Apply to the Masters of Teaching Program		
<i>Semester Three (of the Minor): Choose One General Course Applicable to Licensure</i>		6
Math, Science, Social Studies, English, Spanish, French, Special Education		
SPED 5030	Understanding (dis)Ability in Contemporary Classrooms	
Elementary		
LCRT 5710	Inclusive Early Literacy Development and Instruction	
<i>AND Choose One Content Course Applicable to Licensure</i>		
Math-		
MTED 5621	A World of (Different) Numbers: Quantity and Operation	
MTED 5622	Expanding Conceptions of Algebra	
MTED 5623	Geometrical Ways Of Reasoning	
Science-		
SCED 5500	The Nature of Science or SCED 535 Issues and Trends in Science Education	
Social Studies, English, Spanish, French-		
LCRT 5720	Responsive Writing Instruction	
Elementary & Special Education-		
MTED 5400	Mathematics for Elementary Teachers	
Total Hours		15

Teaching Young Bilingual Children Certificate

Introduction

Please click [here](#) (p. 898) to see School of Education & Human Development information.

The Colorado Department of Education has been making efforts to improve the preparation of educators to effectively work with bilingual students, by requiring IHEs to include the Early Language Learner Preparation Standards in their teacher preparation programs. The Teaching Young Bilingual Children certificate will include these standards with a focus on the teaching and learning of young bilingual children.

Program Delivery

- This is an off-campus partnership with area school districts.

Declaring This Certificate

- Contact Continuing and Professional Education (CPE) at cpe@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the certificate.

- Click [here](#) (p. 107) for information about Academic Policies

Human Development and Family Relations

Programs

- BS/MA 4+1 Program in Learning, Developmental, and Family Sciences: HDFR Concentration (p. 982)
- Human Development and Family Relations, BS (p. 983)
- Human Development and Family Relations, BS - Rural Partnership with Trinidad State College (p. 985)
- Human Development and Family Relations Minor (p. 987)

Human Development and Family Relations (HDFR)

HDFR 1000 - Global Human Development & Learning (3 Credits)

The purpose of this course is to examine the contextual nature of human development and learning at the global level. Emphasis is placed on the ecological development of individuals and learning and schooling within familial, cultural and educational contexts. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

HDFR 1010 - Life Span Development in Ecological Settings (3 Credits)

This course is designed to introduce students to human development in ecological settings in particular family, school and community contexts as it occurs across the lifespan, including emotional, physical, and cognitive development, and emphasizes personal adjustment and achievement. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 1030 - Who am I? Cultural Identity, Family, Diverse Soc Sys (3 Credits)

This course will use ecological systems theory perspectives as a foundation for understanding diverse Latino family dynamics, the intersection between Latino families, schools and community systems and other critical issues that Latino family systems face in the United States. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 1050 - Trailblazing and Leading in Student Affairs: Student Affairs Leadership Dev (3 Credits)

This course provides a basic introduction to student affairs development practices and perspectives. The course provides an exploration of student affairs leadership identity and college student's leadership role in higher education environments. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 1080 - Lifespan Issues in Family Violence (3 Credits)

This course examines family violence over the lifespan from family system and ecological perspectives. The course explores development, definitions, theory, correlates, and the occurrence of family violence over the lifespan; including practice, interventions, and policy within school and community contexts. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

HDFR 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

HDFR 2000 - Introduction to Family and Community Services (3 Credits)

Through ecological systems theories this course is designed to provide students with an introduction to family and community services within community and educational environments. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 2080 - Sex, Human Development and Family Systems (3 Credits)

Students will become familiar with human sexuality across the life span through behavioral science and ecological perspectives. Different aspects of sexuality including behavioral, biological, developmental and cultural will be examined. Implications for working with individuals, families, and couples through a behavioral science context will be explored. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences.

HDFR 2083 - Family and Personal Finance (3 Credits)

Students will become familiar with family and personal finances across the life span through the use of behavioral science and ecological perspectives. Different determinants of financial education including behavioral, developmental, and cultural will be examined within familial and individual contexts. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences.

Typically Offered: Fall, Spring, Summer.

HDFR 2110 - Child Ecology (3 Credits)

This course focuses on the study of human growth and ecology from conception to adolescence. The emphasis is on the major theories of child growth, development, and ecology and the implications of classic and contemporary research in the community. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 2200 - Love, Family and Human Development (3 Credits)

This course provides an introduction to understanding love, intimate relationships, and family relations through an ecological systems perspective. The course provides an exploration of contemporary diverse family systems and their relationships across the life span. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

HDFR 3002 - Preparing to be a HDFR Professional (3 Credits)

In a seminar format, students will examine the ethics, value systems, and family policies and law affecting the Human Development and Family Relations profession. Students will utilize tools of professional preparation including goal-setting, building/refining resumes, and marketing skills and abilities. Restriction: Faculty or Academic Advisor approval is required to register. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3020 - Black and Latino Children in Families and Schools (3 Credits)

This course will use ecological systems theory perspectives as a foundation for students to develop their understanding about Black and Latino children as members of family systems, school systems and community systems within cultural contexts. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

HDFR 3050 - Children's Thinking and Assessment (3 Credits)

A review of the psychology of children's thinking emphasizing developmental changes in modes of thought. Topics include conceptual behavior, problem solving, intelligence, creativity, humor, play, and an introduction to diagnostic, formative and summative assessment. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3100 - Adolescent Ecology (3 Credits)

Through ecological systems theories this course is designed to provide an understanding of adolescent ecological development and growth. Students will become familiar with adolescent development and growth from ecological perspectives in contexts of families, schools and communities. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3250 - Families in Global Perspectives (3 Credits)

Students will become familiar with family life across the world. Through ecological systems theories, this course is designed to provide an understanding of families in global perspectives. The impact of family policy and practices on international families will be examined. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

HDFR 3400 - Love, Couples and Family (3 Credits)

This course examines the development and maintenance of couple and family relationships through family therapy based concepts, family systems theories and other family theories. Topics include communication patterns, stress and conflict management, decision making and goal-setting within the family. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3500 - Introduction to Higher Education (3 Credits)

The course examines the history and structure of the institutions higher education in U.S. This course will also examine the relationship between institutions of higher education, students, faculty, administrators, and society at large. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3800 - Leadership for Racial Justice in School and Community Settings (3 Credits)

Students will learn about school- and community based leadership for racial justice in the U.S., considering the various purposes and techniques employed to pursue a more racially justice society. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall.

HDFR 4001 - Families and Parenting (3 Credits)

This course provides an advanced overview of theories and practices that impact culturally and linguistically diverse families and the parenting process through family systems and ecological perspectives. Specifically, there is a focus on the parent-child relationship through adolescence. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4002 - Family Life and Community Programming I (3 Credits)

This course teaches the principles, philosophies, models, and strategic methods of family life education for strengthening interpersonal and family relationships. Culturally competent students will learn about the development and implementation of effective educational programs and experiences within different community settings. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4003 - Leadership and Organizations (3 Credits)

This course provides an understanding of leadership theory and practice in community and educational environments. Students will learn about important aspects about leading diverse community and educational organizations including staff supervision, strategic planning, advancing the organization and maintaining integrity. Cross-listed with HDFR 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4004 - Family and Comm. Prog. II Grant Writing/Fundraising (3 Credits)

This course provides an understanding of developing skills on grant writing and fundraising as related to family, community and educational organizations/agencies. Students will learn about important aspects about grant writing, fundraising fundamentals and funding models for sustainability. Cross-listed with HDFR 5004. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4010 - Family and Cultural Diversity (3 Credits)

The examination of familial, gender, cultural, linguistic, social and other ecological factors on diverse family systems in the United States will be covered. An ecological theoretical analysis of minority family systems within a familial, educational and social justice perspective will be explored. Cross-listed with HDFR 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4040 - Latino Families in School and Communities (3 Credits)

This course will use ecological systems theory perspectives as a foundation for understanding diverse Latino family dynamics, the intersection between Latino families, schools and community systems and other critical issues that Latino family systems face in the United States. Cross-listed with HDFR 5040. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4045 - Abuelos (Grandparents) Latino Families (3 Credits)

The course will focus on the social gerontology of Latinos families in later life. Specifically, the course will examine how ecological factors including familial, cultural, social, economic, health, cognitive and educational, impact the lives of Latino older person's in the contexts of family systems. Cross-listed with HDFR 5045. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4050 - Foundations of Student Affairs (3 Credits)

This course examines theories of college student development including student learning and growth during the postsecondary years. This course will provide an introduction to psychosocial, cognitive, moral, and social identity development theories used to explain college student development. Cross-listed with COUN 5050. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

HDFR 4075 - Family Policy & Law (3 Credits)

In this course students will identify, develop, implement and evaluate social policies and laws that effect the well-being of families. Through a family systems perspective, students will examine the law, social services, education, the economy, religion, and politics impact families. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4080 - Global Family Resource Management (3 Credits)

This course examines the allocation of family resources (social, financial and material assets), the influence of various ecological systems, the effect on family functioning and goal-setting from a global perspective. Practical applications for Family Relations professionals are included. Cross-listed with HDFR 5080. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4090 - Helping Profession Skills in HDFR (3 Credits)

This course is designed to provide an overview of essential skills required in a variety of helping situations and settings. Course content includes the development of accurate listening, empathy, reflection, and inquiry skills. Implications for working with individuals, families, and couples will be examined. Cross-listed with HDFR 5090. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4130 - College Student Development (3 Credits)

This course examines theories of college student development including student learning and growth during the postsecondary years. This course will provide an introduction to psychosocial, cognitive, moral, and social identity development theories used to explain college student development. Repeatable. Max hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

HDFR 4200 - Adult Ecology (3 Credits)

The emphasis is on the major theories of adult ecology and growth and the implications of classic and contemporary research in the community. Specifically, biological, psychological, psychosocial, cognitive, and cross-cultural theories will be explored. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4260 - Family Systems and Social Justice (3 Credits)

Relying on ecological systems theories, this course will introduce students to families and family systems. Students will investigate how families experience (in)justice in the areas of access to education, community services, and employment. Cross-listed with HDFR 5260. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4300 - Families in Later Life (3 Credits)

Students will become familiar with the importance of families in later life. Through family systems and ecological systems theories, this course is designed to provide an understanding of the importance of family relationships and implications for practice, research, and policy. Cross-listed with HDFR 5300. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4500 - Diversity, Inclusion, Social Justice in Higher Education (3 Credits)

An examination of society, media, and public and educational policy and their impact on higher education access and persistence for marginalized groups. Students are called to consider how student affairs professionals might promote social justice for marginalized student groups. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4850 - Family Systems Therapy, Religion and Spirituality (3 Credits)

This course examines how the intersection between different religious and spiritual frameworks affects family systems. A strengths-based ecological perspective, family therapy theories and family systems theories will be used to understand religious and spiritual frameworks in working with families in schools and communities. Cross-listed with RLST 4850. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4860 - Trauma Informed Care for Diverse Populations and Co-occurring Disorders (3 Credits)

Trauma Informed Care is a treatment framework that involves understanding, recognizing and responding to effects of all types of trauma. The clinical shift is from "what's wrong with you" to "what happened to you." The need to address trauma is increasingly viewed as an important component of effective behavioral health service delivery. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4888 - LGBTQ Family Systems (3 Credits)

This course examines diverse Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) family systems through ecological systems perspectives and family theories. The course provides an exploration of contemporary research, policy and practice as it pertains to LGBTQ families. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 4930 - Human Development and Family Relations Internship (1-5 Credits)

This course provides supervised practicum/field experience to Human Development and Family Relations students. Students will apply theory and evidence-based knowledge in professional situations, enhancing the development of their professional identities and career goals by working within and evaluating community-based organizations. Prereq: HDFR 3002. Repeatable. Max Hours: 5 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 5.
Prereq: HDFR 3002

BS/MA 4+1 Program in Learning, Developmental, and Family Sciences: HDFR Concentration

Introduction

Students in the BS/MA 4+1 Program in Education and Human Development: HDFR Concentration will have a pathway to **complete a BS and MA in Learning Development and Family Sciences HDFR in five years**. LDFS HDFR students who pursue this BS/MA (4+1) option will likely have opportunities for accelerated opportunities to work and lead in community-based organizations with culturally and diverse families in community and educational settings.

LDFS HDFR undergraduate students may apply into the BS/MA program after completing 60 or more credits. A holistic admission process (following a comprehensive review of all admission materials) will be used including GPA, two letters of recommendation, demonstrate leadership experiences and an interview with HDFR faculty. A minimum of an overall cumulative GPA of at least 3.0 and a major GPA of 3.3 or better will be required and they have a faculty mentor who will strongly support his or her application to the program.

Program Delivery

- This is an on-campus program with some online options.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

HDFR students who are granted admission to the BS/MA (4+1) program and effectively subsequently admitted to the LDFS MA: HDFR concentration can substitute two undergraduate 4000 level HDFR major courses (6 credits) for two graduate level HDFR courses (6 credits) approved by HDFR faculty or HDFR advisor.

The content knowledge of the two courses substituted in the undergraduate program is addressed in greater depth and placed in larger scholarly context in the corresponding graduate courses. The student needs to earn a grade of B (3.0) or better in the two corresponding HDFR graduate courses.

Course Requirements

MA program in Learning, Developmental and Family Sciences: Human Development and Family Relations (HDFR) concentration

Human Development and Family Relations, BS

Introduction

Please click here (p. 898) to see School of Education & Human Development information.

The Human Development and Family Relations (HDFR) Bachelor of Science program prepares students to effectively serve individuals and families in a wide variety of environments. HDFR is committed to a curriculum rich in family diversity and social justice. This 120 credit-hour interdisciplinary program explores family systems and the ecological development of individuals across their life span. The HDFR program leads to certification in the field.

Program Delivery

- This is an on-campus or online program with a variety of delivery options for many of our courses including hybrid, evening, and online courses.

Declaring This Major

- Click here (p. 900) to go to information about declaring a major.

HDFR Policies

Transfer Credit

HDFR is a transfer friendly major. HDFR will accept between 18- 27 transfer elective credits that must be approved by the Registrar and the HDFR Academic Advisor. If a student is transferring from a Non-HDFR/ HDFS major they are allowed to petition for an additional 6 credits. All transfer credits must be approved by the HDFR Academic Advisor and HDFR Program Chair. If a student is transferring from a HDFR/HDFS program from another university, they can petition for additional credits to count towards the HDFR major credit. The credits must be a match to be considered for official transfer.

HDFR Passing-Grade Requirements

HDFR courses (for majors/minors) must be passed with a C. C- does not constitute a passing grade; C- may be approved if overall GPA is 2.0 or above with HDFR Program Chair review and approval (an exception may be made in only one course, and this is handled on a case-by-case basis).

HDFR Professional Internship Contact Hours Update

Students are required to complete 200 hours on-site. This is in addition to completing the HDFR 4930 Human Development and Family Relations Internship course (equivalent: 45 contact hours)

- On-Site Hours can be completed in 1 semester, 2 semesters or 1 semester and a summer session. Students can register for variable credits from 1-5 for a total of 5 credits.

Contact Hours:

Credit	On-site Hours
1.0	40
2.0	80
3.0	120
4.0	160
5.0	200

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click here (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 120 semester hours for the Human Development and Family Relations BS.
- A minimum GPA of 2.0, C or better grade, is required for all courses applying to Human Development and Family Relations major requirements.
- Courses can be "double-dipped" - i.e., used to satisfy both a general education requirement and a major course. If double-dipping courses, additional courses in the electives will have to be taken to get to the 120 major required credits.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Major Requirements

Take **all** of the following Human Development and Family Relations major courses with a grade of C or better:

Code	Title	Hours
Required Courses		
HDFR 1010	Life Span Development in Ecological Settings	3
HDFR 2000	Introduction to Family and Community Services	3
HDFR 2080	Sex, Human Development and Family Systems	3
HDFR 2200	Love, Family and Human Development	3
HDFR 3002	Preparing to be a HDFR Professional	3
HDFR 3020	Black and Latino Children in Families and Schools	3
HDFR 3250	Families in Global Perspectives	3
HDFR 3400	Love, Couples and Family	3
HDFR 4001	Families and Parenting	3
HDFR 4002	Family Life and Community Programming I	3
HDFR 4003	Leadership and Organizations	3
HDFR 4004	Family and Comm. Prog. II Grant Writing/ Fundraising	3
HDFR 4010	Family and Cultural Diversity	3
HDFR 4075	Family Policy & Law	3
HDFR 4080	Global Family Resource Management	3
HDFR 4260	Family Systems and Social Justice	3
HDFR 4930	Human Development and Family Relations Internship	5

Research & Statistics for HDFR

A grade of C or better is required:

RSEM 4100	Research and Statistics in Families and Human Development	3
RSEM 4120	Introduction to Research Methods	3

HDFR Family Diversity

Select one of the following (a grade of C or better is required): 3

HDFR 1030	Who am I? Cultural Identity, Family, Diverse Soc Sys
HDFR 1080	Lifespan Issues in Family Violence
HDFR 3800	Leadership for Racial Justice in School and Community Settings
HDFR 4040	Latino Families in School and Communities
HDFR 4045	Abuelos (Grandparents) Latino Families
HDFR 4888	LGBTQ Family Systems
HDFR 4850	Family Systems Therapy, Religion and Spirituality

HDFR Human Development and Learning

Select one of the following (a grade of C or better is required): 3

HDFR 1000	Global Human Development & Learning
HDFR 2110	Child Ecology
HDFR 3050	Children's Thinking and Assessment
HDFR 3100	Adolescent Ecology
HDFR 4200	Adult Ecology
HDFR 4300	Families in Later Life

HDFR Elective

Select one of the following (a grade of C or better is required): 3

HDFR 2083	Family and Personal Finance
HDFR 4040	Latino Families in School and Communities
HDFR 4045	Abuelos (Grandparents) Latino Families
HDFR 4090	Helping Profession Skills in HDFR
HDFR 4300	Families in Later Life
HDFR 4850	Family Systems Therapy, Religion and Spirituality
HDFR 4860	Trauma Informed Care for Diverse Populations and Co-occurring Disorders
HDFR 4888	LGBTQ Family Systems

Electives¹

HDFR concentration areas:

Pre-Individual, Couple, and Family Therapy/Counseling (p. 984)
Leadership and Community-based Organizations (p. 984)
Higher Education Environments (Pre-Higher Education and Student Affairs) (p. 984)
Educational Foundations and Social Justice (p. 984)
Early Childhood Development (p. 984)
Bilingual (Spanish) Family and Community Services (p. 984)
Family Gerontology (p. 984)

Total Hours 68

¹ In consultation with the HDFR advisor, students may choose courses to complete a minor, certificate and/or HDFR concentration area as long as it supports their career goals. 18 credits of electives are required. If double dipping (using a required HDFR major course to fulfill a general education requirement) more credits will be needed. Transfer students, depending on transferred courses, might not need any electives.

Leadership and Community-based Organizations

Provides a comprehensive understanding and preparation for students to work in and lead community-based organizations including secular, faith-based, for-profit, nonprofit, schoolbased, state, federal and international organizations.

Higher Education Environments (Pre-Higher Education and Student Affairs)

Provides students with an introduction to higher education and student affairs administration and possible careers at various universities, community colleges and liberal arts colleges.

Educational Foundations and Social Justice

Provides students with a foundation to understand justice within familial, educational and community settings. This concentration works well with the previously listed concentrations and is also offered in an English and a bilingual track.

Early Childhood Development**Bilingual (Spanish) Family and Community Services**

Provides students with the linguistic ability to work with Spanish-speaking families and communities. Courses will be delivered in 70 percent Spanish and 30 percent English. Students in this concentration will also be able to complete any of the other concentrations in the program.

Family Gerontology

Provides students with an ecological understanding of culturally and linguistically diverse families in later life. This concentration provides students with insight about individuals' age in families and the community. It also exposes students to promising practices for better serving older adults.

See advisor for courses to take in the concentration areas and for more information.

To review the Degree Map for this program, please visit our website (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/sehd/>).

Pre-Individual, Couple and Family Therapy/Counseling

Provides an introduction to clinical helping professions through systems and strengths therapy perspectives, and includes English and bilingual tracks.

Human Development and Family Relations, BS - Rural Partnership with Trinidad State College

Introduction

Please click [here](#) (p. 898) to see School of Education & Human Development information.

The Human Development and Family Relations (HDFR) Bachelor of Science program prepares students to effectively serve individuals and families in a wide variety of environments. HDFR is committed to a curriculum rich in family diversity and social justice. This 120 credit-hour interdisciplinary program explores family systems and the ecological development of individuals across their life span. The HDFR program leads to certification in the field.

This program is a rural partnership with Trinidad State College (TSC) in Trinidad, Colorado. Students complete the first two years of the program at TSC in an Associate of Applied Science degree in Human Services and then transfer to CU Denver to complete their final two years in online HDFR coursework for the BS in HDFR degree. Advising is provided during all four years of the program, whether students are TSC or CU Denver students.

Program Delivery

- The courses in the first two years of the program are offered on campus in Trinidad at TSC and the last two years of the BS degree are offered in an online format. High touch distance and local advising support is offered to students in the program.

Declaring This Major

- Click [here](#) (p. 900) to go to information about declaring a major.

HDFR Policies

Transfer Credit

HDFR is a transfer-friendly major. HDFR will accept between [18-27](#) transfer elective credits that must be approved by the Registrar and the HDFR Academic Advisor. If a student is transferring from a Non-HDFR/HDFS major they are allowed to petition for an additional 6 credits. All transfer credits must be approved by the HDFR Academic Advisor and HDFR Program Chair. If a student is transferring from an HDFR/HDFS program from another university, they can petition for additional credits to count towards the HDFR major credit. The credits must be a match to be considered for official transfer.

HDFR Passing-Grade Requirements

HDFR courses (for majors/minors) must be passed with a C. C- does not constitute a passing grade; C- may be approved if overall GPA is 2.0 or above with HDFR Program Chair review and approval (an exception may be made in only one course, and this is handled on a case-by-case basis).

HDFR Professional Internship Contact Hours, HDFR 4930

Students [are](#) required to complete 200 hours on-site. This is in addition to completing the HDFR 4930 Human Development and Family Relations Internship course (equivalent: 45 contact hours)

- On-Site Hours can be completed in 1 semester, 2 semesters or 1 semester and a summer session. Students can register for variable credits from 1-5 for a total of 5 credits.

Contact Hours:

Credit	On-site Hours
1.0	40
2.0	80
3.0	120
4.0	160
5.0	200

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Education & Human Development Graduation Requirements (p. 900)
- Click [here](#) (p. 107) for information about Academic Policies

Program Requirements

- Students must complete a minimum total of 120 semester hours for the Human Development and Family Relations BS.
- A minimum GPA of 2.0, C or better grade, is required for all courses applying to Human Development and Family Relations major requirements.
- Courses can be "double dipped" - i.e., used to satisfy both a general education requirement and a major course. If double dipping courses, additional courses will have to be taken to get to the 120 major required credits.
- Transfer courses must be approved by faculty and/or advisor to apply to the major.

Take all courses with a grade of C or better.

Code	Title	Hours
Major Courses		
HDFR 1010	Life Span Development in Ecological Settings	3
HDFR 2000	Introduction to Family and Community Services	3
HDFR 2080	Sex, Human Development and Family Systems	3

Human Development and Family Relations Minor

Introduction

Please click here (p. 898) to see School of Education and Human Development information.

The Human Development and Family Relations (HDFR) minor prepares students to effectively serve and understand culturally and linguistically diverse family systems. For students who are interested in becoming family therapist, work in community based organizations or work as a university or college advisor/administrator this minor will provide excellent foundational courses in these areas. It also provides students with a family systems and ecological systems theories foundation of families and how they interact with community and educational contexts.

Program Delivery

- This is an on-campus program with a variety of delivery options for many of our courses including hybrid, evening, weekend and online courses.

Declaring This Minor

- If you are currently a CU Denver student click here (<https://education.ucdenver.edu/academics/undergraduate/minors/detail/Human-Development-and-Family-Relations-Minor/>) to declare the minor.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies

Program Requirements

- To earn a minor, students must complete 15 approved credit hours specific to the minor, maintain good academic standing in the courses, complete their undergraduate degree concurrently, and satisfy all requirements in each of the areas below, in addition to their individual major requirements.
- HDFR minor courses require a minimum grade of C (2.0).
- 9 credits of HDFR minor courses must be completed at the University of Colorado Denver.
- Transfer courses must be approved by faculty and/or advisor to apply to the minor.

Minor Requirements

Code	Title	Hours
Required Course		
HDFR 2000	Introduction to Family and Community Services	3
or HDFR 2200	Love, Family and Human Development

Overview

Lead. Solve. Change. The nationally-ranked School of Public Affairs at the University of Colorado Denver prepares leaders for government, nonprofit, and criminal justice professions. Driven by a public service mission, our students are committed to solving pressing public problems and improving their communities for the better. School of Public Affairs graduates work as legislators, policy analysts, nonprofit leaders, law enforcement professionals, local government managers, community

advocates, university faculty and administrators, and in many other fields and professions, linked by the common goal of contributing to the greater good.

The School of Public Affairs offers degree programs with optional concentrations, as well as minors and undergraduate and graduate certificate programs. All of our programs are committed to developing the rigorous and ethical thinking necessary for public service professionals. Courses integrate theoretical knowledge with the real-world application of important skills, and students frequently have the opportunity to work on behalf of government agencies and nonprofit organizations. Programs are offered in a variety of formats to accommodate both full-time students and working professionals, all taught by the same highly-regarded faculty. The size of the school means that all students can receive individualized advising and attention, and students and alumni benefit from in-house career and alumni services.

Highlights

The MPA program is accredited by the Network of Schools of Public Policy, Affairs, and Administration (NASPAA), the authoritative accrediting body in the field of public policy, affairs and administration.

US News & World Report 2023 Rankings in the Nation:

- #28 – Best Graduate Public Affairs Schools
 - #9 – Environmental Policy and Management
 - #18 – Nonprofit Management
 - #18 – Public Finance and Budgeting
 - #28 – Public Management and Leadership
 - #21 – Local Government
- #21 - Online Master of Criminal Justice

 - Public Administration Minor (p. 1021)
 - Victims and Victim Services Minor (p. 1022)
 - Law Enforcement Certificate (p. 1024)
 - Nonprofit Management Certificate (p. 1025)
 - Victims and Victim Services Certificate (p. 1026)

School of Public Affairs Graduation Requirements

For additional information regarding Graduation policies and procedures, please visit the Graduation (p. 124) section of the catalog.

Residency Requirement

A minimum of 30 credits must be taken through CU Denver. At least 21 of the final 30 credits of the degree must be earned through CU Denver. Please refer to your major program page for any additional major-specific residency requirements.

Social Sciences Requirement

The School of Public Affairs requires students to select three courses from the Social Sciences area of the CU Denver Undergraduate Core Curriculum. Please see your advisor for guidance on which courses will be most beneficial for your individual major.

Upper-Division Credits

Students must complete a minimum of 45 upper-division credits.

Foreign Language Requirement

School of Public Affairs students must demonstrate proficiency in a foreign language at the second semester college level prior to graduation. This is accomplished through course work, by examination, or through documented evidence that the student has attained the equivalent proficiency in a language other than English.

Students using high school credit to satisfy the proficiency requirement at CU Denver must have received a grade of C- (1.7) or higher in the final semester of the second-year course. Students using college-level transfer credit or coursework at CU Denver to satisfy the proficiency requirement must receive a grade of C- (1.7) or better in the second-semester college-level course. There is no P+/P/F or S/U option for any course taken for the foreign language requirement.

Student Placement in Lower-Division Language Courses

High School Background	Course Number/Level to Take
No language courses or background	1010
One year of high school	1020
Two years of high school	2110
Three years of high school	2120
Four years of high school	Upper-division courses

Note: High school programs vary substantially, and the above levels may not be appropriate for all students. Modern Languages departmental advisors will be happy to speak with any student who feels unsure about his or her placement (303-556-4893).

Prior College Courses

Students wishing to enroll in a lower-division course that does not directly follow their last completed college course in the regular sequence should consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment, 303-556-4893.

Proficiency Testing

Students may also show their level of proficiency by taking a computerized placement/proficiency exam. Call the Department of Modern Languages, 303-556-4893, for scheduled exam times. The languages tested are French, German, and Spanish; students wishing to show proficiency in other languages should consult the Department of Modern Languages for documentation. Students may take an exam only once per semester.

Students who have achieved some proficiency in a foreign language through other means than academic courses should also consult with an appropriate faculty member of the Department of Modern Languages prior to enrollment. This is especially important for native and heritage speakers.

Major Requirement

Complete all requirements associated with your individual major. See the program page for detailed requirements.

Internship Requirement

Undergraduate students without professional experience in the field must complete a minimum 3-credit-hour internship under the direction of a faculty sponsor and the CU Denver Experiential Learning Center (ELC). In order to register for internship credit, students must work with the ELC. Students cannot register for internship credit on their own. Internships must align with the academic calendar and can be completed fall, spring, or summer semester.

Internships are beneficial for career exploration early in a student's academic career and/or for job experience after developing academic content in the major. Internships are considered a high-impact practice and consistently reported as one of the most beneficial experiences as part of the student's undergraduate academic career.

In order to be eligible for an internship, undergraduate students must have a minimum 2.0 cumulative GPA and a minimum of 15 semester hours completed at CU Denver. Bachelor of Arts in Criminal Justice (BACJ) students must have successfully completed CRJU 1000 and CRJU 2041 before registering for the internship, and Bachelor of Arts in Public Administration (BAPA) students must have successfully

completed PUAD 1001 and a 2000-level PUAD course before registering for the internship.

All students must work with the ELC, which provides support for students in all aspect of their internship search, including resume and cover letter help, search assistance, practice interviews, and general guidance and advice. Students are strongly encouraged to connect with the ELC at least one full-semester (~6 months) in advance of the semester in which they intend to complete their internship.

There is an internship waiver available for students with previous professional work experience related to the student's major. Previous volunteer and/or internship experience does not qualify as professional work experience for the purposes of the waiver. The waiver is not credit-bearing. When the internship requirement is waived, students will replace the 3-credit-hour internship with a major elective. Students eligible for the internship waiver are strongly encouraged to submit the internship waiver as soon as possible to have an accurate record of degree requirements. To discuss the internship waiver please contact your academic advisor.

School of Public Affairs Policies

For additional information regarding policies and procedures, please visit the Records and Registration (p. 57) section and the Academic Policies and Procedures (p. 107) section of the catalog.

How to Change a Major

Students who want to transfer to the School of Public Affairs from another college or school of the University of Colorado Denver must formally apply for an intra-university transfer (IUT) to the School of Public Affairs Advising Office (spa.advising@ucdenver.edu). To apply for an IUT, students must submit an IUT form to the School of Public Affairs Advising Office. IUT forms are available from the Office of the Registrar or from an academic advisor.

Special Grading Options

Core knowledge area and general electives are the only courses that can be completed P+/P/F. Pass/fail grades of D-, D, and D+ are translated by the Registrar's Office to a P (pass) grade. Pass/fail grades of C- and above are translated by the Registrar's Office to a P+ grade. P+/P grades do not affect students' GPA; F grades do affect students' GPA. Students interested in completing a course as P+/P/F must submit a Pass+/Pass/Fail Form by the published deadline. Students need to consult the academic calendar posted on the Office of the Registrar's webpage. Up to 16 credits may be completed as P+/P/F or S/U and credited toward the bachelor degree. Students can complete a maximum of 6 credits P+/P/F in any one semester.

Note: Effective Summer 2023 courses that were previously graded on the basis of Pass/Fail (P/F) are now graded with Satisfactory/Unsatisfactory (S/U). This is based on faculty approval of APS 1025 in May 2022. Students still have the option to use the P+ grading system (P+/P/F) by student selection for elective courses up to the maximum allowed by their program.

Academic Integrity Policy

This policy sets forth the definitions and procedures to be used in the School of Public Affairs for identifying and responding to instances of

alleged academic misconduct by students. This policy should be read in connection with Campus Administrative Policy 7050, Academic Integrity.

1. **Definition of academic misconduct.** According to Campus Administrative Policy 7050, academic misconduct is defined as (1) a student's use of unauthorized assistance in an attempt to deceive an instructor or other person who is assigned to evaluate the student's work in meeting course and degree requirements, or (2) actions that interfere with the ability of the instructor to fairly judge the work of the student or other students. Academic misconduct includes any of the following behaviors:
 - a. **Plagiarism.** Plagiarism is the use of another person's distinctive ideas or words without acknowledgment. The incorporation of another person's work into one's own requires appropriate identification, regardless of the means of appropriation. Plagiarism includes but is not limited to the following, when the source is not disclosed:
 - i. Word-for-word copying of another person's ideas or words;
 - ii. The mosaic (the interspersing of one's own words here and there while, in essence, copying another's work);
 - iii. The paraphrase (the rewriting of another's work, yet still using their fundamental idea or theory);
 - iv. Fabrication of references (inventing or counterfeiting sources);
 - v. Submission of another's work as one's own; or
 - vi. Neglecting quotation marks on material that is otherwise acknowledged.
 - b. **Cheating.** Cheating involves the possession, communication, or use of information, materials, notes, study aids, or other devices not authorized by the instructor in an academic exercise, or communication with another person during such exercise for the purpose of obtaining or providing unauthorized information or materials. "Authorization" is legitimate only if given by the faculty member responsible for the evaluation of the student's work. Examples of cheating include but are not limited to:
 - i. Copying from another's work or receiving unauthorized assistance from another person during an academic exercise or in the submission of academic assignments;
 - ii. Using an electronic device when not permitted;
 - iii. Collaborating with another student during an academic exercise without the prior consent of the instructor.
 - c. **Fabrication or falsification.**
 - i. Fabrication: inventing or counterfeiting information, such as creating results not obtained in a study or laboratory experiment.
 - ii. Falsification: deliberately altering or changing results to suit one's needs in an experiment, creative work, or other academic or creative exercise.
 - d. **Multiple submissions:** The submission of academic work for which academic credit has already been earned, when such submission is made without instructor authorization.
 - e. **Misuse of academic materials:** The misuse of academic material includes, but is not limited to, the following:
 - i. Stealing or destroying library or reference materials or computer programs;
 - ii. Stealing or destroying another student's notes or materials, or having such materials in one's possession without the owner's permission;

- iii. Receiving assistance in locating or using sources of information in an assignment when such assistance has not been authorized by the instructor;
 - iv. Possessing or using prior examinations or answer keys, unless authorized by the instructor;
 - v. Altering, forging, copying and pasting, or falsifying academic materials;
 - vi. Selling or purchasing prior examinations, digital media, quantitative formulae, papers, or assignments.
- f. Complicity in academic misconduct: Complicity involves knowingly allowing, or contributing to, another's academic misconduct.

2. Procedures

- a. Discovery of alleged misconduct. When a faculty member suspects that a student may have engaged in academic misconduct, the faculty member shall notify the student in writing and give the student an opportunity to respond. If the faculty member is satisfied that no academic misconduct has occurred, whether intentional or unintentional, the matter is ended.
- b. Reporting alleged misconduct to the university. If the faculty member concludes that academic misconduct may well have occurred, whether intentional or unintentional, the faculty member shall submit the allegation via an online form to the university Office of Student Conduct and Community Standards and notify the Associate Dean for Student Affairs via email. When submitting the online form, the faculty member should request that the Office of Student Conduct email a copy of the report to the faculty member and forward that copy to the Associate Dean (and to the Associate Dean of the Graduate School if the student's program is overseen by the Graduate School).
- c. Determination of responsibility and assignment of sanctions. The faculty member and the student may meet informally to discuss the misconduct and an appropriate sanction prior to the submission of the allegations to the Office of Student Conduct. If that meeting results in an agreement as to the sanction, the faculty member's report shall include the date of the informal meeting and a description of the sanctions. If the faculty member and the student have not met prior to the submission of allegations, the Office of Student Conduct will assist in setting up a meeting, and the faculty member will determine responsibility and appropriate sanctions after that meeting, and will notify the student in writing (and copy the Associate Dean for Student Affairs, and the Associate Dean of the Graduate School if appropriate).
- d. Appropriate sanctions. The faculty member is entitled to determine and impose appropriate academic sanctions for misconduct occurring in his or her course. For misconduct that appears to have been unintentional or careless, faculty are encouraged to provide an opportunity to help the student learn and grow so as not to repeat the misconduct in the future. This educational sanction may be in addition to or as a substitute for academic sanctions such as a lowered or failing grade. Faculty members may consider whether a student has previously been found to have engaged in academic misconduct in imposing sanctions. Faculty members who would like support in determining appropriate sanctions are encouraged to contact the SPA Associate Dean for Student Affairs.
- e. Opportunity for appeal. The student should be notified in writing of his or her right to appeal the faculty member's determination to

the campus Academic Integrity Committee, pursuant to Campus Administrative Policy 7050.

- f. Program or school level sanctions. In cases of particularly egregious misconduct, or repeated misconduct, the faculty member, the Associate Dean for Student Affairs, and/or the Academic Integrity Committee may recommend to the Dean that the student be suspended or expelled from the program or the School.

Adopted by SPA Faculty Council on November 19, 2020

Procedures for Resolving Student Academic Grievances

These are the procedures by which a student may seek to resolve a dispute about an academic issue, such as a grade in a SPA course or a decision about academic standing in a SPA program.

Please note that faculty members have wide discretion in assigning grades, and this discretion will not be disturbed absent evidence that the faculty member has made a clear mistake, has failed to adhere to stated standards, or has otherwise engaged in arbitrary behavior. It is the student's responsibility to provide evidence that the faculty member acted outside of their traditional discretion.

Disputes about grades in non-SPA courses or relating to non-SPA programs should be handled according to the grievance resolution process of the unit involved.

Informal Resolution of Academic Grievances

Absent unusual circumstances, students must first discuss the situation with the faculty member involved to see whether an informal resolution is possible.

Filing a Grievance

If the student and the faculty member are unable to reach resolution, the student may file a grievance with the Associate Dean for Student Affairs. All grievances should be filed as quickly as possible, preferably within the same or following semester but in no case to exceed six months after the decision that is the subject of the grievance.

The grievance may be filed via email or in paper format, and should contain all of the following information:

- The student's name, degree program, and student ID number
- The name of the faculty member involved, if any
- The course name and semester, if the dispute involves a course
- A brief statement of the nature of the grievance (not to exceed two pages)
- Any evidence that the student wishes to be considered in support of the grievance, such as a course syllabus, assignments, and communications with the faculty member
- The remedy requested by the student

The Grievance Investigation

The Associate Dean will acknowledge receipt of the grievance, forward a copy to the faculty member involved and to the faculty program director.

The faculty program director may decide to seek informal resolution by mediating between the student and the faculty member. If the faculty program director does not seek or obtain informal resolution, the Associate Dean will begin investigating the grievance. Investigation of the grievance will include speaking to the student and to the faculty member

involved, and the Associate Dean may request additional information from the student or the faculty member. The Associate Dean of Student Affairs may also seek input or support on the investigation from the Associate Dean of Faculty affairs as needed.

In the event that the Associate Dean for Student Affairs is involved in the circumstances leading to the grievance, the grievance will be investigated by the Associate Dean for Faculty Affairs.

The Associate Dean will conclude the investigation and prepare a written report. The Associate Dean will strive to complete this report within 30 days of the filing of the grievance; however, please note that additional time may be required due to breaks between semesters or over the summer or efforts by the faculty program director to resolve the dispute informally.

Decision by the Dean

The Associate Dean's report shall be submitted to the Dean and shall include a recommendation about the disposition of the grievance. Within ten business days, the Dean will decide whether or not to follow the recommendation, and will forward a copy of the report together with the Dean's decision on the disposition of the grievance to the student, the faculty member, and the faculty program director.

Appealing the Dean's Decision

If the student is not satisfied with the Dean's decision, he or she may make a written request to the Dean that a faculty panel be appointed to review the grievance and consider the appeal. This request should be submitted within ten business days after receipt of the Dean's decision, and may be submitted via email. The Dean shall appoint a panel consisting of three faculty members who were not involved in the original circumstances of the grievance. The faculty panel will consider the evidence and will make a written report with recommendations to the Dean within 30 days, unless additional time is required due to breaks between semesters or over the summer. The Dean will decide whether to uphold or deny the appeal, and will notify the student and faculty member of that decision in writing within ten business days.

The decision of the Dean is final with respect to students in the BACJ, BAPA, and MPA programs. Students in the MCJ and PhD programs may be permitted to appeal the Dean's decision to the Graduate School according to its procedures.

Resolution of Other Types of Disputes

This policy only relates to academic grievances at SPA. Other types of disputes are handled in different offices and/or with different procedures, as follows:

- Disputes relating to academic integrity are handled according to SPA's Academic Integrity Policy. Contact your advisor or the Associate Dean for Student Affairs for more information.
- Disputes related to protected category discrimination (such as race, sex, or disability discrimination) are handled by the Office of Equity.
- Disputes related to the conduct of other students are handled by the Office of Student Conduct.
- The Ombuds Office is available to discuss or mediate other types of interpersonal disputes if needed.

Criminal Justice (CRJU)

CRJU 1000 - Criminology and Criminal Justice: An Overview (3 Credits)

This course is designed to provide an overview of the criminal justice process and the criminal justice system in general. Concepts of crime, deviance and justice are discussed and general theories of crime causality are examined. Special emphasis is placed on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

CRJU 2000 - Professional Development in Criminal Justice (2 Credits)

In this course, students will explore, examine, and reflect on their strengths, interests, and personality assessments as they relate to the criminal justice field and professional development. Participants will conduct career-related research and develop individualized action plans designed to bridge the gap between their current skills and experiences and those desired by employers in the criminal justice field. Prereq: UNIV 1110. Restriction: Restricted to Criminal Justice majors. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: UNIV 1110 Restriction: Restricted to Criminal Justice majors

CRJU 2041 - Criminological Theory (3 Credits)

This course examines the nature and causes of crime and policies within and outside the criminal justice system to predict, prevent, and correct criminal, delinquent, and deviant behavior. It involves a critical appraisal of biological, psychological, economic, and sociological theories and frameworks that explain crime, delinquency, and deviance. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3100 - Research Methods (3 Credits)

This course teaches students how to formulate research questions related to criminology and crime and justice. It addresses how to design research in the field, including choosing an appropriate method and sampling strategy and collecting, analyzing, interpreting, and reporting data and findings. Specific substantive elements are included in research design (e.g., various types of probability and non-probability sampling; strengths and weaknesses of surveys, interviews, and other methodological approaches; experimental and non-experimental designs; qualitative techniques; etc.) Other substantive topics are addressed, including research ethics, consuming research, and writing in different settings. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3150 - Statistics for Criminal Justice (3 Credits)

This course introduces descriptive and inferential statistics and the use of computer software to analyze criminal justice data. Course content includes hypothesis testing and the basic analysis of continuous and discrete dependent variables related to criminology and criminal justice. Prereq: CRJU 3100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: CRJU 3100

CRJU 3160 - White-Collar Crime (3 Credits)

Employs social science and legal approaches to examine crime committed by corporations as well as by individuals in white-collar occupations. Topics include how such crimes are socially defined, who commits them, which social contexts promote them, who is victimized, and how society and the criminal justice system respond. Cross-listed with CRJU 5574. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3220 - Community Corrections (3 Credits)

This course focuses on innovative community-based strategies for dealing with criminal offenders. Correctional alternatives to imprisonment discussed in this course include probation and parole and various community programs, such as day reporting centers, electronic monitoring, half-way houses, and boot camp programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3250 - Violence in Society (3 Credits)

This course examines various aspects of violence, including distribution over time and space; situations and circumstances associated with violent victimization and offending; and how social institutions, community structure, and cultural factors shape violent events. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3251 - Crime and the Media (3 Credits)

This course surveys the relationships between mass media, crime, offenders, victims, and criminal justice. It explores how the criminal justice system and its agents, accused and convicted offenders, and victims, are portrayed in the media and the influence of these depictions on society, public policy, and the criminal justice system. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3252 - Violent Offenders (3 Credits)

This course consists of a historical overview of violence in American society. Course content includes an examination of violent crime rates over time, societal explanations for changes in rates and an examination of the theoretical causes and preventative strategies for acts of violence. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3270 - Case Studies in Criminal Justice (3 Credits)

This seminar examines the lives of people who live on the margins of a society that perceives them as outsiders. Ethnographic studies that utilize observation, participant observations, and interviews as their primary research methodology are assigned in order to develop a critical understanding of the social marginalization and cultural aspects of the lives of real human beings living constantly on the edge of the law. Cross-listed with CRJU 5270. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3280 - Trauma Among Correctional Populations (3 Credits)

This course provides a comprehensive overview of trauma and the relationship of trauma to criminal offending. Topics includes the definition of trauma, the impact of trauma on development, lifelong consequences of chronic exposure to adverse events, and how to integrate knowledge about trauma into organizational policies in correctional settings. The class focuses on understanding the components of a trauma-responsive environment in correctional settings and incorporating trauma recovery principles into practice. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3285 - Trauma in the Criminal Justice System (3 Credits)

This course examines trauma as widely prevalent among those who are served by the criminal justice system and experienced disproportionately among criminal justice professionals. Trauma prevalence, theory, prevention, and interventions through a trauma stewardship lens for victims of multiple forms of trauma, including vicarious traumatization and secondary traumatic stress, will be emphasized through an all-inclusive view across the criminal justice continuum. Cross-listed with CRJU 5285. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3290 - Capital Punishment (3 Credits)

This course examines in-depth a comprehensive range of issues surrounding capital punishment. Specifically, it looks at the history of capital punishment, methods of execution, legal issues and case law, deterrence, miscarriages of justice, discrimination in the capital charging and sentencing system, and the role of the death penalty internationally. The coverage of these issues relies on many sources, including scholarly readings, non-fiction books, court cases, websites, videos and documentaries, speeches, and media. Cross-listed with CRJU 5290. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3310 - Contemporary Issues in Law Enforcement (3 Credits)

This course examines law enforcement's role in contemporary society and the impact of police interaction on other segments of the criminal justice system. Special attention is paid to controversies related to police training and education, career development and community relations. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3320 - Police-Community Relations (3 Credits)

This course focuses on the police and community response to crime. Course content includes an overview of the major concepts and issues involved in what many consider to be a major fundamental shift in the approach and operations of modern policing. The origins, meaning, development and experiences of community policing and various assessments of the advantages and disadvantages of community policing are emphasized. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3330 - Serial Killers (3 Credits)

This course looks at various aspects of serial killing, including definitions, statistics, and demographics of serial killers and their victims. It examines factors that are correlated with serial killing, as well as criminal justice responses to serial killers (e.g., investigative techniques, prosecuting and defending accused killers, etc.) It also includes cases of serial killers. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3340 - Cybercrime (3 Credits)

This course introduces the history and evolution of cybercrime. It explores different types of cybercrime and the issues they present socially, for national security, and in the context of the criminal justice system. Specifically, with respect to the criminal justice system, the class focuses on how cybercrime is defined in laws, prevented, investigated, prosecuted, and sentenced. It also looks at how cybercrime impacts victims and society as a whole. Ethics and policy implications at each stage of the criminal justice process and outside of the justice system are analyzed. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CRJU 3410 - Probation and Parole (3 Credits)

This course is appropriate for students who have a specific interest in the role of probation and parole as correctional sanctions in community settings. Substantive topics, including the presentence investigation report, privatization, and the roles and responsibilities of probation and parole officers, are discussed. Particular attention is paid to research on the effectiveness of probation and parole, factors that contribute to the successful completion of probation and parole, and the role that the community and citizens play in these community corrections processes. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3420 - Pleas, Trials and Sentences (3 Credits)

This course analyzes case materials involving pleas, trials, and sentences. Course content includes the dimensions of criminality, the specific elements of major crimes, plea bargaining, the use of confessions, fair trial procedures, and various aspects of criminal sanctions, including cruel and unusual punishments. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3510 - Drugs, Alcohol, and Crime (3 Credits)

This course looks at the socially constructed nature of drugs and drug policy. It explores the connection between drugs and crime within the socio-historical context of contemporary U.S. drug policy. Special emphasis is placed on the relationship between drugs and alcohol abuse and criminal offending, including the criminal justice system responses to possessing, distributing, and using illegal substances. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3520 - Juvenile Justice (3 Credits)

This course examines the development, change, and operation of the American juvenile justice system and the social factors that shape the identification and treatment of juvenile offenders. Special emphasis is placed on juvenile law and methods of dealing with youthful offenders. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3530 - Juvenile Delinquency (3 Credits)

This course looks at deviant and delinquent behavior committed by minors in American society. It explores the social construction of juvenile delinquency and factors and conditions contributing to at-risk and delinquent behavior. Finally, it examines the control and treatment of juvenile offenders prevention programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3540 - Crime and Delinquency Prevention (3 Credits)

This course provides students with an overview of issues related to crime and delinquency prevention, both from criminological and criminal justice points of view. Crime prevention programs that encompass both the individual and community levels are examined. Responses to juvenile offenders-ranging from prevention and diversion to institutional corrections and after care are explored in context of youth policy generally. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3575 - Offenders With Mental Health Disorders (3 Credits)

Examines the offender who may be mentally disordered. Special attention is paid to the various phases of the criminal justice system where psychiatrists are involved (e.g., diversion, fitness, insanity and sentencing), dangerous sex offender legislation, "not guilty by reason of insanity" and "guilty but mentally ill" statutes, and issues concerning confidentiality, informed consent, and treatment. Cross-listed with CRJU 7575 and 5575. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3600 - Introduction to Federal Wildlife and Environmental Laws (3 Credits)

This course will provide an overview of federal wildlife and environmental laws which are designed to protect plants, animals, marine resources, the air we breathe, and the nation's waterways. For each of the laws covered in this course, investigations including case resolutions will be presented. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4010 - Public Service in Emergency Management and Homeland Security (3 Credits)

Introduces emergency management and homeland security including: management of hazards, emergencies, disasters, and the networks of government and nonprofit organizations providing services. Focuses on principles of emergency management and homeland security at state and local jurisdictional levels. Cross-listed with PUAD 4010, PUAD 5650, and CRJU 5650. Prereq: CRJU 1000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: CRJU 1000

CRJU 4012 - Principles of Emergency Management (3 Credits)

Introduces the discipline and practice of emergency management. Topics include administrative practice and processes by which public policy shapes governmental responses to hazards, emergencies, and disasters. Cross-listed with CRJU 5655, PUAD 4012, and PUAD 5655. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4014 - Federal Wildlife and Fisheries Investigations (3 Credits)

Students will learn about federal wildlife laws and an overview of each law will be provided, along with methods and tools used to investigate possible violations of the laws. Prosecuting cases will be covered, and actual cases will be reviewed so students are able to see practical application of the law. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

CRJU 4015 - Intelligence Writing and Briefing (3 Credits)

This course provides an overview of intelligence analysis and aims to provide the skills and tools necessary to effectively communicate results to consumers. Students will be familiarized with the analytical, perceptual, and cognitive pitfalls of conducting intelligence analysis and learn a variety of strategies for overcoming these problems, preparing professional intelligence products, and presenting executive-level intelligence briefings. Cross-listed with CRJU 5015. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4042 - Corrections (3 Credits)

This course consists of an overview of the field of penology and corrections. Attention is paid to conflicting philosophies of punishment, criminological theory as it applies to the field of corrections, the selectivity of the process through which offenders move prior to their involvement in correctional programs, institutional corrections, alternative correctional placements, and empirical assessments of the short and long-term consequences of one's involvement in correctional programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4043 - Law Enforcement (3 Credits)

This course presents an overview of the role of police in the United States. Attention is placed on the origins of policing, the nature of police organizations and police work, patterns of relations between the police and the public, discretion, and the police role in a sociological context. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4044 - Courts and Judicial Process (3 Credits)

This course examines the basic functions, structure, and organization of the federal and state court systems, with special attention on the criminal court system. It looks at the courtroom workgroup and agents within it, including the prosecutor, defense attorney, and judge. It focuses on the influence of judicial behavior on the court process by examining judges' policy preferences, legal considerations, group processes within courts, and courts' political and social environments. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4100 - Administration of Criminal Justice (3 Credits)

Analyzes the policies and practices of agencies involved in the criminal justice process, from the detection of crime and arrest of suspects through prosecution, adjudication, sentencing and imprisonment, to release. The patterns of decisions and practices are reviewed in the context of a systems approach. Cross-listed with CRJU 5100. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4120 - Race, Class, and Justice (3 Credits)

This course examines the relationships between race, social class, and crime. Attention is given to theoretical explanations, empirical research, and patterns of criminal behavior. The class focuses on historical frameworks that are relevant to current perspectives on the impact and interactions of race, class, and crime in the field. It examines race, class, and race-by-class disparities and discriminatory practices at different phases of the justice system from detention through sentencing and appeals. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4121 - Ethics in Criminal Justice (3 Credits)

This course is designed to prepare students to identify and critically examine ethical issues in the criminal justice system by applying ethical decision models. It also provides students with the opportunity to analyze how they would resolve these issues according to their own values and beliefs while staying within the boundaries of the law and formal and informal professional ethics. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4130 - Poverty, Crime, and Justice (3 Credits)

This course analyzes theories and empirical research related to the causes of criminal behavior committed by individuals of lower socio-economic status. Further, it examines the economic and social costs of crimes committed by under-resourced individuals and crime-prevention strategies that are connected to crimes committed by under-resourced individuals. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4140 - Interpersonal Violence (3 Credits)

This course examines the criminal justice systems response to intimate partner violence by focusing on the interactions between victims, offenders, and components of the criminal justice system. By exploring the dynamics of intimate partner violence, this course addresses the theories, history, research, legislation, and policy implications related to the criminal justice system's response to intimate partner violence.

Cross-listed with CRJU 5150, PUAD 5155. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4150 - Sex Offenders and Offenses (3 Credits)

This course explores historical and current practices of the criminal justice system to address sex offenders and offenses. Topics include the history of sexual abuse, etiology of offenders, victims' issues, juvenile sex offenders, risk assessment, and treatment/supervision approaches to sex offenders and offenses. Prereq: CRJU 1000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: CRJU 1000

CRJU 4170 - Victimology (3 Credits)

This course involves the scientific study of crime victims and focuses on the physical, emotional, and financial harm people suffer at the hands of offenders. Emphasis is placed on victim-offender relationships, interactions between victims and the criminal justice system, and connections between victims and other social groups and institutions. Theories, history, research, legislation, and policy implications related to the social construction of "the victim" are explored. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4171 - Homicide Studies (3 Credits)

This class examines criminal homicide from all angles: the offenders, the victims, the police, prosecution, defense, jurors, and judges. It looks at investigative techniques and the latest science involved in criminal investigation, jury selection, and other criminal justice system issues. It focuses on what is arguably the most serious form of homicide, murder, exploring sensational cases that involve delving into the psyche of murderers. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4172 - Crime Forensics (3 Credits)

This course offers an overview of specialized knowledge, techniques, principles, and technologies of forensic sciences and criminal investigations. Students will explore the fundamentals of proper evidence collection, preservation, and evidence analysis techniques. Students in this course will develop an understanding of the practical application of forensic science to legal issues and disputes. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4173 - Crime Scene Investigation (3 Credits)

Crime Scene Investigation is a course that is designed to give the student a working knowledge of how to investigate and collect evidence on a variety of crime scenes. It demonstrates how different types of physical evidence is used to solve crimes, specifically looking at forms of evidence like gun shots, blood spatter, and finger-printing. It also looks at the importance of professional skills, such as academic knowledge, problem-solving, effective communication, and the use of technology. Other issues, such as historical context and ethics, will be discussed. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4180 - Comparative Study of Criminal Justice Systems (3 Credits)

This course analyzes the dynamics of criminality and the social responses to crime across countries. Special emphasis is placed on methods of comparative legal analysis utilized to examine international differences in crime and justice, international cooperation in criminal justice, and crime and development. Prereq: CRJU 1001. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4190 - Gender and Crime (3 Credits)

This course explores issues surrounding women as offenders and victims. It investigates explanations for women's involvement in illegal activities and looks at gender-based disparities and discrimination in the criminal justice system's treatment of women who are accused and convicted of crimes. The class also examines women's participation in criminal justice professions, including law enforcement, corrections, judicial processes, and law. Cross-listed with CRJU 5553. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4200 - Wrongful Convictions (3 Credits)

Explores the continuum of justice-system errors ranging from persons who are falsely accused (arrested, prosecuted, and tried) to those who are wrongly convicted and imprisoned or sentenced to death row and erroneously executed. Cross-listed with CRJU 5200. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4210 - Prisoner Reentry (3 Credits)

Focuses on prisoner reentry, including strategies to prepare inmates for release, reduce recidivism, and facilitate adjustment in the community while meeting the demands of public safety. Cross-listed with CRJU 5210. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4230 - Treatment Approaches in American Corrections (3 Credits)
This course examines the origins and historical development of prisons and jails in America. Particular attention is given to the impact of reform movements; the rise of centralized correctional systems; and regional and other socially differentiated variations in the practice of punishment. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4252 - Criminal Offenders: Evidence-Based Decision-Making (3 Credits)

This course will introduce the core principles of evidence based programming and tools of motivational interviewing as it is used currently with the offender population. In addition, students will learn how to utilize these skills working with specific offender populations. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4310 - Leadership Roles in Criminal Justice (3 Credits)

The course is designed to enhance interest, experience, and knowledge in leadership that promotes professionalism and ethical behavior among criminal justice professionals. Individual and organizational dynamics are explored through a critical perspective, focusing on criminal justice roles and responsibilities. The class teaches effective leadership skills in areas such as team building, strategic planning, and decision-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4331 - Crime Analysis and GIS (3 Credits)

Serves as an introduction to the uses and applications of analysis within law enforcement, including the role of analysis in law enforcement, theories that guide analysis and police practices, commonly used data sources and technology, and techniques for various types of analysis utilized in law enforcement. Cross-listed with CRJU 5331. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4410 - Criminal Law and Constitutional Procedures (3 Credits)

This course focuses on substantive criminal law and constitutional rights of the accused in criminal proceedings. Course content includes the legal elements of major crimes. It also addresses legal aspects of investigation, search and seizure, arrest, custodial interrogation, the appointment of counsel, and constitutional rights that apply during trials (e.g., right to confront witnesses, be protected against self-incrimination, be tried by a jury of one's peers, etc.) Rules governing the admissibility of evidence in court are also examined. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4430 - Law and Society (3 Credits)

This course introduces students to the scholarly study of law. Students will become familiar with social scientific perspectives of the law, legal institutions, the legal process, and the impact of law on behavior. Particular emphasis is placed on the interplay between the social construction of crime through law, criminal behavior and individuals targeted in criminal justice processes in America. Additional topics include theories of law and legality, comparative legal systems, police, lawyers, judges, juries, and the use of social science expertise in the justice system. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4440 - Courts and Social Policy (3 Credits)

This course involves the study of emerging trends and issues in the administration of the courts, the emerging role of the judiciary in the administration of programs in the public and private sectors, and the implications of court administration on social policy. Course content includes the history of the judicial approaches to the criminal justice administrative process and substantive social policy. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4450 - Homeland Security (3 Credits)

This course is an in-depth analysis of homeland security in the U.S. Topics include the initial concepts and strategies of securing land borders, seaports, and airports, the establishment of the Department of Homeland Security, and the functions and operations of the DHS today and in the future. Prereq: Completion of CRJU 1000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: CRJU 1000

CRJU 4520 - Gangs and Criminal Organizations (3 Credits)

This course traces the origins and historical development of the activities known as "organized crime." These crimes are some of the most dangerous to American society and range from the commonly known offenses of gambling and narcotics to the more subtle and sophisticated, less understood but equally serious, crimes of extortion, commercial bribery, and political corruption. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4530 - Families and Intergenerational Violence (3 Credits)

This course focuses on the family as the primary institutional mechanism of social control. Structured around social learning theory, it explores the relationships between exposure to childhood violence and violence later in life, including dating relationships during adolescence and adulthood and violence in marital relationships. The course also looks at the impact of childhood violent victimization on juvenile delinquency, adult criminality, and violent behavior in general. Cross-listed with CRJU 5535. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4540 - Evidence-Based Approaches in Law Enforcement (3 Credits)

This course provides an introduction to the uses and applications of analysis within law enforcement, including the role of analysis in law enforcement, theories that guide analysis and police practices, commonly used data sources, technology, and a practical introduction to the techniques for various types of analysis utilized in law enforcement. Prereq: CRJU 1000, 3100, and 4043. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CRJU 1000, 3100, and 4043.

CRJU 4600 - Special Topics in Criminology and Criminal Justice (1-6 Credits)

This highly specialized seminar addresses cutting-edge and emerging developments in the fields of criminology and criminal justice and provides students and faculty with the opportunity to explore significant themes, issues, and problems from a broad interdisciplinary perspective. Topics vary from semester to semester. Prereq: CRJU 1000. Repeatable. Max hours: 18 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 18.

Pre: CRJU 1000

CRJU 4700 - Community-Based Field Experience and Seminar (3 Credits)

Students work in small groups to complete substantive projects for government agencies and community organizations, led by faculty instructor. Topics addressed will vary depending on the needs of the community partner. Prereq: Completion of CRJU 1000 and CRJU 3100. Restriction: Restricted to SPA students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Completion of CRJU 1000 and CRJU 3100. Restriction: Restricted to SPA students.

CRJU 4710 - Environmental Crime and Justice (3 Credits)

Environmental Crime and Justice will look at the disproportionate benefits and burdens of environmental "profits" (e.g., open spaces, clean air and water, etc.) and contamination (which results from behaviors that include, but are not limited to crime), as well as the implications of these disparities on certain areas, particularly communities of color and indigenous communities. The role of the government, the private sector, non-profit organizations, and the environmental justice movement in creating, perpetuating, and minimizing environmental crime and its disparities will be examined, with part of the focus being on theories within critical criminology that address issues of environmental crime injustices. The nature of environmental offenders and victims will be explored. Policies and programs that have been organized to address environmental crime and other injustices and their effects (e.g., quality of life, birth defects, childhood asthma, lead poisoning, cancer, etc.) will be reviewed, including responses by the criminal justice system to environmental crime. Students will examine critically the consistencies and inconsistencies in institutionalized mechanisms that are set up, either intentionally or more subtly, to create, reinforce, or minimize environmental crimes and injustices. Cross-listed with CRJU 5710. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4840 - Independent Study: CRJU (1-6 Credits)

This course consists of instructor-guided research in an area of mutual interest to the student and instructor or a student-driven project supervised by the instructor. Students are responsible for selecting their area of inquiry prior to contacting the instructor. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CRJU 4939 - Internship (1-9 Credits)

Internships involve a career-related supervised experiential course in a criminal justice or related agency. Permission to enroll must be preceded by an application for an internship. Prereq: Permission of instructor and advisor is required for undergraduate students. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CRJU 4961 - Capstone (1-10 Credits)

Synthesizes competencies gained throughout the course of study into a client-based research project. Students conduct independent research, complete a final project demonstrating their qualifications and expertise. Restriction: Restricted to undergraduate students in the School of Public Affairs. Max hours: 10 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 10.

Restriction: Restricted to undergraduate students in the School of Public Affairs.

Additional Information: Report as Full Time.

CRJU 4995 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with CRJU 5995. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall.

Public Administration (PUAD)**PUAD 1000 - Public Service Online Success and Career Exploration (1 Credit)**

Offers Public Service majors the chance to explore their career field and adapt to an online learning environment. Topics will include Canvas tips, online course etiquette, community building for the online learner, how online students can utilize CU Denver student-success resources, writing and citation tips, and contemporary time management techniques.

Restriction: Restricted to freshmen or undergraduates with less than 30 credit hours. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to freshmen or undergraduates with less than 30 credit hours.

PUAD 1001 - Why We Care About Government, Nonprofits, and the Public Good (3 Credits)

Students will gain the opportunity to understand the discipline of public administration; public administration aims to help public and nonprofit agencies more effectively respond to public demands made by citizens, organizations, and other levels of government. Explore multiple career paths to advancing the public good in government and nonprofits, including volunteerism, citizenship, community engagement, and leadership. Consider implications for enhancing public integrity and trust in government. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Fall, Spring.

PUAD 2001 - Management for Public Service (3 Credits)

Learn how managers in public sector organizations foster human capital and manage performance in a diverse, inclusive, and collaborative workforce. Examine strategic management techniques, human resource law and procedures. Explore the values of character and competence in creating effective organizations. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 2002 - Policy and Advocacy (3 Credits)

Students will develop skills and tools for creating policy change. Public policy is the decisions and nondecisions of public actors as they attempt to address social, economic and political topics. The course will introduce students to policy change, lobbying, advocacy, and the ways in which policies lead to entrenched coalitions, perceptions, behaviors, and funding models. Max hours: 3 Credits

Grading Basis: Letter Grade

PUAD 3001 - Project Management and Program Evaluation (3 Credits)
Examine strategic management techniques, organizational theory, and tools for organizational change. Explore structures, life-cycles, and change dynamics of government and nonprofit organizations including organizational culture, the relationship between organizational structure and services, and organizational strategy and effectiveness. Learn the analytical, critical thinking, and problem-solving skills required for program design, implementation, and evidence based decision-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3002 - Organizational and Strategic Management (3 Credits)
Examine strategic management techniques, organizational theory, and tools for organizational change. Explore structures, life-cycles, and change dynamics of government and nonprofit organizations including organizational culture, the relationship between organizational structure and services, and organizational strategy and effectiveness. Learn the analytical, critical thinking, and problem-solving skills required for program design, implementation, and evidence based decision-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3003 - Introduction to Nonprofit Organizations (3 Credits)
Explore the historical background, development, role, auspices, organization, and purposes of nonprofit agencies. Expand awareness of the scope and breadth of the nonprofit sector in the U.S., examine the inner workings of nonprofit organizations as the foundation for further study. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3004 - Managing Nonprofit Organizations (3 Credits)
Examine leadership and decision-making theory and practice in the nonprofit sector. Explore classic and contemporary theories on leadership, management, governance and organizational effectiveness of nonprofit organizations. Techniques for effective board meetings, committee work, development of board members, and policy development. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3005 - Collaboration Across Sectors (3 Credits)
Organizations across sectors respond to complex problems with innovative and flexible responses through networks. Managing within and across organizations is essential to effective performance in a networked system. Explore collaborative governance across sectors—nonprofit, for-profit, and public—with analyses and applications. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3110 - Seminar in Nonprofit Management (3 Credits)
This course provides an overview of the principles and concepts that are unique to nonprofit management. Topics include executive management, funding diversity, human resource management, marketing, volunteer management and ethics. Students are also given an introduction to the history and the importance of the nonprofit sector. Cross-listed with PUAD 5110 and CRJU 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3400 - What Communities Tell Us: Stakeholders, Public Opinion, and Community Feedback (3 Credits)
Integrating community feedback into a strategy, message, and organizational feedback loops enhances leadership, keeps leaders connected to their communities, and can help drive decision making. This course examines various forms of publicly available opinion data, techniques for collecting stakeholder and community feedback, and the challenges and opportunities this feedback can present in public and nonprofit organizations. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3500 - Managing and Leading in Environmental Organizations (3 Credits)
Students will explore the intersections between management, science, regulations, policies, and sustainable programs, and issues associated with “being green.” Students will also consider the intersection of environmental laws with efforts by businesses, governments, NGOs, and other organizations to protect natural resources, build collaborations for effective environmental management, and the deep-seated value conflicts over the causes, or even the existence, of environmental problems and the appropriate solutions to address them. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3600 - International and Global Organizations (3 Credits)
Students will learn about the history of development paradigms and understand the relationships among development actors and how they address persistent global problems such as poverty, human trafficking, trade, education, health, and human rights, as examples. Students will understand the impact of colonialism and the finite resources available to address complex social issues in the developing world. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4000 - Human Resources and Ethics in Public Service (3 Credits)
Learn how managers in public sector organizations foster human capital and manage performance in a diverse, inclusive, and collaborative workforce. Understand ethics in public service, explore ethical concerns in public affairs, and confront ethical challenges in government and nonprofit organizations. Examine human resource law and case studies to apply ethical judgement to organizational decisions. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4002 - Leading and Engaging for the Public Good (3 Credits)
Develop a personal leadership identity, tools for collaboration and stakeholder development, as well as work toward building an understanding of the interdependence of public and nonprofit organizations within communities. Investigate cultural competency, social justice, and your own citizenship skills. Look at issues related to leadership, personal ethics and values, motivation, change management, and teamwork. Students explore how stakeholders, networks, partnerships, and communities work together to achieve public goals. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4003 - Strategic Communications for Public Engagement (3 Credits)

Strategic communicators are needed in all fields, especially those that serve the public good. Grow in your abilities to demonstrate the value of government, educational, and non-profit organizations while driving positive engagement with diverse audience networks. Gain relevant professional writing, facilitation, presentation, social media, and crisis management skills to support your favorite institutions. Learn how to conduct situational and diverse audience analyses, solidify objectives, appreciate place branding, and craft messaging. Experience the excitement of executing the public communications function through guest speaker appearances, experiential outings and discussions, and hands-on activities. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4004 - Building Public and Financial Support for Nonprofit Organizations (3 Credits)

Examines methods, techniques, and directed experience in fundraising for nonprofit agencies. Explores relationships with umbrella organizations, government funding, grantsmanship, budget control, and accountability. Discusses social entrepreneurship and social innovation. Examines communications, marketing, and public relations intersection with resource development. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4005 - Human Rights and Social Equity (3 Credits)

Achieving social equity is only possible through significant public policy, administration, leadership and managerial changes. This class explores the intersection between achieving social equity and efforts toward securing human rights. The course will cover local, state, and global challenges that public administrators face as they aim to address harms created by policy legacies. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4006 - Organizational Development (3 Credits)

Examine structures, life-cycles, and change dynamics of government and nonprofit organizations including organizational culture, the relationship between organizational structure and service provision, and organizational strategy and effectiveness. Learn diagnostic and assessment tools, methods, and processes for improving organizational performance. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4007 - Nonprofit HR: Governance, Staff, Volunteer Management (3 Credits)

Current issues in human resource administration for employees of nonprofit organizations. Topics include such areas as recruitment, staff development, volunteer management, performance, evaluation, labor-management issues, and affirmative action. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4008 - Current Issues in Public Sector Organizations (3 Credits)

Explore the impact on public sector organizations of emergent issues such as globalization, changing demographics of the citizenry and workforce, sustainability, declining budgets, and information technology. Examine ways public sector organizations adapt to these trends. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4009 - Human Service Organizations (3 Credits)

Provides an overview of human services delivery in government and nonprofit organizations. Explore causes and conditions that give rise to the need for effective and equitable human service organizations. Learn essential skills including cultural competencies, boundaries, and collaboration. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4010 - Public Service in Emergency Management and Homeland Security (3 Credits)

Introduces emergency management and homeland security including: management of hazards, emergencies, disasters, and the networks of government and nonprofit organizations providing services. Focuses on principles of emergency management and homeland security at state and local jurisdictional levels. Cross-listed with PUAD 5650, CRJU 4010, and CRJU 5650. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4011 - Community Resilience, Climate, and Emergency Response (3 Credits)

Climate change and disaster mitigation increasingly consumes time, energy and efforts of public and nonprofit leaders. This course, through an all-hazards approach, will guide students in understanding how communities can plan, prepare, respond and mitigate potential climate-related and mass casualty disasters. Through case studies and public sector agencies, students will explore techniques that can enhance community resilience, create partnerships across jurisdictions, and reduce risk. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4012 - Principles of Emergency Management (3 Credits)

Introduces the discipline and practice of emergency management. Topics include administrative practice and processes by which public policy shapes governmental responses to hazards, emergencies, and disasters. Cross-listed with PUAD 5655, CRJU 4012 and CRJU 5655. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4020 - Social Entrepreneurship (3 Credits)

Social entrepreneurship, practices, theories, and allied concepts. Using private, nonprofit, and government examples, explore innovation, creativity, profit for social welfare, and innovative management. Advance an organization's social good mission, and increase effectiveness, accountability, and efficiency through market-based techniques. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4140 - Nonprofit Financial Management (3 Credits)

Provides a grounding in financial management for the "non-accountant" by focusing on an array of knowledge and management skill areas necessary for allocating and controlling resources and for analyzing, reporting and protecting the fiscal health of the organization. Topics include key accounting principles, understanding and using financial statements, the budget development process, cash flow analysis, banking relationships, using the audit report, maximizing investment policy and strategy, and understanding the boundaries of tax exemption. Cross-listed with PUAD 5140 and CRJU 5140. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4145 - Philanthropy (3 Credits)

Today, the organized field of philanthropy and its companion field, impact investing, are growing at a remarkable speed. This course will explore the origins of philanthropy and impact investing and provide students with an in-depth understanding of how philanthropy works today and the nuances that exist among different forms of philanthropy and investment: individual giving, foundations, corporate philanthropy, and impact investing. It will also explore new trends among individual and institutional investors and unpack the different approaches that funders are taking to influence how services are delivered and the striking efforts to affect systems changes. Cross-listed with PUAD 5145. Max hours: 3 credits

Grading Basis: Letter Grade

PUAD 4160 - Nonprofit Boards and Executive Leadership (3 Credits)

The important roles and responsibilities of a voluntary board of directors and the process of governing are often misunderstood. This course explores the special powers of a nonprofit board of directors as framed by and responsive to public policy. From the perspective of organizational behavior and theory, the course examines the leadership role and interplay between board members and the executive director. The examination includes a comparative analysis of different governing models, and explores fundamental questions of board composition, the role of advisor boards, achieving effective board meetings, the realm of liability, using committees, and the board's role in fundraising, among other special subject matter. Cross-listed with PUAD 5160. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4220 - Human Resource and Talent Management (3 Credits)

Covers human resource functions in public and nonprofit agencies. Topics include job analysis, compensation, recruiting, selection, rewarding, training and development. Contemporary issues concerning civil service reforms are also presented. Prereq: PUAD 1001 or Instructor approval. Cross-listed with PUAD 5220. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PUAD 1001.

Typically Offered: Spring.

PUAD 4325 - Public Private Partnerships (3 Credits)

This course has been designed to introduce students to public private partnerships (PPPs) as a field of study and practice using Colorado as a laboratory for current practice, policy, strategy, management and finance. Students will engage current examples of PPPs as cases, learn and exchange in class presentations with guest lecturers currently leading PPPs and evaluate projects in class assignments doing research, analysis, and field interviews. Students will enhance their knowledge as well as skills commonly used in public, private, nonprofit and enterprise management and the public policy context and narrative of PPPs in international and U.S. practice. Cross-listed with PUAD 5325. Max hours: 3 credits

Grading Basis: Letter Grade

PUAD 4440 - Negotiation and Conflict Resolution (3 Credits)

Focuses on concepts and skills necessary to negotiate policy and management decisions and manage internal and external conflicts. Designed to help students understand the dynamics that affect negotiations and to apply the principles and strategies of negotiation in a variety of decision making and dispute resolution contexts. Cross-listed with PUAD 5440. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4600 - Special Topics in Public Service (1-6 Credits)

This highly specialized seminar addresses cutting-edge and emerging developments in the field of public service and provides students and faculty with the opportunity to explore significant themes, issues and problems from a broad interdisciplinary perspective. Topics vary from semester to semester. Repeatable. Max hours: 18 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 18.

PUAD 4620 - Crisis and Emergency Communication (3 Credits)

This course examines strategic communication practices throughout the three stages of a crisis or emergency event. Special emphasis is placed on crisis planning, emergency messaging, media relationships, image restoration, ethical responses, and organizational learning. Cross-listed with PUAD 6620, COMM 4557, and COMM 5557. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PUAD 4628 - Social Problems and Policies in the Urban Environment (3 Credits)

Examines local government and nonprofit approaches to addressing common urban social problems. Topics covered may include urban poverty, crime, education, housing, and immigration. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4630 - Economic Development (3 Credits)

As governments search for new ways to be efficient, improve performance and leverage resources, they are also looking at their communities, states and regions in terms of competitiveness, international trade and globalization innovation, collaboration and partnerships. This course will look at practices where economic development includes these elements: the Colorado Innovation Network, the Colorado Office of Economic Development and International Trade, the Metro Denver and Denver South Economic Development Partnerships, Mile High Connects, the Downtown Denver Partnership, and public-private partnerships across multiple sectors in transportation, broadband, water and innovation. Students will develop an economic development strategy based on knowledge and tools learned in the course. Political and professional leadership will be part of the dialog. Cross-listed with PUAD 5630. Max hours: 3 credits

Grading Basis: Letter Grade

PUAD 4633 - Economic Development (3 Credits)

As governments search for new ways to be efficient, improve performance and leverage resources, they are also looking at their communities, states and regions in terms of competitiveness, international trade and globalization innovation, collaboration and partnerships. This course will look at practices where economic development includes these elements: the Colorado Innovation Network, the Colorado Office of Economic Development and International Trade, the Metro Denver and Denver South Economic Development Partnerships, Mile High Connects, the Downtown Denver Partnership, and public-private partnerships across multiple sectors in transportation, broadband, water and innovation. Students will develop an economic development strategy based on knowledge and tools learned in the course. Political and professional leadership will be part of the dialog. Cross-listed with PUAD 5633. Max hours: 3 credits.

Grading Basis: Letter Grade

PUAD 4638 - Colorado Politics, Policy, and Administration (3 Credits)

This course focuses on the state-level policy-making process in Colorado, and how that process is affected by local, state, and federal politics, administration, and other policy-making constraints applicable to the state. Substantive topics covered will vary, but students will be exposed to a wide range of perspectives and experiences from practitioners and policy influencers engaged in state-level politics, policy-making, and administration. Cross-listed with PUAD 5638. Max Hours: 3 Credits.
Grading Basis: Letter Grade

PUAD 4740 - Sustainable Energy Policy (3 Credits)

This course will cover the basic principles and operation of policy and regulation that impact the production and use of energy (with a focus on transportation and electricity generation) from all of the major sources currently available and used. We will analyze (and, through a sustainability lens, critically evaluate) energy from water (hydroelectric, hydrokinetic), coal, domestic and international petroleum, natural gas and nuclear reactors. A significant portion of the course will focus on electricity generation and associated policy, technologies and regulation. In the context of each energy source and use, we will review and discuss sustainability practices, policies, and, issues. Cross-listed with PUAD 5740. Max hours: 3 credits
Grading Basis: Letter Grade

PUAD 4840 - Independent Study (1-6 Credits)

This course consists of faculty-guided research in an area of mutual interest to the student and instructor. Students are responsible for selecting their area of inquiry prior to contacting the instructor. Permission of instructor is required. Repeatable. Max Hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

PUAD 4939 - Public Service Internship (1-9 Credits)

The internship course, required for all Public Service majors unless waived, provides career-related experiential learning in a government agency or nonprofit organization. Students must apply to the internship course in the semester before they hope to enroll and obtain permission from their advisor and the instructor prior to enrolling. Prereq: PUAD 1001 plus any other 2000 level (or higher) PUAD course, a GPA of 2.0, and a minimum of 15 UCD credit hours completed. Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

PUAD 4941 - Integrating Professional Public Administration (3 Credits)

This is a student-directed, project-based course that allows the student to bring together their entire collegiate knowledge base into a project, program, thesis, or experience that will demonstrate how their public administration knowledge and expertise connects to their BAPA Core, concentration, thematic sequence, core University requirements, and personal goals. This course is intended for students in their final semester of the bachelor's degree. Max hours: 3 Credits.
Grading Basis: Letter Grade

PUAD 4961 - Capstone (1-10 Credits)

Synthesizes competencies gained throughout the course of study into a client-based research project. Students conduct independent research, complete a final project demonstrating their qualifications and expertise. Restriction: Restricted to undergraduate students in the School of Public Affairs. Max hours: 10 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 10.
Restriction: Restricted to undergraduate students in the School of Public Affairs.
Additional Information: Report as Full Time.

PUAD 4995 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with PUAD 5995. Repeatable. Max hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Typically Offered: Fall.

Criminal Justice, BA

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The School of Public Affairs' Bachelor of Arts in Criminal Justice (BACJ) program is designed for students who are interested in studying the American criminal justice system. Coursework in the major includes the complex nature of crime causation; the history, framework, and operations of criminal justice organizations; the implications of public policies related to crime and justice; and special topics such as capital punishment, victimology, race and crime, and community corrections. Students also receive rigorous training in research methods and statistics, allowing them to understand how to frame important questions and become critical consumers of information. Students may choose to focus their electives in Law Enforcement (p. 1006), Victims and Victim Services (p. 1008), earning concentrations in these areas, or they may use electives to study other criminal justice-related topics.

As with all undergraduate degrees at CU Denver, BACJ students will also complete the requirements of the CU Denver core curriculum, ensuring that they have a well-rounded liberal arts education. The critical thinking skills provided by the degree are important to any future career path, but BACJ students are particularly well-prepared for careers in criminal justice organizations such as local, state, and federal law enforcement and criminal justice agencies and nonprofit organizations working with people and communities affected by crime. Many graduates pursue advanced degrees in law, criminal justice, and related fields.

Program Delivery

- Courses are offered on campus, online, and occasionally in remote and hybrid formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu.
- Click here (p. 991) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies.

Program Requirements

1. The Bachelors of Arts in Criminal Justice degree requires 39 credit hours of coursework. Students must complete a minimum of 45 upper-division credit hours, 21 of which must be Criminal Justice credit hours.
2. A maximum of 15 transfer credits may be applied to the major. Transfer Criminal Justice credits above the 15 credits already applied to the major will count as general electives. CRJU courses taken from

the University of Colorado, Colorado Springs are not subject to this transfer credit limit for the major.

3. Students must receive a minimum C- grade in each undergraduate course applied to satisfy major or minor degree requirements and must maintain a 2.0 GPA overall in major or minor courses.

See advisor for recent additions to the list.

¹ CRJU 4939 Internship is required as one of the electives for the major unless officially waived by the BACJ Program Director. The internship is a minimum of 3 credit hours. Students who have previous professional work experience in the criminal justice field may request a waiver of the internship requirement. In addition, international students may also have their internship waived. Students whose internship waivers are approved will take a 3-credit-hour Criminal Justice elective in place of a 3-credit-hour internship. Students should direct questions and concerns to their Academic Advisor. See SPA Graduation Requirements (p. 990) for more information.

² Students must complete 15 credit hours of electives, 9 credit hours of which must be Criminal Justice courses offered by the School of Public Affairs, and 6 credit hours of which must be taken from the approved list of other department courses. Students must comply with departmental prerequisites. Other electives not already listed may be considered, but the student must receive approval from the academic advisor prior to enrollment.

Criminal Justice - Law Enforcement Concentration, BA

Introduction

Please click here (p. 989) to see School of Public Affairs information.

Students interested in obtaining a concentration in Law Enforcement within the Bachelor of Arts in Criminal Justice (p. 1004) (BACJ) program must apply and enroll in the BACJ program within the School of Public Affairs and must adhere to all of the degree program requirements.

The undergraduate concentration in Law Enforcement provides a detailed, comprehensive, and advanced education in the field of law enforcement. The program is designed to meet the needs of students who wish to work in law enforcement or who are currently working in the field and would like to enrich their professional development.

The program applies a multi-faceted approach to higher education that:

- Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
- Focuses on specific, yet comprehensive, substantive areas of law enforcement that students can apply to their current or future careers in the field.

Students completing the Law Enforcement concentration will have the knowledge and skills to evaluate and respond to a variety of situations in law enforcement professions that require technical, analytic, substantive, and ethical decision-making. They will understand the different environments and contexts in which law enforcement carry out their responsibilities.

Program Delivery

- Courses are offered on campus, online, and occasionally in remote and hybrid formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu.
- Click here (p. 991) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies.

Program Requirements

1. A concentration in Law Enforcement requires 12 credit hours of course work.
2. A maximum of 6 transfer credits may be applied to the concentration.

3. Students must receive a minimum C- grade in each undergraduate course applied to satisfy the concentration requirements.

Criminal Justice - Victims and Victim Services Concentration, BA

Introduction

Please click here (p. 989) to see School of Public Affairs information.

Students interested in obtaining a concentration in Victims and Victim Services within the Bachelor of Arts in Criminal Justice (p. 1004) (BACJ) program must apply and enroll in the BACJ program within the School of Public Affairs and must adhere to all of the degree program requirements.

The undergraduate concentration in Victims and Victim Services provides a detailed, comprehensive, and advanced education in fields related to victims and victim services. The program is designed to meet the needs of students who wish to work in fields related to victim services or who are currently working in this field and would like to enrich their professional development.

The program applies a multi-faceted approach to higher education that:

- Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
- Focuses on specific, yet comprehensive, substantive areas of victims and victim services that students can apply to their current or future careers in the field.

Students completing the Victims and Victim Services concentration will have the knowledge and skills to evaluate, manage, and respond to a variety of situations and issues that professionals in fields related to victims and victim services face. Specifically, they will possess technical, analytic, substantive, and ethical proficiencies that will facilitate their professional interactions and development. They will understand the different environments and contexts in which victim advocates and other professionals in this and related fields carry out their responsibilities.

Program Delivery

- Courses are offered on campus, online, and occasionally in remote and hybrid formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu.
- Click here (p. 991) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies.

Program Requirements

1. A concentration in Victims and Victim Services requires 12 semester hours of coursework.

2. A maximum of 6 transfer credits may be applied to the concentration.
3. Students must receive a minimum of C- grade in each undergraduate course applied to satisfy the certificate requirements.

Code	Title	Hours
Required Courses		
CRJU 4170	Victimology	3
CRJU 3285	Trauma in the Criminal Justice System	3
Elective Courses		
Select one course from each of the following categories:		6
<i>Victims Focus</i>		
Select (p.) one course from the Victims Focus list		
<i>Professional Setting</i>		
Select (p. 1008) one course from the Professional Setting list		
Total Hours		12

Program Electives

There are two elective categories, Victims Focus and Professional Setting. The Victims Focus elective allows the student to learn about an area of violence in a more in-depth capacity. The Professional Setting electives allows the student to hone skills related to service delivery.

Victims Focus

Code	Title	Hours
CRJU 3250	Violence in Society	3
CRJU 3280	Trauma Among Correctional Populations	3
CRJU 3290	Capital Punishment	3
CRJU 3520	Juvenile Justice	3
CRJU 4140	Interpersonal Violence	3
CRJU 4150	Sex Offenders and Offenses	3
CRJU 4600	Special Topics in Criminology and Criminal Justice 1-6 (Fatal Violence Against Indigenous Women)	6
CRJU 4600	Special Topics in Criminology and Criminal Justice 1-6 (Human Trafficking)	6
HDFR 1080	Lifespan Issues in Family Violence	3
HIST 4308	Crime, Policing, and Justice in American History	3
PSCI 4807	Political Violence	3
PSYC 3611	Psychology of Women	3
SOCY 4460	Hate Groups and Group Violence	3
SOCY 4780	Violence in Relationships	3

Students must adhere to departmental pre-requisites, if applicable. Other electives not already listed may be considered, but the student must receive approval from the academic advisor prior to enrollment.

Professional Setting

Code	Title	Hours
CRJU 4310	Leadership Roles in Criminal Justice	3
HDFR 4003	Leadership and Organizations	3
HDFR 4004	Family and Comm. Prog. II Grant Writing/ Fundraising	3
HDFR 4090	Helping Profession Skills in HDFR	3
HDFR 4260	Family Systems and Social Justice	3
HDFR 4860	Trauma Informed Care for Diverse Populations and Co-occurring Disorders	3

PUAD 3002	Organizational and Strategic Management	3
PUAD 3110	Seminar in Nonprofit Management	3
PUAD 4002	Leading and Engaging for the Public Good	3
PUAD 4003	Strategic Communications for Public Engagement	3
PUAD 4009	Human Service Organizations	3
PUAD 4220	Human Resource and Talent Management	3
PUAD 4628	Social Problems and Policies in the Urban Environment	3

Students must adhere to departmental pre-requisites, if applicable. Other electives not already listed may be considered, but the student must receive approval from the academic advisor prior to enrollment. A victims- or victim services-related internship may fulfill this category. Students should work with their academic advisor to receive approval.

Criminal Justice, BA/MCJ

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The Pathways Bachelor of Arts in Criminal Justice (BACJ)/Master of Criminal Justice (MCJ) degree allows high-performing students to earn both degrees in an accelerated time frame. Both the BACJ and the MCJ degrees are offered fully online, providing students with the flexibility to schedule courses around family and work demands while engaging criminal justice opportunities in their own communities.

The BACJ/MCJ degree program offered by the School of Public Affairs allows high-performing students to count 12 credit hours towards both the BACJ and the MCJ degrees. Eligible students will have completed at least 75 credits with a minimum 3.5 grade point average (GPA) in the BACJ major and a 3.0 overall GPA, completed the undergraduate Core Curriculum, and met all other requirements listed below.

Students are eligible to receive the BACJ degree once they have successfully completed 120 semester hours and all CU Denver undergraduate degree requirements. The MCJ will be conferred once the student has completed all degree requirements.

Pathways Application

Both current CU Denver BACJ majors and new transfer students are eligible to apply to the Pathways BACJ/MCJ program after meeting the following criteria:

- Currently enrolled in the School of Public Affairs as an undergraduate Criminal Justice major
- Completed the University of Colorado Denver's undergraduate core curriculum
- Completed at least 60 undergraduate credit hours
- Completed the following 12 credit hours in Criminal Justice or have an approved plan for enrolling in each class:

Code	Title	Hours
CRJU 1000	Criminology and Criminal Justice: An Overview	3
CRJU 2041	Criminological Theory	3
CRJU 3100	Research Methods	3
CRJU 3150	Statistics for Criminal Justice	3
Total Hours		12

- All transfer courses must have been approved and accepted towards the major and degree at the time of application
- Minimum 3.0 cumulative GPA
- Minimum 3.5 cumulative GPA in the Criminal Justice major

Students will work with their assigned undergraduate academic advisor to apply for the Pathways program after they have already matriculated to the university and have met the stated criteria. Students do not apply for the Pathways program at the time of application to CU Denver.

BACJ/MCJ Program Matriculation

Students admitted to the Pathways BACJ/MCJ program will work with their assigned undergraduate academic advisor to enroll in MCJ-level courses each semester. Students can complete up to 6 credit hours of

MCJ coursework per semester as an undergraduate and a maximum total of 12 graduate semester credits as an undergraduate BACJ/MCJ student overall. Students will continue to take undergraduate coursework while also completing graduate-level coursework.

Students in the Pathways BACJ/MCJ program may be eligible to complete the MCJ-level internship only after successfully passing two MCJ-level courses. The MCJ-level internship may fulfill both the BACJ and MCJ internship requirement. The BACJ-level internship will not fulfill the MCJ-level internship. Students must maintain a minimum 3.0 cumulative GPA for all coursework and a 3.5 GPA for the BACJ major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies.

Program Requirements

1. Students must complete all CU Denver, School of Public Affairs, and Criminal Justice degree requirements to earn their Bachelor of Arts in Criminal Justice degree. The Bachelor of Arts in Criminal Justice is conferred once students meet all degree requirements.
2. Students seek full admission to the Master of Criminal Justice program during their final semester as an undergraduate student. This application is different than the one used to apply for the Pathways program. Students must receive a minimum of a B- grade in each required core MCJ course, whether taken as an undergraduate or a graduate student.
3. Students must maintain a 3.0 GPA overall in all graduate-level courses.
4. Students in the MCJ program must successfully complete the MCJ capstone or thesis.
5. Students must fulfill all college/school and major/program requirements.
6. The MCJ will be conferred once the student has completed all requirements of the Master of Criminal Justice degree.
7. The School of Public Affairs reserves the right to rescind a BACJ/MCJ student's admittance to the Pathways program if at any point the student's GPA falls below the requirements listed above.

Criminal Justice/Public Policy, BA/MPP

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The Pathways Bachelor of Arts in Criminal Justice (BACJ)/Master of Public Policy (MPP) degree allows high-performing students to earn both degrees in an accelerated time frame. Both the BACJ and the MPP degrees are offered fully online, providing students with the flexibility to schedule courses around family and work demands while engaging criminal justice opportunities in their own communities.

The BACJ/MPP degree program offered by the School of Public Affairs allows high-performing students to count 12 credit hours towards both the BACJ and the MPP degrees. Eligible students will have completed at least 75 credits with a minimum 3.5 grade point average (GPA) in the BACJ major and a 3.0 overall GPA, completed the undergraduate Core Curriculum, and met all other requirements listed below.

Students are eligible to receive the BACJ degree once they have successfully completed 120 semester hours and all CU Denver undergraduate degree requirements. The MPP will be conferred once the student has completed all degree requirements.

Pathways Application

Both current CU Denver BACJ majors and new transfer students are eligible to apply to the Pathways BACJ/MPP program after meeting the following criteria:

- Currently enrolled in the School of Public Affairs as an undergraduate Criminal Justice major
- Completed the University of Colorado Denver's undergraduate core curriculum
- Completed at least 60 undergraduate credit hours
- Completed the following 12 credit hours in Criminal Justice or have an approved plan for enrolling in each class:

Code	Title	Hours
CRJU 1000	Criminology and Criminal Justice: An Overview	3
CRJU 2041	Criminological Theory	3
CRJU 3100	Research Methods	3
CRJU 3150	Statistics for Criminal Justice	3
Total Hours		12

- All transfer courses must have been approved and accepted towards the major and degree at the time of application
- Minimum 3.0 cumulative GPA
- Minimum 3.5 cumulative GPA in the Criminal Justice major

Students will work with their assigned undergraduate academic advisor to apply for the Pathways program after they have already matriculated to the university and have met the stated criteria. Students do not apply for the Pathways program at the time of application to CU Denver.

BACJ/MPP Program Matriculation

Students admitted to the Pathways BACJ/MPP program will work with their assigned undergraduate academic advisor to enroll in MPP-level courses each semester. Students can complete up to 6 credit hours of MPP coursework per semester as an undergraduate and a maximum total of 12 graduate semester credits as an undergraduate BACJ/MPP student overall. Students will continue to take undergraduate coursework while also completing graduate-level coursework.

Students in the Pathways BACJ/MPP program may be eligible to complete the MPP-level internship only after successfully passing two MPP-level courses. The MPP-level internship may fulfill both the BACJ and MCJ internship requirement. The BACJ-level internship will not fulfill the MPP-level internship. Students must maintain a minimum 3.0 cumulative GPA for all coursework and a 3.5 GPA for the BACJ major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies.

Program Requirements

1. Students must complete all CU Denver, School of Public Affairs, and Criminal Justice degree requirements to earn their Bachelor of Arts in Criminal Justice degree. The Bachelor of Arts in Criminal Justice is conferred once students meet all degree requirements.
2. Students seek full admission to the Master of Public Policy program during their final semester as an undergraduate student. This application is different than the one used to apply for the Pathways program. Students must receive a minimum of a B- grade in each required core MPP course, whether taken as an undergraduate or a graduate student.
3. Students must maintain a 3.0 GPA overall in all graduate-level courses.
4. Students in the MPP program must successfully complete the MPP capstone or thesis.
5. Students must fulfill all college/school and major/program requirements.
6. The MPP will be conferred once the student has completed all requirements of the Master of Public Policy degree.
7. The School of Public Affairs reserves the right to rescind a BACJ/MPP student's admittance to the Pathways program if at any point the student's GPA falls below the requirements listed above.

Public Administration, BA

Introduction

Please click here (p. 989) to see School of Public Affairs information.

Our graduates have a passion for helping people and making the world a better place. The Bachelor of Arts in Public Administration (BAPA), offered by the School of Public Affairs, prepares the next generation of civic-minded leaders to take active roles in organizations that promote the common good, such as local, state, and federal government agencies and nonprofit and nongovernmental organizations. We build on this passion, in concert with your work and life experiences, to encourage and develop learning opportunities where we examine how systems, institutions, communities, and organizations influence social or policy change. Public Administration degrees allow students to engage with communities in building their future. Specifically, we prioritize commitments to public and social issues, develop the capacity for organizations to help individuals reach their goals, and allow you to hone your own skills for leadership, management, collaboration, and evaluation. Coursework explores the history and values of public service, while building real-world skills in areas such as managing people and resources, designing and evaluating programs, conducting human resources functions, collaborating with others and across sectors, making ethical decisions and communicating effectively in diverse environments. Students interested in careers in nonprofit organizations may choose to earn a concentration in Nonprofit Management.

The program provides students with the flexibility to schedule courses around work or other demands while also engaging both local and online students in public service opportunities in their own communities.

Program Delivery

- Students have the flexibility to complete this degree through a combination of online and in-person courses, or entirely online. All required PUAD core courses are available in an online format, with occasional in-person options. CU Denver core courses and general electives are available in both online and in-person course formats.

Declaring This Major

- Please contact spa.advising@ucdenver.edu
- Click here (p. 991) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. The Public Administration major requires 48 credit hours of coursework, a minimum of which 39 must be PUAD credit hours offered by the School of Public Affairs. Up to 9 credit hours of

electives outside of PUAD coursework may be applied to major requirements with advisor approval.

2. A maximum of 12 transfer credits may be applied to the major.
3. Students must receive a minimum C- grade in each undergraduate course applied to satisfy major or minor degree requirements and must maintain a 2.0 GPA overall.

Code	Title	Hours
Required Courses		
PUAD 1001	Why We Care About Government, Nonprofits, and the Public Good ¹	3
PUAD 2002	Policy and Advocacy	3
PUAD 3001	Project Management and Program Evaluation	3
PUAD 3002	Organizational and Strategic Management	3
PUAD 3600	International and Global Organizations	3
PUAD 4002	Leading and Engaging for the Public Good	3
PUAD 4003	Strategic Communications for Public Engagement	3
PUAD 4011	Community Resilience, Climate, and Emergency Response	3
PUAD 4220	Human Resource and Talent Management	3
PUAD 4939	Public Service Internship ²	3
PUAD 4941	Integrating Professional Public Administration	3
Elective Courses		
Students must take a total of 15 credit hours of elective courses.		15
A maximum of 9 credit hours of electives can be taken outside of Public Administration electives if approved.		
Total Hours		48

¹ This class also fulfills a Social Science requirement of the CU Denver core curriculum.

² The internship requirement may be waived by the BAPA program director in the case of prior significant professional public service experience, in which case an additional elective is required. See SPA Graduation Requirements (p. 990) for more information.

Public Administration Electives

Code	Title	Hours
PUAD 3005	Collaboration Across Sectors	3
PUAD 3110	Seminar in Nonprofit Management	3
PUAD 3400	What Communities Tell Us: Stakeholders, Public Opinion, and Community Feedback	3
PUAD 3500	Managing and Leading in Environmental Organizations	3
PUAD 4005	Human Rights and Social Equity	3
PUAD 4006	Organizational Development	3
PUAD 4008	Current Issues in Public Sector Organizations	3
PUAD 4009	Human Service Organizations	3
PUAD 4020	Social Entrepreneurship	3
PUAD 4140	Nonprofit Financial Management	3
PUAD 4160	Nonprofit Boards and Executive Leadership	3
PUAD 4220	Human Resource and Talent Management	3
PUAD 4325	Public Private Partnerships	3
PUAD 4440	Negotiation and Conflict Resolution	3

PUAD 4600	Special Topics in Public Service	1-6
PUAD 4620	Crisis and Emergency Communication	3
PUAD 4628	Social Problems and Policies in the Urban Environment	3
PUAD 4630	Economic Development	3
PUAD 4638	Colorado Politics, Policy, and Administration	3
PUAD 4995	Global Study Topics	3

"Special Topics in Public Service" courses explore current and emerging issues relevant to public service; topics vary by semester.

"Global Study Topics" are faculty-led study abroad experiences; topics vary by location. New courses are frequently added. Please consult your advisor for any other PUAD course you are considering as an elective in advance of enrolling in the course.

Other Electives

All courses taken from another department that you would like to count as an elective for the Public Administration major must be approved by your advisor in advance. Please contact your advisor directly to discuss any class you may be considering for elective credit that is not listed above.

To review the Degree Map for this program, please visit our website. (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/spa/>)

Public Administration - Nonprofit Management Concentration, BA

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The Nonprofit Management concentration within the Bachelor of Arts in Public Administration (p. 1012) (BAPA) degree program prepares students for a wide variety of careers in the exciting world of nonprofit organizations. Students learn about the history and context of nonprofit organizations while gaining practical skills needed to manage and lead in this sector.

Program Delivery

- Students will be able to complete this concentration entirely online, or through a combination of online and in-person courses. The majority of PUAD courses are offered in an online format; however, several PUAD elective courses are regularly offered in-person.

Declaring This Concentration

- Please contact spa.advising@ucdenver.edu
- Click here (p. 991) to go to information about declaring a major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. A concentration in Nonprofit Management requires 15 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the concentration.
3. A minimum grade of C- must be earned in each undergraduate course applied to satisfy the concentration requirements.

Code	Title	Hours
Required Courses		
PUAD 3110	Seminar in Nonprofit Management	3
PUAD 4140	Nonprofit Financial Management	3
Elective Courses		
Select three courses from the following:		9
PUAD 3005	Collaboration Across Sectors	
PUAD 3400	What Communities Tell Us: Stakeholders, Public Opinion, and Community Feedback	
PUAD 4005	Human Rights and Social Equity	
PUAD 4009	Human Service Organizations	
PUAD 4020	Social Entrepreneurship	
PUAD 4160	Nonprofit Boards and Executive Leadership	
PUAD 4440	Negotiation and Conflict Resolution	

PUAD 4600 Special Topics in Public Service (Study Abroad in East Africa)

PUAD 4628 Social Problems and Policies in the Urban Environment

PUAD 4939 Public Service Internship

'Special Topics in Public Service' courses include explore current and emerging issues relevant to public service; topics vary by semester. 'Global Study Topics' are faculty-led study abroad experiences; topics vary by location. Students may seek their advisor's approval to apply a relevant PUAD course not listed above towards the concentration. It is essential to obtain this approval before enrolling in an alternative PUAD course.

Total Hours

15

Certified Nonprofit Professional Credential

Students completing the Nonprofit Management concentration may choose to simultaneously earn the national Certified Nonprofit Professional (<https://www.nonprofitleadershipalliance.org/cnp/>) (CNP) credential from the Nonprofit Leadership Alliance by completing additional extracurricular requirements and an examination. Contact cnp@ucdenver.edu for more information.

To review the Degree Map for this program, please visit our website. (<https://www.ucdenver.edu/student/advising/undergraduate/degree-maps/spa/>)

Public Administration, BA/MPA

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The Pathways Bachelor of Arts in Public Administration (BAPA)/Master of Public Administration (MPA) degree allows high-performing students to earn both degrees in an accelerated time frame, saving students both time and money. Students graduating with the Pathway BAPA/MPA degree are prepared for leadership and management roles in public service, including local, state, and federal governmental agencies and in nonprofit and nongovernmental organizations. Both the BAPA and the MPA degrees are offered fully online, providing students with the flexibility to schedule courses around the reality of family and work demands while also engaging both local and fully online students in public service opportunities in their own communities.

The BAPA/MPA degree program offered by the School of Public Affairs allows high-performing students to count 12 credit hours towards both the BAPA and the MPA degrees. Eligible students are those who have completed at least 75 credits with a minimum 3.5 grade point average (GPA) in the BAPA major and a 3.0 overall GPA, completed the undergraduate Core Curriculum, and who meet the other requirements listed below.

Students are eligible to receive the BAPA degree once they have successfully completed 120 semester hours and all CU Denver undergraduate degree requirements. The MPA will be conferred once the student has completed all requirements of the MPA degree.

Pathways Application

Both current CU Denver BAPA majors and new transfer students are eligible to apply to the Pathways BAPA/MPA program after meeting the following criteria:

- Currently enrolled in the School of Public Affairs as an undergraduate Public Administration major
- Completed the University of Colorado Denver's undergraduate core curriculum
- Completed at least 75 undergraduate credit hours
- Completed the following 15 credit hours in Public Administration or have a plan on when they will take each class:

Code	Title	Hours
PUAD 1001	Why We Care About Government, Nonprofits, and the Public Good	3
PUAD 2001	Management for Public Service	3
PUAD 3001	Project Management and Program Evaluation	3
PUAD 3002	Organizational and Strategic Management	3
PUAD 4000	Human Resources and Ethics in Public Service	3
Total Hours		15

- All transfer courses must have been approved and accepted towards the major and degree at the time of application
- Minimum 3.0 cumulative GPA
- Minimum 3.5 cumulative GPA in the Public Administration major

Students do not apply for the Pathways program at the time of application to CU Denver. Students will work with their assigned undergraduate academic advisor to apply for the Pathways program after

they have already matriculated to the university and have met the stated criteria.

BAPA/MPA Program Matriculation

After a student is admitted to the Pathways BAPA/MPA program, they will work with their assigned undergraduate academic advisor to enroll in MPA-level courses each semester. Students can complete up to 6 credit hours of MPA coursework each semester as an undergraduate and a maximum of 12 graduate semester credits can be completed as an undergraduate BAPA/MPA student overall. Students will continue to take undergraduate coursework while also completing graduate-level coursework.

Students in the Pathways BAPA/MPA program may be eligible to complete the MPA-level internship only after successfully passing two MPA-level courses. The MPA-level internship may fulfill both the BAPA and MPA internship requirement. The BAPA-level internship will not fulfill the MPA-level internship. Students must maintain a minimum 3.0 cumulative GPA for all course work and a 3.5 GPA for the BAPA major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete all CU Denver, School of Public Affairs, and Public Administration degree requirements to earn their Bachelor of Arts in Public Administration degree. The Bachelor of Arts in Public Administration is conferred once students meets all degree requirements.
2. Students seek full admission to the Master of Public Administration program during their final semester as an undergraduate student. This application is different than the one used to apply for the Pathways program. Students must receive a minimum of a B-grade in each required core MPA course, whether taken as an undergraduate or a graduate student.
3. Students must maintain a 3.0 GPA overall in all graduate-level courses.
4. In the MPA program students must successfully complete the MPA capstone or thesis.
5. Students must fulfill all college and major requirements.
6. The MPA will be conferred once the student has completed all requirements of the Master of Public Administration degree.
7. The School of Public Affairs reserves the right to rescind a BAPA/MPA student's admittance to the Pathways program if at any point the student's GPA falls below the requirements listed above.

Public Administration, BA/Master of Public Policy

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The Pathways Bachelor of Arts in Public Administration (BAPA)/Master of Public Policy (MPP) degree allows high-performing students to earn both degrees in an accelerated time frame, saving students both time and money. Students graduating with the Pathways BAPA/MPP degree receive a solid grounding in the context and management of public service organizations and the knowledge and skills needed to design, advocate for, and analyze public policies relevant to those organizations and the larger democratic society. Both the BAPA and the MPP degrees are offered fully online, providing students with the flexibility to schedule courses around the reality of family and work demands while also engaging both local and fully online students in public service opportunities in their own communities.

The BAPA/MPP degree program offered by the School of Public Affairs allows high-performing students to count 12 credit hours towards both the BAPA and the MPP degrees. Eligible students are those who have completed at least 75 credits with a minimum 3.5 GPA in the BAPA major and a 3.0 overall GPA, completed the undergraduate Core Curriculum, and who meet the other requirements listed below.

Students are eligible to receive the BAPA degree once they have successfully completed 120 semester hours and all CU Denver undergraduate degree requirements. The MPP will be conferred once the student has completed all requirements of the MPP degree.

Pathways Application

Both current CU Denver BAPA majors and new transfer students are eligible to apply to the Pathways BAPA/MPP program after meeting the following criteria:

- Currently enrolled in the School of Public Affairs as an undergraduate Public Administration major
- Completed the University of Colorado Denver's undergraduate core curriculum
- Completed at least 75 undergraduate credit hours
- Completed the following 15 credit hours in Public Administration or have a plan on when they will take each class:

Code	Title	Hours
PUAD 1001	Why We Care About Government, Nonprofits, and the Public Good	3
PUAD 2001	Management for Public Service	3
PUAD 3001	Project Management and Program Evaluation	3
PUAD 3002	Organizational and Strategic Management	3
PUAD 4000	Human Resources and Ethics in Public Service	3
Total Hours		15

- All transfer courses must have been approved and accepted towards the major and degree at the time of application
- Minimum 3.0 cumulative GPA
- Minimum 3.5 cumulative GPA in the Public Administration major

Students do not apply for the pathway program at the time of application to CU Denver. Students will work with their assigned undergraduate academic advisor to apply for the pathway program after they have already matriculated to the university and have met the stated criteria.

BAPA/MPP Program Matriculation

After a student is admitted to the Pathways BAPA/MPP program, they will work with their assigned undergraduate academic advisor to enroll in MPP-level courses each semester. Students can complete up to 6 credit hours of MPP coursework each semester as an undergraduate and a maximum of 12 graduate semester credits can be completed as an undergraduate BAPA/MPA student overall. Students will continue to take undergraduate coursework while also completing graduate-level coursework.

Students in the Pathways BAPA/MPP program may be eligible to complete the MPP-level internship only after successfully passing two MPP-level courses. The MPP-level internship may fulfill both the BAPA and MPP internship requirement. The BAPA-level internship will not fulfill the MPP-level internship. Students must maintain a minimum 3.0 cumulative grade point average for all course work and a 3.5 grade point average for the BAPA major.

General Requirements

To earn a degree, students must satisfy all requirements in each of the three areas below, in addition to their individual major requirements.

- CU Denver Graduation Requirements (p. 124)
- CU Denver Undergraduate Core Curriculum (p. 120)
- School of Public Affairs Graduation Requirements (p. 990)
- Click here (p. 107) for information about Academic Policies

Program Requirements

1. Students must complete all CU Denver, School of Public Affairs, and Public Administration degree requirements to earn their Bachelor of Arts in Public Administration degree. The Bachelor of Arts in Public Administration is conferred once students meets all degree requirements.
2. Students seek full admission to the Master of Public Policy program during their final semester as an undergraduate student. This application is different than the one used to apply for the pathway program. Students must receive a minimum of a B- grade in each required core MPP course, whether taken as an undergraduate or a graduate student.
3. Students must maintain a 3.0 GPA overall in all graduate-level courses.
4. In the MPP program students must successfully complete the MPP capstone or thesis.
5. Students must fulfill all college and major requirements.
6. The MPP will be conferred once the student has completed all requirements of the Master of Public Policy degree.
7. The School of Public Affairs reserves the right to rescind a BAPA/ MPP student's admittance to the pathways program if at any point the student's grade point average falls below the requirements listed above.

Criminal Justice Minor

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The minor in Criminal Justice will provide students from any other major with foundational knowledge of criminology and criminal justice. Students majoring in sociology, psychology, political science, and related fields are likely to interact with the criminal justice system in their careers and would benefit from the addition of the Criminal Justice minor to their degree plan.

Program Delivery

- Courses are offered on campus, online, and occasionally in remote and hybrid formats.

Declaring This Minor

- Please contact spa.advising@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the school offering the minor.

- Click here (p. 107) for information about Academic Policies.

Program Requirements

1. The minor in Criminal Justice requires 18 credit hours of coursework.
2. A maximum of 9 transfer credits may be applied to the minor.
3. Students must receive a minimum C- grade in each course applied to satisfy the minor requirements.

Code	Title	Hours
Required Courses		
CRJU 1000	Criminology and Criminal Justice: An Overview	3
CRJU 2041	Criminological Theory	3
<i>Select two of the following:</i>		6
CRJU 4042	Corrections	
CRJU 4043	Law Enforcement	
CRJU 4044	Courts and Judicial Process	
Elective Courses		6
Select two additional upper-division (3000/4000 level) elective courses in Criminal Justice.		
Total Hours		18

Law Enforcement Minor

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The minor in Law Enforcement provides a detailed, comprehensive, and advanced education in the field of law enforcement. This program is designed for students who are employed or will work in the field of law enforcement.

The program applies a multi-faceted approach to higher education that:

- Enhances analytical thinking and inclusive, relevant approaches to learning and the development of professional skills; and
- Focuses on specific, yet comprehensive, substantive areas of law enforcement that students can apply to their current or future careers in the field.

Students completing the Law Enforcement minor will have the knowledge and skills to evaluate and respond to a variety of situations in law enforcement professions that require technical, analytic, substantive, and ethical decision-making. They will understand the different environments and contexts in which law enforcement carry out their responsibilities. Students from any major other than criminal justice may declare the minor in law enforcement.

Program Delivery

- Courses are offered on campus, online, and occasionally in remote and hybrid formats.

Declaring This Minor

- Please contact spa.advising@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the department offering the minor.

- Click here (p. 107) for information about Academic Policies.

Program Requirements

1. The minor in Law Enforcement requires 18 credit hours of coursework.
2. A maximum of 6 transfer credits may be applied to the minor.
3. Students must receive a minimum C- grade in each course applied to satisfy the minor requirements.

Code	Title	Hours

Public Administration Minor

Introduction

Please click here (p. 989) to see School of Public Affairs information.

The minor in Public Administration, offered by the School of Public Affairs, will provide needed competencies to a generation looking for meaningful work consistent with their values. Public Administration courses provide students with the skills and content knowledge to work in public, private, and nonprofit sectors and the emerging fourth sector that blends social concerns with business approaches. This minor is open to students from any major, and may be particularly useful for students majoring in areas (such as environmental studies, education and human development, and criminal justice) who plan on applying their expertise in public service.

Program Delivery

- Students will be able to complete this minor entirely online, or through a combination of online and in-person courses. The majority of PUAD courses are offered in an online format; however, several PUAD elective courses are regularly offered in-person.

Declaring This Minor

- Please contact spa.advising@ucdenver.edu.

Nonprofit Management Certificate

Introduction

Please click [here](#) (p. 989) to see School of Public Affairs information.

The undergraduate certificate in Nonprofit Management is designed to appeal to students with a background in any major, or non-degree students, who are interested in working in the nonprofit sector. The certificate is designed to allow students to demonstrate to potential employers that they have the knowledge and skills necessary to succeed in the nonprofit workplace. Competencies covered by the certificate include foundations and management of the nonprofit sector, cultural competence and diversity, and financial resource development, among others. In addition, students have the opportunity to gain real-world experience and connections through nonprofit internships and field experiences.

Program Delivery

- Students will be able to complete this concentration entirely online, or through a combination of online and in-person courses. The majority of PUAD courses are offered in an online format; however, several PUAD elective courses are regularly offered in-person.

Declaring This Certificate

- Please contact spa.advising@ucdenver.edu.

General Requirements

Students must satisfy all requirements as outlined below and by the school offering the certificate.

- Click [here](#) (p. 107) for information about Academic Policies

Certificate Requirements

1. The undergraduate certificate in Nonprofit Management requires 18 credit hours of coursework.
2. All credit hours for the certificate must be completed at CU Denver. Transfer credits are not accepted.
3. Students must earn a minimum C- grade in each undergraduate course applied to satisfy the certificate requirements.

Overview

With two pathways to honors, you can choose the program which best fits your educational journey.

Both the Honors Scholars Program (HSP) and the University Honors and Leadership (UHL) Program provide honors-level education and have unique benefits. As part of the UHL program, you will join a supportive cohort with other honors students and complete dedicated coursework together, while the Honors Scholars Program allows for more flexible learning options that you design around your passions and goals. Each program is aimed to help you achieve your educational goals by developing your talents and feeding your intellectual curiosity.

Programs

- Honors Scholars Program (p. 1029)
- University Honors and Leadership Program (p. 1030)

Honors Scholars Program

Overview

The Honors Scholars Program (HSP) provides CU Denver undergraduates with opportunities to identify and accomplish challenging and enriching learning experiences. Students may combine curricular, co-curricular, and extra-curricular activities to design a path to completion of the honors certificate.

Students must complete the equivalent of 15 credit hours of honors-identified work and have a minimum cumulative GPA of 3.25 to earn the certificate. To be eligible for the certificate, students must have a GPA of 3.25 or higher based on high school performance for entering first-time first-year students or college GPA for continuing students. Students may petition for a waiver for lower GPAs for entry into the certificate program. Students must apply to HSP prior to completing 105 credit hours of college coursework.

Details on how to apply and on how to complete the certificate can be found at www.ucdenver.edu/honors (<http://www.ucdenver.edu/honors/>).

Program Requirements

The Certificate has two elements:

Curricular: Students complete 12 credit hours of coursework (or 15 hours if they opt out of the extra- and co-curricular activities described below). The curricular requirement might be accomplished through fulfillment of a range of activities including, but not limited to, an honors section of a course, a first-year experience seminar designated as honors, a 5000 level course (by permission of instructor), thesis credit hours in a department, an honors contract negotiated with faculty to extend assignments in existing courses, and/or an independent study

Extra-Curricular/Co-Curricular: Students who wish to replace one course with extra-curricular or co-curricular activities will need to complete 145 total hours of engagement that enhance student learning. These may include, but are limited to, participation in EURECA! grants or other extra-curricular mentored research, conference, colloquia, or seminar presentations, participation in RaCAS, performances, exhibitions, leadership activities, community service and engagement, study abroad, internships, or completion of honors workshops. To earn points, students must propose an activity and specify the time commitment and the ways it enhances their education or development. These activities will be evaluated, approved, and tracked by honors program staff, advisors, faculty, and administrators.

Curriculum

To earn the honors certificate, students must complete 15 credit hours of honors-level work and maintain a 3.25 or better.

Students may do so in a variety of ways, including:

- an honors section of a course, offered by a department
- a first-year experience seminar designated as honors
- a 5000-level course (by permission of instructor)
- departmental thesis credit
- an honors contract negotiated with faculty to extend assignments in existing courses
- an independent study

Students may replace three (3) credit hours of coursework with co-curricular or extra-curricular activities that may include but are not limited to:

- Undergraduate (EURECA!) research grants or other mentored research conferences, colloquia, or seminar presentations
- Research and Creative Activities Symposium (RaCAS)
- Performances
- Exhibitions
- Leadership activities
- Community service and engagement
- Study abroad
- Internships
- Honors workshop

University Honors and Leadership Program

Introduction

The University Honors and Leadership Program (UHL) provides students with unique learning experiences, scholarship support, and a sense of community unlike anything else at the university. Students who come from myriad majors complete coursework together in small, discussion-based seminars taught by exceptional faculty. UHL courses have an interdisciplinary focus and explore a range of important topics. With a focus on developing skills to analyze, understand, and solve complex social problems from multiple perspectives, UHL students learn to be leaders through discussion-based classes, personal goal-setting, and community engagement.

Students who enter in their first year of college complete 24-27 credit hours together, which includes completion of the majority of the CU core requirements (you will still need math and lab science) and a minor in Multidisciplinary Honors and Leadership upon graduation.

Students who enter UHL as an upper division student will complete 15 credit hours together and will earn a minor in Honors and Leadership Studies upon graduation.

The Academic Program

For **first-time freshmen**, UHL is a multidisciplinary cohort program consisting of 24-27 semester hours of coursework to be completed over three or four years. The UHL courses substitute for most of the CU Denver core curriculum requirements and leads to a minor in Multidisciplinary Honors and Leadership. Students have a shared year-long first-year experience, taking a core of coursework. The second and third years of the UHL program offer electives designed for the minor. In the final year, students complete a two-course capstone senior seminar.

UHL students who successfully satisfy the course and credit-hour requirements and maintain a GPA of 3.25 or higher in their UHL courses will graduate with "University Honors."

For **transfer students and upper division students**, UHL is a multidisciplinary cohort program consisting of 15 semester hours of coursework to be completed over two years. The program leads to a minor in Honors and Leadership Studies. Students have a shared seminar in their first year in the program, nine credits of UHL electives, and a two-course senior seminar in their final year.

Undergraduate Courses A-Z

Catalog Course Information and Definitions

The courses listed here are included in the CU Denver campus catalog during the 2022–23 academic year. This listing does not constitute a guarantee that any particular course will be offered during this year.

Also see the online Class Search (https://isis-cs.prod.cu.edu/psc/cspod/EMPLOYEE/HRMS/c/CU_SELFSESRV_PUB.CLASS_SEARCH.GBL) functionality for details about specific class offerings and schedules. For questions/more information regarding specific course availability, programs, and major requirements, please contact each school or college.

Core – Course is approved for specific core curriculum (i.e. arts and sciences curriculum; quantitative reasoning and mathematical skills)

Cross-Listed – Class that is offered along with another class that has the same topic, title, and course content. Max Hours displayed for each cross-listed class is the total number of hours allowed for all courses completed within a particular cross-listed group. *See below for more information on Max Hours.*

GT - Course is approved by the Colorado Department of Higher Education for statewide guaranteed transfer as part of the gtPathways program.

Max Hours (in Course Description) – Total number of applicable credit hours that count toward a student's degree for a particular course or cross-listed group.

Requisite:

- **Prerequisite** – Specific course completed or “in progress” (i.e. ENGL 1020 Core Composition I or ENGL 1020 Core Composition I with C- or higher)
- **Corequisite** – Specific course taken at the same time (i.e. ENVS 1044 Introduction to Environmental Sciences taken same time as ENVS 1045 Introduction to Environmental Sciences Laboratory)
- **Restriction** – Restricted to a specific population (i.e. Restricted to MUSC majors or junior standing, etc.)

Course Number Definitions:

- Courses numbered 1000-2999 are considered lower-division undergraduate.
- Courses numbered 3000-4999 are considered upper-division undergraduate.
- Courses at the 5000 level and above are graduate.

A

- Accounting (ACCT) (p. 1033)
- Anthropology (ANTH) (p. 1034)
- Arabic (ARAB) (p. 1039)
- Architecture (ARCH) (p. 1040)

B

- Bioengineering (BIOE) (p. 1044)
- Biology (BIOL) (p. 1046)
- Business (BUSN) (p. 1056)

- Business Analytics (BANA) (p. 1057)
- Business Law (BLAW) (p. 1058)
- Business Minor for non-business majors (BMIN) (p. 1058)

C

- Chemistry (CHEM) (p. 1059)
- Chinese (CHIN) (p. 1068)
- Civil Engineering (CVEN) (p. 1071)
- CLAS Interdepartmental Courses (CLAS) (p. 1077)
- Climate Change Studies (CCST) (p. 1078)
- Commodities (CMDT) (p. 1078)
- Communication (COMM) (p. 1079)
- Computer Science (CSCI) (p. 1086)
- Construction Engineering and Management (CEMT) (p. 1094)
- Criminal Justice (CRJU) (p. 1096)
- Culturally and Linguistically Diverse Education (CLDE) (p. 1102)
- Cybersecurity (CSCY) (p. 1103)

D

- Decision Sciences For Business (DSCI) (p. 1104)
- Digital Animation (DACD) (p. 1104)

E

- Early Childhood Education (ECED) (p. 1105)
- Economics (ECON) (p. 1108)
- Education and Human Development (EDHD) (p. 1112)
- Educational Foundations (EDFN) (p. 1113)
- Electrical Engineering (ELEC) (p. 1114)
- Engineering (ENGR) (p. 1120)
- English (ENGL) (p. 1122)
- Entrepreneurship (ENTP) (p. 1133)
- Environmental Sciences (ENVS) (p. 1134)
- Ethnic Studies (ETST) (p. 1136)

F

- Film and Television (FITV) (p. 1140)
- Finance (FNCE) (p. 1145)
- Fine Arts (FINE) (p. 1148)
- French (FREN) (p. 1162)

G

- Geography (GEOG) (p. 1166)
- Geology (GEOL) (p. 1173)
- German (GRMN) (p. 1174)
- Greek (GREK) (p. 1175)

H

- Health Humanities (HEHM) (p. 1175)
- History (HIST) (p. 1176)
- Human Development and Family Relations (HDFR) (p. 1186)
- Humanities (HUMN) (p. 1189)

I

- Individually Designed Major Course (IDMA) (p. 1189)
- Information Systems (ISMG) (p. 1190)
- Initial Teacher Education (ITED) (p. 1194)
- Instructional Technology (INTE) (p. 1195)
- Interdisciplinary Arts (ARTS) (p. 1196)
- Interdisciplinary Studies (IDST) (p. 1197)
- Interior Design (INTD) (p. 1197)
- International Business (INTB) (p. 1198)
- International Studies (INTS) (p. 1199)
- Inworks Innovation Initiative (IWKS) (p. 1201)

L

- Landscape Architecture (LDAR) (p. 1203)
- Latin (LATN) (p. 1204)
- Linguistics (LING) (p. 1205)
- Literacy, Lang, & Culturally Responsive Teaching (LCRT) (p. 1205)

M

- Management (MGMT) (p. 1207)
- Marketing (MKTG) (p. 1211)
- Math Content Knowledge for Ed (MCKE) (p. 1214)
- Math Education (MTED) (p. 1214)
- Mathematics (MATH) (p. 1215)
- Maximizing Access to Research Careers (MARC) (p. 1220)
- Mechanical Engineering (MECH) (p. 1221)
- Modern Languages (MLNG) (p. 1225)
- Music (MUSC) (p. 1225)

P

- Performance Music (PMUS) (p. 1231)
- Philosophy (PHIL) (p. 1248)
- Physics (PHYS) (p. 1256)
- Political Science (PSCI) (p. 1262)
- Pre-Nursing (PRNU) (p. 1271)
- Psychology (PSYC) (p. 1271)
- Public Administration (PUAD) (p. 1276)
- Public Health (PBHL) (p. 1280)

R

- Religious Studies (RLST) (p. 1284)
- Research & Eval Methods (RSEM) (p. 1288)
- Risk Management (RISK) (p. 1288)

S

- School Library Program (SCHL) (p. 1289)
- School Psychology (SPSY) (p. 1289)
- Science Education (SCED) (p. 1290)
- Science, Technology, Engineering & Math Education (STME) (p. 1290)
- Social Justice (SJUS) (p. 1291)
- Social Sciences (SSCI) (p. 1292)

- Sociology (SOCY) (p. 1293)
- Spanish (SPAN) (p. 1298)
- Special Education (SPED) (p. 1306)
- Sustainability (SUST) (p. 1309)

U

- University Honors and Leadership (UNHL) (p. 1310)
- University Skills & Engagement (UNIV) (p. 1314)

- Urban Teacher Education (UEDU) (p. 1315)

W

- Women's Studies (WGST) (p. 1317)

Accounting (ACCT)

ACCT 2200 - Financial Accounting and Financial Statement Analysis (3 Credits)

Introductory course consisting of a broad range of topics related to financial accounting including financial analysis and interpretation of financial statements. Discussion of the role of accountants and the accounting profession. Prereq: MATH 1060, or MATH 1070, or MATH 1080, or MATH 1109, or MATH 1110, MATH 1130, or MATH 1401 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1060, or MATH 1070, or MATH 1080, or MATH 1109, or MATH 1110, MATH 1130, or MATH 1401 with a grade of C- or higher.

ACCT 2220 - Managerial Accounting and Professional Issues (3 Credits)

Introduces managerial accounting and how to use accounting information to make decisions. Principal focus on cost behavior analysis, budgeting/profit planning and product/service costing.

Prereq: MATH 1070, or MATH 1060, or MATH 1080, or MATH 1110, or MATH 1120, or MATH 1130, or MATH 1401 with a grade of C- or higher and ACCT 2200 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1070, or MATH 1060, or MATH 1080, or MATH 1110, or MATH 1120, or MATH 1130, or MATH 1401 with a grade of C- or higher and ACCT 2200 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

ACCT 3220 - Intermediate Financial Accounting I (3 Credits)

A foundation course in financial accounting, this course provides an intensive analysis of generally accepted accounting principles, accounting theory and the construction and interrelation of financial statements for corporations. Encourages critical thought and application of financial accounting standards to business transactions. A grade of C- or higher is required in this course to proceed to the next level ACCT course. Note: Students cannot receive credit for both ACCT 3220 and ACCT 6031. Prereq: ACCT 2220 and BANA 2010 both with a grade of 'C-' or higher. Cross-listed with ACCT 6031. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 2220 and BANA 2010 both with a grade of 'C-' or higher.

ACCT 3230 - Intermediate Financial Accounting II (3 Credits)

Continuing the intensive coverage of financial accounting from ACCT 3220, this course covers concepts of financial accounting theory and generally accepted accounting principles not covered in ACCT 3220. This includes detailed coverage of liabilities and equity, especially the topics of leases, deferred taxes, pensions and stock options. Note: Students cannot receive credit for both ACCT 3230 and ACCT 6032.

Prereq: ACCT 3220 with a C- or higher. Cross-listed with ACCT 6032. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C- or higher.

ACCT 3320 - Cost Analytics (3 Credits)

Cost accounting links financial and managerial accounting and emphasizes communication between accountants and managers. Topics include managerial uses of cost data for decision making, analysis of activities and cost behavior, the role of accounting in planning and control, and computer-assisted decision modelling. Prereq: ACCT 2220 and BANA 2010 both with a grade of 'C-' or higher. Cross-listed with ACCT 6070. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 2220 and BANA 2010 both with a grade of 'C-' or higher.

ACCT 3939 - Internship (1-3 Credits)

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Repeatable. Max Credits: 9.

ACCT 4054 - Accounting Information Systems (3 Credits)

This course focuses on the analysis, design, implementation and control of accounting information systems. Emphasis is placed on primary business processes including documentation, modeling, retrieving information to support managerial decisions and controlling risks. Topics include transaction cycles, relational database modeling, data analytics and information systems risks and controls. Must earn a grade of C- or better to qualify for graduation at the UG level. Note: Students cannot earn credit for both ACCT 4054 and ACCT 6054. Prereq: ACCT 3220 with a grade of C- or higher and ISMG 2050 with a grade of C- or higher. Cross-listed with ACCT 6054. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a grade of C- or higher and ISMG 2050 with a grade of C- or higher.

ACCT 4240 - Advanced Financial Accounting (3 Credits)

Advanced financial accounting concepts and practices with an emphasis on accounting for equity investments, business combinations, and foreign currency. Note: Students cannot receive credit for both ACCT 4240 and ACCT 6024. Prereq: ACCT 3230 or ACCT 6030 or ACCT 6032 each with a grade of C- or higher, or department consent. Cross-listed with ACCT 6024. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3230 or ACCT 6030 or ACCT 6032 each with a grade of C- or higher.

ACCT 4370 - International Accounting (3 Credits)

This course provides an overview of the broadly defined area of international accounting from a financial statement user perspective, focusing on accounting issues uniquely relevant to multinational corporations. Includes discussion of some of the different financial accounting practices cross countries; financial statement analysis in a global context, international auditing practices and procedures, and international tax implications. Prereq: ACCT 3220 with a grade of C- or higher. Cross-listed with ACCT 6370 and INTB 6370. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C- or higher.

ACCT 4410 - Fundamentals of Federal Income Tax (3 Credits)

Provides a basic understanding of the structure of the federal income tax system. Focuses on laws affecting individuals and business entities that have implications for individual taxation. Note: Students cannot receive credit for both ACCT 4410 and ACCT 6140. Prereq: ACCT 3220 with a C- or higher. Cross-listed with ACCT 6140. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C- or higher.

ACCT 4420 - Taxation of Business Entities (3 Credits)

Provides an in-depth understanding of the structure of the federal income tax system as it relates to different taxable entities, particularly corporations (both C corporations and S corporations) and partnerships. Note: Students cannot receive credit for both ACCT 4420 and ACCT 6150. Prereq: ACCT 4410 with a C- or higher. Cross-listed with ACCT 6150. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 4410 with a C- or higher.

ACCT 4520 - Oil and Gas Accounting and Sustainability (3 Credits)

Provides an overview of the oil and gas industry and the accounting issues this industry faces. While this is the primary focus, the class also covers sustainability and sustainability reporting and renewable energy sources and a discussion of related accounting considerations. This includes coverage of Environmental, Social, and Governance (ESG) topics due to the importance to accountants and business leaders in not only energy and energy-related industries, but all industries. This is a valuable learning experience for those interested in acquiring an understanding of the accounting issues for energy management firms in preparation for entry into public accounting or into an accounting or finance department in a company in the energy sector. The course enjoys support from the energy industry in the form of guest speakers and project ideas. Prereq: ACCT 3220 with a grade of C- or higher. Cross-listed with ACCT 6520. Max Hours: 3 credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C- or higher.

ACCT 4620 - Auditing Theory (3 Credits)

Focus on the professional responsibilities of CPAs (Certified Public Accountants), generally accepted auditing standards, and PCAOB (Public Company Accounting Oversight Board) standards, with emphasis on the theory underlying the development of standards, objectives and procedures. Prereq: ACCT 3220 with a grade of C- or higher. Coreq: ACCT 4054. Cross-listed with ACCT 6020. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a grade of C- or higher. Coreq: ACCT 4054.

ACCT 4800 - Accounting for Government and Not-for-profit Organizations (3 Credits)

Study the regulatory accounting guidance of the Governmental Accounting Standards Board (GASB), Financial Accounting Standards Board (FASB) and Federal Accounting Standards Advisory Board (FASAB) and its application to financial reporting for the federal government, local and state governments, and not-for-profit organizations. Note: Students cannot receive credit for both ACCT 4800 and ACCT 6080. Prereq: ACCT 3220 with a C- or higher. Cross-listed with ACCT 6080. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ACCT 3220 with a C- or higher.

ACCT 4840 - Independent Study (1-8 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 8 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ACCT 4950 - Special Topics (3 Credits)

Research methods and results, special topics and professional developments in accounting. Consult the current 'Schedule Planner' for semester offerings. Prereq: Varies according to topic and instructor requirements. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to undergraduate majors within the Business School.

Anthropology (ANTH)

ANTH 1000 - Anthropology: Past and Present (3 Credits)

Anthropology is the study of humankind in all of its diversity and complexity. Anthropologists have traditionally approached the study from four distinct perspectives: biological, cultural, linguistic and archaeological. This course considers how anthropologists study humankind from these four perspectives and the robust picture of humanity that emerges. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 1001 - Special Topics in Anthropology (1-4 Credits)

Designed to give students a chance to evaluate critically some practical or theoretical problem under faculty supervision and to present results of their thinking to fellow students and instructors for critical evaluation. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

ANTH 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

ANTH 1302 - Introduction to Archaeology (4 Credits)

Introduces the study of past cultures and their environments. Emphasis is on the scientific method, aspects of research design and analytical techniques used by archaeologists to determine chronology, taphonomy, source production areas, exchange networks, and human-environment interactions. Note: Three hours of lecture and a two-hour lab each week.

Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

ANTH 1303 - Introduction to Biological Anthropology (4 Credits)

Introduces the study of human biological evolution, both processes and outcomes, from primate ancestors to fossil hominids to contemporary human populations. Methods of obtaining and interpreting data concerning the genetic, biological and evolutionary basis of physical variation in living and skeletal populations. Note: 3 hours of lecture and a 2 hour lab each week. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

ANTH 2102 - Culture and the Human Experience (3 Credits)

An application of the concept of culture to several aspects of the human experience, including gender relations, emotion and personality, cognition, language, health and healing and economic behavior. In exploring these dimensions of the human experience, the course focuses on selected cultures from each of the world's major geographic areas. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

ANTH 2400 - Exploring Culture through Social Media (3 Credits)

Introduction to social media and analysis applied to cultural change. Focus on theories and practices of non-fiction image-making and "doing digital ethnography" to examine a range of experience and knowledge among different societies, communities, technologies, policy discourses and ourselves. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 2840 - Independent Study (1-3 Credits)

Term offered: fall, spring, summer. Department consent required.

Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

ANTH 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Sophomore standing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

ANTH 3000 - Globalization, Migration and Transnationalism (3 Credits)

Examines the cultural dynamics of globalization, including: the development of special economic zones in the global south, rural to urban migration, transnational migration, the maintenance of transnational ties, and cross-border social formations. Reviews the dynamics of globalization through case studies and film. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Spring.

ANTH 3045 - Cannabis Culture (3 Credits)

Familiarizes students with anthropological approaches to the culture of cannabis, including medicinal and recreational. Topics: history, cultural uses, legalization, cannabis capitalism, health effects, race and inequality, regulatory policies, retailing and consumption. Ethnographic research for data collection emphasized. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

ANTH 3072 - Lost Worlds and Crystal Skulls (3 Credits)

This class explores the differences between science and pseudoscience specifically within the realm of anthropology. Scientific method and critical thought are employed in a way that trains students to question and recognize the difference between fact and fiction in data. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Math.

ANTH 3101 - Foundations of Cultural Anthropology (3 Credits)

Covers current theories in cultural anthropology and discusses the nature of field work. Major schools of thought and actual field studies are explored with an emphasis on anthropological data gathering, analysis and writing. Prereq: ANTH 2102 with a C- or higher. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 2102 with a C- or higher.

Typically Offered: Fall.

ANTH 3121 - Language, Culture, and Communication (3 Credits)

Definitions of language and communication and their relationship to human behavior, thought and culture. The classification of languages, linguistic universals, language acquisition, multilingualism, and nonhuman communication, with consideration of the evolutionary implications of such studies. Prereq: ANTH 2102 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 2102 with a C- or higher.

ANTH 3142 - Cultural Diversity in the Modern World (3 Credits)

An in-depth analysis of the phenomena of culture and application of the culture concept to understanding cultural diversity in the modern world. Applies the concept of culture to several basic aspects of human social life, for example: social class and gender relations, ethnicity, racism and sexism, education, health and economic behavior. Students explore these issues in the context of case studies of particular groups and/or communities, focusing primarily on the diversity of cultural expression in contemporary U.S. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

ANTH 3150 - Special Topics in Medical Anthropology (3 Credits)

Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: ANTH 2102 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 2102 with a C- or higher.

ANTH 3200 - Human Migration: Nomads, Sojourners, and Settlers (3 Credits)

Explores the relationship between human migration, voluntary and forced and social organization and culture in the modern world. Case studies include pastoralists, foragers, refugees, immigrants, sojourners and settlers and their impact on health, culture, identity, ethnicity, tradition and nationality. Cross-listed with PBHL 3200. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3202 - Anthropology of Health Care Policy (3 Credits)

Uses the tools and methods of cultural anthropology to analyze health care reform in the U.S. We examine analyses of the current health care system, debates over its reform, compare the US health care system to that of health care systems worldwide. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3301 - World Prehistory (3 Credits)

Explores of 3.5 million years of human cultural development that examines the prehistory of Africa, Asia, Europe and the Americas. Patterns and processes that underlie the earliest hominid expansion out of Africa, tool use, origins of fire, the peopling of the Americas, the development of metallurgy, the domestication of plants and animals and the rise of cities and the state are examined. Emphasis is on both regional developments and landmark projects that have helped clarify prehistory. Note: Introductory course in Archaeology (ANTH 1302) recommended. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ANTH 3315 - North American Archaeology (3 Credits)

Course provides a survey of the prehistoric and historic archaeology of the United States, Canada and Northern Mexico. Current knowledge of the subject and current debates are discussed. Prereq: ANTH 1302 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 1302 with a C- or higher.

ANTH 3316 - History of Human Environmental Impacts (3 Credits)

Humans exist as active members of an ecosystem. There is increasing awareness that human actions have changed the environment and continue to do so. While ecologists, climatologists, and engineers work to address current and future environmental problems, the discipline of archaeology can provide a time depth and crosscultural breadth of perspective on how such issues have impacted human societies. This course will investigate and critically assess the claim that environmental and ecological factors have played a key role in the dissolution of once thriving civilizations. Examples will be drawn from across time and space, specifically emphasizing the archaeological record and the perspective it provides on a problem that is of critical relevance today. In this course students will: 1) Learn how humans have engaged with their environments over the course of our species' evolutionary history; 2) Critically assess contemporary discussions of collapse and ecocide by contextualizing human environment interactions within the frameworks of resilience, niche construction, and ecosystem engineering; 3) Use 'lessons from the past' to inform contemporary ecological debates; 4) Objectively evaluate the factual basis of various claims made about how humans affect, have affected, and likely will affect their environments; 5) Actively engage with the community to build sustainable gardens. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3320 - Southwestern Archaeology (3 Credits)

Considers the origins, characteristics, and interrelationships of the major culture areas in the American southwest, including the Anasazi, Hohokam, Mogollon, Sinagua and Northern Mexico. Note: ANTH 1302 recommended but not required. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3330 - Topics in Archaeology (3 Credits)

A flexible format for addressing specific topics in archaeology. Examples include the archaeology of the Great Plains, the Mediterranean Region, etc. Prereq: ANTH 2102 with a C- or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ANTH 2102 with a C- or higher.

ANTH 3500 - Human Osteology (4 Credits)

Provides in-depth knowledge of human osteology, including the following topics: skeletal anatomy; age, sex and stature determination; skeletal trauma/pathology; and taphonomy. Recitation component provides hands-on experience with skeletal material. Prereq: ANTH 1303 with a C- or higher. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 1303 with a C- or higher.

ANTH 3512 - Human Evolution (3 Credits)

Provides an overview of the fossil and archaeological evidence for human origins. Theory and method in paleoanthropology is emphasized. The goal is to outline current knowledge of human biological evolution and the lifeways of our evolutionary relatives. Prereq: ANTH 1303 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 1303 with a C- or higher.

Typically Offered: Fall, Spring.

ANTH 3560 - Human Variation and Adaptation (3 Credits)

This course explores the nature of modern human biological variation and adaptation. We address the evolutionary and biological theory that informs our study of contemporary human anatomy and physiology. Topics covered include, the nature vs. nurture debate, variation in skin pigmentation and the concept of "race", skeletal adaptations, adaptations to extreme environments and sexbased variation. Term offered: every other year. Prereq: ANTH 1303 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 1303 with a C- or higher.

ANTH 3590 - Primate Behavior Research at the Zoo (3 Credits)

Students will review information on primates, learn about data collection models, design a behavior observation project on captive primates, collect and analyze behavior data, write and present a formal scientific paper. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3666 - Anthropology of Death (3 Credits)

The primary goal of the course is to identify and understand the range of human expression through the treatment of human remains in anthropological literature with focus on burials, mortuary practices, and associated rituals. Along with more theoretical papers, specific case studies will be used to address a variety of topics and issues, such as historic and prehistoric social organization, bio-archaeology, cannibalism, human sacrifice, mummification, the ethics of studying human remains, and the treatment of pets in prehistory. The time range that we will cover in the course will span from the Neolithic to the early 20th century, and numerous cultures from all parts of the globe will be our subject matter. Max hours: 3 Credits.

Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 3700 - Current Topics in Anthropology (3 Credits)

This undergraduate course offers a flexible format for addressing specific topics of special interest in anthropology, such as: aging, race and prejudice, class, warfare and aggression, ethnicity, myth and folklore, language and communication, Colorado prehistory and topics in evolutionary theory. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ANTH 3910 - Cross-Cultural Field Experience (3-6 Credits)

An intensive contact with another culture through supervised travel in the U.S. or in a country other than the United States. Written reports required. Note: Class includes pre-trip orientation lectures; in-country lectures by local resource people and supervising CU-Denver faculty. Max Hours: 6 Credits.

Grading Basis: Letter Grade

ANTH 3939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

ANTH 4000 - Special Topics in Anthropology (1-4 Credits)

Designed to give students a chance to evaluate critically some practical or theoretical problem under faculty supervision and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: Junior standing or higher. Cross-listed with ANTH 5000.

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

ANTH 4010 - Medical Anthropology: Global Health (3 Credits)

This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 4020. Prereq: Junior standing or higher. Cross-listed with ANTH 5014. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4050 - Quantitative Methods in Anthropology (3 Credits)

Surveys the ways of deriving meaning from anthropological data by numerical means, including, but not confined to basic statistical procedures. Prereq: Junior standing or higher. Cross-listed with ANTH 5053. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4063 - Ethnographic Methods: Principles, Ethics, and Critiques (3 Credits)

Ethnography is considered the best method to capture the perspectives of various groups, subjective meanings attached to behaviors and identities, and the reasons for patterns of collective behavior. This course will introduce students to the principles of ethnography and will consider the ethics, politics, and critiques of the methodology. Cross-listed with ANTH 5063. Max hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 4080 - Global Health Practice (3 Credits)

A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: Junior standing or higher.

Cross-listed with ANTH 5080 and PBHL 4080. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4090 - Psychedelic Anthropology (3 Credits)

Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures of health and wellness, and the plant medicine, spiritual, social, political and economic issues that surround their production, use and misuse. Course activities focus on ethnographic research strategies and arts-based approaches to public scholarship. Prereq: Junior standing or higher. Cross-listed with ANTH 5090 and PBHL 4090. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4121 - Zooarchaeology (3 Credits)

Introduction to the theory and methods of zooarchaeology through lectures, readings, and hands-on lab work identifying and analyzing mammalian skeletal material. Students will learn what mammalian remains indicate about biological and cultural evolution of humans. Cross-listed with ANTH 5121. Prereq: ANTH 1303 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ANTH 1303 with a C- or higher.

ANTH 4200 - Gender in Cross-Cultural Perspective (3 Credits)

A comparative analysis of gender-based status and social roles of women and men, with women's status and roles emphasized due to their near-universal construction as the "Other" sex. Examines in cross- and sub-cultural context the relations among women's status and their subsistence and reproductive activities; and the division of labor by sex, ideology and political economy. Prereq: Junior standing or higher. Cross-listed with ANTH 5200. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4230 - Fieldwork Methods (3 Credits)

This experiential course explores anthropological critiques, decolonizing approaches, and multi-media strategies to fieldwork methods with a focus on oral histories, visual narratives, community based participatory research, and indigenous ways of knowledge creation. At the end of the course, the student should have the cultural understanding and the methodological skills to complete a team-based fieldwork project successfully. Cross-listed with ANTH 5230. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ANTH 4260 - Human Reproductive Ecology (3 Credits)

Considers the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, marriage patterns, birth seasonality, duration of birth intervals and reproductive senescence. Prereq: Junior standing or higher. Cross-listed with ANTH 5260. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4270 - Anthropology of the Body (3 Credits)

Explores how society, through culture, creates collective and individual bodies; embodied experience across the life course; and the body as an expression of social power, bodily modification and adornment. Note: ANTH 2102 or ANTH 3101 are recommended be taken before this course for undergraduate students. Cross-listed with ANTH 5270. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ANTH 4290 - Anthropology and Public Health (3 Credits)

"This course critically explores anthropological approaches to public health problems. Through a number of key issues and case studies, we examine how public health practice can be enhanced through anthropological research, theory and methodology. Prereq: Junior standing or higher. Cross-listed with ANTH 5290. Max hours: 3 Credits."

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4300 - Immigrant Health (3 Credits)

This course examines health issues associated with transnational migration from an anthropological point of view. It provides students the opportunity to engage in hands-on fieldwork projects designed in conjunction with local immigrant and refugee-serving agencies. Prereq: Junior standing or higher. Cross-listed with ANTH 5300. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4320 - Archaeology of Mexico and Central America (3 Credits)

Surveys the major prehistoric and protohistoric cultures and societies of that area of Mexico and Central America identified with the evolution of Meso-American civilization. Major topics include early human colonization of the Americas, the domestication of plants and animals, the emergence of regionally-based cultures and societies, trade and exchange and the evolution of urbanism and the state. Primary emphasis on such ancient cultures and societies as those of the Olmec, Zapotec, Maya, Teotihuacan, Toltec and Aztec. Prereq: Junior standing or higher. Cross-listed with ANTH 5320. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4330 - Lithic Analysis (3 Credits)

Examines the theoretical basis and methodological tools used by archaeologists in the analysis of prehistoric stone tools. Topics of discussion include the mechanics of stone fracture, typologies, use wear analysis and core reduction techniques. Prereq: Junior standing or higher. Cross-listed with ANTH 5330. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4350 - Anthropology of Globalization (3 Credits)

This course provides an overview of anthropological contributions to the study of globalization. Particular attention is devoted to: transformations in global capitalism, state and immigration policy, transnational families, health and transnationalism. Prereq: Junior standing or higher. Cross-listed with ANTH 5350. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4380 - Archaeology of Hunters-Gatherers (3 Credits)

Explores the theory and methods used by archaeologists to investigate prehistoric hunter gatherers. Topics of concern include mobility, subsistence, procurement, and socio-political organization. Prereq: Junior standing or higher. Cross-listed with ANTH 5380. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4390 - Laboratory Methods in Archaeology (3 Credits)

Methods and theories of archaeology are used to scrutinize the collection and interpretation of data and the relationships of archaeology to other disciplines. Core materials emphasize the critique of basic archaeological assumptions. Note: Course content varies slightly each time it is offered, in response to student needs and the availability of projects (e.g., laboratory work, urban excavation, survey and mapping). May be repeated for credit when topics change. Prereq: Junior standing or higher. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: junior standing or higher

ANTH 4400 - Archaeology of Power and Inequality (3 Credits)

Addresses inequality and power through a long-term archaeological and theoretical perspective. Discusses explanations for the origins of power and inequality and their role in early small-scale societies and emerging complex politics. Prereq: Junior standing or higher. Cross-listed with ANTH 5400. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4440 - Museums in the 21st Century (3 Credits)

This is an advanced course on natural history/anthropology museums. It will examine practical issues facing museums, and consider the complex questions that museums raise. The class includes lectures, discussions, and hands-on collection work, and exhibit/ outreach development. Cross-listed with ANTH 5440. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ANTH 4500 - Advanced Issues in Human Evolution (3 Credits)

This flexible course offers an advanced treatment of issues in human biological evolution. Topics may emphasize morphological evolution, behavioral evolution, the environment of human evolution, non-human primate comparative information. Prereq: Junior standing or higher. Cross-listed with ANTH 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4560 - Human Ecology (3 Credits)

Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Prereq: Junior standing or higher. Cross-listed with ANTH 5560. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4570 - Landscape Archaeology (3 Credits)

Introduces spatial archaeology through intrasite analysis and regional studies. Methods treated include site location and quantitative spatial organization. Theoretical topics include definitions of community, ancient urbanism and the impact of subsistence and politics on relations to the landscape. Prereq: Junior standing or higher. Cross-listed with ANTH 5570. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ANTH 4580 - Neanderthals and the Origin of Modern Humans (3 Credits)

Focuses on the human fossil record for the taxon *Homo sapiens*, including the earliest members of this group ("early" or "archaic" *Homo sapiens*), the Neanderthals and so-called "anatomically modern" *Homo sapiens*. The goal of the course is to survey the major issues within the area of modern human origins, and to learn about the evolutionary relationships, lifeways and behaviors of these groups. Prereq: Junior standing or higher. Cross-listed with ANTH 5580. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

ANTH 4590 - Primate Behavior (3 Credits)

Studies nonhuman primate behavior with emphasis on understanding social behavior, ecology and issues related to human evolution. Prereq: Junior standing or higher. Cross-listed with ANTH 5590. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

ANTH 4600 - Medical Anthropology (3 Credits)

Introduces students to the theories and concepts of medical anthropology, the study of human health and illness. Explores conceptions of the body, modalities of healing, the clinical encounter, and new medical technologies. Prereq: Junior standing or higher. Cross-listed with ANTH 5600. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher

ANTH 4650 - Disability Anthropology (3 Credits)

Drawing from anthropology and interdisciplinary disability studies, this course explores disability and impairment across time and space. Course materials integrate ethnography, archives, novels, films, podcasts, and social media to develop a holistic, empirically grounded understanding of disability as part of human diversity. Prereq: Junior standing or higher. Cross-listed with ANTH 5650. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

ANTH 4800 - Special Topics in Medical Anthropology (3-9 Credits)

Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: Junior standing or higher. Repeatable. Cross-listed with ANTH 5800. Max hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Prereq: junior standing or higher

ANTH 4810 - Integrating Anthropology (3 Credits)

Designed to build on specialized course work in the subdisciplines of anthropology, this course emphasizes the basic concepts that integrate and unite the discipline and give it unique perspective. These are the concepts of culture, adaptation and human evolution. In the last several weeks of the course, students consider the applicability of the anthropological perspective to specific human issues. Note: Centers on the critical examination and discussion of presentations made by department faculty and graduate students. Note: this course assumes that students have completed course work equivalent to a minor in anthropology. Prereq: Junior standing or higher. Cross-listed with ANTH 5810. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

ANTH 4840 - Independent Study (1-3 Credits)

Directed study based on a specific subfield of anthropology. Note: Permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.
Typically Offered: Fall, Spring, Summer.

ANTH 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

ANTH 4910 - Field Experience in Archaeology (3-6 Credits)

Students participate in archaeological field research and data recovery and conduct laboratory analysis of materials recovered in the field. Emphasis is placed on excavation technique and accuracy of record keeping. Prereq: Junior standing or higher. Cross-listed with ANTH 5910. Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Prereq: junior standing or higher

ANTH 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Repeatable. Max hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.
Additional Information: Global Education Study Abroad.

Arabic (ARAB)

ARAB 1000 - Introduction to Cultures of the Arabic-Speaking World (3 Credits)

Introduces students to the Arabicspeaking cultures of North Africa, some Asian countries, and the Gulf States, with a focus on politics, culture, economics, literature and the arts. Taught in English. Term offered: spring, fall. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Humanities.
Typically Offered: Fall, Spring.

ARAB 1010 - Beginning Arabic I (5 Credits)

Beginning course in Modern Standard Arabic (MSA) designed for students who have not had any experience with the language. Term offered: spring, fall. Max Hours: 5 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

ARAB 1020 - Beginning Arabic II (5 Credits)

Beginning course in Modern Standard Arabic (MSA) designed for students who have not had any experience with the language. Note: This course assumes that students have passed ARAB 1010 or equivalent, or have taken one year of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 1010 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 5 Credits.
Grading Basis: Letter Grade
Typically Offered: Spring.

ARAB 2110 - Intermediate Arabic I (3 Credits)

Third-semester course in Modern Standard Arabic (MSA) designed for students who have had two semesters or comparable proficiency in the language. Note: This course assumes that students have passed ARAB 1020 or equivalent, or have taken two years of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 1020 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ARAB 2120 - Intermediate Arabic II (3 Credits)

Fourth-semester course in Modern Standard Arabic (MSA) designed for students who have had three semesters or comparable proficiency in the language. Note: This course assumes that students have passed ARAB 2110 or equivalent, or have taken three years of high school Arabic, or possess equivalent proficiency. A grade of C- or higher in ARAB 2110 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ARAB 2840 - Independent Study (1-3 Credits)

Independent study for students wishing to pursue nonoffered studies in Arabic language and culture. Department consent required. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

ARAB 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Architecture (ARCH)

ARCH 1110 - Introduction to Architecture (3 Credits)

Introduces students to the essential ways of looking at and thinking about buildings, sites and cities, exposing students to the various perspectives, positions and practices that they will encounter in both an architecture curriculum and in architectural practice. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 1711 - Architectural Visualization I (3 Credits)

First in the sequence of two visual studies courses, this course introduces students to the fundamental principles of two and three-dimensional visual analysis and communication. Students are taught basic drawing and model-making conventions, both mechanical and digital, and how to use drawings and models as design and communication tools. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 1721 - Architectural Visualization II (3 Credits)

Second in the sequence of two visual studies courses, this course introduces students to advanced principles of two and three-dimensional visual analysis and communication. Students are introduced to advanced mechanical and digital communication techniques and the use of drawings and models as design and communication tools. Prereq: ARCH 1711 and ARCH 2111 with a C- or higher. Restriction: Restricted to undergraduate students in the College of Architecture and Planning. No co-credit with ARCH 3801. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 1711 and ARCH 2111 with a C- or higher. Restriction: Restricted to undergraduate students in the College of Architecture and Planning.

Typically Offered: Fall.

ARCH 2111 - Design Studio I - Foundational (6 Credits)

First in the sequence of two foundational design studio courses, this course introduces students to the fundamental principles of three-dimensional design and composition. Students learn to translate and express ideas through willful manipulation of form and space, in a sequential series of exercises. Prereq or Coreq: ARCH 1711 with a C- or higher. Restriction: Restricted to undergraduate students in the College of Architecture and Planning. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ARCH 1711 with a C- or higher. Restriction: Restricted to undergraduate students in the College of Architecture and Planning.

ARCH 2121 - Design Studio II - Foundational (6 Credits)

Second in the sequence of two foundational design studio courses, this course introduces students to the formal and spatial vocabulary of Architecture and its organizational principles through a series of micro-scale architectural design exercises. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Prereq: ARCH 2111 with a C- or higher and ARCH 1711 with a C- or higher. Coreq or Prereq: ARCH 1721. No co-credit with ARCH 3110. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2111 with a C- or higher and ARCH 1711 with a C- or higher. Coreq or Prereq: ARCH 1721. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

ARCH 2230 - Architectural History I (3 Credits)

Introduces architecture and urbanism from prehistory to the mid-seventeenth century by exploring the social, cultural, technical, philosophical and aesthetic ideas that shaped buildings and other architectural and urban settings in different parts of the world. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 3111 - Design Studio III - Elemental (6 Credits)

First in the sequence of two foundational design studio courses, this course introduces students to the fundamental principles of three-dimensional design and composition. Students learn to translate and express ideas through willful manipulation of form and space, in a sequential series of exercises. Prereq: ARCH 2121 with a C- or higher and ARCH 1721 with a C- or higher. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. No co-credit with ARCH 3120. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2121 with a C- or higher and ARCH 1721 with a C- or higher. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

ARCH 3121 - Design Studio IV - Elemental (6 Credits)

Second in the sequence of two elemental design studio courses, this course focuses on the design of small-scale buildings to advance students' understanding of the role of context in design communication. Students learn to translate non-formal concepts into sequential architectural experiences in deference to program and site. Prereq: ARCH 3111 with a C- or higher. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. No co-credit with ARCH 4110. Max hours: 6 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3111 with a C- or higher. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

Typically Offered: Fall.

ARCH 3130 - Construction Practices: Material and Structural Systems (3 Credits)

Provides an overview of the materials, systems, assemblies and processes that inform the design and construction of buildings, reviewing the building technologies and developing student understandings of the interrelationship between the interconnected elements and systems that define buildings and spaces. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 3230 - Architectural History II (3 Credits)

Introduces architecture and urbanism from the mid-seventeenth century to the present, exploring the forces that shaped buildings and other architectural and urban settings in different parts of the world. Prereq: ARCH 2230 with a C- or higher. Restriction: Open to all undergraduate majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2230 with a C- or higher. Restriction: Open to all undergraduate majors.

ARCH 3330 - Building Systems I (3 Credits)

Introduces the concepts of thermal behavior of buildings, climate as a determinant of building design, energy use in buildings, natural and mechanical means of environmental control, plumbing, electrical, communication systems, water supply and sanitation systems. Prereq: ARCH 2121 or ARCH 3110 or CEMT 2100. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 2121 or ARCH 3110 or CEMT 2100. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management.

ARCH 3340 - Theory of Structures I (3 Credits)

Introduction to the analysis and design of structural elements and focuses on the principles of statics and the strength of materials. Topics include stress determination, deflection and the behaviors of tension, compression and shear in various structural elements. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management. Recommended Prereq: MATH 1130 OR MATH 1110 & 1120; PHYS 2010/2030 OR PHYS 2311/2321. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management.

ARCH 3430 - Construction Practices: Building Envelope (3 Credits)

Discusses the principles and processes of building construction and introduces the major systems and assemblies that inform construction practices. Stresses the relationship between architectural concepts and emerging building technologies, teaching students how to select appropriate materials, systems and assemblies. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARCH 3600 - Special Topics Cultural (3 Credits)

Special topics in architecture studies related to cultural inquiries including theory, cultural diversity, and/or cross cultural thinking. Repeatable. Max hours: 24 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 24.

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3602 - Architecture Photography (3 Credits)

Architecture elective in photography of space, interior, and exterior with an emphasis on design composition of architecture. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3604 - Architecture of Fun (3 Credits)

This course tackles this seemingly simple questions of what makes architecture fun through creative practice and critical interrogation. By making and thinking about the architecture we employ to "have fun", you will develop a conceptual framework and develop skills for understanding what makes architecture fun, designing and creating fun architecture and becoming a more playful designer. Restriction: Restricted to Architecture BS students within the College of Architecture and Planning. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Architecture BS students within the College of Architecture and Planning.

Typically Offered: Summer.

ARCH 3605 - Women in Architecture (3 Credits)

Architecture has a long-standing history of being a male-dominated profession. The profession and mainstream history of architecture continue to struggle with representation, inclusion, and recognition of women in the field. This course highlights the importance of equal representation for women in architecture and explores their significant yet overlooked contribution to the history of architecture. Taking a global perspective, the course uses lectures, readings, case studies, and discussions during the semester to discuss the work, legacy and struggles of women architects throughout history. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ARCH 3690 - Cultural Research Abroad (3 Credits)

Topics in architecture studies related to cultural inquiries including theory, cultural diversity, and/or cross cultural thinking in other cultures. Work shall include preparation in culture, history and language skills in other countries. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restrictions: Restricted to Junior standing or higher.

ARCH 3691 - Cultural Design Abroad (3 Credits)

Design topics in architecture studies related to cultural inquiries including design, cultural implications of design, and/or cross cultural application of design. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restrictions: Restricted to Junior standing or higher.

ARCH 3693 - Rome: Architecture & Urbanism (3 Credits)

The objective of this course is to provide a broad overview of the city's major architectural sites, topography, infrastructure and systems of urban design and organization through the study of the rich palimpsest of buildings, piazzas and landscapes from antiquity to the present day. Coreq: ARCH 3694. Restriction: Restricted to undergraduate BS-ARCH students with Junior standing or higher. Cross-listed with ARCH 6755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: ARCH 3694. Restriction: Restricted to undergraduate BS-ARCH students with Junior standing or higher.

Additional Information: Global Education Study Abroad.

ARCH 3694 - Rome: Documentation, Analysis and Design (3 Credits)

With graphic representation as the primary mode of inquiry, this course is an intensive study of a single building, piazza or landscape within the rich urban fabric of Rome. The graphical inquiry will be supported by pre-departure research and onsite observation and presentations. Coreq: ARCH 3693. Restricted to undergraduate BS-ARCH students with Junior standing or higher. Cross-listed with ARCH 6760. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: ARCH 3693. Restriction: Restricted to undergraduate BS-ARCH students with Junior standing or higher.

Additional Information: Global Education Study Abroad.

ARCH 3700 - Special Topics Design (3 Credits)

Special topics in architecture studies related to design inquiries including theory, design skills, and/or analytical thinking. Restriction: Restricted to ARCH-BS majors with sophomore standing. Repeatable. Max hours: 24 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 24.

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3701 - Survival Sketching (3 Credits)

The focus of this course will be the sketchbook and the keeping of a sketchbook. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning with sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3706 - 3D Design, Computation, and Prototyping (3 Credits)

Introduces the design and computer-controlled fabrication of three-dimensional objects using both additive (3D printing) and subtractive (laser cutter, CNC router/mill) processes. Various commercial and open-source software tools for 3D design (CAD), manufacturing (CAM) and visualization will be explored. Increasingly complex projects throughout the semester will be used to illustrate fabrication techniques. The course will culminate in a final project. Restriction: Restricted to ARCH-BS majors with sophomore standing. Cross-listed with IWKS 3100 and 5170. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3707 - Color Theory + Application (3 Credits)

This course will explore Color perception and theory; media/medium technique/application and landscape/built-environment drawing preparation, composition and presentation. The objective is to develop your understanding of color interaction and interrelationship especially, as it pertains to the use of color in the design and implementation of the built environment. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3708 - Introduction to the Essentials of Biomimicry (3 Credits)

Biomimicry is the conscious emulation of nature's genius that can be applied to the fields of design, engineering, medicine, transportation, and social interaction. This class will be geared towards designers and will give an overview of the discipline, the (3) Essential Elements, the human-nature connection, The Biomimicry Thinking Methodology, and Life's Principles. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3709 - Furniture Design (3 Credits)

Students learn how to design and build furniture in the College's woodshop. Topics include ergonomics, properties of materials, principles and techniques of joinery and techniques of hand and machine tools. Cross-listed with ARCH 6180. Restriction: Restricted to ARCH-BS majors with sophomore standing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3800 - Special Topics - Technical (3 Credits)

Special topics elective will include coursework in either Digital Media In Design courses, Design-Build site Construction, or the Science and Art of Engineering Buildings. Additional topics will be developed in conjunction with the required undergraduate technical electives. Restriction: Must be an undergraduate Architecture student with sophomore standing or higher. Repeatable. Max hours: 24 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 24.

Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 3804 - Green Tech Eco-Furniture Fabrication I (3 Credits)

Green Tech I is the first of two courses that are a "real build" course in which students advance their knowledge of environmental design through full-scale construction of architectural elements, furnishings, accessories, finishes, outdoor gear, or even clothing. Restriction: Restricted to ARCH-BS majors with sophomore standing or higher. Coreq: ARCH 3806. Cross-listed with ARCH 6375. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: ARCH 3806 Restriction: Restricted to ARCH-BS majors with sophomore standing or higher

ARCH 3805 - Beginning Revit (3 Credits)

Introduction to Building Information Modeling through Autodesk's Revit Architecture software. The course explores fundamental architectural concepts as they are developed and expressed in Revit. Appropriate program use and team learning experiences are emphasized. Prereq: ARCH 3110 or ARCH 2121. Restriction: Restricted to ARCH-BS majors with sophomore standing or higher. ARCH 3430 recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ARCH 3110 or ARCH 2121. Restriction: Restricted to ARCH-BS majors with sophomore standing or higher.

ARCH 3806 - Green Tech Eco-Furniture Fabrication II (3 Credits)

Green Tech II is the second of two courses that are a "real build" course in which students advance their knowledge of environmental design through full-scale construction of architectural elements, furnishings, accessories, finishes, outdoor gear, or even clothing. Restriction: Restricted to ARCH-BS majors with sophomore standing or higher. Coreq: ARCH 3804. Cross-listed with ARCH 6376. Max hours: 3 Credits. Grading Basis: Letter Grade
Coreq: ARCH 3804 Restriction: Restricted to ARCH-BS majors with sophomore standing or higher

ARCH 3949 - Internship I (1-6 Credits)

Experiential learning student internships sponsored by faculty in a field related to architecture. Minimum of 45 work hours per credit. Prereq: Permission of instructor, advisor and acceptance in BS Architecture program. Must also have sophomore standing. Minimum 15 credit hours with 2.75 GPA. Repeatable. Max Hours: 6 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Typically Offered: Fall, Spring, Summer.

ARCH 4111 - Design Studio V - Analytical (6 Credits)

First in the sequence of two analytical design studio courses, this course introduces students to analysis and design as complementary processes. Students learn how to form design intentions based on analytical study of the relationship between architecture and culture. Focused on the design of small-scale buildings, students learn to incorporate structure, light, and material as expressive elements of an architectural composition. Prereq: ARCH 3121 with a C- or higher. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Max hours: 6 Credits. Grading Basis: Letter Grade
Prereq: ARCH 3121 with a C- or higher. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

ARCH 4121 - Design Studio VI - Analytical (6 Credits)

Second in the sequence of two analytical design studio courses, this course advances students' understanding of the relationship between architecture and culture and their ability to design intermediate scale buildings as effective settings for cultural rituals. Students explore the role of history and precedent in the design process along with the role of detail in architectural compositions. Prereq: ARCH 4111 with a C- or higher. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning. Max hours: 6 credits. Grading Basis: Letter Grade
Prereq: ARCH 4111 with a C- or higher. Restriction: Restricted to undergraduate ARCH students within the College of Architecture and Planning.

ARCH 4220 - A History of Theoretical Discourse on Architecture (3 Credits)

This course traces the history of theoretical discourse on architecture from the Renaissance to the present. It explore the genealogy of current theoretical stances and critical methodologies in the discipline of Architecture through the close reading of a select group of historic and contemporary texts. Prereq: ARCH 3230. Cross-listed with ARCH 6220. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ARCH 3230.

ARCH 4340 - Theory of Structures II (3 Credits)

Focuses on the relationship between architectural concepts and the selection of structural systems. Addresses the qualitative and quantitative analysis of reinforced concrete, steel, and wood structural systems and members. Prereq: ARCH 3340 with a C- or higher. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ARCH 3340 with a C- or higher. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management.

ARCH 4440 - Building Systems II (3 Credits)

Focuses on the environmental systems in commercial and other nonresidential buildings. Discusses natural and artificial lighting, HVAC systems, acoustics, vertical transportation and fire protection. Prereq: ARCH 2121 or ARCH 3110 or CEMT 2100. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ARCH 2121 or ARCH 3110 or CEMT 2100. Restriction: Restricted to undergrad students in B.S. Architecture, B.S. Construction Management, and B.S. Construction Engineering Management.

ARCH 4610 - A History of American Architecture (3 Credits)

This course investigates the history of architecture in the United States as a chronological survey of buildings, architects, landscapes, and urban forms and as an exploration of the social, political, economic, technological, and similar issues that inform this built environment. Prereq: ARCH 2230 and 3230. Cross-listed with ARCH 6210. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ARCH 2230 and ARCH 3230.

ARCH 4612 - A History of Modern Architecture (3 Credits)

This course traces the various theoretical and formal developments in European and American Architecture from the end of the 19th century through the 20th century. The works of a select group of architects will be examined and discussed in relation to the diverse body of goals and objectives, ideas and ideals that constituted the Modern movements in architecture. Prereq: ARCH 2230. Restriction: Restricted to Sophomore standing or higher. Cross-listed with ARCH 6212. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ARCH 2230 Restriction: Restricted to Sophomore standing or higher

ARCH 4840 - Independent Study (1-3 Credits)

Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to architecture. Prereq: Restricted to undergraduate ARCH students within the College of Architecture and Planning with sophomore standing or higher. Repeatable. Max Hours: 6 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Restriction: Restricted to ARCH-BS majors with sophomore standing

ARCH 4949 - Internship II (1-3 Credits)

Experiential learning student internships sponsored by faculty in a field related to architecture. Minimum of 45 work hours per credit. Permission of instructor, advisor and acceptance in BS Architecture program. Must also have sophomore standing. Minimum 15 credit hours with 2.75 GPA. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Bioengineering (BIOE)

BIOE 1010 - Bioengineering Design and Prototyping I (3 Credits)

BIOE 1010 introduces students to bioengineering, and provides an introduction to possible careers and research topics in bioengineering.

Students also learn human anatomy by understanding how to incorporate visual human data sets into computer prototyping and design tools.

Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall.

BIOE 1020 - Bioengineering Design and Prototyping II (3 Credits)

BIOE 1020 extends work from BIOE 1010 by introducing students to practical skills around computer-aided design (CAD), modeling and prototyping with focus on project-oriented work aimed at design, prototyping and metrology of specific medical devices. Prereq: BIOE 1010 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: BIOE 1010 with a C- or higher.

Typically Offered: Spring.

BIOE 2010 - Introduction to Programming for Bioengineers (2 Credits)

Digital computers are the primary tools of modern engineers. This class introduces the undergraduate to general computing concepts, computer languages, and programming techniques. Prereq: MATH 1401 with a C- or higher or permission from instructor. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 with a C- or higher.

BIOE 2020 - Introduction to Computational Methods for Bioengineers (2 Credits)

A modern engineer is required to solve problems involving the physical world not only on paper, but also using numerical tools implemented on digital computers. This class introduces the students a first set of numerical algorithms for the solution of calculus-based engineering problems. Prereq: MATH 2411 with a C- or higher or permission from instructor. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2411 with a C- or better.

BIOE 2840 - Independent Study in Bioengineering (1-6 Credits)

Covers topics which students may wish to pursue on their own initiative with guidance from department faculty. Credit is awarded upon completion of a project. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Department Consent Required. Restriction: Restricted to BIOE-BS majors.

BIOE 3010 - Bioinstrumentation (3 Credits)

This course is intended for junior bioengineering students to facilitate their development into bioengineering investigation. The course has been designed to introduce fundamental principles of circuit theory, analog and digital electronics and biological instrumentation techniques commonly used in biomedical research. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher.

BIOE 3020 - Introduction to Biomechanical Analysis (3 Credits)

This course will offer an overview of solid and fluid mechanics, as applied to biomechanical systems. After completing this course, students should have enough understanding of biomechanics to: (1) perform and interpret basic analytical of biomech. systems: (2) analytically reason through a design: (3) and choose a specialty. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195 and BIOL 2061/2081 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher.

BIOE 3030 - Introduction to Biomaterials (3 Credits)

This course will cover different kinds of biomaterials in biomedical applications, and their physiological response in the biological environment. In addition, it will cover material properties, host response, and characterization techniques. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher.

BIOE 3040 - Physiology for Bioengineering (3 Credits)

This course will introduce students to central concepts in human physiology. This includes the structure, function and homeostatic role of key organs within the body; the engineering principles governing these systems and processes; and designing engineering-based solutions to overcome dysfunction in disease. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher.

Typically Offered: Fall.

BIOE 3050 - Systems Biology (3 Credits)

This course focuses on the quantitative description of biomolecular and cellular dynamics. The building and application of mechanistic models of biological processes will be covered including receptor-ligand binding, enzymatic reactions, signal transduction pathways, gene expression, cell growth and death, and pharmacokinetics. Mathematical and computational approaches of dynamical systems are used to analyze and design complex biological networks. Prereq: ENGR 1100, BIOE 2020, CHEM 2031/2038, CHEM 2061/2068, MATH 1401, MATH 2411, MATH 2421, MATH 3195, and BIOL 2020/2021 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGR 1100, BIOE 2020, CHEM 2031/2038, CHEM 2061/2068, MATH 1401, MATH 2411, MATH 2421, MATH 3195, and BIOL 2020/2021 with a C- or higher.

BIOE 3051 - Cell & Molecular Bioengineering Lab (1 Credit)

Laboratory experience in cellular and molecular biology techniques. Experimental methods will be performed including protein, RNA, DNA purification and quantification, ligand binding, enzyme kinetics, polymerase chain reaction technology, and recombinant DNA technology. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Co-req: BIOE 3050. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher. Co-req: BIOE 3050

BIOE 3060 - Biostatistics, Measurement and Analysis (3 Credits)

Students will learn and apply parametric statistics, including t-tests, ANOVA, and regression methods, using commercially available statistical software to the analysis of clinical and/or biological data. Further, they will be introduced to measurement error and the propagation of error technique. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

BIOE 3070 - Bioengineering Lab I (3 Credits)

Core bioengineering lab required of all major students. This lab introduces students to experimental techniques in the areas of Biomaterials, Biomedical Instrumentation, and Biomechanics. Prereq: BIOE 1020, 2020; PHYS 2331/2341; CHEM 3411/3418, MATH 2421, 3195, and BIOL 2061/2081 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 1020, 2020; PHYS 2331,2341; CHEM 3411,3418, MATH 2421, 3195; BIOL 2061,2081 with a C- or higher.

BIOE 3071 - Bioengineering Lab II (3 Credits)

Lab sequence 2 of 2. A series of modules focused on quantitative techniques relative to Bioengineering. Modules will include Physiological data acquisition and analysis, Medical Imaging and Assistive Technologies. Prereq: BIOE 3070 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3070 with a C- or higher.

BIOE 3090 - Introduction to BioDesign (3 Credits)

BioDesign I is the first course in a three sequence design process that provides students with a framework for identifying medical needs through clinical observation, environment analysis and product screening. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher.

BIOE 3939 - Undergraduate Internship (1-6 Credits)

Department of Bioengineering Internship. Credit may be applied toward technical electives in the BS in Bioengineering degree. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 3 Credits. Semester Hours: 1 to 3

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Department Consent Required. Restriction: Restricted to BIOE-BS majors.

BIOE 4035 - Undergraduate BioDesign II (3 Credits)

This represents the second semester of the core undergraduate Biodesign sequence. Students gain experience around Design and Prototyping, Verification and Validation, and evaluation of key components around biomedical technology development. Prereq: BIOE 3090. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3090 with a C- or higher.

BIOE 4039 - Mechatronics and Embedded Systems (3 Credits)

The course focuses on the design and construction of microprocessor-controlled electro-mechanical systems. Lectures review critical circuit topics (Ohm's law, RLC circuits, DC and AC signals, diode and transistor circuits, operational amplifiers, and digital signals), introduce microprocessor architecture and programming, discuss sensor and actuator component selection, robotic systems, and design strategies for complex, multi-system devices. Lab work reinforces lectures and allows hands-on experience with robotic and embedded systems design. Students must design and build an embedded systems device related to assistive technology. Cross-listed with BIOE 5039. Max hours: 3 Credits. Grading Basis: Letter Grade

BIOE 4045 - BioDesign III (3 Credits)

This course represents the capstone culmination of the core undergraduate Biodesign experience. Students finalize all design, prototyping, testing and validation components, and present the project per professional standards to professionals and peers. Prereq: BIOE 4035 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 4035 with a C- or higher.

BIOE 4053 - Optics and Microscopy in Biomedical Research (3 Credits)

Undergraduate overview of optical imaging, ranging from classical microscopy to advanced, non-linear techniques and includes theory, technology and applications in biomedical sciences. This will prepare students for developing and applying state-of-the-art optical imaging in their research. Cross-listed with BIOE 5053. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Restriction: Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher.

BIOE 4054 - Regulatory Affairs (3 Credits)

This course covers standards of quality assurance and regulatory pathways that guide biomedical engineering industry. Cross-listed with BIOE 5054. Max hours: 3 Credits.

Grading Basis: Letter Grade

BIOE 4057 - Rehabilitation and Assistive Technology (3 Credits)

This course provides students with an overview of technologies and their use by and for persons with disabilities. Cross-listed with BIOE 5057. Max hours: 3 Credits.

Grading Basis: Letter Grade

BIOE 4058 - Intro to Design, Disability, and Aging (3 Credits)

This course provides an introduction to the topic of disability and aging and the application of bioengineering principles for persons living with functional impairment(s) across the lifespan. Cross-listed with BIOE 5058. Max hours: 3 Credits.

Grading Basis: Letter Grade

BIOE 4063 - 3D Modeling for Bioengineers (3 Credits)

This course instills in the 3D modeling skills specific to the biomedical industry. Topics include computer aided design (CAD), medical imaging, image processing, patient specific image to three-dimensional (3D) model reconstruction, non-uniform rational b-spline (NURBS) surfaces, finite element and computational fluid dynamics (FEA/CFD) analyses and physical modeling using rapid prototyping. Prereq: 3010, 3020, 3030, and 3040 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher.

Typically Offered: Fall, Spring.

BIOE 4064 - Advanced MatLab For Bioengineers And Life Scientists (3 Credits)
 MatLab programming for undergraduate bioengineers and life scientists. Topics include MatLab syntax and optimization as well as techniques for working with scalars, time-series, images and multi-dimension datasets. Surface/Curve fitting. modeling, automation and classification will be covered. Cross-listed with BIOE 5064. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher.

BIOE 4067 - Human Factors and Usability Testing for Bioengineers (3 Credits)
 This course provides an introduction to human factors testing and evaluation in the context of medical devices and assistive technology (AT). Particular focus will be given towards designing and applying usability testing to inform product design decisions or improvements. Topics include human factor considerations for aging and disabled populations (and their care providers), usability techniques, user experience data collection and interpretation, etc. Students will engage in hands-on human factors assessments such as contextual inquiry of surgery patients, cognitive walkthroughs with simulating disability, and product usability testing and iteration. Max hours: 3 Credits.
 Grading Basis: Letter Grade

BIOE 4068 - Introduction to Medical Imaging (3 Credits)
 This course will introduce undergraduates to the basic physics, technologies, and clinical methodologies underlying Ultrasound, MRI, CT, PET and SPECT imaging systems. The course will include lectures, and visits to campus hospital and research imaging systems as well as hands on ultrasound labs. Cross-listed with BIOE 5068. Max Hours: 3 Credits.
 Grading Basis: Letter Grade

BIOE 4069 - Advanced Biomechanics for Undergraduates (3 Credits)
 This course covers advanced topics such as blood flow dynamics, introduction to non-linear finite deformation techniques, blood rheology, and computational techniques. Cross-listed with BIOE 5069. Max Hours: 3 Credits.
 Grading Basis: Letter Grade

BIOE 4073 - Neural Interfaces and Bionic Limbs (3 Credits)
 This course will introduce undergraduates to topics in neural interfaces (Brain machine interfaces, peripheral nerve interfaces etc), the issues involved in the design of mechatronic limb systems and the decoding algorithms used to map the neural interface to the mechatronic limb. Cross-listed with BIOE 5073. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher or instructor permission. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher.

BIOE 4083 - Polymers in Biomedical Applications (3 Credits)
 This course will introduce undergraduate students to fundamental synthetic method and basic characteristics of various polymeric biomaterials and their crucial roles in different biomedical applications. It will also cover how the polymers can be modified to enhance biomedical applications. Cross-listed with BIOE 5083. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher.

BIOE 4085 - Tissue Engineering (3 Credits)
 This course covers tools, techniques, characterization and applications in modern tissue engineering. Cross-listed with BIOE 5085. Max Hours: 3 Credits.
 Grading Basis: Letter Grade

BIOE 4100 - Image Processing for BIOEs (3 Credits)
 This course provides an overview of basic and advanced image processing algorithms from both a theoretical and a practical perspective with special emphasis in Bioengineering. Topics to be covered include quantization, filtering, texture analysis, Fourier transform, wavelets, morphological operations, image registration, segmentation, machine learning, deep learning, and principal component analysis (PCA). Cross-listed with BIOE 5100. Max hours: 3 credits.
 Grading Basis: Letter Grade
 Typically Offered: Spring.

BIOE 4400 - Genetic Engineering (3 Credits)
 Laboratory experience in genetic engineering including molecular cloning, gene delivery, and genome editing. Students will work on open ended projects that may include the expression of recombinant proteins, silencing RNA, or the knockdown or insertion genes into the genome. Prereq: Requires prerequisite courses of CHEM 2031 and 2038 and 2061 and 2068 and 3411 and 3418 and BIOL 2020 and 2021 (all minimum grade D-). Cross-listed with BIOE 5400. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Requires prerequisite courses of CHEM 2031 and 2038 and 2061 and 2068 and 3411 and 3418 and BIOL 2020 and 2021 (all minimum grade D-).

BIOE 4420 - Special Topics in Bioengineering (1-5 Credits)
 Special topics of particular interest to undergraduate senior in the Bioengineering program. Registration requires departmental approval. Prereq: BIOE 3010, 3020, 3030, and 3040 with a C- or higher or instructor permission. Repeatable. Max Hours: 9 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 9.
 Prereq: BIOE 3010, 3020, 3030, 3040 with a C- or higher.
 Typically Offered: Spring.

BIOE 4840 - Independent Study in Bioengineering (1-6 Credits)
 Covers advanced topics which students may wish to pursue on their own initiative with guidance from department faculty. Credit is awarded upon completion of a project. Department Consent Required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Department Consent Required. Restriction: Restricted to BIOE-BS majors.

BIOE 4929 - Undergraduate Research Project (1-6 Credits)
 Department of Bioengineering Research Project. Credit may not be applied toward the BS in Bioengineering degree. Department consent required. Restriction: Restricted to BIOE-BS majors. Repeatable. Max Hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Department Consent Required. Restriction: Restricted to BIOE-BS majors.

Biology (BIOL)

BIOL 1111 - First Year Seminar (3 Credits)
 Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Restricted to Freshman level students
 Typically Offered: Fall.

BIOL 1135 - Human Biology (3 Credits)

Topics include: basic human body chemistry, healthy internal body balance, new disease treatments, human inheritance and human beings as part of Earth's living systems. Note: For students who are not majoring in biology. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

BIOL 1137 - Human Biology Laboratory (1 Credit)

Lab activities will investigate the function of the human body while emphasizing the use of the scientific method. Intended for non-science majors. Students may not receive credit for this course if they have already received credit for BIOL2011(2081) or 2021(2071). No co-credit with BIOL 1560. Prereq or Coreq: BIOL 1135. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: BIOL 1135.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Spring.

BIOL 1400 - Biology for All (3 Credits)

The course will focus on how biology impacts our lives. Foundational concepts (DNA, evolution, and ecology) will be applied to current events. Note: For students who are not majoring in science. Students may not receive credit for this course if they have already received credit for BIOL 2010(2051) or BIOL 2020(2061). No co-credit with BIOL 1550. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

Typically Offered: Fall.

BIOL 1401 - Biology for All Laboratory (1 Credit)

Lab activities will investigate DNA, ecology and evolution while emphasizing the use of the scientific method. Intended for non-science majors. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. Students may not receive credit for this course if they have already received credit for BIOL2011(2081) or 2021(2071). No co-credit with BIOL 1550. Prereq or coreq: BIOL 1400. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq/Coreq: BIOL 1400.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall.

BIOL 1550 - Basic Biology: Ecology and the Diversity of Life (4 Credits)

Introduces the process of science, gene expression, biological diversity, evolution, and ecology. Highlights applications to contemporary issues. Lecture and lab course. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. Students may not receive credit for this course if they have already received credit for BIOL 2010(2051) and BIOL 2020(2061). Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 1560 - Basic Biology: From Cells to Organisms (4 Credits)

Introduces the process of science, cell structure and function, survey of representative human and plant systems, and genetics. Highlights applications to contemporary issues. Lecture and lab course. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. Students may not receive credit for this course if they have already received credit for BIOL 2010(2051) and BIOL 2020(2061). Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab;

GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2010 - Organisms to Ecosystems (Gen Bio) (3 Credits)

Introduces four major areas of study: (1) evolution,(2) animal structure and function, (3) plant structure and function and (4) ecology. Note: This class is intended for students planning to take upper division biology courses and for biology majors. Biology majors and pre-health career students must also take the accompanying laboratory BIOL 2011. No co-credit with BIOL 2030(2097) or BIOL 2061. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2011 - Organisms to Ecosystems Lab (Gen Bio) (1 Credit)

Investigations, observations, and experiments in evolution, bioinformatics, ecology, and animal behavior, anatomy, and physiology; requires off-campus field work. Note: This class is intended for students planning to take upper division biology courses and for biology majors. Students are strongly encouraged to take BIOL 2010 concurrently or before they take this course. No co-credit with BIOL 2031(2098) or BIOL 2081. Term offered: fall, spring, summer. Max hours: 1 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2020 - Molecules to Cells (Gen Bio) (3 Credits)

Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: This class is intended for students planning to take upper division biology courses and for biology majors. Biology majors and pre-health career students must also take the accompanying laboratory BIOL 2021. Prereq: BIOL 2010 (2061) or BIOL 2030 (2097) with a C- or higher. No co-credit with BIOL 2040(2095) or BIOL 2051. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (2061) or BIOL 2030 (2097) with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2021 - Molecules to Cells Lab (Gen Bio) (1 Credit)

Introduces the basic scientific approach through investigations, observations, and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: This class is intended for students planning to take upper division biology courses and for biology majors. Prereq: BIOL 2011 (2081) or BIOL 2031 (2098) with a C- or higher. No co-credit with BIOL 2041(2096) or BIOL 2071. Term offered: fall, spring, summer. Max hours: 1 Credit. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Prereq: BIOL 2011 (2081) or BIOL 2031 (2098) with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

BIOL 2030 - Honors Organisms to Ecosystems (Gen Bio) (3 Credits)

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. Introduces four major areas of study: evolution, animal structure/function, plant structure/function, and ecology.

Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences. Instructor permission required. No co-credit with BIOL 2010(2061) or BIOL 2097. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences

Typically Offered: Fall.

BIOL 2031 - Honors Organisms to Ecosystems Lab (Gen Bio) (1 Credit)

Honors level course limited to students in the BA/BS/MD, Denver Bound and UHL programs. Advanced study of evolution, plant and animal anatomy, developmental biology and includes two off-campus ecology field trips. Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences. No co-credit with BIOL 2011(2081) or BIOL 2098. Term offered: fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences

Typically Offered: Fall.

BIOL 2040 - Honors Molecules to Cells (Gen Bio) (3 Credits)

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. Four major topics covered: the chemistry of biological systems, the structure/function of the cell, cellular energy transformations and genetics. Prereq: BIOL 2010 (2061) or BIOL 2030 (2097) with a C- or higher. Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01). Instructor permission required. No co-credit with BIOL 2020(2051) or BIOL 2095. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: BIOL 2010 (2061) or BIOL 2030 (2097) with a grade of C- or higher Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01)

Typically Offered: Spring.

BIOL 2041 - Honors Molecules to Cells Lab (Gen Bio) (1 Credit)

Honors level course limited to students in the BA/BS/MD, Denver Bound and UNHL programs. Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biomedical techniques, genetics, molecular genetics and applications of biotechnology. Instructor permission required. Prereq: BIOL 2011(2081) or BIOL 2031 (2098) with a grade of C- or higher. Restriction: restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01). No co-credit with BIOL 2021(2071) or BIOL 2096. Term offered: spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prerequisite: BIOL 2011 (2081) or BIOL 2031 (2098) with a grade of C- or higher Restriction: Restricted to Biology honors students within the College of Liberal Arts and Sciences(student group BH01)

Typically Offered: Spring.

BIOL 2750 - Introduction to Molecular Research Techniques (2 Credits)

Designed to give background knowledge and hands-on experience for a person wanting to work in a molecular-research laboratory. Introduction to basic molecular techniques including micropipetting, making media, DNA and RNA isolation, restriction digest, RT-PCR, and gel electrophoresis. Max hours: 2 Credits.

Grading Basis: Letter Grade

BIOL 2840 - Independent Study (1-3 Credits)

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Note: registration by special processing form only. Prereq: Students must have completed one year of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have completed 15 hours of BIOL courses with a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: 15 hours of BIOL courses with a 2.75 GPA in BIOL courses

Typically Offered: Fall, Spring, Summer.

BIOL 3010 - Biology Career and Professional Development Seminar (1 Credit)

Open to all science majors. This course develops a student's understanding of the breadth of biology careers, such as biotechnology, field research, and bench research. This course will also work to develop a student's resume and cover letter writing skills as well as interviewing and job searching skills. Guest speakers and UCD alumni from various biology fields and careers will share their insight. Meets weekly. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) and BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall.

BIOL 3020 - Practical Laboratory Skills (1 Credit)

Designed for Students who are interested in working in a professional biology laboratory. Covers improvement of manual dexterity skills, understanding common laboratory apparatus and handling biological macromolecules and living cells. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2081), CHEM 2038 (or 2088), CHEM 2061 (or 2091) and 2068 (or 2098) with a C- or higher. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2038 (or 2039/2088) with a C- or higher.

BIOL 3074 - Human Reproductive Biology (3 Credits)

Comprehensive study of anatomy and physiology of human reproduction. Embryogenesis of male and female reproductive systems and detailed analysis of contraception, world population growth, population control and implications of population growth are also covered. Note: Students will not receive credit for this class if they have already received credit for BIOL 4074. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3104 - Behavioral Genetics (3 Credits)

Interdisciplinary course on relationships between behavior and heredity, with emphasis on human behavioral genetics. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with PSYC 3104. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3124 - Introduction to Molecular Biology (3 Credits)

Provides an understanding of the structure and function of genetic material, with respect to the regulation of gene expression and protein synthesis. Emphasizes eukaryotic systems and understanding the significance of contemporary laboratory-based research. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall.

BIOL 3134 - Advanced Topics (1-8 Credits)

Periodic examination of current topics in the field of biology. (See Schedule Planner for current topics). Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3137 - Advanced Special Topics with Lab (1-15 Credits)

Periodic examination of current topics in the field of biology. (See Schedule Planner for current topics). Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) and BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) and BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3226 - Human Physiology (3 Credits)

Human physiology is the study of how systems within the human organism operate, interact and are regulated in order to maintain a state of homeostasis. Upon completion of the course, a student should expect to have mastery of content material related to organ systems, for example the nervous system, skeletal muscle system, and reproductive system. Also upon completion of the course, a student should expect to improve professional competencies including their ability to apply systems and scientific thinking and communication related to physiology. No co-credit with BIOL 3225. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2061 (or 2062/2091) with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), BIOL 2021 (or 2071/2096/2041) AND CHEM 2031 (or 2032/2081), and CHEM 2061 (or 2062/2091) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3227 - Human Physiology Lab (1 Credit)

The focus of this laboratory course is on acquainting students with the practical aspects of physiological experimentation. Emphasis on data interpretation and experimental design. Students often collect non-invasive data on themselves as part of the class. Complements the Human Physiology Lecture course. No co-credit with BIOL 3225. Prereq or coreq: BIOL 3226 (or BIOL 3225) with a C- or higher. Term offered: fall, spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or coreq: BIOL 3226 (or BIOL 3225) with C- or higher.

Typically Offered: Fall, Spring.

BIOL 3240 - Human Anatomy Lecture (3 Credits)

Introduces the structural aspects of the human body, from proteins and organelles to tissues to organs and organ systems. No co-credit with BIOL 3244. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3241 - Human Anatomy Cadaver Lab (2 Credits)

Introduces the structural aspects of the human body, from proteins and organelles to tissues to organs and organ systems utilizing models, images, videos, and human cadavers. No co-credit for BIOL 3242 or BIOL 3244. Prereq or coreq: BIOL 3240. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Coreq or prereq: BIOL 3240.

Typically Offered: Fall, Spring.

BIOL 3242 - Virtual Human Anatomy Lab (2 Credits)

Introduces the structural aspects of the human body. Images of models, cadavers, videos, microscopic slides, and Visible Body software will be used as materials to become familiar with the structures of the human body. Note: This virtual lab may not be accepted by professional health programs. No co-credit for BIOL 3241 or BIOL 3244. Prereq or coreq: BIOL 3240. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Coreq or prereq: BIOL 3240.

Typically Offered: Fall, Spring.

BIOL 3330 - Plant Diversity (3 Credits)

Surveys all major plant groups using evolutionary and ecological principles to interpret patterns of diversity in form and function. Topics include reproduction and life cycles, adaptations and ecological interactions, paleobotany and biogeography, classification and taxonomy and evolution. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3350 - Diversity of Life (3 Credits)

This course surveys the history and diversity of life. The origins of life are discussed, and fundamental processes that govern all life will be used to organize the diversity of life. While prokaryotes and eukaryotes are represented, there is an emphasis on the evolution, classification and taxonomy, structure and function, and ecology of the major eukaryotic groups: protists, fungi, plants, and animals. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3411 - Principles of Ecology (3 Credits)

A lecture course that examines the interrelationships between organisms and their environments. Subject matter includes organism, population and ecosystem levels of study and application to current environmental issues. The emphasis is on the underlying principles of ecology that involve all types of organisms. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3412. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3413 - Ecology Laboratory (2 Credits)

Provides hands-on experiences in ecology and appreciation for using research tools to study ecological systems. Students will learn a wide range of techniques and concepts related to population, community, ecosystem, urban, and physiological ecology. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, or be concurrently enrolled in BIOL 3411 in order to enroll in this course. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq or Co-req: BIOL 3411 with a C- or higher

BIOL 3445 - Introduction to Evolution (3 Credits)

Introduction to the processes and patterns of evolution. Topics include: history of evolutionary thought, origin of life, evidence for evolution, phylogenetics, evolutionary genetics, natural selection and other evolutionary forces, speciation and biodiversity, evolution of sexual reproduction and social organization. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3521 - Vertebrate Biology (3 Credits)

The Subphylum Vertebrata consists of fish, amphibians, reptiles, birds and mammals—some of the most fascinating and most threatened species on earth. This course covers the evolution, taxonomy, anatomy, physiology, ecology and conservation of these organisms. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3525 - Parasitology (3 Credits)

This course is designed to provide a foundation in parasitology and to improve skills in scientific writing to students interested in biodiversity, veterinarian medicine, public health, & health care. Prokaryotes are addressed briefly; the focus of this course is the natural history of 'traditional' eukaryotic parasites. Topics include evolutionary associations of parasites with plants and animals (including humans), modes of transmission, and general life cycles. Subject matter includes basic anatomy, epidemiology, and physiology, with a brief introduction to immunology. Note: may be used as an upper-division biology elective. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3611 - General Cell Biology (3 Credits)

Covers the structure and function of the cell including bioenergetics, membranes, secretion, respiration and the cell cycle. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2081), CHEM 2038(or 2039/2088), CHEM 2061(or 2091) and 2068(or 2069/2098) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2032/2081), and CHEM 2038(or 2039/2088) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3612 - Cell Biology Laboratory (3 Credits)

Laboratory course covering topics in cell and molecular biology, such as protein folding, membrane potential, organelle function, cell signaling and fertilization; as well as associated methods, including microscopy, cell culture and PCR. Basic skills are emphasized in recitation and laboratory. Prereq: General cell biology with a grade of "C-" or higher or permission of instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 3621 - Introduction to Immunology (3 Credits)

Provides an introduction to the basic concepts of immunology, including development of the immune system, innate immunity, aspects of the adaptive immune system, and the role of the immune system in disease, as well as allergies and autoimmunity. Prereq: BIOL 3124 OR BIOL 3832 and 3611 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 OR BIOL 3832 and 3611 with a grade of C- or higher.

BIOL 3640 - Mammalogy (4 Credits)

Lecture, laboratory, and required field trips. This course provides a general overview of the biology of mammals, including their diversity, distribution, economic importance, and other characteristics that make them of special interest to humans. Coverage will be worldwide, with special emphasis placed on the mammals of Colorado. Note: Students will not receive credit for this class if they have already received credit for BIOL 4640. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 3650 - General Microbiology (3 Credits)

Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other organisms and the environment (ecology). No co-credit with BIOL 3654. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2032/2081), and CHEM 2038(or 2039/2088) with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2032/2081), and CHEM 2038(or 2039/2088) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3651 - General Microbiology Lab (2 Credits)

Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other organisms and the environment (ecology). The objective is to provide students with a thorough introduction to microbiology including basic micro-biological laboratory techniques. No co-credit with BIOL 3654. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2032/2081), and CHEM 2038(or 2039/2088) with a C- or higher. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) AND CHEM 2031(or 2032/2081), and CHEM 2038(or 2039/2088) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3763 - Biostatistics (4 Credits)

Introduces statistical thinking in biology. Emphasizes data exploration and probability-based inference methods including estimation, testing, and confronting models with data. Concepts and examples for general and applied biology, including ecology and the health sciences. Includes exposure to statistical software. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) and MATH 1109, or MATH 1110, or MATH 1120, or 1130, or 1401, or 2411, or 2421 or 2830 with a C- or higher. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) and MATH 1109 or MATH 1110 or MATH 1120, or 1130, or 1401, or 2411, or 2421 or 2830 with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 3804 - Developmental Biology (3 Credits)

Covers gamete development, fertilization, and embryo development including establishing body axes, tissue differentiation and organ formation. Note: Students will not earn credit for BIOL 3804 if they have earned credit for BIOL 4054 and will not earn credit for BIOL 4054 if they have earned credit for BIOL 3804. Prereq: General cell biology with a grade of "C-" or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 3832 - General Genetics (3 Credits)

Introduces molecular, classical, developmental and population genetics. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3840 - Independent Study (1-3 Credits)

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Prereq: Students must have completed one year of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 3939 - Internship (1-3 Credits)

Approved internships will provide opportunities to apply classroom knowledge in a professional environment and expand the student's knowledge of biology. Associated coursework includes scientific reading/writing and presentation(s). Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND have a cumulative 2.0 GPA or higher AND be a declared Biology Major or Minor. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND have a cumulative 2.0 GPA or higher AND be a declared Biology Major or Minor.

Typically Offered: Fall, Spring, Summer.

BIOL 4024 - Introduction to Biotechnology (3 Credits)

Introduces aspects of biotechnology within a historical context, including medical, forensic, agricultural and microbial biotechnology. Addresses principles behind state-of-the-field techniques in recombinant DNA technology, bioinformatics, proteomics and genomics. Biotechnology regulations and ethics will also be discussed. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Cross-listed with BIOL 5024. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4050 - Advanced Biology Topics (1-8 Credits)

Examines current topics in the field of biology. Topics vary from term to term. See Schedule Planner for current topics. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with BIOL 5050. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4052 - Advanced Ecology (3 Credits)

This combination seminar and lecture course focuses on state-of-field knowledge, current theories and recent models in selected areas of ecology, such as theoretical ecology, evolutionary ecology, population biology and ecosystems ecology. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5052. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4053 - Infectious Disease Ecology (3 Credits)

The study of the underlying principles that influence the spatio-temporal patterns of infectious disease in environments. Students will apply ecological theories about concepts such as biodiversity, trophic interactions, landscape structure, and nutrient cycling to the study of disease. Pre-req: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with BIOL 5053. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4055 - Virology (3 Credits)

This is an upper level undergraduate/graduate class providing an in-depth study of the history of virology, different types of viruses, viral disease, research to combat viral infections, and different uses of viruses in biotechnology. Note: Students will not earn credit for this course if they have already earned credit for BIOL 4051 or BIOL 5051. Prereq: BIOL 3611 with a grade of C- or higher. Cross-listed with BIOL 5055. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 4064 - Cell Biology of Disease (3 Credits)

Builds on the foundations laid in the prerequisite courses. How alterations in membrane transport, autophagy, mitochondria, lysosomes, cilia, unfolded protein response and autophagy lead to major human diseases. A major emphasis is the control and integration of cellular activities. Prereq: General cell biology with a C- or higher. One semester of Biochemistry is strongly recommended for optimal student success. Cross-listed with BIOL 5064. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 4125 - Molecular Biology Laboratory (3 Credits)

Provides hands-on experiences in molecular biology and an appreciation for using the tools of molecular biology to study biological systems. Emphasis is placed on DNA cloning, PCR, mRNA and protein detection in the context of gene editing. Experimental design and the theories underlying the techniques are also discussed. Prereq: BIOL 3124 with a C- or higher or Coreq: BIOL 3124. Cross-listed with BIOL 5125. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 with a C- or higher or Coreq: BIOL 3124

Typically Offered: Spring.

BIOL 4126 - Molecular Genetics (3 Credits)

Examines molecular techniques and their application to experimental genetics, specifically organization and mapping of genomes, application and model systems in defining hereditary components of disease, and mechanisms of identifying mutations and their implications for disease. Also addresses application of recombinant DNA technology. Completion of Introduction to Molecular Biology with a C- or higher is required in order for students to enroll in this course. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Cross-listed with BIOL 5126. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4128 - Topics in Molecular Biology (3 Credits)

Literature-based course examining the regulation of gene expression in eukaryotic systems, as well as contemporary recombinant DNA technology and applications of molecular cloning techniques. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Cross-listed with BIOL 5128. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4134 - Human Genetics (3 Credits)

Advanced survey of the current status of the field. Emphasis on understanding, diagnosis and treatment of genetic disease and on the impact of molecular biology on human genetics. Cross-listed with 5134. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4144 - Medical Microbiology (3 Credits)

Provides an understanding of the relationship between pathogenic organisms and their host. Emphasis is placed on the area of medical bacteriology, with attention given to mechanisms of pathogenesis, genetics of disease, serology and treatment. Prereq: BIOL 3650 (or BIOL 3654) with a grade of C- or higher. Cross-listed with BIOL 5144. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3650 (or BIOL 3654) with a grade of C- or higher.

BIOL 4154 - Conservation Biology (3 Credits)

Basic concepts and theories in ecology, population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Prereq: Students must have completed BIOL 3411(Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5154. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4165 - Neurobiology (3 Credits)

Overview of neuroscience, covering the cellular basis of neuronal activity, sensory structures and the structure and function of the human brain.

Prereq: BIOL 3611 and PSYC 2220 with a C- or higher OR BIOL 3226 (or 3225) with a C- or higher. Cross-listed with BIOL 5165. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 and PSYC 2220 with a C- or higher OR BIOL 3226 (or 3225) with a C- or higher.

BIOL 4225 - Genomics and Bioinformatics (3 Credits)

Explores how genome-wide data are collected and analyzed. Example applications include human disease, microbial evolution, ecological genomics, and parasite drug resistance. Students implement projects based on real DNA sequencing data. Prereq: BIOL 3124 or BIOL 3832 with a C- or higher. Cross-listed with BIOL 5225. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 with a C- or higher.

BIOL 4250 - Mechanisms of Animal Behavior (3 Credits)

The proximate and ultimate mechanisms of animal behavior are analyzed using comparative animal examples from the scientific literature.

Proximate mechanisms include genetic and physiological processes. Ultimate mechanisms include the role of natural and sexual selection in the evolution of behavior. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Genetics and human physiology are recommended. Cross-listed with BIOL 5250. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4274 - Environmental Physiology. (3 Credits)

Lecture. A look at the physiological mechanisms used by animals and plants in adapting to changes in such natural environmental parameters as temperature, light, and water availability. The intent is to lay the groundwork for approaching the study of the effects of changing environments on organisms. Prereq: one year of chemistry and one course in either plant or animal physiology. Max hours: 3 Credits.

Grading Basis: Letter Grade

BIOL 4335 - Plant Structure and Development (4 Credits)

Inclusive and in-depth study of functional anatomy and biology of vascular plants. Topics include: plant biochemistry, biology of the plant cell, simple and complex tissues, secretory structures, functional anatomy, primary and secondary growth, angiosperm reproduction and life cycles, development and additional topics. Responsibilities include lectures, lab, and potential field trips. Course must be taken with both lecture and lab together. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND junior or higher status. Cross-listed with BIOL 5335. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND junior or higher status.

Typically Offered: Spring.

BIOL 4345 - Flora of Colorado (4 Credits)

Inclusive and in-depth study of functional anatomy and biology of vascular plants. Topics include: plant biochemistry, biology of the plant cell, simple and complex tissues, secretory structures, functional anatomy, primary and secondary growth, angiosperm reproduction and life cycles, development and additional topics. Responsibilities include lectures, lab, and potential field trips. Course must be taken with both lecture and lab together. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5345. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4410 - Microbial Genomics (3 Credits)

Microbial genomics is being used to address many current medical and environmental challenges (e.g., COVID-19 pandemic, bioremediation of contaminated water). In this class, you will learn how to investigate microbial genomes and predict microbial function (e.g., metabolism, motility) through gene/protein analyses. We will predict microbial responses to environmental conditions such as viral infection (e.g., CRISPR signatures) and antibiotic exposure (e.g., resistance genes). We will apply our knowledge to analyze real microbial genome sequence data and synthesize our findings in a written manuscript format. We will communicate our science to non-scientists in order to deepen our own learning and to make an impact on our communities. Prereq: BIOL 3654 or BIOL 3650/3651 with a C- or higher. Cross-listed with BIOL 5410. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3650 and BIOL 3651 (or BIOL 3654) with a grade of C- or higher.

BIOL 4415 - Applied Microbial Ecology (3 Credits)

An in-depth study of ecology as it relates to microorganisms; abiotic and biotic interactions within microbial populations in macro- and microhabitats; and the role of microorganisms in influencing and responding to environmental conditions in natural and anthropogenic ecosystems. Emphasis is placed on how the ecology of microorganisms impacts how we engage with our environment. Prereq: BIOL 3650 and BIOL 3651 (or BIOL 3654) with a grade of C- or higher. Cross-listed with BIOL 5415. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3650 and BIOL 3651 (or BIOL 3654) with a grade of C- or higher.

Typically Offered: Fall, Spring.

BIOL 4425 - Biogeography (3 Credits)

An in-depth study of biological populations through analysis of geographic distribution patterns in space and time. Emphasis on how biogeography informs studies of evolution and ecology and on applied studies in conservation, sustainability, epidemiology, and disease dynamics. Prereq: Students must have completed BIOL 3411 (Principles of Ecology) with a C- or higher, in order to enroll in this course. Cross-listed with BIOL 5425. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4430 - Introduction to Spatial Ecology (3 Credits)

Focuses on patterns of life and ecological interactions in space. Emphasis on drivers of patterns, practical application of spatial ecology software, programming, and introductory spatial statistics on the quantification of patterns. Main topics: Scale and scaling, pattern development, detecting and characterizing patterns, temporal dynamics, and implications of spatial structure to conservation biology, resilience, and ecosystem functioning. Cross-listed with BIOL 5430. Prereq: BIOL 3411 with C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3411 with C- or higher.

BIOL 4440 - Ethnobotany: Medicine, Human Health and the Ecosystem Services of Plants (3 Credits)

This course explores various aspects of ethnobotany. One emphasis will be on the utilization of plants in various aspects of life including human health, fiber, nutrition, and shelter, beginning with a consideration of indigenous wisdom and traditions in native cultures, in primarily north, central, and south America. A second major emphasis will be on plant secondary metabolites and their utilization in traditional and modern medications and medical breakthroughs. A third major course emphasis will survey and explore several case-studies on the roles of plants in applied ecological contexts, global economies, and ecosystem services, highlighting case studies in conservation and sustainability. Note: Recommended completion of at least one upper division BIOL course. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND junior standing. Cross-listed with BIOL 5440. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher AND junior or higher status.

Typically Offered: Fall.

BIOL 4460 - Environmental Toxicology (3 Credits)

Text and literature-based course provides students with background knowledge concerning environmental toxins, the nature and extent of environmental contamination, and toxicant effects on individual organisms and populations. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with BIOL 5460. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4463 - Exercise Physiology (4 Credits)

Examines how the systems of the body function to support increased and sometimes extreme energy expenditure associated with exercise. Laboratory component provides the opportunity to learn about the techniques and measurements associated with the assessment of fitness. Prereq: BIOL 3226 and BIOL 3227 (or BIOL 3225) with a grade of C- or higher. Cross-listed with BIOL 5463. Term offered: fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3226 and BIOL 3227 (or BIOL 3225) with a grade of C- or higher.

Typically Offered: Fall.

BIOL 4475 - Mechanisms of Human Pathology (3 Credits)

Studies physiological, cellular and biochemical processes in human diseases. Mechanisms of inflammatory diseases, infectious diseases, neoplastic diseases, and others will be examined. Prereq: BIOL 3226 and BIOL 3227 (or BIOL 3225) or BIOL 3240 and BIOL 3242 (or BIOL 3244) with a grade of C- or higher. Cross-listed with BIOL 5475. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3226 and BIOL 3227 (or BIOL 3225) or BIOL 3240 and BIOL 3242 (or BIOL 3244) with a grade of C- or higher.

BIOL 4494 - Population and Evolutionary Genetics (3 Credits)

Introduces the genetic processes underlying evolutionary change in microbial, plant and animal populations. Topics include: sources of variation, Hardy-Weinberg equilibrium, population genetic structure, natural selection and other evolutionary forces, quantitative genetics and molecular phylogenetics. Emphasis on experimental data. Prereq: BIOL 3124 or BIOL 3832 and BIOL 3445 with a C- or higher. Cross-listed with BIOL 5494. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3124 or BIOL 3832 and BIOL 3445 with a C- or higher.

BIOL 4550 - Cell Signaling (3 Credits)

Lecture by faculty and student presentations cover mechanism of hormones and regulation of various cellular processes through second messenger systems. Prereq: General cell biology with a grade of "C-" or higher; one semester of biochemistry recommended. Cross-listed with BIOL 5550. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 4622 - Topics in Immunology (3 Credits)

An in-depth study of immunological concepts. Topics will vary from semester to semester and may range from specifics of immune cell responses to tolerance and autoimmunity. Delivery will include lecture, student presentations, and discussion. Prereq: BIOL 3621 with a C- or higher. Cross-listed with BIOL 5622. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3621 with a C- or higher

BIOL 4634 - Biology of Cancer (3 Credits)

Cancer is the second leading cause of death in the United States. This course offers an overview of recent research into the causes, treatments and possible prevention of cancer. Includes a detailed look at the mechanisms of action of various oncogenes. Prereq: BIOL3124 OR BIOL 3832, AND BIOL 3611 with a C- or higher. Cross-listed with BIOL 5634. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL3124 OR BIOL 3832, AND BIOL 3611 with a C- or higher.

BIOL 4644 - Advanced Human Anatomy Laboratory (2 Credits)

Advanced laboratory course in human anatomy. In-depth look at the structural aspects of the human body, emphasizing function. Models, microscope slides, and visual media will supplement cadaver-based dissections. Prereq or coreq: BIOL3240 and 3241 or BIOL3240 and 3242 (or BIOL 3244) with a C- or higher. Cross-listed with BIOL 5644. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq or coreq: BIOL3240 and 3241 or BIOL3240 and 3242 (or BIOL 3244) with a C- or higher.

Typically Offered: Fall, Spring.

BIOL 4674 - Endocrinology (3 Credits)

This systematic survey of the endocrine system looks at the cellular basis and biochemical characteristics of individual endocrine tissues. Their function in the regulation of other endocrinological, physiological, and behavioral events is analyzed. The course emphasizes the human system and complements studies in physiology, behavior and neurobiology. Prereq: BIOL 3611 with a grade of C- or higher. Students will not earn credit for this course if they have already earned credit for BIOL 4674. Cross-listed with BIOL 5674. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3611 with a C- or higher

BIOL 4780 - Aquatic Ecology (3 Credits)

This course explores the physical, chemical, and biological (including human) properties of aquatic ecosystems, and how the interrelationships between these properties define and influence advanced ecological processes. Special focus is given to lakes, reservoirs, wetlands, streams, rivers, and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and data exercises, and periodic (often virtual) field excursions. Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) with a C- or higher. Cross-listed with BIOL 5780, ENVS 4780, and ENVS 5780. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) with a C- or higher.

BIOL 4815 - Structural Biology of Neurodegenerative Diseases (3 Credits)

Advanced course in Biochemistry/Biophysics. Principles of Protein Folding, Structure-Function Relationship, and spectroscopic techniques related to characterization of these processes as applied to neurodegenerative diseases such as Parkinson's and Alzheimer's. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Coreq: PHYS 2020 or PHYS 2331. Cross-listed with CHEM 4815, CHEM 5815, and BIOL 5815. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Coreq: PHYS 2020 or PHYS 2331

BIOL 4825 - Biochemistry of Metabolic Disease (3 Credits)

Advanced course in biochemistry. An expanded study of selected topics in metabolism and how they relate to diseases, including inflammation, diabetes, obesity, and rare genetic disorders. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Cross-listed with CHEM 4825, CHEM 5825, and BIOL 5825. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher.

BIOL 4835 - Biochemistry of Gene Regulation and Cancer (3 Credits)

Explores the biochemical and molecular aspects of cancer biology. Topics include DNA mutations and repair, gene regulation, oncogenes and tumor suppressors, stem cells and differentiation, and cancer drug development. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Cross-listed with CHEM 4835, CHEM 5835, and BIOL 5835. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher.

BIOL 4840 - Independent Study (1-6 Credits)

Student will contribute to ongoing faculty or graduate student's lab or field-based investigation that makes an original intellectual or creative contribution to the discipline. Associated coursework includes scientific reading/writing/presentation(s). Note: Registration by special processing form only. Prereq: Students must have completed one year of general biology with a grade of "C-" or higher and must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Fall, Spring, Summer.

BIOL 4880 - Directed Research (1-6 Credits)

A student designed lab or field-based investigation that involves data collection, and that makes an original intellectual or creative contribution to the discipline. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

BIOL 4910 - Field Studies (3 Credits)

Field studies of individuals, populations and communities comprising a specified ecosystem. Emphasis on field identification of vascular plants and vertebrate animals. Topics include the physical environment, biotic and abiotic interactions, life history, ecological adaptations and biogeography. Note: Lectures and a week-long field trip. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with BIOL 5910. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

BIOL 4974 - Advanced Evolution (3 Credits)

A capstone course that draws upon concepts from all fields of biology. Topics include the fossil record, mass extinctions, the historical development of the modern synthesis, principles and mechanisms of evolution, current viewpoints and controversies. Prereq: BIOL 3445 and 3832 with a C- or higher. Cross-listed with BIOL 5974. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 3445 and 3832 with a grade of C- or higher

BIOL 4990 - Undergraduate Research Seminar (1 Credit)

Introduces research in the biological sciences. Students read current scientific literature, attend related seminars and participate in discussions. This course offers students a chance to interact with visiting scientists, who will present state-of-the-field biological research in a seminar setting. Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), BIOL 3411, BIOL 3445, BIOL 3611 and BIOL 3832 with a C- or higher. Restriction: Restricted to Senior standing or higher with an overall GPA of 3.0 or higher. Cross-listed with BIOL 6655. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), BIOL 2021 (or 2071/2096/2041), BIOL 3411, 3445, 3611 and BIOL 3832 with a C- or higher. Restriction: Senior standing or higher with GPA of 3.0 or higher.

Business (BUSN)

BUSN 1100 - College Success (1 Credit)

This course features skills, strategies, resources, dispositions, and behaviors that lead to success as a college student. In addition to practicing key academic proficiencies, such as writing, critical thinking, and analysis, students will learn to navigate the university system and utilize its support mechanisms and offices. BUSN 1100 will also feature a number of engaged learning strategies, including service learning, common intellectual experiences across sections, out-of-class engagement, self-reflection, and collaborative learning. The goal is to create capable, confident, and conscientious citizens of the CU Denver community. Restriction: Restricted to freshman level Business School majors. This is a business core course therefore a grade of a 'C-' or better must be earned to satisfy Business graduation requirements. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to freshman level Business School majors.

Typically Offered: Fall, Spring.

BUSN 1110 - Intro to Investment Services Careers (1 Credit)

Open to all majors! Provides a comprehensive overview of careers in the Investment Services industry. Emphasis will be on interactions with industry professionals to provide hands-on knowledge and opportunities for in-depth discussion. Students are required to participate in a site visit to an investment services company during the course. Max hours: 1 Credit.

Grading Basis: Satisfactory/Unsatisfactory

BUSN 1200 - Career and Professional Development (3 Credits)

This first year course develops a student's professional skills, providing knowledge on key factors for early and long-term career success. Through applied learning and career-oriented experiences, the course covers: career and major exploration, student resources, resume writing, interview skills, business communications, professional etiquette, emotional intelligence, time management, ethical behavior, and workplace expectations. Students will have opportunities to develop their own professional network with business leaders as new members of the Business School. Restriction: Restricted to freshman level Business School majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to freshman and sophomore level Business School majors.

Typically Offered: Fall, Spring.

BUSN 2110 - Cultivating Emotional Intelligence (1 Credit)

This course delves into the social and emotional skills that sustain positive relationships at school and at work. It highlights the foundational and related skills of empathy and "emotional intelligence," also known as EQ, which refers to the skills of identifying and regulating our own feelings, tuning into the feelings of others, and understanding their perspectives, and using this knowledge to guide us toward constructive social interactions. We'll assess current emotional and social intelligence skills, and you will discover the Foundational 4 Quadrants of Emotional and Social Intelligence (ESI) to understand, use and manage emotions. Topics covered in this course apply to student academic success and personal and professional development. Restrictions: Restricted to undergraduate majors within the Business School. This is a business core course therefore a grade of a 'C-' or better must be earned to satisfy Business graduation requirements. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restrictions: Restricted to undergraduate majors within the Business School.

Typically Offered: Fall, Spring.

BUSN 3110 - Career and Professional Development (1 Credit)

This course develops a student's academic and professional skills, providing knowledge on key factors for early and long-term academic and career success. Through applied learning and career-oriented experiences, the course covers: career and major exploration, student resources, resume writing, interview skills, business communications, professional etiquette, and workplace expectations. Students will have opportunities to develop their own professional network with other students and business leaders as new members of the Business School. Topics covered in this course apply to student professional development. This is a business core course therefore a grade of a 'C-' or better must be earned to satisfy Business graduation requirements. Restriction: Restricted to undergraduate majors (BSBA majors) within the Business School and BS Data Science majors. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate majors (BSBA majors) within the Business School and BS Data Science majors.

Typically Offered: Fall, Spring.

BUSN 4100 - Empowering Women in Business (3 Credits)

This course focuses on empowering women to advance in business. Focus on understanding gender equity issues, developing strong emotional intelligence and problem-solving skills and provides networking opportunities. Students will develop an understanding of the practical issues women face in business and effective skills to overcome roadblocks to advancement. Restriction: Restricted to students with Junior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Additional Information: Denver Core Requirement, Cultural Diversity. Typically Offered: Fall.

BUSN 4950 - Special Topics (1 Credit)

Research methods and results, special topics and professional development in business. Prerequisites vary according to topic and instructor requirements.

Grading Basis: Satisfactory/Unsatisfactory

Repeatable. Max Credits: 3.

Business Analytics (BANA)

BANA 2010 - Business Statistics (3 Credits)

Basic principles of probability and statistics with applications in business. Includes descriptive statistics, probability and probability distributions, data collection, sampling distributions, statistical inference, simple regression and the use of a computer to perform statistical analysis. Students are required to present their analyses in written and/or oral form and defend their conclusions. This is a business core course. Therefore a grade of a 'C-' or better must be earned to satisfy Business graduation requirements and prerequisites for other business courses. Prereq: MATH 1060, or MATH 1070, or MATH 1080, or MATH 1109, or MATH 1110, MATH 1130, or MATH 1401 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1060, or MATH 1070, or MATH 1080, or MATH 1109, or MATH 1110, MATH 1130, or MATH 1401 with a grade of C- or higher.

BANA 3000 - Operations Management (3 Credits)

Introduces the concepts and methods commonly used in manufacturing and service operations. Topics include aggregate planning, inventory control, scheduling, quality control, and linear programming. This is a business core course. Therefore a grade of 'C-' or better must be earned to satisfy Business graduation requirements. Prereq: BANA 2010 and ACCT 2200 both with a grade of 'C-' or higher. Restriction: Restricted to undergraduate students with 45 credit hours or more. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BANA 2010 and ACCT 2200 both with a grade of 'C-' or higher.

Restriction: Restricted to undergraduate students with 45 credit hours or more.

Typically Offered: Fall, Spring, Summer.

BANA 4110 - Business Analytics Process (3 Credits)

This course introduces the processes, tools, and techniques essential to Business Analytics. Students will learn about the business analytics life cycle. Along the way, students will learn about database access tools, and extracting, transforming, and loading data sets (ETL). This is followed by exploratory data analysis (EDA). Students will learn fundamental programming concepts and common syntax for the Python programming language to construct models and propose business solutions. Throughout this process a variety of data visualization methods will be used, and the use of clear and impactful data storytelling will be emphasized. Prereq: BANA 2010. Restriction: Restricted to students with Junior status. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BANA 2010. Restriction: Restricted to students with junior status.

Typically Offered: Fall.

BANA 4120 - Forecasting Techniques (3 Credits)

This course will explain and utilize popular time series techniques, as well as cross-sectional forecasting techniques. Students will learn forecasting methodologies applicable to marketing, finance, accounting, human resources management, as well as supply chain and production management decision-making. This course focuses on practical applications of forecasting techniques, choosing and comparing appropriate methods, and applying the results to workplace situations. Students will utilize Excel for data-based forecasting tasks, as well receive some exposure to utilizing R and SAS analytics software packages. Other topics may be covered, as time and student interest allows. Prereq: BANA 2010. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BANA 2010.

Typically Offered: Fall, Spring.

BANA 4840 - Independent Study (3 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

BANA 4950 - Special Topics in Business Analytics (3 Credits)

Course offered on an irregular basis for the purpose of presenting new subject matter in Business Analytics. Prereq: Will vary depending upon the particular topic and instructor. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Business Law (BLAW)

BLAW 3050 - Business Law and Ethics (3 Credits)

Students are taught to identify & resolve legal and ethical issues. Topics include contracts, torts, criminal law, constitutional law, business organizations, employment law, intellectual property and real property law. This is a business core course therefore a grade of "C" or better must be earned to satisfy Business graduation requirements. Restriction: Restricted to undergraduate students with 45 credit hours or more. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students with 45 credit hours or more.

BLAW 3100 - Legal and Ethical Implications of Risk (3 Credits)

Topics include contracts, torts, constitutional law, intellectual property, agency, business organizations, employment law, and real property law. Special focus is placed on the relationship between insurance and risk and the topics covered. May be taken in lieu of BLAW 3050. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Fall, Spring, Summer.

BLAW 4121 - Legal and Ethical Implications of Risk (3 Credits)

Skills in legal and factual analysis and the application of ethical theories are advanced and refined through cases. Topics: insurance law, personal property and intellectual property law, agency, business entities, securities, employment law, and consumer law. Focus is placed on the relationship between insurance, risk and the covered topics. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Fall, Spring, Summer.

BLAW 4140 - Negotiation Skills/Property: Effective Strategies (3 Credits)

Course covers real and personal property law, including ownership, title, landlord/tenant, easements, environmental law, and zoning. Emerging issues in intellectual property are also reviewed, including U. S. law and international treaties and agreements. Negotiation techniques through role-playing are emphasized. NOTE: This course is an elective course and may not be used to fulfill the CORE BLAW 3050 course. Meets concurrently with MGMT 4140. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Business Minor for non-business majors (BMIN)

BMIN 1000 - Introduction to Business (3 Credits)

The business and economic landscape is introduced illustrating the challenges and opportunities in today's business environment. A foundation of traditional business disciplines is introduced including the principles and terminology employed in Marketing, Management, Finance, Accounting, Operations, and Economics. Note: Students may petition to waive the course with permission of the course instructor and substitute it with either a) an approved Business Fundamentals Minor elective, or b) a second Business Fundamentals Minor Capstone course, pending approval by the Business Fundamentals Program Director. Note: Students seeking a Minor in Business Fundamentals are encouraged to enroll in #BMIN#1000# as their first course. However, #BMIN#1000# may be taken as a co-requisite with #BMIN#3001, #3002# or 3003 or ENTP 3000. Restriction: Students enrolled in the Business School are not eligible for this course. Cross-listed with MGMT 1000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Students enrolled in the Business School are not eligible for this course.

BMIN 2200 - Career and Professional Development (3 Credits)

Students will explore their best career choices based on assessments and their personality type. They will learn what strengths they bring to a team and to their individual management style utilizing the Myers Briggs Type Indicator and Strong Interest Inventory assessments. Topics covered include: career exploration, career and internship planning, personality styles and strengths, working with executives, corporate culture overview, business trends and news, and analysis of Fortune 100 companies. Supplemental topics include: resume writing, effective interviewing, time management, business writing and hiring trends. Restriction: Students enrolled in the Business School are not eligible for this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Students enrolled in the Business School are not eligible for this course

BMIN 3001 - Fundamentals of Management and Marketing (3 Credits)

Comprised of two modules focusing on essential concepts of Management and Marketing: 1) Management: Including organizational behavior concepts, leadership, management skills and methods, effective collaboration, and team dynamics 2) Marketing: Students will learn the fundamentals of modern marketing including market research, traditional versus digital marketing mix, audience segmentation, and sales strategies in service of building a comprehensive marketing plan. Note: Students cannot receive credit for BMIN 3001 if they have taken MGMT 3000 or MKTG 3000. Restriction: Students enrolled in the Business School are not eligible for this course. Coreq: BMIN 1000 or MGMT 1000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Students enrolled in the Business School are not eligible for this course Co-req: BMIN 1000 or MGMT 1000

BMIN 3002 - Fundamentals of Accounting and Finance (3 Credits)

Comprised of two modules focusing on essential concepts of 1) Accounting: including the use of information in financial reports and in making business decisions, and 2) Finance: including financial markets, capital structure and time-value of money. Note: Students cannot receive credit for BMIN 3002 if they have taken ACCT 2200 or FNCE 3000. Coreq: BMIN 1000 or MGMT 1000. Restriction: Students enrolled in the Business School are not eligible for this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Students enrolled in the Business School are not eligible for this course Co-req: BMIN 1000 or MGMT 1000

BMIN 3004 - Principles of Strategic Management (3 Credits)

Students will examine the critical issues related to running sustainable businesses. Using the strategic management model as a framework, the course focuses primarily on developing and implementing corporate strategy. Topics covered include mission, vision and values; corporate social responsibility; competitive analysis; leveraging core competencies; developing a business model, and creating value. Supplemental topics include how to create competitive advantage through innovation, choosing an appropriate legal business entity, and managing risk. This is a capstone course and synthesizes key concepts from other Business Fundamentals Minor courses including entrepreneurship, accounting & finance, management, and marketing. Note: Students cannot receive credit for BMIN 3004 if they have taken MGMT 4500. Prereq: BMIN 1000 or MGMT 1000, BMIN 3001, BMIN 3002. Restriction: Restricted to Junior-Level Standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BMIN 1000 or MGMT 1000, BMIN 3001, BMIN 3002. Restriction: Restricted to Junior-Level Standing.

Chemistry (CHEM)

CHEM 1000 - Foundations for General Chemistry (3 Credits)

This is a lecture- only course intended for students pursuing a degree in science or a health-related field. The course is designed for students who have never had a chemistry course or who have not taken general chemistry in 5+ years. Topics include the classification of matter, the Metric system, dimensional analysis, atomic theory and the structure of atoms, periodic relationships, energy and temperature, gas laws and the kinetic molecular theory, compounds and nomenclature of inorganic compounds, the mole, stoichiometry, types of chemical reactions, balancing equations, electron configurations, and chemical bonding. Enrollment in this course is strongly encouraged prior to enrollment in Chem 2031 if the student does not have a strong and recent background in general chemistry. Note: College Algebra or the equivalent is strongly recommended for optimal student success. Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: fall, spring, summer. Max hours: 3 Credits. Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

CHEM 1115 - Chemistry Content (1-3 Credits)

Covers content areas of undergraduate chemistry. Topics include periodicity; the mole and chemical bonding; the kinetic theory and states of matter; chemical reactions; solutions and chemical equilibria. Note: Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Max hours: 3 Credits. Grading Basis: Letter Grade

CHEM 1474 - Core Chemistry: Chemistry for Everyday (4 Credits)

Focuses on the common household chemicals that affect us on a daily basis. Students explore current topics in chemistry and the underlying chemistry of nuclear power, plastics, sunscreens, food, acid rain, etc. Home-based laboratory experiments with safe, common substances. No co-credit: Students may not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

CHEM 1494 - Forensic Chemistry (4 Credits)

This one semester chemistry lecture and laboratory course is designed to engage a non-science major through the high-interest topic: criminal investigations. In this course, using the theme of forensic science students will be introduced to a basic understanding of chemistry, the physical and chemical properties of matter, simple types of chemical reactions and equations, and molecular structure of drugs and biomolecules. Note: Two years of high school science and one year of high school algebra are strongly recommended for optimal success. Students will not receive credit for this course if they have already received credit for CHEM 2031 and CHEM 2061. Term offered: spring, summer. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab. Typically Offered: Spring, Summer.

CHEM 1575 - Chemistry: History and Policies (4 Credits)

A study of the building blocks of all matter: chemicals. A focus on how the study of chemistry began and how it has changed over the course of history. The course explores how chemistry has impacted man from the earliest times: from the Bronze Age to the present and beyond. Students learn about the first use of manufactured chemical substances in history and the progression of chemical knowledge throughout history. Students also study how certain substances introduced into the environment throughout history have affected the environment and what policies have been put in place to control or remediate the release of these substances. Eight home-based laboratory experiments will be performed during the semester. High school algebra is strongly recommended preparation for this course. Math concepts critical for this course include basic operations#addition, subtraction, multiplication and division#, order of operations, exponents, square roots and the ability to rearrange and solve algebraic equations. Term offered: fall. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHEM 2031 - General Chemistry I (3 Credits)

This is the first of a two semester sequence designed for students pursuing a degree in science or a health related field. Chem 2031 is designed for students who have recently completed high school chemistry or Chem 1000 with a C- or better. Note: Non- science majors should review the course description for Chem 1474 as an alternative, non-majors science CU Denver Undergraduate Core course, with lab credit. Topics covered include the classification of matter, the Metric system, dimensional analysis, atomic theory and the structure of atoms, periodic relationships, empirical formulas, thermochemistry, gas laws and the kinetic molecular theory, compounds and nomenclature of inorganic compounds, the mole, balancing equations, stoichiometry, types of chemical reactions, solution stoichiometry and dilutions, electron configurations, chemical bonding, Lewis Dot Theory, Valence Shell Electron Pair repulsion Theory, and other topics as time allows. This course is a prerequisite or co-requisite for General Chemistry 1 Lab, Chem 2038. No co-credit with CHEM 2081. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students.

It is strongly recommended that students have taken CHEM 1000 and MATH 1110 or their high school equivalents to be adequately prepared to succeed in this course. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

CHEM 2032 - Majors General Chemistry I (3 Credits)

This is the first of a two semester sequence designed for chemistry/ biochemistry majors and other STEM majors/minors pursuing a degree in science or a health related field. CHEM 2032 is designed for students who have recently completed high school chemistry or CHEM 1000 with a C- or better. Topics covered include the classification of matter, the Metric system, dimensional analysis, atomic theory and the structure of atoms, periodic relationships, empirical formulas, thermochemistry, gas laws and the kinetic molecular theory, compounds and nomenclature of inorganic compounds, the mole, balancing equations, stoichiometry, types of chemical reactions, solution stoichiometry and dilutions, electron configurations, chemical bonding, Lewis dot structures, Valence Shell Electron Pair Repulsion Theory, and other topics as time allows. Note: It is strongly recommended that students have taken CHEM 1000 and MATH 1110 or their high school equivalents to be adequately prepared to succeed in this course. Coreq: CHEM 2039. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: CHEM 2039.

CHEM 2038 - General Chemistry Laboratory I (1 Credit)

Laboratory course designed to accompany Chem 2031. Topics include gravimetric analysis, statistical analysis, stoichiometry, Avogadro's number, thermochemistry, atomic spectroscopy, paper chromatography, and gas laws. No co-credit with CHEM 2088 and CHEM 2039. Coreq: CHEM 2031 or CHEM 2081. Term offered: fall, spring, summer. Max hours: 1 Credit. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Coreq: CHEM 2031 or CHEM 2081

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

CHEM 2039 - Majors General Chemistry I Laboratory (2 Credits)

Students perform laboratory experiments on topics covered in General Chemistry I (CHEM 2031) or the companion Majors General Chemistry I course. Students gain experience in observing, recording, and interpreting physical and chemical phenomena. Majors General Chemistry I Laboratory is distinguished from the regular General Chemistry Laboratory by smaller sections, and greater access to specialized techniques, open ended experiments, instrumentation, and introduction to computational chemistry. Note: This course is intended for Chemistry and Biochemistry majors and minors. Note: No co-credit with CHEM 2038. Coreq: CHEM 2032. Restriction: Restricted to Chemistry and Biochemistry majors and minors. Term offered: fall, spring, summer. Max hours: 2 Credits.

Grading Basis: Letter Grade

Requires corequisite course of CHEM 2032 (minimum grade D-).

Restricted to Chemistry and Biochemistry majors and minors only.

Typically Offered: Fall, Spring, Summer.

CHEM 2061 - General Chemistry II (3 Credits)

This is a continuation of Chem 2031 and is the second course of a two semester sequence designed for students pursuing a degree in science or a health related field. CHEM 2061 builds upon the understanding of chemistry rooted in the molecular nature of matter and change from General Chemistry I and expands to include topics such as intermolecular forces, solution chemistry, kinetics, chemical equilibrium, acid-base chemistry, buffer chemistry, solubility, thermodynamics and time permitting, electrochemistry. Specific topics include: the use of bonding theories to explain the relationships between atomic structure, molecular shape, and macroscopic properties of matter including boiling point, vapor pressure, surface tension, viscosity, and capillarity; the understanding of molecular structure to explain the energetics of solution formation as well as vapor pressures of pure liquids and solutions; the application of rates of reactions to define the state of equilibrium; the application of problem solving techniques for systems at equilibrium to acid/base and solubility chemistry; and the thermodynamic underpinnings of chemical reaction rates and the spontaneous conversion of chemical species to attain a state of dynamic equilibrium. This course is a prerequisite or co-requisite for General Chemistry II Lab, Chem 2068. Prereq: CHEM 2031 or 2081 with a C- or higher. No co-credit with CHEM 2091. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Prereq: CHEM 2031 or 2081 with a C- or higher

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

CHEM 2062 - Majors General Chemistry II (3 Credits)

This is the second of a two-semester sequence designed for chemistry/biochemistry majors and other STEM majors/minors pursuing a degree in science or a health related field. It is a co-requisite to Majors general chemistry II laboratory (CHEM 2069). CHEM 2062 builds upon the understanding of chemistry rooted in the molecular nature of matter and change from General Chemistry I and expands to include topics such as intermolecular forces, solution chemistry, kinetics, chemical equilibrium, acid-base chemistry, buffer chemistry, solubility, thermodynamics and time permitting, electrochemistry. Specific topics include: the use of bonding theories to explain the relationships between atomic structure, molecular shape, and macroscopic properties of matter including boiling point, vapor pressure, surface tension, viscosity, and capillarity; the understanding of molecular structure to explain the energetics of solution formation as well as vapor pressures of pure liquids and solutions; the application of rates of reactions to define the state of equilibrium; the application of problem solving techniques for systems at equilibrium to acid/base and solubility chemistry; and the thermodynamic underpinnings of chemical reaction rates and the spontaneous conversion of chemical species to attain a state of dynamic equilibrium. Pre-req: CHEM 2031 or CHEM 2032 or equivalent and CHEM 2039 or CHEM 2038 equivalent with a C- or higher. Co-req: CHEM 2069. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: CHEM 2031 or CHEM 2032 and CHEM 2039 or CHEM 2038 with a C- or higher. Co-req: CHEM 2069.

Typically Offered: Spring.

CHEM 2068 - General Chemistry Laboratory II (2 Credits)

Laboratory course designed to accompany Chem 2061. Topics include colligative properties, spectroscopic analysis, kinetics, equilibrium, acid-base chemistry, titrations, and qualitative analysis of metal cations.

No co-credit with CHEM 2098 and CHEM 2069. Prereq: CHEM 2038 or CHEM 2039 or 2088 with a C- or higher. Term offered: fall, spring, summer. Max hours: 2 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1.

Grading Basis: Letter Grade

Prereq: CHEM 2038 or CHEM 2039 or CHEM 2088 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring, Summer.

CHEM 2069 - Majors General Chemistry II Laboratory (2 Credits)

Students perform laboratory experiments on topics covered in the Majors General Chemistry II (CHEM 2061) course. Students gain experience in observing, recording, and interpreting physical and chemical phenomena. Majors General Chemistry II Laboratory is distinguished from the regular General Chemistry Laboratory by greater access to specialized techniques and instrumentation, open ended experiments, and a strong emphasis on scientific writing. Students are introduced to college-level laboratory exercises at a faster pace than traditional General Chemistry laboratory coursework, such that at the end of this course, they are ready to take on more sophisticated work. Prereq: CHEM 2031, CHEM 2038, or CHEM 2039 with a C- or higher. Coreq: CHEM 2061 or CHEM 2091.

Restriction: Restricted to Chemistry and Biochemistry majors and minors. No co-credit with CHEM 2068. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2031, CHEM 2038, or CHEM 2039 with a C- or higher. Coreq: CHEM 2061 or CHEM 2091. Restriction: Restricted to Chemistry and Biochemistry majors and minors (BCHM-CERU, BICM-ADL, BICM-BS, BICM-MIN, CHEM-ADL, CHEM-BS, CHEM BS2, CHEM-MIN).

Typically Offered: Fall, Spring.

CHEM 2081 - Honors General Chemistry I (3 Credits)

Topics include gas laws, thermochemistry, the quantum mechanical model of the atom, periodic properties, bonding and molecular geometry and intermolecular forces. Prepares students to take upper division chemistry courses. Honors section: Course assumes knowledge of stoichiometry and basic atomic structure. Note: Students may not receive credit for this course if they have already received credit for CHEM 2031. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Working knowledge of high school algebra and advanced high school chemistry are required. Restriction: Restricted to Chemistry Honors students (CH01). Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Chemistry Honors students.

Typically Offered: Fall.

CHEM 2088 - Honors General Chemistry I Laboratory (2 Credits)

Laboratory experiments on topics covered in CHEM 2031 or CHEM 2081, gaining experience in observing, recording, and interpreting physical and chemical phenomena. Offers smaller sections and greater access to specialized techniques, open ended experiments, and instrumentation, requiring a faster pace and more sophisticated work. Note: Students may not receive credit for this course if they have already received credit for CHEM 2038. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Coreq: CHEM 2031 or CHEM 2081. No co-credit with CHEM 2038 and CHEM 2039. Term offered: fall. Max hours: 2 Credits.

Grading Basis: Letter Grade

Coreq: CHEM 2031 or CHEM 2081. Restriction: Restricted to Chemistry Honors students.

Typically Offered: Fall.

CHEM 2091 - Honors General Chemistry II Lecture (3 Credits)

Continuation of CHEM 2081. Additional topics may include kinetics, equilibria and thermodynamics. Note: Students may not receive credit for this course if they have already received credit for CHEM 2061. Note: Admission into specific CU Denver program or consent of the instructor is required. Prereq: CHEM 2081 or 2031 with a C- or higher. Restriction: Restricted to Chemistry Honors students (CH01). No co-credit with CHEM 2061. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2081 or 2031 with a C- or higher Restriction: Restricted to Chemistry Honors students (CH01)

Typically Offered: Spring.

CHEM 2098 - Honors General Chemistry II Laboratory (2 Credits)

Students perform laboratory experiments on topics covered in General Chemistry II (CHEM 2061) or the companion Honors General Chemistry II course. Students gain experience in observing, recording, and interpreting physical and chemical phenomena. Honors General Chemistry II Laboratory is distinguished from the regular General Chemistry Laboratory by smaller sections, and greater access to specialized techniques, open ended experiments, and instrumentation. Students use the laboratory skills they developed in Honors General Chemistry I Laboratory to work independently with a special emphasis on recording, interpreting, and expressing data, chemical safety, the scientific literature, innovation in the laboratory, and presentation of scientific information in oral and poster formats. Prereq: Admission into specific CU Denver program or consent of instructor is required to enroll. Prereq: CHEM 2038 or CHEM 2088. Coreq: CHEM 2091 or CHEM 2061. Restriction: Restricted to Chemistry Honors Students. No co-credit with CHEM 2068 and CHEM 2069. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2038 or CHEM 2088 Coreq: CHEM 2091 or CHEM 2061

Restriction: Restricted to Chemistry Honors Students

Typically Offered: Spring.

CHEM 2300 - Nutritional Chemistry (3 Credits)

Introduces nutrition intended primarily for majors in nursing, physical therapy, physical education. Topics include structure and metabolism of carbohydrates, lipids and proteins, functions of vitamins and minerals and food constituents. Prereq: CHEM 1000 or CHEM 1474 or CHEM 2031 or CHEM 2081 with a C- or better. Typically offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 1000 or CHEM 1474 or CHEM 2031 or CHEM 2081 with a C- or better.

Typically Offered: Summer.

CHEM 2600 - Introductory Topics in Chemistry (1-3 Credits)

This course is designed primarily for non-chemistry majors. Students will explore a special topic related to chemistry or biochemistry. A description of topics to be covered in the current semester is maintained on the Chemistry department website. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CHEM 2840 - Independent Study: CHEM (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

CHEM 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Department consent required. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CHEM 3011 - Inorganic Chemistry (3 Credits)

The fundamentals of inorganic chemistry, including: atomic, molecular and crystal structures; the energetics of reactions, acid-base interactions; and the chemistry of main group and transition metal elements, including coordination and organometallic chemistry. Prereq or Coreq: CHEM 3421 or 3491 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CHEM 3421 or CHEM 3491 with a C- or higher

Typically Offered: Spring.

CHEM 3018 - Inorganic Chemistry Laboratory (2 Credits)

Combines theoretical concepts with hands-on laboratory experience and introduces students to modern inorganic chemistry. Experiments cover both main group and transition metal chemistry with an emphasis on synthesis, characterization, and application of inorganic compounds. Prereq or Coreq: CHEM 3011 with a C- or higher. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CHEM 3011 with a C- or higher

Typically Offered: Spring.

CHEM 3111 - Analytical Chemistry (3 Credits)

Topics include sampling, volumetric analyses, instrumental analyses and statistical treatment of data. Note: Lecture course for chemistry, biology, medical technology and environmental students. Prereq: CHEM 2061 or CHEM 2091 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2061 or CHEM 2091 with a C- or higher

Typically Offered: Fall.

CHEM 3118 - Analytical Chemistry Laboratory (2 Credits)

CHEM 3118 provides a strong background in those chemical principles that are particularly important to analytical chemistry, such as the ability to obtain high-quality analytical data. Students gain experience with techniques of sampling and analysis, including an introduction to instrumental methods. Additionally, students develop the skills needed to solve analytical problems in a quantitative manner, with the aid of spreadsheet tools. The post laboratory assignments demonstrate a writing process that follows the guidelines of the American Chemical Society. Note: Laboratory course to be taken concurrently with CHEM 3111. Prereq: CHEM 2068 or CHEM 2098 with a C- or higher. Coreq: CHEM 3111 or CHEM 3481. Term offered: fall. Max hours: 2 Credits. Grading Basis: Letter Grade Prereq: CHEM 2068 or CHEM 2098 with a C- or higher. Coreq: CHEM 3111 or CHEM 3481.

Typically Offered: Fall.

CHEM 3401 - Survey of Organic Chemistry (3 Credits)

This class is designed as a survey course to prepare students for the one semester biochemistry course (CHEM 3810). Throughout this course we will cover the basics of organic reaction processes including acid/base chemistry, isomers and chirality, alkenes, aromaticity, substitution, and elimination reactions. We will then move our focus on functional groups that are common in biomolecules including alcohols, carboxylic acids and derivatives, aldehydes and ketones, and then chemistry next door to the carbonyl carbon. Once we have covered these basics we will survey the chemistry of carbohydrates, amino acids, lipids, and nucleic acids and then close out the semester with a discussion on enzymes and metabolic processes. Prereq: CHEM 2031 and CHEM 2061. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2031 and CHEM 2061.

Typically Offered: Fall, Spring.

CHEM 3411 - Organic Chemistry I (4 Credits)

Lecture course for science majors. Topics covered include Structure and Bonding, Stereochemistry, Alkanes, reactions of alkenes, alkyl halides, alcohols and other functional groups, reaction mechanism and spectroscopy. Prereq: CHEM 2061 or 2091 with a C- or higher. No co-credit with CHEM 3481. Term offered: fall, spring, summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2061 or CHEM 2091 with a C- or higher

Typically Offered: Fall, Spring, Summer.

CHEM 3418 - Organic Chemistry Lab I (1 Credit)

Laboratory course for science majors. Topics include methods of purification, separation and analysis of organic compounds; organic reactions and workups and spectroscopy. Emphasis on scientific writing.

Prereq: CHEM 2068 or 2069 or 2098 with a C- or higher. Coreq: CHEM 3411 or CHEM 3481. No co-credit with CHEM 3488. Term offered: fall, spring, summer. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: CHEM 2068 or 2069 or 2098 with a C- or higher Coreq:

CHEM 3411 or CHEM 3481

Typically Offered: Fall, Spring, Summer.

CHEM 3421 - Organic Chemistry II (4 Credits)

Lecture course for science majors. A continuation of Chem 3411.

Topics covered include spectroscopy, aromaticity, reactions of alkynes, conjugated dienes, benzene, benzene derivatives, aldehydes, ketone, carboxylic acids, carboxylic acid derivatives, enols, enolates and amines, reaction mechanisms and syntheses. Prereq: CHEM 3411 or 3481 with a C- or higher. No co-credit with CHEM 3491. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3411 or 3481 with a C- or higher.

CHEM 3428 - Organic Chemistry Lab II (1 Credit)

Laboratory course for science majors. A continuation of CHEM 3418.

Topics include analysis of organic unknowns, organic reactions and workups and spectroscopy. Emphasis on scientific writing.

Prereq: CHEM 3418 or 3488 with a C- or higher. Coreq: CHEM 3421 or CHEM 3491. Note: Students will not receive credit for CHEM 3428 if they take it after successfully completing CHEM 3498. Term offered: fall, spring, summer. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: CHEM 3418 or 3488 with a C- or higher Coreq: CHEM 3421 or 3491

Typically Offered: Fall, Spring, Summer.

CHEM 3481 - Majors Organic Chemistry I (4 Credits)

Lecture course designed for chemistry majors and students interested in other science majors, or the biomedical field, e.g., pre-dental, pre-pharmacy, or premedical; although all interested students are welcome to enroll. Organic chemistry for majors distinguishes from the regular Organic Chemistry course by a lower student-to-faculty ratio. This allows for the implementation of activities that provide a more in-depth view into this fascinating topic; as well as a better outlook into its relationship to everyday life and career opportunities. Activities may include writing and oral presentation exercises, or attending special seminars, among others. The topics covered are those in a general curriculum, such as structure and bonding, molecular representations, reactivity and mechanisms, acid/base reactions, and alkane/alkene/alkyne reactivity, to mention a few. No co-credit with CHEM 3411. Prereq: Chemistry and Biochemistry majors (CHEM-BS, CHEM-ADL, CHEM-BS2, CHEM-BS ACS, BICM-BS, BICM-ADL) who have completed CHEM 2061 or 2091 with a C- or higher or instructor permission. Term offered: fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: Chemistry and Biochemistry majors (CHEM-BS, CHEM-ADL, CHEM-BS2, CHEM-BS ACS, BICM-BS, BICM-ADL) who have completed CHEM 2061 or 2091 with a C- or higher or instructor permission.

Typically Offered: Fall.

CHEM 3488 - Majors Organic Chemistry Laboratory I (1 Credit)

Laboratory course for science majors. Honors laboratory class to accompany CHEM 3411 or CHEM 3481. Topics include methods of purification, separation and analysis of organic compounds through extended experiments; organic reactions and workups and spectroscopy. Emphasis on scientific writing. Prereq: Chemistry and Biochemistry majors (CHEM-BS, CHEM-ADL, CHEM-BS2, CHEM-BS ACS, BICM-BS, BICM-ADL) who have completed CHEM 2068 or 2069 or 2098 with a C- or higher and co-enroll in CHEM 3481 or instructor permission. Note: No co-credit with CHEM 3418. Term offered: fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: Chemistry and Biochemistry majors (CHEM-BS, CHEM-ADL, CHEM-BS2, CHEM-BS, ACS, BICM-BS, BICM-ADL) who have completed CHEM 2068 or 2069 or 2098 with a C- or higher and co-enroll in CHEM 3481 or instructor permission.

Typically Offered: Fall.

CHEM 3491 - Majors Organic Chemistry II (4 Credits)

Lecture course for science majors, a continuation of CHEM 3481. Majors Organic Chemistry is distinguished from the regular CHEM 3421 by smaller sections size and greater integration with the majors Chemistry and Biochemistry curriculum. Topics are covered with increased depth and organic chemistry topics are presented to highlight and reinforce overlapping idea from physical and biochemistry classes. Presentation is focused on reaction mechanisms, syntheses and introduction to the organic chemistry of metabolism. Intended for chemistry majors and advanced pre-medical, pre-dental, pre-pharmacy and other health related careers requiring a full year of organic chemistry. Instructor permission required. No co-credit with CHEM 3421. Prereq: Chemistry and Biochemistry majors (CHEM-BS, CHEM-ADL, CHEM-BS2, CHEM-BS ACS, BICM-BS, BICM-ADL) who have completed CHEM 3481 or 3411 with a C- or higher or instructor permission. Term offered: spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: Chemistry and Biochemistry majors (CHEM-BS, CHEM-ADL, CHEM-BS2, CHEM-BS ACS, BICM-BS, BICM-ADL) who have completed CHEM 3481 or 3411 with a C- or higher or instructor permission.

Typically Offered: Spring.

CHEM 3498 - Majors Organic Chemistry Laboratory II (2 Credits)

Laboratory course for science majors. A continuation of CHEM 3418 or CHEM 3488. Topics include multi-step organic reactions, workups and spectroscopy and an independent research project. Emphasis on use of the chemical literature, scientific writing and scientific presentation. Prereq: Chemistry and Biochemistry majors (CHEM-BS, CHEM-ADL, CHEM-BS2, CHEM-BS-ACS, BICM-BS, BICM-ADL) who have completed CHEM 3481 or 3411 and CHEM 3488 or 3418 with a C- or higher or instructor permission. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: Chemistry and Biochemistry majors (CHEM-BS, CHEM-ADL, CHEM-BS2, CHEM-BS, ACS, BICM-BS, BICM-ADL) who have completed CHEM 3481 or 3411 and CHEM 3488 or 3418 with a C- or higher or instructor permission.

Typically Offered: Fall, Spring.

CHEM 3810 - Biochemistry (4 Credits)

Introduces the principles of biochemistry for science and health science-oriented majors. This survey course covers the important aspects of modern biochemistry including macromolecular structure, enzymology, and metabolism in one semester. Prereq: BIOL 2010(2061) or 2030(2097) and CHEM 3411 or 3481 with a C- or higher. Term offered: fall, spring, summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010(2061) or 2030(2097) and CHEM 3411 or 3481 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

CHEM 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

CHEM 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have a junior standing and at least a 2.75 GPA and must work with the Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

CHEM 4010 - Advanced Inorganic Chemistry (3 Credits)

Covers the fundamental principles of inorganic chemistry. Topics include atomic structure and periodicity, molecular symmetry, bonding, structural chemistry, main-group chemistry, coordination chemistry, and organometallic chemistry. Requisite knowledge in Undergraduate Inorganic and Physical Chemistry assumed. Cross-listed with CHEM 5010. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CHEM 4110 - Advanced Analytical Chemistry (3 Credits)

Explores the fundamental principles of analytical chemistry. Topics will focus on meteorology (the science of making measurements), measurements based on energy transfer (e.g. spectroscopic analysis), and measurements based on mass transfer (e.g. chemical separations and electrochemistry). Requisite knowledge in Undergraduate Instrumental Analysis is assumed. Cross-listed with CHEM 5110. Max hours: 3 Credits.

Grading Basis: Letter Grade

CHEM 4121 - Instrumental Analysis (3 Credits)

Surveys instrumental methods of analysis, emphasizing atomic and molecular spectroscopy, mass spectrometry, surface characterization, and chromatography techniques. Students are introduced to a wide array of powerful and elegant tools for obtaining qualitative and quantitative information about the composition and structure of matter. Prereq: CHEM 3111 or CHEM 3481, CHEM 3421 or CHEM 3491, PHYS 2331 or PHYS 2020 and CHEM 4521 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3111 or CHEM 3481, CHEM 3421 or CHEM 3491, PHYS 2331 or PHYS 2020 and CHEM 4521 with a C- or higher.

Typically Offered: Spring.

CHEM 4128 - Instrumental Analysis Laboratory (2 Credits)

CHEM 4128 demonstrates a wide array of powerful and elegant tools for obtaining qualitative and quantitative information about the composition and structure of matter. The post laboratory assignments demonstrate a writing process that follows the guidelines of the American Chemical Society. Note: Required of chemistry majors and open to other students in CHEM 4121. Prereq: CHEM 3118 and 4538 with a C- or higher. Coreq: CHEM 4121. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3118 and 4538 with a C- or higher Coreq: CHEM 4121

Typically Offered: Spring.

CHEM 4221 - Practical Applications of Spectroscopy (3 Credits)

This course surveys spectroscopic methods in order to deduce the structure of organic compounds from an examination of spectra, with an emphasis on infrared spectroscopy, mass spectrometry, nuclear magnetic resonance spectroscopy, and ultraviolet spectroscopy. Students will be introduced to a wide array of powerful and elegant tools for obtaining qualitative information about the structure of matter. This course will require a good amount of thought, yet all of the concepts and associated mathematical manipulations are within the reach of a student who has met the prerequisites. Prereq: CHEM 3411 or CHEM 3481 with a C- or higher. Cross-listed with CHEM 5221. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3411 or 3481 with a C- or higher.

CHEM 4310 - Advanced Organic Chemistry (3 Credits)

An exploration of structure, bonding and reactivity in organic modules that includes extensive analysis of the chemical literature, culminating in written and seminar presentations of individual projects. Requisite knowledge in Undergraduate Organic Chemistry and Physical Chemistry is assumed. Restriction: Restricted to degree-granting Graduate programs. Cross-listed with CHEM 5310. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHEM 4388 - Nucleic Acid Technologies I (2 Credits)

This laboratory is intended to provide hands-on experience on the synthesis, characterization, and analyses of oligonucleotides of DNA and RNA. The laboratory will cover the basics to understand structural aspects of these biopolymers, using UV-vis, circular dichroism, electrophoresis, HPLC and mass spectroscopy. (All students will be expected to prepare, and turn in, three written reports; and three oral presentations. Every class member will also be required to keep an organized laboratory notebook, thus the class will be exposed to basic research aspects and literature searches. The course will also require students to design a successful experiment, that will prepare them for conditions they may likely encounter in an industrial, or advanced academic setting. Specifically, each student will choose a DNA sequence and probe their oligonucleotide model towards the recognition of a particular target, e.g., metabolite, protein, or molecular ion. In assessing these concepts, every student will be exposed to the basics of DNA/RNA structure as well as the chemistry of solid-phase chemistry. Every student will be required to present current topics (from recent literature) in front of the class as a way to enhance skills in oral presentation and scientific communication, aspects that will also enrich the scientific writing experience. To enhance the writing experience and provide a broader perspective on contemporary research, that is related to the course, students will be required to attend two seminars (from the departmental seminar series) and prepare a short written report. It is worth noting that this course will provide exposure to techniques that are commonly used in an industrial setting, e.g., in the development of RNA-based drugs and therapeutics, thus preparing them for a successful transition onto their next academic/professional step). Prereq: CHEM 3411 and CHEM 3421. Cross-listed with CHEM 5388. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3411 and CHEM 3421.

CHEM 4411 - Bioconjugate Techniques and Theranostic Nanomedicine (3 Credits)

The selective making of chemical bonds to biological molecules in complex mixtures enables a wide variety of applications in bio- and nano-materials science, bioengineering, and diagnostic and therapeutic (nano-)medicine. This course will discuss theory and practical current methods for chemical modification and conjugation of proteins and other bio- and nano-materials: Topics include permanent and cleavable cross-linkers, protein modification reagents, immobilization of enzymes/DNA, enzyme-antibody conjugates, protein-protein interactions, PEGylation and labeling of proteins, and solid-phase peptide synthesis. Prereq: CHEM 3411 or CHEM 3481 with a B or higher. Cross-listed with CHEM 5411. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3411 or CHEM 3481 with a B or higher

Typically Offered: Fall.

CHEM 4421 - Cannabis Chemistry (3 Credits)

An exploration of the terpene to cannabinoid compounds including biosynthesis pathways; human receptor structures and mechanism; current analytical methods for Quality Assurance and Quality Control and current research in medical applications. Prereq: Organic Chemistry I with a C- or higher (Chem 3411 or Chem 3481), and corequisite/prerequisite: Organic Chemistry II (CHEM 3421 or CHEM 3491). Cross-listed with CHEM 5421. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Organic Chemistry I with a C- or higher (Chem 3411 or Chem 3481), and corequisite/prerequisite: Organic Chemistry II (CHEM 3421 or CHEM 3491).

Typically Offered: Spring.

CHEM 4500 - Foundations of Physical Chemistry (3 Credits)

This course prepares students for CHEM 4511 and/or 4521. The goal is to bridge the gap between algebra- and calculus-based physics courses and to introduce essential math concepts and skills in Calculus III that are relevant to the Physical Chemistry course sequence 4511/4521. Prereq: PHYS 2020 or (prereq or coreq) PHYS 2331, CHEM 3421 or CHEM 3491 and MATH 2411 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: PHYS 2020 or (prereq or coreq) PHYS 2331, CHEM 3421 or CHEM 3491 and MATH 2411 with a C- or higher.

Typically Offered: Fall, Spring.

CHEM 4510 - Computational Chemistry (3 Credits)

Classical and ab initio molecular dynamics are covered from theory to application. Students have access to high-performance computational resources and cover current topics in the field. Requisite knowledge in Undergraduate Physical Chemistry is assumed. Cross-listed with CHEM 5510. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHEM 4511 - Physical Chemistry: Thermodynamics and Kinetics (3 Credits)

Includes study of the laws of thermodynamics, thermochemistry, chemical equilibria, solutions and statistical mechanics. Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 Calculus III -OR- CHEM 4500 Foundations for Physical Chemistry with a C- or higher) OR co-requisite/ pre-requisite MATH 3511 Mathematics of Chemistry with a C- or higher if completed before CHEM 4511. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 -OR- CHEM 4500 with a C- or higher) OR co-requisite/pre-requisite MATH 3511 with a C- or higher.

Typically Offered: Spring.

CHEM 4518 - Physical Chemistry Laboratory: Reaction Analysis (2 Credits)

Instruction in the experimental techniques of physical chemistry with emphasis on the properties of gases, thermodynamics and chemical equilibrium. Prereq or Coreq: CHEM 4511 with a C- or higher if completed before CHEM 4518. Term offered: spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Pre- or Co-Requisite CHEM 4511 with a C- or higher if completed before CHEM 4518.

Typically Offered: Spring.

CHEM 4521 - Physical Chemistry: Quantum and Spectroscopy (3 Credits)

Includes study of chemical kinetics, quantum mechanics, molecular structure and spectroscopy. Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 Calculus III -OR- CHEM 4500 Foundations for Physical Chemistry with a C- or higher) OR co-requisite/ pre-requisite MATH 3511 Mathematics of Chemistry with a C- or higher if completed before CHEM 4521. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2020 or PHYS 2331 with C- or higher and either (pre-requisite MATH 2421 -OR- CHEM 4500 with a C- or higher) OR co-requisite/pre-requisite MATH 3511 with a C- or higher.

Typically Offered: Fall.

CHEM 4530 - Advanced Physical Chemistry (3 Credits)

Explores fundamental properties of molecules (bond length and strength, the potential energy surface, reaction rates, etc.) and examines how these properties are measured, using original literature as the primary source, and culminating in written and seminar presentations of individual projects. Requisite knowledge in Undergraduate Physical Chemistry is assumed. Cross-listed with CHEM 5530. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CHEM 4538 - Physical Chemistry Laboratory: Molecular Structure (2 Credits)

CHEM 4538 explores the central principles of physical chemistry, with emphasis on quantum chemistry, spectroscopy, and computational methods. The post laboratory assignments demonstrate a writing process that follows the guidelines of the American Chemical Society. Prereq or Coreq: CHEM 4511 or CHEM 4521 with a C- or higher if completed before CHEM 4538. Term offered: fall. Max hours: 2 Credits.

Grading Basis: Letter Grade

Pre or Co-Requisite CHEM 4511 or CHEM 4521 with a C- or higher.

Typically Offered: Fall.

CHEM 4548 - Physical Biochemistry Laboratory (2 Credits)

Experimental techniques of physical chemistry emphasizing thermodynamics, kinetics, and spectroscopy of biological molecules. Fulfills the Physical Chemistry Lab requirement for Biochemistry Emphasis majors. Prereq: CHEM 3498 or CHEM 4828 and PHYS 2020 or PHYS 2331 with a C- or higher. Prereq or Coreq: CHEM 4511 or CHEM 4521 with a C- or higher. Recommended Preparation: CHEM 4810. Cross-listed with CHEM 5548. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3498 or CHEM 4828 and PHYS 2020 or PHYS 2331 with a C- or higher. Prereq or Coreq: CHEM 4511 or CHEM 4521 with a C- or higher.

Typically Offered: Fall, Spring.

CHEM 4580 - Molecular Informatics (3 Credits)

This course resides at the intersection between Chemistry, Biochemistry, and Data Science. The course covers fundamental concepts of Chemical and Biochemical Informatics and provides students with hands on experience in using computational tools to manipulate chemical and biochemical data. Students will learn fundamentals of data science, database management, data structure, data representation, data visualization, and data analysis as applied to Chemistry and Biochemistry. The course requires a basic understanding of programming but does not require extensive programming experience. Examples explored in class and in homework will be built using Python code within Jupyter Notebooks or Google Colab notebooks such that students can explore new topics while remaining focused on the underlying molecular concepts and computer methods which allow them to manage large amounts of molecular information and to find relationships between the structure and properties of molecules. Data mining approaches will be explored as will classification algorithms and chemical similarity analysis methods. Students will learn about the applications of cheminformatics in drug discovery, such as compound selection, virtual library generation, virtual high throughput screening which can check for potential molecules that have the potential to be developed into drugs. Note: While this course is not a pre-requisite for 4510 Computational Chemistry, CHEM 4640 AI in Chemistry and Biochemistry, or CHEM 4845 Molecular Modeling and Drug Design, the skills developed in this course will work synergistically with those courses and will allow you to get more from your experiences in those courses or from your experience in a research lab. Prereq: CHEM 2031, CHEM 2061, CHEM 3411, and CHEM 4630 or MATH 1376 or BIOS 6642 or MOLB 7900 or CSCI 1410 with a C- or higher. Cross-listed with CHEM 5580. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2031, CHEM 2061, CHEM 3411, and CHEM 4630 or MATH 1376 or BIOS 6642 or MOLB 7900 or CSCI 1410 with a C- or higher.

CHEM 4600 - Advanced Topics in Chemistry (1-3 Credits)

Upper-level majors in chemistry or a related discipline explore a special topic in chemistry or biochemistry. A description of topics to be covered in the current semester is maintained on the Chemistry department website. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CHEM 4610 - Understanding & Presenting Chemical Research (1-2 Credits)

This course will improve your ability to systematically search for chemical information, help you interpret the information you find, & improve your ability to summarize and present that information. Prereq: CHEM 2061 or CHEM 2091 with a C- or higher. Cross-listed with CHEM 5610. Term offered: fall, spring. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: CHEM 2061 or CHEM 2091 with a C- or higher

Typically Offered: Fall, Spring.

CHEM 4630 - Programming for Data Analysis in the Physical Sciences (1 Credit)

This course will be taught using live coding format (the instructor will code live in the classroom with the students). In this course, you will learn to process data using python scripts that you will write. Data include for example absorption spectra, protein pdb files, coordinate files. You will also learn how to use Python libraries and write functions (for example to create high resolution graphs). Finally, you will learn best coding practices, how to keep track of different versions of your code and share your code using Github. Prereq: CHEM 2061 or CHEM 2091 with a C- or higher. Having completed a semester of Organic Chemistry is recommended preparation for optimal student success. Cross-listed with CHEM 5630. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: CHEM 2061 or CHEM 2091 with a C- or higher

CHEM 4640 - Artificial Intelligence in Chemistry and Biochemistry (3 Credits)

Artificial Intelligence (AI) changes every aspect of our lives. In this course, we explore AI and its applications from the perspective of a chemist/biochemist. The role of AI and the latest trends in modern chemistry and biochemistry will be taught. Students will learn how to connect modern AI techniques to their own research projects, using both experimental and computational data. Prereq: CHEM 2031, CHEM 2061 and CHEM 3411 with a C- or higher. Pre/Coreq: CHEM 3810/4810/5810 and CHEM 4630/5630. Cross-listed with CHEM 5640. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 2031, CHEM 2061 and CHEM 3411 with a C- or higher. Pre/Coreq: CHEM 3810/4810/5810 and CHEM 4630/5630.

CHEM 4655 - Teaching Assistant Bootcamp (1 Credit)

This course is 4-5 8-hour days of intensive training in suitable pedagogy for general chemistry and organic chemistry laboratory classes, procedures for teaching laboratory sections, and laboratory techniques. Students must have a teaching assistant contract with the Chemistry Department in order to take this course. Cross-listed with CHEM 5655. Term offered: fall. Repeatable. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Typically Offered: Fall.

CHEM 4700 - Environmental Chemistry (3 Credits)

A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil, and air environments. Prereq: CHEM 3111 or CHEM 3411 or CHEM 3481 with a C- or higher. Cross-listed with CHEM 5700. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3111 or CHEM 3411 or CHEM 3481 with a C- or higher

Typically Offered: Spring.

CHEM 4810 - General Biochemistry I (3 Credits)

In-depth introductory course for chemistry, science and health science majors. Topics include structure and energetics of proteins; mechanisms and kinetics of enzymes; structure and function of carbohydrates, lipids and nucleic acids. Prereq or Coreq: CHEM 3421 or CHEM 3491 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CHEM 3421 or CHEM 3491 with a grade of C- or higher.

CHEM 4815 - Structural Biology of Neurodegenerative Diseases (3 Credits)

Advanced course in Biochemistry/Biophysics. Principles of Protein Folding, Structure-Function Relationship, and spectroscopic techniques related to characterization of these processes as applied to neurodegenerative diseases such as Parkinson's and Alzheimer's. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Coreq: PHYS 2020 or PHYS 2331. Cross-listed with CHEM 5815, BIOL 4815, and BIOL 5815. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Coreq: PHYS 2020 or PHYS 2331

Typically Offered: Spring.

CHEM 4820 - General Biochemistry II (3 Credits)

Advanced course for chemistry, science and health science majors. Topics include energetics and pathways for metabolism of carbohydrates, lipids, and amino acids. Prereq: CHEM 3810 or 4810 or 5810 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3810 or 4810 or 5810 with a C- or higher

CHEM 4825 - Biochemistry of Metabolic Disease (3 Credits)

Advanced course in biochemistry. An expanded study of selected topics in metabolism and how they relate to diseases, including inflammation, diabetes, obesity, and rare genetic disorders. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Cross-listed with CHEM 5825, BIOL 4825 and BIOL 5825. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher.

Typically Offered: Fall.

CHEM 4828 - Biochemistry Lab (2 Credits)

Focuses on modern laboratory techniques for biochemical research, with an emphasis on methods for protein isolation, purification and characterization. Students perform experiments including chromatography, electrophoresis, molecular cloning, spectrophotometry, and enzyme activity assays. Prereq: CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3810 or 4810 or 5810 with a C- or higher

CHEM 4835 - Biochemistry of Gene Regulation and Cancer (3 Credits)

Explores the biochemical and molecular aspects of cancer biology.

Topics include DNA mutations and repair, gene regulation, oncogenes and tumor suppressors, stem cells and differentiation, and cancer drug development. Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Cross-listed with CHEM 5835, BIOL 4835, and BIOL 5835. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: 1) BIOL 2010 (or 2061/2097/2030), BIOL 2011 (or 2081/2098/2031), BIOL 2020 (or 2051/2095/2040), and BIOL 2021 (or 2071/2096/2041), and 2) CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher.

Typically Offered: Fall.

CHEM 4840 - Independent Study: Chem (1-6 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

CHEM 4845 - Molecular Modeling and Drug Design (3 Credits)

Advanced course in biochemistry. An introductory course on modern molecular modeling techniques and their applications to computer-aided rational drug design. Prereq: CHEM 3411 or CHEM 3481 with a C- or higher. Cross-listed with CHEM 5845. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3411 or 3481 with a C- or higher.

Typically Offered: Fall.

CHEM 4860 - Bioinorganic Chemistry: Bioinorganic compounds in medicine (3 Credits)

Explore the roles of metals in biochemistry and medicine by studying chemical/physical properties of metal coordinated compounds. The course focus on metal coordination resulting biopolymer folding and the function of macromolecules that is involved into iron cytochromes, zinc and copper enzymes, iron sulfur proteins, oxygen transport, iron storage, electron transfer, inorganic model compounds, metals in medicine, and toxicity of inorganic species. Topic is extended to biomedical application such as chemotherapy. Prereq: CHEM 3810 or CHEM 4810 or CHEM 5810 with a C- or higher. Cross-listed with CHEM 5860. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 3810 or 4810 or 5810 with a C- or higher

CHEM 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

Chinese (CHIN)

CHIN 1000 - China and the Chinese (3 Credits)

A multidisciplinary introduction to Chinese society both past and present. Prehistory, birth of imperial China, literature, philosophy, religion, nationalism, revolution, modernization, contemporary life, social structure, gender, food, family life, population policy, ethnicity, popular culture, economics and politics. Note: This course is taught in English.

Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH4.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH4, Arts Hum: Foreign Languages.

Typically Offered: Fall, Spring.

CHIN 1010 - Beginning Mandarin Chinese I (5 Credits)

Explore the basics of Mandarin Chinese in this introductory course, designed to develop essential communicative skills through a task-based curriculum. Engage in real-world exercises to build proficiency in pronunciation, listening, speaking, reading, and writing, while learning key phrases and over 300 characters. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. No previous study of Chinese is required. Term Offered: Fall. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 1020 - Beginning Mandarin Chinese II (5 Credits)

Progress in Mandarin Chinese is the focus of this second-semester course, designed to expand upon the essential communicative skills established in CHIN 1010. Students will engage in advanced real-world exercises to further their proficiency in pronunciation, listening, speaking, reading, and writing. The course aims to deepen students' knowledge of Mandarin by increasing their vocabulary, teaching them to create more complex sentences, and introducing an additional 300-400 characters. Note: This course assumes that students have passed CHIN 1010 or possess equivalent proficiency. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. A grade of C- or higher in CHIN 1010 is recommended for success in this course. Term Offered: Spring. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 1071 - Beginning Mandarin Chinese for International Business (3 Credits)

This course aim to equips students with the linguistic abilities and cultural insights necessary for engaging in business interactions with Chinese counterparts. Through structured thematic units centered around business scenarios and simulations, students will cultivate basic communication skills, understand cultural nuances, and learn business protocols. Note: Chinese 1071 cannot be taken to fulfill language requirements; nor can it be used to substitute for Chinese 1010. The class materials are primarily presented in Pinyin and no prior background in Chinese characters is required. Term Typically Offered: Fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

CHIN 2110 - Intermediate Mandarin Chinese I (3 Credits)

Building on the foundation of beginning Chinese courses, this course advances the students' abilities in practical Chinese, emphasizing active skills in listening, speaking, reading, and writing. The curriculum balances contemporary language use with an exploration of classical Chinese, including the study of proverbs, to enrich students' cultural and linguistic understanding. This course serves as an intermediate step, following CHIN 1020, to further language proficiency in real-world contexts. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course.

Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. This course assumes that students have passed CHIN 1020 or equivalent, or have taken two years of high school Chinese, or possess equivalent proficiency. A grade of C- or higher in CHIN 1020 is recommended for success in this course. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 2120 - Intermediate Mandarin Chinese II (3 Credits)

CHIN 2120, the fourth-semester Chinese course, further refines the Mandarin skills honed in previous courses. It builds upon the practical knowledge of listening, speaking, reading, and writing, while integrating an appreciation for both contemporary and classical Chinese through the study of proverbs and historical texts. This course, which follows CHIN 2110, is designed to advance students' linguistic abilities in real-world contexts and deepen their cultural literacy. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed CHIN 2110 or equivalent, or have taken three years of high school Chinese, or possess equivalent proficiency. A grade of C- or higher in CHIN 2110 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 2840 - Independent Study (1-3 Credits)

Term offered: fall, spring. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring.

CHIN 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Sophomore standing. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

CHIN 2970 - Contemporary Chinese Cinema (3 Credits)

Introduces students to Chinese cinema, one of the most powerful and often controversial modes of representing society, culture, history and politics in China. Note: Taught in English. All films have English subtitles. No previous study of Chinese language or culture is required. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 3010 - Advanced Intermediate Chinese (3 Credits)

This course capitalizes on students' already acquired knowledge to further develop language skills in Mandarin Chinese. Students learn to make a transition from reading pedagogically prepared materials to more authentic ones. Note: this course assumes that students have passed CHIN 2120 or equivalent, or possess equivalent proficiency. A grade of C- or higher in CHIN 2120 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 3071 - Intermediate Mandarin Chinese for International Business (3 Credits)

This course is a Language for Specific Purposes (LSP) course designed for students who have completed CHIN1071 or the equivalents.

The primary goal is to provide students with an opportunity to be more familiar with Chinese business operations in Chinese-speaking communities such as Mainland China, Hong Kong, Singapore, and Taiwan. The course also emphasizes the business usage and jargon in modern Chinese as well as the business-related sociocultural awareness. Through reading, discussing, and analyzing the actual cases from real foreign enterprises, students will gain in-depth knowledge about the macro and microeconomic situations in the Chinese-speaking world.

Note: The class materials are primarily presented in Pinyin and no prior background in Chinese characters is required. Prereq: CHIN1071 with a C- or higher, or the equivalents. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHIN 1071 with a C- or higher, or the equivalents.

Typically Offered: Spring.

CHIN 3130 - Special Topics in Chinese (3 Credits)

Varying topics in Chinese language, literature and culture appropriate to the 3000 level, not otherwise covered by regular courses. Note: This course assumes that students have passed CHIN 2120 or equivalent, or possess equivalent language proficiency. Note: May be taken more than once, provided that the topic is different each time. Term offered: spring, fall. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

CHIN 3200 - Contemporary Chinese Society and Culture (3 Credits)

Provides students with an overview of the systems in modern China (such as educational, political and economical), its family and interpersonal constructs and the elements of modern China found in popular cultures. It also exposes students to rudimentary and practical use of the Chinese language. Note: This course is taught in English. Max hours: 3 Credits.

Grading Basis: Letter Grade

CHIN 3300 - Special Topics on Chinese Film (3 Credits)

Studies the cultural, social and historical conditions that have shaped Chinese cinema. May focus on one Chinese speaking country or more than one (including but not limited to China, Taiwan and Hong Kong). May focus on a particular period (pre-Cultural revolution, for example) or a particular theme (urban cinema or martial arts films, for example). Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 3840 - Independent Study: CHIN (1-3 Credits)

Term offered: fall, spring. Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

CHIN 3939 - Internship - CHIN (1-3 Credits)

Department consent required. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CHIN 3995 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

CHIN 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with HIST 4002, ETST 4002, INTS 4002, RLST 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

CHIN 4421 - Modern China (3 Credits)

Surveys Chinese history in the modern era. Includes examination of Western domination of China; revolution and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST 4421, and HIST 5421. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 4423 - China in the World (3 Credits)

China does not exist apart from the world, and never has. This course approaches Chinese history by asking: how has the world shaped China's history, and how has China shaped the history of the world? Rather than explain what went on in China, we focus on exploring what went on outside-among China's immediate neighbors in East Asia, the entire Eurasian region, the African continent, and the so-called "West." The course moves chronologically from ancient times to the present, and is organized around the themes as conquest, trade, international relations, climate change, environmental stress, and the circulation of ideas. Cross-listed with HIST 4423 and HIST 5423. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

CHIN 4690 - Methods of Teaching Modern Languages (3 Credits)

Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, LING 4690, SPAN 5690, FREN 4690, FREN 5690, GRMN 4690, GRMN 5690, SPAN 4690, CHIN 5690. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CHIN 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, MLNG 4691, MLNG 5691, SPAN 5691, FREN 4691, FREN 5691, GRMN 4691, GRMN 5691, SPAN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690

Typically Offered: Spring.

CHIN 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Civil Engineering (CVEN)

CVEN 1025 - Civil Engineering Graphics and Computer Aided Design (3 Credits)

Introduces microcomputer-based, menu-driven, 2-D and 3-D computer-aided design systems; standard Civil Engineering industry details and some three-dimensional modeling of solid objects; principles on engineering drawing and descriptive geometry with applications specifically geared for civil engineers. Prereq: High School Geometry and Algebra. Max Hours: 3 Credits.
Grading Basis: Letter Grade

CVEN 1067 - Introduction to Civil Engineering (1 Credit)

Introduces civil engineering and the many career choices in this broad field. Covers the history of the profession, current civil engineering projects, societal and global implications, technologies used, professional ethics, sustainability, and licensure. Max hours: 1 Credit.
Grading Basis: Letter Grade

CVEN 1200 - Fundamentals of Engineering Design Innovation (3 Credits)

This course introduces concepts of engineering design innovation at a variety of scales and disciplines. Participants will experience and explore core technology and design themes including design principles, processes, methods, modes of thinking, and social and cultural aspects or design. Cross-listed with CSCI 1200, ENGR 1200, MECH 1200, ELEC 1201 and IWKS 2100. Max hours: 3 Credits.
Grading Basis: Letter Grade

CVEN 2121 - Analytical Mechanics I (3 Credits)

A vector treatment of force systems and their resultants; equilibrium of trusses, beams, frames, and machines, including internal forces and three-dimensional configurations, static friction, properties of areas, distributed loads and hydrostatics. Prereq: PHYS 2311 with a C- or higher and Prereq/Coreq: MATH 2411. Max Hours: 3 Credits.
Grading Basis: Letter Grade

Prereq: PHYS 2311 with a C- or higher. Prereq/Coreq: MATH 2411.

CVEN 2212 - Surveying for Construction and Engineering (2 Credits)

Survey observations used by engineers and surveyors using levels and total stations to make sure things are put in the right place and leveled; analysis and adjustment of measured loops, traverses; areas and volumes; methods used in construction; analysis of error sources; and presentation of results. Course includes a required lab section. Max hours: 2 Credits.
Grading Basis: Letter Grade

CVEN 2214 - Surveying for Engineering (1 Credit)

Survey observations used by engineers and surveyors using levels and total stations to make sure things are put in the right place and leveled; analysis and adjustment of measured loops, traverses; areas and volumes; methods used in construction; analysis of error sources; and presentation of results. This course does not include a lab. Max hours: 1 Credit.
Grading Basis: Letter Grade

CVEN 2215 - Surveying Lab (1 Credit)

For those students in CVEN 2214 who wish to experience hands-on use of the principal survey equipment they see in the lectures. Provides access to levels and theodolites to perform measurements, record, check, and adjust them. Prereq or Coreq: CVEN 2214. Max hours: 1 Credit.
Grading Basis: Letter Grade
Prereq or Coreq: CVEN 2214.
Typically Offered: Fall, Spring.

CVEN 3111 - Analytical Mechanics II (3 Credits)

A vector treatment of dynamics of particles and rigid bodies, including rectilinear translation, central-force, general motion of particles, kinematics of rigid bodies, the inertia tensor, plane motion of rigid bodies; energy and momentum methods for particles, systems of particles and rigid bodies. Prereq: CVEN 2121 and MATH 2411 with a C- or better.

Cross-listed with MECH 2033. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 2121 and MATH 2411 with a C- or higher.

CVEN 3121 - Mechanics of Materials (3 Credits)

Mechanical properties of materials, stresses and strains in members subjected to tension, compression and shear, combined stresses, flexural and shearing stresses in beams, deflections of beams, column analysis, principal stresses. Prereq: CVEN 2121 and MATH 2411 with a C- or better. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 2121 and MATH 2411 with a C- or higher.

CVEN 3141 - Introduction to Structural Materials (2 Credits)

To learn the fundamental characteristics of structural materials, including steel, concrete, masonry, timber, and composites; to learn how to test structural materials in the laboratory; and to learn how to interpret test data for engineering applications. After completing this course, students are expected to understand the behavior of structural materials and establish necessary background for structural design courses. Prereq or Coreq: CVEN 3121 and CVEN 1067 with a C- or better. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CVEN 3121 and CVEN 1067 with a C- or better.

CVEN 3200 - Computational Methods for Civil Engineers (3 Credits)

This course introduces advanced programming and data analysis skills pertinent to the range of civil engineering disciplines. Topics will include numerical methods, statistical analysis, and programming techniques for measurements and data collection. Languages and tools may include Excel, Matlab, Python, and Arduino. Prereq: (IWKS 2300 or ENGR 1100) and (MATH 3800 or CVEN 3611) with a C- or higher. Max hours: 3 Credits.
Grading Basis: Letter Grade

Prereq: (IWKS 2300 or ENGR 1100) and (MATH 3800 or CVEN 3611) with a C- or higher.

CVEN 3313 - Fluid Mechanics (3 Credits)

Fundamentals of fluid mechanics. Topics include fluid properties, hydrostatics, the continuity principle, the energy principle, the momentum principle, similitude and dimensional analysis, drag, and friction for laminar and turbulent flow in closed conduits. Prereq: CVEN 2121 with a C- or higher. Prereq or coreq: CVEN 1067. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 2121 with a C- or higher. Prereq or Coreq: CVEN 1067.

CVEN 3323 - Hydrosystems Engineering (3 Credits)

Civil engineering hydraulics applied to the hydrologic cycle; surface- and groundwater resources; precipitation, streamflow, and groundwater measurements; and basics of reservoir operation, open channel hydraulics, and storm water design. Prereq: CVEN 3313 and ENGR 1100 or IWKS 2300 with a C- or higher. Restriction: Restricted to Civil Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3313 and ENGR 1100 or IWKS 2300 with a C- or higher.

Restriction: Restricted to Civil Engineering majors.

CVEN 3401 - Introduction to Environmental Engineering (3 Credits)

Introduces students to the broad field of environmental engineering. Topics include essential chemical, biological, and risk assessment concepts needed for addressing environmental problems. Major unit operations and processes used for treating wastewater and potable drinking water. An overview of technologies used for treating particulate and gaseous air pollutants, managing solid wastes, and remediating hazardous wastes. The course also introduces environmental sustainability, green engineering, life cycle assessment and other systems oriented concepts. Prereq: CHEM 1130 or CHEM 2031 or ENGR 1130 with a C- or better. Cross-listed with CVEN 5401. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CHEM 1130 or CHEM 2031 or ENGR 1130 with a C- or better.

CVEN 3505 - Structural Analysis (3 Credits)

The focus of this course is on the understanding of structural analysis principles and application of techniques. We will build upon topics initiated in prerequisite courses. Topics include: Introduction to loads, structural idealization, analysis of trusses, arches, beams and frames, cables, influence lines, beam deflections, and introductions to matrix analysis and computer-assisted analysis. The course will be fast-paced and mathematically rigorous. Prereq: CVEN 3121 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3121 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 3602 - Transportation Engineering (3 Credits)

This course provides a comprehensive introduction to the field of transportation engineering, covering the fundamental principles and practices of designing and operating transportation systems. Students will learn about traffic engineering, transportation planning, network analysis, public transportation systems, and transportation sustainability. The course will cover topics such as transportation demand forecasting, transportation modeling, highway design and capacity analysis, transit planning and operations, and transportation funding and financing. Students will engage in hands-on exercises and case studies to apply the concepts learned and will have the opportunity to analyze real-world transportation problems and solutions. By the end of the course, students will have a broad understanding of the transportation engineering field and the skills necessary to analyze and design transportation systems that meet the needs of communities and support sustainable transportation. Prereq: C- or better in MATH 1401. Prereq or coreq: CVEN 1067. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 with a C- or better. Prereq or coreq: CVEN 1067.

CVEN 3611 - Engineering Statistics (3 Credits)

Covers statistical methods for engineering studies. Topics include common probability distributions, sample design, descriptive statistics, hypothesis testing of one or two populations, tests of discrete versus continuous random variables, analysis of variance, linear and non-linear multiple regression models, non-parametric tests of fit. Prereq: MATH 2411 with a C- or better. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2411 with a C- or better.

CVEN 3718 - Geotechnical Engineering I (3 Credits)

Soil formation, phase diagram, soil constituents and behavior, description of soils, classification, clay minerals, compaction, soil improvement, capillarity, shrinkage, swell, collapsible soil, frost action, flow through porous media, and consolidation. Lab experiments, including specific gravity, grain size analysis, liquid and plastic limits, and consolidation, are to be conducted in concert with the lectures. Prereq: CVEN 3121 with a C- or higher. Prereq or Coreq: CVEN 3313 and CVEN 1067. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3121 with a C- or higher. Pre or Coreq: CVEN 3313 and CVEN 1067. Restriction: Restricted to Civil or Construction Engineering majors.

Typically Offered: Fall, Spring.

CVEN 4000 - Senior Seminar (0 Credits)

Required for all Civil Engineering majors. This course is generally taken the semester of graduation. To complete this course one must complete the fundamentals of engineering exam from the national council of examiners for engineering and surveying, attend any required course meetings, and complete an ethics assignment. Failure to attend the required meeting(s) of this course will delay graduation. Prereq or Coreq: CVEN 4067. Max hours: 0 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: CVEN 4067

Typically Offered: Fall, Spring.

CVEN 4025 - Autocad Civil 3d & Advanced Civil Engineering Graphics (3 Credits)

Lectures target civil engineering industry specific site information modeling software and geospatial industry specific geographical information systems software to elevate students' knowledge of each software to an in-depth understanding. Laboratory exercises will focus on civil drafting and design, producing documentation, and general project workflows. Additional laboratory exercises will focus on geospatial data creation, data management, and cartographic display. Prereq: CVEN 1025. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 1025

CVEN 4067 - Senior Design Projects (3 Credits)

Senior civil engineering students, working in teams, are assigned significant open-ended design problems requiring the synthesis of material learned in previous engineering courses for solution. Design teams work independently under the supervision of a civil engineering faculty member. Prereq: Graduation Agreement and one design course. Co-req: A second design course. Restriction: Restricted to Civil Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4427 or 4565 or 4575 or 4585 or 4602 or 4738 with a C- or higher Coreq: CVEN 4427 or 4565 or 4575 or 4585 or 4602 or 4738

Restrictions: Restricted to Civil Engineering majors.

CVEN 4077 - Engineering Economy (3 Credits)

Applies economic and financial principles to evaluation of engineering alternatives. Calculation of annual costs, present worth and prospective rates of return on investment. Review of systems analysis techniques, including simulation, linear programming, and project scheduling. Prereq: Junior standing. Cross-listed with MECH 4147. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to junior standing majors in the College of Engineering, Design and Computing

CVEN 4087 - Engineering Contracts (3 Credits)

Laws met by the practicing engineer, types of contracts, specification writing, laws on contracts, agency, partnership, sales and property, with primary emphasis on rights and duties of the engineer. Prereq: Senior standing. Cross-listed with CVEN 5087. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to senior standing majors in the College of Engineering, Design and Computing

CVEN 4381 - Introduction to Geographic Information Systems (3 Credits)

Provides an overview exposure and experience with various aspects of GIS technology and its uses for natural resource and infrastructure, planning, design and management. This course involves a survey of GIS software and hardware, review of cartographic mapping principles, hands-on applications to environmental impact assessment, municipal facilities management, transportation, water resources and demographics. GIS project management factors are addressed.

Restriction: Junior standing or higher. Cross-listed with CVEN 5381. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

CVEN 4382 - Geospatial Data Development (3 Credits)

This second GIS course builds on the introductory course and addresses principles and technologies for development and conversion of spatial databases, including photogrammetry, surveying and geodesy, coordinate systems and transformations, and remote sensing. Prereq: CVEN 4381 or CVEN 5381 with a C- or better. Cross-listed with CVEN 5382. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4381 or CVEN 5381 with a C- or better.

CVEN 4383 - GIS Analysis (3 Credits)

Embark on a journey into the dynamic world of Geographic Information Systems (GIS) Analysis tailored for engineering students. In this course, you will acquire the essential knowledge and practical skills needed to harness the power of GIS technology for data analysis, visualization, and decision-making. From fundamental concepts to advanced techniques, you will explore the diverse applications of GIS across various engineering disciplines. Through hands-on exercises and real-world case studies, you will delve into advanced geospatial techniques, emphasizing their engineering applications in spatial, network, and 3D GIS analyses. We will dive deep into spatial analysis methods, such as proximity analysis, spatial statistics, and network analysis, to uncover hidden patterns and insights within geographic data and their significance on engineering problem-solving. This course will equip you with the tools and expertise to excel in spatial data analysis and make informed decisions in our increasingly spatially connected world. Prereq: CVEN 4381 or CVEN 5381 with a C- or better. Cross-listed with CVEN 5383. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4381 or CVEN 5381 with a C- or better.

CVEN 4384 - GIS Project Management (3 Credits)

This course explains how to build a foundation for GIS project success and deliver results. Topics include data governance, administration of technical infrastructure, managing roles and skills, key leadership concepts, and project management methodologies like Agile/Scrum. Best practices and real world applications are discussed. Also addressed are issues of GIS institutional acceptance, the role of computerized spatial data systems in decision-making, application of planning techniques for accomplishing resource goals, and administrative structures that enhance efficiency of use. Prereq: CVEN 4381 or CVEN 5381 with a C- or better. Cross-listed with CVEN 5384. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4381 or CVEN 5381 with a C- or better.

CVEN 4385 - GIS Relational Database Systems (3 Credits)

Introduces relational database management system concepts with emphasis on GIS. Includes examination of relational database systems from conceptual design through relational schema design and physical implementation. Topics include SQL, database design and implementation for large database systems, transaction management, concurrency control, distributed database management systems and the interaction and progressive integration of GIS technologies and RDBMS technologies. Prereq: CVEN 4381 or CVEN 5381 with a C- or better. Cross-listed with CVEN 5385. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4381 or CVEN 5381 with a C- or better.

CVEN 4387 - Advanced Remote Sensing (3 Credits)

Addresses remote sensing concepts including 1) imaging sensors and geo-referencing; 2) image processing for radiometric, multi-spectral image enhancement, and multi-sensor image fusion; and 3) multi-spectral image classification, including feature extraction, supervised and unsupervised classification, and extensions to hyper-spectral data. Prereq: CVEN 4381 or CVEN 5381 with a C- or better. Cross-listed with CVEN 5387. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4381 or CVEN 5381 with a C- or better.

CVEN 4388 - Geographic Information Systems for Transportation Infrastructure (GIS-T) (3 Credits)

This course provides an overview of geospatial transportation infrastructure data and its uses for design, policy, planning, and asset management. This course will identify traditional and innovative transportation infrastructure data sources, including new mobile data collection methods. It will also cover geospatial data management, spatial analysis approaches, as well as GIS methods to analyze demographics and relevant federal standards with respect to municipal policies. Prereq: CVEN 4381 or CVEN 5391 with a C- or better. Cross-listed with CVEN 5388. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4381 or CVEN 5391 with a C- or better.

CVEN 4390 - Interactive Web Mapping GIS (3 Credits)

This course introduces students to designing, creating, delivering, and using interactive web maps. Many people rely daily on web maps to direct us from point A to point B and more. After starting with a broad introductory background, this is a technical hands-on course in which students use several open source (FOSS) technologies. Prereq: CVEN 4381 or CVEN 5381 with a C- or better. Cross-listed with CVEN 5390. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4381 or CVEN 5381 with a C- or better.

CVEN 4391 - Introduction to Geomatics (3 Credits)

This course presents the concepts of Geomatics along with spatial data, tools, and their connection. This course covers spatial data collection methods, data assessment, and processing. The course also covers projections, methods of coordinate conversion and transformation, and data transfer across different spatial analysis platforms. Restriction: Junior standing or higher. Cross-listed with CVEN 5391. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

CVEN 4392 - Unmanned Aerial Systems (3 Credits)

This course presents concepts and practical methods of using Unmanned Aerial Vehicles for engineering projects. The course covers mission planning, operations, field data collection and processing, and data analysis. Legal and ethical considerations are also covered, as well as the relative costs and benefits of using UAV. Prereq: CVEN 4391 or CVEN 5391 with a C- or better. Cross-listed with CVEN 5392. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4391 or CVEN 5391 with a C- or better.

CVEN 4395 - GPS/GNSS (3 Credits)

This course presents the practical concepts and implications of using GPS/GNSS for engineering projects. The course covers a variety of techniques for field data collection, processing, and data analysis. The course emphasis is on changes that are occurring because of using GPS/GNSS in the field. Cross-listed with CVEN 5395. Prereq: CVEN 4391 or CVEN 5391 with a C- or better. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4391 or CVEN 5391 with a C- or better.

CVEN 4396 - HDS/LiDAR Tools & Data Analyses (3 Credits)

High Definition Surveying (HDS) scanners are extremely reliable and accurate geospatial data collection devices for surveyors, GIS analysts, engineers, and planners. The goal of this unique course is to present the instrumentation and technological principals used in data collection, project phases, data processing and analyses. This course is designed to provide information and practical skills for students wanting to learn how to plan and execute terrestrial LIDAR data collection projects with HDS scanners and HDS data processing software. Prereq: CVEN 4391 or CVEN 5391 with a C- or better. Cross-listed with CVEN 5396. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4391 or CVEN 5391 with a C- or better.

CVEN 4397 - Unmanned Aerial Systems Data Processing (3 Credits)

This course will provide information and practical skills for unmanned aerial systems data processing and analyses. The course focuses on sensor selection, ground control, data processing, and data analyses. Prereq: CVEN 4392 or CVEN 5392 with a C- or better. Cross-listed with CVEN 5397. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4392 or CVEN 5392 with a C- or better.

CVEN 4426 - Pipe Network and Sewer Design (3 Credits)

Design of pressurized pipe networks for water supply and sanitary sewers for wastewater collection. Topics include the civil engineering design process, estimation of water and wastewater design loads, and design of pressurized pipe networks and sanitary sewers including pump selection, service reservoirs, lift stations, and relevant software. Design project and field trip required. Prereq: CVEN 3313 and Prereq or Coreq: ENGR 1100 or IWKS 2300 with a C- or better. Cross-listed with CVEN 5426. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3313. Prereq or Coreq: ENGR 1100 or IWKS 2300 with a C- or better.

CVEN 4427 - Storm Water System Design (3 Credits)

This course covers urban watershed analysis, design rainfall and hydrologic losses, flood frequency and design event, rational method for peak runoff prediction, street hydraulic capacity and safety, culvert hydraulics, street inlet collection system, and storm sewer system design and flow analysis. Prereq: CVEN 3323 and senior standing. Restriction: Restricted to Civil Engineering majors. Cross-listed with CVEN 5427. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3323 with a C- or higher Restriction: Restricted to Civil Engineering majors

CVEN 4520 - Structural Engineering and the Ocean Environment (3 Credits)

This course explores the design of structures for coastal and ocean resilience within the broader context of climate change adaptation. The following subjects will be introduced: coastal and oceanic wave dynamics; hydrodynamic forces on coastal structures and methods for attenuation; analysis and design of floating structures. Prereq: MATH 2421 with a C- or better and CVEN 3121 or MECH 3043 with a C- or better. Cross-listed with CVEN 5520. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2421 with a C- or better and CVEN 3121 or MECH 3043 with a C- or better.

CVEN 4565 - Timber Structure Design (3 Credits)

Design of wood roof, wall, and floor systems including beams, columns, trusses, diaphragms and shear walls for vertical and lateral loads. Connection design, glued-laminated members, plywood, and engineered lumber are incorporated. Prereq: CVEN 3505 and CVEN 3141 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Cross-listed with CVEN 5565. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3505 and 3141 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors

CVEN 4575 - Structural Steel Design (3 Credits)

Design of structural steel members and their connections. Prereq: CVEN 3505 and 3141 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3505 and 3141 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors

CVEN 4585 - Reinforced Concrete Design (3 Credits)

The course objective is to introduce the students to the principles of structural design in reinforced concrete. The course emphasizes determining loads for structural design and using these loads to design reinforced concrete members. Prereq: CVEN 3505 and 3141 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3505 and 3141 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors

CVEN 4590 - Design of Prestressed Concrete (3 Credits)

To learn the basic concepts of analysis and design of prestressed concrete, which is reinforced concrete in which steel is tensioned against the concrete, thereby introducing compression in concrete and hence overcoming the tensile weakness of concrete relative to its compressive strength. Cross-listed with CVEN 5590. Prereq: CVEN 4585 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 4585 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 4591 - Design of Composite Structures (3 Credits)

The objective of this course is to provide engineering students with an overall awareness of the application and design of composite structures. Practical examples are discussed based on theory. Prereq: CVEN 4585 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors. Cross-listed with CVEN 5591. Max hours: 3 Credits

Grading Basis: Letter Grade

Prereq: CVEN 4585 with a C- or better. Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 4592 - Computer-Aided Structural Analysis and Design (3 Credits)

The objective of this course is to introduce students to the fundamentals of computer-aided structural analysis and design. The course emphasizes different theoretical formulations of computational mechanics and the practical use of computer programs used worldwide in the structural engineering profession. Emphasis is also placed on techniques to check the reliability and quality of solutions. Prereq: CVEN 3505 with a C- or better or graduate standing. Cross-listed with CVEN 5592. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3505 with a C- or higher or graduate standing (GRAD or NDGR).

CVEN 4602 - Advanced Highway Design (3 Credits)

This course focuses on advanced techniques and practices for roadway design. Students will learn about the latest design standards, guidelines, and best practices, including the use of geometrics, alignment, cross-section design, and the integration of Intelligent Transportation Systems (ITS) into roadway design. The course will cover topics such as road safety, design for alternative modes, and the incorporation of sustainability principles into roadway design. Students will engage in hands-on exercises and case studies to apply the concepts learned and will have the opportunity to analyze real-world roadway design projects. The course will also explore the latest technologies and tools for roadway design, including computer-aided design (CAD). By the end of the course, students will have a comprehensive understanding of advanced roadway design and the skills necessary to design roads that meet the needs of communities and support sustainable mobility. Prereq: CVEN 3602 with a C- or better; Restriction: Restricted to Civil or Construction Engineering majors. Cross-listed with CVEN 5602. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3602 with a C- or better Restriction: Restricted to Civil or Construction Engineering majors.

Typically Offered: Spring.

CVEN 4612 - Traffic Impact Assessment (3 Credits)

This course provides a comprehensive overview of the Traffic Impact Assessment (TIA) process. Students will learn the principles and techniques for conducting TIAs, including the collection and analysis of traffic data, the use of traffic modeling software, and the assessment of potential impacts on the transportation system and the surrounding community. Students will also learn to evaluate the effectiveness of mitigation measures and recommend strategies for reducing the impacts of transportation projects. The course will cover relevant regulations, guidelines, and best practices in TIA, and will include case studies and hands-on exercises to apply the concepts learned. Upon completion of the course, students will have a solid understanding of the TIA process and the skills necessary to conduct effective TIAs for transportation projects. Prereq: CVEN 3602 with a C- or better. Cross-listed with CVEN 5612. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3602 with a C- or better.

CVEN 4621 - Highway Capacity Analysis (3 Credits)

This course provides an in-depth examination of highway capacity analysis and its applications in transportation planning and engineering. Students will learn the fundamental concepts and methodologies for analyzing highway capacity, including the use of the Highway Capacity Manual (HCM) and other relevant guidelines. The course will cover a range of topics including level of service (LOS) analysis, intersection capacity analysis, freeway capacity analysis, and analysis of alternative transportation modes. Students will also learn to apply various techniques for estimating traffic demand, including forecasting methods, and to evaluate the impacts of congestion, incidents, and other factors. The course will include case studies and hands-on exercises to provide students with practical experience in conducting highway capacity analysis. Upon completion of the course, students will have a solid understanding of capacity analysis and the skills necessary to apply these concepts to real-world transportation problems. Prereq: CVEN 3602 with a C- or better. Cross-listed with CVEN 5621. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3602 with a C- or better.

CVEN 4622 - Traffic Operations and Control (3 Credits)

This course provides an overview of traffic operations and control principles and practices in transportation engineering. Students will learn about the various strategies and technologies used to manage and control traffic flow, including traffic signals, ramp metering, dynamic lane assignment, and real-time incident management. The course will cover topics such as traffic flow theory, capacity analysis, traffic simulation, and the design and implementation of advanced transportation management systems. Students will engage in hands-on exercises and case studies to apply the concepts learned and will have the opportunity to analyze real-world traffic operations and control problems. The course will also cover the use of data and information systems to support traffic operations and control, including the integration of real-time data from various sources and the use of data analytics to improve traffic management decision-making. By the end of the course, students will have a comprehensive understanding of traffic operations and control and the skills necessary to design and implement effective traffic management strategies. Prereq: CVEN 3602 with a C- or better. Cross-listed with CVEN 5622. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3602 with a C- or better.

CVEN 4631 - Transport Modeling and Big Data (3 Credits)

This course focuses on the use of transport modeling and big data techniques in transportation planning and engineering. Students will learn industry-relevant skills about the various types of transport models – including travel demand models, traffic simulation models, and transportation network models – and how they are used to support transportation decision-making. The course will cover the basic principles and methods for collecting, processing, and analyzing big data in transportation, including the use of data sources such as GPS, cell phone data, and social media. Students will also learn the statistical programming software R/RStudio as the primary tool to engage in hands-on exercises and real-world case studies. The course will also explore the use of advanced analytical tools and techniques, including machine learning and data mining, to support transportation modeling and decision-making. By the end of the course, students will have a comprehensive understanding of transport modeling and big data as well as the skills necessary to use these tools and techniques to support transportation planning and engineering. Prereq: Junior standing. Recommended prerequisites ENGR 1100 and statistics course. Cross-listed with CVEN 5631. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Typically Offered: Spring.

CVEN 4633 - Sustainable Transportation Systems (3 Credits)

This course was built to bring together engineers and planners but is open to students of diverse disciplines who might have interest in transportation and/or sustainability. Each week, we demystify a different topic in transportation engineering to help students understand what transportation engineers do and why. We then delve into why our transportation engineering fundamentals often lead to unsustainable outcomes and how we can do better. This course provides an overview of the principles and practices of sustainable transportation in transportation engineering. Students will engage in hands-on exercises and case studies to apply the concepts learned and will have the opportunity to analyze real-world sustainable transportation projects. By the end of the course, students will have a comprehensive understanding of sustainable transportation. This course will also will enlighten engineering students to look beyond the guidebooks while providing planners and other students with the ability to effectively argue with a traffic engineer. Cross-listed with CVEN 5633. Max hours: 3 Credits. Grading Basis: Letter Grade

CVEN 4641 - Transit System Planning and Design (3 Credits)

Great cities don't work without great transit. This course provides an overview of the principles and practices of transit system planning and design in transportation engineering. Students will learn about the various types of transit systems – including bus rapid transit, light rail transit, and commuter rail, paratransit, and micromobility – while critically assessing such systems from around the world. The course will cover topics such as ridership forecasting, network design, station planning, and the integration of transit into the overall transportation network. Students will engage in hands-on exercises and case studies to apply the concepts learned and will have the opportunity to analyze real-world transit system planning and design projects. The course will also cover the use of data and information systems to support transit planning and design, including the collection and analysis of passenger data and the use of geospatial information systems. By the end of the course, students will have a comprehensive understanding of transit system planning and design and the skills necessary to plan and design effective transit systems that meet the needs of communities and support sustainable mobility. Cross-listed with CVEN 5641. Max hours: 3 Credits.

Grading Basis: Letter Grade

CVEN 4650 - Urban Street Design (3 Credits)

This course explores the principles and practices of urban street design, with a focus on creating safe, efficient, and livable streets for all users. Students will learn about the key elements of street design, including lane widths, intersection geometry, sidewalk design, and bicycle facilities, and how these elements impact street safety and accessibility for pedestrians, bicycles, and vehicles. The course will also cover design guidelines and best practices, such as the Complete Streets concept, and will provide an overview of relevant policies and laws. Students will engage in hands-on exercises to apply design concepts to real-world urban street design problems, and will have the opportunity to analyze and critique real-world street design projects. By the end of the course, students will have a comprehensive understanding of urban street design and the skills necessary to create streets that are safe, accessible, and supportive of a range of transportation modes. Prereq: CVEN 3602 with a C- or higher, recommend B- or higher. Prereq or coreq: CVEN 4602 or CVEN 5602. Cross-listed with CVEN 5650. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3602 with a C- or higher. Coreq or prereq: CVEN 4602 or CVEN 5602.

CVEN 4662 - Transportation System Safety (3 Credits)

More than a million people die on our streets every year, but we treat these fatalities as the cost of doing business rather than the preventable public health crisis they should represent. Conventional traffic engineering blames upwards of 94% of road fatalities on human error, but rather than relying on Education or Enforcement, this course looks to what Engineering can do to proactively design safety streets and communities. To do so, this course focuses on the principles and practices of Safe Systems in transportation engineering. Students will learn about the various factors that contribute to transportation safety, including road design, vehicle design, and human behavior. The course will also cover topics such as crash data, crash analysis, risk assessment, and the development of safety plans and programs. Students will engage in hands-on exercises and case studies to apply the concepts learned and will have the opportunity to analyze real-world transportation safety problems. By the end of the course, students will have a comprehensive understanding of transportation system safety and the skills necessary to plan and design safe transportation systems that meet the needs of communities and support safe transportation. Cross-listed with CVEN 5662. Max hours: 3 Credits.

Grading Basis: Letter Grade

CVEN 4738 - Foundation Design (3 Credits)

Applies principles of soil mechanics to the analysis and design of foundations and earth retaining structures. Theories of consolidation, lateral earth pressure, and bearing capacity. Analysis of foundation settlement and design of shallow and deep foundations and retaining walls. Prereq: CVEN 3141 and 3718 with a C- or higher. Restriction: Restricted to Civil or Construction Engineering majors. Cross-listed with CVEN 5738. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CVEN 3141 and 3718 with a C- or higher Restriction: Restricted to Civil or Construction Engineering majors.

CVEN 4800 - Special Topics (3 Credits)

Supervised study of special topics of interest to students under guidance of instructor. Prereq: Permission of instructor. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to majors within the College of Engineering, Design and Computing.

CVEN 4840 - Independent Study (1-6 Credits)

This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to majors within the College of Engineering, Design and Computing.

CVEN 4939 - Internship (1-3 Credits)

Civil Engineering undergraduate internship. Department consent required. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CLAS Interdepartmental Courses (CLAS)

CLAS 2000 - Special Topics in Liberal Arts and Sciences (1-3 Credits)

Introductory level course offering a flexible format for dealing with a specific topic of special interest in liberal arts and sciences disciplines.

Note: Specific topic published in the schedule of courses. Repeatable.

Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CLAS 2100 - Exploration of Healthcare (1-2 Credits)

The purpose of this course is to enable undergraduate pre-health students who are seeking healthcare careers to gain valuable instruction and shadowing experience within a healthcare environment, apply science concepts to healthcare applications, and develop relationships with current healthcare providers. Students will be exposed to an urban safety-net hospital (Denver Health Hospital) that primarily serves underrepresented and under-served populations. In the clinical setting, students will observe medical practice and attend lectures connecting science coursework with real-world healthcare topics. By the completion of the program, participants will gain a better understanding of what healthcare providers experience at Denver Health, what it takes to become a healthcare provider, healthcare disparities and ethical responsibilities as a healthcare provider, and how general science concepts are used in the healthcare setting. Note: Students must be enrolled in or have completed BIOL 2010 or BIOL 2030 and CHEM 2031 or CHEM 2096 and complete an application process to Denver Health, to be eligible for this program. Contact the Health Professions Program Office for application information (ucdhealthcareers@ucdenver.edu). Restriction: Registration is by instructor approval only. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

CLAS 2939 - Entering Research Internship (1-3 Credits)

Department consent required.. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CLAS 3939 - Internship (1-6 Credits)

Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

CLAS 4000 - Special Topics in Liberal Arts & Sciences (1-3 Credits)

Upper division level course offering a flexible format for dealing with a specific topic of special interest in liberal arts and sciences disciplines.

Note: Specific topic published in the schedule of courses. Repeatable.

Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CLAS 4840 - Independent Study: CLAS (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Climate Change Studies (CCST)

CCST 1001 - Climate Change Seminar (1 Credit)

This course provides students with a comprehensive understanding of climate change issues and promotes global perspectives, community engagement, and justice in climate change discussions and actions. To be taken after declaring the Climate Change Studies degree. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 1.

Typically Offered: Fall.

CCST 4001 - Climate Change Capstone (3-4 Credits)

Students apply concepts and skills presented throughout the Climate Change Studies program in a community setting. Students will participate in a real-world, studio-based project that meets the needs of a government, non-governmental, or private sector organization and will produce a scoped product. Prereq: CCST 1001 with a C- or higher and senior standing. Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Prereq: CCST 1001 with a C- or higher and senior standing.

Typically Offered: Spring.

Commodities (CMDT)

CMDT 1000 - Introduction to Commodities (1 Credit)

Introduction to Commodities will expose students to the business side of commodity markets – energy, minerals and agriculture. Students will learn about potential career options in commodities including risk management, supply chain, trading, and investment analysis. Students will have the opportunity to access various state of the art learning technologies that the J.P. Morgan Center for Commodities offer, such as: Bloomberg, Morningstar, and CQG through live demonstrations. This class will have the opportunity to meet and interact with guest speakers and industry executives as well as attend field trips to various commodity sites. Examples may include visiting Newmont Mining's gold mine in Cripple Creek and visiting Excel Energy and/or Ardent Mills' trading floors in downtown Denver to further learn the business skills required for these types of positions. Max hours: 1 Credit.

Grading Basis: Satisfactory/Unsatisfactory

CMDT 2100 - The Future of Energy (3 Credits)

This class provides students with an introduction to energy and how it supports our everyday lives, from how these sources powers our homes, drives the food we eat, the clothes we wear and enables our mobility. Students will gain understandings of the various forms of energy, including both non- and renewable sources, including how these are produced, transported, traded, and consumed here in Colorado, in the U.S. and around the world. Students will explore key topics including energy emissions, climate change as well as topical geopolitical events related to energy. Importantly, students will research and provide opinions on realistic scenarios and opportunities that we may expect for our energy future. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CMDT 4490 - Commodity Trading (3 Credits)

This is a co-listed class with the J.P. Morgan Center for Commodities and the Finance Department. This course focuses on how securities and futures contracts are designed and traded including trading exchange operations, regulation, trading mechanisms and processes. Students will learn the theory and practice of securities and futures contract trading with a focus on hands-on trading experience using industry software (CQG and Bloomberg) as well use of data sources (Morningstar). In this course, we will review the origins of liquidity, volatility, price efficiency, and trading profits. Next we will cover a host of topics concerning equity and commodity trade execution strategies, such as why and how investors trade, what and when investors profit from investing and speculating, the key principles of high-frequency trading and investor's overconfidence, why market institutions are organized as they are, and the role of public policy in the markets. Cross-listed with CMDT 6490, FNCE 4490 and FNCE 6490. Max hours: 3 Credits.

Grading Basis: Letter Grade

CMDT 4582 - Commodity Supply Chain Management (3 Credits)

This course introduces the design, analysis, management, and control of supply chains as applied to commodities. The course covers integration of processes and systems, relationship management of upstream and downstream supply chain players, and commodity- specific supply chain strategies. Cross-listed with CMDT 6582. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students at a junior standing or higher

CMDT 4682 - Commodity Valuation and Hedging (3 Credits)

This course is a practical introduction to commodity markets. Students will learn how commodities are managed in the global markets from a hedgers, speculators and arbitrageurs point of view. Understanding the relationships between commodities and the global economy will be investigated. In addition, commodities will be looked at as an asset class and cross-asset relationships will be studied. Students will be introduced to futures and options markets analysis deploying strategies professional traders use in diverse market conditions. Students will work with the various trading software throughout the course and gain proficiency in real-world trading. Cross-listed with CMDT 6682. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

CMDT 4782 - Commodity Data Analysis (3 Credits)

This course is an applied introduction commodity data analysis. Students will learn how to analyze commodity prices using quantitative and qualitative techniques. Relationships between commodities and the global economy will be investigated. In addition, commodities will be looked at as an asset class and cross-asset relationships will be studied. Students will be introduced to forecasting techniques and be able to develop and evaluate various forecasting models. Students will work with the open source Python software throughout the course and gain proficiency. Topics include: regression analysis, univariate models, non-stationarity, vector autoregressions, cointegration, volatility modeling, principal component analysis, Python programming, and other topics time permitting. Cross-listed with CMDT 6782. Max hours: 3 Credits.

Grading Basis: Letter Grade

CMDT 4802 - Foundations of Commodities (3 Credits)

This course introduces students to the physical aspects of commodities and connects them to the financial markets in which commodities are traded. Fundamental concepts and terminology necessary for understanding commodity production, transportation, economics, financial analysis and marketing are described. Supply chains for several specific commodities are reviewed in detail, as examples of the production and market structure knowledge needed to be successful professional participants in commodity trading capacities. The course also serves a foundation for more focused education in the specific commodity sectors, as well as the applied use of marketing and financial trading concepts learned in other courses. Cross-listed with CMDT 6802 and FNCE 4802/6802. Restriction: Restricted to undergraduate students at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students at a junior standing or higher

Communication (COMM)

COMM 1001 - Presentations and Civic Life (3 Credits)

Democratic life is all about sharing ideas, debating key issues, and creating a sense of community—democracy is communication. This class teaches students how to deliver successful presentations in civic venues. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

COMM 1011 - Communication and Communities (3 Credits)

All day, every day, we communicate with others. This survey class teaches students the fundamental roles communication plays in our everyday lives, work places, communities, and interpersonal relationships. The course foregrounds the ways different communities practice different methods of communication. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

COMM 1021 - Introduction to Media Studies (3 Credits)

We live in a media-saturated world: radio, TV, film, music, social media, smartphones and more. This class explores how media shape our everyday lives and how recent trends and shifts in media technologies are presenting opportunities for and challenges to democratic processes. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

COMM 1041 - Interpersonal Communication (3 Credits)

Want to learn how to get along with others? How to understand yourself? This class teaches students about self-esteem, the attraction process, nonverbal communication, relationship development, family communication, conflict resolution, and more. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

COMM 1071 - Introduction to Journalism (3 Credits)

News is the lifeblood of democracy. This class teaches students the histories of, debates within, and best practices for journalism in print, digital, and other media. This class is writing intensive. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

COMM 1111 - First Year Seminar (3 Credits)

This is a special seminar format class for incoming first year students; topics vary by semester so check with the instructor. The class is especially helpful for adjusting to life in college. Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

COMM 2017 - Dialogue, Debate, and Disagreement (3 Credits)

This course is designed for bilingual and non-native English speakers who seek to cultivate academic American English writing skills and U.S.-style debate norms. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 2020 - Communication, Citizenship, and Social Justice (3 Credits)

Introduction to debates about and means of practicing citizenship and social justice. Issues may include democratic participation, electoral politics, community engagement, and civil rights. Note: No Credit for COMM 2020 and COMM 2021. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

COMM 2021 - Communication and Citizenship (3 Credits)

This course explores the complexities of citizenship in cultural, national, and global forms. The class addresses the roles communication plays in practicing citizenship via such topics as cultivating a sense of belonging, debating the allocation of rights, practicing different modes of civic engagement, and more. Note: No Credit for COMM 2020 and COMM 2021. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

COMM 2030 - Digital Democracy (3 Credits)

Constant technological innovation means most Americans experience democracy in online formats; this class equips students with tools for living in our digital age. Topics include analyzing websites, studying online political organizing, and learning how to produce materials for online advocacy. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

COMM 2045 - Workplace Communication (3 Credits)

This class focuses on theories and practices of leadership, team-building, relationship development, and other workplace communication skills. Students learn and practice communication strategies for managing workplace challenges. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

COMM 2050 - Professional Presentations (3 Credits)

Employers value clear, persuasive, and ethical communication. This class develops the communication skills used in business and professional settings, with an emphasis on sharing information, using media, and team-building. Term offered: fall, spring, summer. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring, Summer.

COMM 2051 - Introduction to Strategic Communication (3 Credits)

Learn how to lead your organization with coordinated messaging. This class teaches marketing & public relations, targeted political messaging, and organizational communication, and studies how strategic communication works in different media, civic, and professional environments. Students will not receive credit for this class if they have already received credit for COMM 4635. Term offered: fall, spring, summer. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring, Summer.

COMM 2075 - Researching and Writing in Comm (3 Credits)

This on-line class enables students to learn the research and writing skills that will enable them to excel in the rest of the classes they take to complete the Communication major. Because the course is intended for Communication majors, our readings and modes of analysis provide students an overview of the discipline in general and of the "Pathways" that structure our major. The class is writing intensive. Term offered: spring, summer, fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring, Summer.

COMM 2081 - New Media Production and Management (3 Credits)

This course develops skills in producing, distributing, and managing new media content using digital communication platforms; students also learn skills in management, networking, and new media leadership. Term offered: fall, spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

COMM 2082 - Introduction to Environmental Communication (3 Credits)

Climate change and environmental degradation are just two of numerous environmental crises that are debated, experienced, and shaped by competing interests. This class addresses communication about environmental and climate justice, sustainability, green marketing, and other topics. Term offered: fall, spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

COMM 2500 - Introduction to Health Communication (3 Credits)

Health industries are among the fastest growing sectors of the U.S. economy. This class enables students to begin thinking about their health, the health of their communities, and the health of the nation as systems of language and power. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

COMM 3072 - Media Writing Skills (3 Credits)

This class covers the major media writing types, including hard or straight news, features, reviews, editorials, web content, and social media, plus notetaking, interviewing, and editing skills. This class is writing intensive. Term offered: fall, spring, summer. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring, Summer.

COMM 3081 - Introduction to Digital Studies (3 Credits)

Develop marketable skills such as building websites, making interactive maps, recording podcasts, and analyzing data while also studying the cultural and ethical dimensions of these technologies. Cross-listed with COMM 5081, HIST 3260, and HIST 5260. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Spring.

COMM 3230 - Chinese Communication & Culture in Context (3 Credits)

This course is designed for CU Denver students studying at the ICB program in Beijing. For such students, the course introduces Chinese communication practices and cultural expectations, easing the student's transition into life in Beijing. Field trips are required. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

COMM 3231 - Famous U.S. Trials (3 Credits)

Interested in Law School? . . . This introduction to the history of the U.S. trial court system contextualizes significant trials in historic and cultural moments. The course explores the roles of legal communication and mass communication in contemporary representations of trials. Cross-listed with HIST 3231. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Spring.

COMM 3271 - Communication and Diversity (3 Credits)

Is America a melting pot or a raging fire of animosity? This class explores the complexities of communication across diverse identities such as race, ethnicity, gender, and political affiliation, and attempts to seek common ground by understanding our unique identities. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Cultural Diversity.
Typically Offered: Fall, Spring, Summer.

COMM 3275 - Family Communication (3 Credits)

Communication within families can be loving, or terrible, or awkward. This class explores family communication processes in traditional and nontraditional families by examining conflict, family secrets, decision-making, and practical guidelines for improved communication patterns. Term offered: fall, spring, summer. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring, Summer.

COMM 3640 - TV, Culture, & Communication (3 Credits)

This course examines television theories and histories, from broadcast TV to internet streaming. Investigating TV industries and representations, students will gain an understanding of TV's role in contemporary culture. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Spring.

COMM 3650 - Media and Society (3 Credits)

This class examines the intersections of new communication technologies, popular culture, and their impact on society. The class develops approaches for examining media as a key part of our everyday lives and as an object of scholarly inquiry. Term offered: fall, spring, summer. Prereq: COMM 1021 with a C- or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: COMM 1021 with a C- or higher.
Typically Offered: Fall, Spring, Summer.

COMM 3660 - Social Media for Social Change (3 Credits)

Students analyze social media platforms, study and critique social movements that have harnessed the power of social media, and assess social justice events to understand how social media have been used to facilitate social change. Prereq: Students must have completed COMM 1011 and COMM 2020 with a C- or higher, or receive permission from the instructor, to enroll in this course. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Students must have completed COMM 1011 and COMM 2020 with a C- or higher.

Typically Offered: Fall, Spring.

COMM 3840 - Independent Study (1-3 Credits)

Independent Studies are an ideal vehicle for working one-on-one with a faculty member to produce an original publishable piece of scholarship, or other media format, or a civic engagement project. Speak to your favorite faculty member/teacher about the possibilities. Note: Students must submit a special processing form, completely filled out and signed by the student and faculty member, describing the course expectations, assignments, and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

COMM 3939 - Internship (1-6 Credits)

Employers love work experience, so advance your communication skills while polishing your resume by working with a community leader. Internships enable students to gain entry level experience while exploring career interests and working environments; to apply course theory and concepts to build communication skills in a workplace of their choosing; and to develop a portfolio to showcase their career-focused assets. Note: This course fulfills the communication department's exit class requirement. Prereq: Students must have completed 15 credit hours at CU Denver and have a 2.75 GPA overall and must work with the Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

COMM 4000 - Communication and Sport (3 Credits)

While sports are often sought for entertainment, they are more than just a game: they both mirror and shape our understandings of gender, race, class, sexuality, ability, nationality and more. This class addresses these issues while also thinking about sports in global frameworks. Cross-listed with COMM 5000. Term offered: fall, spring. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

COMM 4015 - Communication and Civility (3 Credits)

Examines the central role of communication in the creation of a civil and humane society. The definition, understanding, and practices of civility in public discourse and in professional, social, and personal relationships are explored. Film, literature, music, and other texts are utilized to illustrate key concepts and serve as catalysts for discussion. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4020 - Feminist Perspectives on Communication (3 Credits)

For thousands of years, men have run the show—feminism challenges that injustice by inviting us to imagine more equitable ways of being in the world. This class examines major feminist thinkers to imagine different communication paradigms. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5020. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

COMM 4021 - Perspectives on Rhetoric (3 Credits)

Rhetorical criticism is the study of how language works to persuade. This class surveys major thinkers to offers students a range of methods, which are then applied to address specific case studies. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5021. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring, Summer.

COMM 4022 - Critical Analysis of Communication (3 Credits)

Are your beliefs rooted in facts or fictions, or a little of both? Does your race, or nationality, or gender influence your beliefs? This class surveys the research methods used to analyze messages from a range of critical perspectives. Cross-listed with COMM 5022. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4031 - Perspectives on Communication (3 Credits)

This class reviews major theories for studying communication, demonstrating that the field of communication is an amalgam of differing, and sometimes clashing, perspectives. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4040 - Communication, Prisons, and Social Justice (3 Credits)

This class examines the U.S. prison-industrial complex and enables students to envision ways of reducing crime and improving democracy by engaging in community service. Note: This course fulfills the communication department's exit class requirement. Strongly Recommended: Students complete COMM 2020 or COMM 2030 prior to taking this class. Cross-listed with COMM 5040. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

COMM 4051 - Advanced Strategic Communication (3 Credits)

Provides senior-level training in hands-on communication environments where targeted messaging seeks specific outcomes. All students complete projects for community group, media outlet or corporation they choose. Students will not receive credit for this class if they have already received credit for COMM 4640. Note: This course fulfills the communication department's exit class requirement. Prereq: Students must have completed COMM 2051 or COMM 2071 or COMM 3680 with a C- or higher, or receive permission from the instructor, to enroll in this course. Cross-listed with COMM 5051. Term offered: fall, spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Students must have completed COMM 2051 or COMM 2071 or COMM 3680 with a C- or higher.

Typically Offered: Fall, Spring.

COMM 4071 - Advanced Media Writing Skills (3 Credits)

This class builds upon the skills learned in COMM 1071 and COMM 3072 by focusing on long-form writing suitable for magazines and websites.

This class is writing intensive. Prereq: Students must have completed COMM 3072 with a C- or higher, or receive permission from the instructor, to enroll in this course. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 3072 with a C- or higher, or receive permission from the instructor, to enroll in this course.

Typically Offered: Spring.

COMM 4082 - Wilderness Communication (3 Credits)

This class engage issues of wilderness, communication, and environmental sustainability. Students read philosophical, theoretical, and academic literature on human symbolic constructions of wilderness.

Field trips may be involved; talk to the instructor. Cross-listed with COMM 5082. Term offered: summer, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Summer.

COMM 4111 - Theories of Leadership (3 Credits)

This class examines research and applications related to the major theories of leadership, and offers students the skills for practicing justice-based leadership. Cross-listed with COMM 5111. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4152 - Religion & Communication (3 Credits)

This course focuses on the dynamics between religion, culture, and communication and how these have led to intercultural peace, centuries of war, and/or different visions of belonging. This class addresses these dynamics to improve intercultural dialogue and conflict resolution processes, foregrounding the search for justice. Cross-listed with INTS 4152, RLST 4152, COMM 5152, INTS 5152, and RLST 5152. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4215 - Ethics in Communication (3 Credits)

Designed to help students identify and address the daily ethical challenges that occur in private, social, and professional contexts. Focus is on recognizing, analyzing, and resolving real-world ethical dilemmas using diverse approaches to ethical decision making. Cross-listed with COMM 5215. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4221 - Research Methods: Qualitative (3 Credits)

This class applies qualitative research methods to human communication practices, including the processes of designing qualitative studies, collecting data, analyzing and interpreting data, and reporting results. Cross-listed with COMM 5221. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4230 - Nonverbal Communication (3 Credits)

We all speak volumes without using words. This class studies nonverbal behaviors that accompany or replace verbal communication, including facial expressions, eye contact, gestures, vocal characteristics, touch and personal adornment. Cross-listed with COMM 5230. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4240 - Organizational Communication (3 Credits)

Churches, schools, companies, NGOs, the government—these are all organizations. This class addresses the theories of how organizations succeed or fail and stresses functional workplace skills and practices.

Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5240. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

COMM 4245 - Advanced Organizational Communication (3 Credits)

We all live our lives embedded in organizations. This class builds on COMM 4240 to explore theoretical perspectives on communication in complex organizations. Students analyze assumptions and craft pragmatic solutions. Cross-listed with COMM 5245. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4255 - Negotiations and Bargaining (3 Credits)

This class engages Principled Negotiation theory and practice and involves numerous negotiation simulations. These are skills-based exercises that emphasize communication strategies and traverse a number of different negotiation contexts. Through the simulations, both group and dyadic work is practiced. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5255. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Summer.

COMM 4260 - Communication and Conflict (3 Credits)

Sometimes it seems like our days are full of conflict—why is that? This class studies the influence of communication on intrapersonal, interpersonal, intragroup, and intergroup conflict situations, and offers communication skills for building better relationships. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5260. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring, Summer.

COMM 4262 - Mediation (3 Credits)

Knowing how to help find mutually satisfying resolutions to conflict is a terrific life skill. This class explores theoretical and practical aspects of mediation in a variety of contexts ranging from divorce mediation to labor-management disputes. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5262. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring, Summer.

COMM 4265 - Gender and Communication (3 Credits)

Gender is constructed, performed, evaluated, and negotiated in our daily lives. This class explores scientific research on gender, gender stories in popular culture, the process of crafting and performing gender stories, and responses to gender performances. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5265. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

COMM 4268 - Communication and Diversity in U.S. History (3 Credits)
Explores issues of diversity and community in the construction of U.S. culture. Emphasis on legal and historical texts that codify or challenge majoritarian notions of difference and systems of social control. Cross-listed with COMM 5268. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4270 - Intercultural Communication (3 Credits)
The age of globalization means we are all neighbors, working across national boundaries and even continents. This class examines the philosophies, processes, problems, and potentials unique to communicating across cultures to address issues of social justice and ethical intercultural practices. We will consider the important role of context in interactions across cultures and subcultures, globally, transnationally, and within the U.S. See your INTS advisor for more information. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5270 and INTB 6270. Term offered: fall, spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

COMM 4280 - Communication and Change (3 Credits)
Examines the role of communication in change processes of various kinds, including social change and diffusion of innovations. Cross-listed with COMM 5280. Prereq: COMM 2082 with a C- or higher or permission from the instructor. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: COMM 2082 with a C- or higher.

COMM 4282 - Environmental Communication (3 Credits)
Our world is shaped by policies and practices that threaten life on Earth. With such high stakes for making a more livable, just, and equitable future, this course examines storytelling, naming, framing, and the other communication concepts that are essential for navigating our shared planet. Prereq: COMM 2082 with a C- or higher permission from the instructor. Cross-listed with COMM 5282. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: COMM 2082 with a C- or higher.
Typically Offered: Spring.

COMM 4290 - Web Design (3 Credits)
Covers writing web pages in HTML, beginning Photoshop, style sheets, bitmapped animations, issues of usable layout, navigability, structure, typography, and color on the web. Projects require students to develop static web sites. Cross-listed with COMM 5290. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4300 - Multimedia Authoring (3 Credits)
Analysis and evaluation of components of multimedia development and hands-on instruction featuring computer animation for advertising, training, and educational projects. Cross-listed with COMM 5300. Max hours: 3 Credits.
Grading Basis: Letter Grade

COMM 4430 - Communication, China, and the US (3 Credits)
This course provides a senior-level opportunity to study how China and the USA have spoken about and to each other, from the Opium War through the Cyber Wars, thus situating both nations in a world of globalizing communication and interdependence. Note: this course fulfills the communication department's exit class requirement. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5430. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

COMM 4500 - Health Communication (3 Credits)
This class examines the role of communication in a wide range of health contexts. Topics include cultural constructions of health and illness, public health communication campaigns, client-provider interactions, telemedicine, community-based health programs, and medical journalism. Note: This course fulfills the communication department's exit class requirement. Cross-listed with COMM 5500. Term offered: fall, spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

COMM 4525 - Health Communication and Community (3 Credits)
This course provides a broad knowledge base about health disparities and culturally competent frameworks in healthcare by enabling students to engage in service learning projects with local health-related community groups. Note: this course fulfills the communication department's exit class requirement. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Spring.

COMM 4550 - Rhetorics of Medicine & Health (3 Credits)
This senior seminar explores why it matters how we talk and think about medicine and health. Case studies explore contagion, contested illnesses, the body, death, and biopower. The course requires extensive discussion of readings and an original research project. Note: This course fulfills the communication department's exit class requirement. Cross-listed with COMM 5550. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

COMM 4557 - Crisis and Emergency Communication (3 Credits)
This course examines strategic communication practices throughout the three stages of a crisis or emergency event. Special emphasis is placed on crisis planning, emergency messaging, media relationships, image restoration, ethical responses, and organizational learning. Cross-listed with COMM 5557, PUAD 4620, and PUAD 6620. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Spring.

COMM 4558 - Digital Health Narratives (3 Credits)

This course blends readings, discussions, and activities about health narratives with digital media production skills to teach students how to create compelling digital stories about health-related topics. Students produce digital messages for the community group of their choosing. Note: this course fulfills the communication department's exit class requirement. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5558. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

COMM 4575 - Designing Health Messages (3 Credits)

Examines the roles of communication in the design and impact of health messages/campaigns. We will design and assess health communication messages/campaigns in a participatory, process-oriented way using varied communication tools. Cross-listed with COMM 5575. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4600 - Media Theory (3 Credits)

Surveys a broad array of critical and interpretive approaches to the study of media. Approaches include political economic, semiotic, rhetorical, psychoanalytic, feminist, and cultural. Cross-listed with COMM 5600. Max Hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4601 - You Are What You Eat: Food as Communication (3 Credits)

Food is a source of identity, culture, and belonging. It communicates heritage and belonging. Because food provides communication channels for much of who we are as individuals, as a community, and as a society, this course analyzes food as a form of communication. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5601. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring, Summer.

COMM 4610 - Communication, Media, and Sex (3 Credits)

This class develops the tools to think critically about representations of sexuality and to understand the social construction of sexuality, the role of sexual representations in mass media and society, and the complex relationships between sexual acts, identities, and desires. Restriction: Restricted to class level Junior, Senior, or permission of instructor. Cross-listed with WGST 4610. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

COMM 4611 - Rhetoric of Global Food Policy (3 Credits)

This course examines stakeholder relations, agendas, and debates about global food policy using rhetorical concepts and analysis. Topics include the framing of debates about agriculture, hunger and obesity, the greening of food governance, sustainable food systems, and more. This course fulfills the communication department's pathway course requirement. Cross-listed with INTS 4611. Prereq: Junior standing or higher. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

COMM 4620 - Health Risk Communication (3 Credits)

We are bombarded all day with communication expressing a sense of risk, of danger, of threats to our individual and communal well-being. This class acquaints students with contemporary theory, research, and practice in health risk communication across a variety of threats both real and imagined. Strongly Recommended: COMM 4500. Cross-listed with COMM 5620, ENVS 5620, and PBHL 4620. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4621 - Visual Communication (3 Credits)

If an image is worth a thousand words, then what happens when we ingest thousands of visual images each day? This class explores the social, cultural, and behavioral effects of visual images in a variety of contexts, including graffiti, film, advertising, art, and architecture. Prereq: COMM 1021 with a C- or higher. Cross-listed with COMM 5621. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 1021 with a C- or higher.

Typically Offered: Spring.

COMM 4660 - Queer Media Studies (3 Credits)

Queer Media Studies, a discussion-based seminar, investigates the history of a variety of LGBTQ+ media — including news, film, television, comics, games, music, and the Internet. Students engage in a variety of media projects to explore LGBTQ+ histories, queer aspects of media production, reception, and media messages. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 5660, WGST 4660, WGST 5660. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

COMM 4665 - Principles of Advertising (3 Credits)

Provides a fundamental understanding and appreciation of advertising in today's global society, including consumer motivation, buying behavior, research, creative development, and media planning. Prereq: COMM 1021 with a C- or higher. Cross-listed with COMM 5665. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 1021 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

COMM 4680 - Mass Media Law And Policy (3 Credits)

Covers issues of mass communication and the law and ethics, including issues of the First and Fourth Amendments, communication regulations, intellectual property, public access and obscenity. Cross-listed with COMM 5680. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4681 - Communication Issues in Trial Court Practices and Processes (3 Credits)

Introduces students to communication and language research aimed at improving the fairness, reliability, and validity of court and judicial processes, including lawyer-client interviews, interrogatories, jury selection, jury instructions, witness examination, and the use of language evidence in court. Strongly Recommended: ENGL 2030. Cross-listed with COMM 5681. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4682 - Political Communication (3 Credits)

Examines the communication processes involved in mediated political events. Topics include the stages of the campaign process, media coverage of the political campaign process, and literacy skills needed to understand political advertising. Cross-listed with COMM 5682. Prereq: COMM 2020 or COMM 2030 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 2020 or COMM 2030 with a C- or higher.

Typically Offered: Fall.

COMM 4683 - Media in the Courtroom (3 Credits)

Law and Media: From the ever-present onscreen legal dramas and criminal procedurals to the presence of media in real-life courtrooms, law and media are hopelessly intertwined in the US. This course examines how televised versions of law potentially impact real-life courtrooms and vice versa. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

COMM 4688 - Senior Seminar: Transitioning from College to Career (3 Credits)

Ready to graduate? Then take this class, which prepares students to enter the job market and to integrate and reflect on their experience in communication. Must have senior standing. This course fulfills the communications department's exit course requirement. Restriction: Restricted to students with senior standing. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to Senior standing.

Typically Offered: Fall, Spring.

COMM 4700 - Thesis and Project Practicum (3 Credits)

Focuses on strategies of research design and writing for undergraduate students working on theses for Latin honors. Students pick their own research topics. Note: This course fulfills the communication department's exit class requirement. To be eligible to enroll in this course you must be a senior majoring in communication, have a cumulative GPA of 3.0 and have a GPA in your communication coursework of 3.5. Cross-listed with COMM 6700. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

COMM 4710 - Topics in Communication (1-3 Credits)

Special classes for faculty-directed experiences examining communication issues and problems not generally covered in the curriculum. Cross-listed with COMM 5710. Term offered: fall, spring, summer. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Typically Offered: Fall, Spring, Summer.

COMM 4720 - Dynamics of Global Communication (3 Credits)

This class explores global communication dynamics by analyzing the relationships between world media, international events, economics, and geopolitics. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with COMM 5720. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

COMM 4722 - Communicating Latinx Cultures (3 Credits)

Communicating Latina/o/x Cultures centers historical and contemporary vernacular and institutional discourse and narratives about, by, and for Latina/o/x people and communities. Drawing on theories, methods, and practices to understand the complexities of Latina/o/x cultures and lives, we will investigate how different actors and activists express and experience borders, migration, dispossession, citizenship, colonialism/coloniality, colorism, white supremacy, environmental racism (including anti-Blackness), mono- and multilingualism, self-determination struggles, power, representation, resistance, and mutual support networks for alternative worldmaking. To situate these concepts and concerns, we will explore contexts and places ranging from Colorado to the Caribbean. Term Typically Offered: Spring. Cross-listed with COMM 5722, ETST 4722, and ETST 5722. Max hours: 3 credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

COMM 4750 - Legal Reasoning and Writing (3 Credits)

Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Strongly Recommended: ENGL 1020, ENGL 2030 and any 3000 level English course. Cross-listed with COMM 5750, PSCI 4757, PSCI 5747 and ENGL 4750. Max hours: 3 Credits.

Grading Basis: Letter Grade

COMM 4760 - New Media and Society (3 Credits)

Does social media foster democracy and social justice or does it spread misinformation and extremism? In this course, students will investigate the social and political aspects of new media by examining the complex relationships between media technologies, industries, and society. Prereq: COMM 1021 and COMM 2020 with a C- or higher. Cross-listed with COMM 5760. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 1021 and COMM 2020 with a C- or higher.

Typically Offered: Fall, Spring.

COMM 4840 - Independent Study (1-3 Credits)

Independent Studies are an ideal vehicle for working one-on-one with a faculty member to produce a publishable piece of scholarship, or other media format, or a civic engagement project. Speak to your favorite teacher about the possibilities. Note: Students must submit a special processing form, completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of instructor. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

COMM 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form, filled out and signed by the student and faculty member, describing the course expectations, assignments, and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

COMM 4995 - Global Study Topics (1-15 Credits)

Go see the world! This course is reserved for CU Denver faculty-led study abroad experiences. Versions go to China, Guatemala, Spain, Italy, and others. Destinations vary based on the semester so check with the Department for details. Students register through the Office of Global Education. Term offered: fall, spring, summer. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Fall, Spring, Summer.

Computer Science (CSCI)

CSCI 1001 - Computer Forensics I (3 Credits)

Topics covered: how to conduct a computer forensic exam; how an individual can hide data on a computer; how the investigator can find that hidden data. This course will also incorporate hands-on learning through the use of a forensic software package. (Non-CS majors) Max Hours: 3 Credits.

Grading Basis: Letter Grade

CSCI 1200 - Fundamentals of Engineering Design Innovation (3 Credits)

This course introduces concepts of engineering design innovation at a variety of scales and disciplines. Participants will experience and explore core technology and design themes including design principles, processes, methods, modes of thinking, and social and cultural aspects of design. Cross-listed with CVEN 1200, ENGR 1200, MECH 1200, ELEC 1201 and IWKS 2100. Max hours: 3 Credits.

Grading Basis: Letter Grade

CSCI 1350 - Introduction to Computing in Society (3 Credits)

This is an introductory course for individuals who would like to learn about the field of computer science, how modern computing is affecting society, and the basics of computer programming. We will explore how computing has changed society, how intertwined in our daily lives computer programs have become, and how these programs are created. We will explore these topics while learning the basics of computer programming with a modern programming language. Prereq: High School Algebra. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - No Lab.

CSCI 1410 - Fundamentals of Computing (3 Credits)

First course in computing for those who will take additional computer science courses. Covers the capabilities of a computer, the elements of a modern programming language, and basic techniques for solving problems using a computer. Coreq: CSCI 1411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: CSCI 1411.

CSCI 1411 - Fundamentals of Computing Laboratory (1 Credit)

This laboratory is taken with CSCI 1410 and will provide students with additional help with problem solving and computer exercises to compliment the course material covered in CSCI 1410. Coreq: CSCI 1410. Max Hours: 1 Credit.

Grading Basis: Letter Grade

D-En CO: CSCI 1410 coreq

CSCI 1510 - Logic Design (3 Credits)

The design and analysis of combinational and sequential logic circuits. Topics include binary and hexadecimal number systems, Boolean algebra and Boolean function minimization, and algorithmic state machines. Lecture/lab includes experiments with computer-aided design tools. This course requires the level of mathematical maturity of students ready for Calculus I. Max hours: 3 Credits.

Grading Basis: Letter Grade

CSCI 1800 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CSCI 2002 - Computer Forensics II (3 Credits)

This is a continuation of CSCI 1001 This course will cover: computer forensics for advanced operating systems (Mac, Linux, and Unix) and mobile device forensics. This course will incorporate hands-on-learning by utilizing a computer forensics software package. (Non CS majors) Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 1001

CSCI 2132 - Circuits and Electronics (3 Credits)

This course is designed to serve as the basic course in CSE curriculum for second year bachelor students. It introduces the fundamentals of the analog and digit circuit abstraction and applications. Topics include: resistive elements, networks, sources, switches, MOS transistors, digital abstraction, amplifiers, energy storage elements. A web-based laboratory will allow students to have hands-on experiments. Prereq: MATH 2411, PHYS 2331, and CSCI 1510. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 1510, MATH 2411, and PHYS 2331

CSCI 2312 - Object Oriented Programming (3 Credits)

Programming topics in a modern programming language. The emphasis is on problem solving using object oriented and Generic Programming. Topics include advanced I/O, classes, inheritance, polymorphism and virtual functions, abstract base classes, exception handling, templates, and the Standard Template Library. Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411

CSCI 2421 - Data Structures and Program Design (3 Credits)

Topics include a first look at an algorithm, data structures, abstract data types, and basic techniques such as sorting, searching, and recursion. Programming exercises are assigned through the semester. Prereq: CSCI 2312 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2312 with a grade of C- or higher.

CSCI 2511 - Discrete Structures (3 Credits)

Covers the fundamentals of discrete mathematics, including: logic, sets, functions, asymptotics, mathematical reasoning, induction, combinatorics, discrete probability, relations and graphs. Emphasis on how discrete mathematics applies to computer science in general and algorithm analysis in particular. Prereq: MATH 1401 with a C- or higher (Calculus I). Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 with a C- or higher

CSCI 2525 - Assembly Language and Computer Organization (3 Credits)
Topics include computer architecture, program execution at the hardware level, programming in assembly language, the assembly process, hardware support of some high-level language features, and a program's interface to the operating system. Programming exercises are assigned in this course. These exercises involve the use of specific hardware in designated laboratories. Prereq: Completion of CSCI 1510 and CSCI 2312 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: CSCI 1510 and CSCI 2312 with a C- or higher.

CSCI 2571 - Fundamentals of UNIX (3 Credits)

Introduces the UNIX operating system and its family of related utility programs. History and overview, versions, and common features. File operations, utilities, shells, editors, filters and data manipulation. Shell programming communications and networking, windowing environments, mail and Internet. Programming tools. Simple system administration. Credit will not count toward BSCSE degree. Prereq: Familiarity with operating systems and/or a programming course. Max Hours: 3 Credits. Grading Basis: Letter Grade

CSCI 2800 - Special Topics (3 Credits)

Max Hours: 3 Credits.

Grading Basis: Letter Grade

CSCI 2940 - NAND to Tetris: Foundations of Computer Systems (3 Credits)

Introduces the principles of computer systems that underlie the global information age. Starting from first principles, students gradually construct a simple hardware platform and a modern software hierarchy, yielding a working basic yet powerful computer system. Only introductory programming experience is required. Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411. Cross-listed with IWKS 3300. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411.

CSCI 2941 - Game Design and Development I (3 Credits)

Introduces principles of computer game development, building on the rich interplay of computer science, graphics design, physics, music, and narrative. Students develop interactive 2D and 3D games and a final project. Substantial software development involved, but requires only introductory programming experience. Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411. Cross-listed with IWKS 3400. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411.

CSCI 2942 - IoT: The Internet of Things (3 Credits)

In a world where everything is connected to everything else, how does that work? This course introduces techniques for (1) designing systems that can sense the environment and respond to humans in meaningful ways and (2) creating networks of physical objects that collect and exchange data. Such systems might include wearable sensors, interactive art, and Internet-connected home devices. Working individually and in teams, students will develop projects using Inworks' materials, devices, and fabrication tools. The course involves considerable prototyping and software development but requires only introductory programming and prototyping experience. Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411. Cross-listed with IWKS 4120. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 1410 and CSCI 1411.

CSCI 2980 - Foundations of Data Science (3 Credits)

First course in data science for those who are interested in understanding how given data about a real-world phenomenon, one can use computation with data to make discovery about that phenomenon. Combines three perspectives: inferential thinking, computational thinking, and real-world relevance. The course teaches critical concepts and skills in computer programming and statistical inference, in conjunction with hands-on analysis of real-world datasets. It also delves into social issues surrounding data analysis such as privacy. Note: This course cannot be used to fulfill computer science major requirements. Max credits: 3 Hours.

Grading Basis: Letter Grade

CSCI 3287 - Database System Concepts (3 Credits)

Introduces database design, database management systems, and the SQL standard database language. Includes data modeling techniques, conceptual database design, theory of object-relational and relational databases, relational algebra, relational calculus, normalization and database integrity. Prereq: Grade of C- or higher in the following courses: ENGL 1020, CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors and Cybersecurity Majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: ENGL 1020, CSCI 2312 and CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors and Cybersecurity Majors.

CSCI 3310 - App Development for Mobile Devices (3 Credits)

This course introduces students to the concept of mobile computing with emphasis on developing application for mobile devices. In this course student will learn about tools used for developing apps for mobile devices, user interface design, application life cycle, creating data driven applications and connecting applications to web APIs. Prereq: CSCI 2312 and CSCI 2421 with a C- or higher. Restriction: Restricted to students in the CSCS-BA and CSCI-MIN programs only.

Grading Basis: Letter Grade

Prereq: CSCI 2312 and CSCI 2421 with a C- or higher. Restriction: Restricted to students in the CSCS-BA and CSCI-MIN programs only.

CSCI 3320 - Advanced Programming (3 Credits)

The course will cover a wide range of advanced programming topics via focusing on development of cross-platform applications. The focus will be on problem solving and developing applications with modern languages (such as C++, Java, Objective-C) & frameworks, including Xcode, Angularjs (with Javascript, HTML5, CSS), Phonegap, & Webstorm. Prereq: CSCI 2421. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2421 with a C- or higher.

CSCI 3412 - Algorithms (3 Credits)

Design and analysis of algorithms. Asymptotic analysis as a means of evaluating algorithm efficiency. The application of induction and other mathematical techniques for proving the correctness of an algorithm. Data structures for simplifying algorithm design, such as hash tables, heaps and search trees. Elementary graph algorithms. Assignments include written work and programming projects. Prereq: Grade of C- or higher in the following courses: CSCI 2312, 2421 and 2511. Restriction: Restricted to Computer Science Majors and Minors and Cybersecurity Majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 2312, 2421 and 2511. Restriction: Restricted to Computer Science Majors and Minors and Cybersecurity Majors.

CSCI 3415 - Principles of Programming Languages (3 Credits)

Introduces programming language design concepts and implementation issues. Includes language concepts such as control structures and data types, formal language specification techniques, and syntactic and semantic implementation issues. Prereq: Grade of C- or higher in the following courses: CSCI 2312, CSCI 2421 and CSCI 2525. Restriction: Restricted to students in the CSCI-BS and CSCY-BS programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 2312, CSCI 2421 and CSCI 2525. Restricted to students in the CSCI-BS and CSCY-BS programs.

CSCI 3453 - Operating System Concepts (3 Credits)

Covers the principles of computer operating systems and the essential components of an operating system. Topics include: I/O devices, file systems, CPU scheduling and memory management. Prereq: CSCI 2525 and CSCI 3412 with a C- or higher. Restriction: Restricted to students in the CSCI-BS, CSCY-BS, and CSSC-CERU programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 3412 and CSCI 2525. Restricted to students in the CSCI-BS, CSCY-BS, and CSSC-CERU programs.

CSCI 3508 - Introduction to Software Engineering (3 Credits)

Introduces principles and practices of software engineering: software life-cycle models, requirements engineering, analysis and design tools, human factors risk management, program certification, project management and intellectual property rights. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to Computer Science Majors and Minors (CSCI-BS, CSCS-BA, CSCI-MIN).

CSCI 3511 - Hardware-Software Interface (3 Credits)

Hardware and software techniques needed to control and program device interfaces. Input and output devices, computer peripherals, device drivers and interfaces are introduced. Specific programmable devices are used in class projects. Prereq: CSCI 2525 with a C- or higher. Restriction: Restricted to students in the CSCI-BS program. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2525 with a C- or higher. Restriction: Restricted to students in the CSCI-BS program.

CSCI 3515 - Internet of Things: Sensing, Communication & Control (3 Credits)

The Internet of Things (IoT) is transforming our physical world into a complex and dynamic system of connected devices on an unprecedented scale. This course covers the basic components of IoT systems: sensing, communication, control, and power supply, as well as case studies on the design of real-world IoT applications, including voice authentication, activity monitoring, and battery management. This course integrates both the theories/science of IoTs and their hands-on implementation, as well as the basic practice of data collection, processing, analysis, and visualization. No credit with CSCI 3511. Prereq: CSCI 2312 and 2421 with a C- or higher. Restriction: Restricted to students in the CSCI-BS program. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2312 and 2421 with a C- or higher. Restriction: Restricted to students in the CSCI-BS program.

CSCI 3560 - Probability and Computing (3 Credits)

Events and probability. Discrete random variables. Moments of random variables. Conditional probability and expectation. The probabilistic method. Markov chains and random walks. Continuous distributions and the Poisson process. Entropy, randomness and information. Randomized algorithms. Prereq: Grade of a C- or higher in CSCI 2511 and MATH 2411. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of a C- or higher in CSCI 2511 and MATH 2411. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3740 - Computer Security (3 Credits)

Introduces basic knowledge from the computer security area. Topics covered in this course include: Cybersecurity Ethics, Penetration Testing, Secure Programming Practices, and Life-Cycle Security. Students will gain the understanding of ethics in cybersecurity with the tools for ethical decision making, learn methods of exploiting vulnerabilities and perform penetration testing on a simple network, understand the characteristics of secure programming with the ability to implement programs that are free from vulnerabilities, and understand security related concerns in a system Life-Cycle and how security principles can be applied to improve security throughout a system. Prereq: Grade of C- or higher in the following courses: CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors and Minors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3751 - Fundamentals of UNIX (3 Credits)

Introduces the UNIX/Linux operating system and its family of related utility programs. History and overview, versions, and common features. Common basic commands, file and process operations, utilities, shells, into the vi editor, filters, and data manipulation. Shell programming communications and networking, windowing environments (X window). Programming tools (gdb). Simple system administration. Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max hours: 3 Credits. Grading Basis: Letter Grade Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Typically Offered: Fall.

CSCI 3761 - Introduction to Computer Networks (3 Credits)

Introduction and overview of computer networks. Topics include Internet protocols, network devices, network security, and performance issues. Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors, Minors, Cybersecurity Majors, and CSSC Certificate. Max hours: 3 Credits. Grading Basis: Letter Grade Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors, Minors, Cybersecurity Majors, and CSSC Certificate.

CSCI 3762 - Network Programming (3 Credits)

Network Programming. This class involves creating and implementing networking protocols that help students delve deeper into the concepts introduced in CSCI 3761. The course requires hands on sockets-based programming at the TCP and UDP level. The course explores and focuses on real-world networking problems. Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max hours: 3 Credits. Grading Basis: Letter Grade Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Typically Offered: Spring.

CSCI 3800 - Special Topics (3 Credits)

Credit and subject matter to be arranged. Restriction: Restricted to Computer Science Majors and Minors. Repeatable. Max hours: 9 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 9. Restricted to Computer Science Majors and Minors (CSCS-BA, CSCI-BS, CSCI-MIN, CMSC-MS)

CSCI 3810 - Special Topics (3 Credits)

Credit and subject matter to be arranged. Credit will not count toward BS Computer Science degree. Restriction: Restricted to BA Computer Science Majors (CSCS-BA). Repeatable. Max hours: 9 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 9. Restriction: Restricted to BA Computer Science Majors. Typically Offered: Fall, Spring.

CSCI 3840 - Independent Study: CSCI (1-3 Credits)

Restriction: Restricted to undergraduate Computer Science Majors and Minors. Repeatable. Max Hours: 9 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 9. Restricted to undergraduate Computer Science Majors and Minors.

CSCI 3910 - Web Development with PHP and MySQL Database (3 Credits)

This course introduces students to programming Web applications using PHP and MySQL database. Topics will include processing form data, file uploads, object oriented programming and database access. Students will also leverage a PHP framework and learn to install and configure a local development environment to test and develop their Web applications. This course is meant to be a hands-on course where students can apply what they learn as they learn it. Students will demonstrate mastery of the materials by applying the principles introduced in class to laboratory exercises, class discussions, and projects. Prereq: CSCI 3287 with a C- or higher. Restriction: Restricted to students in the CSCS-BA and CSCI-MIN programs. Max hours: 3 Credits. Grading Basis: Letter Grade Prereq: CSCI 3287 with a C- or higher. Restriction: Restricted to students in the CSCS-BA and CSCI-MIN programs. Typically Offered: Fall.

CSCI 3916 - Web API (3 Credits)

JavaScript Web technologies for front-end development and back-end development. Building a full end to end solution with a mobile or web front-end, Web API and NoSQL database. Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits. Grading Basis: Letter Grade Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3920 - Advanced Programming with Java and Python (3 Credits)

This course introduces the fundamental concepts to develop programs and projects using modern software engineering techniques using two different programming languages (Java and Python). It will cover and apply pattern design approaches, reusable components driven by everyday needs within many software developments, the relationships between object oriented programming concepts and software design concepts. It will dig deeper into techniques to program single threaded applications as well as advanced techniques to construct concurrent and distributed applications. Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors and Minors. Max hours: 3 Credits. Grading Basis: Letter Grade Prereq: Grade of C- or higher in CSCI 2312 and 2421. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 3963 - Network Structures (3 Credits)

This interdisciplinary course examines how the technological, social and economic worlds are connected and how the study of networks sheds light on these connections. Topics include: how opinions spread through society; the robustness and fragility of financial networks; the technology and economics of Web information and on-line communities. Prereq: Grade of C- or higher in MATH 2411. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits. Grading Basis: Letter Grade Prereq: Grade of C- or higher in MATH 2411. Restricted to Computer Science Majors and Minors.

CSCI 4034 - Theoretical Foundations of Computer Science (3 Credits)
 Introduces abstract models for computation, formal languages and machines. Topics include: automata theory, formal languages, grammars and Turing machines. Prereq: Grade of C- or higher in CSCI 3412. Restricted to Computer Science Majors, Minors, Cybersecurity Majors, and CSSC Certificate. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in CSCI 3412. Restricted to Computer Science Majors, Minors, Cybersecurity Majors, and CSSC Certificate.

CSCI 4110 - Applied Number Theory (3 Credits)
 Every year, Topics include divisibility, prime numbers, congruences, number theoretic functions, quadratic reciprocity, special diophantine equations, cryptography, computer security, and engineering applications. Cross-listed with CSCI 5110. Prereq: Grade of C- or higher in one of the following courses: MATH 3000 or CSCI 2511. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in MATH 3000 or CSCI 2511. Restricted to Computer Science Majors and Minors.

CSCI 4172 - Complexity and Problem Solving (3 Credits)
 Theoretical and practical aspects of solving complex problems, in particular, but not limited to, NP-complete and PSPACE-complete problems. Various heuristic and approximation algorithms, including greedy, ant, and Genetic Algorithms will be studied. This course is by instructor's permission only. Prereq: Grade of C- or higher in CSCI 4034. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in CSCI 4034. Restricted to Computer Science Majors and Minors.

CSCI 4173 - Computational Complexity and Problem Solving (3 Credits)
 Solid, in-depth theoretical foundation in computing, computational complexity, and algorithmics. Additional topics include various algorithms for both discrete and non-discrete problem domains. Models of Computation, Computational Complexity, Time Complexity Classes, Space Complexity Classes, The Theory of NP-completeness. Prereq: Grade of C- or higher in CSCI 4034. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in CSCI 4034. Restricted to Computer Science Majors and Minors.

CSCI 4202 - Introduction to Artificial Intelligence (3 Credits)
 Topics include heuristic search, games playing algorithms, application of predicate calculus to AI, introduction to planning, application of formal grammars to AI. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to Computer Science Majors and Minors (CSCI-BS, CSCS-BA, CSCI-MIN).

CSCI 4203 - Simulation (3 Credits)
 This class in simulation spans three different disciplines: Computer Science, Modeling and Simulation, and Analysis. These will have approximately equal weight with respect to this class, but with more breadth in the Modeling and Simulation and Analysis disciplines and more depth in the supporting Computer Science topics. Excursions are planned for agent-based simulations, knowledge-based simulations, and animation and visualization of simulation results. Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to Computer Science majors and minors. Cross-listed with CSCI 5203. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to Computer Science Majors and Minors (CSCI-BS, CSCS-BA, CSCI-MIN).
 Typically Offered: Fall.

CSCI 4211 - Mobile Computing and Programming (3 Credits)
 This course contains two main simultaneous tracks, namely mobile computing and mobile programming. A series of lectures on various aspects of mobile computing provides an understanding of challenges and solutions in design and implementing mobile systems. The main topics include mobile sensing, human mobility and its technical implication. Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4220 - Social Networks & Informatics (3 Credits)
 The main topics covered by the course will include 1) social network data structures, 2) basic random graph models and graph algorithms; 3) recommendation systems and predictive models 4) query suggestion and content analysis 5) link analysis and community detection 6) the spread of information, disease, and influence on networks. This course builds a solid foundation in social informatics technology. Prereq: CSCI 3412. Restriction: Restricted to computer science majors and minors. Cross-listed with CSCI 5220. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: CSCI 3412. Restriction: Restricted to computer science majors and minors. Programs restricted to: CSCI-BS, CSCS-BA, CSCI-MIN.

CSCI 4287 - Embedded Systems Programming (3 Credits)
 Embedded Systems Programming happens across a spectrum of Domains. Embedded Systems Programming in the Small is characterized by the creation of small applications in high volumes. Embedded Systems Programming in the Large is characterized by the creation of medium to large applications in one-off or low volumes using specialized Operating Systems such as Real-time Operating Systems. Students will current languages, and are expected to have basic Operating Systems understanding. Prereq: Graded with C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4407 - Security & Cryptography (3 Credits)

A broad overview of cryptography and its relation to computer security. Topics include basic standard cryptographic techniques, a history of codes and ciphers, RSA, DES, AES, Elliptic Curve Cryptography, ElGammal, and applications to current and future technologies. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Cross-listed with CSCI 5407. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate.

CSCI 4408 - Applied Graph Theory (3 Credits)

Introduces discrete structures applications of graph theory to computer science, engineering and operations research. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits. Matching and covering problems, shortest route and network flows.

Prereq: Grade of C- or higher in one of the following courses: MATH 3000 or CSCI 2511. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in MATH 3000 or CSCI 2511. Restricted to Computer Science Majors and Minors.

CSCI 4411 - Computational Geometry (3 Credits)

Many practical and aesthetic algorithmic problems have their roots in geometry. Applications abound in the areas of computer graphics, robotics, computer-aided design, and geographic information systems, for example. A selection of topics from convex hull, art gallery problems, ray tracing, point location, motion planning, segment intersection, Voronoi diagrams, visibility and algorithmic folding will be covered. Cross-listed with CSCI 5411. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to Computer Science Majors and Minors (CSCI-BS, CSCS-BA, CSCI-MIN).

CSCI 4455 - Data Mining (3 Credits)

Introduces concepts, techniques and methodologies to discover patterns in data. Topics include (but are not limited to) data preprocessing and cleansing, data warehousing, pattern mining, classification, prediction, cluster analysis, outlier detection, and online data analytics. Prereq: Grade of C- or higher in the following courses: MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5455. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4501 - Java (3 Credits)

Comprehensive course on Java programming. Coverage of programming language constructs of Java and the core libraries that come with Java: coverage of advanced topics, including technologies for building distributed applications, and interacting with a database. Prereq: Grade of C- or higher in CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 2421. Restricted to Computer Science Majors and Minors.

CSCI 4551 - Parallel & Distributed Computing (3 Credits)

Examines a range of topics involving parallel and distributed computing. Topics include language constructs for concurrency, work distribution, synchronization, and communication. Throughout, design of example scientific computing algorithms for parallel and distributed computation will be introduced. Prereq: Grade of C- or higher in Math 3195 (or both MATH 3191 and MATH 3200), CSCI 3415 & CSCI 3453. Restricted to Computer Science Majors and Minors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in Math 3195 (or both MATH 3191 and MATH 3200), CSCI 3415 CSCI 3453. Restricted to Computer Science Majors and Minors.

CSCI 4555 - Compiler Design (3 Credits)

Introduces the basic techniques used in translating programming languages: scanning, parsing, symbol table management, code generation, code optimization and error recovery. Prereq: Grade of C- or higher in CSCI 3412 and CSCI 3415. Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3412 and CSCI 3415. Restricted to Computer Science Majors and Minors.

CSCI 4565 - Introduction to Computer Graphics (3 Credits)

Introduces two and three dimensional computer graphics. Topics include scan conversion, geometric primitives, transformation, viewing, basic rendering, and illumination. Emphasis is on programming using "C" and "C++" Open GL. Prereq: Grade of C- or higher in CSCI 3412 and (MATH 3191 or MATH 3195). Restriction: Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5565. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: Grade of C- or higher in CSCI 3412 and (MATH 3191 or MATH 3195). Restricted to Computer Science Majors and Minors.

CSCI 4570 - Virtual and Augmented Reality (3 Credits)

This course covers the fundamental concepts and technologies of virtual and augmented reality, and it introduces recent advances in the field. Topics include 3D user interaction, immersive environments, tele-presence, mobile AR, human perception, and VR/AR applications. Restricted to computer science majors and minors. Pre-requisite: CSCI 3412. Cross-listed with CSCI 5570. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3412. Restriction: Restricted to computer science majors and minors. Programs restricted to: CSCI-BS, CSCS-BA, CSCI-MIN.

CSCI 4580 - Data Science (3 Credits)

Introduces concepts and techniques that enable data cycle from data extraction to knowledge discovery, including but not limited to data exploration, hypotheses testing, data organization, data featurization, supervised and unsupervised data modeling and learning, scaling-up analytics, and data visualization. Prereq: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors & Minors. Cross-listed with CSCI 5580. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4591 - Computer Architecture (3 Credits)

Deals with how assembly language maps to hardware, and basic hardware techniques implemented in computers. Topics include logic design of arithmetic units, data control path processor logic, pipelining, memory systems, and input-output units. The emphasis is on logic structure rather than electronic circuitry. Students must know basic control logic design and be familiar with an assembly language before taking this course. Prereq: CSCI 2525 with a C- or higher. Restriction: Restricted to students in the CSCI-BS program. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2525 with a C- or higher. Restriction: Restricted to students in the CSCI-BS program.

CSCI 4620 - Computational Motor Control (3 Credits)

This course introduces techniques for the modeling, simulation and control of movement. These techniques come from computer graphics, robotics and machine learning. The topics that we will cover include robot modeling, trajectory optimization, feedback control, deep reinforcement learning, the neuroscience of movement, and neural network models of the brain. At the end of the course, students will learn how train control policies for virtual agents in computer animation or robotics applications. Prereq: Grade of C- or higher in CSCI 3412 & familiarity with Linear Algebra. Restriction: Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5620. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to Computer Science Majors and Minors (CSCI-BS, CSCS-BA, CSCI-MIN).

CSCI 4625 - Computer Vision (3 Credits)

An introduction to computer vision (no prior background in vision required). Topics include camera models, multi-view geometry, image processing, feature detection, motion estimation, shape reconstruction and applications of deep learning. Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to students in the CSCI-BS, CSCS-BA and CSCI-MIN programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3412. Restriction: Restricted to computer science majors and minors. Programs restricted to: CSCI-BS, CSCS-BA, CSCI-MIN. Typically Offered: Fall.

CSCI 4630 - Linguistic Geometry (3 Credits)

Linguistic Geometry (LG) is a type of Game Theory in Artificial Intelligence, which permits to overcome combinatorial explosion and generate optimal strategies in real time. LG is currently changing the paradigm of military command and control in the USA and abroad. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5619. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to Computer Science Majors and Minors (CSCI-BS, CSCS-BA, CSCI-MIN).

CSCI 4640 - Universal Compiler: Theory and Construction (3 Credits)

Theoretical foundations and step-by-step hands-on experience in the development of a compiler, which can tune itself to a new programming language. This is a must-take course for future software developers as well as those interested in applications of the theory of Computer Science. Cross-listed with CSCI 5640. Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3453. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4650 - Numerical Analysis I (3 Credits)

A first semester course in numerical methods and analysis fundamental to many algorithms encountered in scientific computing, data science, machine learning, and computational models in science and engineering. Rounding errors and numerical stability of algorithms; solution of linear and nonlinear equations; data modeling with interpolation and least-squares; and optimization methods. This course assumes that students have the equivalent of differential and integral calculus (e.g., MATH 2411), linear algebra (e.g., MATH 3191 or 3195), and computer programming (e.g., MATH 1376 or CSCI 1410). Prereq: MATH 3191 or MATH 3195 with a C- or higher. Cross-listed with CSCI 5660, MATH 4650, and MATH 5660. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3191 or MATH 3195 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

CSCI 4660 - Numerical Analysis II (3 Credits)

A second semester course in numerical methods and analysis fundamental to many algorithms encountered in scientific computing, data science, machine learning, and computational models in science and engineering. Numerical differentiation and integration; random numbers and stochastic modeling; Fast Fourier Transform; data compression; eigenvalues and singular value decompositions with application to regression and dimension reduction. This course assumes that students have the equivalent of differential and integral calculus (e.g., MATH 2411), linear algebra (e.g., MATH 3191 or 3195), and computer programming (e.g., MATH 1376 or CS 1410). Restricted to Computer Science Majors. Cross-listed with CSCI 5661, MATH 4660 and 5661. Term offered; fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), MATH or CSCI 4650 or 5660 and programming experience. Restricted to Computer Science Majors.

Typically Offered: Fall.

CSCI 4702 - Big Data Mining (3 Credits)

Introduces techniques to discover patterns in Big Data. Selected topics: scalable high-dimensional data clustering, scalable dimensionality reduction, locality sensitive hashing, PageRank, scalable data stream filtering and querying, and scalable classification, in the context of different applications such as Social Network Analysis, Spam Detection, Association Rule Analysis, and Recommender Systems. Prereq: C- or higher in CSCI 3287, CSCI 3412 & MATH 3195. Restriction: Restricted to students in a computer science major or minor. Cross-listed with CSCI 5702 and CSCI 7702. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: C- or higher in CSCI 3287, CSCI 3412 MATH 3195. Restriction: Restricted to students in a computer science major or minor.

Typically Offered: Fall.

CSCI 4738 - Senior Design I (3 Credits)

This is an advanced practical course in which students design, implement, and document and test software systems for use in industry, non-profits, government and research institutions. The course offers practical experience by working closely with project sponsors. It also offers extensive experience in oral and written communication throughout the software life cycle. Prereq: Grade of C- or higher in CSCI 3287, CSCI 3415, CSCI 3453, and CSCI 3508. Restriction: Restricted to Computer Science Majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3287, CSCI 3415, CSCI 3453, and CSCI 3508. Restricted to Computer Science Majors (CSCI-BS).

CSCI 4739 - Senior Design II (3 Credits)

This course is a continuation of Senior Design I. Students must have taken Senior Design I in order to enroll for Senior Design II. In this course, the projects begun in Senior Design I are completed and presented.

Prereq: CSCI 4738. Restricted to undergraduate Computer Science Majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 4738. Restricted to Computer Science Majors (CSCI-BS).

CSCI 4741 - Principles of Cybersecurity (3 Credits)

Focuses on the most common threats to cybersecurity as well as ways to prevent security breaches or information loss. Topics will include: understanding and thwarting hacker methods, authentication, cryptography, programming security, malware analysis, web, database and file server security, network and enterprise security methods. Prereq:

Grade of C- or higher in CSCI 3761. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate.

CSCI 4742 - Cybersecurity Programming and Analysis (3 Credits)

Focuses on cybersecurity related programming and analysis skills. Topics include: network and security application development, intrusion detection, automating security hardening. Students will design and develop security applications in multiple programming languages.

Undergraduate algorithms and programming knowledge expected. Prereq: CSCI 3415. Restricted to undergraduate Computer Science Majors and Minors. Cross-listed with CSCI 5742. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3415. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4743 - Cyber and Infrastructure Defense (3 Credits)

Presents analytical study of state-of-the-art attack and defense paradigms in cyber systems and infrastructures. Analysis will focus on: theoretical foundations of cybersecurity, practical development of novel technical defense techniques and analysis of alternatives. Knowledge of undergraduate-level networking. Cross-listed with CSCI 5743. Prereq:

Grade of C- or higher in CSCI 3761. Restriction: Restricted to Computer Science Majors, Minors and CSSC Certificate. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3761. Restricted to Computer Science Majors, Minors and CSSC Certificate.

CSCI 4771 - Introduction to Mobile Computing (3 Credits)

Provides an in-depth understanding of the fundamentals in mobile computing and studies the existing and proposed solutions for ubiquitous computing. This course focuses on systems and networking issues involved with supporting mobility. Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5771. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4772 - Mobile and IoT Security (3 Credits)

This course concentrates on the computing of emerging mobile and IoT systems security in the Computer Science domain. The seminar will discuss recent research on computing for mobile user authentication, vulnerability risk detection of mobile/IoT systems, and software based defense mechanism. Prereq: Grade of C- or higher in CSCI 3453 and 3761.

Restriction: Restricted to undergraduate Computer Science Majors and Minors. Cross-listed with CSCI 5772. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4773 - Introduction to Emerging System Security (3 Credits)

This course concentrates on the security of the emerging system in the Computer Science domain. It focuses on radically novel systems, relatively fast-growing and potentially exerting a considerable impact on society, such as mobile systems, AI systems, and quantum systems. The security topics cover adversarial attacks, side/covert-channel attacks, covert-channel attacks, user authentication, biometrics, vulnerability risk detection, and defense countermeasure. Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restriction: Restricted to Computer Science Majors and Minors, and Cybersecurity Majors. Cross-listed with CSCI 5773. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restriction: Restricted to Computer Science Majors and Minors, and Cybersecurity Majors.

CSCI 4788 - Bioinformatics (3 Credits)

Provides a broad exposure to the basic concepts and methodologies of bioinformatics and their application to analyzing genomic and proteomic data. Topics may include dynamic programming algorithms, graph theoretic techniques, hidden Markov models, phylogenetic trees, RNA/protein structure prediction and microarray analysis. Cross-listed with MATH 4788, PHYS 4788. Prereq: Grade of C- or higher in CSCI 1410, CSCI 1411 and MATH 3195 or 3191. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 1410, CSCI 1411 and MATH 3195 or 3191. Restricted to Computer Science Majors and Minors.

CSCI 4800 - Special Topics (3 Credits)

Credit and subject matter to be arranged. Restriction: Restricted to Computer Science Majors and Minors. Repeatable. Max hours: 9 Credits. Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restricted to Computer Science Majors and Minors (CSCS-BA, CSCI-BS, CSCI-MIN, CMSC-MS)

CSCI 4810 - Special Topics (3 Credits)

Credit and subject matter to be arranged. Credit will not count toward BSCS degree. Restriction: Restricted to BA Computer Science Majors (CSCS-BA). Repeatable. Max hours: 9 Credits. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to BA Computer Science Majors.

Typically Offered: Fall, Spring.

CSCI 4840 - Independent Study (3 Credits)

Restricted to undergraduate Computer Science Majors and Minors with senior standing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restricted to undergraduate Computer Science Majors and Minors with senior standing.

CSCI 4866 - Advanced Mobile and Ubiquitous Systems (3 Credits)

This course covers various aspects of mobile and ubiquitous systems to provide an in-depth understanding of principles, state-of-the-art solutions and challenges in design and implementation of such systems. Prereq: Grade of C- or higher in CSCI 3453 and 3761. Restriction: Restricted to undergraduate Computer Science Majors and Minors. Cross-listed with CSCI 5866. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4910 - User Experience Design (3 Credits)

A how-to course for any technologist who has endured difficult interfaces and wants to design effective user interfaces that respect and advance the user experience. Course includes: Psychology, HCI personas, scenarios, prototyping, and evaluation for desktop and mobile applications. Prereq: Grade of C- or higher in CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 2421. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4920 - Computer Game Design and Programming (3 Credits)

Computer Game Design and Programming introduces practical and example driven approaches to modern 3D game development. Topics include 3D modeling, character animation, UI design, scripting, texture mapping, and sound effect. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3412 with a C- or higher. Restriction: Restricted to Computer Science Majors and Minors (CSCI-BS, CSCS-BA, CSCI-MIN).

CSCI 4929 - Internship (3 Credits)

Faculty and employer-supervised employment in industry. Enrollment is limited to students who fully complete a contract for cooperative education credit by the last day of the drop or add period. Prereq: CSCI 3508 and cumulative GPA of 2.75 or higher. Restricted to undergraduate students in the Bachelors of Arts in Computer Science Program (CSCS-BA). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 3508 and cumulative GPA of 2.75 or higher. Restricted to undergraduate students in the Bachelors of Arts in Computer Science Program (CSCS-BA).

CSCI 4930 - Machine Learning (3 Credits)

Provides theoretical and computational foundations in machine learning to design and develop intelligent applications to perform object recognition, personalized recommendations, improve cybersecurity, fact-checking, forecasting and finding communities based on three classes of algorithms: supervised, unsupervised, semi-supervised and reinforcement learning. Prereq: Grade of C- or higher in the following courses: MATH 3195 (or both MATH 3191 and MATH 3200) & CSCI 3412. Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5930. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: MATH 3195 (or both MATH 3191 and MATH 3200) CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4931 - Deep Learning (3 Credits)

Provides a foundation on deep learning; a sought-after skill in machine learning. Topics include neural network design & learning, restricted Boltzmann machine, convolution neural network, recurrent neural network, LSTMs, deep reinforcement learning, autoencoders, and evolving computation frameworks like TensorFlow, Keras. Prereq: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200) and CSCI 3412. Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5931. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in the following courses: MATH 3195 (or both MATH 3191 and MATH 3200) CSCI 3412. Restricted to Computer Science Majors and Minors.

CSCI 4939 - Internship (3 Credits)

Faculty or employer-supervised employment in industry. Enrollment is limited to students who fully completed a contract for cooperative education credit by the last day of the drop or add period. Prereq: Grade of C- or higher in CSCI 3415 and cumulative GPA of 2.75 or higher. Restriction: Restricted to Computer Science Majors and Minors. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Grade of C- or higher in CSCI 3415 and cumulative GPA of 2.75 or higher. Restriction: Restricted to Computer Science Majors and Minors.

CSCI 4951 - Big Data Systems (3 Credits)

Presents a practical while in-depth review of the principles of a series of modern data processing systems (e.g., Hadoop, Spark, TensorFlow) designed to address the Big Data challenges. In combination, these systems enable the data to knowledge (Big) data lifecycle. Prereq: Grade of C- or higher in MATH 3195 (or MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restriction: Restricted to Computer Science Majors and Minors. Cross-listed with CSCI 5951. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Grade of C- or higher in MATH 3195 (or both MATH 3191 and MATH 3200), CSCI 3287 and CSCI 3412. Restricted to Computer Science Majors and Minors.

Construction Engineering and Management (CEMT)

CEMT 1000 - Introduction to Construction Management (1 Credit)

Course provides an introduction to the construction industry and project management. Student will learn basic CM terminology, roles and responsibilities associated with a construction project, and construction documents. Max hours: 1 Credits.

Grading Basis: Letter Grade

CEMT 2100 - Construction Management Fundamentals (3 Credits)

This course focuses on introducing the field of construction engineering and management. Topics will include introduction to construction management and work process; drawings; cost estimating; project planning and control; construction operations and job site management; quality and safety management; and building information modeling.

Course participants will gain knowledge about construction engineering and management through lectures, exercises, class presentations, projects and group activities. Course includes a field trip to a construction site and guest speakers from the construction industry as the course time allows. Max hours: 3 Credits.

Grading Basis: Letter Grade

CEMT 2300 - Heavy Civil Construction and Equipment (3 Credits)

Course includes an introduction to heavy civil construction equipment, materials, labor and methods. Students will learn to perform comparative cost analysis for owning and operating heavy equipment; and perform the proper selection, applications, utilization and productivity of heavy equipment with the associated labor and logistics. Max hours: 3 Credits. Grading Basis: Letter Grade

CEMT 3100 - Field Engineering and Management (3 Credits)

Course includes an overview of field engineering and management. Students will assess basic design of temporary structures, quality assurance and quality control, and materials testing and processing. Students will learn the fundamentals of soils engineering. Students will be able to apply surveying concepts and generate site layout. Students will learn the basics of safety, accident prevention, risk management, and regulatory compliance on construction sites. Prereq: CEMT 2100 or CVEN 4230 with a C- or better. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230 with a C- or better.

CEMT 3231 - Construction Materials and Methods (3 Credits)

This course serves as an introduction to the primary materials and methods used to construct buildings and infrastructure across the United States, including concrete, wood and steel. Students explore processes related to specifying and installing materials, as well as analyze various material performance characteristics. Students are required to complete lectures, videos and class activities. Students also research and present information on a wide range of materials and construction processes.

Prereq: CEMT 2100 with a C- or better. Cross-listed with CEMT 5231. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 with a C- or better.

CEMT 4067 - Construction Senior Capstone (3 Credits)

Students will work in teams to formulate or design a construction project requiring the synthesis of material learned in previous courses. The student teams will establish goals, plan and accomplish tasks, meet deadlines, analyze risk and uncertainty, and demonstrate leadership and management skills. Teams will coordinate and communicate with a range of stakeholders and give final presentations. Prereq: CEMT 2100 or CVEN 4230 with a C- or better. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 or CVEN 4230 with a C- or better.

CEMT 4232 - Construction Planning and Control (3 Credits)

This course presents knowledge on planning and controlling of construction projects. Students will learn the basics of construction planning to develop work breakdown structure and activity list, estimate activity cost and duration, and identify job logic and precedence relationships. Several scheduling techniques will be presented in this class, including bar chart, network scheduling, uncertainty in scheduling (PERT), limited resources scheduling, resource leveling, line of balance, and time-cost tradeoff analysis. Furthermore, this class will provide knowledge on cash flow analysis and construction control techniques such as Earned Value method. Students will acquire skills on the use of currently available computer scheduling and planning software such as Primavera 6 and Navisworks Manage to create 5D models to visualize sequence of the construction activities. In addition, students will form teams and work on a project throughout the semester to apply the skills that they learn in class. Prereq: CEMT 2100, CEMT 2300, CEMT 3100, CEMT 3231 and a statistics course (MATH 2830, 3800, CVEN 3611, ELEC 3817, or BANA 2010) with a C- or better or instructor permission; Restriction: Restricted to students with senior standing. Cross-listed with CVEN 5232. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100, CEMT 2300, CEMT 3100, CEMT 3231 and a statistics course (MATH 2830, 3800, CVEN 3611, ELEC 3817, or BANA 2010) with a C- or better or instructor consent; Restriction: Restricted to students with senior standing.

CEMT 4233 - Construction Cost Estimating (3 Credits)

This course presents the application of scientific principles to rough and detailed cost estimating for construction. The course starts with an introduction to estimating and how it fits in bid/proposal process and construction management. Quantity take offs, putting costs to those quantities, overhead costs, cost markups and profits; and computerized estimating will be explored. The project includes quantity take and cost estimate for the concrete and metals portion of an actual project. Prereq: CEMT 2100, CEMT 2300, CEMT 3100, and CEMT 3231 all with a C- or better. Cross-listed with CEMT 5233. Max hours: 3 Credits

Grading Basis: Letter Grade

Prereq: CEMT 2100, CEMT 2300, CEMT 3100, and CEMT 3231 all with a C- or better.

CEMT 4234 - Sustainable Construction (3 Credits)

This course will serve as an introduction to major components and technologies used in sustainable design and construction to create healthy, environmentally-sensitive built environments. Content focuses on construction processes, renewable energy systems, healthy buildings, natural and cultural resources, and traditional as well as cutting-edge building techniques. Course participants will gain knowledge about effective sustainable practices through active learning by engaging in case studies, class presentations, and group activities. Numerous guest speakers will share first-hand experience regarding implementation and professional practice of sustainable principles in the real-world. Prereq: CEMT 2100, CEMT 2300, CEMT 3100, and CEMT 3231 all with a C- or better. Cross-listed with CEMT 5234. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100, CEMT 2300, CEMT 3100, and CEMT 3231 all with a C- or better.

CEMT 4236 - Project Management Systems (3 Credits)

Address the basic nature of managing projects and the advantages and disadvantages to this approach. Introduce the characteristics, techniques, and problems associated with initiating, planning, executing, controlling, and closeout of projects. Learn about the International Standards of PM and how to use them. Develop a management perspective about projects to help develop future project managers. Restriction: Restricted to CMGT-BS or CEMT-BS majors or CMGT minors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to CMGT-BS or CEMT-BS majors or CMGT minors.

CEMT 4239 - Introduction to Temporary Structures and Construction Engineering (3 Credits)

This course will introduce the many types of temporary structures that are integral in the completion of construction projects. The temporary structures to be discussed include but are not limited to formwork, falsework, scaffolding, Support of Excavation (SOE), and equipment bridges. Construction Engineering will also be introduced including the application of structural engineering to crane picks and demolitions. The course includes planning, management and design aspects. The project includes the delivery of a formwork design that stresses the importance of constructability, cost, while providing updates throughout the project to the instructor. Cross-listed with CEMT 5239. Prereq: CEMT 2100 with a C- or better and junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100 with a C- or better and junior standing or higher.

CEMT 4240 - Building Information Modeling (BIM) (3 Credits)

Building Information Modeling is an advanced approach to facility design and construction using object-oriented 3-D models. It can be integrated in the design and construction for analytical purposes, including design, visualization, quantity takeoff, cost estimating, planning, and facility management. Prereq: CEMT 2100, CEMT 2300, CEMT 3100, and CEMT 3231 all with a C- or better. Cross-listed with CEMT 5240. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100, CEMT 2300, CEMT 3100, and CEMT 3231 all with a C- or better.

CEMT 4242 - Construction Safety (3 Credits)

This course is a study of safety practices in the construction industry and the specific safety procedures used in safety management of a construction project. Topics include safety risks inherent in construction projects, the roles of government, the judicial system, the insurance industry, designers and project owners in safety management and the economic impact of injuries. Advanced topics include safety risk quantification and analysis, design for safety and emerging technologies. Prereq: CEMT 2100, CEMT 2300, CEMT 3100, and CEMT 3231 all with a C- or better. Cross-listed with CEMT 5242. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CEMT 2100, CEMT 2300, CEMT 3100, and CEMT 3231 all with a C- or better.

CEMT 4800 - Special Topics in Construction (3 Credits)

These special topics courses cover a variety of topics in construction engineering and management. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CEMT 4939 - Internship (1-6 Credits)

Construction Engineering and Management Internship. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Criminal Justice (CRJU)

CRJU 1000 - Criminology and Criminal Justice: An Overview (3 Credits)

This course is designed to provide an overview of the criminal justice process and the criminal justice system in general. Concepts of crime, deviance and justice are discussed and general theories of crime causality are examined. Special emphasis is placed on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

CRJU 2000 - Professional Development in Criminal Justice (2 Credits)

In this course, students will explore, examine, and reflect on their strengths, interests, and personality assessments as they relate to the criminal justice field and professional development. Participants will conduct career-related research and develop individualized action plans designed to bridge the gap between their current skills and experiences and those desired by employers in the criminal justice field. Prereq: UNIV 1110. Restriction: Restricted to Criminal Justice majors. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: UNIV 1110 Restriction: Restricted to Criminal Justice majors

CRJU 2041 - Criminological Theory (3 Credits)

This course examines the nature and causes of crime and policies within and outside the criminal justice system to predict, prevent, and correct criminal, delinquent, and deviant behavior. It involves a critical appraisal of biological, psychological, economic, and sociological theories and frameworks that explain crime, delinquency, and deviance. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3100 - Research Methods (3 Credits)

This course teaches students how to formulate research questions related to criminology and crime and justice. It addresses how to design research in the field, including choosing an appropriate method and sampling strategy and collecting, analyzing, interpreting, and reporting data and findings. Specific substantive elements are included in research design (e.g., various types of probability and non-probability sampling; strengths and weaknesses of surveys, interviews, and other methodological approaches; experimental and non-experimental designs; qualitative techniques; etc.) Other substantive topics are addressed, including research ethics, consuming research, and writing in different settings. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3150 - Statistics for Criminal Justice (3 Credits)

This course introduces descriptive and inferential statistics and the use of computer software to analyze criminal justice data. Course content includes hypothesis testing and the basic analysis of continuous and discrete dependent variables related to criminology and criminal justice.

Prereq: CRJU 3100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: CRJU 3100

CRJU 3160 - White-Collar Crime (3 Credits)

Employs social science and legal approaches to examine crime committed by corporations as well as by individuals in white-collar occupations. Topics include how such crimes are socially defined, who commits them, which social contexts promote them, who is victimized, and how society and the criminal justice system respond. Cross-listed with CRJU 5574. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3220 - Community Corrections (3 Credits)

This course focuses on innovative community-based strategies for dealing with criminal offenders. Correctional alternatives to imprisonment discussed in this course include probation and parole and various community programs, such as day reporting centers, electronic monitoring, half-way houses, and boot camp programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3250 - Violence in Society (3 Credits)

This course examines various aspects of violence, including distribution over time and space; situations and circumstances associated with violent victimization and offending; and how social institutions, community structure, and cultural factors shape violent events. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3251 - Crime and the Media (3 Credits)

This course surveys the relationships between mass media, crime, offenders, victims, and criminal justice. It explores how the criminal justice system and its agents, accused and convicted offenders, and victims, are portrayed in the media and the influence of these depictions on society, public policy, and the criminal justice system. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3252 - Violent Offenders (3 Credits)

This course consists of a historical overview of violence in American society. Course content includes an examination of violent crime rates over time, societal explanations for changes in rates and an examination of the theoretical causes and preventative strategies for acts of violence. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3270 - Case Studies in Criminal Justice (3 Credits)

This seminar examines the lives of people who live on the margins of a society that perceives them as outsiders. Ethnographic studies that utilize observation, participant observations, and interviews as their primary research methodology are assigned in order to develop a critical understanding of the social marginalization and cultural aspects of the lives of real human beings living constantly on the edge of the law. Cross-listed with CRJU 5270. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3280 - Trauma Among Correctional Populations (3 Credits)

This course provides a comprehensive overview of trauma and the relationship of trauma to criminal offending. Topics include the definition of trauma, the impact of trauma on development, lifelong consequences of chronic exposure to adverse events, and how to integrate knowledge about trauma into organizational policies in correctional settings. The class focuses on understanding the components of a trauma-responsive environment in correctional settings and incorporating trauma recovery principles into practice. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3285 - Trauma in the Criminal Justice System (3 Credits)

This course examines trauma as widely prevalent among those who are served by the criminal justice system and experienced disproportionately among criminal justice professionals. Trauma prevalence, theory, prevention, and interventions through a trauma stewardship lens for victims of multiple forms of trauma, including vicarious traumatization and secondary traumatic stress, will be emphasized through an all-inclusive view across the criminal justice continuum. Cross-listed with CRJU 5285. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3290 - Capital Punishment (3 Credits)

This course examines in-depth a comprehensive range of issues surrounding capital punishment. Specifically, it looks at the history of capital punishment, methods of execution, legal issues and case law, deterrence, miscarriages of justice, discrimination in the capital charging and sentencing system, and the role of the death penalty internationally. The coverage of these issues relies on many sources, including scholarly readings, non-fiction books, court cases, websites, videos and documentaries, speeches, and media. Cross-listed with CRJU 5290. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3310 - Contemporary Issues in Law Enforcement (3 Credits)

This course examines law enforcement's role in contemporary society and the impact of police interaction on other segments of the criminal justice system. Special attention is paid to controversies related to police training and education, career development and community relations. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3320 - Police-Community Relations (3 Credits)

This course focuses on the police and community response to crime. Course content includes an overview of the major concepts and issues involved in what many consider to be a major fundamental shift in the approach and operations of modern policing. The origins, meaning, development and experiences of community policing and various assessments of the advantages and disadvantages of community policing are emphasized. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3330 - Serial Killers (3 Credits)

This course looks at various aspects of serial killing, including definitions, statistics, and demographics of serial killers and their victims. It examines factors that are correlated with serial killing, as well as criminal justice responses to serial killers (e.g., investigative techniques, prosecuting and defending accused killers, etc.) It also includes cases of serial killers. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3340 - Cybercrime (3 Credits)

This course introduces the history and evolution of cybercrime. It explores different types of cybercrime and the issues they present socially, for national security, and in the context of the criminal justice system. Specifically, with respect to the criminal justice system, the class focuses on how cybercrime is defined in laws, prevented, investigated, prosecuted, and sentenced. It also looks at how cybercrime impacts victims and society as a whole. Ethics and policy implications at each stage of the criminal justice process and outside of the justice system are analyzed. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

CRJU 3410 - Probation and Parole (3 Credits)

This course is appropriate for students who have a specific interest in the role of probation and parole as correctional sanctions in community settings. Substantive topics, including the presentence investigation report, privatization, and the roles and responsibilities of probation and parole officers, are discussed. Particular attention is paid to research on the effectiveness of probation and parole, factors that contribute to the successful completion of probation and parole, and the role that the community and citizens play in these community corrections processes. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3420 - Pleas, Trials and Sentences (3 Credits)

This course analyzes case materials involving pleas, trials, and sentences. Course content includes the dimensions of criminality, the specific elements of major crimes, plea bargaining, the use of confessions, fair trial procedures, and various aspects of criminal sanctions, including cruel and unusual punishments. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3510 - Drugs, Alcohol, and Crime (3 Credits)

This course looks at the socially constructed nature of drugs and drug policy. It explores the connection between drugs and crime within the socio-historical context of contemporary U.S. drug policy. Special emphasis is placed on the relationship between drugs and alcohol abuse and criminal offending, including the criminal justice system responses to possessing, distributing, and using illegal substances. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3520 - Juvenile Justice (3 Credits)

This course examines the development, change, and operation of the American juvenile justice system and the social factors that shape the identification and treatment of juvenile offenders. Special emphasis is placed on juvenile law and methods of dealing with youthful offenders. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3530 - Juvenile Delinquency (3 Credits)

This course looks at deviant and delinquent behavior committed by minors in American society. It explores the social construction of juvenile delinquency and factors and conditions contributing to at-risk and delinquent behavior. Finally, it examines the control and treatment of juvenile offenders prevention programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3540 - Crime and Delinquency Prevention (3 Credits)

This course provides students with an overview of issues related to crime and delinquency prevention, both from criminological and criminal justice points of view. Crime prevention programs that encompass both the individual and community levels are examined. Responses to juvenile offenders-ranging from prevention and diversion to institutional corrections and after care are explored in context of youth policy generally. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3575 - Offenders With Mental Health Disorders (3 Credits)

Examines the offender who may be mentally disordered. Special attention is paid to the various phases of the criminal justice system where psychiatrists are involved (e.g., diversion, fitness, insanity and sentencing), dangerous sex offender legislation, "not guilty by reason of insanity" and "guilty but mentally ill" statutes, and issues concerning confidentiality, informed consent, and treatment. Cross-listed with CRJU 7575 and 5575. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 3600 - Introduction to Federal Wildlife and Environmental Laws (3 Credits)

This course will provide an overview of federal wildlife and environmental laws which are designed to protect plants, animals, marine resources, the air we breathe, and the nation's waterways. For each of the laws covered in this course, investigations including case resolutions will be presented. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4010 - Public Service in Emergency Management and Homeland Security (3 Credits)

Introduces emergency management and homeland security including: management of hazards, emergencies, disasters, and the networks of government and nonprofit organizations providing services. Focuses on principles of emergency management and homeland security at state and local jurisdictional levels. Cross-listed with PUAD 4010, PUAD 5650, and CRJU 5650. Prereq: CRJU 1000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: CRJU 1000

CRJU 4012 - Principles of Emergency Management (3 Credits)

Introduces the discipline and practice of emergency management. Topics include administrative practice and processes by which public policy shapes governmental responses to hazards, emergencies, and disasters. Cross-listed with CRJU 5655, PUAD 4012, and PUAD 5655. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4014 - Federal Wildlife and Fisheries Investigations (3 Credits)

Students will learn about federal wildlife laws and an overview of each law will be provided, along with methods and tools used to investigate possible violations of the laws. Prosecuting cases will be covered, and actual cases will be reviewed so students are able to see practical application of the law. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

CRJU 4015 - Intelligence Writing and Briefing (3 Credits)

This course provides an overview of intelligence analysis and aims to provide the skills and tools necessary to effectively communicate results to consumers. Students will be familiarized with the analytical, perceptual, and cognitive pitfalls of conducting intelligence analysis and learn a variety of strategies for overcoming these problems, preparing professional intelligence products, and presenting executive-level intelligence briefings. Cross-listed with CRJU 5015. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4042 - Corrections (3 Credits)

This course consists of an overview of the field of penology and corrections. Attention is paid to conflicting philosophies of punishment, criminological theory as it applies to the field of corrections, the selectivity of the process through which offenders move prior to their involvement in correctional programs, institutional corrections, alternative correctional placements, and empirical assessments of the short and long-term consequences of one's involvement in correctional programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4043 - Law Enforcement (3 Credits)

This course presents an overview of the role of police in the United States. Attention is placed on the origins of policing, the nature of police organizations and police work, patterns of relations between the police and the public, discretion, and the police role in a sociological context. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4044 - Courts and Judicial Process (3 Credits)

This course examines the basic functions, structure, and organization of the federal and state court systems, with special attention on the criminal court system. It looks at the courtroom workgroup and agents within it, including the prosecutor, defense attorney, and judge. It focuses on the influence of judicial behavior on the court process by examining judges' policy preferences, legal considerations, group processes within courts, and courts' political and social environments. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4100 - Administration of Criminal Justice (3 Credits)

Analyzes the policies and practices of agencies involved in the criminal justice process, from the detection of crime and arrest of suspects through prosecution, adjudication, sentencing and imprisonment, to release. The patterns of decisions and practices are reviewed in the context of a systems approach. Cross-listed with CRJU 5100. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4120 - Race, Class, and Justice (3 Credits)

This course examines the relationships between race, social class, and crime. Attention is given to theoretical explanations, empirical research, and patterns of criminal behavior. The class focuses on historical frameworks that are relevant to current perspectives on the impact and interactions of race, class, and crime in the field. It examines race, class, and race-by-class disparities and discriminatory practices at different phases of the justice system from detainment through sentencing and appeals. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4121 - Ethics in Criminal Justice (3 Credits)

This course is designed to prepare students to identify and critically examine ethical issues in the criminal justice system by applying ethical decision models. It also provides students with the opportunity to analyze how they would resolve these issues according to their own values and beliefs while staying within the boundaries of the law and formal and informal professional ethics. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4130 - Poverty, Crime, and Justice (3 Credits)

This course analyzes theories and empirical research related to the causes of criminal behavior committed by individuals of lower socio-economic status. Further, it examines the economic and social costs of crimes committed by under-resourced individuals and crime-prevention strategies that are connected to crimes committed by under-resourced individuals. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4140 - Interpersonal Violence (3 Credits)

This course examines the criminal justice systems response to intimate partner violence by focusing on the interactions between victims, offenders, and components of the criminal justice system. By exploring the dynamics of intimate partner violence, this course addresses the theories, history, research, legislation, and policy implications related to the criminal justice system's response to intimate partner violence. Cross-listed with CRJU 5150, PUAD 5155. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4150 - Sex Offenders and Offenses (3 Credits)

This course explores historical and current practices of the criminal justice system to address sex offenders and offenses. Topics include the history of sexual abuse, etiology of offenders, victims' issues, juvenile sex offenders, risk assessment, and treatment/supervision approaches to sex offenders and offenses. Prereq: CRJU 1000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: CRJU 1000

CRJU 4170 - Victimology (3 Credits)

This course involves the scientific study of crime victims and focuses on the physical, emotional, and financial harm people suffer at the hands of offenders. Emphasis is placed on victim-offender relationships, interactions between victims and the criminal justice system, and connections between victims and other social groups and institutions. Theories, history, research, legislation, and policy implications related to the social construction of "the victim" are explored. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4171 - Homicide Studies (3 Credits)

This class examines criminal homicide from all angles: the offenders, the victims, the police, prosecution, defense, jurors, and judges. It looks at investigative techniques and the latest science involved in criminal investigation, jury selection, and other criminal justice system issues. It focuses on what is arguably the most serious form of homicide, murder, exploring sensational cases that involve delving into the psyche of murderers. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4172 - Crime Forensics (3 Credits)

This course offers an overview of specialized knowledge, techniques, principles, and technologies of forensic sciences and criminal investigations. Students will explore the fundamentals of proper evidence collection, preservation, and evidence analysis techniques. Students in this course will develop an understanding of the practical application of forensic science to legal issues and disputes. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4173 - Crime Scene Investigation (3 Credits)

Crime Scene Investigation is a course that is designed to give the student a working knowledge of how to investigate and collect evidence on a variety of crime scenes. It demonstrates how different types of physical evidence is used to solve crimes, specifically looking at forms of evidence like gun shots, blood spatter, and finger-printing. It also looks at the importance of professional skills, such as academic knowledge, problem-solving, effective communication, and the use of technology. Other issues, such as historical context and ethics, will be discussed. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4180 - Comparative Study of Criminal Justice Systems (3 Credits)

This course analyzes the dynamics of criminality and the social responses to crime across countries. Special emphasis is placed on methods of comparative legal analysis utilized to examine international differences in crime and justice, international cooperation in criminal justice, and crime and development. Prereq: CRJU 1001. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4190 - Gender and Crime (3 Credits)

This course explores issues surrounding women as offenders and victims. It investigates explanations for women's involvement in illegal activities and looks at gender-based disparities and discrimination in the criminal justice system's treatment of women who are accused and convicted of crimes. The class also examines women's participation in criminal justice professions, including law enforcement, corrections, judicial processes, and law. Cross-listed with CRJU 5553. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4200 - Wrongful Convictions (3 Credits)

Explores the continuum of justice-system errors ranging from persons who are falsely accused (arrested, prosecuted, and tried) to those who are wrongly convicted and imprisoned or sentenced to death row and erroneously executed. Cross-listed with CRJU 5200. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4210 - Prisoner Reentry (3 Credits)

Focuses on prisoner reentry, including strategies to prepare inmates for release, reduce recidivism, and facilitate adjustment in the community while meeting the demands of public safety. Cross-listed with CRJU 5210. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4230 - Treatment Approaches in American Corrections (3 Credits)

This course examines the origins and historical development of prisons and jails in America. Particular attention is given to the impact of reform movements; the rise of centralized correctional systems; and regional and other socially differentiated variations in the practice of punishment. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4252 - Criminal Offenders: Evidence-Based Decision-Making (3 Credits)

This course will introduce the core principles of evidence based programming and tools of motivational interviewing as it is used currently with the offender population. In addition, students will learn how to utilize these skills working with specific offender populations. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4310 - Leadership Roles in Criminal Justice (3 Credits)

The course is designed to enhance interest, experience, and knowledge in leadership that promotes professionalism and ethical behavior among criminal justice professionals. Individual and organizational dynamics are explored through a critical perspective, focusing on criminal justice roles and responsibilities. The class teaches effective leadership skills in areas such as team building, strategic planning, and decision-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4331 - Crime Analysis and GIS (3 Credits)

Serves as an introduction to the uses and applications of analysis within law enforcement, including the role of analysis in law enforcement, theories that guide analysis and police practices, commonly used data sources and technology, and techniques for various types of analysis utilized in law enforcement. Cross-listed with CRJU 5331. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4410 - Criminal Law and Constitutional Procedures (3 Credits)

This course focuses on substantive criminal law and constitutional rights of the accused in criminal proceedings. Course content includes the legal elements of major crimes. It also addresses legal aspects of investigation, search and seizure, arrest, custodial interrogation, the appointment of counsel, and constitutional rights that apply during trials (e.g., right to confront witnesses, be protected against self-incrimination, be tried by a jury of one's peers, etc.) Rules governing the admissibility of evidence in court are also examined. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4430 - Law and Society (3 Credits)

This course introduces students to the scholarly study of law. Students will become familiar with social scientific perspectives of the law, legal institutions, the legal process, and the impact of law on behavior. Particular emphasis is placed on the interplay between the social construction of crime through law, criminal behavior and individuals targeted in criminal justice processes in America. Additional topics include theories of law and legality, comparative legal systems, police, lawyers, judges, juries, and the use of social science expertise in the justice system. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4440 - Courts and Social Policy (3 Credits)

This course involves the study of emerging trends and issues in the administration of the courts, the emerging role of the judiciary in the administration of programs in the public and private sectors, and the implications of court administration on social policy. Course content includes the history of the judicial approaches to the criminal justice administrative process and substantive social policy. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4450 - Homeland Security (3 Credits)

This course is an in-depth analysis of homeland security in the U.S. Topics include the initial concepts and strategies of securing land borders, seaports, and airports, the establishment of the Department of Homeland Security, and the functions and operations of the DHS today and in the future. Prereq: Completion of CRJU 1000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: CRJU 1000

CRJU 4520 - Gangs and Criminal Organizations (3 Credits)

This course traces the origins and historical development of the activities known as "organized crime." These crimes are some of the most dangerous to American society and range from the commonly known offenses of gambling and narcotics to the more subtle and sophisticated, less understood but equally serious, crimes of extortion, commercial bribery, and political corruption. Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4530 - Families and Intergenerational Violence (3 Credits)

This course focuses on the family as the primary institutional mechanism of social control. Structured around social learning theory, it explores the relationships between exposure to childhood violence and violence later in life, including dating relationships during adolescence and adulthood and violence in marital relationships. The course also looks at the impact of childhood violent victimization on juvenile delinquency, adult criminality, and violent behavior in general. Cross-listed with CRJU 5535. Max hours: 3 Credits.

Max hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4540 - Evidence-Based Approaches in Law Enforcement (3 Credits)

This course provides an introduction to the uses and applications of analysis within law enforcement, including the role of analysis in law enforcement, theories that guide analysis and police practices, commonly used data sources, technology, and a practical introduction to the techniques for various types of analysis utilized in law enforcement.

Prereq: CRJU 1000, 3100, and 4043. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CRJU 1000, 3100, and 4043.

CRJU 4600 - Special Topics in Criminology and Criminal Justice (1-6 Credits)

This highly specialized seminar addresses cutting-edge and emerging developments in the fields of criminology and criminal justice and provides students and faculty with the opportunity to explore significant themes, issues, and problems from a broad interdisciplinary perspective. Topics vary from semester to semester. Prereq: CRJU 1000. Repeatable.

Max hours: 18 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 18.

Pre: CRJU 1000

CRJU 4700 - Community-Based Field Experience and Seminar (3 Credits)

Students work in small groups to complete substantive projects for government agencies and community organizations, led by faculty instructor. Topics addressed will vary depending on the needs of the community partner. Prereq: Completion of CRJU 1000 and CRJU 3100. Restriction: Restricted to SPA students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: Completion of CRJU 1000 and CRJU 3100. Restriction: Restricted to SPA students.

CRJU 4710 - Environmental Crime and Justice (3 Credits)

Environmental Crime and Justice will look at the disproportionate benefits and burdens of environmental "profits" (e.g., open spaces, clean air and water, etc.) and contamination (which results from behaviors that include, but are not limited to crime), as well as the implications of these disparities on certain areas, particularly communities of color and indigenous communities. The role of the government, the private sector, non-profit organizations, and the environmental justice movement in creating, perpetuating, and minimizing environmental crime and its disparities will be examined, with part of the focus being on theories within critical criminology that address issues of environmental crime injustices. The nature of environmental offenders and victims will be explored. Policies and programs that have been organized to address environmental crime and other injustices and their effects (e.g., quality of life, birth defects, childhood asthma, lead poisoning, cancer, etc.) will be reviewed, including responses by the criminal justice system to environmental crime. Students will examine critically the consistencies and inconsistencies in institutionalized mechanisms that are set up, either intentionally or more subtly, to create, reinforce, or minimize environmental crimes and injustices. Cross-listed with CRJU 5710. Max Hours: 3 Credits.

Grading Basis: Letter Grade

CRJU 4840 - Independent Study: CRJU (1-6 Credits)

This course consists of instructor-guided research in an area of mutual interest to the student and instructor or a student-driven project supervised by the instructor. Students are responsible for selecting their area of inquiry prior to contacting the instructor. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CRJU 4939 - Internship (1-9 Credits)

Internships involve a career-related supervised experiential course in a criminal justice or related agency. Permission to enroll must be preceded by an application for an internship. Prereq: Permission of instructor and advisor is required for undergraduate students. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CRJU 4961 - Capstone (1-10 Credits)

Synthesizes competencies gained throughout the course of study into a client-based research project. Students conduct independent research, complete a final project demonstrating their qualifications and expertise. Restriction: Restricted to undergraduate students in the School of Public Affairs. Max hours: 10 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 10.

Restriction: Restricted to undergraduate students in the School of Public Affairs.

Additional Information: Report as Full Time.

CRJU 4995 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with CRJU 5995. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall.

Culturally and Linguistically Diverse Education (CLDE)

CLDE 1000 - Language, Identity, & Power: International Perspectives (3 Credits)

This course explores the relationship between language, identity, and power in various international contexts. The course considers how legacies of inequality for particular communities are reflected in societal attitudes about languages and language users and subsequent language planning. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

CLDE 1030 - Introduction Language Development of Multilingual Learners (3 Credits)

This course provides an overview of how languages are learned and used in day-to-day life. It focuses on the complexities and variations in registers, dialects and languages as an essential part of human communication in the context of power and privilege in the larger society. Max hours: 3 Credits.

Grading Basis: Letter Grade

CLDE 2000 - CLDE Foundations (3 Credits)

This CLDE foundations course includes an overview of history and legislation related to bilingual education and second language education, and provides an overview of essential linguistics for educators and bilingual language development and assessment. Max hours: 3 Credits.

Grading Basis: Letter Grade

CLDE 3680 - Spanish for Educators (3 Credits)

This course is designed to help teacher candidates advance their Spanish skills. Teacher candidates will clarify their motivations and purposes for studying Spanish and gain a greater understanding of language assessments and of their own Spanish abilities and increase insight and empathy for emergent bilingual students. Cross-listed with CLDE 5680. Max hours: 3 Credits.

Grading Basis: Letter Grade

CLDE 3830 - Culturally and Linguistically Responsive Teaching through STEM (3 Credits)

In this course, you will develop your ability to plan for the opportunities and challenges for language development during science and math learning in preK-12 education settings. In doing so, you will develop linguistically responsive teaching practices for all subjects. Prereq or coreq: EDHD 3930 and SPED 4030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: EDHD 3930 and SPED 4030

CLDE 3840 - Independent Study in CLDE (1-6 Credits)

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

CLDE 4020 - Responsive Classroom Communities (3 Credits)

This course investigates how people learn and the implications of social and cultural learning for establishing engaging and culturally responsive learning communities. Through this course teacher candidates will better understand their roles in student learning and how their own cultural lenses impact their relationships with students and families, and influence student success in the classroom. Cross-listed with CLDE 5020. Prereq: EDFN 4010. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor EDST-MIN or CLAS secondary students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: EDFN 4010. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor EDST-MIN or CLAS secondary students.

CLDE 4700 - Social Studies for Multilingual Learners (3 Credits)

Participants will use a social justice lens to investigate the content and language demands of the four disciplines of social studies: History, Civics, Geography and Economics. This class focuses on Social Studies methods as well as essential practices for teaching multilingual students. Restriction: Restricted to students in Education and Human Development with between 40 and 180 cumulative credit hours. Cross-listed with CLDE 5700. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 40 and 180 cumulative credit hours.

CLDE 4800 - Language Development and Acquisition (1-5 Credits)

This academy provides a basic introduction to bilingual and English as a second language education programs. The content consists of introductory material regarding second language acquisition theories and stages, factors that influence learning a second language in schools and informal assessment among other. Repeatable. Max Hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

CLDE 4810 - Orientation to Bilingual Education (1 Credit)

This academy provides a basic introduction to bilingual education programs. The content consists of introductory material regarding the legal and historical foundations of bilingual education, bilingual and ESL program model overviews, materials to address cultural issues in the classroom, and introductory information regarding human growth and development. Max hours: 1 Credit.

Grading Basis: Letter Grade

CLDE 4830 - Instructional Delivery Methods for Second Language Learners (1 Credit)

This academy provides more in-depth information on different instructional methods and how to apply them in working with English language learners. It looks into practical strategies for modifying lessons using sheltered instruction in order to accommodate the students' linguistic and academic needs (dominance vs. proficiency). Max hours: 1 Credit.

Grading Basis: Letter Grade

CLDE 4835 - Special Topics: Culturally and Linguistically Diverse Education (1-3 Credits)

Advanced study of special topics that examine multilingualism, cultural pluralism, and community in Culturally and Linguistically Diverse Education. Repeatable. Max hours: 9 credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

CLDE 4910 - CO-TOP Practicum (1-2 Credits)

The CO-TOP Paraeducator Certification requires 2 credit hours of field experience, each credit hour representing at least 90 hours in the field. Field experiences should balance out a person's previous experience to create a more marketable set of skills and a range of skills across ages, disabilities, grade levels and types of programs or philosophical bases. Each practicum participant is provided a practicum handbook. The handbook outlines all components of the practicum experience. The handbook is made available to each participant at the time of registration for the experience. Prereq: students need to have taken at least 10 CO-TOP academies before they are eligible to take the practicum course. Max hours: 2 Credits.

Grading Basis: Letter Grade

Cybersecurity (CSCY)

CSCY 2930 - Practical System Administration (2 Credits)

Introduces students to essential system administration topics including, but not limited to, IT design and configuration methodologies, desktop support, building and configuring production level servers, network technologies and troubleshooting, security, virtualization, storage, and server operating systems. Prereq: CSCI 1410 or an equivalent introductory computer programming course. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 1410

Typically Offered: Spring.

CSCY 3740 - Computer Security (3 Credits)

Introduces basic knowledge from the computer security area. Topics covered in this course include: Cybersecurity Ethics, Penetration Testing, Secure Programming Practices, and Life-Cycle Security. Students will gain the understanding of ethics in cybersecurity with the tools for ethical decision making, learn methods of exploiting vulnerabilities and perform penetration testing on a simple network, understand the characteristics of secure programming with the ability to implement programs that are free from vulnerabilities, and understand security related concerns in a system Life-Cycle and how security principles can be applied to improve security throughout a system. Prereq: Grade of C- or higher in CSCI 2312 & 2421. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: CSCI 2312 and 2421 with a C- or higher. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).

Typically Offered: Spring.

CSCY 3765 - Secure Network and Systems Programming (3 Credits)

This course provides a deep understanding of operating system and TCP/IP networking architecture, and the low-level interfaces that are required to build secure system-level, multithreaded, and network applications, including file and process operations, inter-process communications, creating and implementing networking protocols and sockets-based programming. Students will learn how to design secure applications, write secure code that can withstand attacks, and conduct security testing and auditing and apply it to real world problems. Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).

Typically Offered: Fall.

CSCY 3800 - Special Topics (3 Credits)

Credit and subject matter to be arranged. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Restricted to Cybersecurity Majors (CSCY-BS).

Typically Offered: Fall, Spring.

CSCY 3840 - Independent Study (3 Credits)

Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to Cybersecurity Majors (CSCY-BS).

Typically Offered: Fall, Spring, Summer.

CSCY 4407 - Security and Cryptography (3 Credits)

A broad overview of cryptography and its relation to computer security.

Topics include basic standard cryptographic techniques, a history of codes and ciphers, RSA, DES, AES, Elliptic Curve Cryptography, ElGamal, and applications to current and future technologies. Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3412. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).

Typically Offered: Spring.

CSCY 4738 - Senior Design I (3 Credits)

This is an advanced practical course in which students design, implement, and document and test secure software systems for use in industry, non-profits, government and research institutions. The course offers practical experience by working closely with project sponsors. It also offers extensive experience in oral and written communication throughout the software life cycle. Prereq: Grade of C- or higher in CSCI 3453, CSCY 4741, CSCY 4742 and CSCY 4743. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3453, CSCY 4741, CSCY 4742 and CSCY 4743. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).

Typically Offered: Fall.

Prereq: Grade of C- or higher in CSCI 3453, CSCY 4741, CSCY 4742 and CSCY 4743. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).

Typically Offered: Fall.

CSCY 4739 - Senior Design II (3 Credits)

This course is a continuation of Senior Design I. Students must have taken Senior Design I in order to enroll for Senior Design II. In this course, the projects begun in Senior Design I are completed and presented.

Prereq: Grade of C- or higher in CSCY 4738. Restriction: Restricted to Cybersecurity majors (CSCY-BS). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCY 4738. Restriction: Restricted to Cybersecurity majors (CSCY-BS).

Typically Offered: Spring.

CSCY 4741 - Principles of Cybersecurity (3 Credits)

Focuses on the most common threats to cybersecurity as well as ways to prevent security breaches or information loss. Topics will include: understanding and thwarting hacker methods, authentication, cryptography, programming security, malware analysis, web, database and file server security, network and enterprise security methods.

Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).

Typically Offered: Fall.

CSCY 4742 - Cybersecurity Programming and Analysis (3 Credits)
 Focuses on cybersecurity related programming and analysis skills. Topics include: network and security application development, intrusion detection, automating security hardening. Students will design and develop security applications in multiple programming languages. Undergraduate algorithms and programming knowledge expected. Prereq: Grade of C- or higher in CSCY 3740 and CSCY 3765. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits. Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in CSCY 3740 and CSCY 3765. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).
 Typically Offered: Spring.

CSCY 4743 - Cyber and Infrastructure Defense (3 Credits)
 Presents analytical study of state-of-the-art attack and defense paradigms in cyber systems and infrastructures. Analysis will focus on: theoretical foundations of cybersecurity, practical development of novel technical defense techniques and analysis of alternatives. Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits. Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).
 Typically Offered: Spring.

CSCY 4772 - Mobile and IoT Security (3 Credits)
 This course concentrates on the computing of emerging mobile and IoT systems security in the Computer Science domain. The seminar will discuss recent research on computing for mobile user authentication, vulnerability risk detection of mobile/IoT systems, and software based defense mechanism. Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits. Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in CSCI 3453 and CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).
 Typically Offered: Fall.

CSCY 4800 - Special Topics (3 Credits)
 Credit and subject matter to be arranged. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Repeatable. Max hours: 12 Credits. Grading Basis: Letter Grade
 Repeatable. Max Credits: 12.
 Restriction: Restricted to Cybersecurity Majors (CSCY-BS).
 Typically Offered: Fall, Spring, Summer.

CSCY 4939 - Internship (3 Credits)
 Faculty and employer-supervised employment in industry. Enrollment is limited to students who fully complete a contract for cooperative education credit by the last day of the drop or add period. Prereq: CSCY 3740 and cumulative GPA of 2.75 or higher. Restriction: Restricted to students in the CSCY-BS program. Repeatable. Max hours: 9 Credits. Grading Basis: Letter Grade
 Repeatable. Max Credits: 9.
 Prereq: CSCY 3740 and cumulative GPA of 2.75 or higher. Restriction: Restricted to students in the CSCY-BS program.
 Typically Offered: Fall, Spring, Summer.

CSCY 4950 - Cybersecurity Risk Analysis and Management (3 Credits)
 The course will cover the technical components of risk assessment and management, applying knowledge in networking, design, programming, and systems to analyze and assess vulnerabilities of infrastructures and enterprise networks. Prereq: Grade of C- or higher in the following courses: CSCY 3740 and CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS). Max hours: 3 Credits. Grading Basis: Letter Grade
 Prereq: Grade of C- or higher in the following courses: CSCY 3740 and CSCI 3761. Restriction: Restricted to Cybersecurity Majors (CSCY-BS).
 Typically Offered: Spring.

Decision Sciences For Business (DSCI)

DSCI 3780 - Supply Chain Management (3 Credits)
 Over the last decade businesses have started to understand how the design and operation of their supplier network can be a source of competitive advantage. Supply chain management is concerned with the activities around communication, managing inventory, warehousing, transportation and facility location. The course objectives are to understand a supply chain/network from the strategic, planning and operations perspectives and to develop skills that allow you to analyze the responsiveness and effectiveness of the network. Prereq: DSCI 2010. Max hours: 3 Credits. Grading Basis: Letter Grade

Digital Animation (DACD)

DACD 2810 - DAC: Modeling 1 (3 Credits)
 A lecture/lab course focused on the mastery of creating surface models for digital 3D content. Students will develop skills/knowledge about the processes and techniques for building complex 3D objects with an emphasis on artistic excellence through application of current 3D technologies. Prereq: FINE 1810, FINE 1820, Acceptance into DAC. Max hours: 3 Credits. Grading Basis: Letter Grade
 Prereq: FINE 1810 and FINE 1820 Restriction: Restricted to FINE-BFA with ANI sub-plan majors within the College of Arts and Media

DACD 2820 - DAC: Surfacing and Lighting 1 (3 Credits)
 A Lecture/Lab course focused on the fundamentals of lighting and surfacing in a digital 3D environment. Students will develop skills and knowledge about the processes and techniques involved in creating realistic and/or narratively powerful materials and lighting for 3D animated films. Prereq: FINE 1810, FINE 1820, Acceptance into DAC. Max hours: 3 Credits. Grading Basis: Letter Grade
 Prereq: FINE 1810 and FINE 1820 Restriction: Restricted to FINE-BFA with ANI sub-plan majors within the College of Arts and Media

DACD 2830 - DAC: Surfacing and Lighting 2 (3 Credits)
 A Lecture/Lab course exploring advanced topics in the areas of surfacing, material design, lighting, and post-production. Students will further develop skills and knowledge learned in Surfacing and Lighting I. Emphasis will be placed on collaborative workflows for lighting and material design. Prereq: DACD 2810, DACD 2820, Acceptance into DAC. Max hours: 3 Credits. Grading Basis: Letter Grade
 Prereq: DACD 2810, DACD 2820, and acceptance into DAC (FINE_BFA ANI)

DACD 2850 - DAC: Modeling 2 (3 Credits)

A lecture/lab course focused on mastery of skills for creating organic digital 3D models. Students will develop skills/knowledge to shape, mold, transform/articulate, and deform digital 3D shapes. Focus will be on creating digital models, with an emphasis on artistic excellence through application of current 3D technologies. Prereq: DACD 2810, DACD 2820, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2810, DACD 2820, and acceptance into DAC (FINE_BFA ANI)

DACD 3810 - DAC: Production Practices (3 Credits)

This is a lecture/lab course focused on the creation and implementation of collaborative workflows for CG filmmaking. Students will learn about 3D production pipelines and how they can be used to effectively and efficiently collaborate on large-scale projects. Prereq: DACD 2830 or DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830 or DACD 2850, Acceptance into DAC.

DACD 3820 - Animation 1: Introduction to Animation and Rigging (3 Credits)

A studio course focused on foundational skills for animating digital 3D objects/characters. Students explore the process/techniques of key frame/pose-to-pose animating considering character performance, thought, constraints and velocity with an emphasis on artistic excellence through applications of current 3D technologies. Prereq: FINE 1810 and FINE 1820 and acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1810 and FINE 1820, and acceptance into DAC (FINE-BFA ANI)

DACD 3821 - DAC: VFX Rigging & Animation I (3 Credits)

A studio course focused on foundational skills for animating and rigging full digital 3D characters. Students explore the process/techniques of rigging for motion capture characters and adjusting their performance with consideration for thought, and animation with an emphasis on realistic VFX driven character performance. Prereq: DACD 2830, DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830, DACD 2850, and acceptance into DAC (FINE-BFA ANI)

DACD 3830 - Advanced Character Animation (3 Credits)

A studio course focused on mastery of skills for rigging and animating digital 3D characters. Students explore the processes/techniques of animation rigging and its relationship to animating character performances. Prereq: DACD 3820, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 3820 and acceptance into DAC (FINE-BFA ANI)

DACD 3831 - Character FX (3 Credits)

A studio course focused on mastery of skills for rigging and animating digital 3D characters and objects and advance motion capture techniques. Students explore the processes/techniques of animation rigging and its relationship to realistic simulation of dynamic objects. Prereq: DACD 3820 and acceptance into DAC (FINE-BFA ANI). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 3820 and acceptance into DAC (FINE-BFA ANI)

DACD 3835 - DAC: Visual Effects (3 Credits)

A lecture/lab course exploring the theory/techniques of creating visual effects sequences. Students explore how to develop complete effects shots, including shooting live plates, camera tracking, visual effects, and compositing, with an emphasis on artistic excellence through application of current 3D technologies. Prereq: DACD 2830, DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830, DACD 2850, and acceptance into DAC (FINE-BFA ANI)

DACD 3846 - Production I (3 Credits)

The first in a three-semester capstone experience focusing on the DAC-BFA thesis short. Students assemble a team, organize/develop production management tools, story animatic, and begin work on a high-production-value short or experience through an academic simulation of a real-world studio pipeline. Prereq: DACD 2830 or 2850 and acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830 or 2850 and acceptance into DAC (FINE_BFA ANI).

Typically Offered: Fall, Spring.

DACD 4810 - Production II (3 Credits)

The second in a three-semester capstone experience focusing on the production/post-production of the BFA thesis short. With teams formed and production plans set and initiated in DACD 3846: Production I, the student team completes its high-production-value animated short or experience. Prereq: DACD 3845 or DACD 3846, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 3845 or DACD 3846, and acceptance into DAC (FINE_BFA ANI)

DACD 4820 - Production III (3 Credits)

The final semester of the DAC capstone experience focusing on finalizing their DAC-Senior-Short, preparing the student to enter the professional-world/graduate school, confirming their BFA Thesis presenting their body of work, website, demo-reel, and professional personal branding/resumes and becoming skilled at cover letters. Prereq: DACD 3845 or DACD 3846, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Prereq: DACD 3845 or DACD 3846, and acceptance into DAC (FINE_BFA ANI)

Early Childhood Education (ECED)

ECED 1202 - Child Guidance and Classroom Community (3 Credits)

This course presents evidence-based classroom strategies to promote social competence, build classroom community and reduce or prevent behavior problems. Emphasis is placed on understanding child development and observing behavior to make decisions for children ages birth through age 8. Cross-listed with ECED 4202. Typically offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ECED 2000 - Early Childhood Education as a Profession (3 Credits)

This course provides an overview of the ECE profession and its philosophical and historical foundations. Trends in early childhood care and education and professionalism are examined. Topics include developmental domains and appropriate practices, curriculum models, guidance strategies, family and community relationships, diversity and inclusion, and leadership skills to support quality early care and education work settings. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 2930 - Infant & Toddler Field Experience & Seminar (3 Credits)

ECED 2930 is designed to support teacher candidates in making theory-to-practice connections, focused on understanding infant and toddler development. Students will spend one day per week in an infant-toddler classroom and engage in a weekly seminar to mediate learning. Prereq or coreq: ECED 4070. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: ECED 4070. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours

ECED 4010 - Inquiry and the Disciplines (3 Credits)

This course introduces students to the role, value and practices of inquiry in early childhood education and explores the integration of the visual arts and creative expression with the disciplines of mathematics, literacy, science, social studies, as well as young children's approaches to learning. Restriction: Professional Year Admission required for licensure students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required for licensure students. EDHD-BA-ECO or ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4020 - Science for P-2 Classrooms (3 Credits)

Focuses on teaching science in preschool, kindergarten and primary grades, including knowledge of state and district science content standards, process standards, assessment, effective instructional strategies, evidence-based practice for adapting the curriculum for diverse learners, and appropriate use of materials. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4030 - Nutrition, Health, and Safety (3 Credits)

This course focuses on nutrition, health, and safety as a key factor for optimal growth and development of young children. Content includes nutrient knowledge, menu planning, food program participation, health practices, management and safety, appropriate classroom activities and communication with families. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4040 - Administrative Seminar (3 Credits)

Emphasizes topics required of administrators to effectively lead and manage early childhood inclusive classrooms or other related programs including leadership capacity, professionalism, administration, teaming/collaboration, communities of practice, staff management, safety, and professional development. Cross-listed with ECED 5040. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4050 - Early Childhood Education Capstone: Planning, Instruction & Assessment (3 Credits)

This is the second course in this two-course sequence where students examine the essential features of instructional and curriculum design of developmentally appropriate and culturally sustaining inquiry based learning experiences, implementation, and assessment in the teaching and learning of young children. Prereq: ECED 4010. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECED 4010. Restriction: Professional Year Admission Required. ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4060 - Working with Families, Professionals, and Communities (3 Credits)

The focus of this course is on the human relations component of an early childhood professional's responsibilities. Course content includes family-centered practice, culturally-responsive practices, home-school partnerships, staff development and communication, collaborative teaming and community interaction. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4070 - Development and Education of Infant and Toddlers (3 Credits)

Focuses on the growth and development of infants and toddlers; responsive caregiving practices; observing development; relationship-based approach to curriculum and guidance; health, safety, and nutrition issues. Investigates state requirements for licensed infant/toddler homes and centers and accreditation and quality standards. Prereq or coreq: ECED 2930. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: ECED 2930. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours

ECED 4102 - Developmentally Appropriate Curriculum Methods and Techniques (3 Credits)

Overview of early childhood curriculum development including processes for planning and implementing developmentally appropriate environments, materials, and experiences. Examines curriculum models and approaches for promoting development and learning in all developmental domains. Evidence-based practices for assessing young children. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4200 - Assessment for Early Childhood Classrooms (3 Credits)

This course reviews observation/assessment of young children—purpose, tools, and methods for children birth-age 8. Defines measurable outcomes, progress monitoring and use of assessment data to improve early intervention, curriculum planning, intentional teaching, instructional design, and monitor child outcomes. Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours

ECED 4202 - Child Guidance and Classroom Community (3 Credits)

This course presents evidence-based classroom strategies to promote social competence, build classroom community and reduce or prevent behavior problems. Emphasis is placed on understanding child development and observing behavior to make decisions for children ages birth through age 8. Cross-listed with ECED 1202. Max hours: 3 Credits. Grading Basis: Letter Grade

ECED 4300 - Exceptional Learners in the Early Childhood Classroom (3 Credits)

Educating young children with disabilities in the early childhood setting: typical and atypical development, theoretical models, policy and legal requirements, evidence based research related to instructional design, intervention/curriculum planning and implementation. Introduction to embedded instruction and inclusive environments. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU or EDHD-BA-ECO

ECED 4410 - Coaching for Early Childhood Professionals: Foundations (3 Credits)

The Foundations course focuses on learning, understanding and using relationship and evidence-based coaching skills in early childhood settings. Students will practice the fundamentals of coaching using a systematic, individualized, reflective approach and sharing experiences with others in the course. Cross-listed with ECED 5410. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4420 - Coaching Early Childhood Professionals: Awareness (3 Credits)

The Awareness course focuses on increasing coaches' skills at introspection, thoughtful planning, intentional application of coaching knowledge and skills, and continuous improvement. Students will integrate skills with effective application in class and real life coaching experiences, managing progress and accountability. Cross-listed with ECED 5420. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4430 - Coaching for Early Childhood Professionals: Attuning (3 Credits)

The Attuning course will integrate skills from the Foundations and Awareness courses to complete the EC Coaching Certificate. Students practice refining and altering coaching based on needs and readiness. Students learn sustainable organizational change that embed coaching in all professional practice. Cross-listed with ECED 5430. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECED 4650 - Dual Language Learners Learning and Development (3 Credits)

The course will review current research on the learning and development of young dual language learners (birth through 8) and the classroom environments and instruction that can promote their learning. The course uses a socio-cultural framework to view children's learning. Cross-listed with ECED 5650. Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours

ECED 4800 - Workshop: Topics in Early Childhood Education (1-4 Credits)

Topics and credit hours vary from semester to semester. Cross-listed with ECED 5800. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

ECED 4931 - Internship I & Collaborative Learning Community (2 Credits)

ECED 4931 is the first of 3 internships in the professional year of the ECE program plan that provides the necessary learning opportunities for candidates to gradually develop their practice in order to be licensed as an early childhood educator. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4932 - Internship II & Collaborative Learning Community (2 Credits)

ECED 4932 is the second of 3 internships in the professional year of the ECE program plan that provides the necessary learning opportunities for candidates to gradually develop their practice in order to be licensed as an early childhood educator. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

ECED 4933 - Internship III & Collaborative Learning Community (2-8 Credits)

ECED 4933 is the final internship in a series of three completed during the professional year of the ECE program plan that provides the necessary learning opportunities for candidates to gradually develop their practice to be licensed as an early childhood educator. Cross-listed with ECED 5933. Restriction: Professional Year Admission required.

Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU or EDHD-BA-ECO

ECED 4934 - Extended Internship & Collaborative Learning Community (1-8 Credits)

ECED 4934 is an extended internship that supports students who need extended time in an internship in order to complete their ECE program and fully develop their practice in order to be licensed as an early childhood educator. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Economics (ECON)

ECON 1010 - Economics of Social Issues (3 Credits)

This course is designed for non-majors. Majors in economics will not receive credit toward departmental degree requirements. The focus of the course is on current issues in the economy, including poverty, social security, airline deregulation, government control of prices, economics of higher education, free trade, race and gender discrimination, unemployment, the role of government, and the national debt. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECON 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

ECON 2012 - Principles of Economics: Macroeconomics (3 Credits)

Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of economics. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.

Typically Offered: Fall, Spring, Summer.

ECON 2022 - Principles of Economics: Microeconomics (3 Credits)

Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.

Typically Offered: Fall, Spring, Summer.

ECON 3050 - Decision Making (3 Credits)

This course discusses current research on decision making/behavioral economics, as well as its application to individual well-being and public policy. You will gain insights on how and why people can be irrational in their daily decisions. Cross-listed with PBHL 3050 and PSYC 3050. Max hours: 3 Credits.

Grading Basis: Letter Grade

ECON 3100 - Economics of Race and Gender (3 Credits)

Overview of the determinants of wages, employment and education in the labor market. Emphasizes the investigation of the evidence and theories of differentials that appear to be associated solely with race and sex, and public policies associated with discrimination and poverty. Prereq: ECON 2022 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

ECON 3300 - Economics of Crime and Punishment (3 Credits)

Presents the economic approach to crime. Teaches economic reasoning in the analysis of the determinants of criminal activity, provides an in-depth analysis of the importance of socioeconomic factors in determining crime. Investigates the relative importance of labor market conditions, deterrence, and other factors in the level of criminal activity. Also covers topics to reduce crime such as, the death penalty, issues around victimless crime and public choices. Prereq: ECON 2022 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 3366 - Managerial Economics (3 Credits)

Intelligent business decisions require an understanding of how firms relate to their competitors, customers, and investors. In this course, you will use basic microeconomic theory to distinguish between different competitive markets, to design profitable pricing strategies, and to make management decisions with a problem-solving approach. Brief case studies of actual business decisions are included. Math skills needed are the equivalent of high-school algebra and geometry. Note: Students will not receive credit for ECON 3366 if they take it simultaneously or after successfully completing ECON 4310. Prereq: ECON 2022 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

ECON 3400 - Economics of Sex and Drugs (3 Credits)

Examines the political and policy issues surrounding controversial topics in human behavior. Economic models and reasoning are applied to examine issues such as juvenile substance use and abuse, and teen pregnancy. Prereq: ECON 2022 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

ECON 3415 - Issues in International Trade and Finance (3 Credits)

A survey of International Trade and Finance is provided and then applied to contemporary issues such as gains from trade, global and local economic inequality, trafficking, global capital markets, debt, the Eurozone and transmission of inflations and recessions internationally. This course is for non-economics majors & economics minors. Students may not receive credit if they take it after they have completed ECON 4410 or ECON 4420. Prereq: ECON 2012 and ECON 2022 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2012 and 2022 with a C- or higher

ECON 3770 - Issues in Economic Development (3 Credits)

This is a survey course in development economics intended to provide a basic understanding of the economies of developing nations. Topics include issues and policies in economic development, comparative economic growth, demographic change, poverty, inequality, and migration. This course is for non-economics majors & economics minors. Students may not receive credit if they take it after they have completed ECON 4770. Prereq: ECON 2012 or ECON 2022 with a C- or higher. Term offered: spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Econ 2012 or Econ 2022 with a C- or higher

Typically Offered: Spring, Summer.

ECON 3801 - Introduction to Mathematical Economics (3 Credits)
 Introduces the use of mathematics in micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic interpretations. Prereq or Coreq: ECON 2012 with a C- or higher, prereq: ECON 2022 and College Algebra or higher (MATH 1110 or MATH 1070 or MATH 1401 or MATH 1130 or MATH 2411 or MATH 2421) with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq or coreq: ECON 2012 with a C- or higher, prereq: ECON 2022 and College Algebra or higher (MATH 1110 or MATH 1070 or MATH 1401 or MATH 1130 or MATH 2411 or MATH 2421) with a C- or higher
 Typically Offered: Fall, Spring.

ECON 3811 - Statistics with Computer Applications (4 Credits)
 Introduces statistical methods and their application to quantitative problems in economics and social sciences. Note: Recitation is required. Prereq or Coreq: ECON 2022 AND Prereq: College Algebra or higher (MATH 1110, MATH 1070, MATH 1401, MATH 2411, MATH 2421, MATH 1130, or ECON 3801) with a C- or higher. Term offered: fall, spring. Max hours: 4 Credits.
 Grading Basis: Letter Grade
 Prereq or co-req: ECON 2022 AND Prereq: College Algebra or higher (MATH 1110, MATH 1070, MATH 1401, MATH 2411, MATH 2421, MATH 1130, or ECON 3801) with a C- or higher.
 Typically Offered: Fall, Spring.

ECON 3939 - Internship (1-3 Credits)
 Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 9.
 Prereq: Junior standing or higher and at least a 2.75 cumulative GPA
 Typically Offered: Fall, Spring, Summer.

ECON 4001 - Topics in Economics (3 Credits)
 Studies special topics in economics to be selected by the instructor. Note: May be repeated for credit when topics vary. Repeatable. Max hours: 9 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 9.

ECON 4030 - Data Analysis with SAS (3 Credits)
 Covers techniques for handling and interpreting economic data and conducting econometric analyses using SAS programming. Provides hands-on data management and analyses with large data sets with applications to business and economics, and prepare students for SAS Base Programmer certification exam. Prereq: ECON 3811 with a C- or higher. Cross-listed with ECON 5030. Term offered: fall, spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: ECON 3811 with a C- or higher
 Typically Offered: Fall, Spring.

ECON 4050 - Special Economic Problems (1-8 Credits)
 Provides students the opportunity to critically evaluate some practical and theoretical problems under supervision, and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: ECON 2012 and ECON 2022 with a C- or higher. Note: ECON 4050 for majors in economics, others by permission of instructor. Cross-listed with ECON 5050. Repeatable. Max Hours: 9 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 9.
 Prereq: Econ 2012 or Econ 2022 with a C- or higher

ECON 4071 - Intermediate Microeconomic Theory (3 Credits)
 Production, price and distribution theory. Study of value and distribution theories under conditions of varying market structures, with special references to the contribution of modern theorists. Prereq: ECON 2022 and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with a B or higher). Term offered: fall, spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: ECON 2022 and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with a B or higher).
 Typically Offered: Fall, Spring.

ECON 4081 - Intermediate Macroeconomic Theory (3 Credits)
 National income and employment theory. Primary emphasis placed on determination of employment and prices. Problems of unemployment and inflation analyzed and appropriate policies considered. Prereq: ECON 2012 and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with a B or higher). Term offered: fall, spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: ECON 2012 and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with a B or higher).
 Typically Offered: Fall, Spring.

ECON 4090 - History of Economic Thought (3 Credits)
 Traces the development of economic thought from ancient times to the 20th century. Considers the context in which these ideas were developed and their relationship to modern economic thought and contemporary economic problems. Note: Students may not receive credit for this course if they have already received credit for ECON 4091. Prereq: ECON 2012 and ECON 2022 with a C- or higher. Cross-listed with ECON 5090. Term offered: spring, fall. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: Econ 2012 or Econ 2022 with a C- or higher
 Typically Offered: Fall, Spring.

ECON 4110 - Money and Banking (3 Credits)
 Surveys major monetary and fiscal institutions such as commercial banks, the federal reserve system, savings institutions, and the structure of debt. The relationships between households, firms and financial intermediaries are explored, and the tools available to macroeconomic policy makers are described and evaluated. Prereq: ECON 4081 with a C- or higher. Term offered: fall. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: ECON 4081 with a C- or higher.
 Typically Offered: Fall.

ECON 4150 - Economic Forecasting (3 Credits)

Teaches forecasting techniques used in business and government to project trends and short-term fluctuations. Actual data are employed in instruction and labs. State-of-the-art spreadsheet and algorithms are introduced as part of the course work. Prereq: ECON 4811 with a C- or higher. Cross-listed with ECON 5150. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4811 with a C- or higher.

Typically Offered: Spring.

ECON 4210 - Public Finance (3 Credits)

Surveys topics dealing with the economics of government activity, including the provision of public goods; the economics of the political process; welfare programs; pollution externalities; benefit-cost analysis; the U.S. tax structure; and the effects of taxes on economic behavior, economic performance and the distribution of income. Prereq: ECON 2022 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

Typically Offered: Spring.

ECON 4240 - Economic Policy Analysis (3 Credits)

Deals with the application of economic analysis to the government policy-making process. Topics include public goods provision, externalities, cost-benefit analysis, judicial decision making, the economic analysis of the political process, government regulation of business, and tax incidence. Prereq: ECON 2012, ECON 2022 with a C- or higher and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with B or higher). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2012, ECON 2022 with a C- or higher and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with B or higher)

ECON 4310 - Managerial Economics (3 Credits)

The course adapts standard theory to more realistically discuss enterprise structure, firm and managerial behavioral incentives, and strategic behavior. Once a foundation is laid, successful and unsuccessful strategies and case studies are presented. Note: Students will not receive credit for ECON 3366 if they take it simultaneously or after successfully completing ECON 4310. Prereq: ECON 2022 with a C- or higher. Cross-listed with ECON 5310. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 4318 - Urban Economics (3 Credits)

Why do cities form and why are they so productive? How does the value of land change as the urban landscape develops? How do we address the difficulties that challenge modern cities, such as affordable housing, congestion, and crime? Prereq: ECON 3811 and ECON 4071 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 and ECON 4071 with a C- or higher.

Typically Offered: Fall.

ECON 4320 - Financial Economics (3 Credits)

This course focuses on the economics of decision-making under conditions of risk and uncertainty. Topics include theories of efficient markets, rational expectations, speculative bubbles, random walks, portfolio analysis, options, derivatives and future markets. Emphasis is on the application of basic theories to economic agents' behavior and case studies. Prereq: ECON 2022 with a C- or higher and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with B or higher), and ECON 3811 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher and ECON 3801 with a C- or higher or (MATH 2411 or MATH 2421 with B or higher), and ECON 3811 with a C- or higher

Typically Offered: Spring.

ECON 4410 - International Trade (3 Credits)

Trade theory identifies who wins and loses from trade and why there are usually overall gains. Explores issues in immigration, globalization, income inequality, tariffs, dumping, the WTO, the environment, wages, and growth strategies among others. Prereq: ECON 3811 with a C- or higher. Cross-listed with ECON 5410. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 with a C- or higher

Typically Offered: Fall, Spring.

ECON 4420 - International Finance (3 Credits)

The international adjustment process, including the foreign exchange market, balance of payments disequilibria, price and income adjustment, fiscal and monetary policy, and the international monetary system. Prereq: ECON 3811 with a C- or higher. Term offered: spring, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 with a C- or higher

Typically Offered: Fall, Spring.

ECON 4430 - Economic Growth (3 Credits)

Explores causes of rapid growth or decline over long periods for different regions of the world. Inequality, sustainability, culture, climate, technology and resources all play significant roles. Data and examples are used to determine the important influences. Prereq: ECON 2022 and ECON 3811 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 and 3811 with a C- or higher

Typically Offered: Spring.

ECON 4461 - Economic Incentives (3 Credits)

A free market can fail with poorly designed economic incentives. The course examines incentives at work in a wide range of markets and investigates the market conditions that lead to a high level of welfare for the society. One such condition is the incentive for every participant to reveal his/her true preference. The incentive environments examined in this course include the principal-agent problems, job market signaling, mandatory retirement, professor's tenure, auctions of artifacts and assets, private provision of public goods, marriage matching, matching of organ donation (kidneys and lungs), school admissions, and majority voting. Prereq: ECON 3811, ECON 4071 and (ECON 3801 or MATH 2411 or MATH 2421) with a B+ or higher, or instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811, ECON 4071 and (ECON 3801 or MATH 2411 or MATH 2421) with a B+ or higher, or instructor permission.

ECON 4530 - Economics of Natural Resources (3 Credits)

Examines economic models of renewable resource management and models of exhaustible resource depletion. Analyzes decisions made by private firms and governments affecting the methods and rate of resource development. Examines the effects of resource development on economic growth and environmental quality and the effects of economic development on resource scarcity. Prereq: ECON 2022 with a C- or higher. Cross-listed with ECON 5530. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

ECON 4540 - Environmental Economics (3 Credits)

Economic approach to environmental problems: relationship between ownership structures, externalities and environmental damage; poverty, population pressure, and environmental degradation; valuation of environmental amenities; sustainability of economic activity; cost-benefit analysis applied to the environment; evaluation of alternative instruments for environmental control. Prereq: ECON 2022 with a C- or higher. Cross-listed with ECON 5540. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

Typically Offered: Spring.

ECON 4550 - Game Theory and Economic Applications (3 Credits)

An introduction to economic applications of game theory. Concepts such as strategic and extensive form games, existence and selection of equilibrium will be covered. These concepts will be applied to understand market structure, location decisions, price competition, contracting, and auctions. Prereq: ECON 4071 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4071 with a C- or higher

Typically Offered: Fall.

ECON 4610 - Labor Economics (3 Credits)

Studies problems associated with the determination of wages, hours, and working conditions in the American economy. Strong emphasis placed on current research in such areas as welfare reform, minimum wage, return to schooling, immigration, labor market discrimination, and trade unions. Prereq: ECON 4811 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4811 with a C- or higher.

Typically Offered: Fall.

ECON 4640 - Sports Economics (3 Credits)

Applies economic analysis to sports. Explores topics such as competition, on-field performance, players' compensation, profits in professional sports, anti-trust and labor law, the impact of sports on local communities and the links between athletics and education. Prereq: ECON 2022 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 with a C- or higher.

Typically Offered: Spring.

ECON 4660 - Health Economics. (3 Credits)

This course focuses on the analysis of current health care markets. Topics include the production of health, demand for health care, physician and hospital behavior, health insurance, medical malpractice, health externalities, managed care and the affordable care act. Prereq: ECON 3811 and 2022. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 and 2022

Typically Offered: Fall, Spring.

ECON 4670 - Economics of Population and Growth (3 Credits)

Theoretical modeling and data analysis will be used to analyze the economic causes, consequences and policy responses to population change through changes in fertility, marriage, health, mortality and migration. Prereq: ECON 2022 and (ECON 3811 or ECON 4811) with a C- or higher or instructor approval. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 2022 and (ECON 3811 or ECON 4811) with a C- or higher

Typically Offered: Fall.

ECON 4740 - Industrial Organization (3 Credits)

Examines the determinants of, and linkages between, market structure, firm conduct, and industrial performance. Topics include: determinants of the market size; impact of different market structures on prices and outputs; strategic behavior of firms to prevent entry or induce exit of rival firms; collusion; price discrimination; advertising; competition, monopoly, and innovation; implications for economic efficiency and public policy. Prereq: ECON 4071 with a C- or higher. Cross-listed with ECON 5740. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4071 with a C- or higher

Typically Offered: Spring.

ECON 4770 - Development Economics (3 Credits)

This course provides a theoretical and empirical framework for analyzing economic problems in developing countries focusing on the role of individuals, families and institutions. Topics include poverty traps, human capital accumulation, gender discrimination, microcredit and violent conflict. Prereq: ECON 4811 with a C- or higher. Cross-listed with ECON 6770. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4811 with a C- or higher.

Typically Offered: Fall.

ECON 4803 - Mathematical Economics (3 Credits)

Application of mathematical techniques in micro-and macro-economic analysis. Topics include single and multivariable differentiation, basic matrix algebra, optimization, and integration with applications to economic models of consumption, production, market equilibrium, national accounting, and growth. Prereq: ECON 3801 or MATH 2411 or MATH 2421 and ECON 4071 with a C- or higher. Cross-listed with ECON 5803. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3801 or MATH 2411 or MATH 2421 and ECON 4071 with a C- or higher.

Typically Offered: Fall, Spring.

ECON 4811 - Introduction to Econometrics (3 Credits)

Introduces econometric methods and their applications to quantitative economic problems. Simple and multiple regression models and problems encountered in their applications are developed in lectures and applied computer projects. Prereq: ECON 3811 or MATH 3382 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 3811 or MATH 3382 with a C- or higher.

Typically Offered: Fall, Spring.

ECON 4812 - Advanced Econometric Methods (3 Credits)

This course will focus on econometric methods used to generate causal inference in experimental and non-experimental settings. Topics covered will include the potential outcomes framework, randomized experiments, natural experiments, difference-in-differences, fixed effects, matching, instrumental variables, and regression discontinuity. Prereq: ECON 4811 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ECON 4811 with a C- or higher.

ECON 4840 - Independent Study: ECON (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

ECON 4850 - Honors Independent Study: ECON (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Report as Full Time.

Typically Offered: Fall, Spring, Summer.

ECON 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

Education and Human Development (EDHD)

EDHD 1019 - Introduction to Urban Education (3 Credits)

In this course you will examine the sociological issues related to urban schools, communities, and teaching. We will look at such topics as school culture, diversity, ethnicity, and social realities in American schools. Students will critically examine current education issues that affect their lives, their local community, and P-12 classrooms throughout the state and the country. Max hours: 3 Credits.

Grading Basis: Letter Grade

EDHD 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshmen level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

EDHD 1930 - Community Based Field Experience & Seminar (3 Credits)

Students learn the dispositions of a community-grounded educator and develop an asset-based lens for working with students, families, and communities through 60 hours of required field experience and a mediated seminar. Max hours: 3 Credits.

Grading Basis: Letter Grade

EDHD 2050 - Current Topics in Education and Human Development (1-3 Credits)

Current topics that explore community and educational settings in Education and Human Development (EDHD) to be selected by the instructor. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

EDHD 2840 - Independent Study in Education & Human Development (1-6 Credits)

Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

EDHD 2910 - Service Learning in Education and Human Development (1-4 Credits)

This course prepares our students to become responsible and resourceful citizens who partner with community organizations and work to serve a wide range of needs and issues within culturally and linguistically diverse environments. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

EDHD 2930 - Learning & Development Field Experience & Seminar (2-3 Credits)

Teacher candidates engage in field experience 2, half-days per week in early childhood and primary classrooms working with children to support literacy learning while also observing, documenting and reflecting on how learning & development is facilitated. Prereq or coreq: LCRT 3720 and LCRT 4710. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or coreq: LCRT 3720 and LCRT 4710. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours

EDHD 3930 - Diverse Learners Field Experience & Seminar (3 Credits)

EDHD 3930 is a comprehensive clinical block field experience designed to support teacher candidates' learning of issues and practices relevant to students with disabilities and English language learners. A seminar will mediate teacher candidates' experiences from their various classroom settings. Prereq or Coreq: SPED 4030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPED 4030.

EDHD 4050 - Special Topics in Education and Human Development (1-3 Credits)

Advanced study of special topics that examine community and educational settings in Education and Human Development (EDHD) to be selected by the instructor. Maybe repeated for credit. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Educational Foundations (EDFN)

EDFN 1000 - Equality, Rights & Education (3 Credits)

Examines the history of U.S. public schooling through landmark court cases. Investigates/analyzes how apartheid came to be institutionalized, how forces of desegregation achieved a series of momentous victories, and how those victories have been undermined through the resegregation of schools. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

EDFN 1010 - Lived Experiences and 21st Century Skills: An Introduction (1-5 Credits)

This internship course introduces the idea of 21st century skills embedded in various learning contexts and connecting them with lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall.

EDFN 1111 - First Year Seminar (3 Credits)

Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

EDFN 2030 - Lived Experiences and 21st Century Skills: Academic and Professional Skills (1-5 Credits)

This internship course connects 21st century skills embedded in academic and professional learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

EDFN 2060 - Lived Experiences and 21st Century Skills: Innovation and Critical Thinking (1-5 Credits)

This internship course connects 21st century skills embedded in innovation and critical thinking learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 2080 - Lived Experiences and 21st Century Skills: Global Literacies (1-5 Credits)

This internship course connects 21st century skills embedded in Global Literacies rich learning contexts with students' lived experiences. Internship activities include entry level career and experiences workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 3010 - Lived Experiences and 21st Century Skills: Wilderness Medicine in Outdoor Education (1-6 Credits)

The course provides educators who integrate outdoor education in their teaching a theoretical knowledge of and practical application of wilderness medicine care, risk management in remote and austere environments. Students build self-awareness and critical thinking through reflective exercises in personal risk management, leadership, and decision making. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

EDFN 3020 - Lived Experiences and 21st Century Skills: Environmental and Civic Literacies (1-5 Credits)

This internship course connects 21st century skills embedded in Environmental and Civic Literacies learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 3070 - Lived Experiences and 21st Century Skills: Digital Literacies (1-5 Credits)

This internship course connects 21st century skills embedded in digital literacies learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 3090 - Lived Experiences and 21st Century Skills: Social Emotional Learning (1-5 Credits)

This internship course connects 21st century skills embedded in Social Emotional rich learning contexts with students' lived experiences. Internship activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 4001 - Problematizing Whiteness: Educating for Racial Justice (3 Credits)

Critical Whiteness Studies provides a deeper analysis of race that accounts for both sides of the race coin: the plight of people of color AND how Whites are complicit. This class looks deeper into how race operates within White contexts and how that impacts people of color so we bridge how Whites AND people of color can work together towards a racially equitable society. Cross-listed with ETST 4010 and EDFN 5001. Max hours: 3 Credits.

Grading Basis: Letter Grade

EDFN 4010 - Social Foundations and Cultural Diversity in Urban Education (3 Credits)

This course focuses on the role of cultural diversity in the United States school system and what this means for educators oriented toward social justice. The intention of this course is to have teacher candidates engage in exploring the most salient issues surrounding education in the United States, developing an understanding of the complex relationships between schools and the larger society of which they are a part. This course closely examines important contemporary and historical societal issues such as race, social class, gender, ethnicity, sexual identity, politics, and dynamics of power and privilege. Cross-listed with EDFN 5010. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor, Teacher Education Minor or CLAS secondary students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor, Teacher Education Minor or CLAS secondary students.

EDFN 4040 - Lived Experiences and 21st Century Skills: Collaboration (1-5 Credits)

This internship course connects 21st century skills embedded in collaborative learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

EDFN 4050 - Lived Experiences and 21st Century Skills: Communication (1-5 Credits)

This internship course connects 21st century skills embedded in communication learning contexts with students' lived experiences. Internships activities include entry level career experiences and workplace competencies. Repeatable. Max hours: 5 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 5.

Typically Offered: Fall, Spring, Summer.

Electrical Engineering (ELEC)

ELEC 1201 - Fundamentals of Engineering Design Innovation (3 Credits)

This course introduces concepts of engineering design innovation at a variety of scales and disciplines. Participants will experience and explore core technology and design themes including design principles, processes, methods, modes of thinking, and social and cultural aspects of design. Cross-listed with CSCI 1200, CVEN 1200, ENGR 1200, MECH 1200 and IWKS 2100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

ELEC 1510 - Digital Logic (3 Credits)

The design of combinatorial and sequential switching circuits. Topics include Boolean algebra, Boolean function minimization technique, combinatorial circuit analysis and synthesis, synchronous sequential circuit analysis and synthesis, algorithmic state machine design, asynchronous sequential circuit analysis and synthesis. Max hours: 3 Credits.

Grading Basis: Letter Grade

ELEC 1520 - Programming for Electrical Engineers (3 Credits)

An introductory course in programming using C/C++ and Python. The objective of the course is to examine the design of programs using language concepts, data structures, algorithms, and object-oriented design techniques to solve fundamental engineering problems. Students develop skills to program, construct data structures, and test & debug solutions, while gaining knowledge of the fundamental elements and operation of computer systems. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ELEC 2132 - Circuit Analysis I (3 Credits)

Introduces circuit analysis: basic principles, operational amplifier circuits, first-order and second-order circuits, steady-state sinusoidal analysis with phasor mathematics. Prerequisite: Math 2411 with a C- or higher and Phys 2311 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2311 and MATH 2411 with a C- or higher

ELEC 2142 - Circuit Analysis II (3 Credits)

Sequential course after ELEC 2132. Topics include: Solution of circuits using Laplace transforms, frequency domain analysis, additional steady-state solutions, Bode plots, active filters, pulses, impulses, and computer-aided analysis. Prerequisite: Math 2421 with a C- or higher and Phys 2331 with a C- or higher, Elec 2132 with a C- or higher. This course can be taken stand alone without a lab. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2132, MATH 2421 and PHYS 2331 with a C- or higher.

ELEC 2520 - Embedded Systems (3 Credits)

A second semester computer engineering course covering microcontroller & microprocessor-based embedded system design and interfaces including peripherals, development tools, constraints and interfacing between physical world and device. Prereq: ELEC 1520 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 1520 with a C- or higher.

ELEC 2531 - Logic Laboratory (1 Credit)

Experiments in digital logic utilizing both computer simulation and actual analysis using integrated circuits. Initially, combinational logic circuits are studied, including circuits such as binary adders and multipliers, followed by sequential circuits, including counters. Meters and oscilloscopes are introduced. Use of computer-aided design tools facilitating design, simulation, and implementation of digital systems using field-programmable logic devices are an integral part of the entire course. Coreq: ELEC 1510. Max hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: ELEC 1510.

ELEC 2651 - Signal Processing (3 Credits)

Introduction to discrete-time signal processing and frequency domain analysis. Sampling and interpolation, discrete Fourier transform, effects of filtering and modulation of signals. Concepts are explored in the context of multimedia, communications, and data analysis applications. Emphasizes computer-based signal processing using MATLAB. Prereq: ELEC 1520 with a C- or better. Coreq: MATH 3195 or MATH 3191. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 1520 with a C- or better. Coreq: MATH 3195 or MATH 3191.

ELEC 3030 - Electric Circuits and Systems (3 Credits)

This basic electrical engineering course is for non-majors (does not apply to BSEE degree). Students study circuit analysis, transformers, electric motors, and simple electronic circuits (diodes and transistors). Prereq: MATH 2421 and PHYS 2331 with a C- or higher. Restriction: Restricted to majors within the College of Engineering, Design and Computing. Cross-listed with MECH 3030. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2421 and PHYS 2331 with a C- or higher Restriction: Restricted to majors within the College of Engineering, Design and Computing

ELEC 3133 - Electromagnetic Fields (3 Credits)

Fundamental physics and applications of electric and magnetic fields are covered. Topics include: vector analysis in multiple coordinate systems, Maxwell's equations in free space and material regions including boundary conditions, static and quasi-static electric and magnetic fields, uniform plane waves for free space and for materials. Prerequisite: MATH 2421 with a C- or higher and PHYS 2331 with a C- or higher, ELEC 2132 with a C- or higher, MATH 3195 with a C- or higher. Restriction: Restricted to students within the College of Engineering, Design and Computing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2132, MATH 2421, MATH 3195 (or MATH 3191 and MATH 3200), and PHYS 2331 all with a grade of C- or higher. Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 3164 - Energy Systems (3 Credits)

Explores various energy resources and modern conversion systems utilized to generate, store, process, and deliver electric power. Topics include electromechanical, electrochemical, and renewable energy systems, as well as switch-mode power processing and power networks. Prereq: ELEC 2142 with a C- or higher, and ENGR 1130 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2142 with a C- or higher, and ENGR 1130 with a C- or higher.

ELEC 3225 - Electronics (4 Credits)

BJT and FET transistor models at high frequencies, multistage amplifiers, frequency response of amplifiers. Feedback, operational amplifiers, oscillators, power amplifiers, and introduction to power electronics. Prereq: ELEC 2142, PHYS 2331 and ENGR 1130. Restriction: Restricted to students within the College of Engineering, Design and Computing. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2142 with a C- or better, PHYS 2331 with a C- or better and ENGR 1130 with a C- or better. Restriction: Restricted to students within the College of Engineering, Design and Computing.

ELEC 3316 - Signals and Systems (3 Credits)

Introduces the fundamentals of signals and systems analysis. Topics include: time domain analysis of continuous and discrete time systems, frequency domain (Laplace and z-transform) analysis, applications to filters and feedback systems, Fourier transform for both continuous and discrete time signals, sampling and signal reconstruction, applications to communication systems and state space representation. Learning experience is enhanced by using MATLAB-based examples and experiments. Prereq: ELEC 2142 with a C- or higher, ELEC 2531 with a C- or higher, ELEC 2651 with a C- or higher, MATH 3195 with a C- or higher or MATH 3191 and MATH 3200 with a C- or higher Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2142 with a C- or higher, ELEC 2531 with a C- or higher, ELEC 2651 with a C- or higher, MATH 3195 with a C- or higher or MATH 3191 and MATH 3200 with a C- or higher.

ELEC 3520 - Intelligent Systems: IoT & Cyber-Physical Systems (3 Credits)

A computer engineering course covering intelligent systems that include applications with connected Internet-of-Things (IoT) devices and cyber-physical elements. An intelligent system consists of a collection of computing devices communicating with one another and capable of interacting with the physical world. The course explores the system design and software development process to deploy real-time embedded applications in real-world scenarios. Topics include multiple hardware and software systems necessary to perform sensing, actuation, processing, and communication with connected computing devices.

Prereq: ELEC 2520 with a C- or better, ELEC 2531 with A C- or better and ELEC 2651 with a C- or better. Max hours: 3 Credits

Grading Basis: Letter Grade

Prereq: ELEC 2520 with a C- or better, ELEC 2531 with A C- or better and ELEC 2651 with a C- or better.

ELEC 3701 - Machine Learning for Engineers (3 Credits)

The course introduces the mathematical formalism and software for machine learning approaches in electrical engineering problems. Selected applications include signal detection, signal classification, remote sensing, imaging, and model optimization. Topics include: linear and logistic regression, support vector machines, clustering, artificial neural networks, hypothesis testing, and Bayesian analysis. Prereq: ELEC 3817 with a C- or better and MATH 3195 with a C- or better or MATH 3191 and MATH 3200 and ELEC 2520 with a C- or better. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3817 with a C- or better AND (MATH 3195 or (MATH 3191 and MATH 3200 with a C- or better and ELEC 2520))

ELEC 3724 - Energy Systems Laboratory (1 Credit)

Provides hands-on experience on electromechanical, electrochemical, and semiconductor-based energy conversion systems. Sessions include operation of induction motor and generator, energy storage, and renewable energy experiments. Prereq: ELEC 2142 with a C- or better. Prereq or Coreq: ELEC 3164. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: ELEC 2142 with a C- or better. Prereq or Coreq: ELEC 3164.

ELEC 3817 - Engineering Probability and Statistics (3 Credits)

Topics include: definition of probability, conditional probability, independence, combined experiments and Bernoulli trials, random variables, joint distribution and density functions, correlations, sample mean and variance. Also, introduction to random processes, auto and cross correlation functions, spectral density of random signals, responses of a linear system to random inputs. Prereq: MATH 3195 with a C- or better and Math 2421 with a C- or better. Max hours: 3 Credits. Grading Basis: Letter Grade

Prereq: MATH 3195 with a C- or better and Math 2421 with a C- or better.

ELEC 3900 - Circuit Design and Fabrication (3 Credits)

Course with Hands-on content that involves electrical measurement and diagnosis in the context of electrical circuit design, fabrication, and validation. Standard benchtop tools of oscilloscope, signal generator, digital multi-meter, DC power supply are introduced. Final project involves layout and fabrication of a printed circuit board (PCB). Prereq: ELEC 3225 with a C- or better and ELEC 2142 with a C- or better. Max hours: 3 Credits. Grading Basis: Letter Grade

Prereq: ELEC 3225 with a C- or better and ELEC 2142 with a C- or better.

ELEC 3939 - Internship (1-3 Credits)

Students gain engineering design experience involving application of specific technical concepts and skills in a supervised industrial environment. (Must have approval from ELEC faculty.) Prereq: ELEC 2142. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ELEC 2142

ELEC 4005 - IC Design (3 Credits)

Explores digital integrated circuit design including MOS processing steps, physical operation, building blocks of digital circuits, advanced nMOS, pMOS and CMOS circuit design, silicon VLSI technology and circuit and chip level. Spice and lay-out Editor are used. The physical relationship between circuit design and actual silicon layout and structure and technology are emphasized. Prereq: ELEC 3225. Cross-listed with ELEC 5005. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3225.

ELEC 4025 - Device Electronics (3 Credits)

A course relating performance and limitations of solid state devices to their structures and technology. For both advanced circuit and device engineers. Semiconductor physics and technology, pn-junction and MOS devices used in modern integrated circuits. Prereq: ELEC 3225 and senior standing. Cross-listed with ELEC 5025. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3225 Restriction: Senior standing

ELEC 4133 - Advanced Electromagnetic Fields (3 Credits)

A course focused on electromagnetic waves. Topics include: electromagnetic power, reflection and transmission of uniform plane waves in layered media, rectangular wave guides, two-conductor transmission lines, Smith Chart representation of wave impedance and reflection. Prereq: ELEC 3133. Cross-listed with ELEC 5033. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3133 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4134 - Introduction to Microwave Circuit Design (3 Credits)

This course provides the basic principles of microwave circuit design, including transmission line theory, network parameters, signal flow graphs, design of high frequency matching networks, filters, hybrids and couplers using waveguide elements, high frequency amplifier and mixer design. Prereq: ELEC 3133. Cross-listed with ELEC 5134. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3133

ELEC 4136 - Control Systems Analysis (3 Credits)

Introduces students to the fundamentals of analysis and design of feedback systems. Topics include: mathematical models of linear continuous-time systems applied to modeling physical systems in the time and frequency domain, control system characteristics, Routh's stability and transient response analysis, Nyquist stability and polar plots, analysis and design of linear control systems by root locus and frequency response, methods, compensator implementation, finite-precision numerical effects, round-off errors, and computer-based design applications. Prereq: ELEC 3316. Coreq: ELEC 3817. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316 Coreq: ELEC 3817 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4154 - Electric and Hybrid Vehicle Powertrains (3 Credits)

Covers the fundamental components and operation of electric and hybrid vehicles' drivetrain. Topics include electric vehicle history, major vehicle components, fundamental vehicle dynamics, electric and hybrid drivetrain configurations, electric motors and drives, energy storage, and power electronics chargers. Restriction: Junior Standing. Cross-listed with ELEC 5154. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students at a junior standing or higher

Typically Offered: Fall.

ELEC 4164 - Electric Machines and Drives (3 Credits)

Covers power electronics drives for rotating electric machinery. Topics include power electronics elements for drives, load characteristics, dynamic modeling of AC machines, fundamental control algorithms, simulation and practical commercial drives. Prereq: ELEC 3164. Cross-listed with ELEC 5164. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4170 - Electric Machines and Drives Laboratory (1 Credit)

Offers hands-on experience on rotating electric machine drive simulations and commercial systems. Sessions include pulse-width modulation (PWM) inverter, induction, DC, and synchronous machine drives. Matlab/Simulink and a commercial inverter will be utilized. Prereq or Coreq: ELEC 4164/5164 or equivalent. Cross-listed with ELEC 5170. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or Coreq: ELEC 4164 or ELEC 5164

Typically Offered: Fall.

ELEC 4174 - Power Electronic Systems (3 Credits)

Topics to be covered include: power electronics fundamentals and applications in power systems; uncontrolled, semi-controlled and fully controlled power semiconductors; converters design and control. Prereq: ELEC 3164. Cross-listed with ELEC 5174. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4184 - Power Systems Analysis (3 Credits)

Topics to be covered include: complex power; per-unit quantities; modeling of generators, transformers and transmission lines; power flow problem; economic dispatch; faults and sequence networks; and an introduction to power system protection and dynamics. Prereq: ELEC 3164. Cross-listed with ELEC 5184. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4212 - Fundamentals of Reliability Engineering (3 Credits)

Reliability Engineering is a critical part of systems engineering and sustainability design. There are four objectives of this course: 1) to introduce systems and controls in the design process, 2) to apply reliability fundamentals to civil, computer science, bio-engineering, mechanical, and electrical engineering projects and systems, 3) to employ and explore sustainability design in engineering projects, and 4) to prepare for the American Society of Quality Control (ASQC) test: the Certified Reliability Engineer Certification (CRE). Prereq: ELEC 3817 or Instructor Permission. Cross-listed with ELEC 5212. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3817.

Typically Offered: Summer.

ELEC 4225 - Advanced Electronics (3 Credits)

Switching state models of discrete components and integrated circuits, including logic gates, comparators, and operational amplifiers. Input, output, and transfer characteristics. Non-ideal properties. Analog-digital and digital-analog conversion. MOS-integrated circuits. Prereq: ELEC 3225 and Coreq: ELEC 3900. Restriction: Restricted to students within the College of Engineering, Design and Computing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3225 and Coreq: ELEC 3900. Restriction: Restricted to students within the College of Engineering, Design and Computing.

ELEC 4247 - Communication Theory (3 Credits)

Introduces the principles of analog and digital communication systems. Series expansion and Fourier Series and transforms. The sampling theorem. Stochastic principles and noise. Linear systems and Fourier analysis. Design of transmitters and receivers: modulation and demodulation schemes. Some information theoretic concepts: source coding, channel coding, channel capacity and performance measures. Prereq: ELEC 3316 and 3817. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: ELEC 3316 and 3817

ELEC 4248 - Digital Communication Systems (3 Credits)

Introduces digital communication systems covering elements of information theory; mathematical representation of signals and systems; modulation and demodulation for the additive Gaussian noise channel; performance analysis of various transmission formats; synchronization; coded waveforms; decoding algorithms; and other related topics. Prereq: ELEC 3316, 3817; recommended ELEC 4247. Cross-listed with ELEC 5248. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req: ELEC 3316 and 3817

ELEC 4249 - Wireless networking (3 Credits)

Fundamentals of wireless communication from a physical-layer perspective. Multipath signal propagation and fading channel models. Design of constellations to exploit time, frequency, and spatial diversity. Reliable communication and single-user capacity. Interference management, multiple-access protocols, and multi-user capacity. Cellular uplink and downlink. Multiple-antenna systems and architectures. Communications with Intelligent Reflecting Surfaces. mmWave and THz communications. Connections to modern standards. Prereq: Elec 3817 and Elec 3316. Cross-listed with ELEC 5249. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316 and ELEC 3817

ELEC 4250 - Information Inference and Learning Algorithms (3 Credits)

We indulge in a journey from the theory of information to the world of applications. We talk about what information means and provide the means to measure it. We then investigate various methods for extracting what matters from the available data. We bring in topics such as Bayesian data modeling, clustering algorithms, and neural networks to name a few. Prereq: ELEC 3316 and ELEC 3817 with a C- or higher. Cross-listed with ELEC 5250. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316 and ELEC 3817 with a C- or higher.

Typically Offered: Fall.

ELEC 4276 - Digital Control Systems (3 Credits)

Topics to be covered include: discrete-time systems and the z-transform, characteristics of open-loop and closed-loop discrete-time systems, time-response characteristics and stability analysis, design of digital and hybrid control systems using z-transform, root locus, frequency domain, and state variable compensation techniques, compensator on, implementation, and computer-based design applications. Prereq: ELEC 3316 and ELEC 3817. Cross-listed with ELEC 5276. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316

ELEC 4309 - Senior Design Project I (3 Credits)

Design methodology and tools, project planning and team building, ethics in engineering and research, career planning and portfolio building. Project designs are completed and presented to the class. Prereq: ELEC 2531. Coreq: ELEC 3133, 3164, 3225, 3316, 3724, 3900, and 3817. Restriction: Restricted to undergraduate majors within the College of Engineering, Design and Computing. ELEC 4309 and ELEC 4319 must be completed in subsequent academic semesters. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2531. Coreq: ELEC 3133, 3164, 3225, 3316, 3724, 3900, and 3817. Restricted to undergraduate majors within the College of Engineering, Design, and Computing. ELEC 4309 and ELEC 4319 must be completed in subsequent academic semesters.

ELEC 4319 - Senior Design Project II (3 Credits)

Project designs completed in ELEC 4309 are constructed and tested. Oral and written presentations of the completed project performance are required. Prereq: ELEC 4309 with a C- or higher. Coreq: ELEC 3701 and ELEC 3520. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: ELEC 4309 with a C- or higher. Coreq: ELEC 3701 and ELEC 3520/
Typically Offered: Spring.

ELEC 4333 - Introduction to Computational Electromagnetics (3 Credits)

An intro to computational electromagnetics based on the Finite Difference Time-Domain (FDTD) covering, finite difference methods, the Yee algorithm, numerical error, stability, boundary conditions, source excitations, hands-on programming experience and application of FDTD to real problems. Prereq: ELEC 3133. Cross-listed with ELEC 5333. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: ELEC 3133

ELEC 4373 - Optical Engineering (3 Credits)

This course introduces some of the most important concepts in optical engineering and prepares students a solid foundation to apply them to applications in the industry and academic research. Prereq: ELEC 3133 Electromagnetic Fields. Cross-listed with ELEC 5373. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: ELEC 3133

ELEC 4375 - Engineering Neuroscience (3 Credits)

In this course, mathematical models and data processing strategies will be introduced as well as other cutting-edge research techniques to help students understand how these techniques can be applied to solve modern neuroscience problems. Prereq: ELEC 3316 or graduate standing. Cross-listed with ELEC 5735 and NRSC 7674 (Anschutz Medical Campus course). Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: ELEC 3316 or Graduate Standing

ELEC 4406 - Control Systems Laboratory (1 Credit)

This lab includes system identification, design of velocity control systems, design of PID controllers and control systems using state variable feedback. Prereq or Coreq: ELEC 4136 or 4276. Max hours: 1 Credit.
Grading Basis: Letter Grade
Prereq or Coreq: ELEC 4136 or 4276.

ELEC 4423 - Radio Frequency Laboratory (1 Credit)

Projects involve modern RF analyzers, wave-guide devices, time-domain techniques, characterization of filters/amplifiers, signal propagation and scattering, harmonic mixing, and radio frequency identification. Students will gain experience using MATLAB for data acquisition and processing. Prereq: ELEC 3133 and ELEC 3225. Cross-listed with ELEC 5423. Max hours: 1 Credit.
Grading Basis: Letter Grade
Prereq: ELEC 3133 and ELEC 3225.

ELEC 4435 - Advanced Electronics Laboratory (1 Credit)

Projects related to digital logic, analog and digital switches, A/D and D/A converters, and design of signal filters. Prereq: ELEC 3225. Coreq: ELEC 3900 and ELEC 4225. Max hours: 1 Credit.
Grading Basis: Letter Grade
Prereq: ELEC 3225. Coreq: ELEC 3900 and ELEC 4225.

ELEC 4444 - Power Systems Laboratory (1 Credit)

This lab introduces the student to modern computational tools used in power system analysis. Algorithms to solve the "power flow problem," the "economic dispatch problem," and the "optimal power flow problem" are discussed and implemented in the Matlab-Simulink mathematical analysis software package. Coreq: ELEC 4184. Max hours: 1 Credit.
Grading Basis: Letter Grade
Coreq: ELEC 4184.

ELEC 4467 - Communications Laboratory (1 Credit)

Analysis and design in three main areas: traditional analog communications at low and medium frequencies, digital communications, and microwave communications systems. Extensive use of spectrum analysis from low frequencies up to microwave range. Projects include noise, AM, FM, PM, PLL, sampling, quantizing, encoding, TDM, FSK, QPSK, 16QAM, receivers, and satellite communications systems. Prereq: ELEC 3735; Prereq or Coreq: ELEC 4247 or ELEC 4248. Max Hours: 1 Credit.
Grading Basis: Letter Grade
Prereq: ELEC 3735 and 4247 or 4248

ELEC 4474 - Power Electronics Laboratory (1 Credit)

The power electronics laboratory introduces students to seven fundamental switchmode power conversion topologies, along with voltage and current feedback control, assembled on a reconfigurable power pole circuit board with external power supplies and laboratory. Coreq: ELEC 4174. Cross-listed with ELEC 5474. Max Hours: 1 Credit.
Grading Basis: Letter Grade
Coreq: ELEC 4174 Restriction: Restricted to students within the College of Engineering, Design and Computing

ELEC 4501 - Microprocessor Based Design (3 Credits)

Covers advanced treatment of embedded system design using microprocessors. Analog input circuitry is interfaced to a microprocessor, and a PC board layout is created to develop a complete system design. Software/Operating System is implemented for realtime I/O. Prereq/ Coreq: ELEC 3520. Cross-listed with ELEC 5501. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq/Coreq: ELEC 3520.

ELEC 4511 - Hardware-Software Interface (3 Credits)

Computer engineering methods in hardware and software design applied to problems drawn from the mini- and micro-computer systems field. Hardware and software techniques for the design of combined hardware or software are developed. Interface and real-time programming techniques are considered. Graduate level requires additional projects and homework. Prereq: ELEC 3520. Cross-listed with ELEC 5511. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: ELEC 3520.

ELEC 4521 - Microprocessor Laboratory (1 Credit)

Provides support for the projects assigned in ELEC 4501 - a complete embedded system is designed, built and tested. Coreq: ELEC 4501. Max Hours: 1 Credit.
Grading Basis: Letter Grade
Coreq: ELEC 4501

ELEC 4531 - Introduction to Deep learning and PyTorch (3 Credits)

This course provides a foundation on neural networks of deep learning. Students will gain both theoretical and practical understanding of different deep neural networks and will work on a few real-world problems. Prereq: ELEC 3520. Cross-listed with ELEC 5531. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3520.

Typically Offered: Spring, Summer.

ELEC 4541 - Advanced Deep Learning for Computer Vision (3 Credits)

This course introduces the state-of-the-art deep learning research work. Students will gain both theoretical and practical understanding of deep learning in computer vision area. Prereq: ELEC 3520. Cross-listed with ELEC 5541. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3520.

Typically Offered: Spring, Summer.

ELEC 4555 - VLSI Circuit Simulation (3 Credits)

Computer methods for large integrated circuits. Theory and practice of VLSI circuit simulation. Nodal formulations of networks. Computer generation of sensitivities. Modeling active devices. DC solution of nonlinear networks. Prereq: ELEC 3225. Cross-listed with ELEC 5555. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3225.

ELEC 4561 - Hardware-Software Lab (1 Credit)

Projects related to the software interface of a processor to external devices. Topics include A/D converters, serial and parallel interfaces.

Prereq: ELEC 3520 and Coreq: ELEC 4511. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: ELEC 3520 and Coreq: ELEC 4511.

ELEC 4637 - Digital Signal Processing (3 Credits)

Discrete-time signals and systems in the time and frequency domain. Digital filter structures, design of FIR filters by windowing, optimum approximations of FIR filters. Design of digital IIR filters from continuous time domain. Computer-aided design of digital filters. The discrete Fourier transform and DSP algorithm implementation. Analysis of finite word length effects. Application of digital signal processing. Prereq: ELEC 3316 and 3817. Cross-listed with ELEC 5637. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3316 and ELEC 3817

ELEC 4644 - Introduction to Medical Imaging (3 Credits)

This course will introduce students to the basic physics, technologies, and clinical methodologies underlying Ultrasound, MRI, CT, PET and SPECT imaging systems. The course will include lectures, and visits to campus hospital and research imaging systems as well as hands on ultrasound labs. Prereq: ELEC 2651 or graduate standing. Cross-listed with ELEC 5644. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 2651 or graduate standing.

ELEC 4678 - Quantum Computing (3 Credits)

The course teaches students the principles, the algorithms and the programming methods of quantum computing, and also discusses the associated physics and mathematics background required. Other related topics such as quantum communication and quantum entanglement will also be discussed. Prereq: ELEC 3817 or CSCI 3560/4650/4110 with a C- or better. Cross-listed with ELEC 5678, PHYS 4678, and PHYS 5678. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3817 or CSCI 3560/4650/4110 with a C- or better.

Typically Offered: Fall.

ELEC 4679 - Quantum Computing Algorithms (3 Credits)

The course discusses several seminal quantum algorithms, including the quantum Fourier transforms, Grover's and Shor's algorithms, followed by explaining several advanced quantum computing algorithms, including quantum error correction, sparse linear systems, and variational eigensolver. Google Cirq quantum programming library will be used for actual quantum programming implementations of the algorithms discussed. Prereq: ELEC 4678 or ELEC 3817 or CSCI 3560/4650/4110 with a C- or better. Cross-listed with ELEC 5679, PHYS 4679, and PHYS 5679. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 4678 or ELEC 3817 or CSCI 3560/4650/4110 with a C- or better.

Typically Offered: Fall.

ELEC 4680 - Quantum Computing Technology (3 Credits)

Students will explore some of the concepts and experimental practices for realizing quantum computers. They will engage in laboratory practice of relevant skills including high-performance analog electronics; optics based quantum encryption and eraser implementations; RF electronics; and vacuum and cryogenic techniques. Prereq: ELEC 3900 with a C- or higher or Permission of Instructor. Cross-listed with ELEC 5680, PHYS 4680, and PHYS 5680. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3900 with a C- or higher.

Typically Offered: Fall.

ELEC 4681 - Quantum Technology Systems (3 Credits)

Students will explore a systems approach toward experimental practices for realizing quantum information science and engineering (QISE), with a focus on vacuum and cryogenic techniques and integration of electronics subsystems into a "dry" cryostat. They will engage in laboratory practice of relevant skills including creation and measurement of high vacuum, methods for reaching ultra-low temperatures, concerns in the design and construction of cryogenic apparatuses, and operation of a "dry" cryogenic system at 4 K, including measurements on superconducting quantum interference devices. Prereq: PHYS 4680 OR PHYS 5680 OR ELEC 4680 OR ELEC 5680 with a C- or higher or Permission of Instructor. Cross-listed with PHYS 4681, PHYS 5681 and ELEC 5681. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 4680 OR PHYS 5680 OR ELEC 4680 OR ELEC 5680 with a C- or higher.

ELEC 4723 - High Performance Computer Architecture (3 Credits)

High Performance Computer Architecture covers the design of advanced computing systems. In particular, the course includes the design of modern microprocessors, characteristics of the memory hierarchy, and issues involved in multithreading and multicore architectures. Prereq: ELEC 3520. Cross-listed with ELEC 5723. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ELEC 3520.

ELEC 4727 - Machine Vision Systems (3 Credits)

This course provides an introduction to machine vision systems regarding concepts, algorithms, and applications, especially revealing how the latest vision systems can mimic and even outperform humans in specific tasks. Through practical assignments and projects, students will learn to develop vision systems that can see, interpret, and act on visual data. Key topics include image/video formation and transformation, feature extraction, object recognition, and evaluating vision system performance. By the end of the course, students will have a solid background in machine vision algorithms and be able to advance their knowledge in solving real-world problems. Prereq: Requires prerequisite course of ELEC 3520 and ELEC 3817 (all minimum grade D-). Cross-listed with ELEC 5727. Term offered: Fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires prerequisite course of ELEC 3520 and ELEC 3817 (all minimum grade D-).

Typically Offered: Fall.

ELEC 4755 - Grid Integration of Renewable Energy (3 Credits)

This course focuses on the modeling, analysis and control of grid-connected wind and photovoltaic energy systems. Prereq: ELEC 3164. Cross-listed with ELEC 5755. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ELEC 3164 Restriction: Restricted to students within the College of Engineering, Design and Computing

Typically Offered: Spring.

ELEC 4800 - Special Topics (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ELEC 4802 - Special Topics (3 Credits)

Prereq: ELEC 3701 with a C- or higher. Restriction: Restricted to undergraduate ELEC students. Cross-listed with ELEC 5802. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: ELEC 3701 with a C- or higher. Restriction: Restricted to undergraduate ELEC students.

Typically Offered: Fall.

ELEC 4810 - Special Topics (1-3 Credits)

Cross-listed with ELEC 5810. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ELEC 4840 - Independent Study: ELEC (1-3 Credits)

An opportunity for independent creative work. Prereq: Permission of instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to majors within the College of Engineering, Design and Computing.

Engineering (ENGR)

ENGR 1000 - Introduction to Engineering (1 Credit)

Introduces engineering profession, engineering design and practice; and the tools used by engineers to accomplish design. The specialties within engineering are described. Students are involved in application projects and use word processors, spreadsheets and engineering software. Note: ENGR 1000 cannot be substituted for ELEC 1201. Prereq: High school trigonometry. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

ENGR 1100 - Fundamentals of Computational Innovation (3 Credits)

Provides a foundation in computational thinking and practices. Students learn to take advantage of computational power in problem solving by writing simple programs, studying the underlying logic of hardware, and working with a variety of technologies. Cross-listed with IWKS 2300 and MECH 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGR 1111 - Psychological and Social Implications of Technology (3 Credits)

This course will explore the impact of technology and its advances on human beings from an emotional, psychological, and social perspective. Discussions will include ethical, moral, and multicultural implications of technological advances from a global perspective and will require students to critically analyze issues that arise from such advances. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to majors with 12 credit hours or less at CU Denver.

ENGR 1130 - Chemistry for Engineers (5 Credits)

An introductory lecture and recitation course designed to meet the general chemistry requirement for engineering students. Topics include atoms, molecules, moles, stoichiometry, chemical bonding, atomic & molecular structures, thermodynamics and kinetics. The course will highlight the application of chemistry to engineering disciplines. Note: Suggested background of one year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent) strongly recommended. Max Hours: 5 Credits.

Grading Basis: Letter Grade

ENGR 1200 - Fundamentals of Engineering Design Innovation (3 Credits)

This course introduces concepts of engineering design innovation at a variety of scales and disciplines. Participants will experience and explore core technology and design themes including design principles, processes, methods, modes of thinking, and social and cultural aspects of design. Cross-listed with CSCI 1200, CVEN 1200, MECH 1200, ELEC 1201 and IWKS 2100. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGR 1208 - Special Topics (3 Credits)

Restriction: Restricted to Engineering and pre-engineering students only. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to Engineering and pre-engineering students only.

ENGR 1218 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 3400 - Technology and Culture (3 Credits)

Explores the cultural and political foundations of technology and the impact of technology upon the individual and society. Contributions to technological advances and the impact of technology on women and diverse ethnic groups are examined in the context of specific engineering designs and case studies. (Satisfies the multicultural diversity requirement of the UCDHSC core curriculum). Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

ENGR 3600 - International Dimensions of Technology and Culture (3 Credits)

This course provides students with an understanding of how science, technology and international issues interrelate in a world that has become more interconnected and interdependent. The course will focus on the technical, organizational and cultural aspects of information and other technologies with an emphasis on their impact on third world countries. (Satisfies the international perspectives requirement of the UCDHSC core curriculum). Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

ENGR 3995 - Global Technology, Business & Culture (3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Summer.

ENGR 4150 - Seminar: Special Topics in Engineering (1 Credit)

A flexible seminar format dealing with topics of special interest in engineering. Topics vary from semester to semester. Prereq: Senior standing. Cross-listed with ENGR 5150 and 7150. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to senior standing or higher

Typically Offered: Fall, Spring.

ENGR 4208 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4218 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4228 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4238 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4248 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4258 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4268 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4278 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4288 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4298 - Special Topics (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGR 4800 - Science Engineering and Culture for Undergraduates (3 Credits)

Course for undergraduate international and limited English proficient (LEP) students to improve success in science and engineering degree programs through senior research paper writing, advanced STEM English skills and cross cultural training. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENGR 4840 - Independent Study (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

English (ENGL)

ENGL 1000 - Special Topics (3 Credits)

This topics course at the 1000 level is designed to offer flexibility for the English department for lower division offerings. Students may enroll up to 3 times to total no more than 9 credits but the topics must differ for each course. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENGL 1010 - Writing Workshop (3 Credits)

Focuses on the abilities and skills needed to write effective expository prose. Emphasizes frequent writing, both in and out of class, with special attention to writing short essays well. Writers learn to write confidently at the sentence and paragraph levels, and to develop their grammatical and mechanical skills. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

ENGL 1020 - Core Composition I (3 Credits)

Provides opportunities to write for different purposes and audiences, with an emphasis on learning how to respond to various rhetorical situations; improving critical thinking, reading, and writing abilities; understanding various writing processes; and gaining a deeper knowledge of language conventions. Term offered: fall, spring, summer. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-C01.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, English Composition; GT courses GT Pathways, GT-C01, Communication.

Typically Offered: Fall, Spring, Summer.

ENGL 1021 - Core Composition Workshop (1 Credit)

Prepares students for college-level reading and writing. Students receive one-on-one and small-group instruction on analytical and argumentative writing. Max hours: 1 Credit.

Grading Basis: Letter Grade

ENGL 1050 - Vocabulary for Professionals (3 Credits)

Studies English words derived from Latin and Greek by analyzing their component parts (prefixes, stems, and suffixes). Cross-listed with LATN 1050. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

ENGL 1200 - Introduction to Fiction (3 Credits)

Introduces class members to the works of famous authors as well as to major themes, elements, and techniques of fiction in both short stories and novels. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1400 - Literary Studies (3 Credits)

Helps students develop a sense of literary techniques and issues so they can bring an improved critical sensibility to their reading and writing.

Note: Designed for students who are seriously interested in literature.

Note: this course assumes that students have completed or are currently taking ENGL 1020. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 1601 - Storytelling: Literature, Film, and Television (3 Credits)

Asks students to explore how stories determine who we are. Everything people do fits into a narrative pattern, evident everywhere from TV news to memory to daily schedules. We tell ourselves stories about ourselves and others—how do these stories shape who we are as cultural beings?

Note: this course assumes that students have completed or are currently taking ENGL 1020. Term offered: fall, spring. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT

courses GT Pathways, GT-AH2, Arts Hum: Lit Humanities.

Typically Offered: Fall, Spring.

ENGL 2030 - Core Composition II (3 Credits)

Focuses on academic and other types of research-based writing and builds on the work completed in ENGL 1020. Focuses on critical thinking, reading and writing as well as working with primary and secondary source material to produce a variety of research-based essays. Emphasis on using both print-based and electronic-based information. Prereq: ENGL 1020 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-C02.

Grading Basis: Letter Grade

Prereq: ENGL 1020 with a C- or higher.

Additional Information: Denver Core Requirement, English Composition; GT courses GT Pathways, GT-C02, Communication.

Typically Offered: Fall, Spring, Summer.

ENGL 2060 - Introduction to Writing & Digital Studies (3 Credits)

Introduces students to the topics of study in the English Writing major. Topics include writing studies (literacy, genre, research, and multimodality), rhetoric (history and theory), and the teaching of writing (pedagogy and practice). Prereq: ENGL 1020. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 1020

Typically Offered: Fall, Spring.

ENGL 2070 - Grammar, Rhetoric and Style (3 Credits)

Teaches the basics of English grammar in order to develop a rhetorical and stylistic confidence in reading and writing, using an approach that is more descriptive than prescriptive. Teaches students how to evaluate the grammatical choices of established writers and how to develop flexibility in the grammatical choices they make in their own writing. Note: this course assumes that students have completed ENGL 1020. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

ENGL 2156 - Introduction to Creative Writing (3 Credits)

Reading, discussing, writing short fiction and poetry in a workshop setting. Note: this course assumes that students have completed ENGL 1020. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

Typically Offered: Fall, Spring, Summer.

ENGL 2250 - Introduction to Film (3 Credits)

Introduces students to the critical study of cinema as an art form and a cultural phenomenon. Topics include cinematography, editing, mise-en-scene and sound; the connections between cinema and related art forms; film genres; the social dimensions of film production and reception; and films by such key filmmakers as Alfred Hitchcock, Maya Deren and Spike Lee. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Summer.

ENGL 2300 - Topics in Literature and Film (3 Credits)

Courses supplement the regular program of the department, offering such topics as: literary perceptions of motherhood, Asian-American literature, literary classics of science, and contemporary women writers. Note: Can be taken more than once if topics vary. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ENGL 2390 - Writing the Short Script (3 Credits)

Examines narrative screenwriting elements—premise, theme, conflict, protagonist/antagonist, setting/situation, dialogue, plot structure, imagery—required to create a strong narrative short film. Max hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 2450 - Introduction to Literature and Film (3 Credits)

Provides students with close reading, viewing and analytical skills to explore a variety of literary and visual texts. Introduces discipline-specific genres, methods and terms for assessing literature, cinema, and related art forms through discussion, lectures and writing assignments. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ENGL 2510 - Greek and Roman Mythology (3 Credits)

Surveys influential literature from Greece and Rome. Among the Greek works are Homer's epics, Sophocles's tragedies, Plato's and Aristotle's philosophical writings. Among the Roman works are the writings of Vergil, Ovid, the elegists and historians. A brief look at Augustine's writings concludes the course. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ENGL 2520 - The Bible as Literature (3 Credits)

Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with RLST 2700. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENGL 2600 - Greatest Hits (3 Credits)

Explores the relationship between literature and cinema; the process of adapting and transforming a novel into a feature-length film; and the historical, cultural, and commercial influences that shaped the creation of each novel and film studied. Prereq: Sophomore standing. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Summer.

ENGL 3300 - Topics in Film (3 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Prereq: Sophomore standing. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Term offered: spring, fall. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3301 - Topics in Film: Lit and Film History (3-9 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Focus on general film history. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3302 - Topics in Film: Gender in Lit and Film (3-9 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Focus on gender. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3303 - Topics in Film: Genre and Global Culture (3-9 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Focus on genre and/or global culture. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Prereq: Sophomore standing or higher. Repeatable. Term offered: spring, fall. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3304 - Topics in Film: American Identities (3 Credits)

Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Focus on American identities. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Restriction: Sophomore standing or higher. Repeatable. Term offered: spring, fall. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3330 - Topics in Literature (3 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Restriction: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3331 - Topics in Literature: Lit and Film History (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Focus on general literature and film history. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3332 - Topics in Literature: Gender in Lit and Film (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Focus on gender. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3333 - Topics in Literature: Genre and Global Culture (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Focus on genre and/or global culture.

Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3334 - Topics in Literature: American Identities (1-15 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or works of major authors. Focus on American identities. Prereq: Sophomore standing or higher. Repeatable. Term offered: fall, spring. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 3405 - Topics in Writing (3 Credits)

Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

ENGL 3415 - Screenwriting Workshop (3 Credits)

Continues and expands ENGL 2415. The course combines analytical discussion of film screenplays with a writing workshop format. By the end of ENGL 3415, students have completed the first two acts of a feature-length screenplay. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ENGL 3416 - Magazine Writing (3 Credits)

An intensive, practical course in writing non-fiction with an emphasis on journalistic approaches for daily, weekly, and monthly publications. Prereq or Coreq: ENGL 2030. Term offered: spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ENGL 2030

Typically Offered: Spring, Summer.

ENGL 3417 - Writing for the Mass Media (3 Credits)

Students will examine public relations writing techniques and journalistic style, public relations theory and ethics, and practical client work. Note: this course assumes that students have completed ENGL 1020. Max hours: 3 Credits.

(1) Familiarizes students with some of the central concepts and debates in film theory and criticism, both classic and contemporary, (2) enables students to develop advanced analytic and interpretive skills, and (3) guides students toward discovering and articulating original critical and theoretical perspectives. Note: this course assumes that students have completed ENGL 2250, ENGL 3070, ENGL 3080. Cross-listed with ENGL 5420. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Fall.

ENGL 4460 - Contemporary World Literature (3 Credits)

Surveys literature written by world writers since World War II. Prereq: Sophomore standing. Note: Texts read in English. Cross-listed with ENGL 5460. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade Restriction: Sophomore standing or higher. Typically Offered: Spring.

ENGL 4500 - Medieval Literature (3 Credits)

Introduces representative writers from the Norman Conquest to about 1550. Emphasis on a variety of genres, including religious poetry, Arthurian romance, dream vision and drama. Prereq: Sophomore standing. Cross-listed with ENGL 5500. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4510 - Whores and Saints: Medieval Women (3 Credits)

Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Note: this course assumes that students have completed at least 9 hours of literature coursework. Cross-listed with ENGL 5510, RLST 4730/5730, WGST 4510/5510. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4520 - English Renaissance (3 Credits)

Introduces some of the important writers in this major period of English literature (1500-1660). Special attention to the works of Sidney, Milton, Spenser, Shakespeare, Donne, Herbert and Johnson. Prereq: Sophomore standing. Cross-listed with ENGL 5520. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4530 - Milton (3 Credits)

Extensive reading in John Milton's poetry (Lycidas, Paradise Lost, Paradise Regained, Samson Agonistes) as well as his political, social and theological writings. Prereq: Sophomore standing. Cross-listed with ENGL 5530. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4540 - Restoration and the 18th Century (3 Credits)

Introduces some of the important writers of the "Age of Reason." Emphasis on such figures as Bunyan, Burke, Dryden, Johnson, Pope and Swift. Prereq: Sophomore standing. Cross-listed with ENGL 5540. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4560 - English Romanticism (3 Credits)

Studies major works of the chief English writers of the first part of the 19th century, with emphasis on such representative figures as Wollstonecraft, Godwin, Blake, Wordsworth, Coleridge, Hazlitt, Byron, Keats and Shelley. Prereq: Sophomore standing. Cross-listed with ENGL 5560. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4580 - The Victorian Age (3 Credits)

Examines the main currents of Victorian thought in prose and poetry from about 1830 to the end of the century, including such writers as Browning, Carlyle, Mill, Newman, Ruskin, Swinburne and Tennyson. Prereq: Sophomore standing. Cross-listed with ENGL 5580. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4600 - Modernism (3 Credits)

Modernist literature from the beginning of the 20th century through World War II, including such writers as Eliot, Joyce, Forester, Ford, Yeats, Woolf and Barnes. Examines the social-political influences as well as the aesthetic and stylistic elements which define modernist writing. Prereq: Sophomore standing. Cross-listed with ENGL 5600. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4601 - Teaching English Language Learners: Theory and Practice (3 Credits)

Overview of basic principles and practices in the learning and teaching of English as a second language. ENGL 3160 recommended. Prereq: Students must have junior standing/60 units of credit completed. Cross-listed with ENGL 5601. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

ENGL 4610 - Narrative: Form and Theory (3 Credits)

A critical and theoretical exploration of the elements of narrative -e.g., plot, character, dialogue, discourse-in literature and film. This course is especially useful for fiction-writing students in the Creative Writing Track. Prereq: ENGL 2450. Cross-listed with ENGL 5610. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 2450

Typically Offered: Fall.

ENGL 4651 - TESOL Writing & Assessment (3 Credits)

Topics include: similarities between first & second language writing, the processes of composition & revision, teacher response to student writing, student processing of feedback, writing assessment, and the reading/writing connection. ENGL 3160 recommended. Prereq: Students must have junior standing/60 units of credit completed. Cross-listed with ENGL 5651. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

ENGL 4701 - Multimedia in the Community (3 Credits)

Produce dossier-quality multimedia shorts by researching and writing digital compositions for selected community organizations. Topics for research range across numerous social issues and involve all disciplines. Prereq: ENGL 2030, 3154, and 3170 with a C- or higher or permission of instructor. Cross-listed with ENGL 5701. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGL 2030, 3154, and 3170 with a C- or higher.

ENGL 4720 - Honors in English (3 Credits)

Designed for students taking departmental honors in English. Prereq: Students must have written permission from the honors advisor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ENGL 4730 - Chaucer (3 Credits)

Extensive reading in Chaucer's works in Middle English, including his lyrics, dream visions, Troilus and Criseyde, and the Canterbury Tales.

Examines sources, historical and ideological factors influencing the texts. Prereq: Sophomore standing. Cross-listed with ENGL 5730. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

ENGL 4740 - Honors in Writing (3 Credits)

Designed for students taking departmental honors in English writing.

Prereq: Student must have written permission from honors director and faculty advisor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ENGL 4745 - Humanistic Writing About Medicine and Biology (3 Credits)

Investigates medical and biological writing over the last two centuries with an emphasis on reception, ethical issues, and the differences between professional and popular writing. Prereq: Sophomore standing. Cross-listed with ENGL 5745. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

ENGL 4750 - Legal Reasoning and Writing (3 Credits)

Introduces students to the fundamentals of legal reasoning and legal argumentation, through intensive class discussion, formal debate, and writing. Particular focus is given to the relationship between case and statutory law, and their application in trial courts and appeal courts in the United States. Prereq: ENGL 1020, 2030, plus one other 3000-level 00 English/writing course. Cross-listed with COMM 4750, COMM 5750, PSCI 4757 and PSCI 5747.

Grading Basis: Conversion

ENGL 4755 - Illness & Disability Narrative (3 Credits)

Narratives of mental, chronic or terminal illness, and disability have become common over the past decades. There are a number of ways in which these stories are told by those reflecting on their experiences: individuals choosing to tell such stories must consider how their stories will be received and what they are revealing about themselves in dealing with their conditions. Many issues arise when looking at the production and reception of these narratives, including acceptance and assimilation, stigmatization, access and quality of treatment, discrimination, accommodation, pity and stereotyping responses. These narratives are consumed, usurped, and reacted to by clinicians, communities and society at large with their own agendas, expectations, fears and judgments of the stories and of the individuals telling their stories. This course is about the issues and concerns of producing an illness or disability narrative and the consumption/reception of those narratives by health professionals, communities, and society at large. Prereq: ENGL 1020 and 2030 with a C or higher. In addition, English majors are required to have taken ENGL 3001, 3084, or 4701, and HEHM minors using this as their capstone are required to have taken HEHM 3100 with a C or higher. Cross-listed with ENGL 5755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre-req ENGL 1020 and 2030 with a C or higher. In addition, English majors are required to have taken ENGL 3001, 3084, or 4701, and HEHM minors using this as their capstone are required to have taken HEHM 3100 with a C or higher.

ENGL 4770 - Topics in English: Film and Literature (3 Credits)

May look at specific genres, aesthetic approaches to literature and film, ideological or socio-political agendas, or other special topics in literature and/or film. Prereq: Sophomore standing. Cross-listed with ENGL 5770. Repeatable. Term offered: spring, fall. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 4771 - Topics in English Film and Lit: Lit and Film History (3 Credits)

May look at specific genres, aesthetic approaches, ideological or socio-political agendas, or other special topics in literature and/or film. Focus on lit and film history. Prereq: Sophomore standing or higher. Repeatable. Term offered: spring, fall. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

ENGL 4772 - Topics in English Film and Lit: Gender in Lit and Film (3-12 Credits)

May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Focus on gender in lit and film. Prereq: Sophomore standing or higher. Term offered: fall. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Sophomore standing or higher.

Typically Offered: Fall.

ENGL 4773 - Topics in English Film and Lit: Genre and Global Culture (3-12 Credits)
 May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Focus on genre and global culture. Prereq: Sophomore standing or higher. Term offered: fall. Repeatable. Max hours: 12 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 12.
 Restriction: Sophomore standing or higher.
 Typically Offered: Fall.

ENGL 4774 - Topics in English Film and Lit: American Identities (3-12 Credits)
 May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Focus on American identities. Prereq: Sophomore standing or higher. Term offered: fall. Repeatable. Max hours: 12 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 12.
 Restriction: Sophomore standing or higher.
 Typically Offered: Fall.

ENGL 4775 - Topics in English Film and Lit: 1650-1900 (3-12 Credits)
 May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film from 1650-1900. Prereq: Sophomore standing or higher. Term offered: spring, fall. Repeatable. Max hours: 12 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 12.
 Restriction: Sophomore standing or higher.
 Typically Offered: Fall, Spring.

ENGL 4776 - Topics in English: Film and Lit: After 1900 (1-15 Credits)
 May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film after 1900, e.g., Philosophy and Lit., Mental Health in Lit., Environmental Lit. Prereq: Sophomore standing or higher. Repeatable.
 Max hours: 15 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 15.
 Restriction: Sophomore standing or higher.

ENGL 4800 - Special Topics in Creative Writing (3 Credits)
 Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics may include projects in a specialized genre, such as science fiction or noir writing, or in a field of professional endeavor related to creative writing, such as the editing and production of a literary journal. Note: this course assumes that students have completed ENGL 2154. Term offered: fall. Repeatable. Max hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Typically Offered: Fall.

ENGL 4801 - Special Topics in Creative Writing: Poetry (3 Credits)
 Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics will include projects in poetry. Note: this course assumes that students have completed ENGL 2156. Term offered: fall. Repeatable. Max Hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Typically Offered: Fall.

ENGL 4802 - Special Topics in Creative Writing: Fiction (3 Credits)
 Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics will include projects in fiction. Note: this course assumes that students have completed ENGL 2154. Term offered: fall. Repeatable. Max Hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Typically Offered: Fall.

ENGL 4810 - Literary Editing Practicum (3 Credits)
 Practicum for students interested in editing in a literary field, e.g., literary magazines, book manuscripts, anthology projects. Each semester the parameter of the practicum will be set by the instructor. Prereq: English majors and minors. All other students must have instructor's permission. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Restricted to ENGL majors or minors

ENGL 4820 - Senior Poetry Workshop (3 Credits)
 Capstone workshop for students within the Creative Writing major track or Creative Writing minor. Emphasis on a single, sustained project developed by the student. Prereq: ENGL 4025. Term offered: spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: ENGL 4025
 Typically Offered: Spring.

ENGL 4840 - Independent Study: ENGL (1-3 Credits)
 Department consent required. Term offered: fall, spring. Repeatable. Max hours: 12 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 12.
 Typically Offered: Fall, Spring.

ENGL 4850 - Senior Fiction Workshop (3 Credits)
 Capstone workshop designed to deepen the understanding of narrative, and consciously apply the strategies of narrative craft to modern markets. Course will focus on the writing and publishing processes, culminating in a classroom narrative defense and submission to professional outlets. Prereq: ENGL 4055. Term offered: spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: ENGL 4055
 Typically Offered: Spring.

ENGL 4880 - Directed Research (1-6 Credits)
 Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Typically Offered: Fall, Spring.

ENGL 4920 - Directed Readings (3-6 Credits)
 Explores an area of English literature not covered in regular course work. Note: May be taken as a precursor to honors essay, in which case student should consult with the honors advisor. Prereq: Senior standing. Department consent required. Max hours: 6 Credits.
 Grading Basis: Letter Grade
 Restrictions: Restricted to Senior standing.

ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies (3 Credits)

Individual writing project consisting of a creative manuscript or critical study. Manuscript must be 30 pages of high quality text. Note: Available only to students in the creative writing and film tracks. Prereq: Senior standing. Department consent required. Term offered: fall, spring.

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restrictions: Restricted to Senior standing.

Typically Offered: Fall, Spring.

ENGL 4995 - Senior Writing Project (3 Credits)

Individual writing project in any genre and any discipline upon approval of faculty advisor. Manuscript must be 30 pages of high quality text. Prereq: Senior standing. Department consent required. Term offered: fall, spring.

Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to Senior standing.

Typically Offered: Fall, Spring.

Entrepreneurship (ENTP)

ENTP 1001 - Business Bound (1 Credit)

Junior Achievement and the Jake Jobs Center for Entrepreneurship offer this summer camp experience for high school students. Students will earn 1 college credit hour while learning what it takes to be an entrepreneur. They'll hear from some of the most successful entrepreneurs and business leaders from across the state as they consider a path for their future. The week will culminate with a competition where one team will be crowned the JA Titan of Business.

Max hours: 1 Credit.

Grading Basis: Satisfactory/Unsatisfactory

Typically Offered: Summer.

ENTP 3200 - The Fundamentals of Entrepreneurship (3 Credits)

Learn what it means to think like an entrepreneur and grow high-potential ideas in today's ever-changing business landscape. Resilience, resourcefulness, and creative problem solving are not only essential skills for future founders but also for those looking to create change and drive growth in startups and large companies. By understanding the basic principles of entrepreneurship, students can learn how to find innovative solutions, sell their ideas, and create growth in any organization. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ENTP 3201 - The Power of The Lean Startup (3 Credits)

Get to know the Lean Startup methodology, a research-driven process to develop new products and businesses with efficiency and minimized risk. This leading framework focuses on experimentation, customer feedback, and iterative design to increase a venture's competitive advantage and chances of success. Course topics include the methodology's history and benefits, as well as how to test hypotheses, collect data, create a minimal viable product, accelerate growth, pivot, and more. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ENTP 3210 - Leadership for New and Innovative Ventures (3 Credits)

This course provides students with an overview of key leadership principles for creating strategy and managing teams in a startup environment. It introduces leadership concepts critical to gaining true organizational commitment and focuses on case studies relevant to common business issues. By exploring what entrepreneurial leaders do and how visionary leadership is required to grow a venture, students will learn how to execute these concepts through measurable goals. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

ENTP 3230 - Small Business Accounting and Finance (3 Credits)

This course is an introduction to the financial life of an entrepreneur. Students will learn the basics of small business accounting and finance so that they can recognize the key financial challenges that come with owning a business; know the potential sources of capital for a small business; prepare basic financial statements; analyze a business's liquidity, profitability, and capital structure; and understand a small business's tax obligations. This course counts as a pre-req to ENTP#3299. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENTP 3240 - Developing Innovative Ideas for New Ventures (3 Credits)

This course is designed to prepare entrepreneurial-minded students to critically and objectively evaluate the feasibility of their ideas. Entrepreneurs are often fatally optimistic. Through projects and assignments, students will learn how to objectively test and validate the feasibility of an entrepreneurial idea through data-driven analytical and strategic planning. Additionally, this course will provide pragmatic applications of the course content by incorporating real-life case studies presented by practicing entrepreneurs as guest lecturers. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ENTP 3260 - High Impact Sales for Entrepreneurs (3 Credits)

Selling one's own concept to prospective customers and investors is very different from selling products in a corporate environment. In this course, students will learn how to get their message heard, get their ideal clients to want to work with them, and use their authentic brand to sell their small-business concept successfully. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ENTP 3299 - Build Your Business: Plan, Pitch, Launch (3 Credits)

Ever think about starting a business or want to know how? Take this class to find out why writing a thorough business plan and pitch is essential to transforming your idea into a reality. Students will learn how to use AI tools to evaluate the feasibility of their ideas and create an effective business plan through the process of "plan, pivot, plan, repeat." Students will then develop a winning pitch and get experience presenting and receiving feedback from experts along the way. This course runs concurrently with THE CLIMB, an annual pitch competition and event series, giving students the chance to compete outside of the classroom and win real cash prizes for their business. By the end of this course, students will have created their own business plan for a viable idea and will develop an entrepreneurial mindset to aid their future startup ventures and/or careers. Prereq: ENTP 3230 with a grade of C or ACCT 2200 with a grade of C- or higher is required. Max hours: 3 Credits. Grading Basis: Letter Grade Prereq: ENTP 3230 with a grade of C or ACCT 2200 with a grade of C- or higher is required. Typically Offered: Spring.

ENTP 3900 - The Many Pathways to Entrepreneurship (3 Credits)

There is no one clear path to become a successful entrepreneur. This course invites students to learn from Denver's most innovative founders and C-suite executives by hearing their stories and visiting their businesses. Through group discussions, reflections, and experiential projects, students will identify both the similarities and variations across the different pathways to entrepreneurship as they develop their own entrepreneurial skillset and vision for their future career. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Fall.

ENTP 4028 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Students can register for ENTP 4028 twice as long as they are for two different trips (for example: Cuba and Barcelona). Cross-listed with ENTP 6028, INTB 4028, and INTB 6028. Repeatable. Max hours: 6 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 6. Additional Information: Global Education Study Abroad. Typically Offered: Spring, Summer.

ENTP 4200 - Creating Impact Through Social Entrepreneurship (3 Credits)

This course is for anyone with aspirations to be a mission-driven entrepreneur, either within an existing organization or by starting their own. Learn about the evolving world of social entrepreneurship and how to create societal impact. By the end of this course, students will know how to advance an organization's social mission and increase effectiveness, accountability, and efficiency through market-based techniques. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Spring.

ENTP 4840 - Entrepreneurship Independent Study (1-3 Credits)

This course is intended for research or other unique circumstances. Max hours: 3 Credits. Grading Basis: Letter Grade

ENTP 4950 - Special Topics (3 Credits)

A variety of topics in entrepreneurship are offered. Consult the current "Schedule Planner" for semester offerings. Prereq: Topics vary. Repeatable. Max Hours: 9 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 9.

Environmental Sciences (ENVS)

ENVS 1044 - Introduction to Environmental Sciences (3 Credits)

This survey course develops a basic understanding of ecological relationships and environmental systems. Issues such as the effects of human activities on earth's environment, extinction or diversity, greenhouse effect, hazardous or toxic wastes and human population growth are discussed. Students must also take the accompanying laboratory ENVS 1045. No co-credit with ENVS 1042. Prereq or Coreq: ENVS 1045. Term offered: fall, spring, summer. Max hours: 3 Credits. Grading Basis: Letter Grade Prereq or co-reg: ENVS 1045 Additional Information: Denver Core Requirement, Biol Phys Sci - Lec. Typically Offered: Fall, Spring, Summer.

ENVS 1045 - Introduction to Environmental Sciences Laboratory (1 Credit)

Introduces the basic scientific approach through investigations, observations, and experiments in environmental science. Students must also take the accompanying lecture ENVS 1044. No co-credit with ENVS 1042. Prereq or Coreq: ENVS 1044. Term offered: fall, spring, summer. Max hours: 1 Credit. Grading Basis: Letter Grade Prereq or co-reg: ENVS 1044 Additional Information: Denver Core Requirement, Biol Phys Sci - Lab. Typically Offered: Fall, Spring, Summer.

ENVS 1342 - Environment, Society and Sustainability (3 Credits)

Overview of perspectives on environmental issues within the context of sustainable development and taking a systems approach. The focus is on social science approaches to explore the human footprint on the earth, environmentalism, scientific uncertainty, policy creation and social change. Note: This course is a prerequisite for GEOG 4680 Urban Sustainability: Perspectives and Practice. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS2. Grading Basis: Letter Grade Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS2, Soc Behav Sci: Geography. Typically Offered: Fall, Spring, Summer.

ENVS 2939 - Internship (3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: sophomore standing or higher. Repeatable. Max Hours: 9 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 9. Restriction: Sophomore standing or higher.

ENVS 3082 - Energy and the Environment (3 Credits)

For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote a sustainable society. Note: One college-level science course and MATH 1110 or equivalent are strongly recommended as preparation for optimal student success. Cross-listed with PHYS 3082. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Fall.

ENVS 3232 - Weather and Climate (3 Credits)

Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher. Cross-listed with GEOG 3232. Term offered: fall, spring, summer. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher.
Typically Offered: Fall, Spring, Summer.

ENVS 3380 - Anthropocene Futures (3 Credits)

We are living in the "Anthropocene"—an era of rapid environmental and societal changes, and of decline and loss resulting from accelerating human interactions with Earth systems. Warming climates, wildfires, floods, water and food insecurity, novel ecosystems, and even pandemics such as COVID-19, are phenomena of the Anthropocene. With a still growing human population and a finite planet, understanding and overcoming such challenges is more pressing than ever, if people are to co-evolve with Earth toward a sustainable future. This interdisciplinary seminar course tells the scientific story of humanity's intensifying interactions with the planet and explores possible future paths. Through presentations, readings and discussion, students will examine topics that include the origin and significance of Anthropocene in Earth's evolutionary history, the debates and evidences for a new geologic epoch, large-scale trajectories of environmental change, a safe operating space, and planting seeds for a "good" Anthropocene. In doing so, students will acquire skills and experiences in critical thinking and analytical reasoning to grapple with many uncertainties and tensions of the Anthropocene. Cross-listed with GEOG 3380, GEOG 5380, and ENVS 5380. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Fall.

ENVS 3500 - Topics in Environmental Sciences (1-6 Credits)

Note: Topics may vary from one offering to the next. Repeatable. Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ENVS 4500 - Topics In Environmental Sciences (1-6 Credits)

Note: Topics may vary from one offering to the next. Note: Necessary prior coursework varies according to the topic. Students should consult with the instructor. Repeatable. Max hours: 6 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

ENVS 4650 - Environmental Education (3 Credits)

This course links the theory and practice of environmental education to inform curricular development and pedagogical knowledge. Cross-listed with ENVS 5650 and SCED 5650. Max hours: 3 Credits. Grading Basis: Letter Grade

ENVS 4720 - Climate Change: Causes, Impacts and Solutions (3 Credits)

Examines science behind past, present & future climate change & environmental, social & political implications & solutions. Explores recent scientific research, syntheses & mainstream literature advancing knowledge about causes & consequences of natural & anthropogenic climate change. Prereq: GEOG 3232 with a C- or higher. Cross-listed with GEOG 4720/ GEOG 5720/ ENVS 5720. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: GEOG 3232 with a C- or higher.

ENVS 4740 - Soil Science and Geography (3 Credits)

Reviews chemical and physical properties of soils, soil development, and geographic distributions of soil types in the context of the role that soils play in natural and human-altered ecosystems. Cross-listed with GEOG 4740, GEOG 5740, ENVS 5740. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Fall.

ENVS 4750 - Beeography: Geography of Bees (4 Credits)

Beeography is an introduction to the bee world and the amazing diversity in Colorado and beyond. The course will examine the distribution of bees and the pressures they face in different environmental and cultural contexts. It will examine different methods to support and increase bee populations and pollination services, especially in populated environments, including backyard beekeeping of honeybee and native bee populations. Field and lab activities will include beekeeping, native bee collection and identification, bee dissections, pollen processing and identification, and trips to area bee museum collections and apiaries. Prereq: ENVS 1044 and 1045 or BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) or BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with GEOG 4750, GEOG 5750, and ENVS 5750. Term offered: summer. Max hours: 4 Credits. Grading Basis: Letter Grade
Prereq: ENVS 1044 and 1045 or BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) or BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher.
Typically Offered: Summer.

ENVS 4757 - Urban Climate and Air Quality (3 Credits)

Explores how people alter climates on micro- to regional scales, and how this in turn affects human health and society. Focusses on recent scientific research, physical processes within cities, and the role of urbanization in global climate change. Cross-listed with GEOG 4757, GEOG 5757, ENVS 4757, and ENVS 5757. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Spring.

ENVS 4780 - Aquatic Ecology (3 Credits)

This course explores the physical, chemical, and biological (including human) properties of aquatic ecosystems, and how the interrelationships between these properties define and influence advanced ecological processes. Special focus is given to lakes, reservoirs, wetlands, streams, rivers, and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and data exercises, and periodic (often virtual) field excursions. Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) with a C- or higher. Cross-listed with ENVS 5780, BIOL 4780, and BIOL 5780. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) with a C- or higher.

ENVS 4840 - Independent Study: ENVS (1-3 Credits)

Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENVS 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

ENVS 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Additional Information: Global Education Study Abroad.

Ethnic Studies (ETST)

ETST 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

ETST 2000 - Introduction to Ethnic Studies (3 Credits)

Multi-disciplinary survey of contemporary and historical research analyses of the diverse social, economic, political, and cultural facets of African American, American Indian, Asian American, and Latino communities and cultures. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring.

ETST 2024 - Race and Ethnic Relations (3 Credits)

Surveys race and ethnicity, facts and myths about great populations, and the social and cultural sources of bias and discrimination. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 2108 - Introduction to Chicana and Latina Studies (3 Credits)

This course introduces students to the broad range of the interdisciplinary fields of Chicana and Latina Studies by examining the Chicana and Latina experience including history, identity, politics, immigration, labor, literature, and popular culture. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Spring.

ETST 2155 - African American History (3 Credits)

Surveys the history of African Americans. Study interpretations, and analysis of major problems, issues, and trends affecting the African American population from pre-slavery to the present. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-HI1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.

Typically Offered: Fall, Spring.

ETST 2357 - Asian American & Pacific Islander Cultures (3 Credits)

This is an introductory course that will examine how Asian Americans and Pacific Islanders have been represented in American popular culture and how Asian Americans and Pacific Islanders have sought to challenge and complicate those dominant cultural images to define themselves and their diverse experiences. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities.

ETST 2400 - Issues in Chicano/a Education (3 Credits)

Historical overview of segregation, landmark court cases and immigration policy in the education of Chicano/as in Colorado and nationally from 1920 to the present. The intersection of these issues in the education of undocumented students is also examined. Cross-listed with TCED 2400. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 3002 - Ethnicity, Health and Social Justice (3 Credits)

Surveys core issues contributing to racial or ethnic minority differences in health status. Historical and contemporary U.S. health and social policy, including the areas of environmental health, sexual and reproductive health, children and immigrants, are examined. Cross-listed with PBHL 3002. Term offered: fall. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

ETST 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"—our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with HIST 3003, INTS 3003, PHIL 3003, RLST 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ETST 3036 - American Indian Cultural Images (3 Credits)

Analysis of images and perceptions of American Indians in American culture, as seen in politics, education, film, photography, advertising, art, literature and the media. Note: Students may not earn credit for this course if they have earned credit for ETST 2036. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Summer.

ETST 3060 - AAPI Communities and Health (3 Credits)

Surveys core issues shaping health experiences and health status of Asian American and Pacific Islander communities in the United States. Historical and contemporary U.S. health and social policies that have directly impacted AAPI health and well-being in the United States are examined. Students will also engage with community leaders and partners committed to AAPI communities. Cross-listed with PBHL 3060. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 3108 - Chicano/a and Latino/a History (3 Credits)

An historical analysis of person's descendant from Mexico and Latin America. Areas of focus include ethnohistorical backgrounds, current interrelations, and social movements in both rural and urban groups. Other topics include: cultural patterns, identity maintenance, social reforms and problems of national incorporation. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 3110 - Indigenous Studies (3 Credits)

Examines how communities in diverse world regions preserve tradition, share knowledge, and respond to influences both within and outside of their immediate environments. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

ETST 3125 - Multiracial Families and Communities (3 Credits)

Examines specific issues related to multiracial, multicultural and mixed heritage families in the U.S., including historical, sociocultural, economic and political factors involved. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 3129 - Contemporary Latin American Literature (3 Credits)

The best of contemporary Latin American novels. Examines how U.S. policies in Latin America affect literary creation. Note: Taught in English. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 3155 - The African Diaspora (3 Credits)

This course examines historical and contemporary experiences of Africans and people of African descent in various parts of the world – with a special focus on African immigrants in the US, Black Americans with generational roots in the USA, Blacks in Europe and Afro-Latin Americans. The course incorporates perspectives from history, literature, religious studies, visual art, political science, sociology and anthropology in an effort to provide a range of materials that address the diversity and complexity of the experiences of Africans and people of African descent. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3211 - Hip Hop Music & Culture (3 Credits)

Covers the historical trajectory of hip hop music and culture from inception, aims to restructure stereotypes and offer a deeper perspective into how hip hop defines the identities of individuals as well as the consciousness of the masses within society. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3230 - African American Family (3 Credits)

Exploration of the African American family social institution. Emphasis on historical roots and African influence is still enmeshed in the functioning of the family in modern society. Factors responsible for the ability of the family to meet the challenging society. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3272 - Global Media (3 Credits)

Introduction to leading issues in the study of transnational media. The course will focus on the global media environment in the early 21st century, diverse countries, a variety of media, and social issues. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

ETST 3274 - Power, Poverty, Culture (3 Credits)

Studies the process that has rendered certain groups poor for generations. Studies African Americans, Whites, Chicanos/as and Latinos/as, and other ethnic groups that have lived in this society in a state of poverty. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 3297 - Social History of Asian Americans (3 Credits)

Introductory-level course surveys the social history of Asian American groups from the mid-19th century to the present. Examines immigration patterns, the development of communities, social and economic problems, and anti-Asian movements and activities. Cross-listed with HIST 3297. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3350 - Colonial Latin America (3 Credits)

Surveys the creation of colonial empires by Spain and Portugal, 1492-1808. Topics include Native American responses to European incursions, women in colonial society, and slavery in Latin America. Cross-listed with HIST 5350 and HIST 3350. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 3396 - History of the American Indian (3 Credits)

Indigenous nations in North America comprise hundreds of diverse cultures. This course examines U.S. Indian policy and how indigenous nations responded; how they creatively adapted, and resisted cultural change; and how they continue to persist culturally, socially, and politically. Cross-listed with HIST 3396. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3574 - Topics in Ethnic Studies (3 Credits)

Topics vary from term to term, based upon interest and availability of instructors in specialized areas. Term offered: spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Spring.

ETST 3697 - Contemporary Asian American Experience (3 Credits)

Examines the contemporary Asian American experience, including the adaptation of new immigrants or refugees, economic and educational problems, ethnic identity, intermarriage, anti-Asian discrimination and other civil rights issues, and recent political activism. Cross-listed with SOCY 3697. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 3704 - Culture, Racism and Alienation (3 Credits)

The effects of racism on the personality of participants in racist cultures. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

ETST 3840 - Independent Study: ETST (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

ETST 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Department consent required. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

ETST 3995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

ETST 4000 - Research Methods in Ethnic Studies (3 Credits)

Emphasizes the acquisition of a variety of data or information collection and analytic skills, especially those applicable to historical and social inquiry in ethnic studies. Cross-listed with ETST 5000. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/ caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with HIST 4002, CHIN 4002, INTS 4002, RLST 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ETST 4020 - Race, Culture and Immigration (3 Credits)

In this course, we will consider the social and legal construction of race and immigration. We will also explore how immigrants have been racialized both historically and in the current moment. In addition, we will consider the role of culture in shaping the immigrant experience and immigrant outcomes. Restriction: Junior standing or higher or instructor permission. Cross-listed with SOCY 4020, SOCY 5020 and ETST 5020.

Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

ETST 4030 - Race, Religion and Belonging in the United States (3 Credits)

Race/ethnicity and religion are conconstitutive social and cultural formations that have played a fundamental part in determining the boundaries of belonging of the United States. In this course, students will interrogate when, why and how race/ethnicity and religion have been used to delineate borders, determine citizenship, navigate legal classifications, dictate social mobility, and regulate economic possibilities. We will analyze both primary sources #such as sermons, reality TV shows, court cases and graphic images#as well as scholarly writing to explore how formations of race and religion have shaped notions of belonging in the US nation#state, thereby constructing the boundaries of the state itself. Cross-listed with ETST 5030, RLST 4030, RLST 5030, HIST 4209 and HIST 5029. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4144 - Indigenous Political Systems (3 Credits)

Surveys political theory and practice in indigenous societies in the Americas. Examines the impact of indigenous political thought on Euro-American politics, especially the U.S. Constitution, and explores the contemporary impact of indigenous people on current politics. Cross-listed with PSCI 4144. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4146 - Indigenous Politics (3 Credits)

Surveys the status of the world's native peoples and nations, and the role of law and politics in the future of indigenous peoples in the global arena. Examines questions of human rights, economic development, and international law and politics. Cross-listed with PSCI 4146, 5145. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4156 - The Arab-Israeli Peace Process (3 Credits)

Critical analysis of Arab and Israeli perspectives on the on-going peace negotiations in the Middle East. Historical background and religious-cultural aspects of current problems. Prereq: Upper division standing. Cross-listed with PSCI 4156. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

ETST 4165 - Cultural Diversity Awareness in the Workplace (3 Credits)

This course will analyze the impact and effectiveness of cultural diversity awareness in a variety of workplace settings including educational institutions, businesses, health care organizations, and non-profit organizations. Students will learn how implicit biases and structural inequality impact workplace culture, a work place's productivity, and a work place's ability to fulfill their mission. By the end of the course, students will acquire the skills to advocate for and implement inclusive work place policies. Cross-listed with ETST 5165. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4220 - African-American Literature (3 Credits)

Surveys African-American literature with special emphasis on post-Civil War writing. Cross-listed with ETST 5220, ENGL 4220 and 5220. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

ETST 4297 - Theorizing the Transpacific (3 Credits)

What is the transpacific? Though this term is most associated with global trade and economic interests, this course will examine the migratory and cultural precedents for this term. What do other perspectives from Oceania and from pacific rim countries offer us to theorize the meaning of the transpacific(s). How might a social and cultural understanding of the transpacific engage with the political and economic understandings of the transpacific undergirded by trade relations? Note: Recommended that ETST 3297- Social History of Asian Americans be completed first.

Term offered: spring. Cross-listed with ETST 5297. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4305 - Women of Color Feminisms (3 Credits)

This course is an overview of women of color feminist theorizing (thinking) and praxis (practice) in the U.S. We will explore these feminisms through the writing, art, and organizing efforts of women and trans, femme, and non-binary people of color with a focus on key themes and concepts including identity, difference, oppression, intersectionality, representation, violence, resistance, empowerment, solidarity, and coalition. Texts for the course highlight key issues in the feminist theorizing and praxis of Black, Latina/x, Chicana/x, Asian (American), Pacific Islander, Indigenous, and Arab (American) women and trans, femme, and non-binary people of color, especially the politics of identity and representation; structural oppressions and violences; and practices of survival, resistance, and activism. Not only will we examine how these feminists have critiqued oppression(s) based on race, class, gender, sexuality, nationality, and religion, (as well as how these systems of domination intersect), but what kinds of approaches, strategies, and changes these thinkers and activists have organized for and promoted. Cross-listed with ETST 5305, WGST 4305 and WGST 5305. Max hours: 3 Credits

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4411 - Modern Mexico (3 Credits)

Designed to familiarize students with the critical issues of Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 4411, 5411. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4457 - American Political Thought (3 Credits)

Critical examination of American political life at the intersections of social categories such as race, class, gender, sexuality, disability, and Indigeneity. Exploration of key and marginal thinkers through a variety of texts and genres. Cross-listed with PSCI 4457, PSCI 5457, and ETST 5457. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4574 - Special Topics (3 Credits)

Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4722 - Communicating Latinx Cultures (3 Credits)

Communicating Latina/o/x Cultures centers historical and contemporary vernacular and institutional discourse and narratives about, by, and for Latina/o/x people and communities. Drawing on theories, methods, and practices to understand the complexities of Latina/o/x cultures and lives, we will investigate how different actors and activists express and experience borders, migration, dispossession, citizenship, colonialism/coloniality, colorism, white supremacy, environmental racism (including anti-Blackness), mono- and multilingualism, self-determination struggles, power, representation, resistance, and mutual support networks for alternative worldmaking. To situate these concepts and concerns, we will explore contexts and places ranging from Colorado to the Caribbean. Term Typically Offered: Spring. Cross-listed with COMM 4722, COMM 5722, and ETST 5722. Max hours: 3 credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4768 - Chicano/Chicana Narrative and Social History (3 Credits)

Provides a general, chronological, and thematic introduction to short stories and novels written by U.S. citizens of Mexican descent. Begins with early 20th century narratives by women, continues with the corrido and Post-World War II male writers, and ends with more recent publications by contemporary women writers. Social, historical, and political backgrounds are also emphasized, along with an analysis of the literary techniques and motifs. Cross-listed with ENGL 4768. Max hours: 3 Credits.

Grading Basis: Letter Grade

ETST 4840 - Independent Study: ETST (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

ETST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

ETST 4960 - Capstone in Ethnic Studies (3 Credits)

Provides a broad overview of social research methods pertinent to the study of race, ethnicity, gender, and culture. Explores theories concerning "ethnicity and race" as both social construct and constituent feature of people's identities and lived experiences. Ethnic Studies is an interdisciplinary major where students make connections across diverse fields of inquiry; this course provides a structure for integrating an interdisciplinary examination of the intellectual, cultural, and social dimensions of racial and ethnic groups. Cross-listed with ETST 5960.

Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ETST 4995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Film and Television (FITV)

FITV 1001 - Fundamentals of Film and Television (3 Credits)

Provides fundamentals in academic theories surrounding visual culture.

Topics include representation, spectatorship, mass media and popular culture, new media, and scientific images. Student participation is through discussion, creative projects, reading, and written response. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

Typically Offered: Fall, Spring.

FITV 1005 - Introduction to Theatre & Arts in the Community (3 Credits)

Discussion, workshops, and lectures designed to discover, analyze, and evaluate all aspects of the theatre experience: writing, acting, directing, staging, history, theory and its relationship to film & video. Attending plays and field trips to several Denver-area theaters, and demonstrations.

Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts; GT courses GT Pathways, GT-AH1, Arts Hum: Arts Expression.

FITV 1035 - Introduction to Filmmaking (3 Credits)

Students will be introduced to the concepts and practices of filmmaking.

Through a series of hands-on exercises students will gain experience production management, cinematography, editing and client/director relationships. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to non-College of Arts and Media students and CAM Code Plans: MUSC-BS, RCDA-MS, FINE-BFA, FINE-BA

FITV 1040 - Lighting, Grip, and Sound Introductory Workshop (3 Credits)

The purpose of this course is to acquire basic competence with all film/video production equipment. The course acts as an introductory look at maintaining professionalism, efficiency, and safety in film/video sets for cast and crew. Restriction: Restricted to TFTV-BFA majors with the subplan FIT or FTPM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors with the subplan FIT or FTPM minors within the College of Arts and Media.

Typically Offered: Fall.

FITV 1050 - Production I Basics of Film and Television (3 Credits)

Learn the fundamentals of video production including idea creation, videography, composing a professional image, cinematic lighting, sound track recording and construction, non-linear software. Individual and collaborative productions for film, video, and TV will be created. Prereq: FITV 1040. Restriction: Restricted to TFTV-BFA majors & FTPM minors (production) within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1040. Restriction: Restricted to TFTV-BFA majors FTPM minors (production) within the College of Arts Media.

FITV 1110 - Production Design: Theatre, Film and Video (3 Credits)

This design research class explores the creative skills, technical knowledge and scholarly engagement employed by production designers. The students will understand how design elements enhance a production and create a production design for a video, film or play. Prereq: FITV 1040. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1040 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media.

FITV 1115 - Horror in Western Culture and Cinema (3 Credits)

This course is designed to analyze the history, practice and production of the horror film. By examining the horror genre students analyze how cinema is both a reflection of the time it was produced as well as it impacts on art and society. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

FITV 1120 - Contemporary World Cinema (3 Credits)

This course will examine representative examples of films from around the world to understand the current interest and concerns of world cinema, as well as discern what concerns various countries around the world, and how those concerns are expressed. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

FITV 1200 - The Culture of Television (3 Credits)

The course will combine viewing of television programs with reading, writing and discussing television as students begin to understand intellectually, and learn to take an analytical view of this remarkable phenomenon. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FITV 1220 - Acting for the Screen (3 Credits)

Provides the study, skill development and workshop experience for the actor in various media – including film, television, commercial, and voice-over work. Students do physical exercises, vocal training, develop vocabulary, and scene exercises. Prereq: BFA : FITV 1050 + FITV 1550.

Prereq: FTPM minor: FITV 1050 or FITV 1035. Restriction: Restricted to TFTV-BFA majors, FTPM minors, and FIPR minors in the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors, FTPM minors, and FIPR minors in the College of Arts and Media. Prereq: BFA : FITV 1050 + FITV 1550 Prereq: FTPM minor: FITV 1050 or FITV 1035

Typically Offered: Fall.

FITV 1550 - Scriptwriting 1 - Fiction (3 Credits)

Critical exploration of dramatic writing for stage and screen. Understand how imagery, character, story, narrative structure, literary conventions, and more, impact compelling writing. Utilize effective writing and critiquing strategies focused on drafting and writing an original film/TV script. Restriction: Restricted to TFTV-BFA majors with the subplan FIT or FTPM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors with the subplan FIT or FTPM minors within the College of Arts and Media.

Typically Offered: Fall, Spring.

FITV 1551 - Scriptwriting for Non-Majors (3 Credits)

Critical exploration of dramatic writing for stage and screen. Understand how imagery, character, story, narrative structure, literary conventions, and more, impact compelling writing. Utilize effective writing and critiquing strategies focused on drafting and writing an original film/TV script. Max hours: 3 Credits.

Grading Basis: Letter Grade

FITV 1600 - Writing Short Film: Non Fiction (3 Credits)

Students study basic writing elements such as idea generation, character building, and scene setting while writing short non-fiction screenplays or teleplays for production. Prereq: TFTV-BFA: FITV 1550. Prereq: FTWM minor: no pre-req. Restriction: Restricted to TFTV-BFA majors & FTWM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: TFTV-BFA: FITV 1550 Prereq: FTWM minor: no pre-req Restriction: Restricted to TFTV-BFA majors FTWM minors within the College of Arts and Media.

FITV 1700 - Improvisation for the Screen (3 Credits)

This course is designed to provide students with a solid understanding of improvisation and concepts for performing and writing comedy for stage or screen. Students will explore and analyze comedy genres, scene structure and character development. This course includes hands-on experience writing, directing, and performing original comedy sketches.

Students collaborate on group comedy projects, participate in a working writers' room, and produce comedy shows. Prereq: Requires prerequisite course of FITV 1220 (minimum grade D-). Restriction: Restricted to Theatre, Film and Television (TFTV) majors and minors with Sophomore standing or higher. Term offered: Spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires prerequisite course of FITV 1220 (minimum grade D-).

Restricted to Theatre, Film and Television (TFTV) majors and minors with Sophomore standing or higher.

Typically Offered: Spring.

FITV 2040 - Editing and Post Production Techniques (3 Credits)

This course introduces the art of editing and post-production for film and television practices. Students will use various software applications; Adobe Premiere, Adobe After Effects and Photoshop as the platform to explore the fundamentals of visual storytelling, graphics, visual effects, compositing, color correction, compression concepts, input, output and software integration, and how that work can be integrated into varying film and television projects. Prereq: TFTV-BFA: FITV 1001. Prereq: FTPM minor: FITV 1050 or FITV 1035. Restriction: Restricted to TFTV-BFA majors & FTPM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors FTPM minors within the College of Arts and Media. Prereq: TFTV-BFA: FITV 1001 Prereq: FTPM minor: FITV 1050 or FITV 1035

FITV 2050 - Production II Film and Television Techniques (3 Credits)

Through a series of assigned film and TV projects students will be introduced to various genres of filmmaking, while building upon the skills of preproduction, production, and post-production. Prereq: BFA: FITV 1050. Prereq: FTPM minor: FITV 1050 or FITV 1035. Restriction: Restricted to TFTV-BFA majors & FTPM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors FTPM minors within the College of Arts and Media. Prereq: TFTV-BFA: FITV 1050 Prereq: FTPM minor: FITV 1050 or FITV 1035

Typically Offered: Spring.

FITV 2055 - Documentary Production (3 Credits)

Students produce non-fiction film/TV productions in collaboration with non-profit organizations while exploring and experiencing industry practices. Prereq: FITV 1050 + FITV 2090. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits. Grading Basis: Letter Grade

Prereq: FITV 1050 + FITV 2090 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

FITV 2090 - Producing for Film and Television (3 Credits)

Students will learn the various aspects of planning, scheduling, budgeting, and managing both television and film productions. Students will develop skills for conceptualizing projects from script to screen.

Prereq: FITV 1550. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1550 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media.

FITV 2100 - Movement for Film & Television (3 Credits)

Students will explore physical techniques that will help broaden their physical expression and kinesthetic responses. They will learn to devise and apply unique physical choices to the characters they create. Term offered: Fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FITV 2221 - Acting for Non-Majors (3 Credits)

Introduction to performance for film, TV and commercials. Students do physical exercises, vocal training, develop vocabulary, and scene exercises. Restriction: Restricted to non-College of Arts & Media students and CAM Code Plans: MUSC-BS, RCDA-MS, FINE-BFA, FINE-BA. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to non-College of Arts and Media students and CAM Code Plans: MUSC-BS, RCDA-MS, FINE-BFA, FINE-BA

FITV 2580 - Advanced Acting & Directing Workshop (3 Credits)

This class will be dedicated to exploring the art and craft of developing powerful performances. We will regularly divide into groups of three (one director & two actors) so that at least two-thirds of your time will be devoted to acting. Prereq: FITV 2570 or FITV 3570. Restriction: Restricted to TFTV-BFA majors within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

D-ART FITV 2570/3570+TFTV-BFA

Typically Offered: Fall.

FITV 2650 - Sound for Film and TV (3 Credits)

Building upon basic understandings of audio for film and television techniques, students will get intermediate instruction and experience with field audio recording and audio post-production practices. Students will work with digital audio editing software to gain knowledge and skills in sweetening, mixing, and sound design. Prereq: FITV 1040. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1040 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media.

FITV 2670 - Cinematography (3 Credits)

Students create film and TV projects that exhibit effective use of light, composition, depth of field, focal length. Student directors will learn how to collaborate with cinematographers and understand the science of photography, lenses, and lighting. Prereq: FITV 2040 + FITV 1050. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2040 + FITV 1050 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

Typically Offered: Spring.

FITV 3040 - TV Studio Production (3 Credits)

Working in a multi-camera television studio environment, students in this course will experience each aspect of creating multiple live-to-tape television programs. Students will work in teams to create a television pilot as well as individual projects. Prereq: BFA: FITV 3050 + FITV 3500. Prereq: FTPM minor: FITV 1050 or FITV 1035. Restriction: Restricted to TFTV-BFA majors & FTPM minors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to TFTV-BFA majors FTPM minors within the College of Arts and Media. Prereq: TFTV-BFA: FITV 3050 + FITV 3500 Prereq: FTPM minor: FITV 1050 or FITV 1035

Typically Offered: Spring.

FITV 3050 - Junior Project Production (3 Credits)

Students will refine their knowledge of single-camera film and TV techniques in this hands-on, collaborative course. Students will conceptualize, develop, and shoot a short film or television project throughout the semester. Emphasis on storytelling, production design, production management, and cinematography. Prereq: FITV 2050 + FITV 1200 + FITV 2670 + FITV 2650. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2050 + FITV 1200 + FITV 2670 + FITV 2650 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media.

FITV 3060 - Junior Project Post Production (3 Credits)

Students will apply post-production skills learned in previous courses to edit projects produced in Prod 3/Jr Project. This course will emphasize the completion of a professional broadcast-quality production with full audio and visual sweetening. Students will attain advanced editing skills through a longer format project. Prereq: FITV 3050 + FITV 3500. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 3050 + FITV 3500 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

FITV 3070 - Voice and Dialect for Film & Television (3 Credits)

This course focuses on the illumination of dialogue in film and television scripts. Through a process of exploration, actors will gain awareness of their vocal range, pitch, volume, and expression through physical and vocal exercises. They will also build the skills necessary to produce general American speech, as well as regional accents and dialects. Particular attention is paid to the skills necessary to work in film and television. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FITV 3090 - Producing Episodic Television (3 Credits)

Students explore and develop skills in the collective practices necessary for the full production of an episodic television series. Students will actively participate in various aspects of episodic television production including preproduction, production, and post-production. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 3050/FILM 3270 and FITV 3500/FILM 4500 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

FITV 3100 - Voice Acting Workshop (3 Credits)

Voice Acting is the art of using a voice to represent characters, provide narration, or present information to an audience. This workshop trains students in the skills necessary to work on a range of projects, including animated television series, audiobooks, movies, documentary television and film, commercials, and video games. Prereq: Requires prerequisite course of FITV 2100 (minimum grade D-). Term offered: Spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires prerequisite course of FITV 2100 (minimum grade D-).

Typically Offered: Spring.

FITV 3200 - History of Cinematic Arts I (3 Credits)

The development of cinema in the early 1880s brought with it a wealth of techniques still used today, from the close-up to crosscutting and montage. In this course students will view, analyze, research, and critique the beauty and sophistication of silent film from its beginnings through the late 1930s. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FITV 3220 - Advanced Acting Workshop for Film and Television (3 Credits)

Students will further explore techniques and practices in the performing for film and television projects. This is an intense workshop designed to better prepare students to perform for a variety of on-camera projects.

Prereq: Requires prerequisite course of FITV 1220 (minimum grade D-).

Restriction: Restricted to TFTV-BFA and FIPR-MIN students only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires prerequisite course of FITV 1220 (minimum grade D-).

Restricted to TFTV-BFA and FIPR-MIN students only.

Typically Offered: Spring.

FITV 3264 - Advanced Digital Effects (3 Credits)

Students will study software and create projects with advanced visual effects. With industry standard techniques in animation, applying compositing, image acquisition and motion graphics. Students will create a variety of projects by the end of the semester. Prereq: FITV 2040. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2040

FITV 3300 - History of Cinematic Arts II (3 Credits)

Take a journey through the many genres of film, from the introduction of sound to the present. Students will trace the development of various Hollywood genres and examine films that represent major developments in American cinema. In this course students will view, analyze, research, and critique films from 1938 to the present. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FITV 3350 - Editing Aesthetics (3 Credits)

A historical, theoretical, and practical hands-on approach to deconstructing and utilizing editing aesthetics. Students will consider the theory behind editing strategies that elicit an emotional or response from viewers, and put those theories to practice through demonstrative production exercises as well as analytical writing. Prereq: FITV 2050. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2050

FITV 3500 - Writing for Episodic Television (3 Credits)

Explores the constructive and critical process of writing prime-time dramatic television and alternative broadcast platforms. Each student is guided through a series of viewings, readings, and writing exercises culminating with the written completion of television episodes for an original series. Prereq: TFTV-BFA FITV 1200 + FITV 2050. Prereq: FTWM minor: FITV 1551 Restriction: Restricted to TFTV-BFA majors and FTWM minors in the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: TFTV-BFA FITV 1200 + FITV 2050 Prereq: FTWM minor: FITV 1551

Restriction: Restricted to TFTV-BFA majors and FTWM minors in the College of Arts Media

FITV 3510 - Writing the Thesis (3 Credits)

Critical exploration of dramatic writing for the screen with a focus on advanced short narrative screenplays. The course serves as a precursor to the FITV thesis project. Students will utilize intensive workshop and writing techniques to develop original screenplays in preparation for the Department of Film and Television's senior thesis course. Prereq: TFTV-BFA and FTWM minor: FITV 3500. Prereq: Non-TFTV-BFA Majors and Non-FTWM minors must have taken any two of ENGL 3415, ENGL 3417, ENGL 2390 or permission of instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: TFTV-BFA and FTWM minor: FITV 3500 Prereq: Non-TFTV-BFA majors or non-FTWM minors must have taken any two of ENGL 3415, ENGL 3417, ENGL 2390

FITV 3520 - Advanced Screenwriting (3 Credits)

Critical exploration of advanced screenwriting techniques with a focus on mastering sequence structure for longform projects. Students will utilize intensive workshop and writing strategies to develop original content and a fundamental understanding of industry workflows. Students will read, analyze and discuss works-in-progress by all workshop participants and present their work for peer review. Topics related to working as a professional writer will also be explored. Prereq: FITV 1550 and FITV 1600. Restriction: Restricted to TFTV-BFA majors and FTWM minors, and by instructor permission. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 1550 and FITV 1600. Restriction: Restricted to TFTV-BFA majors and FTWM minors..

FITV 3550 - World Theatre (3 Credits)

Discussion, workshops and lectures designed to discover, analyze and evaluate the world theatre experience from countries outside of the United States. The course will explore theatre and its precedents in Asia, Africa, Eastern Europe and Latin America. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

FITV 3570 - Directing for Film and Television (3 Credits)

Through a series of assigned video projects, students will practice the art of directing several film and television projects. Applying communication skills and directing techniques to the process. Prereq: TFTV-BFA: FITV 2220 or FITV 2221 + FITV 2050. Restriction: Restricted to TFTV-BFA majors or FITV minors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: TFTV-BFA: FITV 2220 or FITV 2221 + FITV 2050. Restriction: Restricted to TFTV-BFA majors or FITV minors.

Typically Offered: Fall.

FITV 3600 - Denver Film Festival (3 Credits)

Students in this course will know how to contextualize films in terms of content and form. Through film viewing, written assignments, and critical analysis students learn to describe, classify and appreciate narrative, craft and artistic intent. Max hours: 3 Credits.

Grading Basis: Letter Grade

FITV 3611 - Drama of Diversity (3 Credits)

Investigates the creation and reinforcement of gender, ethnic, and racial stereotypes in theatre, film, and television in the United States. The course explores how popular images are created by writers, directors, and performers, and become "reality" for the audiences for which they are intended. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

FITV 3620 - Business of Film (3 Credits)

This course is designed to provide FITV students with a systematic overview of the modern day filmed entertainment business. The analysis will not only cover the traditional "Hollywood System" operating out of Los Angeles but will examine the independent film model as well. This course will take a critical look at the financing, production, marketing, and distribution of filmed entertainment with particular attention paid to both the financing models at a range of budgetary levels and the various revenue streams inherent in the exploitation of such product, in both the domestic marketplace and international arena. Prereq: FITV students must have completed FITV 2090; MEIS students must have completed MUSC 2700 OR MUSC 2750. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV students must have completed FITV 2090; MEIS students must have completed MUSC 2700 OR MUSC 2750.

Typically Offered: Fall, Spring.

FITV 3770 - Advanced Production Design for Film and Television (3 Credits)

Students will further explore design elements found in film and television, and utilize class projects in conjunction with other student film projects. Prereq: THTR 1110 or FITV 1110. Restriction: Restricted to TFTV-BFA majors within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: THTR 1110 or FITV 1110 Restriction: Restricted to TFTV-BFA majors within the College of Arts Media

Typically Offered: Fall.

FITV 4000 - Senior Thesis Production (3 Credits)

The first course of a two-part capstone experience in which students collaborate, plan, cast, budget, and produce a professional quality film/TV project or script. Projects/scripts will be completed in FITV 4010. Prereq: FITV 3040 + FITV 3050 or FITV 3090 + FITV 3200. Restriction: Restricted to TFTV-BFA majors within in the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 3040 + FITV 3050 or FITV 3090 + FITV 3200 Restriction: Restricted to TFTV-BFA majors within in the College of Arts and Media
Typically Offered: Fall.

FITV 4010 - Senior Thesis Post-Production (3 Credits)

Second course of a two-part capstone experience in which students collaborate on post-production to complete the film/TV/script project. Emphasis will be on editing, color-correcting, audio sweetening, graphics, finishing a fine-cut of their project; students will seek distribution and exhibition. Prereq: FITV 4000. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 4000 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media
Typically Offered: Spring.

FITV 4020 - CAM Film Productions (3 Credits)

Under the supervision of a faculty member, this class works together as a group to create broadcast quality television projects. Projects will be designed for a PBS television market and may be aired as such. Prerequisite: FITV 2050. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: FITV 2050 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

FITV 4030 - Writing the Half-Hour TV Pilot (3 Credits)

This course will explore the constructive and critical process of writing a ½ hour TV pilot for cable, streaming or network television. Each student is guided through the TV pilot writing process through a series of viewings, readings and writing exercises culminating with the written completion of a draft for a half-hour TV pilot. Prereq: Requires prerequisite course of FITV 3500 (minimum grade D-). Restriction: Restricted to Film and Television (FITV) majors and minors only. Term offered: Fall, Spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires prerequisite course of FITV 3500 (minimum grade D-).

Restricted to Film and Television (FITV) majors and minors only.

Typically Offered: Fall, Spring.

FITV 4050 - Advanced Cinematography (3 Credits)

In this production workshop, students will analyze films and storyboards, and shoot projects created for specific action and special effects outcomes. In addition, students will examine a variety of techniques used to create action scenes in preparation for the edit. Prereq: FITV 2670. Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FITV 2670 Restriction: Restricted to TFTV-BFA majors within the College of Arts and Media

Typically Offered: Fall.

FITV 4100 - Business of Acting (3 Credits)

This course will develop your ability to connect and combine managerial, economic and business-related skills with the craft of acting. Topics to be covered include headshots and demo reels, booking with self-tapes, identifying type, getting agents and managers, writing the perfect cover letter, professional and eye-catching resumes, networking, moving from co-star to series regular roles, understanding on set terms and culture, and much more. The course consists of lectures, discussions, group exercises, at-home assignments, and individualized assessments, and will culminate in a talent showcase to which agents and casting directors will be invited. Prereq: Requires prerequisite course of FITV 3100 (minimum grade D-). Term offered: Fall. Max hours: 3 Credits. Grading Basis: Letter Grade. Requires prerequisite course of FITV 3100 (minimum grade D-). Typically Offered: Fall.

FITV 4400 - Acting for Film and TV Practicum (3 Credits)

The practice, study and critique of acting and directing for varying film/TV projects. The class will incorporate, preparatory work, on-camera performance, directing, and an in-depth critique of the resulting work. Prereq: TFTV-BFA: FITV 3220. Restriction: TFTV-BFA. Max hours: 3 Credits. Grading Basis: Letter Grade. Prereq: TFTV-BFA: FITV 3220. Restriction: TFTV-BFA.

FITV 4440 - Color Correction and Mastering for Film and Television (3 Credits)

This course is designed to teach students the process of color grading and film finishing techniques. This includes use of industry standard color correction software and methods of providing deliverables for film and television distribution and exhibition. Prereq: FITV 2040. Restriction: Restricted to TFTV-BFA majors and FTPM minors. Max Hours: 3 Credits. Grading Basis: Letter Grade. Prereq: FITV 2040. Restriction: Restricted to TFTV-BFA majors and FTPM minors.

FITV 4600 - Special Topics (3 Credits)

Specialized topics in film and video. Repeatable. Max hours: 12 Credits. Grading Basis: Letter Grade. Repeatable. Max Credits: 12. Typically Offered: Fall, Spring, Summer.

FITV 4840 - Independent Study: FILM (1-3 Credits)

Repeatable. Max Hours: 12 Credits. Grading Basis: Letter Grade. Repeatable. Max Credits: 12.

FITV 4939 - Internship in Film and TV (1-6 Credits)

Repeatable. Max hours: 12 Credits. Grading Basis: Letter Grade. Repeatable. Max Credits: 12.

Finance (FNCE)

FNCE 1001 - Financial Literacy for Business (1 Credit)

The five day workshop on financial literacy will provide students with the opportunity to build a basic financial literacy toolkit, including managing your money, mastering credit & debt, investing, and planning for the future. Students will also learn about business in Denver. Max hours: 1 Credit.

Grading Basis: Letter Grade
Typically Offered: Summer.

FNCE 1100 - Introduction to Financial Management (3 Credits)

Fundamental tools and techniques applicable to financial planning of businesses. Covers valuation of securities, risk-return relationship, capital budgeting, management of current assets and liabilities with extension to international areas. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade. Typically Offered: Fall, Spring.

FNCE 1200 - Introduction to Investing (3 Credits)

Fundamental tools and techniques applicable to financial planning of businesses. Covers valuation of securities, risk-return relationship, capital budgeting, management of current assets and liabilities with extension to international areas. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade. Typically Offered: Fall, Spring.

FNCE 1500 - Introduction to Investment Services (1 Credit)

This class provides students with a broad overview of career opportunities in finance, focusing on financial services and banks. We first introduce several career paths in finance, and then briefly introduce the origins of money and banking. We turn to an in-depth study of the financial services industry, including the services provided by companies and listing financial services products as well as who develop and regulates those services. We map the skills (technical and personal) that are required for an individual to succeed in the industry. The course will have a special focus in companies in Colorado and the Colorado Investment Service Coalition (CISC). We close the course with mapping key ethics in the financial services industry. The course will address the full range of financial services careers, including investment and commercial banking, insurance, pension plans, risk management, mutual funds, e-commerce, and personal and business planning. Max hours: 1 Credit. Grading Basis: Letter Grade

FNCE 2939 - Internship (1-3 Credits)

Repeatable. Max Hours: 3 Credits. Grading Basis: Satisfactory/Unsatisfactory. Repeatable. Max Credits: 3.

FNCE 3000 - Principles of Finance (3 Credits)

This course provides an introduction to financial markets and institutions, financial statement analysis, interest rates and the time value of money, principles of security valuation, concepts of risk and return, and capital budgeting. Note: This course is required in the Business Core. A grade of 'C-' or better must be earned. Prereq: MATH 1070 or MATH 1060 or MATH 1110 or MATH 1080 or MATH 1130 or MATH 1401 AND ACCT 2200 AND BANA 2010 or ECON 3811 all with a C- or higher AND ECON 2012 AND ECON 2022. Restriction: Restricted to undergraduate students with 45 credit hours or more. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1070 or MATH 1060 or MATH 1110 or MATH 1080 or MATH 1130 or MATH 1401 AND ACCT 2200 AND DSCI/BANA 2010 or ECON 3811 all with a C- or higher AND ECON 2012 AND ECON 2022. Rest: Restricted to undergraduate students with 45 credit hours or more.

FNCE 3450 - Introduction to Commercial Real Estate (3 Credits)

This course will provide a broad overview of the many service lines and asset classes within commercial real estate. Students will gain perspective into and hear from leaders within the various business functions that comprise the commercial real estate industry. We will also study how market cycles impact the utilization and valuation of commercial real estate. Students will also gain an understanding into the various types of, and the wide-ranging investment return criteria applied by, commercial real estate investors. This will include exploring the broad spectrum of investors from sole proprietors to global institutions and the return criteria they deploy, such as cash-flow and internal rate of return. Max hours: 3 Credits.

Grading Basis: Letter Grade

FNCE 3500 - Management of Business Capital (3 Credits)

Students learn the basic principles governing the management of capital in the business firm. Topics include management of working capital, cost of capital, capital budgeting, firm valuation, and theory and management of capital structure, grade of 'C' must be earned to take subsequent courses for which this course is a prereq. Prereq: FNCE 3000 with a grade of 'C' or better. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher
Typically Offered: Fall, Spring, Summer.

FNCE 3600 - Financial Markets and Institutions (3 Credits)

Focuses on the supply and demand for loanable funds, the process of money creation, the structure of interest rates, and the role of banks and the Federal Reserve in the financial system. Special attention is devoted to the impact of monetary and fiscal policies on interest rates, the flow of funds and economic activity; and the operation of financial markets and institution. Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher
Typically Offered: Fall, Spring.

FNCE 3700 - Investment and Portfolio Management (3 Credits)

In this course students learn about the different types of investment vehicles, including methods to estimate their value and analyze their risk. They will also be introduced to portfolio management, including the identification of objectives and constraints and the analysis and use of investment information. Topics include the functioning of security markets, asset allocation, security valuation, and portfolio analysis. A grade of 'C' or better must be earned to receive credit for the course, and to take subsequent courses for which it is a prerequisite. Note: FNCE 3700 and FNCE 3600 may be taken concurrently. Prereq: FNCE 3000 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

FNCE 3840 - Independent Study: FNCE (1-3 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 3850 - Blockchain, Crypto Investing and Trading Strategy (3 Credits)

This class presents introduction to blockchain includes blockchain innovation tools, protocols and techniques and its application in the newly emerge cryptocurrency asset class. We then analyze the need and motives for the crypto, and how it disrupts the current and existing payment system. The final theme of the class focuses on the optimal cryptocurrency investment and presents robust trading strategy. Cross-listed with FNCE 6850. Prereq: FNCE 3000 with a C or higher. Max hours: 3 Credits

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a C or higher.

FNCE 3939 - Internship (1-3 Credits)

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 4370 - International Financial Management (3 Credits)

Financial management in the international environment. Topics include international capital movements; international operations as they affect the financial functions; foreign and international institutions; and the foreign exchange process. Also considers foreign exchange theory and risk management, financial requirements, problems, sources, and policies of firms doing business internationally. Cross-listed with INTB 4370. Prereq: FNCE 3000 with a C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher

Typically Offered: Fall, Spring, Summer.

FNCE 4382 - Survey of Financial and Commodity Derivatives (3 Credits)

This course introduces forward contracts, used in price risk management for millennia. We cover the properties of forward/futures contracts, structure of the markets and strategic implications for speculation and hedging. We price forwards from spot price, and introduce convenience yield. Options used for insurance purpose (think of your car insurance as a put option) is a more expensive way to manage risk; we cover option strategies and basic pricing. The course concludes with swaps, credit derivatives and structured products. Asset classes covered are equity, fixed income, currency, agriculture, energy (oil/gas and electricity) and metal/mining. Prereq: FNCE 3500 and FNCE 3700 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3500 and 3700 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher

Typically Offered: Fall, Spring, Summer.

FNCE 4411 - International Corporate Governance (3 Credits)

Discusses the structure and goals of the modern corporation, the primary governance mechanisms used to help companies achieve these goals, and how and why these roles, goals, and mechanisms vary across nations. The topics covered in the course include managerial compensation, board of director structure and ethics, shareholder activism, and how governance structures differ across countries. Prereq: FNCE 3000. Cross-listed with FNCE 6411 and INTB 6411 Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000

FNCE 4424 - Corporate Restructuring (3 Credits)

Examines the processes and decisions by which mergers, takeovers and other corporate restructuring occur, the transactions occur. Analyzes merger and acquisition decisions as part of strategic decision making, and how firms are valued in mergers. Discusses the market for corporate control and the public policy implications of mergers and corporate governance. Prereq: FNCE 3500. Restriction: Restricted to undergraduate Business majors with a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3500 Requisite: Restricted to undergraduate Business majors with a junior standing or higher

FNCE 4470 - Behavioral Finance (3 Credits)

Over the past several decades, the field of finance has developed a successful paradigm based on the notions that investors and managers were generally rational and the prices of securities were generally "efficient." In recent years, however, anecdotal evidence as well as theoretical and empirical research has shown this paradigm to be insufficient to describe various features of actual financial markets. In this course we examine how the insights of behavioral finance complements the traditional paradigm and sheds light on the behavior of asset prices, corporate finance, and various Wall Street institutions and practices. Prereq: FNCE 3500 with a C or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3500 with a C or higher

FNCE 4480 - Introduction to Financial Modeling (3 Credits)

Develops and implements financial models for purposes of financial planning and decision making. This course seeks to increase students' knowledge and skill in the development of basic Excel-based financial planning models, including cash budgets, financial statements, and capital budgeting analysis. Knowledge of computer and spreadsheet software needed. Restriction: Restricted to undergraduate Business majors at a junior standing or higher Prereq: FNCE 3000, FNCE 3500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 and FNCE 3500. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

FNCE 4490 - Commodity Trading (3 Credits)

This is a co-listed class with the J.P. Morgan Center for Commodities and the Finance Department. This course focuses on how securities and futures contracts are designed and traded including trading exchange operations, regulation, trading mechanisms and processes. Students will learn the theory and practice of securities and futures contract trading with a focus on hands-on trading experience using industry software (CQG and Bloomberg) as well use of data sources (Morningstar). In this course, we will review the origins of liquidity, volatility, price efficiency, and trading profits. Next we will cover a host of topics concerning equity and commodity trade execution strategies, such as why and how investors trade, what and when investors profit from investing and speculating, the key principles of high-frequency trading and investor's overconfidence, why market institutions are organized as they are, and the role of public policy in the markets. Cross-listed with CMDT 4490, CMDT 6490 and FNCE 6490. Max hours: 3 Credits.

Grading Basis: Letter Grade

FNCE 4500 - Corporate Financial Decisions (3 Credits)

This is a required capstone course for the financial management emphasis. It uses the case method to develop the analytical and decision making skills of students. Students are required to apply theories and concepts learned in previous finance and accounting classes to real world scenarios. Topical coverage includes financial analysis, planning, control, working capital management, long-term investment and financing decisions and corporate valuation. A grade of 'C' or better must be earned to receive credit towards graduation. Prereq: MATH 1060 or 1070 or MATH 1110 or MATH 1080 or MATH 1130 or MATH 1401 AND DSCI/BANA 2010 AND ACCT 2200 all with a C- or higher; ECON 2012 AND ECON 2022 with a D- or higher; FNCE 3000 AND FNCE 3500 AND FNCE 3700 all with a C or higher. Restriction: Restricted to undergraduate students at a senior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1060 or 1070 or 1110 or 1080 or 1130 or 1401 AND DSCI/BANA 2010 AND ACCT 2200 with a C- or higher; ECON 2012 AND 2022 with a D- or higher; FNCE 3000 AND 3500 AND 3700 with a C or higher.

Restriction: undergraduate seniors or higher.

FNCE 4709 - Life and Health Insurance (3 Credits)

The course is designed to provide the student with the basic understanding of life and health insurance concepts. The course will focus on a needs analysis for individual life insurance needs in preserving an estate or creating an estate. We also focus on the needs of the family and the preservation of the income stream for meeting short and long term needs and how we accomplish this via life insurance. We also will look at life insurance in terms of business planning using such concepts as key person life insurance, funding buy sell agreements, and related needs. On the health side, we will use a needs analysis approach to provide health coverage for the individual and family. We also explore the employee benefits arena and how businesses will focus on providing group medical coverage and related benefits in an ever changing health care environment with health care reform being phased in. We also will explore the internal workings of life and health insurance companies by review. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 4750 - Business Intelligence and Financial Modeling (3 Credits)

This course will introduce students to the application of business intelligence in a corporate finance setting. Financial data intelligence is essential for effective decision making throughout the firm, in finance directly and in other functions supported by the finance department. Strategy setting, budgeting, and new product development are just a few decision areas where finance personnel play an active role. In this course, we learn how to apply business intelligence software tools to enable finance personnel to access and analyze corporate data in support of critical decision making across the enterprise. Students will also analyze data through the use of financial models built in Microsoft Excel. The development of complex financial models will provide students with valuable hands-on experience with a software tool used widely incorporate finance departments. Prereq: ISMG 2050 with a grade of C- or higher, FNCE 3000 and (ISMG 3000 or ACCT 4054) all with a grade of 'C' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ISMG 4750 and ISMG 6820. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2050 with a grade of C- or higher, FNCE 3000 and (ISMG 3000 or ACCT 4054) all with a grade of 'C' or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

FNCE 4802 - Foundations of Commodities (3 Credits)

This course introduces students to the physical aspects of commodities and connects them to the financial markets in which commodities are traded. Fundamental concepts and terminology necessary for understanding commodity production, transportation, economics, financial analysis and marketing are described. Supply chains for several specific commodities are reviewed in detail, as examples of the production and market structure knowledge needed to be successful professional participants in commodity trading capacities. The course also serves a foundation for more focused education in the specific commodity sectors, as well as the applied use of marketing and financial trading concepts learned in other courses. Cross-listed with FNCE 6802 and CMDT 4802/6802. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 4840 - Independent Study: FNCE (1-8 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

FNCE 4880 - Ethics in Finance (3 Credits)

The undergraduate business finance student develops an in-depth knowledge of ethical parameters for business and finance decision making. The course addresses the ethics issues with a heavy emphasis on finance, but also includes discussion and analysis of general ethics frameworks, ethics and internal controls, and the relationship of finance law and ethics. The influence of ethics on an organization's decision-making is stressed. Case studies and current issues in finance ethics will be addressed. Restriction: Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

FNCE 4950 - Special Topics (3 Credits)

Research methods and results, special topics and professional development in finance. Prerequisites vary according to topic and instructor requirements. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Fine Arts (FINE)

FINE 1000 - Fostering Creativity (3 Credits)

Through discussions, readings, writings and creative investigations, students will delve into theoretical and experiential approaches to creativity and consider how different kinds of creativity and passions can be identified, cultivated and leveraged in their current and future academic and professional lives. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

FINE 1001 - Introduction to Art (3 Credits)

The course introduces visual analysis and critical examination of art from prehistory to modern times. Through reading, vocabulary development, group discussions, tests, and research projects, students will learn how to appreciate art and critically evaluate form, content, and context. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH1.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts; GT courses GT Pathways, GT-AH1, Arts Hum: Arts Expression.

FINE 1002 - International Perspectives through Animation (3 Credits)

This course is a look at world political, economic, social, and technological challenges through the lens of animation and visual storytelling. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

FINE 1003 - Creative Coding (3 Credits)

Through discussions, readings, writings, and creative investigations, students will identify and evaluate the digital tools and software present in everyday life while they explore and learn the basics of computer code and the power of code as a creative tool. Max hours: 3 Credits.
Grading Basis: Letter Grade

FINE 1004 - Video Games, Story and Society (3 Credits)

By investigating various methods and theories, this course will examine how stories are crafted to fit the interactive aspects of video games, their resemblance and dependence on traditional stories, and how unorthodox plots, characters, and impact game play. Max hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Arts.
Typically Offered: Fall.

FINE 1100 - Drawing I (3 Credits)

This course explores the act of drawing as a process of visual thought as an initial step to artistic expression. Students will develop an understanding of the basic principles of drawing as a way of learning to see. Max hours: 3 Credits.
Grading Basis: Letter Grade

FINE 1111 - First-Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Restricted to Freshman level students
Typically Offered: Fall.

FINE 1120 - Photographic Fundamentals (3 Credits)

Students learn fundamentals of digital photography through creative assignments that promote a broad understanding of the photographic medium. Topics include digital camera operation, sizing and resolution, principles of design, and interpreting photographic meaning. This course is designed for non-art majors. Restriction: Open to all students except FINE-BFA & BA. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Open to all students except FINE-BFA BA

FINE 1140 - Topics in Photography (3 Credits)

Repeatable. Term offered: fall, spring. Max hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Typically Offered: Fall, Spring.

FINE 1150 - Introduction to Darkroom Photography (3 Credits)

Students learn traditional, film-based photographic practice. Topics such as camera functions, film processing, black and white darkroom printing, and alternative darkroom techniques are explored through demonstrations, critiques, readings, and discussions of historical and contemporary photography. Max hours: 3 Credits.
Grading Basis: Letter Grade

FINE 1400 - Two Dimensional Design (3 Credits)

Focuses on the concepts and visual elements of all forms of two-dimensional art. Students gain an understanding of basic design principles as they analyze and visually articulate formal concerns in viewing contemporary and historical artworks as applied to studio problems. Max hours: 3 Credits.
Grading Basis: Letter Grade

FINE 1450 - Visual Culture: Ways of Seeing (3 Credits)

A core course for majors and non-majors Visual Culture: Ways of Seeing explores how the meaning of imagery is encoded in cultural settings and transforms globally through changing technology and is integrated into daily life. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH1.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Arts; GT courses GT Pathways, GT-AH1, Arts Hum: Arts Expression.

FINE 1500 - Three-Dimensional Design (3 Credits)

Students explore the elements of art and the principles of design applied to three-dimensional design while developing an understanding of material properties, techniques, processes and tools. Creative practice is accompanied by written, theoretical and verbal critical thinking skills. Max hours: 3 Credits.
Grading Basis: Letter Grade

FINE 1810 - Digital 3D Foundations (3 Credits)

A lecture/lab course that explores the foundations of creating digital 3D content. Primary focus is an introduction to current 3D software. Class lectures, demonstrations and hands-on application will expose the student to the expectations for commercial high-end 3D animation production. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

FINE 1812 - 3D Computer Graphics: Producing Animation (3 Credits)

An online course that explores the theory, practices and fundamentals of the producing 3D animation. Students will explore the foundations of the animation process Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Max hours: 3 Credits.
Grading Basis: Letter Grade

FINE 1820 - Animation Foundations (3 Credits)

A lecture/lab course that explores the foundations of animation. Primary focus is an introduction to foundational animation techniques and methods. Class lectures, demonstrations and hands-on application will expose the student the expectations for high-end animation production. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

FINE 1822 - 3D Computer Graphics: Introduction to Digital 3D (3 Credits)

An online course that explores the foundations of creating digital 3D content. Primary focus is an introduction to current 3D software. Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Max hours: 3 Credits.
Grading Basis: Letter Grade

FINE 1825 - Game Characters and Concept Art (3 Credits)

Students will learn to design characters and environments based on experimentations with color, proportion, texture, and expression that add depth and context to a story. Students will examine the history of character design and environment as applied to animation, children's books, and toys identifying how practical and cultural processes influence design. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

FINE 2000 - Art Direction for Games (3 Credits)

This project-centered studio-lecture course introduces the process of world building, game/interaction design from the standpoint of the game/virtual production art director. Each project addresses a milestone in art direction craftwork and demonstrates corresponding entry-level technical and conceptual skills and strategies. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FINE 2001 - Costumes and Props for Games (3 Credits)

This course will teach students how to create costumes, props, and set dressing for games. During this course students will explore various software tools and gaming engines to develop dynamic scenery, props, costumes, food, and makeup for game characters. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FINE 2003 - Game Design Fundamentals (3 Credits)

This course provides an in-depth exploration of analog and digital game design, emphasizing creativity, strategy, and game mechanics. Students will learn to conceptualize, prototype, and develop games. The course will focus on pen and paper design, including how to create, plan and implement game play design. Students will explore "fun" as a core component of game design and learn different lenses through which to see and assess game design. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FINE 2020 - Drawing II (3 Credits)

Students explore complex problems in the representation of space and learn observational drawing methods. Perceptual and constructed perspective is utilized to visualize three-dimensional form. Contemporary and historical artworks are studied with emphasis on the design of effective compositions. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 2030 - Life Drawing (3 Credits)

This course introduces the student to the human figure, addressing anatomy, movement and proportion. Discussion of historic and contemporary critical methods supplement studio practice. Exploring a variety of drawing media, students expand their drawing skills and relate the principles of composition and design to figure drawing. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 2105 - PRE-DIGD – Human-Centered Design, Innovation and Prototyping (3 Credits)

Introduces collaborative interdisciplinary design and innovation from a human perspective. Using the wide array of Inworks prototyping facilities, teams of students will design and implement human-oriented projects of increasing scale and complexity, in the process acquiring essential innovation and problem-solving skills. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2140 - Topics in Photography (3 Credits)

Repeatable. Term offered: fall, spring. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

FINE 2155 - Introduction to Digital Photography (3 Credits)

Students learn digital image manipulation, input and output strategies, and digital camera functions through assignments that emphasize conceptual development. Presentations, readings, projects and class discussions help students gain an understanding of the role of digital imaging in contemporary photography. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2200 - Painting I (3 Credits)

This course is an introduction to the language of painting. Students will learn to develop composition in layers, working from value to color and from direct observation to abstraction while exploring the range of visual possibilities that painting offers. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2405 - Introduction to Digital Design (3 Credits)

A project-based exploration of the design potentials of vector, raster and motion based digital media. Through project critiques, discussion and demonstration students will create projects that examine technology as an art medium and a design strategy. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2406 - Introduction to Digital Art & Imaging (3 Credits)

A project-based exploration of vector, raster, and motion-based digital media. Through project critiques, discussion and demonstration students will create projects explore the creative and expressive potential of digital media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2415 - Typography Studio (3 Credits)

A studio course that teaches principles of typography and organization that is the foundation of design and artistic practice. Through drawing, editing, and moving typographic forms, students will create projects that examine how typography is used to create meaning. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2420 - The Language of Design : What Makes Design Work (3 Credits)

Through lectures, readings and discussions students explore essential contemporary design movements and designers and their effects on design, visual culture and communication. In addition, students learn and practice critical thinking skills and have the opportunity to learn and practice design processes and problem solving techniques. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2425 - Essential Type-Design Applications (3 Credits)

A studio devoted to learning the essential design-software needed to complete basic graphic design projects. Through lectures and creative projects students will learn how to create, manipulate, and prepare various types of art files for print or digital publishing. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2428 - Introduction to Scientific Media Design (3 Credits)

Through lectures, writings, readings, and discussions students will be introduced to Scientific Media Design as a profession as well as the history and emerging directions in the field. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 2500 - Beginning Foundry (3 Credits)

Learn to produce metal castings. Bronze, aluminum and iron are cast into shapes by melting them into a liquid, pouring the metal into a mold, and removing the new solid form. Learn techniques understand equipment and explore form to create personal artwork using traditional and contemporary methods. Prereq: FINE-BFA APC: FINE 1500. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1500

Typically Offered: Fall.

FINE 2510 - Shaping Materials (3 Credits)

Creative investigation and design are applied towards conceptual ideas while students advance skills in 3D printing, wood, metal, plastics, fibers, vacuum forming. Advancing relationships with materials and tools is the premise for the exploration of individual visual vocabularies. Prereq: FINE-BFA APC: FINE 1500. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1500

Typically Offered: Fall.

FINE 2600 - Art History Survey I (3 Credits)

A lecture course studying Western and non-Western art from prehistory to medieval times, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students demonstrate knowledge of historical developments and an ability to analyze the arts. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities.

FINE 2610 - Art History Survey II (3 Credits)

A lecture course studying Western and non-Western art from the Renaissance to today, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students demonstrate knowledge of historical developments and an ability to analyze the arts. Prerequisite applicable only for FINE-BA majors: FINE 2600. No prerequisite for all others. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BA and FINE 2600

Additional Information: Denver Core Requirement, Humanities.

FINE 2812 - 3D Computer Graphics: 3D Surface Modeling (3 Credits)

An online course focused on mastery of creating surface models for digital 3D content. Students will develop skills/knowledge about the processes and techniques for building complex 3D objects. Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Prereq: FINE 1810 or 1812 and 1820 or 1822. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1810 or 1812 and 1820 or 1822

FINE 2822 - Digital Cinematography (3 Credits)

A lecture/lab course focuses on mastery of digital cinematography and visual storytelling. This course translates key production techniques: composition, camera craft, depth of field, camera blocking, and more, into the 3D world. This unique approach bridges the gap between traditional live-action cinematography and cutting-edge 3D animation, giving the students skills/knowledge about cinematic theory, practices and methods, as applied to digital 3D content creation. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FINE 2832 - 3D Computer Graphics: 3D Lighting and Rendering (3 Credits)

An online course focused on mastery of lighting the digital 3D environment. Students will develop skills/knowledge about the processes and techniques for creating realistic 3D lighting. Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Prereq: FINE 2812 and 2822. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2812 and 2822

FINE 2852 - 3D Computer Graphics: 3D Character Creation (3 Credits)

An online course focused on mastery of skills for creating digital 3D characters. Students will develop skills/knowledge to create digital characters. Note: Offered through Extended Studies. Must provide sufficiently powered computer. See www.cu3d.org Computer Graphics Certificate for details. Prereq: FINE 2812 and 2822. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2812 and 2822

FINE 2995 - Travel Study (1-15 Credits)

Created for students doing travel study in a foreign country. Students register through the Office of International Education. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

FINE 3010 - Illustration I: Image Making (3 Credits)

In a demonstration of expressive media, students develop their own point-of-view and style. Students work in a variety of media while learning historic and contemporary trends in illustration. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 3014 - The Graphic Novel Workshop (3 Credits)

This course introduces students to the visual language of the graphic novel through the creation of sequential imagery and page development. Students will delve into the pictorial methods found in both historical and contemporary comic books, Manga and alternative cartooning. Prereq: FINE 1100; Prereq: FINE-BFA ILS: FINE 2030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100; Prereq: FINE-BFA ILS: FINE 2030

FINE 3016 - Topics in Illustration (3 Credits)

Specialized topics are offered in Illustration technologies and techniques, theories, processes, and conceptual thinking. Course subjects are unique and change from semester to semester. Restriction: Restricted to students with sophomore standing or higher. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Restricted to students with sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

FINE 3030 - Media of Drawing (3 Credits)

Students apply traditional and mixed media skills, experimental printmaking, photography, and sculptural space to explore drawing. This course considers drawing as an active medium that can take on multiple dimensions where students create works that experiment with all aspects of the drawn mark and its translations. Prereq: FINE 1100 and FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100 and FINE 1500.

Typically Offered: Fall.

FINE 3040 - Color Theory: Studio and Screen-Based Practice (3 Credits)
This hybrid course delves into how color is essential to traditional studio-based and digital media artists through focusing on visual color and light perception, color mixing with pigment and digital applications, and the interaction of color. Prereq: FINE 1100, 1400. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: FINE 1100 and FINE 1400.

FINE 3050 - Figure Painting (3 Credits)
This course is an exploration of representing the human form in pictorial space. Students will gain a knowledge of figural color, proportion, scale and space; and will understand the conceptual and visual weight carried by expressive gesture and figural form. Prereq: FINE 2030 and FINE 2200. Prereq: FINE-BFA PND: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2600, FINE 2610. Prereq: PNDW-MIN: FINE 2200. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: FINE 2030 and FINE 2200 Prereq FINE-BFA PND: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2600, FINE 2610 Prereq PNDW-MIN: FINE 2200

FINE 3115 - Mixed Media and Photography (3 Credits)
Students create artwork using techniques that combine photography and mixed media. Topics include expanding the photograph to a 3-dimensional form, working with light-sensitive materials, and manipulating the print surface. Students develop creative concepts that are enhanced by cross-disciplinary methods. Prereq: FINE 2155. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: FINE 2155

FINE 3130 - Photography, Optics and Perspectives in Italy (3 Credits)
In this study abroad seminar course, students develop an understanding of their work within the context of the history of art and photography, particularly the artistic and scientific breakthroughs of the Renaissance, by exposing them to strategies and theories exemplified by the remarkably diverse and historically significant artwork that is available in collections in Florence, Italy. Repeatable. Max hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Typically Offered: Summer.

FINE 3135 - Historic Photographic Processes in Italy (3 Credits)
In this study abroad studio course, students investigate the relationship between critical concepts and historic photographic processes in the unique cultural and artistic setting of Florence, Italy. Students shoot on location using a variety of techniques that connect contemporary photography to the history of the medium. Repeatable. Max hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Typically Offered: Fall, Spring, Summer.

FINE 3156 - Photography Studio and Lighting (3 Credits)
Students learn digital lighting techniques that inform the conceptual and aesthetic qualities of their photographs. Topics covered include digital editing, studio practice, location photography, commercial business practices, shooting and lighting techniques, video for photographers, and professional presentation. Prereq: For FINE-BFA PHO, FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 2155. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600 Prereq: FINE 2155
Typically Offered: Fall, Spring, Summer.

FINE 3160 - Color and the Constructed Image (3 Credits)
Students explore analog color photography, concept development, and expressive uses of the medium. Topics include color film development, chromogenic printing, and color theory in assignments that emphasize staged and constructed imagery. Students learn about the creative impact of color on photographic representation. Prereq: For FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 1150. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600 Prereq: FINE 1150
Typically Offered: Fall, Spring, Summer.

FINE 3161 - The Silver Fine Print (3 Credits)
Students learn advanced black and white film development and darkroom practices while translating ideas into photographic form. Techniques include the zone system, medium and large format photography, split filter printing, toning, montage printing, and film/paper choices. Students gain insight into photographic artists, techniques, and movements. Prereq: FINE-BFA PHO FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 1150. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: FINE-BFA PHO FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 1150
Typically Offered: Fall, Spring, Summer.

FINE 3162 - The Digital Fine Print (3 Credits)
Students learn the fine art of digital printing as it relates to photographic practice. Assignments focus on conceptual development, advanced image manipulation, editing, workflow, color management, presentation techniques, and digital inkjet printing. Students gain insight into the role of digital imaging in contemporary culture. Prereq: FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600. Prereq: FINE 2155. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: FINE-BFA PHO: FINE 1100, FINE 1150, FINE 1400, FINE 2155, FINE 2600 Prereq: FINE 2155
Typically Offered: Fall.

FINE 3171 - Experimental Photography (3 Credits)
Students develop creative approaches to experimental photographic techniques. Processes incorporate alternative uses of light-sensitive materials, experimental darkroom practice, historic non-silver techniques, and digital/traditional cross-manipulation. Students gain insights into the relationship between concepts and non-traditional strategies for creating images. Spring only. Prereq: FINE-BFA PHO: FINE 3161. Prereq: FINE 1150. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: FINE-BFA PHO: FINE 3161. Prereq: FINE 1150.
Typically Offered: Spring.

FINE 3172 - Documentary Photography (3 Credits)
Students learn strategies for creating visual narratives through photographic projects that are informed by the documentary tradition. Assignments incorporate editing, sequencing, digital printing, video, text, and photographic books. Students use the camera to engage with the world around them while exploring social, political, and ethical issues within their communities. Spring only. Prereq: FINE-BFA PHO: FINE 3161, FINE 3162. Prereq: FINE 2155. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: FINE-BFA PHO: FINE 3162. Prereq: FINE 2155.
Typically Offered: Spring.

FINE 3200 - Intermediate Painting and Drawing (3 Credits)

In this course students develop a body of work that expands on previous course work, to make the transition from assignment-based work to an independent body of work, and to prepare for advanced level study in painting and drawing. Prereq: FINE 2200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2200

FINE 3240 - Abstract Painting and Drawing (3 Credits)

This course explores the methods of abstraction as applied to painting and drawing. Through developing a body of paintings and drawings, students will gain an understanding of complex formal structures in the development of their work. Prereq: FINE 1100, FINE 2200. Prereq FINE-BFA PND: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2200, FINE 2600, FINE 2610. Prereq PNDW-MIN: FINE 2200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100, FINE 2200 Prereq FINE-BFA PND: FINE 1100, FINE 1400, FINE 1500, FINE 2155, FINE 2200, FINE 2600, FINE 2610 Prereq PNDW-MIN: FINE 2200

FINE 3300 - Painting, Drawing and the Printed Image (3 Credits)

This course explores the role of technology in the history of painting/drawing alongside studio practice. Students produce works that explore personal symbolism through the combination of graphically printed and hand-produce marks while utilizing technology as a tool in painting/drawing. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 3320 - Topics in Digital Design (3 Credits)

Specialized topics are offered in new design technologies, theories, processes, and conceptual thinking. Course subjects are unique and change from semester to semester. Restriction: Restricted to students with sophomore standing or higher. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

FINE 3340 - Topics in Studio Art (3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

FINE 3342 - Topics in Studio Art (3 Credits)

Repeatable. Term offered: fall, spring. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

FINE 3343 - Topics in Studio Art (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FINE 3400 - Designing for Web and Mobile Apps (3 Credits)

In a design laboratory, students learn how to design for the web and mobile devices. Through lectures, writings, readings, discussion and critiques, students will learn about HTML, CSS, CMS, web hosting, analytics and the principles of UX/UI. Restriction: Restricted to sophomore standing or above. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

FINE 3404 - Typography II (3 Credits)

A design laboratory that teaches advanced principles of typography including multiple page documents and complex typographic systems for print and screen. Students will create complex design projects that explore the relationship between type and image. Prereq: FINE 2415. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2415

FINE 3405 - Introduction to Digital Video (3 Credits)

A studio course for non-design-majors that focuses on the basics of storytelling using digital video. Through class projects, screenings, discussions and readings, students explore the concepts of montage and strategies to develop compelling video for artistic and commercial purposes. Prereq: FINE-BFA APC: FINE 2155. Note: class may not be taken by Digital Design or Transmedia majors for credit toward degree. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA APC: FINE 2155

FINE 3410 - Illustration II: Digital Media (3 Credits)

Students consider the diverse perspectives of clients, viewers, and context while developing concept art and imaginative illustrations. Digital workflows, visual research, and an iterative process are emphasized.

Prereq: FINE 3010. Restriction: FINE-BFA ILS or FINE-BFA APC. Max

Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3010. Restriction: FINE-BFA ILS or FINE-BFA APC

FINE 3414 - Motion Design I (3 Credits)

A course devoted to understanding time based imagery that focuses on utilizing video and motion graphics as a creative communication tool. Students create projects that explore topics using video, animation, time and motion using a non-linear digital editing software. Restriction: Restricted to students with sophomore standing or higher OR FINE-BFA DIG or DIGD-MIN. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students with sophomore standing or higher OR FINE-BFA DIG or DIGD-MIN.

Typically Offered: Fall, Spring.

FINE 3415 - Design Studio I (3 Credits)

In a design laboratory students learn to turn ideas into visual solutions through the application of design principles. Through lectures, writings, readings, discussion and critiques of projects assigned students will build visual literacy in relation to digital design. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to FINE-BFA majors with sub-plan of DIG or DIGD minors within the College of Arts and Media.

FINE 3417 - Design Research (3 Credits)

This seminar class examines methods and processes used by designers to better understand the content they are asked to communicate while addressing increasingly complex social, technological and economic problems. Class topics will include: user interface and experience design, demographics, storyboarding, branding, and concept mapping. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to FINE-BFA majors with sub-plan of DIG or DIGD minors within the College of Arts and Media.

FINE 3420 - Printing Preparation and Process (3 Credits)

Through print shop visits, creating, manipulating, and preparing various types of art files for print or digital publishing, students will explore the history, various processes, and file preparation that are essential to producing final designed products. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3424 - Interactive Media (3 Credits)

A foundational interactive design workshop exploring how to convey message and deliver information. Through critiques of projects, discussion and research, students will learn principles of user interface design, aesthetics and structure including their potential cultural impact. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN. Prereq: FINE 3414 and FINE 3415. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3414 and FINE 3415. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN.

FINE 3434 - 3D Motion Design (3 Credits)

A course devoted to 3D as a medium for creating works of art. Through demonstration, discussion, readings and project based explorations, students will learn to navigate and create in the 3D digital environment.

Restrictions: Restricted to FINE-BFA DIG or DIGD MIN. Prereq: FINE 3444, 3464. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3444, 3464 Restrictions: Restricted to FINE-BFA DIG or DIGD MIN

Typically Offered: Fall.

FINE 3444 - Interactive Media II (3 Credits)

An intermediate interactive design workshop devoted to using interactive design to solve communication and information problems at scale.

Through investigations, readings and discussions students will create projects that explore user experience design, accessibility, and advanced research techniques. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 3424, 3454. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3424, 3454 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Fall.

FINE 3450 - Digital Painting (3 Credits)

Digital Painting is a studio designed for student exploration of artistic expression using digital tools for traditional painting and illustration techniques. Prereq: FINE 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1100

FINE 3454 - Motion Design II (3 Credits)

An intense course devoted to using time and motion as a medium for communicating ideas and information. Through creative investigations, readings and discussions students explore linkages between non-linear editing, animation and 3-dimensional animation as used in motion graphics. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 3414 and FINE 3415. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3414, 3415. Restriction: Restricted to FINE-BFA DIG.

Typically Offered: Spring.

FINE 3455 - Intro to 2D and Traditional Animation (3 Credits)

This course introduces the fundamental principles of 2D and traditional animation and is devoted to learning and understanding 2D and traditional animation techniques and tools. The course focuses on learning the basics of animation, including timing, spacing, and character movement. The course will also cover the history and evolution of animation, as well as the tools and techniques used to create 2D and traditional animation. This course will teach you how to create animations using storyboards, flip books, stop motion, onion skin, and other hand drawn animation techniques. Restriction: Restricted to undergraduate students with sophomore standing or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students with sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

FINE 3456 - Advanced 2D and Traditional Animation (3 Credits)

This course builds upon the principles and techniques learned in the introductory course and expands on them to provide a deeper understanding of 2D and traditional animation. Students will learn advanced animation techniques, including character acting, lip-syncing, and special effects. The course will also cover animation for different mediums, including television, film, and video games. Prereq: FINE 3455. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3455

Typically Offered: Fall, Spring, Summer.

FINE 3464 - Design Studio II (3 Credits)

In a studio environment students will develop advanced projects using animation, interactivity and motion graphics to create innovative solutions to design problems. Students will learn to apply design theory to practice through discussion, critiques and assigned projects. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 3424, 3454. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3424, 3454 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Spring.

FINE 3474 - Virtual Production and Experience (3 Credits)

A course focused on interactive and emerging applications for creating immersive experiences, with a focus on designing VR and in-person experiences using well-known applications, related technologies, methods, and fields including gaming, experience design, virtual painting, augmented reality, museum/interactive installation. Restriction: Sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

FINE 3500 - Installation Art (3 Credits)

Students learn to modify the way a particular space is experienced through material intervention in everyday public or private spaces. Material use incorporates found, fabricated and new media. Prereq: FINE 1100 and FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE 1100 and FINE 1500.

Typically Offered: Spring.

FINE 3505 - Environmental Art (3 Credits)

Students create site-specific work to exist in a certain place or describe a specific location. This involves temporary outdoor landscaping combined with sited sculptural elements and gallery exhibition. The formal, political, historical, public, ecological, geographical and social context of the urban/rural environment will be explored. Prereq: FINE-BFA APC: FINE 1500. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: FINE-BFA APC: FINE 1500

FINE 3510 - Form and Play (3 Credits)

3D printing, mold making, and soft sculpture using rubber, resins, alginate and plaster to cast and build in metal, resin, glass, synthetics, concrete, plastic, paper and biodegradable materials. Exploration of multiples, life size and small-scale forms with personal imagery. Prereq: FINE-BFA APC: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1500

Typically Offered: Fall.

FINE 3515 - Public Art (3 Credits)

Students connect with professional/visiting artists installing public art works in Denver. Public relations, installation techniques, curatorial and administration skills are developed. Students learn to establish, maintain and promote public art collections. Prereq FINE-BFA APC: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq FINE-BFA APC: FINE 1500

FINE 3520 - Sculpture: Contemporary Artists and Concepts (3 Credits)

Provides the art student (sculpture majors and non-majors) with a focused opportunity to look at contemporary sculpture, installation and performance art, and to examine the philosophical issues, processes, and methods, motivating practicing artists today. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3525 - Prototyping Sculpture (3 Credits)

This course will focus on contemporary professional practices and will cover topics such as project planning, an introduction to computer-aided design, fabrication, and digital outsourcing for the production of sculptural works. Prereq: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE 1500

Typically Offered: Fall.

FINE 3530 - Electronic Art (3 Credits)

Video, sound and projection in contemporary sculpture. Introduction to sensors and motors and data visualization. A bridge between the digital laboratory and the sculpture studio in the context of object making, gallery and networked media. Prereq FINE-BFA APC: FINE 1500, FINE 3405. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq FINE-BFA APC: FINE 1500, FINE 3405

Typically Offered: Spring.

FINE 3532 - Maquette Design (3 Credits)

A maquette is model created to visualize a larger sculpture or character for inclusion in illustration or animation development. Students work in wide ranging media and a variety of approaches to conceptualize personal 2D, 3D and 4D imagery. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FINE 3550 - Iron Casting (3 Credits)

Students learn traditional and innovative mold making techniques for casting iron. Casting techniques include working with found objects, lost wax, ceramic shell and sand molds. Furnace design and equipment fabrication are researched. Public performance is integral to the class. Prereq: FINE-BFA APC: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA APC: FINE 1500

FINE 3555 - Concepts in Sculpture (3 Credits)

This course addresses varying topics and trends in sculpture. Students produce work focused on issues in the professional field and develop their voice as an artist through thematic exploration. Course content rotates each semester to cover the dynamics of the field. Prereq: FINE-BFA APC: FINE 1500. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: FINE-BFA APC: FINE 1500

FINE 3556 - Concepts in Studio Art (3 Credits)

This course addresses topics and trends in studio art. Students produce work focused on issues in the professional field and develop their voice as an artist through thematic exploration. Course content adapts to cover the dynamics of the field. Prereq: FINE 1100, FINE 1500 and FINE 2200. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: FINE 1100, FINE 1500 and FINE 2200.

Typically Offered: Fall.

FINE 3557 - Concepts in Illustration (3 Credits)

This course addresses varying topics and trends in illustration. Students produce work exploring contemporary issues in the professional realm and develop their distinctive illustrative voice through multiple media. Course content rotates each semester to cover the dynamics of the field. Prereq: FINE 2010. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: FINE 2010

FINE 3630 - History of Photography (3 Credits)

Students examine the history of photography from its origins to the present. Emphasis is placed on photography as an artistic medium. Topics covered include important movements, photographers, and technical innovations, as well as photographer's broader role in visual culture. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3631 - Photography: Theory and Criticism (3 Credits)

Students investigate the historical texts of photographic criticism. Readings relate to photography as a fine art form, concentrating on 1970 to the present. Through discussions, readings and critical writing, students examine and appreciate the significance of photographic theory. Spring only. Prereq: FINE-BFA PHO: FINE 3630. Restriction: All other students must be at sophomore-, junior-, or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO: FINE 3630. Restriction: All other students must be at sophomore-, junior-, or senior-level standing.

FINE 3635 - Photography Now (3 Credits)

Students investigate trends in fine art photography from 1990 through the present. By examining current topics, styles, and techniques students gain insights into contemporary photographic practice and its relationship to the history and future of the medium. Prereq: FINE-BFA PHO: FINE 3630. Restriction: All other students must be at sophomore-, junior-, or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA PHO: FINE 3630. Restriction: All other students must be at sophomore-, junior-, or senior-level standing.

FINE 3636 - Through the Lens: Photography and Diversity (3 Credits)

Students examine social issues relating to non-dominant cultures, minority groups, biases, and privileges through the lens of photographic imagery. Lectures, discussions, and assignments offer insights into the ways that photography both reflects and impacts attitudes about cultural diversity in the United States. Restriction: Restricted to students with Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Additional Information: Denver Core Requirement, Cultural Diversity.

FINE 3640 - Topics in Art History I: Art Before Modernism (1-3 Credits)

Variable: Art History lecture course pertaining to art before Modernism. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 3644 - Topics in Art History II: Modern and Contemporary (1-3 Credits)

Variable: Art History lecture course pertaining to art since Modernism. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

FINE 3775 - Asian Art After 1850 (3 Credits)

A lecture-based course about developments in art and architecture of China, Japan, and Korea after 1850. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.

Restriction: All other students must be at junior- or senior-level standing.

Additional Information: Denver Core Requirement, International Perspectives.

FINE 3806 - Advanced Character Animation II (3 Credits)

This studio course is focused on building upon the solid animation foundation created in the DACD 3830 Advanced Character Animation class, and developing additional nuanced character animation techniques. Using composition and screen design principles we will strengthen the student's professional image-making and visual storytelling toolkit; with an emphasis on artistic excellence through applications of current 3D technologies. Live-action references will be used to bring believability to the coursework. Prereq: DACD 3830. Restriction: Restricted to DACD majors (FINE-BFA ANI). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 3830. Restriction: Restricted to DACD majors (FINE-BFA ANI).

Typically Offered: Spring.

FINE 3807 - Advanced Creature and Quadruped Animation (3 Credits)

This studio course is focused on the foundation creature animation skills practiced in most VFX houses today. Students will explore the process and techniques of keyframe and pose-to-pose animation. Considerations include character performance, behaviors, physical constraints, and motion through space with an emphasis on artistic excellence through applications of current 3D technologies. The focus being believability and nuance learned by careful study of live-action footage. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FINE 3808 - Live Action Compositing (3 Credits)

A studio course focused on the art and science of node-based digital compositing for live-action film and video. Students will develop skills/knowledge about the processes involved in combining, altering and enhancing live action footage using industry standard tools and techniques. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FINE 3814 - Digital 3D Methods: Motion Graphics for Animators (3 Credits)

An online course is an introduction to Motion Graphics, devoted to understanding time based imagery that focuses on utilizing video, typography and 3D content as a creative communication tool. Students will create projects that explore video, animation, time and motion. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3840 - Exploring Storyboarding- Foundational Techniques and Approaches (3 Credits)

Exploring Storyboarding will help you fall in love with making cinema. This course is a foundation to the art and craft of visual storytelling. This course teaches the language film, and techniques for illustrating action, composition, character, and drama.

Grading Basis: Letter Grade

FINE 3841 - Creating Visual Story - Narrative Techniques and Visual Design (3 Credits)

This course explores narrative methods used in animation, film, and connects film theory to visual storytelling. This course empowers you to engage with story process, and understand film theory as an interesting, integral, part of the visual storytelling creative process. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 3842 - Storyboarding for Cinema and Game Previsualization (3 Credits)

A lecture/lab course covering the foundations of the cinematic storyboarding process/techniques used for previsualization in the film, entertainment design and game industries. Students will develop skills/knowledge for creating storyboards study and understand film theory, storytelling, film language and grammar, and filmic composition. Prereq: FINE 3841 or Junior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3841 or Junior standing

FINE 3845 - DAC: Preproduction for Story (3 Credits)

A seminar course focused on the story development/preproduction phases for the DAC senior thesis short. The principle focus of the course will be story development, preproduction activities and organizing the production team and production pipeline for the thesis short. Prereq: DACD 2830 or DACD 2850, Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: DACD 2830 or DACD 2850, Acceptance into DAC.

FINE 3850 - DAC: Dynamic Simulation (3 Credits)

A lecture/lab course exploring the theory/techniques of dynamic and particle simulations for 3D content. Students explore how to develop effects (smoke, fire, steam, explosions) and dynamic materials (cloth), with an emphasis on artistic excellence through application of current 3D technologies. Restriction: Restricted to Junior standing or higher. Acceptance into DAC. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

FINE 3855 - Introduction to Unreal Engine (3 Credits)

Students will learn how to utilize and navigate Unreal Engine to produce interactive stories and immersive environments in a lecture-lab classroom. Students will build virtual worlds that use lighting, surface design, environments, and interactions to tell stories highlighting personal experiences and socially conscious narratives in a virtual production environment. Restriction: Restricted to Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Typically Offered: Fall.

FINE 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FINE 3995 - Travel Study (1-15 Credits)

Created for students doing travel study in a foreign country. Students register through the Office of International Education. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

FINE 4000 - The Business of Art (3 Credits)

Through research, discussion and projects, students learn marketing, copyright and business practices necessary for a career as an illustrator or artist. Students will develop professional materials, identify potential markets and implement a plan to promote their work. Restriction: FINE-BFA or FINE-BA and junior or senior class standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BFA DRW: FINE 3220, 3230, and 3310

FINE 4001 - Illustration III: Investigative Methods (3 Credits)

Students will learn to use writing, research methods, and market analysis to develop original and unique approaches to illustration. Projects will explore how media choices and production processes impact potential markets and responses from the public. Prereq: FINE 3410. Restriction: Restricted to FINE-BFA ILS majors within the College of Arts & Media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3410. Restriction: Restricted to FINE-BFA ILS majors within the College of Arts Media.

Typically Offered: Spring.

FINE 4002 - Illustration IV: Thesis Development (3 Credits)

Students will examine historical and contemporary trends in illustration while developing a research topic and writing a thesis paper. Students will produce new work and illicit responses from faculty and outside industry mentors as they begin to prepare a professional illustration portfolio.

Prereq: FINE 4001. Restriction: Restricted to FINE-BFA ILS majors within the College of Arts and Media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 4001. Restriction: FINE-BFA ILS

Typically Offered: Fall.

FINE 4003 - Illustration BFA Thesis (3 Credits)

Students will present their thesis project proposal, create original illustrations for their BFA Thesis exhibition and develop a professional illustration portfolio. Students will be expected to document their process and implement a promotional plan in order to build an audience for their work. Prereq: FINE 4002. Restriction: FINE-BFA ILS. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE 4002. Restriction: FINE-BFA ILS

Typically Offered: Spring.

FINE 4016 - Topics in Illustration (3 Credits)

Specialized topics are offered in Illustration technologies and techniques, theories, processes, and conceptual thinking. Course subjects are unique and change from semester to semester. Restriction: Restricted to students with junior level standing or higher. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Restricted to Junior standing or higher.

Typically Offered: Fall, Spring, Summer.

FINE 4020 - Anatomy for the Artist (3 Credits)

An intensive study of the human figure, focusing on its structure, movement and proportions. Skeletal and muscular systems are explored in depth using the classic texts of artistic anatomy to enhance students' drawings from observation. Prereq: FINE 2030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2030

FINE 4050 - Design in a Global Workplace (3 Credits)

Through intensive participatory workshops, study tours, and lectures this class examines the advantages of interdisciplinary community-based collaboration. This class also examines the complexities of cross discipline collaborations including multiple professional agendas, political and business establishments and the needs of the community.

Grading Basis: Letter Grade

Typically Offered: Summer.

FINE 4140 - Topics in Photography (1-3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FINE 4195 - Photography Portfolio I (3 Credits)

Students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. Students build expertise in the area of professional development in photography. Prereq: FINE-BFA PHO: FINE 3156, 3160, 3171, 3172, and 3630. Prereq: FINE 3161, 3162, 3171.

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: FINE-BFA PHO: FINE 3156, 3160, 3171, 3172, and 3630. Prereq: FINE 3161, 3162, 3171

Typically Offered: Fall.

FINE 4196 - Photography Portfolio II (3 Credits)

Students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. Students build expertise in the area of professional development in photography. Prereq: FINE 4195.

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: FINE 4195.

Typically Offered: Fall, Spring.

FINE 4215 - Interdisciplinary Studio (3 Credits)

This is the first level of advanced studies in art practices where students create a body of work that expresses a more complex individual vision. Students learn to develop their creative work with self-selected materials and processes in support of focused concepts. Prereq: FINE 1100, FINE 1500, and FINE 2200. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 1100, FINE 1500 and FINE 2200.

Typically Offered: Fall.

FINE 4340 - Topics in Studio Art (3 Credits)

Repeatable. Term offered: fall, spring, summer. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

FINE 4350 - Topics in Digital Design (3 Credits)

Specialized topics are offered in new design technologies, theories, processes and conceptual thinking. Course subjects are unique and changing semester to semester. Restriction: Restricted to students with junior standing or higher or with special permission. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Restricted to Junior standing or higher.

Typically Offered: Fall, Spring, Summer.

FINE 4400 - Design Studio III (3 Credits)

Set up as a collaborative studio, students learn to identify problems in the cultural and urban environment and design solutions that address those problems. Through discovery and research students will learn how design can be a catalyst for change. Restriction: Restricted to FINE-BFA DIG or DIGD-MIN or FINE-BFA 3D ANI or SCOM. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to FINE-BFA DIG or DIGD-MIN or FINE-BFA 3D ANI or SCOM.

Typically Offered: Fall.

FINE 4411 - Immersive Storytelling I (3 Credits)

This theory/research-oriented course teaches students in media and technical fields how to tell stories interactively using 360-degree video and computer-generated scenes that subjects experience through leading virtual reality headsets. We will touch on creating content for larger format immersive experiences. Restriction: Sophomore standing or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

FINE 4420 - Interactive Media III (3 Credits)

An advanced interactive design workshop where students will use current industry tools to explore a range of topics such as emerging technologies, design interactive prototypes, and experiential design. Through prototyping, discussion, readings, and critiques, students will create unique projects that explore contemporary and futurist topics. Prereq: FINE 3444. Restriction: Restricted to FINE-BFA DIG. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3444. Restriction: Restricted to FINE-BFA DIG.

FINE 4421 - Virtual Art Direction (3 Credits)

A course that examines the role of the art director in virtual production, including motion pictures, television and game design. This course focuses on the process of world building, and interaction design from the standpoint of the virtual production art director. Students will work on projects that give them hands on experience in virtual art direction for entertainment productions. Restriction: Restricted to Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Typically Offered: Fall.

FINE 4422 - E-Commerce Web Design (3 Credits)

This course provides an overview of the concepts and principles of e-commerce website design and selling your products online. The content is geared toward design students who would like to build web stores for clients or yourself. By the end of the course, students will be able to create and manage their own online store. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FINE 4425 - Motion III (3 Credits)

An intense workshop-laboratory devoted to advanced motion design techniques. Through creative investigation, the study of motion theory and hierarchy, compositing, filming techniques, broadcast parameters, aesthetics, typography and technical issues students will develop the in-depth knowledge necessary to excel as design professionals. Prereq: FINE 3454. Restriction: Restricted to FINE-BFA DIG. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3454. Restriction: Restricted to FINE-BFA DIG.

FINE 4434 - Virtual Landscapes (3 Credits)

In a studio environment students will explore place in relation to contemporary digital art practice. Through readings, lectures and production of projects assigned, students will create work that addresses the natural, urban and virtual environment. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-DIG: FINE 3414, 3415, 3424 or FINE-BFA SMD: FINE 3414, 3415, and 3424 or FINE-BFA TRM: FINE 3434 and 3438

FINE 4435 - Nudge: Behavioral Design 1 (3 Credits)

A studio course where students learn to develop 'nudge' solutions through the use of behavioral methods and theories. A 'nudge' is an attempt to influence people's choices and behavior in a predictable way without limiting their options or significantly changing incentives. Through field trips and observation, students will gain knowledge and skills in the field of behavioral design, including dual cognitive processing, choice architecture, behavioral mapping, and cognitive biases. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 4446 - Visualization & Infographics (3 Credits)

In our data and information-rich society, visual representations of data can be useful for making sense of available information and fostering understanding. This course engages students in critique existing work and encourages a thoughtful design process toward creation of information graphics and simple data/information visualizations.

Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 3015/1015 or FINE-BFA DIG and FINE 3444 or FINE-BFA SMD and FINE 2030, 3444, BIOL 2061 and BIOL 2081 or FINE-BFA ANI: FINE 1820, 2810, and 2830

Typically Offered: Fall.

FINE 4447 - Presenting Science (3 Credits)

Sophisticated graphical components can help a viewing audience understand complex scientific information more clearly. This project-based learning course engages students in creation of thoughtful graphic explanations of science for the purpose of enhancing scientific presentations and audience comprehension. Max hours: 3 Credits.

Grading Basis: Letter Grade

FINE 4448 - BioMedical 3D Animation (3 Credits)

3D Animation can be a powerful tool for telling stories rooted in science and medicine. This course provides opportunity to learn from existing animated works while honing skills in storyboarding, narrative and 3D animation with focus on biology, science, and health education. SMD students explore and research BFA thesis topics. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE-BFA SMD + FINE 3434, 4020 and 4446 Prereq: FINE-BFA DIG + FINE 3434 and 3444

FINE 4450 - Social Engagement by Design (3 Credits)

Through lectures, discussions and conducting onsite research in international settings, students will become familiar with professional practitioners' Perspectives and experiences in the field of socially engaged design while interrogating current practices, policies, and expectations that inform community engagement and by Design.

Grading Basis: Letter Grade

Typically Offered: Summer.

FINE 4480 - Design Thesis Research (3 Credits)

Through lectures, studio visits and research, students will engage the profession and examine the role of the artist as a designer. Projects will focus on resumes, interview techniques, portfolio and business practices to prepare students for entering the design profession. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 3464. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 3464 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Fall.

FINE 4495 - Design Thesis Project (3 Credits)

Through critique, research, and writing students will critically explore a thesis topic and develop professional quality visual solutions. Students will create work that expresses their personal artistic vision in relation to significant contemporary and historical artists and practice. Restriction: Restricted to FINE-BFA DIG. Prereq: FINE 4480. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 4480 Restriction: Restricted to FINE-BFA DIG

Typically Offered: Spring.

FINE 4505 - Sculptural Drawing (3 Credits)

Students apply traditional and mixed media drawing skills, photography and digital reproduction to depict the sculptural object in two and three-dimensional space. Students learn to construct small-scale models and develop sculpture proposals. Drawing as sculpture medium is explored.

FINE BFA APC: FINE 1500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: FINE-BFA APC: FINE 1500.

Typically Offered: Spring.

FINE 4515 - Advanced Art Practices (3 Credits)

Students in this course develop a body of work that expresses complex individual vision across media. Students learn to develop their artistic practice with self-directed processes in support of focused concepts in multiple studio areas. Prereq: FINE 1100, FINE 1500, FINE 2200. Coreq: FINE 4950 (BFA Art Practices students only). Restriction: Restricted to undergraduate students with sophomore standing or higher. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: FINE 1100, FINE 1500, FINE 2200. Coreq: FINE 4950 (BFA Art Practices students only). Restriction: Restricted to undergraduate students with sophomore standing or higher.

Typically Offered: Fall, Spring.

FINE 4522 - Interdisciplinary Art in Ireland (6 Credits)

The interdisciplinary course introduces students to the methods and concepts of contemporary site-specific art as critical theory through lecture and critique and as practice in the rural/urban landscape and studio along Ireland's County Clare coastline in the Burren region. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Additional Information: Global Education Study Abroad.

FINE 4523 - Topics in Art History I: Art Before Modernism (1-3 Credits)

Variable: Art History lecture course pertaining to art before Modernism. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4524 - Topics in Art History II: Modern and Contemporary Art (1-3 Credits)

Variable: Art History lecture course pertaining to art since Modernism.
Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.
Repeatable. Max hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4525 - Museum Studies (3 Credits)

A seminar about museums and art galleries as institutions for the preservation and exhibition of cultural materials. Through writing assignments, discussions, site visits, and analysis, students will demonstrate knowledge and critical thinking on the display of art.
Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.
Repeatable. Max hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4600 - History of Modern Design:Industrial Revolution-Present (3 Credits)

A lecture course involving the history of design from the Industrial Revolution to the present. The course will address the graphic design, typography, architecture, "Decorative arts", and new media from each period/major design movement in that time frame. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4610 - Pre-Columbian Art (3 Credits)

A lecture course on the art and architecture of Mesoamerica and the Andes before the Spanish conquest. Through visual analysis, vocabulary acquisition, discussion, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Cross-listed with FINE 5610. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4620 - American Art (3 Credits)

A lecture course on the art of the United States from colonial times to World War II. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4630 - History of Latin American Art:1520-1820 (3 Credits)

A lecture course studying Latin American art of 1520-1820, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the arts. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Cross-listed with FINE 5630. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4670 - Greek and Roman Art (3 Credits)

A lecture course on art and architecture from ancient Greece and Rome. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4680 - Art of the Medieval Multiverse (3 Credits)

A lecture course critically examining the art and architecture of an expansively defined medieval world across themes including geographies and peoples, materials, identities and medievalisms. Through close engagement with artworks and texts, students will gain new perspectives on the diversity of medieval art. Prereq: Visual Arts majors: FINE 2600 (Art History Survey I) and FINE 2610 (Art History Survey II) or permission of the instructor. All other students must be of junior or senior standing or have the permission of the instructor. Cross-listed with FINE 5680. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Visual Arts majors: FINE 2600 FINE 2610 or permission of the instructor; all other students must be of junior or senior standing or have the permission of the instructor.
Typically Offered: Fall, Spring.

FINE 4700 - Italian Renaissance Art (3 Credits)

A lecture course about developments in Italian Renaissance art and architecture. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4705 - Northern Renaissance Art (3 Credits)

A lecture course about developments in Northern Renaissance art and architecture. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only.
Restriction: All other students must be at junior- or senior-level standing.

FINE 4710 - Baroque and Rococo Art (3 Credits)

A lecture course on Italy, Spain, France, England, and the Netherlands during the seventeenth and eighteenth centuries. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4712 - Applied Digital Media (1-3 Credits)

This lab course provides students with the opportunity to execute practical applications in the use of digital 3D media for commercial and/or non-profit venue. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

FINE 4715 - Islamic Art and Architecture (3 Credits)

A lecture course on art and architecture of the Islamic world from the emergence of Islam in the 7th century to c. 1850. Students will engage in visual and contextual analyses, object-based research, and vocabulary acquisition. Prereq: Visual Arts Majors (FINE-BFA) - FINE 2610 with a C or higher. All other students must be of junior standing, or have permission of the instructor to enroll. FINE 2610 with a C or higher. All other students must be of junior standing or have permission of the instructor to enroll. Cross-listed with FINE 5715. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE BFA: FINE 2610 with a C or higher. All other students must be of junior standing or have permission of the instructor to enroll. Typically Offered: Fall.

FINE 4730 - Arts of Japan (3 Credits)

A lecture course on selected themes and periods in Japanese art. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4750 - Arts of China (3 Credits)

A lecture course on selected themes and periods in the arts and architecture of China. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4770 - Art of India and Southeast Asia (3 Credits)

A lecture course on selected themes and periods in the arts of India and Southeast Asia. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4790 - Methods in Art History (3 Credits)

A seminar about the various research methodologies in the history of art. Through reading, discussion, research, writing assignments, and presentations, students will demonstrate knowledge of art historiography. Prereq: FINE-BA: FINE 2600 and FINE 2610; ENGL 2070 or ENGL 3084 or ENGL 4180 or ENGL 4280. Prereq: FINE-BFA: FINE 2600 and FINE 2610. All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE-BA: FINE 2600 and FINE 2610; ENGL 2070 or ENGL 3084 or ENGL 4180 or ENGL 4280. Prereq: FINE-BFA: FINE 2600 and FINE 2610. All other students must be at junior- or senior-level standing.

Typically Offered: Fall.

FINE 4825 - Architectural Visualization (3 Credits)

A lecture/lab course covering the 3D visualization of architectural projects. Students will develop skills/ knowledge about the techniques for creating realistic 3D models, texturing, lighting, and presentation. Special emphasis will be placed creating realism in modeling, materials, lighting, and professional renderings. Prereq: FINE 1820. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 1820

FINE 4840 - Independent Study: FINE (1-3 Credits)

Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FINE 4950 - Studio BFA Thesis (3 Credits)

Studio: BFA Thesis involves the preparation, exhibition and critical faculty response to students' Creative work. Course work focuses on contemporary trends in the arts, the commerce of the arts and the professional practices necessary to an artist' Self-promotion. Coreq: FINE 4515 (BFA Art Practices students only). Max hours: 3 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Coreq: FINE 4515 (BFA Art Practices students only).

FINE 4951 - Bachelor of Art Thesis (3 Credits)

A seminar that emphasizes creative and original research through the composition of a substantial paper on a topic in art history. Through discussion, presentations, and individual readings, students will demonstrate skills in research, writing, and critical thinking. Restriction: Restricted to FINE-BA majors with a sub-plan of ART within the College of Arts and Media. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Restricted to FINE-BA majors with a sub-plan of ART within the College of Arts and Media.

Typically Offered: Fall, Spring.

FINE 4970 - Modernist Art (3 Credits)

A lecture course about developments in Modernist art and architecture from the late 18th century to 1960. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of the period's historical developments and an ability to analyze its art. Prereq: FINE 2600 and FINE 2610 for FINE-BA and FINE-BFA majors ONLY. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4980 - Gender in Contemporary Art (3 Credits)

This lecture course will address ways in which gender issues have affected the creation and study of visual arts since the early 20th century, with an emphasis on art and culture since World War II. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Typically Offered: Fall, Spring.

FINE 4981 - History of Tattoos and Body Art (3 Credits)

From prehistoric traditions to modern revivals, tattooing has proved to be an enduring feature of artistic practice. The seminar will analyze examples of tattoos from different cultures and contexts, so as to understand the variety in form and function. Prereq: FINE 2600: Art History Survey I and FINE 2610: Art History Survey II. Cross-listed with FINE 5981. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FINE 2600 and FINE 2610.

FINE 4990 - Contemporary Art: 1960 to Present (3 Credits)

A lecture course about developments in art and architecture since 1960. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Prereq: FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq FINE 2600 and FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing.

FINE 4993 - Topics Seminar in Art History I: Art before Modernism (3 Credits)

Variable: Art History seminar pertaining to art before Modernism. Prereq: FINE 2610 for FINE-BA and FINE-BFA majors ONLY. Restriction: All other students must be at junior- or senior-level standing. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq FINE-BFA/FINE-BA: FINE 2610

FINE 4994 - Topics Seminar in Art History II: Modern and Contemporary Art (3 Credits)

Variable: Art History seminar pertaining to Modern and contemporary art. Prereq: FINE 2610 for FINE-BA or FINE-BFA majors only. Restriction: All other students must be at junior- or senior-level standing. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq FINE-BFA/FINE-BA: FINE 2610

Typically Offered: Fall, Spring, Summer.

FINE 4995 - Travel Study (1-15 Credits)

Created for students doing travel study in a foreign country. Students register through the Office of International Education. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

French (FREN)

FREN 1000 - Introduction to Cultures of the French-Speaking World (3 Credits)

Introduces students to the many cultures of the French-speaking world. Taught in English for accessibility to students from different colleges at the University. The countries studied are: France, its overseas departments (Guadeloupe and Martinique) and territories (Tahiti); Quebec; Senegal; and other African countries. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH4.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH4, Arts Hum: Foreign Languages.

Typically Offered: Fall, Spring.

FREN 1001 - French Language I (4 Credits)

Introductory course in French language skills, in which basic grammatical structures are introduced, together with elementary vocabulary and cultural items that allow the student to carry on simple conversations in French. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. No previous study of French is required. No co-credit with FREN 1010. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FREN 1002 - French Language II (4 Credits)

Second semester of elementary French language skills continuation of French Language I (FREN 1001). More complex grammatical structures are introduced together with appropriate vocabulary and cultural and literary readings that allow students to carry on more complex conversations. Note: This course assumes that students have passed FREN 1001 or 1010 or equivalent, or have taken one year of high school French, or possess equivalent proficiency. A grade of C- or higher in the previous French course is recommended for success in this course. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. This course is not intended for native speakers. No co-credit with FREN 1020. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

FREN 2001 - Second-Year French (3 Credits)

FREN 2001 Third semester of French language skills- continuation of French Language II (FREN 1002). Further introduction to beginning & intermediate level grammatical structures with appropriate vocabulary and cultural & literary readings that allow students to understand oral & written French and to speak & write in French in everyday situations. Note: This course assumes that students have passed FREN 1002 or 1020 or equivalent, or have taken two years of high school French, or possess equivalent proficiency. A grade of C- or higher in the previous French course is recommended for success in this course. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. This course is not intended for native speakers. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 3010 - French Phonetics and Pronunciation (3 Credits)

Helps students acquire speech habits through knowledge of phonetics. Topics include the function of the speech organs, accurate production and recognition of sound, and the use of phonetic symbols. Note: Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: spring term of even years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FREN 3020 - Conversation through Film (3 Credits)

Conversation course focusing on the exploration of the diversity of French and Francophone cultures through film. Oral practice methodologies will include small group discussions, short oral presentations and debates. Note: Students with native or near-native-level proficiency will not be allowed to take FREN 3020. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: spring term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FREN 3050 - Advanced Grammar and Composition (3 Credits)

Rigorous review of grammar (including past and future tenses, conditional mood and nominal phrase), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, syntax and grammar. Note: May be taken before or after FREN 3060. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: fall term of even years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 3060 - Advanced French Language Skills (3 Credits)

Rigorous review of grammar (including subjunctive, interrogative, verbal phrase and passive voice), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, and grammar. Note: May be taken before or after FREN 3050. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: fall term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 3112 - Survey of French Literature I (3 Credits)

Introduces survey of the major literary trends and prominent writers of French literature from 842 A.D. to the end of the 18th century. Note: May be taken before or after FREN 3122. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: fall term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

FREN 3122 - Survey of French Literature II (3 Credits)

Introduces survey of the major literary trends (romanticism, realism and existentialism) and writers of the 19th and 20th centuries. Students become acquainted with prominent writers of the period such as Beauvoir, Chateaubriand, Hugo, Balzac, Flaubert, Proust, Camus and Sartre. Note: May be taken before or after FREN 3112. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: spring term of even years. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

FREN 3130 - Current Topics of the French-Speaking World (3 Credits)
 Combines discussion and writing on political, economic, and social conditions in contemporary France and the Francophone world. Articles from current French newspapers, news magazines, television broadcasts, and the World Wide Web are analyzed for a better understanding of modern French culture. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: fall term of even years. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Typically Offered: Fall.

FREN 3140 - Contemporary Francophone Cultures (3 Credits)
 Through the reading of short stories and cultural texts, engages students in the exploration of cultures of the Francophone world. Addresses political, economic and geographic status of each region as well as societal identity, immigration, the individual and cultural identity. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Term offered: spring term of odd years. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Typically Offered: Spring.

FREN 3200 - The Francophone World in the Post-Colonial Era (3 Credits)
 Focuses on the many Francophone regions of the world, including (but not limited to) France, North and West Africa, Southeast Asia, and the Caribbean, and surveys a wide span of subject matter as it pertains to the post-colonial situations in these regions. Taught in English. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Prereq: Sophomore standing or higher. Term offered: fall, spring. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Sophomore standing or higher.
 Additional Information: Denver Core Requirement, International Perspectives.
 Typically Offered: Fall, Spring.

FREN 3840 - Independent Study: FREN (1-3 Credits)
 Term offered: fall, spring, summer. Department consent required. Repeatable. Max hours: 6 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 6.
 Typically Offered: Fall, Spring, Summer.

FREN 3939 - Internship (1-3 Credits)
 Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Department consent required. Repeatable. Max hours: 9 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 9.
 Typically Offered: Fall, Spring, Summer.

FREN 3970 - Special Topics (3 Credits)
 Varying topics in French and Francophone language, literature and culture appropriate to the 3000 level, not otherwise covered by regular courses. Note: This course assumes that students have passed FREN 2004 or 2120 or equivalent, or have taken four years of high school French, or possess equivalent proficiency. Note: May be taken more than once, provided that the topic is different each time. Repeatable. Max Hours: 9 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 9.

FREN 3995 - Global Study Topics (3-6 Credits)
 This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Repeatable. Max Hours: 15 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 15.
 Additional Information: Global Education Study Abroad.
 Typically Offered: Summer.

FREN 4010 - Advanced Composition: Stylistics (3 Credits)
 Focuses on improvement of writing skills and development of the student's ability to compose logically and convincingly. The writing styles to be studied include: narration, description, portrait, persuasive essay and report. Note: This course assumes that students have passed FREN 3050 or 3060 or an equivalent course, plus one other 3000 level course in French. Max hours: 3 Credits.
 Grading Basis: Letter Grade

FREN 4082 - Introduction to Translation (3 Credits)
 Introduces the methodology and practice of written translation from English to French/French to English. Students will learn techniques on how to avoid word by word translation, faulty sentence structure and Anglicisms by focusing on grammar, syntax and vocabulary. Note: Students must demonstrate third-year competence and advanced writing skills in English. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Note: This course assumes that students have passed FREN 3050 or 3060 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5082. Max hours: 3 Credits.
 Grading Basis: Letter Grade

FREN 4200 - French Civilization Through the Nineteenth Century (3 Credits)
 Development of French culture and civilization from a historical perspective, beginning with the origins of France and continuing through the 19th century. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Note: May be taken before or after FREN 4210. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed two 3000 level courses in French. Term offered: spring term of even years. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Typically Offered: Spring.

FREN 4210 - French Civilization - Twentieth and Twenty-First Centuries (3 Credits)

(Continuation of FREN 4200) The development of French culture and civilization in a historical perspective from the beginning of the 20th century to the present. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Note: May be taken before or after FREN 4200. Note: This course assumes that students have passed two 3000 level courses in French. Term offered: fall term of odd years. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall.

FREN 4310 - Seventeenth Century Literature (3 Credits)

An in-depth study of the century considered to be the pinnacle of French theatre. Includes plays by Racine, Moliere and Corneille, as well as poetry by Lafontaine and Boileau. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4360 - Eighteenth Century Novel, Theater and Poetry (3 Credits)

Studies several novels and plays characteristic of the 18th century as well as some of the more famous poems. Includes Diderot, Rousseau, Voltaire, Marivaux and Laclos. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4430 - Nineteenth Century French Novel (3 Credits)

Development of the French novel during the 19th century. Includes such writers as Stendhal, Hugo, Balzac, George Sand, Flaubert, Maupassant and Zola. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5430. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall.

FREN 4480 - Twentieth Century French Novel (3 Credits)

Represents novels of the 20th century, a period of great innovation in the French novel. Authors generally treated are Camus, Giono, Ernaux and Duras. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5480. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

FREN 4490 - Twentieth Century French Theater (3 Credits)

Surveys the major movements in French literature of the 20th century as represented in the theater arts. Such authors as Jarry, Artaud, Apollinaire, Giraudoux, Sartre, and Beckett are discussed. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4510 - French Women Writers (3 Credits)

Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5510 and WGST 4511/5511. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

FREN 4520 - Voices of Haiti and the Caribbean (3 Credits)

This course explores the literary production of contemporary Haitian and Caribbean writers within varied cultural and gender contexts. It focuses on historical, societal and post-quake issues confronting both men and women writers of the French Caribbean. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 5520. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

FREN 4600 - History of the French Language (3 Credits)

Studies phonological, morphological, and syntactic changes in the language of Gaul from Latin to modern French. Note: This course assumes that students have passed FREN 3010 and FREN 3050 or 3060 or equivalent courses. Cross-listed with FREN 5600. Max hours: 3 Credits.

Grading Basis: Letter Grade

FREN 4690 - Methods of Teaching Modern Languages (3 Credits)

Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, LING 4690, SPAN 5690, SPAN 4690, FREN 5690, GRMN 4690, GRMN 5690, CHIN 4690, CHIN 5690. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall.

FREN 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, MLNG 4691, MLNG 5691, SPAN 5691, SPAN 4691, FREN 5691, GRMN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690

Typically Offered: Spring.

FREN 4840 - Independent Study: FREN (1-3 Credits)

Department consent required. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

FREN 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

FREN 4970 - Special Topics (3 Credits)

Varying topics in French and Francophone language, literature and culture appropriate to the 4000 level, not otherwise covered by regular courses. Note: This course assumes that students have passed two 3000 level courses in French. Note: May be taken more than once, provided that the topic is different each time. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

FREN 4995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

Geography (GEOG)

GEOG 1102 - World Regions Global Context (3 Credits)

Analyzes world regions and their global interconnectedness, including the dynamic and complex relationships between people and the world they inhabit. Demographic and cultural (political, economic, and historic) issues are examined as well as interactions between human societies and natural environments. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS2, Soc Behav Sci: Geography.

Typically Offered: Fall, Spring, Summer.

GEOG 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

GEOG 1202 - Introduction to Physical Geography (3 Credits)

The science that studies the processes, forms, and spatial or geographic structures of natural systems operating at or near the earth's surface, including weather, climate, and landform processes. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - No Lab; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

GEOG 1302 - Introduction to Human Geography (3 Credits)

Systematic introduction to basic concepts and approaches in human geographic analysis. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Fall, Spring.

GEOG 1602 - Urban Studies and Planning (3 Credits)

Surveys the process of urbanization, emphasizing the development of American cities, using Denver as an example. Topics covered include: evolution of metropolitan form/land use patterns, cultural landscape formation, city planning and architectural design, and urban social and policy issues. Note: This course is a prerequisite for GEOG 4680 Urban Sustainability: Perspectives and Practice AND GEOG 4640 Urban Geography Denver and the US. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS2, Soc Behav Sci: Geography.

Typically Offered: Fall, Spring.

GEOG 2080 - Introduction to Mapping and Map Analysis (3 Credits)

Studies major elements in the preparation of thematic maps, including sources of data collection and manipulation of data, and cartographic techniques for display of data. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

GEOG 2202 - Hazards to Disasters: Perception and Management (3 Credits)

Surveys those physical phenomena that often cause substantial damage when they occur in areas of human settlement. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS2.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-SS2, Soc Behav Sci: Geography.

Typically Offered: Fall, Spring, Summer.

GEOG 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: sophomore standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

GEOG 3100 - Geography of Colorado (3 Credits)

An analysis of the physical environment, history of settlement, and resource base of Colorado in relation to present economic patterns of the state. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3110 - Geography of North America (3 Credits)

Systematic study of the physical, cultural, economic, and political relationships that shape the landscape of the United States, Canada, Greenland, and the U.S.-Mexico Borderlands. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3120 - Geography of Europe (3 Credits)

An analysis of the physical environment, resource utilization, economic development and cooperation in Europe. A cultural and political geography which focuses on continuity and change in Eastern and Western Europe. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3130 - Central America and the Caribbean (3 Credits)

Surveys the physical environment and cultural development of Central America and the Caribbean Islands. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3140 - Geography of South America (3 Credits)

The physical environment, cultural development, and political instability within the area are analyzed. Influence of the landscape and climate, as well as Iberian cultural and land tenure patterns on historic settlement and modern growth are discussed. Problems associated with population, economics, politics, education, and geography are emphasized. Term offered: spring. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 3150 - Middle East (3 Credits)

Physical, cultural, and economic approach to the arid lands of the Middle East, including Arab land of the Sahara. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3160 - Geography of China (3 Credits)

Geographic survey of the physical, cultural, and economic features characterizing the geography of China. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3232 - Weather and Climate (3 Credits)

Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher. Cross-listed with ENVS 3232.

Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

GEOG 3240 - Colorado Climates (3 Credits)

Provides a broad overview of the various weather and climate patterns that are found within the state of Colorado. To accomplish this, the state of Colorado will be divided into regions which (hopefully) have a large degree of homogeneity in terms of weather and climate controls.

Note: Taught in a seminar style with students giving presentations and reports on their findings about a given region. Prereq: GEOG 3232 with a C- or higher, or instructor permission. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 3232 with a C- or higher.

Typically Offered: Spring.

GEOG 3380 - Anthropocene Futures (3 Credits)

We are living in the "Anthropocene"—an era of rapid environmental and societal changes, and of decline and loss resulting from accelerating human interactions with Earth systems. Warming climates, wildfires, floods, water and food insecurity, novel ecosystems, and even pandemics such as COVID-19, are phenomena of the Anthropocene. With a still growing human population and a finite planet, understanding and overcoming such challenges is more pressing than ever, if people are to co-evolve with Earth toward a sustainable future. This interdisciplinary seminar course tells the scientific story of humanity's intensifying interactions with the planet and explores possible future paths. Through presentations, readings and discussion, students will examine topics that include the origin and significance of Anthropocene in Earth's evolutionary history, the debates and evidences for a new geologic epoch, large-scale trajectories of environmental change, a safe operating space, and planting seeds for a "good" Anthropocene. In doing so, students will acquire skills and experiences in critical thinking and analytical reasoning to grapple with many uncertainties and tensions of the Anthropocene. Cross-listed with GEOG 5380, ENVS 3380, and ENVS 5380. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3401 - Geography of Food and Agriculture (3 Credits)

An overview of food systems and agriculture as they impact an increasingly urbanized planet. We will survey historical food production and preservation, food justice and insecurity, land-use and preservation, as well as local and global systems of distribution and consumption. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 3412 - Globalization and Regional Development (3 Credits)

Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Students will not earn credit for GEOG 3412 if they have already earned credit for GEOG 3411. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

GEOG 3430 - Geography of Tourism (3 Credits)

Geographic analysis of trends in recreation, travel, and tourism, and their economic, social, and environmental impacts. Examines growth and change in resorts and tourist destination areas. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: this course assumes that students have completed GEOG 1302 or GEOG 3411. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3501 - Geography of Health (3 Credits)

Offers a critical geographic perspective to human health issues, examining disease distributions, how changing relationships between people and their environments (natural, built, and social environments) influence health, and different approaches to the study of health in geography. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 3840 - Independent Study: GEOG (1-3 Credits)

Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOG 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

GEOG 3990 - Special Topics (3 Credits)

Investigation of current topics in geography such as analysis of issues (crime, public transportation), techniques (socioeconomic impact analysis), or areas of specialization (climatology). Note: specific necessary prior coursework varies with each topic; students are expected to have completed at least six hours in relevant social or physical science coursework. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

GEOG 4010 - Landscape Biogeochemistry (3 Credits)

A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological, and ecological timeframes, together with anthropogenic activities. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher, or instructor permission. Cross-listed with GEOL 4010/ENVS 5010. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Spring.

GEOG 4020 - Earth Environments and Human Impacts (3 Credits)

This course examines the multitude of impacts that humans have exerted on Earth's biomes and physical environment in a systems context, including vegetation, animals, soils, water, landforms and the atmosphere. It considers the ways in which climate changes and modifications in land cover have altered the environment, and how such changes will still accelerate in in coming decades. The course also explores emergent topics such as rewilding, novel and no analogue ecosystems, and ecosystem services. Additionally, it assesses the future impact of a growing human population on the planet within a context of the "anthropocene," an era dominated by human activity. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher. Cross-listed with ENVS 5020, GEOL 4020. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher.

Typically Offered: Fall.

GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing (3 Credits)

An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 2080 with a grade of C or better. Cross-listed with GEOG 5060. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 2080 with a grade of C or better

Typically Offered: Fall, Spring, Summer.

GEOG 4070 - Remote Sensing II: Advanced Remote Sensing (3 Credits)
Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4060/5060 with a grade of C or better, or permission of instructor. Cross-listed with GEOG 5070. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: GEOG 4060 or GEOG 5060 or GEOL 4060 or GEOL 5060, with a grade of C or better
Typically Offered: Spring.

GEOG 4080 - Introduction to GIS (3 Credits)
Introduces Geographic Information Systems (GIS), including justification, hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data. Includes hands-on use of a GIS workstation. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 2080 or LDAR 4432/5532 with a C or higher. Cross-listed with GEOG 5080. Term offered: fall, spring, summer. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: GEOG 2080 or LDAR 4432/5532 with a C or higher.
Typically Offered: Fall, Spring, Summer.

GEOG 4081 - Cartography (3 Credits)
Provides an introduction to the art and science of cartography (map making). Students will learn about design principles, tools and techniques of map production, culminating in the creation of a high-quality map through hands-on exercises. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or GEOG 5080 or CVEN 5381 with a grade of C or better. Cross-listed with GEOG 5081. Term offered: fall, spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better
Typically Offered: Fall, Spring.

GEOG 4085 - GIS Applications for the Urban Environment (3 Credits)
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The selection of specific topics is flexible, based on the interests of enrolled students. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or GEOG 5080 or CVEN 5381 with a grade of C or better, or permission of instructor. Cross-listed with GEOG 5085. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better
Typically Offered: Spring.

GEOG 4086 - FOSS4G Systems Integration (3 Credits)
Focuses on the integration of different FOSS4G (Free and Open Source Software for Geospatial Applications) software and technologies to create geospatial information systems that access data from different sources, storage structures, and formats to provide information to support decision making processes. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4091 or 5091, and GEOG 4092 or 5092 with a C or higher. Cross-listed with GEOG 5086. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: GEOG 4091 or 5091, and GEOG 4092 or 5092 with a C or higher.

GEOG 4090 - Environmental Modeling with Geographic Information Systems (3 Credits)
Applies raster spatial analysis and modeling to study processes and spatial relationships to support decision making in natural and built environments. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or GEOG 5080 or CVEN 5381 with a grade of C or better, or permission of instructor. Cross-listed with GEOG 5090. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better
Typically Offered: Fall.

GEOG 4091 - Open Source Software for Geospatial Applications (3 Credits)
Students will master the individual use and integration of a stack of the most powerful Free and Open Source Software for Geospatial Applications (FOSS4G) to analyze spatial problems and create Spatial Data Infrastructures in different technological, socio-economic and organizational settings. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better, or permission of the instructor. Cross-listed with GEOG 5091. Term offered: spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better
Typically Offered: Spring.

GEOG 4092 - GIS Programming and Automation (3 Credits)
Students will learn the most commonly used programming language to automate GIS geoprocessing tasks and workflows in the latest versions of the most popular GIS systems. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Cross-listed with GEOG 5092. Prereq: grade of B- or higher in GEOG 4080 or 5080 or similar course. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: grade of B- or higher in GEOG 4080 or 5080 or similar course
Typically Offered: Fall.

GEOG 4095 - Deploying GIS Functionality on the Web (3 Credits)

Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Prereq: GEOG 4080 or GEOG 5080 or CVEN 5381 with a grade of C or better, computer science background, or permission of instructor. Cross-listed with GEOG 5095. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4080 or 5080 or CVEN 5381 with a grade of C or better

Typically Offered: Spring.

GEOG 4220 - Environmental Impact Assessment (3 Credits)

The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Cross-listed with GEOG 5220, URPL 6549. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 4230 - Hazard Mitigation and Vulnerability Assessment (3 Credits)

Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Cross-listed with GEOG 5230. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4235 - GIS Applications in the Health Sciences (3 Credits)

Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Note: Students must complete this course with a B- or better to apply the credit to a GIS certificate or stacked credential. Note: this course assumes that students have completed GEOG 4080 or GEOG 5080 and/or have a background in public health. Cross-listed with GEOG 5235, HBSC 7235. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 4240 - Applied Geomorphology (3 Credits)

Uses hands-on tasks and field trips to investigate processes behind Earth's changing landforms in a variety of physical landscapes (aeolian, volcanic, coastal, fluvial, karst, glacial and periglacial) as related to rock decay, soils and climatic forcings. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher. Cross-listed with GEOL 4240, 5240 and GEOG 5240. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOG 4251 - Fluvial Geomorphology (3 Credits)

Examines interactions between Earth's surface and flowing water across spatial and temporal scales. Considers structure and function of the major components of fluvial systems, with particular attention to the variety of fluvial systems to hydrologic, geologic and anthropogenic controls. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher. GEOG 3232 is strongly recommended, though not required. Cross-listed with GEOG 5251, GEOL 4251 and GEOL 5251. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOG 4260 - Energy and Natural Resource Planning (3 Credits)

This course provides an overview of the issues associated with energy and natural resource planning. Topics include: energy policy; alternative energy development; water resources; extraction/mining; natural resource protection and regulation; resource management, policies, politics, and technologies. Cross-listed with URPL 6510. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 4265 - Sustainability in Resources Management (3 Credits)

Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information.

Prereq: ENVS 1044 and ENVS 1045 or ENVS 1042 with a C- or higher.

Cross-listed with GEOG 5265. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: ENVS 1044 and ENVS 1045 or ENVS 1042 with a C- or higher.

GEOG 4270 - Glacial Geomorphology (3 Credits)

Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Note: this course assumes that students have completed GEOG 1202 or GEOL 1072. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher. Cross-listed with GEOG 5270, GEOL 4270 and GEOL 5270. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOG 4280 - Environmental Hydrology (4 Credits)

Examination of hydrologic processes in relation to climate, soils, vegetation, land-use practices, and human interactions. Natural scientific perspectives emphasized; field and laboratory included. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher. Cross-listed with GEOL 4280 and ENVS 5280. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and

GEOG 3232 or ENVS 3232 with a C- or higher.

GEOG 4301 - Population, Culture, and Resources (3 Credits)

World populations are examined in the context of local, regional and global resources. Opposing viewpoints are studied, and students are required to complete a case study of self-selected country. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Students may not receive credit for this course if they have already received credit for GEOG 3301. Prereq: GEOG 1302 or ENVS 1342 with a C- or higher or instructor consent. Cross-listed with GEOG 5301. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 1302 or ENVS 1342 with a C- or higher or instructor consent.

Typically Offered: Fall, Spring.

GEOG 4305 - Water Quality and Resources (3 Credits)

Introduces water resources aimed at students with little or no background in the field. This is a broad course covering topics ranging from the physical aspects of water to water politics and international law. While the course is largely a lecture format, discussion of current issues is a significant part of the class. Cross-listed with ENVS 5305.

Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4335 - Climate Change & Society (3 Credits)

Our focus in this class is to critically examine and engage with important and ongoing environmental issues, with particular emphasis on those related to climate change. Together we will explore issues ranging from deforestation and sea level rise to climate justice, paying attention not only to their societal drivers and impacts, but to the dynamics of power and authority that affect how these issues come to be studied, represented, addressed, and experienced. The goal of this course is less to build topical expertise in any single domain than it is to broaden and deepen your capacity to engage with, participate in, and critically dissect climate-society relations. Cross-listed with GEOG 5335. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4350 - Environment and Society in the American Past (3 Credits)

Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 5350. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4420 - The Politics of Nature (3 Credits)

Examines how economic systems, scientific discovery, institutional policies, and environmental knowledge converge to shape the environment and mediate the way societies understand, manage and respond to environmental changes in both the United States and the developing world. Cross-listed with GEOG 5420. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4440 - Science, Policy and the Environment (3 Credits)

Examines the social, economic and political forces shaping scientific discovery and the development and enforcement of environmental policy. Students will examine perspectives on issues such as risk, expertise, uncertainty and objectivity that influence the problem-defining, standard-setting and policy-making process. Cross-listed with GEOG 5440. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4450 - Urban Food and Agriculture: Perspectives and Research (3 Credits)

Provides an overview of research & practices in urban farming. Critically reviews emergent models of local food production/distribution.

Compares new practices to traditional agribusiness. Assesses the prospects for solving sustainability problems within the modern agro-food system. Cross-listed with ENVS 5450. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4460 - Sustainable Urban Agriculture Field Study I (3 Credits)

Provides a field-based overview of urban farm planning & management.

Topics: range/land conservation, native/invasive species, water distribution, animal husbandry, government interaction, local markets, community relations, conservation easements and issues pertaining to urban farming. Note: this course assumes that students have completed GEOG 4450. Cross-listed with ENVS 5460. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4470 - Sustainable Urban Agriculture Field Study II (3 Credits)

Provides a field-based overview of current practices in local agricultural production. Emphasis will be placed on sustainable practices and their most efficient situation, Special consideration will be given to plausible solutions for food insecure communities both local and global. Note: this course assumes that students have completed GEOG 4450 and 4460.

Cross-listed with ENVS 5470. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4625 - Urban America (3 Credits)

This course will explore how Americans experienced their rapidly growing and changing cities during the past two hundred years. This course will cover a wide range of urban themes, including segregation and gentrification, self-invention and policing, ethnic gangs and race riots, skyscrapers and suburbia, and commercial sex and Hollywood.

The course will ultimately chart how a range of Americans - including immigrants, teenagers, laborers, women, LGBTQ+ people, and people of color - all fought for their own "right to the city". Cross-listed with HIST 4225, HIST 5225, WGST 4225, WGST 5225, GEOG 4625. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOG 4640 - Urban Geography: Denver and the U.S. (3 Credits)

Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 5640. Prereq: GEOG 1602 with a grade of C- or higher or permission from instructor. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 1602 with a grade of C- or higher.

Typically Offered: Spring.

GEOG 4680 - Urban Sustainability and Resiliency: Perspectives and Practice (3 Credits)

Society is facing an uncertain future. Our cities are growing, and anthropogenic climate change is upon us, and cities are a significant contributors towards this "wicked problem". We cannot turn back the clock, but our cities can become more resilient and, as a result, more sustainable. The course will focus on the techniques used to address resiliency and sustainability through planning, greening and eco-city, physical, ecological, social, environmental justices, and management approaches. Cross-listed with GEOG 5680. Prereq: ENVS 1342 or GEOG 1602 with a grade of C- or higher or permission from instructor. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1342 or GEOG 1602 with a grade of C- or higher.

Typically Offered: Fall.

GEOG 4710 - Disasters, Climate Change, and Health (3 Credits)

Provides a review of the impacts of disasters and climate change on human health, using a broad framework of preparedness, mitigation, response, recovery, and adaptation. Note: this course assumes that students have completed GEOG 3501. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4720 - Climate Change: Causes, Impacts and Solutions (3 Credits)

Examines science behind past, present & future climate change & environmental, social & political implications & solutions. Explores recent scientific research, syntheses & mainstream literature advancing knowledge about causes & consequences of natural & anthropogenic climate change. Prereq: GEOG 3232 with a C- or higher. Cross-listed with GEOG 5720/ ENVS 4720/ ENVS 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 3232 with a C- or higher.

GEOG 4731 - Mountain Biogeography (4 Credits)

This hands-on research course will focus on the current and past distribution of plants and changes in disturbance regimes in the mountains using environmental proxy data preserved in lake sediment cores. A field trip will occur early in the semester. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher. Cross-listed with ENVS 5731. Term offered: fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202 with a C- or higher.

Typically Offered: Fall.

GEOG 4740 - Soil Science and Geography (3 Credits)

Reviews chemical and physical properties of soils, soil development, and geographic distributions of soil types in the context of the role that soils play in natural and human-altered ecosystems. Cross-listed with GEOG 5740, ENVS 4740, ENVS 5740. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GEOG 4750 - Beeography: Geography of Bees (4 Credits)

Beeography is an introduction to the bee world and the amazing diversity in Colorado and beyond. The course will examine the distribution of bees and the pressures they face in different environmental and cultural contexts. It will examine different methods to support and increase bee populations and pollination services, especially in populated environments, including backyard beekeeping of honeybee and native bee populations. Field and lab activities will include beekeeping, native bee collection and identification, bee dissections, pollen processing and identification, and trips to area bee museum collections and apiaries.

Prereq: ENVS 1044 and 1045 or BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) or BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher. Cross-listed with GEOG 5750, ENVS 4750, and ENVS 5750. Term offered: summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or BIOL 2010 (or 2061/2097/2030) and BIOL 2011 (or 2081/2098/2031) or BIOL 2020 (or 2051/2095/2040) and BIOL 2021 (or 2071/2096/2041) with a C- or higher.

Typically Offered: Summer.

GEOG 4757 - Urban Climate and Air Quality (3 Credits)

Explores how people alter climates on micro- to regional scales, and how this in turn affects human health and society. Focusses on recent scientific research, physical processes within cities, and the role of urbanization in global climate change. Cross-listed with GEOG 4757, GEOG 5757, ENVS 4757, and ENVS 5757. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GEOG 4840 - Independent Study: GEOG (1-3 Credits)

Independent research primarily for undergraduate majors. Prereq: Permission of department. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

GEOG 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOG 4950 - Honors Thesis (3 Credits)

A capstone course designed to promote critical thinking, research methodology, and writing/oral presentation skills. Students design and develop a research project under the supervision of a faculty advisor. Each student gives an oral presentation or defense of his or her thesis at the end of the semester in which they enroll. Prereq: Junior standing or higher. Department consent required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Additional Information: Report as Full Time.

GEOG 4990 - Special Topics (1-6 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

GEOG 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with ENVS 4995, ENVS 5995, and GEOG 5995. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Additional Information: Global Education Study Abroad.

Geology (GEOL)

GEOL 1073 - Physical Geology: Surface Processes (3 Credits)

This survey course develops a basic understanding of surface processes and landforms in geology. It includes one all-day field trip. Students must also take the accompanying laboratory GEOL 1074. No co-credit with GEOL 1072. Prereq or Coreq: GEOL 1074. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Co-req: GEOL 1074

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

GEOL 1074 - Physical Geology: Surface Processes Laboratory (1 Credit)

Introduces the basic scientific approach through investigations, observations, and experiments in surface processes and landforms in geology. Students must also take the accompanying lecture GEOL 1073. Prereq or Coreq: GEOL 1073. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or co-req: GEOL 1073

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

GEOL 1083 - Physical Geology: Internal Processes (3 Credits)

This survey course develops a basic understanding of physical geology emphasizing the earth's interior, covering internal processes and properties, with plate tectonics as the underlying theme. Includes one all-day field trip. Students must also take the accompanying laboratory GEOL 1084. No co-credit with GEOL 1082. Prereq or Coreq: GEOL 1084. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or co-req: GEOL 1084

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

GEOL 1084 - Physical Geology: Internal Processes Laboratory (1 Credit)

Introduces the basic scientific approach through investigations, observations, and experiments in internal geologic processes and properties of the earth's interior with plate tectonics as the underlying theme. Prereq or Coreq: GEOL 1083. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq or co-req: GEOL 1083

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

GEOL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

GEOL 1202 - Introduction to Oceanography (3 Credits)

Surveys modern scientific knowledge of the world's oceans. Intended for non-science students, the course offers a non-quantitative introduction to the major facts and principles of physical, chemical, biological, and geological oceanography. The impact of natural and anthropic events on the marine environment are included. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOL 1840 - Independent Study: GEOL (1-3 Credits)

Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

GEOL 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: 15 hours of 2.75 GPA. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

GEOL 3032 - Geology of Colorado (3 Credits)

Introductory course focused on the geology of Colorado. The course is divided into two parts: the first half covers general principles of geology, and the second is devoted to the observation of rock types, structures, and geologic relationships in the field. Discussion of plate tectonics, rock formation, construction and interpretation of geologic maps, the geologic time scale, geologic provinces of Colorado, evolution of major landforms, formation and development of mineral resources of Colorado, and current topics in environmental geology. Max hours: 3 Credits.

Grading Basis: Letter Grade

GEOL 3840 - Independent Study: GEOL (1-3 Credits)

Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOL 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Department consent required. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

GEOL 4010 - Landscape Biogeochemistry (3 Credits)

A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological, and ecological timeframes, together with anthropogenic activities. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher, or instructor permission. Cross-listed with GEOG 4010 and ENVS 5010. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Spring.

GEOL 4020 - Earth Environments and Human Impacts (3 Credits)

This course examines the multitude of impacts that humans have exerted on Earth's biomes and physical environment in a systems context, including vegetation, animals, soils, water, landforms and the atmosphere. It considers the ways in which climate changes and modifications in land cover have altered the environment, and how such changes will still accelerate in the coming decades. The course also explores emergent topics such as rewilding, novel and non-analogous ecosystems, and ecosystem services. Additionally, it assesses the future impact of a growing human population on the planet within a context of the "anthropocene," an era dominated by human activity. Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher. Cross-listed with ENVS 5020, GEOG 4020. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENVS 1044 and 1045 or ENVS 1042 or GEOG 1202, and GEOG 3232 or ENVS 3232 with a C- or higher.

Typically Offered: Fall.

GEOL 4240 - Applied Geomorphology (3 Credits)

Uses hands-on tasks and field trips to investigate processes behind Earth's changing landforms in a variety of physical landscapes (aeolian, volcanic, coastal, fluvial, karst, glacial and periglacial) as related to rock decay, soils and climatic forcings. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher. Cross-listed with GEOG 4240, 5240 and GEOL 5240. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOL 4251 - Fluvial Geomorphology (3 Credits)

Examines interactions between Earth's surface and flowing water across spatial and temporal scales. Considers structure and function of the major components of fluvial systems, with particular attention to the variety of fluvial systems to hydrologic, geologic and anthropogenic controls. Cross-listed with GEOG 4251, GEOG 5251 and GEOL 5251. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

GEOG 3232 is strongly recommended, though not required. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOL 4270 - Glacial Geomorphology (3 Credits)

Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOL 1073 and 1074 or GEOL 1072 with a C- or better. Cross-listed with GEOG 4270, GEOG 5270 and GEOL 5270. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 with a C- or higher.

Typically Offered: Fall.

GEOL 4840 - Independent Study: GEOL (1-3 Credits)

Department consent required. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

GEOL 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

GEOL 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 and GEOL 1083 and GEOL 1084 or GEOL 1082 with a C or higher and instructor permission. Cross-listed with GEOL 5995. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: GEOL 1073 and GEOL 1074 or GEOL 1072 and GEOL 1083 and GEOL 1084 or GEOL 1082 with a C or higher and instructor permission.

German (GRMN)

GRMN 1000 - Germany and the Germans (3 Credits)

Introduces the ways in which the various aspects of German culture help define German life and national identity. By examining art, music and media, primarily of the 20th century, students explore what it means to be German. Note: Taught in English. Term offered: spring, fall. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH4.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-AH4, Arts Hum:

Foreign Languages.

Typically Offered: Fall, Spring.

GRMN 1010 - Beginning German I (5 Credits)

Introduces basic grammar, sentence structure and speech patterns. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Term offered: fall. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

GRMN 1020 - Beginning German II (5 Credits)

(Continuation of GRMN 1010.) Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed GRMN 1010 or equivalent, or have taken one year of high school German, or possess equivalent proficiency. A grade of C- or higher in GRMN 1010 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

GRMN 3200 - Current German Society and Culture (3 Credits)
 Provides students with a detailed overview of the systems in modern, united Germany such as social, educational, and political. Examines how Germany sees itself as a vital member of the EU. Exposes students to rudimentary use of the German language. Prereq: Sophomore standing. Term offered: spring, fall. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Sophomore standing or higher.
 Additional Information: Denver Core Requirement, International Perspectives.
 Typically Offered: Fall, Spring.

GRMN 3995 - Global Study Topics (1-15 Credits)
 This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: spring, summer, fall. Repeatable. Max Hours: 15 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 15.
 Typically Offered: Fall, Spring, Summer.

GRMN 4690 - Methods of Teaching Modern Languages (3 Credits)
 Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, LING 4690, SPAN 5690, FREN 4690, FREN 5690, SPAN 4690, GRMN 5690, CHIN 4690, CHIN 5690. Term offered: fall. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Typically Offered: Fall.

GRMN 4691 - Methods of Teaching Modern Languages II (3 Credits)
 A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, MLNG 4691, MLNG 5691, SPAN 5691, FREN 4691, FREN 5691, SPAN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690
 Typically Offered: Spring.

Greek (GREK)

GREK 1010 - Greek I: Biblical (5 Credits)
 Intended for students of languages, religious studies, and philosophy. Introduces the forms and syntax of Greek so that in the 13th week students will be able to read about 85% of the New Testament in the original language. Cross-listed with RLST 1010. Max hours: 5 Credits.
 Grading Basis: Letter Grade

GREK 1020 - Greek II: Biblical (5 Credits)
 A continuation of 1st-semester Biblical and Classical Greek. Covers the remaining forms and syntax of the textbook, with an emphasis on sight-reading passages from the New Testament. At the end of the course we will read, translate and study short fragments and lines written by some Pre-Socratic philosophers such as Thales, Anaxagoras, Anaximander, Heraclitus, and Parmenides. Prereq: GREK 1010. Max hours: 5 Credits.
 Grading Basis: Letter Grade
 Prereq: GREK 1010.

GREK 2110 - Greek III: Classical (3 Credits)
 Introduction to classical Greek, followed by reading of Plato's "Apology" with selections from "Pre-Socratic philosophers" (e.g. Xenophanes of Colophon, Zeno of Elea, Pythagoras) and Aristotle. Prereq: GREK 1020. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Prereq: GREK 1020.

GREK 2840 - Independent Study - GREK (1-3 Credits)
 Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Max hours: 3 Credits.
 Grading Basis: Letter Grade

GREK 4840 - Independent Study - GREK (1-3 Credits)
 Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max hours: 12 Credits.
 Grading Basis: Letter Grade
 Repeatable. Max Credits: 12.

Health Humanities (HEHM)

HEHM 3100 - Foundations of Health Humanities (3 Credits)
 This course introduces students to the rich field of the health humanities. It examines the ways a variety of disciplines analyze the relationships among health, medicine, and society, and what the health humanities can teach us about biomedical theory and health care training and practice. It explores how a variety of media represent health, illness, suffering, disability and death. Focusing on people, clients, health-care professionals, and communities, students will develop historical, literary, philosophical, and rhetorical understandings of medicine and health, paying particular attention to power relationships and categories of difference. Restriction: Restricted to undergraduate students with sophomore standing or higher. Term offered: fall. Max hours: 3 Credits.
 Grading Basis: Letter Grade
 Restriction: Restricted to undergraduate students with sophomore standing or higher.
 Typically Offered: Fall.

HEHM 3570 - Death & Dying: Social & Medical Perspectives (3 Credits)
Focusing on death, dying and bereavement using medical and social perspectives, this course explores how illness, prolonged dying and sudden death impact care providers, families and communities. Discussion, film, readings and music address the connection of social and medical issues. Cross-listed with SOCY 3570. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade

HEHM 3840 - Independent Study (1-6 Credits)
Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.
Typically Offered: Fall, Spring, Summer.

HEHM 4840 - Independent Study (1-6 Credits)
Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of instructor. Repeatable. Max Hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

HEHM 4880 - Directed Research (1-6 Credits)
Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

History (HIST)

HIST 1016 - World History to 1500 (3 Credits)
Surveys the rise of civilizations and their interactions from prehistoric to modern times. The emphasis is on the understanding of the various styles or characteristics of civilizations within a global context. Term offered: fall, spring. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

HIST 1026 - World History Since 1500 (3 Credits)
Surveys the interactions of the world's civilizations in modern times. The emphasis is on understanding the concept of modernization within a global context. Term offered: fall, spring. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

HIST 1111 - First Year Seminar (3 Credits)
Restriction: Restricted to Freshman level students. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Restricted to Freshman level students

HIST 1211 - Western Civilization I (3 Credits)
Introduces ancient Mediterranean civilization and the birth of Europe. Covers topics on economics and society, political organization, intellectual history, and art from 3000 B.C. to A.D. 1500. Term offered: fall, spring. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

HIST 1212 - Western Civilization II (3 Credits)
Introduces modern European civilization and its spread over the world. Covers topics on economics and society, political organization, intellectual history, and art from A.D. 1500 to the 20th century. Term offered: fall, spring. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

HIST 1361 - U.S. History to 1876 (3 Credits)
Provides an introduction to the major forces, events and individuals that shaped the historical development of American society, beginning with the European settlement of America and concluding with the Civil War, reconstruction and the early growth of an industrial order. Term offered: fall, spring. Max Hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-HI1.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.
Typically Offered: Fall, Spring.

HIST 1362 - U.S. History Since 1876 (3 Credits)
Provides an introduction to the major forces, events, and individuals that shaped the historical development of American society from the Civil War to the present. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-HI1.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.
Typically Offered: Fall, Spring, Summer.

HIST 1381 - The History of Now (3 Credits)
Examines several topics of profound interest to historians world wide: nature and technology, secular and religious faiths, and concepts of political union. The experience of the U.S. as it relates to the experiences of other periods and cultures. Term offered: fall, spring. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-HI1.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.
Typically Offered: Fall, Spring.

HIST 1400 - Controversies in History (3 Credits)
Examines a variety of cases where historians have significant disagreement or diverse interpretations regarding "what happened" and "why" to come to an understanding of what historians do and how they do it. Term offered: fall, spring, summer. Max hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-HI1, History.
Typically Offered: Fall, Spring, Summer.

HIST 2001 - The Uses and Misuses of History (3 Credits)

This course examines the uses and misuses of historical interpretation in the public sphere, focusing on how history has been employed over time to persuade or influence public debates. Term offered: spring, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have completed 15 hours of HIST courses with a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Term offered: spring, summer, fall. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: 15 hours of HIST courses with a 2.75 GPA in HIST courses

Typically Offered: Fall, Spring, Summer.

HIST 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"-our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with ETST 3003, INTS 3003, PHIL 3003, RLST 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 3031 - Theory and Practice of History: An Introduction to the Major (3 Credits)

Introduces history majors to the discipline at the outset of their course work. Covers historiographical trends and methodologies, and familiarizes students with the various types of research and writing they are likely to encounter in their classes. Note: This course should be taken as early as possible, and must be taken before HIST 4839. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 3070 - Studies in Film History (3 Credits)

Examines the history of cinema from a variety of national perspectives. Topics rotate and may include Silent Era Cinema, Classical Hollywood Film, New Hollywood, French New Wave, German Expressionism, etc. Note: May be taken more than once when topics vary. Cross-listed with ENGL 3070. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

HIST 3121 - The World at War, 1914-1945 (3 Credits)

Examines World Wars I and II as episodes in a protracted conflict among the nations of the capitalist West, the emerging states of Asia and the colonial world, and the USSR. Studies the causes and consequences of the wars. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

HIST 3230 - The American Presidency (3 Credits)

Explores the presidency in U.S. History. Topics include: ideological and constitutional foundations; expansion of presidential power in domestic politics and international relations; evolution of presidential campaigns; and dimensions of presidential leadership in politics, society and culture. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3231 - Famous U.S. Trials (3 Credits)

Interested in Law School? . . . This introduction to the history of the U.S. trial court system contextualizes significant trials in historic and cultural moments. The course explores the roles of legal communication and mass communication in contemporary representations of trials. Cross-listed with COMM 3231. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3232 - The American Colonies to 1750 (3 Credits)

The maturation of the American colonies within the British Empire, the development of commercial and intellectual centers, the creation of uniquely American politics, and the unfolding of critical differences between North and South. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3235 - U.S. Labor History, 1800 to the Present (3 Credits)

Explores the experiences, contributions, and struggles of working-class Americans from the Civil War to the present. Areas of focus include pre-industrial and post-industrial labor, slavery, agricultural labor, gender and working class culture outside of the work place. Particular attention is paid to immigration, ethnicity, race and gender, as they relate to the history of America's laboring class. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3260 - Introduction to Digital Studies (3 Credits)

Develop marketable skills such as building websites, making interactive maps, recording podcasts, and analyzing data while also studying the cultural and ethical dimensions of these technologies. Cross-listed with HIST 5260, COMM 3081, and COMM 5081. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3297 - Social History of Asian Americans (3 Credits)

Introductory-level course surveys the social history of Asian American groups from the mid-19th century to the present. We will examine immigration patterns, the development of communities, social and economic problems, and anti-Asian movements and activities. Cross-listed with ETST 3297. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3343 - Women & Gender in US History (3 Credits)

This course will explore women and gender as drivers of US history. From politics to popular culture, jobs to sexual empowerment, civil rights to economic restructuring, we will use gender as a lens to re-envision familiar stories about American history. Cross-listed with WGST 3343, WGST 5343, and HIST 5343. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 3345 - Immigration and Ethnicity in American History (3 Credits)

Explores the personal and collective experience of immigrants to America. Discusses problems of assimilation, urban and rural experiences, and implications for politics, the economy and social attitudes. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

HIST 3347 - African-American History, 1619-Present (3 Credits)

Explores the African-American experience, including definitions of citizenship, strategies for protest and resistance, models of leadership, religious life and cultural expression, divisions of class, color and gender. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3348 - The African-American Protest Tradition, 1865 - Present (3 Credits)

Examines a series of influential African-American activists and considers such themes as intra-racial divisions, Pan-Africanism, black nationalism, the use of the courts and legal efforts, and black conservatism. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3349 - Social Movements in 20th Century America (3 Credits)

By surveying the major American social movements of the twentieth century, this course will explore how Americans have created categories of race, ethnicity, culture, and sexuality and how elite and marginalized citizens have deployed these categories in politics. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

HIST 3350 - Colonial Latin America (3 Credits)

Surveys the creation of colonial empires by Spain and Portugal, 1492-1808. Topics include Native American responses to European incursions, women in colonial society, and slavery in Latin America. Cross-listed with ETST 3350 and HIST 5350. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3360 - Denver History (3 Credits)

Introduces the social, political, economic, and cultural life of this mile high metropolis. Founded in the 1858 gold rush, Denver has grown into a five-county metropolis of over two million. Explore this boom and bust history in lectures, slide shows and walking tours. This course offers students a chance to do their own primary source research project, as well as exams and book reports. Note: Open to all students. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3364 - Native Americans and Spaniards in North America (3 Credits)

Examines the interactions between Native Americans and Spanish invaders beginning in the 16th century. The course explores the impact of colonialism in what is today the American Southwest. Focuses on Native American adaptation and resistance to the European presence. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3365 - Aztlan in the United States: Chicano History from 1821 (3 Credits)

Explores the impact of U.S. rule on the Southwest, paying particular attention to legal, economic, and social changes that created new political and cultural identities in the Southwest. Cross-listed with ETST 3365. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3366 - Nature and Power in American History (3 Credits)

This course explores the relationships between human societies and environmental change in the history of North America. Cross-listed with HIST 5366. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3396 - History of the American Indian (3 Credits)

Indigenous nations in North America comprise hundreds of diverse cultures. This course examines U.S. Indian policy and how indigenous nations responded; how they creatively adapted, and resisted cultural change; and how they continue to persist culturally, socially, and politically. Cross-listed with ETST 3396. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3451 - Introduction to African History (3 Credits)

By looking at specific examples of the cultural, political, and economic experience of African society, this course attempts to introduce and make comprehensive the diverse history of the people of Africa. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3460 - Modern Latin American History (3 Credits)

Surveys the historical development of the modern Latin American countries, beginning with the independence movements of the early 19th century. Emphasizes the 20th century issues and problems that have characterized these countries and affected their relations with the United States. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5460. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3469 - Intro to East Asia: To 1800 (3 Credits)

This course introduces the history of China, Japan and Korea to 1800 focusing on political, economic and social changes. It is designed for lower division undergraduates with no background in Asian history. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3470 - Intro to East Asia: Since 1800 (3 Credits)

This course introduces the history of China, Japan and Korea from 1800 to the present, focusing on political, economic and social changes. It is designed for lower division undergraduates with no background in Asian history. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 3480 - Introduction to European History (3 Credits)

This course examines the major events and influences that have shaped modern Europe, including monarchies, the Enlightenment, the Industrial Revolution, the rise of political ideologies, the French and Russian Revolutions, capitalism, imperialism, and two World Wars in the twentieth century. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: spring, summer, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

HIST 3481 - Ancient Greece (3 Credits)

A history of the Greek-speaking world, from the Bronze Age depicted in Homer's epics to Alexander the Great and the Hellenistic Kingdoms. The course addresses the political, intellectual, socioeconomic, and military history of the eastern Mediterranean, with an emphasis on Greece. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3482 - Rome: City and Empire (3 Credits)

Pagan Rome from its earliest beginnings to the rise of Christianity. Emphasis is on the military, socio-economic, and political history of Rome, its empire in Italy, and its domination of the Mediterranean World (ca. 800 B.C. to A.D. 300). Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3484 - British Isles to 1714 (3 Credits)

A sampler of the rich, diverse, and dramatic history of the peoples of the British Isles. State formation, economic and social change and cultural values are several of the themes threaded through this survey course. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3485 - British Isles Since 1714 (3 Credits)

This course examines the dramatic rise of the British industrial, commercial, and political empire during the 18th and 19th centuries and its equally dramatic decline in the 20th century. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3486 - Renaissance and Reformation (3 Credits)

Explores the late 13th through middle 17th centuries when European art and culture changed dramatically, and when Europe was torn by explosive ideological conflicts and religious upheaval. Cross-listed with RLST 3486. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3487 - Medieval Europe (3 Credits)

Surveys the general history of Europe from the fall of Rome to the opening of modern Europe. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 3488 - Tudor-Stuart England (3 Credits)

England's rise from obscurity in 1487 to the dawn of her age of European and world dominance in the early 18th century. Family life and popular culture as well as Henry VIII, Queen Elizabeth, Parliament, and Cromwell. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3500 - African History in Novels and Films (3 Credits)

Introduces modern Africa through the eyes of creative artists. Various topics, such as childhood, religion, and colonialism, are presented from various points of view—African and non-African. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 3601 - Colorado History (3 Credits)

Presents the story of the people, society, and culture of Colorado from the earliest Native Americans, through the Spanish influx, the fur traders and mountain men, the gold rush, railroad builders, the cattlemen and farmers, the silver boom, the tourists, and the modern twentieth-century state. Term offered: spring, fall, summer. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

HIST 3606 - Science, Technology, and Society in the Modern World (3 Credits)

Examines the relationships among science, technology, and society from the early 19th century to the present. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3616 - Global History of Energy (3 Credits)

Explores the history of human energy use on local, national, and international scales, examining its social, political, and economic effects, and its implications for the environment. Cross-listed with HIST 5616. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3706 - Age of Revolution (3 Credits)

Examines revolutions in selected societies around the world during the period from 1750 to 1950. The specific revolutions chosen may vary, but representative upheavals in both the Western and non-Western worlds are examined. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 3810 - Topics (3 Credits)

Topics in history with varying subtitles reflecting course content.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

HIST 3840 - Independent Study: History (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

HIST 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have 15 hours of HIST courses completed with 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: spring, summer, fall. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: 15 hours of HIST courses with a 2.75 GPA in HIST courses

Typically Offered: Fall, Spring, Summer.

HIST 3995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

HIST 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with CHIN 4002, ETST 4002, INTS 4002, RLST 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HIST 4027 - Enlightenment and Revolution (3 Credits)

In this course students explore the relationship of ideas and events in Europe during the 17th and 18th centuries. Modernizing trends in the European economy, religion, science, states and international affairs leading up to the French Revolution. Cross-listed with HIST 5027. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4028 - Nations and Classes: 19th Century Europe (3 Credits)

Focuses on material and ideological changes in 19th century Europe, exploring social, cultural, political, economic, and intellectual developments. Cross-listed with HIST 5028. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4029 - Age of Anxiety in Europe (3 Credits)

Looks at Europe at the end of the nineteenth century in an effort to determine if there is any relation between the peculiarities in culture at the time and the horrors in politics that followed. Cross-listed with HIST 5029. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4030 - Europe During the World Wars (3 Credits)

Covers the history of the two world wars and their origins, political and social upheaval during the interwar economic crisis, the rise of communism, Italian fascism and Nazism, with an emphasis on cultural production and intellectual life. Cross-listed with HIST 5030. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4031 - Contemporary Europe (3 Credits)

History of Europe since 1945. Students study the economic, social, and political history of Europe since World War II, with a special emphasis on the Cold War and intellectual currents. Cross-listed with HIST 5031. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4032 - Globalization in World History Since 1945 (3 Credits)

An interdisciplinary course on contemporary world history and globalization. While the course is historically structured, economic, political, and sociological matters are explored. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5032. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

HIST 4034 - Core Themes in European History (3 Credits)

Core themes in modern Europe, 1750 to the present. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4035 - Crisis and Transformation: Europe's 20th Century (3 Credits)

This course examines 20th century European history focusing on themes of crisis and transformation. We will explore how devastating wars, economic depression, stark ideological divisions, and revolutionary social, political and cultural movements dramatically changed Europe over the course of the century. Cross-listed with HIST 5035. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4046 - Victorians and Victorianism (3 Credits)

Taking an interdisciplinary perspective, this course examines English people and English life during the reign of Queen Victoria, 1837-1901. What were the defining features of the Victorian age? What did it mean to be "Victorian?" When and why did the Victorian paradigm break down? Cross-listed with HIST 5046. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4051 - Britain and The Empire (3 Credits)

Examines 19th and 20th century British history, addressing social, cultural, and political themes. Explores industrialization, state growth, and imperialism; relationships between race, gender, and class; and the ways in which colonizers and the colonized experienced empire. Cross-listed with HIST 5051. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4055 - The Atlantic Slave Trade: Africa, Caribbean and U.S. (3 Credits)

Presents a broad overview of the slave trade in the Atlantic World, including discussion of the slave plantation, the creation of Caribbean societies and the consequences of independence from Britain. Cross-listed with HIST 5055. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4062 - Modern France, 1789 to the Present (3 Credits)

Considers the shaping of modern France from the 18th century Bourbon Monarchy and aristocratic society to today's liberal democracy, in which multiculturalism, globalization and supranational institutions call into question the very nature of French identity. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5062. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4071 - Modern Germany (3 Credits)

Surveys the major political, institutional, social, economic, and cultural developments that have occurred in Germany since the late 18th century. Cross-listed with HIST 5071. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4074 - Post-War Germany (3 Credits)

Historical survey of Germany since the second world war, with an emphasis on culture and society. Cross-listed with HIST 5074. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4075 - Travel Stories and Origins of Cultural Anthropology (3 Credits)

Examines the early history of cultural anthropology by means of classic travel literature. Cross-listed with HIST 5075. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4076 - History of Modern Science (3 Credits)

Surveys the history of science from the 18th century to the present. Treats all disciplines, from physics to physiology, in an attempt to understand how the natural world came to dominate our sense of ourselves. Cross-listed with HIST 5076. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4083 - Russia Since 1917 (3 Credits)

Studies the development of the Soviet Union from its formation in the October Revolution, through the Civil War, the new economic policy, industrialization, collectivism, the Stalinist purges, up to the present.

Cross-listed with HIST 5083. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4086 - Eastern Europe (3 Credits)

Studies the countries of Eastern Europe from their origins in the Middle Ages to the present. Cross-listed with HIST 5086. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4133 - Management of Material Culture and Museum Collections (3 Credits)

This course provides in-depth knowledge of the rudiments of material culture documentation, preservation and management. While we have designed this class for those interested in working in history museums, this is also appropriate for those students who want to learn the place of artifacts in studying history. Cross-listed with HIST 5133. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4201 - Core Themes in U.S. History (3 Credits)

This course surveys major themes in U.S. history. Cross-listed with HIST 5201. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4209 - Race, Religion, and Belonging (3 Credits)

Race/ethnicity and religion are conconstitutive social and cultural formations that have played a fundamental part in determining the boundaries of belonging of the United States. In this course, students will interrogate when, why and how race/ethnicity and religion have been used to delineate borders, determine citizenship, navigate legal classifications, dictate social mobility, and regulate economic possibilities. We will analyze both primary sources such as sermons, reality TV shows, court cases and graphic images as well as scholarly writing to explore how formations of race and religion have shaped notions of belonging in the US nation-state, thereby constructing the boundaries of the state itself. Cross-listed with ETST 4030, ETST 5030, RLST 4030, RLST 5030 and HIST 5209. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4210 - The American Revolution (3 Credits)

The crisis of the British Empire in North America from the end of the French and Indian War to the ratification of the American Constitution. Topics include the emerging economy, constitutional arguments against Britain, the conduct of the war, and the definition of a republic. Cross-listed with HIST 5210. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4212 - Civil War and Reconstruction (3 Credits)

Begins with the causes and outbreak of the American Civil War, describes the military conflict and the social aspects of the war, examines the federal efforts to reconstruct the southern states, and protect the rights of Black citizens after 1865. Cross-listed with HIST 5212. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4213 - The Gilded Age and Early 20th Century Challenges: U.S. History, 1865-1932 (3 Credits)

Topical study of major events in America, including Reconstruction; the rise of industry and the workers' response; westward expansion and the plight of Native Americans; urbanization and immigration; agrarian upheaval; Progressivism; World War I; the challenges of the 1920s and the onset of the Great Depression. Cross-listed with HIST 5213. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4216 - History of American Popular Culture (3 Credits)

Explores American popular culture from the early 1800s to the present. By tracing the development of various entertainment media, including theater, music, movies, and television sitcoms, this course probes how popular culture both reflected and shaped American values and behavior. Cross-listed with HIST 5216. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4217 - Consumer Culture (3 Credits)

This interdisciplinary course examines the dynamics of the consumer culture in the context of social, economic, and technological history. The analysis begins with 17th century European origins, and continues through recent world developments, emphasizing the U.S. since 1800. Note: Open to all students. Cross-listed with HIST 5217. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4219 - Depression, Affluence and Anxiety: U.S. History, 1929 to the Present (3 Credits)

Examines major developments, focusing on the causes of the Depression and efforts to combat it; World War II and postwar readjustments; the Cold War and challenges of world leadership; unparalleled prosperity; Civil Rights movement; the Vietnam War; and economic uncertainties amidst general prosperity. Cross-listed with HIST 5219. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4220 - U.S. Foreign Policy Since 1912 (3 Credits)

The main thrust is the emergence of the U.S. from isolation toward full-scale participation in the affairs of Europe and other areas. Special attention is given to U.S. intervention in two world wars, the Cold War, and the over extension of U.S. commitments since 1960. Cross-listed with HIST 5220. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4222 - U.S. Society and Thought to 1860 (3 Credits)

Major topics include the evolution of Protestantism from Puritans to Transcendentalists; humanitarian reforms such as abolition, temperance, and women's rights; European influences on American thought; the effect of industrialization on the development of class society; and American nostalgia for agrarian life. Cross-listed with HIST 5222. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4223 - U.S. Society and Thought Since 1860 (3 Credits)

Topical survey of the main currents of American thought and their impact upon society. Topics include American philosophy, literature (extensively), art, music, immigration and urbanization, technology, extremism of both left and right, and education. Cross-listed with HIST 5223. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4225 - Urban America (3 Credits)

This course will explore how Americans experienced their rapidly growing and changing cities during the past two hundred years. This course will cover a wide range of urban themes, including segregation and gentrification, self-invention and policing, ethnic gangs and race riots, skyscrapers and suburbia, and commercial sex and Hollywood. The course will ultimately chart how a range of Americans - including immigrants, teenagers, laborers, women, LGBTQ+ people, and people of color - all fought for their own "right to the city". Cross-listed with HIST 5225, WGST 4225, WGST 5225, GEOG 4625. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4226 - Capitalism in America (3 Credits)

Explores the social, cultural, and political history of American capitalism from colonial times. Topics include entrepreneurship, labor, territorial and trading expansion, industrialization, the rise of corporations, economic cycles, technological developments, and the role of the state, all within global contexts. Cross-listed with HIST 5226. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4227 - American West (3 Credits)

Introduces the diverse peoples, places, and approaches to the development of the trans-Missouri West from prehistoric times to the present. Cross-listed with HIST 5227. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4228 - Western Art and Architecture (3 Credits)

Introduces art and architecture of the American West, emphasizing their historical context. Students are required to do book reports and a research paper. Course includes walking tours and museum visits. Cross-listed with HIST 5228. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4229 - Colorado Historic Places (3 Credits)

Introduces community architecture, folklore, and history for all students. Students learn how to survey, describe, and designate significant historical structures and districts. Cross-listed with HIST 5229. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4230 - Women in the West (3 Credits)

Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the Western states. Cross-listed with HIST 5230 and WGST 4230/5230. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4231 - History in Museums (3 Credits)

This core course for the museum studies area of public history introduces students to the theory and practice of museum operations. It covers the basics of museum administration, museum collection and preservation, and museum interpretation from both theoretical and practical points of view. Cross-listed with HIST 5231. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4232 - Historic Preservation (3 Credits)

Introduces the history, methodology, and goals of historic preservation. Guest speakers, field trips, research projects, and book reports. Cross-listed with HIST 5232. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4234 - History at Work: Public and Community History (3 Credits)

An overview of history outside the academic setting. Students have the opportunity to learn about jobs through on-site visits and presentations made by people engaged in a wide variety of occupations in history other than teaching. Cross-listed with HIST 5234. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4236 - Colorado Mining and Railroads (3 Credits)

Focuses on the transportation network that shaped the inland West, and its key role in the extractive industry that gave Colorado its start and nourished the highest state through adolescence. Cross-listed with HIST 5236. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4238 - U.S. History Through Fiction (3 Credits)

Explores American history through novels, based on the idea that fiction offers a superb "window" through which to view the past, especially to understand the texture of American society. Cross-listed with HIST 5238. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4240 - National Parks History (3 Credits)

Introduces how the National Park Service uses history to identify, designate, preserve, and interpret America's most outstanding historic and natural history sites. After tours of NPS sites, students select from a wide range of projects. Note: Open to all students. Cross-listed with HIST 5240. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4242 - Oral History (3 Credits)

Trains public history students in the collection of oral history interviews. Students master core readings on the theory, practice, and ethics of oral history. Cross-listed with HIST 5242. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4243 - Public History Administration (3 Credits)

Introduces students to the skills, practice, and ethics of public history administration. Cross-listed with HIST 5243. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4244 - Interpretation of History in Museums: Exhibits and Education (3 Credits)

This course allows students to gain in-depth knowledge of historical interpretation through exhibits and education in a museum setting. This class is designed for those preparing to work in history museums but is also appropriate for teachers and others who want to learn how museum programs interpret history with artifacts and other historical materials. Cross-listed with HIST 5244. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4245 - Heritage Tourism (3 Credits)

History and historic sites have become big business in 21st century tourism. The heritage tourism industry is explored in this introductory course for all interested students focusing on how academic history and historians can partner with tourism and recreation interests. Cross-listed with HIST 5245. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4261 - Working With Data (3 Credits)

Teaches the technical skills of data collection, processing, analysis, and visualization, along with the history and ethics of how societies, corporations, and governments have used and abused data over time. Cross-listed with HIST 5261. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4303 - Sex and Gender in Modern Britain (3 Credits)

Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 5303 and WGST 4303/5303. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4306 - Survey of Feminist Thought (3 Credits)

Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 5306, WGST 4306, 5306. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4307 - History of Sexuality (3 Credits)

Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with HIST 5307 and WGST 4307/5307. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4308 - Crime, Policing, and Justice in American History (3 Credits)

Focuses on changing legal and cultural definitions of crime, the role of the police, the evolution of punishment in theory and practice, and the role of mass culture in shaping the social history of crime and justice. Cross-listed with HIST 5308. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4345 - Gender, Science, and Medicine: 1600 to the Present (3 Credits)

Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 5345 and WGST 4345/5345. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4347 - History of Biology (3 Credits)

Examines the development of modern biology from the mid-18th century to the present. Students will look at intellectual, methodological, institutional and social contexts in an attempt to answer the question of how biology became the "pre-eminent" science. Cross-listed with HIST 5347. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4348 - Mind and Malady: A History of Mental Illness (3 Credits)

Examines the history of mental illness from the mid-18th century to the present, focusing on the institutionalization of the mentally ill, the origin of psychiatry, the development of models of mental illness and the evolution of clinical treatment. Cross-listed with HIST 5348. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4411 - Modern Mexico (3 Credits)

Designed to familiarize students with the critical issues in Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 5411, ETST 4411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4412 - Mexico and the United States: People and Politics on the Border (3 Credits)

Examines the convoluted relations between these two republics, focusing on diplomatic, cultural, and social interactions. Cross-listed with HIST 5412. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4414 - Nationalism and State Building in Latin America, 1750-1850 (3 Credits)

Explores the problems of nationalism and post-colonial state building by examining the late colonial and early national periods of Latin American history. The course discusses the impact of the enlightenment, the events of the Wars of Independence, and the quandaries faced by the new nations. Cross-listed with HIST 5414. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4415 - Social Revolutions in Latin America (3 Credits)

A theoretical framework and an empirical basis for understanding the large-scale social movements that have influenced the course of Latin American nations. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5415. Max Hours: 3 Credits. Grading Basis: Letter Grade

HIST 4416 - The Age of Imperialism (3 Credits)

Examines causes, character, and consequences of imperialism in the industrial era (ca. 1840-1975). Through intense study of selected cases, students gain an understanding of the different dynamics and varieties of imperialist control. Max hours: 3 Credits. Grading Basis: Letter Grade

HIST 4417 - Commodities and Globalization (3 Credits)

Trading raw material & processed goods internationally has greatly affected world cultures & geopolitics. Tracing commodity chains since 1500 for food, fuel, industrial material & products, & intellectual property, this course will conclude with the effects of current regulations, marketing & environmental concerns. Cross-listed with HIST 5417. Max hours: 3 Credits. Grading Basis: Letter Grade

HIST 4418 - Trade and Premodern World History (3 Credits)

Explores the interconnections that shaped premodern world history, considering the ways that the production, exchange, and consumption of cloth were tied to specific forms of political power, social and religious organization, and long distance economic relationships. Cross-listed with HIST 5418. Max hours: 3 Credits. Grading Basis: Letter Grade

HIST 4420 - Traditional China: China to 1600 (3 Credits)

A general introduction to the history of China from the advent of historic civilization to the point of the great encounter with the West. Cross-listed with HIST 5420. Max hours: 3 Credits. Grading Basis: Letter Grade

HIST 4421 - Modern China (3 Credits)

Surveys Chinese history in the modern era. Includes examination of Western domination of China; revolution and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST 5421 and CHIN 4421. Term offered: spring. Max Hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Spring.

HIST 4422 - Lvng thr Mao's China: Life, Mat. Cult, Movies, 1949-76 (3 Credits)

Introduces students to ordinary people's daily life in Mao's China (1949-1976) through an exploration of material culture, movies and scholarship. This course pays particular attention to the ways people's everyday living intertwined with politics. Cross-listed with HIST 5422. Max hours: 3 Credits. Grading Basis: Letter Grade

HIST 4423 - China in the World (3 Credits)

China does not exist apart from the world, and never has. This course approaches Chinese history by asking: how has the world shaped China's history, and how has China shaped the history of the world? Rather than explain what went on in China, we focus on exploring what went on outside-among China's immediate neighbors in East Asia, the entire Eurasian region, the African continent, and the so-called "West." The course moves chronologically from ancient times to the present, and is organized around the themes as conquest, trade, international relations, climate change, environmental stress, and the circulation of ideas. Cross-listed with HIST 5423 and CHIN 4423. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Spring.

HIST 4431 - Modern Japan (3 Credits)

Course of Japanese history since the Perry expedition. Covers Japanese Westernization and industrialization, the expansion of empire and defeat in World War II, the occupation, and the amazing technological and social transformation since the occupation years. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5431. Max hours: 3 Credits. Grading Basis: Letter Grade

HIST 4451 - Southern Africa (3 Credits)

An in-depth history of the clash of peoples and cultures in Africa south of the Zambezi River. African and Afrikaner political, economic and cultural development in a single land and the consequences of several competing nationalisms existing side by side are examined. Apartheid and African opposition to it are analyzed. Cross-listed with HIST 5451. Max Hours: 3 Credits. Grading Basis: Letter Grade

HIST 4455 - African Struggle for Independence (3 Credits)

An assessment of African leadership from the colonial era to the present. Cross-listed with HIST 5455. Term offered: fall. Max Hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Fall.

HIST 4461 - The Modern Middle East (3 Credits)

Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with HIST 5461. Term offered: fall. Max Hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Fall.

HIST 4462 - Islam in Modern History (3 Credits)

This course studies Islamic thought and practice over the last two centuries in terms of major historical processes that have operated at local, national, and global scales. Cross-listed with HIST 5462, RLST 4462, RLST 5462. Term offered: spring. Max Hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Spring.

HIST 4471 - The Second World War (3 Credits)

The War in its totality: causes, military strategies (equal treatment to European and Pacific theaters), campaigns, impact of technology and weapons, political and social upheaval. Cross-listed with HIST 5471. Max hours: 3 Credits. Grading Basis: Letter Grade

HIST 4472 - The 1950s: Korean War, the Cold War and Social Transformation (3 Credits)

A critical and methodical exploration of several of the social, cultural, and political events of the 1950s. Investigates the complex interaction between politics and culture during this decade, paying close attention to anti-Communist thought and the Korean War. Cross-listed with HIST 5472. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4475 - The Vietnam War (3 Credits)

Covers the conflict in Vietnam, with roots in the period prior to World War II. Main topics include the rise of nationalism in French Indochina, the war against the French, the Northern move to unify Vietnam, American intervention, and eventual victory of the Northern regime. Cross-listed with HIST 5475. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HIST 4490 - Weapons of Mass Destruction (3 Credits)

Weapons of mass destruction have affected politics, health, and environments around the globe. This course will examine the development, use, and consequences of these modern technologies of war and terror. Cross-listed with HIST 5490. Term offered: summer, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Summer.

HIST 4491 - United States History, 1865-1919 (3 Credits)

Surveys the major intersections of politics, culture, and society in American history between 1865 and 1919. The course will be attentive to the diversity of American experiences and will explore domestic and international themes in United States history. Cross-listed with HIST 5491. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4492 - United States History, 1919-1945 (3 Credits)

Surveys the major intersections of politics, culture, and society in American history between 1919 and 1945. The course will be attentive to the diversity of American experiences and will explore both domestic and international themes in United States history. Cross-listed with HIST 5492. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4493 - United States History, 1945-1973 (3 Credits)

Surveys the major intersections of politics, culture, and society in American history between 1945 and 1973. The course will be attentive to the diversity of American experiences and will explore both domestic and international themes in United States history. Cross-listed with HIST 5493. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4494 - Red and Blue America: U.S. History, 1973-Present (3 Credits)

This course explores American history during a period of immense cultural and political polarization. After 1973, the United States experienced the rise of the New Right, changing attitudes towards sexual "permissiveness," and rapid advancements in technology. Both "law-and-order" politics and the rights campaigns led by immigrants, women, people of color, and LGBTQ+ peoples all reshaped democracy. These developments in the United States, meanwhile, influenced and were shaped by the nation's "hot" and "cold" conflicts in Europe, Latin America, the Middle East, and the rest of the globe. Cross-listed with HIST 5494, WGST 4494, and WGST 5494. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HIST 4503 - Topics in History of Science (3 Credits)

Themes vary from year to year. Possible topics: Darwinism, Nature of Memory, Time and Space, Origins. Cross-listed with HIST 5503. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4504 - Animals in U.S. History (3 Credits)

Human-animal relationships offer powerful and unexpected perspectives on the American past. An eclectic range of readings and viewings, written assignments and contemplative experiences will contextualize contemporary practices, beliefs, and ethics – vegetarianism, hunting, pet-keeping, and many others – in historical context. Cross-listed with HIST 5504. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4621 - Explorers and Exploration (3 Credits)

Examines the history of travel and exploration from the 13th century to the present. Readings draw primarily from first-person accounts to understand why people voyage, what they hope to discover, and what happens to them along the way. Cross-listed with HIST 5621. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4622 - Oceans In History (3 Credits)

Explores transoceanic exchanges, relations, and transformations in modern world history. Examines how historians analyze and conceptualize global interactions. Topics include voluntary and forced migrations, resistance and revolution, transoceanic economic relations, piracy, and environmental change. Cross-listed with HIST 5622. Max Hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4645 - Archival Management (3 Credits)

This course studies theory and principles pertaining to the management of current and non-current records, public and private archival materials, as well as the administration of archival manuscript depositories for housing records of historical value. Cross-listed with HIST 5645. Max hours: 3 Credits.

Grading Basis: Letter Grade

HIST 4810 - Special Topics (1-3 Credits)

Cross-listed with HIST 5810. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

HIST 4839 - History Seminar (3 Credits)

Covers the use of documentary sources and historical criticism, with students utilizing these skills in a historical research paper. Note: Required for history majors. Preferably taken in the senior year. Prereq: HIST 3031 with a grade of C or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: HIST 3031 with a grade of C or higher

Typically Offered: Fall, Spring.

HIST 4840 - Independent Study: HIST (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

HIST 4849 - Independent Study History Honors Research Paper (3 Credits)

Students competing for history honors must take this course to prepare their honors paper. The course requires students to produce a finished research paper of professional quality under the direction of a history faculty member. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Open to advanced history majors only. Max Hours: 3 Credits.
Grading Basis: Letter Grade

HIST 4850 - History in the Community: History Day Mentoring (1-3 Credits)

Directed by CU Denver History faculty, students participate in and judge National History Day in Colorado. They gain teaching experience mentoring students preparing social-studies and literacy-based projects. Their papers are based on scholarly readings and analyses of their experiences in middle and high schools. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of department chair. Department consent required. Term offered: spring. Repeatable. Max hours: 3 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 3.
Typically Offered: Spring.

HIST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

Human Development and Family Relations (HDFR)

HDFR 1000 - Global Human Development & Learning (3 Credits)

The purpose of this course is to examine the contextual nature of human development and learning at the global level. Emphasis is placed on the ecological development of individuals and learning and schooling within familial, cultural and educational contexts. Max hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, International Perspectives.

HDFR 1010 - Life Span Development in Ecological Settings (3 Credits)

This course is designed to introduce students to human development in ecological settings in particular family, school and community contexts as it occurs across the lifespan, including emotional, physical, and cognitive development, and emphasizes personal adjustment and achievement. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 1030 - Who am I? Cultural Identity, Family, Diverse Soc Sys (3 Credits)

This course will use ecological systems theory perspectives as a foundation for understanding diverse Latino family dynamics, the intersection between Latino families, schools and community systems and other critical issues that Latino family systems face in the United States. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 1050 - Trailblazing and Leading in Student Affairs: Student Affairs Leadership Dev (3 Credits)

This course provides a basic introduction to student affairs development practices and perspectives. The course provides an exploration of student affairs leadership identity and college student's leadership role in higher education environments. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 1080 - Lifespan Issues in Family Violence (3 Credits)

This course examines family violence over the lifespan from family system and ecological perspectives. The course explores development, definitions, theory, correlates, and the occurrence of family violence over the lifespan; including practice, interventions, and policy within school and community contexts. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Social Sciences.

HDFR 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Restricted to Freshman level students

HDFR 2000 - Introduction to Family and Community Services (3 Credits)

Through ecological systems theories this course is designed to provide students with an introduction to family and community services within community and educational environments. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 2080 - Sex, Human Development and Family Systems (3 Credits)

Students will become familiar with human sexuality across the life span through behavioral science and ecological perspectives. Different aspects of sexuality including behavioral, biological, developmental and cultural will be examined. Implications for working with individuals, families, and couples through a behavioral science context will be explored. Max hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Behavioral Sciences.

HDFR 2083 - Family and Personal Finance (3 Credits)

Students will become familiar with family and personal finances across the life span through the use of behavioral science and ecological perspectives. Different determinants of financial education including behavioral, developmental, and cultural will be examined within familial and individual contexts. Max hours: 3 Credits.
Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Behavioral Sciences.
Typically Offered: Fall, Spring, Summer.

HDFR 2110 - Child Ecology (3 Credits)

This course focuses on the study of human growth and ecology from conception to adolescence. The emphasis is on the major theories of child growth, development, and ecology and the implications of classic and contemporary research in the community. Max hours: 3 Credits.
Grading Basis: Letter Grade

HDFR 2200 - Love, Family and Human Development (3 Credits)

This course provides an introduction to understanding love, intimate relationships, and family relations through an ecological systems perspective. The course provides an exploration of contemporary diverse family systems and their relationships across the life span. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

HDFR 3002 - Preparing to be a HDFR Professional (3 Credits)

In a seminar format, students will examine the ethics, value systems, and family policies and law affecting the Human Development and Family Relations profession. Students will utilize tools of professional preparation including goal-setting, building/refining resumes, and marketing skills and abilities. Restriction: Faculty or Academic Advisor approval is required to register. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3020 - Black and Latino Children in Families and Schools (3 Credits)

This course will use ecological systems theory perspectives as a foundation for students to develop their understanding about Black and Latino children as members of family systems, school systems and community systems within cultural contexts. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

HDFR 3050 - Children's Thinking and Assessment (3 Credits)

A review of the psychology of children's thinking emphasizing developmental changes in modes of thought. Topics include conceptual behavior, problem solving, intelligence, creativity, humor, play, and an introduction to diagnostic, formative and summative assessment. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3100 - Adolescent Ecology (3 Credits)

Through ecological systems theories this course is designed to provide an understanding of adolescent ecological development and growth. Students will become familiar with adolescent development and growth from ecological perspectives in contexts of families, schools and communities. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3250 - Families in Global Perspectives (3 Credits)

Students will become familiar with family life across the world. Through ecological systems theories, this course is designed to provide an understanding of families in global perspectives. The impact of family policy and practices on international families will be examined. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

HDFR 3400 - Love, Couples and Family (3 Credits)

This course examines the development and maintenance of couple and family relationships through family therapy based concepts, family systems theories and other family theories. Topics include communication patterns, stress and conflict management, decision making and goal-setting within the family. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3500 - Introduction to Higher Education (3 Credits)

The course examines the history and structure of the institutions higher education in U.S. This course will also examine the relationship between institutions of higher education, students, faculty, administrators, and society at large. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 3800 - Leadership for Racial Justice in School and Community Settings (3 Credits)

Students will learn about school- and community based leadership for racial justice in the U.S., considering the various purposes and techniques employed to pursue a more racially justice society. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity. Typically Offered: Fall.

HDFR 4001 - Families and Parenting (3 Credits)

This course provides an advanced overview of theories and practices that impact culturally and linguistically diverse families and the parenting process through family systems and ecological perspectives. Specifically, there is a focus on the parent-child relationship through adolescence.

Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4002 - Family Life and Community Programming I (3 Credits)

This course teaches the principles, philosophies, models, and strategic methods of family life education for strengthening interpersonal and family relationships. Culturally competent students will learn about the development and implementation of effective educational programs and experiences within different community settings. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4003 - Leadership and Organizations (3 Credits)

This course provides an understanding of leadership theory and practice in community and educational environments. Students will learn about important aspects about leading diverse community and educational organizations including staff supervision, strategic planning, advancing the organization and maintaining integrity. Cross-listed with HDFR 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4004 - Family and Comm. Prog. II Grant Writing/Fundraising (3 Credits)

This course provides an understanding of developing skills on grant writing and fundraising as related to family, community and educational organizations/agencies. Students will learn about important aspects about grant writing, fundraising fundamentals and funding models for sustainability. Cross-listed with HDFR 5004. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4010 - Family and Cultural Diversity (3 Credits)

The examination of familial, gender, cultural, linguistic, social and other ecological factors on diverse family systems in the United States will be covered. An ecological theoretical analysis of minority family systems within a familial, educational and social justice perspective will be explored. Cross-listed with HDFR 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4040 - Latino Families in School and Communities (3 Credits)

This course will use ecological systems theory perspectives as a foundation for understanding diverse Latino family dynamics, the intersection between Latino families, schools and community systems and other critical issues that Latino family systems face in the United States. Cross-listed with HDFR 5040. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4045 - Abuelos (Grandparents) Latino Families (3 Credits)

The course will focus on the social gerontology of Latinos families in later life. Specifically, the course will examine how ecological factors including familial, cultural, social, economic, health, cognitive and educational, impact the lives of Latino older person's in the contexts of family systems. Cross-listed with HDFR 5045. Max hours: 3 Credits. Grading Basis: Letter Grade

HDFR 4050 - Foundations of Student Affairs (3 Credits)

This course examines theories of college student development including student learning and growth during the postsecondary years. This course will provide an introduction to psychosocial, cognitive, moral, and social identity development theories used to explain college student development. Cross-listed with COUN 5050. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

HDFR 4075 - Family Policy & Law (3 Credits)

In this course students will identify, develop, implement and evaluate social policies and laws that effect the well-being of families. Through a family systems perspective, students will examine the law, social services, education, the economy, religion, and politics impact families. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4080 - Global Family Resource Management (3 Credits)

This course examines the allocation of family resources (social, financial and material assets), the influence of various ecological systems, the effect on family functioning and goal-setting from a global perspective. Practical applications for Family Relations professionals are included. Cross-listed with HDFR 5080. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4090 - Helping Profession Skills in HDFR (3 Credits)

This course is designed to provide an overview of essential skills required in a variety of helping situations and settings. Course content includes the development of accurate listening, empathy, reflection, and inquiry skills. Implications for working with individuals, families, and couples will be examined. Cross-listed with HDFR 5090. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4130 - College Student Development (3 Credits)

This course examines theories of college student development including student learning and growth during the postsecondary years. This course will provide an introduction to psychosocial, cognitive, moral, and social identity development theories used to explain college student development. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

HDFR 4200 - Adult Ecology (3 Credits)

The emphasis is on the major theories of adult ecology and growth and the implications of classic and contemporary research in the community. Specifically, biological, psychological, psychosocial, cognitive, and cross-cultural theories will be explored. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4260 - Family Systems and Social Justice (3 Credits)

Relying on ecological systems theories, this course will introduce students to families and family systems. Students will investigate how families experience (in)justice in the areas of access to education, community services, and employment. Cross-listed with HDFR 5260. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4300 - Families in Later Life (3 Credits)

Students will become familiar with the importance of families in later life. Through family systems and ecological systems theories, this course is designed to provide an understanding of the importance of family relationships and implications for practice, research, and policy. Cross-listed with HDFR 5300. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4500 - Diversity, Inclusion, Social Justice in Higher Education (3 Credits)

An examination of society, media, and public and educational policy and their impact on higher education access and persistence for marginalized groups. Students are called to consider how student affairs professionals might promote social justice for marginalized student groups. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4850 - Family Systems Therapy, Religion and Spirituality (3 Credits)

This course examines how the intersection between different religious and spiritual frameworks affects family systems. A strengths-based ecological perspective, family therapy theories and family systems theories will be used to understand religious and spiritual frameworks in working with families in schools and communities. Cross-listed with RLST 4850. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4860 - Trauma Informed Care for Diverse Populations and Co-occurring Disorders (3 Credits)

Trauma Informed Care is a treatment framework that involves understanding, recognizing and responding to effects of all types of trauma. The clinical shift is from "what's wrong with you" to "what happened to you." The need to address trauma is increasingly viewed as an important component of effective behavioral health service delivery. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4888 - LGBTQ Family Systems (3 Credits)

This course examines diverse Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) family systems through ecological systems perspectives and family theories. The course provides an exploration of contemporary research, policy and practice as it pertains to LGBTQ families. Max hours: 3 Credits.

Grading Basis: Letter Grade

HDFR 4930 - Human Development and Family Relations Internship (1-5 Credits)

This course provides supervised practicum/field experience to Human Development and Family Relations students. Students will apply theory and evidence-based knowledge in professional situations, enhancing the development of their professional identities and career goals by working within and evaluating community-based organizations. Prereq: HDFR 3002. Repeatable. Max Hours: 5 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 5.
Prereq: HDFR 3002

Humanities (HUMN)

HUMN 1012 - The Humanistic Tradition: Modes of Expression (3 Credits)

Familiarizes students with humanistic modes of expression through the study of history, literature, philosophy, music, and the visual and dramatic arts. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HUMN 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall, Spring.

HUMN 4251 - Introduction to Legal Studies (3 Credits)

A survey of the United States legal system, including lawmaking powers, jurisdiction, court procedures, professional ethics and major principles of business law, contracts, estates and probate, family law, property and torts. Cross-listed with HUMN 5251/SSCI 4251/SSCI 5251. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

HUMN 4325 - First Amendment: Theory and Context (3 Credits)

First Amendment jurisprudence including free speech/responsibility, sedition/seditious libel/dissent, prior restraints, time/place/manner restrictions, hate/intimidating speech, defamation, privacy/security tensions, intellectual property/public good, advertising, corporate speech, sexual expression, and public status of religion. Cross-listed with HUMN 5325, SSCI 4325, SSCI 5325, PSCI 4325 and PSCI 5325. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

HUMN 4660 - Visual Arts: Its Past, Present, and Interpretations (3 Credits)

Provides graduate-level interdisciplinary study in the historiography, methodologies, and theories used to understand how visual arts, including painting, sculpture, photography, film and performance art influence the making of culture. Students gain critical skills for analyzing a variety of visual and aesthetic products of culture. Cross-listed with HUMN 5660, IDST 4660, IDST 5660. Max hours: 3 Credits.

Grading Basis: Letter Grade

HUMN 4720 - Sex, Gender, and Visual Representation (3 Credits)

Studies sexuality, gender and identity representation from classical antiquity through the present in the visual arts. Uses the literature of visibility, feminism, race and queer theory. Explores representations of femininity, masculinity and androgyny and their reinforcement and challenge to gender-identity norms. Cross-listed with HUMN 5720, IDST 4720, IDST 5720, WGST 4720, WGST 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HUMN 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism.

Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with HUMN 5770, IDST 4770, IDST 5770, SSCI 4770, SSCI 5770, WGST 4770, SJUS 4770, SJUS 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

HUMN 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

HUMN 4984 - Topics: Interdisciplinary Humanities (1-3 Credits)

Concerned with specialized aspects of the humanities from various theoretical and research perspectives. These courses are interdisciplinary and serve as a forum for discussion of individual projects and theses. Term offered: fall, spring. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

Individually Designed Major Course (IDMA)

IDMA 1500 - Introduction to Interdisciplinary Learning (3 Credits)

This course introduces the theories, methodologies, and practices of interdisciplinary studies through a specific theme that will focus on how to learn in an online environment and how interdisciplinary scholars combine the theories and methods of a variety of fields. Students who have earned credit for ISMA 1500 will not earn credit for IDMA 1500. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

IDMA 2840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Students who have earned credit for ISMA 2840 will not earn credit for IDMA 2840. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

IDMA 3000 - Special Topics (1-3 Credits)

Special classes for faculty-directed experiences examining issues and problems not generally covered in the curriculum. Students who have earned credit for ISMA 3000 will not earn credit for IDMA 3000. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

IDMA 3100 - Learning Across Disciplines (3 Credits)

Examining a compelling issue, students will learn what kinds of questions require thinking beyond a single discipline, how interdisciplinary scholars combine a variety of fields, and how to approach the challenges of interdisciplinary writing. Students who have earned credit for ISMA 3100 will not earn credit for IDMA 3100. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

IDMA 3500 - Interdisciplinary Experiential Learning (3 Credits)

In this course, students will use the knowledge from their chosen clusters to bear on an experiential opportunity. Choosing an internship, community-based project, or job extension, students will collaborate with peers to design projects in this highly student-driven course. Prereq: IDMA 1500 with a C- or higher. Students who have earned credit for ISMA 3500 will not earn credit for IDMA 3500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: IDMA 1500 with a C- or higher

IDMA 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Students who have earned credit for ISMA 3840 will not earn credit for IDMA 3840. Term offered: fall, spring, summer. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

IDMA 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Students who have earned credit for ISMA 3939 will not earn credit for IDMA 3939. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

IDMA 4500 - Interdisciplinary Learning Capstone (3 Credits)

This course brings together students who have been working on individualized majors to share a capstone experience. The goal is for students to integrate knowledge from their cluster and apply it to a project relevant to their field of interest. Prereq: IDMA 3500 with a C- or higher. Students who have earned credit for ISMA 4500 will not earn credit for IDMA 4500. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: IDMA 3500 with a C- or higher.

IDMA 4840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Students who have earned credit for ISMA 4840 will not earn credit for IDMA 4840. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

IDMA 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Students who have earned credit for ISMA 4880 will not earn credit for IDMA 4880. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

IDMA 4900 - Interdisciplinary Studies Capstone (3 Credits)

Students will be guided through the research process as they complete interdisciplinary capstone projects. They will receive feedback during each stage of the project's development and consultation from discipline specific faculty advisors. Prereq: COMM 2500 or HEHM 3100 or IDMA 3100 or PBHL 2001 or SOCY 3440 with a C- or higher. Students who have earned credit for ISMA 4900 will not earn credit for IDMA 4900. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: COMM 2500 or HEHM 3100 or IDMA 3100 or PBHL 2001 or SOCY 3440 with a C- or higher.

Information Systems (ISMG)

ISMG 1001 - Exploring Cybersecurity (1 Credit)

Students will explore various aspects of cybersecurity with hands-on exercises and games, including ethical hacking, social engineering, computer and digital forensics, networking fundamentals, cyber threats, cybersecurity careers, ethics in cybersecurity, and online safety. No previous cybersecurity knowledge is required. Term offered: summer. Max hours: 1 Credit.

Grading Basis: Satisfactory/Unsatisfactory

Typically Offered: Summer.

ISMG 2050 - Business Problem Solving Tools (3 Credits)

This course focuses on the technology and problem-solving skills necessary for students to succeed both at school and in the business world. This course teaches how to make business decision using spreadsheets, databases and web tools. Students solve problems in statistics, accounting, finance, marketing, management and information systems. The objective is to provide students with problem solving methods and tools necessary to succeed in the business community. Restrictions: As a business core course, a grade of a 'C-' or better must be earned to satisfy Business graduation and prerequisites for other business courses. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ISMG 2075 - Introduction to Business Data (1 Credit)

Introduction to Business Data prepares students to use data sources to analyze and solve real-life business problems. It challenges students to use critical thinking and analysis to find efficient and effective solutions to real-life business situations. Students will use data to solve problems in accounting, finance, and information systems. It is intended for business students that have not satisfied the business data requirements of ISMG 2050. Prereq: Computer Competency and prior coursework covering spreadsheet software. Max hours: 1 Credit.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ISMG 2800 - Designing for the Web (3 Credits)

Students examine how the Web is evolving to support a variety of business needs. The course covers the design and usability principals necessary for improving online interactions via traditional websites as well as using technologies promoting collaboration and information sharing (e.g. social networks, blogs, wikis, forms). Topics include: the principles of web page and web site design; hypertext markup language, cascading style sheets, streaming video, online collaboration technologies; client and server scripting; and the process of testing and publishing web sites. Prereq or Coreq: ISMG 2050. If completed prior, must earn a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ISMG 2050. If completed prior, must earn a C- or higher. Typically Offered: Spring.

ISMG 3000 - Technology In Business (3 Credits)

Provides an introduction on how various technologies are utilized by organizations to drive business decisions and gain a competitive advantage. Students will learn how organizations can leverage information technology to streamline operations and become more efficient & effective. Students will be exposed to the concepts of: artificial intelligence, business intelligence, cybersecurity, data and information, e-business, ethical use of data, enterprise information systems, organizational responsibilities related to information technology, project management, systems development life cycle, and wireless communications. Note: Business core course therefore a grade of a 'C-' or better must be earned to satisfy graduation requirements. Restriction: Restricted to undergraduate students with 45 credit hours or more. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students with 45 credit hours or more.

Typically Offered: Fall, Spring.

ISMG 3050 - Intermediate Excel for Business (1 Credit)

Spreadsheet software remains one of the essential digital skills required by businesses. In this course, you will learn key Excel skills including creating charts/graphs, filtering information, using pivot tables to summarize data, mastering Excel functions including sumif, countif, and vlookup. Cross-listed with ISMG 5050. Max hours: 1 Credit.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ISMG 3070 - Introduction to Tableau (1 Credit)

Tableau is a widely used business intelligence (BI) and analytics software that makes it easier for people to explore and understand data. This class introduces data management concepts and terminology, provides basic proficiency in analyzing and exploring data in Tableau. Students will transform raw data to meaningful visualizations and insights, create interactive dashboards and stories, and handle multiple data sources in Tableau. Cross-listed with ISMG 5070. Max hours: 1 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ISMG 3080 - SQL Foundations (1 Credit)

Structured Query Language (SQL or "Sequel") is a special-purpose language designed for managing data in a relational database and is necessary for careers dealing with data across many business roles. This class introduces students to data management concepts and terminology. This class will prepare you to extract data from relational databases using SQL syntax shared by many types of databases, such as PostgreSQL, MySQL, SQL Server, and Oracle. Cross-listed with ISMG 5080. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ISMG 3090 - Introduction to Python for Business (1 Credit)

Python is a high-level programming language used by companies like Google, Facebook, and JP Morgan to solve common business and decision problems. This course introduces the Python programming language and the Pandas data analysis package to enable students to write simple data manipulation and analysis programs. The course uses business applied cases and dataset to enable students to increase decision making efficiency and productivity. It introduces algorithmic thinking skills that are beneficial for every manager in today's data-rich economy and can also serve as a starting point for learning more advanced programming skills. Cross-listed with ISMG 5090. Max hours: 1 Credit.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ISMG 3110 - Data Governance and Ethics (3 Credits)

Most businesses and organizations recognize that data is valuable, yet many don't know what to do with their vast amounts of data. In this course, students will learn to recognize the roles and responsibilities of data stakeholders, understand data's ethical, legal, fiscal, and strategic implications, plan and create ethical data governance programs, and understand how to manage, monitor, and measure the effectiveness of such programs. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

ISMG 3300 - Social Media in Business (3 Credits)

This course focuses on the fundamentals and practical skills of social media marketing. Topics include social interactions, social media metrics, social media ads, content marketing, viral and influencer marketing, the use of social media in marketing research, managing consumers via social media, as well as other trends in social media marketing. Students engage in hands on applications including the creation and management of real brands' social media marketing activities. Prereq: MKTG 3000 with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with MKTG 3300. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

Typically Offered: Fall, Spring.

ISMG 3500 - Business Data and Database Management (3 Credits)

The success of today's business often hinges on the ability to turn mountains of data into critical information to make right decisions quickly and efficiently. Databases are ubiquitous in today's business environment and are the backbone of today's organizations. This course introduces students to data storage, data retrieval, and data management using current business data management tools. This course emphasizes database design and Structured Query Language (SQL) with hands-on exercises. Prereq: ISMG 2050 with a grade of C- or higher or department approved equivalent transfer credit (may need 1-credit ISMG 3050 and/or ISMG 3070 as supplement). Max hours: 3 Credits.

Grading Basis: Letter Grade

D-BU ISMG 2050 C+BUSNU+Junior

Typically Offered: Fall.

ISMG 3600 - System Strategy, Architecture and Design (3 Credits)

This course is designed to provide the understanding of current concepts related to information systems development in an organizational context. It emphasizes the interactive nature of the analysis and design process. Topics include: requirements analysis, model based analysis and design; evaluating outsourcing, COTS and other systems acquisition options; and quality, six-sigma, and ethics in design. New concepts such as agile modeling and extreme programming are covered. ISMG 3500, database, is a recommended but not required co-requisite. Prereq: ISMG 2050 with a grade of C- or higher or department approved equivalent transfer credit (may need 1-credit ISMG 3050 and/or 3070 as supplement). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2050 with a C- or higher.

Typically Offered: Spring.

ISMG 3939 - Internship (1-3 Credits)

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4028 - Travel Study Topics (3 Credits)

Join your classmates in an international travel study course to understand the business operations of another culture. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4200 - Building Business Applications (3 Credits)

Examines how software platforms for mobile business applications are designed and implemented. Usability, logic, and platform selection issues are highlighted through the development of simple mobile business systems. Includes programming concepts, interface design; storing, retrieving, and manipulating information; real time decision making; platform selection, testing and deployment. Prereq: ISMG 2800 with a D- or higher. Coreq: ISMG 3500. As a corequisite, ISMG 3500 can be taken concurrently or completed prior. If completed prior, must earn a D- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2800 Coreq: ISMG 3500 Restriction: Restricted to undergraduate Business majors at a junior standing or higher

Typically Offered: Fall.

ISMG 4300 - Information Systems Security and Privacy (3 Credits)

This course is designed to develop knowledge and skills for security of information and information systems within organizations. This course focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. The ethical treatment of data is discussed. Prereq or Coreq: ISMG 3000. As a prerequisite, a grade of C- or higher is required. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Cross-listed with ISMG 6430. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: ISMG 3000. As a prerequisite, a grade of C- or higher is required. Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Spring.

ISMG 4400 - Programming Fundamentals with Python (3 Credits)

This course is designed to provide a thorough introduction to Python and fundamental programming concepts like data structures, networked application program interfaces, files and databases. Principles of object-oriented programming and secure programming practices are demonstrated using programming constructs taken from the business domain. Students are required to design and create their own applications for data retrieval, processing, and visualization. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Fall, Spring.

ISMG 4700 - IT Infrastructure (3 Credits)

This course provides in-depth knowledge of data communications and networking requirements utilized in an organization. Networking models, devices, optimization, and security of those devices, including troubleshooting, is covered. Management of telecommunications networks, cost-benefit analysis, and evaluation of connectivity options is covered. Students learn to evaluate, select, and implement different communication devices within an organization. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Typically Offered: Spring.

ISMG 4750 - Business Intelligence and Financial Modeling (3 Credits)

This course will introduce students to the application of business intelligence in a corporate finance setting. Financial data intelligence is essential for effective decision making throughout the firm, in finance directly and in other functions supported by the finance department. Strategy setting, budgeting, and new product development are just a few decision areas where finance personnel play an active role. In this course, we learn how to apply business intelligence software tools to enable finance personnel to access and analyze corporate data in support of critical decision making across the enterprise. Students will also analyze data through the use of financial models built in Microsoft Excel. The development of complex financial models will provide students with valuable hands-on experience with a software tool used widely in finance departments. Prereq: ISMG 2050 with a grade of 'C-' or higher, FNCE 3000 and ISMG 3000 (ACCT 4054 may substitute for ISMG 3000) all with a grade of 'C-' or higher. Cross-listed with FNCE 4750 and ISMG 6820. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ISMG 2050 with a grade of 'C-' or higher, FNCE 3000 and ISMG 3000 (ACCT 4054 may substitute for ISMG 3000) all with a grade of 'C-' or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

ISMG 4760 - Customer Relationship Management (3 Credits)

This marketing-theory driven course examines customer relationship management (CRM) as a key strategic process for organizations. Composed of people, technology and processes, effective CRM optimizes the selection or identification, acquisition, growth and retention of desired customers to maximize profit. Besides presenting an overview of the CRM process, its strategic role in the organization and its place in marketing, students have an opportunity to create simulated CRM database using popular software package that help to illustrate what CRM can do, its advantages and limitations. Prereq: MKTG 3000 and ISMG 3000 both with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Cross-listed with MKTG 4760. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 and ISMG 3000 both with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher.

ISMG 4785 - Ethics: A Formula for Success (3 Credits)

Students will learn how to spot and address red flags that foster unethical behavior in both publicly-traded and privately-held businesses. Governance and stakeholder management techniques that incentivize ethical behavior will be highlighted using examples of companies that are financially successful by "doing the right thing." Principle-based ethics are emphasized, namely, integrity, trust, accountability, transparency, fairness, respect, viability, and compliance with the rule of law. Cross-listed with MGMT 3420, MGMT 6420, ISMG 6885. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4840 - Independent Study (1-8 Credits)

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

ISMG 4860 - Ethical Hacking Concepts and Methodologies (3 Credits)

From a technical perspective, organizations need to know how hackers work so that they can build their security around it and take preemptive measures against future attacks. The goal of ethical hacking is to understand current exploits and assess weaknesses and vulnerabilities of various organizational information systems by attacking them within legal limits. This course is designed to provide students an insight into current hacking tools and techniques used by hackers and security professionals to break into any computer systems. Throughout the course, students will engage in offensive and defensive hands-on exercises stressing ethical hacking and penetration testing that will be conducted in a vendor-neutral virtual environment. Topics include security threats and attack vectors, footprinting and reconnaissance, Google hacking, social engineering, insider threat, network scanning and enumeration techniques, vulnerability assessment, the Dark Web, and attack and defense strategies in emerging technologies, such as the Internet of Things (IoT) and cloud computing. Recommendation: ISMG 4700 or equivalent is advised, but not required, to take course. As a recommendation, ISMG 4700 can be taken concurrently or completed prior. Cross-listed with ISMG 6860. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ISMG 4865 - Digital Forensics Analysis (3 Credits)

From cyberterrorism to identity theft, the digital age has brought about a change in how crime is being committed. The usage of computers and the Internet in crime has led to the emerging field of digital forensics. Most businesses employ digital forensic experts to identify cyber threats, protect against insider threats, reinforce data loss prevention, reduce the risk of identity theft, fraud, and other digital crimes, and aid in the collection of digital evidence for various investigations. This course is designed to provide students the necessary skills to perform an effective digital forensics investigation. It presents a methodological approach to digital forensics, including searching and seizing, chain-of-custody, acquisition, preservation, analysis, and reporting of digital evidence. It covers major forensic investigation scenarios that enable students to acquire necessary hands-on experience on various forensic investigation techniques and standard forensic tools required to successfully carry out a digital forensic investigation leading to the prosecution of perpetrators. Cross-listed with ISMG 6865. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

ISMG 4900 - Project Management and Practice (3 Credits)

Covers the factors necessary for successful management of enhancement projects. Both technical and behavioral aspects of project management are discussed. The focus is on management of development for enterprise-level systems. Topics include: managing the system lifecycle; requirements determination, logical design, physical design, testing, implementation; metrics for project management; managing expectations: superiors, users, team members and others related to the project; determining skill requirement and staffing the project; cost-effectiveness analysis; reporting and presentation techniques; effective management of both behavioral and technical aspects of the project; change management. Oral and/or written communication skills are applied in this course. Note: Successful completion of this course meets the educational requirements to sit for both the PMP and CAPM exams. Prereq: Students must be a junior status and have completed either: 1. ISMG 3000 or ACCT 4054 and MGMT 3000 and MKTG 3000, OR 2. ISMG 3000 and ISMG 3500 and ISMG 3600. Restriction: Restricted to undergraduate students in the Business School. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Students must be a junior status and have completed either: 1. ISMG 3000 or ACCT 4054 and MGMT 3000 and MKTG 3000, OR 2. ISMG 3000 and ISMG 3500 and ISMG 3600. Restriction: Restricted to undergraduate students in the Business School.

ISMG 4950 - Special Topics (3 Credits)

Seldom offered. This course varies from offering to offering. Typically, it is a research-oriented course exploring new developments in information systems. Prerequisites vary according to topic. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Initial Teacher Education (ITED)

ITED 4700 - Instructional Teamwork Academy (1 Credit)

The academy consists of four modules of varying length for a total of 15 clock hours of instructional time. The course consists of introductory material regarding teamwork, delineation of roles and responsibilities, classroom instruction, and behavior management. Max hours: 1 Credit. Grading Basis: Letter Grade

ITED 4710 - Student Supervision Academy (1 Credit)

The focus of the 15 clock hour academy is the effective management of large groups of students on playgrounds, in lunchrooms, halls, locker rooms, parking lots where buses are loading, on buses and in other instructional settings. Max hours: 1 Credit. Grading Basis: Letter Grade

ITED 4720 - Interpersonal Skills Academy (1 Credit)

The focus of this 15 hour academy is on developing effective interpersonal skills that are necessary for working as part of a team. Throughout this academy importance of issues of diversity based on culture, experience and gender in communication and conflict resolution processes is highlighted. Max hours: 1 Credit. Grading Basis: Letter Grade

ITED 4730 - Personal Growth and Development Academy (1 Credit)

This 15 contact hour academy covers self-appraisals, participation in the evaluation process and plan for continued professional growth and development, stress-management strategies and using creativity in dealing with problematic situations. Max hours: 1 Credit. Grading Basis: Letter Grade

ITED 4740 - Behavior Management (1 Credit)

This academy gives the paraeducator knowledge and skill in instructional methods that support students who have challenging behaviors in inclusive classrooms, resource rooms, self-contained classrooms, domestic settings, and in the community. These modules focus on the interactions that paraeducators have with students whose behaviors are challenging and on the role they play in assisting the professional members of their team with behavior challenges. Max hours: 1 Credit. Grading Basis: Letter Grade

ITED 4750 - Instructional Strategies Academy (1 Credit)

This academy gives the paraeducator knowledge and skills in analyzing the teaching environment and individual student needs for the particular level of support, degree of adaptation or accommodation or modification and instructional method that would best facilitate learning. Max hours: 1 Credit. Grading Basis: Letter Grade

Grading Basis: Letter Grade

ITED 4760 - Instructional Technology Academy (1 Credit)

This 15 contact hour academy is intended to provide paraeducators with skills in operating typical school-wide technologies. The focus is on examining the types of technology used daily, as well as those types that they may not currently have skills in using but which can broaden their repertoire of available skills. Max hours: 1 Credit. Grading Basis: Letter Grade

Grading Basis: Letter Grade

ITED 4770 - Vocabulary and Comprehension (1 Credit)

Paraeducators are provided with the skills needed to assist classroom teachers in meeting literacy needs of students in the areas of vocabulary and comprehension. Skills applicable to assisting diverse populations such as special education, Title 1, ELA, and General Education. Max hours: 1 Credit. Grading Basis: Letter Grade

Grading Basis: Letter Grade

ITED 4780 - Assisting with Phonemic Awareness and Phonics in the Classroom (1 Credit)

This academy provides the paraeducator with skills and techniques needed to assist literacy needs of diverse populations of students with phonemic awareness and phonics as it relates to the early, emergent and fluent reader. Max hours: 1 Credit. Grading Basis: Letter Grade

Grading Basis: Letter Grade

ITED 4790 - Assisting with Reading Fluency in the Classroom (1 Credit)

This academy provides the paraeducator with skills needed to assist literacy needs of diverse populations of students in the area of reading fluency. It covers important fluency concepts and terms and the use of a variety of research-based instructional techniques that improve fluency at the word, phrase, sentence and connected text levels. Max hours: 1 Credit. Grading Basis: Letter Grade

Grading Basis: Letter Grade

ITED 4800 - Grades K-4 Mathematics (1 Credit)

This academy is designed to provide paraeducators with the skills and knowledge needed to assist students, grades K through four, with mathematics skills taught in the classroom. The course content is designed and adapted from standards recommended by the National Council of Teachers of Mathematics. It includes the specific skill building area of number sense, computational techniques, algebraic thinking, geometry, measurement, data and probability as they apply to grades K-4 learners. Max hours: 1 Credit.

Grading Basis: Letter Grade

ITED 4810 - Number Theory and Rational Numbers (1 Credit)

This academy provides paraeducators with the skills and knowledge needed to assist students with specific mathematics skills typically taught in grades five through eight. This academy solidifies the concepts learned in assisting with K-4 math and provides a base for assisting with high school mathematics. It includes the specific skill building areas of number sense; computational techniques for fractions, decimals and percents and their related applications as they apply to intermediate and middle school learners. The course content is designed and adapted from the standards recommended by the National Council of Teachers of Mathematics. Max hours: 1 Credit.

Grading Basis: Letter Grade

ITED 4820 - Algebraic Concepts and Spatial Reasoning (1 Credit)

This academy provides paraeducators with the skills and knowledge needed to assist students, grades 5-8, with the mathematics skills taught in the classroom. The course content is designed and adapted from standards recommended by the National Council of Teachers of Mathematics. It includes the specific skill building areas of real number building properties; graphical representations; algebraic concepts and problem solving; data and probability; and spatial reasoning skills as they apply to intermediate and middle school learners. Max hours: 1 Credit.

Grading Basis: Letter Grade

Instructional Technology (INTE)

INTE 2000 - Digital Teaching and Learning (3 Credits)

Survey of technology for: (1) your own learning, informally and in classes; (2) your students' learning when you become a teacher; and (3) sharing with peers and colleagues. Use tools to address problems of equity, access, and learning needs. Max hours: 3 Credits.

Grading Basis: Letter Grade

INTE 2500 - #Learning: Digital Spaces and Far Out Places (3 Credits)

Digital media have transformed where, how, and why people learn. In this course we examine contemporary developments in digital media and learning. and explore topics such as social networking and media, virtual and augmented reality, civic media, gamified learning, and mobile learning. This is a hands-on and minds-on course where we immerse ourselves in digital spaces to build projects that support our civic, communication and collaboration, and creative interests. Come and learn to use digital media to enhance your life, community, and beyond! Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

INTE 3000 - Maker Studio (3 Credits)

The maker studio is a collaborative practicum within the context of maker culture, project based learning, and learning experience design. The course focuses on the practical translation of learning design theory to learning design reality, presenting learners with challenges to be resolved with creative solutions. Max hours: 3 Credits.

Grading Basis: Letter Grade

INTE 4010 - Humanizing Learning Design (3 Credits)

Humanizing Learning Design considers and respects learner diversity, including differences in ability and personal background. Students critique and create course materials that are mindful of the whole person, align with accessibility standards and follow universal design guidelines. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4100 - Learner-Centered Instructional Design (3 Credits)

Instructional design is the process used to analyze, design, develop, and evaluate learning solutions. You will identify a gap in learning or performance and design a learning solution in the form of courses units, modules, and other instructional resources. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4300 - Critical Digital Literacies (3 Credits)

Critical Digital Literacies surveys intersections among literacy studies, digital media, and critical education. The course blends theory with practice, and design with leadership, to immerse students among the communities, developments, and debates pertinent to critical digital literacies. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5300. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4320 - Games and Learning (3 Credits)

This course examines the use of games for learning and education across formal and informal environments. Students will survey contemporary learning theory, media, trends, and challenges related to designing and playing games in informal, community-based, online, and school settings. Cross-listed with INTE 5320. Restriction: Restricted to Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4340 - Learning with Digital Stories (3 Credits)

This course reviews the uses of digital storytelling for learning. Develop and publish a short digital story that tells something important about you and your interests. Explore ways that creating or using digital stories can aid learning and personal growth. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5340. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4660 - Developing Self-Paced Online Modules (3 Credits)

Students use a variety of tools and strategies to develop self-paced eLearning courseware, such as tutorials. The course covers critical aspects of the instructional development process that support the creation of effective self-paced online learning experiences, materials and resources. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5660. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4680 - Producing Media for Learning (3 Credits)

Students develop and integrate media resources into eLearning environments, applying principles of media selection and multimedia learning. Students explore a variety of tools for producing audio, video, and multimedia content and examine ways to enhance eLearning courses through multimedia presentation and engagement resources. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5680. Max hours: 3 Credit Hours.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

INTE 4711 - Creative Designs for Instructional Materials (3 Credits)

This course is a project-based exploration of design theories, principles, and best practices for communicating information to diverse learning audiences. Students apply unique design approaches and formats to the creation of materials for teaching, learning, and being of service to underrepresented communities. Restriction: Restricted to Junior standing or higher. Cross-listed with INTE 5711. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Interdisciplinary Arts (ARTS)

ARTS 1000 - Arts In Our Time (3 Credits)

Multidisciplinary course designed to introduce students to the ways in which arts work and how the arts shape our perception of the world around us. Each student selects three four-week modules designed to examine each of the disciplines of fine arts, music and theatre, in the context of the creative process, audience perception and historical perspective. Every five weeks, students from each of the modules join forces in a week of "Inter-arts" sessions – lectures and discussions about the relationship of the arts to each other and to our contemporary culture. Topics which are addressed in the modules include such things as American musical theatre, perception of jazz, public sculpture, light as art, sonic explorations, photography, history of production design, women in American music and censorship. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARTS 1111 - First-Year Seminar (3 Credits)

The course explores the nature of creative inspiration, its potential and implementation. Through individual and collaborative projects, students investigate the interdisciplinary composition and development of the literary, visual and performing arts and their aesthetic, social and political impact. Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

ARTS 1150 - Topics in Cross-Disciplinary Arts I (1-3 Credits)

Designed to explore the ways in which the arts are a part of daily life. Research and observation of the variety of ways in which the arts are utilized. Prepares students to participate in special projects. Specific topics and projects change each semester. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

ARTS 1400 - The Horror Film (3 Credits)

This course is an analysis of the horror film genre and its significance as a reflection on society. It will look at both the history and development of this genre and the impact these films have had. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARTS 1500 - The Art and Entertainment Industry (3 Credits)

This multidisciplinary course presents a structural overview of multiple arts and entertainment industries. It examines macro themes of intellectual property, audience development and artist development. The course focuses on specific sectors such as the film, music, art, broadcasting, video gaming and the internet, and the art/museum sector. Max Hours: 3 Credits.

Grading Basis: Letter Grade

ARTS 1700 - CMTC Topics in Transdisciplinary Practice (1-6 Credits)

Specialized topics are investigated via future- and professionally– focused curricula that utilize transdisciplinary collaboration, creativity and innovative approaches to real-world problems. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ARTS 2150 - Topics in Cross-Disciplinary Arts II (1-3 Credits)

Provides opportunities for students to apply artists' methods and media in a non-presentation setting. Experiential research is centered around a specific topic each semester, but enable students to discover a broader understanding of the arts. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ARTS 2700 - CMTC Topics in Transdisciplinary Practice (1-6 Credits)

Specialized topics are investigated via future- and professionally– focused curricula that utilize transdisciplinary collaboration, creativity and innovative approaches to real-world problems. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ARTS 3150 - Topics in Cross-Disciplinary Arts III (3 Credits)

Focuses on the ways in which the arts are engaged in communities as expressions of identity as well as agents of change. Historical research and applied projects provide a foundation for participation in designated team projects. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Summer.

ARTS 3400 - World Cinema (3 Credits)

This course will examine representative examples of films from around the world to understand the current interests and concerns of world cinema, as well as to learn what concerns various countries around the world, and how those concerns are expressed. Max hours: 3 Credits.

Grading Basis: Letter Grade

ARTS 3700 - CMTC Topics in Transdisciplinary Practice (1-6 Credits)

Specialized topics are investigated via future- and professionally– focused curricula that utilize transdisciplinary collaboration, creativity and innovative approaches to real-world problems. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

ARTS 4150 - Topics in Cross-Disciplinary Arts IV (1-6 Credits)

Investigates the historical and critical perspectives of the arts in a variety of contexts. Specific topics provide a focus for students to discover the ways in which the arts inform each other and are shaped by the events of the world. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Summer.

ARTS 4700 - CMTC Topics in Transdisciplinary Practice (1-6 Credits)
Specialized topics are investigated via future- and professionally-focused curricula that utilize transdisciplinary collaboration, creativity and innovative approaches to real-world problems. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

ARTS 4939 - Internship (1-3 Credits)

Students build professional skills and increase their understanding of creative industries through experiential learning and course work designed to expand internship experiences into powerful learning. Assigned readings, group discussions, weekly summaries, and final paper/presentation support and reflect internship activities and build interpersonal, organizational, and industry specific skills while increasing knowledge of business practices and professionalism. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

Interdisciplinary Studies (IDST)

IDST 4000 - Special Topics (1-3 Credits)

Cross-listed with IDST 5000. Note: May be taken more than once for credit when topics vary. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

IDST 4010 - Foundations of STEM Communication (3 Credits)

This course will provide students with an introduction to STEM communication and offer opportunities for developing STEM content for a variety of audiences across multiple formats. These formats span written, oral, digital, and social media communication. Through classroom exercises and assignments, students will understand the role of communication in shaping perceptions, knowledge, decisions and ultimately realities vis-a-vis STEM. They will also learn to provide critical analysis of popular mainstream STEM communication and be able to identify basic expectations and constraints of STEM communication across audience and context. The class will explore approaches to communicating concepts in STEM disciplines to a variety of audiences through practice. Ultimately, the students will develop the skills and resources necessary to enable effective communication of complex STEM ideas to a wide range of audiences. Note: Students may not earn credit if they have already received credit for IDST topics courses with a similar title. Suggested background: Students are recommended to have completed at least one undergraduate sequence in a STEM discipline before enrolling in this course. Cross-listed with IDST 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

IDST 4660 - Visual Arts: Its Past, Present, and Interpretations (3 Credits)

Provides graduate-level interdisciplinary study in the historiography, methodologies, and theories used to understand how visual arts, including painting, sculpture, photography, film and performance art influence the making of culture. Students gain critical skills for analyzing a variety of visual and aesthetic products of culture. Cross-listed with HUMN 5660, HUMN 4660, IDST 5660. Max hours: 3 Credits.

Grading Basis: Letter Grade

IDST 4720 - Sex, Gender, and Visual Representation (3 Credits)

Studies sexuality, gender and identity representation from classical antiquity through the present in the visual arts. Uses the literature of visibility, feminism, race and queer theory. Explores representations of femininity, masculinity and androgyny and their reinforcement and challenge to gender-identity norms. Cross-listed with HUMN 5720, HUMN 4720, IDST 5720, WGST 4720, WGST 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

IDST 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with SJUS 4770, SJUS 5770, HUMN 4770, HUMN 5770, IDST 5770, SSCI 4770, SSCI 5770, WGST 5770, WGST 4770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Interior Design (INTD)

INTD 1005 - Introduction to Interior Design (3 Credits)

This course is an introduction to the practice and principles of Interior Design. Providing an overview of design theory and process while exploring key elements such as furniture, texture, color, lighting, sustainability, and materiality shaping the built environment. Max hours: 3 Credits.

Grading Basis: Letter Grade

INTD 2000 - Global History & Theory of Interior Design (3 Credits)

Students will gain knowledge about the history of interiors in relation to architecture, art history, decorative arts, furniture, and material culture from western and non-western perspectives. Students will gain knowledge of technologies affecting interior design and gain an awareness of human and environmental behavior theories that inform design. Restriction: Restricted to undergrads with sophomore standing or higher. Cross-listed with INTD 5000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students with sophomore standing or higher.

INTD 3100 - Drawing Out the Interiors (3 Credits)

In this course, students gain an understanding of elements and principles of design, including spatial definition, organization, and human-centered design through precedence studies and on-site spatial analysis. Students develop 2d and 3d visualization skills, and gain knowledge of analog and digital tools to effectively communicate design ideas from conceptualization and design development integrating furnishings, products, materials, and finishes. Restriction: Restricted to undergrads with sophomore standing or higher. Cross-listed with INTD 5100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students with sophomore standing or higher.

Typically Offered: Fall.

INTD 3686 - Special Topics in Interior Design (3 Credits)

Various topical concerns are offered in interior design history, theory, elements, concepts, methods and implementation strategies, and other related areas. Repeatable. Max hours: 24 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 24.

Typically Offered: Fall, Spring, Summer.

INTD 3949 - Interior Design Internship (3 Credits)

This course is designed to provide professional practice experience to students and is composed of eight hours per week work in a practicing professional's office during the regular semester. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Typically Offered: Fall.

INTD 4000 - Light, Color, Materials and Detailing (3 Credits)

Students will understand and apply principles and theories of light and color in relation to environmental impact and well-being. Students will understand interior construction in relation to base building systems and apply sustainable building practices to project-based assignments. Restriction: Restricted to undergrads with junior standing or higher.

Cross-listed with INTD 6000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Typically Offered: Fall.

INTD 4100 - Design Thinking and Collaboration (3 Credits)

Design thinking strategies and learning to work collaboratively across disciplines form the basis of this course. Students develop practical skills utilizing design thinking methods to problem solve on team-based projects pertaining to the built-environment. Restriction: Restricted to undergrads with junior standing or higher. Cross-listed with INTD 6100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Typically Offered: Fall.

INTD 4200 - Interior Design Workshop (3 Credits)

This workshop introduces a design studio-style course with a hands-on approach. Exploring two and three-dimensional design. Emphasis on fundamental skills and ideas shared across design disciplines, JEDI, and sustainability. Creative processes, visual order, materials, and critical thinking are investigated through applied projects. Students will apply design processes and theories to basic interior design projects, as they learn additional graphic tools, techniques, and standards for effective design communication. Prereq: INTD 3100 or INTD 5100. Restriction: Restricted to students in the Interior Design Minor. Cross-listed with INTD 6200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: INTD 3100 or INTD 5100. Restriction: Restricted to students in the Interior Design Minor.

Typically Offered: Fall.

International Business (INTB)

INTB 1000 - Special Topics (3 Credits)

This topics course at the 1000 level is designed to offer flexibility for the International Business department for lower division special topics classes that are occasionally offered. Students may enroll up to 3 times to total no more than 9 credits but the topics must differ for each course.

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

INTB 1111 - International Social Entrepreneurship (3 Credits)

This course examines the rise of international social entrepreneurship and the innovative solutions that international social entrepreneurs have developed to address some of the world's most pressing social, cultural, economic and environmental challenges. Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

INTB 2939 - Internship (1-3 Credits)

Repeatable. Max Hours: 9 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Repeatable. Max Credits: 9.

INTB 3000 - Global Perspectives (3 Credits)

Globalization brings both opportunities and challenges that need to be fully explored, discussed and understood both by the business and non-business student. This interdisciplinary course is designed to generate awareness and stimulate thought, perspective, and debate on current and emerging issues surrounding globalization—economic, financial, political, cultural, environmental sustainability and others. Restriction: Restricted to undergraduate students with 45 credit hours or more. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students with 45 credit hours or more.

Additional Information: Denver Core Requirement, International Perspectives.

INTB 3939 - Internship (1-3 Credits)

Supervised experiences involving the application of concepts and skills in an employment situation. To enroll in an internship, students must work with the Experiential Learning Center on campus and have a 2.40 GPA or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

INTB 4028 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with ENTP 4028, ENTP 6028, and INTB 6028. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

INTB 4200 - International Marketing (3 Credits)

Studies managerial marketing policies and practices of firms marketing their products in foreign countries. Analytical survey of institutions, functions, policies, and practices in international marketing. Relates marketing activities to market structure and environment. Cross-listed with MKTG 4200. Prereq: MKTG 3000 with a C- or higher. Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a C- or higher.

Additional Information: Denver Core Requirement, International Perspectives.

INTB 4370 - International Financial Management (3 Credits)

Financial management in the international environment. Topics include international capital movements; international operations as they affect the financial functions; foreign and international institutions; and the foreign exchange process. Also considers foreign exchange theory and risk management, financial requirements, problems, sources, and policies of firms doing business internationally. Cross-listed with FNCE 4370. Prereq: FNCE 3000 with a C or higher. Restriction: Restricted to undergraduate Business majors at junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000 with a grade of C or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher

INTB 4400 - Environments of International Business (3 Credits)

Examines the impact of the international business environment on cross-border business. Addresses theories of international business, international trade, and foreign direct investments. Promotes the development of a global mindset and cross-cultural competencies, and hones skills in collecting and analyzing international business information. Prereq: MGMT 3000 with a grade of C- or higher. Restriction: Restricted to undergraduate students with 45 credit hours or more. Cross-listed with MGMT 4400. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires prerequisite course of MGMT 3000 (minimum grade C-). Restricted to undergraduate students with 45 credit hours or more. Additional Information: Denver Core Requirement, International Perspectives.

INTB 4410 - Operations of International Business (3 Credits)

Focuses on the impact of environmental factors on international business operations and the identification and analysis of complex strategic and operational issues facing business firms in global markets. The strategies and structures of international businesses, alternative foreign market entry modes, and the unique roles of various business functions at international business firms are explained and assessed. Prereq: INTB 4400 or MGMT 4400 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with MGMT 4410. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: INTB 4400 or MGMT 4400 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

INTB 4580 - International Transportation (3 Credits)

Analysis of international transportation (primarily sea and air) in world economy. Detailed study of cargo documentation and freight rate patterns. Included are liability patterns, logistics, economics, and national policies of transportation. Prereq: Requires prerequisite course of MKTG 3000 or MKTG 4050 (minimum grade C-). Restriction: Restricted to Business (BUSN) majors with Junior standing or higher only. Cross-listed with MKTG 4580. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires prerequisite course of MKTG 3000 or MKTG 4050 (minimum grade C-). Restricted to Business (BUSN) majors with Junior standing or higher only.

INTB 4840 - Independent Study (1-8 Credits)

Instructor approval required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. Restriction: Restricted to undergraduate business majors with junior standing or higher. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

INTB 4950 - Special Topics in International Business (3 Credits)

Current topics in international business are occasionally offered. Consult the 'Schedule Planner' for specific course offerings or contact an advisor for information. Prereq: Topics vary depending on the topic and the instructor requirements. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

International Studies (INTS)

INTS 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

INTS 2020 - Foundations of International Studies (3 Credits)

Through a combination of lecture, discussion, and hands-on learning activities, students will develop skills and abilities necessary for academic and professional success in the international studies arena, especially critical thinking, connection building, conceptual understanding, and cultural awareness. The course is structured in three phases: (1) core interdisciplinary concepts; (2) regional foci; and (3) global issues. Note: Students may not receive credit for INTS 2020, if they have already received credit for INTS 2000. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

INTS 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"—our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with ETST 3003, HIST 3003, PHIL 3003, RLST 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

INTS 3939 - Internship (1-6 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

INTS 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with HIST 4002, CHIN 4002, ETST 4002, RLST 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

INTS 4152 - Religion & Communication (3 Credits)

This course focuses on the dynamics between religion, culture, and communication and how these have led to intercultural peace, centuries of war, and/or different visions of belonging. This class addresses these dynamics to improve intercultural dialogue and conflict resolution processes, foregrounding the search for justice. Cross-listed with COMM 4152, RLST 4152, COMM 5152, INTS 5152, and RLST 5152. Max hours: 3 Credits.

Grading Basis: Letter Grade

INTS 4611 - Rhetoric of Global Food Policy (3 Credits)

This course examines stakeholder relations, agendas, and debates about global food policy using rhetorical concepts and analysis. Topics include the framing of debates about agriculture, hunger and obesity, the greening of food governance, sustainable food systems, and more. This course fulfills the communication department's pathway course requirement. Cross-listed with COMM 4611. Prereq: Junior standing or higher. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

INTS 4700 - Special Topics (3 Credits)

Note: May be taken more than once for credit when topics vary. Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

INTS 4840 - Independent Study (1-3 Credits)

Directed study based on a specific subfield of international studies. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

INTS 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

INTS 4990 - International Studies Capstone (3 Credits)

A capstone course for students in the International Studies major, the class is designed to facilitate independent student research in the field of international studies and assist students in developing advanced writing and communication skills. Prereq: Students in the course must be declared international studies majors in their final year of coursework (senior status is recommended preparation). Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to International Studies Majors only

Typically Offered: Fall.

INTS 4995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with INTS 5995. Term offered: Fall, Spring, Summer. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Fall, Spring, Summer.

Inworks Innovation Initiative (IWKS)**IWKS 2100 - Human-Centered Design, Innovation and Prototyping (3 Credits)**

Introduces collaborative interdisciplinary design and innovation from a human perspective. Using the wide array of Inworks prototyping facilities, teams of students will design and implement human-oriented projects of increasing scale and complexity, in the process acquiring essential innovation and problem-solving skills. Prereq: none. Participants of all backgrounds are encouraged to register; no previous design or prototyping experience is required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

IWKS 2300 - Fundamentals of Computational Innovation (3 Credits)

Provides a foundation in computational thinking and practices. Students learn to take advantage of computational power in problem solving by writing simple programs, studying the underlying logic of hardware, and working with a variety of technologies. Cross-listed with ENGR 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

IWKS 3100 - 3D Design, Computation and Prototyping (3 Credits)

Introduces the design and computer-controlled fabrication of three-dimensional objects using both additive (3D printing) and subtractive (laser cutter, CNC router/mill) processes. Increasingly complex projects throughout the semester using various CAD/CAM software tools will explore design strategies for digital fabrication. Prerequisites: None; no previous design or prototyping experience is expected or required. Cross-listed with IWKS 5170 and ARCH 3706. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3180 - Inworks: Choose Your Own Adventure: Experiences in Design, Innovation and Prototyping (1-3 Credits)

Provides weekly speakers, workshops and other experiences that educate and enrich across the design, innovation and prototyping landscape. Students may choose to participate in any five (for one credit), ten (for two credits) or fifteen (for three credits) activities. Each week, participating students will attend the scheduled activity, and then create a meaningful response that reflects the impact of that activity on their thinking or practice. Prerequisites: None. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

IWKS 3200 - Data Science for Innovators (3 Credits)

Introduces techniques for capturing, processing, visualizing, and making meaning out of large datasets. With the exponential growth and decreasing cost of data collection tools such as genome sequencing, social media, crowd sourced data, mobile phone apps, remote sensors, and data from other publically available sources, innovators are able to harness a rich array of data in their designs. This course will introduce the fundamentals of working with online data and large data sets, introduce widely used data analysis and visualization tools, and culminate in a cumulative project that incorporates data in a significant way. Suggested Background: IWKS 2300 or similar experience. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

IWKS 3300 - NAND to Tetris: Foundations of Computer Systems (3 Credits)

Introduces the principles of computer systems that underlie the global information age. Starting from first principles, students gradually construct a simple hardware platform and a modern software hierarchy, yielding a working basic yet powerful computer system. Only introductory programming experience is required. Suggested Background: IWKS 2300 or similar computing experience. Cross-listed with CSCI 2940. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3400 - Game Design and Development I (3 Credits)

Introduces principles of computer game development, building on the rich interplay of computer science, graphics design, physics, music, and narrative. Students develop interactive 2D and 3D games and a final project. Substantial software development involved, but requires only introductory programming experience. Suggested Background: IWKS 2300 or similar computing experience. Cross-listed with CSCI 2941. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3540 - Synthetic Biology for Innovators (3 Credits)

Introduces the fundamentals of synthetic biology for those who seek to use it as tool for innovation. Synthetic biology allows us to engineer new biological systems and redesign existing biological components by integrating aspects of biotechnology, evolutionary and molecular biology, systems biology, computer engineering, computational biology, and genetic engineering. Advancement in technological tools and techniques make this material accessible to motivated individuals from many disciplines, and no biology background is required. Culminates with a final team project focused on designing synthetic biology solutions that address human need. Suggested Background: None. No previous background in biology is required. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3550 - Innovation Law and Policy (3 Credits)

Introduces legal and regulatory foundations related to innovation, including intellectual property, telecommunications, electronic commerce, the Internet, biotechnology, ethical and equity considerations, and financing. These issues are examined from the perspectives of the legal, business, capital, development, consumer, and policy-making communities. Suggested background: IWKS 2100. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 3600 - Innovating for the Developing World (3 Credits)

Explores the design and development of products and services that can be sustainably and gainfully used by the world's poorest citizens. Students in interdisciplinary teams will design, implement and evaluate viable solutions to a real problem faced by people in the developing world. The goal is to develop an understanding of the extraordinary challenges faced by individuals for whom basic survival is not a given, and the knowledge and skills necessary to create designs that respond appropriately to those unique circumstances. Provides a foundation for further study and practice in the area of technology and development. Suggested Background: IWKS 2100. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 3620 - Mobile App Development (3 Credits)

Introduces mobile application development, including front-end mobile application clients, data handling, connectivity to back-end services and cloud hosting. The course provides an overview and comparison of technical approaches employed by Apple iOS, Google Android, and cross-platform development environments. Students will install, develop, test, and distribute mobile applications while addressing challenges associated with development for any mobile platform: limited screen size and memory, gesture based GUI, varying connectivity, and the wide variety of target mobile devices. Suggested Background: IWKS 2300 or similar computing experience. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 3700 - Innovation and Society (3 Credits)

Analyzes impact of innovative design on work, sense of self and social systems, in education, healthcare, finance, and other sectors. Investigates how people customize / "hack" technologies they use, and the moral / ethical implications of being designers. Students will research the impact of an innovation of their choice and share via essays, models, videos, or another medium of their choice. Suggested Background: None. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 3850 - Product Design (3 Credits)

Explores the design requirements associated with creating a product that will be manufactured in large quantities and used by potentially thousands of users. These requirements are often very different from those associated with creating a working prototype. This gap between prototype creation and starting a business offers an interesting and unique set of design challenges. As part of the course, teams of students will engage in a realistic product design cycle. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 4100 - Human-Centered Design, Innovation and Prototyping (3 Credits)

Offers a graduate-level introduction to collaborative interdisciplinary design and innovation from a human perspective, as well as introducing key theoretical and computational foundations of innovation. Using the wide array of Inworks prototyping facilities, teams of students will design and implement human-oriented projects of increasing scale and complexity, in the process acquiring essential innovation and problem-solving skills. Prerequisite: None. No previous design or prototyping experience is expected or required. Cross-listed with IWKS 5100. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 4120 - IoT: The Internet of Things (3 Credits)

In a world where everything is connected to everything else, how does that work? This course introduces techniques for (1) designing systems that can sense the environment and respond to humans in meaningful ways and (2) creating networks of physical objects that collect and exchange data. Such systems might include wearable sensors, interactive art, and Internet-connected home devices. Working individually and in teams, students will develop projects using Inworks' materials, devices, and fabrication tools. The course involves considerable prototyping and software development but requires only introductory programming and prototyping experience. Suggested Background: IWKS 2100 & 2300. Cross-listed with CSCI 2942. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 4450 - Game Design and Development II (3 Credits)

Continuation of IWKS 3400, with increased emphasis on more advanced techniques including 3D rendering; lighting simulation; vertex, pixel and geometry shaders; shadows; terrain building; bump, parallax, and parallax occlusion mapping; shading; ray tracing; bloom; and high dynamic range lighting. Suggested Background: IWKS 3400. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 4500 - Bio-Design and Innovation (3 Credits)

Introduces the biodesign innovation process, which involves identifying important human needs and inventing meaningful solutions to address them. The course examines how biotechnology and bio-inspired innovation improve the form and function of our design world through innovative materials and novel approaches to developing buildings, food, medicine, infrastructure and more. Readings and in-class debates will raise critical issues in contemporary bioethics. For their final projects, students will choose to create and prototype a speculative biodesign concept, or work in the bio lab on the development of a real-world biodesign solution of their choosing. Suggested Background: IWKS 2100 & 3100. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 4520 - Design for Healthful Human Longevity (3 Credits)

Introduces contemporary studies, therapies, theories, and research on aging, age related disease, and innovations for longer healthier human lives. Guest lecturers, seminar discussions, readings and discussions will inform student projects that address challenges to prolonged, healthy, disease-free lives. Suggested Background: IWKS 2100 and 3700. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 4650 - Innovating for the Developing World (3 Credits)

Explores the design of products and services that can be sustainably used by the world's poorest citizens. Students design, implement and evaluate solutions to real problems in the developing world. Provides a foundation for further study and practice. Suggested Background: IWKS 3500 & 3600. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 4680 - Case Studies in Design (3 Credits)

Explores why some projects succeed and others fail. Many human-centered interventions fail to meet their designers' objectives, reflecting the unique challenges associated with matching human need with feasibility. Explores how innovators can increase their chances for success by examining several successful (and unsuccessful) designs. Suggested Background: IWKS 2100 & 3700. Max hours: 3 Credits. Grading Basis: Letter Grade

IWKS 4700 - Unconventional Design for Online Learners (3 Credits)

Explores how design-thinking and user-centered design can be used to develop and improve technology-mediated learning. Using a team-based project-oriented approach, students design, develop, and evaluate new modalities for digital education. Projects include ways to educate both general and targeted audiences. Suggested Background: IWKS 3700. Max hours: 3 Credits.

Grading Basis: Letter Grade

IWKS 4800 - StartUp: Creating a New Venture from Scratch (4 Credits)

Teams of students are guided to create and launch a new company in a single semester. Culminates in a "pitchfest" to area entrepreneurs and venture capitalists. One of two alternative capstone courses for the Inworks Minor in Design and Innovation. Requires enrollment in the Inworks HC DI minor or certificate, or instructor permission. Suggested Background: Completion of at least three other Inworks courses. Max hours: 4 Credits.

Grading Basis: Letter Grade

IWKS 4900 - Undergraduate Capstone (4 Credits)

Working closely with project sponsors, students design, implement, and evaluate a project for use in local industry and non-profit organizations. One of two alternative capstone courses for the Inworks Minor in Design and Innovation. Prereq: IWKS 2100 and enrollment in the Inworks HC DI minor or certificate. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: IWKS 2100 and enrollment in the Inworks HC DI minor or certificate

IWKS 4930 - Special Topics in Human Centered Design and Innovation (1-4 Credits)

Emergent issues and professional developments in design, innovation and prototyping. Consult the current online Inworks Course List for semester offerings as new special topics courses are frequently added. With permission, may be repeated for credit. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

IWKS 4970 - Independent Study in Human Centered Design and Innovation (1-4 Credits)

Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to design, innovation and prototyping. With permission, may be repeated for credit. Enrollment requires permission of an Inworks faculty member. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Landscape Architecture (LDAR)

LDAR 1015 - Engaging Landscapes for Wicked Change (3 Credits)

This course will offer students the tools and perspectives to understand how landscapes impact them and others, analyze and describe the forces that inform landscape form, and propose changes to landscapes that will address the wicked problems of our time. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

LDAR 1100 - Be the Change (3 Credits)

This class is for people who want to make the world a better place and have questions such as: Does my voice matter? Can I make the world a better place? Is it possible to have a joyful career that pays me enough and supports positive change at the same time? Restriction: Restricted to Freshman level students. Term offered: Fall, Spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall, Spring.

LDAR 3601 - Intro to Landscape Arch: Engaging Designed Landscape (3 Credits)

This course is an overview of the historical development, social context and contemporary practice of landscape architecture, which has existed as a profession for over 120 years and has been practiced in one form or another for millennia. Restriction: Restricted to undergrads with sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergrads with sophomore standing or higher

LDAR 3690 - Landscape Architecture in Other Cultures (3 Credits)

Study abroad. Various studies of landscape architecture, architecture, urbanism, and design to destinations outside of the continental United States. Cross-listed with LDAR 6520. Restriction: Restricted to Junior standing or higher. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restrictions: Restricted to Junior standing or higher.

Typically Offered: Summer.

LDAR 4420 - Landscape Architecture Theory and Criticism (3 Credits)

Explores and assesses theory in landscape architecture and the concepts, ideas and discourses underlying contemporary design approaches. Emphasizes developing critical understanding of the roles and agency of theoretical inquires in landscape architecture in relation to aligned disciplines. Restriction: Restricted to undergraduate students in the College of Architecture and Planning or instructor permission. Cross-listed with LDAR 6620. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students in the College of Architecture and Planning.

Typically Offered: Spring.

LDAR 4421 - History of Landscape Architecture (3 Credits)

Intro survey course fosters workable understanding of landscape architecture design history and theory and offers a base for understanding trends and ideas influencing contemporary practice. Emphasizes Western Europe and the United States from antiquity to early twentieth century. Prereq: Sophomore standing or higher. Cross-listed with LDAR 5521. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Students must be of sophomore-, junior-, or senior-level standing

LDAR 4430 - Site, Society and Environment (3 Credits)

Sites are defined by relationships within environmental and social settings. Therefore site design should be primarily ethical and secondarily technical. This course examines the implications of this idea through site methodologies, conceptual construction of site, site analysis and site typologies. Restriction: Restricted to students with sophomore standing or higher. Cross-listed with LDAR 6630. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students with sophomore standing or higher.

LDAR 4432 - Landform Manipulation (3 Credits)

Focuses on the fundamental technical aspects of landscape architectural design and site engineering of related topography, grading, drainage design, landform manipulation, earthwork calculations, and road alignment. Restriction: Restricted to undergraduate students in the College of Architecture and Planning or instructor permission. Cross-listed with LDAR 5532. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students in the College of Architecture and Planning.

Typically Offered: Fall.

LDAR 4435 - Community Engaged Design Practice (3 Credits)

Obtain real-world pre-design and conceptual design experience in complex urban environments focusing on evolving trends in sustainability. Using digital trans-disciplinary learning students will develop comprehensive sustainable strategies that draw from their own sustainable philosophy developed during this class. Cross-listed with LDAR 6635 and ARCH 6257. Restriction: Restricted to undergrads with sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergrads with sophomore standing or higher

LDAR 4436 - Urban and Local Food Systems (3 Credits)

In this seminar, we will examine the connections between landscape architecture and food production in cities as well as the role that food production plays in rural landscapes. The course material may be historical, theoretical, or oriented toward contemporary research. Cross-listed with LDAR 6636. Restriction: Restricted to undergrads with sophomore standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergrads with sophomore standing or higher

LDAR 4470 - Plants in Design (3 Credits)

Explores the challenges, opportunities and responsibilities of designing with living, growing, and ever-changing organisms. Students learn to identify plants that are commonly used in the Colorado region and the principles, theories, methods, and techniques for planting design. Restriction: Restricted to undergraduate students at a junior standing or higher. Cross-listed with LDAR 6670. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students at a junior standing or higher

LDAR 4472 - Ecology for Landscape Architects (3 Credits)

Course emphasizes continuity and change in an ecology of the natural and man-made landscape. Focuses on biological, geophysical, cultural, and perceptual factors involved in landscape, spatial organization, and urban and regional structure. Introduces field ecology for landscape architecture. Restriction: Restricted to undergraduate students in the College of Architecture and Planning, or instructor permission. Cross-listed with LDAR 5572. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate students in the College of Architecture and Planning.

Typically Offered: Fall.

LDAR 4486 - Special Topics in Landscape Architecture (3 Credits)

Lectures, discussion, and projects exploring topics in landscape architecture drawn from current practice, contemporary issues of design and the built environment, and/or landscape history and theory. Focus and content vary each term. Prereq: Sophomore standing or higher. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Students must be of sophomore-, junior-, or senior-level standing

Latin (LATN)

LATN 1010 - Elementary Latin I (5 Credits)

Introduces grammar, syntax, and vocabulary of Classical Latin, with an emphasis on preparing students to read Latin while improving English grammar and vocabulary skills. Two semesters of Latin may be used to fulfill the CLAS language competency requirement. Term offered: fall. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

LATN 1020 - Beginning Latin II (5 Credits)

Completes the presentation of basic Latin grammar, syntax and vocabulary. Introduces students to Latin literature through readings in select authors adapted to meet the needs of beginning students. Note: This course assumes that students have passed LATN 1010 or equivalent, or have taken one year of high school Latin, or possess equivalent proficiency. A grade of C- or higher in LATN 1010 is recommended for success in this course. Term offered: spring. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

LATN 1050 - Vocabulary for Professionals (3 Credits)

Studies English words derived from Latin and Greek by analyzing their component parts (prefixes, stems, and suffixes). Cross-listed with ENGL 1050. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

LATN 2010 - Intermediate Latin I (3 Credits)

Introduces advanced Latin grammar, vocabulary, syntax, and stylistics of Latin prose via readings in Caesar, Cicero and Livy. Includes review of basic Latin grammar, plus introduction to Latin prose composition and Latin rhetoric. Emphasis on historical, cultural, social context of authors and works. Note: This course assumes that students have passed LATN 1020 or equivalent, or have taken two years of high school Latin, or possess equivalent proficiency. A grade of C- or higher in LATN 1020 is recommended for success in this course. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

LATN 2020 - Intermediate Latin II (3 Credits)

(Continuation of LATN 2010.) Completes the presentation of advanced Latin grammar, vocabulary, syntax, and stylistics of Latin prose. Continues the study of Latin prose composition and Latin rhetoric with emphasis on historical, cultural, and social context of authors and works. Note: This course assumes that students have passed LATN 2010 or equivalent, or have taken three years of high school Latin, or possess equivalent proficiency. A grade of C- or higher in LATN 2010 is recommended for success in this course. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

LATN 2840 - Independent Study (1-3 Credits)

Department consent required. Repeatable. Max hours: 3 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

LATN 3000 - Medical Terminology (3 Credits)

The course enables students to understand medical terms by learning the Greek and Latin word elements that form these terms. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Summer.

LATN 3840 - Independent Study (1-3 Credits)

Department consent required. Repeatable. Max hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

LATN 4840 - Independent Study (1-3 Credits)

Department consent required. Repeatable. Max hours: 12 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

Linguistics (LING)

LING 2000 - Foundations of Linguistics (3 Credits)

Provides students with the foundations of the scientific study of language. Examines core areas within theoretical linguistics, sociolinguistics, historical linguistics, language acquisition, and writing systems, using a variety of languages. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Behavioral Sciences.
Typically Offered: Fall, Spring.

LING 3100 - Language in Society (3 Credits)

Introduces students to language use in the context of American society. Examines the interaction between language and age, gender, race, ethnicity, education, income, social class, language attitudes, policy and politics. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Cultural Diversity.
Typically Offered: Fall, Spring.

LING 4690 - Methods of Teaching Modern Languages (3 Credits)

Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition). Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with MLNG 4690, MLNG 5690, SPAN 4690, SPAN 5690, FREN 4690, FREN 5690, GRMN 4690, GRMN 5690, CHIN 4690, CHIN 5690. Max hours: 3 Credits.

Grading Basis: Letter Grade
Typically Offered: Fall.

LING 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with MLNG 4691, MLNG 5691, SPAN 4691, SPAN 5691, FREN 4691, FREN 5691, GRMN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade
Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690
Typically Offered: Spring.

Literacy, Lang, & Culturally Responsive Teaching (LCRT)

LCRT 2000 - Rebels, Villains, & Superheroes: How Children's Literature Shapes Our Identities (3 Credits)

This course explores both classic and contemporary children's and adolescent literature and media in traditional and digital texts, specifically focusing on developing literary understandings, exploring perspectives and personal responses to literature, and inquiring into trends and issues. Max hours: 3 Credits.

Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Humanities.

LCRT 3720 - Introduction to Writing Development and Teaching (3 Credits)

This course introduces students to writing development in children from early childhood through 5th grade. Students will learn how to analyze student writing for strengths and needs in order to design effective writing instruction. Prereq or coreq: EDHD 2930 and LCRT 4710. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade
Prereq or coreq: EDHD 2930 and LCRT 4710. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours.

LCRT 3815 - Once Upon a Time: Family Literacies in Culturally Diverse Communities (3 Credits)

This course uses sociocultural theory and perspectives as these relate to family systems and the intersection of culture, literacies, and education. Students develop an understanding about the ways reading, writing and language are embedded in family's homes, schools, and communities.

Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

LCRT 4000 - Elementary Literacy Instruction and Assessment Part 1 (3 Credits)

This course develops an appreciation, understanding, and application of literacy assessment and instruction in PK-6 classrooms. Interns learn how to use various types of assessment and instruction for reading and writing that address the literacy needs of PK-6 Students. Cross-listed with LCRT 5000. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4001 - Elementary Literacy Instruction and Assessment Part 2 (3 Credits)

This course develops an appreciation, understanding, and application of literacy assessment and instruction in PK-6th classrooms. Interns learn how to use various types of assessment and instruction for reading and writing that address the literacy needs of PK-6th Students. Cross-listed with LCRT 5001. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4100 - Secondary Literacy Instruction and Assessment (3 Credits)

Provides knowledge and practice in using specific literacy methods to enhance students' content learning and literacy development in middle schools and high schools. Various methods of literacy assessment to guide instruction for students are emphasized. Instructional strategies for special populations, especially speakers of English as a second language, are also addressed. Cross-listed with LCRT 5100. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4200 - Theory and Methods of Teaching Secondary English (3 Credits)

Focuses on teaching/learning theories and practical classroom strategies for teaching English Language Arts to adolescent learners in middle school, junior high school and high school classes. Cross-listed with LCRT 5200. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4201 - Teaching and Learning with Diverse Adolescent Literature (3 Credits)

LCRT 4/5201 is grounded in the belief that individuals are more motivated to read when given choices about what they read. This course provides the opportunity to read a range of diverse adolescent literature in a variety of genres including fiction, non-fiction, novels in verse, graphic novels, and consider implications for teaching and learning. Restriction: Professional Year Admission required. Cross-listed with LCRT 5201. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

LCRT 4210 - Literacy Development Pre K-3rd Grade (3 Credits)

Focuses on children's developing literacy understandings and proficiencies beginning in the preschool years. Attention is given to language development, assessment, and instruction in pre-kindergarten through third grade, partnerships with community literacy institutions provide information on their use for literacy development. Cross-listed with LCRT 5210. Max hours: 3 Credits.

Grading Basis: Letter Grade

LCRT 4220 - Literacy Routines & Assessment, Pre K-3rd Grade (3 Credits)

This course will focus on the routines and practices which allow for student specific instruction and assessment in the Early Literacy classroom. Participants will examine and critique current literacy routines and assessments needed to best meet the needs of culturally and linguistically diverse children. Cross-listed with LCRT 5220. Max hours: 3 Credits.

Grading Basis: Letter Grade

LCRT 4230 - Early Literacy Instruction (3 Credits)

Participants will examine Pre K-3rd grade literacy instruction to understand how to meet the needs of young students. The course will analyze instructional practices for young gifted, special needs and English language learning students to best meet the needs of all learners. Cross-listed with LCRT 5230 Max hours: 3 Credits.

Grading Basis: Letter Grade

LCRT 4710 - Inclusive Early Literacy Development and Instruction (3 Credits)

LCRT 4/5710 provides a scientifically informed foundation in early literacy acquisition and instruction in PreK-3 with attention to responsive and inclusive instruction for MLLs. It presents key conceptual and research foundations of the Science of Reading needed to understand how reading develops and how to deliver effective literacy instruction. The course is designed to enhance the student's ability to formulate and implement a marketing plan and to better understand the relationship of marketing to other business functions. Emphasized application of marketing concepts through the use of cases, simulations or projects. Prereq: MKTG 3000 with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

MKTG 4200 - International Marketing (3 Credits)

Studies managerial marketing policies and practices of firms marketing their products in foreign countries. Analytical survey of institutions, functions, policies, and practices in international marketing. Relates marketing activities to market structure and environment. Prereq: MKTG 3000 with a grade of C or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with INTB 4200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a C- or higher.

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

MKTG 4250 - Sports Marketing (3 Credits)

This course is designed to understand and evaluate the role and functions of marketing in sports organizations. The course seeks to evaluate the marketing function in sports as well as understand the behavior of fans as consumers, celebrity product endorsements, sponsorship of sporting events for all sport providers, sports intermediaries and channels and advertising and promotion in the sports world. The course is taught using lectures, guest speakers, cases and examinations. Prereq: MKTG 3000 with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

MKTG 4251 - Music and Media Marketing (3 Credits)

This course explores strategies, tactics and best practices utilized in the marketing of music, performing and dramatic arts. From recording artists and movie studios to repertory theater companies and symphony orchestras, artists and organizations need sound marketing strategies to engage audiences, sell tickets, and market merchandise to maintain profitable and sustainable operations. Restriction: Restricted to undergraduate Business Students with Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

MKTG 4252 - The Business of Sports (3 Credits)

This course focuses on strategic business issues in the sports industry. It covers business issues for both spectator sports and individual participant Sports. Spectator sports include football, basketball, hockey, baseball, extreme competitive sports, Olympic sports etc.). Participant sports include outdoor adventure Sports (e.g., Hiking, whitewater rafting, Biking), skiing, golf, tennis, and youth sports. Topics include industry trends, strategic planning, management challenges, financing in sports, and major legal issues in sports. Prereq: MKTG 3000 with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

MKTG 4580 - International Transportation (3 Credits)

Analysis of international transportation (primarily sea and air) in world economy. Detailed study of cargo documentation and freight rate patterns. Included are liability patterns, logistics, economics, and national policies of transportation. Prereq: MKTG 3000 or MKTG 4050 with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with INTB 4580. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires prerequisite course of MKTG 3000 or MKTG 4050 (minimum grade C-). Restricted to Business (BUSN) majors with Junior standing or higher only.

MKTG 4620 - Customer Service Strategies (3 Credits)

This course is designed to help students identify and effectively use managerial concepts of customer service. Students will develop an understanding of the concepts as well as knowledge of the strategies that will lead to higher levels of customer satisfaction, loyalty and ultimately customer retention. Students will have the opportunity to gain firsthand knowledge of these concepts and strategies through lectures, guest speakers, cases and projects. Prereq: MKTG 3000 with a C- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

MKTG 4700 - Personal Selling and Sales Management (3 Credits)

Introduces the student to principles of personal selling and issues in managing the field sales force. Focuses on models of personal selling, recruiting, selection, training, compensation, supervision, and motivation, as well as organizing the field sales force, sales analysis, forecasting and budgeting. Prereq: MKTG 3000 with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

MKTG 4730 - New Product Development for Consumer and Sports Products (3 Credits)

The creation of new products is essential in today's business environment. It is conducive to organizational growth and long-term survival. This course addresses the new product development process in depth. It introduces students to key concepts and issues. It also provides a series of practices which will help students deliver higher value and be more competitive. Prereq: MKTG 3000 with a C- or higher. Restriction: Restricted to undergraduate Business majors at a junior standing or higher. Cross-listed with ENTP 4730. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

MKTG 4760 - Customer Relationship Management (3 Credits)

This marketing-theory driven course examines customer relationship management (CRM) as a key strategic process for organizations. Composed of people, technology and processes, effective CRM optimizes the selection or identification, acquisition, growth and retention of desired customers to maximize profit. Besides presenting an overview of the CRM process, its strategic role in the organization and its place in marketing, students have an opportunity to create simulated CRM database using popular software package that help to illustrate what CRM can do, its advantages and limitations. Prereq: MKTG 3000 with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Cross-listed with ISMG 4760. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

MKTG 4780 - Preparing Business Plan (3 Credits)

Turn a new business idea into a viable new business by developing a comprehensive business plan including: analysis of the potential demand for the product or service and potential customers; identify competitive advantages and marketing strategies; generate pro forma financial projections; and, design the management team needed. Prereq: ENTP 3000 AND either ENTP 3500 with a grade of 'C-' or higher or BLAW 4120 or ENTP 3120 with a grade of 'C' or higher. For non-business majors only. Can be applied to Entrepreneurship Certificate. Business majors enroll in either MGMT 4780 or MKTG 4780. Come to first class meeting with a carefully considered business idea. Cross-listed with MGMT 4780 and ENTP 3780. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENTP 3000 AND either ENTP 3500 with a grade of 'C-' or higher or BLAW 4120 or ENTP 3120 with a grade of 'C' or higher.

MKTG 4784 - Sales Negotiation (3 Credits)

This course focuses on developing advanced professional sales and negotiation skills utilized in successful organizations. Prereq: MKTG 3000 with a grade of C- or higher. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits

Grading Basis: Letter Grade

Prereq: MKTG 3000 with a grade of C- or higher Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

MKTG 4800 - Marketing Seminar (3 Credits)

Offered to provide consideration of a wide variety of topical issues in marketing, such as, services marketing, pricing, product development or creative marketing strategies. Prereq: MKTG 3000. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergraduate Business majors with junior standing or higher

MKTG 4834 - London Calling: Global Sports & Entertainment Management (3 Credits)

Through 2 weeks of visiting organizations and talking with industry elite in London a broader perspective on the Sports and Entertainment Industry is gained. Students will be asked to do advanced reading, participate in discussions, keep a journal and write a reflection paper at the end of the experience. Site visits (to be confirmed) include: Arsenal Football Club, Premier League, the O2 Arena, NHL and NBA regular season games in London, 2012 Olympics Committee, Formula One, Hollywood Studio-International Finance Office, Theatre, Lord's Cricket Ground, All England Lawn Tennis Club/Wimbledon and the office of the Minister of Sport. Prereq: MGMT 3000. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Cross-listed with MGMT 4834, MGMT 6834, and MKTG 6834. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MGMT 3000. Restriction: Restricted to undergraduate Business majors with junior standing or higher.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

MKTG 4840 - Independent Study (1-8 Credits)

This course requires program director permission and faculty sponsor. Repeatable at discretion of program director to a total of 8 credits.

Restriction: Restricted to undergraduate Business majors with junior standing or higher. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

MKTG 4950 - Special Topics (3 Credits)

Courses offered on an irregular basis for the purpose of presenting new subject matter in marketing. Prerequisites vary depending upon the particular topic and instructor requirements. Restriction: Restricted to undergraduate Business majors with junior standing or higher.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to undergraduate Business majors with junior standing or higher

Math Content Knowledge for Ed (MCKE)

MCKE 3041 - Number and Operation (3 Credits)

First of three courses designed for prospective elementary teachers. Emphasis placed on the real number system and arithmetic operations. Explorations focus on place value, additive and multiplicative reasoning, the division algorithm and rational numbers. Content presented using problem solving and exploration. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MCKE 3042 - Algebra, Probability and Data Analysis (3 Credits)

Second of three courses designed for prospective elementary teachers. Emphasis placed on algebra, probability, and data analysis. Explorations focus on representing, analyzing, generalizing, formalizing, and communicating patterns and probabilities. Content presented using problem solving and exploration. Note: This course assumes that students have taken MCKE 3041. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Math Education (MTED)

MTED 3040 - Mathematics for Elementary Teachers (3 Credits)

Key mathematical concepts for K-6 teachers informed by NCTM & Common Core State Standards, such as place-value number systems, rational, proportional, & algebraic reasoning, geometrical concepts, & statistical/probability ideas. Students' meaningful, enjoyable learning is promoted via problem solving activities. Cross-listed with MTED 5400. Max hours: 3 Credits.

Grading Basis: Letter Grade

MTED 4002 - Elementary Mathematics Teaching I (3 Credits)

Prepares elementary teachers to teach mathematics to PreK-6 students while applying principles of the National Council of Teachers of Mathematics to mathematical learning. Teachers explore ways to help all elementary students become flexible and resourceful mathematical problem solvers. Cross-listed with MTED 5002. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

MTED 4003 - Elementary Mathematics Teaching II (3 Credits)

Develops the mathematical and pedagogical understandings and competence of elementary teachers, focusing on instructional assessment, principles, and practices. Cross-listed with MTED 5003. Prereq: MTED 4002 or MTED 5002. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MTED 4002 or 5002. Restriction: Professional Year Admission Required. ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

MTED 4621 - A World of (Different) Numbers: Quantity and Operation (3 Credits)

Develops K-12 teachers' understanding of number systems and the ability to foster students' understanding. Focuses on number, quantity, and operation. Applicable to teaching students at all grade levels in line with the K-12 Common Core Standards. Cross-listed with MTED 5621. Max hours: 3 Credits.

Grading Basis: Letter Grade

MTED 4622 - Expanding Conceptions of Algebra (3 Credits)

Develops K-12 teachers' understanding of algebra concepts and the ability to foster students' understanding. Focuses on equivalence, variable, covariation, and function. Applicable to teaching students at all grade levels in line with the K12 Common Core Standards. Cross-listed with MTED 5622. Max hours: 3 Credits.

Grading Basis: Letter Grade

MTED 4623 - Geometrical Ways of Reasoning (3 Credits)

Develops K-12 teachers' geometrical reasoning and the ability to foster students' reasoning. Addresses transformation, measurement, classification, objects, imagery, formulas, and investigation. Applicable to teaching students at all grade levels in line with the K-12 Common Core Standards. Cross-listed with MTED 5623. Max hours: 3 Credits. Grading Basis: Letter Grade

Mathematics (MATH)

MATH 1010 - Mathematics for the Liberal Arts (3 Credits)

Designed to give liberal arts students the skills required to understand and interpret quantitative information that they encounter in the news and in their studies, and to make quantitatively-based decisions in their lives. Topics include a survey of logic and analysis of arguments, identifying fallacies in reasoning, working with numbers and units, linear and exponential relations and essentials of probability and statistics. The emphasis is on applications with case studies in economics, finance, environmental sciences, health, music and science. Note: This course assumes that students have knowledge equivalent to three years of high school mathematics (two years of algebra). Requisite: In order to promote student success, any student who has an ACT MATH score less than 19 (or equivalently an SAT MATH score less than 520) AND a H.S. GPA of less than 3.25 will be required to enroll in the one credit hour co-requisite workshop MATH 1011. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1

Grading Basis: Letter Grade

In order to promote student success, any student who has an ACT MATH score less than 19 (or equivalently an SAT MATH score less than 520) AND a H.S. GPA of less than 3.25 will be required to enroll in the one credit hour co-requisite workshop MATH 1011.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 1011 - Math for Liberal Arts Workshop (1 Credit)

Prepares students for college-level mathematics. Students receive one-on-one and small-group instruction on mathematics topics related to college level mathematics success. Coreq: MATH 1010. Term offered: fall, spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: MATH 1010

Typically Offered: Fall, Spring.

MATH 1060 - Finite Mathematics (3 Credits)

This course is designed to introduce students to mathematics topics commonly encountered by business students. This course meets the universities CORE mathematics requirement. The topics include linear equations and inequalities, linear, quadratic, exponential and logarithmic functions, simple, compound and continuous interest, future and present value annuities, amortization, systems of equations, linear programming, logic, sets and probability. Graphing technology is used extensively and business applications are emphasized throughout. Terms offered: Fall and Spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Mathematics.

MATH 1070 - College Algebra for Business (3 Credits)

Covers the same mathematical topics as College Algebra, MATH 1110, but with business applications. Note: Graphics calculator required. Note: Students may not receive credit for this course if they have already received credit for MATH 1110 or MATH 1130. Note: 24 on ACT-Math, 560 on SAT-Math or above average performance in intermediate algebra, algebraic literacy or integrated math are strongly recommended as preparation for this course. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

Additional Information: GT courses GT Pathways, GT-MA1, Mathematics.

MATH 1080 - Calculus for Social Sciences and Business (3 Credits)

A one-semester course in single-variable calculus. Topics include limits, derivatives, differentiation rules, integration and integration rules. Emphasis is on applications to business and social sciences. Note: No knowledge of trigonometry is required. Those planning to take more than one semester of calculus should take MATH 1401 instead of MATH 1080. Prereq: MATH 1070 or MATH 1110 with a C- or higher is required for students to register for this course. No co-credit with MATH 1401. Max hours: 3 Credits.

Grading Basis: Letter Grade

MATH 1070 or MATH 1110 with a C- or higher

MATH 1108 - Stretch College Algebra-Part 1 (3 Credits)

This course is the first half of a two-semester sequence (consisting of MATH 1108 followed by MATH 1109). The two-semester course sequence is equivalent to MATH 1110 (College Algebra). The topics in algebra are designed for students who intend to take the calculus sequence. An in-depth study of functions, linear and quadratic equations, circles, inequalities, domain & range, piecewise and transformation of functions, mathematical modeling and select other topics are explored. Desmos graphing technology is used extensively and students will review algebraic skills such as factoring and completing the square, graphing techniques and function properties where needed. Applications are emphasized. Note: No co-credit with MATH 1070, MATH 1110 or MATH 1130. Max hours: 3 Credits.

Grading Basis: Letter Grade

MATH 1109 - Stretch College Algebra-Part 2 (3 Credits)

This course is the second half of a two-semester sequence (consisting of MATH 1108 followed by MATH 1109). The two semester course sequence is equivalent to MATH 1110 (College Algebra). The topics in algebra are designed for students who intend to take the calculus sequence. Data scatter plots and curve fitting, solving equations, polynomial functions, rational functions, exponential and logarithmic functions and selected other topics are explored. Desmos graphing technology is used extensively and students enrolled in MATH 1109 will review algebraic skills such as solving linear and quadratic equations, factoring and completing the square, graphing techniques and function properties where needed. Applications are emphasized. Note: No co-credit with MATH 1070, MATH 1110 or MATH 1130. Prereq: MATH 1108 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: MATH 1108 with C- or higher.

Additional Information: Denver Core Requirement, Mathematics.

MATH 1110 - College Algebra (4 Credits)

Topics in algebra designed for students who intend to take the calculus sequence. Functions, domains, ranges, graphs, data scatter plots and curve fitting, solving equations and systems of equations, polynomial, rational, exponential and logarithmic functions and other topics.

Applications are emphasized. Note: Students may not receive credit for this course if they have already received credit for MATH 1070 or MATH 1130. Prereq: MATH 1109 or MATH 1070 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA10 or MA30 or MA01 Student Group OR ALEKS PPL score 46-100. If you have any questions or concerns about this requisite, please notify MATH.Placement@ucdenver.edu. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

MATH 1109 or MATH 1070 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA10 or MA30 or MA01 Student Group OR ALEKS PPL score 46-100.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: Fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

MATH 1120 - College Trigonometry (3 Credits)

Topics in trigonometry, analytic geometry, and elementary functions designed for students who intend to take the calculus sequence. Angles and trigonometry functions of acute angles, analytic trigonometry, fundamental trigonometric functions and identities including hyperbolic trigonometry, parametric equations, and polar coordinate system. Graphic calculators and/or computer algebra systems are used extensively.

Applications are emphasized. Prereq: MATH 1109 or MATH 1070 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100. If you have any questions or concerns about this requisite, please notify MATH.Placement@ucdenver.edu. Students with a grade of B- or better in MATH 1110 or MATH 1070 pass the course at a much higher rate. No co-credit with MATH 1130. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

MATH 1109 or MATH 1070 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 1130 - Precalculus Mathematics (4 Credits)

Condensed treatment of the topics in MATH 1110 and 1120. Prereq: : MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100. If you have any questions or concerns about this requisite, please notify MATH.Placement@ucdenver.edu. No co-credit with MATH 1070, 1110 or 1120. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

MATH 1120 or MATH 1130 or MATH 1401 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 1376 - Programming for Data Science (3 Credits)

The course introduces scientific computing using Python. Topics will include programming skills such as assignment, control statements, loops, and functions. Applications will focus on mathematical and data science topics. Prereq: MATH 1109 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 or MATH 2830 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100. Max hours: 3 Credits.

Grading Basis: Letter Grade

MATH 1109 or MATH 1110 or MATH 1120 or MATH 1130 or MATH 1401 or MATH 2830 with a C- or higher OR entry into the MA30 or MA01 Student Group OR ALEKS PPL score 61-100.

MATH 1401 - Calculus I (4 Credits)

First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: No co-credit with MATH 1080. Prereq: MATH 1109 or MATH 1070 or MATH 1110 with a C- or higher and MATH 1120 with a C- or higher or MATH 1130 with a C- or higher or MATH 1401 with a C- or higher OR entry into the MA01 Student Group OR ALEKS PPL score 76-100. If you have any questions or concerns about this requisite, please notify MATH.Placement@ucdenver.edu. Max Hours: 4 Credits.

Grading Basis: Letter Grade

MATH 1109 or MATH 1070 or MATH 1110 with a C- or higher and MATH 1120 with a C- or higher or MATH 1130 with a C- or higher or MATH 1401 with a C- or higher OR entry into the MA01 Student Group OR ALEKS PPL score 76-100.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

MATH 1840 - Independent Study. (1-3 Credits)

Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

MATH 2411 - Calculus II (4 Credits)

The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: C- or better in MATH 1401.

Note: Students with a grade of B- or better in MATH 1401 pass this course at a much higher rate. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

Prereq: C- or better in MATH 1401

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 2421 - Calculus III (4 Credits)

The third of a three-semester sequence in Calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus.

Prereq: C- or better in MATH 2411. Note: Students with a grade of B- or better in MATH 2411 pass this course at a much higher rate. Term offered: fall, spring, summer. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1

Grading Basis: Letter Grade

Prereq: C- or better in MATH 2411

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 2810 - Topics (1-3 Credits)

Topics in mathematics with various subtitles reflecting course content.

Prereq: permission of instructor. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MATH 2830 - Introductory Statistics (3 Credits)

Basic statistical concepts, summarizing data, probability concepts, distributions, confidence intervals, hypothesis testing. Note: This course assumes that students have knowledge equivalent to three years of high school mathematics (two years of algebra), intermediate algebra, or Algebraic Literacy at a Colorado Community College at the start of class. Students who have a grade of B- or better in one of these courses pass at a much higher rate. Term offered: fall, spring, summer. Requisite: In order to promote student success, any student who has an ACT MATH score less than 19 (or equivalently an SAT MATH score less than 520) AND a H.S. GPA of less than 3.25 will be required to enroll in the one credit hour co-requisite workshop MATH 2831. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-MA1.

Grading Basis: Letter Grade

In order to promote student success, any student who has an ACT MATH score less than 19 (or equivalently an SAT MATH score less than 520) AND a H.S. GPA of less than 3.25 will be required to enroll in the one credit hour co-requisite workshop MATH 2831.

Additional Information: Denver Core Requirement, Mathematics; GT courses GT Pathways, GT-MA1, Mathematics.

Typically Offered: Fall, Spring, Summer.

MATH 2831 - Introductory Statistics Workshop (1 Credit)

Prepares students for college-level mathematics. Students receive one-on-one and small-group instruction on mathematics topics related to college level mathematics success. Coreq: MATH 2830. Term offered: fall, spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Co-requisite: MATH 2830

Typically Offered: Fall, Spring.

MATH 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: 15 hours of 2.75 GPA. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

MATH 3000 - Introduction to Abstract Mathematics (3 Credits)

Students learn to prove and critique proofs of theorems by studying elementary topics in abstract mathematics, including logic, sets, functions, equivalence relations and elementary combinatorics. Coreq: MATH 2421 or MATH 3191. Note: This course assumes that students have taken MATH 2411 or equivalent. Students who have a grade of B- or better in MATH 2411 pass at a much higher rate. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: MATH 2421 or MATH 3191

MATH 3041 - Fundamental Mathematics: Algebra, Probability and Data Analysis (3 Credits)

This course is particularly pertinent to prospective elementary teachers, involving algebra, probability and data analysis from a modern approach. Its primary emphasis is asking and answering questions intelligently about our world through the use of algebra, probability, and data analysis. Explorations focus on representing, analyzing, generalizing, formalizing, and communicating patterns and the chances of future events. Mathematics content will be presented in a problem solving and exploratory context, using appropriate instructional tools. This course will not satisfy the requirements for a major in Mathematics. Prereq: MTED 3040 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MTED 3040 with a C- or higher.

Additional Information: Denver Core Requirement, Mathematics.

MATH 3191 - Applied Linear Algebra (3 Credits)

Linear algebra is the mathematics of vectors and matrices and is fundamental for the representation and manipulation of data. List of topics covered: Definition and use of vectors and matrices, Matrix algebra, Systems of linear equations, Reduced Row Echelon Form, Trace and determinant, Linear independence and span, Basis and dimension, Null space and range, Rank theorem, Vector spaces and linear transformations, Eigenvalues and Eigenvectors, Diagonalization, Inner products, Orthogonal projections, Gram-Schmidt algorithm, Diagonalization of symmetric matrices, Singular value decomposition. Applications such as computer graphics, machine learning, Markov chains, and data reduction are considered. Note: No co-credit with MATH 3195. Prereq: MATH 1401 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 with a C- or higher

MATH 3195 - Linear Algebra and Differential Equations (4 Credits)

Presents the essential ideas and methods of linear algebra and differential equations, emphasizing the connections between and the applications of both subjects. The course is designed for students in the sciences and engineering. This course will not satisfy the requirements for a major in Mathematics. Note: No co-credit with MATH 3200 and MATH 3191. Prereq: MATH 2411 with a C- or higher. Max hours: 4 Credits. Grading Basis: Letter Grade
Prereq: C- or better in MATH 2411

MATH 3200 - Elementary Differential Equations (3 Credits)

First and second order differential equations, Laplace transforms, systems of equations, with an emphasis on modeling and applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411 with a C- or higher. Coreq: MATH 3191. Max hours: 3 Credits. Grading Basis: Letter Grade
Prerequisite: MATH 2411 with a C- or higher, Co-requisite MATH 3191.

MATH 3301 - Introduction to Optimization (3 Credits)

Introduces a mathematical approach for decision-making in practice based on optimization. Students will learn to model, analyze and solve a variety of problems from deterministic operations using both continuous and discrete mathematical programming algorithms and software. Note: this course assumes that students have taken MATH 3191 or MATH 3195 or equivalent. Students who have received a grade of B- or better in MATH 3191 or 3195 pass this course at a much higher rate. Max hours: 3 Credits. Grading Basis: Letter Grade

MATH 3310 - Introduction to Real Analysis I (3 Credits)

This is a proof-based course that rigorously covers fundamental topics involving the real number system, sequences of real numbers, and functions of real numbers. Prereq: Grade of C- or better in MATH 2411 OR Grade of A- or better in MATH 1401. Coreq: MATH 2411. Cross-listed with MCKE 5310. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: Grade of C- or better in MATH 2411 OR Grade of A- or better in MATH 1401. Coreq: MATH 2411.

MATH 3376 - Data Wrangling & Visualization (3 Credits)

The course provides an introduction to obtaining, restructuring, and visualizing complex data sets. Students will learn to manipulate many data types, store data in a variety of structures, and construct static and dynamic plots in a variety of contexts. Students earning a B- or better in Math 1376 or 4387 are more likely to be successful in this course than students earning lower grades. Prereq: MATH 1376 or MATH 4387 or CSCI 1410/1411 with a C- or higher and MATH 2830 or MATH 3382 with a C- or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: MATH 1376 or MATH 4387 or CSCI 1410/1411 with a C- or higher and MATH 2830 or MATH 3382 with a C- or higher

MATH 3382 - Statistical Theory (3 Credits)

Probability, random variables, properties of distributions, bootstrap methods, maximum likelihood and method of moments estimation, properties of estimators, classical methods for confidence intervals and hypothesis testing. Prereq: MATH 2421 with a C- or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: MATH 2421 with a C- or higher.

MATH 3440 - Introduction to Symbolic Logic (3 Credits)

Covers truth functional and quantificational logic through polyadic first order predicate calculus and theory of identity. Attention is given to such problems in metatheory as proofs of the completeness and consistency of systems of logic. Cross-listed with PHIL 3440. Max hours: 3 Credits. Grading Basis: Letter Grade

MATH 3800 - Probability and Statistics for Engineers (3 Credits)

Basic probability theory, discrete and continuous random variables, point and interval estimation, test of hypotheses, and simple linear regression. Note: no co-credit with MATH 3810. This course will not satisfy the requirement for a major in Mathematics. Note: This course assumes that students have taken MATH 2411 and have either previously taken MATH 2421 or are taking MATH 2421 the same semester as MATH 3800. Students who have a grade of B- or better in MATH 2411 pass this course at a much higher rate. Max hours: 3 Credits. Grading Basis: Letter Grade

MATH 3810 - Introduction to Probability (3 Credits)

Fundamentals of probability theory with connection to practical application through simulation. Topics include: Axioms of probability, conditional probability, independence, law of total probability, Bayes theorem, random variables, probability distributions, expected value and variance. Important distributions such as binomial, normal, exponential, and Poisson distributions. Joint and conditional distributions, conditional expectation and variance, functions of random variables. Laws of large numbers (weak and strong), Central Limit Theorem. An emphasis will be placed on using simulation to solve problems. Note: No co-credit with MATH 3800. Coreq: MATH 2421. Max hours: 3 Credits. Grading Basis: Letter Grade
Coreq: MATH 2421.

MATH 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max Hours: 9 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Prereq: junior standing or higher

MATH 4010 - History of Mathematics (3 Credits)

A history of the development of mathematical techniques and ideas from early civilization to the present, including the inter-relationships of mathematics and sciences. Prereq: MATH 2411 with a C- or higher. Coreq: MATH 3000 or 3191. Cross-listed with MATH 5010. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: MATH 2411 with a C- or higher Coreq: MATH 3000 or 3191

MATH 4027 - Topics in Mathematics (3 Credits)

Special topics in mathematics will be covered; consult 'Schedule Planner' for current topics and prerequisites. Repeatable. Max hours: 12 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 12.

MATH 4110 - Theory of Numbers (3 Credits)

Every other year. Topics include divisibility, prime numbers, congruencies, number theoretic functions, quadratic reciprocity, and special diophantine equations, with applications in engineering. Prereq: Grade of C- or better in MATH 3000. Note: Students who have a grade of B- or better in MATH 3000 pass this course at a much higher rate. Cross-listed with MATH 5110. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: Grade of C- or better in MATH 3000

MATH 4140 - Introduction to Modern Algebra (3 Credits)

Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields and polynomials. Note: This course assumes that students have taken MATH 3000 or equivalent and either MATH 3191 or MATH 3195. Students who have a grade of B- or better in these courses pass at a much higher rate. Cross-listed with MCKE 5140. Prereq: MATH 3000 with a C- or higher. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: MATH 3000 with a C- or higher.

MATH 4320 - Introduction to Real Analysis II (3 Credits)

Convergence, uniform convergence; Taylor's theorem; calculus of several variables including continuity, differentiation and integration; Picard's theorem in ordinary differential equations and Fourier series. Prereq: MATH 3310 with a C- or higher. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MATH 3310 with a C- or higher.

MATH 4337 - Intro to Statistical and Machine Learning (3 Credits)

This is an applied, hands-on course in statistical and machine learning. This course will introduce students to the general framework, best practices, model training, and assessment for machine learning methods from the viewpoint of statistics. Both supervised and unsupervised methods are covered including penalized regression, k-nearest neighbors, clustering, and neural networks. Additional machine learning topics such as random forests and support vector machines are included as time permits. Ultimately, students will learn how and why to use a particular method, how to validate and explain the results, and apply the methods to real data. Note: It is recommended that students are comfortable learning a statistical computing language such as R or Python as these will be taught alongside the course material. Students with minimal programming experience should expect to spend more time learning the programming language throughout the course. Prereq: MATH 4387 or MATH 5387 or MATH 4830 or MATH 5830 or BIOL 3763 with a C- or higher. Students who have completed a different statistics course that contains regression and computing may seek instructor permission to enroll. Cross-listed with MATH 5337. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MATH 4387 or MATH 5387 or MATH 4830 or MATH 5830 or BIOL 3763 with a C- or higher.

MATH 4387 - Applied Regression Analysis (3 Credits)

Topics include simple and multiple linear regression, model diagnostics and remediation, and model selection. Emphasis is on practical aspects and applications of linear models to the analysis of data in business, engineering and behavioral, biological and physical sciences. Prereq: Grade of C- (1.7) or better in MATH 3191 and in MATH 3800 or 4820 or 3382. Note: Students who have a grade of B- or better in MATH 3191, an A in MATH 3800 or a B- or better in MATH 4820 pass this course at a much higher rate. Cross-listed with MATH 5387. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Grade of C- (1.7) or better in MATH 3191 and in MATH 3800 or 4820 or 3382

MATH 4388 - Machine Learning Methods (3 Credits)

Regression, neural networks, clustering, support vector machines, random forests, and other prediction/classification techniques will be used to solve supervised and unsupervised learning problems. This course will connect each topic with the underlying mathematical foundation such as optimization methods and statistical inference. A key focus is deriving the methods and their properties to guide proper application. Students will learn how to apply methods using standard libraries from Python, R, or Matlab. Prereq: MATH 1376 or MATH 3250 and MATH 3382 or MATH 3800 and MATH 3191 or MATH 3195, all with a C- or higher. Cross-listed with MATH 5388. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MATH 1376 or MATH 3250 and MATH 3382 or MATH 3800 and MATH 3191 or MATH 3195, all with a C- or higher.

MATH 4390 - Game Theory (3 Credits)

Zero-sum and non-zero-sum games; Nash equilibrium and the principle of indifference; Shapley value and other concepts of fair division; Evolutionary game theory, ESS, and evolutionary population dynamics. Applications in economics, business, and biology. Note: This course assumes that students have programming experience (e.g. MATLAB), and have taken MATH 2421, 3191 and 3200 or MATH 3195, MATH 3800 or 3810, or equivalent. Students who have a grade of B- or better in these courses pass this course at a much higher rate. Cross-listed with MATH 5390. Max hours: 3 Credits.
Grading Basis: Letter Grade

MATH 4408 - Applied Graph Theory (3 Credits)

Introduces discrete structures and applications of graph theory to computer science, engineering, operations research, social science, and biology. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits, matching and covering problems, shortest route and network flows. Prereq: MATH 2511 or CSCI 2511 or MATH 3000 with a C- or higher. Note: This course assumes that students have taken MATH/CSCI 2511 or MATH 3000. Students who have a grade of B- or better in MATH/CSCI 2511 or MATH 3000 pass this course at a much higher rate. Cross-listed with CSCI 4408 and MCKE 5408. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MATH 2511 or CSCI 2511 or MATH 3000 with a C- or higher.

MATH 4409 - Applied Combinatorics (3 Credits)

Every other year. Major emphasis is on applied combinatorics and combinatorial algorithms, with applications in computer science and operations. Topics include general counting methods, generating functions, recurrence relations, inclusion-exclusion, and block designs. Prereq: MATH 3000 with a C- or higher. Note: This course assumes that students have taken MATH 3000. Students who have a grade of B- or better in MATH 3000 pass this course at a much higher rate. Cross-listed with MCKE 5409. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prerequisite: MATH 3000 with a C- or higher.

MATH 4450 - Complex Variables (3 Credits)

Infrequent. Topics include complex algebra, Cauchy-Riemann equations, Laurent expansions, theory of residues, complex integration, and introduction to conformal mapping. Note: This course assumes that students have taken MATH 2421 and MATH 3000. Students who have a grade of B- or better in MATH 2421 and MATH 3000 pass this course at a much higher rate. Max hours: 3 Credits.
Grading Basis: Letter Grade

MATH 4650 - Numerical Analysis I (3 Credits)

A first semester course in numerical methods and analysis fundamental to many algorithms encountered in scientific computing, data science, machine learning, and computational models in science and engineering. Rounding errors and numerical stability of algorithms; solution of linear and nonlinear equations; data modeling with interpolation and least-squares; and optimization methods. This course assumes that students have the equivalent of differential and integral calculus (e.g., MATH 2411), linear algebra (e.g., MATH 3191 or 3195), and computer programming (e.g., MATH 1376 or CSCI 1410). Prereq: MATH 3191 or MATH 3195 with a C- or higher. Cross-listed with CSCI 4650, 5660, and MATH 5660. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3191 or MATH 3195 with a C- or higher.

MATH 4660 - Numerical Analysis II (3 Credits)

A second semester course in numerical methods and analysis fundamental to many algorithms encountered in scientific computing, data science, machine learning, and computational models in science and engineering. Numerical differentiation and integration; random numbers and stochastic modeling; Fast Fourier Transform; data compression; eigenvalues and singular value decompositions with application to regression and dimension reduction. This course assumes that students have the equivalent of differential and integral calculus (e.g., MATH 2411), linear algebra (e.g., MATH 3191 or 3195), and computer programming (e.g., MATH 1376 or CS 1410). Prereq: MATH 3191 and MATH 3200 with a C- or higher or MATH 3195 with a C- or higher. Cross-listed with MATH 5661, CSCI 4660 and 5661. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3191 and MATH 3200 with a C- or higher or MATH 3195 with a C- or higher.

MATH 4733 - Partial Differential Equations (3 Credits)

Initial/Boundary value problems for first-order, wave, heat and Laplace equations; maximum principles; Fourier series and applications. Note: It is recommended that students have either taken MATH 3000 or have experience with partial differential equations in engineering or physics. Students who have a grade of B- or better in MATH 2421 and MATH 3200 pass this course at a much higher rate. Prereq: MATH 2421 AND either MATH 3191 and MATH 3200 OR MATH 3195 with a C- or higher. Cross-listed with MATH 5733. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2421 AND either MATH 3191 and MATH 3200 OR MATH 3195 with a C- or higher.

MATH 4779 - Math Clinic (3 Credits)

The clinic is intended to illustrate the applicability and utility of mathematical concepts. Research problems investigated originate from a variety of sources—industry, government agencies, educational institutions, or nonprofit organizations. Prereq: MATH 3191, either MATH 1376 or CSCI 1410/1411, and 6 additional credit hours in upper-division MATH courses, all with C- or higher. Cross-listed with MATH 5779. Repeatable. Max Hours: 99 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 99.

Prereq: MATH 3191, either MATH 1376 or CSCI 1410/1411, and 6 additional credit hours in upper-division MATH courses, all with C- or higher.

MATH 4792 - Probabilistic Modeling (3 Credits)

Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Note: This course assumes that students have taken MATH 3810 or 5310 and have some programming experience. Students who have a grade of B- or better in MATH 3810 or 5310 pass this course at a much higher rate. Cross-listed with MATH 5792. Max hours: 3 Credits.

Grading Basis: Letter Grade

MATH 4830 - Applied Statistics (3 Credits)

Review of estimation, confidence intervals and hypothesis testing; Anova; categorical data analysis; non-parametric tests; linear and logistic regression. No co-credit with MATH 4387 or 5387. This course will not satisfy the requirements for a major in Mathematics. Cross-listed with MATH 5830. Prereq: MATH 2830 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 2830 with a C- or higher.

MATH 4840 - Independent Study (1-3 Credits)

Variable credit depending on the student's needs. Offered for the advanced student who desires to pursue a specific topic in considerable depth. Note: Supervision by a full-time faculty member is necessary, and the dean's office must concur. Students may register for this course more than once with departmental approval. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

MATH 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Maximizing Access to Research Careers (MARC)

MARC 2880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MARC 2990 - Special Topics (1-6 Credits)

Studies special topics to be selected by the instructor. Note: May be repeated for credit under unique course topics. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MARC 3880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MARC 3990 - Special Topics (1-6 Credits)

Studies special topics to be selected by the instructor. Note: May be repeated for credit under unique course topics. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MARC 4090 - Research Design & Development (3 Credits)

This advanced writing and research methods course is designed to help students develop independent research ideas into formal products, such as a thesis proposal, grant application, presentation, and study protocols. Prereq: permission of the instructor. Cross-listed with PSYC 4090. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

MARC 4680 - Behavioral & Biomedical Sciences Research Seminar (2 Credits)

Introduces research in the behavioral and biomedical sciences. Students will learn about research programs at CU Denver and other centers, present their own research, and interact with the local scientific community. Prereq: permission of the instructor. Cross-listed with PSYC 4680. Repeatable. Term offered: fall. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

MARC 4681 - Behavioral & Biomedical Sciences Research Seminar II (1 Credit)

Continuation of research in the behavioral and biomedical sciences. Students will learn about research programs at CU Denver and other centers, present their own research, and interact with the local scientific community. Prereq: PSYC/MARC 4680 and permission of the instructor. Cross-listed with PSYC 4681. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: PSYC 4680 or MARC 4680 and instructor permission.

Typically Offered: Spring.

MARC 4780 - Behavioral & Biomedical Sciences Research: Ethics & Issues (3 Credits)

Students will critically review and analyze some of the major ethical and policy issues that arise during the conduct of basic and applied behavioral research. Prereq: PSYC 1000, 1005, 2090, 2220 and 3090 with a C- or higher or instructor permission. Cross-listed with PSYC 4780. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000, 1005, 2090, 2220, and 3090 with a C- or higher.

Typically Offered: Fall.

MARC 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MARC 4990 - Special Topics (1-6 Credits)

Advanced study of special topics to be selected by the instructor. Note: May be repeated for credit under unique course topics. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Mechanical Engineering (MECH)

MECH 1025 - CAD and Graphics for Mechanical Engineering (3 Credits)

Introduction to 3-D computer-aided design software, solid modeling, industry-standard engineering drawing practices, and engineering graphics. Applications to mechanical engineering. Prereq: High School Geometry and Algebra. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MECH 1045 - Manufacturing Processes Design (3 Credits)

Basic manufacturing background will be provided to engineering students in order to: (1) apply manufacturing specifications to the design of mechanical devices, and (2) communicate with technical personnel in a production environment. Topics cover metal casting, bulk and sheet metal forming, material removal, and joining and fastening processes.

Prereq: MECH 1025 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 1025 with a C- or higher.

Typically Offered: Fall, Spring.

MECH 1100 - Fundamentals of Computational Innovation (3 Credits)

Provides a foundation in computational thinking and practices. Students learn to take advantage of computational power in problem solving by writing simple programs, studying the underlying logic of hardware, and working with a variety of technologies. Cross-listed with ENGR 1100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

MECH 1200 - Fundamentals of Engineering Design Innovation (3 Credits)

This course introduces concepts of engineering design innovation at a variety of scales and disciplines. Participants will experience and explore core technology and design themes including design principles, processes, methods, modes of thinking, and social and cultural aspects or design. Cross-listed with CSCI 1200, CVEN 1200, ENGR 1200, ELEC 1201 and IWKS 2100. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

MECH 2023 - Statics (3 Credits)

A vector treatment of force systems and their resultants; equilibrium of trusses, beams, frames, and machines, including internal forces and three-dimensional configurations, static friction, properties of areas, distributed loads and hydrostatics. Prereq: PHYS 2311 with a C- or higher. Coreq: MATH 2411. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2311 with a grade of C- or higher Coreq: MATH 2411

Typically Offered: Fall, Spring.

MECH 2024 - Introduction to Materials Science (3 Credits)

The development of the physical principles relating the structural features of materials to their observed properties. Prereq: ENGR 1130 or CHEM 1130 or (CHEM 2031 and CHEM 2038 and CHEM 1999AE). Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: ENGR 1130 or CHEM 1130 or (CHEM 2031 and CHEM 2038 and CHEM 1999AE) with a C- or higher.

MECH 2033 - Dynamics (3 Credits)

A vector treatment of dynamics of particles and rigid bodies, including rectilinear translation, central-force, and general motion of particles, kinematics of rigid bodies, the inertia tensor, plane motion of rigid bodies, energy and momentum methods for particles, systems of particles, and rigid bodies. Prereq: MECH 2023 with a C- or higher. Cross-listed with CVEN 3111. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2023 with a C- or higher.

Typically Offered: Fall, Spring.

MECH 2034 - Properties of Engineering Materials (1 Credit)

Experiments to determine material properties and the effect of processing on properties important in mechanical design. Materials include metal, polymers, and composites. Loadings include tension, compression, and bending under static, dynamic impact and creep states. Coreq: MECH 2024. Max hours: 1 Credits.

Grading Basis: Letter Grade

Coreq: MECH 2024

MECH 3010 - Elementary Numerical Methods and Programming (3 Credits)

A development of basic numerical methods used to solve engineering problems. Introduction to MATLAB to implement numerical simulations. Prereq: MECH 1100. Coreq: MATH 3195 (or MATH 3191 and MATH 3200). Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 1100. Coreq: MATH 3195 (or MATH 3191 and MATH 3200). Restricted to majors in CEDC Mechanical Engineering.

Typically Offered: Fall, Spring.

MECH 3012 - Thermodynamics (3 Credits)

Introduces thermodynamic properties and state relationships, processes and cycles with work and heat transfer. Applications of the first and second laws to energy-related engineering systems. Prereq: MATH 1401 and PHYS 2311 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 1401 and PHYS 2311 with a C- or higher

MECH 3021 - Introduction to Fluid Mechanics (3 Credits)

Applies exact and approximate theories to engineering problems in fluids. Examples include potential flow theory, Euler's equations for inviscid fluids, Bernoulli's equations, Navier-Stokes equations, and pipe flow. Prereq: MECH 2033, MECH 3012 and MATH 2421 with a grade C- or higher. Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2033, MECH 3012 and MATH 2421 with a grade C- or higher. Restricted to majors in CEDC Mechanical Engineering.

MECH 3027 - Measurements (3 Credits)

Principles of digital and analog measurements; systems for sensing, transporting, modifying, and outputting information; systematic and random error analysis. The laboratory includes a variety of instruments and components illustrating fundamental experimental measurement techniques and methods. Prereq: MECH 3030 or ELEC 3030, MATH 3195 or (MATH 3191 & MATH 3200) with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3030 or ELEC 3030, MATH 3195 or (MATH 3191 & MATH 3200) with a C- or higher. Restricted to majors in CEDC Mechanical Engineering.

MECH 3028 - Laboratory of Mechanical Measurements (1 Credit)

Modern techniques for Mechanical measurements. Laboratory includes techniques for the calibration of transducers and analysis of Statistical uncertainty. Data Acquisition Systems used for Signal acquisition and measurement of common mechanical quantities, such as displacement, velocity, acceleration and force. Design and characterization of a second order measurement system based on strain gages. Coreq: MECH 3027. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: MECH 3027

MECH 3031 - Fluids/Thermal Laboratory (1 Credit)

Laboratory exercise in compressible and incompressible fluid flow; steady state and transient heat transfer. Prereq: MECH 3012 with a grade of C- or higher. Coreq: MECH 3021. Restriction: Restricted to majors in CEDC Mechanical Engineering. Term offered: spring, fall. Max hours: 1 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3012 with a C- or higher. Coreq: MECH 3021. Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

Typically Offered: Fall, Spring.

MECH 3032 - Electric Circuits and Systems Lab (1 Credit)

Basic electrical engineering lab for MECH majors. Coreq: MECH 3030 or ELEC 3030. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 1 Credits.

Grading Basis: Letter Grade

Coreq: MECH 3030 or ELEC 3030 Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3035 - Design of Mechanical Elements (3 Credits)

Review of mechanics of materials and stress analysis; detailed design of various machine elements such as fasteners, springs, brakes and gears. Includes design project. Prereq: MECH 2024 and MECH 3043 with a grade C- or higher. Coreq: MECH 1045. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2024 and MECH 3043 with a grade C- or higher. Coreq: MECH 1045. Restricted to majors in CEDC Mechanical Engineering.

Typically Offered: Spring, Summer.

MECH 3042 - Heat Transfer (3 Credits)

Basic laws of heat transfer by conduction, convection, and radiation with engineering design applications. Includes design project. Prereq: MECH 3021 with a grade C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3021 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 3043 - Strength of Materials (3 Credits)

Application of exact and approximate theories of stress and displacement to engineering problems in solids. Examples include torsion of rods and bending of beams. Combined stresses, principal stresses and energy methods are examined. Prereq: MECH 2023 or CVEN 2121 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2023 or CVEN 2121 with a C- or higher

Typically Offered: Fall, Spring.

MECH 3045 - Principles of Additive Manufacturing (3 Credits)

This course will introduce students to additive manufacturing (AM) techniques and design for additive manufacturing (DfAM). Additive manufacturing is no longer thought of as simply "rapid prototyping," but is influencing the way manufacturing is performed at almost every level of the product lifecycle. It will influence practically every manufacturing system of the future. This course will cover the fundamentals, applications, and implications of AM such that students will understand why and when to use AM, as well as challenge their traditional thinking of design and what is possible. At the end of this course, students should be able to: (1) Describe the 7 processes of AM, and understand their advantages and limitations. (2) Have hands-on experience in using several different AM processes, including building, modifying, and repairing their own AM machine. (3) Understand the wide variety of AM applications beyond prototyping. This includes tooling, production, performance improvement, customization, art, and more. (4) Understand how AM can be used in a product's lifecycle from beginning to end. (5) Use "generative design software" and "topology optimization" to unlock complex designs to be created with AM. (6) Assess the cost and value of AM processes. Prereq: MECH 1045 and MECH 2024 with a grade of C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 1045 and MECH 2024 with a grade of C- or higher.

MECH 3939 - Internship (1-3 Credits)

Undergraduate internship course for credit. Must be approved by department and handled subject to experiential learning office rules. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MECH 4020 - Biomechanics (3 Credits)

Static and dynamic biomechanical analysis, effects of mechanical loading on bone and cartilage, design considerations in orthopaedic devices, muscle function, biomechanics of human movement, cardiovascular biomechanics. Prereq: MECH 2023, 2033, MATH 3195 or 3200 with a C- or higher. Cross-listed with MECH 5020. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2023, 2033, MATH 3195 or 3200 Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

Typically Offered: Summer.

MECH 4023 - System Dynamics (3 Credits)

Modeling, simulation, and analysis of single and multiple degree-of-freedom dynamical mechanical systems. Matrix methods for linear systems. State-variable models. Laplace transforms. Control system analysis and design using root locus and frequency response methods. Prereq: MECH 2033 and MATH 3195 or MATH 3191 and MATH 3200, and MECH 3010, and MECH 3043 or CVEN 3121. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2033 and MATH 3195 or MATH 3191 and MATH 3200, and MECH 3010, and MECH 3043 or CVEN 3121.

Typically Offered: Fall.

MECH 4025 - Advanced Biomechanics (3 Credits)

This course provides training in computational and experimental methods for biomechanical engineering analysis. Topics include finite element analysis of biological systems, orthopedic device design, medical imaging analysis, mechanical characterization of biological tissues, and biomechanics of human movement. Prereq: MECH 4020. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 4020

MECH 4030 - Experimental and Computational Methods of Human Movement (3 Credits)

The objective of this course is to provide an overview of the various experimental and computational tools to measure and study human movement. Using a motion capture laboratory and musculoskeletal modeling, these tools will be used to develop a thorough understanding of how engineering principles can be used to address the major challenges of human movement biomechanics, with a primary emphasis on experimental measurement methods and simulations of movement. These tools will be used to explore the interaction of musculoskeletal properties, including whole#body and joint level biomechanics, with the environment during dynamic motion. Course topics include neuromuscular mechanics, balance performance, inverse dynamics, simulation of dynamic muscle#tendon mechanics, and musculoskeletal model development. Cross-listed with MECH 5030. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

MECH 4035 - Senior Design I (3 Credits)

Group and individual projects to design engineering components and systems. Design methodology, product specs, creativity, design reviews, communication, presentations, and report writing are emphasized. MECH 4035 and MECH 4045 form a one year sequence and must be taken consecutively. Prereq: MECH 3035 with a grade C- or higher and 40 hours of MECH courses. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3035 with a grade C- or higher and 40 hours of MECH courses. Restricted to majors in CEDC Mechanical Engineering.

MECH 4045 - Senior Design II (3 Credits)

Student teams manufacture and construct and/or redesign mechanical parts or assemblies that they designed in previous course (MECH 4035). A proposal, oral progress reports, and a final written report and demonstration are required. MECH 4035 and MECH 4045 form a one year sequence and must be taken consecutively. Prereq: MECH 4035 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 4035 with a grade of C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4110 - Numerical Methods for Engineers (3 Credits)

Introduces numerical analysis. Solution of linear and nonlinear equation systems. Numerical methods for ordinary and partial differential equations. Engineering applications. Prereq: MATH 3195 or (3191 and 3200) with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3195 OR (MATH 3191 and 3200) with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing.

MECH 4114 - Designing with Composites (3 Credits)

Analysis and design of polymers and polymer-based composites. Failure criteria include static strength, stiffness, creep, fatigue, impact and fracture toughness. Design criteria include strength-to-weight ratio and cost-to-strength ratio. Prereq: MECH 3043 or CVEN 3121 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5114. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3043 or CVEN 3121 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4116 - Robotics (3 Credits)

Introduces kinematics, dynamics, and control of robot manipulators. Emphasis is placed on computer use in control of actual robots and in computer simulation of mathematical models of robots. Students must turn in a project report based on the computer simulation. Prereq: MECH 3065 with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3065 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4120 - Methods of Engineering Analysis (3 Credits)

Selected topics from real analyses with applications to engineering analyses. Topics include vector calculus, ordinary differential equations, partial differential equations, and calculus of variations. Prereq: MATH 3195 or (MATH 3191 and MATH 3200) with a C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5120. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MATH 3195 OR (MATH 3191 and 3200) with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing.

MECH 4141 - Fluid Mechanics (3 Credits)

Viscous incompressible fluid flows. Topics include derivation of equations governing viscous compressible fluid motion; specializations to simple flows; boundary-layer theory; similarity solutions; introduction to turbulence and Reynolds stresses. Prereq: MECH 3021 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5141. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3021 with a C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4142 - Thermal Energy Systems (3 Credits)

Detailed engineering design of thermal/fluids systems. Students work in teams on a project selected for entire class. Projects are similar to typical ones from industry. Course stresses creativity, synthesis, design judgment, and analysis of real-world problems. Oral and written presentations are required. Prereq: MECH 3010, MECH 3012, MECH 3021, and MECH 3042 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3010, MECH 3012, MECH 3021 and MECH 3042 with a grade of C- or higher. Restricted to majors in CEDC Mechanical Engineering.

Typically Offered: Fall, Spring.

MECH 4147 - Engineering Economy (3 Credits)

Applies economic and financial principles to evaluation of engineering alternatives. Calculation of annual costs, present worth, and prospective rates of return on investment. Review of systems analysis techniques, including simulation, linear programming, and project scheduling. Restriction: Restricted to MECH majors at the junior or higher level standing within the College of Engineering, Design and Computing. Cross-listed with CVEN 4077. Max Hours: 3 Credits. Semester Hours: 3 to 3

Grading Basis: Letter Grade

Restriction: Restricted to MECH majors at the junior or higher level standing within the College of Engineering, Design and Computing

MECH 4163 - Rigid-Body Dynamics (3 Credits)

Review of Newtonian dynamics, Lagrange's equations for particles, systems, and rigid bodies. Conservative and non-conservative systems, moments of inertia, principal axes, angular momentum and Euler equations. Illustrations from spinning bodies, including tops, gyro-compass and rotating machinery. Prereq: MECH 2033 or CVEN 3111, MATH 3195 or (MATH 3191 and MATH 3200) with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5163. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 2033 or CVEN 3111 and (MATH 3195 or MATH 3191 and MATH 3200) with a grade of C- or higher. Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4175 - Finite Element Analysis in Machine Design (3 Credits)

Students learn basic theory of finite element analysis (FEA) as it applies to stress analysis and design of mechanical components. Commercial package will be used giving students practical experience in the use of FEA. Prereq: MECH 3035 with a grade of C- or higher. Restriction: Restricted to majors in CEDC Mechanical Engineering. Cross-listed with MECH 5175. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MECH 3035 with a grade of C- or higher Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4178 - Solar Engineering (3 Credits)

This course provides the student with the basic ideas and calculation procedures on how solar processes work and how their performance can be predicted. Recommended Prereq: MECH 3012. Cross-listed with MECH 5178. Max Hours: 3 Credits.

Grading Basis: Letter Grade

MECH 4208 - Special Topics (3 Credits)

Subject matter to be selected from topics of current technological interest. Credit to be arranged. Cross-listed with MECH 5208. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

MECH 4228 - Special Topics (3 Credits)

Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

MECH 4238 - Special Topics (1-3 Credits)

Restricted to majors in CEDC Mechanical Engineering. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

MECH 4840 - Independent Study (1-3 Credits)

This category is intended for upper division level special topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Restriction: Restricted to majors in CEDC Mechanical Engineering. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade with IP

Repeatable. Max Credits: 9.

Restriction: Restricted to MECH majors within the College of Engineering, Design and Computing

Modern Languages (MLNG)

MLNG 1010 - Special Topics: Beginning Language I (1-5 Credits)

A basic introduction to a non-English language and culture. Students study pronunciation, vocabulary, grammar and simple writing techniques.

Note: The topics for this course will target learning non-English languages and the languages taught will vary. Max hours: 10 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 10.

Typically Offered: Fall.

MLNG 1020 - Special Topics: Beginning Language II (1-5 Credits)

This course is a continuation of MLNG 1010. Further practice of pronunciation, study of vocabulary, grammar, and simple writing techniques. Note: The topics for this course will target learning non-English languages and the languages taught will vary. This course

assumes that students have passed MLNG 1010 or equivalent, or have taken one year of high school language, or possess equivalent proficiency in the same target language. A grade of C- or higher in MLNG 1010 is recommended for success in this course. Max hours: 10 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 10.

Typically Offered: Spring.

MLNG 4690 - Methods of Teaching Modern Languages (3 Credits)

Studies current methods, techniques, and best practices for communicative language teaching in modern languages. Focuses on practical components such as creation of classroom materials and peer-teaching as well as linguistic theory (second language acquisition).

Topics include the learning and teaching of the four skills (reading, writing, listening, speaking) and the three domains of language learning: vocabulary, grammar, and pronunciation. Note: requirement for language majors in the teacher certification program, School of Education, CU Denver. Note: This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Cross-listed with SPAN 4690, MLNG 5690, LING 4690, SPAN 5690, FREN 4690, FREN 5690, GRMN 4690, GRMN 5690, CHIN 4690, CHIN 5690. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

MLNG 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, SPAN 4691, MLNG 5691, SPAN 5691, FREN 4691, FREN 5691, GRMN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690

Typically Offered: Spring.

Music (MUSC)

MUSC 1011 - The Greatest Albums of All Time (3 Credits)

Explores the greatest recorded albums of the modern era. Students will gain historical perspective on specific groups and also learn about the tools and techniques used in their production process. For students who want to learn how to listen to music with greater understanding and appreciation. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 1111 - First-Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

MUSC 1540 - Introduction to Audio Production (3 Credits)

Operating principles and performance characteristics of microphones, amplifiers, speaker systems, equalizers, mixers and multi-track recorders; acoustics of music, auditoriums and recording studios. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 1541 - Audio Production I (3 Credits)

Operating principles and performance characteristics of microphones, amplifiers, speaker systems, equalizers, mixers and multi-track recorders; acoustics of music, auditoriums and recording studios. Coreq: MUSC 1542. Restriction: Restricted to MUSC-BS with a sub-plan of MRA or MST. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: MUSC 1542. Restriction: Restricted to MUSC-BS with a sub-plan of MRA or MST

MUSC 1542 - Audio Production Lab (1 Credit)

Lab component to Audio Production I. Focus is on digital audio workstation fluency including recording, editing, processing, signal flow, and automation, and multitrack mixing principles. Coreq: MUSC 1541.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Max Hours: 1 Credit.

Grading Basis: Letter Grade

Coreq: MUSC 1541. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 1560 - Audio Production II (3 Credits)

Studies include theoretical and practical music production techniques with topics covering digital audio workstations, signal flow, digital signal processing, MIDI production, synthesis, and sampling. Team lab recording projects involve recording, mixing, and other music production techniques. Prereq: MUSC 1540 or MUSC 1541, and MUSC 1542.

Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 1540 or MUSC 1541, and MUSC 1542. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 1600 - International Perspectives & Global Reach of Musics from Mexico (3 Credits)

This course encourages students to think critically, communicate effectively (writing, verbal, and digital), and ideate creatively with an international perspective. The international and global reach of musics from Mexico is extensive and diverse. The history and cultural/social contexts, geographic and historical considerations, instrumentation, song lyrics, choreography, and performance practice are linked to many academic research disciplines. This course will draw on international perspectives informed by discipline-based approaches from areas such as anthropology, communication, economics, history, ethnomusicology, Spanish, and political science to provide vibrant contexts grounded in international issues, theories, and discourse. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

MUSC 1800 - Acoustics for Audio Production (3 Credits)

This course studies the nature of sound and practical applications for critical listening and recording environments. Topics include the nature of sound, studio and concert hall design measurement and analysis. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2125 - Electronic Music Production Techniques (3 Credits)

Students will learn contemporary electronic music techniques using current software. The class will include MIDI sequencing, looping, sampling, FM synthesis, subtractive synthesis, and wavetable synthesis. Students will also learn how to appropriately use effects and digital editing. Prereq: MUSC 1560. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 1560; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 2450 - Performing Arts Management and Presentation (3 Credits)

Introduces students to nonprofit and for-profit arts organization issues in performance presentation including organization structure, performance production and management, development of leadership and organizational skills as well as a general understanding of the profession. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2510 - Topics in Recording Arts (3 Credits)

Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

MUSC 2550 - Critical Listening for Recording Arts (3 Credits)

Students will be trained to recognize: boosts and cuts in different bands of frequencies at increasingly small increments, types of distortion, parameters for compression, delay, reverb and stereo imaging. Students will develop a vocabulary for describing sounds and improving auditory memory. Prereqs: MUSC 1560, 1800; Coreq: MUSC 2580; Restricted to BS-MUSC MRA or MST sub-plan only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereqs: MUSC 1560, 1800; Co-req: MUSC 2580; Restricted to BS-MUSC MRA or MST sub-plan only.

MUSC 2580 - Audio Production III (3 Credits)

Advanced studies in sound recording and reinforcement, aesthetics and techniques of multi-track digital recording and stereo imaging. Team lab recording projects. Prereq: MUSC 1560, MUSC 1800; Coreq: MUSC 2550; Restricted to BS-MUSC MRA and MST sub-plans only. Cross-listed with MSRA 5550. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 1560, MUSC 1800; Co-req: MUSC 2550; Restricted to BS-MUSC MRA and MST sub-plans only.

MUSC 2590 - Mastering & Advanced Digital Audio (3 Credits)

A study and practice of the art of mastering. Topics covered include: history, monitoring, signal flow, metering, jitter, audio restoration, limiting, creating a CD pre-master, & mastering for new media. Students will get practical experience mastering their own projects. Prereq: MUSC 2550 & 2580. Restriction: Restricted to MRA and MST sub-plan only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2550 2580; Restricted to MRA and MST sub-plan only.

MUSC 2600 - A History of Audio in 30 Objects (3 Credits)

Explore the history of audio through the stories of 30 key objects. From Edison cylinders to Apple computers. This class will trace the development of recording technology and techniques, and discuss how they effect the way we work today. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2700 - Introduction to Music Business (3 Credits)

Introduces music as a business and a product, emphasizing music publishing, recording, broadcasting, marketing, licensing and legal aspects. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 2750 - Introduction to Music Business (3 Credits)

Introduces music as a business and product emphasizing music publishing, recording, broadcasting, marketing, licensing and legal aspects. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2815 - Music Industry Topics (3 Credits)

Various topics related to music business and recording arts industries.

Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring.

MUSC 2851 - Introduction to the International Music Business (3 Credits)

Students are introduced to the fundamentals of the international music business in diverse countries, including through online discussions and research. Max hours: 3 Credits.

Grading Basis: Letter Grade

MUSC 2852 - Introduction to International Music Technology (3 Credits)
Historical and current global innovations in music technology and their impact on popular music. From magnetic tape to DAWs, monophonic to immersive audio, Roland's 808 bass to Ableton Live. Japan, Germany, Sweden, and the UK are among those represented. Max hours: 3 Credits.
Grading Basis: Letter Grade

MUSC 2853 - International Music Business Study Abroad (3 Credits)
Students engage in music-business field trips to international settings to attend industry events, interact with industry professionals and conduct research for a practical perspective on the increasing globalization of the music industry. Max hours: 3 Credits.
Grading Basis: Letter Grade

MUSC 2854 - International Recording Arts Study Abroad (3 Credits)
Students become acquainted with music technology in a different country by visiting music conferences, recording studios, manufacturers, and historical landmarks. Students compare culturally-based standards and expectations of quality and communication to enhance their sense of professionalism in the field. Max hours: 3 Credits
Grading Basis: Letter Grade
Additional Information: Global Education Study Abroad.

MUSC 3125 - Sound and Music for Video Games (3 Credits)
This course will give students an overview of the function of sound and music for video games including: history, sound engines, types of audio utilized, stereo and surround sound localization, music capabilities of hardware configurations and future trends in sound for video games.
Prereq: MUSC 2580. Max hours: 3 Credit.
Grading Basis: Letter Grade
Pre: MUSC 2580

MUSC 3130 - Sound and Music For Video Games II (3 Credits)
Course is a continuation of Sound and Music for Video Games. Topics of study include non-linear music composition and implementation, advanced sound design techniques, optimization, and hands-on experience with modern game engines and game audio engines. Prereq: MUSC 3125. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MUSC 3125. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 3210 - Music and Entertainment Marketing (3 Credits)
In this course students learn the essential elements of marketing as applied to the music and entertainment industry. Course topics include: marketing principles, theories and tools utilized in the music and entertainment businesses and specific industry practices and applications. Prereq: MUSC 2700. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MUSC 2700 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3220 - Artist Management (3 Credits)
Students learn the theory and practice of artist management as it relates to developing a career through entrepreneurship, establishing business structures for the artist, and concepts including: promotion, live performance, recording, contracts, and essential business practices. Prereq: MUSC 2700 Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MUSC 2700 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 3250 - Music and Entertainment Marketing (3 Credits)
Students learn the essential elements of marketing as applied to the music and entertainment industry. Course topics include: marketing principles, theories and tools utilized in the music and entertainment businesses and specific industry practices and applications. Restriction: Restricted to Music Industry Studies Minor MUIS-MIN. Prereq: MUSC 2750 or MUSC 2700. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restricted to Music Industry Studies Minor MUIS-MIN. Prereq MUSC 2750 or MUSC 2700.

MUSC 3260 - Artist Management (3 Credits)
Students learn the theory and practice of artist management as it relates to developing a career through entrepreneurship, establishing business structures for the artist, and concepts including: promotion, live performance, recording, contracts, and essential business practices. Restriction: Restricted to Music Industry Studies Minor MUIS-MIN. Prereq: MUSC 2750 or MUSC 2700. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restricted to Music Industry Studies Minor MUIS-MIN. Prereq MUSC 2750 or MUSC 2700.

MUSC 3265 - Music Industry Networking (3 Credits)
This course examines key networking strategies, processes and methods within the music industry. Students will research potential markets using social media, face-to-face interaction and other electronic means. Prereq: MUSC 3220. Max hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MUSC 3220

MUSC 3505 - Introduction to Audio Post Production (3 Credits)
Reviews all aspects of audio synchronized with picture, including music, sound effects, narration, and dialog replacement. Topics studied with respect to film, video and multi-media. Prereq: MUSC 2590 or FITV 2650 (Sound for Film and TV). Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: MUSC 2590 or FITV 2650.
Typically Offered: Fall, Spring.

MUSC 3515 - History of 20th Century Film Music (3 Credits)
This survey of the history of 20th century music in film will acquaint aspiring filmmakers and musicians with a history of the music, as well as concepts of film theory and the creative use of film music. Restriction: Restricted to students with Junior or Senior status. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Restricted to Juniors and Seniors only.

MUSC 3520 - History of Songs in 20th Century Films (3 Credits)
This survey of the history of songs in 20th-century film will acquaint aspiring filmmakers and musicians with songs from 1927 - 1999 and will include songs written for films, songs licensed for films, and songs in musical feature films. Restriction: Restricted to MEIS majors with junior-level standing or higher. Cross-listed with MSRA 5520. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Restricted to MEIS majors with junior-level standing or higher.
Typically Offered: Fall.

MUSC 3530 - Live Sound Reinforcement (3 Credits)

This course focuses on the basic elements of sound reinforcement: acoustics, equalization, equipment and mixing techniques. The major emphasis is the production of the final sonic product. Prereq: MUSC 2580. Restriction: Restricted to Sophomore standing or higher and to MUSC-BS with a sub-plan of MRA or MST. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2580 Restriction: Restricted to Sophomore standing or higher. Restriction: Restricted to MUSC-BS with sub-plan of MRA or MST.

MUSC 3545 - Music Editing in Visual Media (3 Credits)

Music editing for film and television. Spotting notes, temp tracks, cue sheets, scoring session management, dubbing stage fixes, and Performing Rights Artists notes. Cross-listed with MSRA 5545. Prereq: MUSC 3505. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3505

MUSC 3555 - Dialogue Editing & Mixing for Visual Media (3 Credits)

Dialogue editing and mixing for film and television. Recording Voiceover, Automated Dialogue Replacement, Group ADR, Efforts. Noise-reduction, mix levels, compression, limiting, EQ and use of reflected sound. Cross-listed with MSRA 5555. Prereq: MUSC 3505. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3505

MUSC 3615 - Topics In Music Business (3 Credits)

Various topics relating to the study of music business. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

Typically Offered: Fall, Spring, Summer.

MUSC 3650 - Music Touring (3 Credits)

Study of the important elements related to the successful execution of musical tours. Topics include tour management, deal memos and contracts, advancing a tour, tour routing, management/booking agents, merchandise sales, tour accounting, hand tour marketing. Prereq: MUSC 3210 and MUSC 3220. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3210 and MUSC 3220. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 3690 - Concert Promotion and Venue Management (3 Credits)

This course gives students a working knowledge of touring, presenting, promoting, marketing and management of live concerts. They will undertake an in-depth analysis from various points of reference: issues for agent, independent promoter, venue manager, tour/production manager and performer. Prereq: MUSC 3210 and MUSC 3220. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3210 and MUSC 3220 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3699 - Concert Promotion and Venue Management (3 Credits)

This course gives students a working knowledge of touring, presenting, promoting, marketing and management of live concerts. They will undertake an in-depth analysis from various points of reference: issues for agent, independent promoter, venue manager, tour/production manager and performer. Restriction: Restricted to Music Business Minors. Prereq: MUSC 3250 and MUSC 3260. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restricted to Music Business Minors. Prereqs: MUSC 3250 and MUSC 3260.

MUSC 3700 - Music and Entertainment Business in the Digital Age (3 Credits)

In this course students learn the trends and developments changing the industry in the Digital Age. Course focuses on current technology, terminology and business models shaping the industry, preparing students for entry into an evolving music and entertainment career.

Prereq: MUSC 3210 and 3220. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3210 and 3220 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 3710 - Artist and Record Labels (3 Credits)

Provides students with an opportunity to use knowledge and skills from music business courses to create and execute initiatives while partnering with local artists and music-related entities for a hands-on learning experience that benefits the student and local music community. Prereq: MUSC 3210 and 3220. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: MUSC 3210 and 3220 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

Typically Offered: Fall, Spring.

MUSC 3715 - Music Business Modules (1 Credit)

Modular courses intended to expose students to specific business and management aspects of various subindustries within the music industry.. Prereq: MUSC 3690. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

MUSC 3720 - Law and the Music Industry (3 Credits)

Students will learn how to use and analyze music law principles through a review of essential court case studies. Students will be tested on lecture material and provided with an opportunity to complete research papers for a more in-depth examination. Prereq: MUSC 3700, 3710 and 3755. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3700, 3710 and 3755. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 3730 - Introduction to Music Cities (3 Credits)

In this course, students will examine the development and enhancement of music communities, using as templates the music communities in the city of Denver, the state of Colorado, and other cities throughout the world. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

MUSC 3731 - Non Profit Entities in Music and Creative Economies (3 Credits)

Students explore the viability, creation, effective operation, and sustainability of a music-related non-profit entity within a music community and how it can strengthen the economic and social well-being of that community. Restriction: Restricted to students with a junior or senior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 3732 - Advanced Music Cities (3 Credits)

Students explore how investment in a city's music economy can be beneficial to the development of both a city's physical and economic landscape. Restriction: Restricted to students with a junior or senior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 3733 - Music Tourism (3 Credits)

Students will learn how to use music to drive local and regional tourism strategies. Restriction: Restricted to students with a junior or senior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 3740 - Location Sound Recording (3 Credits)

Studies workflow and techniques for location recording for film, video, TV, and video games. Students will work in field and in the studio recording and producing sound effects. Topics include microphone selection, field recording, editing and related industry studies. Prereq: MUSC 2590.

Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 3750 - Women in the Music Industry (3 Credits)

An exploration of the role of women in the music industry, from performers to recording professionals, managers, and executives. This course offers historical perspective on gender diversity in the industry, and explores current issues and its impact on music. Prereq: MUSC 2700. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2700.

MUSC 3755 - Music Publishing (3 Credits)

Students will learn key issues related to music publishing and song marketing activities, as well as the function and responsibilities of music publishers. Students will gain insight into skills needed to operate a music publishing company. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Prereq: MUSC 3210. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3210 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

Typically Offered: Fall, Spring.

MUSC 3760 - Music Publishing (3 Credits)

Students will learn key issues related to music publishing and song marketing activities, as well as the function and responsibilities of music publishers. Students will gain insight into skills needed to operate a music publishing company. Restriction: Restricted to Music Business Minors. Prereq: MUSC 3250. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restricted to Music Business Minors. Prereq: MUSC 3250.

Typically Offered: Fall, Spring.

MUSC 3770 - Music Licensing (3 Credits)

An examination of licensing and publishing agreements associated with the music industry. Course will also examine digital licensing agreements from a publishing and label perspective. Prereq: MUSC 3720 and MUSC 3755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: MUSC 3720 and MUSC 3755.

MUSC 3775 - Music Supervision and Synch (3 Credits)

An examination of processes and strategies associated with securing licenses for music in media outside the music industry. This course offers hands-on opportunity to make music selections for a variety of media using licensing/contract deals for composers, publishers, and labels. Prereq: MUSC 2700 OR MUSC 2750 OR FITV 1001. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2700 OR MUSC 2750 OR FITV 1001.

Typically Offered: Fall, Spring.

MUSC 3785 - Current Issues In the Music Business (3 Credits)

Class discusses and analyzes cutting-edge business and legal developments in the music industry, focusing particularly on the developments' impact on historical traditions, career paths and creative applications in the field. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring.

MUSC 3790 - Video Production in the Arts: Music (4 Credits)

Introduces the development of the contemporary music video with an emphasis on stylistic and technical analysis. Combines a lecture demonstration format with hands-on videography. Open to music, theatre, fine arts majors, and students who have successfully completed at least one College of Arts and Media course. Max hours: 4 Credits.

Grading Basis: Letter Grade

MUSC 3845 - The Beatles (3 Credits)

This course explores the music, biography, cultural impact and business of the Beatles. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

Typically Offered: Fall, Spring, Summer.

MUSC 3850 - History of the Music Industry (3 Credits)

This course investigates the historical development of the music industry from an economic, social, artistic, political, and technological perspective. It focuses on organizations, genres, business systems and influential individuals. Restriction: Restricted to MUSC-BS majors within the College of Arts & Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

MUSC 4100 - Advanced Composition (2 Credits)

Composition of extended forms. May be repeated once for credit. Prereq: MUSC 3200. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

MUSC 4210 - Advanced Music Law (3 Credits)

Students will conduct in-depth research on focused music law issues, and engage in a workshop setting in drafting, reviewing and negotiating music business contracts. Prereq: MUSC 3720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Pre: MUSC 3720

MUSC 4360 - Music, Meditation and Technology (3 Credits)

Interdisciplinary course on acoustic ecology, sound art, and music technology. Through deep listening, compassionate listening, soundwalking, and interactive music controlled by motion capture, the unifying theme of this course is an engagement with sonic awareness, environment, and self-exploration. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Cross-listed with MSRA 5360. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST within the College of Arts and Media

Typically Offered: Fall.

MUSC 4380 - Advanced Electronic Music Production & Performance (3 Credits)

This course is designed to take a deeper dive into music, electronic music, as well as perceptions of music. Students will be able to create generative compositions, single sample-based compositions, a performative electronic composition, and incorporate multimedia elements into their compositions. Prereq: MUSC 2590. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Cross-listed with MSRA 5380. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 4400 - The International Music Business (3 Credits)

Students examine key elements of the music business structures of different countries, including the countries' trade organizations, industry executives, music artists (as examples of music business success), intellectual property principles and current music business issues. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

MUSC 4500 - Topics in Professional Audio (1 Credit)

Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry.

Prereq: MUSC 4550. Cross-listed with MSRA 5500. Repeatable. Max

Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: MUSC 4550 Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 4510 - Topics in Recording Arts (3 Credits)

Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry.

Restriction: Restricted to MUSC majors with a sub-plan of MRA or MST.

Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Restricted to MUSC majors with a sub-plan of MRA or MST

Typically Offered: Fall, Spring, Summer.

MUSC 4525 - Multimodal Interaction for Music (3 Credits)

This course explores human-computer interaction in music composition and performance. Students will learn to program and use open-source hardware to build novel and creative musical interfaces and instruments.

Restriction: Restricted to Junior/Senior level students in the Recording Arts program. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior/Senior level students in the Recording Arts program (MUSC-BS MST or MUSC-BS MRA)

MUSC 4535 - Sound Effects & Foley for Visual Media (3 Credits)

Techniques for recording sound effects in the field and recording Foley in the studio. Use of library effects. Use of mixing techniques and plug-ins to create more complex sounds. Cross-listed with MSRA 5535. Prereq: MUSC 3505. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3505

MUSC 4545 - Re-recording Mixing for Visual Media (3 Credits)

Techniques for mixing dialogue, ADR, music, sound effects, background ambiances and Foley. Different level standards and deliverables. Cross-listed with MSRA 5565. Prereq: MUSC 3555 or MUSC 4535. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3555 or MUSC 4535

MUSC 4575 - Surround Sound (3 Credits)

This lecture-lab course deals with surround sound in film, digital TV and DVDs. Topics include monitoring, microphone techniques, recording, mixing, mastering, delivery formats and psychoacoustics. Students work on two lab projects in the semester. Prereq: MUSC 2590. Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Cross-listed with MSRA 5575. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 2590; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 4580 - Audio Production Seminar (3 Credits)

Faculty and majors of the music engineering program assemble to discuss and demonstrate issues of artistic and technical applications of recording technology. Student projects, faculty, and guest lectures provide topical focus. (Music facility fee applies) Prereq: MUSC 3505.

Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: MUSC 3505; Restricted to MUSC-BS majors with a sub-plan of MRA or MST.

MUSC 4581 - Audio Production Seminar II (3 Credits)

A capstone project based course in which students complete professional quality projects in music production and/or post production. Students refine their engineering skills and develop new skills required for integration in the music industry such as portfolio design and resume development. Prereq: MUSC 4580. Cross-listed with MSRA 5581. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: MUSC 4580 Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST

MUSC 4740 - Music Business Analysis (3 Credits)

Students learn to analyze specific managerial situations unique to the music and entertainment industries and will understand aspects of finance, taxation, and management science. Prereq: MUSC 3690, 3700, 3710 and 3755. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3690, 3700, 3710 and 3755 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 4800 - Music Industry Entrepreneurship (3 Credits)

MIE is a project-based course focused on individual entrepreneurial endeavors. Students will supply their own business, music, multi-media or audio projects. The class will focus on principles of entrepreneurship and helping student's develop those projects into viable businesses or creative releases. Restriction: Restricted to Juniors and Seniors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Juniors and Seniors only.

MUSC 4820 - Digital Music Techniques (3 Credits)

Studies the general principles and applications of digital music technology, emphasizing the function and operation of specific computer software. Topics include digital audio workstations, MIDI sequencers, digital signal processing programs, and distribution on optical discs and computer-based mediums. Prereq: Admittance to Recording Arts/Tech focus. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors with a sub-plan of MRA or MST

MUSC 4890 - Music Business Senior Seminar (3 Credits)

Seminar activities focus on students developing, discussing and completing individual capstone projects. This includes an in-depth research paper and in-class presentation to allow students to explore their relevant interests in the music business. Prereq: MUSC 3720. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MUSC 3720 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

MUSC 4939 - Internship in MEIS (1-3 Credits)

Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Performance Music (PMUS)

PMUS 1001 - Music Appreciation (3 Credits)

Explores the style of music in the major compositional periods, including contemporary pop styles. This course will not satisfy any degree requirements for music majors. For non-music majors who want to learn how to listen to music with greater understanding and pleasure. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts; GT courses GT Pathways, GT-AH1, Arts Hum: Arts Expression.

PMUS 1011 - World Pop (3 Credits)

Explores popular music from around the world with an emphasis on the latest trends. This is for non-music majors who want to learn about other cultures and learn how to listen to all music with greater understanding. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Arts.

PMUS 1020 - Beginning Musicianship (3 Credits)

Provides basic musical and theoretical skills to students who do not have the proficiency to enroll in Theory I and Ear Training I. Major concepts include an introduction to music fundamentals, basic ear training, introduction to sight singing and an applied understanding of the keyboard. This course will not satisfy any degree requirements for Music majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PMUS 1021 - Piano Class For Non-Majors (1 Credit)

Elementary group instruction in piano skills for non-majors. Course focuses upon development of basic reading and performance skills for the non-Music Major. Max hours: 1 Credit.

Grading Basis: Letter Grade

PMUS 1022 - Piano Class II for Non-Majors (1 Credit)

Intermediate to Advanced instruction in piano skills for non-majors. Course focuses on further development of reading and performance skills for the non-Music Major. Prereq: PMUS 1021 or permission of instructor. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1021

PMUS 1023 - Piano Class I (1 Credit)

This course focuses on beginning note reading in both treble and bass clefs, learning one octave major key scales, basic harmonization, and beginning improvisation. Students perform in both individual and group settings. Restriction: Restricted to MUSC-BS majors within the College of Arts & Media. For sub-plans MMM, MRA, MPF, SWR : Coreq: PMUS 1100/MU 1110 and PMUS 1110/MU 1120 and PMUS 1023/MU 161B. For sub-plans MSB and MST: PMUS 1119 and PMUS 1120. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts Media. For sub-plans MMM, MRA, MPF, SWR : Coreq: PMUS 1100/MU 1110 and PMUS 1110/MU 1120 and PMUS 1023/MU 161B. For sub-plans MSB and MST: Coreq: PMUS 1119 and PMUS 1120.

Typically Offered: Fall, Spring.

PMUS 1024 - Piano Class II (1 Credit)

This course focuses on intermediate sight reading, technique, chord vocabulary, major and minor scales, and improvisation. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: PMUS 1023. Coreq: PMUS 1200 and 1210 for Audition Track students only; no corequisites required for Non-audition Track students. Max hours: 1 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1023 and Coreq: PMUS 1200 and 1210 for Audition Track students only; no corequisites required for Non-audition Track students.

PMUS 1025 - Piano Class III (1 Credit)

Students entering this course are expected to have general fluency in major and minor scales. The course focuses on expanding chord vocabulary, sight reading, transposition, and performing more advanced repertoire. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: PMUS 1024. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1024 (sub-plans MMM or MRA or MPF or PRA or MST or MSB or PMT or SWR) Coreq: PMUS 2100 and PMUS 2110 (sub-plans MMM or MPF or MRA or PRA or SWR) Restriction: MUSC-BS

PMUS 1026 - Piano Class IV (1 Credit)

Students entering this course are expected to have fluency in sight reading, major and minor scales. The course focuses on harmonizing with complex chords, playing by ear, improvisation, and playing repertoire in broader range of key signatures. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Course meets in Roland Piano Lab. Prereq: PMUS 1025. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1025 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 1040 - Class Guitar (1 Credit)

Designed to provide each student with a basic knowledge of the fretboard. The course material focuses on beginning note reading, basic chord forms and elementary improvisation. Students have the opportunity to perform in both individual and group settings. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1041 - Class Guitar II (1 Credit)

This group guitar class is designed to go beyond PMUS 1040 and provide students with an advanced knowledge of the fretboard. The course material focuses on advance position note reading, complex chord forms and scale vocabulary. Students have the opportunity to perform in both individual and group settings. Max hours: 1 Credit.

Grading Basis: Letter Grade

Repeatable. Max Credits: 1.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1045 - Class Guitar I for Non-Majors (1 Credit)

This class will address basic techniques and concepts of playing the guitar, for non-majors. Students will gain a basic proficiency with regard to picking and fingerstyle technique, and learn essential contemporary harmony through the performance of etudes and songs. Max hours: 1 Credit.

Grading Basis: Letter Grade

PMUS 1046 - Class Guitar II for Non-Majors (1 Credit)

This class will address basic techniques and concepts of playing the guitar, for non-majors. Students will gain a basic proficiency with regard to picking and fingerstyle technique, and learn essential contemporary harmony through the performance of etudes and songs. Prereq: PMUS 1045. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1045

PMUS 1050 - Voice Class I (1 Credit)

Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Development of technique, confidence, and control through group and solo singing. Development of repertoire that includes contemporary and commercial vocal styles. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1051 - Voice Class I for Non-Majors (1 Credit)

Voice technique and repertoire for non-music majors taught in a group setting. Students will learn basics of healthy singing technique and how to sing in multiple genres in both group and solo formats. For non-majors with little or no previous singing experience. Max hours: 1 Credit.

Grading Basis: Letter Grade

PMUS 1060 - Voice Class II (1 Credit)

Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Extension of PMUS 1050, with opportunity to continue to develop individual skills in singing. Development of technique, confidence, and control through group and solo singing. Development of repertoire that includes contemporary and commercial vocal styles. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1061 - Voice Class II for Non-Majors (1 Credit)

Intermediate Voice technique for non-majors taught in a group setting. Students will learn elements of technique, style and repertoire geared toward non-majors. Some singing experience or successful completion of Voice I for Non-Music Majors required. Prereq: PMUS 1051 or permission from the instructor. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1051

PMUS 1100 - Music Theory I (3 Credits)

Study of the evolution of harmonic and melodic procedures, as derived from the common practice period of classical music, and their relationship to contemporary music concepts. Coreq: PMUS 1110 and PMUS 1023. Restriction: Restricted to MUSC-BS majors and minors within the College of Arts & Media. Term offered: Fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Requires corequisite courses of PMUS 1100 and PMUS 1023. Restricted to Music (MUSC) majors and minors only.

Typically Offered: Fall.

PMUS 1101 - Music Theory & Ear Training Lab (1 Credit)

Provides supplemental instruction and tutoring for students enrolled in Theory I and Ear Training Sight Signing I. Course activities include training in the following subject areas: scale formation and identification, chord spelling and identification, interval spelling and identification, basic harmonic analysis and rhythmic dictation. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

Typically Offered: Fall.

PMUS 1105 - Music Theory I (3 Credits)

Study of the evolution of harmonic and melodic procedures, as derived from the common periods of practice, and their relationship to contemporary music concepts. Restriction: Restricted to General Music Minors, GMUS-MIN. Coreq: PMUS 1115. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to General Music Minors, GMUS-MIN. Coreq: PMUS 1115 and PMUS 1105.

PMUS 1110 - Ear Training and Sight Singing I (1 Credit)

An aural skills laboratory course that reinforces the concepts taught in Music Theory I through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music. Coreq: PMUS 1100 and PMUS 1023. Restriction: Restricted to MUSC-BS majors and minors within the College of Arts & Media. Term offered: Fall, Spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Requires corequisite courses of PMUS 1100 and PMUS 1023. Restricted to Music (MUSC) majors and minors only.

Typically Offered: Fall, Spring.

PMUS 1115 - Ear Training and Sight Singing I (1 Credit)

An aural skills laboratory course that reinforces the concepts taught in Music Theory I through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music.

Restriction: Restricted to General Music Minors, GMUS-MIN. Coreq: PMUS 1105. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to General Music Minors, GMUS-MIN. Coreq: PMUS 1115 and PMUS 1105.

Typically Offered: Fall, Spring.

PMUS 1119 - Ear Training and Sight Singing I (1 Credit)

An aural skills laboratory course that reinforces the concepts taught in Music Theory I through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music. Coreq: PMUS 1023 and PMUS 1120. Restriction: Restricted to MUSC-BS majors with a sub-plan of MST or MSB. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1023, PMUS 1100 PMUS 1110 OR PMUS 1023, PMUS 1100 PMUS 1119. Coreq: PMUS 1200 and PMUS 1024. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

Typically Offered: Fall, Spring.

PMUS 1120 - Music Theory I (3 Credits)

Study of the evolution of harmonic and melodic procedures, as derived from the common periods of practice, and their relationship to contemporary music concepts. Coreq: PMUS 1023 and PMUS 1119.

Restriction: Restricted to MUSC-BS majors with a sub-plan of MST or MSB. Max hours: 3 Credits.

Grading Basis: Letter Grade

Coreq: PMUS 1023 and PMUS 1119. Restriction: Restricted to MUSC-BS majors with a sub-plan of MST or MSB.

Typically Offered: Fall, Spring.

PMUS 1200 - Music Theory II (3 Credits)

The study of harmonic and melodic elements as they relate to modern, jazz, and commercial music. Topics include contemporary chord spelling, chord substitution, transposition, voice leading, harmonic analysis and modes. Prereq: PMUS 1023 and (PMUS 1100 or PMUS 1105 or PMUS 1120) and (PMUS 1110 or PMUS 1115 or PMUS 1119). Coreq: PMUS 1210 and PMUS 1024. Restriction: Restricted to MUSC-BS majors and minors within the College of Arts and Media. Max hours: 3 Credits. Grading Basis: Letter Grade

Requires prerequisite course of PMUS 1023 and (PMUS 1100 OR PMUS 1105 OR PMUS 1120) and (PMUS 1110 OR PMUS 1115 OR PMUS 1119) (min grade D-). Requires coreq courses of PMUS 1210 and PMUS 1024. Restricted to MUSC-BS majors and minors only.

Typically Offered: Fall, Spring.

PMUS 1210 - Ear Training and Sight Singing II (1 Credit)

An intermediate aural skills laboratory course that reinforces the concepts taught in Music Theory II through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music. Prereq: PMUS 1023 and (PMUS 1100 or PMUS 1105 or PMUS 1120) and (PMUS 1110 or PMUS 1114 or PMUS 1119). Coreq: PMUS 1200 and PMUS 1024. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Term offered: Fall, Spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Requires prerequisite course of PMUS 1023 and (PMUS 1100 or PMUS 1105 or PMUS 1120) and (PMUS 1110 or PMUS 1114 or PMUS 1119) (all min D-). Requires corequisite courses of PMUS 1200 and PMUS 1024. Restricted to Music (MUSC) majors and minors only.

Typically Offered: Fall, Spring.

PMUS 1211 - Ear Training and Sight Singing II (1 Credit)

An intermediate aural skills laboratory course that examines interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music. Prereq: PMUS 1119; Restricted to MUSC-BS majors with a sub-plan of MST. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1119; Restricted to MUSC-BS majors with a sub-plan of MST.

PMUS 1310 - Sight Reading and Improvisation (2 Credits)

Explores the techniques and concepts of instrumental jazz/commercial improvisation and beginning sight reading. Major concepts include understanding and interpreting the construction of jazz harmonic nomenclature and the mastery of the melodic elements of improvisation. Prereq: PMUS 1200, 2.0 credits from PMUS 1801 to PMUS 1823 (MIS Applied Lesson). Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200 and (2.0 credit hours from PMUS 1801-1823)

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 1420 - UCD A Cappella Voices Ensemble (1 Credit)

Beginning Ensemble. A cappella choir. This course will focus on choral singing to further the student's musical and vocal skills. Emphasis will be on successful preparation for the advanced a cappella groups. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 1440 - Acoustic Guitar Ensemble (1 Credit)

Beginning Ensemble. This course explores the techniques and repertoire of acoustic guitar. Musical styles include: jazz, Latin, bluegrass, Renaissance, Baroque, tango and blues. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 1470 - Performance Practice Ensemble (1 Credit)

This beginning-level ensemble explores individual and group performance settings for first year audition-based MEIS students. Course skills include: performance protocol, presentation, self assessment and peer assessment. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1480 - Improvisation I (2 Credits)

Introduction to the techniques and concepts of instrumental improvisation. Major concepts include identifying and improvising over common musical forms, understanding chord construction and chord/scale relationships, and developing an ability to improvise appropriately in a number of common styles. Max hours: 2 Credits.

Grading Basis: Letter Grade

PMUS 1490 - IMPROV Ensemble (1 Credit)

Funktronica to freak folk, jazzcore to djent, jamming out in the 21st century can be a more diverse experience than ever before. The CU Denver IMPROV (Innovative Musical Performance Recent Overview) Ensemble is a performance laboratory dedicated to expanding students' improvisational horizons with an exploration of the latest collaborative approaches, reflecting cross-stylistic, cross-disciplinary elements.

Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Typically Offered: Fall, Spring.

PMUS 1500 - Music Industry Insights (1 Credit)

This pass/fail course is a co-requisite for all students enrolled in applied music instruction. Students will evaluate and critique musical performances and presentations as well as develop an informed understanding of live musical performance as it pertains to diversity of genre and excellence in musical achievement. Restriction: Restricted to MUSC BS majors, and GMUS minors. Repeatable. Max hours: 12 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Repeatable. Max Credits: 12.

Restriction: Restricted to BS MUSC majors, and GMUS minors

Typically Offered: Fall, Spring.

PMUS 1502 - Applied Bass (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1522 - Applied Bassoon (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1532 - Applied Clarinet (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1542 - Applied Bass Clarinet (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1552 - Applied Flute (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1562 - Applied French Horn (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1572 - Applied Guitar (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1574 - Applied Guitar, Singer/Songwriter (1 Credit)

Private instruction guitar specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Restricted: BS-MUSC SWR. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Student must be accepted as a Singer/Songwriter major in the music program and have declared guitar as their primary instrument.

Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1582 - Applied Banjo (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1610 - Topics in Performance Music (3 Credits)

Various topics related to music performance. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

PMUS 1612 - Applied Drum Kit (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1620 - Topics: Performance Music II (2 Credits)

Various topics related to music performance. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1630 - Topics: Performance Music III (3 Credits)

Various topics related to music performance. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PMUS 1632 - Applied World Percussion (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1642 - Applied Piano (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1644 - Applied Piano, Singer/Songwriter (1 Credit)

Private instruction in piano specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Restricted: BS-MUSC SWR. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Student must be accepted as a Singer/Songwriter major in the music program and have declared piano as their primary instrument.

Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

PMUS 1662 - Applied Saxophone (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1672 - Applied Electronic Digital Instrument (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Restriction: Restricted to MUSC majors within the College of Arts and Media. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1682 - Applied Trombone (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1692 - Applied Trumpet (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1702 - Applied Violin (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1712 - Applied Viola (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1722 - Applied Cello (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1732 - Applied Voice (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 1734 - Applied Voice, Singer/Songwriter (1 Credit)

Private instruction in voice specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Restricted: BS-MUSC SWR. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Student must be accepted as a Singer/Songwriter major in the music program. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

PMUS 1801 - Appl Electric Bass, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1802 - Appl String Bass, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1803 - Applied Guitar, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1804 - Applied Percussion, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1805 - Applied Drum Kit, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1806 - Applied Piano, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1808 - Applied Voice, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1809 - Applied Electronic Digital Instrument, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1815 - Applied Banjo, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1821 - Applied Cello, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1822 - Applied Viola, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1823 - Applied Violin, Non-Juried (1 Credit)

Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Repeatable. Max Hours: 2 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 1901 - Applied Electric Bass (1 Credit)

Private music lessons for General Music Minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music Minors, GMUS-MIN. Max hours: 1 Credit.
Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1903 - Applied Guitar (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN. Max hours: 1 Credit.
Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1905 - Applied Drum Kit (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN. Max hours: 1 Credit.
Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1906 - Applied Piano (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music Minors, GMUS-MIN. Max hours: 1 Credit.
Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1908 - Applied Voice (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN. Max hours: 1 Credit.
Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1909 - Applied Electronic Digital Instrument (1 Credit)

Private music lessons for General Music minors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN.
Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 1923 - Applied Violin (1 Credit)

Private music lessons for General Music minors majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Restriction: Restricted to General Music minors, GMUS-MIN. Max hours: 1 Credit.
Grading Basis: Letter Grade
Restricted to General Music minors, GMUS-MIN.

PMUS 2020 - Prague's Musical Legacy (3 Credits)

Introduces students to composers and music of central Europe, with an emphasis on Czech music and culture. Additional topics include: aesthetics of central European film music; current trends in Slavic music; and the influence of the Czech language and history in music creation. Repeatable. Max hours: 6 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

PMUS 2050 - The Holistic Musician (3 Credits)

This course is designed to examine and explore the development and practice of health and wellness for musicians, identifying and establishing career objectives, and developing core strategies to thrive as a contemporary artist-musician. Max hours: 3 Credits.

Grading Basis: Letter Grade

PMUS 2092 - Commercial Piano Styles I (2 Credits)

This course will teach students how the piano is used in major commercial piano styles of the twentieth and twenty-first centuries. Students will develop a found of skills and knowledge that can be applied to professional music settings. Students must pass a piano audition or have permission from the instructor. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

Typically Offered: Fall.

PMUS 2093 - Commercial Piano Styles II (2 Credits)

This course will teach students in-depth stylistic performance skills, strategic improvisation, composition, and arranging. Students must pass a piano audition, or complete PMUS 2092, or have permission from the instructor. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2095 - Commercial Guitar Styles and Theory - Harmony (2 Credits)

A comprehensive guitar course that focuses on harmonic theory specific to the guitar fingerboard. Topics include: chord voicing and inversions, jazz and commercial accompaniment styles including walking bass, bossa nova, funk and finger picking. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 2096 - Commercial Guitar Styles and Theory - Melody (2 Credits)

A comprehensive guitar course that focuses on harmonic theory specific to the guitar fingerboard. Topics include: tetrachords, scales, modes, arpeggios, finger technique development and improvisation. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 2097 - Commercial Singing I (2 Credits)

Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Development of contemporary solo vocal repertoire (pop, rock, jazz, rhythm and blues) and traditional styles. Training in all aspects of vocal performance needed for live performance and recording sessions (microphone technique, stage presence, appropriate vocal styles and delivery). Development of solid understanding of vocal technique and its application to all vocal styles. Max hours: 2 Credits.

Grading Basis: Letter Grade

PMUS 2098 - Commercial Singing II (2 Credits)

Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Extension of PMUS 3010, with opportunity to continue to develop individual skills in commercial solo singing. Development of contemporary solo vocal repertoire (pop, rock, jazz, rhythm and blues) and traditional styles. Training in all aspects of vocal performance needed for live performance and recording sessions (microphone technique, stage presence, appropriate vocal styles and delivery). Development of solid understanding of vocal technique and its application to all vocal styles. Prereq: PMUS 3010. Max hours: 2 Credits.

Grading Basis: Letter Grade

PMUS 2100 - Music Theory III (3 Credits)

Exposes students to the theoretical aspects of Western European classical music from the Baroque period to the Classical period. Emphasis is placed on the melodic aspects of classical music including the creation of melody and the combining of melodies into polyphonic structures. Prereq: PMUS 1200, 1210, and 1024. Coreq: PMUS 1025 and 2110. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1024/MU 162B, 1200, and 1210 Coreq: PMUS 1025, PMUS 2110 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 2110 - Ear Training and Sight Singing III (1 Credit)

An advanced laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in Music Theory III to the performance of music. Prereq: PMUS 1200 and PMUS 1210. Coreq: PMUS 2100 and PMUS 1023. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PMUS 1024/MU 162B, 1200, and 1210 Coreq: PMUS 1025 and 2100 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

Typically Offered: Fall.

PMUS 2200 - Jazz Theory (3 Credits)

Explores music theory as it applies to the genres of jazz and popular music. The topics include the theory of jazz improvisation, an analysis of jazz and popular music forms, the transcription and analysis of pop/jazz rhythms and melodies, and chord substitutions. Prereq: PMUS 1200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200/MU 1130 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

Typically Offered: Fall, Spring.

PMUS 2220 - Songwriting Production (3 Credits)

This course explores methods of composition and arranging using sample-based software. Prereq: PMUS 1200, PMUS 1210 and PMUS 2310. Restriction: Restricted to MUSC majors. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200, PMUS 1210, and PMUS 2310. Restriction: Restricted to MUSC majors.

Typically Offered: Fall, Spring.

PMUS 2310 - Introduction to Songwriting (3 Credits)

Studies the craft of songwriting. Emphasis is on the creation of original melodies and lyrics. A variety of non-classical contemporary musical styles are considered. Prereq: PMUS 1100, and either PMUS 1023 or PMUS 1040. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1100, and either PMUS 1023 or PMUS 1040.

PMUS 2315 - Introduction to Songwriting (3 Credits)

Studies the craft of songwriting. Emphasis is on the creation of original melodies and lyrics. A variety of non-classical contemporary musical styles are considered. Prereq: PMUS 1105, 1115 and (1.0 credit from PMUS 1901-1923). Restriction: Restricted to General Music Minors GMUS-MIN. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1105, 1115 and (1.0 credit from PMUS 1901-1923).

Restriction: Restricted to General Music Minors GMUS-MIN.

PMUS 2320 - Songwriting Analysis (3 Credits)

This course presents an analysis of songs across genres and decades, including pop, rock, folk, singer/songwriter, punk, rap, indie, and bluegrass. Students isolate and compare lyrical, melodic, harmonic, rhythmic, and formal elements. Prereq: PMUS 1200. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200

PMUS 2420 - Electro/Acoustic Ensemble (1 Credit)

Intermediate Ensemble. This course will study established methods used as agents of musical creativity in the practice of improvised music. Focus on real-time musical collaboration utilizing musical vocabularies from a wide range of sources. Instrumentation of many kinds may be utilized. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 2430 - Pop/Rock Ensemble (1 Credit)

Intermediate Ensemble. This course will focus on group rehearsals of contemporary music with challenging technical and vocal requirements. Students will gain experience in transcribing and creating simple arrangements, learning adequate musicality, performing presentation and group cooperation. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 2435 - Hip Hop/R&B Ensemble (1 Credit)

Intermediate Ensemble. This course will focus on group rehearsals of hip hop and R&B with challenging technical and vocal requirements. Students will gain experience in transcribing and creating simple arrangements, learning adequate musicality, performing presentation and group cooperation. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PMUS 2444 - Film Scoring (3 Credits)

This course introduces students to concepts of film music composition, storytelling through music and application of film scoring techniques. It will introduce various stages of the process of creating original music for film. The course will also cover analysis of scores, topics on history of film, interviews with famous film composers, instrumentation, orchestration, and compositional techniques, as well as application of those to music for film. The course will include lectures, projects, and assignments. In addition, this course facilitates students' learning through collaborative projects with students from the Film & Television Department. Prereq: PMUS 1023 or equivalent knowledge, see department for more details. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1023.

Typically Offered: Spring.

PMUS 2450 - Bluegrass Ensemble (1 Credit)

Ensemble designed to give students the opportunity to explore Bluegrass music and related folk/country styles through performance, listening and discussion. Important artists, repertoire, musical trends, and historical perspectives will be studied. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Typically Offered: Fall, Spring.

PMUS 2470 - Mobile Device Ensemble (1 Credit)

This ensemble will be comprised of students utilizing only laptop computers and mobile devices (e.g., iPads & iPhones) to create music. The ensemble will explore various contemporary styles including house, dance, ambient and other current electronic music. Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

PMUS 2490 - Django Jazz Ensemble (1 Credit)

Ensemble designed to give students the opportunity to explore the genre "gypsy jazz" and related styles through performance, listening and discussion. Important artists, repertoire, musical trends, and historical perspectives will be studied. Open to advanced instrumentalists and vocalists, audition based. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 2495 - New Electronics Orchestra Ensemble (NEO) (1 Credit)

A performance laboratory for the combination of electronic and acoustic instruments, including improvisation, composition, as well as live video and game sound design. Class requires either an audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 2502 - Applied Bass (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1502 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2572 - Applied Guitar (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1572 (Two semesters). Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2574 - Applied Guitar, Singer/Songwriter (1 Credit)

Private instruction in guitar specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform a jury. Student must be accepted as a Singer/Songwriter major in the music program, have completed two semesters of applied Singer Songwriter lessons, and have declared guitar as their primary instrument. Coreq: PMUS 1500. Restriction: BS-MUSC SWR. Repeatable. Term offered: spring, fall. Max hours: 2 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Coreq: PMUS 1500. Restriction: BS-MUSC SWR.
Typically Offered: Fall, Spring.

PMUS 2582 - Applied Banjo (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1582 (Two semesters). Repeatable. Max hours: 2 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2612 - Applied Drum Kit (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1612 (Two semesters). Repeatable. Max hours: 2 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2632 - Applied World Percussion (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1632 (Two semesters). Repeatable. Max hours: 2 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2642 - Applied Piano (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1642 (Two semesters). Repeatable. Max hours: 2 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2644 - Applied Piano, Singer/Songwriter (1 Credit)

Private instruction in piano specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform a jury. Student must be accepted as a Singer/Songwriter major in the music program, have completed two semesters of applied Singer Songwriter lessons, and have declared piano as their primary instrument. Coreq: PMUS 1500. Restriction: BS-MUSC SWR. Repeatable. Term offered: spring, fall. Max hours: 2 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Coreq: PMUS 1500. Restriction: BS-MUSC SWR.
Typically Offered: Fall, Spring.

PMUS 2672 - Applied Electronic Digital Instrument (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1672 (Two semesters). Repeatable. Max hours: 2 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2692 - Applied Trumpet (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1692 (Two semesters). Repeatable. Max hours: 2 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 2.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2702 - Applied Violin (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1702 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2712 - Applied Viola (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1712 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2722 - Applied Cello (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2732 - Applied Voice (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2734 - Applied Voice, Singer/Songwriter (1 Credit)

Private instruction in voice specific to singer/songwriter majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform a jury. Student must be accepted as a Singer/Songwriter major in the music program, have completed two semesters of applied Singer Songwriter lessons. Coreq: PMUS 1500. Restriction: BS-MUSC SWR. Repeatable. Term offered: spring, fall. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Coreq: PMUS 1500. Restriction: BS-MUSC SWR.

Typically Offered: Fall, Spring.

PMUS 2742 - Applied Tuba (1 Credit)

Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1742 (Two semesters). Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 2750 - Functional Guitar Skills: Acoustic Guitar Styles (2 Credits)

This course is designed to introduce students to the fundamental architecture and techniques of contemporary acoustic guitar styles. The first part of the course will explore the techniques, repertoire and styles of Fingerstyle Guitar, while the second half will be dedicated to Flatpicking styles and techniques. Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 2751 - Functional Guitar Skills: Electric Guitar Styles (2 Credits)

This course is designed to introduce students to the fundamental architecture and techniques of contemporary electric guitar styles with regard to studio and live performance situations. Students will also explore the business aspects of music performance including marketing, self-assessment, career strategies, recording, and press kits. Repeatable. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 2855 - Music in Cuba Study Abroad (3 Credits)

Explores Cuban music in its cultural context, examining the development of musical genres, and the current musical and cultural landscape. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PMUS 3060 - Ensemble Engineer (1 Credit)

This engineer position is designed to provide audio support for a various performing ensembles. Duties include live audio reinforcement during concerts and rehearsals, audio archiving, organization and equipment management. Enrollment is limited to one semester for non-audition track students and two semesters for audition-track students. Prereq: MUSC 4530. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Prereq: MUSC 4530

PMUS 3070 - Ensemble Manager (1 Credit)

This manager position is designed to provide booking, promotional and organizational support for various performing ensembles. Enrollment is limited to one semester for non-audition track students and two semesters for audition-track students. Prereq: MUSC 3690. Repeatable. Max Hours: 2 Credits.

Grading Basis: Letter Grade
Repeatable. Max Credits: 2.

Prereq: MUSC 3690

PMUS 3100 - US Music: Social & Political Impact (3 Credits)

Examines and describes the social meaning of American music with particular reference to the roles of major ethnic groups in the creation of this music and the way that the music reveals attitudes toward these groups. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

PMUS 3110 - Social and Political Implications of American Music (3 Credits)

Examines and describes the social meaning of American music with particular reference to the roles of major ethnic groups in the creation of this music, and the way that the music reveals attitudes toward these groups. Max hours: 3 Credits.

Grading Basis: Letter Grade

PMUS 3200 - Popular Music Performance Skills (2 Credits)

Students develop live performance skills including expression, stage presence and creating energy on stage, as well as connecting with the audience. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

Typically Offered: Fall, Spring.

PMUS 3210 - Introduction to Teaching Private Music Lessons (3 Credits)

Prepares students to teach private music lessons. Includes a survey of teaching styles from around the world, exercises, guest lectures, practical guidance for establishing a teaching studio and student research presentations. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restrictions: Restricted to MUSC majors, MUIS and GMUS minors within the College of Arts and Media.

PMUS 3220 - Vocal Pedagogy (2 Credits)

Students will develop a working knowledge of postural, breathing, articulatory, and vocal anatomy, vocal hygiene, and methodology prior to teaching voice in to prevent harm. Students will learn how to listen critically and develop intuition, analytical, and diagnostic skills. Restriction: Restricted to Music majors. Max hours: 2 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3300 - Advanced Jazz Improvisation (2 Credits)

Explores the techniques and concepts of instrumental jazz/commercial improvisation and sight reading. Major concepts include understanding and interpreting the construction of jazz harmonic nomenclature and the mastery of the melodic elements of improvisation. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 2200 Restriction: Restricted to MUSC majors

PMUS 3310 - Songwriting Analysis & Creative Exercises (3 Credits)

Presents concepts of songwriting that build upon those presented in MUSC 2300. Students are expected to understand and discuss musical concepts and lyric structure and use these concepts in the creation of original songs. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3320 - Popular Music Arranging (3 Credits)

This course will focus on techniques, technologies and strategies for contemporary arranging. Students score original compositions for various instrumentation using notation software. Prereq: PMUS 1200, PMUS 1210, and PMUS 1024. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1200, PMUS 1210, and PMUS 1024 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3330 - Advanced Vocal Improvisation (2 Credits)

Provides study of harmony, style and advanced improvisation techniques for vocalists. Course activities include study of scat singing, syllables, accents, rhythmic patterns, and phrasing over standard chord changes in several genres. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: PMUS 2200 Restriction: Restricted to MUSC majors

Typically Offered: Spring.

PMUS 3340 - Commercial Songwriting (3 Credits)

This course is designed to explore songwriting for publishing and that supports moving picture. Students will gain an understanding and have practical application of analyzing, understanding, writing and pitching music for publishing, film, tv and advertisement. Prereq: PMUS 3310. Restriction: Restricted to Sophomore standing or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 3310 Restriction: Restricted to Sophomore standing or higher.

PMUS 3450 - Singer/Songwriter Ensemble (1 Credit)

Advanced Ensemble. Focus on student compositions of original songs with lyrics and instrumental accompaniment including creation of lead sheets for band performances. Individual and group songwriting is explored. Students participate in community-building activities including community engagement and a songwriting retreat. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 3460 - Ninth Street Singers Ensemble (1 Credit)

Signature Ensemble. Elite a cappella mixed choir. This course will focus on group rehearsals of various genres of vocal ensemble music, including pop, rock, jazz, musical theater, and gospel. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 3502 - Applied Bass (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1502 and PMUS 2502 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3572 - Applied Guitar (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1572 and PMUS 2572 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3582 - Applied Banjo (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1582 and PMUS 2582 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3612 - Applied Drum Kit (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1612 and PMUS 2612 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3632 - Applied World Percussion (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1632 and PMUS 2632 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3642 - Applied Piano (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1642 and PMUS 2642 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3652 - Applied Jazz Piano (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1652 and PMUS 2652 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3662 - Applied Saxophone (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1662 and PMUS 2662 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3672 - Applied Electronic Digital Instrument (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1672 and PMUS 2672 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3692 - Applied Trumpet (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1692 and PMUS 2692 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3702 - Applied Violin (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1702 and PMUS 2702 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3712 - Applied Viola (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1712 and PMUS 2712 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3722 - Applied Cello (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722 and PMUS 2722 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3732 - Applied Voice (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732 and PMUS 2732 (two semesters each), and successful completion of sophomore proficiency. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 3772 - Applied Singer/Songwriter (2 Credits)

This is a 2-credit course consisting of one-on-one, hour-long weekly lessons in songwriting and performance skills. Aspects of transcription, analysis, and career development will be incorporated. Co-requisites - PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Typically Offered: Fall, Spring.

PMUS 3825 - Real History of Rock and Roll (3 Credits)

Examines the historical and social framework developments in music from its roots in country, through jazz and blues to current trends. Special emphasis is given to guest lecturers and their expertise performing, covering and presenting the music. Max hours: 3 Credits.
Grading Basis: Letter Grade

PMUS 3827 - History Of Jazz (3 Credits)

This course will give students an inside look at the history and radical changes brought about by the musicians, technology and the social interplay between US social history and jazz music by examining the music & musicians that performed it. Max hours: 3 Credits.

Grading Basis: Letter Grade

PMUS 3828 - History of Bluegrass (3 Credits)

This course will cover the history of the music and musicians that contribute to the development of the Bluegrass musical style. Topics to be covered include early country music, traditional bluegrass, and contemporary bluegrass. Restriction: Restricted to students with a junior or senior standing. Max hours: 3 Credits.

This course will give students an inside look at the history and radical changes brought about by the musicians, technology and the social interplay between US social history and electronic music by examining the music & musicians that performed it. Restriction: Restricted to sophomore standing or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

PMUS 3840 - Independent Study: PMUS (1-3 Credits)

Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PMUS 4060 - Music Theory Analysis (3 Credits)

Students analyze the harmonic, melodic, and formal aspects of the music from various musical time periods and genres which include Baroque, Classical, Romantic, Contemporary Classical, jazz and popular music.

Prereq: PMUS 2110 and 2200. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 2110 and PMUS 2200 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media

PMUS 4200 - Senior Recital Project (2 Credits)

The capstone course for performance majors that coincides with their senior recital. The project focuses on musical and thematic material from the student's senior recital and may include: historical research, theoretical analysis, transcriptions and creation of a digital portfolio. Max hours: 2 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4310 - Genre Songwriting for TV/Film and Emerging Media (3 Credits)

This course explores songwriting through genre characteristics and methodologies that intersect with synchronization licensing for TV, film, and emerging media. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PMUS 1025, 2100, 2110, and 3310 Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

Typically Offered: Fall.

PMUS 4410 - Claim Jumpers Ensemble (1 Credit)

Signature Ensemble. The Claim Jumpers will focus on group rehearsals of significant traditional jazz literature, masterworks of classic jazz of the 1920's, and creativity within the traditional jazz genre at the highest level. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 4430 - Guitar Ensemble (1 Credit)

Signature Ensemble. Advance jazz guitar group. This course will focus on group rehearsals of bebop and fusion. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 4440 - Voz de la Clave (1 Credit)

Signature Ensemble. This ensemble performs Salsa and Afro-Caribbean music. Ensemble time is spent rehearsing repertoire and learning about Latin music concepts. Prereq: Audition or meeting with ensemble faculty. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 4470 - Lark/Advanced A Cappella Ensemble (1 Credit)

Lark is an advanced a cappella ensemble for female identifying individuals. Admission to this group is by audition only. Members must have strong sight reading skills, advanced musicianship and performance skills. Lark performs several times per semester. Repeatable. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

PMUS 4502 - Applied Bass (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1502, PMUS 2502, PMUS 3502 (two semesters each), and successful completion of Junior Recital.

Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4572 - Applied Guitar (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1572, PMUS 2572, PMUS 3572 (two semesters each), and successful completion of Junior Recital. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4582 - Applied Banjo (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1582, PMUS 2582, PMUS 3582 (two semesters each), and successful completion of Junior Recital. Repeatable. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4600 - Topics in Music Performance (3 Credits)

Various topics related to music performance. Repeatable. Max hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4612 - Applied Drum Kit (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1612, PMUS 2612, PMUS 3612 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4632 - Applied World Percussion (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1632, PMUS 2632, PMUS 3632 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4642 - Applied Piano (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1642, PMUS 2642, PMUS 3642 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4672 - Applied Electronic Digital Instrument (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1672, PMUS 2672, PMUS 3672 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4692 - Applied Trumpet (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1692, PMUS 2692, PMUS 3692 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 4.
Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4702 - Applied Violin (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1702, PMUS 2702, PMUS 3702 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 4. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4712 - Applied Viola (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1712, PMUS 2712, PMUS 3712 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 4. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4722 - Applied Cello (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722, PMUS 2722, PMUS 3722 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 4. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4732 - Applied Voice (2 Credits)

Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732, PMUS 2732, PMUS 3732 (two semesters each), and successful completion of Junior Recital. Repeatable. Max hours: 4 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 4. Restriction: Restricted to MUSC-BS majors within the College of Arts and Media.

PMUS 4772 - Applied Singer/Songwriter (2 Credits)

This is a 2-credit course consisting of one-on-one, hour-long weekly lessons in songwriting and performance skills. Aspects of transcription, analysis, and career development will be incorporated. Plan Code: MUSC-BS SWR; Co-requisites - PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson. Repeatable. Max hours: 4 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 4. Typically Offered: Fall, Spring.

PMUS 4840 - Independent Study: PMUS (1-3 Credits)

Repeatable. Max hours: 3 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 3.

Philosophy (PHIL)

PHIL 1012 - Truth, Reality, and the Good Life: Introduction to Philosophy (3 Credits)

We're commonly told to "do the right thing," and everybody seems to agree that we should. But what is right? What is wrong? How can we see and know the difference? This course helps students examine and analyze the ethical concepts, situations, and problems raised by these fundamental questions. Specific problems will vary with contemporary concerns, e.g., poverty, war, injustice, famine, abortion, punishment, and environmental sustainability. The course goal is to help students sharpen their ethical reasoning skills so they can better navigate and contribute to the ethical, social, and political arenas in which they will live their lives. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3. Grading Basis: Letter Grade Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking. Typically Offered: Fall, Spring, Summer.

PHIL 1020 - Right, Wrong, and Seeing the Difference: Introduction to Ethics (3 Credits)

We're commonly told to "do the right thing," and everybody seems to agree that we should. But what is right? What is wrong? How can we see and know the difference? This course helps students examine and analyze the ethical concepts, situations, and problems raised by these fundamental questions. Specific problems will vary with contemporary concerns, e.g., poverty, war, injustice, famine, abortion, punishment, and environmental sustainability. The course goal is to help students sharpen their ethical reasoning skills so they can better navigate and contribute to the ethical, social, and political arenas in which they will live their lives. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3. Grading Basis: Letter Grade Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking. Typically Offered: Fall, Spring, Summer.

PHIL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade Restriction: Restricted to Freshman level students Typically Offered: Fall.

PHIL 1700 - Philosophy and the Arts (3 Credits)

Considers philosophical questions involved in the analysis and assessment of artistic expressions and of the objects with which the arts, including the literary arts, are concerned. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 2441 - Logic, Language and Scientific Reasoning (3 Credits)

Intro course in argumentation, critical thinking and scientific reasoning.

Covers rules of logical inference, informal fallacies, problem solving, and probabilistic reasoning. Enhances analytical and critical thinking skills tested on LSAT and MCAT, central to advancement in sciences, and broadly desired by employers. Max Hours: 3 Credits. Term offered: spring, summer, fall. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking.

Typically Offered: Fall, Spring, Summer.

PHIL 2510 - Philosophy of Nature (3 Credits)

Critical comparison of different views of nature presupposed in science, art, religion, and environmental policy. Concepts of "natural" are examined in relation to such issues as animal rights, wilderness preservation, synthetic landscape, technology, pollution, and population control. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA.

Department consent required. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

PHIL 3002 - Ancient Greek Philosophy (3 Credits)

What is philosophy? What is the nature of reality? What is the difference between knowledge and opinion? What is the best kind of life for a human being to lead? Ancient Greece was the birthplace of Western philosophy, and this course traces the history of ancient Greek thought, from Homer and Hesiod through the pre-Socratic thinkers (e.g. such figures as Thales, Pythagoras, Heraclitus, Parmenides, Zeno of Elea, Empedocles, Anaxagoras and Democritus) to Plato, Aristotle and later Hellenistic thought. Cross-listed with PHIL 5002. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PHIL 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"-our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr.Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with ETST 3003, HIST 3003, INTS 3003, RLST 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PHIL 3010 - Medieval Philosophy (3 Credits)

History of philosophy from Augustine through Scotus and Ockham, the 5th through the 14th centuries. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3022 - Knowledge, Perception, and the Search for Objectivity: Modern Philosophy (3 Credits)

How does physical matter relate to minds and the mental realm? How does objective reality related to what seems subjective – human knowledge, perception, and feeling, etc.? What is the role of logical thinking in connecting the objective and subjective areas of reality? Can philosophy ground knowledge so that scientific inquiry is safe from the challenges of skepticism? These are just a few of the problems posed by the "modern" period in philosophy, from roughly the end of the 16th century to the end of the 18th century. This course examines such epistemological questions and surveys key metaphysical themes that modern thinkers inherited from ancient and medieval philosophy. Figures typically include Descartes, Leibniz, Spinoza, Locke, Hume, and Kant, among others. Cross-listed with PHIL 5022. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 3032 - Twentieth Century Analytic Philosophy (3 Credits)

Surveys representative philosophers, methods, and problems in the 20th century analytic tradition. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3050 - Propaganda: Truth, Lies, and Freedom (3 Credits)

All who live in this world must choose what to do. Some of those choices can rely on first-hand experience, but most rely on information, facts, and descriptions from external sources. As every programmer will tell you, "Garbage in, garbage out." Thus, getting "good" information is critical to our ability to live freely, autonomously, and ethically. It is typical for philosophy classes to teach logic and reasoning -- and those are important. But reasoning is useless if its content (or information) is deceptive, misleading, or incoherent. What's more, since democratic countries are premised upon knowledgeable citizens, the short-circuiting of reasoning by propaganda may be the greatest danger democracy has. The question becomes: what is propaganda? How do we define it? How do we locate it? And finally, how do we spell out what's (possibly) wrong with it? Accordingly, this course is an inquiry into the epistemic, technological, and ethical dimensions of propaganda. It will define propaganda, identify how it works, and seek to understand the variety of agents and motives who use propaganda to achieve their ends. (It is not assumed that propaganda is always good or always bad, by the way.) In addition to understanding the logical and epistemic nature of propaganda, this course will examine how it is disseminated. How do technologies (text, video, social media, algorithms, etc.) influence and foment misinformation? The overarching goal will be to become more aware and critical of propaganda we encounter so we can avoid "garbage" information which can manipulate us and prevent us from reasoning logically and ethically. Cross-listed with PHIL 5050. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 3150 - History of Ethics (3 Credits)

Surveys the ethical thought of major figures in the history of philosophy, beginning with Plato and ending with the 19th century. Examples: Aristotle, Hume, Kant and Mill. (Class readings of primary philosophical texts.) Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 3200 - Justice, Freedom, and Power: Social and Political Philosophy (3 Credits)

What is justice? What justifies a government as moral? Why should individuals obey the state's laws? Can anarchism work? Is private property necessary to a free society? Is social justice? What is freedom -- and what is oppression? Is gender, ethnic, and religious diversity necessary for a just society? Why? This course will raise these kinds of questions as it examines basic issues in social and political philosophy (e.g. justice, freedom, individuality, power and community). Cross-listed with PHIL 5200. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 3250 - Business, Society, and Moral Responsibility (3 Credits)

Is business ethics an oxymoron? Of course not. But everyone in business, from the CEO to the new assistant, truly succeeds if they can address ethical problems with empathy and imagination. This course teaches students to deploy philosophical tools -- logic and moral theory -- to size up and solve contemporary moral issues in business. Topics may include corporate responsibility, advertising and manipulation, privacy and surveillance, equity and inclusion, and the tension between profit maximization and the duty to our fellow human beings. The larger meaning and purposes of work may also be addressed. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3280 - War and Morality (3 Credits)

Attempts to identify and analyze some of the major moral issues of war. When is a war just, when is it not? What are morally acceptable rules of engagement? What, if anything, justifies violating them? How does one evaluate terrorism and war against terrorism? What are moral alternatives to the violence of war? Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 3300 - Special Topics in Philosophy (1-3 Credits)

Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHIL 3333 - Happiness and the Good Life (3 Credits)

Happiness is something we all want, but what is it? Happiness can be difficult to define, let alone to achieve. Is it a state? A feeling? An illusion? Is happiness something we can even control? Is it related to morality and ethics? This course will consider various philosophers' writings on happiness and the good life, and may include comparisons that range across time, culture, and other disciplines (such as economics and positive psychology). Max Hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities.

Typically Offered: Fall, Spring, Summer.

PHIL 3340 - Investigating Nature: Introduction to the Philosophy of Science (3 Credits)

This course is designed to introduce students to the Philosophy of Science. (No background in philosophy is required.) Philosophy of Science is concerned with how best to use observation and experiment to learn about the world, whether we are investigating fundamental physical structures, the complex operations of biological organisms, or the social dynamics of human groups. Drawing on both historical and contemporary works, we will seek to understand, among other topics, what makes scientific inquiry distinct from other forms of human learning, what accounts for the credibility and objectivity of scientific claims, the influence of psycho-social biases on observation and theory formation, as well as whether accepting a scientific theory, explanation or hypothesis means that we think it is true. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 3350 - Metaphysics (3 Credits)

Studies major theories of reality, including topics such as the nature of substance, space and time, and universals and particulars. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3360 - Epistemology (3 Credits)

Study of major theories of knowledge, including such problems as perception and the distinction between belief and knowledge. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3410 - Asian Philosophies and Religions (3 Credits)

We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with RLST 3410. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

PHIL 3430 - How to think green: Environmental Ethics (3 Credits)

Is it wrong to extinguish a species? What makes cruelty to animals wrong? Do trees have rights? Is the earth a resource we can use any way we want? Is vegetarianism a more ethical way to live — or just another lifestyle choice? As citizens of the world, we are bombarded by such questions. Understanding what is fundamental clarifies thinking and coordinates action. This course introduces ethical theories relevant to problems such as animal and species welfare, deforestation, pollution, climate change, and the sustainability of the planet. By examining multiple perspectives, students gain confidence judging which issues and data are significant and deciding what kind of world we should create with our actions and inactions. Cross-listed with PHIL 5430, HUMN 5430 and SSCI 5430. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3440 - Introduction to Symbolic Logic (3 Credits)

Covers truth functional and quantificational logic through polyadic first order predicate calculus and theory of identity. Attention is given to such problems in metatheory as proofs of the completeness and consistency of systems of logic. Prereq: A passing grade in PHIL 2441 or MATH 3000 or permission from the instructor is required in order for students to enroll in this course. Cross-listed with MATH 3440. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHIL 2441 or MATH 3000

Typically Offered: Spring.

PHIL 3441 - Philosophical Reasoning Skills (3 Credits)

This course provides Philosophy majors and other philosophically interested students with the skills and tools necessary for effectively navigating philosophical discussions. In this course we will cover issues such as validity and soundness, as well as several systems useful for demonstrating validity. The course will in addition address important issues in the philosophy of language, including the very important question of definitions, as well as the use of thought experiments and avoidance of informal fallacies. Finally, since philosophical reasoning increasingly involves knowledge of the methods of scientific reasoning, those skills will also be included in the course. Cross-listed with PHIL 5441. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 3500 - Ideology and Culture: Racism and Sexism (3 Credits)

What is "racism" or "sexism"? What is oppression? How do these ideas become invisible so that they structure ways people think, act? How do they inform policies, laws, and institutions? And what modifies or overturns such ideas? By answering such questions, this course helps students reflect on the formation of their own lives, practices, beliefs, and values. Topics may include ideology theory, naturalism, the equal protection clause, recent scientific discussions, socio-legal history, and social constructionism. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

PHIL 3550 - Philosophy of Death and Dying (3 Credits)

Historical overview of the metaphysical question of whether there is life after bodily death, beginning with classical arguments through the current debate over such phenomena as near death experiences and deathbed visions. Also focuses on ethical controversies such as suicide, euthanasia, and capital punishment, and the efficacy of philosophical consolations for grief. Strongly Recommended: Three hours of philosophy; preferably PHIL 1012 but if the student does not have coursework, consulting with the instructor prior to registration is strongly recommended. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 3656 - Contemporary Religious Ethics: Jewish and Christian Traditions (3 Credits)

Historical and thematic introduction to ethics in Judaism, Roman Catholicism and Protestantism. A study of selected ethical issues: bio-medical, social justice, sexuality, economic justice, business and personal ethics. Strongly Recommended: English Composition, Intro to Philosophy, World Religions, World History or junior status. If the student does not have coursework or standing, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3760 - Kant: Freedom, Reality, and the Mind (3 Credits)

Why do motives matter in ethics? What is an ethical duty? How do sensations and ideas combine to make reality unified and coherent? Kant's philosophy answers these questions by providing a profound synthesis of the philosophers before him. Kant's work still influences ethics, politics, metaphysics, epistemology, and science today. This course involves students in close study of Kant's revolutionary thought as it appears in several of his major works. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5830. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 3833 - Existentialism (3 Credits)

Examines one of the most influential movements in recent European thought, beginning with existentialism's 19th century roots, and continuing on to the existentialist philosophers of the 20th century. Figures covered may include Dostoyevsky, Kierkegaard, Nietzsche, Heidegger, Sartre and de Beauvoir. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5833, HUMN 5833, and SSCI 5833. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHIL 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

PHIL 3981 - Chinese Philosophy and Culture (3 Credits)

China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalis, Chinese "logic," and the later schools of schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with RLST 3660. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 3995 - Global Study Topics (1-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education.

Department consent required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

PHIL 4000 - 19th and 20th Century Continental Philosophy (3 Credits)

A seminar on key problems and thinkers in the nineteenth & twentieth century continental philosophical traditions and their contemporary significance. Cross-listed with PHIL 5000, HUMN 5000 and SSCI 5000. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4040 - Skepticism (3 Credits)

Considers various forms of skepticism in the history of philosophy, as well as the ways that philosophers have responded to skepticism, especially in theories of belief. Note: PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5040. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4101 - Pragmatism: Classical American Philosophy (3 Credits)

The most significant philosophical tradition born in the United States is pragmatism. Examines several of the most important classical works of this tradition, the influence of thinkers who have helped to shape pragmatism, and the contemporary relevance of this tradition. Figures who may be included are: Emerson, Pierce, Royce, James, Dewey, Mead and Rorty. PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5101, HUMN 5101, SSCI 5101. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4150 - Twentieth Century Ethics (3 Credits)

Surveys representative philosophers, methods, and/or problems in 20th century ethics. PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4200 - Philosophical Problems and Contemporary Culture (3 Credits)

Issues and controversies in contemporary culture, their relation to modern theories of society, and their manifestations in the arts, science and technology, education, religion and ethics. PHIL 3002 or 3022, and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4220 - Art, Beauty, and Aesthetic Criticism: Philosophy of Art (3 Credits)

What makes something a work of "art"? How should art be interpreted or evaluated? Can we really debate about "taste" or beauty? Why do we call some people "artists" or some experiences "aesthetic"? Where does creativity come from? This course investigates such questions, offering a range of historical and contemporary answers, and examines the social, political, and philosophical roles of art in contemporary society. Methods of engaging these questions may include multimedia technologies as well as individual and group field trips to local art venues. Cross-listed with PHIL 5220 and HUMN 5220. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4230 - Postmodernism (3 Credits)

Traces the history of a set of ideas collectively known as postmodern. Disrupting traditional frameworks of knowledge, these concepts have had an enormous impact on the social sciences, the humanities, and the arts. Course readings expose students to the cross-disciplinary impact of postmodernism on theory, content, and method. Upper division standing, PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4242 - Medicine, Health Care, and Justice: Bioethics (3 Credits)

Anyone entering a medical profession must confront tough ethical issues and dilemmas. These often arise suddenly, so practitioners best preparation is to think ahead about what will likely occur. This course introduces students to a variety cases and philosophical theories useful to healthcare careers. For example, What is "health" and who determines it? Is there a right to health care? How should medical scarcity (vital organs, vaccines, supplies, etc.) be addressed? What duties are owed to patients by healthcare providers, and why? On what grounds may medical treatment be demanded – or refused? The goal of the class is to train students to be nimble and imaginative in how they reason about the difficult cases they will face in their career. Suggested prerequisite one or two previous courses in philosophy, and a minimum grade of C in each course are strongly recommended; if the student lacks this coursework, consult with the professor prior to registration. Cross-listed with PHIL 5242, SSCI 5242, HUMN 5242. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4260 - Why Obey the Law? Introduction to Philosophy of Law (3 Credits)

What is a legal "law"? What justifies its ability to force our compliance? How is law distinct from morality? What makes some laws immoral? Is ignorance of the law ever a valid excuse? We all find ourselves entangled with the law at some point. Sometimes we're the victim and sometimes we stand accused; even beyond those special circumstances, we all have to live with the law and the many ways it regulates (or controls) our conduct. While this course is recommended for pre-law students, this course will every students to be intellectually critical of what law is, how it can and is justified, and how to assess it on grounds that reach beyond to law, such as logic or ethics. Both historical and contemporary sources will be used to survey theoretical positions on the nature of law. Figures may include (among others): Plato, Aristotle, Aquinas, Locke, Kant, Holmes, Mackinnon, Dworkin, Hart, Devlin, as well as more contemporary Supreme Court justices and case law. Suggested prerequisite one or two previous courses in philosophy, and a minimum grade of C in each course are strongly recommended; if the student lacks this coursework, consult with the professor prior to registration. Cross-listed with PHIL 5260. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4270 - Philosophy of History (3 Credits)

Examines critical and speculative theories of history, including the problems of methodology, explanation, values, and the relationship between history and social philosophy. PHIL 3002 or 3022 and a minimum grade of C in each previous philosophy course are strongly recommended, but if the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4300 - Mind, Body, and Consciousness: Philosophy of Mind (3 Credits)

Consideration of the problems in the philosophy of mind, such as the mind-body problem, the problem of our knowledge of other minds, the compatibility of free will and determinism, and discussion of such concepts as action, intention, motive, desire, enjoyment, memory, imagination, dreaming and self-knowledge. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5300. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHIL 4308 - Contemporary Feminist Thought (3 Credits)

This course explores contemporary feminist thought in philosophy and literature in the 20th and 21st centuries. Topics include lesbianism, black feminism, Chicana feminism, transgender identity, women and work and others. Cross-listed with ENGL 4308, ENGL 5308, PHIL 5308, WGST 4308, WGST 5308. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4341 - Latin American Philosophy (3 Credits)

This course introduces students to Latin American Philosophy by exploring its indigenous roots, its recurring themes of struggle against colonial domination, and the way this tradition works with and against European and Anglo-American philosophical ideas. Students will also learn about how questions of identity, especially those of ethnicity, have developed within this area of philosophy. Cross-listed with PHIL 5341. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PHIL 4350 - Philosophy of Science (3 Credits)

This course examines some of the central philosophical questions concerning the nature of scientific investigation, such as the logical relation of evidence to hypothesis, the objective adjudication of competing hypotheses, the logical function of modeling in empirical inquiry, the criterion for a classificatory system to underwrite induction and explanation, the explanatory relationships between the differing sciences, as well as the theoretical and pragmatic function of scientific law and its relationship to explanation. Cross-listed with PHIL 5350. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4360 - American Legal Process (3 Credits)

Introduces students to basic issues in American jurisprudence as well as to the elements and dynamics of the modern American legal system. Cross-listed with PHIL 5360. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4450 - Punishment and Social Justice (3 Credits)

We will use the critical tools of philosophy to think about how contemporary practices of punishment are justified, how they shape the world we live in and what alternative normative frameworks might be. Cross-listed with PHIL 5450. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4460 - Theories of Human Nature (3 Credits)

Consideration of such problems as the changeability and definability of human nature, and the possibility of a science of human nature. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4470 - Concepts of the Soul (3 Credits)

Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with PHIL 5470 and RLST 4440, 5440. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Spring.

PHIL 4480 - Perspectives on Good and Evil (3 Credits)

Examines "problem of evil" as formulated in the philosophical tradition. Presents classical formulation of the problem, traditional solutions & classical critiques of each answer. Considers perspectives of various religious orientations, which deal differently with the question of suffering. Cross-listed with PHIL 5480, RLST 4480/5480. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Fall.

PHIL 4500 - Feminist Philosophy (3 Credits)

Seminar on key debates & figures in historical & contemporary feminist philosophy. Topics may include: rights, embodiment, gender, sexuality, race, reason, & violence. Figures may include: Wollstonecraft, Stanton, Beauvoir, Judith Butler, and bell hooks. Cross-listed with PHIL 5500, WGST 4500 & 5500. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4600 - Questioning Religious Belief and Practice: Introduction to Philosophy of Religion (3 Credits)

Does God exist? Can the existence of God be proved? When is believing on faith acceptable? How or why is there a "problem of evil"? What are the attributes of a "god" and how can they be known, if at all? What is the relation of God to the world we experience? How does morality relate to religious belief and practice? The goal of the course is to broaden and deepen our understanding of key philosophical debates within religious traditions as we study prominent thinkers in the history of philosophy. Cross-listed with HUMN 5600, PHIL 5600, RLST 4060, RLST 5060, and SSCI 5600. Term offered: summer. Max Hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Summer.

PHIL 4700 - Seminar in a Major Philosopher (3 Credits)

The major philosophical texts of one philosopher is studied in this course. Philosophers to be studied are major figures in the history of philosophy such as Plato, Aristotle, Kant and Hume. Note: May be taken for credit more than once. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Repeatable. Max hours: 15 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 15.

PHIL 4720 - Eastern Religious Thought (3 Credits)

Parallels the course in Western religious thought. The great religious traditions of the East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of key philosophical representatives of each tradition. Cross-listed with RLST 4080. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4730 - Philosophy and Literature (3 Credits)

Considers the philosophical dimensions of literature. Strongly Recommended: PHIL 3002 or 3022, and a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5730, ENGL 4735 and 5735. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4735 - Rationalism (3 Credits)

Addresses the fundamental questions of truth and reality through natural reason. Topics vary and may include metaphysics and the rise of modern science; women and the enlightenment; historical problems and linguistic analysis. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5735. Max Hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4740 - Empiricism (3 Credits)

Considers the nature and importance of experience. Focuses on British Empiricism, but additional themes which vary may include: American pragmatism, logical positivism, scientific empiricism, phenomenology of experience. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5740. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4750 - Introduction to Phenomenology (3 Credits)

Examines the contribution of phenomenology to selected topics in the theory of meaning, philosophy of mind, ontology, and epistemology, through a study of such philosophers as Husserl, Heidegger, Sartre and Merleau-Ponty. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5750. Max Hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4755 - Philosophical Psychology (3 Credits)

Explores debates about psyche and body, mind and world, self and others, and consciousness and nature. Examines the philosophical questions related to those debates that arise within theories of perception, affect and cognition offered by influential psychological models. Cross-listed with HUMN 5750, SSCI 5750 and PHIL 5755. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4770 - Hegel (3 Credits)

A systematic study of the thought of G.W.F. Hegel through his most important and influential works: *The Phenomenology of Spirit*; *The Encyclopedia of Philosophical Sciences*; *The Science of Logic*; *Lectures on the Philosophy of History*; and his lectures on the history of philosophy, art and religion. Focus of the course varies. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4780 - Heidegger (3 Credits)

Studies the thought of Martin Heidegger, one of the most important philosophers of the 20th century. Includes texts from both Heidegger's early and later periods, and focuses on his analyses of human subjectivity and being. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5780. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4790 - Nietzsche (3 Credits)

A close study of Nietzsche's philosophical writings, with attention to his significance for philosophy in the 20th century and beyond. Cross-listed with PHIL 5790. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4795 - Marx and Marxism (3 Credits)

A close study of the most influential works of Karl Marx and subsequent theorists who provide either an influential interpretation of the works of Marx or contribute to an innovative application or elaboration of the basic tenets of Marxism. Cross-listed with PHIL 5795. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4800 - Plato (3 Credits)

A careful study of Plato's writings, emphasizing the dialogue form, and discussion of Plato's significance for the history of ethics, political theory, psychology, metaphysics and epistemology. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5800. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4810 - Aristotle (3 Credits)

Examines Aristotle's systematic philosophy and discusses its contributions to logic, epistemology, physics, psychology, metaphysics, ethics and political theory. Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5810. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PHIL 4812 - Special Topics in Philosophy (3 Credits)

Strongly Recommended: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Repeatable. Max hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

PHIL 4820 - Hume (3 Credits)

Considers the work of eighteenth century philosopher David Hume.

Emphasis on unity of Hume's thought. Strongly Recommended:

PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course. If the student does not have this coursework, consulting with the instructor prior to registration is strongly recommended. Cross-listed with PHIL 5820. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4840 - Independent Study: PHIL (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

PHIL 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHIL 4900 - John Dewey (3 Credits)

John Dewey was one of the most important of the American philosophers and public intellectuals of the twentieth century. Topics may include Dewey's philosophical naturalism, pragmatist epistemology, process metaphysics and philosophies of experience, aesthetics, religion, technology and democracy. Cross-listed with PHIL 5900. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4920 - Philosophy of Media and Technology (3 Credits)

A philosophical examination of interrelationships between contemporary media, technology, and their impacts upon character of contemporary life and values. Topics may include ethics, epistemology, democracy, advertising, media literacy and criticism. Cross-listed with PHIL 5920, HUMN 5920, SSCI 5920. Max hours: 3 Credits.

Grading Basis: Letter Grade

PHIL 4933 - Philosophy of Eros (3 Credits)

What does it mean to understand philosophy as an erotic activity? This question will be examined, first by studying Plato's dialogues—such as *Lysis*, *Symposium* and *Republic*—and then by reading texts from Sigmund Freud, Michael Foucault and others. Cross-listed with PHIL 5933, WGST 4933/5933, SSCI 5933 and HUMN 5933. Max hours: 3 Credits. Grading Basis: Letter Grade

PHIL 4950 - Honors Thesis (3-6 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Additional Information: Report as Full Time.

PHIL 4980 - Special Topics in Philosophy (1-3 Credits)

Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Physics (PHYS)

PHYS 1052 - General Astronomy I (4 Credits)

The history of astronomy is studied from early civilizations to the present. The basic motions of the earth, moon, sun, and planets are discussed both qualitatively and quantitatively, using elementary principles of physics. Properties of our solar system are discussed in detail, including results from unmanned space probes. Note: An additional 30 hours of laboratory work (at times to be arranged), plus appropriate report preparation time, are required to complete laboratory component of the course. Note: High school algebra or equivalent are strongly recommended preparation for this course. Term offered: spring, fall. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec/Lab; GT courses GT Pathways, GT-SC1, Nat Phy Sci:Course w/Req Lab.

Typically Offered: Fall, Spring.

PHYS 1100 - Foundations of Physics (4 Credits)

One-semester non-lab survey course especially designed for non-science majors. Acquaints students with some of the major principles and methods of physics. Includes applications of physics to everyday life and some discussion of the historical development of physics. Note: this course assumes that students have a good working knowledge of elementary algebra. Term offered: spring, summer, fall. Max Hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - No Lab; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Offered irregularly.

Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

PHYS 1300 - Contemporary Topics in Physics. (2 Credits)

Covers various current topics in physics at a qualitative level. Designed primarily for students intending to major in physics, engineering, and chemistry. Max hours: 2 Credits.

Grading Basis: Letter Grade

PHYS 1450 - Professional Development I (1 Credit)

Introduction to the physics program for all beginning physics majors or those considering the major. Discussions about career opportunities, the various physics undergraduate and graduate degree paths, research being conducted within the physics department, and strategies for being a successful and engaged physics major. Term offered: fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Typically Offered: Fall.

PHYS 1840 - Independent Study: PHYS (1-3 Credits)

Students must check with a faculty member before taking this course.

Repeatable. Term offered: spring, summer, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

PHYS 2010 - College Physics I (4 Credits)

This is an algebra based physics course covering mechanics, heat and sound. Note: College algebra and trigonometry are strongly recommended preparation for optimal student success. Term offered: spring, summer, fall. Max Hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 2020 - College Physics II (4 Credits)

This is an algebra based physics course covering electricity, magnetism, light and modern physics. Prereq: PHYS 2010 or PHYS 2311 with a C- or higher. Term offered: spring, summer, fall. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2.

Grading Basis: Letter Grade

Prerequisite: PHYS 2010 or PHYS 2311 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 2311 - General Physics I: Calculus-Based (4 Credits)

This is a calculus based physics course covering vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Prereq: MATH 1401 with a C- or higher. Term offered: spring, summer, fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prerequisite: MATH 1401 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

Typically Offered: Fall, Spring, Summer.

PHYS 2321 - Intro Experimental Phys Lab I (1 Credit)

This introductory experimental physics laboratory introduces students to the methods of science through a series of experiments and exercises focused on how objects move. Students working in teams use mathematical and computational approaches to acquire data, examine data, and make conclusions about how well these data support hypotheses and models. Students will use different types of scientific communication, including graphs and other forms of data visualization and cogent written and oral evaluation of experimental findings. Term offered: spring, summer, fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 2331 - General Physics II: Calculus-Based (4 Credits)

This is a calculus based physics course covering electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311 and MATH 2411 with a C- or higher. Term offered: spring, summer, fall. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prerequisite: PHYS 2311 and MATH 2411 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lec.

Typically Offered: Fall, Spring, Summer.

PHYS 2341 - Intro Experimental Phys Lab II (1 Credit)

This introductory experimental physics laboratory introduces students to the methods of science through a series of experiments and exercises focused on electricity and magnetism. Students working in teams use mathematical and computational approaches to acquire data, examine data, and make conclusions about how well these data support hypotheses and models. Students will use different types of scientific communication, including graphs and other forms of data visualization and cogent written and oral evaluation of experimental findings. Prereq: PHYS 2321 or PHYS 2030 with a C- or higher. Term offered: spring, summer, fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 2321 or PHYS 2030 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall, Spring, Summer.

PHYS 2351 - Applied Physics Lab I (1 Credit)

Introduces physics majors to several ways that fundamental concepts in mechanics intersect with useful technologies, resulting in documented technical competencies useful in research and industry. Term offered: fall, spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Fall, Spring.

PHYS 2361 - Applied Physics Lab II (1 Credit)

Introduces physics majors to several ways that fundamental concepts in electrodynamics and optics intersect with useful technologies, resulting in documented technical competencies useful in research and industry. Prereq: PHYS 2351 with a C- or higher. Term offered: spring. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 2351 with a C- or higher.

Additional Information: Denver Core Requirement, Biol Phys Sci - Lab.

Typically Offered: Spring.

PHYS 2711 - Vibrations and Waves (3 Credits)

Introduces vibrations and waves associated with physical phenomena. Analytic and numerical methods in physical contexts. Topics include harmonic oscillators, resonance, coupled oscillators, nonlinear oscillators, waves in elastic media, sound waves, pulses and dispersion. Prereq: PHYS 2331 and MATH 2411 with a C- or higher. Term offered: typically offered spring only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: PHYS 2331 and MATH 2411 with a C- or higher.

Typically Offered: Spring.

PHYS 2811 - Modern Physics I (3 Credits)

Presents a study of the events and discoveries that occurred during the latter part of the 19th and the first part of the 20th centuries which led to the discovery of quantum mechanics; namely, special relativity, particle nature of radiation, wave properties of particles, models of the atom, and the introduction of quantum mechanics. Prereq: PHYS 2331 and MATH 2411 with a C- or higher. Term offered: typically offered in spring only. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: PHYS 2331 and MATH 2411 with a C- or higher.

Typically Offered: Spring.

PHYS 2840 - Independent Study: PHYS (1-3 Credits)

Students must check with a faculty member before taking this course. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

PHYS 2880 - Directed Research (1-3 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PHYS 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: 15 hours of 2.75 GPA. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

PHYS 3050 - General Astronomy II (3 Credits)

Evolution of our sun and other stars is studied, as well as the methods used to gain the information. Discussion includes objects such as neutron stars, novae and supernovae, and black holes. Large-scale structures, including clusters and galaxies, are studied. Prereq: PHYS 1052 or PHYS 2010 or PHYS 2311. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 1052 or PHYS 2010 or PHYS 2311

Typically Offered: Fall.

PHYS 3070 - Physical Cosmology (3 Credits)

Designed for science and engineering maj. stud. in quantitative fields/ w req math skills interested in physical universe. Covers large-scale structure of universe & its evolution from birth well into future. Gravitational concepts, neutron stars, black holes, big bang univ, cosmological tests, dark matter & energy. Problem solving emphasized. Prereq: PHYS 1052 or PHYS 2010 or PHYS 2311 or permission. Note: This course assumes that students have completed PHYS 2010 or PHYS 2311 prior to taking this course. Note: Routine knowledge of algebra, geometry and trigonometry is assumed. Knowledge of trig and calculus also useful. Term offered: spring. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: PHYS 1052 or PHYS 2010 or PHYS 2311
Typically Offered: Spring.

PHYS 3082 - Energy and the Environment (3 Credits)

For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote sustainable society. Note: One college-level science course and MATH 1110 or equivalent are strongly recommended as preparation for optimal student success. Cross-listed with ENVS 3082. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Typically Offered: Fall.

PHYS 3120 - Methods of Mathematical Physics (3 Credits)

Typically covers calculus of variations, special functions, partial differential equations, integral transforms, linear vector spaces, and tensor analysis. Prereq: MATH 2421 and either MATH 3195 or MATH 3191 and MATH 3200 with a C- or higher. Term offered: fall. Max hours: 3 Credits.
Grading Basis: Letter Grade
Pre: MATH 2421 and either MATH 3195 or MATH 3191 and MATH 3200 with a C- or higher.
Typically Offered: Fall.

PHYS 3151 - Biophysics Outlook I (1 Credit)

Designed as a companion to General Biology I (but can take stand-alone), this course explores how biophysics concepts and experimental methods add to the knowledge of life's processes at the molecular and cellular level. Note: PHYS 2010 and 2020 strongly recommended for optimal student success. Term offered: fall. Max Hours: 1 Credit.
Grading Basis: Letter Grade
Typically Offered: Fall.

PHYS 3161 - Biophysics Outlook II (1 Credit)

Designed as a companion to General Biology I (but can take stand-alone), this course explores how biophysics concepts and experimental methods contribute to the understanding of the structure and function of plants, animals & ecological systems. Note: PHYS 2010 and PHYS 2020 strongly recommended for optimal student success. Term offered: spring. Max Hours: 1 Credit.
Grading Basis: Letter Grade
Typically Offered: Spring.

PHYS 3211 - Analytical Mechanics (4 Credits)

Topics include the Lagrange and Hamiltonian formulations, the two-body problem, rigid body motion, and small oscillations. Prereq: PHYS 2711, MATH 2421 and either MATH 3195 or MATH 3191 and MATH 3200 with a C- or higher. Coreq: PHYS 3120. Term offered: fall. Max hours: 4 Credits.
Grading Basis: Letter Grade
Pre-req: PHYS 2711, MATH 2421 and either MATH 3195 or MATH 3191 and MATH 3200 with a C- or higher. Co-req PHYS 3120.
Typically Offered: Fall.

PHYS 3251 - Biophysics of the Body (4 Credits)

Fundamental ideas of anatomy, physiology, and biomechanics from the viewpoint of physics. Biological topics covered include: skeletal systems, muscular systems, circulatory systems, and human motion. Analytical mechanics topics include: Newtonian mechanics, harmonic motion, energy conservation, and introductory fluid dynamics. Prereq: PHYS 2711, 3161, MATH 2421 and 3195 or equivalent or permission of instructor. Term offered: infrequent. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Prereq: PHYS 2711, 3161, MATH 2421 and 3195

PHYS 3252 - Biophysics of the Body NM (4 Credits)

Fundamental ideas of anatomy, physiology, and biomechanics from the viewpoint of physics. Biological topics covered include: skeletal systems, muscular systems, circulatory systems, and human motion. Analytical mechanics topics include: newtonian mechanics, harmonic motion, energy conservation, and introductory fluid dynamics. Prereq: PHYS 2010 and PHYS 2020. Term offered: infrequently. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Prereq: PHYS 2010 and PHYS 2020

PHYS 3411 - Thermal Physics (3 Credits)

Covers the basic concepts of the three related disciplines of thermodynamics, statistical mechanics, and kinetic theory. Prereq: PHYS 2331, PHYS 2811 and MATH 2421 with a C- or higher; Prereq or Coreq: MATH 3195 or MATH 3191 and MATH 3200 with a C- or higher if completed prior to PHYS 3411. Term offered: spring. Max Hours: 3 Credits.
Grading Basis: Letter Grade
Prereq: Prereq: PHYS 2331, 2811 and MATH 2421 with a C- or higher; Pre or Coreq: MATH 3195 or (MATH 3191 and MATH 3200) with a C- or higher.
Typically Offered: Spring.

PHYS 3450 - Professional Development II (1 Credit)

Continuation of professional preparation for careers and graduate school. Students will conduct career-related research and engage in classroom discussions. Students will also examine their resume and transcript to create individualize action plans to bridge the gap between their current skills and those desired by employers and graduate schools. Term offered: fall. Max hours: 1 Credit.
Grading Basis: Letter Grade
Typically Offered: Fall.

PHYS 3451 - Biophysics of the Cell (4 Credits)

Fundamentals of cellular biology from the viewpoint of physics. Biological topics covered include: the central dogma of molecular biology, cellular signaling, genetic regulation, molecular crowding, and ion channels. Statistical and thermal physics topics include: statistics, probability, thermodynamics, heat, and entropy. Prereq: PHYS 2811, 3151 and MATH 2421 or permission of instructor. Coreq: MATH 3195. Term offered: on demand. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Prereq: PHYS 2811, 3151 and MATH 2421 Coreq: MATH 3195

PHYS 3452 - Biophysics of the Cell NM (4 Credits)

Fundamentals of cellular biology from the viewpoint of physics. Biological topics covered include: the central dogma of molecular biology, cellular signaling, genetic regulation, molecular crowding, and ion channels. Statistical and thermal physics topics include: statistics, probability, thermodynamics, heat, and entropy. Prereq: PHYS 2020, 2040 and 3151 or permission of instructor. Term offered: infrequent. Max Hours: 4 Credits.
Grading Basis: Letter Grade
Prereq: PHYS 2020, 2040 and 3151

PHYS 3513 - Optical Systems Design (1 Credit)

Lenses, mirrors, prisms, polarizers, optical fibers, and other optical elements are placed in appropriately designed mechanical mounts to develop useful optical instruments. Light sources of many types are selected for particular applications. Repeatable. Max hours: 3 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 3.

PHYS 3514 - Optoelectronics (1 Credit)

Solid state sources, lasers, modulators, and detectors are combined into optoelectronic systems for scientific apparatus and technological devices. Repeatable. Max hours: 3 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 3.

PHYS 3515 - Imaging Systems. (1 Credit)

Photographic, analog electronic, and digital imaging systems are applied to the acquisition of data in conventional and in unusual image formats to aid in scientific experiments. Repeatable. Max hours: 3 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 3.

PHYS 3620 - Sound and Music (3 Credits)

Considers the basic nature of sound waves, the ear and hearing, and musical instruments. Although this course is mainly descriptive, some high school algebra will be used. Term offered: typically offered fall only. Max hours: 3 Credits. Grading Basis: Letter Grade Typically Offered: Fall.

PHYS 3711 - Advanced Experimental Physics Laboratory (2 Credits)

An advanced lab in which students select and explore the ideas and laboratory methods of major professional areas of physics: classical mechanics & nonlinear dynamics, electrodynamics, thermal physics, fundamental quantum behavior, nuclear and elementary particle physics, atomic and molecular physics, optics and photonics, condensed matter physics, fluid dynamics, acoustics, plasma physics, and astrophysics as well as interdisciplinary topics. Note: Must be taken twice by students majoring in physics. Prereq: PHYS 2711 or 2811 with a C- or higher or permission of instructor. Term offered: fall, spring. Max hours: 4 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 4. Prereq: PHYS 2711 or PHYS 2811 with a grade of C- or better. Typically Offered: Fall, Spring.

PHYS 3751 - Physics Capstone Proposal (1 Credit)

Provides opportunity for physics majors to prepare a written proposal in preparation for senior thesis research or a senior project. Emphasis placed on describing the problem, methodology, equipment, and data analysis needed to successfully complete the research or project. Completed proposals are submitted to each student's potential research or project advisor for review and approval. Note: Required for all students majoring in physics. Prereq: PHYS 2711 or PHYS 2811 with a grade of C- or better. Term offered: spring. Max hours: 1 Credit. Grading Basis: Letter Grade Prereq: PHYS 2711 or PHYS 2811 with a grade of C- or better. Typically Offered: Fall, Spring.

PHYS 3840 - Independent Study: PHYS (1-3 Credits)

Note: Students must check with a faculty member before taking this course. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 6 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 6. Typically Offered: Fall, Spring, Summer.

PHYS 3880 - Directed Research (1-3 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 3.

PHYS 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher and at least a 2.75 cumulative GPA. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 9 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 9. Prereq: Junior standing or higher and at least a 2.75 cumulative GPA Typically Offered: Fall, Spring, Summer.

PHYS 4211 - Quantum Mechanics (3 Credits)

A course in which both wave and matrix mechanics are developed and applied to selected problems in atomic physics. Prereq: PHYS 2811 and 3211 with a C- or higher. Co-req: PHYS 4212. Term Typically Offered: Fall. Cross-listed with PHYS 5211. Max hours: 3 credits Grading Basis: Letter Grade Prereq: PHYS 2811 and 3211 with a C- or higher. Coreq: PHYS 4212. Typically Offered: Fall.

PHYS 4212 - Quantum Mechanics Seminar (1 Credit)

This course involves supplemental discussion and guided extension of course content presented in PHYS4211 Quantum Mechanics through the use of one or more of the following: Interactive Tutorials, Collaborative Problem Solving, Computation, and Hands-on Activities. Co-req: PHYS 4211. Term Typically Offered: Fall. Max hours: 3 credits Grading Basis: Letter Grade Co-req: PHYS 4211 Typically Offered: Fall.

PHYS 4251 - Physical Fluid Dynamics (3 Credits)

Fundamental concepts and methods in fluid dynamics are developed through basic laws, the Navier-Stokes equation, viscous fluid flow, dimensional analysis, vorticity, boundary layers, linear stability and turbulent flow. Cross-listed with PHYS 5251. Prereq: Restricted to students who have completed PHYS 2311, PHYS 2331 and PHYS 3120 with a C- or higher or with instructor permission. Max hours: 3 Credits. Grading Basis: Letter Grade Restricted to students who have completed PHYS 2311, PHYS 2331 and PHYS 3120 with a C- or higher or with instructor permission.

PHYS 4311 - Electricity & Magnetism (3 Credits)

Elements of mathematical theory of electricity and magnetism, including electrostatics, magnetostatics, polarized media, direct and alternating current theory, and introduction to electromagnetic fields and waves. Prereq: PHYS 2331 and PHYS 3120 with a C- or higher. Co-req: PHYS 4312. Term Typically Offered: Spring. Cross-listed with PHYS 5311. Max hours: 3 credits. Grading Basis: Letter Grade Pre-req: PHYS 2331 and PHYS 3120 with a C- or higher. Co-req: PHYS 4312. Typically Offered: Spring.

PHYS 4312 - Electricity & Magnetism Seminar (1 Credit)

This course involves supplemental discussion and guided extension of course content presented in PHYS 4311 Electricity & Magnetism through the use of one or more of the following: Interactive Tutorials, Collaborative Problem Solving, Computation, and Hands-on Activities. Co-req: PHYS 4311. Term Typically Offered: Spring. Max hours: 1 credit

Grading Basis: Letter Grade

Co-req of PHYS 4311

Typically Offered: Spring.

PHYS 4351 - Bioelectromagnetism (4 Credits)

The fundamental theory of electric and magnetic fields is developed and applied to problems of biology and medicine. Examples in medical diagnostics and treatment are built upon rigorous application of Maxwell's equations and constitutive models of electromagnetic properties of biomaterials. Prereq: PHYS 2331 and 3120 or permission of instructor. Cross-listed with PHYS 5351. Term offered: spring infrequently. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2331 and 3120

Typically Offered: Spring.

PHYS 4352 - Bioelectromagnetism NM (4 Credits)

This course is the non-majors' companion to PHYS 4351/5351 (taught simultaneously) using modeling approaches accessible to the general science student. Prereq: PHYS 2010, 2020 and MATH 1401 or permission of instructor. Cross-listed with PHYS 5352. Term offered: spring. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2010, 2020 and MATH 1401

Typically Offered: Spring.

PHYS 4400 - Scientific Instrumentation (3 Credits)

Conceptual and practical knowledge needed to design scientific instruments, develop technical products, and use special laboratory procedures to research. Topics include materials, mechanisms, electronics, and optics. Note: Two semesters of 2000-level introductory physics strongly recommended for optimal student success. Cross-listed with PHYS 5400. Repeatable. Term offered: infrequent. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHYS 4401 - Special Topics (1-3 Credits)

Repeatable. Infrequently Offered. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PHYS 4450 - Professional Development III (1 Credit)

Continuation of professional preparation for careers and graduate school. This seminar provides opportunities for students to reflect upon connections between the physics major, the core curriculum, and other learning experiences while a student. Students will develop a written reflection on their undergraduate experiences. Students will also learn how to locate and apply to open job positions and graduate school programs. Prereq: PHYS 3450 with a C- or higher. Term offered: fall. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 3450 with a C- or higher.

Typically Offered: Fall.

PHYS 4510 - Optics (3 Credits)

Presents a contemporary treatment of selected topics in optics, such as matrix methods in geometrical optics, the Fourier analysis approach to physical optics, and interaction of light with matter. Prereq: PHYS 2331, 2811 and 3120 with a C- or higher. Infrequently Offered. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2331, 2811 and 3120 with a C- or higher.

Typically Offered: Spring.

PHYS 4550 - Astrophysics (3 Credits)

Covers stellar astrophysics, solar physics, star formations, stellar evolution, processes in the interstellar medium, galactic dynamics and evolution, formation of galaxies and cosmology. Note: MATH 3195; PHYS 2821 and 3050 are strongly recommended preparation for optimal student success. Infrequently Offered. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PHYS 4611 - Computational Physics (3 Credits)

Designed to provide an understanding of the role of the computer in modern theoretical physics by studying the simulation of physical phenomena in various fields of physics. Prereq: PHYS 3120. Note: Students will not earn credit for PHYS 4611, if they have already earned credit for PHYS 4610. Infrequently Offered. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: PHYS 3120

PHYS 4620 - Computational Physics II (2 Credits)

Assigns the student to an individual, advanced-level project modeling a physical phenomenon on the computer. Prereq: PHYS 4611 with a C- or higher. Infrequently Offered. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 4611 with a C- or higher.

PHYS 4650 - Solid State Physics (3 Credits)

Covers the basic thermal and electrical properties of solids which are explained in terms of the Brillouin zone structures of phonons and electrons. Infrequently Offered. Prereq: PHYS 3411, PHYS 3811, and PHYS 4211 with a C- or higher. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3411, PHYS 3811, and PHYS 4211 with a C- or higher.

PHYS 4678 - Quantum Computing (3 Credits)

The course teaches students the principles, the algorithms and the programming methods of quantum computing, and also discusses the associated physics and mathematics background required. Other related topics such as quantum communication and quantum entanglement will also be discussed. Prereq: PHYS 2811 with a C- or higher or Permission of Instructor. Cross-listed with PHYS 5678, ELEC 4678, and ELEC 5678. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2811 with a C- or higher.

Typically Offered: Spring.

PHYS 4679 - Quantum Computing Algorithms (3 Credits)

The course discusses several seminal quantum algorithms, including the quantum Fourier transforms, Grover's and Shor's algorithms, followed by explaining several advanced quantum computing algorithms, including quantum error correction, sparse linear systems, and variational eigensolver. Google Cirq quantum programming library will be used for actual quantum programming implementations of the algorithms discussed. Prereq: PHYS 3120 or PHYS 3211 or PHYS 3411 with a C- or higher or Permission of Instructor. Cross-listed with PHYS 5679, ELEC 4679, and ELEC 5679. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3120 or PHYS 3211 or PHYS 3411 with a C- or higher.

Typically Offered: Fall.

PHYS 4680 - Quantum Computing Technology (3 Credits)

Students will explore some of the concepts and experimental practices for realizing quantum computers. They will engage in laboratory practice of relevant skills including high-performance analog electronics; optics-based quantum encryption and eraser implementations; RF electronics; and vacuum and cryogenic techniques. Prereq: PHYS 3711 with a C- or higher or Permission of Instructor. Cross-listed with PHYS 5680, ELEC 4680, and ELEC 5680. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3711 with a C- or higher.

PHYS 4681 - Quantum Technology Systems (3 Credits)

Students will explore a systems approach toward experimental practices for realizing quantum information science and engineering (QISE), with a focus on vacuum and cryogenic techniques and integration of electronics subsystems into a "dry" cryostat. They will engage in laboratory practice of relevant skills including creation and measurement of high vacuum, methods for reaching ultra-low temperatures, concerns in the design and construction of cryogenic apparatuses, and operation of a "dry" cryogenic system at 4 K, including measurements on superconducting quantum interference devices. Prereq: PHYS 4680 OR PHYS 5680 OR ELEC 4680 OR ELEC 5680 with a C- or higher. Cross-listed with PHYS 5681, ELEC 4681 and ELEC 5681. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 4680 OR PHYS 5680 OR ELEC 4680 OR ELEC 5680 with a C- or higher.

PHYS 4711 - Physics Capstone Project (2 Credits)

A one-semester intensive physics capstone project in experimental or computational physics. Projects may include (A) development of a new or enhanced experiment for PHYS 3711, (B) further independent investigation in one of the fundamental areas of physics, or (C) development of a technical innovation for society and industry. Prereq: PHYS 3751 with a C- or higher or permission of instructor. Term offered: spring, fall. Max hours: 2 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3751 with a C- or higher.

Typically Offered: Fall, Spring.

PHYS 4751 - Physics Capstone Thesis (1 Credit)

A two semester capstone experience in which students prepare, summarize, present their own research in physics in a formal written thesis. Must be taken twice by physics majors who choose this option. Students must also complete a minimum of 135 hours of research through completion of 3 credits of PHYS 4880 Directed Research or a research internship or other documented evidence of research efforts.

Prereq: PHYS 3751 with a C- or higher or permission of instructor.

Repeatable. Term offered: fall, spring. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: PHYS 3751 with a C- or higher.

Typically Offered: Fall, Spring.

PHYS 4810 - Atomic and Molecular Structure (3 Credits)

A course in which quantum mechanical methods are applied to problems in atomic and molecular physics, such as the one-electron atom, atomic and molecular spectra, and particle scattering. Infrequently Offered.

Prereq: PHYS 3811 and PHYS 4211 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 3811 and PHYS 4211 with a C- or higher.

PHYS 4820 - Subatomic Physics (3 Credits)

Introductory treatment of the various concepts and models used to describe nuclear and high energy particle phenomena. Prereq: PHYS 2811 with a C- or higher. Term offered: spring, infrequent. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PHYS 2811 with a C- or higher.

Typically Offered: Spring.

PHYS 4840 - Independent Study: PHYS (1-3 Credits)

Note: Students must check with a faculty member before taking this course. Repeatable. Term offered: spring, summer, fall infrequently. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

PHYS 4850 - Physics for Design and Innovation I (3 Credits)

A service-learning project using fundamental physical principles to design a prototype scientific instrument, technical device, or technical process for a real-world client. Includes instruction on project management, intellectual property, and market analysis. Cross-listed with PHYS 5850. Repeatable. Term offered: infrequent. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PHYS 4852 - Physics for Design and Innovation II (3 Credits)

A capstone project using fundamental physical principles to prototype a scientific instrument, technical device or technical process. The focus is on the student's own product idea. Includes online guided readings on the wider context of product development. Students should consult with instructor on necessary physics and mathematics preparation for the project. Prereq: PHYS 4850 with a grade of C- or higher. Cross-listed with PHYS 5852. Repeatable. Term offered: infrequent. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: PHYS 4850 with a C- or higher.

PHYS 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Term offered: spring, summer, fall. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

PHYS 4920 - Advanced Undergraduate Seminar (1 Credit)

Studies a focused topic such as: size and age of the universe, critical phenomena, non-linear optics, energy, fiber-optic communications, among others. Students research these topics and give a seminar outlining their findings. Prereq: PHYS 2811 with a C- or higher. Infrequently Offered. Max hours: 1 Credit.

Grading Basis: Letter Grade

Prereq: PHYS 2811 with a C- or higher.

PHYS 4921 - Senior Seminar (1 Credit)

Grading Basis: Letter Grade

PHYS 4939 - Internship (1-3 Credits)

Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Term offered: spring, summer, fall infrequently. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring, Summer.

PHYS 4950 - General Relativity (3 Credits)

This course will introduce classical general relativity, a generalized theory of gravity that reduces to Newtonian gravity in the weak gravity limit.

This course covers the basic principles of Einstein's general theory of relativity, differential geometry, experimental tests of general relativity, black holes, and cosmology. Since this course will emphasize both analytic calculation and physical understanding of classical gravity and is a 3 credit hour senior-level physics course, it can be very challenging, especially if taken with other physics courses. A good rule of thumb for a college course of this type is to expect to spend a minimum of 2 to 4 times the amount of time outside of class as you do in class. For this course, that means a minimum of 6 to 12 hours per week outside of class. Term offered: infrequent. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PHYS 4980 - Advanced Physics Topics (1-3 Credits)

Covers a particular topic, as announced in the 'Schedule Planner.' Note:

May be taken more than once for credit in different topics. Prereq:

PHYS 2811 with a C- or higher. Repeatable. Term offered: spring, fall. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: PHYS 2811 with a C- or higher.

Typically Offered: Fall, Spring.

Political Science (PSCI)

PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice (3 Credits)

Introduces the study of politics, its human importance, and its relationship to social institutions. Analysis of the relationship between individual political behavior and characteristics of the political system. Development of key concepts such as power, legitimacy, authority, political socialization, and revolution. Note: Required of all PSCI majors. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.

Typically Offered: Fall, Spring, Summer.

PSCI 1101 - American Political System (3 Credits)

General introduction to the American political system with emphasis on the U.S. Constitution, federalism and separation of powers. Current affairs and enduring questions of American Political life. Is America exceptional? How and why do political parties do battle? Can the U.S. system achieve social justice? Note: Courses offered through CU Succeed will also examine the Colorado Constitution and Colorado Supreme Court case studies. Required of all PSCI majors. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.

PSCI 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

PSCI 2001 - Topics in Political Science (1-3 Credits)

Covers different areas of politics. Note: May be taken more than once for credit when topics vary. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

PSCI 2006 - Global Political Issues (3 Credits)

Studies global political issues, exploring the broad forces at play in the world: international economics, national interests, military power, nationalism, ethnicity, the environment and human rights. Discussion of world events and underlying global issues, incorporating analytical tools used by political scientists. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 2011 - Logic of Political Inquiry (3 Credits)

This course builds critical thinking techniques, logical habits of mind, and research skills necessary for political study. Includes argumentation basics, logical fallacies, evaluating evidence, understanding statistics, effective writing, and internet research. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

PSCI 2365 - Politics of Climate Change (3 Credits)

This course shows how Political Science addresses today's most severe threat to our planet. It analyzes how societies try to mitigate and adapt to climate change at various governance levels. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 2410 - Political Science through Science Fiction (3 Credits)

Explore political science concepts by analyzing works of science fiction. Course examines utopian and dystopian communities, imagined futures, and political theorizing in both classic and unusual works of fiction. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 2840 - Independent Study (1-3 Credits)

An opportunity for lower division students who demonstrate academic potential to pursue the study of some subject of interest in greater detail, with supervision from a faculty member in the department. Subjects chosen and arrangements for assignments to be made between student and faculty. Prereq: One semester of course work at Downtown Denver Campus. Department consent required. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PSCI 3000 - Topics: Conference Participation (1 Credit)

Max hours: 1 Credit.

Grading Basis: Letter Grade

PSCI 3002 - Topics in Political Science (1-3 Credits)

Covers different areas of politics. Note: May be taken more than once for credit when topics vary. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

PSCI 3011 - Research Methods (3 Credits)

Design of political/social research, both qualitative and quantitative. Applications of statistical techniques and procedures to social and political phenomena. Use of computer and the Internet. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3022 - Political Systems of the World (3 Credits)

The class focuses on the analyses of various political systems around the world. Students will look at democracies and dictatorships, industrialized countries and developing countries. Though a structured comparison, students will assess and test key theories in Political Science. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

PSCI 3034 - Race, Gender, Law and Public Policy (3 Credits)

Historical overview of race and gender relations in the U.S. and an examination of the treatment of issues of race and gender in the judicial system and public policy. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring.

PSCI 3035 - Political Movements: Race and Gender (3 Credits)

Examines the emergence, growth, and decline of social movements for race and gender equality. Discussion of political issues of race and gender in the 1990s. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity. Typically Offered: Fall, Spring.

PSCI 3042 - World Politics (3 Credits)

This course provides a basic background and theories of international relations with a focus on the interactions between states, international organizations, nongovernmental organizations, media sources, and multinational corporations. Themes examined include foreign policy, international security, political economy, human rights, international law, sustainable development, and environmental management. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

PSCI 3050 - Islamophobia (3 Credits)

Islamophobia depicts Islam and its followers as threats to civilization, human rights and progress. Course examines historical and current Islamophobia, including impacts on international relations and on domestic politics. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3064 - Power and Empowerment in the United States (3 Credits)

Introduces U.S. political economy. Analysis of the political and economic forces and structures that shape the opportunities available to the American people. Among topics included are reciprocal impacts of government and business, the federal budget, taxation, lobbying and special interests, community organizing, and elections. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3214 - Federal Law and American Indians (3 Credits)

Examines the legal and political history of the U.S. in relation to American Indian Nations. Focuses on specific laws and Supreme Court cases in federal Indian law, with analysis of U.S. policy. There will be some comparison with Indian policies of other countries. Cross-listed with ETST 3216. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3347 - Film and Politics (3 Credits)

Presents historical and contemporary films to introduce students to critical evaluation of film as a political medium. Whether designed as propaganda or entertainment, films shape and reflect critical issues in our political and social culture. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3840 - Independent Study: PSCI (1-3 Credits)

Department consent required. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PSCI 3914 - The Urban Citizen (3 Credits)

Course emphasis is community, the individual, and the good life. Experiential learning and classroom discussions about capacities of urban citizens. Focus is on social, political, and economic resources that individuals command, issues of equality and inequality, and possibilities of constructive change. Prereq: A willingness to spend a semester working and studying together as a team in both the classroom and the community. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 3939 - Internship (1-12 Credits)

Designed experiences involving application of political concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing or higher. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: junior standing or higher

PSCI 4001 - Theories of Capitalism (3 Credits)

Is capitalism "the legitimate racket of the ruling class", as Al Capone argued? Is it the "system under which greed does the least harm", as Milton Friedman suggested? Or, is it as John Keynes had it, "the astounding belief that the most wickedest of men will do the most wickedest of things for the greatest good of everyone"? This advanced undergraduate/graduate course in theories of political economy engages ideas, concepts, actors, institutions, relationships, dynamics, and structures central to a deep understanding of global industrial capitalism. The course is centered on the works of seminal theorists of capitalism from the 18th century forward, including Adam Smith, David Ricardo, Alexander Hamilton, Friedrich List, Karl Marx, CLR James, Harry Magdoff, Friedrich Hayek, Martin Luther King, Jr., Kwame Nkrumah, Jeff Sachs, Amartya Sen, and Vandana Shiva. Students in the course are provided ample opportunities, across a variety of innovative assignments, to explore the historical and social context of the theoretical perspectives presented, to compare these perspectives to one another, and to make substantive connections between theory and practice. Note: Students are not expected to have any prior coursework in political science. Students are expected to make progress in developing their reading, writing, analytical and critical thinking skills. Cross-listed with PSCI 5001. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PSCI 4002 - Topics in Political Science (3 Credits)

Specialized areas of politics. Note: May be taken more than once for credit when topics vary. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

PSCI 4009 - Politics of the Budgetary Process (3 Credits)

Develops each student's understanding of budgeting and financial management in the public and nonprofit sectors. An overview of public sector and nonprofit fiscal management is provided, along with thorough exploration of the political influences that affect financial decision-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4011 - GIS in Political Science (3 Credits)

Computer lab course developing methodological skills in Geographic Information Systems (GIS) in political contexts. Geospatial computerized mapping skills are important in political fields such as urban planning, electoral analysis, environmental justice, demographics, public health, and criminal justice. Designed for beginners. Cross-listed with PSCI 5011. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PSCI 4014 - Media and Politics (3 Credits)

Explores the impact of the news media on the American political system, including public policy and citizen participation, and addresses trends in news coverage and media ownership, and their impact on public opinion. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4024 - State Politics: Focus Colorado (3 Credits)

Examination of American state politics, with an emphasis on Colorado. Course examines the special role of state governments in the American federal system. Focus on dominant current issues facing Colorado state government. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Summer.

PSCI 4025 - Local Governance and Globalization (3 Credits)

Introduces international political economy, consequences of globalization for localities, interplay between wealth and power among nations, multinational corporations, NGOs and the UN, and impact of their actions on local governments. Topics include development, aid, trade, outsourcing, eco-sustainability and global equity. Cross-listed with PSCI 5025. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4034 - Political Parties and Pressure Groups (3 Credits)

Democrats, Republicans, third parties, and pressure groups in the United States. Analysis of pressure politics and political behavior. Impact of parties and pressure groups on the public good. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4044 - The Presidency (3 Credits)

An overview of the historical, constitutional, and functional aspects of the presidency. Focuses on the powers and vulnerabilities of the presidency and on the style and politics of the current president. Cross-listed with PSCI 5044. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4057 - Religion and Politics (3 Credits)

Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of "church and state;" (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 5057 and RLST 4500, 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4074 - Urban Politics, Planning, and Development (3 Credits)

For the first time in world history, humanity has passed a watershed moment as the majority of all the world's people now reside in cities, rather than rural areas. Most of the world's GDP is generated in cities, but cities also consume most of the world's resources. Technological invention and cultural innovation flourish in cities, but so too does crime and anomie. In cities, profound economic and ideological struggles over competitive neoliberalism and the sharing social economy play out in spatial struggles over the shape and use of the urban places we move through daily. Can vast and growing cities be sustainable, healthy, and just? Field tours through changing Denver neighborhoods provide case-study insights. Cross-listed with PSCI 5094. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4075 - Gentrification and Social Equity (3 Credits)

Study causes and consequences of urban gentrification, and explore strategies of grassroots resistance and social equity solutions that are being mobilized to challenge the forces of gentrification. Contrast common celebrations of the waves of capital reinvestment that are fueling urban revitalization with the frequent claim of many low-income neighborhoods: "Gentrification is Class War!" Cross-listed with PSCI 5075. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4084 - Local Government and Administration (3 Credits)

Policy and administrative challenges faced by local government in the 21st century. Emphasis on cities under federalism, alternative forms of city governance, and new challenges from increasingly diverse constituents. Issues of poverty, public safety, health, transportation, environment, corruption, and accountability. Cross-listed with PSCI 5084. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4085 - Comparative Governance: Environment and Society (3 Credits)

Focuses on how public & private actors at various levels of governance address pressing social & environmental issues such as aging societies, drug abuse, air pollution & global warming. Students will learn to analyze the dynamics of conflict & cooperation, using main concepts and theories of governance literature. Cross-listed with PSCI 5085. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4094 - Seminar: American Politics (3 Credits)

Foundations of U.S. politics and contemporary political issues. Federal/state/community relations. Relationship among the three branches of the Federal government. Colorado controversies arising under the U.S. Constitution. Cross-listed with PSCI 5014. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4105 - Comparative Politics: Europe (3 Credits)

An intensive and comparative analysis of the political systems and processes of Europe. Emphasis on political culture and economy; executive-legislative relationships; electoral systems; political parties and interest groups; political conflict and citizen participation; and the impact of social changes on political institutions. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with PSCI 5105. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4115 - Third World Politics (3 Credits)

Examines the factors challenging political stability in low income nations and the prospects for democracy and economic development. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4124 - Denver Politics (3 Credits)

Surveys Denver's dominant political and economic forces and community agendas that compete with the downtown growth machine. Examines urban renewal strategies, gentrification and grass-roots resistance, and the role of officials in shaping Denver's distribution of wealth and life-opportunities. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4126 - Politics, Power, and Profit (3 Credits)

A short introduction to international political economy, mixing theory and practice to explore states, markets, power, profit, and policy around the world. The course combines classic texts with case studies and current events, providing broad exposure to key issues and debates in the field. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PSCI 4144 - Indigenous Political Systems (3 Credits)

Surveys political theory and practice in indigenous societies in the Americas. Examines the impact of indigenous political thought on Euro-American politics, especially the U.S. Constitution, and explores the contemporary impact of indigenous people on current politics. Cross-listed with ETST 4144. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4146 - Indigenous Politics (3 Credits)

Surveys the status of the world's native peoples and nations, and the role of law and politics in the future of indigenous peoples in the global arena. Examines questions of human rights, economic development, and international law and politics. Cross-listed with PSCI 5145 and ETST 4146. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism (3 Credits)

This course is about Middle Eastern women's subjectivity and various forms of agency. It explores the nexus of domestic, regional and international forces that shapes the lives of Middle Eastern women, in particular in the Algerian, Egyptian, Iranian, Israeli and Palestinian contexts. Far from being silent observers of the contests among these forces, as is often assumed, Middle Eastern women have been active actors in the public arena since the 19th century colonial encounter and the importation of the modern state to the region using an array of means to make their voices heard. They were often more militant than those of their countrymen. The course is divided into two parts. The first part provides an overview of the theoretical notions discussed such as Orientalism, agency, colonialism and post-colonialism. Related to this theoretical section is a historical overview that is necessary to the understanding of the contemporary conditions of Middle Eastern women and the continuities and changes between past and present. The second part covers pressing topics in the lives of Middle Eastern women in the post-independence era such as the rise of Political Islam, the global trend of democratization, war and occupation. The emphasis in this section is on women as active participants in the debates surrounding these issues, rather than as objects of them. The readings assigned include both texts written by scholars from the region and by others from without. They provide analyses of the contexts within which Middle Eastern women's struggles take place. In addition, students will be exposed to materials produced by Middle Eastern women activists that express their own opinions and views in order to avoid misrepresentation and to reflect the diversity among them. Cross-listed with WGST 4150. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4155 - Political Systems of the Middle East and North Africa (3 Credits)

Comparative analysis of political processes in the Middle East and North Africa. Islamic political theory and its contemporary manifestations. The role of nationalism and the quest for modernity in the political development of this region. Parties and programmed modernization in transitional politics. Violent and nonviolent change. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4156 - The Arab-Israeli Peace Process (3 Credits)

Critical analysis of Arab and Israeli perspectives on the on-going peace negotiations in the Middle East. Historical background and religious-cultural aspects of current problems. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with ETST 4156. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4165 - Islamic Politics and Culture (3 Credits)

Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with RLST 3100. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Fall.

PSCI 4176 - Civil Resistance in Theory and Practice (3 Credits)

This course assesses forms of civil resistance against political oppression. The focus is on the struggle of non-violent resistance movements. Students will learn about the origins, successes, tactics, and strategies of civil resistance groups. Cross-listed with PSCI 5176. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4185 - Corruption in the U.S. and Abroad (3 Credits)

Explores the causes and consequences of administrative and political corruption in developed and developing countries, and evaluates various anti-corruption strategies. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4186 - East Asia in World Affairs (3 Credits)

Political and economic systems and foreign policies of East Asian powers, such as China, Japan, Taiwan, South Korea and Hong Kong; interactions of these powers and their collective economic and political roles in world affairs; major theoretical approaches to the study of East Asian powers. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4195 - Political Systems of Sub-Saharan Africa (3 Credits)

Analysis of major types of political systems in sub-Saharan Africa and intensive case studies of selected countries exemplifying each type. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4206 - Social Movements, Democracy and Global Politics (3 Credits)

Examines global social movements as new political actors within world politics; how theoretical perspectives in international relations and democracy address these actors; and the forms of interaction among these actors, states, and global governance institutions. Cross-listed with PSCI 5206. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4207 - Theories of Social and Political Change (3 Credits)

Investigation of social and political power with respect to possibilities of change. Location of present barriers to change within ongoing histories of marginalization, exclusion, and violence. Critical examination of political inclusion and recognition. Imaginations and pursuits of just, equitable, and/or Utopian worlds. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4215 - Women's Rights, Human Rights: Global Perspectives (3 Credits)

Explores the global feminist movement's campaign to "engender" human rights. Examination of women's human-rights issues and the critique of this campaign as representing cultural imperialism. Note: this course assumes that students have completed at least two political science courses. Cross-listed with WGST 4215. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4216 - International Politics: Human Rights (3 Credits)

The system of nation states, concepts of national interest, goals of foreign policies, conduct of diplomacy, and the bearing of these elements on the problem of human rights. Presentation and evaluation of the solutions that have been offered for the securing of justice and the maintenance of peace. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4217 - Human Rights: Theory and Practice (3 Credits)

Explores the ideas of international human rights and the practical efforts to actualize rights in societies around the world. Students study the theories of rights and the evolution of rights in history. Cross-listed with PSCI 5217. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4224 - Dictatorships in 21st Century (3 Credits)

Analyzes and classifies political systems of non-democratic regimes. Reviews earlier and contemporary theories that explain the origins, survival and death of authoritarian regimes. Discusses the impact of dictatorial rule on domestic developments as well as on international relations. Cross-listed with PSCI 5224. PSCI 3022 recommended for student success. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4225 - Democracy and Democratization (3 Credits)

Examines the conditions under which countries turn from authoritarianism towards democracy and become stable democratic regimes. Also examines the impact of foreign and international factors on new democracies. Cross-listed with PSCI 5225. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4226 - The United Nations in World Affairs (3 Credits)

Current operation and future potential of the United Nations as a complex actor in world affairs, both expressing conflicting interests of its participants and promoting universal goals, including world peace, human rights, and environmental protection. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits. Grading Basis: Letter Grade

PSCI 4235 - Politics and Markets in Latin America (3 Credits)

Explores political economic development in Latin America within the context of the world system. Includes the study of colonization, land tenure, foreign investment, authoritarianism, militarism, social and revolutionary movements, human rights and democratization. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PSCI 4236 - American Foreign Policy (3 Credits)

Examines the postwar events, controversies, and most recent challenges in U.S. foreign policy. Analyses of the major sources of U.S. foreign policy, such as ideology, national interests, and national power. Attention to the pattern and process of foreign policy-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4237 - American National Security (3 Credits)

Examines American national security, utilizing an interdisciplinary analysis of its domestic historical development and its function in the current global context. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4240 - International Security (3 Credits)

Examines old and emerging "threats" to national security, and policy responses, from theoretical, historical and geographical perspectives. Explores challenges of ethnic conflict, weapons of mass destruction, environmental and economic security. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4245 - Populist Movements around the World (3 Credits)

Political populism is on the rise in virtually every part of the world. Populist leaders, parties and movements exert direct influence when they are in power. However, they also create pressure on centrist leaders and parties and influence politics indirectly. This course explores the phenomenon of political populism around the world. We begin by defining populism and investigate cases of populist movements in the United States, Europe, the Middle East, Latin America and Asia. After that, we will engage the literature devoted to explaining the phenomenon. The course concludes with a discussion of the effects of populism and the dangers that some forms of it pose to democracy. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4248 - Gender, Development and Globalization (3 Credits)

Examining the cost and impact of globalization; not only on women and gender but economic equality, human movement and displacement, sustainable development and the environment. Highlighting the complexities of a highly interconnected world and intersectional nature of a globalized world, answering the question: Who Wins? Who Loses? Cross-listed with PSCI 5245, WGST 4248 and WGST 5248. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4265 - Social Justice And Globalization (3 Credits)

Examines issues of justice and ethical responsibility in a globalizing world. Do moral obligations of individuals and institutions end at national borders or do they encompass all human beings and extend to the environment and to future generations? Cross-listed with PSCI 5265. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4266 - International Law (3 Credits)

Investigates the body of law that regulates relations between nations and provides a framework for solving common problems and disputes between nations. Note: this course is intended for political science majors. Cross-listed with PSCI 5266. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4274 - Conflict Resolution and Public Consent Building (3 Credits)

Alternative strategies for resolving or mediating conflicts facing public or nonprofit organizations and for building public consent, with emphasis on personal, interpersonal, organizational, interest-group, cross-cultural, and roots of conflict and bases for consent. Cross-listed with PSCI 5274. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4276 - Conflicts and Rights in International Law (3 Credits)

Explores contending interpretations and practices in international law regarding issues such as the legitimacy of humanitarian intervention, efficacy of truth commissions, tensions between truth and justice in cases of genocide and war crimes, and legal changes needed to devise viable rules. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with PSCI 5276. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4280 - The Politics of War Law (3 Credits)

Examines international laws governing armed conflict, including human rights law. Investigates the reasons for instances of compliance and violation within this international legal regime regulating war and conflict. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4286 - International Relations: War or Peace? (3 Credits)

Presents alternative theoretical frameworks for the explanation of war and peace. Investigations of the efficacy of international law, just-war norms and the UN in preventing or containing conflict. Cross-listed with PSCI 5286. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4326 - Advanced International Political Economy: Globalization (3 Credits)

Engages the current debate about globalization. Conceptualizes globalization and evaluates the pros and cons of global trade and finance for developed and developing countries. Develops a model for a sustainable and just global economy. Prereq: PSCI 4126. Cross-listed with PSCI 5326. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: PSCI 4126

PSCI 4330 - U.S. Health Policy (3 Credits)

The role of public health policy as legislated at the federal and state levels. Individual health policy (e.g. social security and managed care) and public health policy (e.g. mandatory immunizations, HIV testing, air and water quality). Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4340 - Advanced International Political Economy: Global Supply Chain (3 Credits)

Many people globally rely on long, global supply chains for jobs and incomes and to acquire the goods and services they need to survive. These chains connect people all over the world—from farmers and seamstresses to multinational corporations and investment banks — to one another as they work to bring products to our store shelves and homes. Yet, as current events clearly demonstrate, these long and complicated chains are fragile and easily disrupted, contributing to rising vulnerability, insecurity, inequality, and poverty around the world. How did it come to pass that we rely on such a complex system for the things we need? Is this kind of interdependence a good idea? What alternatives exist for restructuring trade, work, and production? These questions have occupied political economists for centuries and for good reason. Thinking about supply chains means thinking about survival and our relationships with one another and the Earth. This course tackles contemporary and historical supply chains with an eye toward thinking about the future of global production, trade, and work. Cross-listed with PSCI 5340. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PSCI 4354 - Environmental Politics (3 Credits)

Political, legal, and economic forces in environmental law and policy. Special emphasis on air and water pollution and on threats to public and agricultural land. Environmental groups and their opponents. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4365 - Global Ecological Crises (3 Credits)

Overview of global ecological problems such as climate change, transboundary pollutions, and loss of bio-diversity in an attempt to understand the political, economic, and cultural forces behind these problems and the status of legal and policy initiatives to address them. Cross-listed with PSCI 5365. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4407 - Early Political Thought (3 Credits)

Main currents of political thought in their historical setting from Plato to Machiavelli, with a critical evaluation of those elements of continuing worth. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4414 - Non-Profits and Social Change (3 Credits)

Explores role of non-profits in catalyzing social change. What are obstacles and opportunities to leveraging social change through nonprofits? What factors shape non-profits to be either transformational or systemstabilizing forces? Cross-listed with PSCI 5514. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4417 - Modern Political Thought (3 Credits)

Theories of modernity and its lasting social and political consequences. Topics may include liberalism and neoliberalism, capitalism and Marxism, humanism and posthumanism, racial slavery, colonialism, and ecology. PSCI 4407 is not a prerequisite for PSCI 4417. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PSCI 4427 - Law, Politics and Justice (3 Credits)

Analysis of the relationship of politics, law, and justice, particularly the degree to which moral norms and political concerns should and do influence legal standards and their perceived legitimacy. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4437 - Coercion and the State (3 Credits)

An analysis of: (1) the historical emergence of the modern state; (2) the theoretical justifications for the concentration of political power and the activist state; (3) the internationalization of the European state system; and (4) anarchist and Fourth World challenges. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4444 - Contemporary Culture and Politics in America (3 Credits)

Intellectual and experiential investigation of the interplay of culture and politics in American society, as manifested in literature, social and political philosophy, psychological writings and trends, radical movements, popular culture, and daily behavior. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4446 - Advanced Indigenous Peoples' Politics (3 Credits)

Builds upon the theoretical and applied foundations of PSCI 4146. Intensive study of international legal and political developments are examined, particularly in the United Nations and the Organization of American States systems. Prereq: PSCI 4144 or PSCI 4146. Cross-listed with PSCI 5446. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: PSCI 4144 or PSCI 4146

PSCI 4457 - American Political Thought (3 Credits)

Critical examination of American political life at the intersections of social categories such as race, class, gender, sexuality, disability, and Indigeneity. Exploration of key and marginal thinkers through a variety of texts and genres. Cross-listed with PSCI 5457, ETST 4457, and ETST 5457. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4477 - Constitutional Law I (3 Credits)

Nature and scope of the following American constitutional principles as developed by the U.S. Supreme Court: federalism, jurisdiction of the federal courts, separation of powers, the taxing power, and the commerce power. Case method. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PSCI 4487 - Constitutional Law II (3 Credits)

Continuation of PSCI 4477, with emphasis on the war powers of the president, citizenship, the Bill of Rights, and the Civil War amendments. (Case method.) Note: PSCI 4477 is not a prerequisite for PSCI 4487. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PSCI 4494 - Judicial Politics (3 Credits)

Examines principal actors in the legal system: police, lawyers, judges, citizens. About half of this course is devoted to the study of judicial behavior, especially at the Supreme Court level. Political and personal influences on judicial behavior. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4505 - Political System of Russia and Its Neighbors (3 Credits)

The class focuses on the political values, institutions and actors of Russia and its neighboring countries, covering the political developments since the late 20th century. The relations between Russia, the European Union and the United States are also analyzed. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4535 - Labor and Working Class Politics (3 Credits)

Explores the status of the labor movement both in the U.S. and internationally, as well as the political, philosophical, and social implications of socioeconomic class status and identity. Cross-listed with PSCI 5535. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4545 - Immigration Politics (3 Credits)

Introduces students to central theories of migration and a survey of immigration law and policy in the 20th century. Highlights experiences of Mexican and Latin American immigrants and related topics, including: U.S.-Mexican foreign relations, bilingual education, undocumented immigration and globalization. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with PSCI 5545. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PSCI 4550 - The Irish Diaspora (3 Credits)

While the population of Ireland today is roughly five million, there are an estimated 80 million people worldwide and nearly 50 million people in North America who claim some Irish identity. This course will explore this massive, nearly 5 century old, diaspora, beginning with the Plantations of Ulster and subsequent Ulster Scots emigration to North America, through the Great Hunger of the 19th century and massive exodus to the United States, Canada, Australia, and beyond. The course focus heavily on Irish immigrant communities in early Colorado, specifically Leadville, examining the history of our own community as a window into the larger political, social, and economic structures that drove such a migration. The course will conclude with an examination of the N. Ireland Peace Process, Good Friday Agreement, and BREXIT, inquiring about the role that Ireland and the Irish Diaspora plays today in global politics. Note: Students in this course will travel to parts of Colorado that once had significant Irish immigrant communities, places such as Leadville, Cripple Creek/Victor, Nevadaville, and various Catholic parishes and cemeteries in Denver. Students will also be expected to perform primary source research on Irish communities in early Colorado. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4554 - Chicano and Latino Politics (3 Credits)

Analysis of the social, cultural, and economic factors that affect political behavior of Latinos. Special attention is paid to the Mexican American cultural heritage and to relations between Mexican Americans and Anglo Americans. Cross-listed with ETST 4558. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4555 - International Women's Resistance (3 Credits)

Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Cross-listed with PSCI 5555, ETST 4555 and WGST 4555/5555. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4564 - Gender and Politics (3 Credits)

Inter-sectional examination of the personal and political life of gender. Exploration of constructions, performances, and creative reconfiguration of gender through a variety of texts, genres, and media. Cross-listed with WGST 4564. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4605 - Politics and Governments of South Asia (3 Credits)

Studies the political systems of Bangladesh, India, Pakistan, Sri Lanka and Nepal. The impact of British rule on the development of political institutions on the subcontinent as well as problems of political development at all levels. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4615 - Politics and Government of China (3 Credits)

Political and governmental changes within China, from the 19th century to the present. Primary emphasis on contemporary political systems and sociopolitical problems. China's struggle for independence and economic development. The Chinese revolutions, Maoist communism, and the post-Maoist period. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4645 - Comparative Political Leadership (3 Credits)

Comparative study of historical, socio-cultural, and psychological bases of political leadership. Leadership types in peasant societies, empires, and revolutionary movements. Dilemmas of democratic versus authoritarian leadership in modernizing and industrial states. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4726 - Seminar on U.S. and China Relations (3 Credits)

Detailed examination of historical context and current issues in U.S./China relations. Emphasis on modern period, with particular attention to changing relations in context of rising power of China. Cross-listed with PSCI 5726. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4736 - The Middle East in World Affairs (3 Credits)

Evolution and revolution in the Middle East. The character of nationalism in the area. Analysis of inter-regional and international problems affecting the Middle East, with special emphasis on current Arab-Israeli relations.

Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4757 - Legal Reasoning and Writing (3 Credits)

Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Note: this course assumes that students have completed ENGL 1020, 2030, and any 3000-level English/writing course, or COMM 3120. Cross-listed with ENGL 4750, PSCI 5747, COMM 4750 and COMM 5750. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4770 - Middle East Politics and Society in Film (3 Credits)

This course explores the intersection between politics and cinema in the Middle East. More precisely, it discusses the efforts of various international, regional, and local actors to construct meanings, mobilize support and legitimize their policies through film. Topics covered include nationalism and cinema, globalization and transnational cinema, the Arab-Israeli conflict, Political Islam and Islamic cinema. In addition to readings written by scholars from within and from outside the region, we will be analyzing American, Arab, Canadian, Iranian, and Israeli movies and documentaries that pertain to the topics covered in the course. The list of movies and documentaries watched in class will vary from year to year. Some of the movies that will be used frequently are: Lawrence of Arabia, Exodus, Argo and American Sniper. Term Offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4807 - Political Violence (3 Credits)

Investigates different types of political violence including genocide, ethnic and religious conflict, revolution, terrorism, war, state repression and others. Introduces theories of individual, collective and institutional violence, applies them to a range of case studies and explores possible solutions. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4808 - Strategies of Peacebuilding (3 Credits)

The course investigates the theories and strategies of peacebuilding in societies that have endured intrastate conflict and/or massive human rights violations and asks whether peace and justice and democracy can or should work together and how forgiveness and reconciliation might develop. Cross-listed with PSCI 5808. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4827 - Women and the Law (3 Credits)

Examines the role of the courts in the development of public policy toward women; how the legal system affects the economic power, family roles, safety and political participation of women. Cross-listed with ETST 4827 and WGST 4827. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4837 - Contemporary Issues in Civil Liberties (3 Credits)

Conflicting rights of individuals and groups in several areas of civil liberties, including religious groups, free speech, sexual freedom, racial quotas, and anti-governmental actions and publications. This course includes case law, readings, guest speakers and case discussions. Cross-listed with PSCI 5837. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4840 - Independent Study: PSCI (1-3 Credits)

An opportunity for advanced students with good scholastic records, and with appropriate courses completed, to pursue independently the study of some subject of special interest to them. Subjects chosen and arrangements made to suit the needs of each student. Note: Primarily for seniors. Prereq: 15 semester hours in political science and permission of instructor. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

PSCI 4878 - War, Film, and International Law (3 Credits)

This course examines interactions of culture, politics, and law by chronologically investigating 20th-century war movies and the ways experiences and norms have shaped and been shaped by cinematic representations. Cross-listed with PSCI 5878. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

PSCI 4914 - Community Organizing and Community Development (3 Credits)

The theory and practice of community organizing strategies and community development innovations. How can social activists build power at the grassroots to build equitable, sustainable, and healthy communities? Cross-listed with PSCI 5914. Note: Students will not receive credit for this course if they have already earned credit for PSCI 3075. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4934 - CU at the Capitol (3 Credits)

Interested in building your professional experience and learning about politics first-hand with an internship as a legislative aide in the Colorado General Assembly? Each student in this course will be placed in a state government internship (students must apply for widely available positions). Working in settings such as the state capitol, legislator offices, committee hearings, and constituent meetings, students will learn first-hand about the current year legislative session of Colorado General Assembly, while networking with Colorado's political powerhouses. To supplement field experience, class meetings will allow interns to discuss current state politics and the complexities of politics as a vocation. Please note: Any student enrolling for this course must contact the course instructor immediately for assistance in landing an internship before the spring semester begins. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PSCI 4944 - CU in the City (3 Credits)

Investigation of community development strategies through seminar discussions, urban walking tours, and student field placement with a local community based organization, non-profit, or public office engaged in community development work. Cross-listed with PSCI 5944. Recommended Preparation: PSCI 3075 Community Organizing and Development. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSCI 4960 - Capstone in Political Science (3 Credits)

All students in this class are near the completion of their undergraduate degree in Political Science. Congratulations on this impending achievement! This capstone course will be your opportunity to produce a sophisticated piece of work that should be one of the most demanding and impressive projects you will complete as an undergraduate—it is the capstone of your intellectual journey through your political science major. You will spend the entire semester working on this project, receiving feedback from your peers and providing feedback to them as each of you work on your respective projects. This capstone project will facilitate independent student research in Political Science and assist students in developing advanced writing and communication skills. Students will engage and enhance their critical thinking skills and will educate each other through discussions, oral presentations, and written analysis. Both independent and/or group capstone projects may be part of this course.

Restriction: Students must have completed 27 credits hours in Political Science (PSCI) with a C- or higher in order to register. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Students must have completed 27 credits hours in Political Science (PSCI) with a C- or higher in order to register.

Typically Offered: Fall, Spring.

PSCI 4995 - Global Study Topics (1-4 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with PSCI 5995. Term offered: summer. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Typically Offered: Summer.

Pre-Nursing (PRNU)**PRNU 2939 - Internship (1-3 Credits)**

Pre-Health internship offering students an opportunity to obtain hands-on experience in a clinical setting; will not apply to the Biology major. Involves application of technical concepts and skills in supervised allied health environment, such as a hospital or medical clinic. Note: May not be used as an upper-division elective. Prereq: One year of general biology with a grade of 'C' (2.0) or higher, junior standing, and a GPA of 2.75 or higher. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PRNU 3939 - Internship (1-3 Credits)

Pre-Health internship offering students an opportunity to obtain hands-on experience in a clinical setting; will not apply to the Biology major. Involves application of technical concepts and skills in supervised allied health environment, such as a hospital or medical clinic. Note: May not be used as an upper-division elective. Prereq: One year of general biology with a grade of 'C' (2.0) or higher, junior standing, and a GPA of 2.75 or higher. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Psychology (PSYC)**PSYC 1000 - Introduction to Psychology I (3 Credits)**

Introduces the scientific study of behavior, including an overview of the biological basis of behavior, sensation or perception, states of consciousness, learning and memory, thinking and language, intelligence, motivation and emotion. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

PSYC 1005 - Introduction to Psychology II (3 Credits)

Introduces the scientific study of behavior, including an overview of the history of psychology, development, personality, psychological disorders, therapy, health psychology and social behavior. PSYC 1000 is not a prerequisite for this course. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

PSYC 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

PSYC 2050 - Improving Memory (2 Credits)

Applies psychological principles of memory function and process to everyday settings and experiences. Covers topics such as how memory works, principles of memory improvement, and strategies for effective learning. Max hours: 2 Credits.

Grading Basis: Letter Grade

PSYC 2060 - Psychology Applied to Everyday Life (3 Credits)

A primer in psychological principles applied to everyday situations. Covers topics such as learning, stress and health, attraction and love, and personality. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSYC 2090 - Statistics and Research Methods (4 Credits)

Introduces statistics and research methods in the field of psychology. Note: Intended for those who plan to major in psychology. Completion of college algebra or equivalent is recommended. Prereq: PSYC 1000 with a C- or higher. Term offered: fall, spring, summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 2111 - Sophomore Seminar: Psychology as a Major and Career (3 Credits)

This course will introduce you to the BA and BS major in psychology. It will provide you with information on the careers and professional opportunities available to you within Psychology and related fields. After this course, you will be able to answer your friend's and family's question "But what can you do with a Psychology degree?" Well, the answer is, quite a lot. In addition, this course will help you to develop and articulate the professional skills that you have as a student of psychology. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PSYC 2205 - Lifespan Developmental Psychology for Health Majors (3 Credits)

This course will examine the normative physical, cognitive and socio-emotional changes and milestones that occur through the human lifespan highlighting health-related issues at each stage. Prereq: PSYC 1000 or PSYC 1005 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 or 1005 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 2220 - Biological Basis of Behavior (3 Credits)

Introduces the biological basis of behavior. This course will feature concepts like neurons, synaptic and hormonal transmission, and physiological set-points. Behavior of simple (invertebrate) and complex organisms (vertebrates) will be related to the activity of specific brain neural networks. Prereq: PSYC 1000 or BIOL 2020 (BIOL 2051) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SC2

Grading Basis: Letter Grade

Prereq: PSYC 1000 or BIOL 2020 (BIOL 2051) with a C- or higher

Additional Information: Denver Core Requirement, Biol Phys Sci - No Lab; GT courses GT Pathways, GT-SC2, Nat Phy Sci:Lec w/o Req Lab.

Typically Offered: Fall, Spring, Summer.

PSYC 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have completed 15 hours of PSYC courses with a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: 15 hours of PSYC courses with a 2.75 GPA in PSYC courses

PSYC 2990 - Topics in Psychology (1-3 Credits)

Studies special topics to be selected by the instructor. Note: May be repeated for credit. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

PSYC 3050 - Decision Making (3 Credits)

This course discusses current research on decision making/behavioral economics, as well as its application to individual well-being and public policy. You will gain insights on how and why people can be irrational in their daily decisions. Max hours: 3 Credits. Cross-listed with PBHL 3050 and ECON 3050.

Grading Basis: Letter Grade

PSYC 3090 - Research Methods in Psychology (3 Credits)

Covers principles of experimental methodology in Psychology. Includes active participation in data collection and interpretation, presentation of results, evaluation of scientific literature, scientific writing and advanced statistical concepts as they relate to the field of Psychology. Prereq: PSYC 1000, 1005 and 2090 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000, PSYC 1005, and PSYC 2090 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 3144 - Human Cognition (3 Credits)

Studies information processing in humans, with emphasis on memory, thinking and language. Prereq: PSYC 1000 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 with a C- or higher

Typically Offered: Fall, Spring.

PSYC 3145 - Industrial and Organizational Psychology (3 Credits)

Surveys the fields of industrial and organizational psychology. These fields apply psychological principles to improving productivity and satisfaction in the workplace. Topics include motivation, leadership, group processes, team functioning, occupational health, selection and training of employees, and performance management. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall.

PSYC 3205 - Human Development I: Child Psychology (3 Credits)

Studies human development covering birth, infancy, toddler, preschool and school-aged child. Covers biological, cognitive and social processes. Prereq: PSYC 1000 and PSYC 1005 or PSYC 3215 with a grade of C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 1005 or PSYC 3215 with a grade of C- or higher.

Typically Offered: Fall, Spring, Summer.

PSYC 3215 - Human Development II: Adolescence and Adulthood (3 Credits)

Study of human development from adolescence through adulthood and aging. Covers biological, cognitive, and social processes. Prereq: PSYC 1000 and PSYC 1005 or PSYC 3205. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 1005 or PSYC 3205 with a grade of C- or higher.

Typically Offered: Fall, Spring, Summer.

PSYC 3222 - Principles of Learning and Behavior (3 Credits)

Introduces the scientific study of learning and behavior, focusing on "Behaviorism." Principles of operant and classical conditioning are discussed. A particular emphasis is placed on the relevance and application of these principles to understanding human behavior and psychopathology. Prereq: PSYC 1000 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 3235 - Human Sexuality (3 Credits)

Examines the physiological, psychological, and social psychological bases of human sexuality. Research on the range of sexual behaviors, individual sexual response, sexual development, sexual dysfunction, and variants of sexual orientation. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Spring.

PSYC 3236 - Introduction to Media Psychology (3 Credits)

This course examines the social, behavioral, emotional, and cognitive impacts of modern media. Theoretical and methodological approaches are discussed and both positive and negative media impacts are considered. Prereq: PSYC 1000 or PSYC 1005 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 or PSYC 1005 with a C- or higher.

Typically Offered: Spring.

PSYC 3254 - Introduction to Animal Behavior (3 Credits)

Surveys the behavior of nonhuman animals, emphasizing the evolution through natural selection. One semester of general biology, biological anthropology, or other course emphasizing evolutionary perspective is strongly recommended as preparation for optimal student success. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PSYC 3262 - Health Psychology (3 Credits)

An overview of the scientific study of attitudes, behaviors, and personality variables related to health and illness. Emphasis is on the interaction of biological, psychological, and social factors that cause illness and influence its treatment and prevention. Prereq: PSYC 1000 and 2220 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

PSYC 3263 - Hormones and Behavior (3 Credits)

The hormonal regulation of behavior will be the primary focus of this course. Topics include: hormonal basis of sexual differentiation and behavioral differences, parental behavior, biological rhythms, aggression, mood and stress. Prereq: PSYC 1000 and 2220 with a C- or higher. Cross-listed with PSYC 5263. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Spring.

PSYC 3264 - Exercise, Brain and Behavior (3 Credits)

This course explores the impact of physical activity status-being sedentary or physically active-on brain function and behavior. Topics include effects of exercise on cognitive function, mood disorders, stress, anxiety, sleep and drug addiction. Emphasis will be placed on understanding the neurobiological mechanisms by which exercise impacts behavior. Students who have received credit for this topic listed under PSYC 3600 may not receive credit for this course. Prereq: PSYC 1000 and PSYC 2220 with a C- or higher. Term offered: fall. Cross-listed with PSYC 5264. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall.

PSYC 3265 - Drugs, Brain and Behavior (3 Credits)

Explores the pharmacological, biological, and behavioral basis of drug effects. Topics include mechanisms of drug action, brain reward pathways, role of environment and history on drug effects, and the impact of science on drug abuse and medication development. Prereq: PSYC 1000 and 2220 with a C- or higher. Cross-listed with PSYC 5265.

Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

PSYC 3305 - Abnormal Psychology (3 Credits)

This course applies a scientific approach to the examination of the symptoms, etiologies, and treatments of mental illnesses, including disorders of mood, anxiety, stress, addictions and those seen in childhood and older age. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 3385 - Psychology of Mindfulness (3 Credits)

This course will explore significant psychological, neurological, historical, societal and cultural aspects of mindfulness. It will integrate this current knowledge with more traditional aspects of the concept through classroom activities, guest lecturers, projects and field trips. Prereq: PSYC 1000 or 1005 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 or 1005 with a C- or higher

Typically Offered: Spring.

PSYC 3405 - Family Psychology (3 Credits)

Overview of theory and research pertaining to marital and family structure, functioning and dynamics. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Spring.

PSYC 3415 - Experimental Social Psychology (3 Credits)

Surveys the field of Social Psychology, the study of the way in which cognitions, emotions, and behaviors are influenced by the presence, or perceived presence, of others. Heavily focuses on experimentation and experimental methods within the field of Social Psychology. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Spring.

PSYC 3460 - Military Clinical Psychology (3 Credits)

This course focuses on clinical psychological issues facing service members, veterans, and military families. Topics include contemporary military culture, challenges of the military lifestyle/deployment/reintegration, specific types of military trauma, psychological issues of PTSD, TBI, depression, substance abuse, and suicidality, and psychological interventions for these issues. Prereq: PSYC 1005 with a C- or higher. Students will not earn credit for this course if they have already earned credit for PSYC 3600 with a similar topic title. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSYC 1005 with a C- or higher.

PSYC 3505 - Psychology and the Law (3 Credits)

Examines the legal and extralegal applications of psychology, such as assessment of insanity and competence, psychologists as expert witnesses, accuracy of eyewitness accounts, and issues relating to employment discrimination. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Spring.

PSYC 3600 - Topics in Psychology (1-3 Credits)

Studies special topics to be selected by the instructor. Note: May be repeated for credit. Term offered: fall, spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Fall, Spring.

PSYC 3611 - Psychology of Women (3 Credits)

Reviews psychological theories and research of women's social, cultural, emotional and behavioral experience. Examines the sociocultural context of women's experience and explores women's socialization, developmental issues, cognitive abilities and achievement motivation, personality variables, stereotypes, psychological disorders, victimization, intimacy and sexuality. Prereq: PSYC 1000 and 1005 with a C- or higher.

Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Summer.

PSYC 3612 - Domestic Abuse (3 Credits)

Examines the nature and extent of domestic violence. Personal characteristics and dynamics that contribute to spouse abuse are reviewed. Theories and research in the general field of family violence, victims' and perpetrators' treatment, and child abuse are discussed. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall.

PSYC 3615 - Positive Psychology (3 Credits)

This course provides an introduction to the science of positive traits, subjective experiences and institutions. It focuses on the empirical study of the factors that enable humans to flourish, develop resilience, mature and master life's challenges. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Spring.

PSYC 3724 - Developmental Neuroscience (3 Credits)

Explores the biological influences on the development of brain and behavior. Emphasis is on the evolution and development, the role of experience in prenatal and postnatal development, the ontogeny of sensory systems, learning and memory, and the biological bases of language acquisition. Prereq: PSYC 2220 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 2220 with a C- or higher.

Typically Offered: Fall.

PSYC 3810 - Neuropsychology (3 Credits)

Brain organization and function and its relationship to human memory, language, perception, and other cognitive abilities. Covers the application of clinical neuropsychology to working with individuals that have neurological disorders. Prereq: PSYC 1000 and 2220 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall, Spring.

PSYC 3822 - Aging, Brain and Behavior (3 Credits)

Examines the aging process, behavioral changes during senescence and the accompanying changes in the aged brain. Changes that are part of healthy aging are studied, as will age-related brain disorders. Prereq: PSYC 1000 and 2220 with a C- or higher. Cross-listed with PSYC 5822.

Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall.

PSYC 3832 - Neural Basis of Learning (3 Credits)

Survey of advances in neuroscience that further the understanding of how neurons within our brains are modified by experience and thus influence subsequent behavior. Includes discussions of how these mechanisms contribute to various psychopathologies. Prereq: PSYC 1000 and 2220 with a C- or higher. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

Typically Offered: Fall.

PSYC 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have Junior standing, have completed at least 12 hours in PSYC courses with a 2.0 GPA in PSYC courses and must work with Experiential Learning Center advising to complete a course contract and gain approval to enroll. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing and 12 hours of PSYC courses with a 2.0 GPA in PSYC courses

Typically Offered: Fall, Spring, Summer.

PSYC 4054 - Behavioral Neuroscience (3 Credits)

The morphological, neurochemical and physiological bases of behavior. Emphasis is on structure and function of the brain. Prereq: PSYC 1000/ PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher

Typically Offered: Fall, Spring, Summer.

PSYC 4090 - Research Design and Development (3 Credits)

This advanced writing and research methods course is designed to help students develop independent research ideas into formal products, such as a thesis proposal, grant application, presentation, and study protocols. Prereq: PSYC 3090 and instructor permission. Cross-listed with MARC 4090. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 3090.

Typically Offered: Fall, Spring.

PSYC 4101 - Applied Statistics Using SAS and SPSS I (3 Credits)

Teaches the practical statistical tools social scientists use to analyze real-world problems. It is split into four modules, each taught by a different instructor. The first module introduces SAS and SPSS; modules 2-4 are problem-based and cover topics such as ANOVA, multivariate regression, and cluster analysis. Students are recommended to have taken and completed at least one statistics course, at any level, as preparation for optimal success. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSYC 4102 - Applied Statistics Using SAS and SPSS II (3 Credits)

Students use the skills they learned in the previous semester to analyze a social issue of their choosing and present their findings. Note: A continuation of PSYC 4101. In addition to lectures, weekly one-on-one meetings between faculty and students are required. Prereq: PSYC 4101 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 4101 with a C- or higher

PSYC 4111 - Senior Seminar in Psychology: Career Capstone (3 Credits)

This course provides a focused integration of the skills and knowledge gained through the psychology major curriculum. As a capstone course, it will prepare students to apply what they have learned to their professional careers. Prereq: PSYC 3090 with a grade of C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: PSYC 3090 with a grade of C- or higher.

Typically Offered: Spring.

PSYC 4164 - Psychology of Perception (3 Credits)

Studies sensory processes and perceptual variables. Covers processes related to vision, audition, gustation and olfaction. Prereq: PSYC 1000 and 2220 with a C- or higher. Cross-listed with PSYC 5164. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and PSYC 2220 with a C- or higher.

PSYC 4455 - Theories of Personality (3 Credits)

An in-depth look at several major theories of personality, including those from psychodynamic, behavioral, and humanistic schools of thought. Students are required to think actively and abstractly, and communicate their ideas in papers and classroom contributions. Prereq: PSYC 1000 and 1005 with a C- or higher. Term offered: fall, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000 and 1005 with a C- or higher

Typically Offered: Fall, Summer.

PSYC 4485 - Psychology of Cultural Diversity (3 Credits)

Studies diversity in the development of the individual across Asian, Black, Hispanic, and Native American cultures. The experience of self, role of the family, expression of emotions, and psychology of prejudice are emphasized. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

PSYC 4500 - Psychotherapy (3 Credits)

Overview of the major systems of psychotherapy, including psychoanalysis, person-centered therapy, family therapy, cognitive or behavioral approaches, and relationships among the various approaches. Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher

PSYC 4511 - History of Psychology (3 Credits)

Development of psychological theories since 500 B.C. Schools of psychology and their adherents. Readings of primary and secondary sources. Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher or admitted and enrolled in the Clinical Health Psychology PhD program (PSYH-PHD). Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000/PSCH 1001, 1005, 2090, 2220, 3090 and (6 credits hours or 2 courses from PSYC 3050-4990) with a C- or higher or admitted and enrolled in the Clinical Health Psychology PhD program (PSYH-PHD). Typically Offered: Fall, Spring, Summer.

PSYC 4680 - Behavioral & Biomedical Sciences Research Seminar (2 Credits)

Introduces research in the behavioral and biomedical sciences. Students will learn about research programs at CU Denver and other centers, present their own research, and interact with the local scientific community. Prereq: permission of the instructor. Cross-listed with MARC 4680. Term offered: fall. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall.

PSYC 4681 - Behavioral & Biomedical Sciences Research Seminar II (1 Credit)

Continuation of research in the behavioral and biomedical sciences. Students will learn about research programs at CU Denver and other centers, present their own research, and interact with the local scientific community. Prereq: PSYC/MARC 4680 and permission of the instructor. Cross-listed with MARC 4681. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Prereq: PSYC 4680 or MARC 4680 and instructor permission.

Typically Offered: Spring.

PSYC 4730 - Clinical Psychology: Ethics and Issues (3 Credits)

An in-depth exploration of the values and ideas that guide professional practice in psychology, including professional codes of conduct and philosophical ethical principles. Topics include confidentiality, informed consent, competence, integrity and respect. Prereq: 1000, 1005, 2090, 2220 and 3090 with a C- or higher. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000, 1005, 2090, 2220 and 3090 with a C- or higher

Typically Offered: Spring.

PSYC 4780 - Behavioral & Biomedical Sciences Research: Ethics & Issues (3 Credits)

Students will critically review and analyze some of the major ethical and policy issues that arise during the conduct of basic and applied behavioral research. Prereq: PSYC 1000, 1005, 2090, 2220 and 3090 with a C- or higher or instructor permission. Term offered: fall. Cross-listed with MARC 4780. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PSYC 1000, 1005, 2090, 2220 and 3090 with a C- or higher

Typically Offered: Fall.

PSYC 4803 - Principles of Psychological Testing (3 Credits)

Principles underlying construction, validation, and use of tests of ability, intelligence, and personality and of attitude surveys. Covers statistical topics such as content and construct validity, item analysis, and reliability analysis. Students are recommended to have taken and completed at least one statistics course, at any level, as preparation for optimal success. Cross-listed with PSYC 5803. Max hours: 3 Credits.

Grading Basis: Letter Grade

PSYC 4840 - Independent Study: PSYC (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: Permission of instructor. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

PSYC 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

PSYC 4939 - Internship (1-3 Credits)

Prereq: Students must have Junior standing, have completed at least 12 hours in PSYC courses with a 2.0 GPA in PSYC courses and must work with Experiential Learning Center advising to complete a course contract and gain approval to enroll. Term offered: fall, spring, summer. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing and 12 hours of PSYC courses with a 2.0 GPA in PSYC courses

Typically Offered: Fall, Spring, Summer.

PSYC 4990 - Topics in Psychology (1-3 Credits)

Advanced study of special topics to be selected by the instructor. May be repeated for credit. Prereq: Permission of instructor. Cross-listed with PSYC 5990. Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Public Administration (PUAD)

PUAD 1000 - Public Service Online Success and Career Exploration (1 Credit)

Offers Public Service majors the chance to explore their career field and adapt to an online learning environment. Topics will include Canvas tips, online course etiquette, community building for the online learner, how online students can utilize CU Denver student-success resources, writing and citation tips, and contemporary time management techniques.

Restriction: Restricted to freshmen or undergraduates with less than 30 credit hours. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to freshmen or undergraduates with less than 30 credit hours.

PUAD 1001 - Why We Care About Government, Nonprofits, and the Public Good (3 Credits)

Students will gain the opportunity to understand the discipline of public administration; public administration aims to help public and nonprofit agencies more effectively respond to public demands made by citizens, organizations, and other levels of government. Explore multiple career paths to advancing the public good in government and nonprofits, including volunteerism, citizenship, community engagement, and leadership. Consider implications for enhancing public integrity and trust in government. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Fall, Spring.

PUAD 2001 - Management for Public Service (3 Credits)

Learn how managers in public sector organizations foster human capital and manage performance in a diverse, inclusive, and collaborative workforce. Examine strategic management techniques, human resource law and procedures. Explore the values of character and competence in creating effective organizations. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 2002 - Policy and Advocacy (3 Credits)

Students will develop skills and tools for creating policy change. Public policy is the decisions and nondecisions of public actors as they attempt to address social, economic and political topics. The course will introduce students to policy change, lobbying, advocacy, and the ways in which policies lead to entrenched coalitions, perceptions, behaviors, and funding models. Max hours: 3 Credits

Grading Basis: Letter Grade

PUAD 3001 - Project Management and Program Evaluation (3 Credits)

Examine strategic management techniques, organizational theory, and tools for organizational change. Explore structures, life-cycles, and change dynamics of government and nonprofit organizations including organizational culture, the relationship between organizational structure and services, and organizational strategy and effectiveness. Learn the analytical, critical thinking, and problem-solving skills required for program design, implementation, and evidence based decision-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3002 - Organizational and Strategic Management (3 Credits)
Examine strategic management techniques, organizational theory, and tools for organizational change. Explore structures, life-cycles, and change dynamics of government and nonprofit organizations including organizational culture, the relationship between organizational structure and services, and organizational strategy and effectiveness. Learn the analytical, critical thinking, and problem-solving skills required for program design, implementation, and evidence based decision-making. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3003 - Introduction to Nonprofit Organizations (3 Credits)
Explore the historical background, development, role, auspices, organization, and purposes of nonprofit agencies. Expand awareness of the scope and breadth of the nonprofit sector in the U.S., examine the inner workings of nonprofit organizations as the foundation for further study. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3004 - Managing Nonprofit Organizations (3 Credits)
Examine leadership and decision-making theory and practice in the nonprofit sector. Explore classic and contemporary theories on leadership, management, governance and organizational effectiveness of nonprofit organizations. Techniques for effective board meetings, committee work, development of board members, and policy development. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3005 - Collaboration Across Sectors (3 Credits)
Organizations across sectors respond to complex problems with innovative and flexible responses through networks. Managing within and across organizations is essential to effective performance in a networked system. Explore collaborative governance across sectors—nonprofit, for-profit, and public—with analyses and applications. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3110 - Seminar in Nonprofit Management (3 Credits)
This course provides an overview of the principles and concepts that are unique to nonprofit management. Topics include executive management, funding diversity, human resource management, marketing, volunteer management and ethics. Students are also given an introduction to the history and the importance of the nonprofit sector. Cross-listed with PUAD 5110 and CRJU 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3400 - What Communities Tell Us: Stakeholders, Public Opinion, and Community Feedback (3 Credits)
Integrating community feedback into a strategy, message, and organizational feedback loops enhances leadership, keeps leaders connected to their communities, and can help drive decision making. This course examines various forms of publicly available opinion data, techniques for collecting stakeholder and community feedback, and the challenges and opportunities this feedback can present in public and nonprofit organizations. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3500 - Managing and Leading in Environmental Organizations (3 Credits)

Students will explore the intersections between management, science, regulations, policies, and sustainable programs, and issues associated with “being green.” Students will also consider the intersection of environmental laws with efforts by businesses, governments, NGOs, and other organizations to protect natural resources, build collaborations for effective environmental management, and the deep-seated value conflicts over the causes, or even the existence, of environmental problems and the appropriate solutions to address them. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 3600 - International and Global Organizations (3 Credits)

Students will learn about the history of development paradigms and understand the relationships among development actors and how they address persistent global problems such as poverty, human trafficking, trade, education, health, and human rights, as examples. Students will understand the impact of colonialism and the finite resources available to address complex social issues in the developing world. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4000 - Human Resources and Ethics in Public Service (3 Credits)

Learn how managers in public sector organizations foster human capital and manage performance in a diverse, inclusive, and collaborative workforce. Understand ethics in public service, explore ethical concerns in public affairs, and confront ethical challenges in government and nonprofit organizations. Examine human resource law and case studies to apply ethical judgement to organizational decisions. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4002 - Leading and Engaging for the Public Good (3 Credits)

Develop a personal leadership identity, tools for collaboration and stakeholder development, as well as work toward building an understanding of the interdependence of public and nonprofit organizations within communities. Investigate cultural competency, social justice, and your own citizenship skills. Look at issues related to leadership, personal ethics and values, motivation, change management, and teamwork. Students explore how stakeholders, networks, partnerships, and communities work together to achieve public goals. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4003 - Strategic Communications for Public Engagement (3 Credits)

Strategic communicators are needed in all fields, especially those that serve the public good. Grow in your abilities to demonstrate the value of government, educational, and non-profit organizations while driving positive engagement with diverse audience networks. Gain relevant professional writing, facilitation, presentation, social media, and crisis management skills to support your favorite institutions. Learn how to conduct situational and diverse audience analyses, solidify objectives, appreciate place branding, and craft messaging. Experience the excitement of executing the public communications function through guest speaker appearances, experiential outings and discussions, and hands-on activities. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4004 - Building Public and Financial Support for Nonprofit Organizations (3 Credits)

Examines methods, techniques, and directed experience in fundraising for nonprofit agencies. Explores relationships with umbrella organizations, government funding, grantsmanship, budget control, and accountability. Discusses social entrepreneurship and social innovation. Examines communications, marketing, and public relations intersection with resource development. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4005 - Human Rights and Social Equity (3 Credits)

Achieving social equity is only possible through significant public policy, administration, leadership and managerial changes. This class explores the intersection between achieving social equity and efforts toward securing human rights. The course will cover local, state, and global challenges that public administrators face as they aim to address harms created by policy legacies. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4006 - Organizational Development (3 Credits)

Examine structures, life-cycles, and change dynamics of government and nonprofit organizations including organizational culture, the relationship between organizational structure and service provision, and organizational strategy and effectiveness. Learn diagnostic and assessment tools, methods, and processes for improving organizational performance. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4007 - Nonprofit HR: Governance, Staff, Volunteer Management (3 Credits)

Current issues in human resource administration for employees of nonprofit organizations. Topics include such areas as recruitment, staff development, volunteer management, performance, evaluation, labor-management issues, and affirmative action. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4008 - Current Issues in Public Sector Organizations (3 Credits)

Explore the impact on public sector organizations of emergent issues such as globalization, changing demographics of the citizenry and workforce, sustainability, declining budgets, and information technology. Examine ways public sector organizations adapt to these trends. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4009 - Human Service Organizations (3 Credits)

Provides an overview of human services delivery in government and nonprofit organizations. Explore causes and conditions that give rise to the need for effective and equitable human service organizations. Learn essential skills including cultural competencies, boundaries, and collaboration. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4010 - Public Service in Emergency Management and Homeland Security (3 Credits)

Introduces emergency management and homeland security including: management of hazards, emergencies, disasters, and the networks of government and nonprofit organizations providing services. Focuses on principles of emergency management and homeland security at state and local jurisdictional levels. Cross-listed with PUAD 5650, CRJU 4010, and CRJU 5650. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4011 - Community Resilience, Climate, and Emergency Response (3 Credits)

Climate change and disaster mitigation increasingly consumes time, energy and efforts of public and nonprofit leaders. This course, through an all-hazards approach, will guide students in understanding how communities can plan, prepare, respond and mitigate potential climate-related and mass casualty disasters. Through case studies and public sector agencies, students will explore techniques that can enhance community resilience, create partnerships across jurisdictions, and reduce risk. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4012 - Principles of Emergency Management (3 Credits)

Introduces the discipline and practice of emergency management. Topics include administrative practice and processes by which public policy shapes governmental responses to hazards, emergencies, and disasters. Cross-listed with PUAD 5655, CRJU 4012 and CRJU 5655. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4020 - Social Entrepreneurship (3 Credits)

Social entrepreneurship, practices, theories, and allied concepts. Using private, nonprofit, and government examples, explore innovation, creativity, profit for social welfare, and innovative management. Advance an organization's social good mission, and increase effectiveness, accountability, and efficiency through market-based techniques. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4140 - Nonprofit Financial Management (3 Credits)

Provides a grounding in financial management for the "non-accountant" by focusing on an array of knowledge and management skill areas necessary for allocating and controlling resources and for analyzing, reporting and protecting the fiscal health of the organization. Topics include key accounting principles, understanding and using financial statements, the budget development process, cash flow analysis, banking relationships, using the audit report, maximizing investment policy and strategy, and understanding the boundaries of tax exemption. Cross-listed with PUAD 5140 and CRJU 5140. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4145 - Philanthropy (3 Credits)

Today, the organized field of philanthropy and its companion field, impact investing, are growing at a remarkable speed. This course will explore the origins of philanthropy and impact investing and provide students with an in-depth understanding of how philanthropy works today and the nuances that exist among different forms of philanthropy and investment: individual giving, foundations, corporate philanthropy, and impact investing. It will also explore new trends among individual and institutional investors and unpack the different approaches that funders are taking to influence how services are delivered and the striking efforts to affect systems changes. Cross-listed with PUAD 5145. Max hours: 3 credits

Grading Basis: Letter Grade

PUAD 4160 - Nonprofit Boards and Executive Leadership (3 Credits)

The important roles and responsibilities of a voluntary board of directors and the process of governing are often misunderstood. This course explores the special powers of a nonprofit board of directors as framed by and responsive to public policy. From the perspective of organizational behavior and theory, the course examines the leadership role and interplay between board members and the executive director. The examination includes a comparative analysis of different governing models, and explores fundamental questions of board composition, the role of advisor boards, achieving effective board meetings, the realm of liability, using committees, and the board's role in fundraising, among other special subject matter. Cross-listed with PUAD 5160. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4220 - Human Resource and Talent Management (3 Credits)

Covers human resource functions in public and nonprofit agencies. Topics include job analysis, compensation, recruiting, selection, rewarding, training and development. Contemporary issues concerning civil service reforms are also presented. Prereq: PUAD 1001 or Instructor approval. Cross-listed with PUAD 5220. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PUAD 1001.

Typically Offered: Spring.

PUAD 4325 - Public Private Partnerships (3 Credits)

This course has been designed to introduce students to public private partnerships (PPPs) as a field of study and practice using Colorado as a laboratory for current practice, policy, strategy, management and finance. Students will engage current examples of PPPs as cases, learn and exchange in class presentations with guest lecturers currently leading PPPs and evaluate projects in class assignments doing research, analysis, and field interviews. Students will enhance their knowledge as well as skills commonly used in public, private, nonprofit and enterprise management and the public policy context and narrative of PPPs in international and U.S. practice. Cross-listed with PUAD 5325. Max hours: 3 credits

Grading Basis: Letter Grade

PUAD 4440 - Negotiation and Conflict Resolution (3 Credits)

Focuses on concepts and skills necessary to negotiate policy and management decisions and manage internal and external conflicts. Designed to help students understand the dynamics that affect negotiations and to apply the principles and strategies of negotiation in a variety of decision making and dispute resolution contexts. Cross-listed with PUAD 5440. Max hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4600 - Special Topics in Public Service (1-6 Credits)

This highly specialized seminar addresses cutting-edge and emerging developments in the field of public service and provides students and faculty with the opportunity to explore significant themes, issues and problems from a broad interdisciplinary perspective. Topics vary from semester to semester. Repeatable. Max hours: 18 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 18.

PUAD 4620 - Crisis and Emergency Communication (3 Credits)

This course examines strategic communication practices throughout the three stages of a crisis or emergency event. Special emphasis is placed on crisis planning, emergency messaging, media relationships, image restoration, ethical responses, and organizational learning. Cross-listed with PUAD 6620, COMM 4557, and COMM 5557. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PUAD 4628 - Social Problems and Policies in the Urban Environment (3 Credits)

Examines local government and nonprofit approaches to addressing common urban social problems. Topics covered may include urban poverty, crime, education, housing, and immigration. Max hours: 3 Credits. Grading Basis: Letter Grade

PUAD 4630 - Economic Development (3 Credits)

As governments search for new ways to be efficient, improve performance and leverage resources, they are also looking at their communities, states and regions in terms of competitiveness, international trade and globalization innovation, collaboration and partnerships. This course will look at practices where economic development includes these elements: the Colorado Innovation Network, the Colorado Office of Economic Development and International Trade, the Metro Denver and Denver South Economic Development Partnerships, Mile High Connects, the Downtown Denver Partnership, and public-private partnerships across multiple sectors in transportation, broadband, water and innovation. Students will develop an economic development strategy based on knowledge and tools learned in the course. Political and professional leadership will be part of the dialog. Cross-listed with PUAD 5630. Max hours: 3 credits

Grading Basis: Letter Grade

PUAD 4633 - Economic Development (3 Credits)

As governments search for new ways to be efficient, improve performance and leverage resources, they are also looking at their communities, states and regions in terms of competitiveness, international trade and globalization innovation, collaboration and partnerships. This course will look at practices where economic development includes these elements: the Colorado Innovation Network, the Colorado Office of Economic Development and International Trade, the Metro Denver and Denver South Economic Development Partnerships, Mile High Connects, the Downtown Denver Partnership, and public-private partnerships across multiple sectors in transportation, broadband, water and innovation. Students will develop an economic development strategy based on knowledge and tools learned in the course. Political and professional leadership will be part of the dialog. Cross-listed with PUAD 5633. Max hours: 3 credits.

Grading Basis: Letter Grade

PUAD 4638 - Colorado Politics, Policy, and Administration (3 Credits)

This course focuses on the state-level policy-making process in Colorado, and how that process is affected by local, state, and federal politics, administration, and other policy-making constraints applicable to the state. Substantive topics covered will vary, but students will be exposed to a wide range of perspectives and experiences from practitioners and policy influencers engaged in state-level politics, policy-making, and administration. Cross-listed with PUAD 5638. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PUAD 4740 - Sustainable Energy Policy (3 Credits)

This course will cover the basic principles and operation of policy and regulation that impact the production and use of energy (with a focus on transportation and electricity generation) from all of the major sources currently available and used. We will analyze (and, through a sustainability lens, critically evaluate) energy from water (hydroelectric, hydrokinetic), coal, domestic and international petroleum, natural gas and nuclear reactors. A significant portion of the course will focus on electricity generation and associated policy, technologies and regulation. In the context of each energy source and use, we will review and discuss sustainability practices, policies, and, issues. Cross-listed with PUAD 5740. Max hours: 3 credits

Grading Basis: Letter Grade

PUAD 4840 - Independent Study (1-6 Credits)

This course consists of faculty-guided research in an area of mutual interest to the student and instructor. Students are responsible for selecting their area of inquiry prior to contacting the instructor. Permission of instructor is required. Repeatable. Max Hours: 6 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

PUAD 4939 - Public Service Internship (1-9 Credits)

The internship course, required for all Public Service majors unless waived, provides career-related experiential learning in a government agency or nonprofit organization. Students must apply to the internship course in the semester before they hope to enroll and obtain permission from their advisor and the instructor prior to enrolling. Prereq: PUAD 1001 plus any other 2000 level (or higher) PUAD course, a GPA of 2.0, and a minimum of 15 UCD credit hours completed. Repeatable. Max Hours: 9 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

PUAD 4941 - Integrating Professional Public Administration (3 Credits)

This is a student-directed, project-based course that allows the student to bring together their entire collegiate knowledge base into a project, program, thesis, or experience that will demonstrate how their public administration knowledge and expertise connects to their BAPA Core, concentration, thematic sequence, core University requirements, and personal goals. This course is intended for students in their final semester of the bachelor's degree. Max hours: 3 Credits. Grading Basis: Letter Grade

PUAD 4961 - Capstone (1-10 Credits)

Synthesizes competencies gained throughout the course of study into a client-based research project. Students conduct independent research, complete a final project demonstrating their qualifications and expertise. Restriction: Restricted to undergraduate students in the School of Public Affairs. Max hours: 10 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 10.
Restriction: Restricted to undergraduate students in the School of Public Affairs.
Additional Information: Report as Full Time.

PUAD 4995 - Global Study Topics (3 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Cross-listed with PUAD 5995. Repeatable. Max hours: 9 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 9.
Typically Offered: Fall.

Public Health (PBHL)

PBHL 1001 - Race, Gender, Class, & Health (3 Credits)

Course focuses on the principles, tools, and population approach of social epidemiology as it relates health to race, gender, and class. Contemporary topics in public health will be used as case studies to illuminate principles and tools both in lecture and in recitation sections. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Social Sciences.
Typically Offered: Fall, Spring.

PBHL 1020 - Public Health Biology (3 Credits)

This course is designed to introduce students to the application of the biological sciences to the field of public health – that is, health promotion and disease prevention at the population level. The course will provide an introduction to the field of public health biology largely through a discussion of pathologies of public health relevance, including infectious and transmissible disease, genetic disease and chronic disorders. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Spring.

PBHL 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max Hours: 6 Credits. Grading Basis: Letter Grade
Restriction: Restricted to Freshman level students

PBHL 2001 - Introduction to Public Health (4 Credits)

An overview of the discipline and practice of public health. Includes the history of the field, its population perspective, emphasis on prevention, tools and techniques. General principles of the field are illustrated through contemporary public health case studies. Term offered: fall, spring. Max hours: 4 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3. Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.
Typically Offered: Fall, Spring.

PBHL 2052 - Global Demography and Health (3 Credits)

This course examines current issues in population growth, fertility, mortality and migration throughout the globe; introduces basic demographic tools; encourages critical thinking about the causes and consequences of population change. Term offered: fall, spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Additional Information: Denver Core Requirement, International Perspectives.
Typically Offered: Fall, Spring.

PBHL 2990 - Topics in Public Health (3 Credits)

An in-depth study of selected social science perspectives/theories and their applications to population health. Topics will vary from semester to semester, with a particular emphasis on current, salient population health problems. Repeatable. Max Hours: 6 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 6.

PBHL 3001 - Introduction to Epidemiology (4 Credits)

Introduces the basic concepts of public health and epidemiology, including assessment of disease in the community, the study of causation and association of disease with lifestyle and environmental risk factors, as well as related special topics. We recommend coursework in college algebra or higher as preparation for this class. We have found that students who take this class before completing their math requirements are at a distinct disadvantage in this course, which is math-intensive. Therefore a grade of C or higher in MATH 1110 or equivalent is strongly recommended. Term offered: fall, spring. Max hours: 4 Credits. Grading Basis: Letter Grade
Typically Offered: Fall, Spring.

PBHL 3002 - Ethnicity, Health and Social Justice (3 Credits)

Surveys core issues contributing to racial or ethnic minority differences in health status. Historical and contemporary U.S. health and social policy, including the areas of environmental health, sexual and reproductive health, children and immigrants, are examined. Cross-listed with ETST 3002. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

PBHL 3010 - Human Sexuality and Public Health (3 Credits)

The focus of this course is on human sexuality using a public health lens, examining a number of sexual health issues and their relationship to individual, familial, organizational, and social-level influences.

Additionally, we will focus on identifying both primary prevention and intervention approaches to reducing sexual risk factors and increasing healthy behaviors. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3020 - Introduction to Environmental Health (3 Credits)

This introductory survey course focuses on the human health implications of environmental exposures. Topics include pathways of exposure, toxicology, risk assessment, regulations, and policy development. Additionally, environmental equity, ethics, globalization, international perspectives, climate change, sustainability, and activism are considered. Note: Students will not earn credit for this course if they have already earned credit for PBHL 2020. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3021 - Fundamentals of Health Promotion (3 Credits)

Provides an overview of the field of health promotion, including an introduction to key theories and methods, as well as exposure to the breadth of programs and diversity of settings through several case studies. Includes attention to health behaviors as contributors to current public health problems and community-based approaches to health promotion in addressing them. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3030 - Health Policy (3 Credits)

Health policies may have a profound effect on quality of life. Accessibility, cost, quality of health care; safety of food, water, and environment; the right to make decisions about our health; these issues are vitally tied to health policies. This course provides a framework for understanding the social, political and economic dimensions of health policy. Prereq: PBHL 2000 or 2001 with a C- or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PBHL 2000 or PBHL 2001 with a C- or higher

PBHL 3031 - Health, Human Biology and Behavior (3 Credits)

Introduces the multi-factorial nature of human health and well-being. Considers the influences of biology (genetics), behavior, environment, culture and social determinants, and health policy on the nature of disease and health problems from an integrated perspective. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PBHL 3041 - Health, Culture and Society (3 Credits)

Examines health and illness for individuals, families, and societies from multiple international perspectives, focused on topics such as traditional vs. Western medicine, characteristics of healers and therapeutic relationships, and stigmatized segments of society and their health status. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3050 - Decision Making (3 Credits)

This course discusses current research on decision making/behavioral economics, as well as its application to individual well-being and public policy. You will gain insights on how and why people can be irrational in their daily decisions. Cross-listed with ECON 3050 and PSYC 3050. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3051 - Mental Illness and Society (3 Credits)

This course takes a social and public health--as opposed to medical, biological or psychiatric--approach to understanding mental disorder and society. Course addresses historical definitions of mental illness, social patterns of mental disorder and treatment and experience of mental illness patients, focusing on the U.S. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3060 - AAPI Communities and Health (3 Credits)

Surveys core issues shaping health experiences and health status of Asian American and Pacific Islander communities in the United States. Historical and contemporary U.S. health and social policies that have directly impacted AAPI health and well-being in the United States are examined. Students will also engage with community leaders and partners committed to AAPI communities. Cross-listed with ETST 3060. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3070 - Perspectives in Global Health (3 Credits)

This course examines public health approaches to analyzing health issues and identifying evidence-based and culturally appropriate interventions to reduce health inequities and improve global health. Focuses on challenges to global health such as under-resourced health systems, lack of effective global governance, aging populations, rising chronic diseases, and climate change. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

PBHL 3071 - Global Topics In Sexual and Reproductive Health (3 Credits)

Surveys trends and determinants of sexual and reproductive health around the globe and in the United States. Examines the social and behavioral determinants of sexual and reproductive health and the influence of policy. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3081 - Health in the City: Urban Health (3 Credits)

This course introduces students to urban health and the various factors of the physical, social and health environments that affect well-being and vulnerability of communities and neighborhoods in cities. Note: This course will include a weekly collaborative assignment, a high-impact educational practice, that foster student engagement with active and problem-based learning. Although not required, it would be helpful for students to have completed a 2000-level course from the undergraduate program in Public Health. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3091 - Live Long and Prosper: Public Health & Aging (3 Credits)

This course provides a broad overview of the interdisciplinary field of public health aging, ranging from individual attitudes and beliefs about aging to policies that aim to maximize health and well-being among older adults. A key focus is on the diversity that exists among older adults and the promotion of healthy aging for all by examining changes to social, behavioral, and biological functioning with age. Note: Although not required, it would be helpful for students to have taken a 2000-level course in public health. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3200 - Human Migration: Nomads, Sojourners, and Settlers (3 Credits)

Explores the relationship between human migration, voluntary and forced, and social organization and culture in the modern world. Case studies include pastoralists, foragers, refugees, immigrants, sojourners, and settlers and their impact on health, culture, identity, ethnicity, tradition and nationality. Cross-listed with ANTH 3200. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3440 - Medical Sociology (3 Credits)

This course covers key issues in population health and emphasizes how sociological perspectives both challenge and augment biomedical perspectives on health and health care. We also discuss the social causes and consequences of race/ethnic, sex, and socioeconomic disparities in health. Cross-listed with SOCY 3440. Max Hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 3500 - Climate Justice (3 Credits)

This inter-and multidisciplinary course will introduce students to the many facets of climate change and climate justice, including ethical, epistemic, and community implications, root causes, and how to advance solutions. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

PBHL 3939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.00 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.00 cumulative GPA

Typically Offered: Fall, Spring, Summer.

PBHL 3999 - Special Topics in Public Health (1-4 Credits)

Explores topics in public health. Topics will vary from semester to semester, with a particular emphasis on current topics. Prereq: Junior or senior standing or permission of instructor. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: junior standing or higher

PBHL 4020 - Global Health: Comparative Public Health Systems (3 Credits)

Within a limited period of time, middle and low income countries have experienced dramatic changes that affect the length and quality of peoples' lives. The health indicators for each country reflect a rich and meaningful context within interacting systems of economic, social, cultural patterns, and environmental and social justice. Analysis and contrast of public health indicators such as the millennium development goals develop an understanding of the complexity against a background of change. Prereq: Junior or Senior standing or permission from instructor. Cross-listed with URPL 6349. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

PBHL 4021 - Community Health Assessment (3 Credits)

Introduces applied methods of public health, including: analyzing community-level assessment data, developing a casual model for selected health outcomes, maximizing community participation in the assessment process, developing assessments as a team, and setting the stage for effective intervention and evaluation. Prereq: Upper division standing, a course in statistics, and an introductory course in epidemiology (HBSC 4001, 5001). Cross-listed with HBSC 5021. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 4031 - Ethnographic Research In Public Health (3 Credits)

Qualitative, ethnographic tools for practical applications in public health, including methods of direct observation, informant interviews, focus groups, structured ethnographic methods, rapid assessment and participatory action research. Basic analytic strategies, including review of computer software, coding and data display techniques. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 4040 - Social Determinants of Health (3 Credits)

This course explores social inequalities in physical and mental health, the illness experience, the healing professions, health policy, relations between providers and patients, and the structure, access to, and financing of health care organizations, with some cross-national discussions. Prereq: PBHL 2000 or 2001 with a C- or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: PBHL 2000 or PBHL 2001 with a C- or higher

Typically Offered: Fall, Spring.

PBHL 4070 - Health Disparities (3 Credits)

The purpose of this seminar is to provide students with an understanding of how historical, psychosocial, environmental, and to some degree, biological and genetic factors contribute to inequality in health and health care. Prereq: PBHL 4040, PBHL 3001, PBHL 2051 with a grade of C- or better. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: PBHL 2051, 3001, and 4040 with a grade of C- or better

PBHL 4080 - Global Health Practice (3 Credits)

A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: Junior or Senior standing or permission from instructor. Cross-listed with ANTH 4080/5080. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

PBHL 4090 - Psychedelic Anthropology (3 Credits)

Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures of health and wellness, and the plant medicine, spiritual, social, political and economic issues that surround their production, use and misuse. Course activities focus on ethnographic research strategies and arts-based approaches to public scholarship. Prereq: Junior or Senior standing or permission from instructor. Cross-listed with ANTH 4090/5090. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

PBHL 4099 - Capstone Experience in Public Health (3 Credits)

Offers students the opportunity to integrate, synthesize and apply concepts learned throughout the core curriculum of the public health major to real-world issues. The course involves extensive writing and small group presentations on the epidemiological, global, social, environmental, and policy dimensions of current problems in public health. Prereq or Coreq: PBHL 2000 or 2001 and all or all but one of PBHL 2020 or 3020, PBHL 3001, PBHL 3030, PBHL 3070, PBHL 4040 with a C- or better. Students must enroll in that remaining course concurrently with PBHL 4099. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq/Co-req: PBHL 2000 or 2001 and all or all but one of PBHL 2020 or 3020, PBHL 3001, PBHL 3030, PBHL 3070, PBHL 4040 with a C- or better, and take that remaining course concurrently with PBHL 4099.

Typically Offered: Fall, Spring.

PBHL 4110 - Public Health Perspectives On Family Violence (3 Credits)

Public health views family violence from a prevention perspective. Our exploration of child abuse, intimate partner violence, and other forms of family violence will complement other disciplinary approaches by focusing heavily on the community and social factors that contribute to abusive relationships. Theories of power and coercion and approaches to researching these issues will be analyzed and discussed through our exploration of the various forms of family violence. Prereq: Junior or Senior standing or permission from instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

PBHL 4200 - The Global HIV/AIDS Epidemic (3 Credits)

Provides a foundation for a critical analysis of HIV/AIDS in global context, concerning topics such as disease, the body, ethnicity/race, gender, sexuality, risk, addiction, power, and culture together with a set of ethnographic texts that explore the epidemic's impact. Cross-listed with HBSC 4200. Term offered: summer. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

PBHL 4620 - Health Risk Communication (3 Credits)

We are bombarded all day with communication expressing a sense of risk, of danger, of threats to our individual and communal well-being. This class acquaints students with contemporary theory, research, and practice in health risk communication across a variety of threats both real and imagined. Cross-listed with COMM 5620, COMM 4620, and ENVS 5620. Max hours: 3 Credits.

Grading Basis: Letter Grade

PBHL 4840 - Independent Study (1-4 Credits)

This course requires active independent learning based upon a written curricular outline and agreement with faculty in Public Health who supervise the student's work throughout the semester. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Typically Offered: Fall, Spring, Summer.

PBHL 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

PBHL 4995 - Global Study Topics (3-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Prereq: Upper division undergraduate standing and permission of instructor. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

PBHL 4999 - Topics in Public Health (4 Credits)

An in-depth study of selected social science perspectives/theories and their applications to population health. Topics will vary from semester to semester, with a particular emphasis on current, salient population health problems. Prereq: Junior or senior standing or permission of instructor. Cross-listed with HBSC 5999. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: junior standing or higher

Religious Studies (RLST)

RLST 1610 - Introduction to Religious Studies (3 Credits)

Religion is a complex phenomenon which involves social norms, beliefs and fears, and overarching world view. Religious experiences are among the most profound an individual can have. The course examines religious phenomena from various perspectives, including philosophical, historical, psychological, anthropological, political, sociological, the symbolic and ritual. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking.

Typically Offered: Fall, Spring, Summer.

RLST 2660 - World Religions (3 Credits)

Provides an introduction to the basic beliefs and concepts of the world's great religious traditions. Covers the history, development, belief patterns, and institutional forms of the world's religions, including Judaism, Zoroastrianism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism and Shintoism. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH3, Arts Hum: Ways of Thinking.

Typically Offered: Fall, Spring, Summer.

RLST 2680 - The American Indian Experience (3 Credits)

Surveys the relationships between Indian and non-Indian peoples, particularly in the context of the unique interaction between tribes and the federal government. Cross-listed with ETST 2606. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 2700 - The Bible as Literature (3 Credits)

Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with ENGL 2520. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3000 - Judaism, Christianity and Islam: Affinity and Difference (3 Credits)

Judaism, Christianity and Islam have much in common, beginning with their common patriarch Abraham. But there are also elements in each that are unrecognizable from the perspectives of the other two. This course will trace the relationships among the Children of Abraham across history and in today's turbulent world. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 3003 - From Buddha to #BlackLivesMatter: The Past and Future of Nonviolence (3 Credits)

Why is "Nonviolence" central to many of the religious traditions of South Asia? What has nonviolence looked like historically and how has its meaning and practice changed in the modern world? In traditions such as Hinduism, Jainism, and Buddhism, the practice of nonviolence relates to ethics through concepts of "karma"-our actions. This course begins with an investigation of the theories of karma and the roles they play in these traditions' ideas about the self, the other, and the world. We will take a focused look at the way each tradition regards the idea and practice of ahimsa, nonviolence, as both an ethical and personal good. That is, how does each tradition consider what is proper social action and how do they relate it to the attainment of salvation (i.e. moksha, nirvana)? The course puts Indian thought in conversation with western philosophies to question how we might develop a critical vocabulary for the comparative study of ethics. Turning to the modern era, we will examine Gandhi's philosophy and practice of nonviolent action in the anti-colonial struggle for India's independence, as well as how Rev. Dr. Martin Luther King adapted Gandhi's ideas to the struggle for civil rights in the US. Finally, we will examine recent critiques of nonviolence from American philosophers, activists, and communities of color to see ways that nonviolence continues to play a role in rethinking major issues for fostering equality and equity in the US and global contexts, including policing and religious and ethnic nationalism. Cross-listed with ETST 3003, HIST 3003, INTS 3003, PHIL 3003, and HIST 5003. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

RLST 3060 - History of Early Christianity (3 Credits)

History of the rise of Christianity and the decline of paganism in the Roman Empire from the birth of Jesus of Nazareth to ca. 500 C.E. Special emphasis on social, historical, legal, and cultural context of Christianity's rise and paganism's decline. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3100 - Islamic Politics and Culture (3 Credits)

Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with PSCI 4165. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 3120 - Islamic Traditions (3 Credits)

Examines birth and history of Islam, its evolution from beginning to current trends and issues. Covers core beliefs, practices, differences between Sunni and Shi'a sects, and relationship to other Western religions. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

RLST 3300 - Shamanic Traditions (3 Credits)

Explores shamanic religious traditions across the world. This form of religion, involving spiritism, animism, trance states, and "mind power," is the oldest and most widespread religion in world history. Cross-listed with ETST 3300. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3410 - Asian Philosophies and Religions (3 Credits)

We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with PHIL 3410. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring.

RLST 3486 - Renaissance and Reformation (3 Credits)

Explores the late 13th through middle 17th centuries when European art and culture changed dramatically, and when Europe was torn by explosive ideological conflicts and religious upheaval. Cross-listed with HIST 3486.

Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 3500 - Religions of India (3 Credits)

Examines the transcendentalist philosophy of India, which rests at the foundation of the great Eastern religious traditions of Hinduism and Buddhism. The Indian ideas of God, the soul, time, the nature of the universe, and its ultimate goal are examined. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 3660 - Chinese Philosophy and Culture (3 Credits)

China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalism, Chinese "Logic," and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with PHIL 3981. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 3720 - Religious Narratives (3 Credits)

Investigates the language and structure of religious discourse in Western literature. Welcomes interdisciplinary and comparative perspectives with a focus on cultural constructions of the sacred. Cross-listed with ENGL 3520. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3740 - Biblical Traditions: Old Testament (3 Credits)

Investigates the history and nature of the Biblical text. Follows the tradition of critical scholarship beginning in the Enlightenment era and continued down to the present day, sometimes entitled "Secular Humanism." Topics include theories of authorship of the Torah, its general nature and content; the historical books of the Bible, the Prophets, and the Wisdom Literature. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3760 - Biblical Studies: New Testament (3 Credits)

Examines the books of the New Testament from a scholarly, historical-critical perspective, which views it as a historically and culturally conditioned text, reflecting the beliefs and attitudes of the authors who produced it. The course covers the canonical gospels, letters, and other writings of the New Testament. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 3770 - Archaeological Discoveries Relating to the Bible (3 Credits)

Examines the revolutionary impact of archaeology on Biblical Studies. Among these discoveries are Egyptian, Mesopotamian, and Canaanite texts, the Dead Sea Scrolls, and the Gnostic texts. Through these investigations, the Bible will be placed in its appropriate historical, literary and cultural context. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 3800 - Spirituality and Ecology in Global Societies (3 Credits)

This course will examine the historical and contemporary attitudes and actions of religion in responding to the societal impacts of environmental concerns. We will investigate four worldviews in particular: indigenous traditions, Christianity, Judaism and Buddhism, and also consider how these traditions interact with public policy debates and their position on social justice and environmental issues. Religions both create and mitigate conflict. This course will consider ethical and moral approaches, philosophical principles and social movements including ecofeminism and ethics to provide tools for dialogue and critical thinking around ecological challenges. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Spring.

RLST 4000 - Religion and Cultural Diversity (3 Credits)

Religion is one of the key elements which creates multiculturalism. This course explores issues in religion and religious identity in contemporary America, including Native American spiritual traditions, Jewish-American traditions, Muslim-American traditions, Asian-American traditions, the African-American Pentecostal movement, and the growth of the Black Muslim movement. Attention is also given to the question of gender issues, as the traditional model for gender roles was formulated, in part, from a religious basis. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Spring.

RLST 4002 - Race, Gender and Religious Nationalisms in Asia and the US (3 Credits)

This course investigates ideologies and practices of race, caste, ethnicity, and gender at the foundations of several contemporary religious nationalist movements in Asia and the US. The course focuses first on the ways that religious ideologies and practices of gender help to define and police the borders of race, caste, and ethnicity as social identities. We will examine how these ideologies emerge in religious texts and how they have been challenged in literature and practice, both historically and in the modern era, while privileging the works, voices, and perspectives of women and queer caste-oppressed and racialized philosophers, activists, and thinkers. The course then seeks to give students conceptual and theoretical foundations to understand the relationship between race/caste/ethnicity and gender in religious nationalisms, while presenting case studies from Asia and the US to reflect on and challenge these models. Students will have the opportunity to conduct further research into these issues in Asia, the US, and other parts of the world. Cross-listed with HIST 4002, CHIN 4002, ETST 4002, INTS 4002, and HIST 5002. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

RLST 4010 - Comparative Religious Systems (3 Credits)

A cross-cultural analysis of religious belief and behavior. Emphasis is placed on religions found among non-Western cultural groups and includes consideration of how major religions of the world are manifested on local levels. Cross-listed with ANTH 4130, 5130, RLST 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4020 - Sociology of Religion (3 Credits)

This course introduces students to the nature and functions of religion in society, emphasizing western religions in the U.S. Students will develop and apply an understanding of classic and modern sociological theories of religion to current events and disciplinary developments. Cross-listed with SOCY 4610, SOCY 5610, RLST 5020. Prereq: Junior or Senior standing or permission from instructor. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

RLST 4030 - Race, Religion and Belonging in the United States (3 Credits)

Race/ethnicity and religion are conconstitutive social and cultural formations that have played a fundamental part in determining the boundaries of belonging of the United States. In this course, students will interrogate when, why and how race/ethnicity and religion have been used to delineate borders, determine citizenship, navigate legal classifications, dictate social mobility, and regulate economic possibilities. We will analyze both primary sources #such as sermons, reality TV shows, court cases and graphic images#as well as scholarly writing to explore how formations of race and religion have shaped notions of belonging in the US nation#state, thereby constructing the boundaries of the state itself. Cross-listed with ETST 4030, ETST 5030, RLST 5030, HIST 4209 and HIST 5029. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4040 - Psychology of Religion (3 Credits)

Examines the theories developed by some of the great names in the field of psychology and their approaches to religion. Questions addressed include why people become religious, how religion functions in their lives, religious experience and assessment of the validity of religious claims. Key theorists studied include: William James, Sigmund Freud, Carl G. Jung, Abraham Maslow and Erich Fromm. Cross-listed with RLST 5040. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4060 - Questioning Religious Belief and Practice: Introduction to Philosophy of Religion (3 Credits)

Does God exist? Can the existence of God be proved? When is believing on faith acceptable? How or why is there a "problem of evil"? What are the attributes of a "god" and how can they be known, if at all? What is the relation of God to the world we experience? How does morality relate to religious belief and practice? The goal of the course is to broaden and deepen our understanding of key philosophical debates within religious traditions as we study prominent thinkers in the history of philosophy. Cross-listed with HUMN 5600, PHIL 4600, PHIL 5600, RLST 5060, and SSCI 5600. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Summer.

RLST 4070 - Western Religious Thought (3 Credits)

Focuses on philosophers and theologians who have contributed to the evolution of the three great religious traditions of the West: Judaism, Christianity and Islam. Targets thinkers from three periods: the ancient or formative era, the medieval era, and the contemporary era. Note: Specific philosophers chosen may vary in different semesters. Cross-listed with PHIL 4710. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4080 - Eastern Religious Thought (3 Credits)

Parallels the course in Western religious thought. The great religious traditions of the East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of key philosophical representatives of each tradition. Cross-listed with PHIL 4720. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4100 - Special Topics in Religion (3 Credits)

This special topics course allows for a variety of subjects to be explored in different semesters, including such issues as the nature of religious experience, communication with the divine, specific historical themes and events in religion. Term offered: spring. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Typically Offered: Spring.

RLST 4152 - Religion & Communication (3 Credits)

This course focuses on the dynamics between religion, culture, and communication and how these have led to intercultural peace, centuries of war, and/or different visions of belonging. This class addresses these dynamics to improve intercultural dialogue and conflict resolution processes, foregrounding the search for justice. Cross-listed with INTS 4152, COMM 4152, COMM 5152, INTS 5152, and RLST 5152. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4160 - Mysticism (3 Credits)

Explores the mystical strains within the world's great religious traditions. Jewish, Christian, and Islamic mystics did not always express the same beliefs and attitudes as mainstream adherents. When mystics are placed side-by-side, amazing similarities appear. One cannot always tell whether a given mystical statement is Hindu, Jewish, Sufi, or Christian. This class examines these mystical traditions, East and West. Cross-listed with RLST 5160. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4300 - Myth and Symbol (3 Credits)

Approaches the field of classical Greek mythology and religion from the perspective of Jungian archetypal theory. The deities of the ancient Greeks are presented as archetypal patterns with universal correlates elsewhere in world religions. A foundation in C. G. Jung's archetypal theory will be offered to ground the course material. Cross-listed with RLST 5300. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4320 - Spirituality in the Modern World (3 Credits)

Examines the issue of spiritual currents in the modern world. Joseph Campbell claimed that Western culture long ago lost an active sense of the sacred and that the traditional religions have not been the spiritual center for the vast majority of moderns for centuries. This class looks at the modern spiritual awakening in Shamanism, Eastern thought, the New Age movement, the men's movement, paganism and Goddess religion, and the revival of traditional religious forms in recent decades. Max Hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4340 - The Hero's Journey (3 Credits)

The myth of the hero's journey serves as a metaphor for the vicissitudes life puts each of us through. The hero or her represents the ego-self who undertakes the journey—a grand adventure into the realm of the unknown—to seek the treasure. He or she is greatly transformed by the process, ultimately into the great self, who wins the boon to share with all humanity. Versions of the story are found all over the world, such as in the sagas of Gilgamesh, Odysseus, Psyche, King Arthur, Dorothy of Oz, and Luke Skywalker from a galaxy far, far, away. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4360 - Freudian and Jungian Perspectives in Dream Analysis (3 Credits)

Focuses on the phenomenon of dreams in a way that differs distinctly from the traditional approach to the subject in the field of psychology. "Spiritual" approaches to dreams are examined, as well as some major theorists on dreams, especially the work of Sigmund Freud and C. G. Jung. Cross-listed with RLST 5360. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 4400 - Differing Concepts of God (3 Credits)

God, Gods, and Goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the Gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with RLST 5400, PHIL 4650 and 5655. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 4420 - Goddess Traditions (3 Credits)

Explores the many forms which Goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld Goddesses of death and destruction. Cross-listed with RLST 5420 and WGST 4420/5420. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4440 - Concepts of the Soul (3 Credits)

Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with RLST 5440 and PHIL 4470, 5470. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4460 - Death and Concepts of Afterlife (3 Credits)

Examines how the major religious traditions approach the issue of death. Where the Egyptians were fascinated by death, their Mesopotamian and Hebrew neighbors saw no kind of experience continuing after death. Concepts of the Final Judgment Day and the end of the world follow in Zoroastrianism, Christianity, and Islam, while Indian religions developed a sophisticated theory of reincarnation and the "art of dying." Finally, we will turn to Chinese belief in ancestral spirits. Cross-listed with RLST 5460. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 4462 - Islam in Modern History (3 Credits)

This course studies Islamic thought and practice over the last two centuries in terms of major historical processes that have operated at local, national, and global scales. Cross-listed with RLST 5462, HIST 4462, HIST 5462. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4480 - Perspectives on Good and Evil (3 Credits)

Examines "problem of evil" as formulated in the philosophical tradition. Presents classical formulation of the problem, traditional solutions & classical critiques of each answer. Considers perspectives of various religious orientations, which deal differently with the question of suffering. Cross-listed with PHIL 4480/5480, RLST 5480. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RLST 4500 - Religion and Politics (3 Credits)

Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of "church and state;" (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 4057, 5057 and RLST 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4710 - Women and Religion (3 Credits)

A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women's involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710/5710, WGST 4710/5710, RLST 5710. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4730 - Whores and Saints: Medieval Women (3 Credits)

Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. This course assumes that students have completed at least 9 hours of literature coursework. Cross-listed with ENGL 4510/5510, RLST 5730 and WGST 4510/5510. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RLST 4840 - Independent Study: RLST (1-3 Credits)

Various topics in religious studies pursued in independent research.

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Typically Offered: Fall, Spring, Summer.

RLST 4850 - Family Systems Therapy, Religion and Spirituality (3 Credits)

This course examines how the intersection between different religious and spiritual frameworks affects family systems. A strengths-based ecological perspective, family therapy theories and family systems theories will be used to understand religious and spiritual frameworks in working with families in schools and communities. Cross-listed with HDFR 4850. Max hours: 3 Credits.

Grading Basis: Letter Grade

RLST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

Research & Eval Methods (RSEM)**RSEM 4001 - Special Topics (3 Credits)**

Specific topics vary from semester to semester. Cross-listed with RSEM 5001. Max hours: 3 Credits.

Grading Basis: Letter Grade

RSEM 4100 - Research and Statistics in Families and Human Development (3 Credits)

This course will prepare students to read, critique, and conceptualize research on families and human development. Statistical concepts will be taught along with examination of statistical studies. The second half emphasizes qualitative studies employing ethnographic and case study methodologies. Max hours: 3 Credits.

Grading Basis: Letter Grade

RSEM 4120 - Introduction to Research Methods (3 Credits)

This is a survey course that examines the purposes of research, the methods of quantitative, qualitative, and mixed research, and the processes involved in research studies. The primary aims of this course are to improve your skills as an informed consumer of research and to provide you with the skills to conduct your own research. Prereq: RSEM 4100. Cross-listed with RSEM 5120. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: RSEM 4100.

Risk Management (RISK)**RISK 1000 - Introduction to Risk Management and Insurance Careers (1 Credit)**

This course introduces students to the many and varied career opportunities in the risk management and insurance industry via visiting industry professionals and on-site industry visits. The course meets 1 hour each week. No co-credit with RISK 1001. Max hours: 1 Credit.

Grading Basis: Satisfactory/Unsatisfactory

RISK 1001 - Careers in Risk Management (1 Credit)

This course introduces high school students to the many and varied opportunities in the risk management and insurance industry via visiting professionals and on-site industry visits. This course meets during the summer semester. It is pass/fail. This course is equivalent to RISK 1000 Introduction to Risk Management and Insurance Careers in content. Note: Must be a high school student or recent high school graduate to enroll. CU Denver students cannot enroll. No co-credit with RISK 1000. Max hours: 1 Credit.

Grading Basis: Satisfactory/Unsatisfactory

RISK 3809 - Introduction to Risk Management (3 Credits)

This course introduces students to the fundamentals of risk and risk management for businesses and individuals. Corporate risk management techniques covered range from insurance to enterprise risk management. Personal risks discussed range from unemployment to retirement.

Prereq: FNCE 3000. Insurance carrier operations are also considered.

Restriction: junior/senior standing required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: FNCE 3000. Restriction: Restricted to undergraduate Business majors at a junior standing or higher.

Typically Offered: Fall, Spring, Summer.

RISK 3949 - Experiential Learning in RMI Industry (3 Credits)

This course connects students to risk management service providers through the Risk Management and Insurance (RMI) Program. The students will intern with a specific provider. The RMI program and faculty will supervise and monitor tasks and assignments, and coordinate with the providers to maximize the learning experience. Restriction: junior/senior standing required. Max hours: 3 Credits.

Grading Basis: Satisfactory/Unsatisfactory

Restriction: Restricted to Juniors and Seniors only.

RISK 4028 - Global Enterprise Sustainability and Resilience (3 Credits)

Study abroad and interact with business leaders to learn how corporations are creating solutions, partnerships, reporting on their sustainability performance, and building resilience to strategic risks such as climate change and water challenges. The course culminates with a business challenge. Restriction: Restricted to junior standing or higher.

Cross-listed with RISK 6028. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Junior standing or higher.

Typically Offered: Fall.

RISK 4129 - Practical Enterprise Risk Management (3 Credits)

Enterprise risk management examines all categories of an organization's risks and expands beyond Hazard risk, covering Strategic, Financial and Operational risks and methods to mitigate these risks. Prominent local Risk Management guest speakers share their experiences with Risk and ERM. Cross-listed with RISK 6129. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

RISK 4209 - Cyber Risk Management (3 Credits)

Computer networks and the data that travels upon them are under constant and increasing attack. This course will focus on a discussion of how state and non-state actors utilize this form of asymmetrical warfare to infiltrate government and corporate networks, risk management responds and risk strategies apply. Cross-listed with RISK 6209. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RISK 4309 - Strategic Risk Management (3 Credits)

Introduces the theory and practice of strategic risk management in volatile, uncertain, complex, and ambiguous conditions that increasingly characterize corporate risks. Identify critical risks (climate, reputational, regulatory, disruptive technologies) to a firm, and develop strategies to increase resilience and thrive. Cross-listed with RISK 6309, SUSB 6309.

Prereq: RISK 3809. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: RISK 3809.

Typically Offered: Fall.

RISK 4409 - Employee Benefits and Workforce Risk Management (3 Credits)

The course surveys an array of popular employee benefit programs to attract, protect, and retain valued employees. It also focusses on risk management programs that invest in human capital and address the downside risks of employing a workforce. Restriction: Junior or Senior standing. Cross-listed with RISK 6409 and MGMT 4460/6760. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Junior or Senior standing

RISK 4509 - Global Risk Management (3 Credits)

A distinctive immersion to explain how risk is transferred globally, through standard insurance markets, surplus lines markets, Lloyds of London, and reinsurers. Includes optional travel to London, which is the home to many of the world's largest insurers and reinsurers. Prereq: One RISK course. Cross-listed with RISK 6509. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: One RISK Course

Typically Offered: Spring.

RISK 4609 - Claims Management (3 Credits)

This course will provide an overview of the claims process in the Property and Casualty Insurance world. Students will learn about basic claims handling for personal and commercial claims as well as how to determine coverage and legal issues. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

RISK 4709 - Life and Health Insurance (3 Credits)

This course introduces students to life and health insurance concepts and policy types with an emphasis on insurance planning for individuals and businesses. The insurance industry and trends within it are also explored. Prereq: RISK 3809 and FNCE 3000 with a grade of at least C (GPA 2.0). Restriction: Junior/Senior standing required. Cross-listed with RISK 6709. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: RISK 3809 and FNCE 3000 with a grade of at least C (GPA 2.0)

Restriction: Junior/Senior standing required

RISK 4809 - Property & Casualty Insurance (3 Credits)

Students learn the fundamentals and uses of personal and commercial property and casualty insurance, including cost and pricing issues.

Insurance company financial management and current trends in the insurance industry are also explored. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

RISK 4840 - RMI Independent Study (3 Credits)

Max hours: 3 credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

RISK 4909 - Corporate Risk Management (3 Credits)

This course provides an overview of the corporate risk management process. It considers the ways companies identify their risk exposures, the tools used to measure and mitigate those exposures including the latest developments in alternative risk transfer, and ultimately, how risk management adds value to the firm. Prereq: RISK 3809 with a grade of C or higher. Coreq: FNCE 3500. Restriction: Restricted to undergraduate Business majors with junior standing or higher. Cross-listed with FNCE 4909/6909 and RISK 6909. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prerequisite: RISK 3809 with a grade of C or higher. Corequisite:

FNCE 3500. Restriction: Restricted to undergraduate Business majors with junior standing or higher.

School Library Program (SCHL)

SCHL 4030 - Cultivating Learning Skills in Library Leadership (3 Credits)

In an increasingly shifting world and work force, both our student and adults will need to demonstrate learning skills to thrive in K-12 and post-secondary world. Teacher-librarians are guides for students and staff in ALL learning skills. Collaboration, innovative thinking, critical thinking and are areas of library leadership covered. Cross-listed with SCHL 5030. Max hours: 3 Credits.

Grading Basis: Letter Grade

SCHL 4160 - Managing School Libraries (3 Credits)

Case studies in the organization and administration of school library and instructional leadership of programs and projects. Topics include project management, personnel administration, budget development, management strategies, copyright and intellectual freedom. Cross-listed with SCHL5160. Max hours: 3 Credits.

Grading Basis: Letter Grade

School Psychology (SPSY)

SPSY 2200 - Child and Adolescent Mental Health in Schools and Communities (3 Credits)

Introduces students to child and adolescent mental health and treatment, with a focus on trends in children's mental health, evidence-based treatments for childhood mental health challenges, and child mental health careers. Course includes an emphasis on school-based mental health practices. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences.

SPSY 2210 - Infant, Toddler, and Preschool Mental Health in Schools and Communities (3 Credits)

This course introduces students to infant, toddler, and preschool aged children's mental health and treatment. The course will focus on trends in early childhood mental health, evidence-based treatments for mental health challenges, and early childhood mental health careers. Course includes an emphasis on educationally based settings. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Behavioral Sciences.

Science Education (SCED)

SCED 4004 - Elementary Science Teaching (3 Credits)

This course explores issues in elementary school science learning and teaching. Teacher candidates will develop knowledge of the nature of science and science content, engage in scientific inquiry, work to identify student conceptions, and plan and enact science instruction. Cross-listed with SCED 5004. Restriction: Professional Year Admission required. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SCED 4050 - Introduction to Science Teaching and Learning (2 Credits)

Focus on conceptual development, conceptual change, collaborative learning, students' conceptions of various topics in science, practical issues encountered in facilitating learning, managing the classroom, formative and summative assessment, and differentiating instruction in a collaborative environment. Seminar for Learning Assistants. Student must be serving as a Learning Assistant in the CU Denver LA program. Max hours: 2 Credits.

Grading Basis: Letter Grade

SCED 4340 - Equity & Culture in Science Education: Local/Global (3 Credits)

This course examines literature in science education related to issues of culture and equity. Topics will be framed by an understanding of equity in diverse classrooms and how it informs research, curriculum and instruction. Cross-listed with SCED 5340 and ENVS 5340. Max hours: 3 Credits.

Grading Basis: Letter Grade

SCED 4350 - Issues and Trends in Science Education (3 Credits)

Explores the current issues and trends in science education related to theory, pedagogy, practices, curriculum, and other contemporary topics. Cross-listed with SCED 5350. Max hours: 3 Credits.

Grading Basis: Letter Grade

Science, Technology, Engineering & Math Education (STME)

STME 1000 - STEM Methods (3 Credits)

This course provides an overview of STEM practices and philosophies in PK-12 education. STEM trends, foundations of practice, and resources are examined. Max hours: 3 Credits.

Grading Basis: Letter Grade

STME 1001 - Lived Experiences and 21st Century Skills: Informal STEM Education (1-6 Credits)

This course connects 21st century skills embedded in Informal STEM learning contexts with students' lived experience. Learning activities may include STEM camps, coding camps, STEM bootcamps to develop educational and workplace competencies. Repeatable. Term offered: Summer. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Summer.

STME 3544 - Community-STEM Leadership (3 Credits)

In this learning opportunity, we will explore ways to think about informal and formal learning spaces with a lens of STEM Leadership. Restriction: Restricted to EDHD-PhD and LDRE-EDd majors within the School of Education and Human Development. Cross-listed with STME 7010. Max hours: 3 credits.

Grading Basis: Letter Grade

Restriction: Restricted to EDHD-PhD and LDRE-EDd majors within the School of Education and Human Development.

STME 4001 - Planning for Learning in Mathematics and Science (3 Credits)

This course explores aspects of complex curriculum and instructional concepts through the lens of mathematics and science educators. A focus will include: Socio-cultural learning theory in Math and Science; standards-based instruction; instructional design; formative & summative assessment, and differentiation so that meaningful instruction becomes accessible to all students. Cross-listed with STME 5001. Max hours: 3 Credits.

Grading Basis: Letter Grade

STME 4020 - Learning and Assessment in STEM: Embracing Design Thinking (3 Credits)

This course emphasizes student-centered, wonder-driven STEM education. Explore Design Thinking's integration for enriched inquiry-based learning in math, science, engineering, and technology. Learn strategies for inclusivity, differentiation, and accommodations. Master formative, summative assessments, including handling high-stakes evaluations. Restriction: Professional Year Admission required. Cross-listed with STME 5020. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

STME 4030 - Exploring Approaches to STEM Education: Making Student Learning Visible (3 Credits)

This course delves into inventive STEM education, merging Design Thinking principles. Emphasis on playful, visible learning, and interdisciplinary connections. Online format fosters collaborative, flexible digital atelier experiences. Restriction: Professional Year Admission required. Cross-listed with STME 5030. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

STME 4051 - STEM Capstone: Secondary Education (3 Credits)

This course provides Secondary STEM Education students with a capstone learning experience that integrates knowledge of STEM content, students, and school context into socially-just and culturally responsive practices. Cross-listed with STME 5051. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

Social Justice (SJUS)

SJUS 2000 - Foundations in Social Justice (3 Credits)

Examines how well the United States, Colorado and Denver are doing in addressing issues of social justice, such as inequality and environmental degradation. Explores various modes of democratic participation – electoral politics, community activism, and lifestyle changes – in advancing social justice. Term offered: fall. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS1

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS1, Soc Behav Sci:Econ or Pol.

Typically Offered: Fall.

SJUS 2010 - Social Justice: Theories, Narratives, and Technologies (3 Credits)

How can citizens of a democracy address social justice issues? This course examines theoretical perspectives relevant to social justice, the narratives which express and question social order, and the technologies which alternately shape and reflect local, regional, and global cultures. Max hours: 3 Credits.

Grading Basis: Letter Grade

SJUS 3050 - Special Topics: Social Justice (1-3 Credits)

Special Topics in Social Justice will be covered. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

SJUS 3939 - Internship (1-12 Credits)

Internship/experiential learning involving work in the community that is centered upon social justice and which includes a reflective component and some type of public dissemination. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

SJUS 4000 - Social Justice Capstone (3 Credits)

Students design and carry out research projects that address important civic issues in collaboration with community partners and present their findings to the partners and academic community. This course also involves reflection on social justice means and goals. Note: Students may not receive credit for SJUS 4000 if they have already received credit for SJUS 4001 and may not receive credit for SJUS 4001 if they have already received credit for SJUS 4000. Prereq: Junior standing or higher. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

Additional Information: Upper Division; Credit.

SJUS 4001 - Social Justice Senior Project (3 Credits)

Students design and carry out research projects that address important civic issues in collaboration with community partners and present their findings to the partners and academic community. This course also involves reflection on social justice means and goals. This is an individually structured version of SJUS 4000 so students may not receive credit for SJUS 4001 if they have already received credit for SJUS 4000 and may not receive credit for SJUS 4000 if they have already received credit for SJUS 4001. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Max hours: 3 Credits.

Grading Basis: Letter Grade

SJUS 4050 - Special Topics: Social Justice (3 Credits)

Special Topics in Social Justice will be covered. Cross-listed with SJUS 5050. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

SJUS 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with HUMN 4770, SSCI 4770, WGST 4770, HUMN 5770, SJUS 5770, SSCI 5770, WGST 5770, IDST 4770, IDST 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SJUS 4840 - Independent Study (3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SJUS 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

Social Sciences (SSCI)

SSCI 3939 - Internship (1-12 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

SSCI 4025 - Legal Advocacy/Engagement (3 Credits)

This course is an introduction to litigation practice skills in the context of cutting-edge litigation to create social change. Students will participate in mock litigation activities including conducting legal research, writing briefs, deposing witnesses, and making oral argument. The course will assist students in understanding basic legal advocacy while exploring the ways in which the legal system facilitates or stymies social change. The class is designed to be highly interactive, with a strong emphasis on learning-by-doing and collaborative problem-solving. It is intended for students with a strong interest in attending law school who are committed to preparing themselves for that experience by working with material that maybe initially unfamiliar or daunting. If students undertake that challenge, they can expect to leave the class better prepared for law school and knowledgeable about how law is used to achieve social change. Note: Law Studies students should take this course as one of the last courses for the minor. Max hours: 3 Credits.

Grading Basis: Letter Grade

SSCI 4050 - Special Topics in Law Studies (3-6 Credits)

These topics courses are concerned with specialized aspects of the study of law within the social sciences from various theoretical and research perspectives. These courses are interdisciplinary and serve as a forum for discussion specific to students interested in law studies. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

SSCI 4060 - Topics in Law Studies: Constitutional Thought (3-6 Credits)

These topics courses are concerned with specialized aspects of the study of constitutional thought as related to law studies. These courses are interdisciplinary and serve as a forum for discussion specific to students interested in law studies. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

SSCI 4070 - Topics in Law Studies: Social Context of Law (3-6 Credits)

These topics courses are concerned with specialized aspects of the study of the social context of law. These courses are interdisciplinary and serve as a forum for discussion specific to students interested in law studies. Term offered: fall, spring. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring.

SSCI 4251 - Introduction to Legal Studies (3 Credits)

A survey of the United States legal system, including lawmaking powers, jurisdiction, court procedures, professional ethics and major principles of business law, contracts, estates and probate, family law, property and torts. Cross-listed with HUMN 4251/HUMN 5251/SSCI 5251. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SSCI 4325 - First Amendment: Theory and Context (3 Credits)

First Amendment jurisprudence including free speech/responsibility, sedition/seditious libel/dissent, prior restraints, time/place/manner restrictions, hate/intimidating speech, defamation, privacy/security tensions, intellectual property/public good, advertising, corporate speech, sexual expression, and public status of religion. Cross-listed with HUMN 4325, HUMN 5325, SSCI 5325, PSCI 4325 and PSCI 5325. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SSCI 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with HUMN 4770, HUMN 5770, IDST 5770, IDST 4770, SSCI 5770, WGST 5770, WGST 4770, SJUS 4770, SJUS 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SSCI 4840 - Independent Study (1-3 Credits)

Directed study based on a specific subfield of social sciences. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

SSCI 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

Sociology (SOCY)

SOCY 1001 - Understanding the Social World (3 Credits)

This survey course provides an introduction to the sociological study of society, including patterns of social relationships, social interaction, and culture. Typical course topics include socialization, the family, criminology, deviance, inequalities, sex and gender, race and ethnicity, health and medicine, self and identities, and globalization. Students gain an understanding of how organizations, institutions, and structures of society shape individual and group experiences. Max hours: 3 Credits.

GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

SOCY 1011 - From Killer Apps to Killer Bots: Technology and Social Change (3 Credits)

A young college student updates her social media page to stay in touch with family and high school friends while making new friends on campus. An upstart automobile manufacturer builds a factory manned by robots to produce electronic vehicles designed to reduce the environmental impact of automobiles. The military deploys battalions of unmanned drones to engage with adversaries without risking the lives of their soldiers. Technology mediates nearly all aspects of social life, from reproduction and parenting to crime control and health care. This course is designed to provide students an introduction to the different social dimensions of technological innovation as well as the theoretical and methodological tools sociologists use to study them. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences.

SOCY 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: spring, fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall, Spring.

SOCY 1212 - Career Success in the Social Sciences (3 Credits)

Introduction to careers and planning for career success in sociology and the social sciences for all beginning sociology majors or those considering the major. Discussions about career opportunities, the various sociology undergraduate and graduate degree paths, research being conducted within the sociology department, and strategies for being a successful and engaged sociology major. Prereq: SOCY 1001, Preferred: Current or anticipated SOCY major. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001

Typically Offered: Fall.

SOCY 2001 - Inequalities in Social World (3 Credits)

Introduces students to critical sociological perspectives on social inequality. Major sociological factors contributing to the production and reproduction of inequality in various social organizations and institutions are analyzed. Prereq: SOCY 1001 or permission of the instructor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001

Typically Offered: Fall, Spring.

SOCY 2440 - Deviance and Social Control (3 Credits)

This class explores different forms of deviance and ways in which deviant categories are created, and examines sociological theories of deviance, social order, and social power. The course also addresses how different groups gain control over social definitions and the consequences these definitions have in the form of norms, laws, and informal social sanctions. The impact of these definitions for individuals also is considered, namely for how people construct and manage their identities. Topics covered include drug smuggling, gang membership, computer hacking, shoplifting, homelessness, eating disorders, transability, BDSM, self-injury, and sex work. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SOCY 2462 - Introduction to Social Psychology (3 Credits)

Studies the development and functioning of persons, especially within a group context, and the dynamics of small groups. Emphasis on the import of symbols for human behavior, development of self-concepts, and processes of competition and cooperation in group dynamics. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-SS3

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Social Sciences; GT courses GT Pathways, GT-SS3, Soc Behav Sci:Hmn Behav, Cul.

Typically Offered: Fall, Spring, Summer.

SOCY 3001 - Urban Sociology (3 Credits)

Explores U.S. cities as built environments, cultural spaces, and sources of community. Topics include the history of urbanization; social and spatial organization of cities; race and residential segregation; suburbanization; and urban problems such as crime, environmental hazards, and gentrification. Prereq: Sophomore standing or higher. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

SOCY 3010 - Sociology of Human Sexuality (3 Credits)

Increases the understanding of differences in views of sexuality, specifically the link between sex and reproduction and its role as the motivation for gender roles and sex acts. Explores the history of sexuality, cross-cultural studies and primate modeling. Prereq: sophomore standing or higher or permission of instructor. Cross-listed with WGST 3010. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3020 - Race and Ethnicity in the U.S. (3 Credits)

A sociological examination of race and ethnicity in contemporary U.S. society. Includes a focus on the nature and causes of prejudice and discrimination. Dominant-minority relations are examined, with an emphasis on current status of minority groups and issues. Prereq: sophomore standing or higher or permission of instructor. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Additional Information: Denver Core Requirement, Cultural Diversity.

Typically Offered: Fall, Spring, Summer.

SOCY 3040 - Drugs, Alcohol & Society (3 Credits)

Explores our culture's relationship with drugs and alcohol from a sociological perspective, investigating all spheres of substance use: recreational, medicinal, instrumental, & religious. Examines our long turbulent history with these chemicals, and ways in which they have shaped our society. Prereq: sophomore standing or higher or permission of instructor. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3050 - Sociology of Education (3 Credits)

Drawing from theories in the sociology of education, this course evaluates the relationship between race, ethnicity, gender, class, immigration status and educational experiences, aspirations, and outcomes. Topics include socialization, tracking, educational policy, college access, and educational equity. Prereq: sophomore standing or higher or permission of instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3080 - Sex and Gender (3 Credits)

Causes and consequences of sex role differentiation at the individual, group and societal levels. Current issues related to changing norms and values concerning gender in modern society are examined. Prereq: sophomore standing or higher or permission of instructor. Cross-listed with WGST 3080. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

SOCY 3115 - Quantitative Methods & Analysis (4 Credits)

This course provides students with a basic understanding of survey methods and statistical analysis. In addition to learning the basics of inferential statistics and sampling methods, students will conduct their own survey research, analyze data, and produce reports. Prereq: SOCY 1001 with a C- or higher. Term offered: fall, spring, summer. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001 with a C- or higher.

Typically Offered: Fall, Spring, Summer.

SOCY 3119 - Qualitative Methods (4 Credits)

This course focuses on the development of skills involved in designing qualitative research studies, collecting and analyzing qualitative data and evaluating qualitative research. Primary focus is on ethnography, in-depth interviewing, and content analysis. Students read, analyze, and conduct qualitative research. Prereq: SOCY 1001 with a C- or higher. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001 with a C- or higher.

Typically Offered: Fall, Spring.

SOCY 3140 - Sociological Theory (3 Credits)

An overview of major sociological theories and concepts. The emergence of the discipline and the contemporary development of sociological theories are examined. Prereq: SOCY 1001. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: SOCY 1001

Typically Offered: Fall, Spring.

SOCY 3330 - Social Problems (3 Credits)

Explores how societies define and attempt to solve "social problems." Possible topics: income disparities, race/ethnic relations, gender inequality, and sexuality, in addition to the relationship between these issues and social institutions such as education, religion, health care, and criminal justice. Prereq: sophomore standing or higher or permission of instructor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Additional Information: Denver Core Requirement, Social Sciences.

Typically Offered: Fall, Spring.

SOCY 3440 - Medical Sociology (3 Credits)

This course covers key issues in population health and emphasizes how sociological perspectives both challenge and augment biomedical perspectives on health and health care. We also discuss the social causes and consequences of race/ethnic, sex, and socioeconomic disparities in health. Prereq: sophomore standing or higher or permission of instructor. Cross-listed with PBHL 3440. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

SOCY 3490 - Criminology (3 Credits)

Theories, nature and causes of crime as a social phenomenon. Processes of making laws, breaking laws, and reaction toward the breaking of laws. Prereq: sophomore standing or higher or permission of instructor. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

SOCY 3500 - Topics in Sociology (1-3 Credits)

Special topics in sociology to be selected by the instructor. Note: Can be taken more than once when topics vary. Prereq: sophomore standing or higher or permission of instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3510 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3520 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3530 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3540 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3550 - Topics in Sociology (1-3 Credits)

Prereq: sophomore standing or higher or permission of instructor.

Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3570 - Death & Dying: Social & Medical Perspectives (3 Credits)

Focusing on death, dying and bereavement using medical and social perspectives, this course explores how illness, prolonged dying and sudden death impact care providers, families and communities.

Discussion, film, readings and music address the connection of social and medical issues. Cross-listed with HEHM 3570. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SOCY 3650 - Sociology of Music (3 Credits)

Focuses on the meaning/use of music in society. Explores censorship, organization of the recording industry, sociocultural contexts in which music is produced/distributed/listened to and the relationship between music and technology along with musical applications and associations.

Prereq: sophomore standing or higher or permission of instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3697 - Contemporary Asian American Experience (3 Credits)

Examines the contemporary Asian American experience, including the adaptation of new immigrants or refugees, economic and educational problems, ethnic identity, intermarriage, anti-Asian discrimination and other civil rights issues, and recent political activism. Prereq: sophomore standing or higher or permission of instructor. Cross-listed with ETST 3697. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Spring.

SOCY 3700 - Families and Society (3 Credits)

This course explores multiple dimensions of family as a social institution. Using a critical approach, we examine historical, cultural, and political views about families. We consider multiple forms of contemporary families, discuss the many issues facing families, and study how families and family life have become politicized. Cross-listed with WGST 3700.

Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring, Summer.

SOCY 3720 - Global Perspectives on Social Issues (3 Credits)

Various cultural and social frameworks are used in a sociological examination and international comparison of select social issues, such as globalization, terrorism, inequality and discrimination. Analysis of selected issues across cultures explores how societal and cultural characteristics shape these issues. Prereq: sophomore standing or higher or permission of instructor. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Additional Information: Denver Core Requirement, International Perspectives.

Typically Offered: Fall, Spring, Summer.

SOCY 3750 - Animals and Society (3 Credits)

An examination into the category of "animal" as a social construct and the relationship between humans and non-human animals, which produces consequences of difference and subsequent inequality. The course utilizes different sociological perspectives to examine the social patterns, processes, and institutions that establish our lived experiences with non-human animals. Prereq: Sophomore standing or higher or by instructor permission. Max hours: 3 Credits

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

SOCY 3840 - Independent Study: SOCY (1-3 Credits)

Prereq: sophomore standing or permission of the instructor. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Sophomore standing or higher.

SOCY 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: sophomore standing or higher or permission of instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SOCY 3995 - Global Study Topics (3-6 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Department consent required. Repeatable. Max hours: 12 Credits. Grading Basis: Letter Grade
Repeatable. Max Credits: 12.
Additional Information: Global Education Study Abroad.

SOCY 4020 - Race, Culture and Immigration (3 Credits)

In this course, we will consider the social and legal construction of race and immigration. We will also explore how immigrants have been racialized both historically and in the current moment. In addition, we will consider the role of culture in shaping the immigrant experience and immigrant outcomes. Restriction: Junior standing or higher or instructor permission. Cross-listed with SOCY 5020, ETST 4020 and ETST 5020. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Spring.

SOCY 4050 - Health Disparities (3 Credits)

This course focuses on social, economic, and political factors that shape the uneven distribution of health and illness in the United States. Social determinants of health are explored, including socioeconomic status, race and ethnicity, neighborhood environments, social relationships, and gender. Cross-listed with SOCY 5050. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Typically Offered: Spring.

SOCY 4110 - Sociology of Health Care (3 Credits)

Examines U.S. health care institutions and issues such as rising costs, the effects of class, racial and gender inequality, professionalization and monopolization of roles, construction of illness and health, managed care, for-profit health care, and ethics of health care decisions. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5110. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

SOCY 4220 - Population Change and Analysis (3 Credits)

Concepts of population change, methods of analysis, and applications to contemporary social issues. Topics include age and sex distributions, fertility, mortality, and migration, and the social causes and consequences of these phenomena. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5220. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Spring.

SOCY 4270 - Social Meanings of Reproduction (3 Credits)

Reproduction involves more than biological processes, assuming symbolic, political, and ideological meanings. This course examines contested meanings of reproduction, including how people experience reproduction, controversies over who should reproduce (and under what circumstances), and how public policy mediates these conflicts. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5270, WGST 4270 and WGST 5270. Term offered: fall. Max hours 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

SOCY 4290 - Aging, Society and Social Policy (3 Credits)

A sociological examination of central issues (e.g., work, retirement, family support, health) pertaining to the aging population. Heterogeneity in aging, as shaped by gender, race, ethnicity and social class is addressed, as well as policies pertaining to the adult population. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5290. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Spring.

SOCY 4340 - Juvenile Delinquency (3 Credits)

Factors involved in delinquent behavior. Problems of adjustment for delinquents, and factors in treatment and post-treatment adjustment. Major theories covered include strain theory, social learning theory, control theory, and labeling theory. Course also reviews methods for testing these theories. Prereq: junior standing or higher or permission of the instructor. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Spring.

SOCY 4440 - Poverty and Social Inequality (3 Credits)

Investigates the distribution of wealth, income, and economic power in the United States with a focus on social institutions and factors that shape inequality. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5440. Term offered: spring. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Spring.

SOCY 4460 - Hate Groups and Group Violence (3 Credits)

Social sciences help us understand the phenomena of hate groups and group violence and contribute toward their elimination. Examples are examined using theoretical perspectives on different levels of analysis and within different areas of research. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5460. Term offered: fall. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher
Typically Offered: Fall.

SOCY 4590 - Crime, Justice, and the City (3 Credits)

In this course, we will ask why inequality, crime, and police are unevenly spread across cities. We will examine why crime varies by neighborhood, whether place-based policing is racially biased, and why prisons are filled with people from just a few zip codes. We will study racial and economic segregation, gentrification, white flight, and suburbanization in the context of criminal justice. Spatial analysis is a growing field combining geography, sociology, and criminology. We will study it by reading cutting-edge researchers who use mapping, interviews, statistical analysis, and ethnography. Restriction: Restricted to students with Junior standing or higher or with instructor permission. Cross-listed with SOCY 5590. Max hours: 3 Credits. Grading Basis: Letter Grade
Prereq: junior standing or higher

SOCY 4610 - Sociology of Religion (3 Credits)

This course introduces students to the nature and functions of religion in society, emphasizing western religions in the U.S. Students will develop and apply an understanding of classic and modern sociological theories of religion to current events and disciplinary developments. Cross-listed with SOCY 5610, RLST 4020, RLST 5020. Prereq: junior standing or higher or permission of instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4640 - Sociology of Childhood and Adolescence (3 Credits)

An in-depth overview of the theories and research regarding the life course understanding of infancy, childhood and adolescence. Children's lives and cultures in relation to adults and their transition from childhood to adolescence are studied. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5640. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

SOCY 4650 - Sociology of Adulthood and Aging (3 Credits)

Examination of the adult life course—post-adolescence to death, focusing on key social transitions of adulthood (e.g., independence from parents, marriage, retirement), and historical, institutional, and social factors that create variation in their timing, meaning, and individuals' role experiences. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5650. Term offered: spring. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4690 - Crime and Inequality Over the Life Course (3 Credits)

Life-course perspective on inequality and crime. Studies transitions, trajectories and turning points as key features of the life course. Considers how inequalities and criminal behavior are shaped by timing of experiences, historical and geographic contexts, others' lives, and human agency. Restriction: Restricted to Graduate and Graduate Non-Degree majors. Cross-listed with SOCY 5690. Term offered: fall. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Graduate and Graduate Non-Degree Majors

Typically Offered: Fall.

SOCY 4700 - Sociology of Law (3 Credits)

Consideration of the formulation, interpretation, and legitimacy of legal rules within the context of social organization. The examination of a major social institution in modern society. Prereq: junior standing or higher or permission of instructor. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4740 - Courts & Society (3 Credits)

Courts are a centerpiece of modern legal systems that mediate social relationships and people's relationship to the state. This course explores the connection between courts and democratic society by considering the operation and evolution of courts in the U.S. Cross-listed with SOCY 5740. Restriction: Restricted to Junior standing or above. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Spring.

SOCY 4770 - Advanced Topics in Sociology (1-3 Credits)

Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5770. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

SOCY 4774 - Advanced Topics in Sociology (3 Credits)

Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: Junior standing or permission of the instructor. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

SOCY 4780 - Violence in Relationships (3 Credits)

Course focuses on the study of violence among individuals involved in intimate relationships; factors in society such as norms, laws and institutions that are related to creating violence among intimates; and social policies, prevention, intervention and treatment programs. Prereq: junior standing or higher or permission of instructor. Cross-listed with SOCY 5780, WGST 4780 and WGST 5780. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall.

SOCY 4830 - Senior Capstone: Worklife Practices & Policies (3 Credits)

Introduces students to tools and develops skills to facilitate internship and job search. Students gain understanding of work contexts, exploring employment laws and policies, dynamics of race and gender in job searching, and research on careers and job negotiation. Prereq: Must have earned a minimum of 75 credits. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SOCY 4840 - Independent Study: SOCY (1-3 Credits)

Prereq: junior standing or higher or permission of instructor. Repeatable.

Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Prereq: junior standing or higher

SOCY 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Prereq: junior standing or higher. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: junior standing or higher

SOCY 4910 - Research Practicum (1-6 Credits)

Practical experiences for undergraduates in application of principles of research design and data processing to a social research problem selected by the instructor. Prereq: junior standing or higher or permission of instructor. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Prereq: junior standing or higher

SOCY 4995 - Global Study Topics (3-6 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Department consent required. Repeatable. Max hours: 12 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 12.

Spanish (SPAN)

SPAN 1000 - Introduction to Cultures of the Spanish Speaking World (3 Credits)

Introduces students to the Spanish-speaking cultures of Spain, Latin America, and the United States through a historical overview and a focus on contemporary politics and culture. Note: Taught in English. Term offered: fall, spring, summer. Max hours: 3 Credits. GT: Course is approved by the Colorado Dept of Higher Education for statewide guaranteed transfer, GT-AH4

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Humanities; GT courses GT Pathways, GT-AH4, Arts Hum: Foreign Languages. Typically Offered: Fall, Spring, Summer.

SPAN 1010 - Beginning Spanish I (5 Credits)

Introduces basic Spanish pronunciation and grammar, useful vocabulary and idioms. Readings and class discussions relating to the Hispanic world. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment.

Term offered: fall, spring, summer. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SPAN 1011 - Intensive Spanish (5 Credits)

SPAN 1011/1021 combines both semesters of the first year, and meets the needs of highly motivated students of the language and culture. Note: Students who have studied Spanish previously should not enroll in SPAN 1011/1021 without first consulting a department advisor. Cross-listed with SPAN 1021. Term offered: summer. Max hours: 5 Credits. Grading Basis: Letter Grade Typically Offered: Summer.

SPAN 1020 - Beginning Spanish II (5 Credits)

(Continuation of SPAN 1010.) Further development of listening, speaking, reading and writing skills. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed SPAN 1010 or equivalent, or have taken one year of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 1010 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall, spring, summer. Max hours: 5 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SPAN 1021 - Intensive Spanish (5 Credits)

SPAN 1011/1021 combines both semesters of the first year, and meets the needs of highly motivated students of the language and culture. Note: Students who have studied Spanish previously should not enroll in SPAN 1011/1021 without first consulting a department advisor. Cross-listed with SPAN 1011. Term offered: summer. Max hours: 5 Credits. Grading Basis: Letter Grade

Typically Offered: Summer.

SPAN 1070 - Spanish Medical Conversation for Beginners (3 Credits)

SPAN 1070 is a beginner's Spanish class designed to help a variety of medical personnel and students, who don't have a previous knowledge of the Spanish language, to improve their communication with their Spanish speaking patients or clients. It involves learning and practicing basic and essential conversation such as greetings, asking information during medical visits or emergency care, giving recommendations, speaking about medical records and other health related issues. The class requires weekly practice of fundamental medical interviews in Spanish, while improving general fluency and cultural competence

Grading Basis: Letter Grade

SPAN 1071 - Spanish Medical Conversation for Beginners II (3 Credits)

This course seeks to enhance the communication between healthcare professionals and their Spanish speaking patients or clients. It entails practice of the medical interview, while improving linguistic and cultural competence. The objectives of this course are to enhance competency in speaking, reading, listening and writing; and to develop a broad knowledge of Hispanic culture, all within the field of Healthcare Studies. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

Typically Offered: Fall.

SPAN 1995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Repeatable. Max hours: 15 Credits. Grading Basis: Letter Grade Repeatable. Max Credits: 15.

SPAN 2110 - Second Year Spanish I (3 Credits)

Continues the development of skills acquired in 1010 and 1020. Readings deal with Hispanic culture and current topics from Spain and Latin America. Development of informal oral and written expression. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed SPAN 1020 or equivalent, or have taken two years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 1020 is recommended for success in this course. This course is not intended for native speakers. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SPAN 2120 - Second Year Spanish II (3 Credits)

Continues the development of skills acquired in SPAN 1010, 1020 and 2110, together with a review of grammar. Readings deal with Hispanic culture and literature. Development of informal oral and written expression. SPAN 2120 satisfies the fourth-semester language requirement at most graduate schools. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Note: This course assumes that students have passed SPAN 2110 or equivalent, or have taken three years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2110 is recommended for success in this course. This course is not intended for native speakers. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPAN 2130 - Current Topics in the Spanish-Speaking World (3 Credits)

A fourth-semester course (parallel to 2120) designed for students majoring or minoring in international affairs, but open to anyone wishing to continue the study of Spanish beyond 2110. Along with development of language skills and grammar review, class work involves contemporary topics in cultural, political, economic and social affairs. Note: This course assumes that students have passed SPAN 2110 or equivalent, or have taken three years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2110 is recommended for success in this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Sophomore standing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Restriction: Sophomore standing or higher.

SPAN 2995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

SPAN 3010 - Spanish Composition I (3 Credits)

Expansion and reinforcement of oral and written skills in Spanish at an advanced level, in a broad cultural context. Oral activities are individual and in groups. Topics are introduced through oral activities, and are then used for written assignments. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. Term offered: fall, spring, summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring, Summer.

SPAN 3020 - Spanish Composition II (3 Credits)

(Continuation of SPAN 3010.) Development of oral and written skills in Spanish in preparation for taking other advanced courses. Topics of increasing complexity are selected from current publications in Spanish. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course.

Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3025 - Writing for Latinos (3 Credits)

Writing class for students who grew up speaking Spanish, especially those who grew up in the United States. Focuses on different types of formal writing, spelling, difficult grammar points and writing as a process.

Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3026 - Writing for Latinos II (3 Credits)

This course is a continuation of SPAN 3025 (Writing for Latinos) designed for heritage speakers of Spanish, that is, for students who grew up in the United States and have learned Spanish at home. The goal for this course is to continue the development of the student's bilingual range to achieve communicative, linguistic and sociolinguistic competence in speaking, listening, reading and writing Spanish. Special emphasis will be given to grammar, appropriate vocabulary for formal registers, and academic writing of increased complexity. Students' work involves reading, composing, writing and proof reading different type of essays on topics related to students' cultural background, the Spanish speaking world, and Spanish for academic purposes. A multi-faceted approach to the language will help the student continue to gain a solid grasp of the Spanish language and all of its varieties and awareness of the diversity of the Hispanic communities both here in the US as well as in the Spanish speaking world. Recommended preparation: Completion of SPAN 2120 with a C or higher or consultation with an advisor in the CU Denver Department of Modern Languages or the instructor of record, for placement. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 3030 - Spanish Oral Proficiency (3 Credits)

This course is designed to help students acquire an "Intermediate High" level of proficiency in speaking and understanding spoken Spanish. The course uses real-world topics to help students improve their fluency and confidence in spoken Spanish, through content-based discussions in small groups and a focus on in-context vocabulary, pronunciation, and grammar. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. This course is not intended for native speakers of Spanish. Heritage Spanish speakers must meet with the instructor to determine eligibility for this course. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Restriction: Restricted to SPAN-BA or SPAN-MIN students within the College of Liberal Arts and Sciences. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to SPAN-BA or SPAN-MIN students within the College of Liberal Arts and Sciences

Typically Offered: Fall.

SPAN 3050 - Advanced Spanish Grammar (3 Credits)

A close study of the structure of the language and practice in its written use. Note: Recommended for those intending to teach Spanish at the secondary level. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPAN 3060 - Spanish Phonetics and Pronunciation (3 Credits)

Explores the phonetics of spoken Spanish including the classification of Spanish sounds and variation throughout the Spanish-speaking world. Provides techniques and strategies for English speakers learning to pronounce Spanish and for Spanish learners, heritage and native speakers interested in teaching Spanish. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3101 - Introduction to the Study of Literature (3 Credits)

The basic terms and skills needed to analyze both the themes and form of literary works, together with an introduction to research skills. All literary examples come from Hispanic literature. Note: SPAN 3252 is a prerequisite (previous or concurrent) to all other literature courses taught in Spanish. Note: This course assumes that students have passed SPAN 2120 or 2130 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 or 2130 is recommended for success in this course. This course is a prerequisite/corequisite for all other literature courses taught in Spanish. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3199 - Topics in Spanish Literature (3 Credits)

Varying topics in Hispanic literature appropriate the 3000 level, not otherwise covered by regular courses. Note: Taught in Spanish for major and minor credit. May be taken more than once, provided that the topic is different each time. Prereq or Coreq: SPAN 3101. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq or Coreq: SPAN 3101

SPAN 3212 - Spanish American Culture and Civilization (3 Credits)

Surveys the social, political, economic, religious, literary, and artistic life of Spanish America from the conquest to the present. Note: Taught in Spanish for major and minor credit. A grade of C- or higher in SPAN 2120 is recommended for success in this course. SPAN 3700 desirable. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3730 - Special Topics in Spanish for the Professions (3 Credits)

Variable topics in Spanish for the Professions not otherwise covered in regular course offerings. Note: May be taken more than once, provided that the topic is different each time. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: spring, fall. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Typically Offered: Fall, Spring.

SPAN 3740 - Spanish for the Healthcare Professions I (3 Credits)

This course seeks to enhance the communication between healthcare professionals and their Spanish speaking patients or clients. It entails practice of the medical interview while improving linguistic and intercultural competence. Cross-listed with SPAN 5740. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3750 - Spanish for the Healthcare Professions II (3 Credits)

SPAN 3750 is a continuation of SPAN 3740. Students will continue to enhance the communication between healthcare professionals and their Spanish speaking patients or clients. It entails practice of the medical interview while improving linguistic and intercultural competence. Cross-listed with SPAN 5750. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3782 - Introduction to Translation I (3 Credits)

The first course in a two-semester sequence that introduces the methodology and practice of written translation. Thorough analysis of source texts precedes translation into target language. Students must demonstrate third-year competence in Spanish and advanced writing skills in English. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 3792 - Introduction to Translation II (3 Credits)

Second course in a two-semester sequence (see SPAN 3782). Note: This course assumes that students have passed SPAN 2120 or equivalent, or have taken four years of high school Spanish, or possess equivalent proficiency. A grade of C- or higher in SPAN 2120 is recommended for success in this course. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

SPAN 3840 - Independent Study: SPAN (1-3 Credits)

Repeatable. Department consent required. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

SPAN 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: students must work with the Experiential Learning Center advising to complete a course contract and gain approval. Prereq: Junior standing. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: junior standing or higher

SPAN 3995 - Global Study Topics (1-15 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Term offered: summer. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

Additional Information: Global Education Study Abroad.

Typically Offered: Summer.

SPAN 4010 - History of the Spanish Language (3 Credits)

Studies the history of the Spanish language, both internal and external, from the language's Latin roots to the present. Historical phonetics are emphasized, though all features of the language are discussed. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5010. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4020 - Spanish Sociolinguistics (3 Credits)

Studies the Spanish language in its social context. In addition to specific regional linguistic features, social factors such as geography, social class, politics, race, gender, economics, education and history are discussed as determiners of the linguistic landscape. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4030 - The Learning and Teaching of Heritage Speakers (3 Credits)

Studies Spanish heritage speakers (those who grew up in the US speaking Spanish at home), including characteristics of how they learn and best practices for teaching heritage speakers. Topics include definitions of heritage speakers, their strengths and weaknesses in learning Spanish, attitudes of and toward heritage speakers and other issues of social justice and equity for heritage speakers in the classroom. Practical component of materials analysis and development. Prereq: Students must have completed ANY 3000-level course in SPAN with a C or higher. Cross-listed with SPAN 5030. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Student must have completed ANY 3000-level course in SPAN with a C or higher.

Typically Offered: Fall, Spring.

SPAN 4040 - Spanish Classroom Methods and Practice (3 Credits)

Focuses on the second language learning and teaching of Spanish in a classroom context. Looks at topics including second language vocabulary, pronunciation, grammar, and types of feed back. Practical component of activity design and learning/teaching strategies. Prereq: Students must have completed ANY 3000-level course in SPAN with a C or higher. Cross-listed with SPAN 5040. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Student must have completed ANY 3000-level course in SPAN with a C or higher.

Typically Offered: Spring.

SPAN 4060 - Dialects of the Spanish-Speaking World (3 Credits)

Studies the geography of the Spanish language in those countries where it is spoken as a primary language. Includes a comparison of dialect features and a study of factors that contribute to the diversity of the Spanish language. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5060. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4070 - Spanish Second Language Acquisition (3 Credits)

Introduces the three main domains of language acquisition: vocabulary, grammar and pronunciation, along with the major second language acquisition theories. Students see the teaching and learning of these three domains in action through discussions of the findings and pedagogical implications of research. Practical component includes discussion of activities in the Spanish second language classroom and strategies for teaching and learning a second language. Prereq: Students must have completed ANY 3000-level course in SPAN with a C or higher. Cross-listed with SPAN 5070. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Student must have completed ANY 3000-level course in SPAN with a C or higher.

Typically Offered: Fall, Spring.

SPAN 4076 - Spanish in Colorado (3 Credits)

A study of the Spanish language in its social context in Colorado and New Mexico. We will study historical factors as well as current social factors that contribute to the use of the Spanish language in this region. Prereq: Students must have completed ANY 3000-level course in SPAN with a C or higher. Cross-listed with SPAN 5076. Term offered: summer. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Summer.

SPAN 4080 - Spanish in the United States (3 Credits)

A study of the Spanish language in its social context as a language of the United States. In addition to studying bilingualism and language traits, factors such as race, gender, class, education, nationality, age, generation and language attitudes are considered. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5080. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4099 - Special Topics in Linguistics (3 Credits)

Varying topics in Hispanic language and literature not otherwise covered by regular courses. Note: May be taken more than once provided that the topics are different each time. Note: This course may count for the International Studies major or minor. See your INTS advisor for more information. Prereq or Coreq: SPAN 3060. Cross-listed with SPAN 5099. Term offered: spring, fall. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq or Coreq: SPAN 3060

Typically Offered: Fall, Spring.

SPAN 4110 - Contemporary Spanish Literature (3 Credits)

Major works published since the Spanish Civil War, which ended in 1939. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5110. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4130 - Medieval Spanish Literature (3 Credits)

Examines Spanish literature from the jarchas and the Cid through the Celestina in the context of the reconquest. Considers the construction of the Christian knight as a hero and the corresponding representations of women, Jews and Muslims. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5130. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

SPAN 4150 - Masterpieces of Spanish Literature (3 Credits)

The most enduring works in the literature of Spain across the centuries. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5150. Term offered: spring, fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

Grading Basis: Letter Grade

Typically Offered: Fall.

SPAN 4691 - Methods of Teaching Modern Languages II (3 Credits)

A continuation of Methods of Teaching Modern Languages. This second course has an emphasis on the practical component of creating effective activities for the modern language classroom within a communicative language teaching framework. Students will learn about relevant linguistic theory in second language acquisition and will focus on experiential learning, creating activities, completing individual teaching demonstrations and carrying out classroom observations. This course is taught in English and does not fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences. Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690. Cross-listed with LING 4691, LING 5691, MLNG 4691, MLNG 5691, SPAN 5691, FREN 4691, FREN 5691, GRMN 4691, GRMN 5691, CHIN 4691, CHIN 5691. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: MLNG 4690 or SPAN 4690 or FREN 4690 or GRMN 4690 or CHIN 4690

Typically Offered: Spring.

SPAN 4840 - Independent Study: SPAN (1-3 Credits)

Repeatable. Department consent required. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

SPAN 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

SPAN 4970 - Special Topics in Literature (3 Credits)

Varying topics in Hispanic literature not otherwise covered by regular courses. Note: May be taken more than once, provided that the topic is different each time. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 5970. Term offered: spring, fall. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

Special Education (SPED)

SPED 1030 - Understanding (dis)Ability in Contemporary Classrooms (3 Credits)

This course provides an overview of special education by examining the history of special education, construction of dis/ability, characteristics of individuals with disabilities, aspects of disproportionality, and introduction to evidence-based instructional practices. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPED 1400 - Universal Design Learning (3 Credits)

This course will introduce Universal Design for Learning (UDL), an important, contemporary educational philosophy, a set of principles & techniques that focus on strategies and tools to help ALL students by accommodating their differences in inclusive classroom settings. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SPED 4010 - Intentional Interventions for Exceptional Learners (3 Credits)

This course provides instructional strategies and interventions for students with a wide variety of disabilities. Implications for targeted and intensive interventions and assessment are considered. Cross-listed with SPED 5010. Restriction: Professional Year Admission required. Max hours: 3 Credits

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4030 - Understanding (dis)Ability in Contemporary Classrooms (3 Credits)

This course provides an overview of special education by examining the history of special education, construction of dis/ability, characteristics of individuals with disabilities, aspects of disproportionality, and introduction to evidence-based instructional practices. Prereq or Coreq: EDHD3930 or ECED4933 or ECED4934. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: EDHD3930 or ECED4933 or ECED4934

SPED 4140 - Assessment: Inquiry, Instruction, & Intervention (3 Credits)

Using a variety of assessment tools, students will focus on the educational assessment methods and procedures used in decision making and program planning for students with exceptional learning needs, with attention to pervasive issues pertaining to students from culturally and linguistically diverse backgrounds. Cross-listed with SPED 5140. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4151 - Slashing Stigmas: Promoting Positive Behaviors (3 Credits)

This course works to transform perspectives and practices related to supporting student behavior in classrooms. Students will learn important considerations related to culture, race, gender and socioeconomic status, as they intersect with behavior and social emotional development.

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours or students in the Education Studies Minor. Cross-listed with SPED 5151. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours or students in the Education Minor EDST-MIN

SPED 4200 - Autism Spectrum Disorders (1 Credit)

The purpose of this academy is to provide the paraeducator with information and skills to assist paraeducators in the instruction of students with autism. It gives factual information to dispel the many myths that abound in this field and emphasizes the relationship between communication and behavior. It prepares paraeducators to make and use visual supports, to structure tasks and the environment and to provide appropriate supports for social skills instruction. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

SPED 4300 - Family, Professional, and Community Collaboration (3 Credits)

Focuses on the development of competencies in consultation and collaboration. The overall purpose is to encourage the development of understanding and skills that enhance a teacher's ability to work and communicate effectively with school personnel, including paraprofessionals and parents. The goal of collaboration is to support and determine together the instructional scenarios that best meet the needs of students. Specific competencies include problem solving, conflict resolution, data collection or observation skills, conferencing, facilitating meetings, and interacting with others while respecting diverse discourses and multicultural backgrounds. Cross-listed with SPED 5300. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor.

SPED 4400 - Universal Design for Learning (UDL) (3 Credits)

This course introduces Universal Design for Learning (UDL), an important educational philosophy and set of principles & techniques that focuses on strategies and tools to help ALL students by accommodating their differences in inclusive classroom settings. Cross-listed with SPED 5000. Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 27 and 180 cumulative credit hours or students in the Education Minor.

SPED 4500 - Transition and Secondary Methods in Special Education (3 Credits)

This course provides school leaders and practitioner with an understanding of the special education transition process as specified by federal and state guidelines, as well as effective teaching and learning strategies for secondary youth with disabilities. Cross-listed with SPED 5500. Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours, and Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours, and Professional Year Admission required.

SPED 4600 - Special Education Law: Ethics and Compliance (3 Credits)

Designed for school leaders and professionals to understand special education law and compare and contrast service delivery options. Cross-listed with SPED 5600. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPED 4710 - Significant Health Support Needs Academy (1 Credit)

Intends to prepare paraeducators with knowledge and skills needed for working with children with significant health support needs. Consisting of seven modules of varying length, this 15 clock hour academy focuses on training both the health aid and the significant health support needs professional. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4720 - Significant Supports for Challenging Behavior Academy (1 Credit)

This academy provides the paraeducator with the knowledge and skills needed for working with children who have significant behavior needs. The academy focuses on working with students who have challenging behaviors. The aim is to provide paraeducators with the basic understanding of behavior support and to provide them with the necessary skills to implement written behavior support plans. It is recommended that paraeducators complete the Behavior Management Academy prior to taking this course. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4730 - Significant Communication Support Needs Academy (1 Credit)

This academy provides the paraeducator with the knowledge and skills needed for working with children who have significant behavior needs. The academy focuses on working with students who have challenging behaviors. Its aim is to provide paraeducators with a basic understanding of behavior support and to provide them with the necessary skills to implement written behavior support plans. It is recommended that paraeducators complete the Behavior Management Academy prior to taking this course. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4740 - Intersections of Literacy, Culture, & Exceptionality (3 Credits)

This course provides a foundational understanding of the complex intersections between literacy, culture, language, learning, and students with (dis)abilities. A primary goal is to address the particular needs of culturally and linguistically diverse learners with exceptionalities, while also exploring the distinctions between language development and learning disabilities. Cross-listed with SPED 5740. Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in Education and Human Development with between 57 and 180 cumulative credit hours

SPED 4750 - Orientation to Special Education (1 Credit)

This 15 clock hour academy is designed to provide a basic introduction to special education and the needs of students who have disabilities. It includes introductory material regarding legal and historical foundations of special education, human growth and development, the nature of disabilities, and an introduction to the basic human needs that must be addressed. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4780 - Literacy Intervention for Exceptional Learners (3 Credits)

Provides the practitioner with an understanding of research-validated approaches, strategies, assessment tools and issues related to effective literacy instruction for students performing significantly below grade level. Cross-listed with SPED 5780. Max hours: 3 Credits.

Grading Basis: Letter Grade

SPED 4800 - Orientation to Early Intervention Services (1 Credit)

This academy provides Developmental Intervention Assistant (DI Assistant) an introduction to early intervention services under IDEA. Material regarding legal and historical foundations, human growth and development, and the nature of disabilities and their impact on infants and toddlers are introduced. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4805 - Fundamentals of the IFSP Process (1 Credit)

This academy provides Developmental Intervention Assistants an overview of the Individualized Family Service Plan (IFSP). It clarifies their role in the implementation of IFSP and also knowledge about the evaluation and assessment components of the IFSP process. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4810 - Early Intervention Teamwork (1 Credit)

This academy is designed for Developmental Intervention Assistants (DI Assistants) to work effectively in Early Intervention teams. Introductory materials regarding teamwork, delineation of DI Assistants' and supervisors' roles and responsibilities as well as family centered practices are addressed. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4815 - Working with Families (1 Credit)

This academy provides the Developmental Intervention Assistant with information and skills to create and support Family Centered Practices. Focus on the concept of family and the impact of disability on the family is woven throughout the course. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4820 - Instructional Strategies for Early Intervention (1 Credit)

This academy assists the Developmental Intervention Assistant in examining the types of instructional strategies used in the Early Intervention programs. Focus is on building relationships, promoting engagement, and instructional support specifically in collecting data for the supervisor and IFSP team. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4825 - Promoting Social Emotional Development (1 Credit)

This academy focuses on the importance of infant/toddlers' social emotional development and support. The CSEFEL Pyramid Model, adapted for this course, is a conceptual framework of evidence-based practices addressing the promotion of social emotional development in early intervention programs. Max hours: 1 Credit.

Grading Basis: Letter Grade

SPED 4830 - Health Support Needs in Early Intervention (1 Credit)
This academy provides the DI Assistant with information and skills to support the health services related to the early intervention programs. Safety awareness and precautions are stressed as related to caring for infants/toddlers in their home and natural environments. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4835 - Language and Early Literacy Development (1 Credit)
This academy is designed for Developmental Intervention Assistant (DI Assistant) to work effectively with families as they support the early language and literacy development of their infants and toddlers with communication challenges. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4840 - Communication Support Needs Early Intervention (1 Credit)
This academy provides the Developmental Intervention Assistant with information and skills to learn characteristic language patterns for infants and toddlers. Focus on critical importance of child interactions as well as key intervention communication strategies for infants and toddlers. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4845 - Individualized Intervention Infants/Toddlers (1 Credit)
This academy, adapted from CSEFEL, introduces Developmental Intervention Assistants (DI Assistants) to basic knowledge of infants/toddlers with challenging behaviors. It provides necessary skills to implement written behavior support plans based on the IFSP under the supervision of Early Intervention professionals. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4850 - Transition to Age 3 (1 Credit)
This academy assists the Developmental Intervention Assistant in learning the elements of transition from Part C to Part B including the difference between an IFSP and IEP. Focus on the cultural and transition issues for the toddler and the family. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4855 - Interpersonal Skills for DI Assistants (1 Credit)
This academy provides the Developmental Intervention Assistant effective interpersonal skills necessary to work with Early Intervention teams. It addresses issues of diversity based on culture, experience, gender, etc. and examines the DI Assistants' roles in each aspect of the topics. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4860 - Personal Growth Development for DI Assistants (1 Credit)
This academy provides the Developmental Intervention Assistant with information and skills to identify and expand personal growth and improvement skills working in Early Intervention programs. The course covers stress-management strategies and uses creativity and flexibility in dealing with problematic situations. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4865 - Instructional & Assistive Technology in EI (1 Credit)
This academy assists the Developmental Intervention Assistants in examining various types of instructional and assistive technology used in early intervention programs. Focus is on technology used in the home and other natural environments to assist the infant/toddler and the family. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4870 - Autism Spectrum Disorder in Early Intervention (1 Credit)
This academy provides Developmental Intervention Assistants with information to assist the Early Intervention Professionals to implement instructions for infants/toddlers identified with autism. It offers participants knowledge of structured tasks environmental adaptations, and appropriate social skills for the infant/toddler and family. Max hours: 1 Credit.
Grading Basis: Letter Grade

SPED 4910 - Special Education Generalist Internship and Site Seminar I (1-8 Credits)
Special education teacher candidates engage in systematic observation of, participation in, design of and reflection on inclusive curricular, instruction and management practices. Graduated learning activities for each internship and time requirements are specified in the School Internship handbook and the Special Education Guidelines. In partner school, the site coordinator and site professor are responsible for coaching, supervision and site seminars. In internship outside partner school settings, cooperating teachers, district coordinators and/or university professors work with teacher candidates in the classroom and in seminars. Prereq: Completion of special education core or permission of instructor and advisor. Admission into the IPTE Program. Cross-listed with SPED 5910. Repeatable. Max Hours: 8 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 8.

SPED 4915 - Practicum For Developmental Intervention Assistant (2 Credits)
The Developmental Intervention Assistant will engage in systematic observation of, and participation in the delivery of early intervention services. Practicum Instructor will observe, coach and assess as per the performance criteria required for completing the DI Assistant portfolio. Prereq: SPED 4800, 4805, 4810, 4815, 4820, 4825, 4830, 4835, 4840, 4845, 4850, 4855, 4860, 4865, & 4870. Repeatable. Max Hours: 9 Credits.
Grading Basis: Letter Grade
Repeatable. Max Credits: 9.

SPED 4919 - CO-TOP Practicum (1-2 Credits)
The paraeducator engage in systematic observation of, and participation in instruction of management practices. The learning activities for each practicum are specified in the CO-TOP Practicum handbook and information sheet. Cooperating teachers, district coordinators and/or university-based supervision observe paraeducators in the classroom. Prereq: Completion of CO-TOP academies or permission of the CO-TOP Coordinator. Max hours: 2 Credits.
Grading Basis: Letter Grade

SPED 4931 - Internship & Learning Community I (2 Credits)
SPED 4931 is the first internship in a series of three completed during the professional year of the SPED program providing the necessary learning opportunities for candidates to gradually develop their practice to be licensed as a special education teacher. Restriction: Professional Year Admission required. Max hours: 2 Credits.
Grading Basis: Letter Grade
Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4932 - Internship & Learning Community II (2 Credits)

SPED 4932 is the second internship in a series of three completed during the professional year of the SPED program providing the necessary learning opportunities for candidates to gradually develop their practice to be licensed as a special education teacher. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4933 - Internship & Learning Community III (6 Credits)

SPED 4933 is the final internship in a series of three completed during the professional year of the SPED program providing the necessary learning opportunities for candidates to gradually develop their practice to be licensed as a special education teacher. Restriction: Professional Year Admission required. Max hours: 6 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

SPED 4934 - Extended Internship & Learning Community (1-8 Credits)

Teacher candidates seeking Special Education licensure engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, they participate in the activities of a professional learning community. Repeatable. Cross-listed with SPED 5934. Max hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Sustainability (SUST)

SUST 3010 - Sustainability: Past, Present, and Future (3 Credits)

This course draws on theoretical perspectives to critically analyze contemporary environmental issues across ecological, sociocultural, historical, political and economic contexts. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

SUST 3011 - Toward a Sustainable Future (3 Credits)

This is the second of a two-course sequence that examines the interrelations among the historical, political, cultural, ecological, and economic aspects of contemporary environmental issues. SUST II provides students with theoretical perspectives on sustainability through a series of current, problem-oriented case studies. Note: this course assumes that students have completed 1 Natural Science Core course and 1 Social Science Core course. Max hours: 3 Credits.

Grading Basis: Letter Grade

SUST 3840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

SUST 3939 - Internship (1-3 Credits)

This course will provide internships with agencies, businesses and programs involved in initiatives aimed at promoting a sustainable future. Internships could include work with concerns involved in addressing specific environmental issues or with projects aimed at raising awareness of issues related to sustainability. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

Typically Offered: Fall, Spring, Summer.

SUST 4840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: permission of instructor required. Term offered: fall, spring, summer. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Typically Offered: Fall, Spring, Summer.

SUST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Term offered: fall, spring, summer. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Typically Offered: Fall, Spring, Summer.

SUST 4960 - Capstone in Sustainability (3 Credits)

As the culmination of the Sustainability Minor, this course examines current research practices in sustainability and sustainability-related fields. Students work in teams to complete a sustainability/sustainability-related research paper and poster and present it to the campus community. Note: Topics variable depending on region under study, student interest, and faculty specialty. Prereq: SUST 3011. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: SUST 3011

Typically Offered: Fall.

SUST 4995 - Global Study Topics (1-9 Credits)

This course is reserved for CU Denver faculty-led study abroad experiences. The course topic will vary based on the location and course content. Students register through the Office of Global Education. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

University Honors and Leadership (UNHL)

UNHL 1100 - The Life of the Mind (3 Credits)

The UNHL program was developed with the goal of creating academics with leadership skills to communicate their ideas and strong leaders with the ability to think critically, analyze issues from alternate perspectives and develop and communicate plausible solutions that take into consideration all points of view; the ideal end result of the program would be intelligent, ethical leaders and scholars in multiple fields of endeavor. The three areas around which the course will revolve are: a) Oil, b) Robots, c) Penicillin. Each of these topics allows multiple facets of a university education in the old sense to be explored from philosophy, history and art to chemistry, physics and engineering. There will be multiple means of exploration for each of these topics, from lectures and in-class discussions to field trips and engagement activities; there will be writing assignments in every phase that will focus on writing skills and writing for different audiences. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 2755 - First Year Seminar (1 Credit)

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Repeatable. Term offered: fall, spring. Max hours: 4 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 4.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

Typically Offered: Fall, Spring.

UNHL 2840 - Independent Study (1-6 Credits)

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 2850 - Faculty-Mentored Research (1-6 Credits)

UNHL student research conducted under the supervision of UC Denver faculty. Prereq: Permission of sponsoring faculty mentor and UNHL Director. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 2939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Cumulative GPA of 3.0 or above and permission of UNHL Director/Associate Director. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3010 - Leadership Behavior: Historical and Contemporary Perspectives (3 Credits)

This course will provide students with an opportunity to integrate historical and contemporary issues in the study of leadership behavior. The course is based on leadership research and writing that reveals the leader as facilitator, collaborator, servant, and follower. The course will provide students with an opportunity to reflect, discuss, and write on topics and questions related to leadership and followership behavior.

Prereq: UNHL 1100. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3100 - Ethics & Leadership: An Introduction (3 Credits)

This one-semester ethics and leadership course will introduce students to the wide variety of some of the best leadership theories and their application to current ethical issues. Prereq: UNHL 1100. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3110 - Leadership, Communication, and Conflict (3 Credits)

Leaders spend a significant amount of time managing conflict. This course is designed to explore the practical and theoretical basis of conflict and communication, and seeks to examine critical leadership processes that lead to the increased likelihood of organizational survival through successful conflict management. Prereq: UNHL 1100. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3150 - Negotiation, Bargaining, and Leadership (3 Credits)

This course integrates leadership theory and practice within a principled negotiation philosophy. Students will develop lifelong negotiation skills that reflect a principled negotiation framework for conflict management and strategic bargaining. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3170 - Anti-Transgender Legislation, Critical Race Theory, and the Future of U.S. Democracy (3 Credits)

Since 2020 transgender people in the United States have been experiencing unprecedented political efforts to restrict their rights and participation in public life. In 2022 alone, over 150 bills have been introduced across the country with the aim of restricting trans people's – especially trans youth's – ability to play sports, use bathrooms, and/or receive gender-affirming health care, as well as laws restricting discussion of gender and sexual identity in schools. At the same time, we are witnessing attacks on critical race theory, reproductive, voting, and immigration rights, as well as on the very institutions of U.S. democracy as evidenced by the January 6 Capitol riots. In this discussion-based course, we will investigate simple, yet pressing questions: Why has there been such an increase in anti-trans legislation in the past few years? What relationship might this new surge in anti-trans legislation have to attacks on the rights of other marginalized populations? How has this legislation been framed, responded to, and challenged? To examine these questions, we will engage with a range of interdisciplinary scholarship from critical media, cultural, queer, transgender, ethnic, and surveillance studies. Students will develop their own voice on these issues by creating a final public-facing multi-media project, for example, in the form of a podcast, zine, or video. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3310 - Innovation, Cutting-Edge Knowledge, and Self-Guided Learning (3 Credits)

The purpose of this course is to familiarize students with cutting-edge knowledge in major scientific and technological fields, against the background of cultural and artistic creativity, and to establish habits of lifelong, self-guided learning. To enhance this process, relevant faculty will be invited to speak about innovation in their field, both in class and during the planned panel discussion. Prereq: UNHL 1100 and second- or third-year status in the UNHL program. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3501 - Love and Death in the Greek Classics (3 Credits)

This course introduces students to classical Greek literature, focusing on love and death in Homeric epic, lyric poetry, tragic drama, the history and social science of Thucydides, the comedies of Aristophanes, and Plato's philosophical dialogues. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3503 - Ethics, Academic Integrity, and Social Responsibility (3 Credits)

This course combines research and class discussions in such a way that theories, viewpoints, and practical proposals regarding ethics and its application to intellectual responsibility are understood in their own right as well as in relation to other human activities. One daunting task will be facing up to the challenge of how to use the increasingly powerful information tools provided by universities. In the last third of the semester, students will be asked to work in teams on projects dealing with current ethics controversies. Prereq: UNHL 1100; not open to students who have taken UNHL 3100. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3504 - Representation and Transformation in Young Adult Fiction and Pop Culture (3 Credits)

Popular culture is transformative, and the stories you read and see when young can profoundly impact a reader's view of the world around them. At its best, Young Adult (YA) books and media challenge, enlighten, and inform the reader while simultaneously entertaining and engaging them. At its worst, YA literature and media reinforce stereotypes or ignore some groups entirely. This course will explore the transformation in how books and pop culture for young adults have been written and produced over the last 60 years. We will examine changing representations of characters, particularly around race, ethnicity, gender, class, and sexuality, how the problems these characters face have come to more realistically reflect the lived experiences of the readers, viewers, and consumers, and how changes in society have driven this transformation in YA books and media. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). \ Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

Typically Offered: Fall, Spring.

UNHL 3530 - Making the Modern Environment (3 Credits)

Delve into how human societies have shaped the natural world. Interdisciplinary course asks how a distinctly modern environment was produced and discusses the origins of the contemporary environmental crisis. Analyzes historical contexts and scientific developments that have refashioned landscapes, altered human and ecological systems, and deeply affected ways of knowing and understanding environmental change. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3532 - Digital Democracy (3 Credits)

Digital information and communication technologies impact how societies govern themselves by structuring social interactions, communications, and decision-making. Ideally, in a democratic society, digital technologies should facilitate citizens' participation in government and governments' service to its citizens. This course explores questions about the compatibility of digital technology with democratic principles. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

Typically Offered: Fall.

UNHL 3544 - Sex, Drugs, and Sports (3 Credits)

There is an inherent conflict between the expectation that elite athletes will utilize every available resource to "be the best" and the underlying expectation that sport provide a "fair playing field" and that good sportsmanship should prevent "cheating." #This course explores the history of elite athletes' use of performance enhancing substances, the science behind their use and the never-ending quest to identify athletes using them, the media's portrayal of athletes accused of their use, the sociology and ethical drivers behind why we care if athletes use them, and how the politics and policy decisions governing their use are influenced by cultural perceptions of nationality, race, and gender. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3550 - 'To Change the Way That They Live': Military Occupation in Theory and Practice (3 Credits)

Military occupations are rarely about the mere control of territory; they often support sociopolitical projects such as colonialism, nation-building, and the extension of forms of governance (democracy, theocracy, communism, etc.). Using the tactics of occupation to accomplish these ends has been controversial, animating debates within multiple fields and within and between multiple societies. This course explores these debates, adopting an interdisciplinary and comparative approach to the theories and practices of military occupation. The course will examine several occupations from the early nineteenth century through the United States occupations of the twenty-first century. Through selected case studies, the course will engage a wide range of views, considering both occupier and occupied, and several disciplinary perspectives. Restriction: Current UNHL or UHLT students in good standing. Max Hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3615 - How to Science (3 Credits)

What do scientists do all day? This seminar will turn the analytic lenses of science onto science itself. We're going to see how scientists have studied scientists and the practice of science. This will help us to better understand why science works the way it does, is structured the way it is, and why those questions matter. We'll engage with the history, philosophy, and sociology of science, and how those perspectives have been combined into modern approaches of "science and technology studies" (STS). We will address the theoretical bases and justifications for our current system, the pragmatic details of everyday practice, and several examples of how those have played out. Restriction: Current UNHL or UHLT students in good standing with the Honors Program. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3620 - Migration, Modernity, and Literacy (3 Credits)

An examination of the causes, consequences, difficulties, and enduring problems of migration in contemporary global society. Political, legal, and educational problems of modernity and mass migration are analyzed. Course work includes social scientific research into historical and contemporary migration flows. Prereq: UNHL 1100. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3630 - Migration and Development (3 Credits)

The impact on societies across the globe of a record 214 million-plus migrants living outside of their countries of birth. An interdisciplinary overview of the historical roots, causes, and consequences in receiving and sending nations of contemporary international migration flows. Topics include brain gain and brain drain, gender differences, immigrant diasporas, remittances, acculturation, circular migration illegal immigrant flows, and transnational human trafficking. Focus on experiences in North America, Europe, the Middle East, and Southeast Asia. Students will have the opportunity to compare and contrast immigrant communities in the Denver region. Prereq: UNHL 1100. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3755 - Honors and Leadership Seminar (1 Credit)

This course provides students in UHL with an overview of concepts and practices core to critical and creative thinking, tools for effective written and oral communication, and an introduction to key themes across diverse topics and multiple disciplines. Restriction: Must be admitted to the University Honors and Leadership Program. Repeatable. Max hours: 2 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 2.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3816 - Ethical Problems with Emerging Technologies (3 Credits)

This course identifies a number of the emerging technologies across various industries and disciplines, and seeks to understand the technologies and its practical applications in the real world, as well as any additional potential utilizations. It then explores the potential ethical challenges for both the developer and the industry, as well as for the nation in which it is developed, the U.S. and the world. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3818 - Artificial Intelligence & You (3 Credits)

This is a strange time to be a college student. While you are studying to develop expertise around your chosen major, so-called intelligent machines are also being trained to do knowledge work in your field. AI technologies are quickly gaining a capacity to analyze data, recognize patterns, issue recommendations, make decisions, and take actions—and many organizations are now entrusting these systems to perform cognitive tasks alongside professionals in various domains. Such advancements often inspire worries about the fate of humanity. In this course, however, we will regard the rise of AI as an occasion to reassess (and celebrate) the unique qualities that distinguish human experiences from computational models. Guided by four books and four films, as well as current articles driving the AI debate, we will reflect deeply together on four big questions: (1) What exactly is “artificial intelligence” and where is it headed? (2) How does AI compare and contrast with different modes of human intelligence? (3) What are the inherent risks and potential dangers that AI technologies entail?, and (4) How might you best pursue your passions in a highly automated, AI-laden society? Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3827 - American Music, American Culture: Folk, Roots, and the Blues (3 Credits)

Explores 20th-century American history, integrating a multiplicity of cultural perspectives, regional identities, and musical events and personalities. We will explore the relatively recent history of race relations in this country, as well as cultural policies and changemakers throughout the development of the modern music industry. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3830 - Jazz in American Culture (3 Credits)

This class will explore the influence of jazz music (and related forms like ragtime and the blues) on American culture more generally. Specific topics to be explored include the Post-Reconstruction Race Politics, the Delta and the Great Migration, New Orleans, and the Harlem renaissance. Important figures of African-American literature, and Jazz & the Blues music will also be presented. Students will examine a multitude of literary and musical experiences through novels, short works, biographies, and listening. Prereq: UNHL 1100. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3837 - Representing Community in Literature, Drama, and Film (3 Credits)

This writing intensive course examines several artistic genres that illustrate and interrogate notions of community. Communities may include family, utopias, military, or towns, and students will be required to identify and investigate a community of their choosing. Community in the classroom is crucial to the class, and students will assign homework to each other in addition to presenting their work in class. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3839 - Athlete Activism in the US (3 Credits)

Activist athletes have worked for many decades to improve their sports, their countries, and their world. The risks they take are enormous and their personal rewards often minimal. This course will explore the history and culture of athlete activism as embodied in variety of struggles from access and labor conditions to health and safety within the sport to social justice in the world beyond. The course will consider the implications of the athletes' actions and evaluate the consequences.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3840 - Creativity and Social Change (3 Credits)

This course draws on historical cases and contemporary movements to examine the ways human creativity - broadly situated across artistic, scientific, and social activities - can foster social change. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3939 - Internship (1-3 Credits)

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Cumulative GPA of 3.0 or above and permission of UNHL Director/Associate Director. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Repeatable. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3995 - Global Study (1-4 Credits)

UNHL Academic Honors track and Leadership Studies track. Travel study, with location and topics to be selected by the instructor. Prereq:

UNHL 1100, 2755, and permission of the UNHL Director. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 3999 - Special Topics in Honors and Leadership (3 Credits)

Special Topics in the University Honors and Leadership Program.

Restriction: Must be a current University Honors and Leadership Program student, in good standing with the program. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 4420 - Health Behaviors, Markets, and Policy (3 Credits)

This course is focused on policies that affect the provision of health care, the consumption of health care, and health behaviors. Students will be exposed to research from a variety of disciplines on health care markets, the role of government, and the causes and consequences of risky health behaviors. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 4820 - Facts and Critical Thinking (3 Credits)

Intensive analysis of primary literature from across the sciences.

Students will expand their understanding and appreciation of the scientific method and develop the ability to critically analyze and evaluate experimental design in both scientific and social contexts. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 4840 - Independent Study (1-6 Credits)

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Repeatable. Max hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 4850 - Faculty-Mentored Research (1-6 Credits)

UNHL student research conducted under the supervision of UC Denver faculty. Prereq: Permission of sponsoring faculty mentor and UNHL Director. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT). Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT).

UNHL 4991 - Senior Research Seminar (3 Credits)

Students will work collaboratively using multi-disciplinary approaches to explore social problems and identify solutions. Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT) with Junior or Senior standing. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT) with Junior or Senior standing.

Typically Offered: Fall, Spring.

UNHL 4992 - Senior Seminar (1 Credit)

This seminar will allow students to work together to identify goals, skills, and accomplishments from their undergraduate educational experience.

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT) with Junior or Senior standing. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to students in the University Honors and Leaders Program (UNHL or UHLT) with Junior or Senior standing.

Typically Offered: Fall, Spring.

University Skills & Engagement (UNIV)

UNIV 1110 - College Success (1 Credit)

This first-year course supports students by fostering academic skills and strategies, university engagement, personal strengths and goals, and diversity awareness and inclusion. No co-credit with UNIV 1111.

Restriction: Restricted to Freshman level students. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

UNIV 1111 - College Success (3 Credits)

This first-year course supports students by fostering academic skills and strategies, university engagement, personal strengths and goals, and diversity awareness and inclusion. No co-credit with UNIV 1110.

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

UNIV 1112 - College Success - Major and Career Exploration (1 Credit)

UNIV 1112 is designed for first-year college students and new transfer students who are navigating their major and career exploration process.

This course explores college majors, examines career development theories, and introduces students to experiential learning opportunities. Students will connect to campus resources that support major and career exploration. Restriction: Restricted to first-year students and new transfer students with less than 30 credit hours. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

UNIV 2110 - Financial Literacy (1 Credit)

This financial literacy course is designed to alert, inform, and educate college students in the concepts of personal finance and money management. Students will develop the skills and strategies that promote personal and financial responsibility related to financial planning, saving, spending, credit and debt management, and much more. Restriction: Must be a sophomore-level student or have more than 15 credit hours completed. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Must be a sophomore-level student or have more than 15 credit hours completed.

UNIV 2111 - Wellness 101 (1 Credit)

This course supports First-Year, Transfer, and Second-Year students by fostering development and student understanding of the seven dimensions of wellness. This course features skills, strategies, resources, dispositions, and behaviors that lead to success as a college student. The focus of this course is around student wellness, and will integrate the seven dimensions of wellness: emotional, physical, spiritual, social, environmental, financial, and creative. Restriction: Must be a sophomore-level student or have more 15 credit hours completed. Max hours: 1 Credit.

Grading Basis: Letter Grade

Restriction: Must be a sophomore-level student or have more than 15 credit hours completed.

UNIV 3110 - Special Topics: Student Success and College Student Development (1 Credit)

This course is specifically designed to educate students to be effective student leaders. Emphasis will be placed on leadership skills, communication skills, group facilitation skills, customer service, institution policies and procedures, and academic and campus resources. Repeatable. Max hours: 1 Credit.

Grading Basis: Satisfactory/Unsatisfactory

Repeatable. Max Credits: 2.

Urban & Regional Planning (URPL)

URPL 3000 - Planning the Built Environment (3 Credits)

Learn the multidisciplinary field of urban planning, focusing on how to plan and design sustainably at multiple scales: site, neighborhood, city, region. We use lecture, discussion, and applied learning techniques, including fieldwork, mapping, case studies, guest practitioners, and in-class workshops. Restriction: Restricted to undergrads with junior standing or higher, or by instructor consent. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to undergrads with junior standing or higher, or by instructor consent.

URPL 4000 - Planning History and Theory (3 Credits)

This course offers a comprehensive review of the major historical and theoretical developments in planning; the human aspects of planning as a social, political, and community-oriented process; public engagement; social justice; planning leadership and advocacy; and the future of planning. Prereq: Senior standing by the start of the enrollment semester. Minimum cumulative GPA of 3.00. Please contact instructor for permissions to register in course. Cross-listed with URPL 5000. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Senior standing with a minimum cumulative GPA of 3.00.

URPL 4010 - Planning Methods (3 Credits)

This course focuses on the most commonly applied quantitative and qualitative methods used in planning; data organization and management principles; and various ways to collect, analyze, and communicate data as a fundamental component of the planning process. Prereq: GEOG 4640 and GEOG 4680 and minimum cumulative GPA of 3.00. Restriction: Senior standing by the start of the enrollment semester. Please contact instructor for permission to register in this course. Cross-listed with URPL 5010. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: GEOG 4640 and GEOG 4680 and minimum cumulative GPA of 3.00. Restriction: Senior standing by the start of the enrollment semester. Typically Offered: Fall.

URPL 4550 - Transportation, Planning and Policy (3 Credits)

This course examines policy issues in urban transportation planning: how transportation system design and political/institutional contexts shape transportation decision-making; major modes of urban transportation; and the social, environmental, economic, energy, and health impacts of transportation systems. Restriction: Senior standing by the start of the enrollment semester. Minimum cumulative GPA of 3.00. Please contact instructor for permission to register in this course. Cross-listed with URPL 6550. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Senior standing with a minimum cumulative GPA of 3.00.

Typically Offered: Fall.

URPL 4555 - Transportation, Land Use and the Environment (3 Credits)

This course teaches how current transportation modes shape regions and how future transportation technologies might impact us. Topics include policy making and governance; land use interactions with transportation investments; climate change and resilience; energy use; environmental justice; and equity considerations. Restriction: Senior standing by the start of the enrollment semester. Minimum cumulative GPA of 3.00. Please contact instructor for permission to register in this course. Cross-listed with URPL 6555. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Senior standing with a minimum cumulative GPA of 3.00.

Typically Offered: Fall.

URPL 4600 - Regional Growth and Equity (3 Credits)

Explores the institutions, policies, laws, data, and funding that support planning for housing, transportation, infrastructure, and jobs at the regional scale with a focus on equity. Students will learn analytic techniques to study the labor market, economic growth and performance, transportation systems, and affordable housing strategies. Restriction: Senior standing by the start of the enrollment semester. Minimum cumulative GPA of 3.00. Please contact instructor for permission to register in this course. Cross-listed with URPL 6600. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: Senior standing with a minimum cumulative GPA of 3.00.

Typically Offered: Fall.

Urban Teacher Education (UEDU)

UEDU 1930 - Introduction to Socially Just Education (3 Credits)

This course examines sociological issues concerning urban schools, communities and provides an overview of school culture, diversity and social realities in American schools. Students will critically examine education issues that affect their lives, their community and classrooms throughout the country. Max hours: 3 Credits.

Grading Basis: Letter Grade

UEDU 1931 - Introduction to Socially Just Education: Social Action Plan (3 Credits)

This course examines sociological issues concerning urban schools, communities and provides an overview of school culture, diversity and social realities in American schools. Students will critically examine education issues that affect their lives, their community and classrooms throughout the country. Prereq: UEDU 1930. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: UEDU 1930.

Typically Offered: Spring.

UEDU 4040 - Planning for Learning (3 Credits)

This course explores multiple aspects of student learning: Including 1) standards-based instruction 2) cultural responsive instructional design, 3) assessment and data, and 4) differentiation in curriculum and instruction so that meaningful instruction becomes accessible to all students.

Restriction: Professional Year Admission required. Cross-listed with 5040. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU or EDHD-BA-ECO

UEDU 4050 - Capstone: Planning, Instruction & Assessment (3 Credits)

The purpose of this course is to re-visit multiple aspects of instructional and curriculum design, implementation, and evaluation. The goal is to promote access to knowledge for all learners, including those who are diverse linguistically and culturally and those identified with special needs. Restriction: Professional Year Admission required. Cross-listed with UEDU 5050. Max hours: 3 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 3.

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4052 - English/LA & Social Studies Capstone: Secondary Ed (3 Credits)

Through teaching units of instruction in school placements, secondary English/LA and Social Studies teacher candidates learn both unit and lesson design, assessment of student learning, and differentiation of curriculum and instruction to promote access to knowledge for all learners. Cross-listed with UEDU 5052. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4110 - Tchg Literacy in Eng Ed (3 Credits)

Designed to meet both Colorado Literacy Council & Colorado Performance-Based Standards for prospective secondary English/LA teachers concerning Knowledge of Literacy, the course provides knowledge and practice using specific literacy methods to enhance students' literacy development in English/LA/reading classrooms. Cross-listed with UEDU 5110. Max hours: 3 Credits.

Grading Basis: Letter Grade

UEDU 4464 - Methods of Teaching Social Studies (3 Credits)

One of two courses on linguistically and culturally relevant social studies teaching. Course content includes geography, economics, civics. Cross-listed with UEDU 5464. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4465 - Methods of Teaching History (3 Credits)

One of two courses on linguistically and culturally relevant history teaching. Cross-listed with UEDU 5465. Restriction: Professional Year Admission required. Max hours: 3 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4840 - Independent Study (1-3 Credits)

Independent Study in Urban Community Teacher Education, Topic of study varies according to project. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

UEDU 4845 - Special Topics: (1-5 Credits)

Course topics will vary depending on faculty and student interests. Repeatable. Max Hours: 15 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 15.

UEDU 4931 - Internship & Lrng Comm I (2 Credits)

Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the program handbook. Cross-listed with UEDU 5931. Restriction: Professional Year Admission required. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4932 - Internship & Lrng Comm II (2 Credits)

Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the program handbook. Restriction: Professional Year Admission required. Cross-listed with UEDU 5932. Max hours: 2 Credits.

Grading Basis: Letter Grade

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

UEDU 4933 - Internship & Lrng Comm III (2-6 Credits)

Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the program handbook. Restriction: Professional Year Admission required. Cross-listed with UEDU 5933. Repeatable. Max hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

Professional Year Admission required. Students must be enrolled in one of the following plans: ECED-LICU or EGLH-LICU or ELED-LICU or FWLF-LICU or FWLS-LICU or MATH-LICU or MSMA-LICU or SCIG-LICU or SPED-LICU or SSSS-LICU

Typically Offered: Fall, Spring.

UEDU 4934 - Extended Internship & Learning Community (1-8 Credits)

Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, they participate in the activities of a professional learning community. Cross-listed with UEDU 5934. Repeatable. Max Hours: 8 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 8.

Women's Studies (WGST)

WGST 1050 - Introduction to Women's and Gender Studies (3 Credits)

This course provides an introduction to key concepts, themes and approaches to the interdisciplinary field of women's and gender studies. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 1111 - First Year Seminar (3 Credits)

Restriction: Restricted to Freshman level students. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Restricted to Freshman level students

WGST 2900 - Smart Girl Leadership Training and Practicum (3 Credits)

Provides leadership and mentoring training, and a practicum in which UCD students mentor teenagers in their community or school settings. Following completion of the training, students work as near-peer mentors and coaches with groups of teenage girls in the Denver community and apply the skills learned in their training. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

WGST 3010 - Sociology of Human Sexuality (3 Credits)

Increases the understanding of differences in views of sexuality, specifically the link between sex and reproduction and its role as the motivation for gender roles and sex acts. Explores the history of sexuality, cross-cultural studies and primate modeling. Cross-listed with SOCY 3010. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 3020 - Gender, Sexuality and Race in American Popular Culture (3 Credits)

This course explores the impact of popular culture on the lived experience of diverse women and men in America. Students will examine how cultural media (including film, television, print ads, music & digital games) can both reproduce and challenge existing structural inequalities. Max hours: 3 Credits.

Grading Basis: Letter Grade

Additional Information: Denver Core Requirement, Cultural Diversity.

WGST 3080 - Sex and Gender (3 Credits)

Causes and consequences of sex role differentiation at the individual, group and societal levels. Current issues related to changing norms and values concerning gender in modern society are examined. Cross-listed with SOCY 3080. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 3343 - Women & Gender in US History (3 Credits)

This course will explore women and gender as drivers of US history. From politics to popular culture, jobs to sexual empowerment, civil rights to economic restructuring, we will use gender as a lens to re-envision familiar stories about American history. Cross-listed with WGST 5343, HIST 3343, and HIST 5343. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 3450 - Contemporary Women Writers (3 Credits)

Examines how women write about a specific theme, such as home, work, family, the "other," as well as how women's writing may differ from men's. Theme and genre vary. Prereq: sophomore standing or higher. Cross-listed with ENGL 3450. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Restriction: Sophomore standing or higher.

Typically Offered: Fall, Spring.

WGST 3700 - Families and Society (3 Credits)

This course explores multiple dimensions of family as a social institution. Using a critical approach, we examine historical, cultural, and political views about families. We consider multiple forms of contemporary families, discuss the many issues facing families, and study how families and family life have become politicized. Cross-listed with SOCY 3700. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 3840 - Independent Study: WGST (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

WGST 3939 - Internship (1-3 Credits)

Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Students must have junior standing and at least a 2.75 GPA and must work with Experiential Learning Center advising to complete a course contract and gain approval. Repeatable. Max Hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

Prereq: Junior standing or higher and at least a 2.75 cumulative GPA

WGST 4010 - Special Topics in Women's and Gender Studies (1-3 Credits)

Examines current topics in the field of Women's studies and Gender studies. Topics vary from term to term. May be repeated as long as the topic is distinct and different from courses student has already received credit for. Repeatable. Max hours: 9 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 9.

WGST 4150 - Gender Politics in the Middle East: Beyond Orientalism & Islamism (3 Credits)

This course is about Middle Eastern women's subjectivity and various forms of agency. It explores the nexus of domestic, regional and international forces that shapes the lives of Middle Eastern women, in particular in the Algerian, Egyptian, Iranian, Israeli and Palestinian contexts. Far from being silent observers of the contests among these forces, as is often assumed, Middle Eastern women have been active actors in the public arena since the 19th century colonial encounter and the importation of the modern state to the region using an array of means to make their voices heard. They were often more militant than those of their countrymen. The course is divided into two parts. The first part provides an overview of the theoretical notions discussed such as Orientalism, agency, colonialism and post-colonialism. Related to this theoretical section is a historical overview that is necessary to the understanding of the contemporary conditions of Middle Eastern women and the continuities and changes between past and present. The second part covers pressing topics in the lives of Middle Eastern women in the post-independence era such as the rise of Political Islam, the global trend of democratization, war and occupation. The emphasis in this section is on women as active participants in the debates surrounding these issues, rather than as objects of them. The readings assigned include both texts written by scholars from the region and by others from without. They provide analyses of the contexts within which Middle Eastern women's struggles take place. In addition, students will be exposed to materials produced by Middle Eastern women activists that express their own opinions and views in order to avoid misrepresentation and to reflect the diversity among them. Cross-listed with PSCI 4150. Max hours: 3 Credits. Grading Basis: Letter Grade

WGST 4215 - Women's Rights, Human Rights: Global Perspectives (3 Credits)

Explores the global feminist movement's campaign to "engender" human rights. Examination of women's human-rights issues and the critique of this campaign as representing cultural imperialism. Prereq: 6 hours of political science or permission of instructor. Cross-listed with PSCI 4215. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4225 - Urban America (3 Credits)

This course will explore how Americans experienced their rapidly growing and changing cities during the past two hundred years. This course will cover a wide range of urban themes, including segregation and gentrification, self-invention and policing, ethnic gangs and race riots, skyscrapers and suburbia, and commercial sex and Hollywood. The course will ultimately chart how a range of Americans - including immigrants, teenagers, laborers, women, LGBTQ+ people, and people of color - all fought for their own "right to the city". Cross-listed with HIST 4225, HIST 5225, WGST 5225, GEOG 4625. Max hours: 3 Credits. Grading Basis: Letter Grade

WGST 4230 - Women in the West (3 Credits)

Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the western states. Cross-listed with HIST 4230, HIST 5230 and WGST 5230. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4248 - Gender, Development and Globalization (3 Credits)

Examining the cost and impact of globalization; not only on women and gender but economic equality, human movement and displacement, sustainable development and the environment. Highlighting the complexities of a highly interconnected world and intersectional nature of a globalized world, answering the question: Who Wins? Who Loses? Cross-listed with PSCI 4248, PSCI 5245 and WGST 5248. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4270 - Social Meanings of Reproduction (3 Credits)

Reproduction involves more than biological processes, assuming symbolic, political, and ideological meanings. This course examines contested meanings of reproduction, including how people experience reproduction, controversies over who should reproduce (and under what circumstances), and how public policy mediates these conflicts. Cross-listed with SOCY 4270, SOCY 5270 and WGST 5270. Prereq: junior standing or higher or permission of instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

WGST 4303 - Sex and Gender in Modern Britain (3 Credits)

Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 4303/5303 and WGST 5303. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4305 - Women of Color Feminisms (3 Credits)

This course is an overview of women of color feminist theorizing (thinking) and praxis (practice) in the U.S. We will explore these feminisms through the writing, art, and organizing efforts of women and trans, femme, and non-binary people of color with a focus on key themes and concepts including identity, difference, oppression, intersectionality, representation, violence, resistance, empowerment, solidarity, and coalition. Texts for the course highlight key issues in the feminist theorizing and praxis of Black, Latina/x, Chicana/x, Asian (American), Pacific Islander, Indigenous, and Arab (American) women and trans, femme, and non-binary people of color, especially the politics of identity and representation; structural oppressions and violences; and practices of survival, resistance, and activism. Not only will we examine how these feminists have critiqued oppression(s) based on race, class, gender, sexuality, nationality, and religion, (as well as how these systems of domination intersect), but what kinds of approaches, strategies, and changes these thinkers and activists have organized for and promoted. Cross-listed with WGST 5305, ETST 4305 and ETST 5305. Max hours: 3 Credits

Grading Basis: Letter Grade

Typically Offered: Spring.

WGST 4306 - Survey of Feminist Thought (3 Credits)

Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 4306, 5306, WGST 5306. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4307 - History of Sexuality (3 Credits)

Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with HIST 4307/5307 and WGST 5307. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4308 - Contemporary Feminist Thought (3 Credits)

This course explores contemporary feminist thought in philosophy and literature in the 20th and 21st centuries. Topics include lesbianism, black feminism, Chicana feminism, transgender identity, women and work and others. Cross-listed with ENGL 4308, ENGL 5308, PHIL 4308, PHIL 5308, WGST 5308. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

WGST 4345 - Gender, Science, and Medicine: 1600 to the Present (3 Credits)

Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 4345/5345 and WGST 5345. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4420 - Goddess Traditions (3 Credits)

Explores the many forms which Goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld Goddesses of death and destruction. Cross-listed with RLST 4420/5420 and WGST 5420. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

WGST 4494 - Red and Blue America: U.S. History, 1973-Present (3 Credits)

This course explores American history during a period of immense cultural and political polarization. After 1973, the United States experienced the rise of the New Right, changing attitudes towards sexual "permissiveness," and rapid advancements in technology. Both "law-and-order" politics and the rights campaigns led by immigrants, women, people of color, and LGBTQ+ peoples all reshaped democracy. These developments in the United States, meanwhile, influenced and were shaped by the nation's "hot" and "cold" conflicts in Europe, Latin America, the Middle East, and the rest of the globe. Cross-listed with WGST 5494, HIST 4494, and HIST 5494. Term offered: fall. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall.

WGST 4500 - Feminist Philosophy (3 Credits)

Seminar on key debates & figures in historical & contemporary feminist philosophy. Topics may include: rights, embodiment, gender, sexuality, race, reason, & violence. Figures may include: Wollstonecraft, Stanton, Beauvoir, Judith Butler, and bell hooks. Cross-listed with WGST 5500, PHIL 4500 & 5500. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4510 - Whores and Saints: Medieval Women (3 Credits)

Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 4510/5510, RLST 4730/5730 and WGST 5510. Term offered: spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Spring.

WGST 4511 - French Women Writers (3 Credits)

Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Note: This course assumes that students have passed FREN 3112 or 3122 or an equivalent course, plus one other 3000 level course in French. Cross-listed with FREN 4510/5510 and WGST 5511. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4540 - Race, Class, and Gender in Spanish Golden Age Literature (3 Credits)

Explores works of various genres in relation to their social and political contexts in 16th and 17th century Spain, emphasizing the cultural attitudes toward race, class, and gender that inform them. Prereq or Coreq: SPAN 3101. Cross-listed with SPAN 4340/5340 and WGST 5540. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq or Coreq: SPAN 3101

Typically Offered: Fall, Spring.

WGST 4555 - International Women's Resistance (3 Credits)

Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with PSCI 4555/5555, ETST 4555 and WGST 5555. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4564 - Gender and Politics (3 Credits)

Analysis of the political experience of women and of strategies for change. Emphasis on the U.S. Cross-listed with PSCI 4564. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4610 - Communication, Media, and Sex (3 Credits)

This class develops the tools to think critically about representations of sexuality and to understand the social construction of sexuality, the role of sexual representations in mass media and society, and the complex relationships between sexual acts, identities, and desires. Restriction: Restricted to class level Junior, Senior, or permission of instructor. Cross-listed with COMM 4610. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

WGST 4660 - Queer Media Studies (3 Credits)

Queer Media Studies, a discussion-based seminar, investigates the history of a variety of LGBTQ+ media – including news, film, television, comics, games, music, and the Internet. Students engage in a variety of media projects to explore LGBTQ+ histories, queer aspects of media production, reception, and media messages. Restriction: Restricted to students with junior standing or higher or permission from the instructor. Cross-listed with COMM 4660, COMM 5660, WGST 5660. Term offered: fall, spring. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

Typically Offered: Fall, Spring.

WGST 4710 - Women and Religion (3 Credits)

A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women's involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710/5710, WGST 5710, RLST 4710/5710. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4720 - Sex, Gender, and Visual Representation (3 Credits)

Studies sexuality, gender and identity representation from classical antiquity through the present in the visual arts. Uses the literature of visibility, feminism, race and queer theory. Explores representations of femininity, masculinity and androgyny and their reinforcement and challenge to gender-identity norms. Cross-listed with HUMN 5720, HUMN 4720, IDST 5720, IDST 4720, WGST 5720. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4770 - Viewing Empire: The Art of Imperial and Colonial Propaganda (3 Credits)

Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create meaning for audiences, through focus on postcolonial critique. Cross-listed with HUMN 4770, HUMN 5770, IDST 5770, IDST 4770, SSCI 5770, SSCI 4770, WGST 5770, SJUS 4770, SJUS 5770. Max hours: 3 Credits.

Grading Basis: Letter Grade

Typically Offered: Fall, Spring.

WGST 4780 - Violence in Relationships (3 Credits)

Course focuses on the study of violence among individuals involved in intimate relationships; factors in society such as norms, laws and institutions that are related to creating violence among intimates; and social policies, prevention, intervention and treatment programs. Cross-listed with SOCY 4780, SOCY 5780 and WGST 5780. Prereq: junior standing or higher or permission of instructor. Max hours: 3 Credits.

Grading Basis: Letter Grade

Prereq: junior standing or higher

WGST 4827 - Women and the Law (3 Credits)

Examines the role of the courts in the development of public policy toward women; how the legal system affects the economic power, family roles, safety and political participation of women. Cross-listed with PSCI 4827 and ETST 4827. Max hours: 3 Credits.

Grading Basis: Letter Grade

WGST 4840 - Independent Study (1-3 Credits)

Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Prereq: permission of instructor. Repeatable. Max Hours: 12 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 12.

WGST 4880 - Directed Research (1-6 Credits)

Students will engage in original research projects supervised and mentored by faculty. Students must work with faculty prior to registration to develop a proposal for their project and receive permission to take this course. Note: Students must submit a special processing form completely filled out and signed by the student and faculty member, describing the course expectations, assignments and outcomes, to the CLAS undergraduate advising office for approval. Repeatable. Max Hours: 6 Credits.

Grading Basis: Letter Grade

Repeatable. Max Credits: 6.

WGST 4933 - Philosophy of Eros (3 Credits)

What does it mean to understand philosophy as an erotic activity? This question will be examined, first by studying Plato's dialogues-such as Lysis, Symposium and Republic-and then by reading texts from Sigmund Freud, Michael Foucault and others. Cross-listed with PHIL 4933/5933, WGST 5933, SSCI 5933 and HUMN 5933. Max hours: 3 Credits.

Grading Basis: Letter Grade
