from the department, but not the physics minor.

Students are strongly encouraged to consult with the astrophysics advisor, meet physics faculty engaged in Astrophysics research, attend departmental astrophysics-related seminars, and explore ways that astrophysics relates to research undertaken by faculty in other disciplines.

For more information, contact:

Alberto Sadun (Astrophysics Minor Advisor)

Email: alberto.sadun@ucdenver.edu

Office: North Classroom 3809

Michael "Bodhi" Rogers (Physics advisor)

Email: physics.chair@ucdenver.edu

Office: North Classroom 3123B

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click [here](#) (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 16 PHYS credit hours.
2. Students must complete a minimum of six upper-division (3000-level and above) PHYS credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine PHYS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Requirements for the minor in astrophysics may be used to fulfill the requirements of the major in physics.
2. A student majoring in physics who wants to minor in astrophysics cannot use the 3000-level and above courses applied to the Astrophysics minor for their Physics Major requirements.
3. A student seeking a minor in astrophysics who also wants to minor in physics or biophysics can only use one of the 3000-level and above courses applied to the Astrophysics minor for their Physics Minor or Biophysics Minor requirements.

Code	Title	Hours
<i>Complete the following Introductory Physics Lecture/Lab Courses:</i>		10
PHYS 2010 or PHYS 2311	College Physics I General Physics I: Calculus-Based	
PHYS 2321 or PHYS 2351	Intro Experimental Phys Lab I Applied Physics Lab I	
PHYS 2020 or PHYS 2331	College Physics II General Physics II: Calculus-Based	
PHYS 2341 or PHYS 2361	Intro Experimental Phys Lab II Applied Physics Lab II	
<i>Complete a minimum of six credit hours from the following Upper Division Astrophysics Elective credit ¹</i>		6
PHYS 3050	General Astronomy II	
PHYS 3070	Physical Cosmology	
PHYS 3082	Energy and the Environment	
PHYS 3411	Thermal Physics	
PHYS 3840	Independent Study: PHYS ²	
PHYS 3880	Directed Research ²	
PHYS 3939	Internship ²	
PHYS 4510	Optics	
PHYS 4550	Astrophysics	
PHYS 4840	Independent Study: PHYS ²	
PHYS 4980	Advanced Physics Topics ²	
Total Hours		16

¹ Students must complete a minimum of six upper-division (3000-level and above) PHYS credit hours. Additional astrophysics-related special topics or elective courses may be approved by the department advisor. Electives with a prefix other than PHYS may be considered in consultation with your departmental academic advisor and with approval of the physics department chair.

² Topics in these classes vary, as do the number of credits that can be earned. See departmental advisor for approval.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/physics/academics/program-learning-goals/>).

Biophysics Minor

Introduction

Please click [here](#) (p. 770) to see Physics department information.

The minor in biophysics enables students with primary interests in biology, chemistry, health sciences, mathematics, anthropology, psychology, or other disciplines to explore the deep connections between fundamental physical processes and the functions and development of life. Using mathematical and computational models as well as precise experimental measurements and advanced instrumentation, biophysics explores living processes within a framework that builds upon fundamental physics concepts of mechanics, electrodynamics, statistical physics, and quantum physics. Students taking a minor in biophysics will be able to synthesize some or all of these areas of physics at a mature level of understanding into their primary field(s) of study, bringing an enriched array of intellectual and experimental tools to the pursuit of their professional goals.

Students must consult with the biophysics minor advisor, meet physics faculty engaged in biophysics research, attend departmental biophysics-related seminars, and explore ways that biophysics relates to research undertaken by faculty in other disciplines - including both fundamental science and clinical medicine. Opportunities also arise to connect biophysics studies to outreach into regional high schools so that pre-college students can benefit from undergraduates sharing their experiences with connecting studies across disciplines.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

For more information, contact:

Masoud Asadi-Zeydabadi (Biophysics Minor Advisor)

Email: masoud.asadi-zeydabadi@ucdenver.edu

Office: North Classroom 3803

Michael "Bodhi" Rogers (Physics advisor)

Email: physics.chair@ucdenver.edu

Office: North Classroom 3123B

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click [here](#) (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 16 PHYS credit hours.
2. Students must complete a minimum of six upper-division (3000-level and above) PHYS credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine PHYS credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Requirements for the minor in biophysics may be used to fulfill the requirements of the major in physics.
2. A student majoring in physics who wants to minor in biophysics cannot use the 3000-level and above courses for the Biophysics minor for their Physics Major requirements.

3. A student seeking a minor in biophysics who also wants to minor in physics or astrophysics can only use one of the 3000-level and above courses applied to the Biophysics minor for their Physics Minor or Astrophysics Minor requirements.
4. Additional biophysics-related special topics or elective courses may be approved by the department advisor. Such courses include topics such as Radiation Physics in Biomedicine, Computational Modeling in Biophysics, Nonlinear Dynamics in Biomedicine, and specialized courses in biophysics-related instrumentation. Electives with a prefix other than PHYS may be considered in consultation with your departmental academic advisor and with approval of the physics department chair.

Code	Title	Hours
<i>Complete the following Introductory Physics Lecture/Lab Courses:</i>		10
PHYS 2010 or PHYS 2311	College Physics I General Physics I: Calculus-Based	
PHYS 2321 or PHYS 2351	Intro Experimental Phys Lab I Applied Physics Lab I	
PHYS 2020 or PHYS 2331	College Physics II General Physics II: Calculus-Based	
PHYS 2341 or PHYS 2361	Intro Experimental Phys Lab II Applied Physics Lab II	
<i>Complete the following Upper Division Biophysics Courses:</i>		2
PHYS 3151	Biophysics Outlook I	
PHYS 3161	Biophysics Outlook II	
<i>Complete a minimum of four credit hours from the following Upper Division Biophysics Elective Courses:</i>		4
CHEM 4548	Physical Biochemistry Laboratory	
PHYS 3251	Biophysics of the Body	
PHYS 3252	Biophysics of the Body NM	
PHYS 3451 or PHYS 3452	Biophysics of the Cell ² Biophysics of the Cell NM	
PHYS 3840	Independent Study: PHYS ³	
PHYS 3880	Directed Research ³	
PHYS 4351 or PHYS 4352	Bioelectromagnetism ² Bioelectromagnetism NM	
PHYS 4840	Independent Study: PHYS ⁴	
PHYS 4880	Directed Research ³	
Total Hours		16

¹ Need a minimum of four credits to satisfy the requirement that students must complete a minimum of six upper-division (3000-level and above) PHYS credit hours.

² The courses containing "NM" are versions whose math and use of prior physics knowledge has been adjusted - in terms of grading and assignments - for students who have taken fewer math and physics courses than physics majors (NM stands for non-majors). Both versions are meant to be content rich and conceptually challenging, still require quantitative modeling, and are offered simultaneously by the same instructor. Students with strong math backgrounds are encouraged to take the "majors" (xx51) version. Either one or the other version can count toward the minor, but not both.

³ Repeatable. Max Credits: six.

⁴ Repeatable. Max Credits: 12.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/physics/academics/program-learning-goals/>).

Physics Minor

Introduction

Quantum Information Technology Undergraduate Certificate

Introduction

The goal of this certificate is to better prepare students and working professionals to enter into the quantum information technology workforce and for those wanting to learn more about quantum computing and quantum technologies.

Program Delivery

- This certificate is an on-campus program.

Declaring This Certificate

- Students should meet with the Physics department advisor Michael "Bodhi" Rogers (michael.rogers@ucdenver.edu)

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Physics advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- [Click here \(p. 107\)](#) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credit hours.
2. Students must earn a minimum grade of C- (1.7) in all course applied to the certificate and must achieve a minimum cumulative certificate GPA of 1.7. All graded attempts in required and elective courses are calculated in the certificate GPA. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
3. Students must complete all coursework with CU Denver faculty.
4. All prerequisites for program courses must be met.
5. All requirements must be met within a five-year period

Code	Title	Hours
Complete the following courses:		
PHYS 4678	Quantum Computing	3
or ELEC 4678	Quantum Computing	
PHYS 4679	Quantum Computing Algorithms	3
or ELEC 4679	Quantum Computing Algorithms	
PHYS 4680	Quantum Computing Technology	3
or ELEC 4680	Quantum Computing Technology	
PHYS 4681	Quantum Technology Systems	3
or ELEC 4681	Quantum Technology Systems	
Total Hours		12

Fax: 303-315-1780

Overview

Political science is the study of people, power and the public good. Looking at a variety of societies, institutions and interpersonal situations, the discipline asks who has power, where this power comes from, how it is used, how it promotes or impairs the public good and how the public good is defined. Political science draws from other fields, such as psychology, philosophy, economics, sociology and world literature. Finally, it explores the relationship between idealism and realism, between theory and practice, between political thought and personal action.

Opportunities for students with a BA in political science include careers in business, teaching, journalism, community organizing and government service. A political science degree also serves as good preparation for professional training in law and public administration. Students' internship experiences increase their job opportunities. Students with an MA in political science may find careers in such areas as business, government research and administration and teaching at the community college level.

Please visit the Political Science Department website for detailed information on programs, faculty, students, courses and syllabi, community involvement and service learning, internships and photographs.

Departmental Honors

Requirements for honors in political science are an overall GPA (in all courses, not just political science courses) of 3.65 or better and the preparation and defense of an honors paper of 25 to 35 pages in length. Honors candidates with an overall GPA of 3.75 to 3.84 may graduate with high honors, and those with GPAs of 3.85 and higher may graduate with highest honors. However, the level of honors granted depends on both the GPA and the quality of the honors paper. The honors paper is

usually completed during the semester in which a student is graduating. The student must defend the thesis before political science faculty no later than the first Friday in December or the first Friday in May. Interested students should identify a thesis topic and a faculty sponsor and submit an application to participate in the program by October 1 for May graduates and April 1 for December graduates. For details, please contact Karen Breslin, the department undergraduate advisor, karen.breslin@ucdenver.edu

Fourth World Center for the Study of Indigenous Law and Politics

Executive Director: Glenn T. Morris

Telephone: 303-315-1762

This center provides a research clearinghouse to students and faculty at CU Denver on legal and political issues that affect indigenous peoples (the Fourth World). In addition to supporting a modest library of rare books and periodicals on indigenous issues, the center also stocks video and audio resources on subjects of indigenous politics and a substantial news file archive on current developments in the Fourth World. The center has produced curricular materials, including the Fourth World Bulletin, for use in international relations and area-studies courses.

Center for New Directions in Politics and Public Policy

Director: Steve DelCastillo

This center provides academic programs, courses and research focused in the areas of politics and public policy with the purpose of developing the leadership capacities necessary to address changing public priorities for the 21st century within neighborhoods, communities, governmental jurisdictions, labor organizations, and nonprofit entities. Students in the Center's academic programs include working professionals in public and non-profit sectors; elected officials; community activists; interest-group stakeholders; educators from a wide range of demographic, occupational, and personal backgrounds; and simply concerned citizens. The New Directions program offers professional internships with a wide variety of political jurisdictions, community-based groups, and labor organizations across Colorado, including several funded internships.

The center offers both undergraduate and graduate degrees in political science with emphases in public policy and administration.

Graduate Information

Please go to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/political-science/>) catalog to read about our graduate programs.

Programs Offered

- Political Science, BA (p. 798)
- Political Science - Politics and Public Policy Option, BA (p. 801)
- Political Science, BA with Secondary Teaching Licensure Endorsement (p. 804)
- Political Science, 4 + 1 BA/ MA (p. 808)
- Political Science Minor (p. 810)
- International Politics and Foreign Policy Undergraduate Certificate (p. 812)
- Labor Leadership Undergraduate Certificate (p. 814)
- Middle Eastern Politics Undergraduate Certificate (p. 815)

- Public, Non-Profit and Community Leadership Undergraduate Certificate (p. 817)

Professors:

Christoph Stefes, PhD, Denver University

Associate Professors:

Michael J. Berry, PhD, University of Colorado

Sasha Breger-Bush, PhD, University of Denver

Bassem Hassan, PhD, University of Denver

Betsy Jose, PhD, University of Pittsburgh

Glenn T. Morris, JD, Harvard University School of Law

Tony Robinson, PhD, University of California, Berkeley

Thorsten Spehn, PhD, University of Denver

James Walsh, PhD, University of Colorado

Assistant Professors:

Karen Breslin, JD, University of Denver

Senior Instructors:

Harvey Bishop, MA, University of Colorado

Adjunct Faculty:

Charles Norton, JD, University of Chicago

Nicholas Rockwell, PhD, University of California, Los Angeles

Karen Sugar, M.A., University of Colorado

Martin Widzer, PhD, University of Denver

Emeritus Faculty:

Mike Cummings, PhD, Stanford University

Joel Edelstein, PhD, University of California, Riverside

Jana Everett, PhD, University of Michigan

Stephen C. Thomas, PhD, Stanford University

Political Science (PSCI)

PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice (3 Credits)

Introduces the study of politics, its human importance, and its relationship to social institutions. Analysis of the relationship between individual political behavior and characteristics of the political system.

Development of key concepts such as power, legitimacy, authority, political socialization, and revolution. Note: Required of all PSCI majors.

Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.

Typically Offered: Fall, Spring, Summer.

PSCI 1101 - American Political System (3 Credits)

General introduction to the American political system with emphasis on the U.S. Constitution, federalism and separation of powers. Current affairs and enduring questions of American Political life. Is America exceptional? How and why do political parties do battle? Can the U.S. system achieve social justice? Note: Courses offered through CU Succeed will also examine the Colorado Constitution and Colorado Supreme Court case studies. Required of all PSCI majors. Max hours:3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.

PSCI 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

PSCI 2001 - Topics in Political Science (1-3 Credits)

Covers different areas of politics. Note: May be taken more than once for credit when topics vary. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

PSCI 2006 - Global Political Issues (3 Credits)

Studies global political issues, exploring the broad forces at play in the world: international economics, national interests, military power, nationalism, ethnicity, the environment and human rights. Discussion of world events and underlying global issues, incorporating analytical tools used by political scientists. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 2011 - Logic of Political Inquiry (3 Credits)

This course builds critical thinking techniques, logical habits of mind, and research skills necessary for political study. Includes argumentation basics, logical fallacies, evaluating evidence, understanding statistics, effective writing, and internet research. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

PSCI 2365 - Politics of Climate Change (3 Credits)

This course shows how Political Science addresses today's most severe threat to our planet. It analyzes how societies try to mitigate and adapt to climate change at various governance levels. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 2410 - Political Science through Science Fiction (3 Credits)

Explore political science concepts by analyzing works of science fiction. Course examines utopian and dystopian communities, imagined futures, and political theorizing in both classic and unusual works of fiction. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 2840 - Independent Study (1-3 Credits)

An opportunity for lower division students who demonstrate academic potential to pursue the study of some subject of interest in greater detail, with supervision from a faculty member in the department. Subjects chosen and arrangements for assignments to be made between student and faculty. Prereq: One semester of course work at Downtown Denver Campus. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PSCI 3000 - Topics: Conference Participation (1 Credit)

Max hours: 1 Credit.

Grading Basis: Letter Grade

PSCI 3002 - Topics in Political Science (1-3 Credits)

Covers different areas of politics. Note: May be taken more than once for credit when topics vary. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

PSCI 3011 - Research Methods (3 Credits)

Design of political/social research, both qualitative and quantitative.

Applications of statistical techniques and procedures to social and political phenomena. Use of computer and the Internet. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3022 - Political Systems of the World (3 Credits)

The class focuses on the analyses of various political systems around the world. Students will look at democracies and dictatorships, industrialized countries and developing countries. Though a structured comparison, students will assess and test key theories in Political Science. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

PSCI 3034 - Race, Gender, Law and Public Policy (3 Credits)

Historical overview of race and gender relations in the U.S. and an examination of the treatment of issues of race and gender in the judicial system and public policy. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring.

PSCI 3035 - Political Movements: Race and Gender (3 Credits)

Examines the emergence, growth, and decline of social movements for race and gender equality. Discussion of political issues of race and gender in the 1990s. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring.

PSCI 3042 - World Politics (3 Credits)

This course provides a basic background and theories of international relations with a focus on the interactions between states, international organizations, nongovernmental organizations, media sources, and multinational corporations. Themes examined include foreign policy, international security, political economy, human rights, international law, sustainable development, and environmental management. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

PSCI 3050 - Islamophobia (3 Credits)

Islamophobia depicts Islam and its followers as threats to civilization, human rights and progress. Course examines historical and current Islamophobia, including impacts on international relations and on domestic politics. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3064 - Power and Empowerment in the United States (3 Credits)

Introduces U.S. political economy. Analysis of the political and economic forces and structures that shape the opportunities available to the American people. Among topics included are reciprocal impacts of government and business, the federal budget, taxation, lobbying and special interests, community organizing, and elections. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3214 - Federal Law and American Indians (3 Credits)

Examines the legal and political history of the U.S. in relation to American Indian Nations. Focuses on specific laws and Supreme Court cases in federal Indian law, with analysis of U.S. policy. There will be some comparison with Indian policies of other countries. Cross-listed with ETST 3216. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3347 - Film and Politics (3 Credits)

Presents historical and contemporary films to introduce students to critical evaluation of film as a political medium. Whether designed as propaganda or entertainment, films shape and reflect critical issues in our political and social culture. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3840 - Independent Study: PSCI (1-3 Credits)

Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PSCI 3914 - The Urban Citizen (3 Credits)

Course emphasis is community, the individual, and the good life. Experiential learning and classroom discussions about capacities of urban citizens. Focus is on social, political, and economic resources that individuals command, issues of equality and inequality, and possibilities of constructive change. Prereq: A willingness to spend a semester working and studying together as a team in both the classroom and the community. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3939 - Internship (1-12 Credits)

Designed experiences involving application of political concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: junior standing or higher

PSCI 4001 - Theories of Capitalism (3 Credits)

Is capitalism “the legitimate racket of the ruling class”, as Al Capone argued? Is it the “system under which greed does the least harm”, as Milton Friedman suggested? Or, is it as John Keynes had it, “the astounding belief that the most wickedest of men will do the most wickedest of things for the greatest good of everyone”? This advanced undergraduate/graduate course in theories of political economy engages ideas, concepts, actors, institutions, relationships, dynamics, and structures central to a deep understanding of global industrial capitalism. The course is centered on the works of seminal theorists of capitalism from the 18th century forward, including Adam Smith, David Ricardo, Alexander Hamilton, Friedrich List, Karl Marx, CLR James, Harry Magdoff, Friedrich Hayek, Martin Luther King, Jr., Kwame Nkrumah, Jeff Sachs, Amartya Sen, and Vandana Shiva. Students in the course are provided ample opportunities, across a variety of innovative assignments, to explore the historical and social context of the theoretical perspectives presented, to compare these perspectives to one another, and to make substantive connections between theory and practice. Note: Students are not expected to have any prior coursework in political science. Students are expected to make progress in developing their reading, writing, analytical and critical thinking skills. Cross-listed with PSCI 5001. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PSCI 4002 - Topics in Political Science (3 Credits)

Specialized areas of politics. Note: May be taken more than once for credit when topics vary. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

PSCI 4009 - Politics of the Budgetary Process (3 Credits)

Develops each student’s understanding of budgeting and financial management in the public and nonprofit sectors. An overview of public sector and nonprofit fiscal management is provided, along with thorough exploration of the political influences that affect financial decision-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4011 - GIS in Political Science (3 Credits)

Computer lab course developing methodological skills in Geographic Information Systems (GIS) in political contexts. Geospatial computerized mapping skills are important in political fields such as urban planning, electoral analysis, environmental justice, demographics, public health, and criminal justice. Designed for beginners. Cross-listed with PSCI 5011. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PSCI 4014 - Media and Politics (3 Credits)

Explores the impact of the news media on the American political system, including public policy and citizen participation, and addresses trends in news coverage and media ownership, and their impact on public opinion. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4024 - State Politics: Focus Colorado (3 Credits)

Examination of American state politics, with an emphasis on Colorado. Course examines the special role of state governments in the American federal system. Focus on dominant current issues facing Colorado state government. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Summer.

PSCI 4025 - Local Governance and Globalization (3 Credits)

Introduces international political economy, consequences of globalization for localities, interplay between wealth and power among nations, multinational corporations, NGOs and the UN, and impact of their actions on local governments. Topics include development, aid, trade, outsourcing, eco-sustainability and global equity. Cross-listed with PSCI 5025. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4034 - Political Parties and Pressure Groups (3 Credits)

Democrats, Republicans, third parties, and pressure groups in the United States. Analysis of pressure politics and political behavior. Impact of parties and pressure groups on the public good. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4044 - The Presidency (3 Credits)

An overview of the historical, constitutional, and functional aspects of the presidency. Focuses on the powers and vulnerabilities of the presidency and on the style and politics of the current president. Cross-listed with PSCI 5044. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4057 - Religion and Politics (3 Credits)

Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of “church and state;” (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 5057 and RLST 4500, 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4074 - Urban Politics, Planning, and Development (3 Credits)

For the first time in world history, humanity has passed a watershed moment as the majority of all the world’s people now reside in cities, rather than rural areas. Most of the world’s GDP is generated in cities, but cities also consume most of the world’s resources. Technological invention and cultural innovation flourish in cities, but so too does crime and anomie. In cities, profound economic and ideological struggles over competitive neoliberalism and the sharing social economy play out in spatial struggles over the shape and use of the urban places we move through daily. Can vast and growing cities be sustainable, healthy, and just? Field tours through changing Denver neighborhoods provide case-study insights. Cross-listed with PSCI 5094. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4075 - Gentrification and Social Equity (3 Credits)

Study causes and consequences of urban gentrification, and explore strategies of grassroots resistance and social equity solutions that are being mobilized to challenge the forces of gentrification. Contrast common celebrations of the waves of capital reinvestment that are fueling urban revitalization with the frequent claim of many low-income neighborhoods: “Gentrification is Class War!” Cross-listed with PSCI 5075. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4084 - Local Government and Administration (3 Credits)

Policy and administrative challenges faced by local government in the 21st century. Emphasis on cities under federalism, alternative forms of city governance, and new challenges from increasingly diverse constituents. Issues of poverty, public safety, health, transportation, environment, corruption, and accountability. Cross-listed with PSCI 5084. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4085 - Comparative Governance: Environment and Society (3 Credits)

Focuses on how public & private actors at various levels of governance address pressing social & environmental issues such as aging societies, drug abuse, air pollution & global warming. Students will learn to analyze the dynamics of conflict & cooperation, using main concepts and theories of governance literature. Cross-listed with PSCI 5085. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4094 - Seminar: American Politics (3 Credits)

Foundations of U.S. politics and contemporary political issues. Federal/state/community relations. Relationship among the three branches of the Federal government. Colorado controversies arising under the U.S. Constitution. Cross-listed with PSCI 5014. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4105 - Comparative Politics: Europe (3 Credits)

An intensive and comparative analysis of the political systems and processes of Europe. Emphasis on political culture and economy; executive-legislative relationships; electoral systems; political parties and interest groups; political conflict and citizen participation; and the impact of social changes on political institutions. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with PSCI 5105. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4115 - Third World Politics (3 Credits)

Examines the factors challenging political stability in low income nations and the prospects for democracy and economic development. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4124 - Denver Politics (3 Credits)

Surveys Denver's dominant political and economic forces and community agendas that compete with the downtown growth machine. Examines urban renewal strategies, gentrification and grass-roots resistance, and the role of officials in shaping Denver's distribution of wealth and life-opportunities. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4126 - Politics, Power, and Profit (3 Credits)

A short introduction to international political economy, mixing theory and practice to explore states, markets, power, profit, and policy around the world. The course combines classic texts with case studies and current events, providing broad exposure to key issues and debates in the field. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PSCI 4144 - Indigenous Political Systems (3 Credits)

Surveys political theory and practice in indigenous societies in the Americas. Examines the impact of indigenous political thought on Euro-American politics, especially the U.S. Constitution, and explores the contemporary impact of indigenous people on current politics. Cross-listed with ETST 4144. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4146 - Indigenous Politics (3 Credits)

Surveys the status of the world's native peoples and nations, and the role of law and politics in the future of indigenous peoples in the global arena. Examines questions of human rights, economic development, and international law and politics. Cross-listed with PSCI 5145 and ETST 4146. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism (3 Credits)

This course is about Middle Eastern women's subjectivity and various forms of agency. It explores the nexus of domestic, regional and international forces that shapes the lives of Middle Eastern women, in particular in the Algerian, Egyptian, Iranian, Israeli and Palestinian contexts. Far from being silent observers of the contests among these forces, as is often assumed, Middle Eastern women have been active actors in the public arena since the 19th century colonial encounter and the importation of the modern state to the region using an array of means to make their voices heard. They were often more militant than those of their countrymen. The course is divided into two parts. The first part provides an overview of the theoretical notions discussed such as Orientalism, agency, colonialism and post-colonialism. Related to this theoretical section is a historical overview that is necessary to the understanding of the contemporary conditions of Middle Eastern women and the continuities and changes between past and present. The second part covers pressing topics in the lives of Middle Eastern women in the post-independence era such as the rise of Political Islam, the global trend of democratization, war and occupation. The emphasis in this section is on women as active participants in the debates surrounding these issues, rather than as objects of them. The readings assigned include both texts written by scholars from the region and by others from without. They provide analyses of the contexts within which Middle Eastern women's struggles take place. In addition, students will be exposed to materials produced by Middle Eastern women activists that express their own opinions and views in order to avoid misrepresentation and to reflect the diversity among them. Cross-listed with WGST 4150. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4155 - Political Systems of the Middle East and North Africa (3 Credits)

Comparative analysis of political processes in the Middle East and North Africa. Islamic political theory and its contemporary manifestations. The role of nationalism and the quest for modernity in the political development of this region. Parties and programmed modernization in transitional politics. Violent and nonviolent change. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4156 - The Arab-Israeli Peace Process (3 Credits)

Critical analysis of Arab and Israeli perspectives on the on-going peace negotiations in the Middle East. Historical background and religious-cultural aspects of current problems. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with ETST 4156. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4165 - Islamic Politics and Culture (3 Credits)

Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with RLST 3100. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PSCI 4176 - Civil Resistance in Theory and Practice (3 Credits)

This course assesses forms of civil resistance against political oppression. The focus is on the struggle of non-violent resistance movements. Students will learn about the origins, successes, tactics, and strategies of civil resistance groups. Cross-listed with PSCI 5176. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4185 - Corruption in the U.S. and Abroad (3 Credits)

Explores the causes and consequences of administrative and political corruption in developed and developing countries, and evaluates various anti-corruption strategies. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4186 - East Asia in World Affairs (3 Credits)

Political and economic systems and foreign policies of East Asian powers, such as China, Japan, Taiwan, South Korea and Hong Kong; interactions of these powers and their collective economic and political roles in world affairs; major theoretical approaches to the study of East Asian powers. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4195 - Political Systems of Sub-Saharan Africa (3 Credits)

Analysis of major types of political systems in sub-Saharan Africa and intensive case studies of selected countries exemplifying each type. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4206 - Social Movements, Democracy and Global Politics (3 Credits)

Examines global social movements as new political actors within world politics; how theoretical perspectives in international relations and democracy address these actors; and the forms of interaction among these actors, states, and global governance institutions. Cross-listed with PSCI 5206. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4207 - Theories of Social and Political Change (3 Credits)

Investigation of social and political power with respect to possibilities of change. Location of present barriers to change within ongoing histories of marginalization, exclusion, and violence. Critical examination of political inclusion and recognition. Imaginations and pursuits of just, equitable, and/or Utopian worlds. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4215 - Women's Rights, Human Rights: Global Perspectives (3 Credits)

Explores the global feminist movement's campaign to "engender" human rights. Examination of women's human-rights issues and the critique of this campaign as representing cultural imperialism. Note: this course assumes that students have completed at least two political science courses. Cross-listed with WGST 4215. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4216 - International Politics: Human Rights (3 Credits)

The system of nation states, concepts of national interest, goals of foreign policies, conduct of diplomacy, and the bearing of these elements on the problem of human rights. Presentation and evaluation of the solutions that have been offered for the securing of justice and the maintenance of peace. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4217 - Human Rights: Theory and Practice (3 Credits)

Explores the ideas of international human rights and the practical efforts to actualize rights in societies around the world. Students study the theories of rights and the evolution of rights in history. Cross-listed with PSCI 5217. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4224 - Dictatorships in 21st Century (3 Credits)

Analyzes and classifies political systems of non-democratic regimes. Reviews earlier and contemporary theories that explain the origins, survival and death of authoritarian regimes. Discusses the impact of dictatorial rule on domestic developments as well as on international relations. Cross-listed with PSCI 5224. PSCI 3022 recommended for student success. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4225 - Democracy and Democratization (3 Credits)

Examines the conditions under which countries turn from authoritarianism towards democracy and become stable democratic regimes. Also examines the impact of foreign and international factors on new democracies. Cross-listed with PSCI 5225. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4226 - The United Nations in World Affairs (3 Credits)

Current operation and future potential of the United Nations as a complex actor in world affairs, both expressing conflicting interests of its participants and promoting universal goals, including world peace, human rights, and environmental protection. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4235 - Politics and Markets in Latin America (3 Credits)

Explores political economic development in Latin America within the context of the world system. Includes the study of colonization, land tenure, foreign investment, authoritarianism, militarism, social and revolutionary movements, human rights and democratization. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PSCI 4236 - American Foreign Policy (3 Credits)

Examines the postwar events, controversies, and most recent challenges in U.S. foreign policy. Analyses of the major sources of U.S. foreign policy, such as ideology, national interests, and national power. Attention to the pattern and process of foreign policy-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4237 - American National Security (3 Credits)

Examines American national security, utilizing an interdisciplinary analysis of its domestic historical development and its function in the current global context. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4240 - International Security (3 Credits)

Examines old and emerging "threats" to national security, and policy responses, from theoretical, historical and geographical perspectives. Explores challenges of ethnic conflict, weapons of mass destruction, environmental and economic security. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4245 - Populist Movements around the World (3 Credits)

Political populism is on the rise in virtually every part of the world. Populist leaders, parties and movements exert direct influence when they are in power. However, they also create pressure on centrist leaders and parties and influence politics indirectly. This course explores the phenomenon of political populism around the world. We begin by defining populism and investigate cases of populist movements in the United States, Europe, the Middle East, Latin America and Asia. After that, we will engage the literature devoted to explaining the phenomenon. The course concludes with a discussion of the effects of populism and the dangers that some forms of it pose to democracy. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4248 - Gender, Development and Globalization (3 Credits)

Examining the cost and impact of globalization; not only on women and gender but economic equality, human movement and displacement, sustainable development and the environment. Highlighting the complexities of a highly interconnected world and intersectional nature of a globalized world, answering the question: Who Wins? Who Loses? Cross-listed with PSCI 5245, WGST 4248 and WGST 5248. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4265 - Social Justice And Globalization (3 Credits)

Examines issues of justice and ethical responsibility in a globalizing world. Do moral obligations of individuals and institutions end at national borders or do they encompass all human beings and extend to the environment and to future generations? Cross-listed with PSCI 5265. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4266 - International Law (3 Credits)

Investigates the body of law that regulates relations between nations and provides a framework for solving common problems and disputes between nations. Note: this course is intended for political science majors. Cross-listed with PSCI 5266. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4274 - Conflict Resolution and Public Consent Building (3 Credits)

Alternative strategies for resolving or mediating conflicts facing public or nonprofit organizations and for building public consent, with emphasis on personal, interpersonal, organizational, interest-group, cross-cultural, and roots of conflict and bases for consent. Cross-listed with PSCI 5274. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4276 - Conflicts and Rights in International Law (3 Credits)

Explores contending interpretations and practices in international law regarding issues such as the legitimacy of humanitarian intervention, efficacy of truth commissions, tensions between truth and justice in cases of genocide and war crimes, and legal changes needed to devise viable rules. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with PSCI 5276. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4280 - The Politics of War Law (3 Credits)

Examines international laws governing armed conflict, including human rights law. Investigates the reasons for instances of compliance and violation within this international legal regime regulating war and conflict. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4286 - International Relations: War or Peace? (3 Credits)

Presents alternative theoretical frameworks for the explanation of war and peace. Investigations of the efficacy of international law, just-war norms and the UN in preventing or containing conflict. Cross-listed with PSCI 5286. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4326 - Advanced International Political Economy: Globalization (3 Credits)

Engages the current debate about globalization. Conceptualizes globalization and evaluates the pros and cons of global trade and finance for developed and developing countries. Develops a model for a sustainable and just global economy. Prereq: PSCI 4126. Cross-listed with PSCI 5326. Repeatable. Max Hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Prereq: PSCI 4126

PSCI 4330 - U.S. Health Policy (3 Credits)

The role of public health policy as legislated at the federal and state levels. Individual health policy (e.g. social security and managed care) and public health policy (e.g. mandatory immunizations, HIV testing, air and water quality). Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4340 - Advanced International Political Economy: Global Supply Chain (3 Credits)

Many people globally rely on long, global supply chains for jobs and incomes and to acquire the goods and services they need to survive. These chains connect people all over the world—from farmers and seamstresses to multinational corporations and investment banks — to one another as they work to bring products to our store shelves and homes. Yet, as current events clearly demonstrate, these long and complicated chains are fragile and easily disrupted, contributing to rising vulnerability, insecurity, inequality, and poverty around the world. How did it come to pass that we rely on such a complex system for the things we need? Is this kind of interdependence a good idea? What alternatives exist for restructuring trade, work, and production? These questions have occupied political economists for centuries and for good reason. Thinking about supply chains means thinking about survival and our relationships with one another and the Earth. This course tackles contemporary and historical supply chains with an eye toward thinking about the future of global production, trade, and work. Cross-listed with PSCI 5340. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

PSCI 4354 - Environmental Politics (3 Credits)

Political, legal, and economic forces in environmental law and policy. Special emphasis on air and water pollution and on threats to public and agricultural land. Environmental groups and their opponents. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4365 - Global Ecological Crises (3 Credits)

Overview of global ecological problems such as climate change, transboundary pollutions, and loss of bio-diversity in an attempt to understand the political, economic, and cultural forces behind these problems and the status of legal and policy initiatives to address them. Cross-listed with PSCI 5365. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4407 - Early Political Thought (3 Credits)

Main currents of political thought in their historical setting from Plato to Machiavelli, with a critical evaluation of those elements of continuing worth. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4414 - Non-Profits and Social Change (3 Credits)

Explores role of non-profits in catalyzing social change. What are obstacles and opportunities to leveraging social change through non-profits? What factors shape non-profits to be either transformational or systemstabilizing forces? Cross-listed with PSCI 5514. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4417 - Modern Political Thought (3 Credits)

Theories of modernity and its lasting social and political consequences. Topics may include liberalism and neoliberalism, capitalism and Marxism, humanism and posthumanism, racial slavery, colonialism, and ecology. PSCI 4407 is not a prerequisite for PSCI 4417. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Spring.

PSCI 4427 - Law, Politics and Justice (3 Credits)

Analysis of the relationship of politics, law, and justice, particularly the degree to which moral norms and political concerns should and do influence legal standards and their perceived legitimacy. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4437 - Coercion and the State (3 Credits)

An analysis of: (1) the historical emergence of the modern state; (2) the theoretical justifications for the concentration of political power and the activist state; (3) the internationalization of the European state system; and (4) anarchist and Fourth World challenges. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4444 - Contemporary Culture and Politics in America (3 Credits)

Intellectual and experiential investigation of the interplay of culture and politics in American society, as manifested in literature, social and political philosophy, psychological writings and trends, radical movements, popular culture, and daily behavior. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4446 - Advanced Indigenous Peoples' Politics (3 Credits)

Builds upon the theoretical and applied foundations of PSCI 4146. Intensive study of international legal and political developments are examined, particularly in the United Nations and the Organization of American States systems. Prereq: PSCI 4144 or PSCI 4146. Cross-listed with PSCI 5446. Max hours: 3 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 3.
Prereq: PSCI 4144 or PSCI 4146

PSCI 4457 - American Political Thought (3 Credits)

Critical examination of American political life at the intersections of social categories such as race, class, gender, sexuality, disability, and Indigeneity. Exploration of key and marginal thinkers through a variety of texts and genres. Cross-listed with PSCI 5457, ETST 4457, and ETST 5457. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4477 - Constitutional Law I (3 Credits)

Nature and scope of the following American constitutional principles as developed by the U.S. Supreme Court: federalism, jurisdiction of the federal courts, separation of powers, the taxing power, and the commerce power. Case method. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

PSCI 4487 - Constitutional Law II (3 Credits)

Continuation of PSCI 4477, with emphasis on the war powers of the president, citizenship, the Bill of Rights, and the Civil War amendments. (Case method.) Note: PSCI 4477 is not a prerequisite for PSCI 4487. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Spring.

PSCI 4494 - Judicial Politics (3 Credits)

Examines principal actors in the legal system: police, lawyers, judges, citizens. About half of this course is devoted to the study of judicial behavior, especially at the Supreme Court level. Political and personal influences on judicial behavior. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4505 - Political System of Russia and Its Neighbors (3 Credits)

The class focuses on the political values, institutions and actors of Russia and its neighboring countries, covering the political developments since the late 20th century. The relations between Russia, the European Union and the United States are also analyzed. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4535 - Labor and Working Class Politics (3 Credits)

Explores the status of the labor movement both in the U.S. and internationally, as well as the political, philosophical, and social implications of socioeconomic class status and identity. Cross-listed with PSCI 5535. Max hours: 3 Credits.
Grading Basis: Letter Grade

PSCI 4545 - Immigration Politics (3 Credits)

Introduces students to central theories of migration and a survey of immigration law and policy in the 20th century. Highlights experiences of Mexican and Latin American immigrants and related topics, including: U.S.-Mexican foreign relations, bilingual education, undocumented immigration and globalization. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with PSCI 5545. Max hours: 3 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 3.

PSCI 4550 - The Irish Diaspora (3 Credits)

While the population of Ireland today is roughly five million, there are an estimated 80 million people worldwide and nearly 50 million people in North America who claim some Irish identity. This course will explore this massive, nearly 5 century old, diaspora, beginning with the Plantations of Ulster and subsequent Ulster Scots emigration to North America, through the Great Hunger of the 19th century and massive exodus to the United States, Canada, Australia, and beyond. The course focus heavily on Irish immigrant communities in early Colorado, specifically Leadville, examining the history of our own community as a window into the larger political, social, and economic structures that drove such a migration. The course will conclude with an examination of the N. Ireland Peace Process, Good Friday Agreement, and BREXIT, inquiring about the role that Ireland and the Irish Diaspora plays today in global politics. Note: Students in this course will travel to parts of Colorado that once had significant Irish immigrant communities, places such as Leadville, Cripple Creek/Victor, Nevadaville, and various Catholic parishes and cemeteries in Denver. Students will also be expected to perform primary source research on Irish communities in early Colorado. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4554 - Chicano and Latino Politics (3 Credits)

Analysis of the social, cultural, and economic factors that affect political behavior of Latinos. Special attention is paid to the Mexican American cultural heritage and to relations between Mexican Americans and Anglo Americans. Cross-listed with ETST 4558. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4555 - International Women's Resistance (3 Credits)

Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with PSCI 5555, ETST 4555 and WGST 4555/5555. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4564 - Gender and Politics (3 Credits)

Inter-sectional examination of the personal and political life of gender. Exploration of constructions, performances, and creative reconfiguration of gender through a variety of texts, genres, and media. Cross-listed with WGST 4564. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4605 - Politics and Governments of South Asia (3 Credits)

Studies the political systems of Bangladesh, India, Pakistan, Sri Lanka and Nepal. The impact of British rule on the development of political institutions on the subcontinent as well as problems of political development at all levels. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4615 - Politics and Government of China (3 Credits)

Political and governmental changes within China, from the 19th century to the present. Primary emphasis on contemporary political systems and sociopolitical problems. China's struggle for independence and economic development. The Chinese revolutions, Maoist communism, and the post-Maoist period. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4645 - Comparative Political Leadership (3 Credits)

Comparative study of historical, socio-cultural, and psychological bases of political leadership. Leadership types in peasant societies, empires, and revolutionary movements. Dilemmas of democratic versus authoritarian leadership in modernizing and industrial states. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4726 - Seminar on U.S. and China Relations (3 Credits)

Detailed examination of historical context and current issues in U.S./China relations. Emphasis on modern period, with particular attention to changing relations in context of rising power of China. Cross-listed with PSCI 5726. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4736 - The Middle East in World Affairs (3 Credits)

Evolution and revolution in the Middle East. The character of nationalism in the area. Analysis of inter-regional and international problems affecting the Middle East, with special emphasis on current Arab-Israeli relations. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4757 - Legal Reasoning and Writing (3 Credits)

Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Note: this course assumes that students have completed ENGL 1020, 2030, and any 3000-level English/writing course, or COMM 3120. Cross-listed with ENGL 4750, PSCI 5747, COMM 4750 and COMM 5750. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4770 - Middle East Politics and Society in Film (3 Credits)

This course explores the intersection between politics and cinema in the Middle East. More precisely, it discusses the efforts of various international, regional, and local actors to construct meanings, mobilize support and legitimize their policies through film. Topics covered include nationalism and cinema, globalization and transnational cinema, the Arab-Israeli conflict, Political Islam and Islamic cinema. In addition to readings written by scholars from within and from outside the region, we will be analyzing American, Arab, Canadian, Iranian, and Israeli movies and documentaries that pertain to the topics covered in the course. The list of movies and documentaries watched in class will vary from year to year. Some of the movies that will be used frequently are: Lawrence of Arabia, Exodus, Argo and American Sniper. Term Offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4807 - Political Violence (3 Credits)

Investigates different types of political violence including genocide, ethnic and religious conflict, revolution, terrorism, war, state repression and others. Introduces theories of individual, collective and institutional violence, applies them to a range of case studies and explores possible solutions. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4808 - Strategies of Peacebuilding (3 Credits)

The course investigates the theories and strategies of peacebuilding in societies that have endured intrastate conflict and/or massive human rights violations and asks whether peace and justice and democracy can or should work together and how forgiveness and reconciliation might develop. Cross-listed with PSCI 5808. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4827 - Women and the Law (3 Credits)

Examines the role of the courts in the development of public policy toward women; how the legal system affects the economic power, family roles, safety and political participation of women. Cross-listed with ETST 4827 and WGST 4827. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4837 - Contemporary Issues in Civil Liberties (3 Credits)

Conflicting rights of individuals and groups in several areas of civil liberties, including religious groups, free speech, sexual freedom, racial quotas, and anti-governmental actions and publications. This course includes case law, readings, guest speakers and case discussions. Cross-listed with PSCI 5837. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4840 - Independent Study: PSCI (1-3 Credits)

An opportunity for advanced students with good scholastic records, and with appropriate courses completed, to pursue independently the study of some subject of special interest to them. Subjects chosen and arrangements made to suit the needs of each student. Note: Primarily for seniors. Prereq: 15 semester hours in political science and permission of instructor. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

PSCI 4878 - War, Film, and International Law (3 Credits)

This course examines interactions of culture, politics, and law by chronologically investigating 20th-century war movies and the ways experiences and norms have shaped and been shaped by cinematic representations. Cross-listed with PSCI 5878. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PSCI 4914 - Community Organizing and Community Development (3 Credits)

The theory and practice of community organizing strategies and community development innovations. How can social activists build power at the grassroots to build equitable, sustainable, and healthy communities? Cross-listed with PSCI 5914. Note: Students will not receive credit for this course if they have already earned credit for PSCI 3075. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4934 - CU at the Capitol (3 Credits)

Interested in building your professional experience and learning about politics first-hand with an internship as a legislative aide in the Colorado General Assembly? Each student in this course will be placed in a state government internship (students must apply for widely available positions). Working in settings such as the state capitol, legislator offices, committee hearings, and constituent meetings, students will learn first-hand about the current year legislative session of Colorado General Assembly, while networking with Colorado's political powerhouses. To supplement field experience, class meetings will allow interns to discuss current state politics and the complexities of politics as a vocation. Please note: Any student enrolling for this course must contact the course instructor immediately for assistance in landing an internship before the spring semester begins. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PSCI 4944 - CU in the City (3 Credits)

Investigation of community development strategies through seminar discussions, urban walking tours, and student field placement with a local community based organization, non-profit, or public office engaged in community development work. Cross-listed with PSCI 5944. Recommended Preparation: PSCI 3075 Community Organizing and Development. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4960 - Capstone in Political Science (3 Credits)

All students in this class are near the completion of their undergraduate degree in Political Science. Congratulations on this impending achievement! This capstone course will be your opportunity to produce a sophisticated piece of work that should be one of the most demanding and impressive projects you will complete as an undergraduate—it is the capstone of your intellectual journey through your political science major. You will spend the entire semester working on this project, receiving feedback from your peers and providing feedback to them as each of you work on your respective projects. This capstone project will facilitate independent student research in Political Science and assist students in developing advanced writing and communication skills. Students will engage and enhance their critical thinking skills and will educate each other through discussions, oral presentations, and written analysis. Both independent and/or group capstone projects may be part of this course. Restriction: Students must have completed 27 credits hours in Political Science (PSCI) with a C- or higher in order to register. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Students must have completed 27 credits hours in Political Science (PSCI) with a C- or higher in order to register.

Typically Offered: Fall, Spring.

PSCI 4995 - Global Study Topics (1-4 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with PSCI 5995. Term offered: summer. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Typically Offered: Summer.

Political Science, BA

Introduction

Please click here (p. 788) to see Political Science department information.

Courses are distributed among the primary fields as listed in this section, i.e., American politics, comparative politics, international relations, political theory and public policy and administration.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program can be completed online or on-campus.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 39 credit hours, from approved courses.
- Students must complete a minimum of 21 upper division (3000-level and above) credit hours from approved courses.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to program requirements.
- Students must complete a minimum of 15 PSCI credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- Exceptions to the Experiential Learning Requirement
 - In lieu of taking one of the identified courses, students may complete a substantial experiential learning project in a different PSCI class. The course instructor must certify with a written submission to the departmental undergraduate advisor

that the experiential learning project in that course fulfills the departmental experiential learning requirement.

- Students with preexisting significant political or civic engagement experience in the community (i.e., community and civic leadership work, or work with government agencies, on political campaigns, or in non-governmental organizations) or for whom the experiential learning requirement poses a hardship may petition the undergraduate advisor to waive the requirement.
- Note:** In either of these cases of exception to the Experiential Learning coursework requirement, 39 total credit hours in political science are still required for graduation.

Code	Title	Hours
Complete the following program requirements:		
<i>Complete the following required courses:</i>		9
PSCI 1001	Introduction to Political Science: The Quest for Freedom and Justice	
PSCI 1101	American Political System	
PSCI 2011	Logic of Political Inquiry ¹	
<i>Complete two Political Theory courses from the approved course list: Political Theory (p. 799)</i>		6
<i>Complete one American Politics course from the approved course list:</i>		3

Political Science - Politics and Public Policy Option, BA

Introduction

Please click here (p. 788) to see Political Science department information.

This option was designed for students who desire to pursue careers in public policy and/or public administration in the public or nonprofit sectors. This BA track emphasizes the specifically political aspects of public policy processes and is grounded in political science theory and familiarity with American, Comparative and International politics. Courses will emphasize key policy issues confronting U.S. local, state and national decision makers and citizens. A focus on politics and the policy-making process will prepare students conceptually and methodologically to move beyond partisan politics to address how leaders can best mobilize resources to achieve constituent goals consistent with the public interest.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This program can be completed online or on-campus.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 39 credit hours, from approved courses.
- Students must complete a minimum of 21 upper division (3000-level and above) credit hours, from approved courses.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to program requirements.
- Students must complete a minimum of 15 PSCI credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- Students with significant pre-existing political or civic engagement experience in the community, or for whom the experiential-learning requirement poses a hardship may petition the chair to waive the experiential-learning requirement; the overall requirement of 39 credit hours for Political Science graduation will still apply.

Political Science, BA with Secondary Teaching Licensure Endorsement

Introduction

Please click here (p. 788) to see Political Science department information.

Political science focuses on fundamental questions that go to the heart of the human experience. Political science students study critical issues such as war and peace, international affairs, environmental challenges, poverty and racism, and the struggles of oppressed peoples. Such study prepares students for various careers by building analytical and writing skills while encouraging independent thought, respect, and interest in current affairs. Graduates commonly work in fields such as law and government, nonprofit organizations, teaching, journalism, international organizations, business, and election campaigns.

The Political Science department prepares students for informed and creative activism by providing them an opportunity to develop analytical skills. The program incorporates historical, quantitative, experimental, ethnographic, psychological, and creative methodologies while aiming to sensitize students to the essential questions of politics and life. Many of our graduates are community organizers, attorneys or public servants in local, state or federal government. We have become nationally known for our programs in indigenous politics, international human rights, and inner-city community development. Students will find ample opportunity to explore the innovative community engagement programs while receiving real-world experience in a variety of professional and community settings.

The secondary licensure program is a partnership program between the College of Liberal Arts and Sciences (CLAS) and the School of Education & Human Development (SEHD). Secondary Education Licensure students choose a major within CLAS and complete all CORE, CLAS, major, and initial teacher education admission requirements before completing a final professional year of licensure coursework through the SEHD.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 39 PSCI credit hours.
2. Students must complete a minimum of 21 upper division (3000-level and above) PSCI credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to program requirements.
4. Students must complete a minimum of 15 PSCI credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

Students are responsible for meeting with the advisor in the SEHD to confirm teacher education and licensure requirements. In addition to completing all minimum program requirements above, SEHD secondary education students must complete the following minimum SEHD licensure (p. 950) requirements:

1. Complete the Education Declaration form and all subsequent processes and requirements, including a background check, prior to April 1st (for students intending to complete their clinical field experience in fall) or November 1st (for students intending to complete their clinical field experience in spring). Students must meet with the SEHD advisor for detailed information.
2. Student pursuing secondary education licensure must complete the following requirements to be admitted to the Professional (final) Year:
 - a. a minimum cumulative CU GPA of 3.0 or higher. Students with a lower GPA may be considered under certain conditions.
 - b. all CU Denver Core, CLAS, major, electives, and initial teacher education coursework requirements prior to the start of the Professional Year
 - c. the official application and interview process
 - d. Deadlines for Professional Year application are February 15th (for students intending to begin Professional Year in fall) or October 1st (for students intending to begin Professional Year in spring).
3. Students must complete all initial teacher education and professional (final) year coursework with a minimum grade of B- or higher.

Code	Title	Hours
Complete the following Political Science major requirements:		39
<i>Complete the following required courses:</i>		<i>9</i>

Secondary Social Studies Recommended Courses

Code	Title	Hours
<i>In order to prepare for the Social Studies licensure, students should take all of the following courses:</i>		
These courses will also count toward Political Science CU Denver and CLAS graduation requirements, as identified.		

Anthropology

Code	Title	Hours
ANTH 1303	Introduction to Biological Anthropology	
ANTH 2102	Culture and the Human Experience	

* ANTH 1303 Introduction to Biological Anthropology Will count as CU Denver Core Nat/Phys Science with lab. ANTH 2102 Culture and the Human Experience will count toward either CU Denver Behavioral Science or CLAS Behavioral Science.

Economics

Code	Title	Hours
ECON 2012	Principles of Economics: Macroeconomics	

* Will count as CU Denver Core Social Sciences or CLAS Social Science.

Geography

Code	Title	Hours
GEOG 1102	World Regions Global Context	
GEOG 1202	Introduction to Physical Geography	

* GEOG 1202 Introduction to Physical Geography will count as CLAS Nat/Phys Science without lab and GEOG 1102 will count as CU Denver Core Social Science or CLAS Social Science.

History

Code	Title	Hours
HIST 1361	U.S. History to 1876	
HIST 1362	U.S. History Since 1876	

* HIST 1361 U.S. History to 1876 and HIST 1362 U.S. History Since 1876 will fulfill the CU Denver Core Humanities and the CLAS Humanities requirements.

Political Science

Code	Title	Hours
PSCI 3022	Political Systems of the World or PSCI 3042 World Politics	
PSCI 3034	Race, Gender, Law and Public Policy or PSCI 3035 Political Movements: Race and Gender	

* PSCI 3022 Political Systems of the World or PSCI 3042 World Politics will count as CU Denver Core International Perspectives.

PSCI 3034 Race, Gender, Law and Public Policy or PSCI 3035 Political Movements: Race and Gender will count as CU Denver Core Cultural Diversity.

Psychology

Code	Title	Hours
PSYC 1005	Introduction to Psychology II	

* Will count toward either CU Denver Behavioral Science or CLAS Behavioral Science.

SEHD Licensure Coursework Requirements

Students must complete SEHD licensure requirements located here (p. 950).

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/polisci/undergraduate/>).

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/clas/>).

Political Science, 4 + 1 BA/ MA

Introduction

Please click here (p. 788) to see Political Science department information.

The 4+1 accelerated Master's program in Political Science is an expedited program of study that allows students to complete a Bachelor's degree in Political Science and a Master's degree in Political Science in as few as 5 years. Students will follow the undergraduate curriculum for Political Science and work closely with their faculty advisor to begin taking Political Science graduate level coursework as they complete their undergraduate degree. They will complete no more than 15 credits as an undergraduate that will apply to both their undergraduate and graduate degrees. Students may officially declare their intent to complete this program in either their junior or senior year, and may apply to the graduate program during their senior year. Application requirements may differ from the traditional two-year MA, which is why students need to work closely with faculty advisors and the political science graduate program director for more information and to ensure they are following the best track to complete coursework so that they only have one year after completing the undergraduate degree, to complete the graduate requirements.

Program Delivery

- This is an on-campus program.

Declaring This Program

- Click here (p. 377) to go to information about declaring a major.

The PSCI 4+1 BA/MA program is open to any PSCI major who has reached junior-level status (completed 60-credit hours of coursework) with a GPA greater than 3.0. Students eligible to declare the PSCI BA/MA degree program must be active CU Denver students who have competed at least one semester in residence at CU Denver, including at least two CU Denver PSCI courses.

In order to declare the PSCI 4+1 BA/MA program prior to completion of the BA degree, interested students should consult with both the PSCI undergraduate and PSCI graduate advisors. Students must complete a 4+1 BA/MA degree intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary. Completed 4+1 degree declaration forms are submitted to CLAS Advising for processing.

All students who have declared the 4+1 degree program option as undergraduates must submit a formal application through the CU Denver Graduate Admission's online application system during their final semester of undergraduate coursework. The department's preferred application deadlines are April 1 (summer term), May 1 (fall term), and November 1 (spring term).

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major and graduate advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Graduate Education Policies and Procedures apply to this program.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

While students are completing a BA degree in political science (p. 798), they may also complete some of the requirements for an MA degree in political science (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/political-science/political-science-ma/>) by participating in the BA/MA program using the following guidelines:

1. The student must apply and be accepted for participation in the BA/MA program prior to completion of the BA degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.
2. A minimum of 39 undergraduate hours and 33 graduate hours of Political Science credits hours must be completed to earn both an undergraduate and a graduate degree through this 4+1 program.
3. A minimum of 21 PSCI credit hours applied toward the BA must be taken at the upper division (3000-level and above) level and all credits applied toward the MA must be completed at the graduate level.
4. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Students must earn a minimum grade of B- (2.7) in any graduate level course for it to later be counted towards graduate degree requirements. Courses taken using P+/P/F or S/U grading cannot apply to major or graduate program requirements.
5. A minimum of 15 semester hours applied toward the BA must be taken from CU Denver faculty and all graduate coursework must be completed with CU Denver faculty.

Program Allowances and Restrictions

1. Up to 15 graduate level credit hours in Political Science may be taken by Political Science undergraduates accepted to the 4+1 program, and these credits will count both towards completion of the undergraduate degree, and the graduate degree in political science, if the student is later accepted into the graduate program.
2. Complete all Political Science undergraduate major requirements. Refer to the undergraduate Political Science (p. 798) catalog page.
3. To secure admission to the Political Science graduate program, submit formal graduate application during the senior year.
4. No more than 15 undergraduate credit hours may "double-count" for the M.A.. Elective courses must be in accordance with Graduate Education Policies. Therefore, meeting with an advisor regularly is recommended. Eligible students may declare the 4+1 BA/MA program after reaching junior-level standing as an undergraduate.

To learn more about the Student Learning Outcomes for the Undergraduate program, please visit our website (<https://clas.ucdenver.edu/polisci/undergraduate/>).

To learn more about the Student Learning Outcomes for the Graduate program, please visit our website (<https://clas.ucdenver.edu/polisci/graduate/>).

Political Science Minor

Introduction

Please click [here](#) (p. 788) to see Political Science department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is both an on-campus program and online program.

Declaring This Minor

- Click [here](#) (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) (p. 107) for information about Academic Policies.

Program Requirements

- Students must complete a minimum of 15 PSCI credit hours.
- Students must complete a minimum of 12 upper-division (3000-level and above) PSCI credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of nine PSCI credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- PSCI 4002 Topics in Political Science may also apply to the minor. Please contact the political science undergraduate advisor for more information.

International Politics and Foreign Policy Undergraduate Certificate

Introduction

Please click here (p. 788) to see Political Science department information.

The International Politics and Foreign Policy certificate for undergraduates allows students to specialize in international politics and foreign policy, engaging topics and methods essential for graduate study in international relations and for successful careers in the field. More broadly, this certificate is useful to students in any discipline who expect to work or study abroad in the future or who plan to work in a field with significant international dimensions, potentially from business and economics to public health and engineering. One of the unique attributes of this certificate is that it dispenses with the traditional and well-worn "capstone", and instead emphasizes independent and experiential learning and coursework in order to best meet the needs of students seeking job-relevant skills and looking to prepare for graduate school.

Program Delivery

- The certificate can be earned through a mix of on-campus and online courses.

Declaring This Certificate

- Any undergraduate admitted to CU Denver in a degree-seeking or non-degree seeking program may pursue this certificate.
- To declare this certificate, students must meet with the Political Science Department advising faculty.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their International Politics and Foreign Policy certificate advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

- Students must complete 12 credit hours from the approved courses.
- Students must complete six credit hours of upper division (3000 or 4000 level) level courses.
- Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
- All courses in this certificate must be taken in residency at CU Denver.

PSCI 4880	Directed Research	
PSCI 4995	Global Study Topics	
Total Hours		12

¹ Students are advised to complete elective courses in one of the three thematic pathways.

Students who complete the International Politics and Foreign Policy certificate will build knowledge and skills around the following five learning objectives:

1. Explore international issue areas, central debates, and the politics of specific countries and regions.
2. Analyze actors, institutions, and relationships within and among countries and regions of the world.
3. Apply international relations theories and methods, and use them to evaluate policy interventions and programming in the international arena.
4. Build new solutions to the world's most pressing problems.
5. Develop and refine key intellectual and academic skills, including the ability to use these skills independently and/or in professional contexts: reading, research, writing, critical and analytical thinking.

Labor Leadership Undergraduate Certificate

Introduction

Please click here (p. 788) to see Political Science department information.

The Labor Leadership certificate is meant to develop the next generation of leaders in labor unions and civic organizations focused on labor and related issues of race, class and gender equity. The certificate is particularly relevant to labor union leaders, rank and file members, and community-based organizational staff who desire to receive continuing education regarding labor leadership. The labor leadership certificate will combine academic instruction with field learning and community-based research projects. The program features active partnerships with local labor organizations, such as unions and community-based groups focused on relevant labor, class and race issues (such as immigrant rights groups, workplace gender equity groups, etc.). Certificate students will enhance synergetic learning in the classroom, and enlarge networking opportunities among all students.

Program Delivery

- The certificate can be earned either through our traditional on-campus courses, or entirely through classes offered in a weekend-intensive format in our New Directions program. Students may take classes in either format desired.

Declaring This Certificate

- Any undergraduate admitted to CU Denver in a degree-seeking or non-degree seeking program may pursue this certificate.
- To declare this certificate, students must meet with the Political Science Department advising faculty.

For questions about the Labor Leadership Undergraduate Certificate contact Steve Delcastillo (steve.delcastillo@ucdenver.edu)

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Labor Leadership advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete 12 credit hours from the approved courses.
2. Students must complete six credit hours of upper division (3000 or 4000 level) level courses.
3. Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative

certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.

4. All courses in this certificate must be taken in residency at CU Denver.

Middle Eastern Politics Undergraduate Certificate

Introduction

Please click here (p. 788) to see Political Science department information.

The Middle East features often in statements made by politicians, and stories from the region are a constant staple of the media. However, the region is still considered by many to be a "mystery." This perception is in part a result of the misrepresentation of the region and its peoples, in addition to the incessant regional political developments, especially during the current decade. The purpose of this certificate is to provide students with a deeper understanding of the politics of the region that goes beyond stereotypes disseminated by the media and manipulated by political and interest groups. It will introduce students to current research and practice concerning the complex interplay among the different peoples and the states of the Middle East, as well as the interaction between the region and the rest of the world. While the certificate will be issued and managed by the Political Science department, students can take courses from other departments and programs, for instance Geography, History, Modern Languages, Religious Studies and Women and Gender Studies. Graduate courses in the Political Science with a Middle East focus can also count toward the certificate. Such an interdisciplinary approach will expose students to a variety of perspectives on the study of the Middle East. It will also train students to investigate the interconnections among the different aspects of politics in the region.

Program Delivery

- The certificate is earned through our traditional on-campus courses.

Declaring This Certificate

- Any undergraduate admitted to CU Denver in a degree-seeking or non-degree seeking program may pursue this certificate.
- To declare this certificate, students must meet with the Political Science Department advising faculty.
- For questions about the Middle Eastern Politics Undergraduate Certificate contact Dr. Bassem Hassan (Bassem.Hassan@ucdenver.edu (Bassem.Hassan@ucdenver.edu?subject=Middle%20East%20Politics%20Certificate))

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Middle Eastern Politics certificate advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

- Students must complete a minimum of 12 credit hours from the approved courses.
- Students must complete all courses at the upper-division level (3000 or 4000 level). With the exception ARAB 2120 Intermediate Arabic II.
- Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
- All of the credit hours for this certificate must be earned at the CU Denver.

Certificate Restrictions, Allowances and Recommendations

- Only one course can be an independent study, which must be approved by Political Science Department as the certificate advisor.
- Students must complete at least two Political Science courses in the certificate.

Code	Title	Hours
<i>Complete one of the following introductory courses:</i>		3

Public, Non-Profit and Community Leadership Undergraduate Certificate

Introduction

Please click here (p. 788) to see Political Science department information.

The CU Denver Political Science Department's Public, Non-Profit and Community Leadership Certificate engages students in a focused curriculum in local public leadership, and in the community organizing and development field, including field placements in internships with local community partners. The certificate is tailored to meet the needs of individuals in public and non-profit positions that require development of their leadership competencies and for individuals in informal community leadership positions who want to build their knowledge, skills, and effectiveness.

The program curriculum is anchored around the study and practice of local civic engagement, especially in traditionally marginalized communities. Students will be connected to meaningful work and networking opportunities in local government or in community settings, through community-based coursework, professional internships and service-learning opportunities. The certificate program provides critical education and effective skills-based training for students seeking careers in local government, in non-profit organizations, or in community organizing and development work. Students will be prepared to become change agents in their communities, while developing possible career paths in community-based advocacy/service organizations, public agencies, or international development work.

The certificate is open to non-degree seeking students (with or without an undergraduate degree) as well as students formally pursuing an undergraduate degree at CU Denver. The Certificate can be earned as a stand-alone University certificate, or it can be applied to a current or future degree program. Non-degree seeking students who successfully complete the certificate program would be allowed to transfer in the credits received in the certificate program to complete the Bachelor's Degree in Political Science.

Program Delivery

- The certificate can be earned either through our traditional on-campus courses, or entirely through classes offered in a weekend intensive format in our New Directions program. Students may take classes in either format desired.

Admissions and Declaring This Certificate

- Any current or potential student wishing to declare this certificate should schedule a certificate advising appointment with either the Director of the New Directions program or with the Departmental Undergraduate Advisor, in order to register their intent to pursue the Public, Non-Profit and Community Leadership Certificate and to develop a curriculum plan.

For questions contact Steve Delcastillo (steve.delcastillo@ucdenver.edu) or Karen Breslin (karen.breslin@ucdenver.edu)

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges

students to consult regularly with their Public, Non-Profit and Community Leadership Undergraduate Certificate advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

- Students must complete 15 credit hours in approved courses.
- Students must complete a minimum of six upper division (3000 level and higher) credit hours from approved coursework.
- Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
- All credits must be taken in residence at CU Denver.

<i>Complete the following required course:</i>		
PSCI 4914	Community Organizing and Community Development	3
<i>Complete one of the following Field Placement courses:</i>		
PSCI 3914	The Urban Citizen	3
PSCI 3939	Internship	
PSCI 4934	CU at the Capitol	
PSCI 4944	CU in the City	
<i>Complete nine credit hours from the following Public and Community Leadership elective courses:</i>		
PSCI 3035	Political Movements: Race and Gender	
PSCI 3064	Power and Empowerment in the United States	
PSCI 4002	Topics in Political Science ¹	
PSCI 4025	Local Governance and Globalization	
PSCI 4074	Urban Politics, Planning, and Development	
PSCI 4075	Gentrification and Social Equity	
PSCI 4084	Local Government and Administration	
PSCI 4124	Denver Politics	
PSCI 4206	Social Movements, Democracy and Global Politics	
PSCI 4207	Theories of Social and Political Change	
PSCI 4248	Gender, Development and Globalization	
PSCI 4265	Social Justice And Globalization	
PSCI 4274	Conflict Resolution and Public Consent Building	
PSCI 4414	Non-Profits and Social Change	
PSCI 4535	Labor and Working Class Politics	
PSCI 4555	International Women's Resistance	
PSCI 4840	Independent Study: PSCI ¹	
PSCI 5424	The Social Economy and Sustainable Development	
PSCI 5434	The Cooperative Movement: Politics and Policy	

PSCI 5548 Labor Law and Collective Bargaining

Total Hours **15**

¹ PSCI 4002 Topics in Political Science and PSCI 4840 Independent Study: PSCI, can only be applied with advisor approval.

Psychology

Chair: Peter S. Kaplan

Program Assistant: Isabell Saari

BA and Psychology Minor Undergraduate Advisor: Mitchell Handelsman

BS and Behavioral and Cognitive Neuroscience Minor Undergraduate

Advisor: David Albeck

Director of Undergraduate Studies: David Albeck

Office: North Classroom, 5002

Telephone: 303-315-7050

Fax: 303-315-7072

Overview

Psychology is the scientific study of behavior, consisting largely of the following major areas of study: experimental psychology, biopsychology, animal behavior, clinical psychology, developmental psychology, social psychology, cognitive psychology, personality, industrial/organizational psychology and abnormal psychology. The requirements for the major are designed to introduce the student to the spectrum of Psychology, including an early exposure to research methods and statistics.

The Psychology major prepares students for employment and for graduate study in Psychology and related fields. The Psychology department also offers a PhD in Clinical Health Psychology.

Honors

There are two ways in which a student graduating with a Bachelor of Arts or Bachelor of Science degree in Psychology can graduate with honors. First, the College of Liberal Arts and Sciences (CLAS) awards the honor of graduating "with distinction (p. 377)."

The second form of honors, "Latin honors," is awarded by individual departments within CLAS, including psychology. The CU Denver Department of Psychology has approved a very rigorous set of requirements for Latin honors, also based on overall GPA. Level of Latin Honors will be awarded to both Bachelor of Arts and the Bachelor of Science graduates according to the following criteria:

- **Summa Cum Laude:** 3.9 - 4.0
- **Magna Cum Laude:** 3.75 - 3.89
- **Cum Laude:** 3.6 - 3.74

Students who wish to participate in Psychology research, please see the Gardner Psychology Research Scholar opportunity for the Bachelor of Arts (p. 831) or the Bachelor of Science (p. 834).

Curriculum Goals and Essential Learning Outcomes

Goal 1: Knowledge Base of Psychology

Students will recognize, explain, and distinguish the major concepts, theoretical perspectives, empirical findings, and historical trends in Psychology.

Essential Learning Outcome: The development of Knowledge of Human Cultures and the Physical and Natural World

Goal 2: Research Methods in Psychology

Students will demonstrate the statistical, organizational, writing, and analytical skills necessary to interpret and conduct meaningful and valid research in Psychology.

Essential Learning Outcomes: The development of Intellectual and Practical Skills, including Quantitative Literacy, Information Literacy, and Inquiry and Analysis skills.

Goal 3: Critical Thinking Skills

Students will use skeptical inquiry and scientific thinking skills to interpret and solve problems related to behavior and mental processes.

Essential Learning Outcomes: The development of Intellectual and Practical Skills, including Critical Thinking skills.

Goal 4: Application of Psychology

Students will apply psychological principles to solve personal, social, and/or organizational problems.

Essential Learning Outcomes: The development of Intellectual and Practical Skills, including Problem Solving skills.

Goal 5: Values in Psychology

Students will evaluate evidence, tolerate ambiguity, act ethically, recognize and respect diversity, and/or reflect other values that are the underpinnings of Psychology as a discipline.

Essential Learning Outcome: The development of Personal and Social Responsibility, including Ethical Reasoning and Intercultural Knowledge and Competence.

Graduate Information

Please go to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/psychology/>) catalog to read about our graduate programs.

Programs

- Psychology, BA (p. 826)
- Psychology, BS (p. 828)
- Psychology, BA, Gardner Psych Research Scholar (p. 831)
- Psychology, BS, Gardner Psych Research Scholar (p. 834)
- Behavioral Cognitive Neuroscience Minor (p. 837)
- Psychology Minor (p. 838)

Faculty

Professors:

Elizabeth Sandlin Allen, PhD, University of North Carolina at Chapel Hill
Richard Allen, PhD, University of North Carolina at Chapel Hill
James Grigsby, PhD, University of Colorado, Boulder
Mitchell M. Handelsman, PhD, University of Kansas
Peter S. Kaplan, PhD, Indiana University
Kevin S. Masters, PhD, Brigham Young University

Associate Professors:

David Albeck, PhD, University of Colorado, Boulder
Sondra Bland, PhD, University of Texas
Benjamin Greenwood, PhD, University of Colorado, Boulder
Kristin Kilbourn, PhD, University of Miami
Erik Oleson, PhD, Wake Forest University
Krista W. Ranby, PhD, Arizona State University
Jonathan Schaffer, PhD, St. John's University
Amy Wachholtz, PhD, Bowling Green University
Jason Watson, PhD, Washington University

Assistant Professors:

Carly Leonard, PhD, Johns Hopkins University

Melissa Simone, Ph.D., Utah State University

Professor, Clinical Teaching Track:

Joan Bihun, PhD, Wayne State University

Kevin Everhart, PhD, University of South Carolina

Vivian Shyu, PhD, University of Denver

Associate Professor, Clinical Teaching Track:

Jeffrey Rings, Ph.D., University of Denver

Senior Instructors:

Bethann Bierer, PhD, University of Denver

Instructors:

Christina Collins, Ph.D., Meridian University

Laurel Hyslop, Ph.D., Syracuse University

Jeremiah Ramos, M.S., University of Texas, Dallas

Paula Schmidlein, Ph.D., University of Denver

Emeritus Professors:

Rick M. Gardner, PhD, University of Nevada

Barbara Walker, PhD, The Ohio State University

Michael Zinser, Ph.D., University of Wisconsin

Psychology (PSYC)

PSYC 1000 - Introduction to Psychology I (3 Credits)

Introduces the scientific study of behavior, including an overview of the biological basis of behavior, sensation or perception, states of consciousness, learning and memory, thinking and language, intelligence, motivation and emotion. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

PSYC 1005 - Introduction to Psychology II (3 Credits)

Introduces the scientific study of behavior, including an overview of the history of psychology, development, personality, psychological disorders, therapy, health psychology and social behavior. PSYC 1000 is not a prerequisite for this course. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

PSYC 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

PSYC 2050 - Improving Memory (2 Credits)

Applies psychological principles of memory function and process to everyday settings and experiences. Covers topics such as how memory works, principles of memory improvement, and strategies for effective learning. Max hours: 2 Credits.

Grading Basis: Letter Grade

PSYC 2060 - Psychology Applied to Everyday Life (3 Credits)

A primer in psychological principles applied to everyday situations. Covers topics such as learning, stress and health, attraction and love, and personality. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSYC 2090 - Statistics and Research Methods (4 Credits)

Introduces statistics and research methods in the field of psychology. Note: Intended for those who plan to major in psychology. Completion of college algebra or equivalent is recommended. Prereq: PSYC 1000 with a C- or higher. Term offered: fall, spring, summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 2111 - Sophomore Seminar: Psychology as a Major and Career (3 Credits)

This course will introduce you to the BA and BS major in psychology. It will provide you with information on the careers and professional opportunities available to you within Psychology and related fields. After this course, you will be able to answer your friend's and family's question "But what can you do with a Psychology degree?" Well, the answer is, quite a lot. In addition, this course will help you to develop and articulate the professional skills that you have as a student of psychology. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PSYC 2205 - Lifespan Developmental Psychology for Health Majors (3 Credits)

This course will examine the normative physical, cognitive and socio-emotional changes and milestones that occur through the human lifespan highlighting health-related issues at each stage. Prereq: PSYC 1000 or PSYC 1005 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 or 1005 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 2220 - Biological Basis of Behavior (3 Credits)

Introduces the biological basis of behavior. This course will feature concepts like neurons, synaptic and hormonal transmission, and physiological set-points. Behavior of simple (invertebrate) and complex organisms (vertebrates) will be related to the activity of specific brain neural networks. Prereq: PSYC 1000 or BIOL 2020 (BIOL 2051) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2

Grading Basis: Letter Grade

Prereq: PSYC 1000 or BIOL 2020 (BIOL 2051) with a C- or higher

Additional Information: Denver Core Requirement, Biol Phys Sci - No Lab; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

PSYC 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have completed 15 hours of PSYC courses with a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: 15 hours of PSYC courses with a 2.75 GPA in PSYC courses

PSYC 2990 - Topics in Psychology (1-3 Credits)

Studies special topics to be selected by the instructor. Note: May be repeated for credit. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PSYC 3050 - Decision Making (3 Credits)

This course discusses current research on decision making/behavioral economics, as well as its application to individual well-being and public policy. You will gain insights on how and why people can be irrational in their daily decisions. Max hours: 3 Credits. Cross-listed with PBHL 3050 and ECON 3050.

Grading Basis: Letter Grade

PSYC 3090 - Research Methods in Psychology (3 Credits)

Covers principles of experimental methodology in Psychology. Includes active participation in data collection and interpretation, presentation of results, evaluation of scientific literature, scientific writing and advanced statistical concepts as they relate to the field of Psychology. Prereq: PSYC 1000, 1005 and 2090 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000, PSYC 1005, and PSYC 2090 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 3144 - Human Cognition (3 Credits)

Studies information processing in humans, with emphasis on memory, thinking and language. Prereq: PSYC 1000 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 with a C- or higher

Typically Offered: Fall, Spring.

PSYC 3145 - Industrial and Organizational Psychology (3 Credits)

Surveys the fields of industrial and organizational psychology. These fields apply psychological principles to improving productivity and satisfaction in the workplace. Topics include motivation, leadership, group processes, team functioning, occupational health, selection and training of employees, and performance management. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall.

PSYC 3205 - Human Development I: Child Psychology (3 Credits)

Studies human development covering birth, infancy, toddler, preschool and school-aged child. Covers biological, cognitive and social processes. Prereq: PSYC 1000 and PSYC 1005 or PSYC 3215 with a grade of C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 1005 or PSYC 3215 with a grade of C- or higher.

Typically Offered: Fall, Spring, Summer.

PSYC 3215 - Human Development II: Adolescence and Adulthood (3 Credits)

Study of human development from adolescence through adulthood and aging. Covers biological, cognitive, and social processes. Prereq: PSYC 1000 and PSYC 1005 or PSYC 3205. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 1005 or PSYC 3205 with a grade of C- or higher.

Typically Offered: Fall, Spring, Summer.

PSYC 3222 - Principles of Learning and Behavior (3 Credits)

Introduces the scientific study of learning and behavior, focusing on "Behaviorism." Principles of operant and classical conditioning are discussed. A particular emphasis is placed on the relevance and application of these principles to understanding human behavior and psychopathology. Prereq: PSYC 1000 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 3235 - Human Sexuality (3 Credits)

Examines the physiological, psychological, and social psychological bases of human sexuality. Research on the range of sexual behaviors, individual sexual response, sexual development, sexual dysfunction, and variants of sexual orientation. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Spring.

PSYC 3236 - Introduction to Media Psychology (3 Credits)

This course examines the social, behavioral, emotional, and cognitive impacts of modern media. Theoretical and methodological approaches are discussed and both positive and negative media impacts are considered. Prereq: PSYC 1000 or PSYC 1005 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 or PSYC 1005 with a C- or higher.

Typically Offered: Spring.

PSYC 3254 - Introduction to Animal Behavior (3 Credits)

Surveys the behavior of nonhuman animals, emphasizing the evolution through natural selection. One semester of general biology, biological anthropology, or other course emphasizing evolutionary perspective is strongly recommended as preparation for optimal student success. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PSYC 3262 - Health Psychology (3 Credits)

An overview of the scientific study of attitudes, behaviors, and personality variables related to health and illness. Emphasis is on the interaction of biological, psychological, and social factors that cause illness and influence its treatment and prevention. Prereq: PSYC 1000 and 2220 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

PSYC 3263 - Hormones and Behavior (3 Credits)

The hormonal regulation of behavior will be the primary focus of this course. Topics include: hormonal basis of sexual differentiation and behavioral differences, parental behavior, biological rhythms, aggression, mood and stress. Prereq: PSYC 1000 and 2220 with a C- or higher. Cross-listed with PSYC 5263. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Spring.

PSYC 3264 - Exercise, Brain and Behavior (3 Credits)

This course explores the impact of physical activity status-being sedentary or physically active-on brain function and behavior. Topics include effects of exercise on cognitive function, mood disorders, stress, anxiety, sleep and drug addiction. Emphasis will be placed on understanding the neurobiological mechanisms by which exercise impacts behavior. Students who have received credit for this topic listed under PSYC 3600 may not receive credit for this course. Prereq: PSYC 1000 and PSYC 2220 with a C- or higher. Term offered: fall. Cross-listed with PSYC 5264. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall.

PSYC 3265 - Drugs, Brain and Behavior (3 Credits)

Explores the pharmacological, biological, and behavioral basis of drug effects. Topics include mechanisms of drug action, brain reward pathways, role of environment and history on drug effects, and the impact of science on drug abuse and medication development. Prereq: PSYC 1000 and 2220 with a C- or higher. Cross-listed with PSYC 5265. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

PSYC 3305 - Abnormal Psychology (3 Credits)

This course applies a scientific approach to the examination of the symptoms, etiologies, and treatments of mental illnesses, including disorders of mood, anxiety, stress, addictions and those seen in childhood and older age. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 3385 - Psychology of Mindfulness (3 Credits)

This course will explore significant psychological, neurological, historical, societal and cultural aspects of mindfulness. It will integrate this current knowledge with more traditional aspects of the concept through classroom activities, guest lecturers, projects and field trips. Prereq: PSYC 1000 or 1005 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 or 1005 with a C- or higher

Typically Offered: Spring.

PSYC 3405 - Family Psychology (3 Credits)

Overview of theory and research pertaining to marital and family structure, functioning and dynamics. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Spring.

PSYC 3415 - Experimental Social Psychology (3 Credits)

Surveys the field of Social Psychology, the study of the way in which cognitions, emotions, and behaviors are influenced by the presence, or perceived presence, of others. Heavily focuses on experimentation and experimental methods within the field of Social Psychology. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Spring.

PSYC 3460 - Military Clinical Psychology (3 Credits)

This course focuses on clinical psychological issues facing service members, veterans, and military families. Topics include contemporary military culture, challenges of the military lifestyle/deployment/reintegration, specific types of military trauma, psychological issues of PTSD, TBI, depression, substance abuse, and suicidality, and psychological interventions for these issues. Prereq: PSYC 1005 with a C- or higher. Students will not earn credit for this course if they have already earned credit for PSYC 3600 with a similar topic title. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSYC 1005 with a C- or higher.

PSYC 3505 - Psychology and the Law (3 Credits)

Examines the legal and extralegal applications of psychology, such as assessment of insanity and competence, psychologists as expert witnesses, accuracy of eyewitness accounts, and issues relating to employment discrimination. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Spring.

PSYC 3600 - Topics in Psychology (1-3 Credits)

Studies special topics to be selected by the instructor. Note: May be repeated for credit. Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

PSYC 3611 - Psychology of Women (3 Credits)

Reviews psychological theories and research of women's social, cultural, emotional and behavioral experience. Examines the sociocultural context of women's experience and explores women's socialization, developmental issues, cognitive abilities and achievement motivation, personality variables, stereotypes, psychological disorders, victimization, intimacy and sexuality. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Summer.

PSYC 3612 - Domestic Abuse (3 Credits)

Examines the nature and extent of domestic violence. Personal characteristics and dynamics that contribute to spouse abuse are reviewed. Theories and research in the general field of family violence, victims' and perpetrators' treatment, and child abuse are discussed. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall.

PSYC 3615 - Positive Psychology (3 Credits)

This course provides an introduction to the science of positive traits, subjective experiences and institutions. It focuses on the empirical study of the factors that enable humans to flourish, develop resilience, mature and master life's challenges. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Spring.

PSYC 3724 - Developmental Neuroscience (3 Credits)

Explores the biological influences on the development of brain and behavior. Emphasis is on the evolution and development, the role of experience in prenatal and postnatal development, the ontogeny of sensory systems, learning and memory, and the biological bases of language acquisition. Prereq: PSYC 2220 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 2220 with a C- or higher.

Typically Offered: Fall.

PSYC 3810 - Neuropsychology (3 Credits)

Brain organization and function and its relationship to human memory, language, perception, and other cognitive abilities. Covers the application of clinical neuropsychology to working with individuals that have neurological disorders. Prereq: PSYC 1000 and 2220 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall, Spring.

PSYC 3822 - Aging, Brain and Behavior (3 Credits)

Examines the aging process, behavioral changes during senescence and the accompanying changes in the aged brain. Changes that are part of healthy aging are studied, as will age-related brain disorders. Prereq: PSYC 1000 and 2220 with a C- or higher. Cross-listed with PSYC 5822. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall.

PSYC 3832 - Neural Basis of Learning (3 Credits)

Survey of advances in neuroscience that further the understanding of how neurons within our brains are modified by experience and thus influence subsequent behavior. Includes discussions of how these mechanisms contribute to various psychopathologies. Prereq: PSYC 1000 and 2220 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall.

PSYC 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have Junior standing, have completed at least 12 hours in PSYC courses with a 2.0 GPA in PSYC courses and must work with Experiential Learning Center advising to complete a course contract and gain approval to enroll. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing and 12 hours of PSYC courses with a 2.0 GPA in PSYC courses

Typically Offered: Fall, Spring, Summer.

PSYC 4054 - Behavioral Neuroscience (3 Credits)

The morphological, neurochemical and physiological bases of behavior. Emphasis is on structure and function of the brain. Prereq: PSYC 1000/ PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 4090 - Research Design and Development (3 Credits)

This advanced writing and research methods course is designed to help students develop independent research ideas into formal products, such as a thesis proposal, grant application, presentation, and study protocols. Prereq: PSYC 3090 and instructor permission. Cross-listed with MARC 4090. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 3090.

Typically Offered: Fall, Spring.

PSYC 4101 - Applied Statistics Using SAS and SPSS I (3 Credits)

Teaches the practical statistical tools social scientists use to analyze real-world problems. It is split into four modules, each taught by a different instructor. The first module introduces SAS and SPSS; modules 2-4 are problem-based and cover topics such as ANOVA, multivariate regression, and cluster analysis. Students are recommended to have taken and completed at least one statistics course, at any level, as preparation for optimal success. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSYC 4102 - Applied Statistics Using SAS and SPSS II (3 Credits)

Students use the skills they learned in the previous semester to analyze a social issue of their choosing and present their findings. Note: A continuation of PSYC 4101. In addition to lectures, weekly one-on-one meetings between faculty and students are required. Prereq: PSYC 4101 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 4101 with a C- or higher

PSYC 4111 - Senior Seminar in Psychology: Career Capstone (3 Credits)

This course provides a focused integration of the skills and knowledge gained through the psychology major curriculum. As a capstone course, it will prepare students to apply what they have learned to their professional careers. Prereq: PSYC 3090 with a grade of C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: PSYC 3090 with a grade of C- or higher.

Typically Offered: Spring.

PSYC 4164 - Psychology of Perception (3 Credits)

Studies sensory processes and perceptual variables. Covers processes related to vision, audition, gustation and olfaction. Prereq: PSYC 1000 and 2220 with a C- or higher. Cross-listed with PSYC 5164. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

PSYC 4455 - Theories of Personality (3 Credits)

An in-depth look at several major theories of personality, including those from psychodynamic, behavioral, and humanistic schools of thought. Students are required to think actively and abstractly, and communicate their ideas in papers and classroom contributions. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Summer.

PSYC 4485 - Psychology of Cultural Diversity (3 Credits)

Studies diversity in the development of the individual across Asian, Black, Hispanic, and Native American cultures. The experience of self, role of the family, expression of emotions, and psychology of prejudice are emphasized. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

PSYC 4500 - Psychotherapy (3 Credits)

Overview of the major systems of psychotherapy, including psychoanalysis, person-centered therapy, family therapy, cognitive or behavioral approaches, and relationships among the various approaches. Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher

PSYC 4511 - History of Psychology (3 Credits)

Development of psychological theories since 500 B.C. Schools of psychology and their adherents. Readings of primary and secondary sources. Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher or admitted and enrolled in the Clinical Health Psychology PhD program (PSYH-PHD). Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher or admitted and enrolled in the Clinical Health Psychology PhD program (PSYH-PHD).

Typically Offered: Fall, Spring, Summer.

PSYC 4680 - Behavioral & Biomedical Sciences Research Seminar (2 Credits)

Introduces research in the behavioral and biomedical sciences. Students will learn about research programs at CU Denver and other centers, present their own research, and interact with the local scientific community. Prereq: permission of the instructor. Cross-listed with MARC 4680. Term offered: fall. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

PSYC 4681 - Behavioral & Biomedical Sciences Research Seminar II (1 Credit)

Continuation of research in the behavioral and biomedical sciences. Students will learn about research programs at CU Denver and other centers, present their own research, and interact with the local scientific community. Prereq: PSYC/MARC 4680 and permission of the instructor. Cross-listed with MARC 4681. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: PSYC 4680 or MARC 4680 and instructor permission.

Typically Offered: Spring.

PSYC 4730 - Clinical Psychology: Ethics and Issues (3 Credits)

An in-depth exploration of the values and ideas that guide professional practice in psychology, including professional codes of conduct and philosophical ethical principles. Topics include confidentiality, informed consent, competence, integrity and respect. Prereq: 1000, 1005, 2090, 2220 and 3090 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000, 1005, 2090, 2220 and 3090 with a C- or higher

Typically Offered: Spring.

PSYC 4780 - Behavioral & Biomedical Sciences Research: Ethics & Issues (3 Credits)

Students will critically review and analyze some of the major ethical and policy issues that arise during the conduct of basic and applied behavioral research. Prereq: PSYC 1000, 1005, 2090, 2220 and 3090 with a C- or higher or instructor permission. Term offered: fall. Cross-listed with MARC 4780. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000, 1005, 2090, 2220 and 3090 with a C- or higher

Typically Offered: Fall.

PSYC 4803 - Principles of Psychological Testing (3 Credits)

Principles underlying construction, validation, and use of tests of ability, intelligence, and personality and of attitude surveys. Covers statistical topics such as content and construct validity, item analysis, and reliability analysis. Students are recommended to have taken and completed at least one statistics course, at any level, as preparation for optimal success. Cross-listed with PSYC 5803. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSYC 4840 - Independent Study: PSYC (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of instructor. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

PSYC 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

PSYC 4939 - Internship (1-3 Credits)

Prereq: Students must have Junior standing, have completed at least 12 hours in PSYC courses with a 2.0 GPA in PSYC courses and must work with Experiential Learning Center advising to complete a course contract and gain approval to enroll. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing and 12 hours of PSYC courses with a 2.0 GPA in PSYC courses

Typically Offered: Fall, Spring, Summer.

PSYC 4990 - Topics in Psychology (1-3 Credits)

Advanced study of special topics to be selected by the instructor. May be repeated for credit. Prereq: Permission of instructor. Cross-listed with PSYC 5990. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Psychology, BA

Introduction

Please click here (p. 819) to see Psychology department information.

The College of Liberal Arts and Sciences also offers a Psychology BS (p. 828) degree.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus and online program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 37 PSYC credit hours.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
- Students must complete a minimum of 16 upper division (3000-level and above) PSYC credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- PSYC 3939 Internship does **not** count toward the 37 hour minimum or the 16 hour upper division requirement, but it does count as elective psychology credit.
- PSYC 3600 Topics in Psychology: See your advisor to determine if they count as Group A or Group B courses.
- Many courses have prerequisites. Refer to the course descriptions for prerequisite information.
- Students with transfer credit for PSYC1005 that was awarded zero credits will need to take an additional three credit Psychology

Elective course to reach the minimum credit hours required for the Psychology Major.

Code	Title	Hours
<i>Complete all of the following required courses:</i>		19
PSYC 1000	Introduction to Psychology I	
PSYC 1005	Introduction to Psychology II	
PSYC 2090	Statistics and Research Methods	
PSYC 2220	Biological Basis of Behavior	
PSYC 3090	Research Methods in Psychology	
PSYC 4511	History of Psychology	
<i>Complete one of the following Group A elective courses:</i>		3
PSYC 3144	Human Cognition	
PSYC 3222	Principles of Learning and Behavior	
<i>Complete one of the following Group A elective courses not already completed:</i>		3
BIOL 3104	Behavioral Genetics	
PSYC 3144	Human Cognition	
PSYC 3222	Principles of Learning and Behavior	
PSYC 3254	Introduction to Animal Behavior	
PSYC 3262	Health Psychology	
PSYC 3263	Hormones and Behavior	
PSYC 3264	Exercise, Brain and Behavior	
PSYC 3265	Drugs, Brain and Behavior	
PSYC 3385	Psychology of Mindfulness	
PSYC 3724	Developmental Neuroscience	
PSYC 3810	Neuropsychology	
PSYC 3822	Aging, Brain and Behavior	
PSYC 3832	Neural Basis of Learning	
PSYC 4054	Behavioral Neuroscience	
PSYC 4164	Psychology of Perception	
<i>Complete two of the following Group B elective courses:</i>		6
PSYC 3205	Human Development I: Child Psychology	
PSYC 3305	Abnormal Psychology	
PSYC 3415	Experimental Social Psychology	
<i>Complete one of the following Group B elective courses not already completed:</i>		3
PSYC 3145	Industrial and Organizational Psychology	
PSYC 3205	Human Development I: Child Psychology	
PSYC 3215	Human Development II: Adolescence and Adulthood	
PSYC 3235	Human Sexuality	
PSYC 3305	Abnormal Psychology	
PSYC 3405	Family Psychology	
PSYC 3415	Experimental Social Psychology

Psychology, BS

Introduction

Please click here (p. 819) to see Psychology department information.

The College of Liberal Arts and Sciences also offers a Psychology BA (p. 826) degree.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 54 credit hours, including a minimum of 31 PSYC credit hours and a minimum of 23 credit hours in ancillary course work.
2. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
3. Students must complete a minimum of 16 upper division (3000-level and above) PSYC credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. An experiential learning component is required and must be approved by the Bachelor of Science academic advisor. To fulfill the experiential learning requirement, some options have a minimum overall GPA of 2.5 or higher. Fulfilling this requirement with a project outside of the Psychology Department requires prior approval by the Bachelor of Science academic advisor. Independent study or internship credit hours taken outside of the Psychology Department will not count as Psychology credit hours. PSYC 4111 Senior Seminar in Psychology: Career Capstone, or PSYC 3939 Internship, can fulfill this requirement, and student does not need 2.5 GPA
2. Successful (final grade of B or better) completion of PSYC 4680 Behavioral & Biomedical Sciences Research Seminar, PSYC 4681 Behavioral & Biomedical Sciences Research Seminar II and PSYC 4780 Behavioral & Biomedical Sciences Research: Ethics & Issues fulfills the experiential learning requirement for the Bachelor of Science in Psychology dept core graduation requirement. It is required for students to have instructor permission to enroll in both PSYC 4680 Behavioral & Biomedical Sciences Research Seminar and PSYC 4681 Behavioral & Biomedical Sciences Research Seminar II
3. Students with transfer credit for PSYC1005 that was awarded zero credits will need to take an additional three credit Psychology Elective course to reach the minimum credit hours required for the Psychology Major.

Psychology Major Course Requirement

Code	Title	Hours
<i>Complete all of the following required courses:</i>		
PSYC 1000	Introduction to Psychology I	19

PSYC 1005	Introduction to Psychology II	
PSYC 2090	Statistics and Research Methods	
PSYC 2220	Biological Basis of Behavior	
PSYC 3090	Research Methods in Psychology	
PSYC 4054	Behavioral Neuroscience	
<i>Complete two of the following Group A elective courses</i>		6
BIOL 3104	Behavioral Genetics	
PSYC 3222	Principles of Learning and Behavior	
PSYC 3254	Introduction to Animal Behavior	
PSYC 3262	Health Psychology	
PSYC 3263	Hormones and Behavior	
PSYC 3264	Exercise, Brain and Behavior	
PSYC 3265	Drugs, Brain and Behavior	
PSYC 3724	Developmental Neuroscience	
PSYC 3810	Neuropsychology	
PSYC 3822	Aging, Brain and Behavior	
PSYC 3832	Neural Basis of Learning	
PSYC 4164	Psychology of Perception	
<i>Complete one of the following Group B elective courses:</i>		3
PSYC 3205	Human Development I: Child Psychology	
PSYC 3305	Abnormal Psychology	
PSYC 3415	Experimental Social Psychology	
<i>Complete required ancillary coursework from Biology and Chemistry:</i>		23
Biology (p. 830)		
Chemistry (p. 830)		
Upper Division Biology/ Chemistry electives (p. 830)		
<i>Complete 3 credit hours of Experiential Learning coursework:¹</i>		3
PSYC 3939	Internship	
PSYC 4111	Senior Seminar in Psychology: Career Capstone	
PSYC 4680 & PSYC 4681 & PSYC 4780	Behavioral & Biomedical Sciences Research Seminar and Behavioral & Biomedical Sciences Research Seminar II and Behavioral & Biomedical Sciences Research: Ethics & Issues	
PSYC 4840	Independent Study: PSYC	
PSYC 4880	Directed Research	
Total Hours		54

¹ Students should consult with the BS advisor to choose the best option.

Registration in PSYC 3939 Internship requires permission of instructor, meeting minimum grade requirements and approval of Experiential Learning Center. Registration in PSYC 4840 Independent Study: PSYC and PSYC 4880 Directed Research requires permission of instructor, meeting minimum grade requirements and approval of the CLAS advising office.

It is required for students to have instructor permission to enroll in both PSYC 4680 Behavioral & Biomedical Sciences Research Seminar and PSYC 4681 Behavioral & Biomedical Sciences Research Seminar II

Successful (final grade of B or better) completion of PSYC 4680 Behavioral & Biomedical Sciences Research Seminar, PSYC 4681 Behavioral & Biomedical Sciences Research Seminar II and PSYC 4780 Behavioral & Biomedical Sciences Research: Ethics & Issues fulfills the experiential learning requirement for the Bachelor of Science in Psychology dept core graduation requirement.

Biology

Code	Title	Hours
<i>Take the following:</i>		
BIOL 2010 or BIOL 2030	Organisms to Ecosystems (Gen Bio) Honors Organisms to Ecosystems (Gen Bio)	8
BIOL 2011 or BIOL 2031	Organisms to Ecosystems Lab (Gen Bio) Honors Organisms to Ecosystems Lab (Gen Bio)	
BIOL 2020 or BIOL 2040	Molecules to Cells (Gen Bio) Honors Molecules to Cells (Gen Bio)	
BIOL 2021 or BIOL 2041	Molecules to Cells Lab (Gen Bio) Honors Molecules to Cells Lab (Gen Bio)	

Chemistry

Psychology, BA, Gardner Psych Research Scholar

Introduction

Please click here (p. 819) to see Psychology department information.

The College of Liberal Arts and Sciences also offers a Gardner Psychology Research Scholars BS (p. 834) degree.

The Gardner Psychology Research Scholars Program consists of a rigorous set of criteria centered around a research project working with a Psychology faculty mentor.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Secure approval from the Psychology Department Gardner Program Director.
- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 43 credit hours with a minimum of 37 PSYC credit hours.
2. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum of B (3.0) in the 3 Behavioral & Biomedical Sciences Research courses and must achieve a minimum cumulative major GPA of 2.5. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
3. Students must complete a minimum of 16 upper division (3000-level and above) PSYC credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. PSYC 3939 Internship does **not** count toward the 43 hour minimum or the 16-hour upper-division requirement, but it does count as elective psychology credit.
2. PSYC 3600 Topics in Psychology: See your advisor to determine if they count as Group A or Group B courses.
3. Many courses have prerequisites. Refer to the course descriptions for prerequisite information.
4. Students with transfer credit for PSYC1005 that was awarded zero credits will need to take an additional three credit Psychology Elective course to reach the minimum credit hours required for the Psychology Major.

PSYC/MARC 4680	Behavioral & Biomedical Sciences Research Seminar ²	
PSYC/MARC 4681	Behavioral & Biomedical Sciences Research Seminar II ³	
PSYC/MARC 4780	Behavioral & Biomedical Sciences Research: Ethics & Issues ²	

Total Hours**43**

¹ Students must earn a minimum grade of B or better in all of the following courses. It is required for students to have instructor permission to enroll in both PSYC 4680 Behavioral & Biomedical Sciences Research Seminar and PSYC 4681 Behavioral & Biomedical Sciences Research Seminar II

- ² Take in the Fall.
³ Take in the Spring.

Additional Research Requirements

• The faculty mentor will work with students to guide fulfillment of these co-curricular requirements

- begin this course of study with at least 2 semesters remaining at CU Denver before graduation
- find a CU Denver Psychology faculty member who will mentor this project
- devote a minimum of 180 hours of work on this research project, completed during two semesters or more
- write a scientific paper describing the research
- present the results in an oral format
- present the results in poster format

Upper Division Biology/ Chemistry electives (p. 836)		
<i>Complete Gardner Psychology Research Requirements:</i> ¹		6
PSYC/MARC 4680	Behavioral & Biomedical Sciences Research Seminar ²	
PSYC/MARC 4681	Behavioral & Biomedical Sciences Research Seminar II ³	
PSYC/MARC 4780	Behavioral & Biomedical Sciences Research: Ethics & Issues ²	
Total Hours		57

¹ Students must earn a minimum grade of B or better in all of the following courses. It is required for students to have instructor permission to enroll in both PSYC 4680 Behavioral & Biomedical Sciences Research Seminar and PSYC 4681 Behavioral & Biomedical Sciences Research Seminar II

² Take in the Fall.

³ Take in the Spring.

Additional Research Requirements

• The faculty mentor will work with students to guide fulfillment of these co-curricular requirements

- begin this course of study with at least 2 semesters remaining at CU Denver before graduation
- find a CU Denver Psychology faculty member who will mentor this project
- devote a minimum of 180 hours of work on this research project, completed during two semesters or more
- write a scientific paper describing the research
- present the results in an oral format
- present the results in poster format

Biology

Code	Title	Hours
<i>Take the following:</i>		
BIOL 2010 or BIOL 2030	Organisms to Ecosystems (Gen Bio) Honors Organisms to Ecosystems (Gen Bio)	8
BIOL 2011 or BIOL 2031	Organisms to Ecosystems Lab (Gen Bio) Honors Organisms to Ecosystems Lab (Gen Bio)	
BIOL 2020 or BIOL 2040	Molecules to Cells (Gen Bio) Honors Molecules to Cells (Gen Bio)	
BIOL 2021 or BIOL 2041	Molecules to Cells Lab (Gen Bio) Honors Molecules to Cells Lab (Gen Bio)	

Chemistry

Code	Title	Hours
<i>Take the following:</i>		
CHEM 2031 or CHEM 2081	General Chemistry I Honors General Chemistry I	9
CHEM 2038 or CHEM 2088	General Chemistry Laboratory I Honors General Chemistry I Laboratory	
CHEM 2061 or CHEM 2091	General Chemistry II Honors General Chemistry II Lecture	
CHEM 2068 or CHEM 2098	General Chemistry Laboratory II Honors General Chemistry II Laboratory	

Upper Division Ancillary Electives

Code	Title	Hours
<i>Take two of the following upper division level ancillary elective courses:</i>		
BIOL 3226	Human Physiology	6
BIOL 3240	Human Anatomy Lecture	
BIOL 3445	Introduction to Evolution	
BIOL 3611	General Cell Biology	
BIOL 3621	Introduction to Immunology	
BIOL 3650	General Microbiology	
BIOL 3832	General Genetics	
BIOL 4134	Human Genetics	
BIOL 4165	Neurobiology	
CHEM 3810	Biochemistry	
CHEM 4810	General Biochemistry I	
CHEM 4820	General Biochemistry II

Behavioral Cognitive Neuroscience Minor

Introduction

Please click here (p. 819) to see Psychology department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 15 credit hours, from approved courses.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of nine upper division (3000-level and above) credit hours, with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- Students must complete at least one course from both the Cognitive and Behavioral Neuroscience categories.
- Courses that count for the Behavioral Cognitive Neuroscience minor cannot count towards a Psychology major.
- Courses that count for the Behavioral Cognitive Neuroscience minor cannot count toward the Psychology minor.
- Students can take both PSYC 4054 Behavioral Neuroscience and BIOL 4165 Neurobiology, but only one can count toward this minor.

<i>Complete a minimum of one of the following Cognitive Neuroscience required courses:</i>		3
PSYC 3144	Human Cognition	
PSYC 3205	Human Development I: Child Psychology	
PSYC 3222	Principles of Learning and Behavior	
PSYC 3305	Abnormal Psychology	
PSYC 3810	Neuropsychology	
<i>Complete a minimum of one of the following Behavioral Neuroscience required courses:</i>		3
BIOL 3104	Behavioral Genetics	
BIOL 4165	Neurobiology	
PSYC 3254	Introduction to Animal Behavior	
PSYC 3262	Health Psychology	
PSYC 3263	Hormones and Behavior	
PSYC 3264	Exercise, Brain and Behavior	
PSYC 3265	Drugs, Brain and Behavior	
PSYC 3724	Developmental Neuroscience	
PSYC 3822	Aging, Brain and Behavior	
PSYC 3832	Neural Basis of Learning	
PSYC 4054	Behavioral Neuroscience	
PSYC 4164	Psychology of Perception	
<i>Complete one additional course from either the Cognitive Neuroscience list or Behavioral Neuroscience list as an elective.</i>		3
Total Hours		15

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/psychology/learning-goals/>).

Code	Title	Hours
<i>Complete the following required courses:</i>		6
PSYC 1000	Introduction to Psychology I	
PSYC 2220	Biological Basis of Behavior	

Psychology Minor

Introduction

Please click [here](#) (p. 819) to see Psychology department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus and online program.

Declaring This Minor

- Click [here](#) (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 PSYC credit hours.
2. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
3. Students must complete a minimum of nine PSYC credit hours with a minimum of six upper division (3000-level and above) credit hours, with CU Denver faculty.

Program Restrictions, Recommendations and Allowances

1. Because minors are optional, there are no substitutions allowed to these requirements.
2. Students cannot earn a Psychology minor if they are also seeking a Psychology major.
3. Courses that count for the Psychology minor cannot count for the Behavioral Cognitive Neuroscience minor.
4. Students should see their minor advisor regularly to make sure they are completing the correct coursework.
5. Students with transfer credit for PSYC1005 that was awarded zero credits will need to take an additional three credit Psychology Elective course to reach the minimum credit hours required for the Psychology Minor.

Code	Title	Hours
<i>Complete all of the following required courses:</i>		12
PSYC 1000	Introduction to Psychology I	
PSYC 1005	Introduction to Psychology II	
PSYC 3144 or PSYC 3222	Human Cognition Principles of Learning and Behavior	
PSYC 3205 or PSYC 3305 or PSYC 3415	Human Development I: Child Psychology Abnormal Psychology Experimental Social Psychology	
<i>Complete at least one additional three credit hour PSYC elective course.</i>		3
Total Hours		15

Religious Studies

Director: Steven Vose

Email: steven.vose@ucdenver.edu (alison.shah@ucdenver.edu)

Overview

An undergraduate minor is offered in Religious Studies, a discipline that overlaps with many other fields of study: anthropology, literature, philosophy, psychology and others. Religion has played a vital role in history and continues to do so in contemporary life. The degree of interaction between a religious tradition and its host society is profound. Knowledge of its religion(s) is essential for a genuine understanding of each culture. Students will study the nature of the belief systems of the world's great religious traditions. Specific courses will offer the possibility of focusing one's studies in the areas of ancient myth and shamanic traditions, Judaic and Christian studies, Islam, Asian religions, psychology of religion, philosophy of religion, anthropology and sociology of religion, religion and literature and biblical studies.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Click here (p. 844) to learn about the requirements for the Minor in Religious Studies.

Programs Offered

- Religious Studies Minor (p. 844)

Faculty

Professors:

Robert Metcalf (Philosophy)

Associate Professors:

Colleen Donnelly (English)

Sarah Hagelin (English)

Rachel Harding (Ethnic Studies)

Assistant Professors:

Katherine Mohrman (Ethnic Studies)

Dale Stahl (History)

Steven Vose (History)

Instructors:

Kari Alexander (Sociology)

Bassem Hassan (Political Science)

Daryl Mehring (Philosophy)

Richard Smith (History)

Lecturers:

AnnMarie Bridges (Religious Studies)

Mary DeForest (Modern Languages)

Albert McClure (Religious Studies)

Stephanie Yuhás (Religious Studies)

Religious Studies (RLST)

RLST 1610 - Introduction to Religious Studies (3 Credits)

Religion is a complex phenomenon which involves social norms, beliefs and fears, and overarching world view. Religious experiences are among the most profound an individual can have. The course examines religious phenomena from various perspectives, including philosophical, historical, psychological, anthropological, political, sociological, the symbolic and ritual. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking.

Typically Offered: Fall, Spring, Summer.

RLST 2660 - World Religions (3 Credits)

Provides an introduction to the basic beliefs and concepts of the world's great religious traditions. Covers the history, development, belief patterns, and institutional forms of the world's religions, including Judaism, Zoroastrianism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism and Shintoism. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking.

Typically Offered: Fall, Spring, Summer.

RLST 2680 - The American Indian Experience (3 Credits)

Surveys the relationships between Indian and non-Indian peoples, particularly in the context of the unique interaction between tribes and the federal government. Cross-listed with ETST 2606. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 2700 - The Bible as Literature (3 Credits)

Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with ENGL 2520. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3000 - Judaism, Christianity and Islam: Affinity and Difference (3 Credits)

Judaism, Christianity and Islam have much in common, beginning with their common patriarch Abraham. But there are also elements in each that are unrecognizable from the perspectives of the other two. This course will trace the relationships among the Children of Abraham across history and in today's turbulent world. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"-our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with ETST 3003, HIST 3003, INTS 3003, PHIL 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

RLST 3060 - History of Early Christianity (3 Credits)

History of the rise of Christianity and the decline of paganism in the Roman Empire from the birth of Jesus of Nazareth to ca. 500 C.E. Special emphasis on social, historical, legal, and cultural context of Christianity's rise and paganism's decline. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3100 - Islamic Politics and Culture (3 Credits)

Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with PSCI 4165. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 3120 - Islamic Traditions (3 Credits)

Examines birth and history of Islam, its evolution from beginning to current trends and issues. Covers core beliefs, practices, differences between Sunni and Shi'a sects, and relationship to other Western religions. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

RLST 3300 - Shamanic Traditions (3 Credits)

Explores shamanic religious traditions across the world. This form of religion, involving spiritism, animism, trance states, and "mind power," is the oldest and most widespread religion in world history. Cross-listed with ETST 3300. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3410 - Asian Philosophies and Religions (3 Credits)

We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with PHIL 3410. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

RLST 3486 - Renaissance and Reformation (3 Credits)

Explores the late 13th through middle 17th centuries when European art and culture changed dramatically, and when Europe was torn by explosive ideological conflicts and religious upheaval. Cross-listed with HIST 3486.

Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 3500 - Religions of India (3 Credits)

Examines the transcendentalist philosophy of India, which rests at the foundation of the great Eastern religious traditions of Hinduism and Buddhism. The Indian ideas of God, the soul, time, the nature of the universe, and its ultimate goal are examined. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 3660 - Chinese Philosophy and Culture (3 Credits)

China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalism, Chinese "Logic," and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with PHIL 3981. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 3720 - Religious Narratives (3 Credits)

Investigates the language and structure of religious discourse in Western literature. Welcomes interdisciplinary and comparative perspectives with a focus on cultural constructions of the sacred. Cross-listed with ENGL 3520. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3740 - Biblical Traditions: Old Testament (3 Credits)

Investigates the history and nature of the Biblical text. Follows the tradition of critical scholarship beginning in the Enlightenment era and continued down to the present day, sometimes entitled "Secular Humanism." Topics include theories of authorship of the Torah, its general nature and content; the historical books of the Bible, the Prophets, and the Wisdom Literature. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3760 - Biblical Studies: New Testament (3 Credits)

Examines the books of the New Testament from a scholarly, historical-critical perspective, which views it as a historically and culturally conditioned text, reflecting the beliefs and attitudes of the authors who produced it. The course covers the canonical gospels, letters, and other writings of the New Testament. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3770 - Archaeological Discoveries Relating to the Bible (3 Credits)
Examines the revolutionary impact of archaeology on Biblical Studies. Among these discoveries are Egyptian, Mesopotamian, and Canaanite texts, the Dead Sea Scrolls, and the Gnostic texts. Through these investigations, the Bible will be placed in its appropriate historical, literary and cultural context. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 3800 - Spirituality and Ecology in Global Societies (3 Credits)
This course will examine the historical and contemporary attitudes and actions of religion in responding to the societal impacts of environmental concerns. We will investigate four worldviews in particular: indigenous traditions, Christianity, Judaism and Buddhism, and also consider how these traditions interact with public policy debates and their position on social justice and environmental issues. Religions both create and mitigate conflict. This course will consider ethical and moral approaches, philosophical principles and social movements including ecofeminism and ethics to provide tools for dialogue and critical thinking around ecological challenges. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Spring.

RLST 4000 - Religion and Cultural Diversity (3 Credits)

Religion is one of the key elements which creates multiculturalism. This course explores issues in religion and religious identity in contemporary America, including Native American spiritual traditions, Jewish-American traditions, Muslim-American traditions, Asian-American traditions, the African-American Pentecostal movement, and the growth of the Black Muslim movement. Attention is also given to the question of gender issues, as the traditional model for gender roles was formulated, in part, from a religious basis. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Spring.

RLST 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with HIST 4002, CHIN 4002, ETST 4002, INTS 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

RLST 4010 - Comparative Religious Systems (3 Credits)

A cross-cultural analysis of religious belief and behavior. Emphasis is placed on religions found among non-Western cultural groups and includes consideration of how major religions of the world are manifested on local levels. Cross-listed with ANTH 4130, 5130, RLST 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4020 - Sociology of Religion (3 Credits)

This course introduces students to the nature and functions of religion in society, emphasizing western religions in the U.S. Students will develop and apply an understanding of classic and modern sociological theories of religion to current events and disciplinary developments. Cross-listed with SOCY 4610, SOCY 5610, RLST 5020. Prereq: Junior or Senior standing or permission from instructor. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

RLST 4030 - Race, Religion and Belonging in the United States (3 Credits)

Race/ethnicity and religion are conconstitutive social and cultural formations that have played a fundamental part in determining the boundaries of belonging of the United States. In this course, students will interrogate when, why and how race/ethnicity and religion have been used to delineate borders, determine citizenship, navigate legal classifications, dictate social mobility, and regulate economic possibilities. We will analyze both primary sources #such as sermons, reality TV shows, court cases and graphic images#as well as scholarly writing to explore how formations of race and religion have shaped notions of belonging in the US nation#state, thereby constructing the boundaries of the state itself. Cross-listed with ETST 4030, ETST 5030, RLST 5030, HIST 4209 and HIST 5029. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4040 - Psychology of Religion (3 Credits)

Examines the theories developed by some of the great names in the field of psychology and their approaches to religion. Questions addressed include why people become religious, how religion functions in their lives, religious experience and assessment of the validity of religious claims. Key theorists studied include: William James, Sigmund Freud, Carl G. Jung, Abraham Maslow and Erich Fromm. Cross-listed with RLST 5040. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4060 - Questioning Religious Belief and Practice: Introduction to Philosophy of Religion (3 Credits)

Does God exist? Can the existence of God be proved? When is believing on faith acceptable? How or why is there a "problem of evil"? What are the attributes of a "god" and how can they be known, if at all? What is the relation of God to the world we experience? How does morality relate to religious belief and practice? The goal of the course is to broaden and deepen our understanding of key philosophical debates within religious traditions as we study prominent thinkers in the history of philosophy. Cross-listed with HUMN 5600, PHIL 4600, PHIL 5600, RLST 5060, and SSCI 5600. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

RLST 4070 - Western Religious Thought (3 Credits)

Focuses on philosophers and theologians who have contributed to the evolution of the three great religious traditions of the West: Judaism, Christianity and Islam. Targets thinkers from three periods: the ancient or formative era, the medieval era, and the contemporary era. Note: Specific philosophers chosen may vary in different semesters. Cross-listed with PHIL 4710. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4080 - Eastern Religious Thought (3 Credits)

Parallels the course in Western religious thought. The great religious traditions of the East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of key philosophical representatives of each tradition. Cross-listed with PHIL 4720. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4100 - Special Topics in Religion (3 Credits)

This special topics course allows for a variety of subjects to be explored in different semesters, including such issues as the nature of religious experience, communication with the divine, specific historical themes and events in religion. Term offered: spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Spring.

RLST 4152 - Religion & Communication (3 Credits)

This course focuses on the dynamics between religion, culture, and communication and how these have led to intercultural peace, centuries of war, and/or different visions of belonging. This class addresses these dynamics to improve intercultural dialogue and conflict resolution processes, foregrounding the search for justice. Cross-listed with INTS 4152, COMM 4152, COMM 5152, INTS 5152, and RLST 5152. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4160 - Mysticism (3 Credits)

Explores the mystical strains within the world's great religious traditions. Jewish, Christian, and Islamic mystics did not always express the same beliefs and attitudes as mainstream adherents. When mystics are placed side-by-side, amazing similarities appear. One cannot always tell whether a given mystical statement is Hindu, Jewish, Sufi, or Christian. This class examines these mystical traditions, East and West. Cross-listed with RLST 5160. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4300 - Myth and Symbol (3 Credits)

Approaches the field of classical Greek mythology and religion from the perspective of Jungian archetypal theory. The deities of the ancient Greeks are presented as archetypal patterns with universal correlates elsewhere in world religions. A foundation in C. G. Jung's archetypal theory will be offered to ground the course material. Cross-listed with RLST 5300. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4320 - Spirituality in the Modern World (3 Credits)

Examines the issue of spiritual currents in the modern world. Joseph Campbell claimed that Western culture long ago lost an active sense of the sacred and that the traditional religions have not been the spiritual center for the vast majority of moderns for centuries. This class looks at the modern spiritual awakening in Shamanism, Eastern thought, the New Age movement, the men's movement, paganism and Goddess religion, and the revival of traditional religious forms in recent decades. Max Hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4340 - The Hero's Journey (3 Credits)

The myth of the hero's journey serves as a metaphor for the vicissitudes life puts each of us through. The hero or her represents the ego-self who undertakes the journey—a grand adventure into the realm of the unknown—to seek the treasure. He or she is greatly transformed by the process, ultimately into the great self, who wins the boon to share with all humanity. Versions of the story are found all over the world, such as in the sagas of Gilgamesh, Odysseus, Psyche, King Arthur, Dorothy of Oz, and Luke Skywalker from a galaxy far, far, away. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4360 - Freudian and Jungian Perspectives in Dream Analysis (3 Credits)

Focuses on the phenomenon of dreams in a way that differs distinctly from the traditional approach to the subject in the field of psychology. "Spiritual" approaches to dreams are examined, as well as some major theorists on dreams, especially the work of Sigmund Freud and C. G. Jung. Cross-listed with RLST 5360. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 4400 - Differing Concepts of God (3 Credits)

God, Gods, and Goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the Gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with RLST 5400, PHIL 4650 and 5655. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 4420 - Goddess Traditions (3 Credits)

Explores the many forms which Goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld Goddesses of death and destruction. Cross-listed with RLST 5420 and WGST 4420/5420. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4440 - Concepts of the Soul (3 Credits)

Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with RLST 5440 and PHIL 4470, 5470. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4460 - Death and Concepts of Afterlife (3 Credits)

Examines how the major religious traditions approach the issue of death. Where the Egyptians were fascinated by death, their Mesopotamian and Hebrew neighbors saw no kind of experience continuing after death. Concepts of the Final Judgment Day and the end of the world follow in Zoroastrianism, Christianity, and Islam, while Indian religions developed a sophisticated theory of reincarnation and the "art of dying." Finally, we will turn to Chinese belief in ancestral spirits. Cross-listed with RLST 5460. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 4462 - Islam in Modern History (3 Credits)

This course studies Islamic thought and practice over the last two centuries in terms of major historical processes that have operated at local, national, and global scales. Cross-listed with RLST 5462, HIST 4462, HIST 5462. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4480 - Perspectives on Good and Evil (3 Credits)

Examines "problem of evil" as formulated in the philosophical tradition. Presents classical formulation of the problem, traditional solutions & classical critiques of each answer. Considers perspectives of various religious orientations, which deal differently with the question of suffering. Cross-listed with PHIL 4480/5480, RLST 5480. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 4500 - Religion and Politics (3 Credits)

Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of "church and state;" (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 4057, 5057 and RLST 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4710 - Women and Religion (3 Credits)

A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women's involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710/5710, WGST 4710/5710, RLST 5710. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4730 - Whores and Saints: Medieval Women (3 Credits)

Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. This course assumes that students have completed at least 9 hours of literature coursework. Cross-listed with ENGL 4510/5510, RLST 5730 and WGST 4510/5510. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4840 - Independent Study: RLST (1-3 Credits)

Various topics in religious studies pursued in independent research. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

RLST 4850 - Family Systems Therapy, Religion and Spirituality (3 Credits)

This course examines how the intersection between different religious and spiritual frameworks affects family systems. A strengths-based ecological perspective, family therapy theories and family systems theories will be used to understand religious and spiritual frameworks in working with families in schools and communities. Cross-listed with HDFR 4850. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

Religious Studies Minor

Introduction

Please click here (p. 839) to see Religious Studies department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor, or the Program Director, Steven Vose.
- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 18 credit hours of approved courses.
- Students must complete a minimum of nine upper-division (3000-level and above) credit hours of approved courses in the minor.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of nine credit hours of approved courses with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

- A maximum of 9 credits hours of independent study courses may be applied to the minor.
- Course lists in each category qualify as approved courses. Students may also seek approval from the Religious Studies program director to use a course not designated in the lists below, prior to completing the course.

Code	Title	Hours
Complete the following required course:		3
RLST 1610	Introduction to Religious Studies	
Complete one Western and one Eastern Religion course.		6
Western Religion (p. 844)		

Eastern Religion (p. 844)

Complete nine elective credits from the approved list. Other courses, such as certain special topics, or art history courses featuring religious themes may apply, with approval from the minor advisor.

Electives (p. 844)

Total Hours **18**

Western Religion

Code	Title	Hours
Complete three credit hours from the following Western Religion courses:		
RLST 2660	World Religions ¹	
RLST 2700/ ENGL 2520	The Bible as Literature	
RLST 3000	Judaism, Christianity and Islam: Affinity and Difference	
RLST 3120	Islamic Traditions	
RLST 3740	Biblical Traditions: Old Testament	
RLST 3760	Biblical Studies: New Testament	
RLST 3770	Archaeological Discoveries Relating to the Bible	
RLST 4400	Differing Concepts of God ¹	
RLST 4440/ PHIL 4470	Concepts of the Soul ¹	
RLST 4460	Death and Concepts of Afterlife ¹	
RLST/HIST 4462	Islam in Modern History	

¹ Fulfills requirement for either Eastern or Western religion, but not both simultaneously

Eastern Religion

Code	Title	Hours
Complete three credit hours from the following Eastern Religion courses:		
RLST 2660	World Religions ¹	
RLST/PHIL 3410	Asian Philosophies and Religions	
PHIL 3981/ RLST 3660	Chinese Philosophy and Culture	
RLST 4080/ PHIL 4720	Eastern Religious Thought	
RLST 4160	Mysticism	
RLST 4400	Differing Concepts of God (PHIL 4650) ¹	
RLST 4440/ PHIL 4470	Concepts of the Soul ¹	
RLST 4460	Death and Concepts of Afterlife ¹	

¹ Fulfills requirement for either Eastern or Western religion, but not both simultaneously

Elective Courses

Code	Title	Hours
Complete nine credits from the following elective courses:		
RLST 2660	World Religions	
RLST 2700/ ENGL 2520	The Bible as Literature	

RLST 3000	Judaism, Christianity and Islam: Affinity and Difference
PHIL 3981/ RLST 3660	Chinese Philosophy and Culture
RLST 3060	History of Early Christianity
RLST 3100/ PSCI 4165	Islamic Politics and Culture
RLST 3120	Islamic Traditions
RLST/PHIL 3410	Asian Philosophies and Religions
RLST/HIST 3486	Renaissance and Reformation
RLST 3720/ ENGL 3520	Religious Narratives
RLST 3740	Biblical Traditions: Old Testament
RLST 3760	Biblical Studies: New Testament
RLST 3770	Archaeological Discoveries Relating to the Bible
RLST 3800	Spirituality and Ecology in Global Societies
RLST 4000	Religion and Cultural Diversity
RLST 4020/ SOCY 4610	Sociology of Religion
RLST/ETST 4030	Race, Religion and Belonging in the United States
RLST 4040	Psychology of Religion
RLST 4060/ PHIL 4600	Questioning Religious Belief and Practice: Introduction to Philosophy of Religion
RLST 4080/ PHIL 4720	Eastern Religious Thought
RLST 4160	Mysticism
RLST 4300	Myth and Symbol
RLST 4340	The Hero's Journey
RLST 4360	Freudian and Jungian Perspectives in Dream Analysis
RLST 4400	Differing Concepts of God (PHIL 4650)
RLST/WGST 4420	Goddess Traditions
RLST 4440/ PHIL 4470	Concepts of the Soul
RLST 4460	Death and Concepts of Afterlife
RLST/HIST 4462	Islam in Modern History
RLST/PHIL 4480	Perspectives on Good and Evil
RLST 4500/ PSCI 4057	Religion and Politics
RLST/WGST 4710	Women and Religion
RLST 4730/ ENGL 4510/ WGST 4510	Whores and Saints: Medieval Women
RLST 4840	Independent Study: RLST
RLST 4880	Directed Research

Social Justice

Director: Jim Walsh
Office: Student Commons 3217
Phone: 303-709-5110
E-mail: james.walsh@ucdenver.edu

Overview

The Social Justice Program is home to the Social Justice Minor and organizes innovative community and campus events to address the pressing social and economic issues of the 21st century. The Social Justice Minor is designed for students who are passionate about being engaged citizens and effecting change locally and globally. To this end, students will be exposed to global perspectives on social movements, conflict resolution, environmental stewardship, critical theory, and grassroots organizing.

Student Learning Goals

Earning a Social Justice Minor will make students competitive for graduate school as well as for jobs in NGOs, public health, political office, community leadership, and in the ever-increasing number of modern corporations that seek employees who are committed to sustainable and ethical vocations. We create learning opportunities that emphasize an integrated understanding of the social, political, economic, and cultural dimensions of the major challenges facing humanity in the new millennium. By cultivating engaged and informed citizens, we seek to create future leaders who will have the skills and knowledge necessary to effect meaningful change.

Click here (p. 848) to learn about the requirements for the Minor in Social Justice.

Social Justice (SJUS)

SJUS 2000 - Foundations in Social Justice (3 Credits)
 Examines how well the United States, Colorado and Denver are doing in addressing issues of social justice, such as inequality and environmental degradation. Explores various modes of democratic participation – electoral politics, community activism, and lifestyle changes – in advancing social justice. Term offered: fall. Max hours: 3 Credits.
 GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1
 Grading Basis: Letter Grade
 Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.
 Typically Offered: Fall.

SJUS 2010 - Social Justice: Theories, Narratives, and Technologies (3 Credits)
 How can citizens of a democracy address social justice issues? This course examines theoretical perspectives relevant to social justice, the narratives which express and question social order, and the technologies which alternately shape and reflect local, regional, and global cultures. Max hours: 3 Credits.
 Grading Basis: Letter Grade

SJUS 3050 - Special Topics: Social Justice (1-3 Credits)
 Special Topics in Social Justice will be covered. Repeatable. Max hours: 9 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 9.

SJUS 3939 - Internship (1-12 Credits)
 Internship/experiential learning involving work in the community that is centered upon social justice and which includes a reflective component and some type of public dissemination. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Max hours: 12 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 12.
 Prereq: Junior standing or higher and at least a 2.75 cumulative GPA
 Typically Offered: Fall, Spring, Summer.

SJUS 4000 - Social Justice Capstone (3 Credits)
 Students design and carry out research projects that address important civic issues in collaboration with community partners and present their findings to the partners and academic community. This course also involves reflection on social justice means and goals. Note: Students may not receive credit for SJUS 4000 if they have already received credit for SJUS 4001 and may not receive credit for SJUS 4001 if they have already received credit for SJUS 4000. Prereq: Junior standing or higher. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Restricted to Graduate and Graduate Non-Degree Majors
 Additional Information: Upper Division; Credit.

SJUS 4001 - Social Justice Senior Project (3 Credits)

Students design and carry out research projects that address important civic issues in collaboration with community partners and present their findings to the partners and academic community. This course also involves reflection on social justice means and goals. This is an individually structured version of SJUS 4000 so students may not receive credit for SJUS 4001 if they have already received credit for SJUS 4000 and may not receive credit for SJUS 4000 if they have already received credit for SJUS 4001. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Max hours: 3 Credits. Grading Basis: Letter Grade

SJUS 4050 - Special Topics: Social Justice (3 Credits)

Special Topics in Social Justice will be covered. Cross-listed with SJUS 5050. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

SJUS 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism.

Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with HUMN 4770, SSCI 4770, WGST 4770, HUMN 5770, SJUS 5770, SSCI 5770, WGST 5770, IDST 4770, IDST 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SJUS 4840 - Independent Study (3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SJUS 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

Social Justice Minor

Introduction

Please click here (p. 846) to see Social Justice department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please click here (p. 377) to go to information about declaring a major/minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies.

Program Requirements

- Students must complete a minimum of 18 credit hours from the approved courses.
- Students must complete a minimum of nine upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of nine credit hours with CU Denver faculty chosen from the approved courses below.

Code	Title	Hours
<i>Complete the following foundations course:</i>		3

Sociology

Chair: Keith Guzik

Program Assistant: Anne Beard

Office: Lawrence Street Center, Suite 420

Telephone: 303-315-2148

Fax: 303-315-2149

Overview

Undergraduate Information

Sociology is the scientific study of groups, social processes, social institutions and behavior. Graduates with a Sociology BA are employed in a variety of professional areas, including health and social services, business, state and local government, criminal justice, and education. They also fill a variety of roles, including directors, managers, human resources, service specialists, policy analysts, consultants, nurses, teachers, social workers, and attorneys.

The major in sociology prepares students for either immediate entry to the workforce or continued graduate study through training in data analysis, research methods, and conceptual thinking. The introductory Career Success in the Social Sciences and capstone Worklife Practices & Policies courses offer essential resources in preparing for either path. Four certificate options allow students to specialize in critical fields of practice: Criminology; Families and Social Welfare; Community Health and Medicine; and Justice, Allyship, Diversity, and Equity (JADE). All students majoring in sociology, regardless of whether they pursue a certificate (or multiple certificates), develop a strong foundation in the basics of the discipline, including the use of qualitative and quantitative research methodologies and theory.

The department has developed the following rationale for courses offered:

1. Lower-division courses (for majors and non-majors)
 - a. 1000-level courses provide an introduction to the broad sociological perspective as it applies to social life, social systems and society.
 - b. 2000-level courses introduce students to somewhat more specific content areas: social psychology, deviant behavior and social inequalities, etc.
2. Upper-division courses (3000 and 4000)
 - a. 3000-level courses serve as advanced surveys of some specific area of concentration. They are designed to acquaint students with the issues, methods, concepts and theoretical frameworks employed in the content area. Such courses as medical sociology, criminology, sociology of family, and race and ethnicity are offered at this level. Many of these courses are open courses, in that students from other departments and colleges are encouraged to enroll in them.
 - b. 4000-level courses are devoted to a more detailed in-depth examination of specific issues, approaches and concepts within the previously identified content areas. These are advanced courses and are geared more directly to sociology and social science majors.

- c. Sophomore standing is required for enrollment in all 3000-level courses, and junior standing is required for enrollment in 4000-level courses.

The department requires that SOCY 1001 Understanding the Social World be completed prior to any of the major's core requirements (SOCY 2001 Inequalities in Social World, SOCY 3115 Quantitative Methods & Analysis, SOCY 3119 Qualitative Methods, SOCY 3140 Sociological Theory and SOCY 4830 Senior Capstone: Worklife Practices & Policies).

Click here (p. 861) to learn about the 4+1 BA to MA program.

Departmental Honors

Students wishing to graduate with departmental honors in sociology (*cum laude*, *magna cum laude*, or *summa cum laude*) must have a minimum cumulative GPA of 3.0 (while enrolled at the University of Colorado Denver) and a 3.2 or higher in all sociology courses. Additionally, departmental honors requires the student to complete 6 hours of SOC 4880, Directed Research or SOCY 4910, Research Practicum, under the supervision of a Sociology faculty member. This independent research is spread over at least 2 semesters and serves as the basis for the honors thesis. The thesis is presented in a departmental colloquium at least six weeks before the end of the semester in which the student intends to graduate. Interested students are encouraged to contact the Undergraduate Program Director, Dr. Maren Scull, prior to the beginning of their senior year if they intend to pursue departmental honors.

Graduate Information

Please go to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/sociology/>) catalog to read about our graduate programs.

Programs Offered

- Sociology, BA (p. 858)
- Sociology - Gender and Society Concentration, BA (p. 859)
- Sociology, 4 + 1 BA/ MA (p. 861)

Sociology (SOCY)

SOCY 1001 - Understanding the Social World (3 Credits)

This survey course provides an introduction to the sociological study of society, including patterns of social relationships, social interaction, and culture. Typical course topics include socialization, the family, criminology, deviance, inequalities, sex and gender, race and ethnicity, health and medicine, self and identities, and globalization. Students gain an understanding of how organizations, institutions, and structures of society shape individual and group experiences. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

SOCY 1011 - From Killer Apps to Killer Bots: Technology and Social Change (3 Credits)

A young college student updates her social media page to stay in touch with family and high school friends while making new friends on campus. An upstart automobile manufacturer builds a factory manned by robots to produce electronic vehicles designed to reduce the environmental impact of automobiles. The military deploys battalions of unmanned drones to engage with adversaries without risking the lives of their soldiers. Technology mediates nearly all aspects of social life, from reproduction and parenting to crime control and health care. This course is designed to provide students an introduction to the different social dimensions of technological innovation as well as the theoretical and methodological tools sociologists use to study them. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

SOCY 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: spring, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall, Spring.

SOCY 1212 - Career Success in the Social Sciences (3 Credits)

Introduction to careers and planning for career success in sociology and the social sciences for all beginning sociology majors or those considering the major. Discussions about career opportunities, the various sociology undergraduate and graduate degree paths, research being conducted within the sociology department, and strategies for being a successful and engaged sociology major. Prereq: SOCY 1001, Preferred: Current or anticipated SOCY major. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001

Typically Offered: Fall.

SOCY 2001 - Inequalities in Social World (3 Credits)

Introduces students to critical sociological perspectives on social inequality. Major sociological factors contributing to the production and reproduction of inequality in various social organizations and institutions are analyzed. Prereq: SOCY 1001 or permission of the instructor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001

Typically Offered: Fall, Spring.

SOCY 2440 - Deviance and Social Control (3 Credits)

This class explores different forms of deviance and ways in which deviant categories are created, and examines sociological theories of deviance, social order, and social power. The course also addresses how different groups gain control over social definitions and the consequences these definitions have in the form of norms, laws, and informal social sanctions. The impact of these definitions for individuals also is considered, namely for how people construct and manage their identities. Topics covered include drug smuggling, gang membership, computer hacking, shoplifting, homelessness, eating disorders, transability, BDSM, self-injury, and sex work. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SOCY 2462 - Introduction to Social Psychology (3 Credits)

Studies the development and functioning of persons, especially within a group context, and the dynamics of small groups. Emphasis on the import of symbols for human behavior, development of self-concepts, and processes of competition and cooperation in group dynamics. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

SOCY 3001 - Urban Sociology (3 Credits)

Explores U.S. cities as built environments, cultural spaces, and sources of community. Topics include the history of urbanization; social and spatial organization of cities; race and residential segregation; suburbanization; and urban problems such as crime, environmental hazards, and gentrification. Prereq: Sophomore standing or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

SOCY 3010 - Sociology of Human Sexuality (3 Credits)

Increases the understanding of differences in views of sexuality, specifically the link between sex and reproduction and its role as the motivation for gender roles and sex acts. Explores the history of sexuality, cross-cultural studies and primate modeling. Prereq: sophomore standing or higher or permission of instructor. Cross-listed with WGST 3010. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3020 - Race and Ethnicity in the U.S. (3 Credits)

A sociological examination of race and ethnicity in contemporary U.S. society. Includes a focus on the nature and causes of prejudice and discrimination. Dominant-minority relations are examined, with an emphasis on current status of minority groups and issues. Prereq: sophomore standing or higher or permission of instructor. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

SOCY 3040 - Drugs, Alcohol & Society (3 Credits)

Explores our culture's relationship with drugs and alcohol from a sociological perspective, investigating all spheres of substance use: recreational, medicinal, instrumental, & religious. Examines our long turbulent history with these chemicals, and ways in which they have shaped our society. Prereq: sophomore standing or higher or permission of instructor. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3050 - Sociology of Education (3 Credits)

Drawing from theories in the sociology of education, this course evaluates the relationship between race, ethnicity, gender, class, immigration status and educational experiences, aspirations, and outcomes. Topics include socialization, tracking, educational policy, college access, and educational equity. Prereq: sophomore standing or higher or permission of instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3080 - Sex and Gender (3 Credits)

Causes and consequences of sex role differentiation at the individual, group and societal levels. Current issues related to changing norms and values concerning gender in modern society are examined. Prereq: sophomore standing or higher or permission of instructor. Cross-listed with WGST 3080. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

SOCY 3115 - Quantitative Methods & Analysis (4 Credits)

This course provides students with a basic understanding of survey methods and statistical analysis. In addition to learning the basics of inferential statistics and sampling methods, students will conduct their own survey research, analyze data, and produce reports. Prereq: SOCY 1001 with a C- or higher. Term offered: fall, spring, summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

SOCY 3119 - Qualitative Methods (4 Credits)

This course focuses on the development of skills involved in designing qualitative research studies, collecting and analyzing qualitative data and evaluating qualitative research. Primary focus is on ethnography, in-depth interviewing, and content analysis. Students read, analyze, and conduct qualitative research. Prereq: SOCY 1001 with a C- or higher. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001 with a C- or higher.

Typically Offered: Fall, Spring.

SOCY 3140 - Sociological Theory (3 Credits)

An overview of major sociological theories and concepts. The emergence of the discipline and the contemporary development of sociological theories are examined. Prereq: SOCY 1001. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001

Typically Offered: Fall, Spring.

SOCY 3330 - Social Problems (3 Credits)

Explores how societies define and attempt to solve "social problems." Possible topics: income disparities, race/ethnic relations, gender inequality, and sexuality, in addition to the relationship between these issues and social institutions such as education, religion, health care, and criminal justice. Prereq: sophomore standing or higher or permission of instructor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Fall, Spring.

SOCY 3440 - Medical Sociology (3 Credits)

This course covers key issues in population health and emphasizes how sociological perspectives both challenge and augment biomedical perspectives on health and health care. We also discuss the social causes and consequences of race/ethnic, sex, and socioeconomic disparities in health. Prereq: sophomore standing or higher or permission of instructor. Cross-listed with PBHL 3440. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

SOCY 3490 - Criminology (3 Credits)

Theories, nature and causes of crime as a social phenomenon. Processes of making laws, breaking laws, and reaction toward the breaking of laws.

Prereq: sophomore standing or higher or permission of instructor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

SOCY 3500 - Topics in Sociology (1-3 Credits)

Special topics in sociology to be selected by the instructor. Note: Can be taken more than once when topics vary. Prereq: sophomore standing or higher or permission of instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3510 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3520 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3530 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3540 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3550 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3570 - Death & Dying: Social & Medical Perspectives (3 Credits)

Focusing on death, dying and bereavement using medical and social perspectives, this course explores how illness, prolonged dying and sudden death impact care providers, families and communities.

Discussion, film, readings and music address the connection of social and medical issues. Cross-listed with HEHM 3570. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SOCY 3650 - Sociology of Music (3 Credits)

Focuses on the meaning/use of music in society. Explores censorship, organization of the recording industry, sociocultural contexts in which music is produced/distributed/listened to and the relationship between music and technology along with musical applications and associations.

Prereq: sophomore standing or higher or permission of instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3697 - Contemporary Asian American Experience (3 Credits)

Examines the contemporary Asian American experience, including the adaptation of new immigrants or refugees, economic and educational problems, ethnic identity, intermarriage, anti-Asian discrimination and other civil rights issues, and recent political activism. Prereq:

sophomore standing or higher or permission of instructor. Cross-listed with ETST 3697. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3700 - Families and Society (3 Credits)

This course explores multiple dimensions of family as a social institution.

Using a critical approach, we examine historical, cultural, and political views about families. We consider multiple forms of contemporary families, discuss the many issues facing families, and study how families

and family life have become politicized. Cross-listed with WGST 3700.

Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

SOCY 3720 - Global Perspectives on Social Issues (3 Credits)

Various cultural and social frameworks are used in a sociological examination and international comparison of select social issues, such as globalization, terrorism, inequality and discrimination. Analysis of

selected issues across cultures explores how societal and cultural characteristics shape these issues. Prereq: sophomore standing or higher or permission of instructor. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

SOCY 3750 - Animals and Society (3 Credits)

An examination into the category of "animal" as a social construct and the relationship between humans and non-human animals, which produces consequences of difference and subsequent inequality. The course utilizes different sociological perspectives to examine the social

patterns, processes, and institutions that establish our lived experiences with non-human animals. Prereq: Sophomore standing or higher or by

instructor permission. Max hours: 3 Credits

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

SOCY 3840 - Independent Study: SOCY (1-3 Credits)

Prereq: sophomore standing or permission of the instructor. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Sophomore standing or higher.

SOCY 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: sophomore standing or higher or permission of instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3995 - Global Study Topics (3-6 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Department consent required. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Additional Information: Global Education Study Abroad.

SOCY 4020 - Race, Culture and Immigration (3 Credits)

In this course, we will consider the social and legal construction of race and immigration. We will also explore how immigrants have been racialized both historically and in the current moment. In addition, we will consider the role of culture in shaping the immigrant experience and immigrant outcomes. Restriction: Junior standing or higher or instructor permission. Cross-listed with SOCY 5020, ETST 4020 and ETST 5020.

Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4050 - Health Disparities (3 Credits)

This course focuses on social, economic, and political factors that shape the uneven distribution of health and illness in the United States. Social determinants of health are explored, including socioeconomic status, race and ethnicity, neighborhood environments, social relationships, and gender. Cross-listed with SOCY 5050. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SOCY 4110 - Sociology of Health Care (3 Credits)

Examines U.S. health care institutions and issues such as rising costs, the effects of class, racial and gender inequality, professionalization and monopolization of roles, construction of illness and health, managed care, for-profit health care, and ethics of health care decisions. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5110. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

SOCY 4220 - Population Change and Analysis (3 Credits)

Concepts of population change, methods of analysis, and applications to contemporary social issues. Topics include age and sex distributions, fertility, mortality, and migration, and the social causes and consequences of these phenomena. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5220. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4270 - Social Meanings of Reproduction (3 Credits)

Reproduction involves more than biological processes, assuming symbolic, political, and ideological meanings. This course examines contested meanings of reproduction, including how people experience reproduction, controversies over who should reproduce (and under what circumstances), and how public policy mediates these conflicts. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5270, WGST 4270 and WGST 5270. Term offered: fall. Max hours 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

SOCY 4290 - Aging, Society and Social Policy (3 Credits)

A sociological examination of central issues (e.g., work, retirement, family support, health) pertaining to the aging population. Heterogeneity in aging, as shaped by gender, race, ethnicity and social class is addressed, as well as policies pertaining to the adult population. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5290. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4340 - Juvenile Delinquency (3 Credits)

Factors involved in delinquent behavior. Problems of adjustment for delinquents, and factors in treatment and post-treatment adjustment. Major theories covered include strain theory, social learning theory, control theory, and labeling theory. Course also reviews methods for testing these theories. Prereq: junior standing or higher or permission of the instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4440 - Poverty and Social Inequality (3 Credits)

Investigates the distribution of wealth, income, and economic power in the United States with a focus on social institutions and factors that shape inequality. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5440. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4460 - Hate Groups and Group Violence (3 Credits)

Social sciences help us understand the phenomena of hate groups and group violence and contribute toward their elimination. Examples are examined using theoretical perspectives on different levels of analysis and within different areas of research. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5460. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

SOCY 4590 - Crime, Justice, and the City (3 Credits)

In this course, we will ask why inequality, crime, and police are unevenly spread across cities. We will examine why crime varies by neighborhood, whether place-based policing is racially biased, and why prisons are filled with people from just a few zip codes. We will study racial and economic segregation, gentrification, white flight, and suburbanization in the context of criminal justice. Spatial analysis is a growing field combining geography, sociology, and criminology. We will study it by reading cutting-edge researchers who use mapping, interviews, statistical analysis, and ethnography. Restriction: Restricted to students with Junior standing or higher or with instructor permission. Cross-listed with SOCY 5590. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

SOCY 4610 - Sociology of Religion (3 Credits)

This course introduces students to the nature and functions of religion in society, emphasizing western religions in the U.S. Students will develop and apply an understanding of classic and modern sociological theories of religion to current events and disciplinary developments. Cross-listed with SOCY 5610, RLST 4020, RLST 5020. Prereq: junior standing or higher or permission of instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4640 - Sociology of Childhood and Adolescence (3 Credits)

An in-depth overview of the theories and research regarding the life course understanding of infancy, childhood and adolescence. Children's lives and cultures in relation to adults and their transition from childhood to adolescence are studied. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5640. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

SOCY 4650 - Sociology of Adulthood and Aging (3 Credits)

Examination of the adult life course—post-adolescence to death, focusing on key social transitions of adulthood (e.g., independence from parents, marriage, retirement), and historical, institutional, and social factors that create variation in their timing, meaning, and individuals' role experiences. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5650. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4690 - Crime and Inequality Over the Life Course (3 Credits)

Life-course perspective on inequality and crime. Studies transitions, trajectories and turning points as key features of the life course. Considers how inequalities and criminal behavior are shaped by timing of experiences, historical and geographic contexts, others' lives, and human agency. Restriction: Restricted to Graduate and Graduate Non-Degree majors. Cross-listed with SOCY 5690. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

Typically Offered: Fall.

SOCY 4700 - Sociology of Law (3 Credits)

Consideration of the formulation, interpretation, and legitimacy of legal rules within the context of social organization. The examination of a major social institution in modern society. Prereq: junior standing or higher or permission of instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4740 - Courts & Society (3 Credits)

Courts are a centerpiece of modern legal systems that mediate social relationships and people's relationship to the state. This course explores the connection between courts and democratic society by considering the operation and evolution of courts in the U.S. Cross-listed with SOCY 5740. Restriction: Restricted to Junior standing or above. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4770 - Advanced Topics in Sociology (1-3 Credits)

Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5770. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

SOCY 4774 - Advanced Topics in Sociology (3 Credits)

Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: Junior standing or permission of the instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

SOCY 4780 - Violence in Relationships (3 Credits)

Course focuses on the study of violence among individuals involved in intimate relationships; factors in society such as norms, laws and institutions that are related to creating violence among intimates; and social policies, prevention, intervention and treatment programs. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5780, WGST 4780 and WGST 5780. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

SOCY 4830 - Senior Capstone: Worklife Practices & Policies (3 Credits)

Introduces students to tools and develops skills to facilitate internship and job search. Students gain understanding of work contexts, exploring employment laws and policies, dynamics of race and gender in job searching, and research on careers and job negotiation. Prereq: Must have earned a minimum of 75 credits. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SOCY 4840 - Independent Study: SOCY (1-3 Credits)

Prereq: junior standing or higher or permission of instructor. Repeatable.

Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: junior standing or higher

SOCY 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Prereq: junior standing or higher. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: junior standing or higher

SOCY 4910 - Research Practicum (1-6 Credits)

Practical experiences for undergraduates in application of principles of research design and data processing to a social research problem selected by the instructor. Prereq: junior standing or higher or permission of instructor. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: junior standing or higher

SOCY 4995 - Global Study Topics (3-6 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Department consent required. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Sociology, BA

Introduction

Please click here (p. 851) to see Sociology department information.

Sociology is the study of social relations, interactions, and institutions. Using quantitative and qualitative scientific methods, it offers a unique way of seeing and understanding the social world and how it shapes individual lives and history. Sociology's subject matter is broad and diverse. Some of the topics covered are criminology, religion, families, inequalities between social groups, childhood, youth, adulthood and old age, social stability and social change, urban issues, environment, technology, education, and health.

All prospective majors should contact the undergraduate advisor in Sociology as early in their academic careers as possible for information about the degree requirements. Transfer or returning students should consult with the undergraduate advisor in Sociology concerning completion of the core courses.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.
- This program is also offered online.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 32 SOCY credit hours.
2. Students must complete a minimum of 16 upper-division (3000-level and above) SOCY credit hours, including a minimum of three credit hours at the 4000 level.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 13 SOCY credit hours with CU Denver faculty.

Program Allowances and Restrictions

1. Students must take a minimum of three credit hours in elective courses at the 4000 level.

Code	Title	Hours
<i>Complete all the following required courses:</i>		<i>20</i>
SOCY 1001	Understanding the Social World	
SOCY 2001	Inequalities in Social World	
SOCY 3115	Quantitative Methods & Analysis	
SOCY 3119	Qualitative Methods	
SOCY 3140	Sociological Theory	
SOCY 4830	Senior Capstone: Worklife Practices & Policies	
<i>Complete a minimum of 12 SOCY elective credit hours. At least three credit hours must be completed at 4000-level or higher.</i>		<i>12</i>
Total Hours		32

Sociology - Gender and Society Concentration, BA

Introduction

Please click here (p. 851) to see Sociology department information.

A concentration in Gender and Society provides students with an understanding of the role of gender in the experiences of females, males, and gender non-conforming individuals. The interdisciplinary nature of the concentration enables students to develop the skills to critically evaluate the ways in which inequality, oppression, and social structure contribute to various social problems such as restrictions on reproductive health, the pay gap, sexual assault, domestic violence, and human trafficking. The Gender and Society concentration equips students for jobs in a variety of areas such as advocacy, counseling, public health, policy-making and government, business, and criminal justice.

All prospective majors should contact the undergraduate advisor in Sociology as early in their academic careers as possible for information about the degree requirements. Transfer or returning students should consult with the undergraduate advisor in Sociology concerning completion of the core courses.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 38 credit hours, including a minimum of 20 SOCY credit hours and 18 ancillary credits.
2. Students must complete a minimum of 16 upper-division (3000-level and above) credit hours from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to major requirements.
4. Students must complete a minimum of 13 SOCY credit hours with CU Denver faculty.

Program Allowances and Restrictions

1. Students must take four electives for the major. Three of these electives must be cross-listed as SOCY and WGST. The fourth elective must be a WGST course that is not cross-listed with a Sociology course or a WGST internship.
2. Students who pursue this concentration simultaneously earn a minor in Women's and Gender Studies (p. 881).
3. Transfer courses must be evaluated for acceptability to CU Denver prior to being applied to any of the following major requirements.

Code	Title	Hours
<i>Complete all of the following required courses:</i>		
SOCY 1001	Understanding the Social World	26
SOCY 2001	Inequalities in Social World	
SOCY 3115	Quantitative Methods & Analysis	
SOCY 3119	Qualitative Methods	

SOCY 3140	Sociological Theory	
SOCY 4830	Senior Capstone: Worklife Practices & Policies	
WGST 1050	Introduction to Women's and Gender Studies	
WGST 4306	Survey of Feminist Thought	
or WGST 4308	Contemporary Feminist Thought	
<i>Complete three courses (nine credit hours) in WGST/ SOCY cross-listed elective courses:</i>		9
SOCY/WGST 3010	Sociology of Human Sexuality	
SOCY/WGST 3080	Sex and Gender	
SOCY/WGST 3700	Families and Society	
SOCY/WGST 4270	Social Meanings of Reproduction	
SOCY/WGST 4780	Violence in Relationships	
<i>Complete one additional WGST Elective from the following list:</i>		3
WGST 3020	Gender, Sexuality and Race in American Popular Culture	
WGST/HIST 3343	Women & Gender in US History	
WGST/ENGL 3450	Contemporary Women Writers	
WGST 4010	Special Topics in Women's and Gender Studies	
WGST/PSCI 4150	Gender Politics in the Middle East: Beyond Orientalism & Islamism	
WGST/PSCI 4215	Women's Rights, Human Rights: Global Perspectives	
WGST/HIST 4225/GEOG 4625	Urban America	
WGST/HIST 4230	Women in the West	
WGST/PSCI 4248	Gender, Development and Globalization	
WGST/HIST 4303	Sex and Gender in Modern Britain	
WGST/ETST 4305	Women of Color Feminisms	
WGST/ENGL/HIST 4306	Survey of Feminist Thought	
WGST/HIST 4307	History of Sexuality	
WGST/ENGL/PHIL 4308	Contemporary Feminist Thought	
WGST/HIST 4345	Gender, Science, and Medicine: 1600 to the Present	
WGST/RLST 4420	Goddess Traditions	
WGST/PHIL 4500	Feminist Philosophy	
WGST/ENGL 4510/RLST 4730	Whores and Saints: Medieval Women	
WGST 4511/FREN 4510	French Women Writers	
WGST 4540/SPAN 4340	Race, Class, and Gender in Spanish Golden Age Literature	
WGST/PSCI 4564	Gender and Politics	
WGST/COMM 4610	Communication, Media, and Sex	
WGST/COMM 4660	Queer Media Studies	
WGST/RLST 4710	Women and Religion	
WGST/PHIL 4933	Philosophy of Eros	

Total Hours**38**

¹ These courses are examples. Students should check course descriptions and the schedule to find courses that meet this requirement.

Sociology, 4 + 1 BA/ MA

Introduction

Please click here (p. 851) to see Sociology department information.

The Combined BA/MA (4+1) program in Sociology provides a coherent, progressive educational experience that prepares students for either immediate entry to a master's level career or continued study in a PhD program. The BA/MA application process is competitive, as the program is designed for highly-qualified students who are capable of an expedited program. Students choose from four options for their Culminating Project that completes the master's degree: either a 6-credit thesis; a 3-credit applied experience plus a 3-credit paper; an approved fifth graduate-level elective (totaling 15 credits of electives) plus a 3-credit report; or an extended coursework path that includes 18 credits of electives (up to 9 credits outside of Sociology), plus a final portfolio of the candidate's most representative work. The program also offers four concentration areas (Crime, Law & Deviance; Health & Society; Family & Social Services; and Community & Urban Sociology) for students seeking specialization in high-demand career areas.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major and graduate advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

While students are completing a BA degree in sociology, they may also complete some of the requirements for an MA degree in sociology by participating in the BA/MA program using the following guidelines:

- The student must apply and be accepted for participation in the BA/MA program prior to completion of the BA degree in consultation with both the undergraduate and graduate advisors. Students must complete a 4+1 intent form to formally declare this program, as they work very closely with undergraduate and graduate advisors to ensure they are on track and completing requirements as necessary.

- Students should officially declare their intent to complete this program by their junior year and apply to the graduate program during the semester they intend to graduate with their BA.
- Up to 12 semester hours of graduate-level course work may be taken as an undergraduate and applied toward the MA degree. With prior approval, these courses may also be applied toward the Sociology BA (p. 858).
- Students must apply to and complete the MA in Sociology (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/sociology/sociology-ma/>) requirements.
- Students must complete a minimum of 53 SOCY credit hours.
- Students must complete a minimum of 16 upper-division (4000-level and above) with no more than 12 graduate (5000-level and above) SOCY credit hours.
- Students must earn a minimum grade of C- (1.7) in all undergraduate courses that apply to the major and must achieve a minimum cumulative major GPA of 2.0. Students must earn a minimum grade of B (3.0) in all graduate courses that apply to the degree requirements. Courses taken using P+/P/F or S/U grading cannot apply to undergraduate or graduate program requirements.
- Students must complete a minimum of 13 SOCY credit hours and all graduate level coursework with CU Denver faculty.

Code	Title	Hours
Complete the following program requirements:		
<i>Complete all of the following required courses:</i>		20
SOCY 1001	Understanding the Social World	
SOCY 2001	Inequalities in Social World	
SOCY 3115	Quantitative Methods & Analysis	
SOCY 3119	Qualitative Methods	
SOCY 3140	Sociological Theory	
SOCY 5000	Professional Seminar: Sociological Inquiry	
<i>Complete a minimum of 12 and a maximum of 36 SOCY elective credit hours. At least three credit hours must be completed at the 4000-level or higher. A maximum of nine credit hours may be taken at the graduate level from the following list of courses</i>		12
SOCY 5016	Social Theory	
SOCY 5024	Seminar: Research Methods I	
SOCY 5183	Seminar: Quantitative Data Analysis	
SOCY 5193	Seminar: Qualitative Data Analysis	
Total Hours		32

Sociology Minor

Introduction

Please click here (p. 851) to see Sociology department information.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

Program Delivery

- This program is offered on-campus and online.

Declaring This Minor

- Please consult with College of Liberal Arts and Sciences (CLAS) Advising.
- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 15 SOCY credit hours.
2. Students must complete a minimum of six upper-division (3000-level and above) SOCY credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine SOCY credit hours with CU Denver faculty.

Program Allowances and Restrictions

1. Students may count up to nine semester credits of independent study or internship coursework toward the Sociology minor.

Code	Title	Hours
<i>Complete the following required course:</i>		3
SOCY 1001	Understanding the Social World	
<i>Complete one of the following courses:</i>		3
SOCY 2001	Inequalities in Social World	
SOCY 3115	Quantitative Methods & Analysis	
SOCY 3119	Qualitative Methods	
SOCY 3140	Sociological Theory	
<i>Complete nine additional credit hours of Sociology electives:</i>		9
Total Hours		15

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/sociology/programs/minor/>).

Community Health and Medicine Undergraduate Certificate

Introduction

Please click here (p. 851) to see Sociology department information.

Enhancing the health and quality of life for individuals and communities are central goals to societies the world over. Medical sociology is a subfield devoted to the study of population health, health care systems and policy, and the social dimensions of illness and healing. Medical sociologists study the causes of health inequalities, social constructions of health and illness, origins of medical authority, doctor-patient relationships, community influences on health, and the social forces that affect policy. The Sociology Department's Community Health and Medicine Certificate provides training in the core research methodologies and theories of medical sociology, examining individual experience, institutional structures, laws and policies that affect health, and broader systems of inequality that lead to unequal rates of illness and access to care. This certificate provides depth of training in these areas and is ideal for students interested in graduate-level study and social research on health and medicine as well as those interested in careers in public health, health care services, and non-profit organizations.

Upon successful completion of the certificate, students will:

- Articulate the central explanations for historical shifts in disease, including neighborhood effects and behaviors that may increase the risk of disease and mortality
- Identify social factors that contribute to population health inequalities, including race, ethnicity, gender, class, immigration status, sexuality, or disability
- Understand the social influences that shape medical authority, knowledge, and patient experiences with illness and treatment
- Be able to use different methodologies to understand the social aspects of health and medicine
- Know how to conduct original research, analyze policy, and evaluate community needs for organizations devoted to improving population health

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- Eligibility: While housed in Sociology, the study of health and medical issues is in fact a multidisciplinary field that draws from diverse liberal arts fields, including Anthropology, Communications, Psychology, and History, among others. Thus, CU Denver undergraduate students in any discipline can enroll in the certificate program. This certificate is also available to non-degree-seeking students who already have earned a BA or BS degree, either at CU Denver or elsewhere.
- Application procedures: Student are encouraged to contact the Director of the Community Health and Medicine Certificate at any point in their undergraduate studies to inform them of their plan to pursue this certificate. Providing their student identification number

and an unofficial transcript will assist the Director in advising them. The certificate is awarded to the student upon successful completion of required coursework and an assessment exam.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Community Health and Medicine advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies.

Certificate Requirements

1. Students must complete a minimum of 15 credit hours from the approved courses below.
2. Students must complete a minimum of six upper-division (3000-level and above) SOCY credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all credits applied to the certificate at CU Denver. (If students have completed a course required for the certificate elsewhere, they may add the needed credits in the form of additional elective credits drawn from the approved elective courses.)

Certificate Restrictions, Allowances and Recommendations

1. The certificate will be awarded at the end of the semester in which the student completes all required courses for the certificate.

- Examples of SOCY 3115, substitutions may include ECON 3801 Introduction to Mathematical

Criminology Undergraduate Certificate

Introduction

Please click here (p. 851) to see Sociology department information.

Ameliorating crime and its harms in a just manner is a core challenge for society. Criminology is the field of study dedicated to understanding crime as a social phenomenon. Criminologists study the social construction of laws, the nature and causes of crime, responses to lawbreaking, and the prevention, control and treatment of crime. The Department of Sociology's Criminology Certificate offers an essential foundation for students pursuing careers in criminal justice, victim and community services, criminal law, and non-profit organizations in local and international settings. The certificate also prepares students for law school and graduate programs in sociology and criminology. Students also use this training to conduct research and inform policy on crime and law.

Upon successful completion of the certificate, students will:

- Understand the theoretical explanations for the social and behavioral causes of crime and crime reduction
- Possess a fundamental understanding of the criminal-legal and political institutions responsible for crime control and policy
- Be familiar with current trends in criminological thought, research, and activism
- Be able to apply the technical skills of their methodological training to conduct crime analyses and outcomes assessments for programs aimed at crime prevention
- Engage in original research projects involving criminological topics

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- **Eligibility:** While housed in Sociology, criminology is in fact a multidisciplinary field that draws from diverse liberal arts fields, including Psychology, Political Science, Communications, History, Philosophy, among others. Thus, CU Denver undergraduate students in any discipline can enroll in the certificate program. The certificate is also available to non-degree-seeking students who already have earned a BA or BS degree, either at CU Denver or elsewhere.
- **Application procedures:** Students are encouraged to contact the Director of the Criminology Certificate informing them of their wish to pursue the certificate at any point in their undergraduate studies. Families and Social Welfare Undergraduate Certificate

Introduction

Please click [here](#) (p. 851) to see Sociology department information.

Families are a fundamental part of society. Sociology approaches families by focusing on relational processes like support, socialization, conflict, and intimacy that constitute interactions among family members. It also views the family as a major social institution that interacts closely with others, including education, law, healthcare, religion, the economy, criminal justice, and welfare. The family in its varied forms is key to understanding how inequality is experienced and reproduced in society, as substantial responsibility for caring, nurturing, and raising others is delegated to families. The interplay of these multiple levels—the interpersonal, the institutional, and the structural—also interests sociologists. This certificate provides students a foundation for understanding the complex role of families and family members at multiple levels, as well as the social systems and organizations responsible for supporting families and individuals. The content and methods courses will prepare students for direct service positions working with individuals and families (e.g., human and social services), or research, policy or advocacy positions addressing family issues (e.g., housing, violence and abuse, parenting, social welfare). Students earning the certificate also will be well-positioned to pursue advanced degrees in social work, public health, counseling, law, sociology, or related disciplines.

Upon successful completion of the certificate, students will:

- Recognize the diversity of family structures within and across cultures
- Understand the theoretical perspectives explaining family behavior and relationships, and those addressing differences in the institution of the family across cultures and over time
- Be familiar with current trends in family structure, and recent research on family functioning and well-being, and how family research informs advocacy and policy work, and social welfare programs
- Be able to apply the technical skills of their methodological training to conduct analyses about families and family life, and outcomes assessments for social welfare programs aimed at helping families
- Engage in original research projects involving family-related issues

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- **Eligibility:** While housed in Sociology, the study of families and social welfare is in fact a multidisciplinary field that draws from diverse liberal arts fields, including Psychology, Political Science, Communications, and History, among others. Thus, CU Denver undergraduate students in any discipline can enroll in the certificate program. The certificate is also available to non-degree-seeking students who already have earned a BA or BS degree, either at CU Denver or elsewhere.

- **Application procedures:** Students are encouraged to contact the Director of the Families and Social Welfare Certificate informing them of their wish to pursue the certificate at any point in their undergraduate studies. should be directed to the criminology certificate advisor. Alternative courses may reduce the required course credit hours from 11 to 9.

- SOCY 3115 Quantitative Methods & Analysis substitutions may include ECON 3801 Introduction to Mathematical Economics, ECON 3811 Statistics with Computer Applications, GEOG 2080 Introduction to Mapping and Map Analysis, GEOG 4080 Introduction to GIS, MATH 2830 Introductory Statistics, PHIL 2441 Logic, Language and Scientific Reasoning, PHIL 3440 Introduction to Symbolic Logic, PSCI 3011 Research Methods, PSYC 2090 Statistics and Research Methods, PSYC 3090 Research Methods in Psychology.
- SOCY 3119 Qualitative Methods substitutions may include COMM 4221 Research Methods: Qualitative, PBHL 4031 Ethnographic Research In Public Health

² Prerequisites may apply.

To learn more about the Student Learning Outcomes for this program, please visit our website (<https://clas.ucdenver.edu/sociology/degrees-certificates/certificates/>).

¹ Students may substitute two approved methods courses in their major discipline, one on quantitative methods and one on qualitative methods. Questions about eligible methods course substitutions

Justice, Allyship, Diversity and Equity Undergraduate Certificate

Introduction

Please click here (p. 851) to see Sociology department information.

Diversity and equity represent core values of a just society. The goals of the Justice, Allyship, Diversity, and Equity (JADE) undergraduate certificate are three-fold: 1) to facilitate students' understanding of and critical thinking about social inequalities and how various people have been systematically marginalized due to race, ethnicity, gender, sexual orientation, disability status, socioeconomic status, immigration status, religion, and age among other characteristics; 2) to train students to use data to analyze and understand social inequalities; and 3) to equip students with practical strategies and analytical skills for promoting and implementing policies and actions that foster social justice and human equity in educational, community, business, legal and other organizational settings. JADE certificate holders will be trained for a diverse world and workplace, and equipped with substantive knowledge and analytic skills to dismantle oppressive systems. The certificate will prepare students to act as inclusive leaders in diverse organizations within the business, human resources, legal, nonprofit, educational, and public administration sectors.

Program Delivery

- This is an on-campus or online program.

Declaring This Certificate

- These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Justice, Allyship, Diversity, and Equity (JADE) advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

- Students must complete a minimum of 12 credit hours from the approved courses below.
- Students must complete a minimum of six upper-division (3000-level and above) credit hours from approved courses.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
- Students must complete all credits applied to the certificate at CU Denver. (If students have completed a course required for the certificate elsewhere, they may add the needed credits in the form of additional elective credits drawn from the approved elective courses.)

Certificate Restrictions, Allowances and Recommendations

- The certificate will be awarded at the end of the semester in which the student completes all required courses for the certificate.

Total Hours **12**

The Learning Outcomes for the certificate:

1. Understand how justice, allyship, diversity, and equity intersect
2. Recognize the diversity of experiences and perspectives across social groups and cultures
3. Identify factors that contribute to historic and contemporary social inequalities across multiple dimensions including race, ethnicity, gender, sexual orientation, disability status, socioeconomic status, immigration status, religion, and age
4. Apply foundational theoretical perspectives on the reproduction of inequality in institutional structures, laws, and policies
5. Critically analyze the metrics used for monitoring and evaluating, and promoting diversity, equity, and inclusion in organizational contexts
6. Develop skills to advocate for, implement and assess policies and actions aimed at fostering justice and inclusion in a variety of social and organizational contexts

Sustainability

Director: David Knochel

Office: Science 2071 C

Email: david.knochel@ucdenver.edu

Overview

Questions of sustainability are currently among the most important facing humankind and are receiving tremendous attention in the media. Because issues of sustainability do not arise from single causes, nor can solutions be developed from within narrow disciplinary frameworks, a multidisciplinary perspective is not only desirable but necessary to identify and understand problems, and create, evaluate and implement solutions.

Specializations in this critical area of study include: health and the environment, sustainable ecology, environmental ethics, environmental policymaking and policy analysis, institutional behavior, community-based and participatory approaches to sustainable development and conservation, environmental justice, sustainable food production and critical consumerism. The sustainability minor offers a holistic approach to development and daily living, which demands scientific, economic, environmental and social perspectives to understand and implement actions that can inform the public, business, industry, government and service organizations on how their activities affect the environment.

Bryan S. Wee, Geography

Sustainability (SUST)

SUST 3010 - Sustainability: Past, Present, and Future (3 Credits)

This course draws on theoretical perspectives to critically analyze contemporary environmental issues across ecological, sociocultural, historical, political and economic contexts. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SUST 3011 - Toward a Sustainable Future (3 Credits)

This is the second of a two-course sequence that examines the interrelations among the historical, political, cultural, ecological, and economic aspects of contemporary environmental issues. SUST II provides students with theoretical perspectives on sustainability through a series of current, problem-oriented case studies. Note: this course assumes that students have completed 1 Natural Science Core course and 1 Social Science Core course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SUST 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: permission of instructor required.

Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

SUST 3939 - Internship (1-3 Credits)

This course will provide internships with agencies, businesses and programs involved in initiatives aimed at promoting a sustainable future. Internships could include work with concerns involved in addressing specific environmental issues or with projects aimed at raising awareness of issues related to sustainability. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

SUST 4840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: permission of instructor required.

Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

SUST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

SUST 4960 - Capstone in Sustainability (3 Credits)

As the culmination of the Sustainability Minor, this course examines current research practices in sustainability and sustainability-related fields. Students work in teams to complete a sustainability/sustainability-related research paper and poster and present it to the campus community. Note: Topics variable depending on region under study, student interest, and faculty specialty. Prereq: SUST 3011. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: SUST 3011

Typically Offered: Fall.

SUST 4995 - Global Study Topics (1-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Sustainability Minor

Introduction

Please click here (p. 871) to see Sustainability department information.

The sustainability minor is interdisciplinary, drawing on the expertise across CLAS departments: anthropology, biology, chemistry, communication, economics, environmental sciences, geography, geology, history, economics, philosophy, physics and political science. The core courses are taught by a faculty team who will present sustainability concepts from socio-ecological and systems perspectives.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Please see your advisor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 18 credit hours chosen from the approved courses.
2. Students must complete a minimum of 12 upper-division (3000-level and above) credit hours in the minor, from the approved courses.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
4. Students must complete a minimum of nine credit hours with CU Denver faculty chosen from the approved courses below. (*Note: In the required 9 credits of course, "SUST 4960" is not an in-person course. Instead, the course requirements can be completed through an internship, research project, or substituted with a 4000+ level course with a sustainability emphasis.)

Program Restrictions, Allowances and Recommendations

1. Students should consult with the Sustainability advisor before registering for any courses applicable toward the minor. *Graduate-level courses and cross-lists may be used with prior consent from the advisor.

2. Credits counted for another major or minor program can be counted toward the Sustainability Minor with approval from the advisor, though no course may be used to fulfill more than two graduation requirements.

Women's and Gender Studies

Director: Michelle Comstock (English)

Graduate Advisor: Margaret Woodhull (Humanities)

Office: 1050 9th Street, #102

Telephone: 303-556-5835

Overview

Women's and Gender Studies (WGST) is an interdisciplinary program that focuses on the centrality of gender and sexuality to understanding our past and present worlds. Students and faculty probe assumptions about men and women and question structures of inequality as they play out in local and global contexts. Through a study of gender and sexuality, we expand our thinking about other relations of power, such as race, class, ethnicity, nationality and physical ability. WGST fosters connections with the local community and promotes advocacy of human rights and social justice.

Undergraduate Information

Click here (p. 881) to learn about the requirements for the Minor in Women's and Gender Studies.

Individually Structured Major

Students interested in a major in Women's and Gender Studies may develop one through the Individually Structured Major (ISM). The ISM is an interdisciplinary major based on an individual contract rather than a preset list of courses. By choosing an ISM, students can pursue their interests in WGST across a variety of departments. For more information on an ISM in Women's and Gender Studies, contact Associate Dean Marjorie Levine-Clark and see the Individually Structured Major (p. 597) section of this catalog.

Graduate Information

Please go to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/womens-gender-studies/>) catalog to read about our graduate programs.

Grading Basis: Letter Grade

WGST 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

WGST 2900 - Smart Girl Leadership Training and Practicum (3 Credits)

Provides leadership and mentoring training, and a practicum in which

UCD students mentor teenagers in their community or school settings.

Following completion of the training, students work as near-peer mentors and coaches with groups of teenage girls in the Denver community and apply the skills learned in their training. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

WGST 3010 - Sociology of Human Sexuality (3 Credits)

Increases the understanding of differences in views of sexuality, specifically the link between sex and reproduction and its role as the motivation for gender roles and sex acts. Explores the history of sexuality, cross-cultural studies and primate modeling. Cross-listed with SOCY 3010. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 3020 - Gender, Sexuality and Race in American Popular Culture (3 Credits)

This course explores the impact of popular culture on the lived experience of diverse women and men in America. Students will examine how cultural media (including film, television, print ads, music & digital games) can both reproduce and challenge existing structural inequalities. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

WGST 3080 - Sex and Gender (3 Credits)

Causes and consequences of sex role differentiation at the individual, group and societal levels. Current issues related to changing norms and values concerning gender in modern society are examined. Cross-listed with SOCY 3080. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 3343 - Women & Gender in US History (3 Credits)

This course will explore women and gender as drivers of US history. From politics to popular culture, jobs to sexual empowerment, civil rights to economic restructuring, we will use gender as a lens to re-envision familiar stories about American history. Cross-listed with WGST 5343, HIST 3343, and HIST 5343. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 3450 - Contemporary Women Writers (3 Credits)

Examines how women write about a specific theme, such as home, work, family, the "other," as well as how women's writing may differ from men's. Theme and genre vary. Prereq: sophomore standing or higher. Cross-listed with ENGL 3450. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

WGST 3700 - Families and Society (3 Credits)

This course explores multiple dimensions of family as a social institution. Using a critical approach, we examine historical, cultural, and political views about families. We consider multiple forms of contemporary families, discuss the many issues facing families, and study how families and family life have become politicized. Cross-listed with SOCY 3700.

Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 3840 - Independent Study: WGST (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

WGST 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

WGST 4010 - Special Topics in Women's and Gender Studies (1-3 Credits)

Examines current topics in the field of Women's studies and Gender studies. Topics vary from term to term. May be repeated as long as the topic is distinct and different from courses student has already received credit for. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

WGST 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism (3 Credits)

This course is about Middle Eastern women's subjectivity and various forms of agency. It explores the nexus of domestic, regional and international forces that shapes the lives of Middle Eastern women, in particular in the Algerian, Egyptian, Iranian, Israeli and Palestinian contexts. Far from being silent observers of the contests among these forces, as is often assumed, Middle Eastern women have been active actors in the public arena since the 19th century colonial encounter and the importation of the modern state to the region using an array of means to make their voices heard. They were often more militant than those of their countrymen. The course is divided into two parts.

The first part provides an overview of the theoretical notions discussed such as Orientalism, agency, colonialism and post-colonialism. Related to this theoretical section is a historical overview that is necessary to the understanding of the contemporary conditions of Middle Eastern women and the continuities and changes between past and present. The second part covers pressing topics in the lives of Middle Eastern women in the post-independence era such as the rise of Political Islam, the global trend of democratization, war and occupation. The emphasis in this section is on women as active participants in the debates surrounding these issues, rather than as objects of them. The readings assigned include both texts written by scholars from the region and by others from without. They provide analyses of the contexts within which Middle Eastern women's struggles take place. In addition, students will be exposed to materials produced by Middle Eastern women activists that express their own opinions and views in order to avoid misrepresentation and to reflect the diversity among them. Cross-listed with PSCI 4150. Max hours: 3 Credits. Grading Basis: Letter Grade

WGST 4215 - Women's Rights, Human Rights: Global Perspectives (3 Credits)

Explores the global feminist movement's campaign to "engender" human rights. Examination of women's human-rights issues and the critique of this campaign as representing cultural imperialism. Prereq: 6 hours of political science or permission of instructor. Cross-listed with PSCI 4215. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4225 - Urban America (3 Credits)

This course will explore how Americans experienced their rapidly growing and changing cities during the past two hundred years. This course will cover a wide range of urban themes, including segregation and gentrification, self-invention and policing, ethnic gangs and race riots, skyscrapers and suburbia, and commercial sex and Hollywood. The course will ultimately chart how a range of Americans - including immigrants, teenagers, laborers, women, LGBTQ+ people, and people of color - all fought for their own "right to the city". Cross-listed with HIST 4225, HIST 5225, WGST 5225, GEOG 4625. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4230 - Women in the West (3 Credits)

Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the western states. Cross-listed with HIST 4230, HIST 5230 and WGST 5230. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4248 - Gender, Development and Globalization (3 Credits)

Examining the cost and impact of globalization; not only on women and gender but economic equality, human movement and displacement, sustainable development and the environment. Highlighting the complexities of a highly interconnected world and intersectional nature of a globalized world, answering the question: Who Wins? Who Loses? Cross-listed with PSCI 4248, PSCI 5245 and WGST 5248. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4270 - Social Meanings of Reproduction (3 Credits)

Reproduction involves more than biological processes, assuming symbolic, political, and ideological meanings. This course examines contested meanings of reproduction, including how people experience reproduction, controversies over who should reproduce (and under what circumstances), and how public policy mediates these conflicts. Cross-listed with SOCY 4270, SOCY 5270 and WGST 5270. Prereq: junior standing or higher or permission of instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

WGST 4303 - Sex and Gender in Modern Britain (3 Credits)

Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 4303/5303 and WGST 5303. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4305 - Women of Color Feminisms (3 Credits)

This course is an overview of women of color feminist theorizing (thinking) and praxis (practice) in the U.S. We will explore these feminisms through the writing, art, and organizing efforts of women and trans, femme, and non-binary people of color with a focus on key themes and concepts including identity, difference, oppression, intersectionality, representation, violence, resistance, empowerment, solidarity, and coalition. Texts for the course highlight key issues in the feminist theorizing and praxis of Black, Latina/x, Chicana/x, Asian (American), Pacific Islander, Indigenous, and Arab (American) women and trans, femme, and non-binary people of color, especially the politics of identity and representation; structural oppressions and violences; and practices of survival, resistance, and activism. Not only will we examine how these feminists have critiqued oppression(s) based on race, class, gender, sexuality, nationality, and religion, (as well as how these systems of domination intersect), but what kinds of approaches, strategies, and changes these thinkers and activists have organized for and promoted. Cross-listed with WGST 5305, ETST 4305 and ETST 5305. Max hours: 3 Credits

Grading Basis: Letter Grade

Typically Offered: Spring.

WGST 4306 - Survey of Feminist Thought (3 Credits)

Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 4306, 5306, WGST 5306. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4307 - History of Sexuality (3 Credits)

Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with HIST 4307/5307 and WGST 5307. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4308 - Contemporary Feminist Thought (3 Credits)

This course explores contemporary feminist thought in philosophy and literature in the 20th and 21st centuries. Topics include lesbianism, black feminism, Chicana feminism, transgender identity, women and work and others. Cross-listed with ENGL 4308, ENGL 5308, PHIL 4308, PHIL 5308, WGST 5308. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

WGST 4345 - Gender, Science, and Medicine: 1600 to the Present (3 Credits)

Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 4345/5345 and WGST 5345. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4420 - Goddess Traditions (3 Credits)

Explores the many forms which Goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld Goddesses of death and destruction. Cross-listed with RLST 4420/5420 and WGST 5420. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

WGST 4494 - Red and Blue America: U.S. History, 1973-Present (3 Credits)

This course explores American history during a period of immense cultural and political polarization. After 1973, the United States experienced the rise of the New Right, changing attitudes towards sexual "permissiveness," and rapid advancements in technology. Both "law-and-order" politics and the rights campaigns led by immigrants, women, people of color, and LGBTQ+ peoples all reshaped democracy. These developments in the United States, meanwhile, influenced and were shaped by the nation's "hot" and "cold" conflicts in Europe, Latin America, the Middle East, and the rest of the globe. Cross-listed with WGST 5494, HIST 4494, and HIST 5494. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

WGST 4500 - Feminist Philosophy (3 Credits)

Seminar on key debates & figures in historical & contemporary feminist philosophy. Topics may include: rights, embodiment, gender, sexuality, race, reason, & violence. Figures may include: Wollstonecraft, Stanton, Beauvoir, Judith Butler, and bell hooks. Cross-listed with WGST 5500, PHIL 4500 & 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4510 - Whores and Saints: Medieval Women (3 Credits)

Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 4510/5510, RLST 4730/5730 and WGST 5510. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

WGST 4511 - French Women Writers (3 Credits)

Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 4510/5510 and WGST 5511. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4540 - Race, Class, and Gender in Spanish Golden Age Literature (3 Credits)

Explores works of various genres in relation to their social and political contexts in 16th and 17th century Spain, emphasizing the cultural attitudes toward race, class, and gender that inform them. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 4340/5340 and WGST 5540. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

WGST 4555 - International Women's Resistance (3 Credits)

Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with PSCI 4555/5555, ETST 4555 and WGST 5555. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4564 - Gender and Politics (3 Credits)

Analysis of the political experience of women and of strategies for change. Emphasis on the U.S. Cross-listed with PSCI 4564. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4610 - Communication, Media, and Sex (3 Credits)

This class develops the tools to think critically about representations of sexuality and to understand the social construction of sexuality, the role of sexual representations in mass media and society, and the complex relationships between sexual acts, identities, and desires. Restriction: Restricted to class level Junior, Senior, or permission of instructor. Cross-listed with COMM 4610. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

WGST 4660 - Queer Media Studies (3 Credits)

Queer Media Studies, a discussion-based seminar, investigates the history of a variety of LGBTQ+ media – including news, film, television, comics, games, music, and the Internet. Students engage in a variety of media projects to explore LGBTQ+ histories, queer aspects of media production, reception, and media messages. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 4660, COMM 5660, WGST 5660. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

WGST 4710 - Women and Religion (3 Credits)

A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women's involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710/5710, WGST 5710, RLST 4710/5710. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4720 - Sex, Gender, and Visual Representation (3 Credits)

Studies sexuality, gender and identity representation from classical antiquity through the present in the visual arts. Uses the literature of visibility, feminism, race and queer theory. Explores representations of femininity, masculinity and androgyny and their reinforcement and challenge to gender-identity norms. Cross-listed with HUMN 5720, HUMN 4720, IDST 5720, WGST 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with HUMN 4770, HUMN 5770, IDST 5770, IDST 4770, SSCI 5770, SSCI 4770, WGST 5770, SJUS 4770, SJUS 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

WGST 4780 - Violence in Relationships (3 Credits)

Course focuses on the study of violence among individuals involved in intimate relationships; factors in society such as norms, laws and institutions that are related to creating violence among intimates; and social policies, prevention, intervention and treatment programs. Cross-listed with SOCY 4780, SOCY 5780 and WGST 5780. Prereq: junior standing or higher or permission of instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

WGST 4827 - Women and the Law (3 Credits)

Examines the role of the courts in the development of public policy toward women; how the legal system affects the economic power, family roles, safety and political participation of women. Cross-listed with PSCI 4827 and ETST 4827. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: permission of instructor. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

WGST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

WGST 4933 - Philosophy of Eros (3 Credits)

What does it mean to understand philosophy as an erotic activity? This question will be examined, first by studying Plato's dialogues-such as Lysis, Symposium and Republic-and then by reading texts from Sigmund Freud, Michael Foucault and others. Cross-listed with PHIL 4933/5933, WGST 5933, SSCI 5933 and HUMN 5933. Max hours: 3 Credits.

Grading Basis: Letter Grade

Women's and Gender Studies Minor

Introduction

Please click here (p. 876) to see Women's and Gender Studies department information.

The Women's and Gender Studies Minor gives students the opportunity to explore gender issues in the humanities and social sciences.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.

For more information about this minor, contact the Women's and Gender Studies Director, Michelle Comstock (Michelle.Comstock@ucdenver.edu).

Program Delivery

- This is an on-campus program.

Declaring This Minor

- Click here (p. 377) to go to information about declaring a minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum of 18 WGST-related credit hours.
- Students must complete a minimum of 12 upper-division (3000-level and above) credit hours in the minor, chosen from the approved courses below.
- Students must earn a minimum grade of C- (1.7) in all courses that apply to the minor and must achieve a minimum cumulative minor GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to minor requirements.
- Students must complete a minimum of 12 credit hours with CU Denver faculty chosen from the approved courses below.

Program Restrictions, Allowances and Recommendations

- All courses for the minor must be approved by a WGST advisor. Students may double count up to six credits being applied to other graduation requirements (major, certificate or general education).
- Students are strongly urged to take at least one course that focuses on international perspectives on women's and gender issues.
- Students have the option to complete an internship working in the community around issues related to women and gender. The alternative to this is a WGST capstone course at the 4000 level.

- Students who major in Sociology and complete the Gender and Society option (p. 859) will automatically earn a Women's and Gender Studies Minor

Women's and Gender Studies Minor Requirements

Code	Title	Hours
<i>Complete the following required course:</i>		
WGST 1050	Introduction to Women's and Gender Studies	3
<i>Complete 12 credit hours of WGST-related courses at the 3000-level or above. Eligible courses include, but are not limited to:</i>		
HUMANITIES		
ENGL 4000	Studies of Major Authors and Directors (depending on author or director being studied; e.g., Virginia Woolf, Jane Austen, Margaret Atwood, George Sand, etc.)	
ENGL 4290	Rhetoric and the Body

Dual Degrees

- Economics BA/Mathematics, BS - Dual Degree (p. 884)

Economics BA/Mathematics, BS - Dual Degree

Introduction

Please click here (p. 440) to see Economics department information or here (p. 681) for Mathematical and Statistical Sciences department information.

A solid training in the mathematical and statistical sciences is fundamental to optimally prepare economics students for graduate school. A dual degree in economics and mathematics will substantially increase program quality and career prospects for our students, as well as enhance the reputation of the economics program at CU Denver. Similarly, a solid training in quantitative and qualitative economic principles offers significant benefits to mathematics majors who seek industrial and/or consulting positions.

These degree requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Economics major advisor, Math major advisor and CLAS advisor to confirm the best plans of study before finalizing them.

Economics Advisors:

- Debbie Evercloud debbie.evercloud@ucdenver.edu
- Jim Smith jim.smith@ucdenver.edu

Mathematics Advisor:

- Adam Spiegler math.advising@ucdenver.edu

Program Delivery

- This is an on-campus program.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- College of Liberal Arts & Sciences Graduation Requirements (p. 373)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum of 72 hours with a minimum of 30 ECON credit hours and a minimum of 39 MATH credit hours.
2. Students must complete a minimum of 27 upper division (3000-level and above) ECON credit hours and a minimum of 27 upper division (3000-level and above) MATH credit hours.
3. Students must earn a minimum grade of C- (1.7) in all courses that apply to the majors and must achieve a minimum cumulative GPA of 2.0 in ECON courses and a cumulative GPA of 2.25 in MATH courses.

Courses taken using P+/P/F or S/U grading cannot apply to major requirements.

4. Students must complete a minimum of 18 ECON credit hours including ECON 4811 Introduction to Econometrics, with CU Denver faculty. Once a student has enrolled at CU Denver, no more courses in the major can be taken outside the CU Denver Economics Department. This includes courses offered at Metropolitan State University. The department reserves the right to require a demonstration of competence for any core courses not taken from CU Denver faculty. Additionally, the Department of Mathematical and Statistical Sciences requires that at least 15 upper-division Mathematics credits must be taken at CU Denver.

Program Restrictions, Allowances and Recommendations

1. In addition to the CLAS residence requirements, the Economics Department requires that all courses other than ECON 2012 Principles of Economics: Macroeconomics and ECON 2022 Principles of Economics: Microeconomics require written department approval to be transferred in as satisfying major requirements.
2. A student who attempts the dual degree but who does not fulfill all requirements for the Mathematics BS will need to complete the requirements for the Economics BA as a stand-alone degree. A Mathematics elective will substitute for one of the six economics electives only if all requirements of the Mathematics major are met.

Code	Title	Hours
<i>Complete one of the following programming requirements:</i>		3
MATH 1376	Programming for Data Science	
CSCI 1410 & CSCI 1411	Fundamentals of Computing and Fundamentals of Computing Laboratory	
<i>Complete all of the following Economics courses:</i>		15

Economics Electives

Code	Title	Hours
<i>Complete six upper division level Economics elective courses or five Economics elective courses plus one Mathematics elective course from the list below.</i>		15

A minimum of four of these courses must be at the 4000-level.

ECON 3801 Introduction to Mathematical Economics and ECON 3811 Statistics with Computer Applications cannot be counted as electives.

One of the following approved Mathematics electives can be double counted as the sixth Economics elective.

ECON 3050	Decision Making
ECON 3100	Economics of Race and Gender
ECON 3300	Economics of Crime and Punishment
ECON 3366	Managerial Economics
ECON 3400	Economics of Sex and Drugs
ECON 3415	Issues in International Trade and Finance
ECON 3770	Issues in Economic Development
ECON 4001	Topics in Economics
ECON 4030	Data Analysis with SAS
ECON 4050	Special Economic Problems
ECON 4090	History of Economic Thought
ECON 4110	Money and Banking
ECON 4150	Economic Forecasting
ECON 4210	Public Finance
ECON 4240	Economic Policy Analysis
ECON 4310	Managerial Economics
ECON 4318	Urban Economics
ECON 4320	Financial Economics
ECON 4410	International Trade
ECON 4420	International Finance
ECON 4430	Economic Growth
ECON 4461	Economic Incentives
ECON 4530	Economics of Natural Resources
ECON 4540	Environmental Economics
ECON 4550	Game Theory and Economic Applications
ECON 4610	Labor Economics
ECON 4640	Sports Economics
ECON 4660	Health Economics.
ECON 4670	Economics of Population and Growth
ECON 4740	Industrial Organization
ECON 4770	Development Economics
ECON 4812	Advanced Econometric Methods
MATH 3301	Introduction to Optimization
MATH 3810	Introduction to Probability
MATH 4390	Game Theory
MATH 4387	Applied Regression Analysis
MATH 4650	Numerical Analysis I
MATH 4733	Partial Differential Equations

One of the following approved Economics electives at the end of the list can be double counted as the fourth Mathematics elective.

MATH 3301	Introduction to Optimization
MATH 3376	Data Wrangling & Visualization
MATH 3440	Introduction to Symbolic Logic
MATH 3810	Introduction to Probability
MATH 4010	History of Mathematics
MATH 4027	Topics in Mathematics
MATH 4110	Theory of Numbers
MATH 4140	Introduction to Modern Algebra
MATH 4320	Introduction to Real Analysis II
MATH 4337	Intro to Statistical and Machine Learning
MATH 4387	Applied Regression Analysis
MATH 4388	Machine Learning Methods
MATH 4390	Game Theory
MATH 4408	Applied Graph Theory
MATH 4409	Applied Combinatorics
MATH 4450	Complex Variables
MATH 4650	Numerical Analysis I
MATH 4660	Numerical Analysis II
MATH 4733	Partial Differential Equations
MATH 4792	Probabilistic Modeling
ECON 4030	Data Analysis with SAS
ECON 4110	Money and Banking
ECON 4150	Economic Forecasting
ECON 4320	Financial Economics
ECON 4430	Economic Growth
ECON 4550	Game Theory and Economic Applications
ECON 4610	Labor Economics
ECON 4740	Industrial Organization
ECON 4812	Advanced Econometric Methods

Mathematics Electives

Code	Title	Hours
------	-------	-------

Complete four upper-division level Mathematics elective courses or three Mathematics elective course plus one Economics elective course from the list of approved Economics electives below.

Excluding MATH 3041 Fundamental Math: Algebra, Probability and Data Analysis, MATH 3195 Linear Algebra and Differential Equations, MATH 3511 Mathematics of Chemistry, MATH 3800 Probability and Statistics for Engineers, and MATH 4830 Applied Statistics.

CLAS Interdisciplinary Certificates

- Allied and Professional Health Sciences Post Baccalaureate Certificate (p. 887)
- Civics, Public Policy and Equity Undergraduate Certificate (p. 893)
- Digital Studies Undergraduate Certificate (p. 895)
- Professional Skills Undergraduate Certificate (p. 897)

Allied and Professional Health Sciences Post Baccalaureate Certificate

Program Director: Trishia Vasquez
trishia.vasquez@ucdenver.edu
303.315.7541
Health Professions Advising, NC 3002 C

Introduction

The health field offers job opportunities and rewarding careers. It is one of the fastest growing industries in the US and the Bureau of Labor Statistics has projected increasing demand and labor shortages for at least the next ten years. The CU Denver Post-Baccalaureate Allied and Professional Health Sciences Certificate was developed as an opportunity for the many students who already have a bachelor's degree and want to shift their career into this large and fast-growing industry to improve employment opportunities and potential earnings.

In order to improve their position among many highly qualified applicants to health professions programs and for health science related jobs, we anticipate that many students will need to continue their higher education. The College of Liberal Arts and Sciences has developed a certificate that provides a broad foundation in STEM (Biology, Chemistry and Physics) and advanced health-oriented coursework that is essential for both graduate and professional programs and the needs of the health industry.

Students who have already completed an undergraduate degree from an accredited College/University but need additional undergraduate pre-requisite courses to apply to health professions programs (including medicine, pharmacy, dentistry, nursing, lab technicians, health research jobs and more), can benefit from the CU Denver Post Baccalaureate Allied and Professional Health Sciences Certificate. CU Denver is well-known for preparing students for applications to health careers and acceptance to health professions programs. This certificate program offers high quality, rigorous preparatory classes and exceptional health careers advising including assistance with letters of evaluation, seminars on application processes, and assistance finding clinical, research, and community service experiences to enhance applications.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their program advisor to confirm the best plans of study before finalizing them. Exceptions and substitutions must be approved by the Director of the certificate.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

When applying to CU Denver, students should select the Undergraduate Degree-Seeking option. After indicating that the student has or will have completed a bachelor's degree, the applicant should be directed to a screen that allows selection into the Allied and Professional Health Sciences Certificate. After admission, students should meet with the Program Director of the Certificate (NC 3002) to work collaboratively to develop a course plan that best meets their academic and career goals.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- [Click here \(p. 107\)](#) for information about Academic Policies

Certificate Requirements

1. Students must complete a total of 32 credit hours, with a minimum of 15 credit hours at CU Denver from the time students start the program, from approved CU Denver courses.
2. Students must complete a minimum of 12 upper-division (3000-level and above) credit hours from approved CU Denver courses.
3. Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. The 15 credit hours of approved courses must be completed at CU Denver, from the time a student starts the program. 12 of these credit hours must be upper division (3000-4000 level courses). Other coursework (up to 17 credit hours) used as prerequisites or other courses applicable to the certificate program, may be taken at CU Denver or transferred from another university with evaluation and approval.

Certificate Restrictions, Allowances and Recommendations

1. Students may use prior/ transfer coursework to fulfill requirements and prerequisites, as long as departmental faculty evaluate the coursework and decide courses are directly equivalent to the courses at CU Denver.

2. The certificate must be completed within a five-year period.
3. Individual courses used to earn the certificate may carry other prerequisites that must be met before enrolling.
4. All of the courses or equivalent credit through transfer coursework must be taken within the last 10 years.
5. A prerequisite for any course must be transferred or completed at CU Denver before enrolling in that course.
6. Graduate level courses can substitute for their undergraduate counterparts with approval by Program Director.
7. Specific requirements may exist pertaining to financial aid.
8. Students must already have earned a Bachelor's degree to be admitted to this certificate.
9. Students currently enrolled in Bachelor's, Master's or Doctoral degree programs are not eligible for this certificate.
10. Students who complete this certificate may not apply the courses used to earn the certificate toward a second degree, if they choose to return and seek a second degree at CU Denver.

Civics, Public Policy and Equity Undergraduate Certificate

Introduction

This certificate is designed to help students from any disciplinary major develop competencies and skills regarding United States civics from diverse perspectives. The certificate provides students with many course options to complete introductory and advanced coursework tailored to their individual interests. Student demand for such a certificate will likely come from students who major in the social sciences, but also from students who have an interest in completing coursework in American civics, public policy, and equity from other disciplines. This certificate promotes civic engagement and participation in the political process.

Students will engage in the following focus areas:

Historical and Legal Context

Courses completed in this area facilitate the development of knowledge and skills related to the American founding, the United States Constitution, American political development, political actors and institutions, constitutional law and the legal system, and the rights and duties of citizenship, among others. Learning objectives for these courses vary depending on the department offering the course selections and the specific courses selected, but students should generally develop broad knowledge of historical and contemporary aspects of American political institutions and civic engagement. While many of these courses employ historical and/or legal approaches to the study of civics, additional or alternative approaches may also be utilized, such as analytical lenses that are theoretical or applied in nature. Courses typically emphasize critical thinking and written communication skills and may also involve independent or collaborative original research projects or experiential learning beyond the classroom.

Public Policy

Courses completed in this area facilitate the development of knowledge and skills pertaining to the formulation, analysis, and critique of public policy. Courses included in this category examine public policy from diverse perspectives using numerous methodological approaches. Individual courses may engage in the study of the primary actors, entrepreneurs, and institutions that formulate public policy, examine policy from a public administration perspective, and/or provide a focused analysis of policy within the context of a specific issue area, among others. Learning objectives for these courses vary depending on the department offering the course selections, but students should generally expect to engage in an immersive study of public policy as outlined in each course description.

Equity

Courses completed in this area facilitate the development of knowledge and skills regarding equity in politics and society. Topics of study may include social movements, social justice, political reforms related to protected classes, criminal justice reform, societal inequalities, public goods, and responsible citizenship, among others. Courses may have a historical, contemporary, and/or futuristic focus and may approach the study of equity from theoretical, analytical, practical, critical, or aspirational perspectives, among others. Learning objectives for these courses vary depending on the department offering the course selections, but students should generally develop competencies in their particular

area of study with each course addressing political or social equity in some meaningful capacity.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- All prospective students must contact Marjorie Levine-Clark (marjorie.levine-clark@ucdenver.edu), Associate Dean for Diversity, Outreach, and Initiatives to declare their interest and intent to complete the program.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Civics, Public Policy and Equity advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credit hours, from approved coursework
2. Students must complete a minimum of six upper division (3000-level and above) credit hours, from approved coursework.
3. Students must earn a minimum grade of C (2.0) in all courses that apply to the certificate and must achieve a minimum cumulative GPA of 2.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all credit hours applying to the certificate with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. Students must complete the specified number of courses from the designated certificate focus areas. Exceptions to the focus area distribution requirements are not permitted.
2. Courses completed in pursuance of the certificate may also count toward CU Denver major or minor requirements, however each course may count for a maximum of two graduation requirements.

SOCY 4440	Poverty and Social Inequality

Total Hours **12**

¹ PSCI 3034 Race, Gender, Law and Public Policy can apply toward the Policy or Equity requirement.

Upon completion of this program, students will:

- develop critical thinking and written communication skills
- explain and analyze historical and contemporary aspects of American political institutions and civic engagement
- describe and examine the formulation, analysis, and critique of public policy
- discuss and evaluate how equity/inequity operates in politics and society

Digital Studies Undergraduate Certificate

Introduction

From social media and mobile phones to the algorithms in self-driving cars, digital and information technologies are everywhere. The Digital Studies Certificate provides students with the opportunity to investigate the relationships between new communication technologies and society and to develop skills creating digital media messages and products.

Social sciences and humanities majors can use this certificate to develop and demonstrate their technical skills, while science and engineering students can use it to build expertise in understanding the social and cultural aspects of new technologies. Students from any CU Denver school or college who earn the Digital Studies Certificate will be able to demonstrate to a wide range of potential employers or graduate schools that they have both technical skills and the ability to critically analyze new media. Students who successfully complete the Digital Studies Certificate will be able to:

- Describe and analyze the relationships between digital media and their cultural, social, political, and ethical contexts
- Use digital media to communicate messages to a variety of audiences
- Use digital media to solve problems in a range of disciplines and situations
- Use digital media and related analytical skills as career-building tools

Program Delivery

- This is a hybrid program, with courses on-campus and online.

Declaring This Certificate

- **Eligibility:** CU Denver students in any discipline can enroll in the program at any point in their undergraduate studies.
- CLAS's Interdisciplinary Studies program sponsors the certificate, and the CLAS Director of Digital Initiatives will provide advising and administrative management.
- **Application Procedures:** Students are encouraged to apply for the Digital Studies Certificate at any point in their undergraduate studies. To apply, students should print and complete a Digital Studies Certificate Application and submit it to the CLAS Director of Digital Initiatives.
- For questions about the Digital Studies Undergraduate Certificate contact Dr. John Tinnell (John.Tinnell@UCDenver.edu (john.tinnell@ucdenver.edu)).

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Digital Studies advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- [Click here \(p. 107\)](#) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credits of required courses chosen from the approved courses in each cluster: one course (three credits) from each of the three clusters (for a total of nine credits), plus the remaining three credits from any one of the three clusters.
2. Students must complete a minimum of six upper division (3000-level and above) credits, taken from the approved courses below.
3. Students must earn a minimum grade of B (3.0) in all courses that apply to the certificate and must achieve a minimum cumulative certificate GPA of 3.0. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all credits applied to the certificate with CU Denver faculty.

Certificate Restriction, Allowances and Recommendations

1. The certificate will be awarded when a student graduates with the bachelor's degree.
2. **Co-curricular requirement:** Students must attend at least three Career Center sessions, which can include events, workshops, or one-on-one appointments.

Digital Studies Certificate Course Clusters

- **Theory and Analysis:** Courses in this cluster focus on theorizing, explaining, and describing the relationships between digital, media, and communication technologies and society. They enable students to critically assess and analyze digital media and information, such as understanding the biases in seemingly neutral Google search results or examining how people use Twitter to build social movements
- **Digital Media Production:** Courses in this cluster focus on developing hands-on skills in the use of digital, media, and communication technologies. They provide opportunities for students to develop their skills with a variety of digital tools, such as digital photography, mapping, and social media management.
- **Integration:** Courses in this cluster bring together both understanding and using digital, media, and communication technologies.

Other courses may apply to each cluster with the approval of the Director of Digital Initiatives certificate advisor.

Code	Title	Hours
Complete one course (three credits) from each of the three clusters (for a total of nine credits), plus three elective credits from any one of the three clusters.		

Courses must come from at least two different subject codes.

Complete one of the following Theory and Analysis cluster courses:

ANTH 2400	Exploring Culture through Social Media	<i>Complete one of the following Integration cluster courses:</i>	3		
BUSN 6610/ ISMG 6180	Information Systems Strategy			ANTH 4800/5800	Special Topics in Medical Anthropology
COMM 2030	Digital Democracy			COMM 2051	Introduction to Strategic Communication

Professional Skills Undergraduate Certificate

Introduction

This certificate is designed for undergraduate students seeking to acquire and enhance diverse workplace skills that are highly valued by today's employers. Students will learn to communicate effectively, write persuasively, and develop proficiency in digital and media literacy or data literacy. Providing a strong foundation in communication skills, teamwork, critical thinking, and analytical writing, this certificate will help students cultivate success in the workplace.

On completion of this certificate, students will be able to:

- **Communicate their ideas** in a clear and organized manner.
- Use their **compositional and analytical skills** in a chosen professional writing field.
- Demonstrate proficiency in **digital and media literacy** or **data literacy**.
- Devise **problem-solving strategies** with the skills developed through the certificate.

Program Delivery

- This is an on-campus program.

Declaring This Certificate

- All prospective students must contact Marjorie Levine-Clark (marjorie.levine-clark@ucdenver.edu), Associate Dean for Diversity, Outreach, and Initiatives to declare their interest and intent to complete the program.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their Professional Skills advisor to confirm the best plans of study before finalizing them.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click here (p. 107) for information about Academic Policies

Certificate Requirements

1. Students must complete a minimum of 12 credit hours, from approved coursework
2. Students must complete a minimum of six upper division (3000-level and above) credit hours, from approved coursework.
3. Students must earn a minimum grade of B- (2.7) in all courses that apply to the certificate and must achieve a minimum cumulative GPA of 2.7. Courses taken using P+/P/F or S/U grading cannot apply to certificate requirements.
4. Students must complete all credit hours applying to the certificate with CU Denver faculty.

Certificate Restrictions, Allowances and Recommendations

1. Students must choose elective courses from at least two different disciplines.

Code	Title	Hours
Complete the following program requirements:		
<i>Complete one of the following Communication courses:</i>		3
COMM 2045	Workplace Communication	
COMM 2050	Professional Presentations	
COMM 4240	Organizational Communication	
COMM 4255	Negotiations and Bargaining	
COMM 4270	Intercultural Communication	
<i>Complete one of the following Writing courses:</i>		3
COMM 3072	Media Writing Skills	
ENGL 3154	Technical Writing	
ENGL 3170	Business Writing	
ENGL 3416	Magazine Writing	
ENGL 4280	Proposal and Grant Writing	
<i>Complete two elective courses from one of the following groups:¹</i>		6
<i>Group 1: Digital and Media Literacy</i>		
COMM 2081	New Media Production and Management	
COMM 3660	Social Media for Social Change	
ETST 3272	Global Media	
HIST 3260	Introduction to Digital Studies	
INTE 2500	#Learning: Digital Spaces and Far Out Places	
MKTG 3100	Marketing Research	
<i>Group 2: Data Literacy</i>		
ECON 3811	Statistics with Computer Applications	
ECON 4030	Data Analysis with SAS (prereq ECON 3811 or Math 2830)	
IWKS 3200	Data Science for Innovators	
ISMG 2050	Business Problem Solving Tools	
MATH 2830	Introductory Statistics	
MATH 4830	Applied Statistics	
Total Hours		12

¹ Elective courses must be from different disciplines and may carry prerequisites that must be completed before enrolling.

School of Education & Human Development
P.O. Box 173364, Campus Box 106
Denver, CO 80217-3364

Overview

The School of Education & Human Development is a vibrant community of practicing educators and counselors, educational leaders and researchers who have a strong service ethic locally, nationally, and globally and a dedication to excellence.

Mission

Education and Well-Being for Equity* – To prepare equity-minded and inclusive educational, community, family, and mental health practitioners, scholars, and leaders dedicated to eradicating inequalities and discrimination. We champion change that leads to well-being, opportunity, and life-long learning in the diverse urban, rural, and global communities that we serve.

*In using the term "equity," we mean creating a just, safe and inclusive environment as defined by the CU Denver Strategic Plan.

Vision

We will distinguish our school by fulfilling our commitments to inclusive education, collaborative research, and equitable, anti-oppressive and anti-racist practices. While recognizing the past, we strive toward a socially just and democratic world.

Our Role in the Community

We are committed to developing forward-thinking educators and counselors who have a deep sense of inquiry, a concern for pressing

social problems, a great desire to live their lives purposefully, a passion for giving back to the community and the cultural competence needed to serve urban and diverse populations.

Equity, Diversity, and Inclusion Principles

We are a community of humans—diverse in identities, roles, experiences, expertise—committed to the difficult work of educational and social equity. In this work, we maintain a radical vision for our own individual and collective well-being. We do this through:

- Forms of learning evident in scholarship, partnership, and leadership that thoughtfully engages with children and youth, families, schools, higher education institutions, businesses and nonprofits with diverse perspectives and backgrounds.
- Continuous collective reflection and self-reflection on the ways in which race, ethnicity, economic resources, languages, abilities, histories, geography, first-generation status, age, gender, sexual identities, veteran status, and cultural and faith practices surface and inform our shared commitments and interactions.
- Prioritizing psychological, emotional, and physical safety[^].
- Prioritizing the sense of belonging^{^^} for all members of our community.
- Courage in our commitments to risk, reflect, and improve.

[^]Safety is both the practice and condition (safe) of ensuring that within an interpersonal or collective environment, individuals experience (feel, think, believe) fair and reasonable opportunities to share their perspectives, including those that differ from other perspectives (and particularly those from historically minoritized backgrounds, as described above), and are comfortable taking risks and failing without fear of being harmed, shamed, or retaliated against consequently. All members of the CU Denver community can raise EDI concerns about their learning/working environment without retaliation. When targeted or threatened, members of CU Denver community will be protected through the enactment of protocols, grievance procedures, and other mechanisms.

^{^^}Belonging is the experience of acceptance, support, connection, value, and respect within a community, for each member, where one feels valued and respected from a built foundation of shared experiences, beliefs or personal characteristics. For individuals from historically minoritized backgrounds, a sense of belonging encourages and supports their full and authentic participation as physical, mental, emotional, religious, intellectual, social, and cultural beings. Additionally, belonging at CU Denver is directly tied to the likelihood of success and retention of staff, students, and faculty, and this requires that the CU Denver community ensures that individuals from historically minoritized backgrounds gain acceptance, attention, and support from members of the entire community, while also providing the same care and attention to other members of the community.

Accreditation

The University of Colorado Denver is institutionally accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. The commission can be contacted at: 230 South LaSalle Street, Suite 7-500 Chicago, IL 60604 Telephone: 1-800-621-7440

In addition, teacher education programs in the SEHD have been accredited by the Colorado State Board of Education.

School of Education & Human Development Admissions Information

For admission to the School of Education & Human Development, applicants whose cumulative high school GPA and test scores fall into the middle 50 percent range are strong candidates. A minimum 2.4 cumulative high school GPA is recommended, however, students with a 2.0 cumulative GPA are considered. *Note: Submitting test scores is optional, and won't negatively impact your application.*

Note: The Professional Year, a two-semester (fall and spring) residency in the student's final year of the undergraduate degree with licensure programs, requires a separate application and acceptance is not guaranteed. For instructions and minimum requirements, please see the Education and Human Development website (<https://education.ucdenver.edu/academic-services/admissions/>).

All students apply online. Instructions for undergraduate students are found at <http://www.ucdenver.edu/admissions/>.

Information about all degrees, programs and admission requirements can be found on the school's website at <https://education.ucdenver.edu/>

(For Graduate Programs and information please refer to the Graduate (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/school-education-human-development/#departmentstext>) catalog.)

Minor

- Human Development and Family Relations Minor (p. 987)

School of Education & Human Development Graduation Requirements

For additional information regarding Graduation policies and procedures, please visit the Graduation (p. 124) section of the catalog.

Minimum Grade Requirements

Students must earn a final grade of at least a C (2.0) in major courses and a B- (2.7) or above in designated major courses and Professional Year Residency courses within the major. These courses/requirements must be repeated if the student fails to earn the grade required.

Classroom-Based Field Experiences

Students must complete required classroom-based field experiences.

Other Requirements

Students must complete all program assessments and professional milestones as outlined on the degree plans. For teacher education licensure students, this includes passing the appropriate Praxis exam.

Major

Students must complete all requirements associated with their SEHD major.

Applying for Graduation

All students should meet with their advisor at the beginning of their final term for a graduation check-out appointment. We recommend students schedule an appointment PRIOR to the add/drop deadline of their final term in case schedule adjustments need to be made to fulfill final degree requirements. After meeting with their advisor, students should apply for graduation online through the UCDAccess portal before the graduation application deadline.

Academic Honors

Academic honors are awarded at the time of graduation, based on the cumulative University of Colorado undergraduate GPA. To be eligible for honors, a SEHD student must have completed a minimum of 30 semester hours at the University of Colorado (on any CU campus). A cumulative

CU GPA of 3.650-3.749 earns cum laude, a 3.750-3.849 earns magna cum laude and 3.850 or above earns summa cum laude honors designations.

Petitioning for Exceptions to Standing Academic Policy

Students are required to complete the degree requirements that were in effect when they began as a degree-seeking student at CU Denver, including CU Denver Core, major, and track requirements. If a program revises its curriculum, students have the option of following their original degree requirements or the revised curriculum. Courses under the original requirements may no longer be taught or may not be available for a set duration. In this case, the program will approve course substitutions. In cases where the Colorado Department of Education requirements for licensure or endorsements change, program plans may also change to align with these requirements.

Course substitutions in the major or minor must be approved by the Program Leader in the specific program area. Course substitutions in the SEHD major must be approved by the Program Leader.

The SEHD Student Committee reviews students' academic appeals regarding retention, disenrollment, dismissal and other academic matters such as grade appeal, academic dishonesty, or honor code issues. Instruction on how to submit an appeal can be found at <http://www.ucdenver.edu/academics/colleges/SchoolOfEducation/CurrentStudents/Resources/CurrentResources.aspx>.

School of Education & Human Development Policies

For additional information regarding policies and procedures, please visit the Records and Registration (p. 57) section and the Academic Policies and Procedures (p. 107) section of the catalog.

Undergraduates Taking Graduate Coursework

Undergraduate students are not typically permitted to take courses at the graduate level. SEHD undergraduate students interested in taking graduate-level courses should consult with the instructor and the program, as well as with their academic advisor. The exception to this policy is licensure students admitted into the BA/MA which requires students to take 9 semester credit hours at the graduate level during their final year (the professional year) and HDFR students admitted into the BS/MA.

Internships

Internships are a large part of our work in SEHD, but have varying requirements by program. Please refer to program handbooks and materials for policies regarding internships.

How to Declare or Change a Major or Minor

Undergraduate majors in the SEHD include the Bachelor of Arts in Education and Human Development (EDHD) and the Bachelor of Science in Human Development and Family Relations (HDFR). Additionally, the EDHD major has several tracks, including Elementary Education (K-6 licensure), Special Education (ages 5-21 licensure), Early Childhood

Education licensure (birth-age 8 licensure), Early Childhood Education non-licensure, and several secondary pathways (math, science, English, social studies, middle school math). It is important for students to declare a major and track (if applicable) as early as possible in their academic career to ensure they take appropriate courses.

Students who wish to transfer to the SEHD from another school/college must meet with an academic advisor and formally apply for an intra-university transfer (IUT). Students must have a minimum of 2.000 cumulative University of Colorado GPA to be eligible for an IUT to the SEHD. Students should also be aware that, for teacher education licensure tracks, a minimum of a 3.000 cumulative University of Colorado GPA is required for admission to their final year, the Professional Year (students with a lower GPA may be considered under certain conditions; please see SEHD website).

Grade Appeals

Students must follow the process below.

1. Discuss concerns with the faculty member.
2. If the issue is not resolved after a conversation with the faculty member, the student may appeal to the SEHD Student Committee. The process for submitting a student appeal can be found here (<https://education.ucdenver.edu/academic-services/student-resources/>).

Special Grading Options

Courses taken as P+/P/F or S/U are subject to the same minimum grade standards as specified for the requirement. Students must earn a final grade of at least a C (2.0) in major courses and a B- (2.7) or above in licensure or endorsement courses within the major. Major licensure and endorsement courses requiring a B- or better are not permitted to be taken as P+/P/F or S/U grading.

In addition to the above, please consult the CU Denver policy covering the P+/P/F grading option (see the Registration and Records section of this catalog) for P+/P/F limits and application to general education courses.

Note: Effective Summer 2023 courses that were previously graded on the basis of Pass/Fail (P/F) are now graded with Satisfactory/Unsatisfactory (S/U). This is based on faculty approval of APS 1025 in May 2022.

Students still have the option to use the P+ grading system (P+/P/F) by student selection for elective courses up to the maximum allowed by their program.

Incomplete Grade

Students who wish to request a grade of Incomplete ("I"), should refer to the SEHD Course Completion Agreement for Incomplete Grade. The full policy and form are available on the SEHD Student Resources webpage (<https://education.ucdenver.edu/academic-services/student-resources/>).

Attendance Policy

Students are required to attend classes, including online classes, on a regular basis. Absences must be arranged with the instructor in advance and must conform to university and instructor policies on attendance.

Course Repeat Policy

Students may repeat any course. All courses, including repeated courses, remain on the transcript and all grades are included in the student's University of Colorado GPA calculation. Course credit toward graduation

is counted only once for a typical course, no matter how many times the course is repeated. Some types of courses (e.g. Internships, Independent Studies, etc.) may be repeatable for applicable credit within a certain range of total semester hours. Special Topics courses may be repeatable for applicable credit within a certain range of total semester hours, as long as the topic is different. See course descriptions for the maximum semester hours applicable from each course.

Teacher education courses must be passed within the first two attempts of the course. Exceptions will be considered through a petition process. Students should consult with their advisors about this process.

Credit for Prior Learning & Experience

We recognize learning occurs outside of the traditional academic environment, and we have a process that offers undergraduate students the opportunity to earn credits for this learning. Students can earn up to 15 credits, 9 for Early Childhood workforce trainings/credentials and up to 6 for field experience.

School of Education undergraduate students interested in these credits should reach out to their Academic Advisor for more information.

Credit for Prior Learning & Experience credits can be applied to School of Education undergraduate degrees, but the application and transferability of these credits to other degrees at CU Denver or other universities/colleges is not guaranteed.

Culturally & Linguistically Diverse Education (CLDE)

CLDE 1000 - Language, Identity, & Power: International Perspectives (3 Credits)

This course explores the relationship between language, identity, and power in various international contexts. The course considers how legacies of inequality for particular communities are reflected in societal attitudes about languages and language users and subsequent language planning. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

CLDE 2000 - CLDE Foundations (3 Credits)

This CLDE foundations course includes an overview of history and legislation related to bilingual education and second language education, and provides an overview of essential linguistics for educators and bilingual language development and assessment. Max hours: 3 Credits.

Grading Basis: Letter Grade

CLDE 3830 - Culturally and Linguistically Responsive Teaching through STEM (3 Credits)

In this course, you will develop your ability to plan for the opportunities and challenges for language development during science and math learning in preK-12 education settings. In doing so, you will develop linguistically responsive teaching practices for all subjects. Prereq or coreq: EDHD 3930 and SPED 4030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: EDHD 3930 and SPED 4030

CLDE 4020 - Responsive Classroom Communities (3 Credits)

This course investigates how people learn and the implications of social and cultural learning for establishing engaging and culturally responsive learning communities. Through this course teacher candidates will better understand their roles in student learning and how their own cultural lenses impact their relationships with students and families, and influence student success in the classroom. Cross-listed with CLDE 5020.

Prereq: EDFN 4010. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor EDST-MIN or CLAS secondary students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: EDFN 4010. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor EDST-MIN or CLAS secondary students.

CLDE 4700 - Social Studies for Multilingual Learners (3 Credits)

Participants will use a social justice lens to investigate the content and language demands of the four disciplines of social studies: History, Civics, Geography and Economics. This class focuses on Social Studies methods as well as essential practices for teaching multilingual students. Restriction: Restricted to students in Education and Human Development with between 40 and 180 cumulative credit hours. Cross-listed with CLDE 5700. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 40 and 180 cumulative credit hours.

CLDE 4835 - Special Topics: Culturally and Linguistically Diverse Education (1-3 Credits)

Advanced study of special topics that examine multilingualism, cultural pluralism, and community in Culturally and Linguistically Diverse Education. Repeatable. Max hours: 9 credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Early Childhood Education (ECED)

ECED 1202 - Child Guidance and Classroom Community (3 Credits)

This course presents evidence-based classroom strategies to promote social competence, build classroom community and reduce or prevent behavior problems. Emphasis is placed on understanding child development and observing behavior to make decisions for children ages birth through age 8. Cross-listed with ECED 4202. Typically offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ECED 2000 - Early Childhood Education as a Profession (3 Credits)

This course provides an overview of the ECE profession and its philosophical and historical foundations. Trends in early childhood care and education and professionalism are examined. Topics include developmental domains and appropriate practices, curriculum models, guidance strategies, family and community relationships, diversity and inclusion, and leadership skills to support quality early care and education work settings. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 2930 - Infant & Toddler Field Experience & Seminar (3 Credits)

ECED 2930 is designed to support teacher candidates in making theory-to-practice connections, focused on understanding infant and toddler development. Students will spend one day per week in an infant-toddler classroom and engage in a weekly seminar to mediate learning. Prereq or coreq: ECED 4070. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: ECED 4070. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours

ECED 4010 - Inquiry and the Disciplines (3 Credits)

This course introduces students to the role, value and practices of inquiry in early childhood education and explores the integration of the visual arts and creative expression with the disciplines of mathematics, literacy, science, social studies, as well as young children's approaches to learning. Restriction: Professional Year Admission required for licensure students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required for licensure students. EDHD-BA-ECO or ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4020 - Science for P-2 Classrooms (3 Credits)

Focuses on teaching science in preschool, kindergarten and primary grades, including knowledge of state and district science content standards, process standards, assessment, effective instructional strategies, evidence-based practice for adapting the curriculum for diverse learners, and appropriate use of materials. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4030 - Nutrition, Health, and Safety (3 Credits)

This course focuses on nutrition, health, and safety as a key factor for optimal growth and development of young children. Content includes nutrient knowledge, menu planning, food program participation, health practices, management and safety, appropriate classroom activities and communication with families. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4040 - Administrative Seminar (3 Credits)

Emphasizes topics required of administrators to effectively lead and manage early childhood inclusive classrooms or other related programs including leadership capacity, professionalism, administration, teaming/collaboration, communities of practice, staff management, safety, and professional development. Cross-listed with ECED 5040. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4050 - Early Childhood Education Capstone: Planning, Instruction & Assessment (3 Credits)

This is the second course in this two-course sequence where students examine the essential features of instructional and curriculum design of developmentally appropriate and culturally sustaining inquiry based learning experiences, implementation, and assessment in the teaching and learning of young children. Prereq: ECED 4010. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECED 4010. Restriction: Professional Year Admission Required. ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4060 - Working with Families, Professionals, and Communities (3 Credits)

The focus of this course is on the human relations component of an early childhood professional's responsibilities. Course content includes family-centered practice, culturally-responsive practices, home-school partnerships, staff development and communication, collaborative teaming and community interaction. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4070 - Development and Education of Infant and Toddlers (3 Credits)

Focuses on the growth and development of infants and toddlers; responsive caregiving practices; observing development; relationship-based approach to curriculum and guidance; health, safety, and nutrition issues. Investigates state requirements for licensed infant/toddler homes and centers and accreditation and quality standards. Prereq or coreq: ECED 2930. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: ECED 2930. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours

ECED 4102 - Developmentally Appropriate Curriculum Methods and Techniques (3 Credits)

Overview of early childhood curriculum development including processes for planning and implementing developmentally appropriate environments, materials, and experiences. Examines curriculum models and approaches for promoting development and learning in all developmental domains. Evidence-based practices for assessing young children. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4200 - Assessment for Early Childhood Classrooms (3 Credits)

This course reviews observation/assessment of young children—purpose, tools, and methods for children birth-age 8. Defines measurable outcomes, progress monitoring and use of assessment data to improve early intervention, curriculum planning, intentional teaching, instructional design, and monitor child outcomes. Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours

ECED 4202 - Child Guidance and Classroom Community (3 Credits)

This course presents evidence-based classroom strategies to promote social competence, build classroom community and reduce or prevent behavior problems. Emphasis is placed on understanding child development and observing behavior to make decisions for children ages birth through age 8. Cross-listed with ECED 1202. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4300 - Exceptional Learners in the Early Childhood Classroom (3 Credits)

Educating young children with disabilities in the early childhood setting: typical and atypical development, theoretical models, policy and legal requirements, evidence based research related to instructional design, intervention/curriculum planning and implementation. Introduction to embedded instruction and inclusive environments. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU or EDHD-BA-ECO

ECED 4410 - Coaching for Early Childhood Professionals: Foundations (3 Credits)

The Foundations course focuses on learning, understanding and using relationship and evidence-based coaching skills in early childhood settings. Students will practice the fundamentals of coaching using a systematic, individualized, reflective approach and sharing experiences with others in the course. Cross-listed with ECED 5410. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4420 - Coaching Early Childhood Professionals: Awareness (3 Credits)

The Awareness course focuses on increasing coaches' skills at introspection, thoughtful planning, intentional application of coaching knowledge and skills, and continuous improvement. Students will integrate skills with effective application in class and real life coaching experiences, managing progress and accountability. Cross-listed with ECED 5420. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4430 - Coaching for Early Childhood Professionals: Attuning (3 Credits)

The Attuning course will integrate skills from the Foundations and Awareness courses to complete the EC Coaching Certificate. Students practice refining and altering coaching based on needs and readiness. Students learn sustainable organizational change that embed coaching in all professional practice. Cross-listed with ECED 5430. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4650 - Dual Language Learners Learning and Development (3 Credits)

The course will review current research on the learning and development of young dual language learners (birth through 8) and the classroom environments and instruction that can promote their learning. The course uses a socio-cultural framework to view children's learning. Cross-listed with ECED 5650. Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours

ECED 4800 - Workshop: Topics in Early Childhood Education (1-4 Credits)

Topics and credit hours vary from semester to semester. Cross-listed with ECED 5800. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

ECED 4931 - Internship I & Collaborative Learning Community (2 Credits)

ECED 4931 is the first of 3 internships in the professional year of the ECE program plan that provides the necessary learning opportunities for candidates to gradually develop their practice in order to be licensed as an early childhood educator. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4932 - Internship II & Collaborative Learning Community (2 Credits)

ECED 4932 is the second of 3 internships in the professional year of the ECE program plan that provides the necessary learning opportunities for candidates to gradually develop their practice in order to be licensed as an early childhood educator. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4933 - Internship III & Collaborative Learning Community (2-8 Credits)

ECED 4933 is the final internship in a series of three completed during the professional year of the ECE program plan that provides the necessary learning opportunities for candidates to gradually develop their practice to be licensed as an early childhood educator. Cross-listed with ECED 5933. Restriction: Professional Year Admission required.

Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU or EDHD-BA-ECO

ECED 4934 - Extended Internship & Collaborative Learning Community (1-8 Credits)

ECED 4934 is an extended internship that supports students who need extended time in an internship in order to complete their ECE program and fully develop their practice in order to be licensed as an early childhood educator. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Educational Foundations (EDFN)**EDFN 1000 - Equality, Rights & Education (3 Credits)**

Examines the history of U.S. public schooling through landmark court cases. Investigates/analyzes how apartheid came to be institutionalized, how forces of desegregation achieved a series of momentous victories, and how those victories have been undermined through the resegregation of schools. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

EDFN 1010 - Lived Experiences and 21st Century Skills: An Introduction (1-5 Credits)

This internship course introduces the idea of 21st century skills embedded in various learning contexts and connecting them with lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall.

EDFN 1111 - First Year Seminar (3 Credits)

Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

EDFN 2030 - Lived Experiences and 21st Century Skills: Academic and Professional Skills (1-5 Credits)

This internship course connects 21st century skills embedded in academic and professional learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

EDFN 2060 - Lived Experiences and 21st Century Skills: Innovation and Critical Thinking (1-5 Credits)

This internship course connects 21st century skills embedded in innovation and critical thinking learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 2080 - Lived Experiences and 21st Century Skills: Global Literacies (1-5 Credits)

This internship course connects 21st century skills embedded in Global Literacies rich learning contexts with students' lived experiences. Internship activities include entry level career and experiences workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 3010 - Lived Experiences and 21st Century Skills: Wilderness Medicine in Outdoor Education (1-6 Credits)

The course provides educators who integrate outdoor education in their teaching a theoretical knowledge of and practical application of wilderness medicine care, risk management in remote and austere environments. Students build self-awareness and critical thinking through reflective exercises in personal risk management, leadership, and decision making. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

EDFN 3020 - Lived Experiences and 21st Century Skills: Environmental and Civic Literacies (1-5 Credits)

This internship course connects 21st century skills embedded in Environmental and Civic Literacies learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 3070 - Lived Experiences and 21st Century Skills: Digital Literacies (1-5 Credits)

This internship course connects 21st century skills embedded in digital literacies learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 3090 - Lived Experiences and 21st Century Skills: Social Emotional Learning (1-5 Credits)

This internship course connects 21st century skills embedded in Social Emotional rich learning contexts with students' lived experiences. Internship activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 4001 - Problematizing Whiteness: Educating for Racial Justice (3 Credits)

Critical Whiteness Studies provides a deeper analysis of race that accounts for both sides of the race coin: the plight of people of color AND how Whites are complicit. This class looks deeper into how race operates within White contexts and how that impacts people of color so we bridge how Whites AND people of color can work together towards a racially equitable society. Cross-listed with ETST 4010 and EDFN 5001. Max hours: 3 Credits.

Grading Basis: Letter Grade

EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education (3 Credits)

This course focuses on the role of cultural diversity in the United States school system and what this means for educators oriented toward social justice. The intention of this course is to have teacher candidates engage in exploring the most salient issues surrounding education in the United States, developing an understanding of the complex relationships between schools and the larger society of which they are a part. This course closely examines important contemporary and historical societal issues such as race, social class, gender, ethnicity, sexual identity, politics, and dynamics of power and privilege. Cross-listed with EDFN 5010. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor, Teacher Education Minor or CLAS secondary students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor, Teacher Education Minor or CLAS secondary students.

EDFN 4040 - Lived Experiences and 21st Century Skills:

Collaboration (1-5 Credits)

This internship course connects 21st century skills embedded in collaborative learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 4050 - Lived Experiences and 21st Century Skills:

Communication (1-5 Credits)

This internship course connects 21st century skills embedded in communication learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

Education & Human Development (EDHD)

EDHD 1019 - Introduction to Urban Education (3 Credits)

In this course you will examine the sociological issues related to urban schools, communities, and teaching. We will look at such topics as school culture, diversity, ethnicity, and social realities in American schools. Students will critically examine current education issues that affect their lives, their local community, and P-12 classrooms throughout the state and the country. Max hours: 3 Credits.

Grading Basis: Letter Grade

EDHD 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshmen level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

EDHD 1930 - Community Based Field Experience & Seminar (3 Credits)

Students learn the dispositions of a community-grounded educator and develop an asset-based lens for working with students, families, and communities through 60 hours of required field experience and a mediated seminar. Max hours: 3 Credits.

Grading Basis: Letter Grade

EDHD 2050 - Current Topics in Education and Human Development (1-3 Credits)

Current topics that explore community and educational settings in Education and Human Development (EDHD) to be selected by the instructor. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

EDHD 2840 - Independent Study in Education & Human Development (1-6 Credits)

Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

EDHD 2910 - Service Learning in Education and Human Development (1-4 Credits)

This course prepares our students to become responsible and resourceful citizens who partner with community organizations and work to serve a wide range of needs and issues within culturally and linguistically diverse environments. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

EDHD 2930 - Learning & Development Field Experience & Seminar (2-3 Credits)

Teacher candidates engage in field experience 2, half-days per week in early childhood and primary classrooms working with children to support literacy learning while also observing, documenting and reflecting on how learning & development is facilitated. Prereq or coreq: LCRT 3720 and LCRT 4710. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: LCRT 3720 and LCRT 4710. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours

EDHD 3930 - Diverse Learners Field Experience & Seminar (3 Credits)
EDHD 3930 is a comprehensive clinical block field experience designed to support teacher candidates' learning of issues and practices relevant to students with disabilities and English language learners. A seminar will mediate teacher candidates' experiences from their various classroom settings. Prereq or Coreq: SPED 4030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPED 4030.

EDHD 4050 - Special Topics in Education and Human Development (1-3 Credits)

Advanced study of special topics that examine community and educational settings in Education and Human Development (EDHD) to be selected by the instructor. Maybe repeated for credit. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Instructional Technology (INTE)

INTE 2000 - Digital Teaching and Learning (3 Credits)

Survey of technology for: (1) your own learning, informally and in classes; (2) your students' learning when you become a teacher; and (3) sharing with peers and colleagues. Use tools to address problems of equity, access, and learning needs. Max hours: 3 Credits.

Grading Basis: Letter Grade

INTE 2500 - #Learning: Digital Spaces and Far Out Places (3 Credits)

Digital media have transformed where, how, and why people learn. In this course we examine contemporary developments in digital media and learning. and explore topics such as social networking and media, virtual and augmented reality, civic media, gamified learning, and mobile learning. This is a hands-on and minds-on course where we immerse ourselves in digital spaces to build projects that support our civic, communication and collaboration, and creative interests. Come and learn to use digital media to enhance your life, community, and beyond! Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

INTE 3000 - Maker Studio (3 Credits)

The maker studio is a collaborative practicum within the context of maker culture, project based learning, and learning experience design. The course focuses on the practical translation of learning design theory to learning design reality, presenting learners with challenges to be resolved with creative solutions. Max hours: 3 Credits.

Grading Basis: Letter Grade

INTE 4010 - Humanizing Learning Design (3 Credits)

Humanizing Learning Design considers and respects learner diversity, including differences in ability and personal background. Students critique and create course materials that are mindful of the whole person, align with accessibility standards and follow universal design guidelines.

Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4100 - Learner-Centered Instructional Design (3 Credits)

Instructional design is the process used to analyze, design, develop, and evaluate learning solutions. You will identify a gap in learning or performance and design a learning solution in the form of courses units, modules, and other instructional resources. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4300 - Critical Digital Literacies (3 Credits)

Critical Digital Literacies surveys intersections among literacy studies, digital media, and critical education. The course blends theory with practice, and design with leadership, to immerse students among the communities, developments, and debates pertinent to critical digital literacies. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5300. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4320 - Games and Learning (3 Credits)

This course examines the use of games for learning and education across formal and informal environments. Students will survey contemporary learning theory, media, trends, and challenges related to designing and playing games in informal, community-based, online, and school settings. Cross-listed with INTE 5320. Restriction: Restricted to Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4340 - Learning with Digital Stories (3 Credits)

This course reviews the uses of digital storytelling for learning. Develop and publish a short digital story that tells something important about you and your interests. Explore ways that creating or using digital stories can aid learning and personal growth. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5340. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4660 - Developing Self-Paced Online Modules (3 Credits)

Students use a variety of tools and strategies to develop self-paced eLearning courseware, such as tutorials. The course covers critical aspects of the instructional development process that support the creation of effective self-paced online learning experiences, materials and resources. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5660. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4680 - Producing Media for Learning (3 Credits)

Students develop and integrate media resources into eLearning environments, applying principles of media selection and multimedia learning. Students explore a variety of tools for producing audio, video, and multimedia content and examine ways to enhance eLearning courses through multimedia presentation and engagement resources. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5680. Max hours: 3 Credit Hours.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4711 - Creative Designs for Instructional Materials (3 Credits)

This course is a project-based exploration of design theories, principles, and best practices for communicating information to diverse learning audiences. Students apply unique design approaches and formats to the creation of materials for teaching, learning, and being of service to underrepresented communities. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5711. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Literacy, Language & Culturally Responsive Teaching (LCRT)

LCRT 2000 - Rebels, Villains, & Superheroes: How Children's Literature Shapes Our Identities (3 Credits)

This course explores both classic and contemporary children's and adolescent literature and media in traditional and digital texts, specifically focusing on developing literary understandings, exploring perspectives and personal responses to literature, and inquiring into trends and issues. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities.

LCRT 3720 - Introduction to Writing Development and Teaching (3 Credits)

This course introduces students to writing development in children from early childhood through 5th grade. Students will learn how to analyze student writing for strengths and needs in order to design effective writing instruction. Prereq or coreq: EDHD 2930 and LCRT 4710. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: EDHD 2930 and LCRT 4710. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours.

LCRT 3815 - Once Upon a Time: Family Literacies in Culturally Diverse Communities (3 Credits)

This course uses sociocultural theory and perspectives as these relate to family systems and the intersection of culture, literacies, and education. Students develop an understanding about the ways reading, writing and language are embedded in family's homes, schools, and communities. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

LCRT 4000 - Elementary Literacy Instruction and Assessment Part 1 (3 Credits)

This course develops an appreciation, understanding, and application of literacy assessment and instruction in PK-6 classrooms. Interns learn how to use various types of assessment and instruction for reading and writing that address the literacy needs of PK-6 Students. Cross-listed with LCRT 5000. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4001 - Elementary Literacy Instruction and Assessment Part 2 (3 Credits)

This course develops an appreciation, understanding, and application of literacy assessment and instruction in PK-6th classrooms. Interns learn how to use various types of assessment and instruction for reading and writing that address the literacy needs of PK-6th Students. Cross-listed with LCRT 5001. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4100 - Secondary Literacy Instruction and Assessment (3 Credits)

Provides knowledge and practice in using specific literacy methods to enhance students' content learning and literacy development in middle schools and high schools. Various methods of literacy assessment to guide instruction for students are emphasized. Instructional strategies for special populations, especially speakers of English as a second language, are also addressed. Cross-listed with LCRT 5100. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4200 - Theory and Methods of Teaching Secondary English (3 Credits)

Focuses on teaching/learning theories and practical classroom strategies for teaching English Language Arts to adolescent learners in middle school, junior high school and high school classes. Cross-listed with LCRT 5200. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4201 - Teaching and Learning with Diverse Adolescent Literature (3 Credits)

LCRT 4/5201 is grounded in the belief that individuals are more motivated to read when given choices about what they read. This course provides the opportunity to read a range of diverse adolescent literature in a variety of genres including fiction, non-fiction, novels in verse, graphic novels, and consider implications for teaching and learning. Restriction: Professional Year Admission required. Cross-listed with LCRT 5201. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4210 - Literacy Development Pre K-3rd Grade (3 Credits)

Focuses on children's developing literacy understandings and proficiencies beginning in the preschool years. Attention is given to language development, assessment, and instruction in pre-kindergarten through third grade, partnerships with community literacy institutions provide information on their use for literacy development. Cross-listed with LCRT 5210. Max hours: 3 Credits.

Grading Basis: Letter Grade

LCRT 4220 - Literacy Routines & Assessment, Pre K-3rd Grade (3 Credits)

This course will focus on the routines and practices which allow for student specific instruction and assessment in the Early Literacy classroom. Participants will examine and critique current literacy routines and assessments needed to best meet the needs of culturally and linguistically diverse children. Cross-listed with LCRT 5220. Max hours: 3 Credits.

Grading Basis: Letter Grade

LCRT 4230 - Early Literacy Instruction (3 Credits)

Participants will examine Pre K-3rd grade literacy instruction to understand how to meet the needs of young students. The course will analyze instructional practices for young gifted, special needs and English language learning students to best meet the needs of all learners. Cross-listed with LCRT 5230 Max hours: 3 Credits.

Grading Basis: Letter Grade

LCRT 4710 - Inclusive Early Literacy Development and Instruction (3 Credits)

LCRT 4/5710 provides a scientifically informed foundation in early literacy acquisition and instruction in PreK-3 with attention to responsive and inclusive instruction for MLLs. It presents key conceptual and research foundations of the Science of Reading needed to understand how reading develops and how to deliver effective literacy instruction.

Prereq or coreq: EDHD 2930 and LCRT 3720. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Cross-listed with LCRT 5710. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: EDHD 2930 and LCRT 3720. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours.

LCRT 4720 - Responsive Writing Instruction (3 Credits)

LCRT 4/5720 presents current theories of writing development and instruction as they relate to classroom practices and researched-based literacy instruction. The course prioritizes connections between reading comprehension and writing to prepare teachers to examine inclusive and responsive instruction, assessment, and literacy development.

Restriction: Professional Year Admission required. Students must be enrolled in the following plan EGLH-LICU. Cross-listed with LCRT 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in the following plan: EGLH-LICU.

Math Education (MTED)

MTED 3040 - Mathematics for Elementary Teachers (3 Credits)

Key mathematical concepts for K-6 teachers informed by NCTM & Common Core State Standards, such as place-value number systems, rational, proportional, & algebraic reasoning, geometrical concepts, & statistical/probability ideas. Students' meaningful, enjoyable learning is promoted via problem solving activities. Cross-listed with MTED 5400. Max hours: 3 Credits.

Grading Basis: Letter Grade

MTED 4002 - Elementary Mathematics Teaching I (3 Credits)

Prepares elementary teachers to teach mathematics to PreK-6 students while applying principles of the National Council of Teachers of Mathematics to mathematical learning. Teachers explore ways to help all elementary students become flexible and resourceful mathematical problem solvers. Cross-listed with MTED 5002. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

MTED 4003 - Elementary Mathematics Teaching II (3 Credits)

Develops the mathematical and pedagogical understandings and competence of elementary teachers, focusing on instructional assessment, principles, and practices. Cross-listed with MTED 5003.

Prereq: MTED 4002 or MTED 5002. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MTED 4002 or 5002. Restriction: Professional Year Admission Required. ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

MTED 4621 - A World of (Different) Numbers: Quantity and Operation (3 Credits)

Develops K-12 teachers' understanding of number systems and the ability to foster students' understanding. Focuses on number, quantity, and operation. Applicable to teaching students at all grade levels in line with the K-12 Common Core Standards. Cross-listed with MTED 5621. Max hours: 3 Credits.

Grading Basis: Letter Grade

MTED 4622 - Expanding Conceptions of Algebra (3 Credits)

Develops K-12 teachers' understanding of algebra concepts and the ability to foster students' understanding. Focuses on equivalence, variable, covariation, and function. Applicable to teaching students at all grade levels in line with the K12 Common Core Standards. Cross-listed with MTED 5622. Max hours: 3 Credits.

Grading Basis: Letter Grade

MTED 4623 - Geometrical Ways of Reasoning (3 Credits)

Develops K-12 teachers' geometrical reasoning and the ability to foster students' reasoning. Addresses transformation, measurement, classification, objects, imagery, formulas, and investigation. Applicable to teaching students at all grade levels in line with the K-12 Common Core Standards. Cross-listed with MTED 5623. Max hours: 3 Credits.

Grading Basis: Letter Grade

Science Education (SCED)

SCED 4004 - Elementary Science Teaching (3 Credits)

This course explores issues in elementary school science learning and teaching. Teacher candidates will develop knowledge of the nature of science and science content, engage in scientific inquiry, work to identify student conceptions, and plan and enact science instruction. Cross-listed with SCED 5004. Restriction: Professional Year Admission required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SCED 4050 - Introduction to Science Teaching and Learning (2 Credits)

Focus on conceptual development, conceptual change, collaborative learning, students' conceptions of various topics in science, practical issues encountered in facilitating learning, managing the classroom, formative and summative assessment, and differentiating instruction in a collaborative environment. Seminar for Learning Assistants. Student must be serving as a Learning Assistant in the CU Denver LA program. Max hours: 2 Credits.

Grading Basis: Letter Grade

SCED 4340 - Equity & Culture in Science Education: Local/Global (3 Credits)

This course examines literature in science education related to issues of culture and equity. Topics will be framed by an understanding of equity in diverse classrooms and how it informs research, curriculum and instruction. Cross-listed with SCED 5340 and ENVS 5340. Max hours: 3 Credits.

Grading Basis: Letter Grade

SCED 4350 - Issues and Trends in Science Education (3 Credits)

Explores the current issues and trends in science education related to theory, pedagogy, practices, curriculum, and other contemporary topics. Cross-listed with SCED 5350. Max hours: 3 Credits.

Grading Basis: Letter Grade

Special Education (SPED)

SPED 1030 - Understanding (dis)Ability in Contemporary Classrooms (3 Credits)

This course provides an overview of special education by examining the history of special education, construction of dis/ability, characteristics of individuals with disabilities, aspects of disproportionality, and introduction to evidence-based instructional practices. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPED 4010 - Intentional Interventions for Exceptional Learners (3 Credits)

This course provides instructional strategies and interventions for students with a wide variety of disabilities. Implications for targeted and intensive interventions and assessment are considered. Cross-listed with SPED 5010. Restriction: Professional Year Admission required. Max hours: 3 Credits

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms (3 Credits)

This course provides an overview of special education by examining the history of special education, construction of dis/ability, characteristics of individuals with disabilities, aspects of disproportionality, and introduction to evidence-based instructional practices. Prereq or Coreq: EDHD3930 or ECED4933 or ECED4934. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: EDHD3930 or ECED4933 or ECED4934

SPED 4140 - Assessment: Inquiry, Instruction, & Intervention (3 Credits)

Using a variety of assessment tools, students will focus on the educational assessment methods and procedures used in decision making and program planning for students with exceptional learning needs, with attention to pervasive issues pertaining to students from culturally and linguistically diverse backgrounds. Cross-listed with SPED 5140. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4151 - Slashing Stigmas: Promoting Positive Behaviors (3 Credits)

This course works to transform perspectives and practices related to supporting student behavior in classrooms. Students will learn important considerations related to culture, race, gender and socioeconomic status, as they intersect with behavior and social emotional development.

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours or students in the Education Studies Minor. Cross-listed with SPED 5151. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours or students in the Education Minor EDST-MIN

SPED 4300 - Family, Professional, and Community Collaboration (3 Credits)

Focuses on the development of competencies in consultation and collaboration. The overall purpose is to encourage the development of understanding and skills that enhance a teacher's ability to work and communicate effectively with school personnel, including paraprofessionals and parents. The goal of collaboration is to support and determine together the instructional scenarios that best meet the needs of students. Specific competencies include problem solving, conflict resolution, data collection or observation skills, conferencing, facilitating meetings, and interacting with others while respecting diverse discourses and multicultural backgrounds. Cross-listed with SPED 5300.

Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor.

SPED 4400 - Universal Design for Learning (UDL) (3 Credits)

This course introduces Universal Design for Learning (UDL), an important educational philosophy and set of principles & techniques that focuses on strategies and tools to help ALL students by accommodating their differences in inclusive classroom settings. Cross-listed with SPED 5000. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor.

SPED 4500 - Transition and Secondary Methods in Special Education (3 Credits)

This course provides school leaders and practitioner with an understanding of the special education transition process as specified by federal and state guidelines, as well as effective teaching and learning strategies for secondary youth with disabilities. Cross-listed with SPED 5500. Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours, and Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours, and Professional Year Admission required.

SPED 4600 - Special Education Law: Ethics and Compliance (3 Credits)

Designed for school leaders and professionals to understand special education law and compare and contrast service delivery options. Cross-listed with SPED 5600. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPED 4740 - Intersections of Literacy, Culture, & Exceptionality (3 Credits)

This course provides a foundational understanding of the complex intersections between literacy, culture, language, learning, and students with (dis)abilities. A primary goal is to address the particular needs of culturally and linguistically diverse learners with exceptionalities, while also exploring the distinctions between language development and learning disabilities. Cross-listed with SPED 5740. Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours

SPED 4780 - Literacy Intervention for Exceptional Learners (3 Credits)

Provides the practitioner with an understanding of research-validated approaches, strategies, assessment tools and issues related to effective literacy instruction for students performing significantly below grade level. Cross-listed with SPED 5780. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPED 4931 - Internship & Learning Community I (2 Credits)

SPED 4931 is the first internship in a series of three completed during the professional year of the SPED program providing the necessary learning opportunities for candidates to gradually develop their practice to be licensed as a special education teacher. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4932 - Internship & Learning Community II (2 Credits)

SPED 4932 is the second internship in a series of three completed during the professional year of the SPED program providing the necessary learning opportunities for candidates to gradually develop their practice to be licensed as a special education teacher. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4933 - Internship & Learning Community III (6 Credits)

SPED 4933 is the final internship in a series of three completed during the professional year of the SPED program providing the necessary learning opportunities for candidates to gradually develop their practice to be licensed as a special education teacher. Restriction: Professional Year Admission required. Max hours: 6 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

Science, Technology, Engineering & Math Education (STME)

STME 4001 - Planning for Learning in Mathematics and Science (3 Credits)

This course explores aspects of complex curriculum and instructional concepts through the lens of mathematics and science educators. A focus will include: Socio-cultural learning theory in Math and Science; standards-based instruction; instructional design; formative & summative assessment, and differentiation so that meaningful instruction becomes accessible to all students. Cross-listed with STME 5001. Max hours: 3 Credits.

Grading Basis: Letter Grade

STME 4051 - STEM Capstone: Secondary Education (3 Credits)

This course provides Secondary STEM Education students with a capstone learning experience that integrates knowledge of STEM content, students, and school context into socially-just and culturally responsive practices. Cross-listed with STME 5051. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

Urban Teacher Education (UEDU)

UEDU 1930 - Introduction to Socially Just Education (3 Credits)

This course examines sociological issues concerning urban schools, communities and provides an overview of school culture, diversity and social realities in American schools. Students will critically examine education issues that affect their lives, their community and classrooms throughout the country. Max hours: 3 Credits.

Grading Basis: Letter Grade

UEDU 4040 - Planning for Learning (3 Credits)

This course explores multiple aspects of student learning: Including 1) standards-based instruction 2) cultural responsive instructional design, 3) assessment and data, and 4) differentiation in curriculum and instruction so that meaningful instruction becomes accessible to all students. Restriction: Professional Year Admission required. Cross-listed with 5040. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU or EDHD-BA-ECO

UEDU 4050 - Capstone: Planning, Instruction & Assessment (3 Credits)

The purpose of this course is to re-visit multiple aspects of instructional and curriculum design, implementation, and evaluation. The goal is to promote access to knowledge for all learners, including those who are diverse linguistically and culturally and those identified with special needs. Restriction: Professional Year Admission required. Cross-listed with UEDU 5050. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4052 - English/LA & Social Studies Capstone: Secondary Ed (3 Credits)

Through teaching units of instruction in school placements, secondary English/LA and Social Studies teacher candidates learn both unit and lesson design, assessment of student learning, and differentiation of curriculum and instruction to promote access to knowledge for all learners. Cross-listed with UEDU 5052. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4464 - Methods of Teaching Social Studies (3 Credits)

One of two courses on linguistically and culturally relevant social studies teaching. Course content includes geography, economics, civics. Cross-listed with UEDU 5464. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4465 - Methods of Teaching History (3 Credits)

One of two courses on linguistically and culturally relevant history teaching. Cross-listed with UEDU 5465. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4840 - Independent Study (1-3 Credits)

Independent Study in Urban Community Teacher Education, Topic of study varies according to project. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

UEDU 4931 - Internship & Lrng Comm I (2 Credits)

Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the program handbook. Cross-listed with UEDU 5931. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4932 - Internship & Lrng Comm II (2 Credits)

Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the program handbook. Restriction: Professional Year Admission required. Cross-listed with UEDU 5932. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4933 - Internship & Lrng Comm III (2-6 Credits)

Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the program handbook. Restriction: Professional Year Admission required. Cross-listed with UEDU 5933. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

Typically Offered: Fall, Spring.

UEDU 4934 - Extended Internship & Learning Community (1-8 Credits)

Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, they participate in the activities of a professional learning community. Cross-listed with UEDU 5934. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Early Childhood Education License, BA - Rural Partnership with Lamar Community College

Introduction

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As an Early Childhood Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate early childhood teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Lamar Community College (LCC), you will benefit from a highly supportive program with a strong rural focus. T-PREP at LCC students complete the first half of their program at LCC and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and an Early Childhood Education teaching license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the LCC campus in Lamar, Colorado; (b) in boundaryless classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the Lamar Community College service region, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at LCC or CU Denver.

Program Delivery

- This is an on-campus program in Lamar, Colorado with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)

- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum total of 126 semester hours for the EDHD Early Childhood Education Track.
2. Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
3. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
4. A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Early Childhood Education requirements unless otherwise specified.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for all of the following major requirements:

Early Childhood Education License, BA - Rural Partnership with Northeastern Junior College

Introduction

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As an Early Childhood Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate early childhood teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Northeastern Junior College (NJC), you will benefit from a highly supportive program with a strong rural focus. T-PREP at NJC students complete the first half of their program at NJC and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and an Early Childhood Education teaching license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the NJC campus in Sterling, Colorado; (b) in boundaryless classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in Northeastern corner of Colorado, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at Northeastern or CU Denver.

Program Delivery

- This is an on-campus program in Sterling, Colorado with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)

- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 126 semester hours for the EDHD Early Childhood Education Track.
- Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
- Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
- A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Early Childhood Education requirements unless otherwise specified.
- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for all of the following major requirements:

Early Childhood Education License, BA - Rural Partnership with Otero College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As an Early Childhood Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate early childhood teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Otero College in La Junta, you will benefit from a highly supportive program with a strong rural focus. T-PREP at Otero College students complete the first half of their program at Otero and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and a teaching license with an endorsement in Early Childhood Education. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the Otero campus in La Junta; (b) in boundary less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the La Junta region, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at Otero College or CU Denver.

Program Delivery

- This is an on-campus program in La Junta with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

Early Childhood Education License, BA - Rural Partnership with Trinidad State College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As an Early Childhood Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate early childhood teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Trinidad State College (TSC), you will benefit from a highly supportive program with a strong rural focus. T-PREP at TSC students complete the first half of their program at TSC and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and an Early Childhood Education teaching license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the Trinidad or Alamosa campus; (b) in boundary less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the Trinidad or Alamosa region, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at TSC or CU Denver.

Program Delivery

- This is an on-campus program in Trinidad and Alamosa with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum total of 126 semester hours for the EDHD Early Childhood Education Track.
2. Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
3. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
4. A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Early childhood Education requirements unless otherwise specified.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Early Childhood Education Licensure Track, BA

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The ECE track has two options: Licensure and Non-licensure. Information regarding the Non-licensure track can be found here (p. 925).

The Early Childhood Education (ECE) track in the Education and Human Development major has a strong focus on engaging Colorado's rapidly diversifying student and family population. It combines research with contextually relevant classroom experiences. Together with your peers and professors, you will critically explore the robust and evolving knowledge base relevant to the field of early care and education as you engage with experiences that elevate your understanding of children's thinking, culturally sustaining pedagogy, inclusive curricular and environmental design, and assessment and documentation of children's learning. Our program's history of deeply responsive community partnerships creates compelling and supportive opportunities for students to fully experience, and become inspired, by the daily life of Colorado educators. All ECE track students have the opportunity to take all required courses to fulfill the State of Colorado's Director qualifications and become leaders in the field of early learning.

Licensure Track

Students who select the 126 credit hour licensure track fulfill all requirements for a license to teach children Birth-Age 8 in Colorado's school districts and community-based early childhood centers. This track prepares students to become teachers of children up through third grade. Field-based experiences take place in the School of Education's Professional Development network of partner schools.

Students in this track have the opportunity to apply for the Bachelors to Masters Program (p. 927) (BAMA) during their junior year. The BAMA allows students to take 9 credits of their professional year program at the graduate level and apply them to one of 8 MA degrees in the SEHD.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum total of 126 semester hours for the EDHD Early Childhood Education Track.
2. Students must pass the appropriate Praxis Exam or demonstrate competency through another option as outlined by the Colorado Department of Education in order to be licensed.
3. Application to the last year of the program, the Professional Year, is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website (<https://education.ucdenver.edu/academic-services/student-resources/undergraduate/>.)
4. A minimum GPA of 2.0, grade of C or better, is required for all major courses applying to EDHD - Early Childhood Education requirements unless otherwise specified.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Non-Licensure Track

A 120 credit hour track is ideal for students who currently and/or intend to work in community-based early childhood environments that serve children from infancy-age five years is also available.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/sehd/>).

Education and Human Development- Education and Learning Sciences, BA

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Learning Sciences track in the Education and Human Development BA provides opportunities for students to explore education and learning in contexts outside of teaching in schools. The program is designed to provide students with knowledge in current theories of learning, mind, brain, learning connections, theories of motivation, and designing strong learning environments. Students also complete multiple experiences in the field to support connections between practice and theory. This 120-credit hour track is ideal for students who are interested in education in roles outside of teaching including outdoor education and informal learning environments, museum learning, international teaching and non-profits to name a few.

Program Delivery

Community-Based Early Childhood, BA

Introduction

Please click here (p. 898) to see School of Education & Human Development information. The ECE track has two options: Licensure and Non-Licensure. Information regarding the Licensure Track can be found here (p. 922).

The Early Childhood Education (ECE) track in the Education and Human Development major has a strong focus on engaging Colorado's rapidly diversifying student and family population. It combines research with contextually relevant classroom experiences. You'll learn with innovative faculty members who are locally and nationally recognized for their research in early childhood education. Together with your peers and professors, you will critically explore the robust and evolving knowledge base relevant to the field of early care and learning as you engage with experiences that elevate your understanding of children's wonderings, culturally sustaining education, inclusive curricular and environmental design, and assessment and documentation of children's thinking and learning. Our program's history of deeply responsive community partnerships creates compelling and supportive opportunities for students to fully experience, and become inspired by, the daily life of educators in Colorado.

Community-based Early Childhood Education

The Community-based Early Childhood Education (ECE) track in the Education & Human Development BA focuses on the passion and commitment CU Denver students have to work in diverse community-based early childhood education settings supporting children ages birth-5 and their families. The program is designed for students who currently work in these settings or intend to become employed before they graduate within a community based early childhood context. A core principle of this pathway is accessibility of the BA for working early childhood professionals and those professionals with several years of prior experience in birth-five classrooms.

Program Features

The Community Based ECE BA is 120 credit hours. Unique features include:

- Courses are grounded in real-world ECE contexts and experiences with children and families in culturally, linguistically and racially diverse classroom settings.
- In-depth field-experiences throughout the program that take place in the ECE settings where you work. The intent is to make the program accessible for working early childhood professionals.
- If you are not currently employed, you can enroll in coursework and be placed in volunteer field experiences for the first two clinical field experience blocks (EDHD 1930 and ECED 2930). Students must be employed in an ECE birth-5 context by the time they enroll for EDHD 2930 (typically junior year) and for their final senior year of internships.
- Flexible transfer policies include the opportunity to bring in certificates and competencies that you have already achieved which

can be assessed for credit to potentially replace courses within the program.

- High engagement with faculty who have deep experience in local community contexts while also recognized for their work regionally, nationally and internationally in early childhood.
- Opportunity to collaborate with a broader network of Early Childhood educators who serve as coaches and instructors in the program.
- Save money and time by opting into BA to MA (BAMA). In BAMA, three classes you take during your senior year double count towards both your bachelor's and your master's degrees and are billed at the undergraduate tuition rate.

Together with your peers and professors, you will critically explore the robust and evolving knowledge base relevant to the field of early care and learning as you take courses and work in ECE contexts that elevate your understanding of children's wonderings, culturally sustaining education, inclusive curricular and environmental design, and assessment and documentation of children's thinking and learning. Our program's history of deeply responsive community partnerships creates compelling and supportive opportunities for students to fully experience, and become inspired by, the daily life of Early Childhood educators in Colorado.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 120 semester hours for the EDHD - Community-Based Early Childhood Education BA Track
2. A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Early Childhood non-licensure requirements unless otherwise specified.
3. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Code	Title	Hours

ECED 4933	Internship III & Collaborative Learning Community ¹	8

General Electives

Additional courses may be needed to reach the required 120 hours for the BA

Total Hours **59**

¹ Courses require a grade of B- or better; all other courses require a grade of C or better.

Notes

An ECE Licensure track is also available for students interested in fulfilling the State of Colorado's ECE licensure requirements.

Students who select the 126 credit hour licensure track fulfill all requirements for a license to teach children Birth-Age 8 in Colorado's school districts and community-based early childhood centers. This track prepares students to become teachers of children up through third grade. Field-based experiences take place in the School of Education's Professional Development network of partner schools. Please see Early Childhood Education BA - Licensure Track (p. 922) for more information.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/sehd/>).

Education and Human Development BAMA with Multiple MA Options

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The EDHD BA to MA program (BAMA) in the School of Education and Human Development allows students to combine their BA in Education and Human Development with an MA suited to their needs. In this degree students can complete both the undergraduate degree and a master's degree in as little as five years.

This program is an uninterrupted enrollment plan that leads to both a bachelor's degree and a master's degree. A student follows a prescribed BA to MA program plan of study, from the EDHD BA and choosing from one of eight MA degree options:

- Culturally and Linguistically Diverse Education
- Literacy Education
- STEM Education
- Learning, Design and Technology
- Learning Developmental and Family Studies
- Early Childhood Education
- Special Education
- Research and Evaluation Methods

Program Delivery

- This is an on-campus program with a variety of delivery options for many courses including face-to-face, hybrid, evening, and online courses.

Declaring This Degree

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. To earn this degree, students must satisfy all requirements in the EDHD BA in addition to individual requirements for the chosen MA.
2. Up to nine credits of the EDHD BA will be taken at the master's level and apply to both the BA and the chosen MA.
3. Students will complete an additional 21 credits to finish the MA degree (the BAMA does not apply to added endorsements).
4. Students must select and apply to their chosen MA in their junior year during the professional year application period.
5. The process includes an essay, letters of recommendation and an interview.

6. A 3.0 GPA and good-standing in the program is required for admission.
7. Students interested in the BA to MA program should meet with an undergraduate academic advisor during their junior year. Students apply directly to CU Denver's School of Education & Human Development.
8. Students accepted into the BAMA must maintain a minimum 3.0 cumulative grade point average and receive a B- or better in all coursework.

Tuition and Fees

Graduate level tuition is on par with undergraduate tuition. Students are assessed tuition at the course level. Financial aid awards will cover graduate courses taken by undergraduate students. We offer a variety of scholarships and grants. For a complete list of financial aid opportunities visit www.ucdenver.edu/education/scholarships (<http://www.ucdenver.edu/education/scholarships/>).

Degree Confirmation

Students are eligible to receive the BA in Education and Human Development degree once they have successfully completed 126 semester hours and all CU Denver undergraduate degree requirements. The MA will be conferred once the student has completed all requirements for the Master of Arts degree. Students have 7 years from the semester in which the first graduate-level course was taken complete the MA.

Eight Master's Degree Options

Culturally and Linguistically Diverse Education

For those who are passionate about elevating the status of bilingualism and inclusivity in classrooms and championing the strengths and assets of children who speak and are learning multiple languages, this degree is the perfect option.

Early Childhood Education

This degree is for those who have a passion for working with young children, families and communities during the critically important stage of early childhood. The program prepares highly competent professionals who are leaders and advocates known for embracing the whole child in inclusive, culturally and linguistically diverse settings.

Learning Design & Technology

Students will complete fully online courses that address relevant, emerging learning technology topics such as active and experiential pedagogy, media and maker projects, integration of technology, blended and online learning, open educational resources, digital storytelling, creative instructional materials design, and technology adoption and leadership.

Learning, Developmental and Family Sciences

Through this program, you will be prepared to view culturally and linguistically diverse families from a strengths-based perspective and to serve them in a variety of contexts. Students will learn to facilitate the teaching/learning process and to lead and work in community-based environments.

Literacy Education

Literacy is often understood as a core competency and a gateway to all other learning. With this in mind, this degree provides educators with advanced knowledge and preparation to work with diverse student

populations, K-12, as they develop reading, writing and oral language skills.

Research & Evaluation Methods

Our students come from a wide variety of backgrounds, but have the common thread of questioning status quo and striving to explore 'what works' in order to improve our educational system. This program is very practitioner-focused. There is a strong focus on improvement and evaluation of current practices, programs and policies.

Special Education

This degree prepares candidates for a holistic representation and understanding of the students from an academic and behavioral perspective. In the program, you will not only learn ways to accommodate, differentiate and assess materials for students, but you will also understand how to manage a caseload of students. From working with families to teachers to agencies, you will be able to develop skills in collaboration, consultation and transition. As a result, you will be an asset to your building and the families/students you serve.

STEM Education

When you decide to pursue this degree, you will learn practical and valuable knowledge and skills to help you engage your students in exciting STEM content. Our program focuses on understanding students' ideas, creating equitable STEM learning environments, assessing students' needs and providing high-quality instruction.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/sehd/>).

Elementary Education License, BA - Rural Partnership with Northeastern Junior College

Introduction

Please click here (https://ucdenver.acalogadmin.com/preview/preview_entity.php?catoid=28&ent_oid=1670&returnto=8210) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As an Elementary Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Northeastern Junior College (NJC), you will benefit from a highly supportive program with a strong rural focus. T-PREP at NJC students complete the first half of their program at NJC and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and an Elementary Education teaching license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on NJC's campus in Sterling, Colorado; (b) in boundary less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in Northeastern Colorado, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at NJC or CU Denver.

Program Delivery

- This is an on-campus program in Sterling, Colorado on the Northeastern Junior College campus with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 126 semester hours for the EDHD Elementary Education Track.
- Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
- Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website (<https://education.ucdenver.edu/academic-services/student-resources/undergraduate/>)).
- A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Elementary Education requirements unless otherwise specified.
- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for **all** of the following major requirements:

Code	Title	Hours
Major Requirements to Transfer		
EDHD 1930	Community Based Field Experience & Seminar	3
SPED 4030	Understanding (dis)Ability in Contemporary Classrooms	3

Elementary Education with CLDE Added Endorsement, BA

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development major with an Elementary license focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in elementary education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, and supporting English language learners, as well as technology as it relates to teaching children in grades kindergarten through sixth grade. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

We will prepare you to become a highly effective, innovative and compassionate elementary teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

A unique feature of this pathway is that the Culturally Linguistically Diverse Education, CLDE, endorsement is built into the program. Essentially, you will leave this program with both the Elementary Education License and CLDE Endorsement. This means you are prepared to teach K-6 and culturally & linguistically diverse students, making you highly employable and desirable to schools!

Students in this track have the opportunity to apply for the Bachelors to Masters Program (p. 927) (BAMA) during their junior year. The BAMA allows students to take 9 credits of their professional year program at the graduate level and apply them to one of 8 MA degrees in the SEHD.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 126 semester hours for the EDHD Elementary Education Track.
- Students must pass the appropriate Praxis Exam or demonstrate competency through another option as outlined by the Colorado Department of Education in order to be licensed.
- Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website (<https://education.ucdenver.edu/academic-services/student-resources/undergraduate/>.)
- A minimum GPA of 2.0, grade of C or better, is required for all major courses applying to EDHD - Elementary Education requirements unless otherwise specified.
- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Elementary Education, BA - Rural Partnership with Lamar Community College

Introduction

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As an Elementary Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Lamar Community College (LCC), you will benefit from a highly supportive program with a strong rural focus. T-PREP at LCC students complete the first half of their program at Lamar and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and an Elementary Education teaching license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the Lamar campus; (b) in boundary less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the Lamar region, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at LCC or CU Denver.

Program Delivery

- This is an on-campus program in Lamar, Colorado with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)

- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 126 semester hours for the EDHD Elementary Education Track.
- Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
- Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website (<https://education.ucdenver.edu/academic-services/student-resources/undergraduate/>))
- A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Elementary Education requirements unless otherwise specified.
- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for **all** of the following major requirements:

Code	Title	Hours
Major Requirements		
EDHD 1930	Community Based Field Experience & Seminar	3

Elementary Education, BA - Rural Partnership with Otero College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As an Elementary Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Otero College in La Junta, you will benefit from a highly supportive program with a strong rural focus. T-PREP at Otero College students complete the first half of their program at Otero and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and an Elementary Education teaching license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the Otero campus in La Junta; (b) in boundary-less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the La Junta region, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at Otero College or CU Denver.

Program Delivery

- This is an on-campus program in La Junta with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

Undergraduate Teacher Licensure

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

Education and Human Development (EDHD) Major Pathways:

There are **many** pathways that CU Denver undergraduates can take to become a licensed teacher in Colorado. The BA major in Education and Human Development (EDHD) is within the School of Education and Human Development (SEHD) and includes licensure in the following areas:

- Early Childhood Education (p. 922)
- Elementary Education (p. 933)
- Special Education Generalist (Ages 5-21) (p. 964)
- English Education (Grades 7-12) (p. 952)
- Mathematics (Grades 7-12) (p. 954)
- Middle School Math (Grades 6-8) (p. 948)
- General Science (Grades 7-12) (p. 956)
- Social Studies (Grades 7-12) (p. 962)

The following licensure areas are available through our T-PREP partnerships:

Otero College:

- Early Childhood Education License, BA (p. 918)
- Elementary Education, BA (p. 937)
- Middle School Math License, BA (p. 944)
- Secondary Science License, BA (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/school-education-human-development/education-human-development/secondary-science-license-ba-rural-partnership-otero-junior-college/>)
- Special Education Generalist License, BA (p. 968)

Trinidad State College:

- Early Childhood Education License, BA (p. 920)
- Elementary Education License, BA (p. 931)
- Middle School Math License, BA (p. 946)
- Special Education Generalist License, BA (p. 972)

Northeastern Junior College:

- Early Childhood Education License, BA (p. 916)
- Elementary Education License, BA (p. 929)
- Middle School Math License, BA (p. 942)
- Secondary Science License, BA (p. 958)
- Special Education Generalist License, BA (p. 970)

Lamar Community College

- Early Childhood Education License, BA (p. 914)
- Elementary Education, BA (p. 935)
- Special Education Generalist License, BA (p. 966)

In the College of Liberal Arts and Sciences (CLAS) pathway, students major in CLAS and earn their secondary teaching license in the SEHD.

The Education and Human Development major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their research in elementary education. They will provide you with a robust knowledge base and relevant learning experiences in children's thinking, culturally responsive education, and supporting English language learners, as well as technology as it relates to teaching children in grades kindergarten through sixth grade. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships that are a part of our Professional Development Schools. All of the teacher licensure pathways prepare educators who are culturally affirming and responsive, collaborate closely with families and communities, and have the knowledge and skills to create engaging, relevant, and rigorous classroom communities where all students can learn, achieve and grow.

High Standards and Ongoing Assessment

The coursework and the internship experiences within each program have been created to align with the Colorado Teacher Quality Standards, as well as frameworks for culturally and linguistically responsive instruction and Universal Design for Learning. Students in all programs engage in a common set of learning opportunities and internship assessments. They also engage in Program Level Assessments at different stages of the program. Colorado mandates that all teacher education programs be "performance-based" in order to recommend candidates completing the program for licensure; thus all candidates must demonstrate proficiency in both the university-based coursework and their internships. Students must also pass state content exams prior to their final semester in the program.

Community College Articulation

CU Denver honors the community college articulation agreement in elementary and early childhood education to transfer the 60 designated semester hours from the community college to anyone admitted to the teacher licensure program. Students should make sure they are following the appropriate articulation agreement and should work with their SEHD or CLAS advisor early and often to ensure that all courses are transferred properly.

SEHD and T-PREP Pathways:

The CU Denver bachelor's degree with a major in Education and Human Development is a four-year, 126-credit-hour, interdisciplinary program with multiple licensure tracks. It focuses on engaging Colorado's rapidly diversifying student and family population and combines cutting-edge research with real classroom experiences.

The program is offered in a hybrid format with both in-class and online coursework that support the needs of talented students from all backgrounds, including nontraditional and underrepresented students.

Programs of Study

Additional information about the licensure tracks can be found on the SEHD website (<https://education.ucdenver.edu/academics/undergraduate/>).

Clinical Experiences in SEHD and T-PREP Pathways

Teacher candidates in the SEHD pathway work alongside community and P-12 partner educators from freshman to senior year. Students complete a community-based field experience block in their freshman year and

school-based field experience blocks in years 2 and 3. Each block is carefully coordinated with 1-2 other teacher education courses and a bi-weekly seminar to provide a fully integrated learning experience between theory and practice. In their final, professional year they are placed in a full year internship within the CU Denver Professional Development School Network comprised of over 20 urban schools across numerous districts in the Denver metro region. Through these internships, teacher education students live the life of a teacher for an entire academic year while enrolled in the program. The internships begin gradually with two days a week early on and increase over time to five days per week by the end of the final semester of the program. University courses are closely integrated with the sequence of clinical internship experiences providing teacher candidates with multiple opportunities to engage in the authentic work of teachers. Teacher candidates co-teach closely with practicing teachers in the school and gradually assume full responsibility for teaching by the end of the program. The schools are located in several Denver metropolitan districts serving large populations of low-income and/or culturally and linguistically diverse students, as well as a sizeable number of students for whom English is a second language and students with special needs. Each school is supported by a team of university and school-based educators who collaboratively support the development of each candidate through weekly coaching feedback and the facilitation of collaborative learning community seminars on-site at the school to integrate theory and practice.

Professional Year Admissions

After successfully completing all other Core, CLAS, major, and elective requirements, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)

Advising

Students in the SEHD have a dedicated team of staff and faculty committed to their success. This includes an academic advisor and teams of faculty who support the different licensure programs.

The SEHD accepts applications from incoming freshmen, current students at CU Denver, transfer students from community colleges or four-year institutions, individuals who are working as paraprofessionals, assistant teachers or developmental intervention assistants in early childhood centers or elementary schools and people who are interested in working in community-based organizations serving diverse families.

Email education@ucdenver.edu for more information. We encourage students to take advantage of the scholarships and grants that are available in this major.

CLAS Major Pathways:

The secondary undergraduate teacher education route at CU Denver is a joint effort between the College of Liberal Arts and Sciences and the School of Education & Human Development. Through this pathway, students earn a bachelor's degree through the College of Liberal Arts and Sciences and a teaching license through the School of Education & Human Development.

Please note: The admission into the School of Education & Human Development teacher education program for CLAS majors is a separate process from admission to the university or CLAS majors. See the SEHD website for application deadlines.

CLAS Undergraduate Teacher Education Pathways

The table below lists the CLAS bachelor's degrees and associated licensure areas available to CU Denver undergraduate students pursuing secondary education licensure.

CLAS Bachelor's Degree	Colorado Teaching License
BA in English Secondary	English Language Arts (grades 7-12)
BA in History Secondary	Social Studies (grades 7-12)
BA in Political Science Secondary	Social Studies (grades 7-12)
BA in Spanish	World Languages - Spanish (grades K-12)

Program Structure

The School of Education & Human Development collaborates closely with faculty and administration in the College of Liberal Arts & Sciences to ensure rigorous content preparation in areas of study aligned to the content knowledge necessary for licensed teachers. Students focus primarily on their major in CLAS during the first three years with the opportunity to engage in four early education courses and a semester-long internship in a partner school. If admitted to the final professional year of teacher education, students will then spend two semesters simultaneously enrolled in teacher education coursework specific to their licensure area and a sequence of year-long internships in one of the program's Professional Development Schools.

Clinical Experiences in CLAS Pathway

CLAS students engage in a full-semester early field experience block, spending one day a week in a metro area partner school in order to gain experience in a diverse classroom working with students with varying cultures, languages, and abilities. This field experience block also includes a coordinated teacher education course and a bi-weekly seminar. In their final, professional year students are placed in a full year internship within the CU Denver Professional Development School Network comprised of over 20 urban schools across numerous districts in the Denver metro region. Through these internships, teacher education students live the life of a teacher for an entire academic year while enrolled in the program. The internships begin gradually with two days a week early on and increase over time to five days per week by the end of the final semester of the program. University courses are closely integrated with the sequence of clinical internship experiences providing teacher candidates with multiple opportunities to engage in the authentic work of teachers. Teacher candidates co-teach closely with practicing teachers in the school and gradually assume full responsibility for teaching by the end of the program. The schools are located in several Denver metropolitan districts serving large populations of low-income and/or culturally and linguistically diverse students, as well as a sizeable number of students for whom English is a second language and students with special needs. Each school is supported by a team of university and school-based educators who collaboratively support the development of each candidate through weekly coaching feedback and the facilitation of collaborative learning community seminars on-site at the school to integrate theory and practice.

Professional Year Admissions

After successfully completing the first 3 years of the program, all students must apply for admission into the professional year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)

Advising

Undergraduate teacher candidates from CLAS will have a team of individuals who work with them throughout the completion of their bachelor's degree and teacher licensure. The following are the members of the advising team:

College of Liberal Arts and Science (CLAS) Education Advisor

The CLAS advisor will assist you upon entry to the university through graduation. The CLAS advisor will monitor your progress through the core curriculum, pre-licensure curriculum, eligibility requirements for the licensure program and transfer credits.

Major/Faculty Advisor

A major/faculty advisor designated within the academic department works with undergraduate teacher education students pursuing secondary licensure regarding specific requirements within their academic major (i.e., English, history, mathematics, Spanish, French, and political science). See the CLAS advisor for specific names and contact information.

School of Education and Human Development (SEHD) Advisor

During the Professional Year, all CLAS teacher candidates will be supported by an SEHD advisor to ensure licensure completion (Lawrence St. Center Bldg., 701; 303-315-6300). The Advisor in SEHD is also available early on to help with questions about program completion, taking the state content exams and other general questions.

CLAS Pathway Undergraduate Academic Planning Sheets

Developed in collaboration with the academic departments and SEHD teacher education program faculty, advisors will work with the teacher candidates on an academic planning sheet. There is little flexibility in the program course requirements as these requirements meet and exceed the Colorado Department of Education's teacher education professional and content standards.

Programs of Study

Due to the complex nature of state mandated influences on teacher preparation courses and consistently evaluating this program for students, please refer to the most current version of the teacher education program handbook for academic requirements for this program.

Middle School Math License, BA - Rural Partnership with Northeastern Junior College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As a Middle School Math teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving middle school student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

Program Delivery

- This is an on-campus program in Sterling, Colorado with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 126 semester hours for the EDHD Middle School Math Education Track.
- Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
- Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission

into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website (<https://education.ucdenver.edu/academic-services/student-resources/undergraduate/>)).

- A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Middle School Math Education requirements unless otherwise specified.
- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for all of the following content and major requirements:

Code	Title	Hours
Content and Major Requirements		
MATH 2830	Introductory Statistics	3
MATH 1401	Calculus I	4
MATH 3000	Introduction to Abstract Mathematics	3

Middle School Math License, BA - Rural Partnership with Otero College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As a Middle School Math teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving middle school student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Otero College, you will benefit from a highly supportive program with a strong rural focus. T-PREP at Otero students complete the first half of their program at Otero and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and a Middle School Math teaching license. You can also take and pass secondary math Praxis test to add the secondary math 7-12 endorsement to your MS Math License.

During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the Otero campus in La Junta, Colorado; (b) in boundary-less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the La Junta region, which eliminates the need to travel to Denver. Finally, all advising, and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at Otero or CU Denver.

Program Delivery

- This is an on-campus program on the Otero campus in Colorado with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 126 semester hours for the EDHD Middle School Math Education Track.
- Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
- Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website (<https://education.ucdenver.edu/academic-services/student-resources/undergraduate/>)).
- A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Middle School Math Education requirements unless otherwise specified.
- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for all of the following content and major requirements:

Code	Title	Hours
Content and Major Requirements		
MATH 2830	Introductory Statistics	3
MATH 1401	Calculus I	4
MATH 3000	Introduction to Abstract Mathematics	3
MATH 3195	Linear Algebra and Differential Equations	4
PHYS 2010	College Physics I	4
or PHYS 2311	General Physics I: Calculus-Based	
PHYS 2321	Intro Experimental Phys Lab I	1
EDHD 1930	Community Based Field Experience & Seminar	3
EDFN 1000	Equality, Rights & Education	3
HDFR 3050	Children's Thinking and Assessment	3
INTE 2000	Digital Teaching and Learning	3
SPED 4030	Understanding (dis)Ability in Contemporary Classrooms	3

Students will take the remaining courses at CU Denver

Major Courses		
EDHD 2930	Learning & Development Field Experience & Seminar ¹	2
CLDE 2000	CLDE Foundations ¹	3
EDHD 3930	Diverse Learners Field Experience & Seminar ¹	3

Middle School Math License, BA - Rural Partnership with Trinidad State College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As a Middle School Math teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving middle school student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Trinidad State College (TSC), you will benefit from a highly supportive program with a strong rural focus. T-PREP at TSC students complete the first half of their program at TSC and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and a Middle School Math teaching license. You can also take and pass the secondary math Praxis test to add the secondary math 7-12 endorsement to your MS Math License.

During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on one of the TSC campuses in Trinidad or Alamosa, Colorado; (b) in boundary-less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the Trinidad or San Luis Valley regions, which eliminates the need to travel to Denver. Finally, all advising, and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at TSC or CU Denver.

Program Delivery

- This is an on-campus program at Trinidad State, with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

Middle School Mathematics License, BA

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development major with a Middle School Mathematics license focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their teaching and research in middle school mathematics education. They will provide you with a robust knowledge base and relevant learning experiences in transforming deep content knowledge into learning experiences for youth across multiple cultural contexts as it relates to teaching youth in grades 6 through 8. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnering with schools to prepare teachers.

The middle school mathematics program ensures that you will develop deep content knowledge important to become a successful mathematics teacher with courses in calculus, abstract math, statistics and more. You will also be prepared with the methods and foundations coursework that will make you a highly effective, innovative and compassionate middle mathematics teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

Secondary Education Licensure - CLAS Major Pathway

Introduction

Please click here (p. 898) to see the School of Education & Human Development information.

The following secondary undergraduate teacher education pathways at CU Denver are a joint effort between the College of Liberal Arts and Sciences (CLAS) and the School of Education & Human Development (SEHD). Through these pathways, students earn a bachelor's degree through CLAS and complete the requirements for teacher licensure through the SEHD.

The table below lists the CLAS bachelor's degrees and associated licensure areas available to CU Denver undergraduate students pursuing secondary education licensure.

CLAS Bachelor's Degree	Colorado Teaching License
BA in English Secondary	English Language Arts (grades 7-12)
BA in History Secondary	Social Studies (grades 7-12)
BA in Political Science Secondary	Social Studies (grades 7-12)
BA in Spanish	World Languages - Spanish (grades K-12)

Please note: Admission into the final year of the SEHD teacher education program, called the Professional Year, is a separate process from admission to the university or admission to CLAS. See the SEHD website for application deadlines.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 377) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete all requirements for their CLAS major.
- Application to the last year of the program, the Professional Year Residency, is required. After successfully completing all other Core, CLAS, major, and elective requirements, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see the SEHD website.)

- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- A minimum grade of B- is required for all education licensure courses.
- Transfer courses must be approved by faculty and/or advisor to apply to the education licensure courses.

Secondary Science License, BA

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development major with a Secondary Science license focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally and internationally recognized for their teaching and research in secondary science education. They will provide you with a robust knowledge base and relevant learning experiences in transforming deep content knowledge into learning experiences for learners across multiple cultural contexts as it relates to teaching youth in grades 7 through 12. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnering with schools to prepare teachers.

The secondary science program ensures that you will develop deep content knowledge across a number of disciplines important to become a successful science teacher with courses in physics, biology, chemistry and Earth sciences. You will also be prepared with the methods and foundations coursework that will make you a highly effective, innovative and compassionate secondary science teacher skilled in improving student performance and reaching the needs of today's diverse learners in a variety of school settings. You will have the skills to be a teacher leader. CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- School of Education and Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum total of 126 semester hours for the EDHD Secondary Science Education Track.
2. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see the SEHD website.)
3. A minimum of C- is required for all Science content courses.

4. A minimum GPA of 2.0, grade of C or better, is required for all major courses applying to EDHD - Secondary Science Education requirements unless otherwise specified.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Select two additional upper-division (3000-level or above) PHYS courses (minimum of 6 credits)		6
Total Hours		8

Secondary Science License, BA - Rural Partnership with Northeastern Junior College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

Program Delivery

- This is an on-campus program in Sterling, Colorado with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a minimum total of 126 semester hours for the EDHD Secondary Science Education Track.
2. Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
3. Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website (<https://education.ucdenver.edu/academic-services/student-resources/undergraduate/>).

4. A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD - Secondary Science Education requirements unless otherwise specified.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for all of the following content and major requirements:

Code	Title	Hours

General Electives

Additional required courses from the community college pathway transfer in as electives to reach the required hours for the BA

Total Hours **94**

¹ Courses require a grade of B- or better; all other courses require a grade of C or better. Students who do not have a B- or better in the specified courses must consult with their advisors about a plan to retake the course or complete additional work.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/sehd/>).

Secondary Science License, BA - Rural Partnership with Otero College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As a Secondary Science teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Otero State, you will benefit from a highly supportive and program with a strong rural focus. T-PREP at Otero College students complete the first half of their program at Otero and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and a Secondary Science teaching license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the Otero College campus; (b) in boundary-less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the La Junta region, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at Otero or CU Denver.

Program Delivery

- This is an on-campus program in La Junta with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)

Special Education, BA with added Elementary Education Endorsement

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The need for highly qualified, culturally and linguistically responsive special education teachers is on the rise in Colorado and the nation. According to the United States Bureau of Labor Statistics, it is estimated that nearly 280,000 special education teaching positions will need to be filled over the next decade (2016). The Special Education track of CU Denver's bachelor's degree in Education and Human Development prepares students to step into these roles and address the exceptional learning needs of individuals ages five to 21.

The Special Education program combines cutting-edge research with real classroom experiences. You will learn from faculty who are locally, nationally and internationally recognized for their research and innovation. They will provide you with critical knowledge and interventions to teach students with exceptional learning needs. You will be able to apply your new knowledge through frequent, powerful hands-on classroom experiences, and benefit from the advantage of our rich 20-year history of school and community partnerships.

The program is designed to enhance your ability to effectively support diverse, urban students with disabilities in K-12 public schools and alternative settings. Faculty members will foster your growth as a teacher and educational leader who promotes inclusion and equity for all. This program strives to help you:

- Gain a holistic understanding of special education
- Collaborate with schools and communities
- Engage in culturally and linguistically responsive teaching and leadership

A unique feature of this pathway is that you will be able to add the Colorado Department of Education's elementary endorsement to your credentials. Essentially, you'll leave this program with both the Special Education License and Elementary Education Endorsement through the Colorado Department of Education. This means you are prepared to teach Special Education AND K-6, making you highly employable and desirable to schools!

Students in this track have the opportunity to apply for the Bachelors to Masters Program (p. 927) (BAMA) during their junior year. The BAMA allows students to take 9 credits of their professional year program at the graduate level and apply them to one of 8 MA degrees in the SEHD.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn this 126 credit hour BA, students must satisfy all requirements in each of the three areas below, in addition to their individual major

requirements. Students should declare their intent to pursue this degree as early as possible to avoid taking classes that not count toward their degree.

- CU Denver General Graduation Requirements (p. 124)
- CU Denver Core Curriculum (p. 120)
- School of Education and Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete a total of 126 semester hours for the Education and Human Development, EDHD, - BA Special Education Track
2. Students must take the appropriate Praxis Test during their Junior year to complete licensure requirements.
3. An application process is required to continue into your last year/ Professional Year. After successfully completing the first three years of the program, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
4. A minimum GPA of 2.0, grade of C or better, is required for all major courses applying to EDHD BA Special Education.
5. Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
6. Transfer courses must be approved by faculty and/or advisor to apply to the major.

Special Education Generalist License, BA - Rural Partnership with Lamar Community College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As a Special Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Lamar Community College, you will benefit from a highly supportive program with a strong rural focus. T-PREP at Lamar Community College students complete the first half of their program at Lamar and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and a Special Education license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on the Lamar Community College campus (b) in boundary less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the Lamar region, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at Lamar Community College or CU Denver.

Program Delivery

- This is an on-campus program in Lamar, Colorado with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 126 semester hours for the EDHD Special Education Generalist Education Track.
- Students must pass the appropriate Praxis Exam prior to beginning their final semester of their Professional Year. It is recommended students complete the exam in the year prior to their Professional Year.
- Application to the last year of the program, the Professional Year Residency is required. After successfully completing all other Core, major, and elective courses, all students must apply for admission into the Professional Year. Requirements for admission include a 3.0 GPA, positive letters of recommendation, successful evaluations of earlier clinical experiences, and a successful interview. (Students with a lower GPA may be considered under certain conditions. Please see SEHD website.)
- A minimum GPA of 2.0, grade of C or better, is required for all courses applying to EDHD – Special Education requirements unless otherwise specified.
- Students must complete and maintain a 3.0 minimum grade point average in Professional Year coursework to complete licensure requirements. Please see an advisor for more information on this requirement.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Students will receive transfer credit for all of the following major requirements:

Special Education Generalist License, BA - Rural Partnership with Trinidad State College

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Education and Human Development (EDHD) major focuses on engaging Colorado's rapidly diversifying student and family population. It combines cutting-edge research with real classroom experiences. You'll learn from innovative faculty members who are locally, nationally, and internationally recognized for their research in early childhood education. They will provide you with a robust knowledge base and relevant learning experiences focused on children's' thinking, culturally responsive education, and supporting English language learners. Further, you will learn how to use a range of technology tools you can use in your work with students. You'll engage in powerful classroom experiences and benefit from our rich 20-year history of partnerships with local school districts.

As a Special Education teaching candidate, we will prepare you to become a highly effective, innovative, and compassionate teacher skilled in improving student performance and meeting the needs of today's diverse learners in a variety of settings. When you graduate, you will have the skills it takes to be a teacher leader. In fact, CU Denver graduates often go on to acquire positions in educational leadership as their careers progress.

When you enroll as a student in The Partnership for Rural Educator Preparation (T-PREP) at Trinidad State College, you will benefit from a highly supportive program with a strong rural focus. T-PREP at Trinidad State students complete the first half of their program at Trinidad State and earn an Associate of Arts degree. Previous credits earned from other institutions are accepted. Then, you transfer as a T-PREP CU Denver student and take the remaining classes you need to earn a bachelor's degree and a Special Education license. During your time as a CU Denver student, you will enroll in classes that are (a) taught face-to-face in classes taught by CU Denver instructors on one of Trinidad State's campuses; (b) in boundary-less classrooms using video conferencing technology with other T-PREP students throughout Colorado; or (c) online. Further, all your fieldwork experiences take place in the Trinidad State region, which eliminates the need to travel to Denver. Finally, all advising and a wide range of supports are provided during all four years of your program, whether you are enrolled as a student at Trinidad State or CU Denver.

Program Delivery

- This is an on-campus program in Trinidad or Alamosa, Colorado with a variety of delivery options for many of our courses including hybrid, evening, weekend, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)

Culturally and Linguistically Diverse Education Minor

Introduction

Please click [here](#) (p. 898) to see School of Education and Human Development information.

The Culturally and Linguistically Diverse Education (CLDE) Minor is designed to provide students with an understanding of culturally and linguistically diverse students, families and communities, particularly in their relationship to public institutions. This minor is a powerful addition to majors in sociology, psychology, ethnic studies, gender studies, public health, communication, the humanities, and anyone in the field of education, as it provides professionals with a strong understanding of how to serve culturally and linguistically diverse students in school and community environments.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, and online courses.

Declaring This Minor

- Contact Undergraduate Advising in the School of Education & Human Development at 303-315-6300 or email academicservices@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

- To complete a minor in CLDE, a student must complete 15 credit hours of CLDE and other related courses with a minimum grade of C (2.0).
- Of those CLDE courses, at least nine credits must be completed at the University of Colorado Denver.
- Transfer courses must be approved by faculty and/or advisor to apply to the minor.

Students will be able to create an emphasis that best suits their professional goals and needs. All CLDE minors must take a minimum of three CLDE courses from the list below. Students must select two additional courses either in CLDE or from other approved programs as listed below.

Minor Requirements

Code	Title	Hours
Select a minimum of three of the following:		9
CLDE 1000	Language, Identity, & Power: International Perspectives	
CLDE 2000	CLDE Foundations	
CLDE 3680	Spanish for Educators	
CLDE 3830	Culturally and Linguistically Responsive Teaching through STEM	
CLDE 3840	Independent Study in CLDE	

CLDE 4020	Responsive Classroom Communities	
CLDE 4700	Social Studies for Multilingual Learners	
Select two Approved Courses from outside CLDE of the following:		6
ECED 4650	Dual Language Learners Learning and Development	
EDFN 4010	Social Foundations and Cultural Diversity in Urban Education	
HDFR 3250	Families in Global Perspectives	
HDFR 4040	Latino Families in School and Communities

Digital Media Design for Learning Minor

Introduction

Please click [here](#) (p. 898) to see the School of Education and Human Development information.

Using digital and social media platforms and technologies, you will design and produce accessible materials and learning experiences for people in school, organizational, and community settings. People with the Digital Media Design for Learning minor go on to be designers and producers of educational software in publishing and software companies; designers and producers of online training and training materials for organizations; designers and producers of educational exhibits in art and science museums; and designers and academic-technology consultants in K12 and college/university settings. When you select this completely online minor you become a part of an existing vibrant learning design community and professional network.

Program Delivery

- All of the courses for this minor are offered online.

Declaring this Minor

- Contact Undergraduate Advising in the School of Education & Human Development at 303-315-6300 or email academicservices@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

1. To complete a minor in Digital Media Design for Learning, a student will need to complete 15 credit hours of Digital Media Design for Learning courses with a minimum grade of C+ (2.3).
2. Of those Digital Media Design for Learning courses, at least 12 credits must be completed at the University of Colorado Denver.
3. A transfer course must be approved by faculty and/or advisor to apply to the minor.
4. Your minor program of study is developed in consultation with an academic advisor and requires you to have previously completed a minimum of 15 credits of undergraduate courses.

Education Studies Minor

Introduction

Please click here (p. 898) to see the School of Education and Human Development information.

The Education Studies Minor is a 15-credit undergraduate course of study that explores cognition and learning theory, teaching methods, development across the life span, and working with culturally and linguistically diverse learners.

The Education Studies Minor is useful across many disciplines and career paths. It is customized for students outside of the K-12 teaching pathway and they will be able to create an emphasis that best suits their professional goals and needs as the minor is designed to enhance many disciplinary or career paths where there may be an educational component.

Students who are becoming teachers and have Elementary, Early Childhood, Secondary or Special Education as a declared major are not eligible for the Education Studies Minor.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, and online courses.

Declaring This Minor

- Contact Undergraduate Advising in the School of Education & Human Development at 303-315-6300 or email academicservices@ucdenver.edu.

General Requirements

The Education Studies Minor is combined with an existing major and degree. Students must satisfy all requirements as outlined below and those of the School of Education & Human Development applicable to the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

Students must complete 15 credits with a minimum grade of C or better. An overall minimum 2.0 is required for this minor. (Consult with advisor for timing and specific requirements of this minor.)

Teacher Education Minor

Introduction

Please click here (p. 898) to see School of Education and Human Development information.

The Teacher Education Minor is for undergraduate students who want to do a 4+1 program with the end goal of obtaining their teaching license. The minor will allow students to finish in 5 years (or less, depending on transfer credit) with a Bachelor of Arts or Science degree **and** a Masters program, as well as their Colorado Teaching License. Students will complete their chosen undergraduate degree with the Teacher Education minor and then complete the Masters of Teaching program in their chosen area in an additional year. It is important to note that the content of the major for your Bachelor's degree must match the teacher licensure area you want to pursue in the Master's degree (e.g., a science-related degree for teaching secondary science). We encourage you to meet with an undergraduate advisor in the School of Education & Human Development early on to ensure your major is aligned to the teaching license you are ultimately seeking.

Students who are becoming teachers and have Elementary, Early Childhood, Secondary or Special Education as a declared major are not eligible for the Teacher Education Minor.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, and online courses.

Declaring This Minor

- Contact Undergraduate Advising in the School of Education & Human Development at 303-315-6300 or email academicservices@ucdenver.edu.

General Requirements

The Teacher Education Minor is combined with an existing non-SEHD major and degree. Students must satisfy all requirements as outlined below, and those of the School of Education & Human Development applicable to the minor.

In this 4+1 pathway, students will be required to

- Minor in Teacher Education with the required courses taken during their undergraduate program
- Apply into the Master of Arts in Teaching (<https://education.ucdenver.edu/academics/graduate/teaching/#MAT>) SEHD program during semester two of the minor
- Graduate with their undergraduate degree
- Complete the one-year Masters of Teaching program which will also make them eligible for the appropriate Colorado teaching license
